# Agricultural Statistics, 1981

*Agricultural Statistics* 1981 was prepared under the direction of GERALD L. CLAMPET, Chief, Data Services Branch, Statistical Reporting Service. EILEEN JOHNSON was responsible for coordination and technical editorial work.

The cooperation of the many contributors to this publication is gratefully acknowledged. Source notes below each table credit the various Government agencies which collaborated in furnishing information.

|---|------|--|------|
| Introduction . . . . .                                | III  | VII — Cattle, hogs, and sheep:                           | 299  |
| Weights, measures, and conversion factors . . . . .   | V    | Cattle and calves . . . . .                              | 312  |
| I — Grains:   |      | Hogs . . . . .   | 323  |
| Total grain supply . . . . .                          | 1    | Sheep and lambs . . . . .                                | 334  |
| Food grains:  |      | Wool . . . . .   | 341  |
| Wheat . . . . .                                       | 1    | Goats and mohair . . . . .                               | 342  |
| Rye . . . . .   | 15   | Meats and meat products . . . . .                        | 351  |
| Rice . . . . .  | 19   | Hides . . . . .  | 355  |
| Feed grains:  |      | Livestock index numbers . . . . .                        | 355  |
| Corn . . . . .  | 30   | VIII — Dairy and poultry products:                       |      |
| Oats . . . . .  | 38   | Cows and dairy products . . . . .                        | 356  |
| Barley . . . . .                                      | 43   | Chickens . . . . .                                       | 391  |
| Sorghum . . . . .                                     | 50   | Turkeys . . . . .  | 405  |
| Grain consumption . . . . .                           | 49   | Eggs . . . . .   | 409  |
| Feedstuffs . . . . .                                  | 54   | IX — Farm resources, income, and expenses:               |      |
| Animal units fed . . . . .                            | 58   | Economic trends . . . . .                                | 414  |
| II — Cotton, tobacco, sugar crops, and honey:         |      | Farm property . . . . .                                  | 415  |
| Cotton . . . . .                                      | 61   | Population and employment . . . . .                      | 427  |
| Other fibers . . . . .                                | 76   | Farm production and distribution . . . . .               | 433  |
| Sugar . . . . .                                       | 77   | Prices and income . . . . .                              | 444  |
| Sirups . . . . .                                      | 91   | Costs and expenses . . . . .                             | 462  |
| Honey and beeswax . . . . .                           | 93   | X — Taxes, insurance, cooperatives, and credit:          |      |
| Tobacco . . . . .                                     | 99   | Taxes and insurance . . . . .                            | 469  |
| III — Oilseeds, fats, and oils:                       |      | Credit and loan programs . . . . .                       | 474  |
| Cottonseed . . . . .                                  | 114  | Farmers' cooperatives . . . . .                          | 489  |
| Flaxseed . . . . .                                    | 117  | Rural electrification and telephones . . . . .           | 492  |
| Peanuts . . . . .                                     | 122  | XI — Stabilization and price-support programs:           |      |
| Soybeans . . . . .                                    | 129  | Price support . . . . .                                  | 502  |
| Sunflower . . . . .                                   | 135  | Payments to producers . . . . .                          | 513  |
| Peppermint and spearmint . . . . .                    | 137  | Disaster provisions . . . . .                            | 516  |
| Olive oil . . . . .                                   | 139  | Marketing agreements and orders . . . . .                | 517  |
| Margarine . . . . .                                   | 139  | XII — Agricultural conservation and forestry statistics: |      |
| Shortening . . . . .                                  | 140  | Conservation and pollution abatement programs . . . . .  | 518  |
| Fats and oils . . . . .                               | 141  | Soil conservation programs . . . . .                     | 525  |
| IV — Vegetables and melons:                           |      | Forestry . . . . .                                       | 532  |
| Vegetables and melons . . . . .                       | 150  | Turpentine and rosin . . . . .                           | 545  |
| Vegetable shipments . . . . .                         | 194  | XIII — Consumption and family living:                    |      |
| Vegetable consumption . . . . .                       | 196  | Population . . . . .                                     | 548  |
| Commercial pack . . . . .                             | 199  | Food consumption . . . . .                               | 549  |
| V — Fruits, tree nuts, and horticultural specialties: |      | Food and nutrition programs . . . . .                    | 554  |
| Fruits and berries . . . . .                          | 203  | Prices at retail levels . . . . .                        | 557  |
| Tree nuts . . . . .                                   | 255  | XIV — Miscellaneous statistics:                          |      |
| Tea, cacao beans, and coffee . . . . .                | 260  | Agricultural imports and exports . . . . .               | 558  |
| Mushrooms . . . . .                                   | 263  | Commodity futures . . . . .                              | 572  |
| Flowers . . . . .                                     | 264  | Fishery statistics . . . . .                             | 578  |
| VI — Hay, seeds, and minor field crops:               |      | Refrigeration statistics . . . . .                       | 584  |
| Hay . . . . .   | 267  | Alaska statistics . . . . .                              | 585  |
| Pasture and range . . . . .                           | 272  | Index . . . . .  | 586  |
| Seeds . . . . .                                       | 273  |  |      |
| Rates of seeding . . . . .                            | 284  |  |      |
| Beans, dry edible . . . . .                           | 289  |  |      |
| Peas, dry . . . . .                                   | 293  |  |      |
| Hops . . . . .  | 295  |  |      |
| Popcorn . . . . .                                     | 297  |  |      |

# Introduction

*Agricultural Statistics* is published each year to meet the diverse needs for a reliable reference book on agricultural production, supplies, consumption, facilities, costs, and returns. Its tables of annual data cover a wide variety of facts in forms suited to most common use.

Inquiries concerning more current or more detailed data, past and prospective revisions, or the statistical methodology used should be addressed directly to the agency credited with preparing the table. Most of the data were prepared or compiled in the U.S. Department of Agriculture. A few tables were prepared in other Government Agencies.

The historical series in this volume have been generally limited to data beginning with 1966 or later.

Agricultural data for Alaska and Hawaii are included in the appropriate tables, where available. Certain statistics for Alaska are found in chapter XIV.

Foreign agricultural trade statistics include Government as well as non-Government shipments of merchandise from the United States and Territories to foreign countries. They do not include U.S. shipments to the U.S. Armed Forces abroad for their own use or shipments between the States and U.S. Territories. The world summaries of production and trade of major farm products are prepared by the U.S. Department of Agriculture from reports of the U.S. Department of Commerce, official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, and the result of office research.

Statistics presented in many of the tables represent actual counts of the items covered. Most of the statistics relating to foreign trade and to government programs, such as numbers and amounts of loans made to farmers, and amounts of loans made by the Commodity Credit Corporation, etc., are data of this type. A large number of other tables, however, contain data that are estimates made by the Department of Agriculture.

The estimates for crops, livestock, and poultry made by the U.S. Department of Agriculture are prepared mainly to give timely current State and national totals and averages. They are based on data obtained by sample surveys of farmers and of people who do business with farmers. The survey data are supplemented by information from the Censuses of Agriculture taken every 5 years and check data from various sources. Being estimates, they are subject to revision as more data become available from commercial or Government sources. Unless otherwise indicated, the totals for the United States shown in the various tables on area, production, numbers, price, value, supplies, and disposition are based on official Department estimates. They exclude States for which no official estimates are compiled.

