Trans-Australia Airlines—operated by the Australian National Airlines Commission on behalf of the Commonwealth Government. T.A.A. operates on the main interstate routes throughout Australia and on territorial air services, as well as intrastate services in Queensland and Tasmania, and internal services in the Australian sector of Papua and New Guinea. At 30th June, 1964, T.A.A. was operating a front line fleet of 3 Electras, 12 Viscounts, 3 DC6B's, and 9 Friendships, as well as a number of DC4's, DC3's, 3 helicopters and smaller aircraft—a total fleet of 63 aircraft.

Ansett Transport Industries airline group—a private enterprise organization which comprises seven airlines. The group operates on the major interstate and territorial routes. The aircraft of the group at 30th June, 1964 included 3 Electras, 11 Viscounts, 3DC6B's and 4 Friendships as well as a number of DC4's and DC3's and 7 helicopters—a total fleet of 98 aircraft.

Small private enterprise airlines—this group comprises three independent feeder type airlines operating basically intrastate services in New South Wales, Western Australia, Northern Territory and internally in Papua and New Guinea.

Competition between the two major airlines T.A.A. and Ansett-A.N.A., which operate on all the major interstate and territorial air routes throughout Australia and between the mainland and the Territory of Papua and New Guinea, is controlled by airline agreements and legislation passed by the Commonwealth Parliament. The two principal Acts which establish the legislative basis of this controlled competition are the *Airlines Agreement Act 1952-1961* and the *Airlines Equipment Act 1958*. The Airlines Equipment Act establishes the machinery for the achievement and maintenance of comparable, but not necessarily identical, aircraft fleets between T.A.A. and Ansett-A.N.A. and is designed to prevent the provision of excess aircraft capacity. The Airlines Agreement Act establishes the basis of control of the two-airline competitive system and extends this machinery to 1977.

5. **General Aviation.**—General aviation activity, which covers all non-airline operations such as charter, aerial work and private flying, has grown rapidly throughout Australia in the post-war period so that now it is an important sector of the Australian aviation industry. In 1963, hours flown totalled 522,693 compared with 295,441 hours flown by the Australian airline industry. At 30th June, 1964, aircraft employed in general aviation numbered more than 1,700.

6. **Training of Air Pilots.**—Since 1926, the Commonwealth has subsidized flying training in Australia largely through the Aero Club movement. In 1961 the Government altered the basis of financial assistance to flying training organizations. The new system provides for the payment of £637,000 in subsidies to Australian flying training organizations, including the aero clubs, flying schools and the Gliding Federation of Australia, spread over a four-year period from 1961 to 1965. A feature of the new subsidy arrangements was the establishment of the Australian Flying Scholarship scheme which is designed to train career pilots for the Australian commercial aviation industry. The scholarships provide financial assistance in much the same way as Commonwealth scholarships provide for people undertaking other professions. Of the 159 flying scholarships awarded for 1964-65, 114 were scholarships to take the student through to the commercial licence standard, 37 were to commercial licence plus instructor rating and eight were for agricultural rating.

During the year 1963-64, pupils of the Australian flying training organizations (aero clubs and commercial flying schools) received 266 private licences, 127 commercial licences, and 63 instructor licences. Subsidized hours flown by aero clubs and flying schools totalled 126,544 hours out of a total of 165,363 hours flown and their subsidy earnings totalled £93,749. A limit placed on the subsidy restricted the total payment to £75,000. During the year 13 clubs were also assisted with the purchase of 15 aircraft and 3 aircraft radios. The value of this assistance under the Aircraft Replacement Fund was £10,000. The permanent secretariats of the Royal Federation of Aero Clubs and the Commercial Flying Schools also received £8,000 and £1,000 respectively during 1963-64 as additional financial assistance.

Thirty-one clubs were affiliated with the Gliding Federation of Australia in 1963-64. There were 1,084 members and 428 Certificates and Awards of Competency were obtained during the year.

During 1963-64 the Commonwealth assisted gliding clubs to the extent of £6,000. This amount was allocated as follows:—£3,000 on the basis of active membership and certificates and awards gained, £1,000 to the National Gliding School, £2,000 for development and design work and secretarial functions.

The total of all subsidy payments and financial assistance to flying training organizations and the gliding movement during 1963-64 was £150,000.

7. **Aerodromes.**—The number of aerodromes throughout Australia and its Territories at 30th June, 1964, was 636. One hundred and twenty-five were owned by the Commonwealth Government and 511 by local authorities and private interests. Those owned by the Commonwealth included all major aerodromes, e.g. Sydney, Melbourne, Brisbane, Adelaide, Perth, Darwin, Hobart, Canberra, etc., while the remainder were aerodromes which basically served a local rather than a national need. Since 1957 the Commonwealth Government has encouraged local authorities to take ownership of previously Government-owned aerodromes in this second category, free of charge, with the Commonwealth and the local authority sharing maintenance and further development costs. At 30th June, 1964, 163 aerodromes were being operated under this Aerodrome Local Ownership Plan.

In November, 1962, the Commonwealth Government approved a five-year programme of aerodrome development involving major projects at Sydney, Melbourne and Launceston as well as major works at other Commonwealth-owned aerodromes in all States and in Papua and New Guinea. Work has already started on several of these projects including a major runway extension into Botany Bay at Sydney, to be followed by a new international terminal scheduled for completion in 1968, a new airport at Melbourne which is expected to open for airline services in late 1967, and major runway extensions and improvements and a new terminal at Launceston. The primary purpose of this programme is to enable Australia's major aerodromes to handle more satisfactorily the increased operational demands of long-range international jets and also cater for the general improvement in internal services following the introduction of Boeing 727's on internal routes in November, 1964.

8. **Airways Facilities.**—Concurrently with the five-year aerodrome development programme, the Commonwealth Government has approved major extensions and improvements to Australia's air navigation and communications system. New long-range radar units have been installed at Sydney and Adelaide to assist air traffic control, and other units are being established at Melbourne, Brisbane and Perth. Total cost of this radar programme is approximately £2.5 million.

During 1963 work started on stage two of the Department of Civil Aviation's plan to improve further its nationwide network of navigation facilities. This second stage, together with stage one of the plan, which is now three-quarters complete, involves the installation of a total of 116 facilities, including 28 Visual Omni Radio Ranges (VOR). The work will increase the number of laterally spaced air routes throughout Australia and improve the network of navigation aids defining them.

9. **Statistical Summaries.**—(i) *Registrations, Licences, etc.* The following table provides a summary of the civil aviation registrations and licences in force in Australia at 30th June in each of the years 1960 to 1964.

CIVIL AVIATION: REGISTRATIONS, LICENCES, ETC., AUSTRALIA^(a)

Particulars	30th June—				
	1960	1961	1962	1963	1964
Registered aircraft owners ..	745	850	938	1,006	1,167
Registered aircraft ..	1,360	1,502	(b) 1,600	(b) 1,787	(c) 1,936
Pilots' licences—					
Private ..	3,001	3,206	3,627	4,066	4,720
Private helicopter	2	2	3	6
Commercial ..	948	973	1,090	1,159	1,263
Senior commercial ..	132	147	154	176	189
Helicopter (commercial) ..	30	34	33	42	53
Student ..	3,696	4,151	4,433	4,845	5,676
Student helicopter ..	14	10	12	15	41
1st class airline transport ..	618	659	690	684	670
2nd class airline transport ..	418	471	432	464	603
Flight navigators' licences ..	168	142	141	135	137
1st class flight radio-telegraphy operators' licences ..	55	43	37	20	19
Flight radio-telephone operators' licences ..	2,651	3,679	5,370	6,552	7,956
Flight engineers' licences ..	193	200	175	168	215
Aircraft maintenance engineers' licences ..	2,382	2,492	2,485	2,521	2,553
Aerodromes, Australia—					
Government ^(d) ..	149	132	129	122	113
Licensed ^(e) ..	323	351	359	380	381
Flying-boat bases ^(f) ..	13	13	13	13	13

(a) Except for aerodromes and flying-boat bases, includes the Territory of Papua and New Guinea. (b) In addition, there were 125 gliders on the register. (c) Excludes 145 gliders. (d) Under the control and management of the Department of Civil Aviation. (e) Under the control and management of a municipality, shire, station owner, private individual, etc. Includes emergency aerodromes. (f) Includes alighting areas.

(ii) *Types of Aircraft and Gliders on the Australian Register.* The various types of aircraft and gliders on the Australian register at 31st December, 1961, were shown in Year Book No. 48, p. 559.

Details of aircraft and gliders on the Australian register at 30th June, 1964, may be found in *Transport and Communication*, Bulletin No. 55, 1963-64.

(iii) *Operations of Regular Internal Services.* The next table summarizes the flying activities of regular internal services operating within Australia during each of the years 1959-60 to 1963-64.

CIVIL AVIATION: OPERATIONS OF REGULAR INTERNAL SERVICES, AUSTRALIA^(a)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Hours flown ..	225,050	219,918	207,210	217,897	244,517
Miles ..	'000 43,199	42,301	41,176	43,700	48,971
Paying passengers ..	2,660,412	2,639,080	2,666,160	2,832,934	3,256,937
Paying passenger-miles ..	'000 1,132,517	1,109,552	1,119,430	1,221,178	1,408,317
Freight—					
Tons ^(b) ..	65,402	62,971	57,207	59,373	63,161
Ton-miles ^(b) ..	'000 29,240	28,220	26,076	28,270	30,491
Mail—					
Tons ^(b) ..	4,825	5,956	6,311	6,467	7,082
Ton-miles ^(b) ..	'000 2,567	3,064	3,198	3,324	3,741

(a) Includes only services operating within the Australian mainland and Tasmania.

(b) In terms of short tons (2,000 lb.).

(iv) *Operations of Oversea Services wholly or partly Australian-owned.* The following table furnishes a summary for the years 1959-60 to 1963-64 of overseas services wholly or partly owned by Australian interests. This table incorporates aggregate particulars of all traffic originating on overseas services of Qantas Empire Airways Limited and Tasman Empire Airways Limited, which, in the case of Qantas, includes considerable traffic which does not enter Australia. The transfer of the Australian Government's shares in Tasman Empire Airlines to the New Zealand Government on 25th July, 1961, made TEAL a wholly New Zealand-owned airline, and statistics of its operations are therefore not included in Australian statistics after 1960-61. An air services agreement was signed whereby air traffic rights into and through the two countries were exchanged at the same time, and on 1st October, 1961, both airlines commenced joint scheduling arrangements for trans-Tasman services. The table also includes traffic between Australia and Papua, New Guinea and Norfolk Island.

CIVIL AVIATION: OPERATIONS OF OVERSEA SERVICES(a)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Route miles (unduplicated) at 30th June ..	76,125	72,290	69,712	71,676	84,532
Hours flown	54,668	57,385	51,066	48,669	53,792
Miles '000	16,992	20,068	19,240	20,343	22,357
Paying passengers	232,714	291,258	247,517	294,908	352,442
Paying passenger-miles '000	720,099	847,713	836,570	1,014,867	1,185,982
Freight—

Ton-miles(b) '000	10,351	11,269	11,622	15,191	16,056

(a) Airlines wholly or partly owned by Australian interests.

(b) In terms of short tons (2,000 lb.).

(v) *Accidents and Casualties.* Particulars of accidents in which persons were killed or injured, involving aircraft on the Australian register, are shown in the following table for the years 1959-60 to 1963-64.

CIVIL AVIATION: AUSTRALIAN AIRCRAFT(a), ACCIDENTS INVOLVING CASUALTIES

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Number	43	40	46	32	33
Persons killed	44	28	52	16	24
Persons injured	42	38	38	26	26

(a) Aircraft on Australian register and gliders irrespective of location of accident.

10. Territory of Papua and New Guinea.—For brief particulars of civil aviation in Papua and New Guinea see Chapter V. The Territories of Australia, pages 128 and 134.

POSTS; TELEGRAPHS; TELEPHONES; OVERSEA TELECOMMUNICATION SERVICES

NOTE.—In this division, particulars for the Australian Capital Territory are included with those for New South Wales and the South Australian figures include particulars for the Northern Territory, unless otherwise indicated.

§ 1. General

1. **The Postmaster-General's Department.**—Under the provisions of the *Post and Telegraph Act 1901–1961*, the Postmaster-General's Department is responsible for the control and operation of postal, telegraphic and telephonic services throughout Australia. The Postmaster-General's Department is also responsible for the provision and operation of the transmitters and technical facilities required for broadcasting and television services by the Australian Broadcasting Commission (*see pp. 595–9*), and, in conjunction with the Overseas Telecommunications Commission (*see pp. 591–2*), with whom there is close cooperation, provides facilities for communication with overseas countries. Subsidiary to its major activities, the Postmaster-General's Department performs a number of important functions for other Commonwealth and State departments, including the payment of pensions, child endowment, and military allotments, the provision of banking facilities on behalf of the Commonwealth Savings Bank, the sale of tax and duty stamps, and the collection of land tax.

2. **Postal Facilities.**—(i) *Relation to Area and Population.* The following table shows the number of post offices, the area in square miles and the number of inhabitants to each post office (including non-official offices), and the number of inhabitants to each 100 square miles in each State and in Australia at 30th June, 1964.

POSTAL FACILITIES: RELATION TO AREA AND POPULATION AT 30th JUNE, 1964

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust.
Number of post offices—							
Official	514	328	231	172	148	54	1,447
Non-official	1,925	1,846	1,002	753	488	446	6,460
Total	2,439	2,174	1,233	925	636	500	7,907
Number of square miles of territory per office	127	40	541	973	1,534	53	375
Number of inhabitants per office	1,721	1,440	1,289	1,150	1,242	729	1,408
Number of inhabitants per 100 square miles	1,352	3,563	238	118	81	1,382	375

(ii) *Employees and Mail Contractors.* The number of employees and mail contractors in the Central Office and in each of the States at 30th June, 1964, is given in the following table.

NUMBER OF POSTAL EMPLOYEES AND MAIL CONTRACTORS AT 30th JUNE, 1964(a)

Particulars	Central Office	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust.
Full-time employees—								
Permanent officers	1,461	23,706	16,462	9,831	6,649	4,842	2,556	65,507
Temporary and exempt officers	200	9,047	8,467	2,413	2,356	1,281	813	24,577
Total	1,661	32,753	24,929	12,244	9,005	6,123	3,369	90,084
Other employees—								
Non-official postmasters and staff	..	2,372	2,489	1,280	943	535	485	8,104
Telephone office-keepers	317	138	439	108	258	19	1,306
Mail contractors (including persons employed to drive vehicles)	..	2,103	1,096	1,160	355	316	198	5,228
Total	4,792	3,723	2,879	1,406	1,136	702	14,368
Grand Total	1,661	37,545	28,652	15,123	10,411	7,259	4,071	104,722

(a) Excludes 2,963 part-time staff.

3. Cash Revenue, Branches—Postmaster-General's Department.—(i) *States*, 1963–64. The cash revenue (actual collections) in respect of each branch of the Department during the year 1963–64 is shown in the following table.

POSTMASTER-GENERAL'S DEPARTMENT: CASH REVENUE, 1963-64(a)

(£'000)

Source	Central Office	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust.

Total	121,631	d 136,121	139,814	e 149,836	e 164,639

(a) See footnote (a) to previous table. (b) Figures not entirely comparable with those for earlier years. (c) Includes items allocated to other headings after 1959–60. (d) An amount of £43,625 has been excluded from 1960–61 figures published in Year Book No. 48. This amount represents receipts under the Wireless Telegraphy Act which are now credited to broadcasting and television revenue. (e) Excludes Post Office Stores and Services Trust Account repayments, £853,231 in 1962–63 and £792,393 in 1963–64.

4. Cash Expenditure, Postmaster-General's Department.—(i) *States*. The following table shows, as far as possible, the distribution of cash expenditure (actual payments) in each State during 1963–64, as shown by records kept for Treasury purposes. The table must not be regarded as a statement of the working expenses of the Department, since items relating to new works, interest, etc., are included therein.

(b) Items no longer debited against Postmaster-General's Department.

5. Profit or Loss, Postmaster-General's Department.—The foregoing tables of cash revenue and expenditure represent actual collections and payments made, and cannot be taken to represent the actual results of the working of the Department for the year. The net results for each branch, after providing for working expenses (including superannuation, pensions and depreciation) and interest charges (including exchange), are shown in the following table for the years 1962–63 and 1963–64.

POSTMASTER-GENERAL'S DEPARTMENT: PROFIT OR LOSS, BRANCHES

<i>Profit or loss before charging interest</i> ..	1,298	20,712	1,357	23,367	20,415
<i>Interest</i>	820	22,379	465	23,664	21,178
<i>Profit or loss after charging interest</i> ..	478	– 1,667	892	– 297	– 763

NOTE.—Minus sign (–) denotes loss.

6. Fixed Assets.—The following table shows particulars of the fixed assets of the Postmaster-General's Department from 1st July, 1963, to 30th June, 1964.

POSTMASTER-GENERAL'S DEPARTMENT: FIXED ASSETS

Class of plant	Value at 1st July, 1963	Additions during year	Instalments of plant written out	Value at 30th June, 1964	
				Amount	Percentage of total
Telecommunications plant ..	£'000 570,838	£'000 64,294	£'000 – 5,502	(a) £'000 629,630	83.6
Postal plant	3,056	852	– 7	3,901	0.5
Engineers' movable plant ..	13,150	2,079	– 340	14,889	2.0
Motor vehicles	10,469	2,432	– 1,545	11,356	1.5
Other plant and equipment ..	11,923	1,249	– 262	12,910	1.7
Buildings	64,071	7,695	..	(b) 71,766	9.5
Land	9,044	229	..	9,273	1.2
Total	682,551	78,830	– 7,656	753,725	100.0

NOTE.—Minus sign (–) denotes plant written out.

(a) Includes plant valued at £31,513,027 under construction. (b) Includes buildings valued at £4,322,601 under construction.

§ 2. Posts

1. Postal Matter Dealt With.—(i) States, 1963-64. The following table shows a summary of the postal matter dealt with in each State during the year 1963-64. Mail matter posted in Australia for delivery therein is necessarily handled at least twice, but only the number of distinct articles handled is included in the following table.

POSTAL MATTER DEALT WITH(a), 1963-64

('000)

State	Letters (b)	News- papers and packets (c)	Parcels (d)	Registered articles (e)	Letters (b)	News- papers and packets (c)	Parcels (d)	Registered articles (e)
	Posted for delivery within Australia				Posted for delivery overseas			
New South Wales ..	643,674	136,438	5,860	3,676	42,332	10,949	266	739
Victoria ..	555,636	84,536	4,789	2,498	19,975	3,465	126	483
Queensland ..	225,923	28,553	2,195	1,391	8,456	968	35	29
South Australia ..	156,379	16,464	1,309	756	6,410	899	41	54
Western Australia ..	130,715	11,262	1,016	533	6,855	1,216	29	55
Tasmania ..	45,172	7,252	204	364	566	76	10	3
Australia ..	1,757,499	284,505	15,373	9,218	84,594	17,573	507	1,363
	Received from overseas				Total postal matter dealt with			
New South Wales ..	51,853	28,729	528	1,089	737,859	176,116	6,654	5,504
Victoria ..	42,841	10,914	351	499	618,452	98,915	5,266	3,480
Queensland ..	5,595	5,213	89	70	239,974	34,734	2,319	1,490
South Australia ..	4,479	5,111	80	28	167,268	22,474	1,430	838
Western Australia ..	3,454	6,453	64	44	141,024	18,931	1,109	632
Tasmania ..	1,714	2,012	18	4	47,452	9,340	232	371
Australia ..	109,936	58,432	1,130	1,734	1,952,029	360,510	17,010	12,315

(a) Number of distinct articles handled. (b) Includes letters, cards and other postal articles enclosed in envelopes and sorted with letters. (c) Includes newspapers and postal articles not included in letter mail. (d) Includes registered, cash on delivery and duty parcels. (e) Includes registered articles other than parcels.

(ii) Australia. The next table shows the total postal matter dealt with in Australia in relation to the mean population during each of the years 1959-60 to 1963-64.

TOTAL POSTAL MATTER DEALT WITH: AUSTRALIA

Year	Letters, postcards and letter-cards		Newspapers and packets		Parcels(a)		Registered articles other than parcels	
	Total (‘000)	Per head of mean popula- tion	Total (‘000)	Per head of mean popula- tion	Total (‘000)	Per head of mean popula- tion	Total (‘000)	Per head of mean popula- tion
1959-60 ..	1,602,830	158	319,831	31	16,433	1.6	13,671	1.5
1960-61 ..	1,700,544	164	318,614	31	15,976	1.5	12,935	1.2
1961-62 ..	1,748,054	165	324,694	31	15,854	1.5	12,357	1.2
1962-63 ..	1,835,869	170	337,644	31	16,545	1.5	12,339	1.1
1963-64 ..	1,952,029	177	360,510	33	17,010	1.5	12,315	1.1

(a) Includes registered, cash on delivery and duty parcels.

During 1963-64, the total amounts paid for the carriage of mails, as disclosed by the Profit and Loss Account of the Postal Branch, were as follows:—road £4,265,000; railway £1,523,000; sea £275,000; air—internal £1,482,000, oversea £5,796,000; grand total £13,341,000.

2. **Money Orders and Postal Notes.**—The issue of money orders and postal notes is regulated by sections 74–79 of the *Post and Telegraph Act* 1901–1961. The maximum amount for which a single money order payable within Australia may be obtained is £40, but additional orders will be issued upon request when larger amounts are to be remitted. The maximum amount permitted to be sent by any one person to a person or persons outside Australia is £A.10 a week. A postal note is not available for a sum larger than twenty shillings.

The following table shows the number and value of money orders and postal notes issued in Australia in each of the years 1959–60 to 1963–64.

MONEY ORDERS AND POSTAL NOTES: TRANSACTIONS, AUSTRALIA

Year	Money orders			Postal notes		
	Issued		Net commission received	Issued		Poundage
	Number	Value		Number	Value	
	'000	£'000	£'000	'000	£'000	£'000
1959–60..	9,535	94,335	805	16,492	8,380	324
1960–61..	9,652	100,760	867	15,959	8,194	307
1961–62..	(a) 10,176	(a) 132,496	876	15,514	8,096	307
1962–63..	(a) 11,076	(a) 153,433	929	16,330	8,620	321
1963–64..	(a) 11,838	(a) 169,337	1,002	15,987	8,617	317

(a) Includes official money orders used in bringing to account telephone accounts and collections on War Service Homes repayments.

Of the total money orders issued in Australia during 1963–64, 11,424,000 valued at £168,045,000 were payable in Australia, and 414,000 valued at £1,292,000 were payable overseas. Of the total money orders paid in Australia during 1963–64, 11,357,000 (£168,255,000) were issued in Australia, and 168,000 (£1,123,000) were issued overseas.

Of the total postal notes paid in Australia during 1963–64 (16,323,000 valued at £8,932,000), 11,246,000 (£6,355,000) were paid in the State in which issued, and 5,077,000 (£2,577,000) were paid in States other than those in which issued.

§ 3. Telegraphs

1. **General.**—A review of the development of telegraph services in Australia up to 1921 appeared in Year Book No. 15, page 625, and subsequent developments of importance have been dealt with in later issues. During the past few years, substantial improvements in both the speed and grade of telegraph services throughout Australia have been effected, the entire system being subjected to intensive re-organization, and these matters have been dealt with in some detail in recent issues of the Year Book.

2. **Telegraph and Telephone Mileage.**—At 30th June, 1964, the combined single-wire mileages for both telegraph and telephone purposes were:—aerial, underground and submarine cables, 11,725,000 miles; trunk telephone and telegraph cables, 643,000 miles; aerial wires, 1,349,000 miles. There were 122,000 miles of pole routes. Joint use is made of poles for power and telephone reticulation.

3. **Telegraph Offices.**—The numbers of telegraph offices, including railway telegraph offices in the various States at 30th June, 1964, were:—New South Wales, 2,781; Victoria, 2,228; Queensland, 1,671; South Australia, 1,008; Western Australia, 920; Tasmania, 500; total, 9,108.

4. **Telegrams.**—The following table shows the number of telegrams dispatched to places within Australia and to adjacent islands and to ships at sea, according to the class of message transmitted.

TELEGRAMS DISPATCHED WITHIN AUSTRALIA, 1963-64
(’000)

State	Paid and collect							Unpaid (departmental)	Total telegrams
	Ordinary	Meteorological	Urgent	Radiograms	Press	Lettergrams	Total		
New South Wales	6,504	238	219	61	52	33	7,107	238	7,345
Victoria ..	3,832	167	128	6	16	7	4,156	123	4,279
Queensland ..	3,538	185	102	89	34	14	3,962	148	4,110
South Australia	1,610	108	42	24	16	11	1,811	52	1,863
Western Australia	1,573	161	45	96	10	17	1,902	38	1,940
Tasmania ..	448	62	9	1	2	4	526	22	548
Australia ..	17,505	921	545	277	130	86	19,464	621	20,085

For particulars of telegrams received from, and dispatched to, other countries, see § 5, para. 2, page 592.

§ 4. Telephones

1. **General.**—Particulars of the total mileage of lines used exclusively for telephone purposes are not available, but are combined with all other line mileage. Particulars of the total single wire mileage used for telephone, trunk and/or telegraph purposes are shown in § 3, para. 2, p. 589. Developments in the telephone system in recent years have been dealt with in previous issues of this Year Book.

2. **Summary.**—Particulars relating to the telephone services in each State at 30th June, 1964, are shown in the following table.

TELEPHONE SERVICES: SUMMARY, 30th JUNE, 1964

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust
Exchanges ..	2,061	1,680	1,270	742	767	368	6,888
Services in operation .. '000	733	602	240	173	114	57	1,919
Instruments in operation '000	1,053	819	324	241	155	78	2,670
(i) Subscribers' instruments '000	1,032	799	313	233	150	75	2,602
(ii) Public telephones .. '000	11	7	4	2	2	1	27
(iii) Other local instruments '000	10	13	7	6	3	2	41
Instruments per 100 of population	25.1	26.2	20.4	22.7	19.6	21.4	24.0

Of the total telephone services (1,918,880) in operation at 30th June, 1964, 730,616 or 38 per cent. were connected to exchanges situated beyond the limits of the metropolitan telephone networks, while 1,549,632 or 81 per cent. were connected to automatic exchanges.

During 1963-64, 2,006 million local calls and 95.7 million trunk line calls were made within Australia, averaging 1,045 local calls and 50 trunk calls per service.

3. **Overseas Telephone Services.**—Telephone circuits to other countries are provided by the Overseas Telecommunications Commission (see § 5, para. 1) for conduct of these services by the Postmaster-General's Department. At 30th June, 1964, telephone calls could be made from Australia direct to 133 countries. International telephone calls to and from Australia during 1963-64 numbered 301,668, an increase of 100,493 or 50 per cent. over 1962-63. Switched radiotelephone services were established with Raratonga, Tahiti, Aden, Thailand, Tonga, Western Samoa and American Samoa during the year. The marked increase in traffic on the overseas service has been brought about largely by the introduction of cable working to New Zealand, United Kingdom and North America.

4. **World Telephone Statistics, 1964.**—The following table shows the number of telephones in use in various countries with two million or more telephones at 1st January, 1964, together with the number per 100 of population and the proportion in each country to the world total.

WORLD TELEPHONE STATISTICS(a) AT 1st JANUARY, 1964

Country	Number of telephones ('000)	Telephones per 100 of population	Proportion of total (per cent.)
United States of America	84,453	44	49.3
Japan(b)	10,682	11	6.2
United Kingdom(b)	9,345	17	5.5
Germany, Federal Republic of	7,600	13	4.4
Canada	6,664	35	3.9
U.S.S.R.	6,502	3	3.8
France	5,336	11	3.1
Italy	5,057	10	3.0
Sweden	3,223	42	1.9
Australia(c)	2,670	24	1.6
Spain	2,283	7	1.3
Netherlands	2,023	17	1.2
Other	25,310	..	14.8
<i>Total</i>	<i>171,148</i>	<i>..</i>	<i>100.0</i>

(a) Partly estimated. Information derived, in the main, from *The World's Telephones* compiled by the American Telephone and Telegraph Company. (b) At 31st March, 1963. (c) At 30th June, 1964.

§ 5. Oversea Telecommunication Services; Radiocommunication Stations Authorized

1. **General.**—The Overseas Telecommunications Commission (Australia) is the authority responsible for the establishment, maintenance, operation and development of Australia's oversea public telegraph, phototelegraph and telex services by cable and by radio, and the provision, maintenance, and development of cable and radio facilities for the conduct of Australia's oversea telephone services and of the facilities for radiotelephone services with ships at sea.

The Commission was established under the *Overseas Telecommunications Act 1946–1948*. This Act implemented, in Australia, a recommendation of the 1945 Commonwealth Telecommunications Conference for national ownership of the external telecommunication services of the British Commonwealth countries concerned and for the establishment of a representative advisory board, the Commonwealth Telecommunications Board, to co-ordinate their development.

The Commission provides telegraph, telex, phototelegraph, and, in conjunction with the Postmaster-General's Department, telephone services with oversea countries and Australian Territories. Leased one- and two-way circuits are also provided for large commercial users. In addition, it operates the Australian coastal radio services for communication with ships at sea in Australian waters and high frequency radio services for communication with ships in any part of the world. The Commission's coastal radio stations also provide certain services to a number of remote stations within Australia and its Territories.

Details of oversea communication systems operating in Australia prior to 1946 and developments leading to the establishment of the Commission were published in Year Book No. 37, pages 220–4.

To meet Australia's increasing demand for oversea communication channels, and because of limitations to performance and capacity inherent in current forms of telegraph cables and high frequency radio systems, the Commission, in partnership with the oversea telecommunications authorities of Britain, Canada and New Zealand, installed a large capacity telephone cable across the Pacific Ocean, connecting Australia, New Zealand and Canada via Suva and Honolulu. This project stemmed from the Pacific Cable Conference between representatives of Britain, Canada, Australia and New Zealand held in Sydney, 28th September to 20th October, 1959. Work was commenced in August, 1960, and the first section, between Australia (Sydney) and New Zealand (Auckland), opened in July, 1962. The next section, between New Zealand (Auckland) and Fiji (Suva), was opened in December, 1962, and the remaining section in December, 1963. This cable forms part of

the British Commonwealth round-the-world large capacity cable scheme, in which a complementary cable between Britain and Canada (CANTAT) was officially opened in December, 1961. The two cable connexions are linked across Canada by a microwave system.

The Commonwealth cable system feeds into the United States of America network at Hawaii, and into the European network at London.

The Pacific Cable project is administered by a management committee consisting of representatives of the oversea telecommunication authorities of the four partner Governments.

The four partners and a fifth, Malaysia, have embarked on the next stage of the system, the south-east Asia cable project and known as SEACOM, which will extend the large capacity telephone cable from Sydney to Singapore and Kuala Lumpur via Cairns, Madang, Guam, Hong Kong and Jesselton. The Singapore-Jesselton section was opened for service on 15th January, 1965, and the Jesselton-Hong Kong section on 31st March, 1965. The whole project is scheduled for completion in 1966.

2. International Telegrams.—(i) *Number of Telegrams.* The number of telegrams received from and dispatched overseas in each State during 1963-64 is shown hereunder.

INTERNATIONAL TELEGRAMS, 1963-64
(’000)

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust.
Received	856	(a) 427	118	79	83	(a) 21	1,584
Dispatched	815	557	123	85	84	21	1,685
Total	1,671	984	241	164	167	42	3,269

(a) Estimated.

The traffic in international telegrams to and from Australia increased by 12 per cent. during 1963-64. Prior to this there had been little change since 1959-60.

(ii) *Number of Words.* Particulars of the international business, originating and terminating in Australia, transacted over the cable and radio services during 1963-64 are shown in the following table.

INTERNATIONAL TELEGRAMS: NUMBER OF WORDS, AUSTRALIA, 1963-64(a)
(’000 words)

Class of telegram	Words transmitted to—			Words received from—		
	Commonwealth countries	Foreign countries	Total	Commonwealth countries	Foreign countries	Total

Other	9	1	10	54	38	92
Total	23,978	16,191	40,169	27,039	13,830	40,869

(a) Year ended 31st March.

3. Oversea Telephone Services.—See § 4, para. 3, page 590 for particulars of these services.

4. Coast Stations.—At 30th June, 1964, there were 115 radio stations established at points around the Australian coast and 17 about the coast of Papua and New Guinea and other external Territories. During the year ended 31st March, 1964, the coastal radio service handled 3,963,697 paid words to ships and 2,698,056 words from ships. Ship calls over the radio telephone service extended over 16,152 paid minutes.

5. Radiocommunication Stations Authorized.—The following table shows particulars of the different classes of radiocommunication stations authorized in Australia and the external Territories at 30th June, 1964. Figures relate to radiocommunication (radio telegraph and radiotelephone) stations only; particulars of broadcasting stations and of broadcast listeners' licences are shown on pages 597 and 601 respectively.

(a) Stations established at fixed locations for communication with other stations similarly established.
 (b) Stations established in out-back areas for communication with control stations such as those of the Royal Flying Doctor Service.
 (c) Stations established at fixed locations for communication with mobile stations.
 (d) Land stations for communication with ocean-going vessels.
 (e) Equipment installed in aircraft (aeronautical), motor vehicles (land mobile services), harbour vessels (harbour mobile services) and ocean-going vessels (ships), and mobile equipment of organizations such as the Royal Flying Doctor Service.
 (f) Includes 180 stations which cannot be classified according to State, etc.

BROADCASTING AND TELEVISION

§ 1. General

Broadcasting and television services in Australia operate under the *Broadcasting and Television Act 1942-1964* and comprise the National Broadcasting Service, the National Television Service, the Commercial Broadcasting Service and the Commercial Television Service. General control of these services is a function of the Australian Broadcasting Control Board (*see below*). Details of each service will be found on pages 595-9. Licence fees for commercial broadcasting and television stations are payable under the *Broadcasting Stations Licence Fees Act 1964* and the *Television Stations Licence Fees Act 1964* respectively.

The Australian Broadcasting Control Board, which was constituted on 15th March, 1949, consists of five (including two part-time) members and operates under the Ministerial jurisdiction of the Postmaster-General. No person shall be appointed a member of the Board who—

- (a) has any financial interest, whether direct or indirect, in any company which is the licensee of, or an applicant for a licence for, a commercial broadcasting station or a commercial television station, or manufactures or deals in equipment for the transmission or reception of broadcasting or television programmes;
- (b) is a member of the governing body of any company or other association of persons which is the licensee of, or an applicant for a licence for, a commercial broadcasting station or commercial television station; or
- (c) is a licensee of, or an applicant for a licence for, a commercial broadcasting station or commercial television station.

The Board's principal functions, as set out in Section 16 of the *Broadcasting and Television Act 1942-1964* are—

- (a) to ensure the provision of services by broadcasting stations and television stations in accordance with plans from time to time prepared by the Board and approved by the Minister;
- (b) to ensure that the technical equipment and operation of such stations are in accordance with such standards and practices as the Board considers to be appropriate;
- (c) to ensure that adequate and comprehensive programmes are provided by commercial broadcasting and commercial television stations to serve the best interests of the general public; and
- (d) to detect sources of interference, and to furnish advice and assistance in connexion with the prevention of interference, with the transmission or reception of the programmes of broadcasting stations and television stations.

In addition, the Board may exercise such other functions as are prescribed in relation to broadcasting and television stations.

The Board may make recommendations to the Minister as to the exercise by the Minister of any power under Part IV (the Commercial Broadcasting Service and the Commercial Television Service) of the Act.

The Board has power—

- (a) subject to any direction of the Minister, to determine the situation and operating power of a broadcasting station or television station;
- (b) subject to any direction of the Minister, to determine the frequency of a broadcasting station and the frequencies of a television station, within bands of frequencies notified to the Board by the Postmaster-General as being available;
- (c) to determine the hours during which programmes may be broadcast or televised;
- (d) to determine the conditions subject to which advertisements may be broadcast or televised by licensees;
- (e) subject to any direction of the Minister, to regulate the establishment and operation of networks of commercial broadcasting stations or of commercial television stations and the making of arrangements by licensees for the provision of programmes or the broadcasting or televising of advertisements;
- (f) to conduct examinations as to the competency of persons to operate the technical equipment of broadcasting stations and television stations and to charge fees in respect of those examinations; and

- (g) to make recommendations to the Minister regarding the grant of licences for television translator stations in areas where, in the opinion of the Board, satisfactory reception of television programmes is not being obtained from commercial television stations.

The Board is obliged to hold public inquiries into applications, made to the Minister, for licences for commercial broadcasting and commercial television stations in areas for which the Minister proposes to grant licences and into any other matter within its functions if the Board thinks it necessary or desirable, or the Minister so directs.

In exercising its powers and functions in relation to commercial broadcasting and commercial television stations the Board is obliged to consult representatives of those stations.

The Australian Broadcasting Commission, which consists of seven members, at least one of whom must be a woman, controls the activities of the National Broadcasting Service and the National Television Service.

§ 2. Broadcasting

1. **The National Broadcasting Service.**—(i) *General.* In sound broadcasting, the programmes of the National Broadcasting Service are provided by the Australian Broadcasting Commission through transmitters operated by the Postmaster-General's Department.

(ii) *Technical Facilities.* At 30th June, 1964, the National Broadcasting Service comprised the following 75 transmitting stations, of which 65 were medium frequency and 10 high frequency.

Medium Frequency Stations—

New South Wales—2BL and 2FC, Sydney; 2AN, Armidale; 2BA, Bega; 2CO, Albury; 2CR, Orange; 2GL, Glen Innes; 2KP, Kempsey; 2LG, Lithgow; 2ML, Murwillumbah; 2NA and 2NC, Newcastle; 2NB, Broken Hill; 2NR, Grafton; 2NU, Tamworth; 2TR, Taree; 2UH, Muswellbrook; and 2WN, Wollongong.

Victoria—3AR and 3LO, Melbourne; 3GI, Sale; 3WL, Warrnambool; and 3WV, Horsham.

Queensland—4QG and 4QR, Brisbane; 4AT, Atherton; 4GM, Gympie; 4MI, Mount Isa; 4QA, Mackay; 4QB, Maryborough; 4QL, Longreach; 4QN, Townsville; 4QS, Toowoomba; 4QY, Cairns; 4RK, Rockhampton; 4SO, Southport.

South Australia—5AN and 5CL, Adelaide; 5CK, Port Pirie; 5LN, Port Lincoln; 5MG, Mount Gambier; 5MV, Renmark; 5PA, Penola; and 5WM, Woomera.

Western Australia—6WF and 6WN, Perth; 6AL, Albany; 6CA, Carnarvon; 6DN, Dalwallinu; 6GF, Kalgoorlie; 6GN, Geraldton; 6NM, Northam; and 6WA, Wagin.

Tasmania—7ZL and 7ZR, Hobart; 7NT, Launceston; and 7QN, Queenstown.

Northern Territory—8AL, Alice Springs; 8DR, Darwin; 8KN, Katherine; 8TC, Tennant Creek.

Australian Capital Territory—2CN and 2CY, Canberra.

Territory of Papua and New Guinea—9PA, Port Moresby; and 9RB, Rabaul.

High Frequency Stations—

VLI Sydney, New South Wales; VLG, VLH and VLR Lyndhurst, Victoria; VLM and VLQ Brisbane, Queensland; VLW and VLX Perth, Western Australia; and VLK and VLT Port Moresby, Papua.

The medium-frequency transmitters operate in the broadcast band 525 to 1,605 kilocycles per second. The high-frequency stations, using frequencies within the band 3 to 30 megacycles per second, provide service to listeners in sparsely populated parts of Australia such as the north-west of Western Australia, the Northern Territory, and northern and central Queensland, and in Papua and New Guinea and adjacent islands.

Many of the programmes provided by country stations are relayed from the capital cities, high-quality programme transmission lines being used for the purpose. A number of programme channels are utilized to link national broadcasting stations in the capital cities of Australia, and, when necessary, this system is extended to connect both the national and commercial broadcasting stations.

In June, 1964, 51 of the Australian medium-frequency stations were situated outside the six State capital cities. Additional country stations are to be established, and, when these additions are complete, the medium-frequency and high-frequency stations together will provide for clear reception of the programmes of the National Broadcasting Service in practically every part of Australia.

(iii) *Programme Facilities.* (a) *General.* The programmes of the Australian Broadcasting Commission cover a wide range of activities, which are indicated briefly in the following paragraphs. The proportion of broadcasting time allocated to the various types of programme during 1963-64 was as follows:—classical music, 24.9 per cent.; light entertainment, 23.3 per cent.; news, 7.5 per cent.; sporting, 6.5 per cent.; light music, 6.2 per cent.; talks, 6.0 per cent.; drama and features, 3.4 per cent.; education, 3.4 per cent.; Parliament, 3.4 per cent.; religious, 3.4 per cent.; children's programmes, 2.6 per cent.; rural, 1.8 per cent.; special programmes, 0.8 per cent.; and non-departmental, 6.8 per cent.

(b) *Music.* The A.B.C., in addition to its extensive activities in the field of musical broadcasting, is one of the largest concert-giving organizations in the world. Its regular broadcasts command a large audience, and a total of 878,123 people attended A.B.C. concerts during 1963-64. There are symphony orchestras in Sydney, Melbourne, Brisbane, Adelaide, Perth and Hobart, which have developed from the studio broadcasting orchestras set up in 1936.

In 1963-64, the A.B.C. organized 579 public orchestral concerts (including 173 free concerts for school children and 35 free concerts for adults) and 156 public recitals by famous artists throughout the Commonwealth.

(c) *Drama and Features.* Drama programmes are designed to give listeners opportunities, which they might not otherwise have, of hearing the world's great plays as well as adaptations of the best modern stage plays and also those written specially for broadcasting. The main regular radio drama programmes are broadcast on Sunday afternoons and Sunday and Monday evenings, and special series of longer plays are also given at various times. In recent years, the technique of the feature programme has also been developed. The feature is a form of entertainment which is unique to radio, consisting of specially written programmes designed to present information in an interesting way.

(d) *Youth Education.* The A.B.C. provides a regular series of broadcasts to schools in all States as an addition to normal class-room education. The total number of listening schools at the end of June, 1964, was 9,912 or about 95 per cent. of all schools, State and private, throughout the Commonwealth. (See also Chapter XIX. Education, Cultural Activities, and Research, on this subject.)

(e) *Talks.* The aim of the Talks Department is to provide programmes which will keep the listener well informed on current affairs, literature, science and general topics. Many of the talks in the first category are now presented in a magazine type of session consisting of a number of short items linked by a narrator. An extension of this type of programme is the documentary. Controversial issues are covered in sessions such as "Fact and Opinion" as well as in the commentaries. The week-day "News Review" and "World Report" give the background to current news developments recorded over landline from all States in the Commonwealth, or by radiotelephone or cable from abroad.

(f) *Rural Broadcasts.* The Rural Broadcasts Department exchanges programmes with several oversea countries and provides service, educational, and entertainment programmes all designed to be of value to the man-on-the-land and industries allied with primary production. Special programmes are designed for country women and junior farmers, while urban dwellers are provided with gardening programmes and shopping guides. A complete weather and marketing service is provided. Rural programmes are broadcast on a national, State, and regional basis, in Papua and New Guinea, and on the Overseas Service (Radio Australia). The 23 officers at regional stations present specific information and educational programmes in relation to their own regions. The rural broadcasts for primary producers in Papua and New Guinea have now been extended to indigenous farmers in a programme conducted by an indigenous Rural Officer.

(g) *News.* The Commission collects all its Australian (including Papua and New Guinea) news through its own staff journalists and part-time correspondents. It also maintains a news room in London for the selection and transmission of news obtained from major oversea agencies, and has special representatives in south-east Asia. Regional bulletins are broadcast from country centres and also from capital cities to cover near-city districts. Radio Australia (the Overseas Service of the A.B.C.) broadcasts Australian and oversea news daily in English, French, Mandarin, Indonesian, Japanese, Cantonese, Vietnamese and Thai, with special attention to Asia and the Pacific. Each day, the A.B.C. re-broadcasts two news bulletins from the British Broadcasting Corporation. The A.B.C. broadcasts more than 200 news bulletins each day, including those given over Radio Australia.

(h) *Other Activities.* The proceedings of the Commonwealth Parliament are broadcast regularly on one of the two national transmitters in each capital city, one in Newcastle and one domestic short-wave station (VLR).

The National Children's Hour, presented seven days a week, is composed of over 40 programme items, including stories, music, games, art, literature, natural history and sport.

In co-operation with the various religious denominations, the A.B.C. broadcasts several religious sessions each week-day in addition to those given on Sundays. These religious broadcasts include relays of normal church services and a variety of special programmes of talks and sacred music. The modern trend towards the use of religious drama is also followed.

The variety and sporting programmes of the A.B.C. provide the lighter side of the service. With its variety session, the policy of the A.B.C. is to assist local artists in order to increase the amount of first-class talent in this country, and encouragement is also given to Australian composers of light music.

A comprehensive coverage of sport at home and abroad is provided by the A.B.C. On Saturday afternoons, the sporting panel provides listeners with progress results, scores and descriptions from several fields of sport. Events of international interest such as Test matches and the Davis Cup are covered by simultaneous descriptions from A.B.C. commentators.

2. **The Commercial Broadcasting Service.**—Commercial broadcasting stations are operated under licences granted and renewed by the Postmaster-General after taking into consideration any recommendations which have been made by the Broadcasting Control Board. The initial period of a licence is five years and renewals are granted for a period of one year. The fee payable for a licence is £25 on the grant of the licence, and thereafter £25 a year plus an amount ascertained by applying the following rates to "gross earnings", within the meaning of the *Broadcasting Stations Licence Fees Act 1964*, during the financial year—1 per cent. up to £500,000; 2 per cent. £500,001 to £1,000,000; 3 per cent. £1,000,001 to £2,000,000; and 4 per cent. over £2,000,000.

3. **Oversea Broadcasting Service.**—There are eight high-frequency stations at Shepparton, Victoria, which provide the oversea service known as "Radio Australia". As in the case of the National Broadcasting Service, these stations are maintained and operated by the Postmaster-General's Department, and their programmes are arranged by the A.B.C. The programmes, which give news and information about Australia presented objectively, as well as entertainment, are directed mainly to south-east Asia and the Pacific. The oversea audience has grown very substantially in recent years, as evidenced by a large and increasing number of letters from listeners abroad.

4. **Broadcasting Stations.**—The following table shows the number of broadcasting stations in operation at 30th June, 1964.

BROADCASTING STATIONS, 30th JUNE, 1964

Type of station	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Papua and New Guinea	Total
National—										
Medium frequency ..	18	5	13	8	9	4	4	2	2	65
High frequency—										
Domestic ..	1	3	2	..	2	2	10
Oversea	8	8
Commercial ..	37	20	21	8	14	8	1	1	..	110

Tables showing the call sign, location, frequency and aerial power of national and commercial broadcasting stations in operation at 30th June, 1964, are shown in *Transport and Communication*, Bulletin No. 55.

§ 3. Television

1. **General.**—Television services in Australia operate under the *Broadcasting and Television Act 1942-1964* and comprise the National Television Service and the Commercial Television Service.

2. **The National Television Service.**—(i) *General.* The National Television Service is provided by the Australian Broadcasting Commission through transmitters operated by the Postmaster-General's Department. At 31st December, 1964, twenty stations had been established.

Australian Capital Territory—ABC channel 3, Canberra; New South Wales—ABN channel 2, Sydney; ABHN channel 5, Newcastle-Hunter River area; ABWN channel 5a, Illawarra area; ABCN channel 1, Central Tablelands area; ABRN channel 6 Richmond-Tweed area; Victoria—ABV channel 2, Melbourne; ABEV channel 1, Bendigo area; ABRV channel 3, Ballarat area; ABLV channel 4, Latrobe Valley area; ABGV channel 3, Goulburn Valley area; ABAV channel 1, Upper Murray area; Queensland—ABQ channel 2, Brisbane; ABDQ channel 3, Darling Downs area; ABRQ channel 3, Rockhampton area; ABTQ channel 3, Townsville area; South Australia—ABS channel 2, Adelaide; Western Australia—ABW channel 2, Perth; Tasmania—ABT channel 2, Hobart; ABNT channel 3, North Eastern Tasmania area.

Additional national television stations which had been authorized but had not commenced to operate at 31st December, 1964, are as follows.

New South Wales—Bega-Cooma area (channel 8); Broken Hill area (channel 2); Grafton-Kempsey area (channel 2); Central Western Slopes area (channel 3); Murrumbidgee Irrigation area (channel 7); Upper Namoi area (channel 7); Manning River area (channel 1); South Western Slopes and Eastern Riverina area (channel 0); Victoria—Mildura area (channel 4); Swan Hill area (channel 2); Queensland—Cairns area (channel 9); Mackay area (channel 4); Wide Bay area (channel 6); Southern Downs area (channel 1); South Australia—South East area (channel 1); Spencer Gulf North area (channel 1); Western Australia—Bunbury area (channel 5); Central Agricultural area (channel 4); Southern Agricultural area (channel 2).

It is planned that all services will be in operation by the end of 1966.

(ii) *Programme Facilities.* (a) *General.* The television programmes provided by the A.B.C. cover a wide range of activities. The proportion of television time allocated among the A.B.C.'s various departments to 30th June, 1964, was as follows:—Drama and features, 22.4 per cent.; talks, 16.3 per cent.; sport, 13.9 per cent.; children's session, 9.2 per cent.; news, 6.9 per cent.; light entertainment, 7.9 per cent.; education, 9.7 per cent.; music, 3.5 per cent.; religion, 3.1 per cent.; rural services, 2.7 per cent.; non-departmental, 4.4 per cent. A summary of the activities of the departments in the field of television is given in the following paragraphs. Transmission time for the year ended 30th June, 1964, totalled 46,212 hours.

(b) *Talks.* In television, talks also cover a wide and growing field, ranging from public affairs type programmes such as "Four Corners" to commentaries on international and Australian affairs and outside telecasts of public events. Film and studio documentaries, discussions on literature, art and science, topical programmes, interviews, magazine programmes, and demonstrations are all part of the regular output.

(c) *Drama and Features.* A considerable proportion of television time is devoted to drama and features, and "live" television plays featuring Australian artists may usually be seen fortnightly in all State capitals. A Television Writers' Workshop gives writers practical advice on television writing. Of 31 studio productions during 1963-64, the majority were by Australian authors.

(d) *Music.* Extensive development has taken place in the A.B.C.'s television music programmes. Major operas, which are regularly produced in the studios, have achieved a progressively higher standard, and are now fully comparable with overseas productions. Television programmes by resident ballet companies have also been encouraged and further advances in this field are envisaged. The number of telecasts of A.B.C. and visiting overseas symphony orchestras has been increased, while telecasts of overseas and resident artists have become an established part of programme output.

(e) *Rural Services.* Weather reports and forecasts are telecast six evenings a week on National TV. stations. In Sydney and Melbourne, there is a half-hour magazine each week, "Country Call", and in each State a weekly edition of another, "Town and Country".

These include rural film items from all States, topical interviews and demonstrations. Gardening programmes are telecast weekly in Sydney and Canberra. Outside broadcast programmes are devised in all States at Royal Shows and other places of rural interest. The National Junior Farmer Radio and Television Competition is a major annual event. Film items are regularly exchanged with member countries of the European Broadcasting Union. In all States, a weekly programme is "To Market, To Market", a practical buying guide for housewives.

The aim of rural broadcasts in television is to provide consumer-interest material for urban viewers and to convey to them aspects of food production and country life and to provide a rural news and extension service to farmer viewers.

(f) *Education.* The A.B.C. provides daily television programmes for schools in all Australian States with certain series repeated to meet their convenience. Programmes for primary schools are of a supplementary type, while those for secondary schools are designed to contribute directly to classroom instruction. In addition, there is a daily programme for pre-school children entitled "Kindergarten Playtime". At the adult level, there are two television programmes weekly, designed in series and known as "University of the Air" which are presented in the evenings. Bridging courses in certain subjects to help students across the gap between schools and university have also been transmitted.

(g) *News.* Television news bulletins and newsreels have been included in the programmes presented in both Sydney and Melbourne since the television services began in November, 1956. Since then, those news items have been included in the programmes of other State capitals. The A.B.C. is a member of the *British Commonwealth International Newsfilm Agency (B.C.I.N.A.)*, through which it receives world-wide television newsfilm and provides newsfilm of Australian origin for international distribution.

(h) *Other Activities.* Special television programmes are presented for children, including filmed material obtained on an exchange basis from oversea television organizations. Special religious services and programmes have also been televised. Outside television cameras have covered a number of sporting events, including the Olympic Games, Davis Cup tennis, Test and Sheffield Shield cricket, swimming championships and the Commonwealth Games.

3. *The Commercial Television Service.*—Commercial television stations are operated under licences granted by the Postmaster-General. As at 31st December, 1964, licences for commercial television stations had been granted as follows: *Australian Capital Territory*—Canberra area CTC (channel 7); *New South Wales*—Sydney ATN (channel 7), TCN (channel 9), TEN (channel 10); CBN (channel 8), Central Tablelands area; NBN (channel 3), Newcastle—Hunter River area; RTN (channel 8), Richmond—Tweed Heads area; WIN (channel 4), Illawarra area; NEN (channel 9), Upper Namoi area; RVN (channel 2), South Western Slopes and Eastern Riverina area; NRN (channel 10), Grafton—Kempsey area; *Victoria*—Melbourne HSV (channel 7), GTV (channel 9), ATV (channel 0); BCV (channel 8), Bendigo area; BTV (channel 6), Ballarat area; GLV (channel 10), Latrobe Valley area; GMV (channel 6), Goulburn Valley area; AMV (channel 4), Upper Murray area; *Queensland*—Brisbane BTQ (channel 7), QTQ (channel 9); DDQ (channel 10), Darling Downs area; TNQ (channel 7), Townsville area; RTQ (channel 7), Rockhampton area; WBQ (channel 8), Wide Bay area; *South Australia*—Adelaide ADS (channel 7), NWS (channel 9); *Western Australia*—Perth TVW (channel 7); *Tasmania*—Hobart TVT (channel 6); TNT (channel 9), North-Eastern Tasmania area.

The initial grant of a licence is for a period of five years and thereafter the licence is renewable annually. The fee payable is £100 for the first year and thereafter £100 a year plus an amount ascertained by applying the following rates to "gross earnings" within the meaning of the *Television Stations Licence Fees Act 1964* during the preceding financial year—1 per cent. up to £500,000; 2 per cent. £500,001 to £1,000,000; 3 per cent. £1,000,001 to £2,000,000; and 4 per cent. over £2,000,000.

4. *Extension of Television Services.*—Approval has been given for the grant of a third commercial television station licence in the Brisbane area and the Adelaide area and for a second commercial television station licence in the Perth area. The licences will be issued, and the stations will commence operations, during 1965.

In accordance with the Government's policy of authorizing both a national and a commercial service in each area to which television has been extended, the Postmaster-General, on 18th September, 1963, announced the approval of the grant of the following further commercial television station licences: *New South Wales*—Manning River area,

Central Western Slopes area, Murrumbidgee Irrigation area, Broken Hill area; *Victoria*—Mildura area; *Queensland*—Cairns area, Mackay area, Southern Downs area; *South Australia*—South East area; *Western Australia*—Bunbury area. It is expected that the majority of these stations will commence operations during 1965.

By notice published in the *Commonwealth Gazette* of 26th November, 1964, the Postmaster-General re-invited applications for the grant of licences for commercial television stations to serve the following areas: *New South Wales*—Bega—Cooma area; *Victoria*—Murray Valley area; *South Australia*—Spencer Gulf North area; *Western Australia*—Central Agricultural area (Northam—York); Southern Agricultural area (Katanning—Albany). Applications closed on 1st March, 1965. Although applications had previously been invited in respect of these five areas, applications were either not received or not pursued, and licences could not, therefore, be granted.

When all of the authorized stations commence operation, it is estimated that 91 per cent. of the Australian people will be able to receive a television service.

§ 4. Licences, Revenue from Fees, etc.

1. **Broadcast Listeners' and Television Viewers' Licences.**—(i) *General.* Broadcast listeners', television viewers', and combined receiving licences are issued at post offices in accordance with the provisions of the *Broadcasting and Television Act 1942–1964*, which stipulates that, except as prescribed, a person shall not use, maintain or have in his possession a broadcast or television receiver unless there is in force a licence which applies to that receiver. A broadcast listener's licence or a television viewer's licence, whichever is appropriate, authorizes the operation of any broadcast receiver or any television receiver, which is—(a) in the possession of the holder of a licence, or of a member of his family, at the address specified in the licence and is ordinarily kept at that address; (b) installed in a vehicle which is ordinarily in the possession of the holder, or a member of his family, and is ordinarily kept at that address when not in use. A person who has both broadcast and television receivers at the one address is required to take out a combined receiving licence, provision for which was introduced by legislation effective from 1st April, 1965.

A licence may be granted free of charge to a blind person over 16 years of age or to a person or authority conducting a school and at a concession rate to certain classes of pensioners. Receivers provided for the use of inmates of an institution (including a hospital) are covered by an appropriate licence held by the institution. Persons residing in Zone 2 may also be granted a broadcast listener's licence at a reduced rate. Zone 1 is the areas within 250 miles of specified broadcasting stations and Zone 2 is the remainder of Australia.

Each broadcast or television receiver let out on hire (except under a hire purchase agreement) must be covered by a hirer's licence held by the person or firm from whom the receiver is hired.

The keeper of a lodging house (which includes a hotel, motel, boarding house or any other premises where lodging or sleeping accommodation is provided for reward) must take out a lodging house licence for each broadcast or television receiver provided by the proprietor in any room or part of the lodging house occupied or available for occupation by lodgers.

The fees payable for the various classes of licence are as follows.

BROADCAST LISTENERS' AND TELEVISION VIEWERS' LICENCES

Licence	Ordinary rate	Pensioner rate
	£ s. d.	£ s. d.
Broadcast listener's licence and hirer's licence for a broadcast receiver Zone 1	2 15 0	10 0
	Zone 2	1 8 0
Lodging house licence for a broadcast receiver Zone 1	2 15 0	..
	Zone 2	1 8 0
Television viewer's licence and hirer's licence for a television receiver	6 0 0	1 10 0
	Lodging house licence for a television receiver	6 0 0
Combined receiving licence	8 10 0	2 0 0

(ii) *Broadcast Listeners' Licences. (a) Number in Force.* The following table shows the number of broadcast listeners' licences in force at five-year intervals from 1925 to 1960 and for 1964.

BROADCAST LISTENERS' LICENCES IN FORCE

At 30th June—	N.S.W.(a)	Vic.	Qld	S.A.(b)	W.A.	Tas.	Aust.
1925	34,857	20,290	1,267	3,331	3,562	567	63,874
1930	111,253	140,072	23,335	25,729	5,755	6,048	312,192
1935	279,166	237,247	67,546	76,515	41,257	20,121	721,852
1940	458,256	348,264	151,152	124,928	87,790	42,191	1,215,581
1945(c)	548,074	394,315	180,089	146,611	98,210	47,930	1,415,229
1950(c)	683,271	505,078	260,033	195,261	133,199	64,369	1,841,211
1955	746,050	549,690	293,542	223,593	150,199	71,602	2,034,676
1960	832,659	606,587	344,198	249,148	171,693	78,900	2,283,185
1964	822,499	622,663	342,321	266,027	174,121	74,159	2,301,790

(a) Includes the Australian Capital Territory. (b) Includes the Northern Territory. (c) Excludes licences for receivers in excess of one. These licences were introduced in July, 1942, and were abolished on 31st December, 1951.

Of the 2,301,790 broadcast listeners' licences in force at 30th June, 1964, 1,363,022 or 59.2 per cent. were held by persons living in metropolitan areas and 938,768 or 40.8 per cent. by persons in country areas. Short-term hirers' licences (included above) at 30th June, 1964, were:—New South Wales, 321; Victoria, 77; Queensland, 154; South Australia, 847.

(b) *Revenue Received from Fees.* The following table shows the revenue received from broadcast listeners' licence fees for the years 1959-60 to 1963-64.

REVENUE RECEIVED FROM BROADCAST LISTENERS' LICENCE FEES

(£'000)

Year	N.S.W.(a)	Vic.	Qld	S.A.(b)	W.A.	Tas.	Aust.
1959-60	2,023	1,545	846	626	420	196	5,656
1960-61	1,992	1,488	827	619	419	191	5,536
1961-62	1,957	1,452	797	615	407	185	5,413
1962-63	1,937	1,493	792	626	407	179	5,434
1963-64	1,962	1,525	804	643	408	178	5,520

(a) Includes the Australian Capital Territory.

(b) Includes the Northern Territory.

(iii) *Television Viewers' Licences. (a) Number in Force.* The following table shows the number of television viewers' licences in force each year at 30th June, 1957, and 1960 to 1964.

TELEVISION VIEWERS' LICENCES IN FORCE

At 30th June—	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust.
1957	28,912	44,986	(a) 11	73,909
1960	409,334	353,091	67,337	84,967	35,604	4,662	954,995
1961	488,516	401,395	113,954	124,808	69,628	18,985	1,217,286
1962	564,707	460,558	142,422	143,794	83,951	29,003	1,424,435
1963	637,766	530,256	178,391	167,502	95,907	45,503	1,655,325
1964	721,043	581,286	214,763	194,430	115,272	55,305	1,882,099

(a) These licences were for television sets in the north coast area of Tasmania which were able to receive programmes from Victoria.

Of 1,882,099 television viewers' licences in force at 30th June, 1964, 93,429 were held by short-term hirers, and therefore could not be separated into metropolitan licences or country licences. Persons living in the metropolitan area held 1,257,295 or 70 per cent. of the remainder. Short-term hirers' licences (included above) at 30th June, 1964, were:—New South Wales, 29,391; Victoria, 13,488; Queensland, 15,315; South Australia, 21,435; Western Australia, 10,650; and Tasmania, 3,150.

(b) *Revenue Received from Fees.* The following table shows the revenue received from television viewers' licence fees during the years 1959–60 to 1963–64.

CHAPTER XVI

WELFARE SERVICES

§ 1. Introduction

This chapter relates to welfare services other than those concerned specifically with education, health and repatriation. The latter are dealt with, in the main, in the relevant chapters of this Year Book. Apart from a summary of government expenditure on welfare services and short descriptions of certain interstate organizations providing welfare services, the chapter is devoted to a description in some detail of the services provided by the Commonwealth. For information on the many important welfare services provided by State and local governments, especially in the fields of child and Aboriginal welfare, reference should be made to the Year Books or Statistical Registers of the States and the annual reports of the State departments concerned.

In addition, there are numerous services of this nature provided by charitable and other non-government institutions and organizations. There are institutions providing shelter and/or caring for needy, aged, infirm or handicapped persons, neglected children, destitute persons, wayward boys and girls, and the like. Many organizations, too, provide aid in kind (food, clothing, etc.), auxiliary medical and nursing services, and other assistance to relieve suffering and hardships. Considerable work is also done by such organizations in the rehabilitation or establishment in the community of various types of people, such as prisoners and migrants, and in the prevention and alleviation of cruelty and maltreatment of any sort. Comprehensive information regarding the activities of such organizations is not available.

Further information on subjects dealt with in this chapter may be found in the annual bulletins *Commonwealth Finance and State, Territory and Local Government Authorities' Finance and Government Securities*. Current and summarized information on Commonwealth social services is contained in the *Quarterly Summary of Australian Statistics* and the *Monthly Review of Business Statistics*.

§ 2. Expenditure on Welfare Services

NOTE.—Information concerning the cost of administering each Commonwealth benefit separately is not compiled. Particulars of Commonwealth capital expenditure on mental hospitals and the anti-tuberculosis campaign are given in Chapter XVIII. Public Health. For grants made to private organizations for the construction of homes for elderly people see § 3, para. 10. Particulars of the cost of administering the Department of Health and the Department of Social Services are given in Chapter XXII. Public Finance—Commonwealth Consolidated Revenue Fund Expenditure.

1. Commonwealth Expenditure on Welfare Services—The National Welfare Fund.—
 (i) *General.* The National Welfare Fund was established by the *National Welfare Fund Act 1943* to finance a scheme of national welfare and has operated from 1st July, 1943. At its commencement it was used to finance funeral benefits and maternity allowances, but other social and health benefits were made a charge on the fund from time to time and at present expenditure on all benefits except repatriation and a few minor social and health benefits is met from the fund. The fund is used only to finance the benefits themselves; it is not used to finance the cost of administering the benefits, or of capital works associated with the benefits.

For particulars of the income of the fund, see Chapter XXII, Public Finance—Commonwealth Consolidated Revenue Fund Expenditure.

(ii) *Expenditure from the National Welfare Fund, 1963–64.* The following table sets out expenditure from the fund during 1963–64.

(a) Payments for some Health Services to residents of the Northern Territory and the Australian Capital Territory are included in the amounts shown for States. (b) Includes special benefits to migrants in reception and training centres. (c) Includes payments to the Royal Flying Doctor Service and Bush Nursing Centres. (d) Paid to State Governments as a contribution towards the cost of surveys and the maintenance of institutions for the treatment of tuberculosis. (e) This item covers the cost of the Commonwealth Health Laboratory Services, subsidies to home nursing services, the cost of radio-active isotopes provided under the National Health Act, and running expenses of the Blood Fractionation Plant. (f) Contributions to States, under Commonwealth and State Housing Agreement 1945, for losses on rental housing. (g) Includes running expenses of the Blood Fractionation Plant at the Commonwealth Serum Laboratories, £300,000, and Commonwealth Health Laboratories, £62,000; and subsidies to home nursing services, £186,000.

(iii) *Expenditure from the National Welfare Fund, 1959–60 to 1963–64.* Expenditure from the fund during each of the years 1959–60 to 1963–64, and the amount per head of population for each service during 1963–64, are shown in the following table.

COMMONWEALTH EXPENDITURE FROM NATIONAL WELFARE FUND

(a) See footnote (b) to table on p. 613.

For footnotes (b), (d), (e) and (f) see table on previous page.

2. State Expenditure on Certain Welfare Services.—The following table shows net expenditure from State Government funds on certain welfare services. The figures exclude expenditure on unemployment, bush fire, flood, etc., relief, Aboriginal welfare and some other items which are excluded because information cannot be obtained for all States. Loan Fund expenditure is excluded also. Because of differences in organization and accounting methods, the information shown for some classes is not on exactly the same basis for all States; it may also be incomplete because particulars of some activities are not separately recorded and are therefore excluded. The expenditure shown is "net" in the sense that receipts for services rendered have been deducted from gross expenditure.

NET EXPENDITURE BY STATE GOVERNMENTS ON CERTAIN WELFARE SERVICES, 1963-64

(£'000)

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Total

§ 3. Commonwealth Social Services

1. **Introduction.**—(i) *General.* Under the provisions of section 51 of the Constitution, the Commonwealth Government is empowered to legislate on:—

“(xxiii) Invalid and old-age pensions:

(xxiiiA) The provision of maternity allowances, widows’ pensions, child endowment, unemployment, pharmaceutical, sickness and hospital benefits, medical and dental services (but not so as to authorize any form of civil conscription), benefits to students and family allowances:”.

The latter paragraph was inserted in the constitution after being accepted by the electors at a referendum on 28th September, 1946. The enabling Act was assented to on 19th December, 1946.

Before 1947, each social service benefit was paid under a separate Act. On 1st July, 1947, with the passage of the *Social Services Consolidation Act 1947*, all Acts providing social service benefits were amalgamated. This Act eliminated certain anomalies and obsolete provisions and changed the title “old-age pension” to “age pension”. The word “Consolidation” was dropped from the short title of the Act in 1954. The Act is at present styled the *Social Services Act 1947–1964*.

(ii) *Social Service Benefits Provided.* The social service benefits provided by the Commonwealth Government, and the date on which each came into operation, are:—

Age pension	1st July, 1909
Child endowment	1st July, 1941
Child endowment—student children	14th January, 1964
Commonwealth Rehabilitation Service	10th December, 1948
Funeral benefit	1st July, 1943
Invalid pension	15th December, 1910
Maternity allowance	10th October, 1912
Sickness benefit	1st July, 1945
Special benefit	1st July, 1945
Supplementary assistance (age, invalid and widow’s pensions)	15th October, 1958
Unemployment benefit	1st July, 1945
Widow’s pension	30th June, 1942
Widow’s pension—children’s allowances	2nd October, 1956
Wives’ and children’s allowances for pensioners who are invalids	8th July, 1943

2. **Age and Invalid Pensions.**—(i) *General.* Age pensions are payable to men, 65 years of age and over, and women, 60 years of age and over, who are British subjects and who have lived in Australia continuously for at least 10 years, which need not be immediately prior to the date of claim for a pension. If a person has completed five years but not 10 years continuous residence and has lived in Australia for periods which exceed a total of 10 years, the period of continuous residence otherwise required is reduced by the total of his periods of residence in Australia in excess of 10 years. Absence in a Territory of the Commonwealth, any periods of absence during which a person’s home remains in Australia, and absences in certain other circumstances, are counted as residence. Residence in New Zealand or the United Kingdom may be treated as residence in Australia.

Invalid pensions are payable to persons, 16 years of age and over, who have lived in Australia for a continuous period of five years (including certain absences) at any time, and who are permanently incapacitated for work to the extent of at least 85 per cent., or permanently blind. If the incapacity or blindness first occurred outside Australia, except during a temporary absence, a period of 10 years’ continuous residence is necessary, but if a person has completed five years but not 10 years continuous residence and has lived in Australia for periods which exceed a total of 10 years, the period of continuous residence otherwise required is reduced by the total of his periods of residence in Australia in excess of 10 years. Residence in New Zealand or the United Kingdom may be treated as residence in Australia. Certain absences do not affect eligibility.

Aboriginals, other than those who are nomadic or primitive, are eligible for age and invalid pensions on the same conditions as other members of the community.

A pension is not payable to an alien.

(ii) *Current Rates of Pension.* The maximum standard rate was increased to £312 per annum (£6 a week) from 1st October, 1964. This is payable to a single, widowed, or divorced pensioner, or a married pensioner whose spouse is not receiving an age or invalid pension, a wife's allowance, an unemployment, sickness or special benefit, a tuberculosis allowance or a service pension. The maximum married rate was also increased from 1st October, 1964, and is £572 per annum (£11 a week) for a married couple, both pensioners, i.e., £286 per annum (£5 10s. a week) each. The married rate applies to a pensioner whose spouse is also receiving an age or invalid pension or whose spouse receives a wife's allowance, an unemployment, sickness or special benefit, a tuberculosis allowance or a service pension.

A wife's allowance may be granted, subject to the means test, to the non-pensioner wife of an invalid pensioner or a permanently incapacitated or blind age pensioner if she is not receiving an age or invalid pension, or a service pension under the *Repatriation Act 1920-1964* (see Chapter XXVIII. Repatriation). The maximum annual rate of a wife's allowance has been £156 per annum (£3 a week) since 3rd October, 1963. A child's allowance of £39 per annum (15s. a week), free of the means test, is payable for the first child under 16 years of an invalid pensioner, and the pension may also be increased by £39 per annum (15s. a week), subject to the means test, for each other child under 16 years.

Since 3rd October, 1963, eligibility for a child's allowance and the additional pension for children has been extended to include a child over 16 years until the end of the calendar year in which he reaches 18 years, provided he is wholly or substantially dependent on the pensioner and is receiving full-time education at a school, college or university. Supplementary assistance of 10s. a week is available to pensioners receiving the maximum standard rate pension if they pay rent and are considered to depend entirely on the pension. At 30th June, 1964, 533,456 age pensioners (87 per cent. of all age pensioners) and 102,267 invalid pensioners (93 per cent. of all invalid pensioners) were receiving the maximum pension.

If the pensioner is an inmate of a benevolent home, the maximum payable to him is £2 2s. a week if he is eligible for the standard rate pension, or £1 19s. a week otherwise. The rest is paid to the home for his maintenance. The balance is not paid to the home if the pensioner is in an infirmary ward, as payments under the Commonwealth Hospital Benefits Scheme are made in that case.

(iii) *Means Test.* Age and invalid pensions (other than invalid pensions paid to blind persons) and allowances paid to wives of invalid pensioners (but not a child's allowance of 15s. a week) are subject to a means test which applies to income and property. From March, 1961, the means tests previously applied separately on income and property were merged into one composite means test. The rate of pension payable depends on the claimant's *means as assessed*. These consist of his annual rate of income plus a property component equal to £1 for each complete £10 of his net property above £200. A person's *means as assessed* may consist entirely of income, entirely of the property component, or of various combinations of income and property component. The pension payable is calculated by deducting from the applicable maximum annual rate of pension the amount by which *means as assessed* exceed £182. Where the standard rate applies, no pension is payable where the value of property is £5,140 or more. Where the married rate applies, no pension is payable where the value of property is £4,880 or more. The wife's allowance is affected by income and property on the same basis as the pension, i.e., it is reduced by the amount of *means as assessed* over £182.

