TREASURY DEPARTMENT.

December 6, 1892.

THE SPEAKER OF THE HOUSE OF REPRESENTATIVES.

SIR: I herewith transmit to the House of Representatives the Fifteenth Number of the Statistical Abstract, prepared by the Chief of the Bureau of Statistics under my direction.

This abstract embraces tables in regard to finance, coinage, mining, commerce, immigration, tonnage, navigation, the Postal Service, public lands, population, education, railroads, and agriculture.

I have the honor to request that it may be printed at as early a day as practicable, as the relative value of the information contained therein depends greatly upon the promptness with which it is printed and made available to the public.

Respectfully, yours,

O. L. SPAULDING,
Acting Secretary.

IN THE SENATE OF THE UNITED STATES,

December 13, 1892.

Resolved by the Senate (the House of Representatives concurring), That there be printed 20,000 copies of the Statistical Abstract of the United States for the year 1892, prepared by the Bureau of Statistics, Treasury Department; 6,000 copies for the use of the members of the Senate, 12,000 copies for the use of the members of the House of Representatives, and 2,000 copies for the use of the Bureau of Statistics, Treasury Department.

a The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.

b The expenses of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, rents, labor in weighing, gauging, and measuring imported merchandise, revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the travelling expenses of special agents, but does not include expenditures for revenue cutters, fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.

The expenses of collecting internal and customs revenue do not include the expenditures for salaries, etc., incident to auditing these accounts in the Departments at Washington.

NOTE 1.—There are no data prior to 1821 showing the values of free and dutiable foreign merchandise separately.

NOTE 2.—In the table of receipts from all sources, published annually in the Finance Report, the column headed "Customs" shows the total annual customs collections from all sources covered by warrant into the Treasury, after deducting expenses of collection. From 1791 to 1850 collectors paid from customs receipts all expenses of their offices and turned the net amount remaining into the Treasury, but from 1850 to the present time they have been compelled by law to turn into the Treasury all amounts collected, while the expenses of their offices are paid by warrants from the Treasury of the United States. The figures in the column of the above table headed "Amounts of duty collected" from 1791 to 1866, inclusive, show the annual amounts of duty collected on merchandise only, without any deductions for expenses of collection and omitting the collections from tonnage, light-houses, fines, penalties, forfeitures, etc. (Explanation given by Register of Treasury.) For these reasons the figures of "duties collected" prior to 1851 in the above table largely exceed in many cases the amount of receipts from customs as shown in the Finance Report, inasmuch as the expenses of collection were of considerable magnitude during the years when the net receipts only were covered into the Treasury. From 1850 to 1866 the receipts in the table in the Finance Report should exceed the duties collected in the above table by amounts of collections from sources other than duties on merchandise, such as tonnage dues, fines, penalties, and forfeitures, hospital dues, etc. Since 1866, the duties collected as shown by the above table are taken from the accounts of this office. While these data showing the duties collected on merchandise from 1802 to the present time are somewhat diverse in character, they are the best attainable.

NOTE 3.—The annual average ad valorem rates of duty prior to 1853 are based upon the values of the gross imports; from 1853 to include 1866, upon the value of the net imports, and after 1866, upon the values of imported merchandise entered for consumption, as returned by collectors of customs, considering ordinary duties only. The reason for basing the average ad valorem rates of duty prior to 1853 upon the values of the gross imports is that the amounts of "duty collected" for those years include the duties afterward refunded upon exports of foreign merchandise.

a State-bank notes ceased to circulate after passage of the act of February 8, 1875, which laid upon them a tax of 10 per cent. They were not receivable for public dues and therefore do not appear among the funds in the Treasury.

b For convenience the Treasury notes, act of July 14, 1890, are included with United States notes.

NOTE.—The difference between the amount of money in the country and the amount in circulation represents the money in the Treasury.

Currency certificates, act of June 3, 1872, are included in the amount of United States notes in circulation in the tables for the years 1873 to 1891 inclusive; in 1892 they are reported separately.

The foregoing tables present the revised figures for each of the years given.