## DEFINITIONS

"Value of production" as applied to crops in the various tables, is derived by multiplying production by the estimated season average price received by farmers for that portion of the commodity actually sold. In the case of fruits and vegetables, quantities not harvested because of low prices or other economic factors are not included in value of production. The word "Value" is used in the inventory tables on livestock and poultry to mean value of the number of head on the inventory date. It is derived by multiplying the number of head by an estimated value per head as of that date.

The word "Year" (alone) in a column heading means calendar year unless otherwise indicated. "Ton" when used in this book without qualifications means a short ton of 2,000 pounds.

**WEIGHTS, MEASURES, AND CONVERSION FACTORS**

The following table on weights, measures, and conversion factors covers the most important agricultural products, or the products for which such information is most frequently asked of the U.S. Department of Agriculture. It does not cover all farm products nor all containers for any one product.

The information has been assembled from State schedules of legal weights, various sources within the U.S. Department of Agriculture, and other Government agencies. For most products, particularly fruits and vegetables, there is a considerable variation in weight per unit of volume due to differences in variety or size of commodity, condition and tightness of pack, degree to which the container is heaped, etc. Effort has been made to select the most representative and fairest average for each product. For those commodities which develop considerable shrinkage, the point of origin weight or weight at harvest has been used.

The approximate or average weights as given in this table do not necessarily have official standing as a basis for packing or as grounds for settling disputes. Not all of them are recognized as legal weight. The table was prepared chiefly for use of workers in the U.S. Department of Agriculture who have need of conversion factors in statistical computations.

**WEIGHTS, MEASURES, AND CONVERSION FACTORS**  
 (See explanatory text just preceding this table)

**WEIGHTS AND MEASURES**

| Commodity                           | Unit <sup>1</sup>  | Approximate net weight |                | Commodity                                      | Unit <sup>1</sup>                    | Approximate net weight                  |                |      |
|-------------------------------------|--|------------------------|----------------|--|--------------------------------------|---|----------------|------|
|                                     |  | U.S.                   | Metric         |  |                                      | U.S.                                    | Metric         |      |
| Alfalfa seed . . . .                | Bushel . . . .   | Pounds 60              | Kilograms 27.2 | Celery . . . .                                 | Crate <sup>11</sup> . . . .          | Pounds 60                               | Kilograms 27.2 |      |
|                                     | do . . . .   | 48                     | 21.8           |  | Lug (Campbell) <sup>12</sup> . . . . | 16                                      | 7.3            |      |

<sup>1</sup> Standard bushel used in the United States contains 2,150.42 cubic inches; the gallon, 231 cubic inches; the cranberry barrel, 5,826 cubic inches; and the standard fruit and vegetable barrel, 7,056 cubic inches. Such large-sized products as apples and potatoes sometimes are sold on the basis of a heaped bushel, which would exceed somewhat the 2,150.42 cubic inches of a bushel basket level full. This also applies to such products as sweetpotatoes, peaches, green beans, green peas, spinach, etc.

<sup>2</sup> Approximate inside dimensions, 10½ by 11½ by 18 inches.

<sup>3</sup> Approximate inside dimensions, 4½ by 12½ by 16½ inches.

<sup>4</sup> Approximate inside dimensions, 4½ by 16 by 16½ inches.

<sup>5</sup> Approximate dimensions, 4½ by 13½ by 16½ inches.

<sup>6</sup> Approximate inside dimensions, 13 by 12 by 32 inches.

<sup>7</sup> Inside dimensions vary. Common sizes are 13 by 13 by 22½ inches, and 13 by 15½ by 23 inches.

<sup>8</sup> Approximate inside dimensions, 13 by 18 by 21½ inches.

<sup>9</sup> Approximate inside dimensions, 13 by 13 by 22½ inches.

<sup>10</sup> This is the weight commonly used in trade practices, the actual weight varying according to temperature conditions.

<sup>11</sup> Approximate inside dimensions, 9½ by 16 by 20 inches.

<sup>12</sup> Approximate inside dimensions, 4½ by 11½ by 14 inches.

<sup>13</sup> The standard weight of 70 pounds is usually recognized as being about 2 measured bushels of corn, husked, on the ear, because it required 70 pounds to yield 1 bushel, or 56 pounds, of shelled corn.

<sup>14</sup> For statistical purposes the bale of cotton is 500 pounds or 480 pounds net weight. Prior to Aug. 1, 1946, the net weight was estimated at 478 pounds. Actual bale weights vary considerably, and the customary average weights of bales of foreign cotton differ from that of the American square bale.

<sup>15</sup> This is the average weight of cottonseed, although the legal weight in some States varies from this figure of 32 pounds.

<sup>16</sup> Approximate inside dimensions, 9½ by 10½ by 15 inches.

<sup>17</sup> Approximate inside dimensions, 1½ by 11 by 16½ inches.

<sup>18</sup> Approximate inside dimensions, 11½ by 11½ by 24 inches.

<sup>19</sup> In California and Arizona from 1942 through 1953, the net weights as used by this Department were 77 pounds for oranges, 79 pounds for lemons, and 65 pounds for Desert Valleys grapefruit. Grapefruit in California areas, other than the Desert Valleys, averaged 68 pounds. The new weights effective in 1954 reflect the shift from the "box" to the ½ - box carton as the container used.

<sup>20</sup> Approximate inside dimensions 10½ by 10½ by 16½ inches for oranges or lemons, and 9½ by 10½ by 16½ inches for grapefruit.

<sup>21</sup> Approximate inside dimensions, 5½ by 13½ by 16½ inches.

<sup>22</sup> Approximate inside dimensions, 4½ by 16 by 16½ inches.

<sup>23</sup> Approximate inside dimensions, 7½ by 16 by 21½ inches.

<sup>24</sup> Approximate inside dimensions, 9½ by 13 by 25 inches.

<sup>25</sup> Approximate inside dimensions 12 by 12 by 24 inches.

<sup>26</sup> Approximate inside dimensions vary. Common size is 4½ by 11½ by 16½ inches.

<sup>27</sup> Approximate inside dimensions, 8½ by 11½ by 18 inches.

<sup>28</sup> Approximate inside dimensions, 12 by 10½ by 33 inches.

<sup>29</sup> Inside dimensions vary. Ranges from 4 by 16 by 16½ inches to 6 by 16 by 16½ inches.

<sup>30</sup> Includes both sorghum grain (kafir, milo, hegari, etc.) and sweet sorghum varieties.

<sup>31</sup> This average of 55 pounds indicates the usual weight of sweetpotatoes when harvested. Much weight is lost in curing or drying and the net weight when sold in terminal markets may be below 55 pounds.

<sup>32</sup> Case of 24 No. 2½ cans.

<sup>33</sup> Case of 24 No. 303 cans.

<sup>34</sup> Varies widely by method of harvesting.

<sup>35</sup> The milk equivalent of ice cream per gallon is 15 pounds. Reports from plants indicate about 81 percent of the butterfat in ice cream is from milk and cream, the remainder being from butter and concentrated milk. Thus the milk equivalent of the milk and cream in a gallon of ice cream is about 12 pounds.

<sup>36</sup> This is equivalent to 4.51 bushels of wheat per barrel (196 pounds) of flour and has been used in conversions, beginning July 1, 1957. Because of changes in milling processes, the following factors per barrel of flour have been used for earlier periods: 1790-1879, 5 bushel; 1880-1908, 4.75 bushels; 1909-17, 4.7 bushels; 1918 and 1919, 4.5 bushels; 1920, 4.6 bushels; 1921-44, 4.7 bushels; July 1944-Feb. 1946, 4.57 bushels; March 1946-Oct. 1946, average was about 4.31 bushels; and Nov. 1946-June 1957, 4.57 bushels.