Certain types of income are excepted. The main exceptions are:—income from property; gifts or allowances from children, parents, brothers, or sisters; benefits (other than annuities) from friendly societies; child endowment or other payments for children; Commonwealth health benefits and amounts received from registered benefit organizations.

Certain types of property are disregarded. They include the permanent home of the pensioner, his furniture and personal effects, the surrender value (up to £750) of life insurance policies, the capital value of annuities or contingent interests, and the value of any reversionary interests.

For the purposes of the means test the income and property of a married person are considered to be half the total income and property of the husband and wife unless they are legally separated or in other special circumstances.

(iv) *Rates of Pension since 1909.* The following statement shows the rates of pension at 1st July, 1909, and the rates as they have been varied since that date, subject in all cases to income and property qualifications.

MAXIMUM RATES OF PENSION PAYABLE(a)

(a) Excludes amounts payable for wives and children of invalid pensioners and supplementary assistance.

(b) Additional pension of £6 10s. per annum (2s. 6d. a week) was payable to a pensioner with no income. Pensioners with income of less than 2s. 6d. a week were paid additional pension of 2s. 6d. less the amount of income.

(c) Variation according to change in retail price index number.

(d) Increase paid on 9th July, 1942, retrospective to 2nd April, 1942.

NOTE.—Provision for variations according to retail price index numbers was repealed on 6th April, 1944.

(v) *Number and Characteristics of Pensioners, 1963-64.* The number of age pensioners at 30th June, 1964, was 615,186 of whom 186,338 (30 per cent.) were males and 428,848 (70 per cent.) were females. This was an increase of 7,836 for the year.

The number of invalid pensioners at 30th June, 1964, was 109,725 of whom 59,850 (55 per cent.) were males and 49,875 (45 per cent.) were females.

The following table shows the number of pensions in force at 30th June, 1964, in each State and Territory.

AGE AND INVALID PENSIONS, 30th JUNE, 1964

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Age pensions in force—									
Males	71,914	45,983	32,432	16,888	12,467	5,779	598	277	186,338
Females	165,076	113,675	65,976	40,392	29,352	13,024	657	696	428,848
Persons	236,990	159,658	98,408	57,280	41,819	18,803	1,255	973	615,186
Invalid pensions in force—									
Males	25,032	13,725	9,538	4,519	4,719	1,966	244	107	59,850
Females	22,232	11,237	7,355	3,774	3,587	1,397	153	140	49,875
Persons	47,264	24,962	16,893	8,293	8,306	3,363	397	247	109,725

The number of age and invalid pension claims granted during 1963-64 are shown in the following table, classified according to the sex and conjugal condition of the pensioner.

SEX AND CONJUGAL CONDITION OF NEW PENSIONERS, 1963-64

Conjugal condition	Age pensioners			Invalid pensioners			Total
	Males	Females	Persons	Males	Females	Persons	
Single	3,071	5,349	8,420	4,268	3,566	7,834	16,254
Married	13,460	17,835	31,295	6,599	2,527	9,126	40,421
Widowed	2,629	9,563	12,192	625	762	1,387	13,579
Divorced	308	735	1,043	366	354	720	1,763
Total	19,468	33,482	52,950	11,858	7,209	19,067	72,017

The average age of new age pensioners was 69 years for men and 66 years for women. The ages of new invalid pensioners are shown in the following table.

INVALID PENSIONS: AGES OF NEW PENSIONERS, 1963-64

Particulars	16-19 years	20-44 years	45-59 years	60-64 years	65 years and over	Total
Number	1,863	3,456	8,960	4,303	485	19,067
Per cent.	10	18	47	23	2	100

(vi) *Pensioners, 1959-60 to 1963-64.* The following table gives details of age and invalid pensions for the years 1959-60 to 1963-64.

AGE AND INVALID PENSIONS: SUMMARY, AUSTRALIA

Year	Pensioners at 30th June				Total payments during year (b)	Average weekly pension as at 30th June		
	Age		Invalid	Total		Age	Invalid	Age and invalid combined
	Number	Rate (a)						
1960	(c)538,022	501	(c) 80,816	No. 618,838	£'000 147,005	s. d. 90 3	s. d. 94 8	s. d. 90 10
1961	562,790	510	88,642	651,432	157,926	97 10	100 6	98 2
1962	594,012	529	97,246	691,258	180,245	101 11	105 3	102 5
1963	607,350	534	104,038	711,388	187,754	101 7	105 3	102 2
1964	615,186	533	109,725	724,911	199,940	107 1	112 7	107 11

(a) Number of pensioners per 1,000 persons of pensionable age (males aged 65 years and over and females aged 60 years and over). (b) Year ended 30th June. Includes allowances and supplementary assistance. (c) During 1959-60, 9,906 invalid pensioners in Victoria, Queensland and Western Australia were transferred to their correct designation of age pensioners.

The sum paid in age and invalid pensions in 1963-64, including the amount paid to homes for the maintenance of pensioners and allowances to wives of invalid pensioners, represented an expenditure of £18.1 per head of population, compared with £17.4 in 1962-63.

3. *Child Endowment.*—(i) *General.* A person who is resident in Australia and has the custody, care, and control of one or more children under the age of 16 years or of a student child over 16 but under 21 years, or an approved institution of which children are inmates, is qualified to receive an endowment in respect of each such child. There are provisions to meet cases of families divided because of divorce, separation, unemployment or death of a parent. There is no means test.

Twelve months' residence in Australia is required if the claimant and the child were not born here, but this requirement is waived if the Department of Social Services is satisfied that they are likely to remain in Australia permanently. Where the child's father is not a British subject, endowment is payable if the child was born in Australia, if the mother is a British subject, or if the Department is satisfied that the child is likely to remain permanently in Australia.

Under certain conditions, endowment may be paid to Australians who are temporarily absent overseas. Endowment is payable to Aborigines unless they are nomadic or primitive.

(ii) *Rates of Endowment.* From 1st July, 1941, the rate of endowment was 5s. a week for each child under 16 in excess of one in a family, and for each child under 16 in an approved institution. The rate was increased to 7s. 6d. a week in June, 1945, and to 10s. a week in November, 1948. From June, 1950, 5s. a week has been paid for the first child under 16 in a family, 10s. a week for each other child under 16 in a family, and 10s. a week for each child under 16 in an institution.

Since January, 1964, the rate has been increased to 15s. a week for the third and subsequent children under 16 years in families, and that amount is also paid, under the provisions of the *Social Services Act* 1964, for full-time students between 16 and 21 years. Full-time student children are those receiving full-time education at a school, college or university and who are not in employment or engaged in work on their own account.

(iii) *Number of Claims and Endowed Children, 30th June, 1964.* (a) *Children under 16 years.* The number of families receiving child endowment at 30th June, 1964, in respect of children under 16 years was 1,555,630, an increase of 20,242 or 1.3 per cent. during the year. The following table shows, for each State and Territory, the number of claims for child endowment in force and the number of endowed children under 16 years at 30th June, 1964.

**CHILD ENDOWMENT: CLAIMS AND ENDOWED CHILDREN
UNDER 16 YEARS, 30th JUNE, 1964**

State or Territory	Family groups			Institutions		Total endowed children under 16 years

(v) *Child Endowment, 1959-60 to 1963-64.* The following table shows, for Australia, the number of claims, the number of all endowed children and the annual liability at 30th June for each of the years from 1960 to 1964 and the actual expenditure for the years 1959-60 to 1963-64.

CHILD ENDOWMENT: SUMMARY, AUSTRALIA

At 30th June—	Family group claims in force (a)	Institutions	Endowed children	Annual liability for endowment (b)	Total payments (b)(c)
				£	£
1960	1,476,835	443	3,252,413	65,363,883	62,531,977
1961	1,501,180	465	3,340,302	67,332,512	(d) 74,302,614
1962	1,523,074	479	3,420,134	69,123,522	66,377,628
1963	1,535,388	497	3,457,620	69,938,076	67,710,463
1964	1,555,630	502	(e)3,631,047	e 87,882,795	ef 84,379,174

(a) In respect of family groups containing endowed children under 16 years of age. (b) A number of endowments are paid every twelve weeks. During two years out of every three, there are four such payments but every third year there are five. Figures for annual liability, therefore, reflect trends in expenditure on child endowment more accurately than do figures for payments. (c) Year ended 30th June. (d) Endowment payable on 4th July, 1961, to the credit of bank accounts and in cash at post offices was brought to account in 1960-61. (e) Includes student children. (f) Expenditure for this year includes five twelve-weekly payments.

4. Commonwealth Rehabilitation Service.—(i) *General.* The Commonwealth Rehabilitation Service has been set up to help persons who are unable to work because of physical handicap, or who have had to give up their employment because of sickness or injury. It helps disabled persons to reach their maximum physical fitness and to prepare for suitable employment. They are given suitable treatment and training, the cases selected being those in which the person's disability is remediable and there are reasonable prospects of his engaging in a suitable vocation within three years after the commencement of treatment or training.

The service is available to invalid and widow pensioners, persons receiving unemployment, sickness or special benefits, persons receiving tuberculosis allowances, and persons aged 14 or 15 who, without treatment and training, would be likely to qualify for an invalid pension on reaching the age of 16 years. During treatment, payment of pension or benefit continues. When vocational training begins, the pension or benefit is suspended and a rehabilitation allowance, together with a training allowance of £1 10s. a week, is paid instead. With an invalid pensioner, or a sickness, unemployment or special beneficiary, this is equivalent to and calculated in the same manner as an invalid pension. In the case of a widow pensioner, the rate is the same as that of the widow's pension.

Living-away-from-home allowances are paid where necessary. Fares and living expenses (including those of an attendant where required) incurred in connexion with treatment, training or attendance for an interview or for medical examination may also be paid. A person receiving treatment or training may be provided, free of charge, with necessary artificial replacements, surgical aids and appliances. He may also be provided with books, equipment and tools of trade, costing up to £40. If these are retained by him, he is required to pay the cost, but payments may be made by small instalments after he has commenced employment.

If the treatment or vocational training does not result in the trainee being able to engage in employment, he receives the pension or benefit to which he is entitled.

Disabled persons who cannot qualify for the free service may pay for rehabilitation themselves, or they may be sponsored by government or private organizations. Rehabilitation allowances, training allowances, living-away-from-home allowances and other allowances are not payable in these cases. Books, tools, etc., are available on a repayment basis.

(ii) *Numbers dealt with by the Service, 1963-64.* The numbers of persons receiving benefits who were examined, accepted, trained and placed in employment during the year 1963-64 are shown in the following table.

COMMONWEALTH REHABILITATION SERVICE: AUSTRALIA, 1963-64

Type	Examined	Accepted	Completed training	Placed in employment	
				After training	Without training
Invalid pensioners	7,190	301	86	80	105
Widow pensioners	16	4	1
Unemployment and sickness beneficiaries	9,913	1,100	197	157	764
Special beneficiaries	4	2	1
Recipients of tuberculosis allowance	88	60	24	30	23
Persons aged 14-15 years ..	182	82	24	20	55
Persons provided with rehabilitation on payment of the cost by another authority	117	86	63
Total	17,510	1,635	331	287	1,012

There were 1,635 persons accepted during the year, 82 more than during the previous year. Of those, 69 per cent. were under 40 years of age. The average number receiving rehabilitation training during the year was 1,130.

5. **Funeral Benefits.**—(i) *General.* A funeral benefit of up to £10 is payable to the person who has paid, or is liable to pay, the cost of the funeral of an age or invalid pensioner or of a claimant who, but for his death, would have been granted an age or invalid pension, or of a person who at the time of his death was receiving, or was a claimant for, a tuberculosis allowance, if he would otherwise have been qualified to receive an age or invalid pension. Where the cost of the funeral has been partly met by payment from a contributory funeral benefit fund of an organization other than a friendly society, funeral benefit is payable to the extent of the amount (not above £10) by which the cost of the funeral exceeded the amount paid from the fund.

(ii) *Number of Benefits, 1959-60 to 1963-64.* The following table shows the number of funeral benefits which were granted in each State and Territory in the years 1959-60 to 1963-64.

Abroad	2
Total	35,465	36,749	37,889	40,624	41,148

6. **Maternity Allowances.**—(i) *General.* Maternity allowances are paid to provide financial assistance towards the expenses associated with the birth of children and are additional to the benefits provided under the Commonwealth hospital benefits scheme. They are not subject to a means test.

A maternity allowance is payable to a woman who, at the date of giving birth to a child, is residing in Australia, is temporarily abroad, or is on board a ship proceeding from a port in Australia or an Australian Territory to another port in Australia or another Australian Territory, or on board a ship proceeding to Australia, provided she receives no maternity benefit from the country from which she came. An alien mother may receive the allowance if she or her husband resided in Australia for at least twelve months immediately prior to the birth of the child, or if she is likely to remain in Australia permanently. Aboriginals, other than those who are nomadic or primitive, are eligible for maternity allowances on the same conditions as other members of the community.

(ii) *Rates of Allowance.* The allowance is £15 if the mother has no other children, £16 if she has one or two children under 16, and £17 10s. if she has three or more other children under 16. The amount is increased by £5 for each additional child born at a birth. An advance payment of £10 may be made four weeks before the expected date of birth. The balance is payable immediately after the birth. Payment may be made in respect of the birth of a still-born child, or a child which lives for less than twelve hours, if the child had developed for at least 5½ months.

(iii) *Claims Paid, 1963-64.* The following table shows the number of claims paid in each State and Territory at the several rates of maternity allowances during the year 1963-64.

MATERNITY ALLOWANCES: CLAIMS PAID AT EACH RATE, 1963-64

7. **Unemployment, Sickness and Special Benefits.**—(i) *General.* Unemployment and sickness benefits are paid to men over 16 and under 65 years of age, and women over 16 and under 60 years of age, who are unemployed or who are temporarily incapacitated for work and thereby suffer loss of income. They must have been living in Australia during the preceding twelve months or be likely to remain permanently in Australia. A person receiving an age, invalid or widow's pension, or a service pension (as distinct from a war pension) under the *Repatriation Act 1920-1964*, or a tuberculosis allowance, is ineligible to receive a benefit.

To qualify for an unemployment benefit, a person must establish that he is unemployed and that his unemployment is not due to his being a direct participant in a strike, that he is capable and willing to undertake suitable work, and that he has taken reasonable steps to obtain such work. Registration with the local Commonwealth District Employment Office is necessary.

To qualify for a sickness benefit, a person must establish that he is temporarily incapacitated for work because of sickness or accident and that he has thereby suffered a loss of salary, wages or other income.

A married woman is not eligible to receive a sickness benefit if it is reasonably possible for her husband to maintain her. Where her husband is able to maintain her only partially, a benefit may be paid at such rate as is considered reasonable in the circumstances. In exceptional cases a married woman may qualify for unemployment benefit in her own right.

A special benefit may be granted to a person not qualified for unemployment or sickness benefit who is not receiving an age, invalid or widow's pension or a service pension, if, because of age, physical or mental disability or domestic circumstances, or for any other reason, he is unable to earn a sufficient livelihood for himself and his dependants. Recipients of special benefits include, among others, persons caring for invalid parents, deserted wives, and naturalized persons ineligible for age, invalid or widows' pensions.

Special benefits are also paid to migrants who are in reception centres and are awaiting their first placement in employment in Australia. During this time they receive a short instruction in English and in Australian conditions to facilitate their assimilation into the community and employment.

Aboriginals, other than those who are nomadic or primitive, are eligible for these benefits on the same conditions as other members of the community.

(ii) *Rates of Benefit.* The maximum weekly rates of benefit payable and permissible income in respect of benefit periods which commenced on or after 1st March, 1962, are as follows.

Age and marital status of claimant	Maximum weekly rate	Permissible weekly income
	£ s. d.	£ s. d.
Unmarried person under 18 years of age	1 15 0	1 0 0
Unmarried person 18 to 20 years of age	2 7 6	1 0 0
All others	4 2 6	2 0 0

An additional benefit of £3 a week may be paid for a dependent spouse and 15s. a week for each dependent child under 16 years of age if resident in Australia. Additional benefit, at the same rate as that for a dependent spouse, may be paid where a woman is keeping house for a claimant who has one or more children under 16 years of age in his care. It may be granted only if no such benefit is payable for his wife and the housekeeper is substantially dependent on him but not employed by him.

The weekly rate of benefit is reduced by the amount by which a beneficiary's other income exceeds the amount shown in the relevant line of the final column in the preceding table. For unemployment benefit purposes the income of the spouse is also taken into account, unless the claimant and his spouse are permanently separated. For sickness benefit purposes the income from an approved friendly society or other similar approved body in respect of the incapacity for which sickness benefit is payable is disregarded. "Income" does not include child endowment or other payments for children, Commonwealth hospital and pharmaceutical benefits, a tuberculosis allowance, or an amount paid in reimbursement of medical, dental or similar expenses. There is no means test on property.

The amount of compensation, damages or similar payment, or war pension, if paid in respect of the same incapacity as that for which sickness benefit is claimed, is deducted from the sickness benefit. If not paid in respect of the same incapacity, compensation is regarded as income and war pension is ignored.

There is a waiting period of seven days for which unemployment or sickness benefit is not payable.

(iii) *Benefits, 1963-64.* The following table shows the number admitted to unemployment, sickness, and special benefit during 1963-64, the number of persons on benefit at 30th June, 1964, and the amount paid for each benefit during 1963-64.

(a) Includes migrants in reception and training centres.

(b) Includes payments to migrants in reception and training centres.

8. *Widows' Pensions.*—(i) *Rates and Conditions.* Widows' pensions are payable according to the following classes. The rates shown have been in operation since October, 1964.

Class "A". A widow who has the custody, care and control of one or more children under the age of 16 years—£416 per annum (£8 a week). This includes the standard rate pension at £312 per annum (£6 a week) and a mother's allowance of £104 per annum (£2 a week). In addition, a flat rate allowance of £39 per annum (15s. a week) for one child and, subject to the means test, extra pension of £39 per annum (15s. a week) for each other child under sixteen years are payable. Payment may be made for a child over sixteen years until the end of the calendar year in which he reaches eighteen years, if he is wholly or substantially dependent on the widow and is receiving full-time education at a school, college, or university.

Class "B". A widow who has no children under 16 years of age, or eligible full-time student children, in her custody, care and control, and who is not less than 50 years of age or who, after having attained the age of 45 years, ceased to receive a Class "A" widows' pension because she no longer had the custody, care and control of a child—£279 10s. per annum (£5 7s. 6d. a week).

Class "C". A widow who is under 50 years of age and has no children under the age of 16 years, or eligible full-time student children, in her custody, care and control, but is in necessitous circumstances within the 26 weeks after the death of her husband—£5 7s. 6d. a week for not more than 26 weeks after the death of her husband. If the widow is pregnant, this period may be extended until the child's birth. She may then become eligible for a Class "A" widow's pension.

Widow pensioners may receive supplementary assistance of £26 per annum (10s. a week) if they pay rent and are considered to be dependent entirely on their pensions.

For classes "A" and "B", the term "widow" includes a wife who has been deserted by her husband without just cause for a period of at least six months, a divorcee, a woman whose husband has been imprisoned for at least six months, and a woman whose husband is in a mental hospital. Certain dependent females also may qualify for "A", "B" or "C" Class pensions.

The residential qualification is five years' continuous residence in Australia immediately prior to the date of lodgment of the claim, but this period may be reduced to one year if the widow and her husband were living permanently in Australia when he died. Certain absences are ignored.

A widow's pension is not payable to an alien, a woman receiving an age or invalid pension, a tuberculosis allowance, a war widow's pension, or a deserted wife or a divorcee who has not taken reasonable action to obtain maintenance from her husband or former husband. Aboriginals, other than those who are nomadic or primitive, are eligible for widows' pensions on the same conditions as other members of the community.

(ii) *Means Test.* Widows' pensions are subject to a means test on income and property. The pension payable depends on the claimant's *means as assessed*. These consist of her annual rate of income together with a property component equal to £1 for every complete £10 by which the value of her property is in excess of a stipulated sum. In the case of a Class "B" widow, £200 of property is exempt. A Class "A" widow has a basic exemption of £1,000 when the value of her property exceeds £2,250, but no property component is calculated where she has property of no more than £2,250 in value. A Class "A" pension is not payable where a widow has property valued at £6,980 or more; no Class "B" pension is payable where property is £4,820 or more. There is no specific means test for the Class "C" pension, which is paid only where it is evident that a widow has insufficient means of support. The types of income and property disregarded for means test purposes are the same as for age and invalid pensions.

(iii) *Pensions, 1963-64.* The following table shows details of widows' pensions paid in each State and Territory in the year 1963-64.

WIDOWS' PENSIONS AT 30th JUNE, 1964

Total	27,371	34,659	94	62,124	135 9	20,784,316

(a) Includes allowances and supplementary assistance. (b) Includes payments to benevolent homes for maintenance of pensioners. (c) Included in the figures for the State in which the pensioner is permanently domiciled.

9. *Reciprocal Agreements with Other Countries.*—(i) *New Zealand.* An agreement between the Governments of Australia and New Zealand for reciprocity in social services came into operation on 1st July, 1949.

The reciprocal arrangements cover age and invalid pensions, widows' pensions, child endowment, and unemployment and sickness benefits, and apply to both permanent and temporary changes of residence.

Residence in one country may be treated as residence in the other country in relation to entitlement to benefits in which a residential qualification applies.

Persons from one country taking up permanent residence in the other country become eligible for any of the specified benefits of the new country under the same conditions (with one or two exceptions) as apply to citizens of that country.

Persons in receipt of any of the specified benefits in one country may continue to receive those benefits while temporarily absent in the other country.

(ii) *Britain.* A new reciprocal agreement on social services between Britain and Australia came into operation on 1st April, 1958, replacing the original agreement which operated from 7th January, 1954.

Under this agreement, residence in one country may be treated as residence in the other country as the basis for entitlement to benefits in which a residential qualification applies.

Australians going to Britain for permanent residence are treated in Britain as if they had been insured under the National Insurance Scheme while in Australia, so that they can qualify for various National Insurance benefits.

There is also provision for the safeguard of social service rights for persons going from one country to the other for temporary residence.

10. Commonwealth Assistance to Aged Persons Homes and Sheltered Work Shops.—
(i) *The Aged Persons Homes Act 1954-1957*. This Act is designed to encourage the provision of homes in which aged persons may reside in conditions approaching normal domestic life.

To be eligible for assistance under the Act an organization must be—

- (a) carried on otherwise than for purposes of profit or gain to the individual members; and
- (b) a religious organization, an organization the principal objects or purposes of which are charitable or benevolent, an organization of former members of the defence forces established in every State or a State branch of such an organization, or an organization approved by the Governor-General for the purposes of the Act.

An organization conducted or controlled by, or by persons appointed by, the Government of the Commonwealth or of a State or a local governing body established under the law of a State, is not eligible for assistance under the Act.

The Director-General of Social Services may make a grant of money to an organization as assistance towards meeting the cost of the construction or purchase of a home, including land, to be used permanently for the accommodation of aged persons. The grant is made on a basis of £2 for each £1 raised by the organization, not counting money which the organization received from a governmental body or borrowed. Before a grant is made, the Director-General must be satisfied that the sum of the money expended and the money at present available for expenditure by the organization towards the capital cost of the home, together with the amount of the grant, will be not less than the capital cost of the home.

The following table gives information regarding grants approved during 1963-64.

**AGED PERSONS HOMES: GRANTS APPROVED, AMOUNTS GRANTED,

1962-63 ..	155	4,183	2,939
1963-64 ..	134	3,467	2,466

(ii) *Disabled Persons Accommodation Act.* The *Disabled Persons Accommodation Act* 1963, which came into operation on 25th November, 1963, provides that grants may be made to eligible organizations towards the capital cost of approved buildings which will provide residential accommodation for disabled persons engaged, or likely to be engaged, in paid employment in a sheltered workshop.

The Act covers both the erection of buildings to be used for accommodation and the purchase of existing premises for conversion into accommodation. In both cases the cost of the necessary land may be included.

Eligibility of organizations for grants under this Act is on the same basis as for the Aged Persons Homes Act.

For the purposes of the Act, a disabled person is a person who is qualified by age (sixteen years or over) and on medical grounds for an invalid pension under the Social Services Act. A sheltered workshop is a factory or workshop, or part thereof, in which all or a substantial number of employees are disabled persons who receive payment for their work.

§ 4. Selected Non-Government Organizations

1. **National Safety Council of Australia.**—The National Safety Council of Australia was founded in Victoria in 1927. In 1959 it was reorganized, and new Articles of Association were adopted in 1961, placing it on a more truly federal basis and reflecting the expanded character of the Council in the 34 years since its formation.

The objects of the Council are to devise and encourage the adoption of safety measures of all kinds, to promote discussion of all matters relating to safety measures, to conduct an educational campaign among the people of Australia to stimulate the adoption and observance of safety measures, and to consider, initiate and support improvements in the laws of the Commonwealth of Australia, the States and local governing bodies calculated to prevent accidents.

The Council is now registered in Canberra, with Divisions established in all States. It is managed by a Federal Council responsible for those objectives which are of a national character. Each State Division controls its own affairs which are of State or local character.

The Council is a non-profit making organization and, apart from fees which may be charged to members and others for services provided, its work is financed by subscriptions, grants and donations. The Federal Council receives a grant from the Commonwealth Government.

2. **Lifesaving.**—There are two life saving organizations in Australia, the Royal Life Saving Society—Australia, and the Surf Life Saving Association of Australia.

The objects of these organizations are the prevention of death from drowning and other forms of asphyxiation; the education of the general public in methods of life saving and resuscitation of the apparently drowned or asphyxiated; technical education in water safety; the encouragement of swimming and life saving in schools and other organizations; the encouragement of all aspects of swimming and aquatics which would assist in saving lives; and the initiation of research within the field of water safety and lifesaving.

The Royal Life Saving Society operates at lakes, rivers, bay and harbour beaches, and gives instruction to school pupils and members of other bodies throughout Australia except on surf beaches. The Surf Life Saving Association patrols surf beaches.

Numerous certificates and medallions of proficiency in various grades are awarded.

3. **Royal Humane Society.**—The Royal Humane Society of Australasia has as its main object the granting of awards to all who with bravery, skill and perseverance risk their own lives in saving or attempting to save those of their fellow creatures. The classes of awards are (a) Gold Medal, (b) Silver Medal, (c) Bronze Medal, and (d) Certificate of Merit. The Clarke Medal is awarded for the outstanding case of the year, and the Rupert Wilks Trophy is awarded for the most outstanding bravery by a child under 13 years of age.

4. **The Order of St. John.**—The Priory in Australia of the Most Venerable Order of the Hospital of St. John of Jerusalem is the governing body of the various activities of the Order which comprises the St. John Ambulance Association, the St. John Ambulance Brigade and the Hospitallers' Clubs in all States and Commonwealth Territories. In October, 1963, at Canberra, the Priory for the first time held its meetings in Australia under the chairmanship of the Prior, his Excellency, the Governor-General.

Members of the St. John Ambulance Association teach first aid, home nursing, hygiene and child welfare.

Members of the St. John Ambulance Brigade provide first aid at public functions.

The Hospitallers' Clubs in each State undertake the collection of funds for the St. John Ophthalmic Hospital in Jerusalem, and other duties which tend to bring together all persons interested in the work of the order.

The Order of St. John maintains ambulance transport services in some States, acts as an auxiliary to such services in other States, and provides technical reserves for the medical services of the Crown.

The Lifesaving Medal is awarded by the Order as warranted.

CHAPTER XVII

PUBLIC JUSTICE

NOTE.—In interpreting statistics of public justice, it should be realized that a number of factors affect comparability from State to State and from year to year, e.g.:

- (a) Differences in the jurisdiction of courts;
- (b) Changes in the law in particular States and differences in the laws between States;
- (c) Differences in the methods of compiling the figures (e.g. in respect of persons convicted for more than one offence);
- (d) The attitude to laws such as those connected with liquor, vagrancy, gaming, and traffic offences;
- (e) The strength and distribution of the police force;
- (f) The proportion of various types of crimes reported and solved.

§ 1. The Australian Legal System

1. Development of the System.—The two major factors in the development of the Australian legal system have been its British origin and the Federal Constitution of 1900. When the various parts of Australia were first settled by British colonists, the common law and statutes of England were brought with them by the settlers. When local law-making bodies were established, the law so brought in was gradually modified and augmented by local legislation, but the Imperial Parliament in London also continued to legislate (to a lesser and lesser extent) in respect of Australia. The Federal Constitution of 1900, which is itself an Imperial Act, limited the legislative power of State Parliaments in some respects and created a federal legislature. Since the *Statute of Westminster Adoption Act 1942*, the Imperial Parliament can legislate for Australia only at Australia's request. The sources of Australian law of today are, therefore, found in Commonwealth and State legislation, in some Imperial legislation and in the common law. No significant attempt has been made at codification of the law, but three of the States (Queensland, Western Australia, and Tasmania) have Criminal Codes. However, separate consolidations of the statutes of the Commonwealth and of all States except Western Australia (which has adopted a system of reprinting of individual statutes at intervals) have been brought out from time to time.

There are few constitutional or other legislative guarantees of individual rights and liberties in Australia. These rights are nevertheless protected, because a basic feature of the Australian system is the "rule of law": no act, official or unofficial, however bona fide and apparently reasonable, which infringes the liberty or rights of an individual is justifiable unless it is authorized by law, and for any such unlawful act, by whatever authority commanded, the official or other person is personally liable in an action in the ordinary courts. In the case of subordinate legislation, and even in the case of Federal or State Acts, the validity of the law itself may be challenged in the courts. The remedy for the protection of the personal liberty of the individual is the writ of habeas corpus, which requires the person named therein to be produced in the court.

Australian law adheres to the principle that judicial control must in general be exercised by ordinary courts. There is no integrated system of administrative tribunals, but there is a great variety of such tribunals of various descriptions. The ordinary courts exercise supervision over administrative tribunals either by way of statutory appeal or by the use of prerogative writs of mandamus, prohibition, or *certiorari*, by which the administrative tribunals can be enjoined to perform a duty or to abstain from excess of jurisdiction, or can have their decisions set aside.

Independence of the judiciary is an essential part of the Australian legal system. Security of tenure of superior court judges is guaranteed, mostly by the Constitutions of the Commonwealth and the States, and they can be removed from office only by resolution of both Houses of Parliament of the Commonwealth or the States, as the case may be, for proven misbehaviour or incapacity. Their independence is further secured by relatively high salaries which, in the case of High Court judges, cannot be reduced during their tenure of office, and liberal (mostly non-contributory) pensions for the judges or their widows.

Civil judgments given in the courts of any part of Australia can be enforced in any other part of Australia under the *Service and Execution of Process Act* 1901-1963. Since 1st January, 1964, this applies also to fines imposed by courts of summary jurisdiction.

2. *State and Territory Courts.*—(i) *Civil jurisdiction.* Lower civil courts (i.e., Magistrates' Courts, Courts of Petty Sessions, Local Courts, Small Debts Courts, Courts of Request and Courts of General Sessions) are usually constituted or presided over by a stipendiary or special magistrate or a commissioner. In some limited instances, justices of the peace may exercise the jurisdiction of the court. Local Courts are sometimes constituted by a Judge. The powers of the magistrates in the various States and Territories are set out in § 2, pages 625-7. In most cases, unless the amount involved is very small, appeal may be made to a higher court against a magistrate's decision. In any case, the Supreme Court has a supervisory power, by means of prerogative writs, to examine whether a lower court has properly exercised its jurisdiction.

In the higher courts (i.e., District Courts, County Courts, and the Supreme Courts) actions are usually tried by a single judge, sitting with or without a jury, from whose judgment appeal lies to the bench of the Supreme Court. In certain cases, the appeal can be carried to the High Court of Australia. Appeals to the Privy Council are referred to on page 625.

(ii) *Criminal jurisdiction.* Criminal courts are of two kinds, namely, courts of summary jurisdiction and higher courts. Courts of summary jurisdiction, usually called Courts of Petty Sessions, may deal summarily with minor offences; higher courts, known as Courts of Sessions, Quarter Sessions or General Sessions (not to be confused with the lower court of civil jurisdiction of that name) and the Supreme Court, hear indictable offences. A court of summary jurisdiction consists of a stipendiary or police magistrate, or two or more justices of the peace; a higher court consists of a judge or chairman, sitting with a jury. The jury finds as to the facts of the case and the judge determines the applicable law and, within the limits of the law, the punishment of the convicted person.

In the case of other than minor offences a preliminary hearing is held before a stipendiary magistrate or justice of the peace for the purpose of determining whether a *prima facie* case has been made out. If the magistrate or justice of the peace finds that there is a case to answer, the person charged is committed for trial at a higher court. A magistrate or justice of the peace has power to release on bail.

There is an appeal to a higher court from the decision of a court of summary jurisdiction hearing a minor offence, and an appeal from a higher court to the full bench of the Supreme Court, or Court of Criminal Appeal. A further appeal may, with leave, be brought to the High Court of Australia.

3. *Federal Courts.*—(i) *General.* The judicial power of the Commonwealth is vested in the High Court of Australia (the Federal Supreme Court), in the Federal courts created by Parliament (the Federal Court of Bankruptcy and the Commonwealth Industrial Court), and in the State courts invested by Parliament with Federal jurisdiction, both civil and criminal. Further particulars regarding the judicial power of the Commonwealth will be found in Chapter III. (§§ 71-80) of the Commonwealth Constitution (*see* p. 16 of this Year Book).

Particulars concerning the Federal Court of Bankruptcy will be found in § 8 of this chapter. Information regarding the Commonwealth Industrial Court, which was established under the *Conciliation and Arbitration Act* 1904-1964, will be found in Chapter XIII. Labour, Wages and Prices (pp. 426-8).

(ii) *High Court of Australia.* The High Court of Australia consists of a Chief Justice and six other Justices. Its principal seat is in Melbourne, but sittings are held in every State capital as occasion requires. The High Court has both original and appellate jurisdiction. Its original jurisdiction is usually exercised by a single Justice, appellate jurisdiction by at least three Justices.

The Constitution itself confers original jurisdiction on the High Court in all matters (i) arising under any treaty, (ii) affecting consuls or other representatives of other countries, (iii) in which the Commonwealth, or a person suing or being sued on behalf of the Commonwealth, is a party, (iv) between States, or between residents of different States, or between a State and a resident of another State, (v) in which a writ of mandamus or prohibition or an injunction is sought against an officer of the Commonwealth. In addition, Parliament may, under the Constitution, confer additional original jurisdiction on the High Court in certain classes of matters, and has in fact conferred original jurisdiction on the High Court in all matters arising under the Constitution or involving its interpretation and in trials of indictable offences against the laws of the Commonwealth. In matters (i) and (v) and in suits between the Commonwealth and a State or between States the jurisdiction of the High Court is exclusive of that of the State Courts, and in matters (other than trials of indictable offences) involving any question as to the limits *inter se* of the constitutional powers of the Commonwealth and those of the States, the jurisdiction of the High Court is exclusive of that of the Supreme Courts of the States.

Under the Constitution the High Court has jurisdiction, with such exceptions and subject to such regulations as the Parliament permits, to hear and determine appeals from all judgments, decrees, orders and sentences of (i) any Justice or Justices exercising the original jurisdiction of the High Court, (ii) any other Federal court or court exercising Federal jurisdiction and (iii) from the Supreme Court or other court of any State from which appeal lay to Privy Council at the establishment of the Commonwealth. In respect of (iii) the Parliament has prescribed that, generally, appeal can be brought only by special leave of the High Court. However, in the case of judgments affecting the status of any person under the laws relating to aliens, marriage, bankruptcy or insolvency, or in respect of any sum or matter at issue, or involving any claim, demand, or question, to or regarding any property or civil right, amounting to or of the value of £1,500, appeal may be brought as of right from final judgments, and by leave of the High Court or the Supreme Court from interlocutory judgments.

By Acts of Parliament and by subordinate legislation the High Court has also been given appellate jurisdiction in respect of the courts of the Territories under the control of the Commonwealth. Provision is also made in various enactments for appeal to the High Court on points of law from administrative determinations, such as decisions of the Commissioner of Taxation, Taxation Boards of Review, the Commissioner of Patents, or the Registrar of Trade Marks. Such proceedings, although called appeals, are in reality proceedings in the original jurisdiction of the High Court.

Transactions of the High Court are shown in § 6. p. 633.

4. Appeal to the Privy Council.—There is an appeal, by special leave of the Privy Council, from the High Court to the Privy Council. In certain important types of constitutional disputes, involving questions of the powers of the Commonwealth *vis-à-vis* the States, a certificate of the High Court in effect granting leave to appeal is necessary. There is also an appeal from the State Supreme Courts direct to the Privy Council.

§ 2. Lower (Magistrates') Courts

1. Powers of the Magistrates.—(i) *New South Wales*. The powers of the magistrates with regard to offences punishable summarily depend in each case on the statute which creates the offence and gives them jurisdiction. A magistrate may, with the consent of the accused, deal summarily with certain indictable offences under the Commonwealth Crimes Act and offences involving £250 or less under the State Crimes Act; offences under the Commonwealth Act and certain offences under the State Act may be disposed of summarily without such consent if the amount involved does not exceed £50. Except in the case of a very few statutes, and excluding cumulative sentences, the power of sentence is limited to twelve months. Imprisonment in default of fine is regulated by a scale limiting the maximum period according to the sum ordered to be paid, but in no case exceeding twelve months. Actions for debt and damage within certain limits also come within magisterial jurisdiction. In cases of liquidated debts, and damages whether liquidated or unliquidated, the amount is limited to £150 before a court constituted by a stipendiary magistrate. Where the amount claimed exceeds £50 the Court must transfer the action to the District Court when the defendant gives notice that he objects to the action being heard and determined by a Court of Petty Sessions. Magistrates have power to entertain claims of up to £500 under the *Money Lenders and Infants Loans Act 1941-1961*. The amount in actions of debt or damages before one or more justices of the peace ranges up to £30 in certain cases.

(ii) *Victoria*. The civil jurisdiction of magistrates is restricted as follows:—(a) ordinary debts, to £100; (b) any action in tort or contract, with the exception of a few torts such as breach of promise or illegal arrest (on which magistrates have no power to adjudicate), to £300; and (c) any action in tort arising out of any accident in which a vehicle is involved, to £500.

No definite limit is fixed to the powers of the magistrates on the criminal side and for some offences sentences of up to two years imprisonment may be imposed. The proportion of long sentences is, however, comparatively small.

(iii) *Queensland*. Generally speaking, the maximum term of imprisonment which justices can impose is six months, but in certain exceptional cases, such as offences against sections 233, 344 and 445 of the Criminal Code (betting houses, aggravated assaults, and unlawfully using animals), sentences of twelve months may be imposed.

There is provision for applying cumulative sentences, but in practice not more than one sentence is made cumulative on a previous sentence.

(iv) *South Australia*. The power of special magistrates to impose fines and imprisonment is defined by the special Act creating the offence and conferring jurisdiction. In the case of minor indictable offences which are tried summarily, a maximum penalty of £100 fine or two years imprisonment is fixed by the Justices Act, 1921–1960. Magistrates also have power to hear certain civil actions in which the amount claimed is less than £1,250.

(v) *Western Australia*. The powers of magistrates and justices with regard to offences which are tried summarily are governed by the Act creating the offence and giving them jurisdiction. Imprisonment in default of payment of a fine is regulated by a scale limiting the period according to the amount of the fine but not to exceed six months.

The civil jurisdiction of Local Courts is restricted in general to £500. By consent of the parties, any action that might be brought in the Supreme Court may be dealt with in a Local Court. Justices may act in the case of illness or absence of the magistrate.

Magistrates are coroners and justices may be appointed as acting coroners.

Magistrates have appellate jurisdiction under some statutes and in country districts act as Chairmen of the Session Courts. They may be appointed as Commissioners of the Supreme Court. On the goldfields, the magistrate is also the warden.

(vi) *Tasmania*. Magistrates are empowered to hear and determine in Courts of Petty Sessions all offences when an enactment expressly or by implication provides that the matter is to be determined summarily, or by or before justices, or that any offence is to be punishable upon summary conviction. In 1963, by an amendment to the *Justices Act 1959*, the categories of crimes triable summarily was extended to include crimes of a less serious nature. In the case of certain crimes the defendant has the option of electing summary trial or trial on indictment in the Supreme Court. However, the choice of election applies only where the property concerned exceeds the value of £10 but does not exceed £200. The defendant no longer has any right of election where the value of the property does not exceed £10. In the case of a charge of forgery or uttering, a right of election exists provided the complaint is in respect of a cheque for not more than £200. In the case of a charge of breaking into a building, other than a dwelling house, a defendant may elect to be tried summarily under certain conditions.

No general limit is fixed in respect of sentences, the statute creating the offence almost invariably laying down the penalty. Where this is not the case, the *Contravention of Statutes Act 1889* provides that a fine of £50 may be imposed. Sentences of imprisonment which justices may impose vary with the nature of the offence, with a maximum of two years. The aggregate of terms of cumulative sentences may not exceed two years.

The civil jurisdiction of magistrates is divided into two categories. A Commissioner of the Court of Requests, provided he is a legal practitioner, may hear actions for the recovery of debts and damages not exceeding £250. As Commissioners are invariably police magistrates, this jurisdiction is State-wide. Courts of General Sessions, constituted by at least two justices, exercise similar powers, but the jurisdiction cannot exceed £50. Only one court, that at Flinders Island, has the maximum jurisdiction, the others being limited to £30.

(vii) *Northern Territory*. Stipendiary and special magistrates constituting courts of summary jurisdiction try offences punishable summarily. The punishment that may be imposed depends on the law creating the offence. Where there is no magistrate available, the offence may be tried by two or more justices of the peace or, if all parties consent, by one justice. Proceedings for committal on indictable offences may be heard by either a

magistrate or a justice of the peace. Certain indictable offences under the Territory law may be tried summarily by a magistrate or two justices of the peace, who may impose a fine of up to £100 or imprisonment for up to two years.

A stipendiary magistrate constituting a local court has a civil jurisdiction to hear and determine claims for not more than £1,000. A local court constituted by two justices of the peace (every special magistrate is also a justice of the peace) has a civil jurisdiction to hear claims up to £50.

(viii) *Australian Capital Territory.* Stipendiary and special magistrates have general jurisdiction to try offences punishable summarily and also where a person is made liable to a penalty or punishment and no other provision is made for trial. The punishment depends on the law which creates the offence. In addition to jurisdiction (possessed by stipendiary and special magistrates throughout Australia) to try summarily with the consent of the defendant offences indictable under the *Crimes Act 1914-1960* (in which case the magistrate cannot impose a fine exceeding £100 or imprisonment exceeding one year), under Territory law certain indictable offences may also be tried summarily by a magistrate, who may impose a fine not exceeding £50 or imprisonment for up to one year. Magistrates also hear proceedings for committal on indictable offences. In civil proceedings, magistrates try actions for amounts up to £200. Justices of the peace have no judicial functions.

2. **First Offenders.**—In all States and Territories statutes are in force for dealing with first offenders. For particulars of the relevant legislation, see Year Book, No. 46, page 632. Provisions are incorporated in the various Acts whereby courts may extend leniency to the offender by means such as: (i) dismissal of the charge without proceeding to a conviction; (ii) freeing the offender or suspending sentence with the requirement of a recognizance for good behaviour for a specified period; and (iii) by placing the offender under the supervision of a probation officer for a specified period.

3. **Children's Courts.**—Special provisions exist in all States and Territories for dealing with juvenile offenders in special courts. Particulars of the relevant legislation and the constitution and powers of these courts are given in Year Book No. 49, pages 665-6.

4. **Proceedings at Lower (Magistrates') Courts.**—Particulars of the differences in the jurisdiction of Lower Courts in the various States are given in para. 1, Powers of Magistrates, pages 625-7. The proceedings of these courts are summarized in this paragraph. In interpreting the statistics in the tables the factors affecting comparability listed at the beginning of this chapter should be borne in mind.

(i) *Criminal. (a) Total Cases.* The total numbers of cases dealt with at magistrates' courts in each State and Territory for the years 1959 to 1963 are shown in the following table.

CASES AT MAGISTRATES' COURTS: OFFENCES CHARGED

State or Territory	1959	1960	1961	1962	1963
New South Wales(a) ..	331,195	332,728	345,730	322,848	323,501
Victoria ..	287,622	(a)268,104	(a)259,268	(a)270,275	(a)290,332
Queensland(a)(b) ..	65,773	73,804	79,448	79,772	87,737
South Australia(a)(b) ..	38,003	47,427	59,534	61,276	68,707
Western Australia(a) ..	50,696	50,107	48,220	52,764	54,907
Tasmania(a) ..	21,355	24,047	27,227	30,415	34,728
Northern Territory ..	3,617	2,958	3,091	4,350	5,886
Australian Capital Territory ..	2,539	3,168	3,305	4,795	6,435
Australia ..	800,800	802,343	825,823	826,495	872,233

(a) Excludes minor traffic offences settled without court appearance.

(b) Year ended 30th June.

Differences in the figures in the table above between States, and within a State over a period of time, are influenced by the large number of traffic offences and the arrangements which have been introduced at various times for dealing with them. Provision exists in the States for settlement of parking and minor traffic offences by payment of fines without court appearance. The following table shows the number of such offences for the years 1959 to 1963.

MINOR TRAFFIC OFFENCES SETTLED WITHOUT COURT APPEARANCES

State	1959	1960	1961	1962	1963
New South Wales ..	321,157	351,685	370,688	443,689	389,395
Victoria ..	(a)	69,895	113,874	132,144	170,590
Queensland(b) ..	22,701	40,648	58,977	75,322	79,237
South Australia(b) ..	145,276	149,241	156,067	191,592	183,684
Western Australia ..	44,973	50,879	44,392	42,582	43,970
Tasmania ..	18,554	25,801	36,745	33,217	34,394
Total ..	552,661	688,149	780,743	918,546	901,270

(a) Not applicable.

(b) Year ended 30th June.

(b) *Cases in which Convictions were made.* Of the cases dealt with in Magistrates' Courts in 1963, the following table shows the number in which convictions were made.

CASES AT MAGISTRATES' COURTS IN WHICH CONVICTIONS WERE MADE, 1963

Class of offence	N.S.W.	Vic.	Qld (a)(b)	S.A. (a)	W.A.	Tas.	N.T.	A.C.T.	Aust.
Against the person ..	3,468	2,719	675	573	527	362	203	97	8,624
Against property ..	28,105	18,211	5,093	3,143	7,278	1,196	338	392	63,756
Forgery and offences against the currency ..	1,083	610	..	11	8	12	50	3	1,777
Against good order ..	106,167	36,522	31,172	9,335	6,983	1,373	3,096	340	194,988
Other ..	148,230	208,026	41,924	44,462	36,916	27,002	1,816	5,194	513,570
Total ..	287,053	266,088	78,864	57,524	51,712	29,945	5,503	6,026	782,715

(a) Year ended 30th June.

(b) A person convicted on several counts at the one hearing is included only once.

The following table shows the number of cases in which convictions were made in each year from 1959 to 1963.

CASES AT MAGISTRATES' COURTS IN WHICH CONVICTIONS WERE MADE

State or Territory	1959	1960	1961	1962	1963
New South Wales(a) ..	303,504	306,436	314,307	292,484	287,053
Victoria ..	265,214	(a)245,807	(a)235,581	(a)246,017	(a)266,088
Queensland(a)(b)(c) ..	60,212	67,508	71,642	71,702	78,864
South Australia(a)(b) ..	34,203	42,531	52,155	53,531	57,524
Western Australia(a) ..	47,579	47,462	45,773	49,691	51,712
Tasmania(a) ..	19,094	20,196	23,212	26,211	29,945
Northern Territory ..	3,212	2,664	2,812	3,968	5,503
Australian Capital Territory ..	1,787	2,280	2,613	4,089	6,026
Australia ..	734,805	734,884	748,095	747,693	782,715

(a) Excludes minor traffic offences settled without court appearance.

(b) Year ended 30th June.

(c) A person convicted on several counts at the one hearing is included only once.

(c) *Cases in which Convictions were made for Drunkenness.* The numbers of cases in which convictions were recorded during each of the years 1959 to 1963 are given in the following table.

DRUNKENNESS: CASES IN WHICH CONVICTIONS WERE MADE

State or Territory	1959	1960	1961	1962	1963
New South Wales	69,201	68,591	67,809	68,546	65,630
Victoria	29,334	29,116	27,212	28,529	27,606
Queensland(a)	26,918	28,538	26,136	26,293	28,580
South Australia(a)	4,439	5,273	5,438	6,178	7,485
Western Australia	5,587	5,144	5,333	5,320	4,877
Tasmania	660	512	534	575	562
Northern Territory	1,010	822	1,037	1,388	1,730
Australian Capital Territory	255	298	307	252	237
Australia	137,404	138,294	133,806	137,081	136,707

(a) Year ended 30th June.

The term "drunkenness" includes "drunkenness and disorderliness", and "habitual drunkenness".

The rate of convictions for drunkenness since 1901 is shown below.

RATE OF CONVICTIONS FOR DRUNKENNESS: AUSTRALIA

Year	1901	1911	1921	1931	1941	1951	1961	1963
Convictions per 10,000 persons	133	133	97	57	91	175	129	125

For particulars of legislation relevant to the remedial treatment of drunkenness and some details of the various institutions established for the treatment of inebriates, see Year Book No. 46, p. 632.

(ii) *Civil Proceedings.* Civil proceedings in the lower courts refer to those in the Small Debts Courts in New South Wales, Courts of Petty Sessions in Victoria, Magistrates' Courts in Queensland, Local Courts in South Australia and Western Australia, Courts of Requests in Tasmania, Local Courts in the Northern Territory and the Court of Petty Sessions in the Australian Capital Territory. Statistics of civil proceedings in the Lower Courts are given in § 5.

§ 3. Higher (Judges') Courts

1. *General.*—Higher courts are presided over by a judge, sometimes with a jury (see para. 2, page 624). Jurisdiction of the Higher Courts, which include District, County and Supreme Courts, includes appeals from the lower courts, cases of serious crime committed from lower courts, and civil cases involving Common Law, Commercial Causes, Equity, etc.

Under powers vested by the Commonwealth under the *Matrimonial Causes Act 1959* and the *Bankruptcy Act 1924-1960* separate courts within the jurisdiction of the Supreme Courts of the various States and Territories deal exclusively with matrimonial cases and bankruptcy cases respectively.

2. *Habitual Offenders.*—An account of the methods adopted in each jurisdiction in connexion with habitual offenders is given in Year Book No. 49, pages 668-9.

3. *Capital Punishment.*—There were seven executions in Australia during the period 1955 to 1964. Three took place in South Australia (in 1956, 1958 and 1964), and four in Western Australia (one in 1960 and 1961, two in 1964). In each case the offence was murder.

Under " *The Criminal Code Amendment Act of 1922* " capital punishment was abolished in Queensland, and in New South Wales the Crimes Act was amended in 1955, abolishing capital punishment for all offences except treason and piracy with violence. In the Australian Capital Territory the *Child Welfare Ordinance 1957-1962* provides that no death sentence is to be pronounced or recorded against a person under the age of 18 years, and sub-section (2.) of section 389 of the Tasmanian *Criminal Code Act 1924* as amended contains a similar provision.

In the early days of the history of Australia the penalty of death was attached to a large number of offences, many of which would now be dealt with in a Magistrate's Court. The present tendency is to restrict death sentences to persons convicted of murder. Although rape is a capital offence in some States the penalty of death has not been imposed in recent years on persons convicted of it.

The average annual number of executions in Australia from 1861 to 1880 was 9; from 1881 to 1900, 6; from 1901 to 1910, 4; from 1911 to 1920, 2; from 1921 to 1930, 2; from 1931 to 1940, 1; from 1941 to 1950, 0.5; and from 1951 to 1960, 0.7.

4. **Proceedings at Higher (Judges') Courts.**—Proceedings at higher courts comprise criminal, civil, divorce and bankruptcy proceedings. Separate details of each are given in § 4, paragraph 2, § 5, § 7, and § 8, respectively.

§ 4. Serious Crime

NOTE.—In interpreting the statistics in this section the factors affecting comparability listed at the beginning of the chapter should be borne in mind. As a step towards obtaining uniform and informative statistics of the more serious crime in Australia as a whole, a conference of Police Commissioners in 1963 recommended that a statistical collection be introduced to provide information on the incidence of, and trend in, certain selected categories of reported crime and also some detail of the involvement of persons according to age and sex. The statistics would be derived from police records. Definitions and procedural arrangements were to be determined which could be applied uniformly in all States as far as possible. The police in all States have made arrangements for the compilation of these figures and it is intended that figures in this series will be published in future issues of the Year Book.

1. **Lower Courts.**—(i) *Convictions for Serious Crime at Magistrates' Courts.* The figures given in the tables on pp. 627-9 refer to all convictions, and include offences of a technical nature, drunkenness, and minor breaches of good order, which come under the heading of crime in a very different sense from the more serious offences. The following table has therefore been prepared to show convictions at Magistrates' Courts for the years 1959 to 1963 for what may be regarded as the more serious offences, i.e., offences against the person, offences against property, forgery and offences against the currency.

CONVICTIONS FOR SERIOUS CRIME^(a) AT MAGISTRATES' COURTS

State or Territory	1959	1960	1961	1962	1963
New South Wales	30,769	31,529	31,696	32,320	32,656
Victoria	12,260	15,646	15,949	19,016	21,540
Queensland ^{(b)(c)}	4,422	4,678	4,736	4,833	5,768
South Australia ^(b)	2,554	2,604	3,552	3,693	3,727
Western Australia	5,423	5,764	5,256	6,814	7,813
Tasmania	1,634	1,788	1,636	1,704	1,570
Northern Territory	297	243	285	419	591
Australian Capital Territory ..	384	331	573	286	492
Australia	57,743	62,583	63,683	69,085	74,157

(a) Offences against the person, offences against property, forgery and offences against the currency.
 (b) Year ended 30th June. (c) A person convicted on several counts at the one hearing is included only once.

The numbers of convictions for serious crime at Magistrates' Courts per 10,000 of population for the same series of years for Australia were:—1959, 57.6; 1960, 61.1; 1961, 60.8; 1962, 64.6; 1963, 68.1.

(ii) *Committals to Higher Courts.* The following table shows the number of offences, classified according to the nature of the offence, which were committed to higher courts for each State and Territory for the year 1963.

COMMITTALS TO HIGHER COURTS, 1963

Class of offence	N.S.W.	Vic.	Qld (a)(b)	S.A. (a)	W.A.	Tas.	N.T.	A.C.T.	Australia
Against the person ..	1,604	1,235	319	290	68	85	18	16	3,635
Against property ..	6,341	2,610	1,012	275	432	554	76	74	11,374
Forgery and offences against the currency ..	419	414	9	17	17	16	12	2	906
Against good order ..	147	198	4	4	6	10	1	..	370
Other	27	849	10	14	..	40	940
Total	8,538	5,306	1,354	600	523	705	107	92	17,225

(a) Year ended 30th June. (b) A person committed on several counts at the one hearing is included only once.

The following table shows the number of committals to higher courts for each of the years 1959 to 1963.

COMMITTALS TO HIGHER COURTS

State or Territory	1959	1960	1961	1962	1963
New South Wales	7,522	8,212	8,294	7,414	8,538
Victoria	4,523	5,274	4,598	5,468	5,306
Queensland(a)(b)	954	1,211	1,527	1,295	1,354
South Australia(a)	558	542	671	712	600
Western Australia	447	362	298	450	523
Tasmania	529	475	725	643	705
Northern Territory	93	26	86	92	107
Australian Capital Territory..	65	97	65	110	92
Australia	14,691	16,199	16,264	16,184	17,225

(a) Year ended 30th June. (b) A person committed on several counts at the one hearing is included only once.

2. Higher Courts.—(i) *Offences for which Persons were convicted at Higher Courts, 1963.* The following table shows the number of persons convicted at higher courts in each of the States and Territories of Australia during 1963, classified according to the nature of the offence.

PERSONS CONVICTED AT HIGHER COURTS, 1963

Offence	N.S.W.	Vic.	Old (a)(b)	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Against the person—									
Infanticide	1	1	2
Murder	15	6	5	2	4	32

Other offences against property	7	24	1	1	2	..	6	3	44
Total	2,217	820	948	378	244	237	72	38	4,954
Forgery and offences against the currency	37	59	9	30	5	8	3	2	153
Against good order	3	9	3	1	5	13	34
Other	25	431	18	75	..	6	555
Grand Total	2,907	1,946	1,187	745	300	293	92	51	7,521

(a) Year ended 30th June. (b) A person convicted on several counts at the one hearing is included only once, but if a person has been convicted at different hearings during the year, whether for the same or for a different type of offence, the results of all hearings are recorded separately. (c) Includes causing death by dangerous driving.

(ii) *Persons Convicted at Higher Courts, 1959 to 1963.* The number of persons convicted at higher courts for the years 1959 to 1963 are given in the following table.

PERSONS CONVICTED AT HIGHER COURTS

State or Territory	1959	1960	1961	1962	1963
New South Wales	2,325	2,635	2,712	2,513	2,907
Victoria	1,799	1,996	2,307	2,329	1,946
Queensland(a)(b)	915	1,020	1,279	1,175	1,187
South Australia	499	580	606	718	745
Western Australia	216	183	203	228	300
Tasmania	290	295	304	270	293
Northern Territory	69	29	87	74	92
Australian Capital Territory	40	62	54	57	51
Australia	6,153	6,800	7,552	7,364	7,521

(a) Year ended 30th June. (b) A person convicted on several counts at the one hearing is included only once.

The numbers of persons convicted at higher courts in Australia per 10,000 of population for the years 1959 to 1963 were:—1959, 6.1; 1960, 6.6; 1961, 7.0; 1962, 6.9; 1963, 6.9.

§ 5. Civil Cases

In interpreting the statistics in the two tables in this section it should be borne in mind that there are factors which affect comparability between States and between courts.

The total number of plaints entered and amounts awarded plaintiffs in the lower courts, during 1963, are shown in the following table.

CIVIL CASES AT LOWER COURTS, 1963

Particulars	N.S.W.	Vic.	Qld (a)	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aus- tralia
Plaints entered No.	184,938	194,502	47,772	97,038	54,916	40,574	2,872	8,737	631,349
Amount awarded to plaintiffs £	2,919,886	3,699,899	1,645,176	2,041,932	1,091,112	287,057	40,321	148,576	11,873,959

(a) Year ended 30th June.

The following table shows the civil judgments (excluding those for divorce and bankruptcy) in the higher courts during 1963. The particulars given below include the number and amount of judgments entered by default or confession or agreement.

CIVIL CASES AT HIGHER COURTS, 1963

Particulars	N.S.W.	Vic.	Qld (a)	S.A.	W.A. (b)	Tas.	N.T.	A.C.T.	Aus- tralia
Judgments No.	48,201	24,841	542	274	509	n.a.	n.a.	232	n.a.
Amount awarded £	n.a.	9,606,669	1,853,395	798,300	741,669	n.a.	n.a.	245,373	n.a.

(a) Year ended 30th June.

(b) Judgments signed and entered.

§ 6. Transactions of the High Court

The following table shows the transactions of the High Court for 1963 and 1964.

TRANSACTIONS OF THE HIGH COURT OF AUSTRALIA

Original jurisdiction(a)	1963		1964		Appellate jurisdiction		
	1963	1964	1963	1964	1963	1964	
Number of writs issued ..	84	108			Number of appeals set down for hearing ..	118	107
Number of cases entered for trial ..	42	51			Number allowed ..	33	31
Judgments for plaintiffs ..	18	7			Number dismissed ..	62	88
Judgments for defendants	4	15			Otherwise disposed of ..	23	16
Otherwise disposed of ..	15	36					
Amount of judgments ..	£125,823	£29,622					

(a) Some matters dealt with by the High Court neither originate as writs nor are entered as cases.

During 1963 and 1964, respectively, the High Court dealt also with the following:— appeals from assessments under the Taxation Assessment Act, 22, 52; special cases stated for the opinion of the Full Court, 13, 22; applications for prohibition, etc., 31, 14; The fees collected amounted to £3,289 in 1963, and £4,654 in 1964.

§ 7. Divorce and Other Matrimonial Relief

1. **Separation and Maintenance Orders of Courts of Summary Jurisdiction.**—In all States and Territories there are laws enabling a wife whose husband leaves her or the children of the marriage without adequate means of support to obtain a maintenance order against the husband from a court of summary jurisdiction. In some States and in the Northern Territory courts of summary jurisdiction also have power to make separation orders. A separation order is intended primarily for the protection of the person of the wife.

2. **Divorce and Other Matrimonial Relief Granted by Higher Courts.**—A marriage may be terminated by a Supreme Court of a State or Territory in one of three ways. Firstly, there may be a dissolution of the marriage, commonly known as divorce; secondly, the courts may annul a marriage; and thirdly, there can be a judicial separation of the parties.

Until recently each State was primarily responsible for the provision of matrimonial relief. The law varied from State to State; for example, as to the period of desertion needed to obtain a decree for the dissolution of marriage.

In 1959, however, the Commonwealth Parliament passed the *Matrimonial Causes Act 1959* which came into force on 1st February, 1961. The Act establishes uniform grounds throughout the whole of the Commonwealth for the termination of marriage. While the Act displaces corresponding State law, it vests jurisdiction in existing State and Territorial Courts.

3. **Matrimonial Causes Act 1959.**—Under this Act a decree for the dissolution of marriage may be granted on one or more of fourteen grounds, which include adultery, desertion, separation for five years in certain circumstances, cruelty, drunkenness, and failure to comply with a restitution decree.

Proceedings for nullity of marriage may be instituted in respect of a marriage which is void or voidable. A marriage which is void has no existence at all, and so it is not legally necessary to obtain a decree of nullity of marriage, but since the issue may depend on difficult questions of fact, such as proof that the consent of one of the parties to the marriage was not a real consent, it is advisable and customary to seek a court judgment which decides the question of the validity of the marriage.

Proceedings for annulling a voidable marriage may be instituted on various grounds, as, for example, where at the time of the marriage either party was a mental defective. A voidable marriage is void from the date of the decree absolute, but until then the parties have the status of married people, and transactions concluded on the basis of the existence of that status cannot be undone or re-opened. Since the parties to a marriage which is void or which has been voided do not have the status of married people, they may remarry.

The death of either husband or wife terminates any proceedings for matrimonial relief. A decree for dissolution or annulment of a voidable marriage is first a decree *nisi*. The decree automatically becomes absolute at the expiration of three months, unless it is in the meantime rescinded, appeal proceedings are instituted, or there are children of the marriage under the age of 16, in which case the Court must be satisfied that appropriate arrangements have been made for their welfare before the decree will become absolute. The parties cannot remarry until a decree *nisi* has become absolute.

A decree of judicial separation is available on most of the grounds available for divorce. It leaves unimpaired the status of marriage, but suspends rights and duties with respect to cohabitation. A husband is not responsible for the acts of his wife, except that he is liable for necessities supplied to her if he has failed to pay alimony ordered by a court. Persons who have judicially separated cannot remarry, but a divorce may be obtained on the same facts as those on which the decree of judicial separation was based.

The new Commonwealth Act provides for financial grants to approved marriage guidance organizations, and the courts are enjoined to consider at all times the possibility of reconciliation and they may take certain steps to endeavour to effect a reconciliation.

In the following tables the term "divorce" is used to cover dissolution of marriage, nullity of marriage and judicial separation.

4. **Number of Petitions Filed.**—The following table shows the number of petitions for dissolution of marriage, nullity of marriage and judicial separation filed in each State during 1964.

PETITIONS FILED FOR DISSOLUTION OF MARRIAGE, NULLITY OF MARRIAGE AND JUDICIAL SEPARATION, 1964

<i>Australia</i>	<i>13</i>	<i>2</i>	<i>5</i>	<i>7</i>	<i>6</i>

TOTAL DIVORCES GRANTED					
Grand Total, Australia	6,709	6,750	7,290	7,513	7,967

(a) Decrees absolute.

(b) Final decrees.

7. Average Number of Divorces granted Annually.—The ten-year averages of the numbers of divorces (i.e., dissolutions, nullities and judicial separations) granted annually in Australia for the 80 years from 1881 to 1960 are as follows.

DIVORCES: AUSTRALIA

Decade	1881-90	1891-1900	1901-10	1911-20	1921-30	1931-40	1941-50	1951-60
Average	70	357	399	741	1,692	2,508	6,187	6,973

8. Grounds on which Divorces were Granted.—The grounds on which dissolutions of marriage, nullities of marriage and judicial separations were granted in each State and Territory during 1964 are shown in the following table. Some of the decrees granted during 1964 were for petitions lodged under the former, superseded legislation.

GROUND OF DISSOLUTION OF MARRIAGE, NULLITY OF MARRIAGE AND JUDICIAL SEPARATION, 1964

Ground	N.S.W.	Vic.	Q'land	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.

11. Duration of Marriages Dissolved and Number of Children.—A table showing the number of dissolutions of marriage granted in 1964, classified according to the legal duration of the marriage (i.e., the period from the date of marriage to the date when the decree nisi was made absolute) and number of children, appears in the Appendix to this Year Book. Corresponding information for the year 1963 appeared on page 659 of Year Book No. 50.

12. Ages of Children of Dissolved Marriages.—The following table shows the ages of children of marriages dissolved in 1964. The children referred to are those under 21 years of age at the time of petition.

CHILDREN OF DISSOLVED MARRIAGES(a), BY AGE AT TIME OF PETITION: AUSTRALIA, 1964

(a) This table refers to children, under 21 years at time of petition, of marriages for which decrees absolute for dissolution have been granted in 1964.

13. Number of Divorced Persons at each Census, 1911 to 1961.—The following table shows the number and proportion of divorced persons in Australia as recorded from returns supplied at each census from 1911 to 1961. A classification of divorced persons by age, for the censuses from 1891 to 1947, appeared in earlier issues of the Year Book (see No. 39, p. 269). Prior to 1911 no record was made of divorced persons in South Australia, so comparisons cannot be made beyond that date.

§ 8. Bankruptcy

1. *General.*—Particulars of bankruptcy in each State to the end of 1927 were incorporated in issues of the Year Book prior to No. 23. On 1st August, 1928, the Bankruptcy Act of the Commonwealth, which is now the *Bankruptcy Act* 1924–1960, came into operation.

Under the *Bankruptcy Act* 1924–1960 the Commonwealth is divided into bankruptcy districts which coincide generally with State boundaries. A Federal Court of Bankruptcy has been established with jurisdiction throughout Australia, but it exercises this jurisdiction mainly in the bankruptcy districts of New South Wales, which includes the Australian Capital Territory, and Victoria. Certain State courts have been invested with federal jurisdiction in bankruptcy and, outside New South Wales and Victoria, usually exercise that jurisdiction in the appropriate bankruptcy district.

Any person unable to pay his debts may apply voluntarily for the sequestration of his estate, or his creditors may apply for a compulsory sequestration, if he has committed an act of bankruptcy. The act of bankruptcy usually relied on is non-compliance by a debtor with a bankruptcy notice which requires the debtor to whom it is addressed to pay within a specified time, to a creditor who has obtained a final judgment or order to pay, the amount of the debt, or satisfy the Court that he has a counter claim, set-off, or cross demand which equals or exceeds the judgment debt. If a bankruptcy notice is not complied with a creditor may thereupon present a petition against a debtor, provided that the debt or debts amount to £50, the act of bankruptcy relied on has occurred within the six months preceding the presentation of the petition, and the statutory requirements relating to domicile or residence are applicable to the debtor.

Upon the issue of a sequestration order the property of the bankrupt vests in the official receiver named in the order, and his property is divisible among his creditors in accordance with the provisions of the Act. No creditor to whom the bankrupt is indebted in respect of any debt provable in bankruptcy has any remedy against the property or person of the bankrupt except by leave of the court.

Under Part XI. of the Act, instead of having a sequestration order made against his estate, a debtor may compound with his creditors or assign his estate for their benefit. Under Part XII of the Act, a debtor may enter into a scheme of arrangement. The object of Parts XI and XII of the Act is to allow a debtor and his creditors to enter into an agreement concerning the debts due to the creditors without having a sequestration order made against the debtor.

The Court has power to decide questions of law affecting a bankrupt estate. Questions of fact may be tried before a jury.

The Act provides for an Inspector-General in Bankruptcy. It also provides for a Registrar and an Official Receiver to be appointed for each bankruptcy district.

A Registrar in Bankruptcy is controlled by the Court and has such duties as the Attorney-General of the Commonwealth directs, or as are prescribed, and exercises such functions of an administrative nature as are authorized by the Court. He may examine a bankrupt or a person indebted to a bankrupt or having in his possession any of the estate or effects of a bankrupt. Stipendiary magistrates are appointed Deputy Registrars in country districts.

All sequestrated estates are vested in an Official Receiver, who is a permanent officer of the Commonwealth Public Service. His duties are to investigate the conduct, property and transactions of the debtor, and the cause of bankruptcy of a debtor, and to realize and administer the estate of the debtor. In respect of these activities, the Official Receiver is under the control of the Court.

Persons registered by the Court as qualified to act as trustees may be appointed by resolution of the creditors to be trustees of estates. In cases where a registered trustee under a deed of arrangement, composition, or assignment (Parts XI and XII of the Act) is removed from or vacates his office, the official receiver may be appointed by the Court to complete the administration of the estate, or the Court may direct the official receiver to convene a meeting of the creditors in the estate to enable them to appoint a registered trustee to complete the administration of the estate.

2. **Bankruptcy Proceedings.**—The following table shows the number of bankruptcies of the various types in each State, together with the assets and liabilities of the debtors, during the twelve months ended 30th June, 1964.

BANKRUPTCY PROCEEDINGS, 1963-64

(a) Includes the Australian Capital Territory.

§ 9. Police

1. **General.**—The primary duties of the police are to prevent crime, to detect and detain offenders, to protect life and property, to enforce the law, and to maintain peace and good order. In addition, they perform many duties in the service of the State, e.g., they act as clerks of petty sessions in small centres, as crown land bailiffs, foresters, mining wardens and inspectors under the fisheries and various other Acts. In metropolitan and large country areas, they also regulate the street traffic. With the exception of the Commonwealth Police Force (*see* next page) and the police in the Northern Territory and the Australian Capital Territory, the police forces of Australia are under the control of the State Governments, but their members perform certain functions for the Commonwealth Government, such as acting as aliens registration officers and policing various acts and regulations.

Women police perform special duties at places where young women and girls are subject to moral danger, control traffic at school crossings, and lecture school children on road safety. They also assist male police as required in the performance of normal police duties.

The strength of the police force in each State and Territory and the number of persons to each police officer are shown in the following table for the years 1960 to 1964. The figures include traffic and water police, probationers, cadets, special constables and women police, but exclude parking police, native trackers (Aboriginals employed in outlying districts in tracking lost persons and persons wanted by the police), female searchers, wardresses and interpreters.

STRENGTH OF POLICE FORCES

30th June—	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Australia

1962	5	1	16	(c)	4	..	34	..	60
1963	5	1	14	(c)	4	..	30	..	54
1964	4	1	14	32	..	51

(a) Included in total strength shown above.

(b) Not included in total strength shown above.

(c) One native tracker, who was paid a small weekly retainer and was supplied with rations, was continually on call.

2. The Commonwealth Police Force.—The Commonwealth Police Force commenced operations on 21st April, 1960, and is the principal agency for the enforcement of the laws passed by the Commonwealth Parliament. It is also responsible for the protection of Commonwealth property and interests at various buildings and establishments under the control of the Commonwealth. This force co-ordinates the work of other Commonwealth investigation and law enforcement agencies and acts on behalf of the United Nations Organization for the suppressing of traffic in women and the suppression of obscene literature.

Under the control of the force is the Australian Police College at Manly, N.S.W., which provides training for officers of various police forces and other agencies in Australia and New Zealand.

The force has its Head Office in Canberra and District Offices in each Capital City. The strength of the force at 31st December, 1964, was 621 policemen and 3 policewomen. Twenty-six guard dogs were available for use by the force and by State police forces as required.

§ 10. Prisons

1. Prisons and Prison Accommodation.—The table below shows the number of prisons in each State and the Northern Territory and the accommodation therein at 30th June, 1963.

PRISONS AND PRISON ACCOMMODATION, 1963

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	Australia
Prisons	18	12	7	14	19	1	2	73
Accommodation ..	3,100	2,281	969	1,018	1,026	404	91	8,889

There is no gaol in the Australian Capital Territory, but there is a lock-up attached to the police station at Canberra and another lock-up at Jervis Bay where offenders are held while awaiting trial or serving short sentences not exceeding one week imposed by a Magistrate's Court. Long-term prisoners from the Australian Capital Territory normally serve their sentences in New South Wales prisons.

2. Convicted Prisoners.—The number of convicted prisoners at 30th June of each of the years 1959 to 1963 and the proportion per 10,000 of the population are shown in the following table.

