200 YEARS OF STATISTICS ON AGRICULTURE

The demand for timely statistics on United States agriculture is almost as old as the Republic itself. George Washington, during his first term as President, personally conducted a mail survey of the new Nation's farming, inquiring into crop production, prices, and livestock.

Somewhat similar investigations were occasionally undertaken in the early 19th century by agricultural societies and State governments. These surveys varied in scope and quality, however, and valuable as they may have been for specific purposes, they failed to give an overall statistical picture of the country's farming. Moreover, despite Washington's example, and his urgings that a national board of agriculture be established, the Federal government had scant involvement with agriculture until 1839. In that year, Congress assigned \$1,000 to the Patent Office to be spent on agriculture's behalf, specifically noting that a portion of the sum was to be used to gather statistics. A year later, the Federal Census schedules included agricultural inquiries for the first time, and the results provided a benchmark for the annual production estimates that the Patent Office began issuing in the 1840's.

The 1839 appropriation signaled a new interest in agriculture on the part of the Federal government. But, as events showed, it did not mean that the government was ready at that point to commit itself henceforth to the yearly collection of agricultural data. A lack of appropriations interrupted the Patent Office's State and Territorial production estimates in 1846, and the statistical series disappeared entirely at the decade's close.

The secondary role that agricultural activities played in the Patent Office—and the possibility that those activities might be abolished or harmed by their subordination—led farm organizations to advocate a separate office of agricultural affairs. As early as 1849, a movement developed to create either a bureau of agriculture within the Interior Department or an entirely new department. This culminated in the establishment of the U.S. Department of Agriculture in 1862.

The Agency's first Commissioner, Isaac Newton, based his objectives on suggestions that Jesse Buell, editor of the *Cultivator*, had made 20 years before. At the head of Newton's list of goals was "Collecting, arranging, publishing, and disseminating, for the benefit of the Nation, statistical and other useful information in regard to agriculture in its widest acceptance. . ." In 1863, the Division of Statistics, predecessor of the Statistical Reporting Service, was organized within the Department, and the first of USDA's monthly reports appeared.

Agricultural Statistics is the lineal descendent of some of USDA's earliest publications. Annual statistical summaries, based mainly on the work of volunteer reporters, were printed as part of the Secretary's *Report* until 1894 when they began to appear in the newly-created *Yearbook of Agriculture*. There they continued to be found for the next 40 years. Those four decades saw substantial changes in U.S. agriculture and a need for still more information about the farm sector, its markets and its relationship to the rest of the economy. One consequence was a dramatic increase in the quantity of data published in the *Yearbook*. The statistical tables, which had amounted to less than an eighth of the 1900 volume, were over half of the 1935 edition. Such growth accounted for the decision to issue the tables as a separate publication, a decision that led to the appearance in 1936 of the first volume of *Agricultural Statistics*. The series has been updated annually during the past 40 years, and it stands today among the Department of Agriculture's foremost attempts to provide references that will meet the need for reliable statistical information about U.S. agriculture.

Agricultural Statistics, 1976

This edition of the *Agricultural Statistics* was prepared under the direction of MELVIN L. KOEHN, Chief, Data Services Branch, Statistical Reporting Service. EVELYN L. WOOD was responsible for coordination and technical editorial work.

The cooperation of the many contributors to this publication is gratefully acknowledged. Source notes below each table credit the various Government agencies which collaborated in furnishing information.

Introduction

Agricultural Statistics is published each year to meet the diverse needs for a reliable reference book on agricultural production, supplies, consumption, facilities, costs, and returns. Its tables of annual data cover a wide variety of facts in forms suited to most common use.

Inquiries concerning more current or more detailed data, past and prospective revisions, or the statistical methodology used should be addressed directly to the agency credited with preparing the table. Most of the data were prepared or compiled in the U.S. Department of Agriculture. A few tables were prepared in other Government agencies.

The historical series in this volume have been generally limited to data beginning with 1959 or later. However, many of the series carry a reference in the source note to the table in *Agricultural Statistics, 1972*, where comparable data for earlier years can be found. In the 1972 issue, historical tables showing totals for the United States begin with 1929 for the principal crops and with 1930 for January 1 livestock numbers. Most fruit and vegetable tables begin with 1944. Other basic tables showing national totals begin with 1949 or 1954 (livestock and poultry tables 1 year later).

These two publications should provide data for enough years to meet the needs of most users. Some of the index numbers series have been revised back to the beginning of the series based on revised basic data, but revisions earlier than 1959 will not be published in Agricultural Statistics until the next long-time series is compiled for publication.

Agricultural data for Alaska and Hawaii are included in the appropriate tables, where available. Certain statistics for Alaska are found in chapter XIV.

U.S. foreign agricultural trade statistics include Government as well as non-Government shipments of merchandise from the United States and Territories to foreign countries. They do not include U.S. shipments to the U.S. Armed Forces abroad for their own use or shipments between the States and U.S. Territories. The world summaries of production and trade of major farm products are prepared by the U.S. Department of Agriculture from reports of the U.S. Department of Commerce, official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, and the result of office research.

Statistics presented in many of the tables represent actual counts of the items covered. Most of the statistics relating to foreign trade and to Government programs, such as numbers and amounts of loans made to farmers, and amounts of loans made by the Commodity Credit Corporation, etc., are data of this type. A large number of other tables, however, contain data that are estimates made by the Department of Agriculture.

The estimates for crops, livestock, and poultry made by the U.S. Department of Agriculture are prepared mainly to give timely current State and national totals and averages. They are based on data obtained by sample surveys of farmers and of people who do business with farmers. The survey data are supplemented by information from the Censuses of Agriculture taken every 5 years and check data from various sources. Being estimates, they are subject to revision as more data become available from commercial or Government sources. Unless otherwise indicated, the totals for the United States shown in the various tables on area, production, numbers, price, value, supplies, and disposition are based on official Department estimates. They exclude States for which no official estimates are compiled.

DEFINITIONS

"Value of production" as applied to crops in the various tables, is derived by multiplying production by the estimated season average price received by farmers for that portion of the commodity actually sold. In the case of fruits and vegetables, quantities not harvested because of low prices or other economic factors are not included in value of production. The term "farm value" is used in the inventory tables on livestock and poultry to mean value of the number of head on farms on the inventory date. It is derived by multiplying the number of head by an estimated value per head as of that date.

The word "Year" (alone) in a column heading means calendar year. "Ton" when used in this book without qualifications means a short ton of 2,000 pounds.

WEIGHTS, MEASURES, AND CONVERSION FACTORS

The following table on weights, measures, and conversion factors covers the most important agricultural products, or the products for which such information is most frequently asked of the U.S. Department of Agriculture. It does not cover all farm products nor all containers for any one product.

The information has been assembled from State schedules of legal weights, various sources within the U.S. Department of Agriculture, and other Government agencies. For most products, particularly fruits and vegetables, there is a considerable variation in weight per unit of volume due to differences in variety or size of commodity, condition and tightness of pack, degree to which the container is heaped, etc. Effort has been made to select the most representative and fairest average for each product. For those commodities which develop considerable shrinkage, the point of origin weight or weight at harvest has been used.

The approximate or average weights as given in this table do not necessarily have official standing as a basis for packing or as grounds for settling disputes. Not all of them are recognized as legal weight. The table was prepared chiefly for use of workers in the U.S. Department of Agriculture who have need of conversion factors in statistical computations.

Peaches, clingstone.....	1 case canned ²²	1 bushel fresh
Do.....	do.....	0.0230 ton fresh
Peanuts.....	1 pound shelled.....	1½ pounds unshelled
Pears.....	1 pound dried.....	6½ pounds fresh
Pears, Bartlett.....	1 case canned ²³	1.1 bushels fresh
Do.....	do.....	0.026 ton fresh

See footnotes on page X.

CONVERSION FACTORS—Continued

Commodity	Unit	Approximate equivalent
Peas, green.....	1 pound shelled.....	2½ pounds unshelled
Do.....	1 case canned ³³	0.009 ton fresh (shelled)
Prunes.....	1 pound dried.....	2.7 pounds fresh in California; 3 to 4 pounds fresh elsewhere
Raisins.....	1 pound.....	4.3 pounds fresh grapes
Rice, milled (excluding brewers).....	100 pounds.....	152 pounds rough or unhusked rice
Rye flour.....	do.....	2.23 bushels rye, beginning 1947
Sheep and lambs.....	1 pound live weight.....	0.482 pound dressed weight (1954-63 average)
Soybean meal.....	1 pound.....	1.27 pounds soybeans
Soybean oil.....	do.....	5.49 pounds soybeans
Sugar.....	1 ton raw.....	0.9346 ton refined
Tobacco.....	1 pound farm-sales weight.....	Various weights of stemmed and unstemmed, according to aging and the type of tobacco. (See circular 435, U.S. Dept. of Agr.)
Tomatoes.....	1 case canned ³³	0.018 ton fresh
Turkeys.....	1 pound live weight.....	0.80 pound ready-to-cook weight
Wheat flour.....	100 pounds.....	2.30 bushels wheat ³⁶
Wool, domestic apparel shorn.....	1 pound greasy.....	0.48 pound scoured
Wool, domestic apparel pulled.....	do.....	0.73 pound scoured

¹ Standard bushel used in the United States contains 2,150.42 cubic inches; the gallon, 231 cubic inches; the cranberry barrel, 5,826 cubic inches; and the standard fruit and vegetable barrel, 7,056 cubic inches. Such large-sized products as apples and potatoes sometimes are sold on the basis of a heaped bushel, which would exceed somewhat the 2,150.42 cubic inches of a bushel basket level full. This also applies to such products as sweetpotatoes, peaches, green beans, green peas, spinach, etc.

² Approximate inside dimensions, 10½ by 11½ by 18 inches.

³ Approximate inside dimensions, 4½ by 12½ by 16½ inches.

⁴ Approximate inside dimensions, 4½ by 16 by 16½ inches.

⁵ Approximate dimensions, 13 by 12 by 32 inches.

⁶ Inside dimensions vary. Common sizes are 13 by 13 by 22½ inches, and 13 by 15½ by 23 inches.

⁸ Approximate inside dimensions, 13 by 18 by 21½ inches.

⁹ Approximate inside dimensions, 13 by 13 by 22½ inches.

¹⁰ This is the weight commonly used in trade practices, the actual weight varying according to temperature conditions.

¹¹ Approximate inside dimensions, 9¾ by 16 by 20 inches.

¹² Approximate inside dimensions, 4½ by 11½ by 14 inches.

¹³ The standard weight of 70 pounds is usually recognized as being about 2 measured bushels of corn, husked, on the ear, because it required 70 pounds to yield 1 bushel, or 56 pounds, of shelled corn.

¹⁴ For statistical purposes the bale of cotton is 500 pounds or 480 pounds net weight. Prior to Aug. 1, 1946, the net weight was estimated at 478 pounds. Actual bale weights vary considerably, and the customary average weights of bales of foreign cotton differ from that of the American square bale.

¹⁵ This is the average weight of cottonseed, although the legal weight in some States varies from this figure of 32 pounds.

¹⁶ Approximate inside dimensions, 9¾ by 10½ by 15 inches.

¹⁷ Approximate inside dimensions, 1¾ by 11½ by 18½ inches.

¹⁸ Approximate inside dimensions, 11½ by 11½ by 24 inches.

¹⁹ In California and Arizona from 1942 through 1953, the net weights as used by this Department were 77 pounds for oranges, 79 pounds for lemons, and 65 pounds for Desert Valley grapefruit. Grapefruit in California areas, other than the Desert Valleys, averaged 68 pounds. The new weights effective in 1954 reflect the shift from the "box" to the ½-box carton as the container used.

²⁰ Approximate inside dimensions 10½ by 10½ by 16½ inches for oranges or lemons, and 9¾ by 10½ by 16½ inches for grapefruit.

²¹ Approximate inside dimensions, 5¾ by 13½ by 16½ inches.

²² Approximate inside dimensions, 4¾ by 16 by 16½ inches.

²³ Approximate inside dimensions, 7¾ by 16 by 21½ inches.

²⁴ Approximate inside dimensions, 9¾ by 13 by 25 inches.

²⁵ Approximate inside dimensions 12 by 12 by 24 inches.

²⁶ Approximate inside dimensions vary. Common size is 4½ by 11½ by 16½ inches.

²⁷ Approximate inside dimensions, 8½ by 11½ by 18 inches.

²⁸ Approximate inside dimensions, 12 by 10½ by 33 inches.

²⁹ Inside dimensions vary. Ranges from 4 by 16 by 16½ inches to 6 by 16 by 16½ inches.

³⁰ Includes both sorghum grain (kafr, milo, hegari, etc.) and sweet sorghum varieties.

³¹ This average of 55 pounds indicates the usual weight of sweetpotatoes when harvested. Much weight is lost in curing or drying and the net weight when sold in terminal markets may be below 55 pounds.

³² Case of 24 No. 2½ cans.

³³ Case of 24 No. 303 cans.

³⁴ Varies widely by method of harvesting.

³⁵ The milk equivalent of ice cream per gallon is 15 pounds. Reports from plants indicate about 81 percent of the butterfat in ice cream is from milk and cream, the remainder being from butter and concentrated milk. Thus the milk equivalent of the milk and cream in a gallon of ice cream is about 12 pounds.

³⁶ This is equivalent to 4.51 bushels of wheat per barrel (196 pounds) of flour and has been used in conversions, beginning July 1, 1957. Because of changes in milling processes, the following factors per barrel of flour have been used for earlier periods: 1790-1879, 5 bushels; 1880-1908, 4.75 bushels; 1909-17, 4.7 bushels; 1918 and 1919, 4.5 bushels; 1920, 4.6 bushels; 1921-44, 4.7 bushels; July 1944-Feb. 1946, 4.57 bushels; March 1946-Oct. 1946, average was about 4.31 bushels; and Nov. 1946-June 1957, 4.57 bushels.

CHAPTER I

STATISTICS OF GRAIN

This chapter contains tables for wheat, rye, rice, corn, oats, barley, sorghum grain, and feedstuffs. Estimates are given of area, production, farm disposition, prices, farm value, stocks, foreign production and trade, and price-support operations. The United States tables on area, yield, production, disposition, and value extend back to 1959. Data on earlier years are available from the 1967 and 1972 editions of Agricultural Statistics. Estimates in greater detail are published regularly by the Crop Reporting Board for commodities treated in this chapter. Tables on popcorn are placed in chapter VI with "minor field crops."

Table 1.—Wheat: Area, yield, production, farm disposition, and value, United States, 1959–75

Year	Area		Yield per harvested acre	Production	Disposition on farms where produced				Season average price per bushel received by farmers ³	Value of production
	Planted (¹)	Harvested			Used for seed	Fed to livestock	Home use ²	Sold		
1959	1,000 acres	1,000 acres	Bushels	1,000 bushels	1,000 bushels	1,000 bushels	1,000 bushels	1,000 bushels	Dollars	1,000 dollars

¹ Includes area seeded in preceding fall for harvest in the year shown.

² Ground at the mill for home use or exchanged for flour. Discontinued after 1960.

³ Obtained by weighting State prices by quantity sold. Includes allowance for unredeemed loans and purchases by the Government valued at the average loan and purchase rate, by States, where applicable.

⁴ Preliminary.

Statistical Reporting Service. Data for 1929–58 in *Agricultural Statistics, 1972*, tables 1 and 6.

¹ Under loan on July 1 from year-earlier crop and under reseal from previous crops. Includes small quantities sealed under bond in some years.

² Includes full-duty wheat, wheat imported for feed, and dutiable flour and macaroni products in terms of wheat. Excludes wheat imported for milling in bond and export as flour.

³ Preliminary.

⁴ Includes shipments to U.S. Territories and wheat for military food use at home and abroad.

⁵ Includes quantities of less than one million bushels used annually in distilled spirits and beer.

⁶ Includes exports of flour and semolina and macaroni products in terms of wheat. Includes bulgur and rolled wheat in terms of wheat.

⁷ A breakdown of wheat and flour exports under the various Government programs is shown in table 12.

⁸ Adjusted for transshipments of U.S. wheat through Canada.

Economic Research Service. Foreign trade figures from reports of the U.S. Department of Commerce and U.S. Department of Agriculture. Data for 1949–61 in *Agricultural Statistics, 1972*, table 11.

1974	2.05	53	36	2.0	—	—
1975	2.05	45	50	2.3	—	—
1976	2.29	—	—	—	—	—

¹ A loan level of \$1.82 in 1963, \$1.30 in 1964, and \$1.25 from 1965 to 1973, plus the average marketing certificate payment per bushel paid to program participants. Loan level protection for 1974 and 1975 is \$1.37, and for 1976 is \$1.50 on entire production. For 1974 to 1976, the target level is a price guarantee on allotment production at levels indicated under support price.² Percentage of parity price as of the beginning of the marketing year.³ Represents loans made, purchases, and purchase agreements entered into.⁴ Acquisitions through loan cancellations and purchases (under agreement and direct) only from crop harvested in the year indicated.⁵ Uncommitted CCC inventory.⁶ Preliminary.Agricultural Stabilization and Conservation Service. Data for 1949–62 in *Agricultural Statistics, 1972*, table 16.

¹ Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1975 is combined with estimates for the Southern Hemisphere harvests, which begin late in 1975 and end early in 1976.

² Harvested area as far as possible.

³ Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

1974	530	109	380	1,140	2,159	0

¹ Imports of wheat of milling quality have been limited to a quota of 800,000 bushels per year since May 29, 1941, of which 795,000 bushels may come from Canada. Quantities in excess of the 800,000-bushel quota represent quota-free imports of seed wheat authorized by Presidential Proclamation 2550, April 16, 1942. During the war years 1943–44 and 1944–45 this import restriction was waived.

² Imports of flour have been limited to a quota of 4,000,000 pounds per year since May 29, 1941, of which 3,815,000 pounds may come from Canada (total quota is 93,200 bushels, wheat equivalent). Flour for special experimental purposes may be imported ex-quota. Excludes flour "free for export."

³ Consists of macaroni, spaghetti and similar products, and semolina.

⁴ Less than 500 bushels.

⁵ As of Jan. 26, 1974, import quotas for wheat and milled wheat products were indefinitely suspended.

Economic Research Service. Data for 1949–61 in *Agricultural Statistics*, 1972, table 8.

¹ Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1975 is combined with estimates for the Southern Hemisphere harvests, which begin late in 1975 and end early in 1976. ² Harvested area as far as possible. ³ Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Owned by CCC and stored in bins or other storage owned or controlled by CCC. Additional CCC stocks are included in other off-farm positions.

² Grain and grain equivalent of corn products. Compiled from reports of the Bureau of the Census.

³ Preliminary.

⁴ Less than 500,000 bushels.

⁵ Estimated quantities used in producing cornmeal (including farm household use), flour, hominy grits, and flakes for human food, and brewers' grits for the production of fermented malt liquors. Based on Censuses of Manufactures and reports of the Internal Revenue Service.

⁶ Cornstarch, and corn sugar, regular sirup, and high-fructose sirup.

⁷ Cornmeal, cornstarch, and corn sugar and sirup.

⁸ Residual; includes minor uses and waste.

FOOTNOTES FOR TABLE 40

¹ Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1975 is combined with estimates for the Southern Hemisphere harvest, which begins late in 1975 and ends early in 1976.

² Harvested area as far as possible.³ Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

Table 39.—Corn: Production, farm disposition, and value, by States, crop of 1975 (preliminary)

FOOTNOTES FOR TABLE 41

¹ Includes price-support payments of 18 cents in 1963, 15 cents in 1964, 20 cents in 1965, 30 cents from 1966 to 1970, and a guarantee of 32 cents in 1971, 40 cents in 1972, and 32 cents in 1973. Payments were made on a designated portion of the base. Loan level protection for 1974 and 1975 is \$1.10, and for 1976 is \$1.25 on entire production. For 1974 to 1976, the target level is a price guarantee on allotment production at levels indicated under support price.

² Percentage of parity price as of the beginning of the marketing year.

³ Represents loans made, purchases, and purchase agreements entered into. Percentage of production is on a grain basis.

⁴ Includes deliveries from original program, the reseed program and over-deliveries as determined by weight of farm-stored grain when delivered to CCC.

⁵ Uncommitted CCC inventory.

⁶ Preliminary.

Agricultural Stabilization and Conservation Service. Data for 1949-62 in *Agricultural Statistics, 1972*, table 47.

FOOTNOTES FOR TABLE 50

¹ Years shown refer to years of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1975 is combined with estimates for the Southern Hemisphere harvest, which begins late in 1975 and ends early in 1976.

² Harvested areas as far as possible.

³ Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés, and Foreign Service Officers, results of office research, and related information.