# CHAPTER I

## STATISTICS OF GRAIN AND FEED

This chapter contains tables for wheat, rye, rice, corn, oats, barley, sorghum grain, and feedstuffs. Estimates are given of area, production, disposition, supply and disappearance, prices, value of production, stocks, foreign production and trade, price-support operations, animal units fed, and feed consumed by livestock and poultry.

**Table 1.—Total grain: Supply and disappearance, United States, 1966–80**

| Year <sup>1</sup> | Supply              |                     |                     |                     | Disappearance       |                     |                     | Ending stocks       |
|-------------------|---------------------|---------------------|---------------------|---------------------|---------------------|---------------------|---------------------|---------------------|
|                   | Beginning stocks    | Production          | Imports             | Total               | Domestic use        | Exports             | Total disappearance |                     |
|                   | Million metric tons |
| 1966              | 58.6                | 184.2               | 0.4                 | 243.1               | 148.9               | 44.4                | 193.3               | 49.9                |
| 1967              | 49.9                | 207.9               | .3                  | 258.1               | 150.3               | 44.7                | 195.1               | 63.0                |
| 1968              | 63.0                | 202.4               | .3                  | 265.7               | 159.2               | 34.1                | 193.3               | 72.4                |
| 1969              | 72.4                | 205.2               | .5                  | 278.1               | 166.3               | 38.2                | 204.5               | 73.6                |

<sup>1</sup> Seeded in preceding fall for winter wheat.<sup>2</sup> Obtained by weighting State prices by quantity sold. Includes allowance for loans outstanding and purchases by the Government valued at the average loan and purchase rate, by States, where applicable.<sup>3</sup> Preliminary.<sup>4</sup> Includes California, Minnesota, Montana, North Dakota, and South Dakota. In addition 1976 and 1977 includes New Mexico; beginning 1976 includes Arizona.<sup>5</sup> Includes small quantities of durum wheat grown in States other than those mentioned in footnote 4.

## WHEAT

<sup>1</sup> Beginning June 1, 1976 (1975 crop year), marketing year begins June 1 and ends May 31.<sup>2</sup> A loan level of \$1.25 from 1966 to 1973, plus the average marketing certificate payment per bushel was paid to program participants. Loan level protection for 1974 and 1975 is \$1.37 and, for 1976 and 1977, \$2.25, on entire production. For 1974 to 1976, the target level is a price guarantee on allotment production at levels indicated under support price. For 1977, target level of \$2.90 was set up under the Food and Agricultural Act of 1977; \$2.47 is the target level for unplanted allotment acreage. For 1978–1979, crop loan rate \$2.35; target price \$3.40. For 1981, loan rate \$3.00.<sup>3</sup> Percentage of parity price as of the beginning of the marketing year.<sup>4</sup> Represents loans made, purchases, and agreements entered into.<sup>5</sup> Acquisitions through loan cancellations and purchases (under agreement and direct) only from crop harvested in the year indicated.<sup>6</sup> Uncommitted CCC inventory.<sup>7</sup> Acquired through direct purchases by CCC for future Food Aid Assistance Programs.<sup>8</sup> Producers who exceed their NCA will be eligible for the lower target price.<sup>9</sup> Preliminary.

Agricultural Stabilization and Conservation Service.

## GRAIN AND FEED, 1981

Table 10.—Wheat: Production, disposition, and value, by States, crop of 1980  
(preliminary)

| State  | Production    | Used on farms where produced | Sold          | Season average price per bushel | Value of—     |               |
|--------|---------------|------------------------------|---------------|---------------------------------|---------------|---------------|
|        |               |                              |               |                                 | Production    | Sales         |
|        | 1,000 bushels | 1,000 bushels                | 1,000 bushels | Dollars                         | 1,000 dollars | 1,000 dollars |

<sup>1</sup> Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1979 is combined with estimates for the Southern Hemisphere harvests, which begin late in 1979 and end early in 1980.

<sup>2</sup> Harvested area as far as possible.

<sup>3</sup> Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

<sup>1</sup> Imports of wheat of milling quality have been limited to a quota of 800,000 bushels per year since May 29, 1941, of which 795,000 bushels may come from Canada. Quantities in excess of the 800,000-bushel quota represent quota-free imports of seed wheat authorized by Presidential Proclamation 2550, April 16, 1942. During the war years 1943–44 and 1944–45 this import restriction was waived. As of Jan. 26, 1974, import quotas for wheat and milled wheat products were suspended. <sup>2</sup>Imports of flour have been limited to a quota of 4,000,000 pounds per year since May 29, 1941, of which 3,815,000 pounds may come from Canada (total quota is 93,200 bushels, wheat equivalent). Flour for special experimental purposes may be imported ex-quota. Excludes flour "free for export." <sup>3</sup>Includes macaroni, semolina, and similar products. <sup>4</sup>Less than 500 bushels.

Economic Research Service.

<sup>1</sup> Data in this table are limited to exports and imports of wheat and flour during July 1, 1979 through June 30, 1980 by countries which are members of the International Wheat Agreement (IWA); they exclude approximately 30 million metric tons of wheat and flour exported to or imported from countries which are not members of the IWA. Flour reported in terms of grain equivalent.

<sup>2</sup> Country of destination within EC not reported to International Wheat Council.

<sup>3</sup> Only export involving Greece.

Foreign Agricultural Service. Data from International Wheat Council Report for crop year 1979/80.

Table 17.—Rye: Area, yield, production, disposition, and value, United States, 1966–80

| Year                    | Area                 |             | Yield per harvested acre | Production    | Used on farms where produced |                  | Sold          | Season average price per bushel received by farmers <sup>2</sup> | Value of production <sup>2</sup> |

<sup>1</sup>Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1979 is combined with estimates for the Southern Hemisphere harvests, which begin late in 1979 and end early in 1980. <sup>2</sup>Harvested area as far as possible. <sup>3</sup>Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

Table 24.—Rice, rough: Area, yield, production, disposition, and value, United States, 1966–80

| Year              | Area planted | Area harvested | Yield per acre | Production | Used on farms where produced | Sold       | Season average price per cwt. received by farmers <sup>1</sup> | Value of production <sup>1</sup> |

<sup>1</sup> Stocks at mills and in attached warehouses, in warehouses not attached to mills, and in ports or in transit.

<sup>2</sup> Oct. 1 estimates discontinued in 1972.

<sup>3</sup> Preliminary.

Statistical Reporting Service.

#### FOOTNOTES FOR TABLE 28

<sup>1</sup> Consolidated supply and disappearance of rough and milled rice. Converted milled rice data to a rough rice basis using annually derived extraction rates as factors.

<sup>2</sup> Based on Bureau of Census reports. Estimates for 1968, 1969, and 1970 adjusted by ASCS data, based on bills of lading submitted to the USDA for export payments.

<sup>3</sup> Results from storage handling and processing losses.

<sup>4</sup> Less than 50,000 cwt.

<sup>5</sup> Preliminary.

Economic Research Service. Totals may not add due to independent rounding.