CONVICTED PRISONERS

30th June—	N.S.W. (a)	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T. (b)	Australia

§ 11. Patents, Trade Marks and Designs

1. **Patents.**—Patents for inventions are granted under the *Patents Act 1952–1962*, which applies to the Commonwealth of Australia and the Territories of Norfolk Island, Papua and New Guinea. The Act is administered by a Commissioner of Patents. The principal fees payable up to and including the grant of a patent amount to £19 10s. Renewal fees are payable as follows:—£5 before the expiration of the fourth year, and an amount progressively increasing by £1 before the expiration of each succeeding year up to the final fee of £16, payable before the expiration of the fifteenth year. An extension of time for six months for payment of a renewal fee may be obtained.

The number of separate inventions in respect of which applications were filed and the number of letters patent sealed during the years 1960 to 1964 are shown in the following table.

PATENTS: AUSTRALIA

Particulars	1960	1961	1962	1963	1964
Applications	11,828	12,901	13,026	13,051	14,134
Applications accompanied by provisional specifications ..	3,772	3,919	3,710	3,557	3,603
Letters patent sealed ..	4,857	4,940	3,866	5,361	5,456

2. **Trade Marks and Designs.**—Under the *Trade Marks Act 1955–1958* the Commissioner of Patents is also Registrar of Trade Marks. Provision is made for the registration of users of trade marks and for their assignment with or without the goodwill of the business concerned. A new classification of goods was adopted in 1958, and trade marks registered under repealed Acts are reclassified on renewal.

Under the *Designs Act 1906–1950*, the Commissioner of Patents is also Registrar of Designs.

The following table shows the applications for trade marks and designs received and registered during the years 1960 to 1964.

TRADE MARKS AND DESIGNS: AUSTRALIA

Particulars	1960	1961	1962	1963	1964
Trade marks—					
Received	6,083	6,209	5,920	6,411	6,280
Registered	3,203	4,592	3,558	4,224	3,606
Designs—					
Received	1,283	1,413	1,392	1,425	1,572
Registered	1,507	1,522	1,064	1,251	1,287

§ 12. Copyright

1. **Legislation.**—Copyright is regulated by the *Commonwealth Copyright Act 1912–1950* wherein, subject to modifications relating to procedure and remedies, the British Copyright Act of 1911 has been adopted and scheduled to the Australian law. The Act is administered by the Commissioner of Patents.

Reciprocal protection of unpublished works was extended in 1918 to citizens of Australia and of the United States of America, under which copyright may be secured in the latter country by registration at the Library of Congress, Washington. The Commonwealth Government promulgated a further Order-in-Council which came into operation on 1st February, 1923, and extended the provisions of the Copyright Act to the foreign countries of the Copyright Union, subject to the observance of the conditions contained therein.

2. **Applications and Registrations.**—The following table shows under the various headings the number of applications for copyright lodged and registered for the years 1960 to 1964.

COPYRIGHT: AUSTRALIA

Particulars	1960	1961	1962	1963	1964

§ 13. Cost of Administration of Law and Order

1. **Expenditure by the States.**—The tables below show the net expenditure (i.e., gross expenditure less receipts from fees, fines, recoups for services rendered, etc.) from Consolidated Revenue during 1963-64 in connexion with the administration of justice, police and prisons in each State.

Because of differing legislative and administrative arrangements in the various States, the activities covered by the figures shown are not exactly the same in each State. Small differences also result from differing accounting practices. However, the figures shown for individual States are comparable from year to year.

NET EXPENDITURE ON LAW AND ORDER, 1963-64

State	Net expenditure			Per head of population		
	Justice	Police	Prisons	Justice	Police	Prisons
	£	£	£	<i>s. d.</i>	<i>s. d.</i>	<i>s. d.</i>
New South Wales	1,645,998	10,139,347	1,630,101	8 1	49 8	8 0
Victoria	760,259	8,559,829	1,146,686	4 11	55 5	7 5
Queensland	306,965	5,123,752	556,582	3 10	65 1	7 1
South Australia(a)	-409,132	2,963,166	487,207	-8 1	58 1	9 7
Western Australia	218,914	2,141,201	345,218	5 7	54 9	8 10
Tasmania	264,405	1,097,975	251,905	14 4	60 0	13 9
Total	2,787,409	30,025,270	4,417,699	5 1	55 0	8 1

(a) Receipts for legal fees and registrations exceed the expenditure under "Justice".

2. Commonwealth Expenditure.—(i) *Attorney-General's Department.* The expenditure shown in the previous table is that incurred by the State Governments. Since the functions of the Commonwealth Government in the administration of law and order differ considerably from those of the States, precise comparison between Commonwealth and State expenditure in this field is not possible. The following table, however, shows the gross expenditure by the Commonwealth Attorney-General's Department during the year 1963-64 on the main services it performs.

**EXPENDITURE BY THE COMMONWEALTH ATTORNEY-GENERAL'S
DEPARTMENT, 1963-64**
(£)

Particulars	Gross expenditure
Administration	469,041
Australian Police College	31,297
Bankruptcy	281,445
Commonwealth Police Force	425,922
Conciliation and arbitration	290,302
Crown Solicitor's Office	571,835
High Court	109,474
Judges' salaries and pensions	215,026
Legal Service Bureau	66,880
Matrimonial causes—grants to organizations	61,150
Patents, trade marks and designs	664,546
Rent	92,393
Repairs and maintenance	27,035
Court Reporting Branch	222,976
Territory courts	170,689
Total	3,700,011

In addition, £264,405 was spent by the Attorney-General's Department on capital works and services.

The items of expenditure shown in the table above are gross. Receipts of the Attorney-General's Department for 1963-64 aggregated £1,108,510, of which revenue on account of Patents, Trade Marks and Designs, and Copyright amounted to £640,414, Bankruptcy £202,418, Court Reporting Branch £157,645, Fees, Fines and Costs of Court £66,051, and Miscellaneous £41,982.

Expenditure and receipts of the Attorney-General's Department for the five years 1959-60 to 1963-64 are shown in the following table.

**EXPENDITURE BY THE COMMONWEALTH ATTORNEY-GENERAL'S
DEPARTMENT**
(£)

Year	Gross expenditure	Receipts	Net expenditure
1959-60	2,534,609	670,048	1,864,561
1960-61	2,699,095	812,493	1,886,602
1961-62	2,913,966	946,934	1,967,032
1962-63	3,249,249	1,039,207	2,210,042
1963-64	3,700,011	1,108,510	2,591,501

(ii) *Police and Prisons.* Expenditure (other than capital) by the Commonwealth Government on police in the Australian Capital Territory (excluding the Commonwealth Police Force shown above) and police and prisons in the Northern Territory for the five years 1959-60 to 1963-64 is shown in the following table.

**EXPENDITURE ON POLICE AND PRISONS IN THE NORTHERN TERRITORY
AND THE AUSTRALIAN CAPITAL TERRITORY**
(£)

Year					Northern Territory	Australian Capital Territory ^(a)
1959-60	262,261	168,952
1960-61	322,763	197,275
1961-62	335,485	215,921
1962-63	394,984	263,148
1963-64	451,488	304,973

(a) Expenditure on police only. There is no prison in the Australian Capital Territory.

CHAPTER XVIII

PUBLIC HEALTH

STATE GOVERNMENT ACTIVITIES

(Including activities of the Commonwealth Government in the Northern Territory and the Australian Capital Territory)

§ 1. Public Health Legislation and Administration

1. **New South Wales.**—The New South Wales Ministry of Health, which is under the control of the Minister for Health, embraces the Department of Public Health, the Hospitals Commission, and a variety of boards, committees, and other authorities concerned with health, hospitals, and associated services.

The State Department of Public Health includes divisions of maternal and baby welfare, tuberculosis, occupational health, epidemiology, dental services, and school medical services, and maintains laboratories which provide diagnostic and analytical services for governmental authorities and private bodies. The Department also controls the State hospitals and homes and the State mental hospitals, supervises the operations of private hospitals and rest homes, conducts the anti-poliomyelitis campaign in New South Wales, administers the Pure Food Act and laws relating to sanitation, and supervises the work of local government authorities relating to public health matters. The principal officers of the Department are the Under-Secretary (who is permanent head for administrative purposes), the Director-General of Public Health (who is *ex officio* President of the Board of Health and chief medical adviser to the State Government), and the Director-General of Psychiatric Services (who is concerned with mental hospitals). Many of the Department's functions are administered by Medical Officers of Health in the eight health districts into which the State is divided.

The Hospitals Commission of New South Wales supervises the public hospital services and determines the amount of State Government subsidy to be paid to each public hospital.

Other authorities concerned with health, hospital and associated services in New South Wales include the Master in the Protective Jurisdiction of the Supreme Court (who controls and administers the estates of patients in mental hospitals), the Ambulance Transport Service Board (which supervises district ambulance services throughout the State), boards established for the registration of practitioners in certain professions (chiropractic, dental, medical, nursing, optometry, pharmacy, and physiotherapy), the State Cancer Council (for cancer education and research), and various boards and committees (e.g. the Board of Health, the Poisons Advisory Committee, and the Air Pollution Advisory Committee).

2. **Victoria.**—(i) *General.* The Ministry of Health combines under the control of one Minister all the health, hospital and associated services either administered directly or supported financially by the Government. The central administration of the Department of Health assists the Minister with the task of co-ordinating the work of a variety of associated bodies as well as carrying out the functions of a headquarters of a Department consisting of four branches—the General Health Branch, the Maternal and Child Welfare Branch, the Tuberculosis Branch and the Mental Hygiene Branch. The functions of these branches are described below.

(ii) *The General Health Branch.* This branch, which, *inter alia*, is the administrative branch for the Commission of Public Health, protects or promotes the health of the community in the following ways.

The Engineering Division scrutinizes from a public health point of view the plans of all public buildings and provincial sewerage installations and makes periodical inspections. Other activities include prevention of air pollution from industrial sources, prevention of stream pollution, and supervision of abattoirs and cattle sale yards.

The Poliomyelitis Division provides a comprehensive orthopaedic, physiotherapy, and respirator service for all eligible patients and carries out rehabilitation in conjunction with the Commonwealth Government. Facilities developed for poliomyelitis are now being used for other neurological disorders. The Division is also concerned with the Salk immunization campaign being undertaken in Victoria. Through the municipalities, immunization against poliomyelitis, diphtheria, smallpox, whooping cough, and tetanus is encouraged and supervised.

Prevention and control of infectious diseases are functions of this Branch, which also sponsors original research into virus diseases and epidemiological investigations throughout Victoria.

The Venereal Diseases Division provides a centrally situated headquarters where the use of modern remedies is effecting a general improvement in the standard of treatment.

Standards of quality and purity of foods and drugs are fixed by the Food Standards Committee and are administered and enforced by both departmental and municipal health inspectors.

Investigations into occupational hazards to the health of workers, the treatment and incidence of occupational diseases, and research into the effects of toxic substances used in industry are conducted by the Industrial Hygiene Division.

The Poisons Control Division is responsible for administering the law relating to poisons and deleterious substances. Legislation provides for extensive control, particularly at the wholesale (manufacturing and import) level. Control is exercised by a system of licences and permits.

Subsidies are granted to municipalities to provide meals for pensioners, to clubs for elderly citizens, and to emergency housekeeper services.

Other services operated by the Branch are:—registering plumbers and gasfitters; providing free travel to hospital for people with limited incomes; analysing food, drink, water and sewerage effluents; registering cinematograph operators; administering the Cemeteries Acts; and advising industry on health hazards associated with handling radio-active substances.

(iii) *The Maternal and Child Welfare Branch.* This branch is concerned with pre-natal hygiene, infant welfare, the development of pre-school services, and the school medical and dental services.

(iv) *The Tuberculosis Branch.* The Tuberculosis Branch is concerned with the prevention of tuberculosis and the treatment and rehabilitation of tubercular patients. It controls the compulsory chest X-ray programme introduced in October 1963.

(v) *The Mental Hygiene Branch.* This Branch is controlled by the Mental Health Authority, appointed in 1951, and consists of institutions for in-patient care, out-patients' clinics and other services necessary for a comprehensive community mental health programme.

3. Queensland.—(i) *General.* “*The Health Acts 1937 to 1964*” are administered by the Director-General of Health and Medical Services subject to the Minister for Health. A central staff controls the following divisions.

(ii) *Division of Public Health Supervision.* This Division is controlled by the Deputy Director-General of Health and Medical Services, and comprises separate sections for communicable disease control, environmental sanitation, food and drug control, enthetic (venereal) diseases, hookworm control and Hansen's disease (leprosy) control. Free treatment of venereal diseases is offered at the Department's clinics in Brisbane and at any public hospital. Free immunization against poliomyelitis, diphtheria, whooping cough, tetanus, and smallpox is offered by most of the local authorities and the majority of school children are immunized against diphtheria, whooping cough, tetanus and poliomyelitis.

(iii) *Division of Tuberculosis.* A central chest clinic in Brisbane offers skin tests, X-ray examinations and B.C.G. vaccination of skin negative reactors free of charge. Similar clinics are situated at the Cairns, Rockhampton, Thursday Island, Toowoomba, and Townsville district hospitals. Children in the final grade of primary schools are skin tested and given B.C.G. vaccine. The division controls the compulsory X-ray examination of all persons over the age of 14 years. A survey of residents of the metropolitan area is two thirds completed, and a second survey of country areas has covered the State north of Mackay.

(iv) *Division of Industrial Medicine.* The services of this Division are available both to industry and to the trade union movement for the prevention of industrial hazards. The Division is particularly interested in occupational diseases, such as silicosis and lead and other poisoning, and advises on industrial problems such as lighting, ventilation, fatigue, hearing loss and the use of radio-active isotopes.

(v) *Division of Maternal and Child Welfare.* This Division offers supervision and advice on the rearing and health of infants and pre-school children at 265 infant welfare centres throughout the State. Outlying centres are visited by air or by special rail car. Homes for in-patient treatment of infants with feeding problems have been established at Brisbane, Toowoomba, Ipswich and Rockhampton.

(vi) *Division of School Health Services.* This Division comprises the Chief Medical Officer, School Health Services, and a staff of doctors, dentists and visiting school nurses. The dental officers inspect school children and carry out essential treatment at schools or in the rail dental clinics. Medical examinations are made every one to two years.

(vii) *Division of Mental Health.* The Director of Psychiatric Services is associated with a planned integration of services. Mentally ill persons requiring special care are admitted to the State's four special hospitals at Brisbane, Toowoomba, Ipswich and Charters Towers. In the metropolitan area of Brisbane out-patient, day hospital and in-patient care are provided by general hospitals and a community-based Psychiatric Clinic. The Brisbane General, Chermiside, and Princess Alexandra Hospitals all provide psychiatric services. Regional development of services is based on general hospital services at Townsville, Rockhampton, Toowoomba and Ipswich. Special care for epileptics is provided at a home in Toowoomba.

(viii) *Division of Welfare and Guidance.* Clinics for the diagnosis and management of emotional and behaviour disorders in children have been set up in the Greater Brisbane Area, and further clinics are planned for Townsville and Toowoomba. A part-time clinic functions in Toowoomba at present. These services are extensively used. The Wilson Youth Hospital has been opened for the social and psychiatric rehabilitation of boys convicted in the Children's Court. About 40 boys can be accommodated. There is an Out-patient Section which girls can attend also.

A Child Guidance Unit for out-patients, day-hospital patients and 30 in-patients is to be constructed in the grounds of the Brisbane Children's Hospital. A similar unit is at present being planned for Townsville.

(ix) *Division of Social Work.* It is the policy of the Department to establish social work services, where possible, in all relevant aspects of the health, medical and hospital services. Through these services, patients in hospitals, and sick, elderly and disabled persons in the community may receive assistance with their personal and social problems. Social work departments have been established in the major hospitals in Brisbane and in four country hospitals, and social workers have been appointed to work in health, psychiatric and child welfare and guidance services. Development of this work is co-ordinated through the Division of Social Work and the Senior Social Worker provides official liaison with other State Government Departments as services relating to social work and family welfare are established.

(x) *Division of Geriatrics.* A geriatric unit is established at Princess Alexandra Hospital. The unit consists of two wards with accommodation for 102 in-patients, administration section, day hospital, physio-therapy and occupational therapy departments.

(xi) *Division of Laboratory Services.* Two laboratories—the Laboratory of Microbiology and Pathology and the Government Chemical Laboratory—are maintained to ensure the purity of a wide range of foodstuffs and materials. The former also offers a service in clinical pathology to institutions, country hospitals and private doctors, and provides a medico-legal service for the whole State. The Institute of Forensic Pathology is controlled by the medical staff of the Laboratory of Microbiology and Pathology, and coroners' autopsies are conducted there.

(xii) *Hospitals.* All public hospitals operate under the district system, which provides for the constitution of hospitals regions and hospitals districts, and a hospitals board for each district. The State is divided into 12 hospitals regions with a base hospital for each region. Each region comprises a number of hospitals districts, the purpose of the regional scheme being to co-ordinate the public hospitals in the region with the base hospital. The administration of the hospital services, including public dental services, in each hospitals district is vested in the hospitals board, which comprises not less than four nor more than eight members appointed by the Governor-in-Council, and one member elected by the component local authorities. During the year 1962-63 there were 60 hospitals boards controlling 133 public hospitals, 9 of which treated out-patients only. In addition, 24 other hospitals, six of which are treated as public hospitals, received aid from the Government, and an institution for the treatment of Hansen's disease in Aborigines was maintained at Fantome Island near Townsville. Other persons suffering from this disease are treated at an annexe of the Princess Alexandra Hospital, South Brisbane.

4. **South Australia.**—The Department of Public Health embraces the activities of the Central Board of Health, the Food Drugs Advisory Committee, the Advisory Council on Health and Medical Services, the Radiological Advisory Committee, the School Health Services (comprising School Medical and Dental Services and the Deafness Guidance Clinic), Poliomyelitis Services, and the public health aspects of the control of tuberculosis, including the State X-ray Health Survey and the Chest Clinic.

The Central Board of Health consists of five members, three of whom (including the chairman) are appointed by the Governor, while one is elected by metropolitan local boards and one by all other local boards. The Central Board of Health administers the Health Act, 1935–1963, Food and Drugs Act, 1908–1962, Dangerous Drugs Act, 1934–1955, Noxious Trades Act, 1943–1955, Bakehouses Registrations Act, 1945–1947 and Notification of Birth Act, 1926–1936. The Board is also concerned to some degree with Acts relating to local government, abattoirs and cremation. Other legislation administered by the Department of Public Health relates to venereal diseases and vaccination.

The Health Act, 1935–1963 constitutes every municipal council and every district council a local board of health for its municipality or district. There are 143 local boards under the general control and supervision of the Central Board. Under the Food and Drugs Act each local board is constituted the local authority for its district except in the metropolitan area, for which the Metropolitan County Board is the local authority.

5. **Western Australia.**—Health services are provided under the *Health Act, 1911–1964*. The central authority is the Department of Public Health, controlled by a Commissioner, who must be a qualified medical practitioner. The State is divided into local government areas, each administered by a municipal council. All local government authorities have health administration powers.

In any emergency, the Commissioner may exercise all the powers of a health authority in any part of the State.

Features of legislation since 1957 are as follows:—(a) Act No. 30 of 1958 provides for the establishment of the Health Education Council with the object of promoting and improving the health of the people of Western Australia; (b) Act No. 43 of 1958 provides for the establishment of the Cancer Council of Western Australia with the object of co-ordinating, promoting and subsidizing cancer research; (c) Act No. 23 of 1960 established a Maternal Mortality Committee to investigate each maternal death and to recommend preventive measures; and (d) Act No. 33 of 1962 empowers medical practitioners to give blood transfusions to minors despite parental objections, where life is endangered.

6. **Tasmania.**—The Department of Health Services is under the jurisdiction of the Minister for Health. The Department consists of a Headquarters and three Divisions. The Director-General of Health Services is the permanent head of the Department and he administers the Department through a Director of each of the three divisions (Division of Public Health, Division of Psychiatric Services and Division of Tuberculosis) and through several other clinical directors and other senior officers attached to the headquarters of the Department, including the Directors of Orthopaedics, Pathology and Anaesthetics, and the Government Analyst and Chemist.

In addition to his responsibility for the functioning of the Department as a whole, the Director-General of Health Services administers directly the various branches of the work performed by headquarters. They are concerned particularly with the following:— (a) the administration of the hospital services throughout the State, (b) the District Medical Service, (c) the Hospital and Government Nursing Service, which includes the administration of 24 district nursing centres throughout the State, (d) legislation concerned with health and allied matters, the Nurses' Registration Board and the Dental Mechanics' Registration Board, (e) the National Fitness Council and Handicapped Children's Advisory Council, (f) specialist medical services, (g) statistical classification of diseases and injuries, (h) liaison with other States and the Commonwealth Health Department; and (i) all matters dealing with the maintenance of departmental property and the appointments and salaries of departmental staff.

The Division of Public Health is responsible for the oversight of those services (except those specifically related to tuberculosis) which aim at the attainment and maintenance of good physical health in the community. It controls the school health services (both medical and dental) and the child health service. It supervises the immunization campaigns conducted by local health authorities and is responsible for custody of poliomyelitis vaccine and maintenance of records of its use. The Division also sets standards of food quality and of

environmental sanitation, which are policed in detail by local health authorities. The Division administers laws relating to standards of food, drugs and food premises, and to environmental sanitation, public buildings, infectious disease (other than tuberculosis) and cremation.

The Division of Psychiatric Services provides a community psychiatric service. This includes a mental hospital and a neurosis hospital; institutional care for mental defectives, alcoholics and sexual offenders; and a community psychiatric service on a regional basis covering the whole State. In addition, the Division administers the *Mental Hospitals Act* 1885 as amended (to 1960) and the *Mental Deficiency Act* 1920 as amended (to 1956), and provides a State-wide service for the supervision of mental defectives in the community.

The Tuberculosis Division is concerned with the prevention (including B.C.G. vaccination), detection, notification, examination and treatment of all forms of tuberculosis, and the maintenance of chest hospitals and diagnostic clinics.

7. Northern Territory.—The Commonwealth Department of Health provides health services in the Northern Territory which include hospital, medical and dental services.

Four general hospitals have been established and at 31st December, 1964, the available accommodation for in-patients was as follows:—Darwin Hospital, 309; Alice Springs Hospital, 153; Katherine Hospital, 41 and Tennant Creek Hospital, 35. The treatment of Hansen's disease (leprosy) is carried out at East Arm Settlement. A full range of ancillary services is available at the Darwin hospital, which serves as a base hospital for the Territory. Dental clinics have been set up at Darwin and Alice Springs.

Medical and dental services to outback areas are provided by road and air. The Department of Health has two De Havilland Dove aircraft stationed at Darwin and one at Alice Springs. They are staffed and serviced by Trans-Australia Airlines and are extensively used in ambulance and survey medical work. At Alice Springs, medical officers of the Department of Health provide the medical services to the Royal Flying Doctor Service (South Australian) base.

Public health services are provided and health inspectors visit all settlements periodically.

A section of the Department of Health undertakes continuous investigations into native health.

8. Australian Capital Territory.—The *Public Health Ordinance* 1928–1951 places under the control of the Minister for Health matters relating to public health and hygiene in the Australian Capital Territory. In addition to the public health activities normally undertaken by the State Governments the Commonwealth Department of Health undertakes certain duties which in the States would be the responsibility of local government instrumentalities.

A medical officer of health and a staff of four health inspectors have been appointed to administer the Public Health Ordinance and ancillary regulations. During 1964, 827 licences were issued under various public health regulations, while legal action was taken in 16 cases for offences against these regulations. The inspection staff is also responsible for the quarantine inspection of parcels arriving under bond at the Canberra Post Office.

In continuation of the campaign to control the incidence of poliomyelitis, the Department of Health in Canberra gave 8,380 injections of poliomyelitis vaccine to infants, 1,245 to school children and 1,398 to adults during 1964.

The Commonwealth Health Laboratory in Canberra provides full clinical laboratory services to the Canberra Community Hospital and to private medical practitioners in the Australian Capital Territory. In 1964, 340,841 pathological services were carried out, including more than 3,500 chemical and bacterial analyses of water, milk, other foods, and sewage.

The Canberra Community Hospital is administered, subject to the Minister for Health, by a board consisting of five elected members and three members appointed by the Minister. At 30th June, 1964, the hospital had accommodation for 427 in-patients.

The Director of the Tuberculosis Division of the Commonwealth Department of Health, in addition to the responsibility of co-ordinating the activities of the States in the national campaign against tuberculosis, is concerned with the prevention, detection, examination and treatment of tuberculosis in the Australian Capital Territory. In 1964, 10 cases of tuberculosis were notified in the Australian Capital Territory.

The supervision of the hygiene of dairies and piggeries and the control of the Canberra Abattoir is the responsibility of the veterinary service of the Department of Health. The duties of this service also include the prevention and control of disease in stock and advice to district stock owners, with field diagnosis on a herd or flock basis supported by laboratory confirmation.

A district nursing service, administered by the Commonwealth Department of Health, was established in 1950 to provide a home-nursing service for the sick and aged. This service, available at the request of a registered medical practitioner, is provided by ten sisters, who, in 1964, made 32,465 visits. Throughout the year liaison was maintained by the sisters with agencies engaged in social welfare work.

§ 2. Supervision and Care of Infant Life

1. **General.**—Because the health of mothers and infants depends largely on pre-natal attention as well as after-care, government, local government and private organizations provide instruction and treatment for mothers before and after confinement. The health and well-being of mother and child are looked after by infant welfare centres, baby clinics, crèches, etc.

In all States, Acts have been passed with the object of supervising the conditions of infant life and reducing the rate of mortality. Departments control the boarding-out of the wards of the State to suitable persons. Wherever possible, the child is boarded out to its mother or to a near female relative. Stringent conditions regulate the adoption, nursing and maintenance of children placed in foster-homes by private persons, while special attention is devoted to the welfare of ex-nuptial children.

Under the provisions of the *Social Services Act 1947-1964* maternity allowances are paid to provide financial assistance towards the expenses associated with the birth of children. A sum of £15 is payable to the mother in respect of each confinement at which a living or viable child is born if the mother has no other children under 16 years of age. Where there are one or two other children under 16, the amount payable is £16, and where there are three or more other children under 16, the amount payable is £17 10s. Where more than one child is born at a birth, the amount of the allowance is increased by £5 in respect of each additional child. More detailed information concerning maternity allowances is given in Chapter XVI. Welfare Services.

Information regarding infant mortality will be found in Chapter X. Vital Statistics (see pp. 328-32).

2. **Nursing Activities.**—Several State Governments maintain institutions which provide treatment for mothers and children, and, in addition, subsidies are granted to various associations engaged in welfare work.

(i) **Infant Welfare Centres.** The following table gives particulars of the activities of infant welfare centres for the year 1964. The figures relate to all centres, whether permanently staffed or on a temporary or part-time basis. Centres may be located at accommodation specially provided for this purpose or at halls, schools, etc.

INFANT WELFARE CENTRES, 1964

Particulars	N.S.W.	Vic.	Q'land (a)	S. Aust. (a)	W. Aust.	Tas.	N.T.	A.C.T.	Aus- tralia
Number of centres	415	655	265	264	72	102	16	29	1,818
Attendances at centres ..	1,152,014	1,350,328	444,372	255,766	243,530	134,216	17,447	39,065	3,636,738
Visits by nurses to homes ..	n.a.	173,551	33,379	34,614	27,131	79,377	7,854	4,532	n.a.

(a) Year ended 30th June, 1964.

Mobile units are used as centres in some States. The numbers of these in 1964, included in the above table, were as follows:—Victoria, 5; Queensland, 2; South Australia, 3; Western Australia, 4; and Tasmania, 10.

In the last thirty years, the number of attendances at the infant welfare centres has quadrupled. The numbers of attendances, at five-year intervals, since 1930 were as follows:—1930, 919,893; 1935, 1,355,306; 1940, 2,035,299; 1945, 2,927,764; 1950, 3,049,375; 1955, 3,099,233; and 1960, 3,482,383. During the year 1964 the number of attendances was 3,636,738.

(ii) *Bush Nursing Associations.* Treatment for mothers and children is also provided by the Bush Nursing Associations.

The number of centres maintained by the Associations in 1964 were:—New South Wales, 19; Victoria, 57; Queensland, 5; South Australia, 32; Western Australia, 15; and Tasmania, 24.

(iii) *Canberra Mothercraft Society.* This society, which is subsidized by the Commonwealth Department of Health, administers the Infant Welfare Service in Canberra with a staff of nine triple certificated nurses. The Queen Elizabeth II. Coronation Home for Mothers and Babies, which is under the management of the Society, was opened on 7th January, 1963. It is staffed by qualified nursing staff and provides post-natal care for mothers and problem babies. The Home has accommodation for two mothers and nine babies.

§ 3. Medical Inspection of School Children

1. *General.*—Medical and dental inspection of school children is carried out in all States, in the Northern Territory and in the Australian Capital Territory. In some States travelling clinics have been established to deal with dental defects.

2. *New South Wales.*—The school medical and dental services in New South Wales are under the control of the State Department of Public Health.

The aim of the school medical service is to examine all school children in the State, in order to discover any departure from normal health, physical or mental, and to notify the parent or guardian of any need for further investigation or treatment. Annual visits are made to schools in the metropolitan, Newcastle and Wollongong areas, and in some of the larger country towns. Full examinations are conducted on a child's entry into school. Review examinations, with particular emphasis on vision and hearing, are conducted on pupils in fourth class in primary schools and second and fourth years in secondary schools, and on others who appear to need additional examinations. Medical officers of this service examined 260,148 children in 1964.

In other country areas there is a scheme for school children to be examined by local medical practitioners under the supervision of local municipal and shire councils. The majority of local councils in New South Wales have expressed interest in this scheme and are endeavouring to arrange with local medical practitioners to have the scheme introduced.

The school medical service conducts nine child guidance clinics (eight in the metropolis and one at Newcastle), five child health centres (four in the metropolis and one at Newcastle), seven hearing clinics (five in the metropolis, one at Newcastle and one at Wollongong), and an asthma clinic in Sydney.

The school dental service had a staff of 34 dental officers and 30 dental assistants at the end of 1964. The service is provided by dental clinics established in the grounds of three metropolitan and two country public schools, eighteen mobile clinics in country areas and two dental teams with the Royal Flying Doctor Service (located at Broken Hill). In addition, a dental service is provided for children in 22 Child Welfare establishments.

In 1964, 116,127 school children were examined by the school dental service and 15,358 of these were treated.

3. *Victoria.*—School medical services are conducted in close association with the Education Department. All children between the ages of 5 and 15 years attending State and registered schools are examined regularly and any disabilities found in the children are brought to the notice of their parents. School nurses, under medical direction, visit the homes and schools. Children suffering from physical and mental disabilities are recommended to attend appropriate schools or classes by the medical officers. Some special training for the handicapped is given.

The School Dental Service has an establishment of 43 dental officers and provides dental attention for children in the metropolitan area at three dental centres, and for a number of country districts by means of 15 mobile units, including 6 twin-surgery units. It also provides dental services for children's institutions in and around Melbourne and certain provincial centres. The service is now providing dental attention for some 80,000 primary school children.

4. **Queensland.**—During 1963–64 medical officers and nurses examined 96,163 school children; 5,352 children had disabilities of which parents were notified and advised to seek attention. In western Queensland local doctors act as part-time ophthalmic surgeons. Advice is given on school sanitation, infectious diseases in schools and health education.

During 1963 school dentists gave treatment to 11,451 school children who resided in areas beyond easy reach of hospital dental clinics. The treatment was carried out at four rail dental clinics and with portable equipment at schools. In addition, school children are treated at hospital dental clinics in the larger towns.

5. **South Australia.**—South Australian State schools within a radius of 60 miles from Adelaide and at 5 large country centres are visited annually and the children are examined while in grades 1, 4 and 7 in the primary schools and in their second and fourth years in secondary schools. Efforts are made to visit the remaining country schools every three years, when all the children are examined. Students who wish to become teachers are examined on appointment as Honours Teaching Scholars while still attending secondary schools, again immediately prior to entering the Teachers' College and finally when they leave the College to take up teaching. Courses of lectures in health education are given to all College students and, in addition, domestic art students are lectured on home nursing.

During 1964, 81,261 children were examined by medical officers in 189 country and 152 metropolitan schools. Of these, 6,620 required treatment for defective vision, 2,497 for defective hearing, and 8,851 for dental disorders.

Dentists using mobile vans examined 5,823 school children in country areas where a private dental service was not readily available; 4,054 children were offered treatment; 3,657 accepted and were treated free of charge.

There were 2,266 children examined at the Deafness Guidance Clinic during 1964. Of the 1,356 new patients, 1,097 were referred to doctors or hospitals for treatment.

Educational work was assisted by talks to mothers' clubs and interviews with parents by doctors and dentists, and by home visits and interviews by nurses.

6. **Western Australia.**—The School Medical Service of the State Health Department employs seven full-time medical officers for schools. During 1963 these officers examined 55,463 children (metropolitan 34,409, country 21,054). The 405 schools visited comprised metropolitan, 251 (Government schools 176, non-government schools 75), and country, 154 (government schools 118, non-government schools 36). The aim is to examine each school child three times in his school career.

During 1963 the twelve full-time dentists employed by the School Dental Service visited 6 metropolitan schools, 84 country schools, 7 orphanages and 7 native missions. The number of children examined was 8,259. With the consent of their parents, 5,280 of these were treated. The number of dental vans operating was 12.

7. **Tasmania.**—During 1964, three full-time and four part-time medical officers examined school children in Government and non-government schools. In addition, two regional medical officers of health and one specialist medical officer also examined school children. Eighteen full-time and five part-time sisters visited homes and schools. Of the 22,567 children examined by medical officers, 6,579 were found to have defects.

Fourteen school dental officers were employed during 1963–64, operating from surgeries at Hobart, Launceston, Burnie, Devonport, Ulverstone, Currie and Flinders Island, and from mobile clinics in other districts. A full-time dental surgeon is in charge of each surgery or clinic. During the year there were 20,140 new visits to the school dentists and 26,238 repeat visits.

8. **Northern Territory.**—The Schools Medical Officer makes routine physical examinations of all children attending both pre-school centres and the schools which come under the supervision of the Assistant Supervisor of Education in the Northern Territory. The only children not so examined by him are those at the Native Welfare Settlement School, i.e. full-blood Aborigines, who are examined during native health surveys.

A special dental service for school and pre-school children is available in Darwin and Alice Springs. School doctors and dentists travel throughout the Territory to carry out diagnosis and treatment.

9. **Australian Capital Territory.**—The Commonwealth Department of Health is responsible for health aspects of child welfare in the Australian Capital Territory. These include a school medical service carried out by two medical officers and three trained nurses, and a school dental service, staffed by 11 dentists, together with surgery and clinical assistants.

Medical examinations are carried out at all schools, public and private, within the Territory. The total number of children examined during 1964 was 7,153. The majority of the examinations were of children in the six, eight, 12, 15 and 17 year age groups, but another large group of children was referred for examination of special conditions. In addition, examination of children attending pre-school centres was made according to the time available, 698 pre-school children being examined.

Defects notified during the year were:—393 eyesight, 176 ear, nose and throat, and 533 miscellaneous; while 366 cases of hearing loss not requiring further treatment were also found. Triple antigen injections, totalling 8,645 in 1964, were given at regular sessions held throughout the year, while 1,254 anti-poliomyelitis injections were given to school children and 8,380 at baby health clinics.

The School Dental Service provides free treatment for children attending infants' and primary schools, both public and private, in the Australian Capital Territory. During 1964 9,715 children were examined in Canberra and Jervis Bay schools. As in previous years, visits were also made to the Cocos (Keeling) Islands, Norfolk Island, and the Wreck Bay Aboriginal settlement. In all, a total of 10,032 children were examined by the School Dental Service, involving 34,063 visits. A resident dental officer has now been appointed to Norfolk Island.

§ 4. Disposal of Dead by Cremation

The first crematorium in Australia was opened in South Australia in 1903. At 31st December, 1964, there were nineteen crematoria in Australia, situated as follows:—New South Wales, 7; Victoria, 4; Queensland, 3; South Australia, 1; Western Australia, 2; Tasmania, 2.

There is no crematorium in the Northern Territory or in the Australian Capital Territory at present, but a site has been allocated for one in the Australian Capital Territory and it is expected that construction will begin during 1965.

The following table shows the number of cremations and total deaths in each State for each of the years 1960 to 1964.

CREMATIONS AND TOTAL DEATHS

State or Territory	1960		1961		1962		1963		1964	
	Cremations	Total deaths	Cremations	Total deaths	Cremations	Total deaths	Cremations	Total deaths	Cremations	Total deaths

COMMONWEALTH GOVERNMENT ACTIVITIES

NOTE.—The Commonwealth services outlined in this chapter are those provided under the National Health Services or otherwise administered by the Commonwealth Department of Health. For particulars of services administered by the Commonwealth Department of Social Services and of Commonwealth expenditure from the National Welfare Fund on all forms of social and health services, see Chapter XVI. Welfare Services.

§ 1. General

At the time of federation the only health function given to the Commonwealth Government under the Constitution was the power to make laws with respect to quarantine. Following on the passing of the *Quarantine Act* 1908 a branch of the Department of Trade and Customs under the control of a Director of Quarantine was created on 1st July, 1909. An amendment to the Constitution in 1946 gave the Commonwealth power to make laws with respect to pharmaceutical, hospital and sickness benefits, and medical and dental services. In addition, the Commonwealth Government has used its powers under Section 96 of the Constitution to make grants to the States for health purposes.

The Commonwealth Department of Health was formed in 1921 by the extension and development of the quarantine service, the Director of Quarantine becoming the Director-General of Health.

§ 2. National Health Benefits

1. **Pharmaceutical Benefits.**—A comprehensive range of drugs and medicines is made available to all persons receiving treatment from a medical practitioner registered in Australia. The benefits are supplied by an approved pharmacist upon presentation of a prescription, or by an approved hospital to patients receiving treatment at the hospital.

The patient pays the first 5s. of the cost of the prescription, but pensioners who are eligible for treatment under the Pensioner Medical Service (see para. 5, p. 663) receive all benefits without any contribution being made.

Total Commonwealth expenditure on pharmaceutical benefits in the year 1963–64 was £39,419,336.

2. **Hospital and Nursing Home Benefits.**—(i) *General.* The *National Health Act* 1953–1964 provides for the payment of Commonwealth hospital and nursing home benefits. Commonwealth benefits are payable only in respect of treatment received in approved hospitals and approved nursing homes. For the purposes of the National Health Act premises which provide medical treatment, care and accommodation for sick persons are approved either as hospitals or as nursing homes depending mainly on their clinical standards and the type of patients accommodated. Usually premises are approved as hospitals if their general standards are substantially equivalent to those of a public hospital and if hospital treatment as defined in the National Health Act is provided. Premises are approved as nursing homes where their general standards are similar to those prevailing in benevolent homes, convalescent homes, rest homes or homes for the aged, and if nursing home treatment as defined in the Act is provided.

(ii) *Patients in Approved Hospitals.* A basic principle of the provision of benefits for patients in approved hospitals is the Commonwealth support of voluntary insurance against the costs involved. Insured patients in approved hospitals receive a Commonwealth hospital benefit of 20s. a day which is paid through the contributors' registered hospital benefits organizations. Total payments by contributors to organizations range from 1s. to 4s. a week for single persons and from 2s. to 8s. a week for families. Examples of contributions and benefits payable, including Commonwealth benefits of £1 a day, are:—

Weekly contribution		Total benefits	
Single person	Family	Daily	Weekly
<i>s. d.</i>	<i>s. d.</i>	<i>s. d.</i>	<i>£ s. d.</i>
1 0	2 0	44 0	15 8 0
1 6	3 0	56 0	19 12 0
2 0	4 0	68 0	23 16 0
2 6	5 0	80 0	28 0 0
4 0	8 0	116 0	40 12 0

A contribution of 5s. a week covers a family for benefits at least equal to the public ward charge in any State. Contributions are allowable deductions for income tax purposes.

During the waiting period of two months after joining an organization, the Commonwealth benefit is payable at the rate of 8s. a day, unless the organization pays fund benefits, in which case Commonwealth benefit is payable at the higher rate of 20s. a day. While a member is in arrears with his contributions and fund benefits are not payable, the Commonwealth benefit is payable at the rate of 8s. a day unless the member was in receipt of unemployment or sickness benefits under the *Social Services Act 1947-1964*.

Contributors who would have been excluded from fund benefits because of organizations' rules covering pre-existing ailments, chronic illnesses or maximum benefits are assured of hospital fund benefits by the provisions of the special account plan. The hospital fund benefit usually payable in such cases is 16s. a day and is paid either from special accounts, guaranteed by the Commonwealth, or from the ordinary accounts of the organization. One condition of payment is that the treatment in respect of which the fund benefit was paid was given in an approved hospital, although fund benefit is paid in certain circumstances in respect of treatment given in approved nursing homes. If the payments from the special accounts exceed contributions credited to the account, the amount of deficit is reimbursed by the Commonwealth.

A person who joins a registered hospital benefits organization within eight weeks of being discharged from an approved nursing home is entitled to immediate Commonwealth benefit of 20s. per day and to fund benefits without having to serve a waiting period.

If a qualified patient in an approved hospital is not insured (i.e., not a member of a hospital benefits organization), a Commonwealth benefit of 8s. a day is deducted from his account by the hospital. The Commonwealth subsequently reimburses the hospital.

Under arrangements made with the States, pensioners who are enrolled in the Pensioner Medical Service and are treated in public wards of public hospitals are entitled (with a few exceptions) to free public ward treatment. For this the Commonwealth pays the hospitals a benefit of 36s. a day for each pensioner.

(iii) *Patients in Approved Nursing Homes.* The Commonwealth nursing home benefit of 20s. a day is payable to all qualified patients in approved nursing homes whether the patients are insured or not. This benefit is deducted from the patient's account and subsequently paid by the Commonwealth to the nursing home. If no charge is made by the nursing home, the Commonwealth nursing home benefit of 20s. a day is still payable to the nursing home in respect of qualified patients.

There is no need for patients in approved nursing homes to be insured with a registered hospital benefits organization. Fund benefits are generally not payable. However, the National Health Act provides that where an insured special account patient is treated in an approved nursing home for an acute illness or condition and is given treatment equivalent to that which he would have received in an approved hospital, approval may be given to the payment of special account fund benefits.

(iv) *Australians Overseas.* Australian residents who receive hospital treatment in recognized hospitals in overseas countries, while temporarily absent from Australia, are eligible to receive the Commonwealth and fund benefits to which they are entitled.

(v) *Expenditure on Hospital and Nursing Home Benefits.* Expenditure on hospital and nursing home benefits for 1963-64 was £26,234,325. In addition, Commonwealth payments towards special account deficits totalled £1,874,623. This does not include expenditure on mental hospitals (see p. 661).

The following table shows the amount of Commonwealth hospital and nursing home benefits paid during the year 1963-64.

COMMONWEALTH HOSPITAL AND NURSING HOME BENEFITS PAID, 1963-64
(£'000)

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Uninsured patients (8s.) ..	349	255	483	65	75	29	28	5	1,289
Insured patients (20s.)(a) ..	4,041	2,189	1,083	923	775	317	(b)	(b)	9,328
Pensioner patients (36s.) ..	2,552	1,497	1,302	504	602	188	3	29	6,677
Nursing home patients (20s.) ..	3,568	2,085	1,381	817	783	306	8,940

(a) Does not include payments of £1,874,623 towards special accounts deficits in 1963-64. (b) No hospital benefit organization is registered in the Northern Territory or the Australian Capital Territory. Members who live in one of these Territories, or who are abroad, receive their Commonwealth benefit and fund benefit through membership of an organization registered in one of the States and payments to them are included in the respective States.

Arrangements for the payment of hospital benefits were changed as from 1st January, 1963. For benefits paid until 31st December, 1962, under the old arrangements, and for the remainder of 1962-63 under the new arrangements, see Year Book No. 50, 1964, pages 680-1.

(vi) *Registered Hospital Benefit Organizations.* The following table shows the number of registered hospital benefit organizations, the membership at 30th June, 1964, and fund benefits paid during the year 1963-64. As many persons contribute on behalf of both themselves and their dependants, the total number of persons covered by hospital benefit schemes is considerably higher than the number of members.

HOSPITAL BENEFITS: ORGANIZATIONS AND FUND BENEFITS, 1963-64

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust.(a)
Registered organizations at 30th June, 1964(b) ..	33	(c) 44	3	13	9	10	112
Membership at 30th June, 1964 ..	1,281,126	955,902	304,801	366,504	260,663	115,735	3,284,731
Fund benefits paid £'000	10,992	4,204	1,743	2,275	1,681	746	21,641

(a) No hospital benefit organization is registered in the Northern Territory or the Australian Capital Territory. Members who live in one of these Territories, or who are abroad, receive their Commonwealth benefit and fund benefit through membership of an organization registered in one of the States and payments to them are included in the respective States. (b) Interstate branches are not included. (c) Includes 18 Bush Nursing Hospitals.

3. *Mental Hospitals.*—In 1946, when Commonwealth hospital benefits were introduced for patients in public hospitals, no provision was made for patients in mental hospitals. To help meet the cost of maintaining patients in mental hospitals, the Commonwealth Parliament passed the *Mental Institutions Benefits Act 1948*. This Act ratified agreements with the States, whereunder it was provided that the States would cease making charges for the maintenance of mental patients and that the Commonwealth would pay the States a benefit based on the amount which had been collected by the States from the relatives of patients in mental hospitals by way of charges for maintenance.

These agreements operated for five years, and terminated in the latter half of 1954. The amount contributed by the Commonwealth during the operation of the agreements was approximately one shilling a day for each patient. When the agreements terminated, Dr. Alan Stoller, of the Victorian Mental Hygiene Authority, was commissioned to undertake a survey of mental health facilities and needs in Australia. His report, released in May, 1955, stated that serious overcrowding existed in the majority of mental hospitals in Australia. The provision of more beds was the most urgent need, but other accommodation and rehabilitation facilities were also required.

Following the report, the Commonwealth made an offer of £10 million to the States as part of a capital expenditure programme of £30 million on increasing and improving patient accommodation. All States accepted the Commonwealth offer. By 1963 more than three-quarters of the total grant under the *States Grants (Mental Institutions) Act 1955* had been distributed and the Commonwealth Government announced in November, 1963, its intention of continuing assistance to the States towards capital costs on a similar basis, but without overall limit, for a period of three years. In May, 1964, the *States Grants (Mental Health Institutions) Act 1964* was passed to implement that policy. This Act provided for the continuation of Commonwealth aid of £1 for every £2 of capital expenditure by the States on mental health facilities. The new Act makes no provision limiting the size of the grant and the assistance is limited to the three year period concluding on 30th June, 1967.

The following table sets out the amounts which have been paid to the State Governments by the Commonwealth Government from 1955-56 to 1963-64.

**EXPENDITURE ON MENTAL HOSPITALS BY THE COMMONWEALTH
GOVERNMENT**

(£)

Year	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Australia

1963-64 ..	491,089	..	54,083	86,293	165,792	..	797,257
Total, 1955-56 to 1963-64	3,692,530	2,740,000	721,920	718,904	461,069	355,000	8,689,423

There are no mental hospitals in the Northern Territory or in the Australian Capital Territory.

4. **Medical Benefits.**—(i) *General.* A medical benefits scheme has operated since July, 1953, being authorized firstly by the National Health (Medical Benefits) Regulations and then by the *National Health Act 1953-1964*.

The basic principle of the scheme is Commonwealth support of voluntary insurance towards meeting the costs of medical attention. The benefits provided by the Commonwealth are paid either on a fee-for-service basis in respect of the items set out in the schedule to the National Health Act or in the form of a subsidy not exceeding half of the payments made to doctors by registered organizations under contract arrangements.

During 1963-64 the National Health Act was amended by the *National Health Act 1964* to provide a new schedule of Commonwealth benefits which came into operation on 1st June, 1964. The general effect of the new schedule is to increase Commonwealth benefits by 33½ per cent. In a number of instances, because of alterations to benefits to adjust previous anomalies, the increase is greater.

In order to qualify for the Commonwealth benefit, a person is required to be insured with a registered medical benefit organization. The organization pays the Commonwealth benefit to the contributor, usually at the time it pays its own benefit. Reimbursement of the Commonwealth benefit is subsequently made to the organization by the Commonwealth.

Commonwealth benefits ranging from 8s. for ordinary general practitioner visits to £30 for major operations are payable to members of registered medical benefit organizations. The fund benefit payable varies according to the weekly contributions paid by the member and the particular medical service.

Examples of the range of benefits are as follows.

Type of service	Combined Commonwealth and fund benefits ^(a)		
	£	s.	d.
Certain major operations	67	10	0
Appendix operation	22	10	0
Midwifery	15	0	0
Tonsils—			
Under 12 years	6	12	6
12 years and over	10	0	0
Surgery consultation—general practitioner	0	18	0
	(15s. 6d. in some States)		

(a) The total benefit varies according to the weekly contribution rate. The most common contribution rates are 2s. a week for single persons and 4s. a week for a family.

Provision is made for the payment of fund benefit from special accounts for claims lodged by contributors who have reached maximum benefits or who make claims in respect of pre-existing ailments. The medical special accounts are operated along the same principles as the hospital special accounts (*see* p. 659) and the special account fund benefit paid usually matches the Commonwealth benefit for the particular service.

(ii) *Australians Overseas.* Australian residents temporarily absent from Australia who receive medical attention by registered medical practitioners in the country they are visiting are entitled, if insured, to the Commonwealth benefit and the medical fund benefit to which they would be entitled if the service were rendered in Australia.

(iii) *Expenditure on Medical Benefits.* In 1963–64 Commonwealth expenditure on medical benefits was £12,116,425. In addition, Commonwealth payments towards special account deficits totalled £307,718.

The following table shows the number of registered medical benefit organizations, their membership, the number of medical services rendered to members and their dependants, and payments of Commonwealth benefits and medical fund benefits to members of registered organizations. As many persons contribute on behalf of both themselves and their dependants, the total number of persons covered by medical benefit schemes is considerably higher than the number of contributors.

MEDICAL BENEFITS: SUMMARY, 1963-64

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Australia (a)
Registered organizations ^(b)							
No.	28	21	6	8	8	10	81
Members ..	1,239,443	869,221	302,723	329,820	247,192	107,078	3,095,477
Medical services ..	9,789,101	6,378,157	2,709,709	2,642,360	2,069,854	718,671	24,307,852
Commonwealth benefit	£ 4,899,968	3,134,966	1,291,633	1,390,504	1,058,282	341,072	12,116,425
Fund benefit ..	£ 7,571,469	3,875,896	1,939,836	1,828,739	1,464,039	541,241	17,221,220

(a) No medical benefit organization is registered in the Northern Territory or the Australian Capital Territory. Members who live in one of those Territories, or who are abroad, receive their Commonwealth benefit and fund benefit through membership of an organization registered in one of the States.

(b) Interstate branches are not included.

5. **Pensioner Medical Service.**—The Pensioner Medical Service, which commenced on 21st February, 1951, was introduced under the authority of the National Health (Medical Services to Pensioners) Regulations made under the provisions of the *National Health Services Act 1948–1949*. The service has been continued under the provisions of the *National Health Act 1953–1964*.

The service provided to eligible pensioners consists of medicine provided free of charge and a medical service of a general practitioner nature such as that ordinarily rendered by a general medical practitioner in his surgery or at the patient's home. Specialist services are not provided. Patients may be charged a small fee by doctors for travelling and attendance outside normal surgery or visiting hours. Doctors participating in the scheme are paid on a fee-for-service basis by the Commonwealth Government.

Persons eligible to receive the benefits of the service are those who satisfy a means test and are receiving an age, invalid or widow's pension under the *Social Services Act 1947–1964* or a service pension under the *Repatriation Act 1920–1964*, persons receiving a tuberculosis allowance under the *Tuberculosis Act 1948*, and dependants of persons eligible for the service.

Since 1st November, 1955, the means test which has applied to new enrolments in the service is the income test that had to be satisfied in order to qualify for a full rate pension as at 31st December, 1953.

The means test does not apply to persons who had applied for and were eligible to receive a pension prior to 1st November, 1955, or to persons receiving a tuberculosis allowance.

At 30th June, 1964, the total number of pensioners and dependants enrolled in the Pensioner Medical Service was 844,048, while the number of doctors participating in the scheme at that date was 5,899.

During the year ended 30th June, 1964, doctors in the scheme performed 7,425,546 services—visits and surgery consultations—for persons enrolled in the scheme. For these services they were paid £4,765,625. The average number of services rendered by doctors to each enrolled person was 8.9.

6. **Anti-Tuberculosis Campaign.**—(i) *General.* The main provisions of the *Tuberculosis Act 1948* are as follows:—(a) Section 5 authorizes the Commonwealth to enter into an arrangement with the States for a national campaign against tuberculosis; (b) Section 6 empowers the Commonwealth to take over or provide specified facilities for the diagnosis, treatment and control of tuberculosis; (c) Section 8 provides for the setting up of an advisory council to advise the Commonwealth Minister for Health on matters relating to the national campaign; and (d) Section 9 authorizes the Commonwealth to pay allowances to sufferers from tuberculosis and to their dependants.

Under an arrangement with the Commonwealth Government, each State conducts a campaign against tuberculosis. The Commonwealth Government reimburses the State for all approved capital expenditure in relation to tuberculosis, and for net maintenance expenditure to the extent that it exceeds net maintenance expenditure for the year 1947–48. Thus the States carry out the physical or field work of the national campaign and the Commonwealth acts in an advisory, co-ordinating and financial capacity. For this reason the Commonwealth has not found it necessary to make much use of its powers under Section 6.

An advisory council, known as the National Tuberculosis Advisory Council, has been set up. There are twelve members, the chairman being the Commonwealth Director-General of Health.

To help reduce the spread of infection the Commonwealth Government pays living allowances to persons suffering from tuberculosis, so that they may give up work and undergo treatment. These allowances have been in operation since 13th July, 1950. The rates now payable are:—married sufferer with a dependent wife, £12 12s. 6d. a week; dependent child or children under sixteen years of age and full-time student children from 16 years until the end of the year in which they attain 18 years, 15s. a week for each dependent child (additional to child endowment); sufferer without dependants, £7 12s. 6d. a week (reducible to £6 a week if a person is maintained free of charge in an institution).

There is a means test on income but not on property. The allowance is reduced by the amount by which a person's income from sources other than his allowance exceeds, in the case of a married person, £7 a week, and in the case of a person without a dependent wife, £3 10s. a week.

(ii) *New Tuberculosis Cases Notified.* The following table gives particulars of the number of new cases of tuberculosis notified in Australia for the year 1964.

TUBERCULOSIS: NEW CASES NOTIFIED(a), 1964

State or Territory	Age group (years)					Total
	0-14	15-34	35-54	55 and over	Not stated	
New South Wales ..	41	194	479	538	2	1,254
Victoria	83	168	293	274	2	820
Queensland	14	112	323	391	3	843
South Australia ..	9	47	69	52	..	177
Western Australia ..	11	21	69	71	..	172
Tasmania	5	23	45	23	..	96
Northern Territory ..	2	23	31	18	..	74
Australian Capital Territory ..	1	6	..	3	..	10
Australia ..	166	594	1,309	1,370	7	3,446

(a) Figures supplied by the Director of Tuberculosis in each State.

(iii) *Commonwealth Expenditure.* Expenditure by the Commonwealth Government during 1963-64 on its anti-tuberculosis campaign is set out in the following table. The figures for maintenance differ from those in the table shown in Chapter XVI. Welfare Services, because they include administrative costs which are not a charge on the National Welfare Fund.

COMMONWEALTH EXPENDITURE ON ANTI-TUBERCULOSIS CAMPAIGN, 1963-64
(£)

State or Territory	Allowances	Maintenance (a)	Capital	Total
New South Wales	(b) 276,853	1,900,046	76,317	2,253,216
Victoria	188,513	1,426,159	25,178	1,639,850
Queensland	183,333	1,061,635	141,463	1,386,431
South Australia	(c) 64,230	368,241	14,885	447,356
Western Australia	44,260	388,748	21,889	454,897
Tasmania	39,478	190,000	19,510	248,988
Australian Capital Territory ..	(d)	4,676	..	4,676
Australia	796,667	5,339,505	299,242	6,435,414

(a) Includes £103,104 for administrative costs. (b) Includes Australian Capital Territory.
(c) Includes Northern Territory. (d) Included with New South Wales.

The following table sets out expenditure by the Commonwealth Government on its anti-tuberculosis campaign during the years 1959-60 to 1963-64.

COMMONWEALTH EXPENDITURE ON ANTI-TUBERCULOSIS CAMPAIGN
(£)

Year	Allowances	Maintenance (a)	Capital	Total
1959-60	1,025,473	4,414,210	781,089	6,220,772
1960-61	946,446	4,259,092	410,370	5,615,908
1961-62	872,853	4,418,986	386,579	5,678,418
1962-63	803,516	4,970,951	491,993	6,266,460
1963-64	796,667	5,339,505	299,242	6,435,414

(a) Includes administrative costs.

7. Anti-poliomyelitis Campaign.—(i) *General.* Information concerning the initial production by the Commonwealth Government of anti-polio vaccine in Australia in 1955, and of the testing procedures which were carried out, is contained in Year Book No. 49 and earlier issues.

Distribution of the Salk poliomyelitis vaccine, which was supplied free of charge to the States, began in July, 1956. The States were responsible for the organization and running of their own campaigns and for the distribution of the vaccine in accordance with priority groups established by the National Health and Medical Research Council. Up to 1958, priority was given to children in the 0-14 age group, expectant mothers, and persons subjected to special risk. During 1958, this priority was extended to persons in the 15-44 age group. No child can be vaccinated without the consent of parents or guardian.

Vaccination against poliomyelitis takes the form of four injections of the vaccine. The second injection is given approximately four weeks after the first, the third injection is given not less than 32 weeks after the first and the fourth injection a minimum of one year after the third dose. Where the incidence of the disease in certain areas approaches epidemic proportions, special efforts have been made to vaccinate as soon as possible all persons in the area who give their consent.

One million doses of each of the three types of monovalent Sabin vaccine were imported by the Commonwealth in October, 1962, for use in a possible emergency. The decision whether to use the Sabin vaccine rests with the individual State Health Authorities.

At present, a pilot scheme is being undertaken by the Tasmanian Government in co-operation with the Commonwealth, using Sabin Vaccine as a booster. Over 70,000 children have received two doses of Sabin Vaccine at intervals of six weeks and immunity levels reached have been satisfactory.

It is difficult to give a completely accurate estimate of the vaccination coverage for the whole of Australia because methods of recording vaccination data differ from State to State. The proportion of children who had received three injections by 12 months of age is considered to be very small; by the recommended dosage schedule the third injection is given at 14 months or later. More than 60 per cent. of children from 15 months to 4 years have received 3 injections. In the age group 5 to 14 years, 90 per cent. have had 3 injections, as also have the 15 to 19 years group. Only 40 per cent. of persons 20 to 45 years old have received 3 or more injections.

Australia-wide information is not available regarding the proportion of the population which has now received a fourth injection, but if information from South Australia can be taken as a guide, it would appear that approximately 16 per cent. of those persons who have already received 3 injections have also received a fourth dose.

(ii) *New Cases of Poliomyelitis Notified.* The numbers of new cases of poliomyelitis notified in each State are shown for each year from 1956 to 1964 in the following table.

POLIOMYELITIS: NEW CASES NOTIFIED

Year	N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
1956	240	251	112	122	401	55	..	13	1,194
1957	58	13	24	16	8	6	125
1958	23	60	5	10	2	100
1959	16	30	4	1	3	54
1960	9	23	6	10	4	36	17	..	105

1962	178	22	38	17	4	..	1	..	260
1963	3	19	1	8	5	36
1964p.. ..	2	5	7

8. *Free Milk for School Children Scheme.*—The *States Grants (Milk for School Children) Act 1950* was passed with the object of improving the diet of school children by the addition of a small quantity of milk each day. All children under the age of thirteen years attending government or non-government primary schools, including nursery schools, kindergartens, crèches and missions for Aborigines, are eligible to receive free milk. The cost of the milk and half the capital or incidental costs, including administrative expenses of the scheme, are reimbursed by the Commonwealth to the States. All States now participate in the scheme. At 30th June, 1964, approximately 1,687,000 children were entitled to receive free milk under this scheme.

Expenditure by the Commonwealth Government during the years 1959–60 to 1963–64 was as follows.

COMMONWEALTH EXPENDITURE ON MILK FOR SCHOOL CHILDREN SCHEME

(£)

Year	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Australia
1959–60 ..	1,286,672	910,000	480,246	275,000	229,872	156,358	10,493	22,874	3,371,515
1960–61 ..	1,279,460	1,020,000	518,244	282,000	225,377	200,075	21,994	24,064	3,571,214
1961–62 ..	1,329,363	1,036,165	565,000	332,258	264,392	175,256	23,271	27,734	3,753,439
1962–63 ..	1,317,903	950,407	572,762	356,910	293,069	192,093	26,595	30,014	3,739,753
1963–64 ..	1,331,688	1,093,000	559,933	353,932	309,046	199,717	25,052	27,305	3,899,673

The figures in the foregoing table differ slightly from those in the table shown in Chapter XVI. Welfare Services, as they include capital and administrative costs. Figures in the latter table represent only expenditure which is a charge on the National Welfare Fund (i.e., the cost of the milk).

§ 3. Commonwealth Organizations concerned with Health

1. *National Health and Medical Research Council.*—In 1926 the Commonwealth Government established a Federal Health Council, in accordance with a recommendation of the Royal Commission on Health (1925), “for the purpose of securing closer co-operation between the Commonwealth and State Health Authorities”. In 1936 the Commonwealth Government decided to create a body with wider functions and representation, and the National Health and Medical Research Council was established with the following functions:—to advise Commonwealth and State Governments on all matters of public health legislation and administration, on matters concerning the health of the public and on medical research; to advise the Commonwealth Government on the expenditure of money specifically appropriated to be spent on the advice of this Council; to advise the Commonwealth Government on the expenditure of money on medical research and on projects of medical research generally; and to advise Commonwealth and State Governments on the merits of reputed cures or methods of treatment which are from time to time brought forward for recognition.

The council consists of the Commonwealth Director-General of Health (as chairman), two other officers of the Commonwealth Department of Health, the official head of each State Health Department, the Director of Public Health for Papua and New Guinea, a representative of the Commonwealth Serum Laboratories Commission, and ten other members, one each being nominated by the Australian Medical Association, the Australian Dental Association, the Australian Paediatric Association, the Australian College of General Practitioners, the Royal Australasian College of Physicians, the Royal Australasian College of Surgeons, the Australian Regional Council of the Royal College of Obstetricians and Gynaecologists, the College of Pathologists of Australia, the College of Radiologists of Australasia, and the Australian universities having medical schools. An eminent layman and laywoman, appointed by the Commonwealth Minister for Health, also serve on the council.

The Council has established three advisory committees—the Medical Research Advisory Committee, the Medicine Advisory Committee and the Public Health Advisory Committee—to provide advice in each specialized field. It has also established other committees to consider specialized subjects such as antibiotics, dental health, food standards, maternal and child health, nursing, nutrition, out-patient health and veterinary public health.

The first session of the National Health and Medical Research Council was held at Hobart in February, 1937. The fifty-eighth session was held at Canberra in October, 1964.

Under the *Medical Research Endowment Act 1937* the Commonwealth Government has made an annual appropriation of funds to assist:—(a) departments of the Commonwealth or of a State engaged in medical research; (b) universities for the purpose of medical research; (c) institutions and persons engaged in medical research; and (d) in the training of persons in medical research. For 1963–64, this appropriation was £318,500 and for 1964–65, £413,000.

2. The National Biological Standards Laboratory.—The *Therapeutic Substances Act 1953–1959* provides the Commonwealth with powers to ensure that therapeutic substances used for the prevention, diagnosis and treatment of disease in man and animals are safe, pure and potent.

The Director-General of Health is authorized under this Act to set up laboratories to test such substances. In 1958 the first steps were taken to establish an Australian National Biological Standards Laboratory in Canberra.

The laboratory is divided into two main divisions, a Biological Division and a Pharmaceutical Division. The Biological Division consists of the Bacterial Products Laboratory, the Viral Products Laboratory, an Endocrine Products Laboratory and an Antibiotic Products Laboratory. The Pharmaceutical Division consists of an Analytical Chemistry Laboratory and a Pharmacology Laboratory.

All these laboratories have now been established and have commenced work.

Samples of therapeutic agents available in Australia are taken and tested for compliance with legal standards. A major function of the laboratories is the establishment of such standards where none at present exist or present standards are unsatisfactory.

The laboratories receive international reference standards of biological substances from stocks maintained by the World Health Organization, and will on request issue Australian reference standards which have been assayed against international standards.

3. Commonwealth Serum Laboratories.—The laboratories were established in 1916 under the administration of the Department of Trade and Customs and from 1921 to 1961 were operated under the Department of Health. Control of the laboratories passed to the Commonwealth Serum Laboratories Commission on 2nd November, 1961.

The laboratories' basic function is to ensure the supply of essential biological products in accordance with national health needs. This includes production and supply of essential biological products; research and development relating to biological products and allied fields; and the maintenance of potential production capacity for use in emergencies.

Since their foundation, the laboratories have greatly extended in size and scope. They now produce some 450 regular products and many special products for use in the diagnosis, prevention and treatment of human and animal diseases. Professional, technical and other staff total over 900.

Products comprise a full range of human bacterial and virus vaccines, veterinary bacterial and virus vaccines, serum products such as blood fractions, a wide variety of antibacterial and antitoxic sera, antivenenes, penicillin, endocrines, including insulin, A.C.T.H., pituitary and thyroid extracts, allergy testing materials and desensitizing preparations, culture media, and diagnostic agents for clinical and laboratory work. More recently, tissue culture materials have been prepared and supplied to virus research workers throughout Australia.

Continual research is conducted into the relevant aspects of microbiology and immunology, and related fields. As the growth of medical and scientific knowledge in Australia and overseas reveals new methods of diagnosis, prevention and treatment of diseases, this information is applied to the preparation of new biological products at the laboratories.

Facilities are maintained for investigations into public health matters which are inconvenient or impracticable to handle at the Commonwealth Health Laboratories or the School of Public Health and Tropical Medicine.

The laboratories serve as a national centre for the maintenance in Australia of the international standards of the Permanent Commission on Biological Standards (World Health Organization). They act as a regional reference centre for W.H.O. in collating reports of the prevalence of certain infectious diseases and provide facilities for the identification of these diseases.

Veterinary biological products produced at the laboratories have given the lead to other producers in Australia, resulting in the diminution of incidence of a number of serious infectious stock diseases.

4. **The Commonwealth Health Laboratories.**—Health laboratories, of which there are fifteen, are situated in the following towns: Albury, Alice Springs, Bendigo, Cairns, Canberra, Darwin, Hobart, Kalgoorlie, Launceston, Lismore, Port Pirie, Rockhampton, Tamworth, Toowoomba and Townsville. They were established as an essential part of the quarantine system but were also to undertake research into local health problems and to provide doctors of each district with up-to-date facilities for laboratory investigation and diagnosis. It was realized that co-operation between the general practitioner, with his clinical observations and knowledge of the environment of disease on the one hand, and the staff of a well-equipped laboratory on the other, is essential to the investigation and control of disease.

From this standpoint, the laboratories have proved their value in the determination of leptospirosis and endemic typhus in North Queensland, in the investigation of special local problems in Darwin, of undulant fever throughout Australia, of silicosis and tuberculosis at Kalgoorlie and of plumbism at Port Pirie. In these investigations, close co-operation exists with State and local health and hospital services, especially in Queensland where collaboration has yielded exceptionally valuable results in differentiating the groups of fevers previously unclassified in that State. In this investigational work, as well as in more routine activities, the laboratories have at their disposal the full resources and technical and specialist facilities available at the Commonwealth Serum Laboratories and the School of Public Health and Tropical Medicine, Sydney.

The laboratories are unique in that, with the exception of the use of X-rays, they cover all the fields of diagnostic requirements, namely, pathology, public health, haematology, parasitology, mycology, bacteriology, biochemistry and blood group serology.

5. **Commonwealth Acoustic Laboratories.**—Sponsored by the National Health and Medical Research Council, the Acoustic Research Laboratory, Sydney, investigated inter-communication difficulties and noise problems in aircraft and tanks (1942-46). It then investigated the problem of congenital deafness in children resulting from maternal rubella. The Department of Health took over the laboratory in January, 1947, and subsequently established branch laboratories in all other State capitals.

The *Acoustic Laboratories Act* 1948 gave the Minister for Health the right to establish, maintain and operate, within the Commonwealth, acoustic laboratories for scientific investigations, including tests in respect of hearing aids and their application to the needs of individuals, and in respect of problems associated with noise as it affects individuals. Scientific investigations are carried out in the Central Laboratories in Sydney by specialized scientific groups in psychology and audiology, acoustics and electroacoustics, medical ultrasonics, and psychoacoustics. The results of this research are published in scientific literature

and Commonwealth Acoustic Laboratories reports. In 1949 the Government approved the provision and maintenance of hearing aids, without charge, to deaf school and pre-school children. This service has since been extended to those whose hearing loss is discovered after leaving school, but who are still under 21 years of age. Since May, 1964, the cost of hearing aids is met from the National Welfare Fund. The laboratories' functions also include:—provision and maintenance of hearing aids on behalf of the Repatriation and other Commonwealth Departments; assistance to the State Education Departments in measuring deafness by providing and maintaining portable audiometers; the making of hearing tests of civil aviation aircrew as required by international agreement; and the making of independent tests on behalf of State and other authorities.

The Central Laboratories located in Sydney are responsible for staff training, production of equipment, calibration of hearing-aids and audiometers, and the technical administration of branch laboratories.

6. Commonwealth X-ray and Radium Laboratory.—In 1928 the Commonwealth Government purchased ten grammes of radium for use in medical treatment and research in Australia. The use of this radium was to be co-ordinated by the Department of Health and in 1929 the Department established the Commonwealth Radium Laboratory to act as custodian of the radium and to ensure its equitable distribution and efficient use.

The radium is distributed on loan to treatment centres throughout Australia. Under the terms of these loans, treatment at well-equipped clinics is available to all persons requiring it, irrespective of their ability to pay. Portions of the original stock of radium have been remounted from time to time, reflecting changes in techniques of treatment.

In 1935 the work of the laboratory was extended to include physical aspects of X-ray therapy and the name of the laboratory was changed at this time to its present form.

Since 1939 the functions of the laboratory have included investigations of the physical aspects of the diagnostic use of X-rays with particular emphasis on miniature radiography and high-kilovoltage techniques.

In 1946 the laboratory imported the first artificially-produced radioactive isotopes used in Australia and established a system for the procurement and distribution of these substances.

A radiochemical laboratory and associated facilities were set up in the laboratory to permit the assay of radioactive materials present in minute amounts in the environment—in air, water, soil and foods such as milk, grain and vegetables. A programme of monitoring the fall-out in Australia arising from the testing of nuclear weapons is continuing.

The laboratory co-operates with the physical services which have been developed in the other capital cities of Australia to provide local facilities for the production of radon, for the calibration of X-ray therapy equipment and for the measurement of the exposure to radiation of those who work with X-rays and radioactive materials. The services of the laboratory are available to all who work with ionizing radiations.

A radon service has been operated by the laboratory since its inception. During the year ended 30th June, 1964, 39,766 millicuries of radon were issued by the laboratory in the form of implants, needles and tubes for use in Victoria, Tasmania, South Australia and Western Australia. A further 23,688 millicuries were issued by the associated centres in Sydney and Brisbane. The corresponding figures for 1962–63 were 33,701 millicuries and 20,483 millicuries, respectively. The issue of radon from a few centres to serve hospitals all over the continent is an Australian development which enables very efficient use to be made of the radium available.

Since 1935 the laboratory has maintained the Australian (free-air) standard for the precise measurement of X-ray dose. Sub-standard clinical dosimeters used by the laboratory and by centres in other States are calibrated in terms of this standard.

Through the development of atomic energy programmes overseas, supplies of radio-isotopes have been available for use in Australia since 1946. Some of the radio-isotopes required in Australia are prepared by the Australian Atomic Energy Commission in its reactor at Lucas Heights. At the present time, the procurement and distribution of radio-isotopes to be used in medicine and medical research are the responsibility of the Department of Health and these isotopes are procured by the laboratory, as a central procurement agency, principally from Great Britain, Canada, and the United States of America. The procurement and distribution of radio-isotopes for industrial and non-medical uses are the responsibility of the Australian Atomic Energy Commission.

The importation of radio-isotopes is restricted under the Customs (Prohibited Imports) Regulations. Approval for importation is given either by the Director-General of Health or by the Australian Atomic Energy Commission, depending on the category of use, after it has been established that the isotope will be used safely and usefully.