^a The results for 1889, with the exception for lime, cement, salt, zinc white, borax, bromine, slate ground as a pigment, and rutile, were obtained through the Eleventh United States Census.

^b "Long" tons are tons of 2,240 avoirdupois pounds; short tons are tons of 2,000 avoirdupois pounds.

^c \$1.2020 per troy ounce.

^d \$20.6718 per troy ounce.

^e Including copper made from imported pyrites, except in 1881, for which no returns are available for matte.

^f Of 76½ avoirdupois pounds net.

^g Including nickel in copper-nickel alloy, and in exported ore and matte.

^h Including aluminum alloys.

ⁱ By "spot" value is meant value at the point of production.

^j Including brown coal and lignite, and anthracite mined elsewhere than in Pennsylvania.

^k Not including lime in barrels, limestone for iron flux, or grindstones.

^a Includes domestic spirits exported and returned since 1886.

^b Product less exports.

NOTES.—(1) The production of domestic wines from 1875 to 1892 was estimated by the Department of Agriculture, by Mr. Charles McK. Leoser, president of the Wine and Spirit Traders' Society of New York, and other well-informed persons, and the production for 1889 (opposite the year 1890) is that officially reported by the United States Census. (2) The consumption of domestic spirituous and malt liquors from 1875 to 1892 was obtained from the reports of the Commissioner of Internal Revenue. (3) The consumption of imported liquors and wines from 1875 to 1892 was taken from the official returns made to the Bureau of Statistics by collectors of customs. (4) In computing the quantity of sparkling and still wines and vermouth in bottles, five so-called quart bottles are reckoned as equivalent to the gallon.

a No detailed statement of the trade of each port with foreign countries was published for this year, which renders it impossible to determine what amount of the tonnage of each foreign country, if any, may have entered at lake ports. The whole amount of tonnage from the countries herein enumerated has therefore been credited to seaports.

b A small portion of the tonnage from the United Kingdom during this year entered at lake ports and has been deducted from the total tonnage entered from that nation, which will account for the apparent discrepancy between these figures and those of the regular annual statement of navigation for 1876.

c Includes Bermuda.

a No detailed statement of the trade of each port with foreign countries was published for this year, which renders it impossible to determine what amount of the tonnage of each foreign country, if any, may have cleared at lake ports. The whole amount of tonnage for the countries herein enumerated has therefore been credited to seaports.

a For the population of Alaska and Indian Territory for 1890, see table No. 214.

b The figures given for Oklahoma Territory include the area of the former public land strip, 5,733 square miles, or 3,672,320 acres.

c It is impossible to state whether the areas of the admitted States, as given in the table, embrace both land and water surface. The source from which they were originally obtained is not known. In regard to the areas of the public land States and Territories where the public land surveys have been completed (Ohio, Indiana, Mississippi, Illinois, Alabama, Missouri, Arkansas, Michigan, Iowa, Wisconsin, and Kansas), the areas as given are from actual surveys, and include the surfaces of all nonmeandered streams, lakes, etc., but exclude the areas of meandered waters. In the States and Territories in which the public land surveys are still in progress, the total area embraces both land and water surface, but the area of surveyed land does not include the surface of meandered waters.

NOTES.—(1) No comprehensive figures of the business of the railways of the United States are attainable prior to the above. And even these tables are the fruit of private enterprise, in compiling from the official annual reports of each road the results of the traffic as shown above. (2) This table differs from Table No. 224 in that it does not include New York elevated railroads.

a The figures 29½ represent published rates. At times during the year the rate was cut to 20 cents, making the average rate on that basis, St. Louis to Liverpool via New York, as low as 17½ cts. per bushel.
b On all grain except corn, on which rate was 26 cents.

NOTE.—The Interstate Commerce Commission, January 26, 1893, states that the freight rates on grain and flour, per 100 pounds, are as follows:

	Cents.		Cents.
From Chicago to New York.....	25	From St. Louis to New York	29
From Chicago to Boston	27	From St. Louis to Boston	31
From Chicago to Philadelphia	23	From St. Louis to Philadelphia	27
From Chicago to Baltimore	22	From St. Louis to Baltimore	26

and that rates on traffic from St. Louis and Chicago to Boston for export are the same as above to New York. To other points rates shown above apply alike on local and export traffic.