<sup>1</sup> Loan level from 1966 to 1975. For 1976 and 1977, the target price is a guarantee on allotted production and \$6.19 per cwt. is the loan rate on allotted production. For the 1978 and 1979 crop, the loan rate is \$6.40 and \$6.79. The 1980 loan rate is \$7.12 per cwt.

<sup>2</sup> Percentage of the parity price as of the beginning of the marketing year.

<sup>3</sup> Includes loans made, purchases, and purchase agreements entered into.

<sup>4</sup> Acquisitions through loan cancellations and purchases (under agreement and direct) from the crop harvested in the year indicated and not acquisitions during that year.

<sup>5</sup> Includes milled rice in rough rice equivalent.

<sup>6</sup> Commencing 1975, inventories are shown as of September 30 due to change in fiscal year to October thru September.

<sup>7</sup> Less than 50,000 cwt.

Agricultural Stabilization and Conservation Service.

<sup>1</sup>Crop year beginning Aug. 1. Crops harvested in Northern Hemisphere during the latter part of the year shown are combined with those harvested in Asia principally from November to May, and in the Southern Hemisphere harvested during the first part of the following year.

<sup>2</sup>Harvested area as far as possible.

<sup>3</sup>Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

<sup>1</sup> Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1977 is combined with estimates for the Southern Hemisphere harvest, which begins late in 1979 and ends early in 1980.

<sup>2</sup> Harvested area as far as possible.

<sup>3</sup> Preliminary.

Foreign Agricultural Service. Compiled from reports of the U.S. Department of Commerce. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

<sup>1</sup> Includes price-support payments, 30 cents from 1966 to 1970, and a guarantee of 32 cents in 1971, 40 cents in 1972, and 32 cents in 1973. Payments were made on a designated portion of the base. Loan level protection for 1974 and 1975 is \$1.10; for 1976, \$1.50; for 1977-78, \$2.00; for 1979, \$2.10; on entire production. For 1974-77, the target level is a price guarantee on allotment production at levels indicated under support price. For 1978 and subsequent crops, income support on entire planted acreage in program. <sup>2</sup> Percentage of parity price as of the beginning of the marketing year. <sup>3</sup> Represents loans made, purchases, and purchase agreements entered into. Percentage of production is on a grain basis. <sup>4</sup> Includes deliveries from original program, the reseed program and over-deliveries as determined by weight of farm-stored grain when delivered to CCC. For 1979, acquired through direct purchases by CCC.

<sup>5</sup> Uncommitted CCC inventory. <sup>6</sup> Preliminary. <sup>7</sup> Producers who exceed their NCA will be eligible for the lower target price.

Agricultural Stabilization and Conservation Service.

Statistical Reporting Service.

#### FOOTNOTES FOR TABLE 55

<sup>1</sup> Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1979 is combined with estimates for the Southern Hemisphere harvest, which begins late in 1979 and ends early in 1980.

<sup>2</sup> Harvested area as far as possible.

<sup>3</sup> Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

Table 55.—Oats: Area, yield, and production in specified countries, 1978–80<sup>1</sup>

| Continent and country                    | Area <sup>2</sup> |        |                   | Yield per hectare |      |                   | Production |        |                   |

<sup>1</sup> Relates to the total area of barley sown for all purposes, including barley sown in the preceding fall.<sup>2</sup> Preliminary.

Statistical Reporting Service.

## FOOTNOTES FOR TABLE 61

<sup>1</sup> Beginning June 1, 1976 (1975 crop year), marketing year begins June 1 and ends May 31.<sup>2</sup> Includes price-support payments of 12 cents in 1969, and 1970, and a guarantee of 32 cents in 1972 and 26 cents in 1973. Barley was excluded from program in 1967, 1968, and 1971. Payments were made on a designated portion of the base. Loan level protection for 1974 and 1975 is 90 cents; for 1976, \$1.22; for 1977-79, \$1.63; for 1979, \$1.71; and, for 1980-81, \$1.83; on entire production. For 1974-77, the target level is a price guarantee on allotment production at levels indicated under support price. For 1978 and subsequent crops, income support on entire planted acreage in program.<sup>3</sup> Percentage of parity price as of the beginning of the marketing year.<sup>4</sup> Represents loans made, purchases, and purchase agreements entered into.<sup>5</sup> Includes deliveries from original program, the reseed program, and over-deliveries as determined by weight of farm-stored grain when delivered to CCC.<sup>6</sup> Uncommitted CCC inventory.<sup>7</sup> Preliminary.<sup>8</sup> Producers who exceed their NCA will be eligible for the lower target price.

Agricultural Stabilization and Conservation Service.

<sup>1</sup> Years shown refer to year of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1979 is combined with estimates for the Southern Hemisphere harvests, which begin late in 1979 and end early in 1980.

<sup>2</sup> Harvested area as far as possible.

<sup>3</sup> Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

Table 64.—Grains and grain products: Total and per capita civilian consumption as food, United States, 1966–80

<sup>1</sup> Excludes quantities used in alcoholic beverages.<sup>2</sup> Includes white, whole wheat, and semolina flour.<sup>3</sup> Rice consumption for year beginning August previous to the year stated.<sup>4</sup> Includes an allowance for the quantity used as hominy and grits.<sup>5</sup> Oats used in oatmeal, prepared breakfast foods, infant foods, and minor food products.<sup>6</sup> Malt for food, breakfast food uses, pearl barley, and flour.<sup>7</sup> Malt equivalent of barley food products.<sup>8</sup> Preliminary. Estimates of corn sirup, sugar, and starch are unofficial estimates; industry data were not reported after April 1968.

Economic Research Service. All figures are estimates based on data from private industry sources, the U.S. Department of Commerce, the Internal Revenue Service, and other Government agencies.

<sup>1</sup>Includes price-support payments per hundredweight of 53 cents from 1966 to 1970, and a guarantee of 52 cents in 1971, 68 cents in 1972, and 54 cents in 1973. Payments were made on a designated portion of the base. Loan level protection for 1974 and 1975 is \$1.88; for 1976, \$2.55; for 1977–78, \$3.39; for 1979, \$3.57 and, for 1980–81, \$3.82 on entire production. For 1974 to 1977, the target level is a price guarantee on allotment production at levels indicated under support price. For 1978 and subsequent crops, income support on entire planted acreage in program.

<sup>2</sup>Percentage of parity price as of the beginning of the marketing year.

<sup>3</sup>Represents loans made, purchases, and purchase agreements entered into.

<sup>4</sup>Includes deliveries from original program, the reseed program, and over-deliveries as determined by weight of farm-stored grain when delivered to CCC.

<sup>5</sup>Uncommitted CCC inventory.

<sup>6</sup>Preliminary.

<sup>7</sup>Producers who exceed their NCA will be eligible for the lower target price.

Agricultural Stabilization and Conservation Service.

<sup>1</sup>In terms of 44 percent protein soybean meal equivalent.<sup>2</sup>Includes cottonseed, linseed, peanut meal, and sunflower meal. Includes 30,000 tons previously excluded for industrial uses and for fertilizer.<sup>3</sup>Beginning 1966, adjusted for exports of corn gluten feed and meal.<sup>4</sup>Preliminary.

<sup>1</sup> Feed consumed by all cattle divided by the number on feed Jan. 1.

<sup>2</sup> Feed for all cattle, except milk cows, divided by the net live-weight production of cattle and calves. It includes the growth on dairy heifers and calves as well as all beef cattle.

<sup>3</sup> About 19 pounds of wool were produced with each 100 pounds live-weight production.