During 1963-64 38 different isotopes were procured for use in medicine and medical research. They represented 1,559 separate deliveries, of which 76 (including seven different isotopes) were from the Australian Atomic Energy Commission. Of the 38 isotopes, 16 were for use in medical diagnosis or treatment, as distinct from medical research. Bulk supplies of radio-isotopes used for diagnosis or treatment are obtained regularly and these are distributed by the laboratory as individual doses for use on patients throughout Australia in accordance with a policy developed by the Committee on Radio-isotopes of the National Health and Medical Research Council. These radio-isotopes are issued free of charge. In the year ended 30th June, 1964, 18,159 individual doses of these materials were issued for medical diagnosis and therapy.

Investigations of the degree of protection necessary in particular applications of X-rays and radioactive materials continue to be an important activity of the laboratory. It prepares specifications of the protection facilities necessary in departments and laboratories employing ionizing radiations in medicine, research and industry, and carries out measurements of radiation levels in existing departments and laboratories. A film-badge service to measure the radiation dose received by those exposed to ionizing radiations is maintained. In 1963-64, 72,411 film-badges were processed, assessed and reported on; the corresponding figure for the previous year was 46,370.

The laboratory maintains a library of radiological literature and issues library bulletins at appropriate intervals. Technical communications on topics related to its functions are issued from time to time.

7. The School of Public Health and Tropical Medicine.—In March, 1930, the Commonwealth Government, under an agreement with the University of Sydney, established a School of Public Health and Tropical Medicine at the University of Sydney for the purpose of training medical graduates and students in the subjects of public health and tropical medicine. The organization of the Australian Institute of Tropical Medicine at Townsville was merged in the new school, and the staff, equipment and material were transferred to Sydney.

The School comprises sections of Preventive Medicine, Tropical Medicine, Occupational Health, Environmental Health, Biochemistry, Bacteriology and Pathology, Parasitology, Medical Entomology, and Medical Statistics. The Child Welfare section of the Institute of Child Health is located at the School, with which it is closely associated. The Occupational Health Section undertakes surveillance of the health of persons employed at the Small Arms Factory, Lithgow, and at the Munitions Filling Factory, St. Mary's. The Library, which includes approximately 17,000 bound volumes and a large collection of official and institutional papers and reports, forms an important information centre in the subjects of public health and tropical medicine.

The work of the school comprises both teaching and investigation. Courses are held for the university post-graduate diploma in public health and the diploma in tropical medicine and hygiene. Lectures are given in public health and preventive medicine as prescribed for the fifth year of the medical curriculum. Courses are provided also in hygiene and social medicine for students of architecture and social studies; in tropical medicine for lay officers, nurses in tropical service and missionaries; and in industrial health for engineering students. Training is also provided for certain personnel of the armed services, for laboratory workers from various services and institutions, and for post-graduate nursing diploma students.

Investigations cover a wide range of public health and medical subjects, both in the laboratory and in the field. Field work has been carried out in Australia and in Papua, New Guinea, Norfolk Island and Nauru in co-operation with the local administrations and the South Pacific Commission. Limited accommodation and other facilities for investigation can be made available at the school for independent research workers.

8. Institute of Child Health.—Associated with the School of Public Health is the Institute of Child Health, part of which is located in the School of Public Health and Tropical Medicine in the grounds of the University of Sydney and part at the Royal Alexandra Hospital for Children, Camperdown. The activities of the Institute are concerned with research into medical and social problems of childhood, undergraduate teaching of students

of the Faculty of Medicine in the University of Sydney, post-graduate teaching of doctors and members of associated professions, and collaboration with other bodies concerned with the general field of child health.

The establishment of the Institute at present consists of the director, two senior medical officers, one child psychiatrist, five other medical officers, a psychologist, two social workers, and clerical staff.

The director of the Institute is the Professor of Child Health in the University of Sydney. He is also a senior honorary paediatrician on the staff of the Children's Hospital. The child psychiatrist is also Associate Professor of Child Psychiatry in the University of Sydney.

The director is required to co-ordinate and control undergraduate and post-graduate teaching in paediatrics and child health. Each group of medical students attends the Children's Hospital for 10 weeks tuition in paediatrics and child health.

The particular research activities of the Institute vary with the immediate and long-term problems which present themselves. Fields of study have included rheumatic fever, scurvy, accidents, prematurity, hypothyroidism and mental deficiency. Studies are undertaken into the problems of infants and children deprived of a normal home life.

Members of the Institute staff are available for consultation by Commonwealth and State authorities and voluntary agencies.

9. Commonwealth Bureau of Dental Standards.—This Bureau is concerned with research, standards and testing related to dental and allied materials and processes. It became part of the Department of Health in January, 1947, but for the preceding eight years it was sponsored by the National Health and Medical Research Council. During that time, the then Dental Materials Research Laboratory established itself as a recognized authority in its special field and proved to be of value to the defence services, government departments, the dental profession and manufacturers of dental products. By maintaining the quality of dental materials and improving techniques for their use, the Bureau continues to assist the dentist in his service to the community—a service that calls for restorations and appliances of a high degree of precision and permanence under very exacting conditions.

The functions of the Bureau are:—original research into dental equipment, materials, techniques and processes; regular reporting of the results of these investigations in recognized Australian scientific journals; the development of specifications for dental materials and equipment, through the Standards Association of Australia, in consultation with a committee representing the Commonwealth Department of Health, the Australian Dental Association and manufacturers and distributors; and the provision of a consultative service and testing facilities for manufacturers and distributors of dental materials with a view to assisting them in the improvement of existing products and the development of new materials.

10. The Australian Institute of Anatomy.—The Australian Institute of Anatomy is situated in a building erected in Canberra by the Commonwealth Government under the *Zoological Museum Agreement Act 1924*. Prior to the passing of this Act the Commonwealth Government had expressed regret that the Australian nation possessed neither a collection of specimens of the unique and fast disappearing fauna of Australia, nor a museum in which such specimens could be preserved for future generations. Sir Colin MacKenzie, the first Director of the Institute of Anatomy, presented his entire private collection of Australian fauna to the Commonwealth Government. This gift was housed in the Institute. The Institute became part of the Commonwealth Department of Health in 1931.

The original collection has been greatly augmented. In addition to donations of material, there have been several endowments for orations and lectures.

The Institute consists of a museum section and a laboratory section. In the museum section, which is open to the public, a portion of the original collection of anatomical specimens assembled by Sir Colin MacKenzie is displayed, together with ethnological collections

which have been added since the foundation of the Institute. The material has been arranged to present simple lessons in human hygiene, to display the anatomical features and peculiarities of Australian fauna and to display aspects of the character of Australian Aborigines and Indigenes of Papua and New Guinea.

A number of Health Department sections are now situated in the Institute. These include the Museum and Medical Artistry Section, the Nutrition Section, the Commonwealth Health Laboratory for the Australian Capital Territory and a Veterinary Laboratory.

The scientific research work of the Institute is now concentrated on problems of nutrition. It takes the form of field surveys of the dietary status of the Australian population and laboratory investigations into the biochemistry of nutrition and metabolism.

§ 4. Control of Infectious and Contagious Diseases

1. **General.**—The provisions of the various Acts with regard to the compulsory notification of infectious diseases and the precautions to be taken against their spread are dealt with under the headings of quarantine and notifiable diseases (including venereal diseases).

2. **Quarantine.**—The *Quarantine Act* 1908–1961 is administered by the Commonwealth Department of Health and has three sections of disease control, as follows:—(i) human quarantine, which controls the movements of persons arriving from overseas until it is apparent that they are free of quarantinable disease; (ii) animal quarantine, which controls the importation of animals and animal products from overseas and the security of other animals present on vessels in Australian ports; and (iii) plant quarantine, which regulates the conditions of importation of all plants and plant products with the object of excluding plant diseases, insect pests and weeds.

In respect of interstate movements of animals and plants, the Act becomes operative only if the Governor-General considers that Commonwealth action is necessary for the protection of any State or States, and in general the administration of interstate movements of animals and plants is left in the hands of the States.

(i) *Human Quarantine.* All passengers and crews arriving in Australia from overseas, whether by air or sea, are subject to a medical inspection for the purpose of preventing the introduction of disease into Australia. At the major ports, full-time quarantine officers carry out the work, but in the minor ports local doctors act as part-time quarantine officers. In each State, quarantine activities are controlled by the Commonwealth Director of Health, who is a medical officer of the Commonwealth Department of Health.

The main concern of the examining officers is to detect cases of the quarantinable diseases smallpox, cholera, yellow fever, plague and typhus fever. These diseases are not endemic to Australia and it is of great importance to prevent their entry. Quarantine stations at the major ports and at Darwin and Townsville are kept ready for occupation at all times. In addition, persons arriving in Australia and suffering from infectious diseases such as chicken pox, mumps, scarlet fever and measles are directed to appropriate care and placed in isolation where necessary.

Valid vaccination certificates are required of travellers to Australia as follows:

Cholera. All arrivals from infected local areas and from India, Pakistan, Burma, Thailand, Vietnam, Malaysia, Philippines and Indonesia. No certificate is required in respect of children under one year of age.

Yellow Fever. All arrivals from yellow fever endemic zones.

Smallpox. All arrivals from all countries except British Solomon Islands, Fiji, Nauru, New Zealand, Norfolk Island, Ocean Island, Australian Territory of Papua and New Guinea, provided travellers have not been outside these areas for at least 14 days before arrival and that these areas are free of smallpox. Australia reserves the right, in respect of arrivals from other countries, to isolate any person who arrives by air without a smallpox vaccination certificate and refuses to be vaccinated. Children under one year of age are exempt. For

passengers arriving in Australia by sea, exemption is granted to infants under twelve months of age and to persons who hold religious convictions against vaccination or who are suffering from a medical condition certified by a medical practitioner to contra-indicate smallpox vaccination.

All passengers, whether they arrive by sea or air, are required to give their intended place of residence in Australia, so that they may be traced if a case of disease occurs among the passengers on the aircraft or ship by which they travelled to Australia.

The numbers of cases of infectious (non-quarantinable) diseases which were discovered among the passengers and crew of overseas vessels and aircraft calling at Australian ports during the year ended 30th June, 1964, and during the preceding four years, are shown in the following tables.

HUMAN QUARANTINE: CASES OF INFECTIOUS (NON-QUARANTINABLE) DISEASES ON OVERSEA VESSELS AND AIRCRAFT CALLING AT AUSTRALIAN PORTS, 1963-64

Disease	Number of overseas vessels and aircraft on which cases were found	Number of cases of infectious disease	
		Passengers	Crew
Chicken pox	36	82	4
Enteritis	1	1	..
Glandular fever	1	2	..
Gonorrhoea	3	..	3
Infectious hepatitis	7	9	1
Measles	30	196	..
Mumps	28	53	1
Paratyphoid	1	1	..
Pulmonary tuberculosis	1	..	1
Pneumonia	1	1	..
Rubella	7	12	..
Scarlet fever	1	1	..
Syphilis	1	..	1
Typhoid	1	1	..
Whooping cough	1	2	..
Total	(a) 92	361	11

(a) On some vessels there were cases of more than one disease.

HUMAN QUARANTINE: OVERSEA VESSELS AND AIRCRAFT ARRIVING IN AUSTRALIA AND CASES OF INFECTIOUS (NON-QUARANTINABLE) DISEASE FOUND

Year	Number of overseas vessels and aircraft cleared		Number of overseas vessels and aircraft on which cases were found	Number of cases of infectious disease	
	Ships	Aircraft		Passengers	Crew
1959-60	3,046	2,063	61	234	12
1960-61	3,481	2,354	55	296	4
1961-62	3,761	2,417	67	221	15
1962-63	2,943	2,423	91	438	35
1963-64	3,184	2,620	92	361	11

(ii) *Animal Quarantine.* Animal quarantine, authorized by the provisions of the *Quarantine Act 1908-1961*, aims at preventing the introduction or spread of animal diseases. It covers the importation of all animals, raw animal products and biological cultures associated with animal diseases, and goods associated with animals.

Of the domesticated animals, only horses, dogs, cats and poultry are admitted from a limited number of countries depending on diseases present in the country of origin. All must be accompanied by health certificates which include prescribed tests. On arrival in Australia, they are subject to quarantine detention.

Zoological specimens are imported into registered zoos, where they remain in permanent quarantine. Circuses are also registered if exotic species of animals are kept. In a similar manner, animals for scientific purposes are imported to approved laboratories. All these premises are kept under constant surveillance. Raw animal products such as hair, types of wool, skins and hides, are specially treated under quarantine control. Such items as raw meat, sausage casings and eggs, which cannot be sterilized, are admitted from very few countries. Other items, such as harness fittings, fodder and ship's refuse, are treated to destroy any possible infection.

The Animal Quarantine Service is also responsible for the health certification of animals for export overseas in accordance with requirements of the various countries.

The Division of Veterinary Hygiene was created in 1926 to deal with the administration of animal quarantine. The central administration is situated within the Health Department at Canberra, with a director, an assistant director and veterinary officers. The Principal Veterinary Officer of the Department of Agriculture in each State is appointed Chief Quarantine Officer (Animals) of that State, and members of his staff Quarantine Officers (Animals). These State officers carry out the quarantine policy formulated by the central administration. Quarantine accommodation is provided in permanent animal quarantine stations at each capital city.

The Division participates in world-wide international notification of the more serious contagious diseases of animals and maintains a census of such diseases throughout the world. Information regarding animal diseases and parasites in Australia is also collected and disseminated by means of service publications. Consultation on technical matters is maintained with various scientific institutions, notably the Commonwealth Scientific and Industrial Research Organization. In matters of policy and the quarantine control of imports, there is a close liaison with the Department of Customs and Excise.

The Division collaborates with the General and Plant divisions of the quarantine service. Many diseases of animals are communicable to man and for this reason animal and general quarantine administration are in some respects inseparable. Similarly the interests of animal and plant divisions overlap, many items such as insects, fodder and straw being the subject of combined control.

Every two years the director of the Division convenes the Biennial Conference of Principal Commonwealth and State Veterinarians, which meets under the auspices of the Australian Agricultural Council to discuss problems of animal health and disease control and animal quarantine.

(iii) *Plant Quarantine.* Since 1st July, 1909, the importation into Australia of all plants or parts of plants, cuttings, seeds and fruits, whether living or dead, has been subject to an increasingly stringent quarantine with the object of preventing the introduction of insect pests, plant diseases and weeds not yet established in this country. Under the *Quarantine Act 1908-1961*, quarantine inspectors are required to examine all plant material at the first port of entry and to release only material free from diseases and pests. Everyone entering

Australia is required to declare if he or she has any plant material in luggage or personal effects. Heavy penalties are laid down for those found evading the regulations. All plant material entering as cargo must also be declared.

When the Commonwealth became responsible for all plant quarantine, the State Governments agreed to co-operate by providing and maintaining inspection facilities and personnel, for which they are reimbursed by the Commonwealth. In 1921, the administration of the regulations came under the newly-formed Department of Health and in 1927 the Division of Plant Quarantine was created. It is controlled by a director who is responsible for policy and legislation and for co-ordinating the work of the State officers who carry out the detailed administration in their capacity as Commonwealth officers.

Any plant material found carrying diseases or pests, or suspected of doing so, may be ordered into quarantine for remedial treatment, or, if treatment is impracticable, may be destroyed. The cost of treatment is met by the importer.

Regulations governing the different types of plants are based on the following broad principles. Importation of plants likely to be infected with plant diseases or pests, of noxious plants or fungi, and of poison plants is prohibited. Agricultural seed, not restricted under quarantine legislation, must conform to standards of purity, and insect pest and disease freedom. Seed of commercial crops which could introduce diseases are prohibited imports except with special permission. All plant products not specifically restricted, such as timber, logs and crates, are subject to inspection upon arrival and treatment if necessary. Many commodities, including hops, cotton, peanuts in shell, potatoes, and certain crop seeds, may be imported only by approved importers under specified conditions. All nursery stock, including bulbs, must be grown in post-entry quarantine. Prior approval is necessary and such material may be imported only by approved importers who are registered for this purpose. The number of plants which may be imported in any one year is limited. The importation of propagating material of commercial fruits, vines and berries is permitted only after special prior approval and is subject to specific screening for virus by qualified authorities.

3. Notifiable Diseases.—(i) *General.* (a) *Methods of Prevention and Control.* Provision exists in the Health Acts of all States for the compulsory notification of certain infectious and other diseases and for the application of preventive measures. When any such disease occurs, the local authority must be notified at once, and in some States notification must be made also to the Health Department.

As a rule, the local authorities are required to report from time to time to the Central Board of Health in each State on the health, cleanliness and general sanitary state of their several districts and on the appearance of certain diseases. Regulations provide for the disinfection and cleansing of premises and for the disinfection or destruction of bedding, clothing or other articles which have been exposed to infection. Regulations also provide that persons suspected to be suffering from, or to be carriers of, infectious disease must submit to clinical and laboratory examination. Persons suffering from certain communicable diseases, for example, smallpox and leprosy, are detained in isolation.

(b) *Diseases Notifiable and Cases Notified in each State and Territory.* The following tables show, for each State and Territory, the diseases notifiable in 1964, and the number of cases notified. Diseases not notifiable in a State or Territory are indicated by an asterisk.

Factors such as the following affect both the completeness of the figures and the comparability from State to State and from year to year:—availability of medical aid; diagnostic practices of doctors—e.g., infectious hepatitis may not be diagnosed as such unless jaundice is also present; enforcement and follow-up of notifications by Health Departments; differences in sources of notifications; differences in definitions of notifiable diseases in Health Acts—e.g., puerperal fever and encephalitis; and varying degrees of attention to notification of diseases of minor importance.

(a) No cases of cholera, plague, smallpox, epidemic typhus or yellow fever were notified. (b) There are popular names for various diseases mentioned in the table above. While these names may not be clearly defined or acceptable for diagnostic purposes, the most common ones are listed here for the information of the lay reader:—hookworm (ankylostomiasis); undulant fever (brucellosis); St. Vitus dance (chorea); Weil's disease or seven-day fever or swamp fever (leptospirosis); parrot fever (ornithosis); childbed fever (puerperal fever); German measles (rubella). (c) Chorea is included with acute rheumatism (rheumatic fever). (d) These are figures supplied by the Directors of Tuberculosis in each State. (e) Under the Queensland Health Acts notifications of tuberculosis include erythema nodosum and pleural effusion. (f) Included with infectious hepatitis. * Not notifiable.

(ii) *Specific Diseases.* (a) *Tuberculosis and Poliomyelitis.* The number of new cases of tuberculosis notified in each State and Territory by age groups for the year 1964 is shown on page 664. Some data regarding deaths from tuberculosis are shown on page 339 of Chapter X. Vital Statistics.

Cases of poliomyelitis notified in each State and Territory for the years 1956 to 1964 are shown on page 666.

(b) *Infectious Hepatitis.* The following table shows the number of cases of infectious hepatitis notified in each State and Territory during the years 1960 to 1964.

INFECTIOUS HEPATITIS: CASES NOTIFIED

State or Territory	1960	1961	1962	1963	1964
New South Wales	4,925	6,050	3,358	2,822	2,731
Victoria	2,385	3,515	3,533	3,840	2,697
Queensland	713	1,022	884	1,433	1,163
South Australia	1,121	1,406	504	293	289
Western Australia	256	262	117	145	101
Tasmania	44	304	630	856	636
Northern Territory	23	61	101	104	57
Australian Capital Territory	88	281	88	20	12
Australia	9,555	12,901	9,215	9,513	7,686

(c) *Venereal Diseases.* The prevention and control of venereal diseases are the responsibility of State Health Departments. The necessary powers for the purpose are provided either by a special Venereal Diseases Act or by a special section of the Health Act. Venereal diseases are notifiable in all States except in South Australia, where, however, the Director-General of Public Health is empowered to compel a venereal disease suspect to submit to medical examination and, if found infected, to medical treatment. While the provisions of the legislation differ from State to State, the Acts usually make it obligatory upon the patient to report for and continue under treatment until certified as cured. Treatment of venereal disease must be by a registered medical practitioner. Facilities for treatment of venereal disease free of charge may be arranged at subsidized hospitals or at special clinics. Penalties may be imposed on a patient who fails to continue under treatment. Clauses are inserted in the Acts which aim at preventing the marriage of any infected person, or the employment of an infected person in the manufacture or distribution of foodstuffs.

§ 5. Commonwealth Grants to Organizations Associated with Public Health

1. *General.*—In addition to providing the services mentioned in §§ 2-4 above, the Commonwealth Government gives financial assistance to certain organizations associated with public health. Examples of organizations included in this category are the National Fitness Organizations, the Royal Flying Doctor Service of Australia, the Red Cross Blood Transfusion Service, the Lady Gowrie Child Centres, and the National Heart Foundation of Australia.

2. *National Fitness.*—In 1938, arising from a recommendation of the National Health and Medical Research Council, the Commonwealth Government appointed a National Co-ordinating Council for National Fitness, under the Commonwealth Minister for Health, to effect collaboration of Commonwealth, State and local government authorities in the National Fitness Movement. Following the recommendations of the first Co-ordinating Council meeting in 1939, the Commonwealth Government agreed to make available an annual sum of £20,000 for five years, and grants were allocated to each State for purposes of organization and to each of the six Australian universities to establish lectureships in physical education.

The movement was placed on a statutory basis with the passing of the *National Fitness Act* 1941. The Act provides for a Commonwealth Council for National Fitness to advise the Minister for Health concerning the promotion of national fitness. It provides also for the establishment of a Trust Account, known as the National Fitness Fund, to assist in financing the movement. In June, 1942, the annual appropriation from revenue to the National Fitness Fund was increased to £72,500 to include grants to the State Education Departments and for the work in the Australian Capital Territory. The annual appropriation was increased to £100,000 in 1962, the increase of £27,500 being made available to the National Fitness Councils in the States. The £100,000 is disbursed as follows:—State National Fitness Councils, £64,454; Universities, £12,400; State Education Departments, £17,000; central administration, £3,396; and Australian Capital Territory, £2,750.

The annual grant of £2,750 allocated in the Australian Capital Territory is distributed mainly on a £1 for £1 basis to youth and sports organizations for the purchase of equipment, the development of coaching schemes, and the extension of club and camp facilities.

3. **Royal Flying Doctor Service of Australia.**—The purpose of the Royal Flying Doctor Service of Australia is to provide medical and dental services to persons in isolated areas. Most remote homesteads are equipped with two-way radio sets which they use for receiving ordinary radio programmes, participating in the School of the Air, and for contacting each other. In cases of minor illness or injury they also use these sets to seek medical advice. If the illness or injury is serious a doctor flies to the homestead and, if necessary, flies the patient to the nearest hospital. Standard medicine chests are supplied by the service. Each chest contains a first-aid book and instructions on the use of the various drugs and medical supplies. Further instructions are given by doctors over the air.

From time to time, special purpose work is undertaken in connexion with flood relief, searching for lost parties and co-ordinating cattle movements.

The service is not conducted for profit. In some sections small charges are made for particular services or a fixed annual charge is levied on graziers. Other sections rely on voluntary contributions from those who use their services. Donations and government contributions help to provide much of the overhead and capital expenditure incurred each year.

The Commonwealth has made an annual grant to the service for operational expenses since 1936. The Commonwealth annual grant to the Royal Flying Doctor Service of Australia towards maintenance was increased from £40,000 to £55,000 per annum for three years from 1st July, 1962. The Commonwealth grant towards capital expenditure was increased from £27,500 to £40,000 per annum for the same period. This capital expenditure grant is made on a £1 for £1 basis, in respect of approved projects.

The Royal Flying Doctor Service of Australia is conducted by a federal council comprising representatives of six sections, namely Queensland, New South Wales, Victoria, South Australia, Western Australia and the Eastern Goldfields of Western Australia. The Queensland, New South Wales and South Australian sections are centred in their own States, but in Western Australia there are three centres, that in the far north being under the control of the Victorian section, and that in the south-east under the control of the Eastern Goldfields section. The third, which has bases at Port Hedland and Meekatharra, is sponsored by the Western Australian section.

4. **Red Cross Blood Transfusion Service.**—The Australian Red Cross Society conducts a blood transfusion service in all States.

Before 1952-53, the cost of the Red Cross Blood Transfusion Service was borne by the Red Cross Society with assistance from the State Governments. In 1952, the Commonwealth made an amount of £50,000 available to the Red Cross Society through the State Governments. The States were to continue to assist the society at the same level as previously and make arrangements with the Society to share any deficit still remaining.

The Commonwealth recognized that the proper maintenance of a blood transfusion service was of the utmost importance to the welfare of the community and that the service was one eminently suited for operation by the Australian Red Cross Society. In March, 1954, therefore, the Commonwealth offered each State Government a grant equal to 30 per cent. of the certifiable operating expenses incurred by the Society in the conduct of the blood transfusion service in that State. The grant was to be made subject to the condition that the Government of the State concerned agreed to meet 60 per cent. of the cost of operating the service in that State, leaving the Society to meet the remaining 10 per cent. of the cost. All States accepted this proposal. The payments made by the Commonwealth Government to the State Governments in 1963-64 were as follows:—New South Wales, £50,354; Victoria, £60,735; Queensland, £40,855; South Australia, £22,097; Western Australia, £18,313; Tasmania, £5,557; total, £197,911.

5. **Lady Gowrie Child Centres.**—In 1940 the Commonwealth Government established a pre-school demonstration centre in each of the six State capital cities. These centres are known as the Lady Gowrie Child Centres and are administered by local State committees under supervision of the Australian Pre-school Association located at Canberra. An annual grant is made available by the Commonwealth towards the operation of the centres, £50,000 being allocated for 1963-64 and £60,000 for 1964-65. In addition, a special grant of £12,000 was approved to re-build the Melbourne centre which had been destroyed by fire. Of this grant, £7,500 was made available for 1963-64 and £4,500 for 1964-65.

The specialized function of the centres is that of demonstration and research, and the programmes are carried out under the supervision of the Federal Pre-school Officer. Each centre is concerned with a study of the factors promoting and retarding physical and mental health in young children, and in demonstrating an educational health programme based on the developing needs of children aged 3 to 6 years.

The centres are used for observation by students of medicine, psychology, education, social studies, architecture, nursing and domestic science, and by student teachers.

6. **Home Nursing Subsidy Scheme.**—The Home Nursing Subsidy Scheme provides payments to assist the expansion of home nursing activities. To be eligible for a subsidy, an organization must be non-profit making and must receive assistance from a State Government, local government body, or other authority established by or under a State Act. It must employ registered nurses. It is provided that Commonwealth subsidy must not exceed the amount of State assistance received by the organization concerned. Eligible organizations established prior to November, 1956, now receive £1,000 a year in respect of each additional qualified nurse employed. New organizations established since November, 1956, receive £500 a year in respect of each qualified nurse employed.

Expenditure during 1963-64 on the promotion of the Home Nursing Service was £185,938. The Commonwealth subsidy paid to various district nursing organizations has led to the employment of 228 trained nurses.

7. **National Heart Foundation of Australia.**—The National Heart Foundation of Australia is a national organization established to promote research in cardiovascular disease, to rehabilitate heart sufferers and to foster the dissemination of information about heart diseases.

Formed in 1960, as a result of a public appeal yielding £2,500,000 to which the Commonwealth Government contributed £10,000, the Foundation has its headquarters in Canberra.

The organization is controlled by a Board of Directors assisted by various Committees. State Divisions with their own administrations deal especially with rehabilitation and education.

From its inception to the end of 1964, the Foundation has allocated over £800,000 for grants-in-aid towards research in university departments, hospitals and research institutes, research fellowships tenable in Australia and overseas, and overseas travel grants. Most of the annual expenditure of about £300,000 is devoted to supporting research in cardiovascular disease.

INSTITUTIONS

NOTE.—Institutions referred to under this heading are classified into the following groups:—(i) Public hospitals and nursing homes (referred to as “public hospitals” in previous issues of the Year Book); (ii) Mental hospitals; (iii) Private hospitals and nursing homes (previously referred to as “private hospitals”); (iv) Repatriation hospitals; (v) Isolation (leper hospitals).

§ 1. Public Hospitals and Nursing Homes

1. General.—The statistics shown under the heading public hospitals and nursing homes refer to institutions providing hospital and nursing home treatment, whether general or special, with the exception of mental hospitals, private hospitals and nursing homes, repatriation hospitals and leper hospitals. They include institutions wholly provided for by the State, partially subsidized by the State or by State endowments but receiving private aid also, and hospitals established and endowed by individuals for the treatment of the sick generally. Public hospitals are premises of this kind in which patients are received and lodged exclusively for “hospital” treatment, i.e., nursing care for the purpose of professional attention. Public nursing homes are such premises in which patients are received and lodged exclusively for the purpose of nursing home care, i.e., of a kind ordinarily provided in a benevolent home, convalescent home, home for aged persons or rest home for patients requiring professional attention. The statistics shown under this heading agree in scope with those classified as public hospitals in previous issues of the Year Book.

2. Number, Staff and Accommodation.—Details regarding the number of public hospitals and nursing homes, staff, and accommodation for the year 1962–63 are given in the following table.

PUBLIC HOSPITALS AND NURSING HOMES: NUMBER, STAFF AND ACCOMMODATION, 1962-63

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.

(a) Qualified and student nurses, assistant nurses, assistant nurse trainees, nursing aides and nursing aide trainees.

3. In-patients Treated.—The following table gives particulars of in-patients treated. The figures shown refer to cases, that is to say, a person who is admitted to hospital or nursing home twice during a year is counted twice. Newborn babies are excluded unless they remain in hospital or nursing home after their mothers' discharge.

PUBLIC HOSPITALS AND NURSING HOMES: IN-PATIENTS TREATED,
1962-63

Average daily number resident ..	16,825	9,221	8,378	2,901	3,103	1,869	370	259	42,926

In addition to those admitted to the hospitals and nursing homes, there are large numbers of out-patients treated. During 1962-63 there were 1,274,666 out-patients treated in New South Wales, 666,589 in Victoria, 688,574 in Queensland, 118,836 in South Australia, 153,000 (estimated) in Western Australia, 94,908 in Tasmania, 93,518 in the Northern Territory and 17,176 in the Australian Capital Territory, making an estimated total for Australia of 3,107,267. The figures quoted refer to cases, as distinct from persons and attendances.

4. Revenue and Expenditure.—Details of the revenue and expenditure for the year 1962-63 are shown in the next table. The revenue includes the Commonwealth Hospital Benefits Scheme. For some States expenditure on capital items out of individual hospitals own funds are not included in the figures shown. Comparison between the States should therefore be made with caution.

5. **Summary.**—A summary, for the years 1958–59 to 1962–63, of the number of public hospitals and nursing homes in Australia, medical and nursing staffs, beds, admissions, in-patients treated, out-patients, deaths, average daily number resident, revenue and expenditure is given in the following table.

PUBLIC HOSPITALS AND NURSING HOMES: AUSTRALIA

Particulars	1958–59	1959–60	1960–61	1961–62	1962–63
Hospitals and nursing homes	733	736	736	739	746
Medical staff(a)	9,354	9,954	10,386	10,535	11,022
Nursing staff(b)	34,372	36,023	37,607	39,082	40,211
Beds and cots	58,544	60,203	61,039	61,650	62,513
Admissions during year ..	1,133,172	1,153,690	1,182,198	1,235,665	1,267,092
Total in-patients (cases) treated	1,172,861	1,196,111	1,225,060	1,278,417	1,309,325
Out-patients (cases)(c) ..	2,665,700	2,710,900	2,794,400	2,946,800	3,107,000
Deaths	35,848	35,407	36,619	37,569	38,530
Average daily number resident	40,021	40,672	41,009	42,166	42,926
Revenue £'000	90,512	98,976	109,399	119,894	129,477
Expenditure £'000	90,157	97,987	108,556	119,774	127,578

(a) Honorary and salaried. (b) Qualified and student nurses, assistant nurses, assistant nurse trainees, nursing aides and nursing aide trainees. (c) Partly estimated.

§ 2. Mental Hospitals

1. **General.**—In addition to the mental hospitals proclaimed under the Lunacy and Mental Health Acts of the various States, the statistics shown in the following tables include other institutions providing accommodation and treatment of patients who are legally certified as requiring treatment for mental disorders. The statistics also include the number of voluntary patients in these institutions. With the exception of tables relating to revenue and expenditure, particulars of the two authorized hospitals conducted by religious organizations in New South Wales are included. Particulars of reception houses, observation wards in gaols, psychiatric clinics and intellectual deficiency training centres are excluded.

2. **Hospitals, Staff and Accommodation.**—Particulars regarding the number of hospitals, the medical and nursing staff, and accommodation are given in the following table for the year 1963. Figures for Victoria and Western Australia relate to 31st December, 1963. Figures for the other States relate to 30th June, 1963.

MENTAL HOSPITALS: NUMBER, STAFF, ACCOMMODATION, 1963

Particulars	N.S.W.	Vic.(a)	Q'land (b)	S. Aust.	W. Aust. (a)	Tas.	Aust.
Number of hospitals	15	10	5	2	6	1	39
Medical staff—							
Males	108	111	16	14	16	5	270
Females	19	23	2	5	49
Persons	(c) 181	134	18	19	16	5	(c) 373
Nursing staff and attendants—							
Males	1,343	1,281	666	278	231	108	3,907
Females	1,421	1,479	506	288	209	104	4,007
Persons	2,764	2,760	1,172	566	440	212	7,914
Accommodation—							
Number of beds and cots ..	13,315	9,420	4,308	2,676	1,926	850	32,495

(a) 31st December, 1963. (b) Includes the Epileptic Home. (c) Includes 54 visiting specialists in New South Wales who are paid for their services.

3. **Patients.**—Information regarding patients treated during 1962–63 is given in the following table. The figures include voluntary patients in all States with the exception of South Australia, but they are included in the average daily number resident shown for that State.

Persons who are well advanced towards recovery are allowed to leave the hospitals and live with their relatives or friends, but they are under supervision and their names are kept in the records. These persons have been included in the table below as patients at the end of the year.

MENTAL HOSPITALS: PATIENTS, DEATHS, ETC., 1962-63

Particulars	N.S.W.	Vic. (a)	Q'land (b)	S. Aust. (c)	W. Aust. (a)	Tas.	Aust.
Number of patients at beginning of year—

Persons	22,394	12,841	6,022	2,987	3,845	1,258	49,347
Discharges (including absconders not retaken)—							
Males	3,745	1,937	785	336	880	270	7,953
Females	3,905	1,790	797	241	724	266	7,723
Persons	7,650	3,727	1,582	577	1,604	536	15,676
Deaths—							
Males	479	376	137	94	61	18	1,165
Females	518	409	104	95	60	17	1,203
Persons	997	785	241	189	121	35	2,368
Number of patients at end of year—							
Males	6,937	4,128	2,412	1,246	1,247	340	16,310
Females	6,810	4,201	1,787	975	873	347	14,993
Persons	13,747	8,329	4,199	2,221	2,120	687	31,303
Average daily number of patients resident—							
Males	6,076	n.a.	2,220	1,342	1,068	346	n.a.
Females	5,814	n.a.	1,556	1,054	753	413	n.a.
Persons	11,890	(d)8,358	3,776	2,396	1,821	759	29,000
Average number of patients resident in mental hospitals per 1,000 of population—							
Males	3.01	n.a.	2.81	2.66	2.72	1.88	n.a.
Females	2.91	n.a.	2.04	2.13	1.98	2.31	n.a.
Persons	2.96	(d)2.74	2.43	2.40	2.35	2.10	2.67

(a) Year ended 31st December, 1963. (b) Includes persons treated at the Epileptic Home. (c) Includes voluntary patients average daily number resident only. (d) As a consequence of a re-organization of the statistics collected by the Victorian Mental Hygiene Authority, average daily patient figures are no longer compiled, and the figure shown is the number of patients on the books of these institutions on 30th November, 1963.

4. Revenue and Expenditure, 1962-63.—Mental hospitals are maintained by the State Governments. They derive a small proportion of their revenue from other sources (chiefly patients' fees, pharmaceutical benefits and sale of farm produce), but in 1962-63 these sources provided less than eight per cent. of all their revenue. For a statement on the funds provided by the Commonwealth Government for mental hospitals, see para. 3, Mental Hospitals, page 660-1.

In New South Wales the expenditure includes the cost of Broken Hill patients treated in South Australian mental hospitals.

MENTAL HOSPITALS: FINANCES, 1962-63
(£'000)

Particulars	N.S.W. (a)	Vic. (b)	Q'land (c)	S. Aust.	W. Aust.	Tas.	Australia

Total Expenditure	9,963	8,841	2,779	1,541	1,590	656	25,370

(a) Excludes the two authorized hospitals conducted by religious organizations. (b) Includes institutions in addition to the nine hospitals. (c) Includes the Epileptic Home. (d) Capital expenditure includes purchases of land, cost of new buildings and additions to buildings.

5. Summary for Australia.—The following table gives a summary relating to mental hospitals in Australia for each of the years 1958-59 to 1962-63.

MENTAL HOSPITALS: SUMMARY, AUSTRALIA

Particulars	1958-59	1959-60	1960-61	1961-62	1962-63
Hospitals	40	40	40	38	39
Medical staff(a)	265	281	297	346	373
Nursing staff and attendants	6,931	7,106	7,412	7,587	7,914
Beds	32,148	32,191	32,170	32,113	32,495
Admissions(b)	10,554	9,982	13,395	14,637	17,091
Discharged as recovered, relieved, etc.(b)	7,838	9,171	10,963	13,278	15,676
Deaths(b)	2,666	2,403	2,289	2,327	2,368
Patients at end of year(b)	33,874	32,282	34,110	32,256	31,303
Average daily number of patients resident	(c) 30,478	(c) 31,051	29,636	28,706	(d) 29,000
Revenue (excluding Government grants) £'000	1,068	1,138	1,460	1,602	1,829
Total expenditure £'000	18,354	20,355	22,075	24,347	25,370

(a) Includes visiting specialists who are paid for their services, as follows:—1959, 43; 1960, 44; 1961 43; 1962, 57; and 1963, 54. (b) Excludes voluntary patients in South Australia. (c) Excludes patients on trial leave in N.S.W. (d) Victorian figure included in 1963 total represents the number of patients on books at 30th November, 1963—see footnote (d) on page 683.

6. Patients in Mental Hospitals.—The total number of inmates of mental hospitals and patients on trial leave each year from 1959 to 1963 is shown in the following table. A more rational attitude towards the treatment of mental cases has resulted in a greater willingness in recent years to submit afflicted persons to treatment at an early stage, and an increase in the number of recorded cases, therefore, would not necessarily imply an increase in mental diseases. The numbers of patients in mental hospitals in the several States is affected to some extent by differences in practice. For instance, in some States there is a greater tendency to treat certain mental diseases in clinics attached to general hospitals.

PATIENTS IN MENTAL HOSPITALS

State	1959	1960	1961	1962	1963
New South Wales	13,792	12,665	14,486	14,233	13,747
Victoria	9,739	9,600	9,773	(a) 8,440	8,329
Queensland(b)	4,624	4,364	4,311	4,272	4,199
South Australia(c)	2,643	2,564	2,506	2,409	2,221
Western Australia	2,297	2,302	2,279	2,134	2,120
Tasmania	779	787	755	768	687
Australia	33,874	32,282	34,110	32,256	31,303

(a) Excludes patients in two institutions listed as mental hospitals in previous years but re-classified in 1962 as mental deficiency training centres. (b) Includes persons treated at the Epileptic Home. (c) Excludes voluntary patients.

§ 3. Private Hospitals and Nursing Homes

In addition to the other hospitals and nursing homes referred to in previous sections, there are private hospitals and nursing homes in each State. The figures shown in the following table refer to those private hospitals and nursing homes which have been approved for the payment of hospital benefits under the Commonwealth *National Health Act* 1953-1964.

PRIVATE HOSPITALS AND NURSING HOMES: AUSTRALIA

(a) The average daily numbers of patients resident had been calculated on the basis of the Commonwealth "ordinary" benefit paid to each institution. This method of payment of benefit was discontinued from the beginning of 1963. Therefore the figures shown are estimates, on a comparable basis with those for previous years, in respect of the six months ended June, 1963. Commonwealth benefit is not payable in respect of patients entitled to accident and workers' compensation, nor in respect of patients at these institutions who do not receive hospital treatment or nursing home care.

§ 4. Repatriation Hospitals

The medical care of eligible ex-servicemen and dependants of deceased ex-servicemen is a major function of the Commonwealth Repatriation Department (*see* Chapter XXVIII. Repatriation), which provides a comprehensive service.

In-patient treatment is provided at Repatriation General Hospitals in each capital city and at auxiliary hospitals in all States except Tasmania. "Anzac Hostels" are maintained in Queensland and Victoria for long-term patients. In-patient treatment may also be provided in country hospitals at the Department's expense in certain circumstances. Mental patients requiring custodial care are, by agreement with the State Governments, accommodated at the expense of the Department in mental hospitals administered by the State authorities.

The average daily number of patients resident in the six Repatriation General Hospitals and nine auxiliary hospitals during the year ended 30th June, 1964, was 3,920. The number of medical, nursing and other staff employed at these institutions at 30th June, 1964, was 5,666 and a further 525 were employed at Repatriation out-patient clinics, and limb and appliance centres.

§ 5. Isolation (Leper) Hospitals

There are four isolation hospitals in Australia for the care and treatment of persons suffering from Hansen's Disease (leprosy). The numbers of isolation patients at these hospitals on 31st December, 1964, were:—Little Bay (New South Wales), 10; Fantome Island (North Queensland), 18; Derby (Western Australia), 164; and East Arm Settlement (Northern Territory), 39. In addition, there were 78 voluntary patients resident in the East Arm Settlement, mostly for the purpose of reconstructive surgery. This type of patient was included in figures for East Arm Settlement published in previous issues of the Year Book. With the exception of the Little Bay lazaret, nursing services are provided mostly by Sisters of religious orders under supervision of Government medical officers.

Special wards for the isolation and treatment of leprosy patients are also provided at other centres. The location of these wards and the numbers of isolation patients resident at 31st December, 1964, were —Concord Repatriation Hospital (New South Wales), 1; Fairfield (Victoria), 8; Princess Alexandra Hospital (Queensland), 4; and Wooroloo (Western Australia), nil.

Of the total 244 cases in isolation, 190 were full-blood Aboriginals, 31 were half-caste Aboriginals, 3 were Pacific Islanders, 2 were Asians, and 18 were Europeans.

CHAPTER XIX

EDUCATION, CULTURAL ACTIVITIES AND RESEARCH

NOTE.—For the most recent statistics available on subjects dealt with in this Chapter, reference should be made to the series of mimeographed bulletins *Social Statistics* issued by this Bureau. The *Quarterly Summary of Australian Statistics* contains summarized information on these subjects, and financial aspects are dealt with in the annual bulletins *Commonwealth Finance and State, Territory and Local Government Authorities' Finance and Government Securities*.

EDUCATION

NOTE.—An account of the development of the Australian school system up to 1929 may be found in Year Books Nos. 1, 2, 17 and 22. In Year Book No. 40, a review of changes which occurred up to 1951 and of the practices then current was presented from material furnished by the Commonwealth Office of Education, which contributed much of the textual matter in the following sections.

§ 1. Education in Australian Schools

1. **Administration and Organization.**—(i) *General.* In Australia the provision of schools is mainly the responsibility of State Governments. During the nineteenth century all six Australian colonies had established systems of compulsory education, beginning with the *Education Act 1872* in Victoria, and followed by similar Acts in Queensland (1875), South Australia (1875), New South Wales (1880), Tasmania (1893), and Western Australia (1893). These Acts, with subsequent amendments, constitute the legal basis of compulsory education in the Australian States to-day.

School attendance is compulsory throughout Australia between the ages of 6 and 14 at least. The minimum leaving age is 15 years in New South Wales, Victoria, Queensland, and South Australia, and 16 years in Tasmania, while in Western Australia attendance is compulsory until the end of the year in which the child turns 14 years. Legislation has been passed in Western Australia extending the compulsory attendance age by one year in 1966.

The Education Acts require that all children between the prescribed ages must attend either a government school or some other recognized educational institution. Children may be exempted from the requirement of compulsory attendance if they live too far from a school or suffer a physical disability. These children usually receive correspondence tuition.

The school year in Australia begins at the end of January or early in February; it ends in mid-December. The long vacation is taken over the summer months (December to February) and two short vacations divide the school year into three terms.

At government primary schools it is usual for both boys and girls to attend the same school; at the secondary level, practices vary, but the trend is towards mixed schools. Non-government schools cater mainly for boys and girls separately.

(ii) *Government School Systems.* Government schools, except in the Commonwealth Territories, are a responsibility of the six State Governments. Although the educational systems are not identical, they have many similar features. Responsibility for framing educational policy and having it put into effect rests with a Minister for Education, who is a member of the State Cabinet.

The administrative authority in each State is an Education Department headed by a Director-General or Director of Education. Separate divisions of the Education Department in each State administer primary, secondary and technical education (in New South Wales there is a separate Department of Technical Education). Other divisions look after such matters as the recruitment and training of teachers, pupil guidance, research and the education of atypical children.

In some States administration has been decentralized to a degree by the appointment of "Area" or "Regional" directors, who are responsible for policy in the area which they control.

Tuition at government primary and secondary schools is free in all States. Parents are usually expected to bear the cost of text-books, uniforms and charges for such things as the use of sports materials. However, income tax concessions exist in respect of these expenditures for both government and non-government systems.

(iii) *Non-government Schools Systems.* More than eighty per cent. of the children at non-government primary and secondary schools attend Roman Catholic schools, which form a highly developed but not centralized system. At the primary level these children normally attend mixed parish schools, but at the secondary level there are boys' schools, approximately half taking boarders, and girls' schools. Some of the small convent schools in country districts enrol young boys as well as girls. The organization of Roman Catholic schools is primarily on a diocesan basis under the general direction of the bishop, although many of the religious orders which conduct schools are Australia-wide, and have their own internal organization.

The majority of other non-government schools, sometimes known as "private" or "independent" schools, are conducted by, or are under the auspices of, various religious denominations, particularly the Church of England, Presbyterian, and Methodist Churches. Others are conducted by the Baptist, Lutheran, Congregational, and Seventh-day Adventist Churches and by smaller religious groups. There are Jewish schools in several capital cities. A few non-government schools, including some of the foremost, are undenominational and conducted under the auspices of corporate bodies.

The methods adopted by the educational authorities to ensure an acceptable standard of education at non-government schools vary from State to State. In New South Wales, Victoria, Western Australia, and Tasmania, these schools are regularly inspected. In Victoria and Tasmania, schools and teachers must be registered. In Queensland, eight grammar schools, which exist by statutory authority and are subsidized by the State, are subject to annual inspection. Other non-government schools in Queensland, and also those in South Australia, are not subject to inspection.

The principals of a number of the larger non-government schools have formed organizations with both State and Australia-wide coverage, namely, the Headmasters' Conference of Australia and the Headmistresses' Association of Australia.

2. *Schools and Courses.*—(i) *Primary Education in Government Schools.* Though school attendance is not compulsory until the age of six, most Australian children begin school when they are five, attending infants' schools or infants' classes attached to a primary school. In some States the first year in the infants' department is known as "kindergarten".

The emphasis in infants' classes, which occupy two or three years, is on general development, play activities and the informal aspects of education, with a gradual shift towards more formal activities in the second and third years. Creative expression through drawing, dancing, handiwork, dramatization, painting and similar activities is encouraged. Attention is given to speech training and to activities with music.

At the end of their infants' school training most children are able to read with some fluency, carry out simple arithmetical operations founded on the basic number facts, and write in pencil. In addition, they have acquired elementary skills in art, music and the like.

At about the age of eight most children pass into the primary school proper, where they usually spend four or five years. Primary schools are normally provided when and where there is sufficient population to justify them. Irrespective of the size or the location of the school, standards of tuition do not vary appreciably, because teachers within a State follow similar courses of training and transfer freely between metropolitan and country areas.

The Education Departments prescribe syllabuses of instruction, which are drawn up with the assistance of expert committees. The primary syllabuses have an emphasis on basic subjects like reading, writing, arithmetic, social studies, and oral language, but the teacher has some freedom to modify courses to suit local circumstances and the varying abilities of his students.

Children attend primary schools in their own districts, usually within walking distance of their homes, on five days each week. The school day is broken up into three or four sessions by a lunch break and by a morning and sometimes an afternoon recess. The total period of instruction is 4½ to 5 hours' daily with individual subject lessons lasting 20 to 30 minutes. Periods are set aside for physical education and sport. One teacher generally has charge of a class and teaches it all the subjects set out in the curriculum for the particular grade.

Pupils do not, as a rule, sit for a public examination during or at the end of their primary course, and progression from primary to secondary school is automatic. Allocation to particular schools or particular courses is based on the recommendations of the headmaster, general ability tests, tests of achievement in the basic subjects and parents' wishes. In South Australia pupils may proceed to secondary school on receiving the Progress Certificate, which is awarded on satisfactory completion of the seventh grade, the highest grade at primary level.

(ii) *Secondary Education in Government Schools.* The age of transfer from a government primary to secondary school is usually between 12 and 13. Most secondary schools are co-educational, although separate schools for boys and girls are not uncommon in capital cities.

In the cities and larger country centres secondary courses are provided in separate schools from primary courses, but in less populous areas secondary classes sometimes share buildings with primary classes.

The secondary student takes up new studies such as foreign languages and technical or commercial subjects, and moves on to more specialized studies in natural and social sciences and mathematics. The study of basic subjects begun in primary school is continued. The actual subjects studied depend on the ability of the pupil and the type of school. A school day is divided into "periods" and the children are taught by a number of teachers, each specializing in a particular subject or group of subjects.

In the past, to meet the varying abilities and needs of students, various kinds of secondary schools were established in which different types of education were provided, although in country areas secondary schools tended of necessity to be comprehensive and offered a full range of secondary courses. But following the re-examination by expert committees in all States of the problems associated with the provision of appropriate secondary education for all, significant changes in the structure and curricula of secondary schools are taking place. In New South Wales, for example, following a committee's recommendation that the secondary curriculum should offer a core of common basic education to all students, secondary schools have become comprehensive. Pupils of different aptitudes and interests in a given locality now attend the same secondary school, undertake this core of common basic studies, and in addition specialize according to their proven abilities and interests.

The most common type of secondary school is the comprehensive or multi-purpose high school, which offers a wide range of subjects. To cater for this diversity of subjects, most high schools now have modern facilities for the teaching of domestic science, commercial subjects, woodwork and other technical subjects. In some States there are still, however, separate high schools specializing in technical, commercial or home science subjects.

In each State there are also a few separate agricultural high schools, some of them residential. The curriculum consists of general educational subjects and practical farm training. There are also "area" and "rural" schools offering up to three years of secondary study, and in some States courses in agriculture are also given at high schools.

(iii) *Primary and Secondary Education in Non-government Schools.* Non-government schools follow curricula similar to those laid down by Education Departments, and prepare their students for examinations conducted by public examining authorities. Most non-government schools are comprehensive type schools, providing a range of subjects and courses at various levels. Although there are similarities between non-government and government schools in the courses they provide, more emphasis is given to the religious training of pupils in denominational schools. A few schools, mostly Roman Catholic secondary schools, specialize in agricultural and technical courses. Non-government schools offer some facilities additional to those normally found in government schools, such as personal tuition in music, ballet, etc. A few are organized on "experimental" lines.

3. *Examinations.*—During the course of secondary education State-wide examinations are taken at two levels. The earlier examination, usually called the Intermediate or Junior Examination, qualifies pupils for entry to trade courses at technical colleges and agricultural colleges, to junior commercial positions in, for instance, insurance and banking, to nursing and secretarial courses, to lower grades of the public service and to industry. The examination at the end of the secondary school course is usually called the Leaving Examination and qualifies students for entry to teacher's colleges, the higher grades of the public service, and commercial occupations. In the majority of States the Leaving Examination is also the qualification for entry to the university, certain subjects and combinations of subjects being set down as the matriculation requirements by the respective universities.

In most States the Leaving Examination is controlled by a Board consisting of representatives of the Department of Education, the universities, non-government schools, and sometimes of other bodies such as teachers' organizations. In New South Wales, Victoria, and Tasmania, a final secondary examination is designed specifically for matriculation.

A brief description of the examinations in each State follows.

New South Wales. For pupils who commenced their secondary education in 1961 or earlier the secondary course is of five years duration with the Intermediate Certificate Examination taken after three years secondary study at about the age of 15, and the Leaving Certificate Examination taken after a further two years, at about 17. The Leaving Examination will be conducted until 1966.

Pupils commencing their secondary education in 1962 and subsequent years undertake a four-year course leading to the School Certificate Examination, and the Higher School Certificate Examination (Matriculation) after a further two years. In addition a modified form of the Intermediate examination may be taken at the end of third year by those who wish to leave school at that stage.

Victoria. The Intermediate Examination is taken at the end of the fourth secondary year, at about the age of 15, the School Leaving Examination at the end of fifth year, at 16, and the matriculation examination at the end of sixth year, at the age of 17. Pupils at approved non-government schools and certain government schools may be accredited for the Intermediate and Leaving by passing examinations set by their own schools.

Queensland. The Junior Public Examination is taken at the end of second year, at about the age of 15. The Senior Public Examination conducted by the University of Queensland is taken at the end of fourth year, at the age of 17, and matriculation is obtained on results in this examination. At the beginning of the 1964 school year a five-year secondary course was introduced. Pupils enter secondary school one year earlier than formerly, and the Junior Public Examination will be taken at the end of the third year and the Senior Public Examination at the end of the fifth year.

South Australia. The Intermediate Examination is taken at the end of the third year, at about the age of 15½. The Leaving Examination is taken at the end of the fourth year and matriculation is gained on results in this examination. A further year may be taken, leading to the Leaving Honours Examination. The Leaving Honours year is designed primarily as additional preparation for university work, although it is not compulsory for intending students of the University of Adelaide.

Western Australia. The Junior Certificate Examination is taken at the end of third year, at about the age of 15½. Students who pursue a less academic course may take the High School Certificate Examination at this level. The Leaving Certificate Examination is taken at the end of fifth year, at an average age of 17½, and matriculation is gained on results in this examination.

Tasmania. The Schools Board Certificate Examination is taken at the end of the fourth year, at about the age of 16½, and the Matriculation Examination conducted by the University of Tasmania at the end of the fifth or sixth year.

§ 2. Numbers of Schools, Teachers and Pupils

1. *General.*—The statistics which follow relate generally to schools providing education according to the primary, secondary, or both school curricula of the various State Education Departments, whether provided in government or non-government schools. Junior technical schools, correspondence schools and schools in institutional homes, hospitals and similar establishments are included. Institutions providing only pre-school education, senior technical and agriculture colleges, evening schools, continuation classes and institutions such as business colleges and coaching establishments are, as a rule, excluded.

School censuses are conducted annually, at or about the beginning of August, throughout all States and Territories of Australia. The numbers of pupils refer to enrolments at the school census date. The numbers of schools and teachers refer to the position at dates which vary from State to State and in some instances from year to year.

It has not been possible to present all figures on a uniform basis between States. However, continuity of the figures for any one State over the period of years shown has been maintained as far as possible.

Particulars relating to senior technical colleges are given in § 6. pages 703-5.

2. *Schools, Pupils, and Teachers, 1964.*—The numbers of schools and pupils for 1964 are shown in the following table.

SCHOOLS: NUMBER, PUPILS, 1964

(a) Presbyterian and Methodist Schools' Association.

The next two tables refer to the numbers of teachers in 1964. It has not been possible so far to obtain uniformity in the methods used for counting part-time teaching. For New South Wales and Australian Capital Territory government schools, part-time teachers are counted as full-time equivalents (i.e., as fractions based on the proportion of their pay to the normal full-time salary in each teaching grade) and figures for part-time teaching separate from full-time teachers are not available. In Western Australia, also, government school part-time teaching is shown in this way. As many differences in the counting of teachers remain, comparisons of teacher figures between States and systems and over years should be made with great caution.

SCHOOLS: TEACHERS, 1964(a)

State or Territory	Government schools		Non-government schools		All schools	
	Full-time	Part-time	Full-time	Part-time	Full-time	Part-time
New South Wales	(b) 24,858		6,541	1,621	n.a.	n.a.

(a) Unless otherwise indicated, the figures refer to the number of teachers employed. Teachers-in-training are generally excluded. (b) Includes part-time teaching calculated in equivalent full-time units. Separate figures for part-time teaching are not available. Casual teachers are excluded. (c) Excludes all teachers in the Technical Schools Division of the Education Department. (d) Part-time teaching calculated in equivalent full-time units. (e) Part-time teaching in equivalent full-time units was 32 units for non-government schools and 48 units for all schools. (f) Unqualified teachers and teaching assistants at mission schools are excluded.

Particulars of the average daily attendance at schools for a series of years back to 1891 may be found in earlier issues of this Year Book. For detailed statistical information in respect of schools in each State, see the Annual Reports of the respective State Education Departments.

4. Ages of Pupils.—The ages of pupils at government and non-government schools at the school census date 1964 are shown in the following table.

(a) Excludes boys and girls at certain special schools for Aborigines in Queensland, South Australia and the Northern Territory whose ages were not collected. (b) Excludes boys and girls at certain special schools for Aborigines in South Australia and the Northern Territory whose ages were not collected. However, the figures for 1964 include, for the first time, 1,804 children at government native and non-government mission schools in Queensland.

5. Grades of Pupils.—The numbers of pupils enrolled in grades in each State and Territory are shown in the following table. The grading of pupils differs for the various school systems in Australia because of the differences in curricula set by Education Departments. In addition, the methods of allocating classes to grades vary from State to State, and there are also differences in the administrative methods of aggregating grades of a more or less similar nature. The figures presented in these tables represent essentially the system of grading adopted in each different State and are therefore not comparable between States.

(a) In Victoria, children are admitted at the beginning of the school year if they will turn five years of age by 1st July of that year. The younger children may not reach grade 2 until they have been at school for two years.

(b) Pupils at certain special schools classified as primary.

(c) From the beginning of 1964, a five year secondary course was introduced so that pupils enter secondary schools one year earlier than formerly. Therefore the former primary grade VIII appears as 1st secondary, with consequent advance by one of the remaining secondary grades, compared with previous years.

(d) Pupils in special centres and classes at primary levels.

(e) Speech and hearing centres at secondary levels and special schools for Aborigines.

§ 3. Teacher Training and Recruitment

1. Teachers for Government Schools.—(i) *Recruitment.* The teacher shortage evident in past years has now been overcome to a certain extent. Some States have no difficulty in recruiting and training sufficient staff to meet the present needs of primary schools. Despite expanded training programmes the shortage of secondary school teachers has proved a greater problem, especially in mathematics and science.

State Education Departments recruit most prospective teachers for government service from students leaving schools after a secondary course. Each Department offers training awards annually on the basis of academic merit and personal suitability. The traineeships cover the cost of a teacher training course (which may include university studies) and provide a living allowance. Students are usually required to enter into a bond to serve for a specified number of years in the government schools of the State where they have trained. In some States intending teachers can obtain a scholarship at Intermediate Certificate level to enable them to complete teachers' college entrance requirements. Such an award entails a bond of service for a longer period.

(ii) *Training of Primary School Teachers.* In most States teachers for government primary schools are trained in teachers' training colleges controlled and administered by the State Education Departments. These colleges are described in para. 2, p. 725. Generally, the duration of courses for primary teachers is two years. The basic subjects taken in the various courses are history and principles of education, general and special methods of teaching in the primary school, school organization, and educational psychology. In addition, students undertake courses in English (including speech training), mathematics, handicrafts, music, art, social studies, natural science, and physical and health education. Optional subjects may include dramatic art, visual aids, and so on. Supervised practice teaching in schools and the observation of demonstration lessons form part of all training courses. Since primary teachers in Australia may be called upon at some time to teach grouped classes in a small school or a "one-teacher" school, special training for this kind of work is included in their course.

(iii) *Training of Secondary School Teachers.* Secondary teachers are normally specialists in a combination of subjects, such as English and history, modern languages, or mathematics and science. Intending secondary school teachers are normally required to complete a university degree and a year of professional training qualifying for a Diploma in Education.

The degree courses followed are usually in arts, science, or economics, with the major studies providing the essential background for future subject teaching. During the post-graduate or professional year the student takes such subjects as the history and principles of education, comparative education, educational psychology, and special teaching methods. Training also includes practice teaching under the supervision of teachers' college and university staff, and the observation of demonstration lessons.

At several Australian universities students wishing to take up teaching as a profession can receive their professional training along with the study of their teaching subjects as part of a first degree course in Education. The time taken to complete such a Bachelor of Education degree course is four years.

(iv) *Training for Specialist Teaching.* Teachers of specialist subjects, such as music, art, manual arts, domestic science, and commercial subjects, receive from two to five years' training which varies according to the institution concerned and the type of secondary school in which the teacher is to serve. In several States the shorter courses are provided wholly by the teachers' colleges. In four States, teachers of music receive their specialist training at conservatoria of music. Where the specialist course is given at an institution other than the teachers' college—e.g., at a university, technical college, or conservatorium of music—as is usual for teachers of specialist subjects in high schools, trainees are required to attend teachers' college or university lectures in education and in some cases the specialist course is followed by a year of professional training.

Courses designed to train physical education teachers are offered in universities in all States, and in three States at a teachers' college as well.

Training for teachers of agricultural subjects in secondary schools is available in five States and consists of either an agricultural college diploma or a university degree course together with professional training. In Victoria there is also a two-year agricultural college diploma course which follows on the normal two-year primary teachers' course.

Teachers of technical subjects in secondary schools may be trained in manual or industrial arts courses of two to four years' duration, at teachers' colleges, technical colleges, or, in one State, at a university. These courses include basic training in such subjects as wood and metal work, and geometrical drawing. In Victoria there is a separate Technical Teachers' College. Some teachers of trade subjects in technical schools are recruited from the ranks of qualified tradesmen engaged in industry or commerce. These teachers usually receive instruction in classroom teaching techniques and procedures upon appointment.

(v) *In-service Training.* As almost all teachers now enter the profession by way of teachers' colleges or universities, where they receive basic professional training, in-service training in Australia is directed chiefly towards keeping teachers abreast of developments and adding to their basic training.

In-service training usually takes the form of short courses held sometimes during vacations, sometimes during school-time or in the evening. In some States, in-service courses for teachers in remote areas are provided by correspondence. Courses consist of discussions and lectures given by senior staff members of Education Departments and university and teachers' college lecturers on such subjects as classroom techniques and supervision, librarianship, visual aids, music, arts and crafts, and physical education. In some States there are also in-service courses for special groups of teachers such as headmasters or teachers in one-teacher schools. In addition, district inspectors are responsible for organizing short conferences of teachers, where professional topics are discussed. Education Departments encourage teachers to pursue university courses and in some States pay the cost of courses undertaken by selected teachers.

In 1963 and 1964 groups of Australian teachers attended refresher courses in New Caledonia for Australian and New Zealand teachers of French. These courses were offered to the Australian Government by the French Government.

The official publications of the Education Departments contain articles dealing with educational theory and practice. Magazines of the teachers' organizations, which reach the majority of government teachers, also contain articles of this type.

(vi) *Status.* Most teachers in government schools are permanent public servants and have security of tenure, superannuation rights, and the right of appeal in matters of promotion. The centralized education systems and the general policy of providing fully trained teachers for both city and country areas mean that teachers are subject to transfer to any part of the State in which they serve. It is common for a teacher's first appointment to be to a country school.

In each State there is a union of State school teachers and these together form a federal body, the Australian Teachers' Federation. Their aim is to advance the teacher's status and conditions and to stimulate community interest in educational problems.

2. Training of Non-government School Teachers.—Teachers for non-government schools receive their training in a number of ways. The Roman Catholic Church staffs both its primary and secondary schools mainly with members of religious orders whose training has been obtained in conformity with the requirements of the particular order concerned. In recent years there has been a growth in the number of lay teachers being employed in Catholic schools and some training of students to become lay primary teachers has been instituted. Secondary teachers receive their academic training mostly through courses provided by Australian universities.

Other non-government schools tend to recruit their staffs from teachers who have already obtained qualifications in Australia or overseas. There are two training institutions—one each in New South Wales and Victoria—which offer courses designed principally for teaching in non-government schools. Non-government schools recruit also university graduates who are then given some guidance by senior members of the school staff.

Private students may enrol at government teachers' colleges on payment of a fee, but the number of places available is limited. Some teachers destined for non-government schools are trained in this way.

During vacations, many non-government teachers attend in-service training courses organized by Education Departments. In recent years vacation courses have been provided by bodies other than Education Departments for teachers from both government and non-government schools. For example, an independent body, the Nuclear Research Foundation, has provided such courses for teachers of science in secondary schools in New South Wales.

The training of pre-school teachers is carried out in five States in kindergarten training colleges, set up by the Kindergarten Unions. These are described in § 10, para. 3, p. 725.

§ 4. Other Aspects of School Education

NOTE.—Information relating to school medical and dental services is given in Chapter XVIII. Public Health, and particulars of School Savings Banks in Chapter XXI. Private Finance.

1. Provisions for Isolated Areas.—(i) *General.* Although the task of bringing education to isolated areas in Australia presents problems, all education authorities have aimed at providing opportunities for country children comparable to those available to city children. Country children follow the same curricula (with local adaptation, if desirable) and are under the guidance of teachers who are trained for service in country and city schools alike.

In areas where there are sufficient children of school age a "one-teacher" school may be formed with all primary grades in a single classroom under the control of the one teacher. Special training is given to teachers undertaking work of this kind. Children who complete a primary course in a one-teacher school and cannot attend a secondary school may do secondary correspondence lessons under the teacher's supervision.

In districts where a number of small centres are scattered around a larger centre or country town the tendency is to close the one-teacher schools and transport pupils each day by buses to a "consolidated" school in the larger centre. Consolidated schools provide primary instruction and from two to four years of post-primary instruction. The post-primary curriculum adopted is usually directed towards practical activities and training in subjects bearing on the primary industries of the locality.

Where a group of children is too small to warrant the establishment of a one-teacher school at public expense a "subsidized" school may be opened. The Education Department pays part of the cost and in some States appoints a teacher. Some States also administer "provisional" schools, which are completely financed by the Government but which are not large enough, or sufficiently assured of adequate continued attendance of pupils, to warrant classification as permanent schools.

(ii) *Correspondence Schools.* These have been established in each State capital city to meet the needs of children whose daily attendance at school is prevented by distance between home and school, by illness or by physical disability. The correspondence schools also cater for inmates of penal institutions, Australian children overseas, pupils of other schools in

which particular courses are not available, student teachers, members of the Defence Forces, and other adults completing their secondary education. Lessons are done with the help of a supervisor, usually a member of the child's family, and posted back to the correspondence school in the capital city, where they are corrected and returned with helpful comments. Every endeavour is made to maintain a personal link between teacher and pupil. Correspondence schools began with primary grades only, but were soon extended to cater for secondary pupils, and it is now possible to do a complete secondary course to matriculation standard by correspondence. Each year more than 20,000 students receive all or part of their instruction by correspondence.

(iii) *Schools of the Air.* These are intended to give the outback child of school age some of the benefits of school life and to supplement correspondence education. Using the two-way wireless equipment developed first by the Royal Flying Doctor Service, children hundreds of miles apart participate in the same lesson and teacher and pupils can talk directly with each other. The first School of the Air was established in 1950 at Alice Springs in the Northern Territory; it has been followed by similar schools at Broken Hill in the far west of New South Wales; at Ceduna and Port Augusta in South Australia; Cloncurry and Charters Towers in Queensland; and Meekatharra, Derby, Kalgoorlie and Port Hedland in Western Australia. These ten schools serve children in an area of a million square miles.

2. Handicapped Children.—Special provision is made for the education of physically and mentally handicapped children, both by the State authorities and by church and voluntary organizations, often working in conjunction. In many cases, where residential schools are necessary for particular groups, educational facilities and teaching staff are provided by a State Education Department, while a voluntary organization provides accommodation and accepts responsibility for the general welfare of the children. Among the facilities available are:—hospital schools for sick and crippled children; "spastic centres" for cerebral palsied children; special schools and special classes for deaf children; schools for blind children; and special schools and classes for mentally retarded children. Special schools and classes have involved the appointment of departmental specialists, the provision of special training courses, and close liaison with school health services. In some States clinics attached to hospitals, or functioning as an independent child welfare service, handle cases of personality maladjustment and work in co-operation with the psychological services of the Education Departments.

3. Educational Guidance.—Each Australian State has a comprehensive system of educational guidance administered by trained and experienced educational psychologists and backed by a system of individual pupil record cards. The functions of these services are the selection of pupils for courses at secondary level, diagnosis and guidance of atypical children, preliminary guidance and, in some States, research. The weight given to each of these functions varies from State to State, but the aim is to provide thorough educational guidance for all children.

Throughout Australia branches of the Commonwealth Employment Service co-operate with State Education Departments by giving post-school vocational guidance, using the data obtained during the school careers of the children and made available by the Education Departments. In New South Wales a similar service is also provided by the Youth Welfare Section of the State Department of Labour and Industry.

4. Research.—All State Education Departments have set up branches undertaking research directed towards departmental activities. The work of the research branches is concerned with such matters as curriculum content, new teaching methods, evaluation procedures, wastage rates and educational statistics.

5. School Broadcasting and Television.—Over the years an extensive school broadcasting system has been developed in Australia by the co-operative efforts of the Australian Broadcasting Commission and education authorities. The Australian Broadcasting Commission's Education Department is responsible for preparing and broadcasting programmes, but it draws freely on the advice and services of teachers and maintains permanent liaison with State Education Departments. It is estimated that in 1964 approximately 95 per cent. of Australian schools were equipped to receive radio lessons. In 1964 over 3,800 separate programmes were produced for school broadcasts.

School broadcasts are presented as part of the regular Australian Broadcasting Commission programmes without separate stations or wave lengths. Special efforts are made to relate the broadcasts to school work by the extensive distribution of booklets, giving details of programmes in advance, and subject notes accompanied by picture sheets, work books, and teachers' notes.

Broadcasting has proved to be a most effective way of reaching the outback children of Australia and radio lessons have been designed to supplement correspondence lessons.

The year 1964 saw a further increase in the number of schools receiving television broadcasts and in the number of programmes produced. During 1964, after consultation with the six Education Departments, the Australian Broadcasting Commission increased its output of school television programmes, especially instructional programmes in mathematics and science for secondary schools. At the same time most Education Departments began to subsidize the purchase of television sets and by the end of 1964 about 2,000 schools in Australia were making use of educational television programmes. Some 399 separate programmes were produced for telecast to schools in 1964.

6. Scholarships and Bursaries.—All States have schemes of financial assistance to school pupils, mostly at the secondary level, through scholarships or bursaries. As tuition in government schools is free, this assistance is usually in the form of maintenance allowances, both for children living with their parents and for those living away from home. These may be paid in a lump sum or in instalments throughout the year. Awards are usually made on the results of a competitive examination, and sometimes a means test is applied. Other government and private authorities, such as the Repatriation Department and the Legacy War Orphans Fund, assist special categories of pupils with their school education. Many non-government schools also award scholarships, on a competitive basis, which enable students to attend the particular schools without payment of fees.

The Commonwealth Government, with the co-operation of the State Departments of Education, has introduced a programme of secondary scholarships to encourage successful candidates to complete the final two years of secondary schooling. Ten thousand of these scholarships are awarded each year. In addition, there are 2,500 scholarships for technical education each year.

First awards were made on the basis of competitive examinations held by the Education Departments during 1964. These awards are tenable from the beginning of 1965.

7. School Transport.—All States have systems of subsidies whereby transport is made available free or at concession rates for children travelling to and from school. In some States allowances are paid if private transport has to be used.

8. School Buildings.—The great increase in the school population in the last decade led to an expansion in school building, first for infants' and primary classes and later for secondary pupils. To cope with this growth in population, it was necessary at first to make use of temporary and emergency structures, but the period of resorting to this expedient has now given way to one of consolidation and development in school building programmes. Quite large schools may be built in stages to match increase in local population in new and rapidly developing suburbs in metropolitan areas. Authorities are giving much attention to the use of new materials and especially to the planning of sites. An increasing number of schools are planned with playing fields and tennis courts. Gymnasiums which may also serve as assembly halls are included, and lighting, heating and ventilation to meet different climatic conditions are carefully planned.

During 1964-65, £5,000,000 was provided by the Commonwealth Government for the building and equipping of science laboratories in both government and non-government schools.

9. Textbooks, Materials and Other Equipment.—The State Education Departments supply government schools, free of charge, with essential equipment, including scientific apparatus, maps, blackboards, chalk and cleaning materials, and non-consumable equipment for commercial, home science and manual training. Garden tools and physical training equipment are also supplied in most States.