¹ Owned by CCC and stored in bins or other storage owned or controlled by CCC. Additional CCC stocks are included in other off-farm positions.

² Compiled from reports of the Bureau of the Census.

³ Preliminary. Rough allowance for 1975–76 imports.

⁴ Compiled from reports of the Internal Revenue Service. Includes small quantities of barley grain.

⁵ Malt for food, breakfast food uses, pearl barley, and flour.

⁶ Based on area seeded to the following crop.

⁷ Residual; includes other minor uses and waste.

Economic Research Service. Data for 1949–61 in *Agricultural Statistics, 1972*, table 63.

¹ Relates to the total area of barley sown for all purposes, including barley sown in the preceding fall.² Preliminary.

Statistical Reporting Service.

FOOTNOTES FOR TABLE 66

¹ Includes price-support payments of 14 cents in 1963, 12 cents in 1964, 16 cents in 1965, 20 cents in 1966, 1969, and 1970, and a guarantee of 32 cents in 1972, and 26 cents in 1973. Barley was excluded from program in 1967, 1968, and 1971. Payments were made on a designated portion of the base. Loan level protection for 1974 and 1975 is 90 cents, and for 1976 is \$1.02 on entire production. For 1974 to 1976, the target level is a price guarantee on allotment production at levels indicated under support price.

² Percentage of parity price as of the beginning of the marketing year.³ Represents loans made, purchases, and purchase agreements entered into.

⁴ Includes deliveries from original program, the reseed program, and over-deliveries as determined by weight of farm-stored grain when delivered to CCC.

⁵ Uncommitted CCC inventory.⁶ Preliminary.Agricultural Stabilization and Conservation Service. Data for 1949–62 in *Agricultural Statistics, 1972*, table 67.

¹ Years shown refer to year of harvest in the Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1975 is combined with estimates for the Southern Hemisphere harvests, which begin late in 1975 and end early in 1976.

² Harvested area as far as possible.

³ Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Excludes quantities used in alcoholic beverages.² Includes white, whole wheat, and semolina flour.³ Rice consumption for year beginning August previous to the year stated.⁴ Corn used in food products, excluding alcoholic beverages. Includes an allowance for the quantity used as hominy and grits.⁵ Oats used in oatmeal, prepared breakfast foods, infant foods, and minor food products.⁶ Malt for food, breakfast food uses, pearl barley, and flour.⁷ Malt equivalent of barley food products.⁸ Preliminary. Estimates of corn sirup, sugar, and starch are unofficial estimates; industry data were not reported after April 1968.Economic Research Service. All figures are estimates based on data from private industry sources, the U.S. Department of Commerce, the Internal Revenue Service, and other Government agencies. Data for 1929-58 in *Agricultural Statistics, 1972*, table 68.

1975	2.34	45	^e 5.0	^e 1.2	—	—
1976	2.66	—	—	—	—	—

^a Includes price-support payments per hundredweight of 29 cents in 1963, 23 cents in 1964, 35 cents in 1965, 53 cents from 1966 to 1970, and a guarantee of 52 cents in 1971, 68 cents in 1972, and 54 cents in 1973. Payments were made on a designated portion of the base. Loan level protection for 1974 and 1975 is \$1.88, and for 1976 is \$2.13 on entire production. For 1974 to 1976, the target level is a price guarantee on allotment production at levels indicated under support price.^b Percentage of parity price as of the beginning of the marketing year.^c Represents loans made, purchases, and purchase agreements entered into.^d Includes deliveries from original program, the reseed program, and over-deliveries as determined by weight of farm-stored grain when delivered to CCC.^e Uncommitted CCC inventory.^f Preliminary.

¹ Based on prices of the following feedstuffs at leading markets, weighted by average consumption: Soybean, cottonseed, linseed, and peanut meals; bran, middlings, and millrun; gluten feed and meal; hominy feed; brewers' and distillers' dried grains; alfalfa meal; rice bran and feeding molasses.

Agricultural Marketing Service. Data for 1949-61 in *Agricultural Statistics, 1972*, table 83.

FOOTNOTES FOR TABLE 71

¹ Crop year begins October for corn and sorghum, August for barley, and July for oats.

² No sales reported.

³ Bulk basis.

Economic Research Service. Prices of corn and oats at Kansas City, Chicago, and Minneapolis were computed by weighting selling prices by reported number of carlots sold. Prices of barley and sorghum at Kansas City and of barley at Chicago and Minneapolis are the average of prices at the close of each day. Prices at Los Angeles are the average of prices on one day each week.

CHAPTER II

STATISTICS OF COTTON, SUGAR, AND TOBACCO

In addition to tables on cotton, sugar, and tobacco, this chapter includes tables on fibers other than cotton, sirups, sugar, honey, and beeswax. Cottonseed data, however, are in the following chapter on oilseeds, fats, and oils.

Table 73.—Cotton: Area, yield, production, and value, United States, 1959–75

Year	Area		Yield per harvested acre	Production	Season average price per pound received by farmers ¹	Value of production	Value of production plus Government program payments ²

¹ Net weight price for 1964 to date; prior to 1964, gross weight price, including bagging and ties except that extra-long staple cotton is included in net weight price. Includes allowance for unredeemed loans. Does not include Government program payments.

² Started in 1964 for upland cotton, and in 1968 for extra-long staple cotton.

³ 480-pound net weight bales from 1964 to date; prior to 1964, 500-pound gross weight bales.

⁴ Preliminary.

⁵ Average price to Apr. 1, 1976, with no allowance for unredeemed loans.

Statistical Reporting Service. Production figures conform with The Bureau of the Census annual ginning enumerations. Data for 1929–58 in *Agricultural Statistics*, 1972, table 84.

¹ Average of the crop from 1963 through 1970; Middling 1-inch, micronaire 3.5–4.9, net weight for 1971 and succeeding years.² Includes price-support payments as follows: To producers within domestic allotment, 3.50 cents per pound in 1964 and 4.35 cents in 1965; to program participants on projected production from farm's domestic allotment, 9.42 cents in 1966, 11.53 cents in 1967, 12.24 cents in 1968, 14.73 cents in 1969, and 16.80 cents in 1970; and, on production from area planted within the farm base area allotment, 15 cents in 1971, 1972, and 1973.³ Percentage of parity price as of the beginning of the marketing year.⁴ Includes loans made.⁵ Acquisitions from crop harvested in the year indicated and not acquisitions during that year.⁶ Running bales.⁷ Less than 500 bales.⁸ Established price or "target" price. If the average market price is below the target price, eligible producers will receive payment at a rate equal to the difference between the target price and the higher of the loan level or the average market price. No payments were made on the 1974 or 1975 crops.⁹ Estimated.Agricultural Stabilization and Conservation Service. Data for 1949–62 in *Agricultural Statistics, 1972*, table 86.

FOOTNOTES FOR TABLE 76

¹ Harvest season beginning Aug. 1.² Preliminary.³ 480-pound net weight.⁴ Includes estimates for minor-producing countries not shown above and allowance for countries where data are not yet available.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Ginnings during the 12 months, Aug. 1–July 31. Includes an allowance for "city crop" which consists of rebaled samples and pickings from cotton damaged by fire and weather.

² Total imports minus re-exports.

³ Total exports minus re-imports.

⁴ Domestic in running bales, and foreign in equivalent bales of 500 pounds.

⁵ Preliminary.

Agricultural Marketing Service. Compiled from reports of the U.S. Department of Commerce. Data for 1949–61 in *Agricultural Statistics, 1972*, table 88.

¹ Includes Hawaii for area harvested, yield per acre, production of sugarcane for sugar, and sugar production; includes molasses production for Hawaii. Also includes Hawaii from 1959 to date for area harvested, yield, and production of sugarcane for seed. Price and value not available for Hawaii.

² The growth of 9 months in Louisiana, 12 months in Florida, and 18–24 months in Hawaii. Sugarcane harvest usually ends by December or early January in Louisiana; in Florida, by March following the season of growth; and in Hawaii, the harvest takes place throughout the year.

³ Preliminary.

⁴ Prices do not include Government payments under the Sugar Act.

⁵ Raw value is the equivalent in terms of 96% sugar, as defined in the Sugar Act of 1948.

⁶ Calculated on the basis that 100 pounds of raw sugar is required to produce 93.64 pounds of refined sugar.

Statistical Reporting Service. Of the total sugar produced in Louisiana about 25 percent consists of direct consumption sugar marketed "as made" without further refining. Data for 1954–58 in *Agricultural Statistics*, 1972, table 121.

¹ The growth of 9 months in Louisiana, 12 months in Florida, and 18-24 months in Hawaii. Sugar campaign usually ends by December or early January in Louisiana; in Florida, by March following the season of growth; and, in Hawaii, the harvest takes place throughout the year.

² Preliminary.

³ Raw value is the equivalent in terms of 96° sugar, as defined in the Sugar Act of 1948.

⁴ Calculated on the basis that 100 pounds of raw sugar is required to produce 93.46 pounds of refined sugar.

⁵ Blackstrap (80° Brix), high-test molasses from frozen cane, and edible molasses.

⁶ Texas included beginning 1973.

⁷ 85° brix.

Statistical Reporting Service.

FOOTNOTES FOR TABLE 106

¹ Crop year generally coincides with the calendar year except that small proportions of continental U.S. beet and cane sugar are processed early in the following year and that the Philippine crop year starts in October of the preceding year.

² Raw value is the equivalent in terms of 96° sugar, as defined in the Sugar Act of 1948.

³ As reported by Crop Reporting Board, Statistical Reporting Service.

⁴ Raw sugar, as made.

⁵ Preliminary.

Agricultural Stabilization and Conservation Service. Data for 1949-58 in *Agricultural Statistics, 1972*, table 123.

¹ Years shown are crop-harvesting years. Campaigns beginning not earlier than May of year shown, nor later than April of following year, are included in the same crop year. The entire season's production of each country is credited to the May/April year in which harvesting and sugar production began.

² Preliminary.

³ Centrifugal sugar, as distinguished from non-centrifugal, includes cane and beet sugar produced by the centrifugal process, which is the principal kind moving in international trade.

⁴ "Other Africa" includes Algeria, Afars-Issas, Somali Republic, Sudan, Angola, Congo (Brazzaville), Liberia, Tunisia, Ghana, Malawi, Zambia, Morocco, Nigeria, Cameroon, Ivory Coast, and Senegal.

⁵ Since Jan. 1, 1972, includes Ryukyu Islands.

⁶ "Other Asia" includes Afghanistan, Israel, Syria, South Vietnam, Iraq, Lebanon, Sri Lanka (Ceylon), Nepal, the Republic of Korea, and Malaysia.

⁷ Noncentrifugal sugar includes all types of sugar produced by other than centrifugal process which is largely for consumption in the relatively few areas where produced. The estimates include such kinds known as piloncillo, panela, papeton, chancaca, rapadura, jaggery, gur, muscovado, panocha, etc.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Raw value is the equivalent in terms of 96° sugar. Imports and domestic marketings under annual sugar requirements determinations and quotas, pursuant to the Sugar Act of 1948, as amended. These comprise all sugar marketings except importations for re-export, livestock feed, and alcohol production, which were 17,204 tons in 1973 and 17,111 tons in 1974; comparable data for 1975 are not available.

¹ All stock carryover dates apply to the year indicated at the head of each column, except for Jan. 1 and Apr. 1, which apply to the following year.

² Preliminary.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

FOOTNOTES FOR TABLE 111

¹ Expressed in raw value, the equivalent in terms of 96° sugar, as defined in the Sugar Act of 1948.

² Receipts include refiners' total offshore raw sugar receipts in continental U.S. ports, whether entered through the customs or held pending availability of quota, and raw cane sugar produced from sugarcane in the continental United States.

³ Preliminary.

Agricultural Stabilization and Conservation Service. Data for 1949–62 in *Agricultural Statistics, 1972*, table 129.

FOOTNOTES FOR TABLE 112

¹ All sugars converted to refined basis.

² Includes Hawaiian sugar for direct consumption.

³ Includes Puerto Rican sugar for direct consumption.

⁴ Sugar for direct consumption only. Mainland cane sugar mills stocks and production not separately reported.

⁵ Stocks include sugar in bond and in customs custody and control.

⁶ Preliminary.

⁷ Includes deliveries for export, for livestock feed, and for use in alcohol.

Agricultural Stabilization and Conservation Service. Data for 1949–62 in *Agricultural Statistics, 1972*, table 130.

¹ Production of cane sirup, sorghum sirup, and edible molasses is of the fall of the preceding year. Estimates of sorghum discontinued beginning 1961; cane sirup discontinued beginning 1970.

² Does not include varying quantities produced on nonfarm lands in Somerset County, Maine.

³ U.S. Department of Commerce molasses and sugar sirups series, less liquid sugar imports reported to Sugar Division, Agricultural Stabilization and Conservation Service.

⁴ Unofficial estimates beginning 1968.

⁵ Preliminary.

⁶ Assumed to be largely refiners' sirup. Beginning 1965, data not available because of change in export classification.

¹ Production harvested within the calendar year specified. Farm-sales weight is about 10 percent above dry weight which is normally reported in trade statistics.

² Preliminary.

³ Less than 500 acres.

⁴ Totals may not add due to rounding.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ July 1 for flue-cured types 11–14 and cigar types 61 and 62; Oct. 1 for all other types.

² Exports by rehandling trade included in totals of types from which they are made.

³ Disappearance adjusted for tobacco still on farms at end of marketing year.

⁴ Preliminary.

⁵ Includes fire loss of an estimated 4.7 million pounds.

⁶ Includes fire loss of an estimated 2 million pounds.

⁷ Puerto Rican crop planted in the fall of the year shown and harvested the following spring.

⁸ Includes Perique.

Economic Research Service, Basic export data from the official reports of the Department of Commerce. Data for 1959–63 in *Agricultural Statistics, 1972*, table 151.

1975-----	124,626	129,192	134,229	129,418					
1976-----	131,094								

¹ Stocks shown have been converted to a farm-sales-weight basis—the equivalent of weight at the time of sale by grower—thereby making these data of leaf-tobacco stocks comparable with data of leaf-tobacco production.

² Stocks on the island of Puerto Rico are included.

³ These tobaccos were previously grouped together and designated "type 90."

Agricultural Marketing Service.

¹ Cigars produced in bonded manufacturing warehouses are included.

² "King size" cigarettes included in this category.

³ Formerly designated "Scrap."

^a Less than 500,000.

^b Excise tax on chewing and smoking tobacco and snuff discontinued after 1965. Data now reported by Agricultural Marketing Service, U.S. Department of Agriculture, and are not strictly comparable with prior year.

^c Preliminary.

Agricultural Marketing Service. Compiled from reports of the Internal Revenue Service, U.S. Treasury Department. Data for 1954-62 in *Agricultural Statistics*, 1972, table 153.

CHAPTER III

STATISTICS OF OILSEEDS, FATS, AND OILS

This chapter includes information on cottonseed, flaxseed, olive oil, peanuts, soybeans, margarine, and fats and oils. Most butter statistics are included in the chapter on dairy and poultry statistics. Lard data are mostly in the chapter on livestock.

Table 141.—Cottonseed: Cotton area and cottonseed production, farm disposition, season average price per ton received by farmers, and value, United States, 1959–75

Year	Harvested area of cotton	Cottonseed				
		Production	Total sales to oil mills	Other ¹	Price ²	Value of production

¹ U.S. averages not fully representative of entire crop because of relatively small volume of seed graded in some areas. ² These basic factors are combined to form indexes of quantity and quality which in turn are used to determine the official grade of cottonseed in accordance with the United States Official Standards for Grades. ³ The quantity index measures the oil and cake or meal in the cottonseed, taking into account variations in the quantity of oil, protein, and linters. ⁴ The quality index measures the deterioration in oil and meal and takes into account the excesses of moisture and foreign matter. ⁵ The average grade is the product of the quantity index times the quality index. The base grade is 100.0. ⁶ Samples graded by licensed chemists under the supervision of the U.S. Department of Agriculture. ⁷ The linters factor was eliminated from official grade standards effective Sept. 4, 1972.Agricultural Marketing Service. Data for 1954–61 in *Agricultural Statistics, 1972*, table 162.

¹ Includes area planted in preceding fall.² Preliminary.

Statistical Reporting Service.

FOOTNOTES FOR TABLE 151

¹ Harvests of the Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere countries in 1975 was combined with the Southern Hemisphere harvest which began late in 1975 and ended early in 1976. Estimates do not include China where annual production probably varies from 25,000 to 50,000 tons.

² Preliminary.³ Seeded area.⁴ Includes estimates for the above countries for which data are not available and for minor producing countries.⁵ Includes fiber flax area and seed production.⁶ Area includes that harvested for seed and that portion of fiber area which is harvested for seed as well as fiber. Production includes seed from fiber flax.⁷ Flaxseed from area grown for seed only.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Net weight basis.² Seed used for planting the crop of the following year. The difference between total seed and seed used on farms where grown represents peanuts purchased for seed and is duplicated under "Sold."³ Obtained by weighting State prices by quantity sold.⁴ Beginning 1972, not estimated separately.⁵ Preliminary.Statistical Reporting Service. Data for 1929-58 in *Agricultural Statistics*, 1972, tables 177 and 181.

¹ Years shown refer to years of harvest. Southern Hemisphere crops which are harvested in the early part of the year are combined with those of the Northern Hemisphere harvested the latter part of the same year.² Harvested area as far as possible.³ Preliminary.⁴ Area harvested for beans.⁵ Planted area.⁶ Quantities purchased by the Nigerian Marketing Boards for exports.⁷ European farms only.⁸ Includes estimates for the above countries for which data are not available and for minor producing countries.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Years indicated are those in which the predominant share of the given oil or fat was produced from its related raw material.² Preliminary.³ Excludes olive residue oil.⁴ Net exports.⁵ Production estimated on the basis of exports and information available on consumption in the various producing areas.⁶ Mill production only.⁷ Includes quantities of refined oil for edible purposes.⁸ Not separately classified.⁹ Production relates to rendered lard only in most countries.¹⁰ Export series revised; figures include edible and inedible tallow and greases but exclude animal oils.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

FOOTNOTES FOR TABLE 186

¹ Includes oil equivalent of cottonseed, soybeans, peanuts, and flaxseed exported for crushing abroad.² Includes commercial exports, voluntary or civilian relief, re-exports, and shipments to U.S. Territories.³ Excludes an estimate of oil equivalent of soap used in synthetic rubber. This use is included in "Other industrial."Economic Research Service. Computed from reports of the Commerce, Interior, and Agriculture Departments. Totals computed from unrounded numbers. Data for 1949-62 in *Agricultural Statistics*, 1972, table 209.

¹ Includes inedible tallow, inedible animal oils not elsewhere classified, and inedible animal greases and fats, not elsewhere classified, through 1964. Beginning 1965, data include tallow and grease (except wool grease) and choice white grease; lard and tallow oil; lard, oleo, and tallow stearine; unrendered animal fats, and animal fats and oils, n.e.c.

² Preliminary.

³ Includes the following estimated quantities exported under Title III, P.L. 480 (Foreign Donations) (thousand pounds): 39,207 in 1962, 1,438 in 1963, and 107,705 in 1964. Beginning January 1965, donations included as reported by the Bureau of the Census.

⁴ Includes the following estimated quantities exported under Title III, P.L. 480 (Foreign Donations) (thousand pounds): 92,466 in 1962, 18,004 in 1963, and 74,379 in 1964. Beginning January 1965, donations included as reported by the Bureau of the Census.

Foreign Agricultural Service. Compiled from reports of the Commerce and Agriculture Departments. Data for 1954–61 in *Agricultural Statistics*, 1972, table 211.

FOOTNOTES FOR TABLE 190

¹ Includes inedible tallow and choice white grease; inedible lard oil, tallow oil, lard stearine, oleo stearine, and tallow stearine; and animal fats, oils, and greases, n.e.c.

² Preliminary.

³ May not add due to rounding.

Foreign Agricultural Service. Compiled from reports of the U.S. Department of Commerce.

¹ Includes blanched or roasted peanuts.² Preliminary.Foreign Agricultural Service. Compiled from reports of the U.S. Department of Commerce. Data for 1954-61 in *Agricultural Statistics*, 1972, table 212.

FOOTNOTES FOR TABLE 191

¹ Computed from factory consumption, foreign trade, and stocks; beginning October 1966 through 1969, production as reported by the Bureau of the Census.Economic Research Service. Computed from unrounded numbers. Stocks, consumption, and trade from the U.S. Department of Commerce. Prices from the National Provisioner and Wall Street Journal. Data for 1949-62 in *Agricultural Statistics*, 1972, table 214.