<sup>4</sup> Preliminary.

<sup>1</sup> Index series based on average feeding rates for years 1969–71. In calculations for the feeding years 1969 to date, cattle numbers used are the new categories shown in the Livestock and Poultry Inventory, published by SRS, USDA.

<sup>2</sup> Livestock and poultry numbers weighted by all concentrates consumed.

<sup>3</sup> Livestock and poultry numbers weighted by all roughage (including pasture) consumed.

<sup>4</sup> Livestock and poultry numbers weighted by all feed (including pasture) fed to livestock.

<sup>1</sup> Based on prices of the following feedstuffs at leading markets, weighted by average consumption: Soybean, cottonseed, linseed, and peanut meals; bran, middlings, and millrun; gluten feed and meal; hominy feed, brewers' and distillers' dried grains; alfalfa meal; rice bran and feeding molasses.

Agricultural Marketing Service.

## CHAPTER II

# STATISTICS OF COTTON, TOBACCO, SUGAR CROPS, AND HONEY

In addition to tables on cotton, tobacco, sugar, and honey, this chapter includes tables on fibers other than cotton and sirups. Cottonseed data, however, are in the following chapter on oilseeds, fats, and oils.

**Table 82.—Cotton: Area, yield, production, and value, United States, 1966–80**

| Year              | Area                    |                        | Yield per harvested acre | Production                          | Season average price per pound received by farmers <sup>1</sup> | Value of production        |
|-------------------|-------------------------|------------------------|--------------------------|-------------------------------------|---|----------------------------|
|                   | Planted                 | Harvested              |                          |                                     |   |                            |
| 1966              | 1,000 acres<br>10,349.4 | 1,000 acres<br>9,552.6 | Pounds<br>480            | 1,000 bales <sup>2</sup><br>9,556.8 | Cents<br>21.75  | \$1,000 dollars<br>997,467 |
| 1967              | 9,449.6                 | 7,997.3                | 447                      | 7,443.4                             | 26.70   | 953,820                    |

| 1979              | 13,977.5                | 12,830.9               | 547                      | 14,629.3                            | 63.4  | 4,450,268                  |
| 1980 <sup>3</sup> | 14,533.8                | 13,214.8               | 404                      | 11,122.1                            | *76.4   | 4,078,309                  |

<sup>1</sup>Net weight price. Includes allowance for unredeemed loans. Does not include Government program payments.

<sup>2</sup>480-pound net weight bales.

<sup>3</sup>Preliminary.

<sup>4</sup>Average to Apr. 1, 1981, with no allowance for unredeemed loans.

Statistical Reporting Service. Production figures conform with The Bureau of the Census annual ginning enumerations.

<sup>1</sup>Average of the crop from 1966 through 1970; Middling 1-inch, micronaire 3.5–4.9, net weight for 1971 and succeeding years. <sup>2</sup>Includes price-support payments as follows: To program participants on projected production from farm's domestic allotment, 9.42 cents in 1966, 11.53 cents in 1967, 12.24 cents in 1968, 14.73 cents in 1969, and 16.80 cents in 1970; and, on production from area planted within the farm base area allotment, 15 cents in 1971, 1972, and 1973. <sup>3</sup>Percentage of parity price as of the beginning of the marketing year. <sup>4</sup>Includes loans made.

<sup>5</sup>Acquisitions from crop harvested in the year indicated and not acquisitions during that year. <sup>6</sup>Running bales.

<sup>7</sup>Less than 500 bales. <sup>8</sup>Established price or "target" price. If the average market price is below the target price, eligible producers will receive payment at a rate equal to the difference between the target price and the higher of the loan level or the average market price. No payments have been made since the 1973 crop. <sup>9</sup>Estimated.

<sup>1</sup> Includes sea island cotton. <sup>2</sup> Domestic in running bales, counting round as half bales and foreign equivalent bales of 500 pounds. <sup>3</sup> Not reported separately.

Agricultural Marketing Service. Compiled from reports of the U.S. Department of Commerce.

## FOOTNOTES FOR TABLE 87

<sup>1</sup> Harvest season beginning Aug. 1.

<sup>2</sup> Preliminary.

<sup>3</sup> 480-pound net weight.

<sup>4</sup> Includes estimates for minor-producing countries not shown above and allowance for countries where data are not yet available.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

<sup>2</sup> Running bales.

<sup>3</sup> Less than 500 bales.

<sup>4</sup> Preliminary.

<sup>5</sup> Carryover at the beginning of the season, plus ginnings.

<sup>6</sup> Supply minus carryover at the end of the season.

<sup>7</sup> Negative disappearance reflected in total.

<sup>1</sup> Uncompressed in carload lots, f.o.b. mill points.

<sup>2</sup> Bales are running bales except imports, which are 500-pound bales; includes production at oil mills, gins, and other delinting plants. Beginning 1959, "Supply" items are principally in 600-pound gross weight bales and "Distribution" items are in running bales.

<sup>3</sup> Preliminary.

Agricultural Marketing Service. Supply and distribution figures compiled from reports of the U.S. Department of Commerce.

Table 104.—Cotton: Supply and distribution, by countries, 1979-80

<sup>1</sup>Preliminary.

<sup>2</sup>Includes wild or tussah, and raw silk in skeins.

<sup>3</sup>Silk waste, noils, and cocoons.

<sup>4</sup>Includes all classes; weight added without conversion to an equivalent fiber basis.

<sup>5</sup>TSUSA Number 3045600.

Foreign Agricultural Service. Compiled from reports of the U.S. Department of Commerce.

<sup>1</sup> Includes Hawaii except for prices and values for 1973 and earlier years.<sup>2</sup> In Hawaii, harvest continues throughout the year and production statistics are on a calendar year basis. In other states, harvest is seasonal and the production statistics year relates to the year in which the season begins.<sup>3</sup> Preliminary.<sup>4</sup> Prices do not include Government payments under the Sugar Act.<sup>5</sup> Raw value is the equivalent in terms of 96° sugar, as defined in the Sugar Act of 1948.<sup>6</sup> Calculated on the basis that 100 pounds of raw sugar is required to produce 93.46 pounds of refined sugar.<sup>7</sup> Not available.

Statistical Reporting Service.

Table 114.—Sugarcane for sugar and seed: Area, yield, production, and production of cane sugar and molasses, by States, 1978–80

<sup>1</sup> In Hawaii, harvest continues throughout the year and production statistics are on a calendar year basis. In other states, harvest is seasonal and the production statistics year relates to the year in which the season begins.

<sup>2</sup> Preliminary. <sup>3</sup> Raw value is the equivalent in terms of 96° sugar, as defined in the Sugar Act of 1948.

<sup>4</sup> Calculated on the basis that 100 pounds of raw sugar is required to produce 93.46 pounds of refined sugar.

<sup>5</sup> Blackstrap (80° Brix) high-test molasses from frozen cane and edible molasses. <sup>6</sup> 85° brix.

<sup>1</sup>Crop years are on a September/August basis, (year shown is the beginning year) but include the outturn of sugar from harvests of several Southern Hemisphere countries which begin prior to September.

<sup>2</sup>Preliminary.

<sup>3</sup>Centrifugal sugar, as distinguished from non-centrifugal, includes cane and beet sugar produced by the centrifugal process, which is the principal kind moving in international trade.