Readers and writing equipment for individual pupils are usually supplied free in primary schools, and several Education Departments produce monthly school magazines which are supplied free or cheaply. In primary schools (except in one State) and in secondary schools, textbooks must, however, be purchased by students. In several States schools own stocks of textbooks which are hired to students, and in one State secondary textbooks are sold at reduced prices.

Equipment such as radios, film and filmstrip projectors, pianos, duplicators, and library books is ordinarily purchased for individual schools by the parent and citizen organizations associated with them, with the assistance of subsidies from the Departments.

The design of school furniture is undergoing considerable change following research on posture and the physical measurement of children. Dual desks are now being replaced

in many schools by individual tables and chairs, provided in a range of sizes suitable to each class. In line with modern educational practice, the new type of furniture has been designed to allow more flexible arrangements of the classroom.

10. **Visual Aids.**—Visual aids are widely used in Australian education. Each of the State Education Departments has a visual education branch to handle the production and distribution of such materials. Film strips and posters are distributed free or at low cost. Films are held in central libraries and are requisitioned by schools as required for teaching purposes.

§ 5. Pre-school Education

Pre-school centres of various kinds are conducted by private individuals, church bodies and voluntary organizations such as the Kindergarten Unions. Over recent years, the Commonwealth Government, State Governments, and some municipal councils have provided an increasing amount of financial assistance and themselves maintain centres.

The Australian Pre-School Association is a federal body composed of the Kindergarten Unions and several other organizations. Its aim is to promote the development of pre-school education throughout Australia. It is also responsible for the administration of six Lady Gowrie Child Centres which were established in capital cities by the Commonwealth Government as model pre-school centres.

Centres are located in city and country areas. Programmes are adapted to suit the areas in which centres are situated. Types of pre-school centres are nursery kindergartens, crèches with full-day care for children in closely settled industrial areas, play groups and play centres, occasional care centres, and residential holiday homes.

Pre-school centres can cater only for a small proportion of children in the three to five or six year age group, but radio and television have brought a form of education within the reach of practically every pre-school child in Australia. "Kindergarten of the Air", the first programme of its kind in the world, is a session of 25 minutes broadcast every week-day over the national radio network of the Australian Broadcasting Commission. Through it, young children in hospitals, in homes in city and country towns, and in bush homesteads in the outback, perhaps many miles from any school, receive some of the advantages of pre-school training.

"Kindergarten Playtime" is a 15-minute television programme transmitted each week-day. It is based on the interests of children from three to five years and is now broadcast in all State capital cities and many country regions by the Australian Broadcasting Commission.

§ 6. Technical Education

1. **General.**—The following description of technical education refers to training in technical fields given by institutions other than secondary schools and universities. Students may proceed to this kind of training after completing three to five years at secondary school.

Each State has developed a system of technical education based on institutions set up in all the State capital cities and in many country areas. These institutions are known variously as technical colleges, technical schools, institutes of technology and schools of mines. The earliest began as local and even private ventures in the second half of the nineteenth century, but almost all of them have now come under the control of the State Governments.

The technical colleges in Queensland, South Australia, Western Australia, and Tasmania are administered by branches of the State Education Departments and are financed from the budget of the State Minister for Education. New South Wales has a separate State Department of Technical Education. In Victoria there is a dual system with a number of the older colleges controlled by their own "councils" in addition to government-controlled colleges administered by the Technical Education Branch of the Education Department. The council-controlled colleges receive government grants-in-aid and their teachers' salaries are paid by the State Government.

Australian technical colleges offer training in all the major industrial skills and in a wide variety of commercial, artistic and domestic occupations. The three main types of courses are described below.

2. **Trade Courses.**—These offer part-time training for apprentices. In developing a system of technical education, the Australian authorities were influenced by the British tradition which regards practical experience on the job as the fundamental training procedure, to be supplemented by theoretical and practical training at an appropriate school. In each of the Australian States there is an apprenticeship authority which supervises the administration of apprenticeships and an education authority which provides technical education through its technical colleges.

The time spent on training varies from three to five years in different trades and States. Between four and eight hours' instruction a week are required. Most of this takes place in the employer's time, and it is unusual for more than two hours a week to be spent in attending classes outside working hours.

3. **Certificate Courses.**—There is considerable variation between the States in the aims and organization of certificate courses. In New South Wales they provide training of a semi-professional nature in occupations for which no apprenticeship awards exist. Some of the courses are open to qualified tradesmen only. For others no occupational entry qualifications are demanded, but it is necessary to hold an Intermediate Certificate or its equivalent. The courses are usually for four years, most of them being part-time.

The Victorian certificate course is designed to develop specialized skills in a particular phase of an occupation. In the building field, for instance, there is a certificate course in architectural drafting. The courses are offered at three levels—professional certificate courses which include diploma subject-matter and can be counted towards a diploma; special short courses which are designed to increase the efficiency of people in their chosen field; and technicians' courses which give a standard of training between trade and professional courses. In general, they consist of part-time day and/or evening instruction concurrent with employment in the field, and entrance requirements are of approximately Intermediate Examination standard.

Courses in other States are mostly part-time and of two to seven years' duration. They provide a wide range of training for skilled technical and semi-professional workers and in most cases entrance is at the level of the Intermediate Examination or equivalent.

4. **Diploma Courses.**—Diploma courses are designed to provide professional training in fields such as architecture, art, building, commerce, management, public administration, manual arts, the various branches of engineering and metallurgy, and pure and applied science. They usually follow completion of a full secondary school course.

The courses consist of complete progressive units of study in which the lecture room, laboratory and workshop are closely associated. They vary from three to five years' full-time and from three to seven years' part-time study. At least one full year's employment in an appropriate occupation is usually required.

The aim of the courses is to develop highly trained technologists with the qualifications and experience required for membership of a professional institution.

5. **Other Courses.**—Most colleges provide short post-diploma and refresher courses to keep students in touch with new developments in their fields, as well as courses of general interest such as handicrafts and motor mechanics. Training in certain technical aspects of agriculture such as farm mechanics and wool classing is often given in the technical colleges. Some also offer general secondary courses to enable adults to prepare for matriculation and other public examinations.

6. **Correspondence Teaching.**—Each State has a well developed system of technical education by correspondence to extend the facilities of a metropolitan college to rural students. Entrance qualifications are identical with those for the regular classes. A major problem of correspondence work is the linking of theory with practice. This is overcome to a certain extent by holding practical sessions at appropriate training centres once or twice a year at the technical college where the correspondence school is based, or at a mobile workshop stationed for the time at a focal point within the district. In New South Wales these mobile workshops are rail cars equipped with machinery and fittings to make them self-contained training schools for engineering and other trades. Among practical courses offered by correspondence are trade drawing, fitting and machinery, welding, diesel engine operation, automotive engineering and workshop practice, and farm mechanics.

7. Colleges, Teachers and Students.—The numbers of colleges, teachers and enrolments of individual students during the years 1959 to 1963 are given in the following table.

TECHNICAL EDUCATION: COLLEGES, TEACHERS, AND ENROLMENTS

State	Colleges	Teachers			Students enrolled		
		Full-time	Part-time	Total	Males	Females	Persons

1962	209	5,848	7,441	13,289	180,038	80,821	260,859
1963	219	6,626	7,874	14,500	190,027	85,275	275,302

(a) Excludes correspondence students. (b) Includes A.C.T. (c) Number enrolled at Census. (d) Student figures are enrolments at end of year. (e) Student figures are individual enrolments. (f) Number of teaching positions. (g) In 1961 there was a transfer of classes in the hobby category to the Adult Education Board.

8. Training of Technical Instructors.—Prior to the 1939–45 War technical colleges were staffed chiefly by trained teachers in the employment of the Education Departments or technicians drawn from industry. Although some of the latter were highly qualified, the great majority had not been trained as teachers.

To preserve links with industry and trade practice, schemes have been developed which continue the recruitment of specialist tradesmen as instructors but provide also for their training in educational method and teaching techniques. In Victoria the Technical Teachers' College provides training for students with appropriate diploma or trade qualifications and suitable industrial experience. In New South Wales technical college lecturers and tradesmen-instructors receive an in-service course of teacher training in general educational theory and teaching method, while correspondence courses and visiting lecturers assist the newly appointed tradesman-instructor in country colleges. Variations of this scheme are in operation in other States. Many technical teachers, principally of academic, commercial and domestic science subjects, hold trained teacher's certificates from teachers' colleges.

§ 7. Government Expenditure on Schools and Technical Education

1. **General.**—The following tables show particulars of the total net expenditure (i.e., gross expenditure less receipts for services rendered) from certain funds on government schools, education departments and technical education. The data have been compiled on the same basis as far as differences in organization and accounting methods between States and Territories will permit.

The tables include only expenditure from the consolidated revenue funds and certain trust or special funds. They exclude loan fund expenditure; expenditure on debt charges, payroll tax and superannuation payments, in so far as it is possible to identify these items; and some items for which information cannot be obtained from the public accounts of all States.

2. **Government Schools' and Education Departments' Expenditure.**—(i) *Total Net Expenditure.* The figures relate throughout to years ended 30th June. Net expenditure per pupil relates the total net expenditure to the mean of the numbers of pupils enrolled at government schools at two subsequent school censuses. Net expenditure per head of population relates the total net expenditure to the mean population.

(ii) *Classification of Expenditure.* The following table shows, for the six States, the net expenditure on government schools and education departments classified into the following headings:—(i) Primary Education, (ii) Secondary Education, (iii) Administration, (iv) Transportation of School Children and Students, and (v) Training of Teachers. Expenditure on technical and agricultural education is excluded from the tables.

It has been necessary to estimate some items of expenditure, largely because the meanings of "primary" and "secondary" differ between States and because elementary and higher educations are sometimes given in the same school by the same teachers.

Expenditure on government schools in the Northern Territory and Australian Capital Territory is not included in the following table because the detail is not available.

GOVERNMENT EXPENDITURE ON SCHOOLS AND TECHNICAL EDUCATION 707

GOVERNMENT SCHOOLS AND EDUCATION DEPARTMENTS:
CLASSIFICATION OF EXPENDITURE

§ 8. Non-government Schools' Finance

Most Roman Catholic parochial schools charge fees, but payment is not insisted on in the case of families who cannot afford it. At the majority of non-government secondary schools, privately endowed scholarships are available in varying numbers, and reductions in fees are normally made for children of clergy or for two or more members of one family attending the same school. With these exceptions, pupils of non-government schools must pay fees.

Certain State scholarships and bursaries are tenable at approved non-government secondary schools. Since the establishment of educational systems by the State Governments, official policy has been largely against the provision of direct financial assistance to non-government schools. The eight undenominational grammar schools in Queensland, however, receive a State subsidy under "*The Grammar Schools Acts 1860-1900*". In 1956, the Commonwealth Government undertook to contribute to the interest payments on loans raised in order to build non-government secondary school accommodation in the Australian Capital Territory. This contribution is now available for both primary and secondary school buildings, extensions and additions.

As from 1964-65 the Commonwealth Government has provided assistance to non-government schools for the building and equipping of science laboratories. (*See* § 4, para. 8, p. 702.)

§ 9. Universities

1. **General.**—Students qualify for entrance to Australian universities by passing a matriculation examination in one of the States after 5 or 6 years of secondary education. Each university has its own regulations for matriculation, specifying the number and combination of subjects to be passed for admission. Students entering the universities have the choice of undergraduate study in various faculties. All universities provide also post-graduate courses of study.

The Australian universities, with their faculties, are listed below in the order of their foundation.

University of Sydney, 1850, Sydney, New South Wales: Agriculture, Architecture, Arts, Dentistry, Economics, Engineering, Law, Medicine, Science, Veterinary Science.

University of Melbourne, 1853, Melbourne, Victoria: Agriculture, Applied Science, Architecture, Arts, Dental Science, Economics and Commerce, Education, Engineering, Law, Medicine, Music, Science, Veterinary Science.

University of Adelaide, 1874, Adelaide, South Australia: Agricultural Science, Architecture and Town Planning, Arts, Dentistry, Economics, Engineering, Law, Medicine, Music, Science, Technology.

University of Tasmania, 1890, Hobart, Tasmania: Agricultural Science, Arts, Commerce, Education, Engineering, Law, Science.

University of Queensland, 1909, Brisbane, Queensland: Agriculture, Architecture, Arts, Commerce and Economics, Dentistry, Education, Engineering, Law, Medicine, Science, Veterinary Science.

University of Western Australia, 1912, Perth, Western Australia: Agriculture, Arts, Dental Science, Economics and Commerce, Education, Engineering, Law, Medicine, Science.

Australian National University, 1946, Canberra, Australian Capital Territory.—Institute of Advanced Studies: John Curtin School of Medical Research, Research School of Physical Sciences, Research School of Social Sciences, Research School of Pacific Studies. School of General Studies (formerly Canberra University College, established in 1930): Arts, Economics, Law, Oriental Studies, Science.

University of New England, 1954 (formerly New England University College, established in 1938), Armidale, New South Wales: Agricultural Economics, Arts, Economics, Rural Science, Science.

University of New South Wales, 1958 (formerly the New South Wales University of Technology, established in 1948), Sydney, New South Wales: Applied Science, Architecture, Arts, Commerce, Engineering, Medicine, Science.

Monash University, 1958, Melbourne, Victoria: Arts, Economics and Politics, Engineering, Medicine, Science.

University of Newcastle, 1965 (formerly Newcastle University College, established in 1951), Newcastle, New South Wales; Applied Science, Architecture, Arts, Commerce, Engineering, Science.

Each of the universities was established by a parliamentary Act as an autonomous institution, with its own Governing Council or Senate. Nevertheless, the Australian universities receive substantial government support from both State and Commonwealth sources, only part of their income being derived from students' fees, private donations and bequests.

There are also two university colleges. Townsville University College, founded in 1961, is a constituent part of the University of Queensland. It offers some courses in the faculties of Agriculture, Arts, Commerce and Economics, Dentistry, Education, Engineering, Law, Medicine, Science and Veterinary Science. Wollongong University College was opened in 1962 and is affiliated with the University of New South Wales. It offers some courses in the faculties of Arts, Commerce, Engineering, and Science.

2. Organization of Courses.—Bachelor degree courses are from three to six years in length, depending on the faculty, and for the majority full-time attendance is required. Certain courses, however, may also be undertaken by part-time or evening students. The university academic year begins in March and finishes in early December. At most universities two short vacation periods divide the year into three terms, but there are four terms in some universities.

Several universities make provision for external tuition, whereby students living away from university towns may take a restricted number of courses by correspondence. The University of Queensland has developed a system of correspondence tuition which now caters not only for students within the State but for those in the Northern Territory, Papua and New Guinea, adjacent Pacific islands and Asian countries. External students living in Queensland receive tutorial assistance at university centres in the principal country towns.

The University of New England's Department of External Studies offers a wide range of subjects for external study, leading to the degrees of Bachelor of Arts, Bachelor of Letters, the Diploma of Education, and the Diploma in Educational Administration. External students must attend short annual residential schools of instruction in their subjects, usually held at the university.

Post-graduate courses leading either to a Master's degree or to a Doctorate are available at all universities. Facilities cover the humanities, social sciences, pure and applied sciences.

Additional courses are constantly being introduced by the universities at both the undergraduate and the post-graduate level, to cover new fields of knowledge and specialization. Announcements of the following new courses were made in 1964: at the University of New South Wales, Master of Technology in Industrial Engineering, Bachelor of Science in Sheep and Wool Technology and Graduate Diploma in Civil Design; at the University of New England, Diploma in Farm Economics; at the University of Melbourne, Master of Business Administration; at Monash University, Bachelor of Jurisprudence; at the University of Queensland, Diploma in Computing; and at the University of Adelaide, Bachelor of Pharmacy and Bachelor of Applied Science in Mineral Engineering.

A faculty of Medicine has been established in the University of Tasmania from the beginning of 1965.

3. Research.—A wide range of research work and training in research techniques is carried out by the universities as part of their normal functions. Post-graduate students and members of university staff are engaged in research, both as part of their work for post-graduate degrees and also as part of group and departmental research programmes. Support for research in universities is derived from public and private sources, including funds and foundations established to encourage research in a particular field.

4. University Expansion and Development.—Since the 1939-45 War, the Australian universities have had to face greatly increased demands on their facilities, firstly from large numbers of ex-service personnel in the immediate post-war years and later from greatly increased numbers of students leaving secondary schools each year. By 1964, the total enrolments in Australian universities had reached a figure of 76,188 compared with an early post-war peak of 32,453 in 1948.

To assist the universities to cope with these demands, increasing co-operation between the Commonwealth Government and the State Governments in university finance became necessary. The Commonwealth Government set up a Committee on Australian Universities, whose 1957 report ("The Murray Report") led to more finance becoming available to universities and to the setting up of a permanent body, the Australian Universities Commission, to advise the Commonwealth Government on university development. In the years since the Murray Report, the following major developments have taken place in the Australian university structure:—the University of New South Wales was created from the earlier University of Technology in 1958; in the same year, Monash University was established in Victoria; in 1960, the Australian National University was reconstituted, combining both undergraduate and post-graduate facilities, and now consists of the Institute of Advanced Studies and the School of General Studies created from the Canberra University College; the University of Queensland set up the University College of Townsville in 1961; the University of New South Wales established the Wollongong University College in 1962; and in 1965 the University of Newcastle was created from the Newcastle University College.

The New South Wales Government is proceeding with plans for the construction of a fifth university, to be called Macquarie University, on a site at North Ryde. It is intended that the new university should be opened not later than 1967.

During 1964, the Victorian Government announced plans for the extension of facilities for tertiary education. These plans include the development of a third university in the metropolitan area, to be named La Trobe University, and the extension of the Ballarat School of Mines to teach the humanities and to provide degree courses.

In 1966 the University of Adelaide plans to open additional facilities at Bedford Park where four schools will be established initially in Biological Sciences, Languages and Literature, Physical Sciences, and Social Sciences.

Despite rapid expansion, the Australian universities are still faced with a problem in providing tuition for all students who reach matriculation standard. As a result, several universities have found it necessary to impose quotas on enrolments in their courses.

During 1961 the Commonwealth Government set up a committee to consider the pattern of tertiary education in relation to the needs and resources of Australia and to make recommendations to the Australian Universities Commission on the future development of tertiary education. The first two volumes of the Committee's Report were made public early in 1965.

5. Teaching and Research Staff.—The following table shows particulars of the teaching and research staff of the universities during 1964.

UNIVERSITIES: TEACHING AND RESEARCH STAFF, 1964

University	Teaching and research staff(a)					Research only staff(a)		
	Full-time				Part-time (b)	Full-time	Part-time (c)	
	Professors	Associate professors and readers	Senior lecturers and lecturers	Assistant lecturers, demonstrators, tutors and teaching fellows				Total
Australian National University ..	23	14	113	37	187	68	549	6
Sydney ..	83	63	479	196	821	1,172	293	2
New South Wales ..	63	75	544	124	806	717	108	..
New England ..	19	23	138	81	261	22	41	..
Melbourne ..	70	82	475	153	780	968	201	16
Monash ..	36	4	173	92	305	139	22	..
Queensland ..	47	52	367	199	665	486	100	2
Adelaide ..	62	47	286	75	470	384	199	8
Western Australia ..	41	38	192	26	297	323	135	4
Tasmania ..	19	11	80	21	131	79	27	7
Total ..	463	409	2,847	1,004	4,723	4,358	1,675	45

(a) Filled positions. Teaching and research staff includes all staff with teaching functions, but excludes Research only staff which is shown separately. (b) Teaching hours in units of 100 hours per annum.

(c) In equivalent full-time units of 35 hours per week.

The next table gives details of the teaching and research staff of Australian universities for each year from 1961 to 1964.

UNIVERSITIES: TEACHING AND RESEARCH STAFF, SUMMARY, AUSTRALIA

Year	Teaching and research staff(a)						Research only staff(a)	
	Full-time					Part-time (b)	Full-time	Part-time (c)
	Professors	Associate professors and readers	Senior lecturers and lecturers	Assistant lecturers, demonstrators, tutors and teaching fellows	Total			
1961	337	289	2,142	628	3,396	3,199	1,163	30
1962	363	330	2,438	770	3,901	3,472	1,369	27
1963	404	374	2,663	848	4,289	3,847	1,481	35
1964	463	409	2,847	1,004	4,723	4,358	1,675	45

(a) Filled positions. Teaching and research staff includes all staff with teaching functions, but excludes Research only staff which is shown separately. (b) Teaching hours in units of 100 hours per annum. (c) In equivalent full-time units of 35 hours per week.

6. Students.—(i) *Total*. The numbers of students enrolled for courses at the universities for the year 1964 are shown in the following table.

UNIVERSITIES: STUDENTS ENROLLED, 1964

University	Degree courses	Diploma courses		Certificate courses	Miscellaneous subjects (a)	Adjusted total(b)
		Post-graduate	Sub-graduate			
Australian National University ..	2,257	..	1	..	165	2,345
Sydney	14,489	638	236	..	242	15,503
New South Wales	9,990	242	293	..	452	10,957
New England	3,190	311	43	3,513
Melbourne	12,527	102	602	..	875	13,892
Monash	2,883	38	2	2,923
Queensland	10,854	73	590	488	419	12,424
Adelaide	6,318	364	1,685	23	256	8,203
Western Australia	4,361	125	96	4,565
Tasmania	1,450	91	69	117	227	1,863
Total	68,319	1,984	3,476	628	2,777	76,188

(a) Includes *ad hoc* courses.

(b) Adjustment made for students enrolled for more than one course.

Of the students enrolled in 1964, 56,424 were males and 19,764 females. Included in those enrolled for degrees were 5,383 enrolled for higher degree courses—Australian National University, 511; Sydney, 1,451; University of New South Wales, 697; New England, 186; Melbourne, 727; Monash, 149; Queensland, 616; Adelaide, 535; Western Australia, 410; and Tasmania, 101.

The following table shows the numbers of students enrolled at Australian universities for each of the years from 1960 to 1964.

UNIVERSITIES: STUDENTS ENROLLED, AUSTRALIA

Year	Degree courses		Diploma courses		Certificate courses	Miscellaneous subjects (a)	Adjusted total(b)
	Higher degrees	Bachelor degrees	Post-graduate	Sub-graduate			
1960	2,770	39,166	1,032	6,861	1,609	2,514	53,391
1961	3,170	(c) 46,338	1,328	(c) 3,379	1,760	2,461	57,672
1962	3,814	50,757	1,622	3,307	1,779	2,849	63,317
1963	4,551	56,077	1,764	3,349	1,424	2,504	69,074
1964	5,383	62,936	1,984	3,476	628	2,777	76,188

(a) Includes *ad hoc* courses. (b) Adjustment made for students enrolled for more than one course. (c) From 1961, a new degree of B.Sc. (Technology) replaced many sub-graduate diploma courses at the University of New South Wales.

(ii) *New Students Enrolled.* The numbers of new students enrolled for courses at the universities during the year 1964 are shown in the following table.

UNIVERSITIES: NEW STUDENTS ENROLLED, 1964

University	Degree courses	Diploma courses		Certificate courses	Miscellaneous subjects (a)	Adjusted total(b)
		Post-graduate	Sub-graduate			
Australian National University ..	888	129	984
Sydney	3,522	192	106	..	68	3,886
New South Wales	3,008	98	43	..	242	3,390
New England	964	130	10	1,097
Melbourne	2,848	15	171	..	306	3,289
Monash	1,600	1	1	1,602
Queensland	2,873	7	194	117	194	3,385
Adelaide	1,618	10	443	2	35	2,086
Western Australia	1,165	4	22	1,190
Tasmania	456	5	14	39	111	619
Total	18,942	462	971	158	1,118	21,528

(a) Includes *ad hoc* courses. (b) Adjustment made for students enrolled for more than one course.

Of the new students enrolled in 1964, 14,747 were males and 6,781 females. Included in those enrolled for degrees were 603 enrolled for higher degree courses—Australian National University, 169; Sydney, 53; University of New South Wales, 104; New England, 24; Melbourne, 57; Monash, 65; Queensland, 39; Adelaide, 45; Western Australia, 29; and Tasmania, 18.

The following table shows the numbers of new students enrolled at Australian universities during each of the years from 1960 to 1964.

UNIVERSITIES: NEW STUDENTS ENROLLED, AUSTRALIA

Year	Degree courses		Diploma courses		Certificate courses	Miscellaneous subjects	Adjusted total(a)
	Higher degrees	Bachelor degrees	Post-graduate	Sub-graduate			
1960	278	11,646	223	1,971	521	1,113	15,685
1961	349	(b) 13,254	231	(b) 884	605	1,040	16,263
1962	475	14,487	279	926	455	1,149	17,626
1963	538	15,717	387	944	236	960	18,746
1964	603	18,339	462	971	158	1,118	21,528

(a) Adjustment made for students enrolled for more than one course. (b) From 1961, a new degree of B.Sc. (Technology) replaced many sub-graduate diploma courses at the University of New South Wales.

(iii) *Full-time, Part-time and External Students.* The following table classifies students at each university in 1964 according to whether they were studying full-time, part-time or externally.

UNIVERSITIES: FULL-TIME, PART-TIME AND EXTERNAL STUDENTS, 1964

University	Full-time	Part-time	External	Total
Australian National University	1,163	1,182	..	2,345
Sydney	11,734	3,769	..	15,503
New South Wales	4,760	6,146	51	10,957
New England	1,143	123	2,247	3,513
Melbourne	8,844	4,409	639	13,892
Monash	2,572	351	..	2,923
Queensland	5,606	4,330	2,488	12,424
Adelaide	4,721	2,952	530	8,203
Western Australia	2,697	1,483	385	4,565
Tasmania	1,087	571	205	1,863
Total	44,327	25,316	6,545	76,188

The next table shows the numbers of full-time, part-time and external students enrolled at Australian universities during each of the years from 1960 to 1964.

UNIVERSITIES: FULL-TIME, PART-TIME AND EXTERNAL STUDENTS, AUSTRALIA

Year	Full-time	Part-time	External	Total
1960	31,590	16,304	5,497	53,391
1961(a)	30,834	21,048	5,790	57,672
1962	34,723	22,430	6,164	63,317
1963	38,931	23,752	6,391	69,074
1964	44,327	25,316	6,545	76,188

(a) The figures of full-time and part-time students for 1961 and following years are not comparable with those shown for previous years, as from 1961 all universities used a uniform classification of students which differed from that used previously by some universities.

(iv) *Assistance to Students.* The Commonwealth Government, through the Commonwealth Scholarships Board, grants undergraduate and post-graduate scholarships to university students. (Details of the Commonwealth Scholarship Scheme are given on page 727.) Commonwealth, State and local governments also award cadetships and other assistance to their employees. Foreign students are assisted by the Commonwealth Government under arrangements such as the Colombo Plan. The Universities themselves grant exhibitions and scholarships as well as special assistance to teachers, etc.

The following table gives details of students assisted at each university in 1964.

UNIVERSITIES: ASSISTED STUDENTS, 1964

University	Source of assistance					Type of course	
	Commonwealth Government	State Governments	Universities	Other	Adjusted total (a)	Higher degrees	Other
Australian National University ..	533	..	773	44	1,181	403	778
Sydney ..	5,256	2,725	3,579	167	8,613	520	8,093
New South Wales ..	1,824	955	1,763	753	4,427	362	4,065
New England ..	365	450	1,366	51	2,209	149	2,060
Melbourne ..	4,434	2,604	3,850	120	8,694	507	8,187
Monash ..	644	882	194	43	1,763	140	1,623
Queensland ..	2,826	904	449	283	4,462	320	4,142
Adelaide ..	1,797	2,023	1,592	160	5,064	354	4,710
Western Australia ..	1,204	703	105	97	2,051	119	1,932
Tasmania ..	478	428	94	53	952	39	913
Total ..	19,361	11,674	13,765	1,771	39,416	2,913	36,503

(a) Adjustment made for students assisted from more than one source.

The next table shows the numbers of assisted students at Australian universities in the years 1960 to 1964.

UNIVERSITIES: ASSISTED STUDENTS, AUSTRALIA

Particulars	1960	1961	1962	1963	1964
Government assistance ..	20,345	22,181	24,613	26,670	31,035
University assistance ..	6,649	9,025	10,710	12,063	13,765
Other assistance ..	2,648	2,726	1,553	1,620	1,771
Adjusted Total(a) ..	26,061	28,953	31,041	33,678	39,416

(a) Adjustment made for students assisted from more than one source.

(v) *Resident Students.* In 1964, 5,940 full-time and 311 part-time students were in residence at affiliated colleges, halls of residence and university hostels. The 6,251 students in residence were distributed as follows:—Australian National University, 463; Sydney, 838; New South Wales, 278; New England, 913; Melbourne, 1,443; Monash, 141; Queensland, 1,044; Adelaide, 369; Western Australia, 520; and Tasmania, 242. There were 4,635 male students and 1,616 female students in residence.

7. *Degrees Conferred, etc.*—The following table shows the numbers of degrees conferred and diplomas and certificates granted for males and females separately at each university during the year ended 31st July, 1964.

UNIVERSITIES: DEGREES CONFERRED, AND DIPLOMAS AND CERTIFICATES GRANTED, YEAR ENDED 31st JULY, 1964

(a) Figures for 1962 and later years refer to degrees conferred during the 12 months ended July. Figures for 1960 and 1961 refer to degrees conferred during the calendar year. Details of degrees conferred during the five months ended December, 1961, which are included in both 1961 and 1962 figures shown in the table, are as follows: Arts, 129; Music, 10; Law, 59; Commerce and Economics, 45; Education, 18; Science, 97; Architecture and Town Planning, 9; Engineering, 56; Dentistry, 8; Medicine, 207; Physiotherapy, 1; Agriculture and Agricultural Science, 15; Forestry, 3; Veterinary Science, 25; total degrees, 682, including 10 Higher Doctorates, 34 Ph.D.'s, 86 Master's Degrees and 552 Bachelor's Degrees.

8. Finance.—(i) *General.* Australian universities are incorporated by statute. Since their establishment they have come to depend greatly on government grants for their income. In recent years large amounts have been required for new buildings, as well as for current expenditure to provide staff and equipment to cope with increased student enrolments. In 1963 income other than from State and Commonwealth grants, including student fees, amounted to little more than one-fifth of the total income. Income from non-government sources includes grants, mainly for research purposes, from businesses, international foundations, and private individuals. Some income is also received from endowments.

(ii) *Financial Assistance from the Commonwealth Government.* (a) *General.* Prior to 1939 Commonwealth assistance was almost entirely concerned with research projects carried out by or in collaboration with the universities. During and since the 1939–45 War the Commonwealth extended assistance to university students, at first to increase the number of highly trained people required for the war effort, then with the object of rehabilitating ex-servicemen, and finally as a social service benefit to the community. For the purpose of reconstruction training, the Commonwealth Government made available to the universities approximately £1 million for buildings and £500,000 for equipment.

Following a report submitted by a committee of inquiry appointed to report on university finances and requirements, the Commonwealth, since 1951, has made matched grants to the States for recurrent expenditure on university purposes. Since 1958 the Commonwealth has also assisted with the capital needs of the universities for building projects and for equipment, and provided unmatched recurrent grants and grants for the building programmes of residential colleges affiliated with universities. In the 1961–63 triennium the Commonwealth matched State grants for buildings at teaching hospitals and in 1960 instituted grants for special research projects at universities. As well as making grants available for State universities, the Commonwealth has continued to support the university institutions for which it is responsible.

In 1959, following the Report of the Committee on Australian Universities, the Commonwealth Government established the Australian Universities Commission under the *Australian Universities Commission Act 1959*. The Commission's principal functions are to advise the Prime Minister on financial assistance to Commonwealth universities and to States in relation to their universities and also on the balanced development of Australian universities. The Commission commenced its work in July, 1959. Since its establishment the Commission has produced two reports; the first, presented in October, 1960, and covering the years 1961 to 1963, recommended Commonwealth grants totalling £110 million for State universities. The Commission's second report was presented in August, 1963, and recommended Commonwealth grants totalling more than £151 million for State universities for the period 1964 to 1966. The *Universities (Financial Assistance) Act 1963* gave effect to the major financial recommendations contained in the Commission's second report.

(b) *Commonwealth Grant for Recurrent Expenditure in Universities.* This is a continuation of matched grants provided since 1951. The maximum amount available in 1964 is shown in the following table. These amounts have been adjusted to allow for the recommendations of the Report of the Inquiry into Academic Salaries by Mr. Justice Eggleston. However, the amounts are subject to further amendment when the full cost is known.

STATE UNIVERSITIES, ETC.: COMMONWEALTH GRANT FOR RECURRENT EXPENDITURE, 1964

University, etc.	Amount
	£'000
Sydney	2,311
New South Wales(a)	2,212
New England	675
Melbourne	1,922
Monash	1,032
Queensland(b)	1,488
Adelaide	1,292
Western Australia	895
Tasmania	366
South Australian Institute of Technology	114
Total	12,307

(a) Includes grants for the University Colleges at Wollongong and Newcastle (the University of Newcastle as from 1st January, 1965). (b) Includes grant of £80,000 for the University College at Townsville.

Since 1961, matched grants have been made on a basis of £1 of Commonwealth money for every £1.85 of income received by a university from fees and State grants. From 1951 to 1960 the matching ratio was, in general, £1 to £3.

(c) *Commonwealth Grants for the Teaching and Administrative Costs of Residential Colleges.* From 1964 the grants consist of unmatched Commonwealth payments each year of £2,500 (previously £2,000) to each college affiliated with or administered by a university, plus the sum of £15 for each resident student, and a further £5 for each non-resident student receiving tutorial assistance. The Commonwealth total grant paid in 1964 was £215,575.

(d) *Commonwealth Grants for Selected Building Projects in Universities.* Those grants, for the period 1964 to 1966, are shown in detail in the Second Schedule to the 1963 Act. Payments are made up to a given maximum for each project, on the basis of £1 from the Commonwealth for every £1 of State grants. From 1964 there was a change in this grant in that, where appropriate, an allowance for furnishings and equipment is included in the building grants for each project. Previously, separate grants were provided for these items.

Also, from 1964, the schedule showing grants for university building projects includes grants for university computing facilities, but grants for the erection and alteration of buildings for halls of residence administered by universities are shown elsewhere. The total Commonwealth grant under this heading for each University is shown in the following table.

STATE UNIVERSITIES, ETC.: COMMONWEALTH GRANTS FOR BUILDING PROJECTS, ETC., 1964 TO 1966

University, etc.	Amount
	£'000
Sydney	2,340
New South Wales	1,940
New England	676
Newcastle	460
Macquarie, New South Wales	550
Melbourne	2,406
Monash	2,235
La Trobe, Victoria	550
Queensland	1,508
Adelaide	1,634
Western Australia	960
Tasmania	468
 South Australian Institute of Technology	 331
 Total	 16,058

(e) *Commonwealth Grants for Special Research Projects in Universities.* Under the 1963 Act special provision is made to assist universities to develop and extend their research programmes, including the purchase of equipment. Under the 1961-1963 legislation grants were provided for equipment only. The grants are available on the basis of £1 from the Commonwealth for every £1 of State grants. For the 1964 to 1966 triennium the Australian Universities Commission recommended a Special Research Grant of £5,000,000 for the State Universities. To the end of 1964, £1,000,000 had been allocated under the the legislation. The maximum amount available to each university is shown in the following table.

STATE UNIVERSITIES: COMMONWEALTH GRANTS FOR SPECIAL RESEARCH PURPOSES, 1964

University	Amount
	£'000
Sydney	80
New South Wales(a)	63
New England	37
Melbourne	80
Monash	38
Queensland	55
Adelaide	55
Western Australia	55
Tasmania	37
 Total	 500

(a) Includes the former Newcastle University College.

(f) *Commonwealth Grants for Buildings for Halls of Residence and Affiliated Residential Colleges.* Under the 1963 Act an amount representing the grant available to each university for both types of student residence is shown in the Fourth Schedule. Previously, grants for buildings for university-administered halls of residence were included in the Schedule showing university building projects. Payments were made up to a given maximum for each project. For halls of residence the grant comprised £1 from the Commonwealth for every £1 of State grants. For affiliated residential colleges Commonwealth grants were up to one-half of the cost of a project, the other half being met from college or State Government sources. For the 1964-66 triennium, however, payments are made up to a given maximum for each project on the basis of £1 from the Commonwealth for every £1 of Residential college funds and State grants. The maximum Commonwealth grants available for each State university in the 1964-66 triennium are shown in the following table.

STATE UNIVERSITIES: MAXIMUM COMMONWEALTH GRANTS FOR BUILDINGS FOR HALLS OF RESIDENCE AND AFFILIATED RESIDENTIAL COLLEGES, 1964 TO 1966

University							Amount
							£ 000
Sydney	316
New South Wales	294
New England	475
Newcastle	110
Melbourne	280
Monash	605
Queensland	387

Total	22,652	19,563	4,266	5,130	2,141	53,752

(a) Includes funds expended by various government departments and other bodies in respect of universities but not controlled by the universities. (b) In the case of endowments, only income from property and other investment of these endowments is included. The treatment of donations depends on the terms of the gift, etc. When the capital sum is specified to be expended over several years, only the portion of the capital sum allocated to each year is shown as income in that year, but if the capital sum is available for spending without limitation as to time, the full amount is recorded as income in the year it is received, irrespective of whether it is spent in that year or not. The capital value of land and buildings donated to the universities is not recorded as income, unless these properties are sold, in which case the amounts realized are included. (c) Excludes fees collected on behalf of student unions. (d) Income received specifically for new buildings, major alterations and additions to buildings, installation of services, purchase of land and buildings and major equipment.

(iv) *University Expenditure.* The following table summarizes the expenditure of each university in 1963.

UNIVERSITIES: EXPENDITURE, 1963
(£'000)

University	Teaching and research	Administration and general overhead	Libraries	Buildings, premises, grounds	Sundry auxiliary expenditure	Total expenditure
Australian National University	3,430	473	203	2,691	213	7,010

(a) Figures for 1961, 1962 and 1963 were compiled on a new basis and totals for individual universities are not necessarily comparable with previous years.

§ 10. Other Tertiary Institutions

1. **General.**—In addition to the degree-granting universities, various other institutions offer courses at tertiary level which may lead to a certificate, diploma, or similar qualification. Included among these institutions are technical colleges, which have been described in § 6, page 703.

2. **Teachers' Colleges.**—The State Education Departments conduct teachers' colleges to train teachers for government schools. There are eight colleges in New South Wales, twelve in Victoria, three in South Australia, and two each in Queensland, Western Australia and Tasmania, making a total of 29 colleges.

These colleges provide a variety of teacher training courses, including those for primary teachers, secondary teachers, and those specializing in teaching infants, handicapped children, art, music, and handicrafts. A description of the courses is given in § 3, page 698.

Teachers' colleges are co-educational and, in the larger States, have been established in country areas as well as in cities. Students entering them have completed their secondary schooling and are usually about 17 years of age. The principal and staff of the colleges are responsible to the Director of Education in the State concerned.

3. **Kindergarten Training Colleges.**—The Kindergarten Unions in all States except Tasmania have established teacher training colleges providing three-year courses. The minimum entrance age is usually 17 years and the Leaving Certificate is required for admission. In addition, in New South Wales, the Sydney Day Nursery and Nursery Schools' Association maintains a training college.

The pre-school teacher training courses in these colleges are all full-time diploma courses and are similar in content and standards. Teachers are trained for work with children between the ages of 2 and 7 years, and the training courses include the study of general educational theory, the theory of pre-school education, general cultural subjects, and art and crafts (including music). In addition, training is given in practical pre-school teaching.

4. **Agricultural Colleges.**—There are seven State agricultural colleges—Hawkesbury and Wagga (New South Wales), Longerenong and Dookie (Victoria), Gatton (Queensland), Roseworthy (South Australia), and Muresk (Western Australia), offering a comprehensive course of two or three years leading to the award of a Diploma in Agriculture or in a specialized field such as animal husbandry, dairy manufactures, and horticulture. The School of Horticulture, Burnley, Victoria, also offers a three-year diploma course.

Agricultural colleges are government institutions administered by the State Departments of Agriculture in New South Wales, Victoria, South Australia and Western Australia and by the State Department of Education in Queensland. Their purpose is to teach the principles and practices of agriculture and its specialized branches to those intending to take up farming as a career and to those who propose to enter such occupations as agricultural field officer or technical officer in food processing industries.

The minimum entrance standard is the Intermediate Certificate or equivalent examination in all cases except Western Australia where it is the Sub-leaving Examination. As entry is competitive, there is a tendency for students to hold better than the minimum qualifications. All the colleges are fully residential and the age at which students may enter them varies from 15 to 17 years, depending on the college and the type of course.

In addition to their formal courses of training, agricultural colleges offer short courses of from three days to one month to farmers and teachers in country districts.

5. **Schools of Forestry.**—From 1965 tertiary training in forestry, previously carried out by the Australian Forestry School, Canberra, will be provided by a Department of Forestry in the Faculty of Science within the Australian National University's School of General Studies. A four-year degree course will be offered. Training in forestry is also carried out at the Creswick School of Forestry in Victoria.

6. **Conservatoria of Music.**—There are conservatoria of music in four States. Those in Victoria and South Australia are attached to the Universities of Melbourne and Adelaide respectively. The New South Wales State Conservatorium and the Queensland Conservatorium are controlled by the respective Departments of Education.

All four conservatoria offer diploma courses for which matriculation status is not required; at Melbourne and Adelaide degree courses are also available to matriculated students.

7. **Service and Administrative Colleges.**—Each of the three armed services maintains institutions for the training of officers. Descriptions of these can be found in Chapter XXVII. Defence. The Royal Military College, Duntroon, Australian Capital Territory, has arrangements with universities whereby its graduates may enter university courses at an advanced stage. The Royal Air Force Academy, Point Cook, Victoria, has evolved from the Royal Australian Air Force College, which was established in 1948 as a tertiary training centre to provide a professional education for permanent officers of the Air Force. It is affiliated to the University of Melbourne and has adopted that University's Bachelor of Science course leading to the degree of Bachelor of Science (Melbourne). The Academy is also permitted to present students for higher degrees in science and the degree of Doctor of Philosophy.

The Australian School of Pacific Administration, controlled by the Department of Territories, trains students in the various aspects of service and administration in Commonwealth Territories, including teaching.

8. **The Australian Administrative Staff College.**—Opened in 1957, the Australian Administrative Staff College is a private organization working in close co-operation with government and other public bodies, the armed services and the trade union movement. It was founded, and is owned, by a large group of leading Australian companies and has its permanent premises at Mount Eliza, near Melbourne.

The College conducts residential courses for administrators to further the study of the problems which arise in managerial work.

§ 11. Commonwealth Activities in Education

1. **General.**—(i) *Fields of Activity.* Although education is primarily the responsibility of the States, the Commonwealth is engaged in educational activities incidental to its responsibilities in such areas as defence, external relations, immigration and social services. It is also responsible for public education in its own Territories. Activities of the Commonwealth in education are not administered by a single authority but are divided among a number of departments and instrumentalities. Education in Commonwealth Territories is described in Chapter V. The Territories of Australia; various schools and colleges for the defence services are treated in Chapter XXVII. Defence; and other activities which may be considered broadly as educational are described in the section on Broadcasting and Television and elsewhere in Chapter XV. Transport and Communication.

(ii) *The Commonwealth Office of Education.* The Commonwealth Office of Education was set up under the *Education Act 1945* to provide advice to the Commonwealth Government on educational matters and to serve as a channel for liaison between Commonwealth and State educational authorities. Among its major commitments are those which arise from international relations in education, including the association of Australia with the aims and activities of the United Nations Educational, Scientific and Cultural Organization (UNESCO), and the planning and supervision of training for oversea students given awards by the Australian Government to attend Australian universities and similar institutions.

The Office acts as the administering authority for Australian participation in the Scheme of Commonwealth Co-operation in Education and concerns itself with the techniques of teaching English as a second language in connexion with the assimilation of immigrants and tuition for sponsored foreign students. It also administers the Commonwealth schemes of secondary and technical scholarships.

(iii) *The Commonwealth Scholarships Board.* The Office of Education provides the secretariat for the Commonwealth Scholarships Board. This Board under its former title of the Universities Commission was also established by the *Education Act 1945*. Prior to 1945 the Commission had functioned under wartime National Security Regulations. The Board consists of a chairman, who is the *Director of the Office of Education*, and three other members. The main responsibilities of the Board at present are advising the Government on the policy and co-ordinating the administration of the Commonwealth scholarship schemes and of Commonwealth post-graduate awards. The Board is responsible for arranging and supervising the training of ex-service personnel and war widows at university and university type institutions under the Korea and Malaya Training Scheme and the Disabled Members' and Widows' Training Scheme. It was also responsible for arranging and supervising training under the Commonwealth Reconstruction Training Scheme until its completion at the end of 1961.

2. *Assistance to Students.*—The Commonwealth Government provides financial assistance to students who are undergoing tertiary training through a number of scholarship schemes, all of which are administered by the Commonwealth Scholarships Board. The most extensive of these is the Commonwealth Scholarship Scheme, under which 5,000 scholarships are offered annually to undergraduates at universities and other approved institutions.

The majority of the undergraduate scholarships are open entrance awards allocated amongst the States on a population basis and awarded competitively on the results of examinations accepted for matriculation in each State. In addition, 1,280 later year awards are available to students who have completed one or more years of a course, and mature age awards are available to older persons in the 25 to 30 years age group. All successful applicants have their fees paid. Scholarship holders may also be paid a living allowance subject to a means test. As from 1st January, 1965, the maximum rates of allowance have been £396 10s. per annum for a scholar living away from home and £260 per annum when living at home.

At 30th June, 1964, 16,937 Commonwealth scholars were enrolled in undergraduate courses including 5,750 new award holders. Up to the end of 1964, 24,368 scholars had completed undergraduate courses under the scheme.

In 1959 a scheme of Commonwealth post-graduate awards tenable at Australian universities was introduced under which 100 awards were made available each year. The benefits comprise a living allowance without means test and payment of university fees. The possible number of post-graduate awards was increased to 225 from 1963 and to 300 from 1965. The Commonwealth Government contribution towards the stipend in respect of each award was raised to £900 per annum from 1st January, 1964. Awards may be renewed annually up to a maximum period of four years; in 1964, 472 students were holding awards.

Training under the Commonwealth Reconstruction Training Scheme was completed at the end of 1961, a total of 21,424 students having completed training. At the end of 1963, 31 students were in training under the Korea and Malaya Training Scheme and the Disabled Members' and Widows' Training Scheme, 14 of them following full-time courses and 17 studying part-time.

3. *International Relations.*—The Commonwealth has been actively involved in the considerable extension which has recently taken place in relations and exchanges with other countries in the field of education. A significant encouragement to this growth has been membership in UNESCO, to which Australia has belonged since 1946 when the organization was founded.

Twelve specialist UNESCO committees in Australia are responsible for a wide and varied programme of activities and have helped to make Australia's contribution to many international conferences and seminars highly effective. The Committees' projects include the organization of Australian and regional seminars, information programmes, and the preparation and circulation of travelling exhibitions which deal with subjects forming part

of UNESCO's programme. The Australian National Advisory Committee for UNESCO co-ordinates the work of the specialist committees and advises the Commonwealth Government on Australian participation in UNESCO.

With the co-operation of educational institutions, State Education Departments and other bodies, the Commonwealth has accepted increasing commitments in schemes of international assistance and co-operation. The Colombo Plan Technical Co-operation Scheme, the United Nations Expanded Programme of Technical Assistance, the Australian International Awards Scheme, and the Special Commonwealth African Assistance Plan are some of the programmes through which the Commonwealth Government is providing training for overseas students in Australia and is sending Australian experts and equipment to many of the newly developing countries, especially in Asia and Africa. Australia is also actively sharing with other Commonwealth countries in the Scheme of Commonwealth Co-operation in Education which includes the Commonwealth Scholarship and Fellowship Plan. There were some 1,500 sponsored foreign students in Australian institutions in 1964, compared with about 800 in 1956. About three-quarters of these were Colombo Plan trainees, most of whom were studying in various fields of engineering, science, medicine, education and economics.

Support is given to Australian participation in many international governmental and non-governmental organizations. For example, Australian educationists have attended yearly meetings of the International Bureau of Education, and regular contributions are made to the Bureau's international surveys into various aspects of education. Assistance has been given to bodies such as the Australian Teachers' Federation in sending delegates to meetings of the World Confederation of Organizations of the Teaching Profession.

4. Grants for Other Educational Purposes.—The Commonwealth gives assistance to various educational schemes and institutions. Grants are made each year by the Commonwealth to the Australian Pre-school Association for the development of kindergarten education, to the Commonwealth National Fitness Council, to the Australian Council for Educational Research, to the Department of Adult Education at the University of Sydney for the publication of the *Current Affairs Bulletin*, and to assist in the provision of training in Occupational Therapy, Physiotherapy, and Nursing. The cost of the Departments of Indonesian and Malayan Studies at the University of Melbourne and the University of Sydney is also met by the Commonwealth Government.

5. Migrant Education.—The Commonwealth Government's post-war immigration policy has brought to Australia a large number of immigrants with little or no knowledge of English. To assist their assimilation into the Australian community, a system of migrant education has been developed to teach them English and to give them information about Australia. This service is provided free of charge to immigrants above school leaving age.

Before arriving in Australia migrants who do not speak English are given some instruction in English by shipboard education officers. Some may have attended classes in Europe organized by the Inter-governmental Committee for European Migration, with which the Australian Government co-operates.

In Australia evening classes are arranged by State Education Departments wherever nine or more migrants in country areas, or twelve or more migrants in city areas, wish to learn English. There is also available through State Education Departments a free correspondence course in English. In addition, English lessons are broadcast regularly by the Australian Broadcasting Commission. The Commonwealth Office of Education provides technical advice on all aspects of migrant education and is responsible for the preparation of teaching materials, while responsibility for the overall supervision of the programme rests with the Department of Immigration, which also meets the costs.

In November, 1964, 13,355 migrants were enrolled in classes and 7,759 were enrolled in radio and correspondence courses. Since the inception of the programme in 1948 approximately 500,000 migrants have been enrolled for English tuition.

6. Technical Training by Government Departments.—Although most needs of departments for trained staff are met by apprenticeship schemes and other technical college courses and by the universities, some departments provide training which is not available elsewhere. The most important field for which such training is provided is the training of telephone, telegraph, radio and television technicians by the Postmaster-General's Department.

§ 12. Adult Education

1. **General.**—The term “adult education” as used in Australia refers mainly to non-vocational educational and cultural activities for adults. While the nature of the recognized adult education authorities varies from State to State, their major activities have many common features. Regular courses of lectures are organized on such topics as literature, music, drama, international affairs, languages and crafts. Some authorities also organize discussion groups, festivals and summer schools, and provide special services for groups in remote areas. In 1960 an Australian Association of Adult Education was formed, and its first Annual Conference was held in Adelaide in 1961. The Association handles matters pertaining to adult education at a national level and arranges liaison with similar bodies in other countries.

One of the first bodies active in the field of adult education in Australia was the Workers' Educational Association, which formed associations in all States in 1913. Its aims are to bring the universities into closer relationship with the community in general and to provide for higher education in civic and cultural subjects. These associations have been superseded by Adult Education Boards or Councils set up by the State Governments in Victoria, Queensland and Tasmania and by the University in Western Australia. In the other two States, New South Wales and South Australia, the associations continue to co-operate with the universities in their extension work and are given direct grants by the governments concerned.

The organization of adult education and some of the activities in each State are described below.

2. **New South Wales.**—State Government grants for adult education are allocated on the advice of the Adult Education Advisory Board. Grants are made to the University of Sydney (Department of Adult Education), the Worker's Educational Association, the University of New England (Department of University Extension), the Public Library of New South Wales (Adult Education Section), and the Arts Council of Australia (New South Wales Division).

(i) *University of Sydney.* There were formerly two separate authorities concerned with adult education at Sydney University, the Extension Board and the Department of Tutorial Classes. However, administrative amalgamation of the work of these two bodies took place in 1964 with the formation of a new Department of Adult Education. This new Department provides all the services previously supplied by the two bodies. The two earlier bodies, however, maintain their identities under the new organization.

The work of the Department of Adult Education is carried out under the supervision of two Senate Committees, namely, the University Extension Board and the joint committee for Tutorial Classes.

The University Extension Board provides two forms of education—the extension of existing university education to the public in the form of lectures, or to graduates in the form of refresher courses; and the extension of academic education beyond the existing university curriculum by special courses or classes in subjects not provided by University Departments.

The Joint Committee for Tutorial Classes works in conjunction with the Workers' Educational Association. Its activities include the provision of tutorial classes in a wide variety of subjects, discussion groups and “kits” to serve the needs of country districts and people who cannot be catered for by tutorial classes. It also publishes the fortnightly *Current Affairs Bulletin*.

(ii) *University of New England.* The Department of University Extension at the University of New England brings university extension activities especially to the people of northern New South Wales and conducts classes in arts and social sciences in towns throughout this region. Short residential courses are held on topics of interest to primary producers in the area. Vacation schools attract participants from many other areas as well.

(iii) *Workers' Educational Association.* In addition to co-operating with the Sydney University Department of Adult Education, the Workers' Educational Association itself provides classes in a wide variety of fields. It publishes *The Australian Highway*, a bi-monthly journal of adult education, and maintains a property near Sydney where short residential schools are held through the year.

(iv) *Public Library of New South Wales.* The Public Library of New South Wales Adult Education section provides an adult education library service for all classes and groups conducted by the bodies mentioned above.

(v) *New South Wales Department of Education.* The New South Wales Department of Education has established evening colleges consisting of classes held in school buildings and staffed largely by departmental teachers. Such colleges provide a wide range of educational, cultural and leisure activities for adolescents and adults, and at some there are facilities enabling adults to prepare for public examinations.

(vi) *Arts Council of Australia.* Adult education of a more informal kind is provided by the New South Wales Division of the Arts Council of Australia which maintains a mobile theatre unit and organizes touring ballet, opera, and drama companies to country towns.

3. **Victoria.**—The Council of Adult Education is a government instrumentality established by the *Adult Education Act 1946*. Its aims are to stimulate adult education in Victoria and to encourage voluntary organizations and associations by giving them advice and assistance. Its activities include a variety of classes, usually lasting from 10 to 20 weeks, on topics ranging from social studies, psychology, language and literature, to crafts, music and drama. The general Summer School, organized by the Council of Adult Education for many years, is no longer held. In its place, four separate non-residential schools are held in the city area. The Council publishes a monthly newsletter, *Group Affairs*, and a quarterly journal, *Adult Education*. Its group service assists, and provides programme material for, discussion groups formed by organizations and individuals throughout the State.

An important development is the extension of the council's activities, including classes and discussion groups, to the prisons, as part of a general plan for penal reform in Victoria.

Through its Community Arts Service, the Council organizes tours by musicians and by theatrical and other companies to country towns which otherwise would have no opportunity of seeing such performances.

The Council's income is derived mainly from a government grant, but also from student fees and Community Arts Service performances.

The University of Melbourne Extension Committee arranges free public lectures and organizes classes for matriculation students on points of interest in their studies.

The Victorian Education Department arranges classes in commercial subjects, arts and crafts, and shorthand and typing. Evening classes in leaving and matriculation subjects are also offered.

4. **Queensland.**—The Queensland Board of Adult Education was constituted in 1944 and is responsible under the Minister for Education for the provision of adult education facilities throughout the State. Under the executive officer of the Board are six district officers, one based in Brisbane and five in large country towns, who are responsible for organizing activities in country areas.

The cost of the programme is borne by the State Government and admission to all courses is free. Activities include lectures, group meetings on a variety of topics, generally short-term but some extending over a full year, and film screenings. Library and film services are provided.

A Public Lecture Committee established by the University of Queensland is responsible for organizing public lectures by local speakers and distinguished visitors to the University. Through the Institute of Modern Languages, the University provides facilities for the study of modern languages by members of the general public.

5. **South Australia.**—Since 1917 the University of Adelaide, through the Joint Committee for Tutorial Classes, has provided in the metropolitan area a series of tutorial classes, lecture classes and study circles on a wide range of subjects of cultural and current interest, in co-operation with the Workers' Educational Association of South Australia.

In 1957 a Department of Adult Education was established in the University and a full-time Director appointed. A wide range of university extension courses and educational conferences, summer schools and seminars, including a number dealing with subjects at post-graduate level, are organized directly by the University.

The Workers' Educational Association of South Australia, in addition, carries on an independent educational programme of classes, schools, exhibitions, and film festivals.

The State Education Department also arranges an extensive programme of educational activities for adults. In addition to classes in academic and craft subjects, the Department's Adult Education centres offer a wide range of leisure interests and cultural subjects.

6. **Western Australia.**—Adult education in Western Australia is organized by the Adult Education Board established in 1928 under the terms of the statutes of the University of Western Australia. The Board has a considerable degree of autonomy. Its executive officer is the Director of Adult Education.

In the metropolitan area the Board conducts classes, refresher courses and short schools, conferences, seminars and public lectures and maintains a library. The Board's country work operates mainly through a box library scheme for discussion groups. Lecture tours and week-end schools are held, and local adult education is encouraged through local committees. *Metropolitan work and country work are drawn together in an annual summer school.* The Board also operates a community arts service and arranges screenings of foreign films. Regional drama festivals and music festivals are arranged, culminating in the annual Festival of Perth, inaugurated and administered by the Board.

7. **Tasmania.**—Some form of adult education has existed since the formation in 1913 of a Workers' Educational Association, which worked in conjunction with the University of Tasmania for a number of years, receiving a grant through the university, which had a Director of Tutorial Classes. Later, the grant was paid direct to the Association by the Government and the university's tutorial department ceased to exist. The Adult Education Board, established under the *Adult Education Act 1948*, organizes classes of ten weeks' duration on a wide range of subjects. The Board sponsors special lectures, film screenings and art exhibitions, recitals of music, and dramatic performances in both city and country areas. Its income is derived from a State Government grant and from students' fees.

The executive officer of the Board is the Director of Adult Education. Activities are organized on a regional basis by organizers based in Hobart, Launceston and three large country centres.

8. **Australian Capital Territory.**—The School of General Studies of the Australian National University has organized classes and discussion groups through its Adult Education Department since 1959.

§ 13. Oversea Students in Australian Educational Institutions

The development of closer ties in education between Australia and other countries and the demand for education in many countries in Asia, Africa, and the Pacific have brought about a remarkable growth in the number of overseas students who come to Australia to further their education. Part of the growth and much of the awareness of the facilities available may be attributed directly to the schemes mentioned in § 11, para. 3. Since 1955, when there were about 3,500 overseas students in Australia, the number has increased to about 12,500 in 1964. Some attend institutions of higher education such as universities and technical colleges, and Australian qualifications are receiving increasing acceptance and recognition as students return home on completion of their courses. Between 1955 and 1964 the numbers of foreign students in institutions of higher education have risen from about 1,800 to 6,800, most of whom came from Asian countries. Australian institutions have shown a readiness to accept overseas students, and in many cases special provisions have been made to suit their needs. Nevertheless, population growth and the demand for education, especially for higher education, within Australia have forced many institutions to restrict the admission of overseas students in common with Australian students.

§ 14. Organizations Associated with Education

1. **Australian Council for Educational Research.**—The Australian Council for Educational Research, a non-governmental body, is engaged on educational research in a wide variety of fields, ranging from tertiary to pre-school education. It conducts surveys and inquiries, makes grants to approved educational investigators, serves as a centre for disseminating educational information, provides training for research workers, and standardizes and distributes educational and psychological tests for use in Australia. Although this council is an autonomous body, the Commonwealth and State Governments give substantial financial support.

2. **The New Education Fellowship.**—The New Education Fellowship is a world organization of parents, educators, and other citizens interested in the development of new educational practices. It was founded in London in 1915 and spread to Australia at the time of a regional conference held here in 1937. There are now sections in each State. Its Australia-wide journal *New Horizons in Education* is published quarterly. A major conference of the New Education Fellowship was held in Australia in 1962, during which prominent educationists from Australia and overseas met in all States.

3. **Australian College of Education.**—The Australian College of Education was formed in 1959. Its aim is to bring together leading teachers and administrators in every field of education, to raise the standard of the profession of education in Australia, to establish and proclaim fundamental educational values, and to recognize outstanding contributions to educational practice. Chapters of the College have been set up in all States, and several of the addresses and papers delivered at meetings of the College have been issued in published form.

4. **Parent and Citizen Organizations.**—In Australia, where all government schools are administered by central departments, there is limited opportunity for local participation in education. Public interest is expressed through parents' committees or organizations of parents and other citizens interested in supporting their local school. The Education Acts of all States provide for the formation of groups of this type, whose aims are to promote an interest in the school by bringing parents, pupils and teaching staff together, to help provide supplementary teaching aids and recreation materials, to foster the regular attendance of children at school, and to help find accommodation for teachers.

In several States, the general maintenance of school buildings, equipment and grounds is a statutory responsibility of the parent groups, costs being covered by government grants. Lunch canteen services at local schools are maintained by groups in some States.

A notable achievement of the parent groups has been the establishment of school children's insurance schemes, operated through State Government insurance offices or private insurance companies. These schemes cover accidents to children which occur between the time of leaving home for school and returning home by the usual direct route.

State-wide councils of federations of parents' groups are associated in a federal body, the Australian Council of School Organizations.

CULTURAL ACTIVITIES

§ 1. Libraries

1. **General.**—The Munn-Pitt report of 1935 greatly stimulated interest in libraries and librarianship throughout Australia. This is seen in the rapid development of libraries, the passing of legislation in all States to increase library services, and the establishment in 1937 of the Australian Institute of Librarians to improve the standard of librarianship. This body was reconstituted in 1949 as the Library Association of Australia and incorporated by Royal Charter in 1963, and its functions now include the promotion and improvement of libraries and library services. The Association conducts annual examinations for which students are prepared by courses of instruction in all States. Formal library schools exist in the Commonwealth National Library, Canberra, and the Public Libraries at Sydney and Melbourne. In 1960 the first library school to be attached to an Australian University was opened in the University of New South Wales, and the Royal Melbourne Institute of Technology set up a library school in 1963.

2. **Commonwealth.**—(i) *National Library of Australia.* This Library grew directly from the Library of the Commonwealth Parliament established in Melbourne in 1901, the Committee of which soon afterwards announced its intention of developing a library patterned on the Library of Congress at Washington, U.S.A., capable of serving purposes beyond those essential to the Parliament itself, appropriate to a national library and on a national scale. This policy was steadily pursued, so that, in addition to its primary function of serving Parliament, it gradually became a central source of information for the Government and its departments and other agencies, and assumed increasing reference and bibliographical responsibilities in relation to scholarship and research in Australia and abroad. It was also influenced by the basic elements of the national library concept of the older countries of Europe: namely, that a national library is the proper place to collect the national literature systematically and to make it known and available for use, and that it is a place to which scholars may turn for what is most significant in the literature of other countries. For these growing extra-Parliamentary activities, the Parliamentary Library Committee, in 1923, adopted the title of Commonwealth National Library.

In 1957, a committee appointed to examine the future control and functions of the Commonwealth National Library recommended its establishment as the National Library of Australia, separate from the Parliamentary Library, with wide functions and controlled by a board subject to a Minister; the transfer, as a separate agency to an appropriate department, of its Archives Division, which constituted the Commonwealth's agency for the custody and organization of departmental records of permanent value which need no longer be held within departmental offices; and that the Parliamentary Library be a separate library under separate Parliamentary control. Continuing co-operation, where possible, between the two libraries was also proposed.

Effect was given to these recommendations by the *National Library Act 1960*, which created the *National Library of Australia as a body corporate under the control of a Council of nine members, of whom one is a Senator elected by the Senate, one a member of the House of Representatives elected by that House, and seven appointed by the Governor-General. Its functions are:—to maintain and develop a national collection of library material, including a comprehensive collection relating to Australia and the Australian people; to make the national collection available to such persons and institutions in such manner and subject to such conditions as the Council determines with a view to its most advantageous use in the national interest; to make available such other services in relation to library matters and material, including bibliographical services, as the Council thinks fit, particularly for the purposes of the library of the Parliament, the Departments and authorities of the Commonwealth, and the Territories of the Commonwealth; and to co-operate in library matters (including the advancement of library science) with authorities or persons, whether in Australia or elsewhere.*

The National Library comprehensively collects and preserves Australian books, periodicals, newspapers, government publications, pictures, prints, manuscripts, maps, moving picture films and sound recordings. It is assisted in this by the deposit provisions of the *Copyright Act 1912–1950* and has also been enriched by the acquisition of such notable collections as the Petherick collection of 16,500 items in 1911, the Cook manuscripts in 1923, the Cumpston collection on Public Health in Australia in 1936, the Mathews Ornithological collection in 1940, the Nan Kivell collection of 16,000 items of Australian and Pacific interest including original paintings, prints, manuscripts and printed material in 1959, and the Ferguson collection which is still under transfer. A feature of the Library's Australian work is the copying on microfilm, in association with the Public Library of New South Wales, of all important unique material overseas relating to Australia, including over three million pages in the Public Record Office in London. Compilation of a guide to collections of manuscripts relating to Australia began in 1964.

The Library maintains a permanent exhibition of selected paintings, prints and other historical material from its collections. This exhibition is displayed in Parliament House, Canberra.

The Library publicizes Australian publications, both at home and abroad, through select lists which include *Australian Books* (annual) and *Australian Public Affairs Information Service* (a monthly subject index with an annual cumulation), and by collections of Australian books maintained by it at all posts at which Australia is officially represented abroad. In London and New York the National Library maintains and staffs Australian Reference Libraries supervised by its own Liaison Officers in those centres.

In the discharge of its wider bibliographical responsibilities, the Library publishes the *Australian National Bibliography* (monthly with an annual cumulation), which lists books, pamphlets, maps, prints, sheet music, government publications, the first issue of each new periodical or newspaper, and moving picture films produced in or relating to Australia. Commonwealth and State official documents, both monographic and serial, are listed in *Australian Government Publications* (annual). The Library is also building up union catalogues of serials in the social sciences and humanities, and of monographs in Australian libraries. A revised loose-leaf edition of *Serials in Australian Libraries: Social Sciences and Humanities*, of which the letters A–B were issued in 1964, will progressively supersede the interim edition published in two volumes in 1963.

In 1956 the Australian Bibliographical Centre was established within the National Library to serve as the secretariat of the Australian Advisory Council on Bibliographical Services. The Council, made up of representatives of the National Library, State libraries and library boards, the Commonwealth Scientific and Industrial Research Organization, each of the universities, and the Library Association of Australia, plans the further development and co-ordination of bibliographical services and co-operates with UNESCO and

its committees. The Centre organizes bibliographical projects recommended by the Council and operates as a centre for bibliographical information in Australia and overseas. It has published a *Union List of Newspapers in Australian Libraries: Part 1: Newspapers published outside Australia* (1959); and Part 2: *Newspapers published in Australia* (1960). Both were supplemented in 1964. *Resources of Australian Libraries*, a summary report of a survey conducted for the Council in 1961 by Maurice F. Tauber, was published in 1963.

The Library acts as a central library of documentary and educational films, its film collection containing over 7,000 titles, together with Australian historical films and a great number of film strips. It published *Australian Films: a Catalogue of Scientific, Educational and Cultural Films, 1940-58* in 1959 and annual supplements in succeeding years. A revised edition of the *Catalogue of 16-mm. Films*, which lists all films available for loan, was also published in 1960 and has been supplemented by annual accession lists. Special efforts are made to discover and preserve samples of early Australian film production.

Through its Extension Division, the Library conducts the Canberra Public Library Service for residents of the Australian Capital Territory, to whom 596,689 books were lent during 1963-64. It also assists in the provision of similar services in the Northern Territory, the Territory of Papua and New Guinea, and Norfolk Island.

The National Library's collections contain approximately 750,000 volumes, 37,000 pictures, prints, drawings and other graphic materials, 1,335,000 feet of microfilm, 112,000 maps, and eleven million feet of moving picture films. Special features of the book collection are its strong holdings of Australiana, materials relating to the Pacific area and east and south-east Asia, the publications of foreign governments and international organizations, and works in the social sciences, particularly in political theory and economics.

(ii) *Patent Office Library.* The Library of the Commonwealth Patent Office, Canberra, contains approximately 10,250 books and a wide variety of periodicals and other literature relating to pure and applied science, industrial technology and the industrial property (patent, trade mark, design and copyright) laws and practice of most countries. Patent specifications of inventions are received from the principal countries of the world; present holdings are more than 9,200,000. Indexes include a microfilm of a classified index to 3,000,000 U.S.A. patents and translations of abstracts of U.S.S.R. patents.

(iii) *The Commonwealth Archives Office.* In 1943, following a report by an Inter-departmental Committee, the Prime Minister directed the formation of a War Archives Committee to arrange for the preservation of war records. This Committee recognized that war archives could not be separated from peace-time archives and in 1946 the name was changed to the Commonwealth Archives Committee. In 1952 the National Library became the sole Archival Authority for the Commonwealth and the Chief Archives Officer became the Executive Officer for the Committee. In March, 1961, in accordance with a recommendation of the National Library Inquiry Committee, the Archives Division of the National Library was reconstituted as the Commonwealth Archives Office within the Prime Minister's Department.

The Archives Office is primarily a central agency for the control of those records created by the Commonwealth Government which are no longer required for frequent use in the day-to-day business of government. This function is carried out through the following three basic activities.

Control of Destruction. No Commonwealth records may be destroyed without the concurrence of the Chief Archivist whose responsibility it is to safeguard reference interests other than those of the department which compiled the records. This concurrence is given as far as practicable through continuing disposal authorities which enable Commonwealth departments to destroy certain routine classes of records automatically, but records not covered by such continuing authorities are checked before destruction is authorized.

Provision of Accommodation. Any records which are no longer in active use but which are considered, either by the originating department or by the Archives Office, to warrant preservation, either permanently or for a further period, may be transferred to an archives repository. While in archival custody, they are arranged and described so that the best use can be made of them.

Provision of Information. Records in the custody of the Archives Office are available for use by the depositing and other departments of the Commonwealth Public Service. The Office also provides departments with a service for the provision of information from the records in its custody.

As a complementary function the Office also provides a service to persons engaged in academic and other forms of research. The headquarters of the Commonwealth Archives Office is in Canberra and there are branches in Sydney, Melbourne, Brisbane, Adelaide and Perth.

(iv) *Commonwealth Scientific and Industrial Research Organization.* The library holdings of the Organization cover the pure and applied sciences. In addition to the Head Office Library in East Melbourne, each of the Divisions and Sections has a specialized collection covering such subjects as food preservation, forest products, chemistry, physics, animal health, and fisheries. The collections are particularly strong in the publications of oversea scientific and technical research institutions, with many of which extensive exchange arrangements have been made.

The Head Office library maintains a union catalogue of the holdings of all C.S.I.R.O. libraries and is responsible for the following publications:—*Scientific Serials in Australian Libraries*; *Australian Science Index*, an index of articles published in Australian scientific and technical periodicals; and *C.S.I.R.O. Abstracts*, which include abstracts of papers published by C.S.I.R.O. officers, C.S.I.R.O. translations, translations available from other Australian organizations and additions to the British Commonwealth Index of Scientific Translations.

The larger libraries in the Organization have photocopying facilities which, while normally for internal use, will provide a service for the public when a publication is not held elsewhere in Australia.

(v) *The Australian War Memorial Library.* In the War Memorial library are housed the documentary and pictorial records of Australia's fighting services in the 1914–18 and 1939–45 Wars, together with collections covering the war in Korea, 1950–53, and earlier wars in which Australian troops participated—Sudan, 1885; South Africa, 1899–1902; and the Boxer Rebellion in China, 1900–01. Books, periodicals and other records covering contemporary trends and events in the fields of military history and military science are constantly being added.

The printed records section contains approximately 70,000 volumes, a large collection of military maps, newscuttings and newspapers, sound recordings of war leaders, personalities and events, war posters, and postage stamps. Many personal collections by distinguished soldiers and historical documents relating to the wars have also been placed in the Memorial's custody for preservation.

Written records comprise correspondence files of headquarters and units of both World Wars, and the original war diaries compiled from day to day by each unit during its service.

The collection of official war photographs covering the 1914–18, 1939–45, and Korean Wars numbers over 250,000, and a collection of official motion picture film depicts Australia at war.

Facilities for public research are not yet fully developed, but requests for information are met where practicable.

(vi) *Other Commonwealth Government Libraries.* Most Commonwealth authorities have specialized collections in their own fields and in addition draw largely on the National Library.

(vii) *Northern Territory Library Service.* The Northern Territory Library Service maintains four centres in the Territory. At 30th June, 1964, stocks totalled 51,740 volumes which were held at the following centres:—Darwin, 27,625; Alice Springs, 16,350; Tennant Creek, 4,296; Katherine, 3,469.