¹ Mainly salad and cooking oils. Beginning 1959, includes all food fats and oils used other than butter, lard, margarine, or shortening.

² Including only the fat content of butter, estimated at 80.5 percent of total weight, and of margarine for which the fat content varies slightly each year.

³ Preliminary.

⁴ Fat equivalent of soap used in synthetic rubber is included with "Other industrial products."

⁵ Paints, varnishes, floor coverings, oilcloth, printing inks, core oils, synthetic resins, insulation, linings, packings, coated fabrics (other than oilcloth), caulkings, and other protective coatings.

Economic Research Service. Computed from reports of the Commerce, Interior, and Agriculture Departments. Totals and per capita estimates computed from unrounded numbers. Data for 1949–62 in *Agricultural Statistics*, 1972, table 215.

CHAPTER IV

STATISTICS OF VEGETABLES AND MELONS

This chapter contains statistics on potatoes, sweetpotatoes, and commercial vegetables and melons.

For potatoes and sweetpotatoes, the estimates of area, production, value, and farm disposition pertain to the total crop and include quantities produced both for sale and for use on farms where grown. Potato statistics are shown on a within-year seasonal grouping of winter, spring, summer, and fall crops, by States. Some States have production in more than one seasonal group.

For processing vegetables, the estimates of area, production, and value for each of the 9 crops relate to production used by commercial canners, freezers, and other processors, except dehydrators. These estimates include raw products grown by processors themselves and those grown under contract or purchased on the open market. This production and the actual area harvested are not duplicated in the fresh market estimates for the same commodities. The production of those vegetables used for processing for which regular processing estimates are not made is included in the fresh market estimates. However, with the vegetable program modifications implemented in 1973, the processed segment of production for asparagus, broccoli, carrots, and cauliflower is published at the end of the season. Annual production, price, and value estimates for the portion processed are published beginning with 1971.

Changes in the statistical program for fresh market vegetables were announced by the U.S. Department of Agriculture in December 1972 and are incorporated in this chapter. A major modification is that for the 17 principal fresh market vegetable and melon crops, the 12 seasonal groups formerly used to report statistics for these crops are reduced to four. These quarterly seasons are now winter, spring, summer, and fall as shown below:

Seasonal Groups and Marketing Period

Winter: January, February, March
Spring: April, May, June

Summer: July, August, September
Fall: October, November, December

The seasonal patterns of harvest do not correspond precisely in all States to the quarterly estimating period or periods designated, as the latter are necessarily generalized. In some cases, only one seasonal group is shown for a State, but marketing may be active in earlier or later months. Because of the small volume from this earlier or later area, the crop estimate has been placed in the seasonal group where the largest portion is harvested. In addition to realignment of the 17 crop estimates into quarterly periods, the estimates are now defined on a calendar-year basis as opposed to a crop-year concept. Therefore, estimates published in this chapter for 1971 and 1972 are revised and in some cases may not be comparable with previous years.

Beginning in 1968, commercial vegetables for fresh market include 22 principal vegetables and melon crops in the major producing States. Earlier years include the following three additional crops: lima beans, beets, and green peas. These estimates relate to crops which are grown primarily for sale, and they do not include vegetables and melons produced in farm and nonfarm gardens. The bulk of the production of the principal vegetable and melon crops is for consumption in the fresh state. However, quantities used by processors of artichokes, brussels sprouts, celery, garlic, onions, and green peppers are included, and separate estimates of commercial processing are not made for these crops. The commercial estimates of the principal crops include local market production from areas near consuming centers as well as production from well-recognized commercial areas which specialize in producing supplies for shipment to distant markets.

For fresh market vegetables and melons, value per unit and total value are on a f.o.b. basis, except garlic, for which values are reported annually on a field-run basis at packinghouse door. For processed vegetables, value per unit and total value are at processing plant door.

Two new tables with estimates of fall potato stocks held by growers and dealers are included in this chapter.

¹ Area for fresh market is area for harvest, including any partially harvested or not harvested because of low prices or other economic factors. Area for processing is area harvested.

² Area, production, and farm value of the following 27 crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, lima beans, snap beans, beets, broccoli, Brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole, garlic, honeydew melons, kale, lettuce, onions, green peas, green peppers, shallots, spinach, tomatoes, and watermelons. Lima beans, beets, kale, green peas, and shallots discontinued in 1968.

³ Area, production, and farm value of the following 10 crops in all States: Asparagus, lima beans, snap beans, beets, cabbage (sauerkraut), sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Production of other vegetables processed included in fresh market series of estimates.

⁴ Production for fresh market prior to 1964 includes some quantities not marketed because of low prices or other economic factors which are excluded in computing value. Production since 1964 is the quantity sold.

⁵ Value for all fresh market vegetables, except garlic, on f.o.b. basis. For processed vegetables, beginning 1964, value at processing plant door; prior to 1964, average price received by growers at receiving point.

⁶ Beginning 1971, asparagus for processing included in fresh market segment.

¹ Asparagus for fresh market and for processing is frequently harvested from the same area; therefore it is not practical to make individual area estimates for these segments.

² Preliminary.

³ Mostly for processing; includes Arkansas, Indiana, Iowa, Maryland, Minnesota, Ohio, Oregon, and Virginia.

⁴ Includes small quantities used for fresh market.

⁵ Data for fresh market include Indiana, Iowa, Maryland, Ohio, and Oregon. Data for processing include Arkansas, Indiana, Iowa, Maryland, Minnesota, Oregon, and Virginia.

¹ Excludes some quantities not marketed (1,000 hundredweight): 101 in 1964 and 3 for fresh market and 13,630 tons for processing in 1965. Prior to 1964, includes some quantities not marketed which were excluded in computing value (1,000 hundredweight): 156 in 1959, 141 in 1960, 80 in 1961, 81 in 1961, 81 in 1962, and 106 in 1963.

² Fresh market price and value on f.o.b. basis.

³ Beginning 1964, at processing plant door; prior to 1964, average price received by growers at receiving point.

⁴ Stocks in hands of original shippers of both salt and dill pickles, sold and unsold, in tanks and barrels, on Oct. 1. Beginning 1962, includes stocks of fresh-pack pickles.

1972	295,955	23,520	7,936	19,968	-----	268,051
1973	299,410	25,160	6,563	18,352	-----	274,495
1974 ⁷	341,097	23,517	6,565	32,394	-----	302,138

¹ Excludes the following quantities not harvested or not marketed (1,000 hundredweight): 310 in 1966, 78 in 1967, and 1,369 in 1971. Includes 333,000 cwt. in 1963 not harvested or not marketed because of low prices.

² Includes seed purchased and seed used on farms where grown.

³ Changed to "For seed, feed, and household use" in 1971.

⁴ Prior to 1971, designated as "Feed, shrinkage, and loss."

⁵ Consists of potatoes sold for all purposes including food, seed, processing, and livestock feed.

⁶ Not estimated separately, beginning 1971.

¹ For fresh market, excludes the following quantities not marketed (1,000 hundredweight): 1 in 1964, 56 in 1965, 406 in 1966, 1 in 1967, 100 in 1970, and 19 in 1973. For processing, excludes 90,600 tons not marketed in 1965. Prior to 1964, includes the following quantities not marketed which were excluded in computing value (1,000 hundredweight): For fresh market, 1 in 1962 and 1 in 1963. In 1968, includes some quantities not delivered because of economic conditions; average value derived.

² Fresh market price and value on f.o.b. basis.

³ Beginning 1964, at processing plant door; prior to 1964, average price received by growers at receiving point.

⁴ Includes "otherwise prepared," if any.

⁵ Includes exports for military-civilian feeding abroad.

⁶ Preliminary.

¹ Shipments by truck are not included but have become increasingly important during this period. The data are not indicative of total production or total sales.

² Includes casaba, honeydew, persian, and mixed melons. Cars of mixed melons may include cantaloups as well as other muskmelons.

Agricultural Marketing Service. Compiled from daily and monthly reports received from officials and local agents of common carriers throughout the country. Shipments shown in carlots include boat shipments reduced to a carlot basis. Data for 1949-62 in *Agricultural Statistics*, 1972, table 288.

¹ Total crop for processing converted to a canned basis by applying factors (cases of 24 No. 303 cans per ton, farm weight): Cucumbers for pickles, 83 cases for 1954, 112 cases for 1964, and interim years interpolated; cabbage for kraut, 65.9 cases for 1954, 54.0 cases for 1964, and interim years interpolated.

² Equivalent cases of 24 No. 303 cans.

³ Preliminary.

⁴ Includes combination vegetable juices containing at least 70 percent tomato juice.

Economic Research Service. Compiled mainly from reports of the National Canners Association. Data for 1949–62 in *Agricultural Statistics*, 1972, table 290.

FOOTNOTES FOR TABLE 264

¹ Fresh vegetable consumption computed from total commercial production for fresh market, including greenhouse production. Does not include production for home use. Civilian consumption obtained by dividing the total apparent civilian consumption by total civilian population as reported by the Bureau of the Census. All data for calendar year, except dry field peas which are on a crop-year basis.

² Less than 0.05 pound.

³ Beginning 1968, included in minor vegetables.

⁴ Preliminary.

⁵ Includes less than 0.05 pound of shallots each year from 1959 through 1967. Beginning 1968, included in minor vegetables.

⁶ Beginning 1971, dehydrated onions are excluded from onions and shallots and reported separately.

⁷ Includes table stock and processed.

Economic Research Service. Data for 1929–58 in *Agricultural Statistics*, 1972, table 289.

Total of these items		28,523	25,845	50,970	(6)	(6)	(6)

¹ Data for asparagus, lima beans, sauerkraut, and spinach are either estimates or interpolations.² Actual cases.³ Canners' stocks of sauerkraut converted to cases by using a factor of 18 cases of 24/303's per barrel (of 45 gallons).⁴ Tomato catsup stocks are 6/10's and larger only.⁵ Not available.

Agricultural Marketing Service. Compiled mainly from reports of the National Canners Association, the Canners League of California, and the National Kraut Packers Association, and the U.S. Department of Commerce.

CHAPTER V

STATISTICS OF FRUITS, TREE NUTS, AND HORTICULTURAL SPECIALTIES

Fruit production was defined, beginning with the 1969 crop, as the quantity sold or utilized. Production under this definition is comparable with the "production having value" series carried in earlier editions of Agricultural Statistics. Additional quantities of fruit left unharvested or culled from harvested fruit because of economic conditions are shown in the tables or footnotes. Losses from natural causes, such as windstorms, freezes, etc., are not included in production. Production relates to the crop produced on all farms, except for apples and strawberries. In accordance with Congressional enactment, the Department's estimates of apple production since 1938 have related only to commercial production. The estimates for strawberries cover production on area grown primarily for sale.

The annual estimates are checked and adjusted at the end of each marketing season on the basis of shipment and processing records from transportation agencies, processors, cooperative marketing associations, and other industry organizations. The estimates are reviewed (and revised if necessary) at 5-year intervals, when the Census of Agriculture data become available. The Department's available statistics are limited to the major tree fruits and nuts and to grapes, cranberries, and strawberries, and exclude some States where census data indicate production is of only minor importance.

¹ In orchards of 100 or more bearing-age trees.² Quantities not harvested for economic reasons and excess cullage of harvested fruit.³ Production is the quantity sold or utilized.⁴ Fresh fruit prices are equivalent returns at packinghouse door for California, Oregon, and Washington; for other States, returns at point of first sale. Beginning 1963, processing prices are equivalent returns at processing plant door. U.S. prices obtained by weighting State prices by quantity sold.⁵ Dried and canned are converted to terms of fresh apples on following basis: 1 pound dried is equivalent to 8 pounds fresh; 1 pound of canned is equivalent to about 2 pounds fresh; 48 pounds fresh equal 1 bushel. No re-exports reported.⁶ July–December average. Not reported separately after 1964.⁷ Preliminary.Statistical Reporting Service and Economic Research Service. Data for 1944–58 in *Agricultural Statistics*, 1972, table 301. Foreign trade data from reports of the U.S. Department of Commerce.Table 278.—Apples, fresh (dessert and cooking): Production in specified countries, 1973–75 ¹

1974-75 ¹⁰							

¹ See footnote 1, table 299.² Not harvested for economic reasons and excess cullage of harvested fruit.³ Production is the quantity sold or utilized.⁴ Equivalent returns per box at the intake packinghouse door for all methods of sale. When sale represents fruit sold at point other than intake packinghouse door, prices of fruit as sold are converted by additions or subtractions of necessary charges to or from prices of fruit as actually sold. Obtained by weighting State prices by quantity sold.⁵ Includes quantities used for juice, concentrates, grapefruit segments, and other citrus products. In some seasons, includes appreciable quantities of oranges and lemons in California delivered to processing plants which were not utilized, but for which growers received payment.⁶ Year beginning November for oranges and lemons; year beginning September for grapefruit; year beginning July for limes.⁷ Exports reported in pounds which are converted to boxes on the following basis: Oranges, 84 pounds per box; grapefruit, 76 pounds per box; lemons, 79 pounds per box. Beginning 1964-65, oranges and tangerines reported separately; also, lemons and limes.⁸ Imports converted to boxes on the following basis: Oranges, 90 pounds per box; grapefruit, 80 pounds per box; lemons, 78 pounds per box; limes, 80 pounds per box.⁹ Includes small quantities of tangerines in Texas; prior to 1964-65, includes small quantities in Louisiana and Arizona. Excludes Florida temples (except for foreign trade).¹⁰ Preliminary.¹¹ Less than 500 boxes.¹² Florida only prior to 1961; beginning 1961, also includes California and, beginning 1964, Arizona.Statistical Reporting Service and Economic Research Service. Foreign trade data from reports of the U.S. Department of Commerce. Data for 1944-61 in *Agricultural Statistics*, 1972, table 320.

FOOTNOTES FOR TABLE 299—continued

⁴ Navel and miscellaneous varieties in Arizona and California; early and midseason varieties in Florida and Texas, including small quantities of tangerines in Texas.⁵ Net content of box varies. Approximate averages are as follows: Oranges—Arizona and California, 75 pounds; Florida, 90 pounds; and Texas, 85 pounds; grapefruit—Arizona and California Desert, 64 pounds; other California areas, 67 pounds; Florida, 85 pounds; Texas, 80 pounds; lemons—76 pounds; limes—80 pounds; tangelos—90 pounds; tangerines—Arizona and California, 75 pounds; Florida, 95 pounds; and temples—90 pounds.

Statistical Reporting Service.

¹ Season begins with the bloom of the first year shown and ends with completion of harvest the following year. For oranges, harvest in California usually starts in early November of the year shown and continues into November of the following year. In other States, harvest of oranges begins about Oct. 1 and ends in early summer. Grapefruit harvest for the California Desert and for all other States begins in the fall and ends by early summer. Harvest of other California grapefruit extends from early summer of the year after bloom through September. California lemons are harvested from Aug. 1 to July 31; Arizona lemons are harvested from Sept. 15 to Mar. 1. Florida limes are picked mostly from April through December. Florida tangelos are harvested largely from October through April.

² Preliminary.

³ Equivalent returns per box at the intake packinghouse door for all methods of sale. When sale represents fruit sold at point other than packinghouse door, prices of fruit as sold are converted by additions or subtractions of necessary charges to or from prices of fruit as actually sold.

Footnotes continued on page 215.

1975 ⁹	23,000	90.2	2,075,100	2,075,100	12.60	26,149	1,444,200

¹ Estimates relate to Massachusetts, New Jersey, Oregon, Washington, and Wisconsin.² Derived from total production.³ Total production which includes quantities unharvested for economic reasons plus excess cullage and/or set aside under provisions of the Cranberry Marketing Order. Cranberries dumped in 1959 which did not qualify for payment under the Cranberry Payment Program, AMM, 181A are also included (1,000 barrels); 1959, 18.9; 1960, 4; 1961, 1; 1962, 143; and 1963, 44.⁴ Series began in 1964.⁵ Obtained by weighting State prices by quantity sold. Equivalent returns for fruit at the first receiving station. For 1959, includes returns to growers for cranberries dumped which qualified for payment under the Cranberry Payment Program, AMM, 181A. Prices for 1960 and 1961 include cranberries paid for but not utilized.⁶ Beginning 1964, value is based on utilized production which is total production minus production set aside, and/or economic abandonment.⁷ Mainly for canning.⁸ Barrels of 100 pounds.⁹ Preliminary.Statistical Reporting Service. Data for 1944–58 in *Agricultural Statistics*, 1972, table 330.

¹ Production is the quantity sold or utilized. Additional quantities of fruit not harvested and excess cullage of harvested fruit are as follows (1,000 tons): California—61 in 1963; other States—0.2 in 1962, 25 in 1965, 0.3 in 1966, 6.8 in 1967, and 1.2 in 1975.

² Beginning 1963, quantities processed are priced at the equivalent processing plant door level.

³ Equivalent returns per ton for bulk fruit at the first delivery point.

⁴ Obtained by weighting State prices by quantity sold.

⁵ Preliminary.

⁶ Converted on the basis of country data, using the following weight per cubic foot: Argentina and Chile, 36 pounds; Belgium and Netherlands, 100 pounds; Canada, Italy, and Mexico, 40 pounds; Spain, 24 pounds; Republic of South Africa, 16 pounds; and all other, 20 pounds.

⁷ Dried basis: 1 ton of raisins equivalent to about 4 tons of fresh grapes.

⁸ Exports and imports of raisins converted to sweatbox, or production basis at the ratio of 1 to 1.08.

Statistical Reporting Service and Economic Research Service. Foreign trade data from reports of the U.S. Department of Commerce. Data for 1944-58 in *Agricultural Statistics, 1972*, table 333.

¹ Production is the quantity sold or utilized. ² Fresh fruit prices are equivalent returns at first delivery point. Processing fruit prices are at first delivery point prior to 1963; beginning 1963, they are equivalent returns at processing plant door. ³ Estimates discontinued. ⁴ Beginning 1964, includes "Home use." ⁵ Excludes 2,200 tons not harvested for 1965. ⁶ Preliminary.

¹ Production, price, value, and utilization for California only. ² Production is the quantity sold or utilized. ³ Beginning 1963, quantities processed are priced at the equivalent processing plant door level. ⁴ Includes Spanish, Greek, and Sicilian styles, and chopped, minced, brined, and other cures. ⁵ Preliminary.

Statistical Reporting Service and Economic Research Service. Imports compiled from the reports of the U.S. Department of Commerce. About 40 gallons of oils are obtained from 1 ton of olives in California. Data for 1944–58 in *Agricultural Statistics*, 1972, table 339.

¹ Quantities not harvested for economic reasons and excess cullage of harvested fruit. ² Production is the quantity sold or utilized except for California Clingstone which includes the following quantities of cannery diversions and culls (million pounds): 104.0 in 1959, 98.0 in 1960, 141.0 in 1961, 160.8 in 1962, 92.4 in 1963, 152.4 in 1964, 178.0 in 1965, 169.6 in 1966, 157.6 in 1967, 172.6 in 1968, 228.0 in 1969, 196.0 in 1970, 122.0 in 1971, 120.0 in 1972, 162.0 in 1973, 152.0 in 1974, and 150.0 in 1975. ³ Obtained by weighting State prices by quantity sold. Beginning 1963, quantities processed are priced at the equivalent processing plant door level. ⁴ Net processed weight. ⁵ Canned peaches are 40 percent of total canned fruit for salad. ⁶ Dried peaches are 21 percent of total dried fruit for salad. ⁷ Beginning June 1965, exports of dried fruit converted to unprocessed dry weight by dividing by 1.08 (1.07 prior to June 1965). Unprocessed dry weight converted to terms of fresh fruit on the basis that 1 pound dried equals 6.0 pounds fresh (6.5 prior to June 1965). Canned peaches converted to terms of fresh on basis that 1 pound canned equals about 1 pound fresh. ⁸ Preliminary.

Statistical Reporting Service and Economic Research Service. Foreign trade data from reports of the U.S. Department of Commerce. Data for 1944–58 in *Agricultural Statistics*, 1972, table 341.

¹ Quantities not harvested for economic reasons and excess cullage of harvested fruit.² Production is the quantity sold or utilized.³ Obtained by weighting State prices by quantity sold.⁴ Net processed weight.⁵ Dried pears are 16½ percent of total dried fruit for salad.⁶ Canned pears are 35 percent of total canned fruit for salad.⁷ Beginning June 1965, canned pears converted to terms of fresh on the basis that 1 pound canned equals about 1.0 pound fresh (1.2 prior to June 1965); dried pears converted to terms of fresh on the basis that 1 pound dried equals about 6.5 pounds fresh (5.5 prior to June 1965); 50 pounds fresh equals 1 bushel, except in California, where 48 pounds equals 1 bushel.⁸ Preliminary.Statistical Reporting Service and Economic Research Service. Foreign trade data from reports of the U.S. Department of Commerce. Data for 1944–58 in *Agricultural Statistics, 1972*, table 346.