<sup>4</sup>"Other Africa" includes Afars-Issas, Algeria, Cameroon, Congo, Ghana, Ivory Coast, Mali, Malawi, Nigeria, Senegal, Somali Republic, Sudan, Tunisia, and Zambia.

<sup>5</sup>Since Jan. 1, 1972, includes Ryukyu Islands.

<sup>6</sup>"Other Asia" includes Afghanistan, Bangladesh, Iraq, Israel, Lebanon, Malaysia, Nepal, Sri Lanka, Syria, and Vietnam.

<sup>7</sup>Non-centrifugal sugar includes all types of sugar produced by other than centrifugal process which is largely for consumption in the relatively few areas where produced. The estimates include such kinds known as piloncillo, panela, papelon, chancaca, rapadura, jaggery, gur, muscovado, panocha, etc.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

<sup>1</sup> All sugars converted to refined basis.<sup>2</sup> Includes Hawaiian sugar for direct consumption.<sup>3</sup> Includes Puerto Rican sugar for direct consumption.<sup>4</sup> Sugar for direct consumption only. Mainland cane sugar mills stocks and production not separately reported.<sup>5</sup> Stocks include sugar in bond and in customs custody and control.<sup>6</sup> Includes deliveries for export, for livestock feed, and for use in alcohol.

Statistical Reporting Service.

Table 121.—Sugar, cane (raw<sup>1</sup>): Refiners' raw stocks, receipts, meltings, and direct consumption deliveries, continental United States, 1966–81

| Year              | Jan. 1 stocks | Receipts <sup>2</sup> | Meltings          | Deliveries for direct consumption |

<sup>1</sup>Expressed in raw value, the equivalent in terms of 96° sugar, as defined in the Sugar Act of 1948.

<sup>2</sup>Receipts include refiners' total offshore raw sugar receipts in continental U.S. ports, whether entered through the customs or held pending availability of quota, and raw cane sugar produced from sugarcane in the continental United States.

<sup>3</sup>Preliminary.

<sup>1</sup> For 4th quarter 1977 through 3rd quarter 1979, derived by converting the London spot for sugar to a Caribbean basis in U.S. dollars.

<sup>2</sup> For 4th quarter 1977 through 3rd quarter 1979, derived by converting the London spot to a Caribbean basis in U.S. dollars, and adding freight, insurance, and applicable U.S. duties and fees.

<sup>3</sup> F.o.b.-basis list prices in 100 pound bags, not delivered prices. To obtain delivered prices, add "freight prepay" and deduct discounts and allowances.

<sup>4</sup> Calendar 1978 and 1979 only, derived by using the Bureau of Labor Statistics consumer price index (all-urban, unadjusted) for Sugar and Artificial Sweeteners.

Economic Research Service. Compiled from the following sources: (New York) Coffee, Sugar & Cocoa Exchange; Lamborn Sugar Market Report; and U.S. Department of Labor, Bureau of Labor Statistics.

<sup>1</sup> Production of cane sirup and edible molasses is of the fall of the preceding year. Cane sirup discontinued beginning 1970.<sup>2</sup> Does not include varying quantities produced on nonfarm lands in Somerset County, Maine.<sup>3</sup> U.S. Department of Commerce molasses and sugar sirups series.<sup>4</sup> Unofficial estimates, 1968–71 and 1978–79; estimates for 1972–1977 from U.S. International Trade Commission Publication 881, April 1978. Corn sirup production includes high-fructose corn sirup beginning 1972.<sup>5</sup> Preliminary.

Table 137.—Feed and industrial molasses: Mainland production, inshipments and foreign trade, and total market supplies in the United States, 1966–80

<sup>1</sup> July 1 for flue-cured types 11–14 and cigar types 61 and 62; Oct. 1 for all other types.

<sup>2</sup> Exports by rehandling trade included in totals of types from which they are made.

<sup>3</sup> Disappearance adjusted for tobacco still on farms at end of marketing year.

<sup>4</sup> Preliminary.

<sup>5</sup> Evaluated at 169.8 cents per pound.

<sup>6</sup> Puerto Rican crop planted in the fall of the year shown and harvested the following spring.

<sup>7</sup> Evaluated at 69.1 cents per pound.

<sup>8</sup> Includes Perique.

Economic Research Service. Basic export data from the official reports of the Department of Commerce.

<sup>1</sup> Stocks shown have been converted to a farm-sales-weight basis—the equivalent of weight at the time of sale by grower—thereby making these data of leaf-tobacco stocks comparable with data of leaf-tobacco production.

<sup>2</sup> Stocks on the island of Puerto Rico are included.

Agricultural Marketing Service.

Table 143.—Tobacco products: Cigars, cigarettes, chewing and smoking tobacco, and snuff, manufactured in the United States, 1966-80

| Year                    | Cigars  |  | Cigarettes                                   |   | Chewing tobacco |              |              |                         | Smok-ing tobacco | Snuff        | Total chew-ing, smok-ing, and snuff |
|-------------------------|---|--|--|---|-----------------|--------------|--------------|-------------------------|------------------|--------------|-------------------------------------|

<sup>1</sup> Cigars produced in bonded manufacturing warehouses are included.

<sup>2</sup> "King size" cigarettes included in this category.

<sup>3</sup> Formerly designated "Scrap."

<sup>4</sup> Excise tax on chewing and smoking tobacco and snuff discontinued after 1965. Data now reported by Agricultural Marketing Service, U.S. Department of Agriculture, and are not strictly comparable with prior year.

<sup>5</sup> Less than 500,000.

<sup>6</sup> Preliminary.

<sup>1</sup>This table does not show support operations for all tobacco. Only burley and flue-cured are shown because they are substantially more important in the total tobacco picture than other types which are also supported.

<sup>2</sup>Title to the tobacco obtained under the price-support program is retained in most cases by the Producers' Cooperative Association handling price-support loans.

<sup>3</sup>Less than 500,000 pounds.

<sup>4</sup>Preliminary.

Agricultural Stabilization and Conservation Service.

# CHAPTER III

## STATISTICS OF OILSEEDS, FATS, AND OILS

This chapter includes information on cottonseed, flaxseed, olive oil, peanuts, soybeans, margarine, and fats and oils. Most butter statistics are included in the chapter on dairy and poultry statistics. Lard data are mostly in the chapter on livestock.

**Table 150.—Cottonseed: Cotton area and cottonseed production, farm disposition, season average price per ton received by farmers, and value, United States, 1966–80**

| Year              | Harvested area of cotton | Cottonseed          |                          |                    |                  |                          |

<sup>1</sup> U.S. averages not fully representative of entire crop because of relatively small volume of seed graded in some areas. <sup>2</sup>These basic factors are combined to form indexes of quantity and quality which in turn are used to determine the official grade of cottonseed in accordance with the United States Official Standards for Grades. <sup>3</sup>The quantity index measures the oil and cake or meal in the cottonseed, taking into account variations in the quantity of oil, protein, and linters. <sup>4</sup>The quality index measures the deterioration in oil and meal and takes into account the excesses of moisture and foreign matter. <sup>5</sup>The average grade is the product of the quantity index times the quality index. The base grade is 100.0. <sup>6</sup>Samples graded by licensed chemists under the supervision of the U.S. Department of Agriculture. <sup>7</sup>The linters factor was eliminated from official grade standards effective Sept. 4, 1972.

Agricultural Marketing Service.