3. States (other than university libraries, for which see pp. 739–42).—(i) *State Public Libraries.* In each of the capital cities, there is a well-equipped public library, the libraries in Melbourne and Sydney especially comparing very favourably with similar institutions elsewhere in the world. The following statement gives the number of volumes in the public library of each capital city at 30th June, 1963. Later figures for some of the libraries are given in the text relating to the respective libraries.

STATE PUBLIC LIBRARIES, 30th JUNE, 1963

City	Number of volumes in—			Total
	Reference branch	Ordinary lending branch	Country lending branch	
Sydney	(a) 641,609	..	(b) 108,934	750,543
Melbourne	800,000	130,000	48,000	978,000
Brisbane	162,244	..	75,170	237,414
Adelaide	213,779	(c) 88,210	173,043	475,032
Perth(d)	203,861	(e) 327,134	(f)	530,995
Hobart	89,102	(g) 183,294	159,490	431,886

(a) Includes 180,663 volumes in the Mitchell Library and 20,421 volumes in the Dixon Library.
 (b) Includes 1,941 volumes in the model school library. (c) Includes 32,911 volumes in the children's branch and 12,865 volumes in the youth lending branch. (d) Figures for Library Board of Western Australia; separate details for Perth are not available. (e) Public libraries and circulation stock.
 (f) Included under ordinary lending branch. (g) Includes 138,273 volumes in the children's branch.

(ii) *New South Wales.* The Free Library Movement in New South Wales, founded for the establishment of a system of public libraries on the basis suggested in the Munn-Pitt Report of 1935, helped to pave the way for the Library Act, 1939, which was fully proclaimed as from 1st January, 1944. Of the 179 councils which have adopted the Library Act, 165 have put their adoption into effect. During 1964 they spent on their libraries £1,587,036, including £446,693 received in subsidy. There are 218 libraries, of which 59 are in the metropolitan area and 159 in the country. There are also 20 bookmobiles, of which two are in Sydney, eight in the suburbs of Sydney and ten in country municipalities and shires. These libraries contain 2,827,301 volumes.

New South Wales departmental libraries are staffed by officers attached for duty from the State Library, which also provides a central cataloguing service for municipal and shire libraries constituted under the 1939-1959 Act. The State Library maintains an adult education section servicing adult education activities for the universities of Sydney and New England and the Workers' Educational Association.

The Country Circulation Department forwards books on loan to State schools, to municipal and shire libraries, and to individual students. During 1963-64, 89,525 books were lent to small State schools, and 2,177 to country libraries, while 47,664 reference works were lent to individual country students and to libraries to satisfy special requests.

The State Library, known as the Public Library of New South Wales, includes a general reference department of 455,644 volumes, together with the Shakespeare Tercentenary Memorial Library and the Mitchell and Dixon Libraries and Galleries which are mainly devoted to Australian and Pacific material. The Mitchell Library, with more than 60,000 volumes and pamphlets and 300 paintings, was bequeathed to the trustees of the Public Library in 1907 by Mr. D. S. Mitchell, together with an endowment of £70,000. In 1964 there were 186,415 volumes in the library, in addition to valuable manuscripts, maps and other material. In 1929 Sir William Dixon gave a collection of historical pictures then valued at £25,000. These were subsequently added to and at his death in 1952 Sir William bequeathed the whole of his collection of books, manuscripts, pictures and other material, together with an endowment of more than £113,000, mainly for the printing or reprinting of historical documents relating to Australia and the Pacific.

The total number of volumes in the State Library now exceeds 780,000, apart from manuscripts, historical pictures and other material.

The maintenance and control of the ordinary lending branch of the Public Library were transferred in 1908 to the Sydney Municipal Council to become the City of Sydney Public Library.

The State Library, which had previously been the repository for State archives, transferred this responsibility to an Archives Authority in June, 1961. The Authority consists of nine members, one of whom the Trustees of the Public Library have a right to nominate.

Other important libraries in New South Wales are:—Teachers' Colleges, 262,529 volumes; the Sydney Public Library, 234,807; Railway Institute, 170,800; Technical Education Branch, 142,850; Australian Museum, 34,405; Government Transport Institute, 32,965; New South Wales Public School Teachers' Federation Library, 22,000; Workers' Educational Association, 14,600; and the Library at the National Herbarium, 10,340 volumes. At 30th June, 1964, the Parliamentary Library contained 149,500 volumes.

(iii) *Victoria*. Until the establishment of the Free Library Service Board in 1947, the only public library facilities available in Victoria (apart from those of the Public Library and one or two Metropolitan municipal libraries) were those offered by about 200 Mechanics' Institute Libraries situated in country areas all over the State. The Board's policy has been to replace these services with modern public libraries controlled by local Municipal Councils and subsidized by the Board. Since the Board's inception, 116 municipalities have established libraries. Of these, 26 are in the city and 90 in the country. An amount of £414,000 was paid to the Councils in library subsidy for the year 1963-64 and £887,662 was expended in municipal library services for the same year. More than 1,700,000 books are available to the communities in which libraries are established.

A feature of the services provided in the country is the number of co-operative or regional library groups now being developed. These services, of which there are 18, comprising a total of 72 councils, consist of groups of councils which pool their financial resources, book-stocks and trained staff, in order to provide more comprehensive, efficient library facilities. Approximately 140 Mechanics' Institute Libraries are still in existence in country areas. In 1963-64, 42 of them shared a grant of £2,000.

The State Library of Victoria was established in 1856. It is controlled by a board of seven trustees and receives its finance from the State Government. The reference collections now total about 800,000 volumes, and the lending and travelling libraries have another 178,000 volumes. In addition, the library files 3,000 current periodicals, about 2,000 government publications from Australia and overseas, and 500 newspapers, in all about 50,000 volumes. Special collections include the J. K. Moir Collection of Australiana, the M. V. Anderson Chess Collection and the Green and Brodie Shipping Collections. The Victorian Historical Collection contains nearly 20,000 pictures, drawings, prints and objects of historical interest. The Archives Division is responsible for the preservation of government records.

(iv) *Queensland*. The Library Board of Queensland was established in 1945 under the provisions of "The Libraries Act of 1943". Its duty is to attain the fullest co-operation and improvement of the library facilities of the State, with the object of placing such facilities on a sound basis for the benefit and educational improvement of the citizens generally. The Board consists of eight members including the State Librarian as *ex officio* member and secretary. A general function of the Board is to ensure that the fullest co-operation exists with the Department of Education, the University of Queensland, local bodies, and other bodies having for their object the encouragement of education, literature and the arts and sciences. A specific function of the board is the control and management of the Public Library of Queensland. Its policy is to build up the main collection of the Library as the State's reference centre.

The Country Extension Service, which is administered as a department of the Public Library, lends books of non-fiction free to adults and children residing outside the metropolitan area and to municipal libraries in areas of low population.

The Oxley Memorial Library, established in 1923, has been administered as a department of the Public Library since 1946 and the collection has been kept separate. It contains books, manuscripts, pamphlets and other graphic material relating to the history and literature of Australia, and of Queensland in particular, and provides facilities for research students in Queensland literature and history.

In 1958 the section of the Libraries Act dealing with the preservation of public records was proclaimed, and in 1959 an Archives Section of the Public Library was instituted and an archivist appointed.

Since 1948 a course in librarianship has been held annually at the Public Library for the purpose of preparing trainees for the examinations of the Library Association of Australia, up to 1961 for its Preliminary Examination, from 1962 for subjects 1 to 3 of its re-organized Registration Examination. In 1959, a course covering some compulsory subjects of the Association's Registration Examination was inaugurated at the Central Technical College, Brisbane.

The holdings of the Public Library of Queensland and its extension services in 1963-64 were:—main reference collection, 150,520 volumes and 8,622 maps and pamphlets; country extension service, 78,802 volumes; Oxley Memorial Library, 23,143 volumes and 16,442 maps, pamphlets and miscellaneous items.

Local authorities are empowered by the Libraries Act to establish and conduct library services as a function of local government. The Board encourages local authorities to use these powers. In 1963-64, 72 local authorities were conducting 114 library services. The Brisbane City Council has established 14 of these libraries. There were 92 libraries in Queensland free to adults.

To help overcome the problems of a large area and sparse population, various local authorities provide library services on a regional basis. By 30th June, 1964, four regional library services had been established:—the South Western (seven shires), the Central Western (eight shires), the North Western (eight shires), and the Central Highlands (five shires), with head-quarters at Charleville, Barcaldine, Mt. Isa and Emerald respectively. Other regional services are being planned.

During 1963-64 the Board received a grant of £238,985 from consolidated revenue to finance the activities of the Public Library and to pay subsidies to local bodies of fifty per cent. on the purchase of books and the acquisition or improvement of library buildings and equipment. Subsidies were paid to four regional library service boards, 49 local authorities and 45 other bodies.

The library of the Parliament of Queensland was established in 1860. At 30th June, 1964, the library held 92,784 books and pamphlets, consisting of official publications and books devoted largely to history, the social sciences, biography and literature.

"*The Libraries Act Amendment Act of 1949*" provides for the Public Library and the Parliamentary Library each to receive a copy of all books, pamphlets, maps and other printed material published in Queensland.

(v) *South Australia.* In the reference department of the Public Library of South Australia, there are about 220,500 volumes, most of which may be borrowed. Over 4,000 periodicals are filed and the collection of newspapers includes every newspaper printed in South Australia. There are 44,500 volumes in the lending department available to persons living in the metropolitan area and the country lending service has 220,700 volumes, of which more than half are suitable for children. The library has an active programme for the publishing of facsimile editions of early Australian texts.

The Research Service specializes in scientific and technical inquiries and supplements the resources of the Public Library by borrowing from other libraries and by obtaining microfilm copies of material not available locally. It has an extensive collection of trade catalogues.

The library of the Parliament of South Australia held approximately 65,000 volumes at 31st December, 1964.

There are sixteen local public libraries in South Australia provided by twelve local government authorities. The libraries are subsidized on a £1 for £1 basis by the State Government. The Libraries Board of South Australia, through the Public Library of South Australia, provides various central services. Book-stocks are pooled in the Public Library of South Australia and are interchanged between the libraries.

At the end of June, 1964, these local public libraries contained 110,990 books. There were 70,731 registered borrowers. In the year 1963-64, 901,500 books were lent.

(vi) *Western Australia.* In 1955, the Library Board of Western Australia was made responsible for all public library services throughout the State to which the State Government contributes funds.

The Board has the following major functions:—to encourage local authorities throughout the State to establish public libraries and to provide as a State subsidy all books and bibliographical services necessary for such libraries when established; to administer the State Library; to advise the Government on all matters relating to libraries; and to provide for the training of librarians.

Local public libraries are subsidized on a £1 for £1 basis, the local authority providing accommodation and staffing, and the Board all books and related services. The Board provides at least one volume per head of the population. All non-fiction books may be made available at any public library throughout the State on request to the Board. All cataloguing is done by the Board. The first library under this scheme was opened in August, 1954. By 31st December, 1964, 81 libraries had been established.

The State Library, established in 1887, is the reference division of the Library and Information Service of Western Australia. In addition to providing the normal facilities of a reference library for the metropolitan area, it extends its service throughout the State through local public libraries. It is divided into four subject departments as follows:— J. S. Battye Library of West Australian History; Library of Business, Science and Technology; Library of Social Sciences, Philosophy and Religion; and Library of Literature and the Arts.

The State Bibliographical Centre is housed at the State Library and there is also a commercial information centre. The State archives are maintained by the State Library and managed by the staff of the Battye Library. The State Library is fully equipped with microfilm and photocopy apparatus.

The book-stock of the Board at 30th June, 1964, was:—lending library services (including books in public libraries), 419,253 volumes; State Library, 211,059 bound volumes.

The University of Western Australia, through its Adult Education Board, manages the Adult Education Library of some 17,000 volumes of general reading and fiction. Books are sent to country readers each month.

There are some 100 special libraries in government departments and industrial firms. Union catalogues of periodicals and books received in the libraries in Western Australia are maintained by the Library Board of Western Australia in the Bibliographical Centre of the State Library.

(vii) *Tasmania*. The Tasmanian Library Board, constituted in 1944, is responsible for administering the State library headquarters in Hobart, for the extension of library services throughout the State, for the control of State aid to libraries and for the State archives. The first stage of a new State Library headquarters building in Hobart was completed in 1962. The State Government provided £191,707 towards the cost of library services in 1963–64.

Municipal libraries are assisted with the purchase of books and participate in a book exchange scheme. In 1964, 45 municipalities took part in the service, leaving only four outside the scheme. In Hobart, the Board operates the Hobart Lending Library on behalf of the City Council. Two bookmobiles operate in Hobart and country districts, catering for areas without library premises, for children, old people's homes, etc.

The Board also operates a Reference Library in Hobart from which reference services are available to people throughout the State. There is also a documentary film library and a recorded music library. The Board arranges screenings of documentary films, recitals of recorded music, lectures, library weeks in country centres, puppetry demonstrations, etc.

The Parliamentary Library works in close collaboration with the State Library, which provides a reference officer to serve members during sessions.

4. *University Libraries*.—(i) *General*. These libraries provide material not only for the education of graduates and undergraduates, but also for research workers and practical investigators all over the continent. Much of the material they contain is not available elsewhere, for although in most cases smaller, they are in many directions more highly specialized than the public libraries. They lend to one another and to State and private institutions as well as to individual investigators. Each of them is governed by a librarian, who is responsible as a rule to an executive sub-committee and a committee which is practically co-extensive with the professorial staff.

The following table shows the volumes held, accessions during the year, and expenditure of the Australian university libraries.

UNIVERSITY LIBRARIES, 1964

University	Volumes	Accessions during year	Expenditure (a)
			£'000
Australian National University	329,214	24,906	203
Sydney	869,952	54,047	277
New South Wales	312,197	54,112	313
New England	174,952	22,226	95
Melbourne	388,060	37,220	267
Monash	160,000	40,000	210
Queensland	337,488	30,466	180
Adelaide	379,728	51,675	211
Western Australia	247,531	16,646	130
Tasmania	155,500	8,200	64
Total	3,354,622	339,498	1,950

(a) 1963.

(ii) *Australian National University.* This library consists of two main collections; the former Australian National University Library, founded in 1948, which serves primarily the Institute of Advanced Studies, and the former Canberra University College Library, founded in 1938, which serves primarily the School of General Studies. At the end of 1964 the stock included some 65,000 volumes in oriental languages. The collection serving the Institute of Advanced Studies (185,000 volumes) specializes in the fields of the physical and medical sciences, excluding clinical works. The R. G. Menzies Building of the University Library, which was opened by Queen Elizabeth in March, 1963, houses the administrative, cataloguing, etc., departments serving the whole university as well as certain research collections of the Institute of Advanced Studies. In the social sciences, the library endeavours to provide a good working collection while giving consideration to the holdings of the Commonwealth National Library. It possesses significant collections in anthropology, linguistics, mathematics and mathematical statistics. The collection serving the School of General Studies (100,000 volumes) has been built up to meet the needs primarily of undergraduates studying arts, economics, law, oriental studies and science.

(iii) *University of Sydney.* The library consists of the central collection which is known as the Fisher Library, the Law Library, the Medical Branch Library, the Burkitt Library for pre-clinical medicine, and some fifty-two departmental libraries. The University Library, together with departmental libraries and associated libraries in the University grounds, holds a total of more than one million volumes.

The first books were acquired in 1851, and shortly afterwards the library of Sydney College was added. The collection of Nichol D. Stenhouse was acquired in 1878 as the gift of Thomas Walker. In 1885 Thomas Fisher bequeathed the sum of £30,000, the income from which is used as a book fund. The Fisher Fund was matched in 1961 by establishment of the W. H. and Elizabeth M. Deane Library Fund. Perhaps the finest collection in extent and importance which has been given to the University is that of Sir Charles Nicholson. There have been numerous other benefactions, among which may be mentioned the library of Sir Francis Anderson, the W. H. Deane collection of books and manuscripts and the Dalley-Scarlett music library. In 1961 the University acquired the English literature collection of the late Hugh Macdonald, and the late Professor J. Stewart's library, an outstanding collection on archaeology and numismatics, was acquired in 1963. The Sydney University Library has an extensive collection of mediaeval manuscripts and early printed books.

(iv) *University of New South Wales.* The libraries of this university consist of the Central Library and a Bio-medical Library at Kensington. There is also a library at Wollongong University College. The Broadway campus is serviced by the Sydney Technical

College Library, where about 25,000 books from the University's library are placed. Service to the university division at Broken Hill is also provided by the Department of Technical Education. In December, 1964, the university had 338,687 volumes in its libraries and in Department of Technical Education libraries. This figure includes 86,640 volumes in the former Newcastle University College library.

(v) *University of New England.* The library was founded in 1938, when the New England University College was established. Sir William Dixson was its first benefactor. The library, which receives about 3,500 current periodical titles annually, is now housed in a three-storied, air-conditioned building. The building also houses a bindery, photographic and archives division. A further wing is to be built later to house a library of post-graduate and research volumes which, at present, are on the library's main shelves. The library has its own training officer and conducts formal courses in librarianship.

(vi) *University of Melbourne.* Early in 1854 the first allocation for books was made, but the library was housed in temporary quarters until 1959. The W. L. Baillieu Trust made available the first instalments of a £100,000 gift for building purposes, which have been followed by subsequent gifts and substantial grants from the Commonwealth and State Governments, and a new building was occupied at the beginning of 1959, the first in the University to be designed specifically for library purposes. Since 1959 the use of the library has increased fourfold and during the academic year admissions of readers to the building average 8,000 a day. The resources of the library are also used extensively on inter-library loan by industries and other organizations throughout Australia. The University Library, including 13 branch libraries in various departments, is administered from the centrally situated Baillieu Library. The large medical branch library is specially rich in periodicals.

(vii) *Monash University.* The library started to acquire books in 1960 and subscribes to some 2,500 journals. It has been decided that the library organization will develop into four large units—the main library, a bio-medical library, a law library, and a library for the physical sciences and technology. The physical sciences and technology library has been named the Hargrave Library and was opened in December, 1962. The main library, catering mainly for the humanities, was occupied in November, 1963.

(viii) *University of Queensland.* The library was founded in 1911. The main library is in its own building in the University and there are a considerable number of departmental libraries. Among the more important possessions of the library are its large holdings of periodicals, its geology collection, and its material relating to the history, development and culture of the countries surrounding the Pacific Ocean.

(ix) *University of Adelaide.* The library bears the title of its original benefactor, Robert Barr Smith, who, with members of his family in and after 1892 gave the university over £50,000 for the library. The book collection is in two divisions, a collection of some 25,000 of the most frequently used books being kept in the main reading room and the remainder, consisting of older or more specialized books, being shelved on the four levels of the extensions. There are branch libraries for medicine, law and music. The South Australian branches of the Australian Medical Association, the Australian Physiotherapy Association and the Australian Dental Association make annual contributions towards the maintenance of the medical library in return for borrowing privileges for their members. At the end of 1964 the Barr Smith Library held approximately 350,000 books and pamphlets. The Waite Agricultural Research Institute has a separately administered library of about 20,000 publications in agriculture.

(x) *University of Western Australia.* The first full-time library staff was appointed in 1927. Provision for a permanent library building was not possible when the University moved to its present site, and space and facilities were inadequate for many years. A new four-storey building was completed at the end of 1963. The building provides facilities for microfilm readers, type-writing booths and photo-copying facilities. The University Library developed very slowly in the early years, but recently has been adding about 14,000 volumes a year to its stock. In addition to the main library there are a number of departmental libraries of which the more important are engineering, agriculture, pre-clinical and law. There is also a medical library, in accommodation provided by the Royal Perth Hospital, for the use of the medical school.

(xi) *University of Tasmania.* Although this library was founded in 1893, a full-time librarian was appointed for the first time at the end of 1945. Since 1954 a Hobart Union List of Serials has been housed in and kept up to date by the University Library, thus providing a major reference tool for all bibliographic inquiries in the State. The library receives currently about 3,600 periodicals. The University Library also collects private and business archives and it has some important classical manuscripts as well as a collection of early printed books.

5. **Children's Libraries and School Libraries.**—(i) *New South Wales.* Children's libraries are being developed as departments of municipal and shire libraries. The Education Department maintains a school library service for the fostering of State school libraries, which are maintained partly by parents' and citizens' associations and partly by departmental subsidy. Secondary and central schools, and an increasing number of primary schools, have teacher librarians.

(ii) *Victoria.* Under the auspices of the Free Library Service Board, 116 municipal children's libraries have been, or are being, established as part of the library services provided by the councils concerned. All these libraries provide comprehensive modern children's book collections which are constantly being augmented. An annual grant of £5,000, which is additional to the ordinary annual municipal library grant, is provided to assist these libraries. In addition, nine independently controlled children's libraries shared in this grant in 1963.

The Education Department is making provision for the building of library rooms in new schools. Where accommodation is available in existing schools, library furniture is provided free of cost to the schools and the Government subsidizes the purchase of books. In June, 1964, 470 schools had central libraries.

A scheme of circulating libraries for small schools, particularly in remote areas, has been operating for some years. One hundred and eighty schools benefited from this scheme in 1964.

The Education Department has a library service officer with a small staff to advise and assist schools in the establishment and organization of libraries. A one-year course for the training of teacher-librarians was established at Melbourne Teachers' College in 1955. Approximately 25 teachers are trained each year.

(iii) *Queensland.* The Library Board of Queensland stresses to local bodies the importance of providing adequate library services for children. There are in Queensland 110 libraries free to children, of which 10 are conducted by the Brisbane City Council. The children's libraries at Rockhampton, Toowoomba, and Townsville are particularly active. Country children who are not catered for locally may borrow from the Country Extension Service which possesses a separate children's collection. The purchase of books for State school libraries in Queensland is financed by school committees and parents' associations, with a subsidy from the Department of Education on a £1 for £1 basis. Trainees at the Teachers' Colleges are instructed in school library organization and management.

(iv) *South Australia.* A children's library of 34,200 volumes is used by school classes and individual children living in the metropolitan area. There is a large collection of children's historical books assembled for the use of research workers. In August, 1957, a youth lending service was opened for young people from 13 to 18 years of age. It has a stock of 14,250 volumes.

(v) *Western Australia.* The Education Department provides library services and makes library subsidies and grants to schools. Advisory, central cataloguing, processing, repair and binding services are provided by the Library Services Branch. The Teachers' Colleges provide courses in school library organization and library service.

The Perth Technical College and technical schools are equipped with libraries and an allocation for books is provided annually for each school and college department. A librarian at the College provides central ordering and cataloguing services throughout the Technical Division.

All high schools are provided with a library room and furniture, and trained teacher-librarians are appointed to them. Building plans do not provide for primary school libraries, but a number of the schools have set up central libraries when rooms have become available.

One-teacher and two-teacher schools are served by the Charles Hadley Travelling Library and the Small Schools Fixed Library Scheme. Under the Fixed Library Scheme grants are made once every three years to each school to provide additional books for the permanent libraries of reference books. The Hadley library provides recreational reading and operates 360 boxes which are exchanged each school term. Boxes are sent to small schools, mission schools and special classes. Finance is provided from a government grant and contributions from the participating schools of commission received from the Commonwealth Savings Bank for school savings bank activities.

Children in isolated areas who are unable to attend school are catered for by books sent out by the State Correspondence School's library. The children are kept in touch with the library by means of radio talks and leaflets issued periodically.

(vi) *Tasmania*. The Lady Clark Memorial Children's Libraries, with headquarters at the State Library, Hobart, aim at serving all children in Tasmania. At 30th June, 1964, 161 children's libraries and depots had been established.

The Education Department provides library quarters in all high schools and in some of the larger primary schools. The purchase of books is financed by parents' associations and by departmental subsidies. Teacher-librarians are appointed in high schools. The Schools Library Service issues loan collections of books to schools and gives advice on the setting up of school libraries.

6. *Special Libraries*.—Before the 1939–45 War the number of special libraries, apart from those maintained by government departments, was small, but during recent years many manufacturing, commercial, research and other firms, as well as statutory bodies, have found it necessary to establish special libraries to serve their staff. These libraries, which are most numerous in Sydney and Melbourne, are being increasingly administered by trained librarians.

§ 2. Museums and Art Galleries

NOTE.—During 1964 an annual collection of statistics on a uniform basis was commenced from Australian museums and art galleries. So far, the collection is essentially exploratory and detailed statistics have not yet been compiled. The following paragraphs provide summarized results of the collection and refer individually to the more important museums and art galleries.

1. *General*.—A museum or art gallery is considered to be a building, group of buildings or parts of buildings, managed as a unit and intended predominantly for the permanent display of objects of interest (museum) or objects of art (art galleries) to the general public. Institutions displaying live exhibits are excluded (the more important of these are mentioned in § 3. Botanical and Zoological Gardens, pp. 748–9), as are buildings used for temporary displays (exhibitions, commercial galleries exhibiting only for sale) without a permanent stock of exhibits, permanent exhibitions which are ancillary to other activities, such as exhibits at council chambers, libraries, hotels and other commercial enterprises providing services to tourists and sightseers, and collections which are not readily accessible to the general public, such as university collections for the use of students and research workers.

2. Museums and Art Galleries, 1964.—The following table sets out summary information in respect of the 47 institutions in Australia which have been identified in 1964 as museums and art galleries (branches of museums and art galleries are not shown separately).

MUSEUMS AND ART GALLERIES: SUMMARY, 1964

3. Major Institutions.—Some detail is provided here in respect of the 17 institutions identified in 1964 as major because of the size of their display, the value of their exhibits, their popularity and the extent of the information and investigation services which they provide.

(i) *Australian Capital Territory.* (a) *The Australian War Memorial, Canberra.* The Memorial comprises the national collection of war relics, and the building in which these are preserved. The building was opened in 1941. The memorial is owned by the Commonwealth Government and is administered by a director responsible to a board of trustees. There is a collection of 4,000 art works, and a museum collection of more than 40,000 war relics, the gathering of which began on the battlefields of the 1914–18 War and was continued during the subsequent campaigns in which Australian forces have participated. The collection has been enhanced by gifts of relics from the governments of Great Britain, the sister dominions, and of allied countries, and also by presentations made by ex-servicemen and relatives of those who died. The collection consists of items such as tanks, aeroplanes, submarines, field-guns and boats, and the widest possible range of war trophies down to the smallest items, each relic dependent for its value on its historical background. The works of art, all by Australian artists, depict battle scenes, individual officers and men, etc., and include oil and water colour paintings, drawings, statuary, bronzes, dioramas and mosaics. There is also a library, which is described in § 1, page 735. The area used for display is 80,300 square feet. Total attendance during 1963–64 was estimated at 471,000. Staff numbered 72. Expenditure (excluding expenditure on the maintenance of the building and environs) was about £185,000, and the major items of receipt were Commonwealth Government contributions (£130,000) and the sale of publications, etc. (£56,000).

(b) *The Australian Institute of Anatomy, Canberra.* The Institute is described in Chapter XVIII. Public Health, pages 671–2. The museum has a display area of 9,048 square feet. It contains displays of biological and anatomical aspects of man and the anatomy of Australian animals. A display of Aboriginal and Melanesian artefacts from the National Ethnographic Collections is temporarily housed in the Institute. Estimated attendance in 1964 was 157,000. The museum has a staff of 12. Museum expenditure, met by the Commonwealth Government, was about £19,000 for administration and other current expenditure, and £8,800 for maintenance of building, etc. in 1964.

(ii) *New South Wales.* (a) *The Australian Museum, Sydney.* Founded in 1836, this is the oldest museum in Australia. It is administered by a director and 25 trustees as a Government Department attached to the New South Wales Department of Education, with a staff of 77. It has fine collections of all groups of animals including insects, as well as mineral and ethnological collections, particularly in relation to Australia and the Pacific. There is a valuable library which in 1963–64 comprised 34,405 bound volumes. Its scientific staff engages in research which involved, in that year, 724 man-days of field work in Australia and New Guinea. In addition, staff spent 393 man-days on study leave abroad. Total attendance in 1963–64 was estimated at more than 353,000 with an average daily attendance of 893 on weekdays and 1,420 on Sundays. Twenty-six educational course lectures and 491 lectures to school parties were provided, as well as other lectures, film sessions, etc., with total attendance at these of nearly 31,000. The total area available for display is 51,874 square feet. Current expenditure (excluding amounts spent by the Public Works Department on maintenance, completion of a new wing and alterations) amounted to £114,132.

(b) *Museum of Applied Arts and Sciences, Sydney.* This museum, with branches at Bathurst, Goulburn and Broken Hill, New South Wales, is owned by the New South Wales Government, and administered by a director and a board of seven trustees appointed by the Governor of New South Wales. The museum specializes in applied arts (ceramics, glass, oriental arts, costumes, musical instruments, furniture, etc.), applied science and technology (engineering, transport, textiles, metallurgy, etc.), and among its special features are an opal collection and a planetarium. Total display area is 20,700 square feet. The museum's library contains about 7,500 books and periodicals. Attendances in 1963 were estimated at 206,300 (Sydney), 14,000 (Bathurst) and 17,000 (Broken Hill). The museum had, in 1963, a staff of 46 and undertook research in the fields of transport, chemistry and botany, involving 148 man-days of fieldwork.

(c) *Geological and Mining Museum, Sydney.* This museum is administered as a branch of the Department of Mines by a curator under the control of the Government Geologist. Its collections illustrate the mineral industries of New South Wales with mineral specimens,

building stones, etc. and geological, stratigraphical and palaeontological exhibits. The museum is the principal source of supply of geological specimens for schools. During 1963-64 some 1,400 collections (about 51,300 specimens) were supplied free of charge to New South Wales schools and 25 collections (about 1,650 specimens) to schools in other States. The museum has 10,000 square feet of display areas and a staff of 11. Total attendance was about 12,500, the museum being closed on Sundays. Expenditure (excluding new works and maintenance) amounted to more than £19,000 in 1963-64.

(d) *Art Gallery of New South Wales, Sydney.* The Gallery originated in the Academy of Art founded in 1871. It is administered by a director and secretary under a board of thirteen trustees responsible to the New South Wales Minister for Education. The gallery has 7,503 exhibits, including 1,586 oils and 153 pieces of sculpture. Australian art in all aspects (except early colonial and naive) and modern European painting and sculpture are featured. An Aboriginal art collection includes a unique set of large Melville Island graveposts. There are display areas of 40,000 square feet and a library with 3,690 books. In 1963, the gallery prepared seven special exhibitions. Assistance is provided to governments and private organizations in the design of books, coins, notes, etc., the preparation and judging of exhibitions, and in the supply of research material and information. Total attendance in 1963 was estimated at 750,000. Staff numbered 31. Apart from the payment of wages and salary and the maintenance of buildings, the State Government in 1963 contributed £10,000 to the Gallery. Other income came mainly from bequests (£12,000) and the sale of publications, etc. (£3,342).

(iii) *Victoria. (a) National Museum of Victoria, Melbourne.* The museum was founded in 1854. It is State-owned and administered by a director and board of trustees. It houses substantial collections in the fields of zoology, geology and anthropology. There is a small branch at Tidal River, Victoria. The museum has display areas of 40,738 square feet and a library. Fieldwork involving 136 man-days was undertaken in 1963-64 for the collection of specimens and research in the fields of palaeontology, ornithology and anthropology. Two hundred and one lectures were provided to school parties. Staff numbered 54. Total expenditure by and on the museum in 1963-64 amounted to £79,668.

(b) *Institute of Applied Science of Victoria, Melbourne.* The Institute was founded in 1870. It is State-owned and administered by a director and board of seven trustees. Its collections are concerned with aspects of application of all science subjects, but with special emphasis on transport, astronomy, public health, arms, agriculture and electronics. The total area available for display is 26,000 square feet. Its library contains about 2,600 books and periodicals. A planetarium is nearing completion. Total attendance during 1963-64 was estimated at 318,000. The Institute provided 150 educational course lectures and 130 lectures to school parties. Total attendance at these and other lectures amounted to about 9,600. Staff numbered 63. Expenditure during 1963-64 (including works and maintenance) amounted to £48,799.

(c) *National Gallery of Victoria, Melbourne.* The State-owned gallery is administered by a director and board of trustees. Its large collections of nearly 20,000 items feature paintings by Rembrandt, Tiepolo and the Flemish primitives, Dürer engravings, Blake drawings and English 18th century furniture. The gallery has a display area of 44,000 square feet. During 1963-64 there were 38 lectures to adult parties and 518 to school parties. Staff numbered 78. Excluding new works and maintenance, expenditure in 1963-64 amounted to £157,070, including £39,402 for the acquisition of exhibits under the E. S. Miller bequest and £30,000 spent by the Felton Bequest Committee.

(iv) *Queensland. (a) Queensland Museum, Brisbane.* The Museum, founded in 1855, is the State museum of natural science. It is administered by a Director as a sub-department of the Queensland Department of Education. The collections are in the fields of the natural sciences, ethnology and history and include extensive collections of fossil vertebrates. The museum has a display area of 27,700 square feet. In 1963-64, 58 man-days were spent on fieldwork, particularly the examination of sites of anthropological interest. Its extensive library contained about 32,800 volumes of books and periodicals. Total attendance in 1963-64 was estimated at 114,600. There were 4,900 attendances at 21 educational course lectures, 24 lectures to school parties, and 27 other lectures and sessions. Staff numbered 28. Expenditure (excluding maintenance of buildings) amounted to £42,739.

(b) *Queensland Art Gallery, Brisbane.* This State gallery was established in 1895. It is administered by a director and trustees. The gallery especially features Australian art of all periods, British modern art, French sculpture and French paintings from the

Rubin collection. There are display areas totalling 6,600 square feet and 1,532 display items, including 493 oils. Its library contains 850 items. There were 40 art school and educational course lectures. Staff numbered 15. Its expenditure (including maintenance) was £37,348. It had no bequest income.

(v) *South Australia. (a) The South Australian Museum, Adelaide.* The museum forms a part of the South Australian Department of Public Service and is administered by a director and board of trustees. It features natural science and anthropological collections. The latter refer to the Australasian and Pacific regions and include an outstanding collection of Aboriginal artefacts. Entomology is the most important of the zoological sections. During 1963-64, 387 man-days were spent in field work, particularly the collection of Australites (glassy meteorites). The museum's area available for display is 40,344 square feet and it has a library of about 22,500 volumes. Total attendance during 1963-64 was estimated at 224,700 and there were 20 lectures to school parties and 43 other lectures, sessions, etc. The museum had, in 1963-64, a staff of 58. Total expenditure in 1963-64 (including new works and maintenance) was £86,935.

(b) *National Gallery of South Australia, Adelaide.* The gallery originated in 1881. It is State-owned and administered by a director and board of seven trustees. Apart from the usual art gallery collections, devoted chiefly to British and Australian works, it contains a numismatic collection, the South Australian Historical Collection, and a small collection of weapons. It has a display area of 28,178 square feet and a library. In June, 1964, it had 55,462 exhibits, including more than 2,000 oils and watercolours, and nearly 12,000 engravings and prints. Many loan exhibitions are held and, in 1963-64, there were 13 guide lectures to adult parties and 7 other lectures, etc. Staff numbered 24. Total expenditure (including maintenance) was £62,714.

(vi) *Western Australia. (a) Western Australian Museum, Perth.* The museum was established in 1895. It is administered by a director under a board of trustees appointed by the Western Australian Government. The zoological collections cover all vertebrate and most invertebrate fields, particularly marine. There are collections relating to vertebrate palaeontology and meteorites, fossil invertebrates and some fossil plants. There are extensive collections of Aboriginal artefacts and European arms and armour. In 1963-64 areas available for display totalled 14,250 square feet. During that year 526 man-days were spent on field-work. The library contained 1,731 books and periodicals. Total attendance was estimated at 115,800 and there were 64 lectures to school parties, 11 educational course and 19 other lectures with an overall attendance of nearly 5,000. Staff numbered 36. Total expenditure (including works and maintenance) amounted in 1963-64 to £78,018, which was met mainly from State funds, but also from a Commonwealth Government contribution and from trust funds from private persons for fieldwork and research.

(b) *The Western Australian Art Gallery, Perth.* The gallery was established in 1895 and is administered by a director and government-appointed board of trustees. It features especially collections of Australian paintings, drawings, ceramics and sculpture, a fine collection of Australian contemporary art and a major Henry Moore sculpture. It has collections of coins and of Western Australian stamps. Altogether there are 3,362 items. The gallery has a library with some 800 books and periodicals and a display area of 9,000 square feet. Total attendance in 1964 was estimated at nearly 119,000, and 18 lectures to school parties and 10 other lectures were provided. Staff numbered 15. Expenditure (other than on works and maintenance) in 1963-64 was £38,973.

(vii) *Tasmania. (a) Tasmanian Museum and Art Gallery, Hobart.* Opened in 1887, the Tasmanian Museum and Art Gallery is State-owned and administered by a board of trustees. The museum part contains zoological, anthropological and geological displays relating to Tasmania. The art displays contain an excellent holding of Tasmanian historical works. The area available for display is 50,000 square feet. In 1964 there was a staff of 23. Total expenditure (including expenditure on new extensions) amounted to £83,940.

(b) *Queen Victoria Museum and Art Gallery, Launceston.* This institution, opened in 1891, is owned and administered by the Launceston City Council through a director and a sub-committee of aldermen. Attention is concentrated on collections relating to the natural, biological and historical environment of Tasmania, featuring Tasmanian fauna, Aboriginal relics and historical material. The arts associated with Tasmania are represented by 1,554 items, particularly early colonial period painting and also costumes, lace and ceramics. Total display area amounts to 28,800 square feet and there is a library with some 2,000 books.

In 1963-64 140-man-days were spent on fieldwork in studies of Tasmanian native rats, in mapping the geology of the Launceston basin, and in archeological and Aboriginal studies. Attendance was estimated at 68,000. There were 20 lectures to school parties and 21 other lectures, with an estimated total attendance of 2,200. There was a staff of 15. The Queen Victoria Museum and Art Gallery received £7,000 in 1963-64 from the State Government, but the remainder out of a total expenditure of £21,889 was met, in the main, by the municipality.

4. **Other Museums and Art Galleries.**—A short description of some of the 30 remaining museums and art galleries is given in the following paragraphs. The institutions are grouped into those owned by the States, by municipalities and private trusts, by universities, and by private persons.

(i) *State-owned Institutions.* The Dixon and Mitchell Libraries (sections of the Public Library of New South Wales) have galleries in which paintings, drawings, engravings, photographs, coins and postage stamps, all related to Australian and south-west Pacific history, are exhibited. The main area of display comprises 7,051 square feet. Only a fraction of the many thousands of items can be shown. Museums are maintained at two botanical gardens, at Brisbane and Adelaide respectively. They exhibit plants, plant products, fungi and other items of economic botany. There is a geological museum, maintained by the Victorian State Mines Department, with a comprehensive collection of geological specimens. In South Australia there are two smaller museums of local and tourist interest—the Old Government House, Belair, displaying furniture, etc. of the colonial era, and "Dingly Dell", Port Macdonnell, the historical cottage of the poet Adam Lindsay Gordon, where relics and literature are on display.

(ii) *Municipal and Private Trust Institutions.* In 1964 there were nine institutions owned by various non-metropolitan municipalities throughout Australia. These range from the Mildura Art Gallery, the central point of the Mildura Cultural Centre with expenditure of over £10,000 in 1964, to the Broken Hill Art Gallery, a part of the Broken Hill Technical College, where local artists' pictures of mining activities are exhibited amongst others. Similar institutions are often maintained in major provincial cities by private trusts. These and the municipal institutions often exhibit artistic, historical and other items of special local interest, and as a rule there are associated with them various local societies devoted to the exploration and encouragement of the arts, local history and the like. Thus the Lionel Lindsay Art Gallery and Library at Toowoomba, Queensland, is administered by a board of trustees, originally appointed in 1959 by deed of trust.

(iii) *University Institutions.* Most university collections, some of them comprehensive and containing unique material, are reserved essentially for the use of students and research workers, and are therefore not included as museums or art galleries. However, the John Darnell Art Gallery of the University of Queensland, originating from a bequest in 1930, and the Macleay Museum of Natural History at the University of Sydney, stemming from a gift to the university in 1888, are open to the public.

(iv) *Private Museums and Art Galleries.* Only three establishments of this nature combine the sale of objects of art or interest with permanent displays and are therefore included here as museums or art galleries; two of them are in South Australia and one in the Northern Territory.

§ 3. Botanical and Zoological Gardens

1. **General.**—In addition to the zoological gardens referred to in the following paragraphs there are numerous privately owned zoos and sanctuaries, many of them at tourist resorts, which maintain collections of Australian flora and fauna. There are also various national parks, forests, reserves, etc., dedicated for public use, which are preserved largely in their natural condition.

2. **New South Wales.**—The Sydney Botanic Gardens are situated on the shores of Farm Cove, Sydney Harbour, close to the heart of the city and on the site of the first farm established in 1788 by Governor Phillip. Now occupying 66 acres, they contain a large and varied collection of flowering plants, shrubs and trees as well as hothouses of orchids and ferns.

The Zoological Gardens at Taronga Park, on the northern side of Sydney Harbour, were opened in 1916. The area is about 70 acres. The natural formation has been retained as far as practicable, with the object of displaying the animals in natural surroundings, and an aquarium has been built within the gardens. In 1963-64 admissions to the grounds were 853,142 and to the aquarium 299,905. The receipts of the zoological department of the Taronga Park Trust amounted to £197,605 in 1963-64, excluding an annual State grant of £3,250, and expenditure amounted to £195,498. Exhibits at 30th June, 1964, comprised 1,220 mammals, 2,640 birds, 184 reptiles, and 1,100 fish.

3. **Victoria.**—The main botanical gardens in the State are the Royal Botanic Gardens, an area of 88 acres situated within one mile of the centre of the City of Melbourne and containing over 12,000 species of plants, of which there are some 30,000 individual specimens. Many species of native birds breed on islands in lakes within the gardens.

The Zoological Gardens are situated in Royal Park and contain a wide selection of animals, birds and reptiles. Wild life sanctuaries are also maintained at Healesville and North Balwyn and contain specimens of indigenous fauna.

4. **Queensland.**—Botanical gardens have been established in Brisbane and in several other cities. The Brisbane Botanic Gardens were established in 1855 by the Government of New South Wales. In 1925 the Queensland Government transferred them to the Brisbane City Council. They occupy approximately 46 acres on the banks of the Brisbane River in the central city area and are noted for their collections of palms, tropical trees and shrubs, and succulents; they contain over 7,500 plants.

5. **South Australia.**—The Botanic Gardens, begun in 1854, occupy 45 acres planted with many tropical and sub-tropical trees, shrubs and plants.

The Zoological Gardens, opened in 1883, have an area of approximately 19 acres and contain a fine collection of animals, reptiles and birds. There were 288,600 visitors in 1963-64.

6. **Western Australia.**—A botanic garden for the native plants of Western Australia was officially inaugurated in March, 1963, and planting of the garden began in May, 1963. The site of 25 acres which has been selected for garden development during the first five years is in King's Park, a reserve of almost 1,000 acres close to the centre of Perth. An arboretum of 36 acres for the collection of native trees was founded in June, 1962. It is now almost fully planted, and, with the exception of some rare mallees, nearly all trees native to the southern part of the State are represented.

The Zoological Gardens, which were opened in 1898 at South Perth, have an area of 46 acres and are under the control of the Acclimatisation Committee. Animals, birds and reptiles are exhibited. During the year 1963-64, 128,523 adults and 125,213 children visited the zoo.

7. **Tasmania.**—The Hobart Botanical Gardens adjoining Government House on the Queen's Domain contain a fine collection of exotic trees and shrubs. They are controlled by a Board appointed by the State Government, which supports the gardens by annual grants.

There is no zoo in Tasmania, but a small collection of animals and birds is maintained by the Launceston City Council at the City Park.

8. **Northern Territory.**—The Darwin Botanical Gardens were established in 1873 and were planted with imported exotic plants and trees. The gardens now occupy 80 acres and feature tropical plants of both native and overseas origin. They are controlled by the Darwin City Council.

§ 4. Book Publishing

1. **Australian Book Publishing.**—Some statistics relating to Australian book publishing are compiled by the National Library of Australia as part of its bibliographical responsibilities (see p. 733). Through the deposit provisions of the *Copyright Act 1912-1950*, its overseas collection agents and its own efforts, the library receives practically all Australian publications, although not necessarily in the year of publication. Because the statistics compiled and shown hereunder are classified according to the year of publication, the figures are subject to revision as publications not yet received in the National Library come to hand.

For books published in 1961 and thereafter, the method of counting conforms with international practice. Each title is counted as one unit. The figures cover all non-periodical publications (i.e. those published at irregular intervals or regularly at intervals of one year or longer) published in Australia. They refer to all publications of five pages or more and include pamphlets, new translations and re-editions. They include government publications, educational textbooks, university theses, etc., but exclude publications not available to the general public, advertising material, publications of transitory interest, off-prints, musical works, children's picture books, maps and charts.

Figures for 1960 are less comprehensive, excluding most government publications and certain paper-backs.

2. Number of Publications.—The following table shows the number of books, etc., published in Australia and received by the National Library during the years 1960 to 1964. For 1960 the figures are on the "old" basis of compilation and exclude most government publications.

**NUMBER OF PUBLICATIONS RECEIVED BY THE NATIONAL LIBRARY:
AUSTRALIA**

Received by the National Library up to the end of—	Published during—				
	1960	1961	1962	1963	1964
1960	531
1961	839	1,840
1962	984	2,848	1,793
1963	1,039	2,963	2,501	1,416	..
1964	1,063	2,993	2,675	2,167	1,385

The next table shows the 1962, 1963 and 1964 publications received up to the end of 1964, classified by subject matter.

**NUMBER OF 1962, 1963 AND 1964 PUBLICATIONS RECEIVED BY THE
NATIONAL LIBRARY, BY SUBJECT(a): AUSTRALIA, TO 1964**

Subject	Published during—		
	1962	1963	1964
Bibliography, libraries, general	63	53	33
Philosophy, psychology	21	14	17
Religion	104	72	49
Social sciences	887	700	458
Philology	18	33	29
Science	188	209	126
Technology, business	639	455	224
Art, amusement	103	102	93
Literature	382	322	211
Australian poetry	24	47	29
Australian drama	6	4	22
Australian fiction	164	180	119
Australian essays	1	4	3
Australian humour and miscellany	22	10	3
Criticisms, anthologies, school editions	132	44	18
Other literature	33	33	17
Travel, biography, history	270	207	145
Total	2,675	2,167	1,385

(a) The classification is based on the divisions of the Dewey Decimal Classification.

3. **The Commonwealth Literary Fund.**—In 1908 the Commonwealth Government, under Alfred Deakin, first established the Commonwealth Literary Fund. The Fund was entirely a compassionate one devoted to literary pensions for aged or infirm authors, for the families of literary men who died in poverty, and for writers who were unable for financial reasons to continue their activities.

In 1939, in an endeavour to encourage the development of Australian literature and to foster appreciation of it, the Commonwealth Government greatly enlarged the scope of the Fund. The Fund now awards fellowships each year, assists in the publication of manuscripts of high literary merit, makes annual grants for lectures in Australian literature, and awards pensions to writers who have achieved a nation-wide reputation for their work in the field of creative literature.

The fellowships are awarded each year to writers who have proved their capacity in the field of creative literature, to enable them to devote their time to working on a literary project they specify. A fellowship carries a maximum value of £2,000 a year. The Fund does not seek out people on whom to bestow fellowships, but considers only those who submit applications.

The Fund also assists in the publication of manuscripts which have outstanding literary merit, but which, in the opinion of publishers, may constitute a commercial risk. This assistance takes the form of a guarantee of assistance to the publisher. The Fund does not itself enter the field of publishing, nor does it make outright grants to authors to enable them to arrange publication.

Since 1940 annual grants for special lectures in Australian literature have been made to all universities. In 1956 the Fund initiated a scheme of lectures to the general public and to schools, mainly in country areas, with the co-operation of State adult education authorities and Education Departments. Annual grants are now made to the States for this purpose.

The Fund also assists certain literary magazines of long standing and recognized literary value.

The Fund is administered by a Committee consisting of one representative of each of the three main political parties in the Parliament, the Chairman being nominated by the Prime Minister. The Committee is advised on all literary matters by an Advisory Board of six persons with literary qualifications.

4. **The Literature Censorship Board.**—In 1937 the Commonwealth Government introduced legislation to provide for a Literature Censorship Board to advise the Minister for Customs and Excise on imported literature. At the same time an Appeal Censor was appointed to afford appellants an avenue of appeal which did not make expensive court proceedings necessary. The Appeal Censor was replaced by an Appeal Board in 1960.

The Boards were set up to deal with that part of the problem which provides the greatest amount of controversy—restriction on books which have a real place in the field of literature. In practice, no imported publication having literary merit is prohibited without prior reference to the Literature Censorship Board. Should the Minister decide to prohibit the importation of a book on the recommendation of the Board, an appeal against the decision may be made for reference to the Literature Censorship Appeal Board. A decision to prohibit the importation of a book may be challenged through the normal processes of law.

The Literature Censorship Board consists of a Chairman, a Deputy Chairman, and two other members, while the Appeal Board is made up of a Chairman and two other members.

The foregoing refers to imported literature. Control of indigenous matter comes under the jurisdiction of the State Governments.

§ 5. Film Production

1. **Australian Film Production.**—Australia was one of the pioneers in the history of film-making, a short story film, *John Vane, Bushranger*, having been made in 1904, only a year after America's *The Great Train Robbery*, which is generally considered to be the first genuine story-film. It has been claimed that *The Kelly Gang*, made in 1905-6, was the first full-length feature film produced in the world.

Following the outbreak of the 1914–18 War a series of short patriotic films were produced. In 1917 the first of a successful series of rural comedies was made, featuring a family called the Hayseeds. In the same year *The Kelly Gang* was remade and the first film version of *For the Term of his Natural Life* appeared. A first film version of C. J. Dennis's *The Sentimental Bloke* was made in 1919.

The year 1920 was notable for a number of productions with an authentic Australian flavour:—*On our Selection*, a first version of *Robbery Under Arms*, another remake of *The Kelly Gang*, and C. J. Dennis's *Ginger Mick*. Production continued at about the same level until the coming of sound in 1928. Altogether, approximately 160 theatrical films were produced by Australian units in the silent period (1900–1930).

Lack of equipment hampered the commencement of production of sound films in Australia, but during the 1930's nearly 60 sound films were produced.

During the 1939–45 War, commercial film production combined with the Commonwealth Government in making films. Since the war, a number of British and American companies have made films in Australia. Altogether, about 115 feature films were produced in Australia between 1930 and 1960.

2. The Australian National Film Board.—The Australian National Film Board was inaugurated in April, 1945, on the recommendation of a Commonwealth Government inter-departmental committee. It was attached, for administrative purposes, to the Department of Information. With the abolition of that Department in March, 1950, administration of the Board was transferred to the News and Information Bureau, Department of the Interior.

In November, 1950, the Board was reconstituted as an advisory body to the Minister for the Interior on matters concerned with the production, acquisition and distribution of films required by Commonwealth departments for use within Australia on important matters of national interest and welfare, such as school and adult education, rehabilitation, social development, international understanding, trade and tourist expansion, and immigration; and for dissemination abroad to expand trade and commerce with other countries, to encourage tourist traffic with Australia, to improve Australia's relations with other countries and, where necessary, to explain Australia's national policies and encourage immigration.

The constitution provides for a membership of twelve, with the Director of the News and Information Bureau as chairman and the remainder representative of Commonwealth departments, State government instrumentalities, and organizations interested in the production, distribution or utilization of films for national publicity.

3. The Film Division of the News and Information Bureau.—The first Australian Government organization for the production of motion pictures for national information purposes was the Cinema and Photographic Branch of the Department of Commerce, set up in Melbourne in 1920. Early in the 1939–45 War the newly-established Department of Information was made responsible for the operation of the Cinema Branch and for an Official War Photography Unit. When the Australian National Film Board was established in 1945, the Film Division of the Department of Information became the official film production and distribution agency for Commonwealth departments and instrumentalities. In 1950, with the closing down of the Department of Information and the transfer of its functions, the Division became the Film Division of the News and Information Bureau then set up within the Department of the Interior. The Film Division is also known as the Commonwealth Film Unit. Theatrical and television distribution in Australia, and both theatrical and non-theatrical distribution overseas, of all Film Division productions are organized by the Bureau's home office or its oversea representatives. Non-theatrical distribution in Australia is organized through the National Library, Canberra, in co-operation with State film distribution agencies.

Since 1946 the Film Division has produced films for general exhibition, as well as training and special purpose films. In 1963–64 the Film Unit produced 82 reels of new films and 15 reels of foreign versions of existing films. Prints are distributed to 50 oversea centres. In Britain there is regular distribution through commercial theatres and a large non-theatrical and educational series of circuits. By arrangement with the British Broadcasting Corporation items of topical interest photographed by the Film Division are flown to London for television. In the United States of America there is wide non-theatrical

distribution and considerable use of the films by television networks. An arrangement with the Canadian Film Institute secures placement of films on television and the Australian High Commission handles the films for non-theatrical use. Selected films have been recorded in French, Dutch, German, Italian, Swedish, Russian, Spanish, Japanese, Malay, Thai and various dialects of Hindustani and Tamil.

In addition to films made on its own initiative, the Film Division produces films under the sponsorship of, or with the co-operation of, Commonwealth departments and many other bodies such as the Australian Road Safety Council, the Snowy Mountains Hydro-electric Authority, the Australian National University, the Australian Broadcasting Commission, the Victorian State Electricity Commission, the National Capital Development Commission, the Atomic Energy Commission, the British Broadcasting Corporation, the Australian National Shipping Line, and the Institute of Aboriginal Studies.

4. *Film Censorship.*—(i) *Legislation.* The Commonwealth Government's powers over censorship of films extend only to imported films and imported advertising matter and stem from the Customs Act. Under that Act the Customs (Cinematograph Films) Regulations provide for the appointment of a Film Censorship Board whose function is to ensure that films and related advertising material coming within certain defined categories are not admitted into Australia. Under those regulations the Film Censorship Board may pass films in their original form, reject them, or pass them after eliminations have been made. Legislation passed by the State Governments of Victoria, Queensland, Western Australia and Tasmania names the Commonwealth Film Censorship Board as the censorship authority and vests in it the power to classify films as suitable for general exhibition or not. The State Acts give the Commonwealth Board the authority to censor films made in Australia for commercial exhibition and advertising matter made in Australia.

The Censorship organization comprises a Censorship Board of seven persons and an Appeal Censor, the headquarters being in Sydney. Importers have a right of appeal to the Minister against decisions of the Board and the Appeal Censor.

(ii) (a) *Thirty-five mm. Films for Exhibition in Motion Picture Theatres.* In 1964, 1,096 films comprising approximately 4½ million feet were censored. This represented approximately 796 hours' screening time. Of these films, 389 originated in the United States of America, 360 in the United Kingdom, and 347 in other countries. The principal suppliers among the last mentioned were: U.S.S.R., 66; Italy, 46; Greece, 43; France, 34; Japan, 12; and Czechoslovakia, 8. Included in these figures were 422 full-length feature films which constituted the main theatrical attractions. This was a decrease of 53 compared with the imports for 1963. Feature films came from: The United States of America, 160; the United Kingdom, 88; Greece, 32; Italy and U.S.S.R., 30 each; France, 24; Germany, 9; and Spain and Japan, 5 each. Fourteen feature films were rejected and cuts were made from 128. There were 17 appeals, 11 against rejection, five against cuts and one against rejection of advertising matter. Three were allowed and 14 disallowed. Feature films classified as suitable for general exhibition numbered 209, and 213 were not suitable for children. Of the latter, 38 carried the special condition that all advertising should indicate that they were suitable only for adults. These classifications are advisory only and are designed to enable picture-goers and particularly parents to obtain a general idea of the nature of any particular film. In addition to these imported films, 283 35mm. films of 218,824 feet produced in Australia were cleared. These were mainly newsreels and documentaries intended for commercial exhibition or export.

(b) *Sixteen mm. Films.* Excluding those imported for television use, 6,541 16mm. films of approximately 6 million feet were examined. These were films commercially produced for screening in theatres used by business undertakings for advertising and instructional purposes and for screening in churches, schools and universities, and on home movies. Eleven were rejected.

(c) *Eight mm. and 9.5mm. Films.* Approximately 66,000 feet of these small dimension type films were examined. Seventy-seven films with an approximate footage of 5,000 feet were rejected.

(d) *Television Films.* 9,870 films, predominantly 16mm., of approximately 12 million feet, for use on television, were censored. The number of films is not a true indication of volume because many of these were of short duration. In terms of screening time, the

films censored for television amounted to approximately 5,000 hours. On a footage basis, the United States of America supplied 73 per cent. of the total imports and the United Kingdom 25 per cent. Thirty-eight television films were rejected outright and an additional six were classified as unsuitable for televising. Eliminations were made from 994. There were 17 appeals, 16 against rejection and one against cuts. Three were allowed and 14 disallowed.

(e) *Foreign Language Films.* Countries other than the United Kingdom and the United States of America supplied 347 of the 35mm. films imported for theatrical exhibition, of which 174 were feature films. Generally, the dialogue is in a foreign language with explanatory English captions. A few have an English commentary and in some cases English "dubbed" dialogue. Of 6,541 16mm. commercial films censored, 1,478 originated from non-English-speaking countries. The chief supplying countries were: Germany, 330; France, 241; Japan, 149; Italy, 118; Czechoslovakia, 59; Holland, 46; Switzerland, 43; India, 42; China, 38; Poland, 35; U.S.S.R., 32; and Spain, 32.

(iii) *Export of Films.* The quantity of films exported for the year was approximately 2.5 million feet, consisting mainly of newsreels, advertising films and documentaries. This footage included in many cases several prints of the one film. It also included large quantities of exposed negatives sent overseas for processing.

§ 6. The Arts Council of Australia

Patterned on the Council for the Encouragement of Music and Arts which operated in the United Kingdom during the Second World War, an Australian organization was brought into being in 1943. In 1945 it became The Arts Council of Australia. Originating in New South Wales, Divisions are active now in the Australian Capital Territory, New South Wales, Queensland, South Australia and Tasmania. A Federal Council was formed in 1964. The centre of activity has been in New South Wales, which has a country branch network of over fifty centres. Rapid development in Queensland has resulted in the formation of over 22 branches in this State.

The Arts Council receives State Government grants through the Departments of Education in New South Wales and Queensland. In 1963, for the first time, a substantial contribution was received from a private organization. Some activities of the Council are supported financially by non-metropolitan local government bodies and a grant was made by the Gulbenkian Foundation in 1964 to help in re-establishing the Federal Council.

The New South Wales Division is a member of the Adult Education Advisory Board in that State, representing the "live art" section of adult education. The Tasmanian Division is represented on, and works closely with, the Adult Education Board of that State.

Activities of the Arts Council are directed towards decentralization of the arts for the benefit of country centres and metropolitan and country schools. It is greatly concerned with taking the arts to children as a basic cultural development. Tours of high standard companies in opera, ballet, drama, puppets, etc., are operating throughout the year.

The Young Elizabethan Players Company was formed jointly by the Arts Council and the Australian Elizabethan Theatre Trust in 1958 to take Shakespeare to schools in New South Wales and Queensland, and is still operating.

The Council handles a wide range of art exhibitions, both for city and country areas. Summer schools for drama, painting, pottery, music and other arts are an established annual feature of the work of the New South Wales and Queensland Divisions.

Yearly drama festivals are conducted for the Little Theatre movement. In 1963 the New South Wales Division sponsored the first arts festival for Sydney (North Side Arts Festival), with a wide range of cultural activities concentrated on the north side of Sydney Harbour. It is intended to make the festival a biennial event with the second festival being planned for August, 1965.

§ 7. The Australian Elizabethan Theatre Trust

Inaugurated in 1954 to commemorate the first visit to the Commonwealth of Her Majesty The Queen, the Australian Elizabethan Theatre Trust has since presented drama, opera and ballet throughout the Commonwealth. The Trust receives annual grants from the Federal Government, the State Governments and city councils. Its income also includes subscriptions from members and donations from business houses.

In the field of drama it has presented, *inter alia*, the works of Australian playwrights, including plays which were subsequently presented overseas.

The Elizabethan Trust Opera Company has given seasons of opera and has presented oversea guest artists, conductors and producers. Since 1956, to the end of 1964, more than 1,000 performances of opera have been given by the Trust Opera Company in all States and in the Australian Capital Territory. Twenty-six operas have been the repertoire in this period. The Australian Ballet, which commenced its inaugural season in November, 1962, has visited all mainland capitals and New Zealand and presented world premiere productions of three commissioned ballets during 1964. The Commonwealth Government, late in 1964, promised financial assistance for the Ballet in its plans to be represented at the Commonwealth Festival of Arts in Britain in 1965. This company also features guest appearances by renowned oversea performers. The Trust has also been associated with commercial managements in the presentation of oversea attractions and large-scale musicals.

Country areas have been visited by Trust companies presenting opera, drama and puppets, in association with the Council of Adult Education in Victoria and The Arts Council of Australia in New South Wales. During 1965 two companies of Young Elizabethan Players will again present Shakespeare for schools in five States.

In Victoria the Trust is associated with the University of Melbourne in the Union Theatre Repertory Company. It is also associated with the University of New South Wales in the Old Tote Theatre Company which had its inaugural season during 1963. Assistance is given to the Perth Playhouse, the Festival of Perth, the National Theatre and Fine Arts Society of Tasmania, and other companies. The Trust contributes productions to the biennial Adelaide Festival of Arts.

One of the most important activities undertaken by the Trust is its association with the University of New South Wales and the Australian Broadcasting Commission in the establishment and maintenance of the National Institute of Dramatic Art. This provides a training ground for young Australian actors, producers and technicians.

SCIENTIFIC RESEARCH

NOTE.—This section refers specifically to various organizations, etc., associated with scientific research. Particulars regarding Commonwealth medical research organizations are given in Chapter XVIII. Public Health.

A special article on Science and Technology in Australia, prepared by the Commonwealth Scientific and Industrial Research Organization of Australia, was included in Year Book No. 49 (*see p. 781*).

§ 1. Commonwealth Scientific and Industrial Research Organization

1. **General.**—By the *Science and Industry Research Act 1949* the previously existing Commonwealth Council for Scientific and Industrial Research was re-organized under the title of the Commonwealth Scientific and Industrial Research Organization. An account of the organization and work of the former Council, and of the earlier Commonwealth Institute of Science and Industry from which the Council was formed, was given in earlier issues of the Year Book. (*See No. 14, p. 1061 and No. 37, p. 1183.*)

2. **Science and Industry Research Act 1949-1959.**—This Act provides for an Executive of the Organization consisting of nine members, to be appointed by the Governor-General, of whom at least five shall be persons possessing scientific qualifications, and an Advisory Council of the Organization, consisting of the members of the Executive, the Chairman of each State Committee constituted under the Act, and such other members as the Advisory Council, with the consent of the Minister, co-opts by reason of their scientific knowledge.

The powers and functions of the Organization are as follows:—(a) to initiate and carry out scientific research in connexion with primary or secondary industries in Australia; (b) to train research workers and to establish industrial research studentships and fellowships; (c) to make grants in aid of pure scientific research; (d) to establish and make grants to industrial research associations in any industry; (e) to test and standardize scientific apparatus and instruments; (f) to collect and disseminate scientific and technical information; (g) to publish scientific and technical reports and periodicals; and (h) to act as a means of liaison between Australia and other countries in matters of scientific research.

3. **Science and Industry Endowment Act 1926-1949.**—Under this Act the Government established a fund of £100,000, the income from which is used to provide assistance to persons engaged in scientific research and in the training of students in scientific research. Provision is made for gifts or bequests to the fund, which is controlled by a trust consisting of the Executive of the Organization.

4. **Work of the Organization.**—(i) *General.* The activities of the Commonwealth Scientific and Industrial Research Organization have necessitated a widespread and adaptable arrangement of its research laboratories. Centralization has been avoided, in the first place by establishing laboratories in different places in the Commonwealth wherever the necessary facilities, contacts and other suitable conditions could best be found, and secondly by the establishment of a State Committee in each of the six States. These Committees are widely representative of scientific and industrial interests, and advise the Executive or the Advisory Council on general matters and on particular questions of investigation and research.

For about twelve years after its establishment the work of the previous Council was devoted mainly to the solution of problems affecting the agricultural and pastoral industries. Unlike manufacturing concerns, which often employ their own scientific staffs, the farmers and the pastoralists are dependent on outside help for the solution of their problems which require research. It was a recognition of the greater need of the primary producer which directed the Council's early policy. In 1937, however, the Commonwealth Government decided to extend the activities of the Organization so as to provide assistance to secondary industries and several laboratories were established for work in that field; it was thus able to render assistance to these industries almost immediately after the outbreak of war.

The Organization has devoted part of its effort to basic research and has achieved world leadership in certain fields. In applied research some notable successes have been achieved. Particular attention has been directed to the potentialities of Australian raw materials and to the improvement of the industrial processes concerned with processing these resources into finished products.

The basis has been provided for the establishment of a flourishing pulp and paper industry based upon indigenous hardwoods as raw material. Wool research, supported by a statutory contribution by the industry, has been able to show the way to notable advances in manufacturing techniques, and, in particular, new moth-proofing and shrink-proofing processes have been developed. Recent outstanding successes include processes for permanently pleating woollen fabrics and for endowing woollen fabrics with "wash-and-wear" properties.

The Organization's Division of Chemical Physics has pioneered the development of methods of chemical analysis based on atomic absorption spectroscopy. The method and apparatus have been patented and licences to manufacture granted to firms in the U.K., U.S.A., Italy, France and Australia. The atomic absorption method of chemical analysis is now used in more than 70 Australian laboratories engaged in mining, metallurgy, agriculture, medical research, electro-plating, brewing, wine making and oil analysis.

(ii) *Establishments.* For the purpose of carrying out its research work there are established within the Organization a number of Divisions and Sections. The Divisions, of which there are now thirty-one, comprise the major establishments for which special laboratory buildings have been erected and equipped; the Sections generally include establishments which have not reached a stage of development, so far as the scope and magnitude of their operations are concerned, to justify their designation as Divisions. As the Organization's investigations extend over the whole Commonwealth, and as many of the investigations which are being conducted—particularly those concerned with problems affecting the agricultural and pastoral industries—necessitate experimental work in the field, a number of field stations are established in various parts of Australia.

Divisions.

- Plant Industry, with main laboratories at Canberra and field stations.
- Entomology, with main laboratories at Canberra and field stations.
- Animal Health (laboratories in Melbourne, Sydney and Brisbane), Animal Genetics (main laboratory in Sydney) and Animal Physiology (main laboratory in Sydney), which together comprise the Animal Research Laboratories.
- Biochemistry and General Nutrition, with main laboratories at Adelaide and field stations.
- Soils, with main laboratories at Adelaide and extensive operations in the field.
- Forest Products, with main laboratories in Melbourne and field experiments.
- Food Preservation, with main laboratories at North Ryde (New South Wales) and a subsidiary laboratory in Brisbane.
- Fisheries and Oceanography, with main laboratories at Cronulla (New South Wales) and experimental work in coastal waters of Australia.
- Mechanical Engineering, with laboratories in Melbourne.
- Physics and Applied Physics, comprising the National Standards Laboratory at Sydney.
- Radiophysics, with main laboratory at Sydney and Observatory at Parkes, New South Wales.
- Physical Chemistry, Chemical Physics, Mineral Chemistry, Applied Mineralogy, Chemical Engineering, and Organic Chemistry, comprising the Chemical Research Laboratories in Melbourne.
- Tribophysics, with laboratories in Melbourne.
- Building Research, with laboratories in Melbourne.
- Mathematical Statistics, with main laboratory in Adelaide.
- Meteorological Physics, with main laboratory and field station in Melbourne.
- Land Research and Regional Survey, with headquarters in Canberra and field stations in the Northern Territory and Western Australia.
- Protein Chemistry (Melbourne), Textile Industry (Geelong, Victoria) and Textile Physics (Sydney), which together comprise the Wool Research Laboratories.
- Coal Research, Sydney.
- Tropical Pastures, with main laboratories in Brisbane and Townsville and field stations.
- Dairy Research, Melbourne.
- Wildlife Research, with main laboratories at Canberra.

Sections.

- Horticultural Research Sections, Adelaide and Merbein (Victoria).
- Irrigation Research Laboratory, Griffith (New South Wales).
- Upper Atmosphere, with laboratory at Camden (New South Wales).
- Mineragraphic Investigations, Melbourne.
- Ore-dressing Investigations, Melbourne and Kalgoorlie (Western Australia).
- Fodder Conservation, Melbourne.
- Physical Metallurgy, Melbourne.
- Soil Mechanics, Melbourne.
- Industrial Research Liaison, Melbourne.
- Editorial and Publications, Melbourne.
- Wheat Research Unit, Sydney.
- Sugar Research Unit, Melbourne.
- Computing Research Section, Canberra.

An Industrial Research Liaison Section has also been established at Head Office to foster liaison in the secondary and manufacturing fields.

The Organization's Head Office, with administrative and executive staff, is in Melbourne, and associated with it are the Organization's Central Library, Agricultural Liaison Unit, Industrial Research Liaison Section and Editorial and Publications Section. The funds for the Organization are provided from two main sources, namely, from Commonwealth revenue by parliamentary appropriation, and from industry directly or indirectly by way of contributions and special grants. It has more than 1,600 professional officers in its total staff of 5,400, and has an annual budget of £16 million.

The Organization maintains liaison offices in London and Washington, in each case as part of the British Commonwealth Scientific Office. These offices keep in close touch with developments throughout Europe and North America, and through them Australia receives advice of significant advances. These offices also play an important role in assisting scientists who are studying in the regions concerned. Numerous oversea studentships are maintained by the Organization as a means of raising the standard of training among its professional staff.

§ 2. Mount Stromlo Observatory

Mount Stromlo Observatory—since 1957 incorporated into the Australian National University—is the largest observatory in the southern hemisphere. It is in effect the Department of Astronomy of the Australian National University, and its staff members assist in the training of the future astronomers of Australia. In its instrumental resources, it is second only to some of the great observatories of America. Since it is located south of the Equator, it is placed especially advantageously for the conduct of research into the structure of the Milky Way system and of the Star Clouds of Magellan. The telescopes and auxiliary equipment at the Observatory provide access to parts of the sky that are forever hidden from the view of northern hemisphere astronomers. Mount Stromlo astronomers have therefore a special responsibility to do research on stars and other celestial objects at far southern declinations.

Mount Stromlo itself is a ridge of hills, approximately one mile long, situated at 35° 19' 16" South Latitude and 149° 0' 20" East Longitude, seven miles west of the city of Canberra. Its highest point is about 2,560 feet above sea level, and telescopes can be situated so as to be well screened from the lights of the city.

The first permanent installation on the site was established in 1911, but, because of the war and other circumstances, the development of the Observatory was delayed. It was not until 1925 that regular astronomical work could be undertaken. Since then, the Observatory has developed steadily, and, under its third Director, the scientific staff now consists of fifteen astronomers. This does not include fifteen scholars and a number of oversea astronomers visiting Mount Stromlo for periods of a year or so. With technical, clerical and maintenance personnel, the total staff amounts to about 75.

Mount Stromlo Observatory possesses ten mounted telescopes with apertures ranging from five inches to 74 inches. The 74-inch reflector is of the largest size of telescope in the southern hemisphere. There are also special telescopes for the Time Service, and the University of Uppsala, Sweden, has a 26-inch Schmidt telescope on Mount Stromlo.

The principal fields of research at Mount Stromlo are as follows.

Studies of the structure and dynamics of the Milky Way system.

Investigation of the Large and Small Magellanic Clouds.

Studies of the physical properties of the interstellar medium of gas and dust, and its relation to the spiral structure of our galaxy.

Studies of the physics of the stars of the southern hemisphere by spectrographic means and by photoelectric techniques.

Maintenance of the National Time Service, leading to studies of the variable rotation of the earth and polar motion.

Published accounts of the researches have a world-wide distribution.

The Observatory is at present completing a major expansion of equipment and staff. A permanent Field Station is in operation on Siding Spring Mountain (Latitude 31° 16' South; Longitude 148° 41' East; altitude, 3,820 feet) near Coonabarabran, New South Wales. This is an area having less cloud than Mount Stromlo. The principal instrument is a modern 40-inch reflector, alongside of which is a 16-inch telescope. Both telescopes were built in the United States and are now in operation. A 24-inch polarization reflector is on order. Other sites are being examined for the future development of astronomy in Australia.

At certain times Mount Stromlo is open for inspection by members of the public when arrangements can be made so that the scientific work of the Observatory is not interrupted. A more detailed description of the Observatory's work is given in Year Book No. 46, pages 1142-4.

§ 3. Australian Atomic Energy Commission

1. **Establishment and Functions of the Commission.**—In November, 1952, a Commission of three members was appointed to control the Commonwealth's activities in relation to uranium and atomic energy, and, in April, 1953, upon the enactment of the *Atomic Energy Act* 1953, the Commission was established as a statutory authority, with powers and functions as defined in the Act. Under amending legislation, the number of Commissioners was increased to five in April, 1958. The Commission is a corporate and autonomous body, controlling its own service. It functions under the direction of the Minister for National Development.