¹ Years shown refer to years of harvest in Northern Hemisphere. Harvests of Northern Hemisphere countries are combined with those of the Southern Hemisphere which immediately follow; thus the crop harvested in the Northern Hemisphere in 1974 is combined with preliminary forecasts for the Southern Hemisphere harvests which began late in 1974 and ended early in 1975.

² Preliminary.

³ Commercial crop.

⁴ May include some cider pears.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

² Preliminary.

Economic Research Service. Compiled from New York Daily Fruit Reporter. Prices are weighted by number of boxes sold each day. Data for 1949-62 in *Agricultural Statistics, 1972*, table 350.

FOOTNOTES FOR TABLE 325

¹ Additional quantities of fruit not harvested and excess cullage of harvested fruit are as follows (tons): 1973—Colorado, 580; Washington (Bartlett), 4,000; 1974—Colorado, 60; Michigan, 1,000; and 1975—New York, 2,500; Oregon (other), 3,000; and Utah, 800.

² Preliminary.

³ Equivalent packinghouse-door returns for Oregon and Washington, equivalent returns for bulk fruit at the first delivery point for California, and the average price as sold for other States. Quantities processed are priced at the equivalent processing plant door level.

¹ Net processed weight.² Dried prunes in salad estimated at 43 percent of total dried fruit for salad.³ Beginning 1965, exports and imports of dried prunes converted to unprocessed dry weight by dividing by 1.04 (1.025 prior to 1965). Unprocessed dry weight converted to terms of fresh fruit on the basis that 1 pound dried equals 2.7 pounds fresh (2½ pounds prior to 1965). Canned prunes converted to terms of fresh fruit on the basis that 1 pound canned equals 0.729 pound fresh. "Otherwise prepared or preserved" converted to terms of fresh fruit on the basis that 1 pound equals 0.899 pound fresh.^a No longer reported separately.

Preliminary.

Economic Research Service. Foreign trade data from reports of the U.S. Department of Commerce. Data for 1944-58 in *Agricultural Statistics*, 1972, table 360.

¹ Excludes the following quantities not marketed (1,000 hundredweight): 77 in 1964, 302 in 1965, 4 in 1966, 44 in 1967, 70 in 1969, and 100 in 1970. Includes 5,000 cwt. in 1959 not marketed which was excluded in computing value.

² Fresh market on f.o.b. basis. Beginning 1964, processing value at processing plant door; prior to 1964, average price received by growers at receiving point.

³ Mostly for fresh market, but includes some quantities used for processing in States for which processing estimates are not prepared.

¹ Data for all commodities are on a calendar-year basis, except apples and pears which begin in June of year indicated and end the following year. Shipments by truck are not included but represent a large proportion of total movement, especially for some commodities. The data are not indicative of total production or total sales.

² Includes satsumas and tangerines.

Agricultural Marketing Service. Compiled from daily and monthly reports received from officials and local agents of common carriers throughout the country. Shipments shown in carlots include boat shipments reduced to a carlot basis. Data for 1949–62 in *Agricultural Statistics*, 1972, table 368.

¹ Fresh citrus fruits are on a crop-year basis. Dried fruits are on a pack-year basis. The per capita civilian consumption was obtained by dividing the total apparent civilian consumption by total population adjusted for members of the Armed Forces not eating out of civilian supplies.

² Excludes noncommercial apples.

³ Apricots, avocados, bananas, cherries, cranberries, figs, grapes, nectarines, peaches, pears, pineapple, papayas beginning 1960, plums and prunes, and strawberries.

⁴ Apples, applesauce, apricots, berries, cherries (including brined), cranberries, figs through 1972, fruit cocktail and salad, citrus sections, olives (including brined), pineapple, plums, prunes, peaches (including spiced), and pears.

⁵ Grapefruit, orange, blended citrus, lemon and lime, tangerine and blends, pineapple, apple, grape, and prune juices, and fruit nectars. Includes canned concentrated citrus juices converted to single-strength basis, but excludes all frozen juices.

⁶ Dried apples, apricots, dates, figs, peaches, pears, prunes, and raisins. Excludes unmerchantable figs, substandard prunes, and prunes used for juice and concentrate. Data are in terms of processed dried weight.

⁷ Principally cherries, apples, peaches, apricots, strawberries, other berries, and citrus juices.

¹ Equivalent wholesale value of all sales.

² Net value of sales.

³ Unallocated to avoid disclosure of individual operations.

⁴ No commercial production.

Statistical Reporting Service.

CHAPTER VI

STATISTICS OF HAY, SEEDS, AND MINOR FIELD CROPS

Chapter VI deals with hay, pasture, seeds, and various minor field crops. Table 388 shows the seeding rate for a number of specified crops. The State averages are based on surveys made in 1975. The United States average rates are derived by weighting the average for each State by the area planted to the particular crop. Rates are not shown for States where the crop is not estimated currently.

Two tables showing area, yield, production, prices, and value of broomcorn by States have been dropped as estimates have been discontinued by the Statistical Reporting Service.

Table 376.—Hay, all: Area, yield, production, farm disposition, and value, United States, 1959–75

Year	Area harvested	Yield per acre	Production	Disposition on farms where produced		Season average price per ton received by farmers ¹	Value of production
				Used on farms	Sold

FOOTNOTES FOR TABLE 383

¹ Numerical equivalent of condition: 80 and over, good to excellent; 65–79, poor to fair; 50–64, very poor; 35–49, severe drought; and under 35, extreme drought.

² Excludes Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

³ Also, excludes Idaho, Iowa, Montana, Nebraska, North Dakota, South Dakota, and Wyoming for 1961–71.

⁴ 30 States (April only).

⁵ 37 States (April and December only).

Statistical Reporting Service.

1975 ⁵	1,496.2	1,447.1	1,188	17,196	169	—	17,027	21.50	370,473

¹ Includes, besides the ordinary edible beans, blackeyes and garbanzos in California. Excludes soybeans, mung beans, and beans grown for garden seed.

² Cleaned basis.

³ Includes small quantities fed to livestock or lost. Discontinued after 1960.

⁴ Obtained by weighting State prices by quantity sold. Includes allowance for unredeemed loans and purchases by the Government valued at the average loan and purchase rate, by States.

⁵ Preliminary.

Statistical Reporting Service. Figures include principal producing States only. Foreign trade data from reports of the U.S. Department of Commerce. Data for 1924–58 in *Agricultural Statistics, 1962*, tables 420 and 422, include beans grown for garden seed and are not strictly comparable.

¹ Includes generally all beans of the species *Phaseolus vulgaris* (haricot or kidney-shaped beans) and *Phaseolus lunatus* (lima beans).

² Harvested immediately preceding the harvest in Northern Hemisphere.

³ Yields are computed from data for beans grown alone.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Includes the following quantities not marketed because of economic conditions, fire losses, and/or provisions under terms of a marketing agreement (1,000 pounds): 1,518 in 1959; 324 in 1960; 159 in 1962; 86 in 1963; 297 in 1964; 278 in 1966; 4,550 in 1967; 958 in 1968; 129 in 1972; 51 in 1974; and 176 in 1975.

² Prices obtained by weighting State prices by quantity sold.

³ Stocks in dealers' hands and in brewers' hands are included, and these have greatly exceeded the growers' stocks.

⁴ Used for fermented malt liquor. Records of the Internal Revenue Service.

⁵ Includes 262,000 pounds paid for but not harvested.

⁶ Preliminary.

Statistical Reporting Service and Economic Research Service. Foreign trade data from reports of the U.S. Department of Commerce. Data for 1929–58 in *Agricultural Statistics*, 1972, table 439.

CHAPTER VII

STATISTICS OF CATTLE, HOGS, AND SHEEP

This chapter contains information about most kinds of farm livestock and livestock products, with the exception of dairy and poultry. The information relates to inventories, production, disposition, prices, and income for farm animals, and to livestock slaughter (including horse slaughter), meat production, and market statistics for meat animals.

The term "on farms" as used in this chapter includes ranches. Estimated numbers do not include livestock not on farms.

1963	9,702	1968	11,417	1973	14,432		
1964	9,845	1969	12,534	1974	13,642		

¹ Animals being fattened for slaughter market on grain or other concentrates and expected to produce a carcass that will grade Good or better. For 1960 and 1961, data are for 37 States—the 23 shown in table 426 plus Nevada, Utah, Wyoming, and 11 southeastern States. For 1962–71, data shown are for 39 States—that 37 above plus Maryland and New York. From 1972 to date, data are for United States.

¹ Includes custom slaughter for use on farms where produced, but excludes interfarm sales within the State.

² Excludes custom slaughter for farmers at commercial establishments.

³ Adjustment made for changes in inventory and for shipments.

⁴ Includes receipts from marketings and sales of farm-slaughtered meat.

⁵ Includes cash receipts from sales of cattle, calves, and beef and veal plus value of cattle and calves slaughtered for home consumption.

Statistical Reporting Service.

¹ Includes animals custom slaughtered for use on farms where produced, but excludes interfarm sales within the State.² Excludes animals custom slaughtered for farmers at commercial establishments.³ Adjustments made for changes in inventory and for inshipments.⁴ Receipts from marketings and sale of farm-slaughtered meat.⁵ Cash receipts from sales of sheep, lambs, and mutton plus value of sheep and lambs slaughtered for home consumption.⁶ Decrease in inventory and large death loss of sheep resulted in a deficit in number of pounds produced.

¹ Includes shearing at commercial feeding yards.

² Preliminary.

³ For Texas and California, the weight per fleece is the amount of wool shorn per sheep and lamb during the year.

⁴ Production multiplied by annual average price.

⁵ Monthly price weighted by monthly sales of wool for specified States; the remaining States are annual averages.

Statistical Reporting Service.

Table 472.—Wool: Number of sheep shorn, weight per fleece, production, average price per pound received by farmers, value of production, pulled wool production, exports, imports, total new supply of apparel wool, and imports of carpet wool, United States, 1960–75

¹ Includes sheep shorn at commercial feeding yards.

² Average price relates to April–March marketing season for 1960–62, April–December for 1963, and calendar year from 1964 to date. Price computed by weighting State average prices for all wool sold during the year by sales of shorn wool.

³ Production by States multiplied by annual average price.

⁴ Preliminary.

⁵ Conversion factors from grease basis to clean basis are as follows: shorn wool production—45 percent, 1960–63; and 47.7 percent, 1964 to date; pulled wool production—75 percent, 1960–63; and 72.9 percent, 1964 to date.

⁶ Apparel wool includes all dutiable wool; carpet wool includes all duty-free wool.

⁷ Production minus exports plus imports; stocks not taken into consideration.

⁸ Beginning 1965, includes carpet wool exports.

Statistical Reporting Service and Economic Research Service. Imports and exports from Foreign Commerce and Navigation of the United States and other reports of the U.S. Department of Commerce. Data for 1945–59 in *Agricultural Statistics*, 1972, table 502.

¹ Includes shorn wool, pulled wool, and wool exported on skins, with the latter two converted to a greasy basis. Wool produced in the spring in the Northern Hemisphere is combined with that produced in the season beginning July 1 or Oct. 1 of the same year in the Southern Hemisphere.

² Preliminary.

³ Does not include pulled wool.

⁴ Includes pulled wool converted to greasy basis using 1.7 as conversion factor.

⁵ Includes Republic of South Africa, Lesotho, and South-West Africa.

⁶ Totals may not add due to rounding.

Foreign Agricultural Service. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Attachés and Foreign Service Officers, results of office research, and related information.

¹ Average needed to bring the return up to the support level. The payment to an individual producer is computed by applying the announced percentage to his receipts from marketings of shorn wool.

² For unshorn lambs sold.

³ Unadjusted for weight of unshorn lambs produced.

⁴ Payments for wool produced during the year shown are made after Mar. 31 of the following year.

Agricultural Stabilization and Conservation Service. Data for 1955–62 in *Agricultural Statistics, 1972*, table 504.

¹ Wool grown in the range areas of Oregon, Washington, the intermountain States (including Arizona and New Mexico) and parts of the Dakotas, Kansas, Nebraska, and Oklahoma. These wools vary considerably in shrinkage and color.

² Open market prices.

³ Wool grown east of the Mississippi River and in the farm areas of the Dakotas, Iowa, Kansas, Minnesota, Missouri, Nebraska, and Oklahoma.

⁴ Prices are reported on a dry-combed basis instead of oil-combed basis as in the past.

⁵ Beginning 1970, 64's warp and $\frac{3}{8}$ warp.

Economic Research Service. Data for 1950–62 in *Agricultural Statistics, 1972*, table 505.

¹ Scoured wool, plus greasy wool converted to a scoured basis, using assumed average yields. Includes both pulled and shorn, foreign and domestic wool. Wool was considered as consumed (1) on the woolen system when laid in mixes (2) on the worsted system when entering scouring bowls. Consumption on the worsted system is taken as the sum of top and noil production.

² 53 weeks.

³ Preliminary.

⁴ Domestic and duty-paid foreign.

⁵ Excludes wool consumed on the cotton system and in the manufacture of felt, hat bodies, and other miscellaneous products.

⁶ Beginning 1975, 50's up to 60's and 48's and coarser combined.

⁷ Duty-free foreign.

Economic Research Service. Compiled from reports of the U.S. Department of Commerce.

¹ For method of combining species and weights in construction of these index numbers see Agricultural Handbook No. 365, Volume II, major statistical series of the U.S. Department of Agriculture, April 1970. Weights based on 1967 sales values relative to milk cows are as follows: Milk cows, 1.00; beef cattle and calves, 0.71; hogs, 0.17; sheep and lambs, 0.07; chickens, 0.001; and turkey breeder hens, 0.014. For 1965 and thereafter, milk cows and heifers that have calved are used in place of milk cows two years old and older; turkey breeder hens on farms Dec. 1 preceding year are used in place of all turkeys on farms Jan. 1; all chickens (excluding commercial broilers) on farms Dec. 1 preceding year are used in place of all chickens on farms Jan. 1. Hogs and pigs relate to Dec. 1 preceding year.

² Weights for milk cattle are as follows: Milk cows, 1,000; heifers weighting 500 lbs. and over, 0.56.

³ Preliminary.

CHAPTER VIII

DAIRY AND POULTRY STATISTICS

Dairy statistics in this chapter include series relating to many phases of production, movement, prices, stocks, and consumption of milk and its products. Two series of number of milk cows on farms are included in this publication. One series is an inventory number of a specific classification estimated as one of the major groups making up the total cattle population on January 1. The other series identified as "milk cows on farms" is an annual average number of milk cows during the year (excluding any not yet fresh) and is used in estimating milk production.

In comparing the several series of milk prices, it is important to note that prices received by farmers for all whole milk sold are for milk or milkfat content as actually sold, while certain prices paid by dealers for milk for fluid purposes or for specified manufacturing purposes may be quoted on a 3.5 percent butterfat basis, or for some types of manufacturing milk on the test of the milk used for that particular purpose.

Poultry and poultry products statistics include inventory numbers of chickens by classes; the production, disposition, cash receipts, and gross income from chickens and eggs; poultry and egg receipts at principal markets; commercial broiler production; turkey production, disposition, and gross income; poultry and eggs under Federal inspection; and the National Poultry Improvement Plan. Estimates relating to inventories, production, and income exclude poultry and eggs produced on places not classified as farms.

Dry whole milk	601	632	673	648	654
Ice cream and other frozen dairy products, total milk equivalent	11,449	11,615	11,850	12,215	12,557
Milk equivalent of butter and condensed milk used in ice cream	1,860	1,874	1,901	1,953	1,987
Net milk equivalent	9,589	9,741	9,949	10,262	10,570
Other manufactured products ⁶	377	377	537	650	599
Total manufactured products	63,580	64,141	62,667	64,538	61,768
Used in fluid products:					
Sold by dealers	50,546	51,334	52,411	53,037	53,566
Sold by producers directly to consumers ⁷	2,054	1,966	1,889	1,863	1,834
Total fluid sales	52,600	53,300	54,300	54,900	55,400
Used on farms where produced:					
Fed to calves	2,432	2,330	2,245	2,152	2,061
Consumed as fluid milk and cream	4,835	4,419	4,070	3,742	3,443
Used for farm-churned butter	1,115	915	743	595	470
Total used on farms	8,382	7,664	7,058	6,489	5,974
Residual ¹⁰	1,172	1,220	1,310	1,093	1,197
Total utilization	125,734	126,325	125,335	127,020	124,339

¹ Preliminary.² Whole milk equivalent (milkfat basis) of net imports of dairy manufacturing ingredients such as frozen cream and butterfat-sugar mixtures.³ Whole milk equivalent of net out-of-storage movement of fluid and plastic cream during the year. A negative figure represents a net movement of cream into storage.⁴ Total evaporated and sweetened condensed.⁵ Without adjustment for imported butterfat-sugar mixtures which replaced butter and condensed milk used in ice cream.⁶ Whole milk equivalent of dry cream, malted milk powder, part-skim milk, dry or concentrated ice cream mix, dehydrated butterfat, and other miscellaneous products using milkfat.

⁷ Sales directly to consumers by producers who sell only milk from their own herds; also includes milk produced by institutional herds.

⁸ Includes milk used for farm-churned butter, beginning 1970.

⁹ Includes some milk used for other purposes on farms or not utilized.

¹⁰ Includes minor miscellaneous uses and any inaccuracies in production and utilization estimates.

Statistical Reporting Service. Data for 1955-59 in *Agricultural Statistics, 1972*, table 553.

¹ Percentage of milk sold to plants and dealers that is eligible for fluid use (Grade A in most States). Includes fluid-grade milk used in manufactured dairy products.

² Not published to avoid disclosing individual operations.

³ Based on unrounded value. Includes milk sold directly to consumers.

⁴ Cash receipts divided by milk or milkfat represented in combined marketings.

⁵ Valued at average returns per 100 pounds of milk in combined marketings of milk and cream.

⁶ Cash receipts from marketings of milk and cream plus value of milk used for home consumption and farm-churned butter.

⁷ Includes value of milk fed to calves.

¹ Preliminary. ² Cash receipts divided by milk or milkfat represented in combined marketings. ³ Valued at average returns per 100 pounds of milk in combined marketings of milk and cream. ⁴ Cash receipts from marketings of milk and cream plus value of milk used for home consumption and farm-churned butter. ⁵ Includes value of milk fed to calves. For 1967, also includes value of milk used for other purposes on farms or not utilized.

Statistical Reporting Service. Data for 1950–62 in *Agricultural Statistics, 1972*, table 556.

¹ In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handler in-area sales are partially estimated.

² Plain and flavored.

³ Plain, fortified, and flavored skim and lowfat milk, and buttermilk.

⁴ Sales represent the marketing area after the expansion of January 1975.

⁵ Sales represent the marketing area prior to the expansion of June 1, 1975. Data are estimated.

⁶ Sales represent the marketing area after the merger and expansion of North Texas, Central West Texas, Austin-Waco, San Antonio, Corpus Christi, and South Texas, July 1, 1975.

Agricultural Marketing Service. Compiled from reports of market administrators.

¹ Simple average of monthly prices, by States, weighted by the number of milk cows on farms Jan. 1 of the current year.² Average price at average fat test for all milk sold at wholesale to plants and dealers, based on reports from milk-market administrators, cooperative milk-market associations, whole-milk distributors, and milk-products manufacturing plants, f.o.b. plant or receiving station (whichever is the customary place for determining prices) before hauling costs are deducted and including all premiums.³ Milk eligible for fluid market, including surplus diverted to manufacturing.⁴ Weighted average of monthly prices, by States, weighted by the estimated quantity of fat sold.⁵ Preliminary.⁶ Monthly average prices and tests weighted by estimated production in each month. Price f.o.b. factory or local receiving station (whichever is the customary place for determining prices) before hauling costs are deducted and including all premiums.⁷ Includes milk for canned condensed milk.Statistical Reporting Service. Data for 1950–62 in *Agricultural Statistics*, 1972, table 562.

FOOTNOTES FOR TABLE 528

¹ All prices are f.o.b. factory. Geographic division prices are straight averages of monthly prices. U.S. prices represent weighted average prices of milk for evaporated milk.² Idaho, Montana, Oregon, Washington, and Wyoming, through 1970.³ Arizona, California, Colorado, Nevada, New Mexico, and Utah, through 1970.⁴ Not shown separately to avoid disclosure of individual operations.⁵ Pertains to entire North Central region beginning 1971.⁶ Pertains to entire Western region beginning 1971.⁷ Includes South Atlantic region beginning 1972.⁸ Preliminary.Statistical Reporting Service. Data for 1950–62 in *Agricultural Statistics*, 1972, table 564.