<sup>1</sup> Harvests of the Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere countries in 1980 was combined with the Southern Hemisphere harvest which began late in 1980 and ended early in 1981. Estimates do not include China where annual production probably varies from 25,000 to 50,000 tons. <sup>2</sup>Preliminary. <sup>3</sup>Seeded area. <sup>4</sup>Includes estimates for the above countries for which data are not available and for minor producing countries. Totals may not add because of rounding. <sup>5</sup>Includes fiber flax area and seed production. <sup>6</sup>Area includes that harvested for seed and that portion of fiber area which is harvested for seed as well as fiber. Production includes seed from fiber flax.

<sup>7</sup>Flaxseed from area grown for seed only.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

<sup>1</sup> Peanuts in the shell. Split year includes Northern Hemisphere crop harvested in the late months of the first year shown combined with Southern Hemisphere and certain Northern Hemisphere crops harvested in the early months of the following year.

<sup>2</sup> Harvested area as far as possible.

<sup>3</sup> Preliminary.

<sup>4</sup> Includes estimates for the above countries for which data are not available.

<sup>5</sup> Planted area.

<sup>6</sup> Commercial crop.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

## SOYBEANS

129

Table 178.—Soybeans: Area, yield, production, disposition, and value, United States, 1966–80

| Year              | Area planted | Soybeans for beans |                |               |                              |                  |               |  |                     |
|-------------------|--------------|--------------------|----------------|---------------|------------------------------|------------------|---------------|--|---------------------|
|                   |              | Area harvested     | Yield per acre | Production    | Used on farms where produced |                  | Sold          | Season average price per bushel received by farmers <sup>1</sup> | Value of production |
|                   |              |                    |                |               | For seed                     | Fed to livestock |               |  |                     |

<sup>1</sup> Owned by CCC and stored in bins or other storage owned or controlled by CCC. Other CCC-owned grain included in the estimates by positions.

<sup>2</sup> Preliminary.

<sup>3</sup> Seed, feed, and residual are combined, beginning 1977.

<sup>4</sup> Reported by the U.S. Department of Commerce.

<sup>5</sup> Imports negligible.

Economic Research Service.

#### FOOTNOTES FOR TABLE 182

<sup>1</sup> Preliminary.

<sup>1</sup> Includes butter (fat content), lard, and beef fats; cottonseed, peanut, soybean, corn, and olive oils; and minor oils such as sesame. Stocks and exports also include margarine, shortening, vegetable stearine, and secondary edible oils.

<sup>2</sup> Production and exports also include oil equivalent of exported soybeans, cottonseed, and peanuts for crushing abroad.

<sup>3</sup> Chiefly coconut, palm kernel oil, and palm oil.

<sup>4</sup> Includes shipments to U.S. Territories.

<sup>5</sup> In some years disappearance cannot be computed from data contained in this table as adjustments have been made because additional items have been incorporated in stock data.

Economic Research Service. Compiled from reports of the Commerce and Agriculture Departments. Total and per capita estimates computed from unrounded numbers.

<sup>1</sup> Includes oil equivalent of cottonseed, soybeans, peanuts, and flaxseed exported for crushing abroad.<sup>2</sup> Includes commercial exports, voluntary or civilian relief, re-exports, and shipments to U.S. Territories.<sup>3</sup> Excludes an estimate of oil equivalent of soap used in synthetic rubber. This use is included in "Other industrial."<sup>4</sup> Last year of data. No longer available.

Economic Research Service. Computed from reports of the Commerce, Interior, and Agriculture Departments. Total computed from unrounded numbers.

<sup>1</sup> Split year includes Northern Hemisphere crop harvested in the late months of the first year shown combined with Southern Hemisphere and certain Northern Hemisphere crops harvested in the early months of the following year.

<sup>2</sup> Preliminary.

<sup>3</sup> Excludes olive residue oil.

<sup>4</sup> Net exports.

<sup>5</sup> Production estimated on the basis of exports and information available on consumption in the various producing areas.

<sup>6</sup> Mill production only.

<sup>7</sup> Includes quantities of refined oil for edible purposes.

<sup>8</sup> Not separately classified.

<sup>9</sup> Production relates to rendered lard only in most countries.

<sup>10</sup> Export series revised; figures include edible and inedible tallow and grease. Excludes animal oils.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

<sup>1</sup>Mainly salad and cooking oils. Includes all food fats and oils used other than butter, lard, margarine, or shortening.<sup>2</sup>Including only the fat content of butter, estimated at 80.5 percent of total weight, and of margarine for which the fat content varies slightly each year.<sup>3</sup>Fat equivalent of soap used in synthetic rubber is included with "Other industrial products."<sup>4</sup>Paints, varnishes, floor coverings, oilcloth, printing inks, core oils, synthetic resins, insulation, linings, packings, coated fabrics (other than oilcloth), caulking, and other protective coatings.

Economic Research Service. Computed from reports of the Commerce, Interior, and Agriculture Departments. Totals and per capita estimates computed from unrounded numbers.

<sup>1</sup> Includes beef fats, vegetable tallow, and babassu.

<sup>2</sup> Not available.

Economic Research Service. Fats, oils, and tall oil compiled from reports of the U.S. Department of Commerce. Totals computed from unrounded numbers.

## CHAPTER IV

### STATISTICS OF VEGETABLES AND MELONS

This chapter contains statistics on potatoes, sweetpotatoes, and commercial vegetables and melons.

For potatoes and sweetpotatoes, the estimates of area, production, value, and farm disposition pertain to the total crop and include quantities produced both for sale and for use on farms where grown. Potato statistics are shown on a within-year seasonal grouping of winter, spring, summer, and fall crops, by States. Some States have production in more than one seasonal group.

For processing vegetables, the estimates of area, production, and value for each of the 9 crops relate to production used by commercial canners, freezers, and other processors, except dehydrators. These estimates include raw products grown by processors themselves and those grown under contract or purchased on the open market. This production and the actual area harvested are not duplicated in the fresh market estimates for the same commodities. The production of those vegetables used for processing for which regular processing estimates are not made is included in the fresh market estimates. However, with the vegetable program modifications implemented in 1973, the processed segment of production for asparagus, broccoli, carrots, and cauliflower is published at the end of the season. Annual production, price, and value estimates for the portion processed are published beginning with 1969.

#### Seasonal Groups and Marketing Period

Winter: January, February, March  
Spring: April, May, June

Summer: July, August, September  
Fall: October, November, December

The seasonal patterns of harvest do not correspond precisely in all States to the quarterly estimating period or periods designated. In some cases, only one seasonal group is shown for a State, but marketing may be active in earlier or later months. Because of the small volume from this earlier or later area, the crop estimate has been placed in the seasonal group where the largest portion is harvested.

Beginning in 1968, commercial vegetables for fresh market include 22 principal vegetables and melon crops in the major producing States. Earlier years include the following three additional crops: lima beans, beets, and green peas. These estimates relate to crops which are grown primarily for sale, and they do not include vegetables and melons produced in farm and nonfarm gardens. The bulk of the production of the principal vegetable and melon crops is for consumption in the fresh state. However, quantities used by processors of artichokes, brussels sprouts, celery, garlic, onions, and green peppers are included, and separate estimates of commercial processing are not made for these crops. The commercial estimates of the principal crops include local market production from areas near consuming centers as well as production from well-recognized commercial areas which specialize in producing supplies for shipment to distant markets.

For fresh market vegetables and melons, value per unit and total value are on a f.o.b. basis, except garlic, for which values are reported annually on a field-run basis at packinghouse door. For processed vegetables, value per unit and total value are at processing plant door.