The functions of the Commission fall under two main headings. Firstly, it is responsible for undertaking and encouraging the search for and mining of uranium and is empowered to co-operate with the appropriate authorities of the States in connexion with these and related matters. Secondly, it is authorized to develop the practical uses of atomic energy by constructing and operating plant for this purpose, carrying out research and generally fostering the advancement of atomic energy technology.

2. Research.—The Commission's Lucas Heights Research Establishment is Australia's major atomic energy research and information centre. Its research programme is concerned with the development of nuclear power, the utilization of radioisotopes, and other related fields, and is directed towards the long-term development of national resources.

The major research effort of the Lucas Heights establishment is the evaluation of a high-temperature gas-cooled reactor system in which the fuel is dispersed in the moderator. This is an advanced reactor concept which is considered to have considerable promise in the long term in relation to the present generation of power reactors now operating or under development overseas.

For various reasons, including the avoidance of duplication of effort, the Commission decided to investigate the feasibility of using beryllium metal or beryllium oxide as the moderator and carbon dioxide as the coolant. Much work has been done on the metal system but effort is now being concentrated on the oxide or ceramic system, as applied to a specific reactor concept, namely a pebble-bed core cooled with carbon dioxide.

With all-ceramic fuel, higher operating temperatures can be achieved. This permits a reduction in the size and cost of heat exchangers and associated civil works and an improvement in steam conditions and overall efficiency.

The development of a new power reactor concept to a commercially economic stage generally takes 15 to 20 years and involves considerable expense. Since a number of different types of reactors have already been developed to a commercial stage, a new concept faces strong competition, and its development can in general be justified only if it offers promise of some long-term advantages. The beryllium oxide moderated all-ceramic fuel reactor holds such promise.

Provided certain design problems can be satisfactorily solved, a dispersed fuel beryllium oxide based high-temperature gas-cooled reactor should yield lower plant and equipment costs than most other gas-cooled systems. The use of a dispersion fuel capable of a high burn-up gives promise of low fuel cycle costs.

The maximum gas temperature will be limited by the ability of materials used in parts of the heat exchangers and for duct work to withstand it. Nevertheless it should be possible to achieve steam conditions equal to those likely to be used in any future conventional plants. At present, using available steels which are economically practicable, the maximum temperature of the carbon dioxide coolant would appear to be 750° C., a considerable advance on British gas-cooled stations of current design. There is no obvious reason why this temperature should not be raised as better structural materials are developed. Then gas-turbines or other plant could be used as topping sets, as has been proposed for future development in the conventional power field.

Thus there is plenty of scope for development, and the general concept is unlikely to become prematurely obsolete.

The Commission is also seeking to extend the use of radioisotopes in Australia in scientific research and development, in the treatment of disease, in raising production and lowering costs in agriculture and in manufacturing industry. New applications are being continually devised. The use of isotopes is fostered by providing an advisory service which is a ready source of information on established uses, and by investigation of other projected applications. Radioisotopes, including short-lived isotopes which cannot be economically imported, are being produced in the high flux research reactor HIFAR, and some are being exported.

Research and development work on technical and scientific applications of radiation is also being carried out. The possibilities of radiation for such purposes as industrial sterilization, food preservation, and the control of insect pests are being investigated. Scientists at Lucas Heights are also studying the biological effects and questions of health and safety involved in the use of radioactive materials.

The Research Establishment has developed facilities for the absolute standardization of radioisotopes and has participated in international intercomparisons in the health and safety field. Work is directed to various aspects of radiation dosimetry, to radiation biology and to aspects of the toxicology of beryllium compounds.

Lucas Heights is a centre of specialized equipment and information. In addition to the research reactor HIFAR, used for testing materials and producing radioisotopes, there is much other equipment unique in Australia. All these facilities are available to universities and other institutions under suitable conditions. In these endeavours the Atomic Energy Commission is working in close co-operation with the United Kingdom Atomic Energy Authority, under arrangements which give Australia access to results of British research on peaceful atomic energy uses. Results of research in Australia are in like manner available to Britain. Work in Australia, though constituting a self-contained programme, is co-ordinated with the British programme to avoid overlapping of research objectives and duplication of investigations. Australia also has bilateral arrangements with the United States, Canada and Japan and recently accredited a diplomatic mission to the European Atomic Energy Community (Euratom). Australia is also taking part in the promotion of the peaceful uses of atomic energy through the International Atomic Energy Agency. For the year 1963-64 the Commission placed £51,000 worth of research contracts mainly within Australian universities on matters related to the research programme at Lucas Heights. Since 1954 the Commission has placed research contracts to a total value exceeding £410,000.

The Australian Institute of Nuclear Science and Engineering comprises the Australian Atomic Energy Commission and Australian universities. Twenty-five operations are financed by membership subscriptions and a Commonwealth Government grant. The purpose of the Institute is to stimulate research and training in nuclear science and engineering and to arrange access for university research workers to the highly specialized equipment at the A.A.E.C. Research Establishment.

The Australian School of Nuclear Technology, jointly sponsored by the Commission and the University of New South Wales, will offer courses in the near future in nuclear technology, production and use of radioisotopes, radiological safety, health physics, and other related topics.

§ 4. The Standards Association of Australia

The Standards Association of Australia is the national standardizing organization and issues Australian standard specifications and test methods for materials and products and standard codes of practice.

The Standards Association was established in July, 1929, by the amalgamation of the Australian Commonwealth Engineering Standards Association and the Australian Commonwealth Association of Simplified Practice. It was incorporated by Royal Charter in 1950. It is an independent body in close touch with modern industrial requirements and has the full recognition and support of the Commonwealth and State Governments and of industry. Half of its funds are provided by Commonwealth Government grant, the remainder coming from membership subscriptions, other contributions, and sale of publications. Organizations, companies, and individuals are eligible for subscription membership.

The governing body of the Association is a Council, on which industry is fully represented, together with official representatives of the Commonwealth and State Governments and their technical departments, and of scientific, professional and commercial organizations. Voluntary assistance is rendered in the drafting of specifications and codes by several thousand individuals who are experts in their particular fields. They are organized into some hundreds of committees. These committees are grouped under broad industry divisions including building construction and civil engineering, electrical engineering, mechanical engineering, chemical, timber, plastics, packaging, and iron and steel.

The Association publishes standards of many kinds for the benefit of industry and commerce. Its specifications provide a suitable standard of performance, quality and dimension, and an equitable basis for tendering. They help to eliminate redundant qualities and sizes. They enable purchasers to obtain their requirements with greater assurance of satisfaction, with more rapid delivery and without the necessity of drafting individual specifications. As a rule it creates national standards based on Australian practices, but there is some endorsement of British standards, with or without modification. At present there are more than 1,300 Australian standards, and over 600 projects are in hand.

The underlying principles covering the preparation of the specifications and codes are that they shall be in accordance with the needs of industry; that the common interests of producer and consumer be maintained; that periodical revision should keep the work abreast with progress; and that standardization be arrived at by general consent without coercion.

The Association has two specialized libraries, one in Sydney and one in Melbourne, containing the national standards of all countries with standards organizations. These libraries serve to provide necessary material for committee work and also give freely a service to those concerned with standards or related matters, e.g., to importers and exporters seeking details of practice in other countries.

The Association has international affiliations and is a member, representing Australia, of the International Organization for Standardization (ISO) and of the International Electrotechnical Commission (IEC). Close links are maintained with the British Standards Institution and the standards organizations of other British Commonwealth countries. The Association is the Australian agent of the British Standards Institution and can supply all British standards.

Its functions are linked to some extent with those of the National Association of Testing Authorities in that whereas the Standards Association establishes and publishes standard test methods, the Association of Testing Authorities works to ensure that registered testing laboratories maintain their level of competence.

The headquarters office of the Association is in Sydney and there is a major branch office in Melbourne. Branch offices are located also in other capital cities and at Newcastle, New South Wales.

§ 5. The National Association of Testing Authorities

The National Association of Testing Authorities organizes testing facilities throughout Australia to serve private and governmental needs.

Membership is open to authorities whose testing laboratories conform to the standards of staffing and operation defined by the Association. Testing authorities may register their laboratories voluntarily. The Association assesses the competence of the laboratories and ensures that their standards of competence are maintained. Certificates of test issued by registered laboratories may be endorsed in the name of the Association. NATA endorsed test certificates are generally accepted by governmental, industrial and commercial interests.

Laboratories are registered for performance of specific tests in the fields of metrology, mechanical testing, electrical testing, optics and photometry, industrial radiography and flaw detection, heat and temperature measurement, chemical testing, biological testing and acoustic and vibration measurement. At the end of 1964 there were 480 laboratories registered with the Association, which had a further 105 applications for registration before it.

§ 6. Scientific Societies

1. *Royal Societies.*—The following table contains the latest available statistical information regarding the Royal Society in each State, the headquarters of which are in the capital cities.

ROYAL SOCIETIES, DECEMBER, 1964

Particulars	Sydney	Melbourne	Brisbane	Adelaide	Perth	Hobart	Canberra
Year of charter	1866	1859	1884	1880	1913	1844	1930
Number of members	373	445	274	232	227	625	188
Volumes of transactions issued	97	(a) 950	(a) 75	88	53	98	..
Number of books in library	32,695	25,500	64,810	22,500	6,250	35,000	..
Societies on exchange list	392	337	296	297	228	316	..

(a) Volumes of proceedings.

2. Australian Academy of Science.—The Australian Academy of Science is the national institution representing science in Australia. Constituted by Royal Charter in 1954, the Academy promotes scientific knowledge and research, maintains standards of scientific endeavour and achievement in the natural sciences in Australia, and recognizes outstanding contributions to the advancement of science.

The Academy represents Australian science and scientists at the national and international level, organizes meetings of scientists, holds symposia, and arranges for visits of scientists from other countries to Australia.

In its functions the Australian Academy is comparable with the Royal Society of London and national academies of science of many other countries. Its 106 Fellows (designated F.A.A.) are eminent in some branch of the physical or biological sciences in Australia, occupying professional positions in universities, the Commonwealth Scientific and Industrial Research Organization, other research organizations, and industry. A very few places are reserved for Fellows who have rendered conspicuous service in the cause of science.

No more than six new Fellows are elected in any one year. His Royal Highness, Prince Philip, Duke of Edinburgh, was admitted as a Royal Fellow during his visit to Canberra on 20th November, 1962.

The Australian Academy co-ordinates Australian contributions to such co-operative ventures as the International Geophysical Year, the International Year of the Quiet Sun, and the International Biological Programme.

Representation is provided at the General Assemblies of the International Scientific Unions and similar bodies relating to astronomy, geophysics, geology, physics, crystallography, mathematics, biochemistry, physiology, geography, biological sciences, chemistry, Antarctic research, space research and oceanic research.

As the Australian Academy of Science is too young a body to be financially self-sufficient, the Commonwealth Government makes annual grants of general purpose funds without affecting the autonomy of the Academy. These grants, together with substantial private benefactions, enable the Academy to continue its work. Research fellowships provided by industry are administered.

The Academy is managed by an elected council comprising a President, Treasurer, two secretaries and eight ordinary members who are drawn equally from the physical sciences and biological sciences. Chief administrative officer is the Executive Secretary, who is not a Fellow. Its conference centre in Canberra was opened in 1959.

3. The Australian and New Zealand Association for the Advancement of Science.—This association was founded in 1887. Its headquarters are at Science House, Sydney, and congresses are held at intervals of approximately eighteen months in the various States and in New Zealand. The 38th Congress is to be held in Hobart in August, 1965.

4. Other Scientific Societies.—The Linnean Society of New South Wales, with headquarters in Sydney, was founded in 1874. Sir William Macleay, who died in 1891, during his lifetime and by his will endowed the Society to the amount of £67,000, which has been

increased by investment to approximately £100,000. The Society offers annually to graduates of the University of Sydney, who are members of the Society and resident in New South Wales, research fellowships (Linnean Macleay Fellowships) in various branches of natural history. One fellowship was awarded for 1965. The library has some 19,000 volumes. Eighty-nine volumes of proceedings have been issued and the Society exchanges with about 300 kindred institutions and universities throughout the world. The membership at the end of 1964 was 285.

The British Astronomical Society has a branch in Sydney, and in each of the States there is a branch of the Australian Medical Association.

There are over 200 other learned societies devoted to the study of particular sciences. Some of these, including the Royal Australian Chemical Institute and the Institute of Engineers, Australia, are qualifying bodies, admission to which is by qualification only. Others, such as the Institute of Food Technologists, are open to any interested person. Some societies, such as the Australian Biochemical Society, have annual symposia of a very high standard. A great many of these bodies publish appropriate journals.

STATE GOVERNMENT EXPENDITURE ON EDUCATION, ETC.

Estimates of the expenditure by each State Government on education and related items are shown in the following tables.

(i) *Expenditure from Revenue and Special Funds.* Details shown below relate to net expenditure from Consolidated Revenue and the following special funds: Opera House Account, Maintenance and Repairs to Schools and Police Buildings Account and the Joint Coal Board Welfare Fund (New South Wales); Forestry Fund (Victoria); and Lotteries Commission Fund (Western Australia). Details exclude expenditure from the Commonwealth university grants, and expenditure on debt charges, payroll tax and superannuation payments. The cost of medical and dental inspection of school children is also excluded, as this service is considered to be more appropriately classified under public health. For these reasons, the figures do not represent total current government expenditure on education in each State. Furthermore, because of differences in organization and accounting methods, the information shown is not on exactly the same basis for all States, and consequently comparisons of State expenditures are approximate only.

STATE NET EXPENDITURE ON EDUCATION, ETC. (a) FROM REVENUE AND SPECIAL FUNDS

(£'000)

Year	New South Wales	Victoria	Queensland	South Australia	Western Australia	Tasmania	Total
1958-59 ..	44,624	31,256	13,624	10,812	9,217	4,636	114,169

CHAPTER XX

LOCAL GOVERNMENT

NOTE.—This chapter includes, in addition to information on the operation of local government authorities, information on the operation of certain semi-governmental authorities. The latter information is not comprehensive for this type of authority, and is included partly because of the association of the functions performed with those of local government authorities, and partly for convenience in preparation. Particulars of the activities of other semi-governmental authorities, e.g. transport, electricity and gas, and banking undertakings, for which only some financial statistics are given in this chapter, are included in the chapters relevant to those subjects.

§ 1. Introduction

1. Local Government Authorities.—In each State of the Commonwealth there exists a system of local government whose powers and responsibilities are in general similar, and cover such matters as the construction and maintenance of roads, streets and bridges, water, sewerage and drainage systems, and health and sanitary services, the supervision of building, and the administration of regulations relating to items such as weights and measures, slaughtering, the registration of dogs, etc. In addition to these obligatory functions, there are also many which may be performed by a local government authority either with or without the consent of the ratepayers or the Governor-in-Council. These include transport facilities, electricity, gas, and other business undertakings, hospitals, charitable institutions, recreation grounds, parks, baths, libraries, museums, etc.

The system is based on the principle of a grant of specific powers by the State legislatures to the local authorities, their autonomy, however, being more or less limited by the provision for general supervision by a department of the central government or by the Governor-in-Council. Otherwise, within the scope of the Acts under which they are constituted or which they have to administer, they are responsible only to the ratepayers.

While the broad pattern of local government throughout the States of Australia is similar, the range of activities, election of officers, methods of valuation and rating powers, etc., differ considerably.

The areas over which local government bodies exercise general control, numbering 899, are known in New South Wales as cities, municipalities and shires; in Victoria as cities, towns, boroughs and shires; in Queensland as cities, towns and shires; in South Australia as cities, corporate towns and district council areas; in Western Australia as cities, towns and shires; and in Tasmania as cities and municipalities. In New South Wales some local government authorities in an area have combined to provide services such as electricity, water, sewerage and drainage—e.g. the county councils. Within shires there are also some municipal units known as urban areas. Apart from the more thinly populated parts of New South Wales and South Australia, and the Commonwealth Territories (except for the City of Darwin), practically the whole of Australia comes within local government jurisdiction.

The financial statistics in § 2 following are classified under the headings of Ordinary Services and Business Undertakings. The former covers the obligatory and general functions referred to above. Business Undertakings include public utilities such as water supply, sewerage, electricity, gas, transport and hydraulic power undertakings, and other miscellaneous works such as abattoirs, quarries, ice works, cinemas, etc.

2. Semi-governmental Authorities.—In addition to local government authorities, a large number of authorities have been set up to control specific activities, which are often identical with some of those performed by either, or both, of the other classes of public authority—central government and local government—and a complete picture of any field of activity for a State or Australia as a whole cannot be obtained without reference to each class operating in that particular field. These semi-governmental authorities differ primarily from local government authorities in that their operations are restricted to the specific activity for which they were constituted—e.g. roads and bridges, water and sewerage, electricity and irrigation, harbours, or tramways, etc.—i.e. each dispenses a specific service throughout an area as distinct from the general services of the local authority.

In §§ 3 to 7, which deal with debt, roads and bridges, water supply and sewerage, harbours, and fire brigades, particulars are included of the more important of these authorities which operate within the range covered by this chapter.

3. **Roads, Bridges, etc.**—The construction and maintenance of roads, bridges and ferries are generally part of the functions of local authorities, but in each State there exists a central road authority or a government department whose duties relate to the construction, reconstruction and maintenance of "main" and "developmental" roads, the distribution of funds to local bodies, and the supervision and co-ordination of road construction and policy throughout the State. Owing to difficulty in obtaining complete particulars of receipts and expenditure of the various local governing bodies in respect of roads under their control, the details of receipts and expenditure given in § 4 are those of central governments only, relating either to the supervisory board or commission in the State or to direct activities of a department. However, estimates of the aggregate net expenditure of all public authorities concerned with roads and bridges in Australia are given in paragraph 10 of that section. In § 2, some information is given of the revenue and expenditure of local government authorities in respect of roads.

4. **Water Supply and Sewerage.**—In the cities of Sydney and Melbourne the control of water supply and sewerage is in the hands of special boards, while in Adelaide and Perth these services are under the direct supervision of government departments. In most of the other cities and towns the municipal councils or, in some cases, water trusts, are the controlling bodies, which either construct the works out of their own resources or take them over after they have been constructed by the government.

5. **Harbours.**—The majority of the harbours in Australia are managed by boards, the members of which are either elected by persons interested, or appointed by the government. In some instances, however, they are directly controlled by the government.

6. **Fire Brigades.**—In all the States the management of fire brigades is undertaken by boards. These boards usually comprise members elected by the councils of municipalities and insurance companies within the districts placed under their jurisdiction, and one or more members appointed by the government. Occasionally volunteer or country fire brigades are represented.

§ 2. Local Government Authorities

1. **New South Wales.**—For purposes of local government the whole of the Eastern and Central land divisions and a small portion of the sparsely populated Western division have been divided into cities, municipalities (most principal towns) and shires (mainly large rural areas, some of which include important towns). At the end of 1963 the area incorporated was 272,000 square miles, or nearly nine-tenths of the total area of the State.

All local government authorities in the State are subject to the general provisions of the Local Government Act.

Municipalities and shires may combine to form county councils for the establishment and conduct of services of joint benefit, e.g., electricity, water, gas, abattoirs. At 31st December, 1963, there were 56 county councils, including the Sydney County Council.

2. **Victoria.**—Local government is established throughout the State, the various divisions being termed cities, towns, boroughs or shires. The only unincorporated areas are French Island (41,600 acres) in Westernport Bay, Lady Julia Percy Island (652 acres) off Port Fairy, Bass Strait Islands (966 acres), part of Gippsland Lakes (81,920 acres), and Tower Hill (1,460 acres) adjacent to the Borough of Kororoit. Melbourne and Geelong were incorporated under special statutes prior to the establishment of a general system of local government, but are now subject to several provisions of the Local Government Act.

3. **Queensland.**—The whole of the State (except certain islands along the coast, the Dawson Valley Irrigation Area and the Somerset Dam Area) is incorporated into cities, towns and shires under "*The Local Authorities Act of 1902*" and its amendments.

4. **South Australia.**—The settled portion of South Australia is incorporated, being mostly under municipal corporations in the larger cities and towns, and district councils in the agricultural areas.

5. **Western Australia.**—Local government is established throughout the State, the divisions being cities, towns and shires.

6. Tasmania.—The whole State is divided into municipal districts, Hobart and Launceston being incorporated as cities under separate Acts.

7. Area, Population, Dwellings and Value of Ratable Property.—The area, population, dwellings and value of ratable property in the incorporated areas of each State are shown for the year 1962-63 in the following table. The valuations relate to ratable property only and exclude government and other non-ratable property, whose value in the aggregate is considerable. In this table particulars of dwellings are in accordance with the definition used in the 1961 Census, and are compiled from information collected on the Census Schedules. For the purpose of the Census a dwelling was defined as any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has, therefore, a very wide reference and includes, in addition to houses and flats, a great variety of dwellings ranging from a single-roomed shack to a multi-roomed hotel or institution. Unoccupied dwellings include vacant dwellings available for sale and renting, "week-end" and holiday dwellings, and other dwellings temporarily unoccupied on the night of the Census. Dwellings being built are not included.

(f) Includes City of Redcliffe and that part of Pine Rivers Shire within the Metropolitan Area of Brisbane but outside the Brisbane City Area.

8. **Finances.**—(i) *General.* The following tables show the latest available financial statistics for local government authorities. The figures relate to the year 1962-63 except for New South Wales, where they relate to the year 1962. For further detail on local government finances, see *State, Territory and Local Government Authorities' Finance and Government Securities*, Bulletin No. 2, 1963-64, issued by this Bureau.

(ii) *Ordinary Services.* In the returns of revenue and expenditure for 1962-63 in the following tables the proceeds from loans and expenditure thereof have been excluded. The financial operations of business undertakings controlled by the various local government authorities are given in the next paragraph. The profits resulting from the working of these undertakings, where taken into general revenue, have been included.

§ 3. Local Government and Semi-Governmental Authorities' Debt

1. **General.**—Statistics of local government and semi-governmental debt for 1958-59 to 1962-63 are given in the following paragraph. The information covers all local government authorities and those semi-governmental authorities responsible for the provision of the following services.

New South Wales. Water Supply, Sewerage and Drainage, Electricity and Gas Supply, Fire Brigades, Banking and Grain Elevators. County Councils are included among these authorities.

Victoria. Water Supply and Sewerage, Irrigation and Drainage, Harbours, Tramways, Electricity and Gas Supply, Fire Brigades, Marketing (Buying and Selling), Industry Assistance, Grain Elevators, and Housing.

Queensland. Water Supply and Sewerage, Irrigation and Drainage, Harbours, Electricity Supply, Fire Brigades, University, Hospitals and Ambulances, Marketing (Buying and Selling and Agency), and Industry Assistance.

South Australia. Irrigation and Drainage, Tramways, Electricity Supply, Fire Brigades, Hospitals and Ambulances, Marketing (Agency), Industry Assistance, Banking, Housing, and Miscellaneous.

Western Australia. Water Supply and Sewerage, Harbours, Transport, Electricity Supply, Fire Brigades, Marketing (Agency), Housing, University of Western Australia, and Miscellaneous.

Tasmania. Harbours, Electricity Supply, Fire Brigades, Transport, Housing, and Water Supply.

A detailed list of the authorities included is shown in *State, Territory and Local Government Authorities' Finance and Government Securities*, Bulletin No. 2, 1963-64.

2. **Local Government and Semi-Governmental Debt.**—The following table provides a summary of new money loan raisings, provisions for debt redemption, debt outstanding and interest payable by local government and semi-governmental authorities for the year 1962-63. For greater detail, see *State, Territory and Local Government Authorities' Finance and Government Securities*.

Annual interest payable(a) ..	n.a.	40,560	6,227	8,699	5,290	5,923	n.a.

(a) Includes debt or interest payable in London and New York. Debt in London is payable in £ sterling which have been converted at the I.M.F. rate of £Stg.100 to £A.125; New York debt is payable in U.S. dollars which have been converted at the I.M.F. rate of \$2.24 to £A.1. (b) Included in debt figures above.

In the following tables debt includes all liabilities for which arrangements have been made for repayment over a period of one year or more, and net overdrafts. Interest capitalized and amounts due for the capital cost of assets or for services rendered

which are to be repaid over a period of one year or more are included. Current liabilities, such as interest accrued (but not capitalized), trade creditors, amounts held in trust and other debts which are to be repaid in less than one year are not included. Net overdraft is the gross overdraft of all funds less all bank credit balances (including fixed deposits) which do not form part of a sinking fund to repay a loan. New loans raised during the year include new loan liabilities incurred during the year, loans raised from the public to repay indebtedness to the Government, and interest capitalized. Loans raised and redeemed within the year, increases in overdrafts, and loans raised for conversion or redemption of existing debt are excluded. Funds provided for redemption include instalments of principal repaid and amounts credited to sinking funds established for the purpose of repaying the debt on maturity. Amounts provided for redemption from loans raised for that purpose are excluded.

In the following table a summary is given of new money loan raisings, provisions for the redemption of debt, and debt outstanding, of local and semi-governmental authorities for the years 1958-59 to 1962-63. Figures for years before 1962-63 have been revised in this issue.

§ 4. Roads and Bridges

1. **Commonwealth Government Grants.**—The following table shows the allocation to the States under the several Commonwealth Aid Roads Acts for road construction, maintenance, repair and other works connected with transport for each of the years 1959–60 to 1963–64. After 1st July, 1959, when the *Commonwealth Aid Roads Act 1959* came into operation, the Commonwealth made separate provision for expenditure on strategic roads and the promotion of road safety practices. See also Chapter XXII. Public Finance, and Finance bulletins.

ROAD CONSTRUCTION, MAINTENANCE, ETC.: GRANTS UNDER THE COMMONWEALTH AID ROADS ACTS (£'000)

Year ended 30th June—	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Total
1960 ..	12,172	8,660	8,021	4,922	7,964	2,184	43,923
1961 ..	12,870	9,184	8,428	5,128	8,090	2,300	46,000
1962 ..	13,811	10,080	9,093	5,752	8,764	2,500	50,000
1963 ..	14,940	10,877	9,796	6,200	9,487	2,700	54,000
1964 ..	16,221	11,412	10,535	6,669	10,263	2,900	58,000

2. **New South Wales.**—(i) *General.* A central road authority, known as the Main Roads Board, was created by legislation in 1925 for the purpose of providing improved and uniform standards of construction, reconstruction and maintenance of the principal roads of the State and to administer government subsidies for works on those roads. In 1932 the Main Roads administration was reorganized as a separate department under the control of a Commissioner. The activities of the Department of Main Roads include works on main, developmental and tourist roads throughout the State, all roads in the unincorporated portion of the Western Division, and certain associated works, principally bridges and vehicular ferries, constructed from government funds. The Department of Main Roads co-operates with the municipal and shire councils in the work of constructing and maintaining the main roads system.

Public roads may be proclaimed by the Governor as main roads on the recommendation of the Commissioner for Main Roads, who takes into consideration the representations made by the councils concerned, availability of funds for construction and maintenance purposes, and the value of the roads as connecting links between centres of population or business. The classes of main roads are (i) the State highways, which form the principal avenues of road communication throughout the State and connect with similar avenues in other States; (ii) trunk roads, which, with the State highways, form the framework of a general system of intercommunication throughout the State; (iii) ordinary main roads, which provide a network of roads connecting towns and important centres of population with the State highways and trunk roads and with each other. In addition to the main roads, there are also (i) secondary roads (in the County of Cumberland), which carry a substantial volume of through traffic and thereby relieve neighbouring main roads of traffic, (ii) developmental roads, which help to develop country districts, and (iii) tourist roads, which serve to make accessible areas or districts used by tourists.

In the County of Cumberland, which for the purposes of the Main Roads Act is deemed to include the City of Blue Mountains and small sections of other councils' areas on the boundary of the County of Cumberland, the full cost of road and bridge construction is paid from the funds of the Department of Main Roads. The Councils contribute towards the cost at the rate of $\frac{1}{4}$ d. in the £ on the unimproved value of ratable property. The rate payable in respect of lands used principally for primary production is one-half the rate levied on other lands. Alternatively, a Council's maximum contribution may be at a rate determined annually by the Commissioner of between 10 per cent. and 15 per cent. of Council's total rate income. In country districts the Department meets the full cost of road and bridge works on State highways, the full cost of bridge works and three-quarters of the cost of road works on trunk roads, and three-quarters of the cost of bridge works and two-thirds of the cost of road works on ordinary main roads. The cost of constructing developmental roads and works is borne in full by the Department of Main Roads, but local Councils are required to maintain them in a satisfactory condition. The Department of Main Roads meets half the cost of works on secondary roads and on tourist roads.

(ii) *Length of Roads.* (a) *Proclaimed Roads.* The total length of proclaimed roads in New South Wales at 30th June, 1964, was 25,572 miles classified as:—State highways, 6,533 miles; trunk roads, 4,163 miles; ordinary main roads, 11,590 miles; secondary roads, 132 miles; developmental roads, 3,018 miles; and tourist roads, 136 miles.

The length of main roads maintained by the Department of Main Roads at 30th June, 1964, was 5,792 miles (26 per cent.), while the length maintained by Councils was 16,494 miles (74 per cent.). These figures exclude secondary, developmental and tourist roads, and unclassified roads in the Western Division of the State. In the area outside the County of Cumberland (the metropolis and adjoining areas) the proportions of main roads maintained by the Department and Councils respectively were:—State highways, 69 per cent., 31 per cent.; and trunk and ordinary main roads, 5 per cent., 95 per cent. Unclassified roads in the Western Division of the State, totalling 1,030 miles, were maintained by the Department, while developmental roads, totalling 3,018 miles, were maintained by Councils. In the County of Cumberland the proportions of main roads maintained by the Department and Councils respectively were:—State highways, 99 per cent., 1 per cent.; and ordinary main roads, 54 per cent., 46 per cent. Secondary roads totalling 132 miles were maintained by Councils. The 136 miles of tourist roads throughout the State were maintained by Councils.

(b) *Surface of Roads.* In 1963, the total length of all roads in New South Wales was estimated at 131,140 miles. The lengths of roads, according to their surface, were as follows:—bitumen or concrete, 23,468 miles; gravel or stone, 45,513 miles; formed only, 28,660 miles; cleared only, 33,499 miles.

(iii) *Main Roads Department.* (a) *General.* Progress has continued with the implementation of the Department's plan for main roads development in the County of Cumberland. Most of the Department's proposals have been incorporated in the County of Cumberland Planning Scheme approved by Parliament under the Local Government (Amendment) Act, 1951.

The Department's proposals for the development of the main roads system in Newcastle and the surrounding districts have been largely incorporated in the Northumberland County District Planning Scheme, and some sections of the system have been constructed.

With some modifications, the Department's proposals for the planning of the main roads in the Wollongong-Port Kembla district have been incorporated in the planning scheme prepared by the Illawarra Planning Authority.

During 1963-64, 61 new bridges were constructed. In addition, 57 concrete box culverts each having a waterway width of 20 feet or more were completed. Major bridge works under construction included steel and/or concrete bridges over the Clarence River at Harwood on the Pacific Highway (length 2,918 feet); over the Clyde River at Nelligen (length 827 feet); over the Parramatta River at Gladesville (length 1,900 feet); over the Darling River at Louth (length 469 feet); over the George's River at Taren Point (length 1,662 feet); over the south arm of the Hunter River at Tourle Street, Newcastle (length 978 feet); over Salt Pan Creek connecting Peakhurst and Padstow (length 600 feet); over Jugiong Creek on the Hume Highway (length 395 feet); over the Peel River at Tamworth on the New England Highway (length 386 feet); over the Minnamurra River at Minnamurra on the Prince's Highway (length 371 feet); over the Yass River near Yass on the Hume Highway (length 336 feet); over the Orara River at Ramornie on the Gwydir Highway (length 735 feet); over Tarban Creek on the North-Western Expressway (length 300 feet); over the Hawthorne Canal, Haberfield (length 359 feet); and over the Murrumbidgee River at Jugiong (length 343 feet). Also under construction was an overpass (627 feet long) at Huntley's Point, Gladesville.

(b) *Revenue and Expenditure.* The funds of the Department of Main Roads are derived principally from motor vehicle taxation, charges on heavy commercial goods vehicles under the Road Maintenance (Contribution) Act, 1958, grants under Commonwealth Aid Roads Acts (see para. 1, p. 775 and Chapter XXII. Public Finance), other grants from the State or Commonwealth Governments, and proceeds of a levy on municipal and shire councils in the County of Cumberland in accordance with the Main Roads Act, 1924-1963. The State Government also makes repayable advances for Main Roads Department works.

Revenue and expenditure for the five years 1959-60 to 1963-64 are shown below.

**DEPARTMENT OF MAIN ROADS, NEW SOUTH WALES:
REVENUE AND EXPENDITURE
(£)**

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64

State and Commonwealth grants	638,750	375,000	704,000	237,400	98,600
Contributions by other departments and bodies	360,978	382,689	237,572	171,010	162,997
Councils' contributions	1,649,122	1,858,878	2,269,553	2,367,351	2,881,593
Other	83,179	154,816	160,759	138,361	171,508
Total	22,302,114	23,442,760	24,991,580	27,617,209	32,964,405
EXPENDITURE(b)					
Roads and bridges—					
Construction	13,883,723	17,731,562	18,936,979	18,999,757	24,099,506
Maintenance	6,352,014	6,137,466	6,343,148	6,330,559	8,104,266
Administration	824,203	912,675	1,128,740	1,315,814	1,409,931
Interest, exchange, etc., on debt	202,439	227,238	252,649	282,872	493,133
Other(c)	351,394	542,127	531,783	620,891	687,888
Total	21,613,773	25,551,068	27,193,299	27,549,893	34,794,724

(a) Excludes repayable advances by the State Government and private loans (£800,000 in 1959-60, £575,000 in 1960-61, £635,000 in 1961-62, £890,000 in 1962-63, and £2,010,000 in 1963-64), and transfers from Sydney Harbour Bridge Account for Expressway construction (£362,000 in 1959-60, £768,000 in 1960-61, £1,822,000 in 1961-62, £2,081,000 in 1962-63 and £1,539,000 in 1963-64). Expenditure from these amounts is fully reflected in Expenditure. (b) Excludes debt redemption (£45,981 in 1959-60, £48,816 in 1960-61, £53,075 in 1961-62, £57,088 in 1962-63, and £61,996 in 1963-64) and repayment of government advances (£400,000 in 1960-61, £60,000 in 1962-63, and £60,000 in 1963-64). (c) Mainly purchase of assets not subject to annual depreciation charge. The purchase of other assets is omitted here because the depreciation charge for them is reflected each year in "Roads and bridges".

The figures shown above represent the aggregate revenue and expenditure of five funds—the County of Cumberland Main Roads General and Special Purposes Funds, the Country Main Roads General and Special Purposes Funds, and the Developmental Roads Fund.

(c) *Sydney Harbour Bridge.* The Sydney Harbour Bridge was opened for traffic on 19th March, 1932. The main span is 1,650 feet and clearance for shipping 170 feet from high water level. The deck, 160 feet wide, carries a roadway of eight traffic lanes and two railway tracks, and there is also a footway on each side. The capital cost of the bridge and associated roadways to 30th June, 1964, was £11,936,864, but this amount will be reduced slightly on completion of the disposal of the remaining surplus resumed property. The portion met from repayable loan funds, almost £10,300,000, is repayable from toll income. Income for 1963-64 amounted to £2,007,000, including road tolls, £1,803,000, railway passenger tolls, £141,000, and omnibus passenger tolls, £15,000. Expenditure amounted to £1,146,000, including interest, exchange, flotation expenses, etc., £427,350, sinking fund, £146,720, maintenance, £318,387. The accumulated surpluses of the Bridge Account have been used to finance conversion of tram tracks to roadway and construction of city expressways. From 1958-59 to 1963-64 a total of £920,379 was expended on tram track conversion and £6,522,000 on city expressways. The account showed a deficiency of £931,513 at 30th June, 1964. During 1963-64, 35,353,591 road vehicles (excluding omnibuses and exempt vehicles), 25,798,000 rail travellers and 13,955,000 omnibus travellers crossed the bridge, contributing respectively 92 per cent., 7 per cent., and 1 per cent. of the total toll revenue.

3. *Victoria.*—(i) *General.* With the object of improving the main roads of the State, the Country Roads Board was established by legislation passed in 1912. The principal duties of the Board are to determine which roads should be declared in the various classifications; to supervise the construction, reconstruction and maintenance of these roads; to inquire into the State's resources in road materials and the most effective methods of road construction and maintenance; and to recommend deviations in existing roads or the construction of new roads in order to facilitate communications or to improve the conditions of Traffic.

(ii) *Length of Roads.* (a) *Declared Roads.* The total length of roads in Victoria declared by the Country Roads Board at 30th June, 1964, was 14,502 miles, classified as follows:—State highways, 4,465 miles; main roads, 9,094 miles; by-pass roads, 37 miles; tourist roads, 445 miles; forest roads, 461 miles. The length of the surface sealed (bitumen or concrete) included in the foregoing mileage was 12,167 miles or 84 per cent. of the total.

(b) *Surface of Roads.* It is estimated that, in addition to the 14,502 miles of classified roads, there were approximately 87,000 miles of unclassified roads at 30th June, 1964. The latest detailed estimate of the length of roads and streets in Victoria (as at 30th September, 1963) provides the following information:—bitumen or concrete, 23,742 miles; gravel or stone, 31,510 miles; formed only, 21,318 miles; cleared only, 23,533 miles; total, 100,103 miles.

(iii) *Country Roads Board.* (a) *General.* During 1963–64, 2,088 miles of declared roads under the Board's control were treated with bitumen. In addition, 947 miles of undeclared roads, for which the Board contributed funds, were similarly treated. The total length of bitumen treatment carried out in 1963–64 was 3,147 miles (including 112 miles for other authorities). Of the work on the roads under the Board's control in 1963–64, 784 miles related to State highways and by-pass roads.

During 1963–64, 227 bridge projects of an estimated total value of £2,800,300 were initiated. Of these, 136, estimated to cost £886,300, were under municipal supervision.

(b) *Receipts and Payments.* The funds of the Country Roads Board are derived principally from motor registration fees, two-thirds of all money received by way of owners' certificates, one half of drivers' licence fees, fines, payments by the Commonwealth Government under the Commonwealth Aid Roads Acts, road charges under the Commercial Goods Vehicles Act and repayments by municipalities. In addition, loans have been authorized from time to time under the Country Roads Acts for permanent works on main and developmental roads, State highways, tourists' roads and forest roads, while the State Government has provided, free of repayment, loan moneys for restoration of flood and bush fire damage. During the year ended 30th June, 1964, loan receipts and payments each amounted to £333,000. The total loan expenditure to 30th June, 1964, was £16,089,295. This figure does not include loan expenditure from the Developmental Roads Loan Account, a fund which was created for the purpose of constructing and maintaining subsidiary or developmental roads. Loan money raised on this account was exhausted at 30th June, 1937, the total expenditure at that date being £6,425,758.

(a) After costs of collection. Since 1950, one half of the drivers' licence fees has been credited to the funds of the Country Roads Board while the remaining half has been credited to the Municipalities Assistance Fund. (b) Excludes portion of Commonwealth Aid Roads Acts advances drawn by the Public Works Department for expenditure on wharfs, jetties, etc.. (c) Includes £500,000 Special Grant from Commonwealth Government.

(iv) *Melbourne and Metropolitan Board of Works.* Since assuming responsibility for carrying-out planning scheme proposals relating to metropolitan highways and bridges, a tentative construction programme of urgent highway works throughout the metropolitan area of Melbourne has been adopted. Expenditure on these projects up to 30th June, 1964, was £2,791,590.

(v) *Level Crossings.* In 1954-55 the Level Crossings Fund was created under the *Country Roads and Level Crossings Funds' Act 1954* to finance (a) the elimination of level crossings or the provision of alternative routes to enable road traffic to avoid level crossings; (b) the provision of lights, signs, and lighting at, and the improvement of approaches to, level crossings; and (c) generally, the reduction of danger at level crossings. The Act provides for the payment into the Fund of one-third of all moneys received by way of additional motor registration fees (owner's certificates) and money provided under any other Act. The amount available for expenditure in 1963-64 was £424,456, consisting entirely of receipts from owners' certificates. Expenditure from the Fund amounted to £314,756, of which £253,632 was incurred by the Railways Department and £61,124 by the Country Roads Board, leaving a balance carried forward of £198,908.

4. *Queensland.*—(i) *General.* Under "The Main Roads Act of 1920," a Main Roads Board was constituted, consisting of three members appointed by the Governor-in-Council. In 1925 the Board was abolished and its powers conferred upon a single Commissioner. The Main Roads Commission was constituted a Department under the name of the Department of Main Roads in February, 1951, with the Commissioner of Main Roads as its permanent head. The duties of the Commissioner are to carry out surveys and investigations necessary to determine State highways, main, developmental, and secondary roads; and the responsibility for building and maintaining these declared roads is largely that of the Commissioner. Roads of purely local importance are constructed and maintained by local authorities. In many cases construction is financed by the State Government by means of Treasury loans. Other roads may be built by the Public Estate Improvement Branch of the Lands Department in order to open up areas of previously inaccessible or undeveloped country.

(ii) *Length of Roads.* (a) *Declared Roads.* The total length of declared roads in Queensland at 30th June, 1964, was 24,454 miles; comprising State highways, 6,323 miles; main roads, 5,199 miles; developmental roads, 4,374 miles; and secondary roads, 8,558 miles. By the amendments to the Main Roads Acts published in the Government Gazette of 6th April, 1959, mining access, farmers' and tourists roads became secondary roads, and the provisions relating to the declaration of tourist tracks were repealed.

(b) *Surface of Roads.* The total length of roads and streets in Queensland at 30th June, 1964 was:—bitumen or concrete, 12,798 miles; gravel or stone, 19,743 miles; formed only, 41,255 miles; cleared only, 45,245 miles; total, 119,041 miles.

(iii) *Department of Main Roads.* (a) *General.* During 1962–63 the Department completed 1,289 miles of roads, including new construction and stage construction. Bridges of all types to a length of 8,470 linear feet were constructed, bringing the total constructed by the Department at 30th June, 1963, to 231,055 feet. In addition, at 30th June, 1963, 7,246 feet were under construction.

(b) *Receipts and Payments.* The funds of the Department of Main Roads are obtained chiefly from motor vehicle registration and collections, fees, etc. under the Transport Acts, contributions under the Commonwealth Aid Roads Acts, and loans, grants and advances from the State Government. The total receipts and payments during each of the years 1958–59 to 1962–63 are shown below.

(a) Includes grants to local authorities for road purposes.

5. South Australia.—(i) *General.* The Highways and Local Government Department is administered by the Commissioner of Highways, who is empowered, subject to the approval of the Minister of Roads, to undertake the construction, maintenance and protection of the principal roads of the State, allocate grants to councils for roadworks and supervise the expenditure of these grants, and assist Councils to purchase road-making plant and to defray the cost of roadworks. In addition, the Commissioner advises Councils on technical questions concerning the construction, maintenance or repair of roads.

(ii) *Source of Funds.* Funds of the Department are derived mainly from the Highways Fund, into which are paid the proceeds from motor vehicle registration and drivers' licences (less cost of collection), appropriations from loan funds, repayments of advances made to Councils and contributions by the Municipal Tramways Trust, and from contributions under the Commonwealth Aid Roads Acts.

(iii) *Length of Roads.* In South Australia, there are only two classifications of roads. These are main roads proclaimed under the provisions of the Highways Act and all other roads, commonly designated district roads. At 30th June, 1964, there were 8,156 miles of proclaimed main roads and approximately 79,160 miles of district roads, including roads and tracks outside local government areas, totalling 87,316 miles. Lengths of road classified by surface were estimated to be:—bitumen or concrete, 7,089 miles; gravel or stone, 11,770 miles; formed only, 10,380 miles; unformed, 58,077 miles.

(iv) *State Highways and Local Government Department, Receipts and Payments.* The following table shows particulars of receipts and payments, during the years 1959–60 to 1963–64, of funds controlled by the Highways and Local Government Department.

HIGHWAYS AND LOCAL GOVERNMENT DEPARTMENT, SOUTH AUSTRALIA: RECEIPTS AND PAYMENTS

(£)

Particulars	1959–60	1960–61	1961–62	1962–63	1963–64
RECEIPTS					
Motor vehicles registration, licences, fees	3,942,087	4,111,494	4,293,105	4,537,011	4,989,229
Commonwealth Aid Roads Acts	4,923,122	5,128,065	5,752,281	6,200,066	6,668,732
Loans from State Government	85,000	90,000	200,000	290,000	475,000
Other(a)	445,484	449,333	533,812	582,788	604,917
Total	9,395,693	9,778,892	10,779,198	11,609,865	12,737,878
PAYMENTS					
Construction and reconstruction of roads and bridges(b)	6,113,227	6,465,892	7,307,955	7,678,880	9,758,376
Maintenance(a)(b)	2,183,012	2,095,253	2,337,218	2,487,972	2,791,552
Recoups to Consolidated Revenue Fund—interest, debt redemption and exchange	213,631	215,539	227,041	242,766	256,243
Advances to local and semi-governmental authorities	301,929	702,718	420,157	580,879	825,169
Stores, plant, machinery, suspense accounts, etc.(c)	439,732	495,036	406,868	—71,974	269,190
Total	9,251,531	9,974,438	10,699,239	10,918,523	13,900,530

(a) Includes reimbursement works for Commonwealth Government. (b) Includes administration expenses. (c) Represents gross repayments less recoveries by charges to works on account of depreciation and materials used.

6. Western Australia.—(i) *General.* Work connected with road construction and maintenance and associated projects in Western Australia is undertaken by the State Government, through the Main Roads Department, and by local government authorities throughout the State.

Under the provisions of the Main Roads Act, the Main Roads Department was established in 1930 to replace the Main Roads Board originally constituted as a central road authority in 1926. The Department operates under the *Main Roads Act, 1930-1961*, and is administered by a Commissioner of Main Roads responsible to the Minister for Works. The Act makes provision for public roads in the categories of main roads, controlled-access roads and developmental roads. An additional category, that of important secondary roads, is used by the Department in determining its works programme.

Main roads are those which provide communication between a large producing area, either actual or potential, and its market or nearest port or railway station, between two or more such areas, between large centres of population, or between the capital city and a large producing area or a large centre of population. Controlled-access roads do not permit direct access from abutting property and may be entered and departed from only at certain selected road connexions located at points which are considered to serve best the traffic for which the controlled-access roads were designed. Developmental roads are those which serve to initiate or increase the development of an area. Important secondary roads are those which, though originally classified as developmental, have come to be used consistently by through traffic and therefore warrant a special allocation of funds by the Main Roads Department. The Act provides that, on the recommendation of the Commissioner, any road may be proclaimed a main road and any main road may cease to be a main road.

The construction and maintenance of main roads and controlled-access roads are the responsibility of the Main Roads Department. The Department also makes substantial financial provision for the construction and maintenance of important secondary roads and for the construction of developmental roads.

Within its own district, each local government authority is responsible for the provision and upkeep of roads other than those provided by the Main Roads Department. In addition, the local authority is required by the Main Roads Act to maintain any developmental road situated in its district.

(ii) *Length and Surface of Roads.* (a) *General.* The total length of roads and streets in Western Australia at 30th June, 1964, was made up as follows:—bitumen or concrete 11,286 miles; gravel or stone, 21,414 miles; formed only, 43,987 miles; natural state (cleared only), 28,160 miles; total, 104,847 miles.

(b) *Roads under Main Roads Act.* The total length of constructed roads for which financial provision was made by the Main Roads Department, at 30th June, 1964, was:—main roads, 3,463 miles, including 5 miles of controlled-access roads; important secondary roads, 7,989 miles; and developmental roads, 41,121 miles. In addition, there were 74 miles gazetted as controlled-access roadway as yet not constructed.

(iii) *Main Roads Department.* (a) *General.* During the year 1963-64 the activities of the Department included clearing, 2,351 miles; forming, 3,361 miles; gravelling, 1,871 miles; reconditioning, 7,099 miles; and stabilizing, 159 miles. In addition, 1,647 miles were primed and sealed (including widening) and 34 bridges constructed.

(b) *Receipts and Payments.* The funds of the Main Roads Department are derived principally from allocations made under the *Commonwealth Aid Roads Act, 1959*. In addition, financial assistance was given by the Commonwealth Government to the extent of £750,000 in 1963-64 for the improvement of roads used for the transport of beef cattle in the Kimberley District. The five-year period relating to these additional grants terminates on 30th June, 1966, with a total amount of £3,450,000 of Commonwealth funds matched by a corresponding State contribution. Other sources of income include one-half of the net amount of traffic fees collected in the Metropolitan Traffic Area and an allocation of Department of Transport funds. (Outside the Metropolitan Traffic Area, motor vehicle licence fees are collected and retained by the local authorities.) Receipts and payments for the years 1959-60 to 1963-64 are shown in the following table.

**MAIN ROADS DEPARTMENT, WESTERN AUSTRALIA:
RECEIPTS AND PAYMENTS**

(£)

Total	8,980,357	8,771,258	10,415,219	11,486,713	12,290,804 (e)

(a) Includes amounts to be distributed to metropolitan and country local authorities early in the following year. (b) Excludes £700,000 advance from State Treasury. (c) Excludes £500,000 advance from State Treasury. (d) Includes administration and expenditure on hire and maintenance of road construction plant, etc., and on purchase of materials. (e) Excludes £700,000 being refund of advance from State Treasury.

7. Tasmania.—(i) *General.* Under the *Road Construction (Transfer of Functions) Act 1951*, which came into operation on 1st July 1951, the control of the construction and maintenance of roads and certain road making plant was vested in the Minister for Lands and Works. Works authorized by the Minister in respect of roads classified as State highways, tourist, and developmental roads are constructed by the Department of Public Works and financed from the State Highways Trust Fund, into which are paid the proceeds from Commonwealth Aid Roads grants, motor vehicle registration fees and taxes, licence fees for drivers and public transport, and other moneys made available by Parliament. In addition, provision was made under the *Road Construction (Transfer of Functions) Act* for certain works authorized by the Transport Commission to be carried out and constructed by the Department. The expenditure by the Public Works Department during 1963-64 on the construction and maintenance of roads, tracks and bridges amounted to £6,921,534, of which £4,241,145 was charged to road funds, £28,341 to revenue, £2,599,486 to loan and £52,562 to other funds. Except in special cases, municipal councils bear the cost of maintaining country roads and a proportion of the cost of main and secondary roads.

(ii) *Length of Roads.* (a) *Classified Roads.* The mileages of classified roads in Tasmania at 30th June, 1964, were as follows:—State highways, 1,171 miles; main roads, 662 miles; secondary roads, 196 miles; tourist roads, 46 miles; and other roads, 135 miles. The total length of State roads in Tasmania was 2,210 miles and the length of all other roads, 10,051 miles. The mileages of sealed roads, and their proportions to the respective totals were:—State highways, 839 miles (72 per cent.); main roads, 417 miles (63 per cent.); and other roads, 79 miles (21 per cent.). The total length of State sealed roads was 1,335 miles (60 per cent.). The total length of non-State sealed roads was 1,100 miles (11 per cent.). The total length of all sealed roads in the State was 2,435 miles (20 per cent.).

(b) *Surface of Roads.* The length of all roads in Tasmania, including those with surfaces of lower grade, at 30th June, 1964, was as follows:—bitumen or concrete, 2,435 miles; gravel or stone, 8,484 miles; formed only and cleared only, 1,342 miles; total, 12,261 miles.

(iii) *Receipts and Payments—Combined Road Funds.* The table below shows particulars of the receipts and payments of the combined Road Funds for the years 1959–60 to 1963–64.

ROAD FUNDS, TASMANIA: RECEIPTS AND PAYMENTS

Total	6,107,405	7,816,475	7,531,915	7,840,796	8,690,834

(a) Includes Commonwealth Employment Stimulation Grant (£366,956 in 1961–62, £253,777 in 1962–63, and £7,651 in 1963–64). (b) Includes grants under Commonwealth Employment Stimulation Grant (£103,456 in 1961–62, and £11,130 in 1962–63).

8. *Northern Territory.*—Information relating to the length of roads in the Northern Territory may be found in Chapter V. Territories, of this Year Book (see p. 104).

9. *Summary of Roads used for General Traffic.*—(i) *Proclaimed or Declared Roads.* The table hereunder is a summary of the roads proclaimed or declared under the Acts of the several States relative to the operations of the central road authorities, and shows the lengths of various classes proclaimed or declared as at 30th June, 1964. The central road authority in each State assumes responsibility under the Act for the whole, or a proportion, of the cost of construction and/or maintenance of these roads, the extent varying from State to State and with the class and locality of the roads. Before proclamation of a main road, consideration is given, in general, to the following points:—availability of funds; whether the road is, or will be, within one of several classes of main trunk routes; whether the district is, or will be, sufficiently served by railways. Provision is also made in some States for the declaration of roads other than main roads. The absence of a particular class in any State does not necessarily imply that there are no roads within that State that might be so classified; the classes are restricted only to roads proclaimed or declared under the Acts. A further point to make is that, through various causes, e.g. insufficiency of funds, man-power or materials, etc., construction or maintenance may not keep pace with gazettals of mileages, and, therefore, the condition of a road may not match its status.

PROCLAIMED OR DECLARED ROADS: LENGTHS, 30th JUNE, 1964
(Miles)

Class of road	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Total

(a) 30th June, 1963. (b) 30th September, 1963.

10. **Aggregate Net Expenditure on Roads and Bridges in Australia.**—In most States there are three classes of authorities concerned with roads and bridges, the State Government, the central road authority and numerous local government bodies. The Commonwealth Government, in addition to the grants it makes to the States for road purposes, is concerned with roads in the Northern Territory and the Australian Capital Territory and roads of access to Commonwealth property in the various States. Some information relating to Commonwealth grants to the States for road purposes and particulars of the expenditure on roads and bridges by local government bodies and the central road authorities are given in preceding sections of this chapter.

Most of these authorities may expend money directly on road construction or indirectly by means of grants and payments to other authorities. These indirect payments, if included in an aggregate, would duplicate expenditure; this, together with the fact that some authorities are unable to supply separate information concerning their road expenditure, makes it difficult to compile precise statistics of aggregate expenditure on roads and bridges.

The information in the following table, which is partly estimated and which excludes the main indirect payments, provides an approximate measure of the aggregate net expenditure by all public authorities on roads and bridges in Australia during each of the years ended 30th June, 1960 to 1964. The figures cover expenditure from revenue and loan funds on the construction, reconstruction and maintenance of roads and bridges, and direct administration but not debt charges. Because of the difficulties associated with the indirect payments mentioned above, it is not possible to give separate net details for each authority.

PUBLIC AUTHORITY NET EXPENDITURE ON ROADS AND BRIDGES
(£ million)

Year	N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tasmania	Northern Territory and A.C.T.	Aust.

§ 5. Water Supply, Sewerage and Drainage

NOTE.—The information in this section relates primarily to the metropolitan areas and provincial cities and towns. For information on water supply and irrigation in rural areas see Chapter VIII. Water Conservation and Irrigation.

1. New South Wales.—(i) *General*. The two largest domestic water supply and sewerage systems are controlled by statutory boards, each consisting of a president and a vice-president appointed by the State Government, and five members elected by local councils. These are (a) the Metropolitan Water, Sewerage and Drainage Board, which administers the systems in the County of Cumberland, i.e. in Sydney and in the surrounding districts, and, in addition, has jurisdiction over territory extending along the South Coast beyond Wollongong to Lake Illawarra, Shellharbour, and Kiama, and (b) the Hunter District Water Board serving the Newcastle-Maitland-Cessnock areas. At Broken Hill and Cobar similar boards include representatives of the mining companies. Other systems, apart from irrigation projects and water storage systems administered by the State Government, are controlled by county, municipal or shire councils.

(ii) *Water Supply—to 30th June, 1964. (a) Metropolitan*. The storage reservoirs of the metropolitan system, with a combined available capacity of 577,122 million gallons, drain catchment areas of 3,860 square miles (Warragamba, 3,480 square miles, Upper Nepean, 347 square miles, and Woronora, 33 square miles). The development of a water supply system on the Warragamba River was completed with the official opening of the Warragamba Dam in October, 1960. This dam, constructed in concrete, has a storage capacity of 452,505 million gallons. Its safe net draught is estimated to be 285 million gallons a day. A hydro-electric power station at the dam generated 341 million kWh in 1963-64. At 30th June, 1964, there were 162 service reservoirs in use with a combined capacity of 635 million gallons. Rating for water for 1963-64 was 10d. in the £1 of assessed annual value and the charge for water measured by meters 2s. 9d. per 1,000 gallons.

(b) *Hunter District.* The water supply is drawn principally from two sources:—the Chichester Reservoir, with a storage capacity of about 5,000 million gallons and draining a catchment of 76 square miles, and the Tomago Sandbeds, which extend northerly along the coast towards Port Stephens. Two other sources of supply are being developed. Service reservoirs and tanks distributed throughout the Water Supply District have a total storage capacity of 120 million gallons. Water rating for 1963–64 was 1s. 5½d. in the £1 on assessed annual value for occupied properties and 1s. 2½d. in the £1 for unoccupied properties. The price of water to domestic and industrial consumers is 2s. 9d. per 1,000 gallons.

(c) *Water Supplied, etc.* The following tables show, for the Metropolitan and Hunter District systems, the number of properties, the estimated population supplied, and other details.

WATER SUPPLY, METROPOLITAN(a): SERVICES

Year	Improved properties for which water mains available	Estimated population supplied	Average daily consumption	Total consumption for the year	Average daily consumption		Length of mains	Number of meters
					Per property	Per head of estimated population		
		'000	Mill. gals.	Mill. gals.	Gallons	Gallons	Miles	
1959–60 ..	598,893	2,264	200.9	73,529	335	88.7	6,450	382,180

(a) Newcastle, Maitland and Cessnock areas.

(iii) *Sewerage and Drainage—to 30th June, 1964.* (a) *Metropolitan.* Sydney and suburbs are served by three major sewerage systems and seven minor systems, consisting of six outfalls discharging directly into the Pacific Ocean and four treatment works. In addition, seven centres outside the metropolitan area (Camden, Campbelltown, St. Mary's, Port Kembla, Richmond, Warragamba township and Wollongong) are served by local treatment works.

Stormwater drainage channels under the control of the Metropolitan Water, Sewerage and Drainage Board at 30th June, 1964, were 180 miles long. Sewerage rating for 1963–64 was 9½d. in the £1 of assessed annual value, and drainage rating 1½d. in the £1.

(b) *Hunter District.* The main sewerage system serves the City of Newcastle and discharges into the Pacific Ocean at Merewether Gulf. There are also local treatment works at Maitland, Cessnock and some of the outlying districts.

Sewerage rates for 1963–64 were 1s. 0½d. in the £1 of assessed annual value of occupied lands and 9½d. in the £1 for unoccupied lands, and drainage rates (on certain areas served) 1½d. in the £1.

(c) *Particulars of Services.* The following table gives, for the Metropolitan system, details of sewerage services and stormwater drains.

SEWERAGE AND DRAINAGE, METROPOLITAN(a): SERVICES

At 30th June—				Improved properties for which sewerage available	Estimated population served	Lengths of sewers	Length of stormwater channels
					'000	Miles	Miles
1960..	395,869	1,560	4,021	180
1961..	412,034	1,620	4,231	180
1962..	426,333	1,710	4,489	178
1963..	451,997	1,780	4,763	179
1964..	475,735	1,870	5,074	180

(a) County of Cumberland, City of Greater Wollongong, Shellharbour and Kiama Municipalities.

At 30th June, 1964, 66,510 premises had been connected to the Hunter District Water Board's sewerage system (Newcastle-Maitland-Cessnock areas). The total length of sewers under the Board's control was 930 miles, and the length of drains was 50 miles.

(iv) *Finances, Metropolitan and Hunter District Systems.* The following table shows the debt, revenue and expenditure of the Metropolitan Water, Sewerage and Drainage Board and the Hunter District Water Board for each of the services of water supply, sewerage and drainage during 1963-64, and for the three services combined for the years 1959-60 to 1963-64.

(a) Includes provision for renewals, long service leave, etc. of Greater Wollongong, Shellharbour and Kiama Municipalities areas.

(b) County of Cumberland, City of Newcastle-Maitland-Cessnock

(v) *Country Water Supply and Sewerage Systems.* (a) *Local Government.* At 31st December, 1962, country water supply services were conducted or under construction by 50 municipalities, 85 shires and 5 county councils, and country sewerage services by 50 municipalities and 36 shires. The capital indebtedness of these schemes was £34,669,485 at 31st December, 1962, namely, £24,122,334 for water and £10,547,151 for sewerage. Debt of the municipalities amounted to £18,023,887, shires to £12,122,281 and county councils to £4,523,317. Government advances amounting to £444,965 are included in these figures. Aggregate income and expenditure amounted to £5,920,192 and £4,541,205, respectively, in 1962.

(b) *Other.* The water supply and sewerage services for Broken Hill are operated by a statutory board, the Broken Hill Water Board. Its capital indebtedness at 31st December, 1963, was £3,573,626. In 1963, income (excluding subsidies, State Government, £78,396 and mining companies, £225,855) amounted to £276,282 and expenditure (excluding debt redemption, £157,713) amounted to £419,420.

The Cobar Water Board was constituted in 1963-64. At 30th June, 1964, its capital indebtedness was £250,000.

The following country water supply systems—South-West Tablelands, Junee and Fish River—are administered by the Department of Public Works. These supply water in bulk to municipalities and shires, the Railways Department, and other large consumers. Only a small quantity is sold direct to private consumers. The capital indebtedness of these systems was £7,306,297 at 31st December, 1963.

The Mulwala Water Supply and Sewerage Service was constructed as an urgent war-time work for the Commonwealth, and the Bethungra Water Supply System is administered by the Department of Public Works in conjunction with the Junee supply.

2. *Victoria.*—(i) *Melbourne and Metropolitan Board of Works.* (a) *General.* The Board consists of a Chairman and 51 Commissioners elected to represent the municipalities which lie wholly or partly within the metropolitan area. The Chairman is elected by the Commissioners for a four-year term. The principal functions of the Board are:—to control and manage the metropolitan water supply system; to provide the metropolitan area with an efficient main and general sewerage system; to deal with main drains and main drainage works; to control and manage the rivers, creeks and watercourses within the metropolitan area; and to carry out the functions of a permanent planning authority.

(b) *Water Supply.* There are six storage reservoirs serving the metropolitan area—Yan Yean, 7,233 million gallons (available for consumption, 6,649 million gallons); Toorourrong, 60 million gallons; Maroondah, 6,289 million gallons (4,870 million gallons); O'Shannassy, 930 million gallons; Silvan, 8,853 million gallons (8,823 million gallons); and Upper Yarra, 45,400 million gallons (44,120 million gallons); total 68,765 million gallons (65,452 million gallons). Service reservoirs number 36, with a total capacity of 363 million gallons.

The water rate levied by the Board in 1963-64 was 8d. in the £1 on the net annual value of the properties served. The charge for water consumed in excess of the quantity which, at 2s. 0d. per 1,000 gallons, would equal the assessed water rates on each property, was 2s. 0d. per 1,000 gallons. The following table shows particulars of Melbourne metropolitan water supply services for the years 1959-60 to 1963-64.

WATER SUPPLY, MELBOURNE: SERVICES

Year	Number of houses supplied	Estimated population supplied	Average daily consumption	Total consumption for the year	Average daily consumption		Length of aqueducts, etc., mains and reticulation	Number of meters
					Per house	Per head of estimated population		
		'000	Mill. gals.	Mill. gals.	Gallons	Gallons	Miles	
1959-60	496,841	1,789	145.3	53,169	292	81.2	5,109	366,905
1960-61	510,078	1,836	152.9	55,822	300	83.3	5,245	392,396
1961-62	519,216	1,869	157.6	57,521	304	84.3	5,477	422,318
1962-63	547,123	1,981	151.3	55,225	277	76.4	5,622	460,866
1963-64	572,431	2,072	162.9	59,621	285	78.6	5,882	485,856

(c) *Sewerage and Drainage.* Particulars of sewerage and drainage services for 1959-60 to 1963-64 are shown below. The rate levied in 1963-64 in respect of sewerage was 1s. 2d. in the £1 on the net annual value of the property served. The drainage rate was 2d. in the £1.

SEWERAGE AND DRAINAGE, MELBOURNE: SERVICES

Year	Number of houses for which sewers are provided	Estimated population for which sewers are provided	Average daily pumping	Total sewage pumped for the year	Average daily pumping		Length of sewers, etc.	Length of main drains
					Per house	Per head of estimated population		
		'000	Mill. gals.	Mill. gals.	Gallons	Gallons	Miles	Miles
1959-60 ..	384,844	1,308	83.2	30,459	216.2	63.6	3,458	181
1960-61 ..	395,109	1,331	88.1	32,159	223.0	66.2	3,550	193

1962-63 ..	422,899	1,402	84.9	30,997	200.8	60.6	3,769	205
1963-64 ..	443,291	1,446	89.7	32,833	202.4	62.0	3,932	211

The metropolitan sewerage system consists of the main system (serving an area of 92,231 acres) and five subsidiary systems—the Sunshine system (serving an area of 2,388 acres), the Laverton system (serving an area of 108 acres), the Kew system (serving an area of 112 acres), the South-eastern system (serving an area of 3,647 acres in Cheltenham, Parkdale, Mentone and Mordialloc), and the Maribyrnong system (serving an area of 167 acres). The Metropolitan Sewage Farm, 26,809 acres in extent and situated about 24 miles south-west of Melbourne beyond the township of Werribee, serves to purify and dispose of approximately 98 per cent. of the sewage flow of the metropolis before its discharge into Port Philip Bay. The total capital cost (less depreciation) of the farm to 30th June, 1964, was £4,524,888. Revenue during 1963-64 amounted to £236,795, cost of sewage disposal to £264,255, trading expenses to £143,250, interest to £244,100, and net cost of sewerage purification to £414,810. These financial particulars are included in the sewerage items of the summary below.

(d) *Finances.* The following table provides for the year 1963-64 a summary of the financial operations of the water supply, sewerage and drainage services conducted by the Melbourne and Metropolitan Board of Works, and of the combined services for the years 1959-60 to 1963-64.

MELBOURNE AND METROPOLITAN BOARD OF WORKS: FINANCES

(a) Total loan indebtedness—1963-64, £134,699,022. distributed over services.

(b) Statutory and general expenditure

(ii) *State Rivers and Water Supply Commission. (a) General.* Water supply and conservation throughout Victoria (except for the area controlled by the Melbourne and Metropolitan Board of Works) is the responsibility of the State Rivers and Water Supply Commission. The events leading to the establishment of the Commission, and its works in the spheres of irrigation, domestic and stock water supply to farms, drainage, flood protection and river improvement, have already been described in Chapter VIII.; this section is therefore confined to the Commission's functions in connexion with urban water supply and sewerage.

(b) *Water Supply.* At 30th June, 1964, the Commission provided a reticulated water supply from its own works to 136 cities and towns having a combined population of 192,000 persons.

The principal systems operated by the Commission serve part of the Mornington Peninsula—Dandenong area (about 77,000 people supplied); Bendigo, Castlemaine, etc. (56,000), and about 8,000 people in the Western District. In addition, 12,000 persons in a number of towns in the Bellarine Peninsula receive supply through a Commission-operated distributory system from headworks controlled by the Geelong Waterworks and Sewerage Trust. The Bendigo-Castlemaine supply also provides for the irrigation of 11,000 acres as well as urban requirements in the area.

Outside these areas the Commission supplies mainly small towns in the north of the State, in areas where it also supplies farms with water for irrigation or domestic and stock purposes.

Capital expenditure by the Commission on urban water supply at 30th June, 1964, was divided between the several systems as follows:—Mornington Peninsula, £10,125,000; Bendigo-Castlemaine, £4,450,000; Bellarine Peninsula, £1,125,000; Otway System (Western District), £1,125,000; other, £1,050,000; total, £17,875,000. This expenditure is net of redemption payments.

In addition to the towns supplied by the Commission, there are approximately 565,000 people in 210 cities and towns throughout the State who get a reticulated water supply from works operated by local authorities.

All these authorities operate under the supervision of the State Rivers and Water Supply Commission, largely because the Government subsidizes their capital expenditure. Most new works are financed from Government loan funds, but in recent years the Geelong Trust and some other local authorities borrowed money privately. In most cases, the local authority controls both headworks and distribution system, but a few large towns—serving about 50,000 people—draw their water from the State Rivers and Water Supply Commission and are concerned only with reticulation of the water. Together, therefore, the Commission and local authorities supply 346 urban centres containing more than 757,000 people. Very few towns of any importance are now without reticulated water supply.

The following table presents the financial position in respect of town water supply at 30th June, 1964.

TOWN WATER SUPPLY, VICTORIA: CAPITAL LIABILITY, 30TH JUNE, 1964
(£'000)

Particulars	Water supply provided by—		
	Local authorities	State Rivers and Water Supply Commission	Total
Government advances	24,275	18,075	42,350
Less redemption	1,800	200	2,000
Government Advances Outstanding ..	22,475	17,875	40,350
Borne by State	4,350	8,700	13,050
Borne locally	18,125	9,175	27,300

In addition, nearly £9,000,000 has been borrowed locally, mainly by the Geelong Waterworks and Sewerage Trust.

The proportion of loan capital borne by the State is much higher in the case of Commission undertakings than for towns supplied by local authorities. This is because most Commission undertakings have been developmental in nature. Besides meeting interest on capital borne by it, the State pays the difference between three per cent. and the actual rate paid on practically all the capital carried locally. The total annual subsidy on country town water supply is currently about £1,250,000.

(c) *Sewerage.* With the exception of the town of Eildon, whose sewerage system is controlled directly by the State Rivers and Water Supply Commission, the construction and management of sewerage works in Victoria's country cities and towns are the responsibility of local authorities supervised by the Commission. Except for the Geelong Waterworks and Sewerage Trust and the Latrobe Valley Water and Sewerage Board which have special Acts dealing with their activities, all sewerage authorities operate under the Sewerage Districts Acts.

At 30th June, 1964, there were 55 cities and towns with sewerage systems in operation. These contained about 516,000 persons, nearly one half of the total number of residents outside the metropolitan area.

Expenditure on sewerage in Victorian country towns at 30th June, 1964, was approximately £25,000,000, of which some £20,000,000 had been advanced by private lenders. The annual State subsidy on country sewerage in Victoria is currently about £400,000 provided mainly in the form of subsidies on interest rates paid along the same lines as for town water supply. Comparatively little capital is borne directly by the State.

(iii) *Geelong Waterworks and Sewerage Trust.* (a) *General.* The Geelong Waterworks and Sewerage Trust was constituted in 1908 and reconstituted under the *Geelong Waterworks and Sewerage Act 1909*. It was further reconstituted in September, 1950, to include a government nominee (Chairman), and provision was made for a commissioner to be elected by the ratepayers of the Shire of Corio, making a total of seven commissioners. The amount of loan money which may be raised is limited to £12,000,000 for water supply undertakings, and £5,000,000 for sewerage undertakings. The population supplied is estimated by the Trust at 106,021 persons. This and other general information relates to 30th June, 1964.

(b) *Water Supply.* The Trust operates two systems for gathering and storing water, the water in both systems being brought over fifty miles to Geelong. There are seven storage reservoirs and eleven service basins whose total storage capacity is 8,623 million gallons. The length of water mains and reticulation is 541.1 miles. The total expenditure on water supply to 30th June, 1964, was £6,938,675. General fund expenditure for 1963-64 comprised £173,593 for working expenses and £403,310 for interest, redemption and reserves, while revenue amounted to £584,225. The sinking fund appropriations at June, 1964, amounted to £380,455. The replacement and contingencies reserve amounted to £408,556. There is a water rate of 1s. 7d. in the £1 (with minima of 10s. for vacant land and £1 for tenements) on the net annual value of ratable properties.

(c) *Sewerage Works.* The sewerage scheme consists of a main outfall sewer to the ocean and 292.8 miles of main and reticulation sewers. The sewerage area is 11,851 acres, and the number of buildings connected within the sewered areas is 24,145. The total expenditure on sewerage works to 30th June, 1964, was £2,826,830. The revenue in 1963-64 amounted to £294,067, and the general fund expenditure comprised £101,939 on working expenses and £190,106 on interest, redemption and reserves. Sinking fund appropriations at June, 1964, were £226,273. Replacement and contingencies reserve amounted to £425,621. A general rate of 1s. 4d. in the £1 is levied on the net annual value of ratable properties.