¹ Total disappearance is based on production, imports, and change in stocks during the year. Production statistics for these commodities appear in other tables in this chapter. The total apparent civilian consumption was obtained by subtracting ending stocks, shipments, exports, and military takings from the total supply. The per capita civilian consumption for each year was obtained by dividing the total apparent civilian consumption by the number of persons eating out of civilian supplies.

² Includes both farm and factory-made butter.

³ Includes all kinds of cheese except cottage and full-skim American.

⁴ The evaporated milk is unskimmed, unsweetened, case goods. The condensed milk is unsweetened (plain condensed) unskimmed, bulk goods; and sweetened condensed milk, unskimmed, case and bulk goods.

⁵ Preliminary.

Economic Research Service. Data for 1929–58 in *Agricultural Statistics*, 1972, table 573.

FOOTNOTES FOR TABLE 537

¹ Milk equivalent of fluid items—whole milk, low-fat fluid items, and cream—at the average annual fat test of milk produced. Civilian consumption is total consumption less military takings. Per capita consumption is based on the number of persons eating from civilian supplies.

² Preliminary.

Economic Research Service. Data for 1929–58 in *Agricultural Statistics*, 1972, table 572.

¹ Percentage of the parity equivalent price for manufacturing milk and the parity price for butterfat as of the beginning of the marketing year.

² Announced purchase prices for products in bulk containers.

³ Indicated price is for Chicago (which represents an approximate U.S. average purchase price) based on New York prices less 80 percent of the lowest rail freight rate from Chicago to New York.

⁴ U.S. Grade A or higher standard moisture basis.

⁵ U.S. Extra Grade, not more than 3.5 percent moisture content. Prices quoted are for product in barrels and drums through Nov. 3, 1954; 100-lb. bags, Nov. 4, 1955 through Aug. 18, 1967; and 50-lb. bags beginning Aug. 19, 1967.

⁶ Milkfat and nonfat solids content of butter, cheese and nonfat dry milk purchased under price support and related programs. (Excludes purchases of fluid milk partly paid for by CCC under military and veterans milk program.) Includes purchases at market prices for domestic school lunch and welfare programs beginning with the 1966-67 marketing year and ending in the 1973-74 marketing year under Section 709 of the Food and Agriculture Act of 1965. Includes purchases with Section 32 funds for distribution to needy persons of evaporated milk beginning in the 1968-69 marketing year and purchases of dry whole milk during 1971-72 through 1974-75. Purchases were also made in 1973-74 through 1975-76 marketing year under Section 4(a) of the Agriculture and Consumer Protection Act of 1973.

⁷ Effective June 30, 1966.

⁸ Effective Aug. 19, 1967.

⁹ Effective for product in 50-lb. bags, beginning Aug. 10, 1967.

¹⁰ Effective June 24, 1968.

¹¹ Effective Nov. 28, 1968.

¹² Effective Nov. 19, 1969.

¹³ Effective June 9, 1970.

¹⁴ Effective Nov. 20, 1970.

¹⁵ Effective Jan. 10, 1971.

¹⁶ The requirement to support butterfat was suspended by the Agricultural Act of 1970 and terminated by the Agriculture and Consumer Protection Act of 1973.

¹⁷ Effective Mar. 15, 1973.

¹⁸ Effective Aug. 10, 1973.

¹⁹ Effective Jan. 4, 1975.

²⁰ Effective October 2, 1975.

¹ Does not include broiler production. Annual production, disposition, cash receipts, and gross income for chickens are for a Dec. 1 through Nov. 30 marketing year.

² Total chicks hatched less death loss of chicks and young chickens during the year.

³ Death loss during the year of mature chickens on hand Dec. 1.

⁴ Chickens raised less death loss during the year of mature chickens on hand Dec. 1.

⁵ Chickens consumed in households of producers.

⁶ Value of sales plus value of those consumed in households of producers.

Statistical Reporting Service.

¹ Broilers are young chickens of the heavy breeds and other meat-type birds, to be marketed at 2–5 pounds live weight, and from which no pullets are kept for egg production. These figures are not included in farm production of chickens. ² Includes value of consumption in households of producers, which is less than 1 percent of total production. ³ Commercial broilers were changed to a Dec. 1 through Nov. 30 marketing year, beginning 1970. ⁴ Preliminary.

FOOTNOTES FOR TABLE 566

¹ Number of pounds of poultry ration equivalent in value at local market prices to 1 dozen eggs, or 1 pound of chicken or turkey live weight. Simple average of monthly ratios.

² Beginning 1970, ratio computed on a December through November marketing year rather than a calendar year.

Statistical Reporting Service. Data for 1950-59 in *Agricultural Statistics, 1972*, table 602.

² Includes all non-egg ingredients added.

³ Includes ingredients added.

Statistical Reporting Service.

CHAPTER IX

FARM RESOURCES, INCOME, AND EXPENSES

The statistics in this chapter deal with farms, farm resources, farm income, and expenses. Many of the series are estimates developed in connection with economic research activities of the Department.

For convenience, the tables have been arranged in general groups. These groups, with the beginning table indicated, are as follows:

Economic trends, table 582.

Farm property, table 583.

Population and employment, table 603.

Farm production and distribution, table 612.

Prices and income, table 630.

Costs and expenses, table 647.

Three new tables are included in this chapter on farm wage rates based on the latest survey data of the Statistical Reporting Service. They include tables with equivalent hourly rates by method of pay, by type of work, and by States and standard Federal regions.

Table 582.—Economic trends: Data relating to agriculture, United States, 1959–75

Year	Prices paid by farmers		Prices received by farmers	Farm income				Realized net income per farm
	Total including interest, taxes, and wage rates	Commodities only		Realized gross farm income (including Government payments)	Production expenses	Realized net income of farm operators	Total net income of farm operators

¹ Area classified as to use in preceding year except in 1954, 1959, 1964, and 1969.² Cropland harvested, crop failure, and cultivated summer fallow.³ Before 1945, area included in grassland pasture.⁴ Open or nonforested permanent pasture in farms, 1945–69. Before 1945, also includes cropland used only for pasture.⁵ Land used chiefly for grazing. Includes open or nonforested grazing land, forest and arid woodland grazed, and shrub and brush grazing land.⁶ Excludes part of the forested areas in parks, wildlife refuges, military areas, recreation sites, and arid woodland, brushland, and forest land used for grazing.⁷ Includes urban, industrial and nonfarm residential areas; parks and wildlife refuges; military lands; and roads, railroads, ungrazed desert, rock, swamp, and miscellaneous other areas.⁸ Remeasurement and increases in reservoirs account for changes in total land area.

Economic Research Service. Data from reports of the U.S. Departments of Agriculture and Commerce, and public land administering and conservation agencies.

¹ Cropland harvested, crop failure, and cultivated summer fallow.² Open or nonforested permanent pasture in farms.³ Land used chiefly for grazing. Includes open or nonforested grazing land, forest and arid woodland grazed, and shrub and brush grazing land.⁴ Excludes part of the forested areas in parks, wildlife refuges, military areas, recreation sites, and arid woodland, brushland and forest land used for grazing.⁵ Includes urban, industrial, and nonfarm residential areas; parks and wildlife refuges; military lands; and roads, railroads, ungrazed desert, rock, swamp, and miscellaneous other areas.⁶ Remeasurement and increases in reservoirs account for changes in total land area.

Economic Research Service. Data from records and reports of the U.S. Departments of Agriculture and Commerce, and public land administering and conservation agencies.

¹ As of Mar. 1. Data for 1965 and 1970 are based on Census of Agriculture estimates. Annual values between Census years and after 1970 are based on index numbers of land values per acre. Land in farms is interpolated between Census years and extrapolated beyond 1970 using percentage change reported by the Statistical Reporting Service.

Economic Research Service. Data for 1944–63 in *Agricultural Statistics*, 1972, table 629.

¹ Row cultivators, tractor-drawn or mounted; beet or field cultivators not included. Beginning 1972, does not include rear-mounted 6-row and larger cultivators.

² Not available.

³ Beginning 1969, horizontal silo unloaders not included.

⁴ Includes only the number of vacuum-pump units for stationary and portable milking machines.

⁵ Withheld to avoid disclosing figures for individual companies.

Agricultural Research Service. Compiled from reports of the U.S. Department of Commerce. Data for 1954-61 in *Agricultural Statistics, 1972*, table 641.

¹ Through 1973 arithmetic means of monthly estimates of persons employed during last full calendar week ending at least one day before the end of the month. Beginning 1974, annual average is the straight average of the four quarters during the year. Quarterly multiple frame surveys cover the week of the twelfth of January, April, July, and October.

² Includes farm operators doing 1 or more hours of farm work and members of their families working 15 hours or more during the survey week without cash wages.

³ Includes all persons doing farm work for pay during the survey week.

Statistical Reporting Service. Data for 1929–58 in *Agricultural Statistics*, 1972, table 645.

Table 606.—Number of different persons who did any farm wage work during the year, average days worked and wages earned, United States, selected years, 1959–75¹

1975						

¹ Rates are annual averages of quarterly wage rates weighted by number employed each quarter.

Statistical Reporting Service.

FOOTNOTES FOR TABLE 604

¹ Annual average is the straight average of the four quarters during the year. Quarterly multiple frame surveys cover the week of the twelfth of January, April, July, and October.² Includes farm operators doing 1 or more hours of farm work and members of their families working 15 hours or more during the survey week without cash wages.³ Includes all persons doing farm work for pay during the survey week.⁴ Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.

Statistical Reporting Service.

¹ Hawaii is included in commercial vegetables and in area and production of sugarcane, but is excluded from other crops.

² Preliminary.

³ Includes area seeded in preceding fall.

⁴ Area seeded in preceding fall.

⁵ Yield in pounds.

⁶ Clean basis.

⁷ Does not include Hawaii.

⁸ Includes sirup later made into sugar. Does not include production on nonfarm lands in Somerset County, Maine.

⁹ Fresh basis.

¹⁰ Year of bloom.

¹¹ Crop year begins with bloom in one year and ends with completion of harvest the following year.

Citrus production is included with other crops on a harvested basis.

¹² For breakdown between fresh market and processing, see individual crop tables.

¹³ Processing only.

Statistical Reporting Service.

¹ For cattle, sheep, and hogs, the quantity of net production is the live weight actually produced during the year, adjustments having been made for animals shipped in and changes in inventory.

² Preliminary.

³ Including commercial broiler production.

⁴ Turkey production and value estimates do not include an adjustment for changes in inventory.

⁵ Texas only. Texas accounted for nearly 97 percent of the U.S. production during the period 1966-70.

Statistical Reporting Service.

¹ Productivity is the output-input ratio. The ratio is obtained by dividing the index of farm output in table 620 by the index of total input in table 619.

² Preliminary.

Economic Research Service. Data for 1929–58 in *Agricultural Statistics*, 1972, table 658.

Table 619.—Total farm input: Index numbers of farm input by major subgroups, United States, 1959–75

[1967 = 100]

Year	Total input	Farm labor	Farm real estate	Mechanical power and machinery	Agricultural chemicals	Feed, seed, and livestock purchases ²	Taxes and interest	Miscellaneous
1959	100	151	102	99	50	82	90	101

¹ Production of livestock and livestock products for human use, horses and mules excluded. ² Includes clipped wool, mohair, honey, and beeswax. These items are not included in the separate groups of livestock and products shown. ³ Cattle and calves, sheep and lambs, and hogs. ⁴ Butter, butterfat, wholesale milk, retail milk, and milk consumed on farms. ⁵ Chicken eggs, commercial broilers, chickens, and turkeys. ⁶ Includes production of hayseeds, pasture seeds and cover-crop seeds, and some miscellaneous crop production not included in separate groups of crops shown. Farm gardens included through 1964. ⁷ Corn for grain, oats, barley, and sorghum grain. ⁸ All hay, sorghum forage, corn silage, and sorghum silage. ⁹ All wheat, rye, buckwheat, and rice. ¹⁰ Potatoes, sweetpotatoes, dry edible beans, dry field peas, truck crops for processing, and truck crops for fresh market having value. ¹¹ Fruits, berries, and tree nuts having value. Citrus production is based on year of harvest for 1960 to date; earlier years are based on year of bloom. ¹² Sugarbeets, sugarcane for sugar and seed, sugarcane syrup, and maple syrup. ¹³ Soybeans, peanuts harvested for nuts, cottonseed, flaxseed, and tung nuts. ¹⁴ Preliminary.

¹ All index number series are of the weighted aggregate type. They are based on averages of rates in effect during the year. Annual averages are computed by weighting the rates by the number of days they are in effect.

² Combined index includes corn and small grains in addition to other products for which data are shown separately.

³ Indexes for wool, tobacco, and all commodities combined are being discontinued. Those for wool and tobacco are dropped because of limited traffic. The Bureau of Labor Statistics now reports monthly an index on farm products and a separate index for food and kindred products.

Economic Research Service. Data for 1945–58 in *Agricultural Statistics, 1972*, table 670.

¹ For domestic farm foods bought by civilian consumers in this country.

² Labor cost includes imputed earnings of proprietors, partners, and family workers not receiving stated remuneration. It also includes supplements to wages and salaries such as social security and unemployment insurance taxes and health insurance premiums, but it does not include the cost of labor employed in for-hire transportation.

³ Includes charges for protective services, heating, and refrigeration; does not include local hauling. Charges for intercity transportation by water and air are a part of the "other" or residual component of the marketing bill.

⁴ Does not include profits of unincorporated firms or transportation firms.

⁵ Residual component; includes other costs such as advertising, depreciation, fuel, electric power, containers, packaging materials, air and water transportation, interest on borrowed capital, taxes other than those on income, and noncorporate profits.

¹ The market basket contains the average quantities of farm-originated foods purchased annually per household in 1960-61 by wage-earner and clerical-worker families and workers living alone. ² Retail costs are calculated mainly from retail prices published by the U.S. Department of Labor. ³ The farm values, or payments received by farmers for products equivalent to the foods in the market basket, are calculated from prices received by farmers. The farm values of processed products are adjusted by subtracting imputed values of byproducts. ⁴ From July 1964 through June 1973, the farm value and farmer's share for bakery products are based on the market price of wheat received by farmers plus the cost of the marketing certificate to processors. ⁵ Preliminary.

Economic Research Service. Data for 1954-62 in *Agricultural Statistics*, 1972, table 671.

¹ The total marketing bill is the difference between total civilian expenditures for domestic farm-originated food products and the farm value or payment farmers received for the equivalent farm products. It relates only to domestic food bought by civilian consumers and not to that sold to the Armed Forces or exported.

¹ Season average prices for crops; weighted calendar year average for livestock and livestock products, except chickens, eggs, and hogs, which are on a Nov.-Dec. marketing year basis. Unless otherwise noted, these are averages for marketing season or calendar year computed by weighting State prices by quantities sold, or by production for those commodities for which virtually all the production is sold.

² Preliminary.

³ Parity prices as computed, currently using base prices in effect and indexes for months indicated. Parity prices shown are those for the most recent month available preceding the start of the crop marketing season for crops and the calendar year for livestock and livestock products.

⁴ Crop is sold during year following production. 1974 price is average of auction sales through June 1, 1975. Parity prices are for March 1974 and 1975.

⁵ No production; price not estimated.

⁶ Based on 9-year average.

⁷ Based on 8-year average.

⁸ Previous year.

⁹ State annual average prices weighted by production to obtain U.S. averages.

¹⁰ Average local market price for wool sold excluding incentive payment.

¹¹ Average local market price for mohair sold excluding incentive payment.

¹² Estimates discontinued.

¹³ Crop year begins with bloom in one year and ends with completion of harvest the following year. Prices refer to the year of harvest.

¹⁴ Equivalent packinghouse-door returns for Oregon and Washington, equivalent first delivery point returns for California, and prices as sold for other States.

¹⁵ Equivalent per unit returns for bulk fruit at first delivery point.

¹⁶ Prices for fresh use in Arkansas, California, Georgia, Illinois, Maryland, Michigan, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Virginia, Washington, and West Virginia, and average price for all sales in all other States.

¹⁷ Packinghouse-door returns for fresh consumption for Oregon and Washington, equivalent first delivery point returns for California, average prices for fresh use for Michigan and New York, and average prices for all methods of sale for other States.

¹⁸ Prices include average conditional payments for sugar to farmers authorized by the Sugar Acts.

¹⁹ Continental United States only.

²⁰ Includes some processing.

²¹ Simple average of States weighted by estimated Jan. 1 head for U.S. average.

²² Sold by farmers directly to consumers.

Statistical Reporting Service.

¹ National averages during the marketing years for the individual crops, beginning in the years shown.² Support level for 1974, 1975, and 1976 represents the statutory established price (the so-called target price) except for extra-long staple cotton.³ Commodities grouped under "Mandatory" are those which the Commodity Credit Corporation is required by law to support.⁴ Represents the average loan rate plus any direct price-support payment (or in the case of wheat the value of the domestic marketing certificate) received by participants in the program for the commodity. The basis of such payments varies among the crops and from year to year.⁵ Preliminary.⁶ Basis $\frac{3}{8}$ -inch middling through 1960; 1-inch middling, beginning 1961.⁷ Subsequent to 1970, loans are made on net weight basis rather than gross weight basis.⁸ Suspended since 1971.⁹ Grade No. 2 or better except for oats which is Grade No. 3.¹⁰ Payment rate dropped; support level and loan rate are the same.¹¹ For ginners' purchases from producers, basis Grade 100, plus appropriate differentials to reflect ginners' normal handling costs.¹² No support program.

¹ Index values shown for 1965 through 1975 were as revised and published May 1976 using 1971-73 weights. Some reordering of sub-indexes was introduced. Revised monthly indexes for January 1965 through April 1976 are available upon request.

² Fresh market for noncitrus, and fresh market and processing for citrus.

³ Ratio of index of prices received to the Parity Index.

⁴ Preliminary.

Statistical Reporting Service. These indexes are computed using the price estimates of averages for all classes and grades for individual commodities being sold in local farm markets on or about the 15th of each month. In computing the group indexes, prices of individual commodities have been weighted by average quantities sold during 1953-57 for 1959-64 indexes and by average quantities sold during 1971-73 for the 1965-75 indexes.

FOOTNOTES FOR TABLE 635

¹ The index for tobacco products and bottled beverages formerly appearing in this table was discontinued in 1967.

² Prior to January 1967, classified as "all commodities other than farm products and processed food."

³ Preliminary.

Economic Research Service. Compiled from reports of the U.S. Department of Labor. Beginning January 1971, data represent the revised sample and the 1967 weighting pattern; previously reported on a 1957-59 = 100 basis. Data for 1949-58 in *Agricultural Statistics*, 1972, table 676.

FOOTNOTES FOR TABLE 636

¹ Index values shown for 1965 through 1975 as revised and published May 1976 using 1971-73 weights. Some reordering of sub-indexes was introduced. Revised monthly indexes for January 1965 through April 1976 are available upon request.

² Fresh market for noncitrus, and fresh market and processing for citrus.

³ Ratio of index of prices received to the Parity Index.

⁴ Preliminary.

Statistical Reporting Service. These indexes are computed using the price estimates of averages for all classes and grades for individual commodities being sold in local farm markets on or about the 15th of each month. In computing the group indexes, prices of individual commodities have been weighted by average quantities sold during 1953-57 for 1959-64 indexes and by average quantities sold during 1971-73 for the 1965-75 indexes. Data for 1949-58 in *Agricultural Statistics*, 1972, table 677. See table 637 for data on 1967 = 100 basis.

¹ Index values for 1965 through 1975 were revised and published in May 1976 using 1971-73 weights. Indexes were reordered and several new indexes introduced. Revised monthly indexes for January 1965 to April 1976 are available upon request.

² New or restructured index; values for years prior to 1965 are not available.

³ Based on Consumer Price Indexes of Bureau of Labor Statistics.

⁴ New index; values for years prior to 1971 are not available.

⁵ Simple average of seasonally adjusted quarterly indexes.

⁶ The index known as the Parity Index is the Index of Prices Paid by Farmers for Commodities and Services, Interest, Taxes, and Wage Rates expressed on the 1910-14 = 100 base.

Statistical Reporting Service. Data for 1949-64 in *Agricultural Statistics*, 1972, table 679. Data are correct with following revisions: Interest—1964, 340; Taxes—1960, 586; 1961, 620; 1962, 651; 1963, 675; and 1964, 700.