NOTE.—Receipts at New York, Portland, Boston, Philadelphia, and Baltimore include shipments from the West to foreign countries through these ports on through bills of lading. Receipts at Portland via Montreal are duplications of receipts reported at Montreal. Receipts at Baltimore include flour ground by city millers (458,044 barrels in 1891) and exported. Receipts at New Orleans do not include shipments of oats and corn through that port to foreign countries on through bills of lading.

Grain embraces flour as wheat, wheat, corn, rye, oats, barley, malt, and pease.

The greatly increased mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph Companies, the former having previously in operation over 12,000 miles of line and the latter 8,706 miles. Capital stock of the Western Union, \$100,000,000.

The Western Union has exclusive contracts with several international cable companies, operating eight Atlantic cables, and guarantees 5 per cent annual dividends on the stock of the American Telegraph and Cable Company; amount, \$14,000,000.

Besides the above, there are many new lines of telegraph which have complied with the United States telegraph act of 1866, and are operating wires with or without connection with railway companies.

The New York Mutual Telegraph Company, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and has extended its lines north and south, operating from Boston to Chicago, St. Louis, Washington, etc. Capital stock, \$2,500,000. This line is now leased and operated by the Western Union Telegraph Company, at a rental of 6 per cent per annum on the stock.

The Baltimore and Ohio Railroad Telegraph, having lines coextensive with its railway system and branches, besides many newly extended wires south and west,

constituting 6,711 miles of line and 54,087 miles of wire, was purchased in 1887 for \$5,000,000 by the Western Union Company, which now owns and operates it.

The Bankers and Merchants' Telegraph Company, New York, organized March 23, 1881, has about 4,000 miles of line, 28,300 miles of wire, and is in operation to many leading points. Capital authorized, \$3,000,000. Debt, about \$7,500,000, as stated in August, 1874. Sold in foreclosure July 31, 1883, and now operated by the United Lines of Telegraph.

The American Rapid Telegraph Company, New York to Boston, Philadelphia, Baltimore, Washington, Buffalo, etc., with capital stock of \$4,000,000, has been leased by the Western Union Company.

The Postal Telegraph Cable Company, of New York, organized June 21, 1881, has about 1,500 miles of line and 4,500 miles of wire in operation from New York to Boston, Washington, Chicago, etc., and owns what are claimed to be very valuable patents in improved wires and telegraphy. Capital stock, \$10,000,000.

The Northwestern Telegraph Company owns 8,000 miles of wire. It is leased to the Western Union for ninety-nine years, which guarantees dividends (6 per cent after 1896) and interest on bonds.

The aggregate mileage of telegraph lines in the United States open for public business exceeds 210,000 miles, besides railways, Government, private, and telephonic lines; length not ascertainable.

NOTE.—The difference in the numbers of animals stated in this table and in the foregoing table, No. 240, for 1870 and 1880, is due to the fact that this table represents the number of animals on farms on the first day of each year, while the census enumeration is made in the month of June preceding.

a The vital statistics in regard to Indians are defective.

b The Territory of Dakota was admitted to the Union November 2, 1889, as two States, viz: North Dakota and South Dakota.

c See Dakota.

d The reduction below the population for 1889 is due mainly to reduced estimates of the number of Pimas, Papagoes, and Navajoes in Arizona.

NOTE BY MESSRS. MAUGER & AVERY.—This table exhibits, in a concise form, the prices of the three grades of a standard domestic fleece wool in the seaboard markets at the beginning of each quarter. In its present shape it is deemed to be comprehensive to all who are interested in wool. In the special features of character and condition, "Washed Ohio Fleece Wool" is less subject to variation than any other description, and thus is more a basis of value than any other class. Wool, owing to its wide variety, difference in character, and condition, liability to shrink in cleaning, is precluded from speculative operations which apply to products which may be dealt in as "futures." For these reasons the prices of wool are not liable to the same changes as cotton, wheat, etc.