<sup>1</sup> Area for fresh market is area for harvest, including any partially harvested or not harvested because of low prices or other economic factors. Area for processing is area harvested.

<sup>2</sup> Area, production, and farm value of the following 27 crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, lima beans, snap beans, beets, broccolini, Brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole-endive, garlic, honeydew melons, kale, lettuce, onions, green peas, green peppers, shallots, spinach, tomatoes, and watermelons. Lima beans, beets, kale, green peas, and shallots discontinued in 1968.

<sup>3</sup> Area, production, and farm value of the following 10 crops in all States: Asparagus, lima beans, snap beans, beets, cabbage (sauerkraut), sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Production of other vegetables processed included in fresh market series of estimates.

<sup>4</sup> Production for fresh market excludes some quantities not marketed because of low prices or other economic factors.

<sup>5</sup> Value for all fresh market vegetables, except garlic, on f.o.b. basis. For processing vegetables, value at processing plant door.

<sup>6</sup> Beginning 1969, asparagus for processing included in fresh market segment.

<sup>7</sup> Preliminary.

Statistical Reporting Service.

<sup>1</sup> Area for fresh market is area for harvest. Area for processing is area harvested.<sup>2</sup> Area of the following crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, snap beans, broccoli, brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole-endive, garlic, honeydew melons, lettuce, onions, green peppers, spinach, tomatoes, and watermelons.<sup>3</sup> Preliminary.<sup>4</sup> Area of the following 9 crops in all States: Lima beans, snap beans, beets, cabbage (sauerkraut), sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Other vegetables processed included in fresh market series of estimates.

Statistical Reporting Service.

Table 213.—Vegetables, commercial: Production of principal crops, by States, 1978–80

<sup>1</sup> Value of the following crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, snap beans, broccoli, brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole-endive, garlic, honeydew melons, lettuce, onions, green peppers, spinach, tomatoes, and watermelons.

<sup>2</sup>Preliminary.

<sup>3</sup> Value of the following 9 crops in all States: Lima beans, snap beans, beets, cabbage (sauerkraut), sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Other vegetables processed included in fresh market series of estimates.

<sup>4</sup> Value for fresh market in 1980 not reported to avoid disclosure of individual operations.

Statistical Reporting Service.

<sup>1</sup> Asparagus for fresh market and for processing is frequently harvested from the same area; therefore it is not practical to make individual area estimates for these segments.

<sup>2</sup>Preliminary.

<sup>3</sup> Mostly for processing; includes Delaware, Indiana, Iowa, Maryland, Minnesota, Oregon, and Virginia.

<sup>4</sup>Data for fresh market include Illinois, Indiana, Iowa, Maryland, New Jersey, and Oregon. Data for processing include Delaware, Illinois, Indiana, Iowa, Maryland, Minnesota, New Jersey, Oregon, and Virginia.

<sup>1</sup> Sprouting broccoli only. Does not include broccoli rabe nor heading (cauliflower) broccoli.<sup>2</sup> Excludes the following quantities not harvested or not marketed because of economic conditions (1,000 hundred-weight): 46 in 1970 and 22 in 1973.<sup>3</sup> Price and value on f.o.b. basis.<sup>4</sup> Price and value at processing plant door.<sup>5</sup> Preliminary.

Statistical Reporting Service.

## FOOTNOTES FOR TABLE 226

<sup>1</sup> Includes production for fresh market and processing.<sup>2</sup> Price and value on f.o.b. basis.<sup>3</sup> Beginning 1971, California only.<sup>4</sup> Preliminary.

Statistical Reporting Service.

<sup>1</sup> Excludes the following quantities not harvested or not marketed because of economic conditions (1,000 hundredweight): 258 in 1966, 420 in 1967, 144 in 1968, 135 in 1969, 180 in 1970, 10 in 1971, 37 for fresh market (also 200 tons for processing) in 1972, and 78 in 1976.

<sup>2</sup> Shrinkage and loss from New York storage crop excluded in computing value. Shrinkage in 1978, 275,000 cwt., 1979, 400,000 cwt., and 1980, 200,000 cwt.

<sup>3</sup> Fresh market price and value on f.o.b. basis; processing price and value at processing plant door.

<sup>4</sup> Grower and dealer stocks, New York only.

<sup>5</sup> Jan. 1 of succeeding year.

<sup>6</sup> As of Nov. 15.

<sup>7</sup> Last year of estimate.

<sup>8</sup> Preliminary.

Statistical Reporting Service.

<sup>1</sup> Excludes the following quantities not harvested or not marketed because of economic conditions (1,000 hundred-weight):

<sup>2</sup> Price and value on f.o.b. basis.

<sup>3</sup> Price and value at processing plant door.

<sup>4</sup> Stocks in hands of original salters of both salt and dill pickles, sold and unsold, in tanks and barrels, on Oct. 1 includes stocks of fresh-pack pickles.

<sup>5</sup> Preliminary.

<sup>1</sup> Mostly for fresh market use, but includes some quantities used for processing.

<sup>2</sup> Grower and local dealer stocks.

<sup>3</sup> Excludes the following quantities not harvested or not marketed because of economic conditions (1,000 hundredweight): 257 in 1967, 39 in 1970, and 30 in 1976. Includes storage crop onions harvested but not sold because of shrinkage and waste.

<sup>4</sup> Price and value on f.o.b. basis.

<sup>1</sup> Stocks estimated for the 15 major states (see table 260) starting with the 1980 crop. This table shows stocks and comparable production for the 15 states over the past 11 years. Prior to this year, this table showed data for the 23 major states over a 15 year period.

<sup>2</sup> Beginning 1971, late summer production for New York (Long Island), Wisconsin, and Washington has been classified as "fall."

<sup>3</sup>Preliminary.

Statistical Reporting Service.

<sup>1</sup> Use of car/carlot equivalents for reporting unloads of fresh vegetables and melons was discontinued at the close of calendar year 1977. Total unloads of specified commodities at 8 markets for 1963-1977 are published in carlot equivalents in *Agricultural Statistics*, 1978, table 274.

<sup>2</sup> Estimated percentages of completeness for reported truck unloads for 1980 are as follows: Atlanta and San Francisco 80; Baltimore 85; Philadelphia, Chicago, and Los Angeles 90; Boston, 90-95; New York 95.

<sup>3</sup> Includes Newark.

<sup>4</sup> Includes Washington.

<sup>5</sup> Includes Oakland.

Agricultural Marketing Service.

#### FOOTNOTES FOR TABLE 281

<sup>1</sup> Fresh vegetable consumption computed for total commercial production for fresh market, including an estimate for commercial production in States where estimates are not made separately. Does not include production for home use. Civilian consumption obtained by dividing the total apparent civilian consumption by total civilian population as reported by the Bureau of the Census. All data for calendar year, except dry field peas which are on a crop-year basis.

<sup>2</sup> Less than 0.05 pound.

<sup>3</sup> Beginning 1968, included in minor vegetables.

<sup>4</sup> Preliminary.

<sup>5</sup> Included less than 0.05 pound of shallots each year from 1966 through 1967. Beginning 1968, included in minor vegetables.

<sup>6</sup> Beginning 1971, dehydrated onions are excluded from "Onions and shallots" and reported separately.

<sup>7</sup> Includes table stock and processed potatoes.

Economic Research Service.