¹ Index values for 1965 through 1975 were revised and published in May 1976 using 1971-73 weights. Indexes were reordered and several new indexes introduced. Revised monthly indexes for January 1965-April 1975 are available upon request.

² New or restructured index; values for years prior to 1965 are not available.

³ Based on Consumer Price Indexes of Bureau of Labor Statistics.

⁴ New index; values for years prior to 1971 are not available.

⁵ Simple average of seasonally adjusted quarterly indexes.

Statistical Reporting Service. Data for 1949-64 in *Agricultural Statistics*, 1972, table 680. Data are correct with following revisions: Interest—1960, 45; 1961, 50; 1962, 55; 1963, 62; and 1964, 70; taxes—1954, 45; 1955, 47; 1956, 51; 1957, 54; 1958, 58; 1959, 63; 1960, 69; 1961, 73; 1962, 77; 1963, 79; and 1964, 82.

Table 640.—Prices paid by farmers: Prices, by commodities, United States, 1967 and 1972-75¹

Commodity and unit	1967	1972	1973	1974	1975
Food:		<i>Dollars</i>	<i>Dollars</i>	<i>Dollars</i>	<i>Dollars</i>
Steak, round, per pound.....	.994	1.35	1.63	1.63	1.60
Hamburger (beef), per pound.....	.596	.790	1.05	1.03	.894
Chuck roast, per pound.....	.636	.840	1.08	1.00	1.09
Bologna, per pound.....	.648	.860	1.13	1.06	1.16
Bacon, sliced, per pound.....	.767	.894	1.26	1.21	1.63
Ham, whole, per pound.....	.698	.835	1.15	1.13	1.31
Pork chops, per pound.....	.871	1.07	1.31	1.27	1.66
Pork sausage, per pound.....	.623	.807	1.11	1.02	1.33
Frying chickens, per pound.....	.378	.410	.607	.561	.629
Salmon, pink, per 16-ounce can.....	.806	1.09	1.53	1.95	1.97
Frozen haddock, per pound.....	.650	.960	1.15	1.32	1.36
Lard, per pound.....	.296	.275	.418	.573	.633
Vegetable shortening, per 3-pound can.....	.846	.974	1.24	1.95	1.89
Margarine, per pound.....	.284	.322	.334	.543	.666
Salad dressing, per quart jar.....	.553	.626	.724	1.05	1.17
Peanut butter, per pound.....	.540	.636	.662	.762	.863
Milk, fluid, whole, per half gallon.....	2.273	.628	.709	.842	.856
Milk, evaporated, per 14½-ounce can.....	.181	.218	.241	.304	.321
Butter, packaged, per pound.....	.883	.934	1.07	1.01	1.13
Cheese:					
Processed, American, per pound.....	.742	.931	1.01	1.34	1.32
Natural cheddar, American, per pound.....	.783	1.00	1.10	1.47	1.46
Ice cream, per half gallon.....	.850	.906	.977	1.13	1.25
Eggs, per dozen.....	.459	.546	.794	.721	.760
Flour, per 25-pound sack.....	2.50	2.64	3.42	4.79	4.56
Bread, white, loaf, per pound.....	.232	.266	.305	.371	.380
Soda crackers, packaged, per pound.....	.336	.404	.439	.500	.633
Corn flakes, packaged, per pound.....	.431	.435	.454	.582	.713
Baking powder, canned, per pound.....	.314	.413	.424	.473	.618
Cake mix, packaged, per pound.....	.344	.379	.401	.554	.667
Gelatin dessert, flavored, per pound.....	.621	.708	.709	.730	1.32
Corn, per standard No. 303 can.....	.227	.248	.253	.279	.394
Peas, per standard No. 303 can.....	.220	.248	.257	.288	.381
Beans, dry, Navy, per pound.....	.194	.260	.528	.480	.534
Potatoes, Irish, per 10-pound bag.....	.631	.707	1.20	1.43	1.17
Cabbage, per pound.....	.108	.133	.176	.158	.169
Lettuce, per head.....	.227	.306	.354	.363	.403
Tomatoes, fresh, per pound.....	.308	.453	.431	.516	.567
Frozen peas, per 10-ounce package.....	.226	.258	.275	.356	.374
Apples, per pound.....	.188	.237	.286	.328	.341
Bananas, per pound.....	.165	.168	.178	.200	.245
Oranges, per dozen.....	.635	.809	.898	.980	.997
Frozen orange juice concentrate, per 6-ounce can.....	.200	.259	.264	.272	.291
Peaches, halves in heavy syrup, per No. 2½ can.....	.335	.407	.429	.508	.635
Sugar, per 5-pound bag.....	.646	.755	.823	2.05	1.78
Sirup:					
Cane blend with corn and sugar sirup, per pint (16 fl. oz.).....	.288	.373	.400	.514	.645
Maple blend with corn and sugar sirup, per pint, (16 fl. oz.).....	.403	.517	.530	.661	.839
Candy, non-chocolate, without nuts, per pound.....	.428	.533	.559	.752	.880
Coffee, ground, per pound.....	.814	.982	1.10	1.29	1.38
Tea, Orange Pekoe, packaged, per pound.....	1.76	1.95	2.01	2.16	2.48
Cola drinks, 10-12 oz., per carton of 6 ⁸129	.695	.737	.960	1.06
Tobacco:					
Smoking tobacco, packaged, per pound.....	1.91	2.51	2.64	2.86	3.43
Cigarettes, per package of 20.....	.315	.409	.425	.447	.484
Clothing and yard goods:					
Men's clothing:					
Overalls, each.....	4.48	6.54	7.52	10.20	11.50
Shirts, work, each ⁴	2.73	3.98	4.72	5.93	6.41
Undershirts, T-style, each ⁵846	1.17	1.24	1.44	1.50
Underwear, shorts, each ⁶943	1.17	1.23	1.47	1.57

Gasoline, regular, filling station	.330	.354	.387	.528	.553
Gasoline, regular, bulk delivery	.282	.310	.337	.465	.498
Kerosene	.195	.212	.246	.393	.417
Grease, 35 lb. pail	8.12	9.40	9.96	12.60	13.60
Motor oil, per gallon:					
All weather, high detergent	1.92	2.26	2.38	2.82	2.92
Heavy duty, detergent	1.61	1.91	2.00	2.41	2.54
Regular, nondetergent	1.27	1.49	1.58	1.97	2.11
Spark plugs, each	.927	1.10	1.13	1.21	1.25
Storage batteries, 54 plates, 12-volt, each	21.50	25.90	27.00	31.30	34.20
Tires and tubes:					
Auto tires, conventional, F78-15, 4-ply tubeless, each ⁴²	22.40	26.70	28.30	30.30	31.70
Auto tires, bias-belted const., G78-15, 4-ply tubeless, each ⁴³		34.00	35.50	37.80	39.80
Truck tires, 7.50 x 20, 10-ply, each	63.70	65.90	67.20	74.60	78.70
Tractor tires, rear, 15.5 x 38, 6-ply, each		142.00	151.00	177.00	257.00
Motor vehicles:					
Autos, 4-door sedans:					
Intermediate size ⁴⁴		3,490.00	3,660.00	4,330.00	4,950.00
Low-priced standard size ⁴⁵	3,170.00	4,020.00	4,220.00	4,820.00	5,380.00
Medium-priced standard size ⁴⁶		4,320.00	4,500.00	5,090.00	5,640.00
Trucks:					
2-ton, cab and chassis, each ⁴⁷	3,620.00	4,770.00	4,950.00	6,110.00	7,330.00
$\frac{3}{4}$ -ton pickup ⁴⁸	2,350.00	3,160.00	3,380.00	4,330.00	4,970.00
Tractors:					
Wheel, 30-39 maximum P.T.O. horsepower, each	3,700.00	4,350.00	4,490.00	5,250.00	6,180.00
Wheel, 50-59 maximum P.T.O. horsepower, each	5,440.00	6,290.00	6,510.00	7,600.00	8,700.00
Wheel, 70-79 maximum P.T.O. horsepower, each	7,020.00	8,360.00	8,880.00	10,400.00	
Wheel, 90-99 maximum P.T.O. horsepower, each		10,100.00	11,100.00	13,600.00	16,600.00
Crawler, 20-34.9 db. hp, each ⁴⁹	5,960.00	8,340.00	9,150.00	9,510.00	
Crawler, 35-49 db. hp, each	8,120.00	10,800.00	11,500.00	12,000.00	

See footnotes at end of table.

Table 640.—Prices paid by farmers: Prices, by commodities, United States, 1967 and 1972-75¹—Continued

Commodity and unit	1967	1972	1973	1974	1975
Farm machinery:					
Plows, moldboard, 2-bottom, each	\$362.00	\$462.00	\$483.00	\$557.00	\$677.00
Plows, moldboard, 3-bottom, each	606.00	779.00	820.00	976.00	1,270.00
Plows, moldboard, 5-bottom, each		1,690.00	1,860.00	2,380.00	3,040.00
Disk harrows, tandem 16-ft., each		1,950.00	2,150.00	2,800.00	3,630.00
Disk harrows, tandem 10-ft., each		1,090.00	1,160.00	1,370.00	1,710.00
Spikedtooth harrows, steelbar, one section	52.60	67.40	71.30	83.60	103.00
Cultivators, 4-row, tractor, each	840.00	1,030.00	1,120.00	1,280.00	1,520.00
Corn planters, 4-row, plain, each	878.00	1,220.00	1,400.00	1,770.00	2,890.00
Grain drills, tractor-drawn, 16-tube, plain, each	900.00	1,290.00	1,490.00	1,840.00	2,350.00
Grain drills, tractor-drawn, 19-tube, plain, each ⁶⁰	1,080.00	1,620.00	1,850.00	2,400.00	3,140.00
Mowers, tractor, 7-ft., each	568.00	750.00	792.00	884.00	1,040.00
Pick-up balers, automatic tie, P.T.O., each	2,070.00	2,660.00	2,860.00	3,280.00	3,920.00
Combines, self-propelled:					
Small capacity, each	7,050.00	12,200.00	13,700.00	17,100.00	20,900.00
Medium capacity, each	8,580.00	15,100.00	17,000.00	22,100.00	27,800.00
Large capacity, each	9,840.00	19,800.00	22,800.00	28,500.00	36,400.00
Corn picker-huskers, 2-row, each	3,280.00	4,480.00	4,900.00	5,950.00	6,670.00
Hammer mills, each	323.00	411.00	450.00	510.00	558.00
Single milker units, each	157.00	200.00	205.00	237.00	280.00
Farm wagons, without box and tires, each	210.00	289.00	327.00	408.00	480.00
Power sprayers, boom type, tr. mtd., each	342.00	520.00	563.00	687.00	912.00
Gas engines, 3-horsepower, each	61.40	71.80	73.50	86.30	105.00
Electric motors, 1/2-horsepower, each		29.80	30.90	34.60	38.60
Farm supplies:					
Axes, with handle, each	6.36	7.93	8.63	10.80	11.90
Hammers, nail, with handle, each	4.11	5.15	5.60	6.62	7.11
Pitchfork, 3-tine, each	4.96	6.42	6.88	7.90	9.00
Pitchfork, 4-tine, each	5.67	7.25	7.77	8.86	9.97
Hoes, 7-inch blade, each	2.90	3.77	4.01	4.80	5.48
Milk pails, 12 quarts, each	2.72	3.24	3.38	3.85	4.54
Rope, manila, per pound	.890	.994	1.06	1.41	1.66
Binder twine, per pound	.264	.266	.287	.675	.816
New baskets, round stave, bushel, with cover, per dozen	5.83	7.09	8.08	9.53	10.60
Lead arsenate, per pound	.368	.446	.434	.495	.588
Fertilizer:					
Mixed fertilizer:					
0-20-20, per ton	65.60	65.60	70.80	119.00	134.00
3-9-9, per ton	60.10	65.30	69.60	103.00	128.00
4-8-12, per ton	55.00	60.00	65.40	99.30	129.00
4-12-12, per ton	43.00	49.30	53.60	92.70	107.00
5-10-10, per ton	51.40	55.80	60.70	97.80	110.00
5-10-15, per ton	45.80	51.60	55.60	96.00	110.00
5-20-20, per ton	74.20	74.60	82.60	138.00	153.00
6-24-24, per ton	85.00	81.30	89.40	152.00	172.00
10-10-10, per ton	62.60	63.70	69.50	113.00	128.00
12-12-12, per ton	70.40	69.80	77.10	135.00	149.00
18-46-0, per ton	108.00	98.10	114.00	205.00	240.00
Nitrate of soda, per ton	60.10	67.90	79.60	150.00	195.00
Sulphate of ammonia, per ton	54.80	52.60	57.40	124.00	137.00
Ammonium nitrate, per ton	73.70	65.10	74.40	155.00	171.00
Superphosphate, 20% P ₂ O ₅ , per ton	42.10	50.60	54.90	97.70	111.00
Superphosphate, 46% P ₂ O ₅ , per ton	82.20	78.50	90.80	169.00	197.00
Phosphate rock, per ton	22.00	25.70	26.60	40.30	48.60
Ammonium phosphate, 16-20, per ton	80.20	79.20	86.30	162.00	187.00
Muriate of potash, 60% K ₂ O, per ton ⁵¹	52.20	58.80	62.60	86.20	98.20
Agricultural limestone, spread on field, per ton	5.18	6.15	6.76	8.21	8.96
Livestock:					
Feeders and stockers:					
Cattle and calves, per 100 pounds	24.60	38.20	49.30	35.70	29.60
Lambs, per 100 pounds	21.30	29.50	36.80	36.10	41.90
Pigs (40-60 lbs. av.), per 100 pounds	33.50	50.80	72.70	50.80	89.80
Baby chicks, straight run, per 100	11.40	11.30	13.10	14.40	14.50
Turkey pouls, each	.557	.567	.609	.674	.699
Feed:					
Alfalfa hay, baled, per ton	34.10	40.20	51.70	63.60	66.20
Other hay, baled, per ton	32.30	36.70	44.10	52.10	56.10
Cottonseed meal, 41% per 100 pounds	5.35	5.97	10.90	9.95	9.09
Soybean meal, 44% per 100 pounds	5.36	6.62	14.00	10.30	8.87
Tankage, per 100 pounds	6.31	7.64	16.30	12.00	10.50
Bran, per 100 pounds	3.62	4.13	5.87	7.37	7.28
Middlings, per 100 pounds	3.72	4.17	5.88	7.31	7.14
Mill run, per 100 pounds	3.33	3.76	5.35	6.97	7.01
Cornmeal, per 100 pounds	3.42	3.61	5.11	7.17	7.07
Hominy feed, per 100 pounds	3.50	3.71	5.21	7.01	6.55
Layer feed, per ton ⁶²	86.00	88.00	137.00	154.00	147.00
Broiler grower, per ton ⁶²	93.00	98.00	152.00	169.00	163.00
Chick starter, per ton ⁶²	97.00	104.00	163.00	176.00	166.00

See footnotes at end of table.

Table 640.—Prices paid by farmers: Prices, by commodities, United States, 1967 and 1972-75—Continued

Commodity and unit	1967	1972	1973	1974	1975
Feed—Continued					
Dairy feed:					
14 percent protein, per ton.....	69.00	75.00	103.00	134.00	133.00
16 percent protein, per ton.....	75.00	80.00	113.00	138.00	135.00
18 percent protein, per ton.....	77.00	84.00	120.00	142.00	138.00
20 percent protein, per ton.....	82.00	87.00	126.00	146.00	142.00
32 percent protein, per ton.....		117.00	179.00	181.00	173.00
40 percent and over protein, per ton.....		127.00	198.00	197.00	190.00
Stock salt, per 100 pounds.....	1.70	2.09	2.24	2.52	2.85
Seeds:					
Barley, per bushel.....	2.01	2.44	3.48	4.70	5.48
Corn, hybrid, per bushel.....	12.90	21.50	22.20	25.00	36.50
Oats, per bushel.....	1.61	1.98	2.99	3.50	4.20

Rye, per bushel.....	2.48	2.78	4.90	5.90	5.90
Soybeans, per bushel.....	4.40	5.21	8.75	9.50	10.50
Wheat, per bushel.....	2.73	2.80	5.20	7.95	6.90
Grain sorghum, hybrid, per 100 pounds.....	19.20	23.30	24.60	28.50	36.50
Alfalfa, uncertified, per 100 pounds.....	50.60	52.90	90.40	152.00	111.00
Alfalfa, certified, per 100 pounds.....	60.20	63.50	101.00	167.00	136.00
Aisike clover, per 100 pounds.....	32.50	37.60	42.20	60.80	66.00
Red clover, per 100 pounds.....	40.30	53.90	76.90	113.00	103.00
Sweetclover, per 100 pounds.....	17.20	21.90	22.70	28.00	35.00
Lespedeza, Korean, per 100 pounds.....	22.40	26.40	46.10	68.00	59.50
Sudangrass, per 100 pounds.....	13.20	19.80	21.90	24.50	27.30
Timothy, per 100 pounds.....	22.30	26.80	50.60	62.50	47.00

¹ Annual average of prices at independent and chain stores. Prices paid by farmers are collected, for the most part, from retail establishments located in small cities and towns in rural areas using questionnaires sent and returned by mail.

² Per quart.

³ "Cola drinks, per 16 fluid ounces" prior to 1970.

⁴ "Shirts, cotton, work" prior to 1971.

⁵ "Undershirts, sleeveless" prior to 1971; "lightweight undershirts, T-style," 1971-73.

⁶ "Lightweight shorts," 1971-73.

⁷ "Work gloves, canvas, with knitted wrists" prior to 1974.

⁸ "Socks, cotton, work" prior to 1971.

⁹ "Suits, wool, 1 pair pants" prior to 1970; "wool or wool blends," 1970-73.

¹⁰ "Trousers, extra, woolen" prior to 1970; "slacks, dress wool, wool blends or polyester blends," 1970-73.

¹¹ "Trousers, artificial-fiber mixtures" prior to 1970; "slacks, casual, cotton or polyester blends," 1970-73.

¹² "Shirts, broadcloth" prior to 1971.

¹³ "Overcoats, all wool" prior to 1970.

¹⁴ "Waist overalls, denim, cotton or blends" prior to 1974.

¹⁵ "Sweaters, pullover, part wool" prior to 1974.

¹⁶ "Shoes, dress, sizes 2½-6" prior to 1971.

¹⁷ "Dresses, house, percale" prior to 1970.

¹⁸ "Dresses, street, cotton" prior to 1970.

¹⁹ "Dresses, rayon, medium quality" prior to 1970.

²⁰ "Panties or briefs, nylon" prior to 1971.

²¹ "Slips, nylon" prior to 1971; "chiefly manmade fibers," 1971-73.

²² "Nightgowns, cotton" prior to 1971; "chiefly manmade fibers," 1971-73.

²³ "Coats, all new wool, heavy" prior to 1970.

²⁴ "Hose, nylon" prior to 1974.

²⁵ "Shoes or oxfords" prior to 1974.

²⁶ "Dresses, cotton, sizes 7-14" prior to 1970.

²⁷ "Gingham, 36-inch width" prior to 1971; "cotton, 44-45 inch width," 1971-74.

²⁸ "Laundry starch, packaged, per pound" prior to 1970.

²⁹ "Radios, table model, 4 tubes plus rectifier, without clock" prior to 1971; "radios, table model, AM, with clock," 1971-74.

³⁰ Viewable picture area defined by Federal Trade Commission Jan. 1, 1967.

³¹ 18-inch prior to 1973.

³² 23-inch prior to 1973.

³³ "Clothes dryers, elec., 12-16 pound capacity" prior to 1975.

³⁴ 64-inch innerspring prior to 1969.

³⁵ "Lounge chairs, upholstered" prior to 1972.

³⁶ "Sheets, 72 by 108 inches, percale" prior to 1971.

³⁷ No. 2 and better prior to 1971.

³⁸ Under No. 2 prior to 1971.

³⁹ Includes Standard and better.

⁴⁰ Includes "utility" and "economy."

⁴¹ Interior insulating board prior to 1969.

⁴² 7.75/7.50-14 prior to 1970; 7.75-15, 1970-72.

⁴³ 7.75-15 prior to 1973; F78-15, 1974.

⁴⁴ Current coverage includes Chevrolet Chevelle Malibu Classic, Ford Gran Torino, and Plymouth Fury Custom.

⁴⁵ Current coverage includes Chevrolet Impala, Ford LTD, and Plymouth Gran Fury Custom.

⁴⁶ Current coverage includes Pontiac Catalina and Buick LeSabre.

⁴⁷ Coverage includes Ford and Chevrolet.

⁴⁸ Coverage includes Ford, Chevrolet, International, and Dodge ½-ton prior to 1974.

⁴⁹ 25-34.9 drawbar horsepower prior to 1969.

⁵⁰ 20-tube prior to 1969.

⁵¹ 55 percent K2O prior to September 1967.

⁵² Specifications call for "complete feed."

Statistical Reporting Service.

Table 641.—Farm income: Gross and net income from farming, United States, 1959–75

Year	Cash receipts			Nonmoney and other farm income						Gross income		Production expenses	Net income of farm operators

¹ Includes returns from farming operations to resident farm operators for their capital labor, and management, after deduction of farm production expenses (there is no allowance in the item farm production expenses for a return on investment in farm capital). Also includes farm wages and other labor income received by hired farm-resident workers.

² Includes all income received by farm residents from nonfarm sources such as wages and salaries from nonfarm employment, nonfarm business and professional income, rents from nonfarm real estate, dividends, interest, royalties, unemployment compensation, and Social Security payments.

³ Preliminary.

Economic Research Service.

¹ Includes labor used on crops, livestock, and overhead. Farm maintenance or overhead work includes time spent on fencing, repairs to buildings, machinery and equipment, farmwoods, pastures, general land maintenance, farm business, and other miscellaneous work. Excludes labor used on horses and mules and farm gardens after 1964.

² Excludes horses and mules; includes wool and minor livestock which are excluded from separate enterprises shown.

³ Cattle and calves, sheep and lambs, and hogs.

⁴ Chickens, broilers, and turkeys.

⁵ Includes hay seeds, pasture seeds, and cover-crop seeds; farm gardens (excluded after 1964); and minor crops which are excluded from separate crops shown.

⁶ Corn for grain, oats, barley, and sorghum grain.

⁷ All hay, corn silage, and sorghum forage and silage.

⁸ All wheat, rye, and rice. Buckwheat was excluded after 1964.

⁹ Potatoes, sweetpotatoes, dry edible beans, dry field peas, and truck crops.

¹⁰ Fruits, berries, and tree nuts.

¹¹ Sugarbeets, sugarcane for sugar and seed, sugarcane syrup, and maple products.

¹² Soybeans, peanuts, flaxseed, and, from 1959 to 1964, tung nuts.

¹³ Preliminary.

Economic Research Service. Data for 1929–58 in *Agricultural Statistics, 1972*, table 689.

FOOTNOTES FOR TABLE 649

¹ Includes Government distribution and secondary and micronutrient fertilizers, but not liming materials.

² Calculations for 1964 and later years based on the guaranteed analysis of individual fertilizers. Calculations for earlier years included over-and-under formulations of individual fertilizers.

Statistical Reporting Service.

¹ Includes Alaska, District of Columbia, Hawaii, and Puerto Rico; also fertilizers distributed by Government agencies.

² Products that do not contain primary nutrients. Includes gypsum, but not liming materials.

³ Calculations for 1965 and later years based on the guaranteed analysis of individual fertilizers. Calculations for earlier years included over-and-under formulations of individual fertilizers.

Statistical Reporting Service. Data for 1950–59 in *Agricultural Statistics, 1972*, table 691.

Calcareous marl.....	341	406	377	318	1,279	1,288

¹ Uses include manufacture of superphosphate, phosphate, phosphoric acid, phosphorus, and ferrophosphorus; for direct application to the soil; as a fertilizer filler; stock and poultry feed; undistributed exports; and other minor uses.

² Includes North Carolina sales.

³ Includes sintered matrix.

⁴ Lime from oyster shells included with quicklime from limestone.

Economic Research Service. Compiled from reports of the U.S. Department of Interior.

¹ Average of weekly price quotations.

² Gamma unit price; i.e., price per pound of 36 percent gamma material is 36 times the unit price quoted.

³ Price for flake or chip grades; price for powdered is 0.75 cent to 1 cent higher.

⁴ Estimated.

Agricultural Stabilization and Conservation Service. Based on data reported by the Schnell Publishing Company, Inc., in the Chemical Marketing Reporter. Data for 1949-62 in *Agricultural Statistics, 1972*, table 695.

CHAPTER X

TAXES, INSURANCE, CREDIT, AND COOPERATIVES

The statistics in this chapter deal with taxes, insurance, agricultural credit, and farm cooperatives. Some of the series were developed in connection with research activities of the Department, while others, such as data from agricultural credit agencies, are primarily records of operations.

Table 655.—Taxes levied on farm real estate and personal property: Amount, amount per acre, index numbers of amount per acre, United States, 1959–75

Year	Farm real estate			Farm personal property	
	Amount	Tax per acre			
		Amount	Index (1967 = 100)

FOOTNOTES FOR TABLE 659

¹ Data for 1975 are preliminary.

² Number of farms on which the insured crop was planted, including duplication where both the landlord and tenant are insured. Insured farms on which no insured crop was planted are not included.

³ The insured's share of the planted area on the farm.

⁴ Includes a combination of commodities varying by counties.

⁵ Less than 500 acres.

⁶ Thousand of tons insured for raisins (not included in total of all commodities).

⁷ Less than 500 tons.

⁸ Less than \$500.

Table 657.—Social Security: Self-employed farmers and hired farm workers, taxable earnings reported and taxes paid, United States, 1959-74¹

1974		2,210		4,780		2,160		559,000

¹ Earnings taxable to a maximum of \$4,200 through 1958, of \$4,800 from 1959 through 1965, of \$6,600 in 1966 and 1967, of \$7,800 from 1968 through 1971, of \$9,000 in 1972, of \$10,800 in 1973, and of \$13,200 in 1974. Includes the 50 States, District of Columbia, Puerto Rico, and the Virgin Islands.

² Self-employed farmers (includes "materially participating" farm landlords) with taxable earnings of at least \$400 from self-employment.

³ Farm workers receiving at least \$150 cash wages from, or employed 20 or more days on a time-paid basis by an employer during the year.

⁴ Preliminary.

Economic Research Service. Data for 1955-58 in *Agricultural Statistics, 1972*, table 700.

¹ Includes District of Columbia.

Economic Research Service.

FOOTNOTES FOR TABLE 663

¹ Contract rates on loans through Federal land bank associations. In computing the average rates, each Farm Credit district is given equal weight; within districts, rates are weighted by the number of days in force.

² Weighted average net cost to banks of bonds outstanding at end of year.

³ Rate represents interest (less patronage refunds), service fees, cost of record searches, and filing and releasing mortgages, etc., paid by borrowers as percentage of average loans outstanding during year.

⁴ Annual interest income on loans, discounts, and notes receivable as a percentage of average balance of such items outstanding during the year.

⁵ Excludes rates on loans secured by CCC documents.

⁶ Board of governors of Federal Reserve System. Annual averages of prevailing open-market rates in New York City.

⁷ Board of governors of Federal Reserve System. Annual ranges in discount rates on advances secured by Government obligations maturing or callable beyond 1 year and discounts of and advances secured by eligible paper.

Economic Research Service and Farm Credit Administration. Data for 1929-58 in *Agricultural Statistics, 1972*, table 706.

¹ Real estate mortgages or deeds of trust are taken as supplemental security for some of these loans.

² Excludes loans to individuals guaranteed by the Commodity Credit Corporation and certificates of interest in pool of notes.

³ Loans "made" include renewals.

⁴ Includes aquatic loans; excludes loans guaranteed by CCC, and loans held by associations in liquidation. Beginning 1972, excludes rural home loans and farm-related business loans.

⁵ Excludes loans secured by CCC documents.

⁶ Includes direct and insured loans. For separate data on operating and emergency loans, 1949-65, see *Agricultural Statistics, 1965*, table 722.

⁷ Economic opportunity loans are made to farm and nonfarm rural residents. Through June 30, 1971, more than one half of the economic opportunity loans were made to farmers. Loan program was terminated in 1971.

⁸ Includes direct and insured loans to soil and water associations, rural rental housing, rural housing site, labor housing, watershed protection, flood prevention, rural renewal, and resource conservation

and development organizations, economic opportunity cooperatives, and rural rehabilitation or resettlement project cooperative associations.

⁹ Loans "outstanding" are cumulative net advances minus principal repayments; loans "made" are net advances to borrowers.

¹⁰ Approximately 2/3 of the individuals served by these cooperatives are farmers.

¹¹ Beginning calendar year 1972, includes Rural Telephone Bank loans.

¹² Principally loans to public bodies and to power companies.

¹³ Loans to commercial telephone companies.

¹⁴ Includes direct loans made and held by CCC. Excludes pooled loans against which certificates of interest were issued and also loans guaranteed by CCC held by other lending agencies.

Economic Research Service. Data for 1944-58 in *Agricultural Statistics, 1972*, table 714.

¹ Includes loans of national and commercial, mutual savings, stock savings, and private banks. Loans are classified according to location of bank and, therefore, are not strictly comparable with data for other lenders which are classified according to location of borrower.

² Includes District of Columbia.

³ Mariana Islands, Samoa (American), and Virgin Islands.

Economic Research Service. Data from Federal Deposit Insurance Corporation.

¹ Reports of cooperatives are included either for the calendar year or for fiscal years ending between July 1 of the calendar year shown and June 30 of the following year, with limited exceptions.

² Includes independent local cooperatives, centralized cooperatives, and federations of cooperatives. Cooperatives are classified according to their major activity. If, for example, more than 50 percent of a cooperative's business is derived from marketing activities, it is included as a marketing cooperative.

³ Includes cooperatives whose major activity is providing services related to marketing and farm-supply activities.

⁴ Includes members (those entitled to vote for directors) but does not include nonvoting patrons. (Some duplication exists because some farmers belong to more than one cooperative.)

⁵ Receipts for services related to marketing and purchasing activities, but not included in the volumes reported for these activities.

⁶ Preliminary.

⁷ Estimated gross business includes all business reported between cooperatives, such as the wholesale business of farm-supply cooperatives with other cooperatives or terminal market sales for local cooperatives.

⁸ Estimated net business represents the value at the first level at which cooperatives transact business for farmers. Figures are adjusted for duplication resulting from intercooperative business.

Farmer Cooperative Service. Based on records from cooperatives reporting to the Service. Data for 1939–58 in *Agricultural Statistics, 1972*, table 728.

FOOTNOTES FOR TABLE 677

¹ Includes Puerto Rico.

² Seasonal loans.

³ Term loans. After June 30, 1966, loans are classified as "seasonal" and "term." Total amount of loans outstanding is the same as it would have been under the old classification.

Farm Credit Administration. Data for 1939–58 in *Agricultural Statistics, 1972*, table 726.

¹ Represents value at the first level at which cooperatives transact business for farmers. ² Includes coffee, forest products, fur pelts, hay, hops, nursery stock, tung oil, and other farm products not separately classified. ³ Because many cooperatives do more than one type of business, these totals are less than the number that would be obtained by adding the number of cooperatives marketing individual products, handling individual supplies, or providing individual service. ⁴ Includes plant equipment, automotive supplies, hardware, chicks, and other supplies not separately classified. ⁵ Receipts for services related to marketing and purchasing activities, but not included in the volumes reported for these activities.

Farmer Cooperative Service. Based on records from cooperatives reporting to the Service.

Table 680.—Farmers' cooperatives: Types, numbers, and memberships, United States

Type	Year or date of data	Associations	Estimated memberships or participants

¹ Includes cooperatives headquartered both in and outside the State handling business originating in the State. No totals can be shown because of duplication.

² Represents value at the first level at which cooperatives transact business for farmers.

³ Volume of a sugar cooperative located in Hawaii but headquartered in California is included in California.

⁴ Sales to foreign countries.

Farmer Cooperative Service.

¹ State totals represent data for borrowers incorporated within the State.

² Includes loans obtained by REA borrowers' affiliates specifically organized to facilitate non-REA financing.

³ Totals for other types of borrowers are as follows: Public Power Districts, 54 borrowers, \$289,453,372; municipalities and other Government authorities, 36 borrowers, \$209,273,376; power companies, 26 borrowers, \$28,579,862.

⁴ Includes \$2,449,814,000 in REA guarantee commitments made as of Jan. 1, 1976.

⁵ Funds loaned to corporate borrowers for lending to individuals. Includes wiring, plumbing, and refrigeration installations.

⁶ Includes miles energized and consumers served, shown in tables 683 and 684.

Table 683.—Rural Electrification Administration: Advances to, and operating statistics of, electric borrowers, 1975, by States and Territories¹

¹ State totals represent data for borrowers incorporated within the State.² Actual funds advanced out of REA loans approved, as shown in table 682.³ Cumulative.⁴ Includes data at time of repayment of loan for borrowers whose loans have been repaid in full. As of Jan. 1, 1976, there were 66 such borrowers with 25,498 miles energized and 144,266 consumers served.⁵ Includes 67,628,164 kw.-hr. sold by one REA borrower to another.⁶ Excludes energy sales and revenues of power sold by one REA borrower to another.⁷ Includes rural nonfarm and farm consumers.

Rural Electrification Administration.

CHAPTER XI

STABILIZATION AND PRICE-SUPPORT PROGRAMS

The statistics in this chapter relate to activities of the Commodity Credit Corporation, cropland diversion and production adjustment programs, and marketing agreement and order programs for fruits and vegetables. Statistics for Federal Milk Marketing Order programs are contained in chapter VIII.

Three new tables are included in this chapter which present data on Agricultural Stabilization and Conservation Service programs, as follows: (1) Number of payees and payments received, by States, (2) payments to producers by program and commodity for the United States, and (3) number of farms and payees, producer net payment, production for payment, and average payment per farm and per payee under the Feed Grain, Wheat, and Cotton programs (Disaster Provisions).

The tables which contained a history of the Set-Aside Programs for feed grains, wheat, and cotton for years 1971-1973 have been dropped; also, one other table showing number of producers and payments received by size groups under ASCS programs has been discontinued.

Table 695.—Commodity Credit Corporation: Price support granted on 1974 crop, United States and Territories¹

Commodity	Unit	Through June 30, 1975	
		Quantity	Value
Cotton, upland	Bale	2.4	292.7
Cotton, extra-long staple	do	(2)	10.9
Seed cotton, upland	Pound	7.5	1.8
Wheat	Bushel	37.3	53.8
Corn	do	77.4	87.2
Milk and butterfat:			
Butter	Pound	82.7	54.3
Cheese	do	104.4	79.9
Dried milk	do	386.1	224.6
Tobacco	do	23.5	26.6
Rice, rough	Cwt	9.3	73.0
Grain sorghum	Bushel	6.7	13.1
Soybeans	do	34.6	78.2
Peanuts, farmers stock	Pound	1,072.4	198.5
Oats	Bushel	3.9	2.2
Flaxseed	do	.1	.1
Barley	do	6.9	7.3
Beans, dry edible	Cwt	.1	.7
Rye	Bushel	.2	.2
Honey	Pound	12.5	2.6
Special purchase programs ²			241.2
Total			1,448.9

¹ Consists of loans made and acquisitions under commodity loan and purchase programs.

² Less than 50,000.

³ Commodities included in "Special purchase programs" for 1974 crop are corn products, wheat products, rolled oats, rice cereal, vegetable oil products, blended food products, soya flour, feed for Government facilities, foundation seeds, milled rice, peanut butter, sorghum grits, and seeds and plants.

¹ Commodities which were owned by CCC in some years but not shown in this table are as follows: Cottonseed and products, naval stores, wheat products, corn products, oat products, rice products, vegetable oil, honey, mixed feed, linseed oil, and foundation seeds.

² Less than 500,000 units.

³ Less than 50,000 units.

⁴ Farmers' stock basis; includes farmers' stock equivalent of shelled peanuts.

⁵ Rough basis; includes milled rice in rough equivalent.

⁶ The total value of all commodities owned by CCC, including price-supported commodities not shown and commodities acquired under programs other than price-support programs.

Agricultural Stabilization and Conservation Service. Data for 1949-62 in *Agricultural Statistics, 1972*, table 742.

¹ Loans made directly by Commodity Credit Corporation. As far as possible, loans have been distributed according to the location of producers receiving the loans. Direct loans to cooperative associations for the benefit of members have been distributed according to the location of the association.

² Includes storage facility and equipment loans.

³ Negative figure (prior year adjustment).

Agricultural Stabilization and Conservation Service.

FOOTNOTES FOR TABLE 702

¹ Includes donations under Sections 407, 416, and miscellaneous donations under various other authorizations.

² \$500 or less.

³ Denotes negative item which results from adjustment of prior activity.

Agricultural Stabilization and Conservation Service.

¹ National area allotments proclaimed by the Secretary of Agriculture under the Agricultural Adjustment Act of 1938, as amended. In most years, allotments were accompanied by marketing quotas.

² Excludes increases in allotments granted under special legislation, as for durum for years 1954–57 and 1962, and for small wheat farms, 1964–66.

³ Adjusted in certain years to include increases granted under special legislation.

⁴ Totals of individual allotments. Beginning 1966, flue-cured allotments shown are before adjustments for undermarketings and overmarketings the previous year. Allotments are also proclaimed for types other than flue-cured and burley.

⁵ Marketing quotas voted out for 1964 and have not been in effect in succeeding years.

⁶ Agricultural Act of 1970 changed wheat allotments to domestic allotments for 1971, 1972, and 1973.

⁷ Discontinued.

Agricultural Stabilization and Conservation Service. Data for 1949–58 in *Agricultural Statistics, 1972*, table 759.

Oregon and Northern California	750	102,727
Southeastern States (Virginia-North Carolina)	300	32,659
Washington	425	178,710
Nuts:		
California almonds	6,500	115,275
Oregon, Washington, and California walnuts	7,900	88,224
Oregon and Washington filberts	1,700	7,052
Peanuts ³	64,800	758,579
Washington, Oregon, Idaho, and California hops	202	45,882
Total (47 programs)	144,129	3,707,438

¹ Included under "Florida oranges, grapefruit, tangerines, and tangelos."² Inactive.³ Marketing agreement only; covers States of Alabama, Florida, Georgia, Mississippi, South Carolina, Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, Texas, Missouri, North Carolina, Tennessee, and Virginia.

CHAPTER XII

AGRICULTURAL CONSERVATION AND FORESTRY STATISTICS

Statistics in this chapter concern conservation of various resources, particularly soil, water, and timber. Forestry statistics include area of private and public-owned forest land, timber production, imports and exports, pulpwood consumption and paper and board production, area burned over by forest fires, livestock grazing, and recreational use of national forest lands. Data on production, supply, and distribution of naval stores are included because of their close association with forestry statistics.

Table 716.—Agricultural Conservation Program:¹ Assistance to farmers for carrying out conservation and pollution abatement practices, United States and Caribbean area, by program years, 1959–75

¹ For specific procedure on organization of soil conservation districts, reference should be made to each of the respective State soil conservation district's laws.

² Upon request, the U.S. Department of Agriculture enters into memoranda of understanding with districts for such assistance from the Departmental agencies as may be available.

³ Includes the Imperial Irrigation District.

⁴ Includes three State cooperative grazing districts.

⁵ Includes the Elephant Butte Irrigation District.

¹ As authorized by the Act of Congress August 7, 1956 (Public Law 1021, 84th Congress).

Soil Conservation Service.

FOOTNOTES FOR TABLE 730

¹ Covers work in following watersheds: Buffalo Creek, Coosa River, Little Tallahatchie, Los Angeles, Potomac, Santa Ynez, Yazzo, Trinity, Washita, and Little Sioux.

² These principal physical works of improvement have been installed and major fire protection equipment items acquired for watershed improvement purposes under the Flood Control Acts by the Forest Service and cooperating State agencies.

³ Includes treatment of watersheds following fire or other disaster under the provisions of Section 216 of the Flood Control Act of 1959.

Forest Service.

FOOTNOTES FOR TABLE 731

¹ Data may not add to totals because of truncating.

² Forest land is land at least 10 percent stocked by forest trees of any size, or formerly having had such tree cover and not currently developed for non-forest use. Includes chaparral areas in the West and afforested areas. The minimum area for classification of forest land is 1 acre. Roadside, streamside, and shelterbelt strips of timber must have a crown width at least 120 feet wide to qualify as forest land. Unimproved roads and trails, streams, and clearings in forest areas are classed as forest if less than 120 feet in width.

³ Commercial timberland is forest land which is producing or is capable of producing crops of industrial wood and not withdrawn from timber utilization by statute or administrative regulation. Includes areas suitable for management to grow crops of industrial wood, generally capable of producing in excess of 20 cubic feet per acre of annual growth. Includes both accessible and inaccessible areas.

Forest Service. Data for 1962 in *Agricultural Statistics, 1970*, table 769.

Table 729.—Watershed protection¹ and flood prevention projects:² Works of improvement installed with the assistance of the Soil Conservation Service in fiscal year 1975 with watershed protection and flood prevention funds

¹ As authorized by the Soil Conservation Act of 1935 (Public Law 46, 74th Congress) and Watershed Protection and Flood Prevention Act P.L. 566 as amended.

² All of the 11 watersheds were approved Dec. 22, 1944; however, flood control funds did not become available for works of improvement until 1946. As of June 30, 1965, work in one watershed was completed.

³ Includes some basins constructed as structural measures.

Soil Conservation Service.

Table 730.—Flood prevention: Improvement works completed in authorized watersheds with assistance of the Forest Service, years ending June 30, 1974 and 1975, and cumulative to June 30, 1975¹

Other removals	1,315	334	981	4,358	1,744	2,614
Total	2,910	1,257	1,653	8,022	4,218	3,804
Mortality	4,505	2,759	1,746	15,331	11,349	3,982

¹ Timber removals include the net volume of growing stock trees removed from the inventory by harvesting; cultural operations, such as timber-stand improvement; land clearing; or changes in land use. Volumes refer to growing stock inventory and are in cubic feet roundwood excluding bark and in board feet log scale, International $\frac{1}{4}$ -inch rule, and represent the net cubic foot volume of live sawtimber and poletimber trees from stump to minimum 4-inch top (of central stem) outside bark and the net board foot volume of the saw-log portion of live sawtimber trees (from stump to merchantable top). Data may not add to totals because of truncating.

Forest Service. Data for 1962 in *Agricultural Statistics, 1970*, table 772.

¹ Data may not add to totals because of truncating. Zeros indicate that there are no data or negligible amounts.

² Timber removals include the net volume of growing stock trees removed from the inventory by harvesting; cultural operations, such as timber-stand improvement; land clearing; or changes in land use.

³ The considerable excess of cut over growth for most western softwoods is not entirely due to overcutting. Growth is at a low level partly because 8 percent of the commercial forest area consists of old-growth timber which contributes little to net annual growth, and an excess of cut over growth is necessary to achieve a more regulated forest containing a desirable balance of growing stock by age classes.

⁴ Includes coastal Alaska.

⁵ Includes Hawaii.

¹ National Forest System lands.—The national forests, national forest purchase units, national grasslands, and other lands administered by the Forest Service. Includes national forest lands withdrawn for use of other Federal agencies where the National Forest reservation has not been revoked.

National forests.—Areas formally designated or proclaimed as national forests. Data also include administrative sites outside national forest boundaries.

Purchase units.—Portions of approved national forest acquisition areas established by the Secretary of Agriculture, with the concurrence of the National Forest Reservation Commission, located outside designated or proclaimed national forest boundaries.

National grasslands.—Lands designated "National grasslands" by the Secretary of Agriculture and permanently held by the Department of Agriculture under Title III of the Bankhead-Jones Farm Tenant Act. The area shown for the national grasslands are the areas of such lands administered by the indicated unit headquarters or regions.

Land utilization projects.—Lands administered by the Forest Service for programs of land utilization and adjustment under Title III of the Bankhead-Jones Farm Tenant Act.

Research and experimental areas.—Areas outside of the national forests and grasslands which have been reserved and dedicated to forest or range research and experimentation.

Other areas.—Lands administered by the Forest Service that are not included in the above groups.

² Other lands within unit boundaries.—Lands within the unit boundaries in private, State, county, and municipal ownership and Federal lands over which the Forest Service has no jurisdiction. Areas of such lands which have been offered to the United States and have been approved for acquisition and subsequent Forest Service administration, but to which title had not yet been accepted by the United States.

³ Less than 500 acres.

Forest Service.

FOOTNOTES FOR TABLE 732

¹ Data may not add to totals because of truncating.

² Net volume in cubic feet of live sawtimber and poletimber trees from stump to a minimum 4-inch top (of central stem) outside bark or to the point where the central stem breaks into limbs.

³ Net volume of the saw-log portion of live sawtimber trees in board feet log scale, International $\frac{1}{4}$ -inch rule. Live trees of commercial species containing at least one saw log. Softwoods must be at least 9.0 inches in diameter breast height, except in California, Oregon, Washington, and coastal Alaska where the minimum diameter is 11.0 inches. Hardwoods must be at least 11.0 inches in diameter in all States.

Forest Service. Data for Jan. 1, 1963, in *Agricultural Statistics, 1970*, table 770.

Forest Service. All U.S. Forest Service national forest prices in this table are bid prices (including KV payments) for timber sold on a Scribner Decimal C log rule basis, except in the Northeastern States where International $\frac{1}{4}$ -inch log rule is used. Prices exclude timber sold by land exchanges and from land utilization project lands. Data for 1949–62 in *Agricultural Statistics, 1972*, table 792.

¹ Computed from data compiled by the Market News Service in Raleigh, N.C.Statistical Reporting Service. Data for 1949-62 in *Agricultural Statistics, 1972*, table 802.

FOOTNOTES FOR TABLE 755

¹ Imports for consumption, as reported by the U.S. Department of Commerce.² Drums of 520 pounds net weight for wood; 517 pounds for gum.³ Less than 500 drums.⁴ The gum and wood breakdown of imports is not available.⁵ Reports of the U.S. Department of Commerce. Includes some modified rosin.⁶ Total supply less exports and Mar. 31 stocks.⁷ The difference between domestic disappearance and reported industrial consumption is due to unreported industrial consumption; failure of some consumers to distinguish in their reports between gum, wood, and modified or derived rosins; and the inclusion of modified rosins in exports.Statistical Reporting Service. Data for 1949-62 in *Agricultural Statistics, 1972*, table 804.

CHAPTER XIII

CONSUMPTION AND FAMILY LIVING

The statistics in this chapter deal with the consumption of food by both rural and urban people, retail price levels, and other aspects of family living of farm people. Data presented here on quantities of food available for consumption are based on material presented in the earlier commodity chapters, but they are shown here at the retail level, a form that is more useful for an analysis of the demand situation faced by the producer. Data on quantities of farm-produced food consumed directly by farm households are presented in the commodity chapters. Its value and the rental value of the farm home are given in the section on farm income, table 641.

A new table is included in this chapter entitled "Thrifty food plan" which contains suggested amounts of food for a week. It is the least expensive of USDA's four food plans. (See table 764 for food cost at four cost levels.)

Three tables were discontinued as follows: (1) Suggested amounts of food for a week at three cost levels, (2) annual cost of clothing purchases at three cost levels by urbanization and region, and (3) service-life expectancy under one owner of selected major appliances.

Table 758.—Population: Number of people eating from civilian food supplies, United States, Jan. 1 and July 1, 1959–76¹

Year	Jan. 1	July 1	Year	Jan. 1	July 1

¹ Quantities of nutrients computed by Agricultural Research Service, Consumer and Food Economics Institute, on the basis of estimates of per capita food consumption (retail weight), including estimates of produce of home gardens, prepared by the Economic Research Service. No deduction made in nutrient estimates for loss or waste of food in the home, use for pet food, or for destruction or loss of nutrients during the preparation of food. Civilian consumption. Data include iron, thiamin, riboflavin, and niacin added to flour and cereal products; other nutrients added primarily as follows: vitamin A value to margarine, milk of all types, milk extenders; vitamin B₆ to cereals, meal replace-

ments, infant formulas; vitamin B₁₂ to cereals; ascorbic acid to fruit juices and drinks, flavored beverages and dessert powders, milk extenders and cereals. Quantities for 1960-66 were estimated in part by Consumer and Food Economics Institute.

² Preliminary.

¹ Developed 1975. Least expensive of USDA's four food plans (see table 764). Used as basis for coupon allotment in Food Stamp Program, effective January 1976. Amounts are for food as purchased or brought into the kitchen from garden or farm to prepare all meals and snacks for the week. Amounts allow for a discard of about 5 percent of the edible food as plate waste, spoilage, etc. Amounts of foods are shown to two decimal places to allow for greater accuracy, especially in estimating rations for large groups of people or for long periods of time. For general use, amounts of food groups for a family may be rounded to the nearest tenth or quarter of a pound.

² Fluid milk and beverage made from dry or evaporated milk. Cheese and ice cream may replace some milk. Count as equivalent to a quart of fluid milk: Natural or processed cheddar-type cheese, 6 ounces; cottage cheese, 2½ pounds; ice cream or ice milk, 1½ quarts; unflavored yoghurt, 4 cups.

³ Bacon and salt pork should not exceed 1/3 pound for each 5 pounds of this group.

⁴ Weight in terms of dry beans and peas, shelled nuts, and peanut butter. Count 1 pound of canned dry beans—pork and beans, kidney beans, etc.—as 0.33 pound.

⁵ Includes coffee, tea, cocoa, soft drinks, punches, ades, leavenings, and seasonings.

⁶ Cereal fortified with iron is recommended.

⁷ For pregnant and nursing teenagers, 7 quarts are recommended.

Agricultural Research Service.

¹ Estimated from quantities in food plans shown in *Agricultural Statistics, 1975*, table 764. The costs of the food plans were first estimated by using the average price per pound of each food group paid by urban survey families at three selected food cost levels in 1965-66. These prices were adjusted to current levels by use of Retail Food Prices by Cities released periodically by the Bureau of Labor Statistics. ² Ten percent added for family size adjustment. See footnote 3. ³ The costs given are for individuals in 4-person families. For individuals in other size families, the following adjustments are suggested: 1-person—add 20 percent; 2-person—add 10 percent; 3-person—add 5 percent; 5- or 6-person—subtract 5 percent; 7-or-more-person—subtract 10 percent.

Agricultural Research Service.

FOOTNOTES FOR TABLE 761

¹ Civilian consumption only. Quantities of individual foods, measured in pounds equivalent to the form sold at retail food stores, are combined into indexes using average retail prices in 1957-59. Does not incorporate changes resulting from the 1969 Census of Agriculture. ² Includes edible offal. ³ Preliminary. ⁴ Data for melons, fresh vegetables, potatoes, sweetpotatoes, and dry beans and peas include consumption from home garden produce. ⁵ Corn sugar and sirups are included with sugars and other sweeteners. ⁶ Excludes sugar used in production of canned and frozen fruit, canned fruit juices, canned vegetables, and unskimmed sweetened condensed milk. ⁷ Excludes spices and herbs.

Economic Research Service. Data for 1909-58 in *Agricultural Statistics, 1972*, table 808.

¹ A subsidy program for local purchase of food on basis of the quality and quantity of meals served. The program was started in February 1943. ² A subsidy program to schools started in January 1967. ³ A subsidy program which aids in the purchase of school lunch equipment. The program started in fiscal year 1967. ⁴ Distribution, without charge to recipients, of food commodities acquired by the Government and distributed under provisions of Section 32, Public Law 320, 74th Congress, approved Aug. 24, 1935, as amended; under Section 416, Public Law 439, 81st Congress, as amended; and under Section 6 of the National School Lunch Act, Public Law 396, 79th Congress, approved June 4, 1946. Distribution to ultimate eligible recipients is accomplished through cooperating distributing agencies in States. Eligible recipients include school lunch programs, eleemosynary institutions, and households receiving public assistance from State or local welfare agencies or other needy persons. ⁵ A subsidy program to expand consumption of milk by children. ⁶ Includes \$70,809,000 cash in lieu of commodities to schools under Public Law 93-13. ⁷ Includes \$5,175,000 cash in lieu of commodities. ⁸ Preliminary. ⁹ Includes \$38,541,000 cash in lieu of commodities.

Food and Nutrition Service. Data for 1949–58 in *Agricultural Statistics, 1972*, table 811, with years beginning in July.

¹ See footnote 4, table 765.² Excludes \$5,175,000 cash in lieu of commodities.

Food and Nutrition Service.

FOOTNOTES FOR TABLE 762

¹ Civilian consumption only. Quantity data used in computing the per capita food consumption index, table 761. Final consumer products that are derived from a combination of primary food groups, such as bakery products, are measured and reported in their primary ingredients, such as flour, shortening, and eggs. Data incorporate changes resulting from the 1969 Census of Agriculture.

² Includes game and edible offal.³ Includes 2.8 pounds per capita of game fish in 1959; 2.9 pounds in 1960; and 3.0 pounds thereafter.⁴ Includes product weight of butter and margarine; other items in terms of fat content.⁵ Preliminary.⁶ Data for melons, fresh vegetables, potatoes, sweetpotatoes, and dry beans and peas include consumption of home garden produce.⁷ Excludes estimated quantities of meat, poultry, and fish-base soups duplicated elsewhere.⁸ Soya products approximated at 1.3 pounds.⁹ Corn sugar and sirups are with sugars and other sweeteners.¹⁰ Excludes sugar used in production of canned and frozen fruit, canned fruit juices, canned vegetables, and unskimmed sweetened condensed milk.¹¹ Includes spices and herbs.Economic Research Service. Data for 1909-58 in *Agricultural Statistics*, 1972, table 809.

¹ Reflects retail prices of goods and services usually bought by average families in urban areas of the United States. This index is the official index released monthly by the U.S. Department of Labor.

² Prior to 1964, excludes upkeep.

Economic Research Service. Compiled from data of the U.S. Department of Labor. Data for 1934–58 in *Agricultural Statistics*, 1972, table 816.

CHAPTER XIV

MISCELLANEOUS AGRICULTURAL STATISTICS

This chapter contains miscellaneous data which do not fit into the preceding chapters. Included here are summary tables on foreign trade in agricultural products; weather data; statistics on fishery products; tables on refrigerated warehouses; commodity futures statistics; and statistics on crops in Alaska. One weather table is included in this issue. The two tables showing monthly and annual 30-year normals, by climatic divisions, for precipitation and for average temperature are carried about every five years. The current table showing annual averages for precipitation and temperature, by climatic divisions, is carried annually. More complete information can be secured from the National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

Foreign Agricultural Trade Statistics

U.S. foreign agricultural trade statistics are based on documents filed by exporters and compiled by the Bureau of the Census. Agricultural commodities consist of (1) nonmarine food products and (2) other products of agriculture which have not passed through complex processes of manufacture such as raw hides and skins, fats and oils, and wine. Such manufactured products as textiles, leather, boots and shoes, cigarettes, naval stores, forestry products, and distilled alcoholic beverages are not considered agricultural.

The trade statistics exclude shipments between the 50 States and Puerto Rico, between the 50 States and the island possessions, between Puerto Rico and the island possessions, among the island possessions, and in transit through the United States from one foreign country to another when documented as such by U.S. Customs authorities.

The export statistics also exclude shipments to the U.S. Armed Forces and diplomatic missions abroad for their own use and supplies for vessels and planes engaged in foreign trade. Data on shipments valued at less than \$251 (\$100 prior to October 1969) are not compiled by commodity and are excluded from agricultural statistics but are reflected in nonagricultural and overall export totals. The agricultural export statistics include shipments under P.L. 83-480 (Agricultural Trade Development and Assistance Act), and related laws; under the Foreign Assistance Act of 1961, as amended; and involving Government payments to exporters. (USDA payments are excluded from the export value.) Separate statistics on Government program exports are compiled by the U.S. Department of Agriculture from data obtained from operating agencies.

The export value, the value at the port of exportation, is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port. The country of destination is the country of ultimate destination or where the commodities are to be consumed, further processed, or manufactured. When the shipper does not know the ultimate destination, the shipments are credited to the last country, as known to him at the time of shipment from the United States, to which the commodities are to be shipped in their present form. Since substantial amounts of agricultural commodities such as wheat, corn, and soybeans are transshipped through Canada, the Netherlands, and Belgium, exports to those countries are overstated. Exports to final destinations including West Germany, the United Kingdom, France, Spain, and other countries are understated. Except for Canada, export shipments valued \$251-\$999 (\$100-\$499 prior to October 1969) are included on the basis of sampling estimates; shipments to Canada valued \$251-\$1,999 (\$100-\$1,999 prior to October 1969) are sampled. Prior to January 1, 1973, shipments of grains and oilseeds to Canada were greatly overstated because of transshipments. After January 1, 1973, shipments to Canada of wheat, rye, barley, oats, corn, soybeans, and flaxseed from certain U.S. ports to certain Canadian ports were designated as exports to "unidentified countries."

Imports for consumption are a combination of entries for immediate consumption and withdrawals from warehouses for consumption. The import value, defined generally as the market value in the foreign country, excludes import duties, ocean freight, and marine insurance. The country of origin is defined as the country where the commodities were grown or processed. Where the country of origin is not known, the imports are credited to the country of shipment. Low-valued shipments under \$251 are reflected in nonagricultural and overall import totals.

Table 771.—Foreign trade: Value of total agricultural exports and imports, United States, 1959–75

¹ Includes food exported for relief or charity by individuals and private agencies. These figures include a small amount of certain foodstuffs other than agricultural.

² Supplementary agricultural imports consist of all imports similar to agricultural commodities produced commercially in the United States, together with all other agricultural imports interchangeable to any significant extent with such U.S. commodities. Complementary agricultural imports include all others, about 98 percent of which consist of rubber, coffee, raw silk, cacao beans, wool for carpets, bananas, tea, and vegetable fibers.

³ Preliminary.

¹ Agricultural exports excluding Government programs (sales for dollars) include, in addition to unassisted commercial transactions, shipments of some commodities with governmental assistance in the form of (1) barter for overseas procurement for U.S. agencies, (2) extension of credit and credit guarantees for relatively short periods, (3) sales of Government-owned commodities at less than domestic market prices, and (4) export payments in cash.

² The excess of Government program shipments over total exports may be attributed to lags in reporting or to difference in classification or valuation procedures.

³ Less than \$50,000.

Economic Research Service.

¹ Preliminary.² Supplementary agricultural import products consist of all products similar to agricultural commodities produced commercially in the United States, together with all other agricultural products interchangeable to any significant extent with such U.S. commodities. Complementary agricultural products include all others, about 98 percent of which consist of rubber, coffee, raw silk, cacao beans, wool for carpets, bananas, tea, and vegetable fibers.

Economic Research Service. Compiled from reports of the U.S. Department of Commerce.

¹ Preliminary.² Grains, poultry, and pork were subject to variable levies beginning on July 30, 1962; rice on Sept. 1, 1964; and beef and dairy products, on Nov. 1, 1964.³ Lard for food is a variable-levy commodity, while lard for industrial use is bound in the General Agreement on Tariffs and Trade (GATT) at 3 percent ad valorem. U.S. lard is for food use.⁴ Although canned poultry, and pork variety meats are subject to variable levies, these cannot exceed the amount of import duties bound in GATT.⁵ Variable levy on sugar-added content.

¹ Because of transshipments, U.S. exports are overstated to Canada (prior to January 1, 1973), the Netherlands and Belgium, and understated to West Germany, the United Kingdom, Ireland, Denmark, France, Italy, Switzerland, Spain, Norway, Sweden, the U.S.S.R., Japan, and other countries.

² Includes sales for foreign currency, donations for disaster relief and economic aid, donations through voluntary relief agencies, and long-term credit sales, under P.L. 83-430 (the Agricultural Trade Development and Assistance Act of 1954, as amended), and other legislation. Also includes the Foreign Assistance Act of 1961, as amended.

³ "Agricultural exports outside specified Government-financed programs" (sales for dollars) include in addition to unassisted commercial transactions, shipments of some commodities with governmental assistance in the form of (1) barter of overseas procurement for U.S. agencies, (2) extension of credit and credit guarantees for relatively short periods, (3) sales of Government-owned commodities at less than domestic market prices, and (4) export payments in cash. ⁴ Separately classified May 1, 1972. ⁵ The excess of Government programs over total exports may be due to lags in reporting or to differences in classification or valuation procedures.

¹ Supplementary agricultural imports products consist of all products similar to agricultural commodities produced commercially in the United States, together with all other agricultural products interchangeable to any significant extent with such U.S. commodities. Complementary agricultural products include all others, about 98 percent of which consist of rubber, coffee, raw silk, cacao beans, wool for carpets, bananas, tea, and vegetable fibers.

² Less than \$50,000.

³ Totals may not add due to rounding.

¹ Commodities covered by the Commodity Exchange Act prior to April 1975.

² In terms of contract units, all contract markets combined. Contract unit is as shown in unit column of table 786, except for the following commodities: Grains and soybeans, 5,000 bushels; sorghum grain, 280,000 pounds for Kansas City Board of Trade, and 400,000 pounds beginning with the 1972 September future and 200,000 pounds prior to that future for Chicago Mercantile Exchange; cotton, 100 bales; eggs (shell) and potatoes, carlots; and soybean meal, 100 tons.

³ Data for 1975 from trade sources.

⁴ Includes live beef cattle, choice steers, and feeder cattle.