(iv) *The Ballarat Water Commissioners and the Ballarat Sewerage Authority.* (a) *General.* The body known as the Ballarat Water Commissioners was constituted on 1st July, 1880, and the Ballarat Sewerage Authority on 30th November, 1920. The members of the Water Commissioners constitute the Sewerage Authority. The Commissioners number nine, three (one of whom is chairman) being appointed by the Government, four being elected by the Council of the City of Ballarat, one being elected by the Councils of the Borough of Sebastopol and the Shires of Buninyong and Grenville and one being elected by the Councils of the Shires of Bungaree and Ballarat. General and financial information given herein relates to the year ended 31st December, 1964.

(b) *Water Supply.* The water supply district comprises an area of about 65 square miles, containing a population of about 61,000. The total storage capacity of the seven reservoirs is 5,435 million gallons and the catchment area is 24,182 acres.

The capital cost on construction of the waterworks was £2,843,623 to 31st December, 1964. The liabilities amounted to £1,759,231 at 31st December, 1964, including loans due to the Government totalling £1,629,097. The revenue for the year 1964 was £199,301. Working expenses during 1964 amounted to £107,791 and interest and other charges to £87,930. A water rate of 1s. 0d. in the £1 on the net annual valuation is levied, with a minimum charge of £1 10s. per annum on any ratable property.

(c) *Sewerage.* The Ballarat sewerage district comprises the City of Ballarat and parts of the Shires of Ballarat, Bungaree and Grenville and the Borough of Sebastopol. There are more than 183 miles of sewers. The capital cost of sewerage construction works to 31st December, 1964, was £1,938,184. Two hundred and forty-eight sewered areas had been declared as at 31st December, 1964. Assessments in the sewerage district numbered 19,799, while those in sewered areas numbered 16,127. There were 13,860 buildings connected.

The scheme is financed by debenture-issue loans from various financial institutions. The liabilities on account of loans secured for construction at 31st December, 1964, amounted to £1,673,339; redemption payments at that date totalled £385,235. House connexions financed by the Authority numbered 4,085. Revenue during 1964 amounted to £196,354, and expenditure, which included £124,593 for interest and redemption, was £195,060.

A sewerage rate of 1s. 4d. in the £1 on the net annual valuation is levied, with a minimum charge of £3 on any ratable property.

(v) *Latrobe Valley Water and Sewerage Board.* (a) *General.* The Latrobe Valley Water and Sewerage Board was constituted on 1st July, 1954. The Board consists of seven members, namely:—two Government nominees (one of whom is Manager and also Board Chairman), three members elected by water supply, sewerage and river improvement authorities within the Latrobe Valley, and one representative each of the State Electricity Commission of Victoria and the Gas and Fuel Corporation of Victoria.

(b) *Water Supply.* The Board is empowered to construct water supply works within the Latrobe Valley, but at present its main construction activities are confined to the central industrialized areas, particularly around the towns of Morwell and Traralgon. With the completion of the Moondarra reservoir and pipeline, construction activities decreased during 1963–64, capital expenditure totalling £315,453 compared with £384,583 in 1962–63. The capital cost of construction of the waterworks was £4,983,258 to 30th June, 1964. Liabilities amounted to £5,515,726, including loans due to the Government totalling £5,287,840. Revenue for the year was £292,619. Working expenses during 1963–64 amounted to £77,356 and interest and other charges to £189,881. The Board does not strike a rate, but supplies consumers, including local water supply authorities, by measure. The quantity supplied during the year ended 30th June, 1964, was 9,850 million gallons.

(c) *Sewerage.* The sewerage system consists of a main outfall sewer, about 52 miles in length. Wastes conveyed consist mainly of industrial wastes, such as paper wastes and gasification wastes, together with small quantities of domestic sewage. The capital cost of the sewerage construction works to 30th June, 1964, was £2,658,939. Liabilities amounted to £3,105,531, including loans due to the Government totalling £2,747,032. Revenue in 1963–64 was £117,101 and expenditure comprised £53,669 working expenses and £70,812 interest and other charges. No sewerage rate is levied, but a charge is made by measure for wastes both from industries and public authorities.

(vi) *Other Sewerage Authorities.* At 30th June, 1964, 74 other sewerage authorities had been constituted under the provisions of the Sewerage Districts Acts and systems were in operation in 51 districts.

3. Queensland.—(i) *Brisbane City Council—to 30th June, 1964. (a) General.* This organization conducts the water supply and sewerage systems of the City of Brisbane, and also supplies, in bulk, the whole of the water used by the City of Ipswich and the major portion of that used by the City of Redcliffe. Redcliffe also supplements its supply from that of the Pine Rivers Shire Council.

(b) *Water Supply.* Water storage facilities comprise the following (available capacities are shown in parentheses):—Somerset Reservoir, 200,000 million gallons (55,000 million gallons); Lake Manchester, 5,806 million gallons (5,720 million gallons); Brisbane River, 543 million gallons (484 million gallons); Pure Water Reservoir, Holt's Hill, 8.3 million gallons (8.3 million gallons); Enoggera Reservoir, 1,000 million gallons (600 million gallons); Gold Creek Reservoir, 407 million gallons (400 million gallons). There are 18 service reservoirs with a capacity of approximately 43 million gallons. The Somerset reservoir is a dual purpose project with a designed total holding capacity of 200,000 million gallons, 55,000 million gallons to be for water storage and 145,000 million gallons for flood mitigation. Water rating for the year ended 30th June, 1964, was 3d. in the £1 on the unimproved valuation of all ratable land, with a minimum charge of £8 for the year for each assessment. The following table is a summary of operations of the complete Brisbane City Council system (Brisbane, Ipswich and Redcliffe) for the years 1959–60 to 1963–64.

WATER SUPPLY, BRISBANE(a): SERVICES

Year	Services connected	Estimated population supplied	Average daily consumption	Total consumption for the year	Average daily consumption		Length of trunk and reticulation mains
					Per service	Per head of estimated population	
			Mill. gals.	Mill. gals.	Gallons	Gallons	Miles
1959–60	168,687	615,293	44.3	16,214	272	73.1	2,137
1960–61	171,820	626,470	46.8	17,100	273	74.8	2,196
1961–62	178,279	649,970	45.3	16,538	254	69.7	2,284
1962–63	182,804	665,479	48.3	17,644	264	72.6	2,378
1963–64	187,502	683,223	51.2	18,684	273	74.9	2,390

(a) Includes Ipswich and Redcliffe.

(c) *Sewerage.* The sewage treatment works is situated at Luggage Point at the entrance to the Brisbane River. Sewerage rating for the year ended 30th June, 1964, was 2½d. in the £1 on the unimproved valuation of each portion of land with a minimum charge of £8 10s. for the year. The following table is a summary of operations of the Brisbane sewerage scheme for the years 1959–60 to 1963–64.

SEWERAGE, BRISBANE: SERVICES

Year	Premises connected	Estimated population served	Total sewage pumped for the year	Length of main, branch, reticulation, etc., sewers
1959–60	58,942	218,185	5,626	803
1960–61	62,781	232,290	5,222	853
1961–62	67,407	249,406	5,808	906
1962–63	71,754	265,490	6,673	944
1963–64	75,964	281,067	6,959	1,042

(d) *Finances.* The following table shows particulars of the finances of the water supply and sewerage undertakings of the Brisbane City Council for the years 1959-60 to 1963-64.

WATER SUPPLY AND SEWERAGE, BRISBANE: FINANCES

(£)

Service and year	Gross capital cost to 30th June	Revenue	Expenditure			Surplus(+) or deficit(-)

1962-63 ..	19,926,939	1,262,379	296,083	651,779	1,167,970	+ 94,409
1963-64 ..	22,719,511	1,381,412	325,333	775,020	1,285,297	+ 96,115

(a) Total, including other expenditure.

(ii) *Country Towns.* (a) *Water Supply.* In addition to the City of Brisbane, there were at 30th June, 1963, 182 cities and towns in Queensland provided with water supply systems controlled by municipal and shire councils.

(b) *Sewerage Systems.* At 30th June, 1963, there were 38 cities or towns in addition to Brisbane with sewerage systems, and sewerage schemes were in course of construction at 5 other cities or towns.

(c) *Finances.* The receipts (other than loan and loan subsidy) of water undertakings controlled by the cities and towns referred to above amounted to £2,874,287 in 1962-63. Expenditure amounted to £2,895,306, including £1,282,298 for debt charges. In addition, expenditure from loans and loan subsidy amounted to £2,110,840. Finances of sewerage undertakings are incorporated in council general funds and are not available separately.

4. *South Australia.*—(i) *General.* The water supply and sewerage systems in this State were constructed mainly, and are maintained, by the Engineering and Water Supply Department, under the control of the Minister of Works. Works controlled by the Department are the Adelaide, Barossa, Beetaloo, Bundaleer, Moorook, Tod River, Warren, Yorke Peninsula and other country water districts systems, the Morgan-Whyalla water supply system, the metropolitan and country sewerage systems, the Metropolitan Flood Waters Scheme and works on the River Murray constructed under the River Murray Waters Agreement. Several water supply schemes on the Murray River are operated by the Department of Lands in conjunction with its irrigation works, and supplies to Woomera and Leigh Creek coalfield are controlled by the operating authorities. The following tables show particulars of metropolitan and country waterworks combined.

WATERWORKS, SOUTH AUSTRALIA: SERVICES

Year	Assessments(a)		Area of districts supplied (a)	Capacity of reservoirs, tanks, etc.	Length of mains	Number of meters
	Number	Annual value				
		£	Acres	Mill. gals.	Miles	
1959-60..	289,235	31,617,930	13,037,312	33,957	9,016	213,024
1960-61..	319,108	40,593,447	13,118,635	35,405	9,292	232,072
1961-62..	338,636	42,702,029	13,153,869	45,106	9,634	247,972

(a) After deduction of depreciation.

(b) Includes debt redemption.

(ii) *Adelaide Waterworks.* At 30th June, 1964, the Adelaide waterworks supplied a district of 215,093 acres. The capacity of reservoirs and storage tanks was 24,217 million gallons and there were 3,172 miles of mains. Water is also drawn from the 11,300 million gallon reservoir at South Para in the Barossa Water District.

The Mannum-Adelaide pipeline conveys water from the River Murray to Adelaide at a rate of up to 66 million gallons a day. Water is delivered to the River Torrens or, by further pumping, to the River Onkaparinga. With further development, the main will operate as a closed system connected to the metropolitan reticulation. The pipeline supplements the Warren system and other country areas.

ADELAIDE WATERWORKS: FINANCES

(£)

Year	Invested capital at 30th June (a)	Revenue	Expenditure			Surplus (+) or Deficit (-)
			Working expenses (b)	Interest	Total	
1959-60..	32,074,743	2,311,402	1,919,538	1,136,373	3,055,911	- 744,509
1960-61..	35,078,981	2,958,675	1,731,561	1,218,096	2,949,657	+ 9,018
1961-62..	38,627,084	3,151,125	2,377,181	1,368,822	3,746,003	- 594,878

(a) After deduction of depreciation.

(b) Includes debt redemption.

(iii) *Adelaide Metropolitan Sewerage.* The Adelaide metropolitan sewerage system, comprising the Adelaide, Glenelg, Port Adelaide and Salisbury-Elizabeth areas of 153 square miles in all, includes a sewage farm, and treatment works at Glenelg and Port Adelaide. Construction of a large treatment works at Bolivar is in progress to supersede the sewage farm and carry the increased load due to metropolitan expansion. Financial and other particulars for 1959-60 to 1963-64 are shown hereunder.

ADELAIDE METROPOLITAN SEWERAGE: SUMMARY

Year	Length of sewers	Number of connexions	Invested capital at 30th June (a)	Revenue	Expenditure			Surplus
					Working expenses (b)	Interest	Total	
	miles		£	£	£	£	£	£
1959-60 ..	1,471	160,407	11,305,495	1,576,769	676,660	401,009	1,077,669	499,100
1960-61 ..	1,598	173,753	13,376,362	2,060,534	887,921	479,011	1,366,932	693,602
1961-62 ..	1,659	179,918	14,544,885	2,211,011	913,724	524,376	1,438,100	772,911
1962-63 ..	1,714	186,143	16,755,220	2,344,706	1,001,053	575,617	1,576,670	768,036
1963-64 ..	1,774	194,889	19,497,763	2,619,615	1,100,524	632,284	1,732,808	886,807

(a) After deduction of depreciation.

(b) Includes debt redemption.

(iv) *Country Sewerage Schemes.* Sewerage schemes are operating at Port Lincoln, Naracoorte, Nangwarry, Mount Burr, Myponga and Angaston. At Port Lincoln the sewers discharge to an ocean outfall, and treatment works are used on the other systems. There are 89 miles of sewers and 2,720 connexions in the country systems. A sewerage scheme for Mount Gambier is under construction.

(v) *Country Water Supply.* Water districts systems at 30th June, 1964, comprised an area of 13,156,585 acres. Supply came from reservoirs having a total capacity of 20,851 million gallons, from the River Murray, and from underground sources.

Apart from local supplies, water from the River Murray comes from branches of the Mannum-Adelaide main and from the Morgan-Whyalla main.

The principal areas of underground supplies are in the south-east of the State, where water from the Murray Basin can be had at moderate depths or from lakes, and from sand beds on Eyre Peninsula. In the year 1963-64 supplies made to Mount Gambier, Naracoorte and other towns amounted to 1,199 million gallons, and the Uley-Wanilla, Lincoln and Poldas Basins contributed 708 million gallons to the Tod River Water District.

COUNTRY WATERWORKS, SOUTH AUSTRALIA: FINANCES

(£)

Year	Invested capital at 30th June (a)	Revenue	Expenditure			Deficit
			Working expenses (b)	Interest	Total	
1959-60..	27,562,171	1,074,819	1,472,354	1,069,391	2,541,745	1,466,926
1960-61..	30,104,405	1,325,719	1,456,824	1,155,471	2,612,295	1,286,576

(a) After deduction of depreciation.

(b) Includes debt redemption.

(vi) *Morgan-Whyalla Water Supply Scheme.* This scheme, which has 223 miles of main, was officially opened on 31st March, 1944, the capital invested to 30th June, 1964, being £9,794,897. Particulars of the scheme, where applicable, are included in the tables of the combined waterworks in (i), p. 796. Apart from supplying Whyalla, the main has been used to allow expansion of reservoir supplies in the northern agricultural area of the State, and to meet new demands caused by industrial growth at Whyalla, duplication of the main is under way. During 1963-64 water used from the scheme amounted to 2,660 million gallons. Revenue was £617,028, working expenses £336,984, interest charges £321,884, and deficit £41,840.

5. *Western Australia.*—(i) *General.* The water supply, sewerage and drainage systems of Western Australia are principally under the management of two State Authorities, namely, the Metropolitan Water Supply, Sewerage and Drainage Board, having as its territory the area centred on Perth and extending to Kwinana and Serpentine in the south, Sorrento in the north and Swan View on the east, and the Public Works Department, which controls the Goldfields and Agricultural Water Supply and the Great Southern Towns Water Supply as well as supplies, from local sources, to 86 country towns not included in these schemes. Both Authorities come under the portfolio of the Minister for Works and Water Supplies. The former Metropolitan Water Supply, Sewerage and Drainage Department was replaced by the Board of the same name as the result of an amendment made in 1963 to the Metropolitan Water Supply, Sewerage and Drainage Act. The amendment, operative from the 1st July, 1964, made the Board the authority responsible, subject to the Minister, for the general administration of the Act. (See also Chapter VIII. Water Conservation and Irrigation, of this Year Book, pp. 252-3.)

(ii) *Metropolitan Water Supply, Sewerage and Drainage.* (a) *General.* The sources of the metropolitan water supply are the Serpentine Reservoir, the Canning Reservoir, the Serpentine Pipehead Reservoir, the Churchman Brook Reservoir, the Victoria Reservoir and the Wungong Brook Diversion Weir. The supply from these sources is supplemented as necessary from a number of artesian bores and from a pipeline link with Mundaring Weir. The largest reservoir, the Serpentine Reservoir, has a capacity of 39,000 million gallons. There are three treatment works included in the Board's sewerage system. The largest of these, Subiaco treatment works, services Perth and suburbs.

(b) *Water Supply.* The following table shows particulars of water supply services for 1959-60 to 1963-64.

METROPOLITAN WATER SUPPLY, WESTERN AUSTRALIA: SERVICES

Year	Number of services (a)	Estimated population supplied (a)	Average daily consumption	Total consumption for year	Average daily consumption		Length of mains	Number of meters
					Per service (b)	Per head of estimated population (b)		
			Mill. gals. (c)	Mill. gals. (c)	Gallons (c)	Gallons (c)	Miles	
1959-60	..	129,956	431,600	33.7	12,335	263	79.5	97,002
1960-61	..	133,647	446,000	49.3	18,035	374	112.3	103,969
1961-62	..	137,960	460,730	50.6	18,492	373	111.6	116,610
1962-63	..	142,246	476,000	47.1	17,214	336	100.5	123,364
1963-64	..	149,033	491,740	53.2	19,454	362	109.7	130,480

(a) Figures relate to 30th June. (b) Calculated from averages for the year. (c) Water restrictions in force for 180 days.

Water rating for 1963-64 was 1s. in the £1 on annual valuation on land used for residential purposes and 1s. 6d. in the £1 on annual valuation on land not so used.

(c) *Sewerage and Main Drainage.* Some particulars of the metropolitan sewerage and main drainage services for 1959-60 to 1963-64 are shown on the next page.

METROPOLITAN SEWERAGE AND MAIN DRAINAGE, WESTERN AUSTRALIA: SERVICES

Year			Services	Estimated population served	Length of sewers	Length of main drains
					Miles	Miles
1959-60	65,781	260,600	719	69
1960-61	66,664	264,000	724	72
1961-62	67,378	239,110	736	77
1962-63	68,223	240,700	751	81
1963-64	68,958	241,700	769	94

Sewerage rating for 1963-64 was 1s. 9d. in the £1 on annual valuation, while metropolitan main drainage rating was 4d. in the £1.

(d) *Finances.* The following table shows particulars of the finances of the Western Australian Metropolitan Water Supply, Sewerage and Drainage Board.

METROPOLITAN WATER SUPPLY, SEWERAGE AND MAIN DRAINAGE, WESTERN AUSTRALIA: FINANCES

(iii) *Country Water Supplies.* Information concerning country water supplies is included in Chapter VIII. Water Conservation and Irrigation, of this Year Book (see pp. 252-3).

6. *Tasmania.*—(i) *Waterworks.* At the end of 1963-64 there were 96 municipally operated waterworks in Tasmania. The capacity of the reservoirs was 2,292 million gallons, the estimated population served was 299,990 and the number of properties served was 95,445. A regional scheme is operated as a State concern, supplying bulk water to the Municipalities of George Town, Lilydale and St. Leonards. In addition, this same scheme supplies water direct to industry situated near the Tamar River.

The overall control of water supply in the greater Hobart area, comprising the Municipalities of Hobart, Clarence, Glenorchy and Kingborough, is now vested in the Metropolitan Water Board, but the Municipalities retain primary responsibility for

reticulation. The Board has undertaken the construction of a new bulk supply, with an ultimate daily capacity of 20 million gallons. This scheme is now virtually complete and the anticipated total cost is £2,568,000.

(ii) *Sewerage.* At the end of 1963-64 there were 21 municipal sewerage schemes in operation in Tasmania. They served an estimated population of 195,000 and the number of tenements served was 52,500.

7. *Northern Territory.*—Information relating to water supply in the Northern Territory may be found in Chapter VIII. Water Conservation and Irrigation (*see pp. 255-7*).

8. *Australian Capital Territory.*—The water supply, sewerage and drainage systems in the Australian Capital Territory are under the control of the Commonwealth Department of Works. The sources of the water supply are:—Cotter Dam (capacity 967 million gallons) and Bendora Dam (2,360 million gallons). Eight pumps are capable of pumping approximately 27 million gallons daily.

The total population served in the Australian Capital Territory, which during 1963-64 consumed 4,105 million gallons of water, was 81,670 (at 30th June, 1964). In addition, the Canberra water supply system supplied 334 million gallons of water to Queanbeyan, New South Wales.

The total number of water meters at 30th June, 1964, was 17,746 and the total length of water mains was 332 miles.

The sewerage system for Canberra and suburbs consists of a treatment works, 266 miles of sewerage reticulation and 5 miles of rising mains (at 30th June, 1964). There were also 261 miles of stormwater sewers.

§ 6. Harbour Boards and Trusts

NOTE.—The number and net tonnage of vessels which entered the major ports in each State during the years 1962-63 and 1963-64 are shown in Chapter XV. Transport and Communication (*see p. 542*). Particulars of oversea and interstate cargo discharged and shipped during 1963-64 are shown on page 544 of the same chapter.

1. *New South Wales.*—(i) *Maritime Services Board of New South Wales.* (a) *General.* The Maritime Services Board of New South Wales is a corporate body of seven Commissioners comprising three full-time members and four part-time members representing shipping and other maritime interests. The Board was constituted on 1st February, 1936, under the Maritime Services Act, 1935, to co-ordinate the port and navigation services of the State, which had previously been administered by the Sydney Harbour Trust and by the State Department of Navigation.

The Board exercises general control over intra-state shipping, including the survey and certification of vessels, the licensing of harbour craft, and the examination and issue of certificates to officers. It is responsible for the provision of pilotage services, lights, beacons, buoys and other port facilities, imposes and collects rates and charges on goods and vessels, and is vested with the general control and management of the navigable waters and ports within the State.

At the ports of Sydney, Newcastle, and Botany Bay, the Board is also responsible for the provision of adequate wharfage and channels, and carries out all construction, maintenance and dredging work.

(b) *Finances.* The implementation of the Maritime Services (Amendment) Act, 1960, as from 1st May, 1961, resulted in some marked changes in the Board's accounting system. The amendment to the Act provided for a new fund known as the Maritime Services Board Fund to be established to replace the Sydney Harbour Trust Fund. All revenue earned by the Board at the ports of Sydney, Newcastle and Botany Bay, with the exception of that earned from pilotage and navigational services, is now credited to the Maritime Services Board Fund, and all revenue expenditure incurred at the three ports is drawn from that Fund.

The following table shows particulars of the finances of the Board in respect of the ports of Sydney, Newcastle and Botany Bay.

MARITIME SERVICES BOARD FUND: FINANCES OF THE PORTS OF SYDNEY, NEWCASTLE AND BOTANY BAY

(£)

Year	Revenue				Expenditure (a)			Surplus
	Wharfage and transhipment rates	Tonnage rates and berthing charges	Other charges	Total	Administration and maintenance	Interest, debt redemption, exchange, etc.	Total	
1960-61	3,130,441	631,432	927,729	4,689,602	2,565,141	2,081,110	4,646,251	43,351
1961-62	4,654,234	699,557	1,292,632	6,646,423	3,756,694	2,857,210	6,613,904	32,519
1962-63	4,846,617	790,676	1,218,885	6,856,178	3,771,424	3,028,183	6,799,607	56,571
1963-64	5,419,130	877,254	1,466,466	7,762,850	3,931,901	3,783,438	7,715,339	47,511

(a) Excludes capital expenditure but includes transfer to the Renewals Fund Reserve Account (£1,025,000 in 1960-61, £1,375,000 in 1961-62, £1,545,500 in 1962-63 and £2,389,000 in 1963-64).

(c) *Port of Sydney.* The entrance to Sydney Harbour, the principal port of New South Wales, is nearly a mile wide, and the depth of its navigable channel is not less than 80 feet. Between the entrance, known as "The Heads", and the Harbour proper, a distance of four miles, there are two separate channels, each 700 feet wide, the Western Channel not less than 42 feet deep (low water ordinary spring tide) and the Eastern Channel 42 feet deep. The foreshores, which have been reduced by reclamations, are 152 miles in length, and the total area of the port is 13,600 acres, or 21 square miles, of which about one-half has a depth of 30 feet or more at low water ordinary spring tide. The mean range of tides is 3 feet 6 inches.

The wharves are situated close to the business centre of the city, about four or five miles from the Heads. At present there are two dolphin berths each 550 feet long, and 96 effective commercial cargo berths with a total length of 69,725 feet, controlled by the Board. Accommodation for harbour craft amounts to 3,335 feet, while the length of other berths, including oil and private wharves, totals 28,851 feet. Depth of water at wharves is up to 36 feet. Special facilities for the storage and handling of products such as wheat, wool, coal, etc., are provided, and modern plant has been installed for replenishing ships' bunkers with oil or coal.

Docking facilities are available for the largest vessel afloat. The Captain Cook Graving Dock ranks among the largest graving docks in the world, being 1,139 feet by 147 feet 7½ inches with a depth of 45 feet 2 inches over the sill at high water. There are also several smaller dry docks and floating docks in the port.

(d) *Port of Newcastle.* As from 1st May, 1961, the Maritime Services Board of New South Wales became the single authority for the port of Newcastle. This was brought about by the implementation of the Maritime Services (Amendment) Act, 1960, which resulted in the Board's jurisdiction being extended to include the operation of the coal loading equipment formerly vested in the Department of Railways and the dredging, together with the maintenance and construction of wharves and other port facilities, which had been the responsibility of the Department of Public Works.

An Advisory Committee consisting of eight members, appointed by the Governor, assists the Board in matters associated with the operation of the port. It is primarily a coal-loading port, and the proximity to the coal fields has led to the establishment of important industries, including iron and steel works, in the district. Facilities are available for the shipment of wool, wheat and frozen meat, and a wharf is available for timber.

The area used by shipping is about 570 acres, excluding the entrance to the harbour and the inner basin, which together cover an area of 162 acres. The width of the harbour at the entrance is 1,200 feet, and the navigable channel, with a depth of 26 feet at low water, is 350 feet wide. Wharfage accommodation amounts to approximately 15,000 feet, including about 2,600 feet of privately owned wharfage. There are also several dolphin berths available for tie-up purposes. A floating dock of 15,000 tons capacity is available at the port.

(e) *Botany Bay.* The Maritime Services Board of New South Wales is the administrative and controlling authority. The port is primarily a discharging centre for the oil refinery at Kurnell, near Sydney, and two berths are available as well as tanker mooring buoys. The entrance to the Bay is approximately $1\frac{1}{2}$ miles wide, with a minimum depth of about 36 feet in the dredged swinging basin.

(f) *Port Kembla.* As from 3rd May, 1948, the Maritime Services Board assumed the administration and navigational control of Port Kembla, which had previously been administered by the New South Wales Department of Public Works. The Department, however, continues to be the constructing authority in respect of works, dredging and maintenance. An Advisory Committee consisting of 9 members, appointed by the Governor, has been formed to assist the Board in the operation of the port. It has an area of approximately 340 acres, with depths ranging from 20 to 50 feet (low water ordinary spring tide), and wharfrage accommodation totalling 8,000 feet has been provided for large ocean-going vessels. No cargo sheds are available, as the nature of trade at the port does not call for the provision of sheltered storage accommodation at the berths. It is the port of the southern coalfields and for the expanding industrial area in and about Wollongong. The developmental programme for Port Kembla includes the construction of an inner harbour to provide wharfrage for the steelworks in addition to modern general cargo berths; a coal loading plant capable of loading at the rate of 2,000 tons per hour is now available.

The first stage of the inner harbour basin was opened to shipping on 28th November, 1960. Present accommodation is 1,900 feet of wharfrage, with 36 feet (low water ordinary spring tide) of water alongside. Width in the entrance to the inner harbour basin is 400 feet.

(g) *Other Ports.* In addition to the ports of Sydney, Newcastle, Port Kembla and Botany Bay, the Board controls 29 outports along the coastline of 609 miles. The shipping trade of these outports is relatively small.

(ii) *Port Charges.* The port charges payable in respect of shipping and ships' cargoes in New South Wales are imposed by the Commonwealth Government in terms of the Light-houses Act and the Navigation Act, and by the State authorities under the Navigation Act of New South Wales, the Harbour and Tonnage Rates Act, and the Sydney Harbour Trust Act. Since 1st February, 1936, the State enactments have been administered by the Maritime Services Board. The gross collections by the State authorities amounted to £10,437,121 in 1963-64. This figure includes the revenue for the ports of Sydney, Newcastle and Botany Bay (see table on p. 801) and State navigation service collections, £2,674,271 (1963-64). Commonwealth Government revenue from light dues and navigation receipts for the whole of Australia amounted to £862,120 in 1962-63.

2. *Victoria.*—(i) *Melbourne Harbor Trust.* (a) *General.* Information regarding the origin and constitution of this Trust, which controls the port of Melbourne, appears in Official Year Book No. 12, pages 970-2. The port of Melbourne comes under the control of the Melbourne Harbor Trust Commissioners, an independent autonomous statutory organization, with a full-time Chairman and five part-time Commissioners with specialized knowledge of the requirements of exports, primary producers, shipowners, imports and all aspects of port labour. The area of water and land under the control of the Trust is $10\frac{1}{2}$ square miles, with sheds available for cargo in transit totalling 22,928 feet in length and covering an area of $42\frac{3}{4}$ acres.

Three of the largest transit sheds on the Australian coast are now in operation at Appleton Dock. The sheds are 600 feet long by 150 feet wide, each with a cargo stacking area of 81,000 square feet. The berths are used for the general cargo trade and have both rail and crane facilities, and modern amenities for port workers. The total length of wharves, piers and jetties in the port is 61,550 feet, covering an area of $58\frac{3}{4}$ acres with 56,940 feet of effective berthing space.

During 1964 there was a continuation of major reconstruction and modernization of several cargo berths in the Port including 1-4 Victoria Dock and 19 South Wharf, as well as the construction of a new shipping control centre 74 feet above ground level, with radar and visual observation of the entire port area. Work completed during 1964 included additional amenities for waterside workers including change rooms and dining rooms. Also the specifications and design for the construction of a 250-ton dual purpose floating crane were begun.

The depth of water (low water ordinary spring tide) from the main channels to the principal wharves is 31 to 39 feet.

(b) *Finances.* The following table shows particulars of the financial operations of the Trust.

MELBOURNE HARBOR TRUST: FINANCES

(£)

Year	Gross loan indebtedness at 31st December	Revenue		Expenditure			Surplus (+) or deficit (-)	
		Wharfage and tonnage rates	Total	Administration and maintenance (a)	Interest, debt redemption, exchange, etc.	Depreciation, renewals and insurance account		Total
1960 ..	14,199,060	2,492,139	3,948,187	2,464,557	766,532	641,175	3,872,264	+ 75,923
1961 ..	14,240,702	2,303,586	3,791,495	2,711,386	910,713	203,909	3,826,008	- 34,513
1962 ..	14,875,017	2,441,432	3,978,831	2,587,788	893,765	484,292	3,965,845	+ 12,986
1963 ..	14,917,524	2,729,596	4,484,579	2,705,730	948,921	772,942	4,427,593	+ 56,986
1964 ..	14,886,337	3,572,616	5,656,206	3,343,573	1,316,179	906,170	5,565,922	+ 90,284

(a) Includes statutory payments to Consolidated Revenue and Geelong Harbor Trust (£502,447 in 1960, £464,729 in 1961, £492,318 in 1962, £549,919 in 1963, and £718,523 in 1964). Excludes capital expenditure (£1,280,529 in 1960, £1,348,846 in 1961, £1,309,072 in 1962, £1,207,824 in 1963, and £1,410,258 in 1964).

(ii) *Geelong Harbor Trust.* The Geelong Harbor Trust, constituted in 1905, is under the control of three Commissioners appointed from time to time by the Governor-in-Council.

At the end of 1963 there were 17 effective berths in the port, plus two berths at the Commonwealth Explosives Pier, Pt. Wilson, owned and operated by the Commonwealth. Two major wharf projects will be completed by the end of 1965—new Corio Quay South No. 1 berth (general cargo) and an alumina discharging berth at Point Henry. The construction of a modern dry bulk berth with an initial discharge rate of 1,000 tons per hour will commence this year. Eight berths have a depth of 36 feet at low water, while all other berths (except Commonwealth Explosives Pier, Pt. Wilson, 30 feet) have a depth of 32 feet at low water.

Revenue for the year 1963 was £1,416,283 and expenditure from revenue totalled £811,658. At 31st December, 1963, the value of the Trust's fixed assets was £9,306,710 and loans outstanding amounted to £3,056,845.

(iii) *Portland Harbor Trust.* Construction of an all weather deep-sea port of three berths with a low water depth of 36 feet was completed to operational standards in 1960. A new oil tanker berth was brought into commission during 1963, from which petroleum products will be pumped to bulk terminals at North Portland, and the completion of a bulk grain terminal now provides in-transit storage for one million bushels of grain awaiting overseas shipment.

Operating revenue for the year ended 30th June, 1964, was £132,288 and revenue expenditure was £104,042. The value of the Trust's fixed assets, less depreciation, was £7,166,352 at 30th June, 1964, and loans and advances outstanding amounted to £7,522,320.

3. *Queensland.*—(i) *General.* The ports of Queensland, except Brisbane and certain minor ports, are administered by Harbour Boards with members representing the towns and districts served by the ports. Brisbane and the minor ports are controlled by the State Treasury through the Department of Harbours and Marine, which supervises the engineering activities of the other ports.

(ii) *Brisbane.* Brisbane accommodates comfortably, in its dredged and improved river, the largest vessels in the Australian trade. The main centres for shipping, although further downstream than formerly because of the increasing size of vessels, are still within easy access of the city. Adequate dry-docking facilities are available. The finances of Brisbane Harbour for the years 1958-59 to 1962-63 are shown below.

BRISBANE HARBOUR: FINANCES
(£'000)

Year	Loan indebtedness at 30th June	Receipts		Payments	
		Harbour dues	Total	Working expenses(a)	Total
1958-59	2,702	709	1,097	664	883
1959-60	2,512	772	1,059	731	953
1960-61	2,813	763	1,164	679	901
1961-62	2,716	742	1,084	628	849
1962-63	2,648	820	1,257	887	1,073

(a) Excludes interest and redemption included in total.

In addition to Brisbane harbour, the Department of Harbours and Marine also controls the Brisbane Dry Dock, the Cairncross Dock, and nine smaller harbours not administered by harbour boards.

(iii) *Harbour Boards.* Harbour boards control the ports of Bowen, Bundaberg, Cairns, Gladstone, Mackay, Rockhampton and Townsville. Finances for each port for the year ended 30th June, 1963, are shown below, together with a summary for the years ended 30th June, 1959 to 1963.

HARBOUR BOARDS, QUEENSLAND: FINANCES
(£)

Harbour board	Loan indebtedness at 30th June	Revenue		Expenditure (excluding loan)		Surplus(+) or deficit(-)
		Wharfage and harbour dues	Total	Working expenses	Total (including interest and redemption)(a)	
Bowen	269,107	8,556	13,079	7,555	13,822	-- 743
Bundaberg	2,862,529	289,927	404,907	105,062	361,009	+ 43,898
Cairns	816,455	210,838	282,102	114,776	154,218	+ 127,884
Gladstone	1,022,126	74,814	118,625	25,446	130,717	- 12,092
Mackay	1,672,385	191,435	478,419	125,149	462,012	+ 16,407
Rockhampton	946,864	35,400	49,577	19,420	42,381	+ 7,196
Townsville	3,719,825	278,712	712,589	204,310	701,344	+ 11,245
Total, 1962-63	11,309,291	1,089,682	2,059,298	601,718	1,865,503	+ 193,795
1961-62	9,840,952	941,652	1,785,308	498,631	1,624,147	+ 161,161
1960-61	9,395,347	862,187	1,683,169	547,390	1,625,273	+ 57,896
1959-60	8,430,437	908,911	1,807,041	561,425	1,526,770	+ 280,271
1958-59	7,099,197	898,822	1,602,409	602,391	1,696,390	- 93,981

(a) Includes expenditure on capital works from accumulated revenue.

4. *South Australia.—The South Australian Harbors Board.* All South Australian harbours are controlled by the South Australian Harbors Board, which consists of three Commissioners appointed by the Governor for a period of five years and eligible for re-appointment. The Board is responsible to the Minister of Marine for the discharge of its duties and functions. The most important ports are the five deep sea ports of Port Adelaide.

Port Pirie, Wallaroo, Port Lincoln and Thevenard. At a few ports the wharves or jetties are privately controlled, the principal of these being at Whyalla, Ardrossan and Rapid Bay, all of which are controlled by the Broken Hill Pty. Co. Ltd. Port Augusta is controlled by the Commonwealth Railways on behalf of the Commonwealth Government. Maximum depths of water (low water) at the wharves of the main ports range from 24 feet at Port Pirie to 35 feet at Port Adelaide (Outer Harbour). The following table shows the finances of the Board for 1959-60 to 1963-64.

THE SOUTH AUSTRALIAN HARBORS BOARD: FINANCES

(£)

Year	Capital at 30th June (a)	Revenue	Expenditure from revenue			Surplus
			Working expenses	Interest	Total	
1959-60.. ..	16,324,529	2,314,999	1,574,774	612,711	2,187,485	127,514
1960-61.. ..	17,432,015	2,714,743	1,684,618	658,269	2,342,887	371,856
1961-62.. ..	18,555,851	2,576,697	1,676,407	701,032	2,377,439	199,258
1962-63.. ..	19,483,967	2,548,777	1,672,186	765,725	2,437,911	110,866
1963-64.. ..	20,498,021	3,056,808	1,795,274	790,647	2,585,921	470,887

(a) State Treasurer's funds and reserve employed.

5. *Western Australia.*—(i) *Fremantle Port Authority.* The Port of Fremantle is operated and controlled by a body corporate administered by a Board of five Commissioners appointed triennially by the Governor. The port covers an extensive water area of some 180 square miles and comprises an inner and an outer harbour. The inner harbour includes 18 deep water land-backed berths, providing 703,850 sq. ft. of covered storage space and 11,148 feet of wharf berth accommodation. All inner harbour berths are dredged to a low water depth of 36 feet. The outer harbour includes three main anchorages, Gage Roads, Owen Anchorage and Cockburn Sound. Deep water jetties, including the oil refinery jetty in Cockburn Sound, are available in the outer harbour. Ocean going deep draft ships enter the Sound by means of channels dredged through Success and Parmelia Banks to a low water depth of 38 feet and a bottom width of 500 feet. In the outer harbour there are three tanker berths each with a low water depth of 44 feet at the Kwinana oil refinery, one berth at the nearby steelworks jetty with a low water depth of 30 feet, and one berth at the alumina works jetty with a low water depth of 40 feet. There are also special berths for the off-loading of cattle and the handling of explosives.

Gross earnings for the year 1963-64 amounted to £3,320,786, working expenses to £2,581,475, interest charges on loan capital £329,331, sinking fund contributions £88,850 and capital and other funds employed totalled £8,732,672.

(ii) *Albany Harbour Board.* The Albany Harbour is controlled by a board of five members appointed by the Government. The depth of water in the entrance channel is 33 feet, at one arm of the jetty 31 feet and at the other arm 33 feet. In the approaches to wharf berths the depth is 33 feet. Wharf accommodation consists of 1,115 feet, and in addition the Deepwater Jetty has 2,500 feet of accommodation. Gross earnings for the year 1963-64 amounted to £136,417, working expenses £68,757, interest and sinking fund charges £99,626, and capital account totalled £1,910,252.

(iii) *Bunbury Harbour Board.* The Bunbury Harbour is controlled by a board of five members appointed by the Government. The depth of water in the harbour is 30 feet and berthing accommodation is 4,300 feet. Gross earnings for the year 1963-64 amounted to £220,906, working expenses £101,157, interest and sinking fund charges £128,799, and capital account totalled £2,971,402.

(iv) *Other Ports.* The following ports are controlled by the State Government Harbour and Light Department:—Broome, Busselton, Carnarvon, Derby, Esperance, Geraldton, Onslow, Point Samson, Port Hedland, Wyndham and Yampi.

6. *Tasmania*.—There are eight marine boards and one harbour trust in Tasmania. The marine boards control the ports of Hobart, Launceston, Stanley (Circular Head), Burnie and Wynyard (Table Cape), Devonport and Ulverstone, Strahan, Currie (King Island), and Whitemark (Flinders Island), and the harbour trust controls the port of Smithton. Aggregate receipts of revenue accounts of all these authorities during the year 1963–64 were £2,084,199, and expenditures £1,512,672, including loan charges £549,845. All amounts referred to in this section exclude transfers between accounts of the same authority.

The total receipts of the Hobart Marine Board on revenue account during 1963–64 were £624,911, and total expenditure on revenue account was £404,873, of which £127,081 was spent on loan charges. Launceston Marine Board receipts on revenue account during 1963–64 amounted to £531,205, and expenditure on revenue account was £424,079, of which £85,705 was spent on loan charges. Devonport Marine Board (which is now responsible for running the facilities formerly provided by the Ulverstone Harbour Trust) had receipts of £380,784 on revenue accounts and spent £304,989 on revenue account, including £139,550 on loan charges. The total receipts on revenue account for Burnie Marine Board were £469,093 and expenditure on revenue account items totalled £301,823, of which loan charges accounted for £182,822.

The total loan indebtedness of all marine boards and the harbour trust at 30th June, 1964, amounted to £7,368,410. Of this sum, £1,432,931 was in respect of Hobart (including Port Huon), £1,107,691 in respect of Launceston, £2,991,965 in respect of Burnie, and £1,707,278 in respect of Devonport (including Ulverstone). The total of new loans raised during 1963–64 by the harbour trust and all the marine boards was £1,315,500, of which Hobart raised £200,000, Burnie £500,000 and Devonport £300,000.

Hobart, Launceston, Burnie and Devonport are the principal ports of Tasmania. In addition to their interstate and intra-state traffic, there is also considerable overseas shipping. Depths of water at wharves vary, in general, between 16 and 34 feet (low water ordinary spring tide), but at Hobart there is a depth of water of from 30 to 52 feet.

§ 7. Fire Brigades

1. *New South Wales*.—A Board of Fire Commissioners, consisting of five members, one appointed by the State Government (President) and one each representing insurance companies, local government authorities, volunteer firemen, and permanent firemen, operates under the Fire Brigades Act, 1909–1958, and 157 fire districts had been constituted at the end of 1964. The cost of maintenance of fire brigades is borne in proportions of local councils and the Government each one-eighth, and the insurance companies three-quarters. The Board's borrowing power is limited to £1,000,000.

At 31st December, 1964, the authorized strength of the Fire Brigade throughout the fire districts of New South Wales was 421 officers and 1,296 permanent and 2,676 volunteer firemen. Corresponding figures for the Sydney Fire District were 344, 1,151 and 292. The revenue for the year 1964 was £3,769,660, made up as follows:—from the Government, £466,920; municipal and shires, £466,920; fire insurance companies and firms, £2,801,520; and from other sources, £34,300. The disbursements for the year were £3,993,456. The Board of Fire Commissioners provides the fire protection services for Canberra, in the Australian Capital Territory, and the cost of these services is reimbursed by the Commonwealth Government.

Under the Bush Fires Act, 1949–1963, a Bush Fire Fighting Fund exists from which finance is provided for the prevention and fighting of bush fires. Contributions to the Fund by the Government, councils and insurance companies are in the proportion of one quarter, one quarter and one-half, respectively. At 30th June, 1964, Volunteer Brigades equipped by means of this fund numbered 2,500 with an active membership of about 100,000 persons. The approved expenditure from the Fund for equipment, up to 30th June, 1965, amounted to £2,793,629.

2. **Victoria.**—(i) *General.* In Victoria, fire brigades are controlled by the Metropolitan Fire Brigades Board consisting of ten members, including an employees' representative, and the Country Fire Authority also consisting of ten members.

(ii) *Metropolitan Fire Brigades Board.* The Metropolitan Fire Brigades Board receives contributions from the municipalities and the insurance companies in the proportion of one-third and two-thirds respectively. On 30th June, 1964, the Board had under its control 45 stations, 1,052 permanent staff, 223 special service and clerical, etc., staff, and 13 part-time firemen. The total receipts for 1963-64 were £2,428,687, comprising contributions, £1,940,100, receipts for services, £232,564, and interest and sundries, £256,023. The expenditure was £2,348,094.

(iii) *Country Fire Authority.* This authority is responsible for the prevention and suppression of fires in the "country area of Victoria", which embraces the whole of the State outside the Metropolitan Fire District, excluding State forests and certain Crown lands. The country area has been divided into 25 fire control regions, four of which (Ballarat, Bendigo, Geelong and the Dandenong, Chelsea and Frankston areas) are wholly urban and the remainder mixed urban and rural. The Country Fire Authority receives contributions in the proportion of two-thirds from insurance companies and one-third from the Treasury. At 30th June, 1964, the Country Fire Authority Act applied to 206 insurance companies, and 205 urban and 1,040 rural fire brigades. The effective registered strength of the brigades was 109,420 members.

Income for the year 1963-64 amounted to £815,421. Total expenditure other than loan amounted to £744,626.

3. **Queensland.**—(i) *General.* Fire Districts are constituted under the Acts of 1920-1956. For each district, there must be a Fire Brigades Board consisting of seven members, and the cost of maintenance of each brigade is proportioned as follows:—Treasury one-seventh, insurance companies five-sevenths, and local authorities one-seventh. The insurance companies' contribution is paid to the State Government and thence to fire brigades.

(ii) *Fire Brigade Boards.* At 30th June, 1963, there were 82 Fire Brigade Boards. The total number of stations was 147 and full-time staff numbered 865, including 20 administrative, 187 officers and 658 firemen. Volunteers numbered 77. Part-time staff numbered 1,124, including 86 administrative, 125 officers and 913 firemen. The total revenue for the year 1962-63 was £1,602,603, received mainly from the following sources:—Government £218,524, local authorities £218,524, insurance companies £1,092,622. Loan receipts (Government and other) were £343,240. The total expenditure for the year was £1,498,280, the chief items being salaries and wages £1,091,056, and interest and redemption of loans £138,594.

4. **South Australia.**—The Fire Brigades Act, 1936-1958 provides for a board of five members, and the expenses and maintenance of brigades are divided in the proportion of two-ninths by the Treasury, five-ninths by insurance companies and two-ninths by the municipalities concerned. When the Treasury proportion exceeds its statutory contribution of approximately £13,000, the excess is borne five-sevenths by insurance companies and two-sevenths by the municipalities. At 30th June, 1964, there were altogether 36 fire brigade stations, of which 12 were metropolitan and 24 country.

The strength of the permanent staff at 31st December, 1964, was 409, including 282 officers and men, 93 country auxiliary firemen and 34 other employees (including maintenance workers). The total revenue for the year 1963-64 was £582,396, including contributions of £484,632 made up as follows:—insurance companies £291,629, Treasury £76,351 and municipalities £116,652. The Treasury contribution includes an additional grant of £63,457.

5. **Western Australia.**—By the provisions of the *Fire Brigades Act, 1942-1961*, certain local government areas and parts of local government areas are constituted fire districts under the control of the Western Australian Fire Brigades Board. There were 48 fire districts at 30th September, 1964. The contribution to the Board is made in the proportion of two-ninths from the Government, two-ninths from local government authorities, and five-ninths from insurance companies. The number of local government authorities and insurance companies who contributed numbered 66 and 162 respectively. The brigades, throughout the State, controlled by the Western Australian Fire Brigades Board at 30th September, 1964, numbered 65, with a staff of 1,550, including 307 permanent officers and firemen and 1,243 volunteer brigade officers and firemen. The revenue for the year ended 30th September, 1964 was £718,767 and the expenditure £718,155.

Under the *Bush Fires Act, 1954-1964*, a Bush Fires Board, consisting of 13 members, 6 of whom are nominated by the Country Shire Councils Association, was set up to advise the Minister for Lands on bush fire control. The Act also provides for the registration of bush fire control officers, who numbered 1,973 at 30th June, 1964, and the establishment of bush fire brigades, 857 at 30th June, 1964. Many individual brigades are large organizations with numerous self-contained sections.

6. Tasmania.—The *Fire Brigades Act 1945* provided for the creation of the Fire Brigades Commission of Tasmania to co-ordinate the activities of existing fire brigade boards, while leaving the responsibility for individual control and management with the boards. The Commission consists of two persons nominated by the Minister, one person elected by the City or Municipal Councils representatives and three persons elected by the insurance representatives of the Fire Brigades Boards. Contributions towards the cost of operations are on the basis of one quarter each from the Treasury and the municipalities and one half from the insurance companies concerned. The cost for the year 1963-64 amounted to £219,856. There were, at 30th June, 1964, 23 boards controlling 36 stations, and their aggregate staffs numbered 554, including 114 permanent officers, 370 part-time firemen, including officers, and 70 volunteers.

CHAPTER XXI

PRIVATE FINANCE

NOTE.—Further information on the subjects dealt with in this chapter is contained in the annual bulletins *Banking and Currency* and *Insurance and Other Private Finance* published by this Bureau. Current information is contained in the *Quarterly Summary of Australian Statistics*, the *Monthly Review of Business Statistics*, the *Digest of Current Economic Statistics* (monthly), and the monthly mimeographed statements *Australian Banking Statistics* (bulletin and preliminary statement), *Australian Savings Bank Statistics* (bulletin and preliminary statement) and *Australian Life Insurance Statistics* (bulletin). The annual mimeographed bulletin *Australian Fire, Marine and General Insurance Statistics* contains the most recent information available on this subject. Other relevant mimeographed statements are:—*Instalment Credit for Retail Sales*; *Unit Trusts, Land Trusts, and Mutual Funds*; *New Capital Raisings by Companies in Australia*; and *Capital and Maintenance Expenditure by Private Business in Australia* (quarterly); *Oversea Investment in Companies in Australia* (annual); *Survey of Private Pension and Retiring Allowance Schemes, 1961–62*; *Survey of Selected Large Private Pension Funds, 1963–64*; and *Registered Building Societies, 1962–63*. Preliminary monthly statements *Instalment Credit for Retail Sales* and preliminary estimates of New Capital Raisings and of Oversea Investment are issued also.

CURRENCY

§ 1. Decimal Currency

1. **Developments prior to Currency Act 1963.**—The Decimal Currency Committee was appointed by the Commonwealth Government in February, 1959, to investigate the advantages and disadvantages of a decimal currency; if a decimal currency was favoured, to make recommendations concerning the unit of account and denominations of subsidiary currency most appropriate for Australia and the method of introduction and the cost involved. The Committee presented its report in August, 1960, and the Summary of Conclusions and Recommendations contained therein appeared in Year Book No. 49, pages 835–7.

In April, 1963, the Government announced that, in accordance with the recommendations of the Decimal Currency Committee:

- (a) a system of decimal currency was to be introduced into Australia;
- (b) the tentative changeover date was set for February, 1966;
- (c) the new system would be based on a major unit (subsequently named the dollar) equal to the present ten shillings;
- (d) the minor unit (subsequently named the cent) of the new system would be one hundredth part of the major unit, and would thus be equal in value to 1.2d. in the existing currency system; and
- (e) no fractions of the minor unit would be introduced.

The Government also announced that it would pay reasonable compensation to owners of a large proportion of monetary machines which would require conversion in order to be used under the new decimal system.

2. **Currency Act 1963.**—The *Currency Act 1963* (No. 67 of 1963), which was assented to on the 30th October, 1963, is the first of a number of Acts necessary to give effect to the Government's decision. Briefly, the Act provides for the new currency and establishes the relationship between it and the existing system of pounds, shillings and pence, and specifies the denominations and minting and legal tender arrangements for the new decimal coins. The Act also furnishes the Treasurer with certain powers for the purpose of facilitating the transition from the existing to the decimal currency system, and establishes the Decimal Currency Board.

Those parts of the Act which establish the new currency and provide for the decimal coins and the legal tender arrangements will come into operation on a date to be proclaimed; this date, referred to as C-day, has now been set for 14th February, 1966.

The arrangements for the introduction of a decimal currency presuppose a transition period of one-and-a-half to two years following C-day. The *Currency Act 1963* does not cover the special requirements of this transition period, and further legislation will be introduced for this purpose. Among other things, it will cover the concurrent use of both currencies and the legal tender arrangements during the transition period.

Under section 29 of the *Currency Act 1963* the functions of the Decimal Currency Board are:

- (a) to make recommendations to the Treasurer on matters relating to the changeover to decimal currency and, in particular, on the compensation arrangements for monetary machines;
- (b) to exercise such powers as are authorized by the Treasurer; and
- (c) such other functions in relation to the introduction of decimal currency as the Treasurer determines.

Recommendations already made to the Treasurer, and subsequently incorporated into Government policy, concern particularly assistance to owners of monetary machines. The Board has also, following consultation with the Treasurer, issued advice and guidance on such matters as conversion tables and notation in decimal currency.

3. **Commonwealth Assistance.**—In accordance with the Government's original decision, assistance will be made available to owners of a large proportion of those monetary machines which require conversion or adaptation for decimal currency operation. The Government has already announced the machines which will qualify. These are: cash registers, adding machines, accounting machines, punched card tabulators and electronic computers, price-computing scales, price-computing fabric measuring machines, postal franking machines and electric petrol pump computers. For some, the assistance will take the form of conversion to decimal operation at Government expense as part of a conversion programme planned and supervised by the Decimal Currency Board; for others, it will take the form of a payment of cash compensation to the machine owner.

Most policy decisions on Government assistance have been taken, and the categories of machines which will be eligible for Government assistance have been decided. Detailed arrangements for most machines had either been announced by May, 1965, or were being settled.

The Government will not provide assistance in respect of changeover expenditure other than that involved in the conversion of monetary machines.

4. **Conversion of £ s. d. amounts to Dollars and Cents.**—Part II of the *Currency Act 1963* establishes the relationship between the present and the proposed currencies, and therefore provides the basis for conversion of amounts of £ s. d. to dollars and cents.

Although the pound converts exactly to two dollars and the shilling to ten cents, conversion problems can arise because there is a difference in value between the minor units (the penny and the cent) in the two currency systems. Part II of the Act provides the equivalents of £ s. d. currency in dollars and cents and set out certain circumstances in which an exact conversion must be made.

Part II also provides the following whole-cent conversion of amounts of pence:

Pence	Whole cents
1	1
2	2
3	2
4	3
5	4
6	5
7	6
8	7
9	8
10	8
11	9

Under the *Currency Act 1963*, this whole-cent conversion has the force of law where an amount of £ s. d., payable before C-day, is paid in dollars and cents after C-day. Other circumstances in which whole-cent conversions might be used will be covered by the supplementary legislation for the transition period.

Using the relationships established in the *Currency Act 1963*, the Decimal Currency Board has published three conversion tables:

- (a) an Exact Equivalents Table;
- (b) a Banking and Accounting Table; and
- (c) a Comprehensive Conversion Table.

The Exact Equivalents Table converts amounts of £ s. d. to their exact values in dollars and cents. This table is for use wherever it is necessary to obtain the exact equivalent of an amount of £ s. d. in the new currency.

The Banking and Accounting Table converts amounts of £ s. d. to the nearest whole-cent. This table would be used where it is practicable only to convert to whole-cents. The Comprehensive Conversion Table converts amounts ending in halfpence to the nearest whole-cent.

Neither of the Board's whole-cent conversion tables are in any sense designed to give direction as to how prices in £ s. d. should be converted to dollars and cents. The Board has no authority to fix prices or other charges.

5. Notation in Decimal Currency.—The Board has made certain recommendations on the method of writing amounts in decimal currency.

It is not considered practicable to prescribe, for all purposes, exact symbols for dollars and cents, or precise methods of expressing dollars and cents in words or figures. Considerable latitude is to be allowed to the public in this area, just as at present, in this and other countries, there are several acceptable methods by which amounts of money may be expressed.

The main requirements are that the methods should be unambiguous and, in the case of cheques and other similar instruments, that the figures should be difficult to alter fraudulently. Also the symbols chosen to express dollars and cents should involve the minimum change to existing printing and other equipment.

Guiding rules on the expression of monetary amounts in Australian decimal currency have been issued by the Board. The most important recommendations are:

- (a) the symbol for the dollar is \$—a capital S with two vertical strokes; acceptable alternatives may be used, for example, an S crossed by one vertical stroke;
- (b) the symbol for the cent is a small letter c; again acceptable alternatives may be used, for example, a c with a stroke through it or some stylized version of the c;
- (c) where it is necessary to distinguish the Australian dollar from overseas currencies, the letter A should be placed immediately after the dollar sign—\$A;
- (d) when using the dollar symbol and writing amounts of cents only, a nought should be placed between the symbol and the decimal point (for example, \$0.25);
- (e) when using the dollar symbol and writing amounts involving cents, there should always be two figures (where necessary, one of them a nought) following the decimal point (for example, \$26.09); and
- (f) in line with a strong preference expressed by the Australian banks, a hyphen should be used, instead of a decimal point, to separate the figures for dollars and cents in an amount hand-written on a cheque (for example, \$26-09).

6. Public Education Campaign.—Since decimal currency will affect all members of the community of school age and above, there is need for a wide and penetrating public education programme. This has been seen from the outset as one of the Decimal Currency Board's principal functions, and the Treasurer made special reference to it when announcing the appointment of the Board.

The Board has plans for a comprehensive publicity programme. All the main media—television, radio, press and delivery, by the Post Office, of an explanatory brochure to every household in Australia—will be used. This programme will ensure that information on the new currency and the changeover arrangements will be available to all who require it.

§ 2. The Present Australian Monetary System

The Australian monetary system (to 13th February, 1966) is based on the British system, of which the unit is the pound (£) divided into 20 shillings (s.) each of 12 pence (d.). When the Australian currency was introduced in 1909, the Australian pound was specified as equivalent to 123.27447 grains of gold $1\frac{1}{12}$ ths fine or 113.002 grains of fine gold and, until the depression in 1930, was identical with the pound sterling. There was a gradual depreciation of the Australian pound in terms of sterling from the beginning of 1930 until 3rd December, 1931, when it was stabilized at the rate of £125 Australian = £100 sterling. This relationship has been maintained until the present time. Following the depreciation, no action was taken to define the value of the Australian pound in terms of gold until 5th August, 1947, when the Australian Government advised the International Monetary Fund, in terms of the membership agreement, that the par value of the Australian pound was 2.86507 grammes (44.2148 grains) of fine gold. From 18th September, 1949, this was reduced to 1.99062 grammes (30.720 grains) of fine gold.

When the Commonwealth was established in 1901, the currency in Australia consisted of United Kingdom gold, silver and bronze coins, notes issued by the banks, and Queensland Treasury notes. Queensland Treasury notes were in circulation in Queensland only, having superseded bank notes in that State after the 1893 crisis. Under the Commonwealth Constitution, the control of currency, coinage and legal tender and the issue of paper money was vested in the Commonwealth. The Commonwealth assumed these powers by enacting the *Coinage Act* 1909 and the *Australian Notes Act* 1910.

Australian notes are legal tender in Australia for any amount. Australian silver coins are legal tender for any amount not exceeding forty shillings and Australian bronze coins are legal tender for any amount not exceeding one shilling.

§ 3. Australian Coinage

1. **Powers under Constitution.**—The Constitution in 1901 gave the Commonwealth Parliament power to make laws with respect to coinage and in 1909 the Coinage Act was passed prescribing the standard weight and fineness of coins. The first coins exclusively for circulation in Australia—silver (925 fine) florins, shillings, sixpences and three pences—were minted in 1910, by the Royal Mint, London, followed by bronze coins in 1911. The Melbourne Branch of the Royal Mint produced in 1916 the first Commonwealth coins (pence) minted in Australia. The Sydney Branch of the Royal Mint commenced production of halfpennies in 1919 and in 1922 the Perth Branch minted its first pennies.

2. **Pre-Federation Coinage.**—Prior to Federation, the coins circulating throughout Australia were many and varied. On 19th November, 1800, a Proclamation in the following terms was issued by Governor King.

“Whereas representations of the Want of small Money experienced here have induced His Majesty to take into His gracious Consideration, the immediate Relief from this great inconvenience to all classes of His Subjects in this Colony; a quantity of Copper Coin has been received in His Majesty's Armed Vessel Porpoise, and will be circulated by being paid for Grain, and Animal Food supplied His Majesty's Stores.

These are therefore to Give Notice, That, a Copper Coin weighing one English Ounce, and stamped with the Profile of His Majesty on the one side, and of Britannia on the other, will be issued as above, at the rate of Two pence for each Copper; and that the same shall pass current in the Colony; and is to circulate at the aforesaid rate of Two pence.

And, that no one may plead ignorance of the rate of legality of this, or any other of the Coins circulated in this Colony, of which it does not appear that any regular Proclamation has ever collectively been issued, I have judged it most expedient herewith to publish the following Table of all the Specie legally circulating in this Colony, with the rates affixed to each, of which they shall be considered and be a legal Tender, in all payments or Transactions in this Colony.

Table of Specie

	£	s.	d.
A Guinea	1	2	0
A Johanna	4	0	0
An Half Johanna	2	0	0
A Ducat		9	6
A Gold Mohur	1	17	6
A Pagoda		8	0
A Spanish Dollar		5	0
A Rupee		2	6
A Dutch Guilder		2	0
An English Shilling		1	1
A Copper Coin of One Ounce			2

When a sufficient quantity of Copper Coin is received in the Colony, of which Notice will be given, no private Notes or Cards will be allowed to circulate.

This supply of Copper having been sent to relieve the inconvenience of Persons requiring to make small payments; No persons are to collect the same for the purpose of making large payments; Nor shall it be deemed a legal Tender to offer the same in payment for any Sum exceeding Five pounds.

And it is hereby declared, that the exportation or importation except from His Majesty's Treasury, of any sum in Copper exceeding five pounds, shall be punished by Fine of Treble the Value, and forfeiture of the sum exported or imported."

On 3rd July, 1813, the following Proclamation by Governor Macquarie appeared in The Sydney Gazette.

"Whereas it has been deemed expedient to send a Quantity of Dollars to this Colony, for the purpose of assisting and improving the Circulating Medium thereof, to be issued in such Manner, for such Value, and under such Regulations as in the Discretion of HIS EXCELLENCY the GOVERNOR will be best calculated to effect the above-mentioned Purposes:

And whereas HIS EXCELLENCY the GOVERNOR hath therefore thought proper to direct that a small circular Piece of Silver shall be struck out of the centre of every such Dollar, which, together with the remaining Part of every such Dollar, is intended to be issued and circulated at the Value and under the Regulations herein after described; And whereas such Directions are now carrying into effect, and such Silver Money will shortly be ready for Issue: It is therefore hereby ordered and directed, that each and every such small circular Piece of Silver, on one Side of which is impressed the Figure of a Crown, with the Words "New South Wales", above such Impression, and the Figures "1813" beneath the same, and on the other or reverse Side thereof are impressed the Words "Fifteen Pence", and having the Edges thereof grained, shall be Current within this Territory for the Sum of Fifteen Pence of lawful Money of the United Kingdom of Great Britain and Ireland, of English Value and Currency.

And it is hereby, and by the Authority aforesaid, further ordered and directed, that every such larger Piece of Silver, being the remaining Part of every such Dollar, on the upper Part of one Side of which are impressed at its inner Rim the Words "Five Shillings", and at the lower Part of the said Rim, on the same Side, is also impressed the Figure of a Branch of Laurel, and on the reverse Side of which, at the upper Part of the said inner Rim, are impressed the Words "New South Wales", and at the lower Part of the same Rim, the Figures "1813", the Edges of the said inner Rim being grained on both Sides, shall be current within this Territory, and every Part thereof, for the Sum of Five Shillings and lawful Money of the United Kingdom of Great Britain and Ireland, of English Value and Currency."

These two coins, which were to become known as 'holey dollars' and 'dumps', continued to be legal tender, together with later importations of dollars. However, they were reduced in value after 1822, to three-quarter and quarter dollars respectively. The volume of Spanish dollars in the Colony continued to grow until, by 1822, dollars valued at five shillings each were being used extensively for cash transactions and accounting, and there was considerable local agitation for the adoption of the dollar as the official currency.

Meanwhile, in 1825, the British Government issued an Order-in-Council with the objective of bringing the dual-currency to an end and of insisting on the sole use of English currency in the Colony. The adoption of sterling nomenclature and of English coins proceeded gradually and special efforts were made to assure an adequate supply of the official coins. These were imported in sufficient quantity to have displaced dollars and other foreign coins by the 1830's (in Tasmania by the 1840's) and from then on English gold, silver and bronze coins, including gold sovereigns and half-sovereigns minted in Australia after 1855, were in use as the official currency until early in the present century.

3. Post-Federation Coinage.—After Federation in 1901 the only coins which were legal tender within Australia until 1909 were English coins.

The Commonwealth Treasury administers the Coinage Act and all coins produced under authority of that Act have been ordered by the Treasury, mainly from the Royal Mint, London, and its Branches in Melbourne, Sydney and Perth, but some orders were filled by Mints in the United States of America and in India. A total of some 2,600 million coins were issued, of which it is estimated that at least 1,500 million are still in circulation.

In 1946 the silver content of Australian coins was changed to 500 fine from 925 fine and over the years the pre-1946 coins, other than threepences, have been gradually withdrawn for melting down. It is now fairly rare to see silver coins, other than threepences, bearing dates earlier than 1946 in circulation.

4. Royal Mint Branches in Australia.—The first Royal Mint Branch in Australia was opened in Sydney in 1855. Branches were also opened in Melbourne in 1872, and in Perth in 1899. (See also pp. 815–6.) Established in the three main gold-producing colonies to refine and assay gold, the Branches were soon also minting sovereigns and half-sovereigns for the British Government. The Commonwealth Government exercised no control over the operations of these mints. Its role has been that of a commercial customer concerned with the quality and cost of the coin produced to its orders.

5. Royal Australian Mint, Canberra.—The construction of the Royal Australian Mint in Canberra provided the Commonwealth Government for the first time with facilities for minting its own coinage. The opening, of the Mint on 22nd February, 1965, by His Royal Highness the Duke of Edinburgh, began a new era in Australia's history.

Construction of the Administrative Building commenced in February, 1963. It is a long wing of two floors and a basement and houses the Controller of the Mint and his administrative staff, extensive modern laboratories, the engraving section and the coin museum. It is faced with white sandstone and marble; terrazzo columns from ground to roof line support the wide eaves.

The massive Process Building is 100 yards square; it is faced with black basalt and white sandstone and, together with other areas, is floodlit at night. The coinage metals move anti-clockwise through the various processes: make-up of alloys, melting, rolling, annealing, blanking, burnishing, coining and packaging for issue. Production is 300 million coins yearly on the basis of one eight-hour shift daily. The Mint will produce only decimal coins which will be stored for issue on the changeover to decimal currency in February, 1966.

The total cost of the project was around £4,500,000 which includes machinery and equipment costing £2,000,000.

§ 4. Pre-decimal Coinage

1. Coins in Circulation.—Brief historical notes relating to the Australian pre-decimal coinage are given in Year Book No. 37, pages 557 and 558. For weight, metal, composition, etc., of Australian pre-decimal coins in circulation see Year Book No. 39, page 697.

The silver coins issued prior to July, 1947, have a millesimal fineness of 925 (thirty-seven fortieths silver and three fortieths copper) and those issued since 1st July, 1947 (dated 1946 and later), have a millesimal fineness of 500 (one-half silver and one-half other metals).

From 1910 to 1916, Australian coins were minted in England by the Royal Mint, London, and the Mint, Birmingham Ltd., and in 1916, 1917 and 1918 by the Indian Mints. The minting of Australian coins was undertaken by the Australian Mints in 1916, and coins have been minted at the Melbourne branch of the Royal Mint from 1916 to the present time, at the Sydney branch from 1919 until that Mint closed in 1926, and at the Perth branch in 1922 and from 1940 to the present time.

During the 1939-45 War the two Australian mints were unable to meet the demand for Australian coins, and some coins were minted in the United States of America and India. In 1951-52 and 1952-53 some coins were minted at the Royal Mint, London, to meet the heavy demand for coins. Details of Australian coins obtained from each mint to 30th June, 1964, are as follows:—Melbourne, £57,726,000; Perth, £2,261,000; Sydney, £488,000; United Kingdom Mints, £3,016,000; United States Mints, £6,000,000; Indian Mints, £169,000; total, £69,660,000.

2. **Net Issues of Australian Coins.**—The net issues of Australian silver and bronze coins from 1910 to 30th June, 1964, were:—Crown (5s.), £276,000; Florin (2s.), £23,625,000; Shilling (1s.), £10,770,000; Sixpence (6d.), £7,278,000; Threepence (3d.), £7,371,000; total silver coin, £49,261,000; Penny (1d.), £3,206,000; Half-penny (½d.), £883,000; total bronze coin, £4,089,000. Except in the total, no allowance has been made for £59,000 worth of damaged silver coin, for which denominations are not available, withdrawn since 1910.

3. **Profits on Coinage of Silver and Bronze.**—Australian silver and bronze coins are token coins and, as the face value of the coins is greater than the value of the bullion they contain, a profit is made from their issue. This profit forms part of the Commonwealth Consolidated Revenue. In the following table, details are given of the value of coins issued, the cost of bullion, the cost of minting and sundry expenses connected with the issue, and the profits made on the issue of coins during the years 1959-60 to 1963-64.

AUSTRALIAN SILVER AND BRONZE COINS: PROFITS FROM ISSUE
(£)

Year	Face value of coin issued (a)	Cost of bullion	Gross profit	Cost of minting and sundry charges	Net profit
SILVER COIN					
1959-60	2,157,682	1,505,128	652,554	182,558	469,996
1960-61	2,262,622	1,591,878	670,744	258,002	412,742
1961-62	3,672,543	2,658,758	1,013,785	267,921	745,864

1960-61	145,125	110,101	35,024	126,598	— 91,574
1961-62	143,289	101,810	41,479	197,939	— 156,460
1962-63	170,105	120,860	49,245	170,039	— 120,794
1963-64	433,796	305,318	128,478	341,302	— 212,824
TOTAL					
1959-60	2,279,036	1,592,550	686,486	271,546	414,940
1960-61	2,407,747	1,701,979	705,768	384,600	321,168
1961-62	3,815,832	2,760,568	1,055,264	465,860	589,404
1962-63	2,927,705	2,389,039	538,666	432,792	105,874
1963-64	2,529,341	2,376,532	152,809	509,014	— 356,205

(a) Includes selected and proof pieces.

NOTE.—Minus sign (—) denotes a loss.

4. **Australian Mints.**—(i) *General.* Soon after the discovery of gold in Australia a branch of the Royal Mint was established in Sydney. The formal opening took place on 14th May, 1855. The Melbourne branch was opened on 12th June, 1872, and the Perth Branch on 20th June, 1899. The States of New South Wales, Victoria and Western Australia provided an annual endowment in return for which the mint receipts were paid to the respective State Treasuries. Owing to losses incurred in its operations, the Sydney branch was closed at the end of 1926.

Since their establishment, the Australian branches of the Royal Mint have been primarily concerned with the refining of gold, minting of Imperial gold coins and the production of bars and ingots of gold bullion for export. The minting of Imperial gold coins was discontinued in September, 1931. In 1916 the Melbourne branch took over the minting of Australian silver and bronze coins from the Royal Mint, London. Australian coins were also minted at the Sydney Mint from 1919 to 1926 and at the Perth Mint in 1922 and from 1940 to the present time. The Melbourne branch has also minted token coins for the Territory of New Guinea and for New Zealand.

A new mint, the Royal Australian Mint, has been built in Canberra. It will be engaged in the production of coins of the new decimal currency (*see pp. 809-11*).

(ii) *Gold Receipts and Issues.* (a) *Receipts.* The receipts of gold at Australian mints during 1963 and 1964 amounted to 909,993 and 809,468 fine ounces respectively (Melbourne, 110,960 and 69,197 fine ounces respectively, Perth, 799,033 and 740,271 fine ounces respectively).

(b) *Issues.* The Australian mints issue gold bullion for the use of local manufacturers (jewellers, dentists, etc.) and for export. Since September, 1931, when the United Kingdom departed from the gold standard, the minting and issue of gold coins by Australian mints has ceased. Australian exports of gold are mainly in the form of 400-oz. ingots, but in earlier years a considerable amount of gold was shipped to India in 10-oz. bars. Since early in the 1939-45 War, all gold has been acquired by the Reserve Bank, and the export and use of gold have been subject to regulation by the Commonwealth Government. From December, 1951, export of a proportion of newly-mined gold for sale on premium markets overseas was permitted. The issues from Australian mints during 1963 and 1964 amounted to 910,377 and 813,075 fine ounces respectively (Melbourne, 111,035 and 72,606 fine ounces respectively, Perth, 799,342 and 740,469 fine ounces respectively).

5. *Price of Gold.*—The following table shows the average prices of gold, the average values of the sovereign's gold content in London, and the sovereign's Reserve Bank buying price in Australia for the years 1959-60 to 1963-64. The average price of gold in Australia is based on the Reserve Bank's buying price for gold lodged with the mints.

PRICE OF GOLD: LONDON AND AUSTRALIA

Period	London		Australia		
	Average price per fine oz.	Average value of sovereign's gold content	Average price per fine oz.	Sovereign	
				Reserve Bank buying price	Equivalent to a premium on mint par value of—
	£Stg. s. d.	£Stg. s. d.	£A. s. d.	£A. s. d.	%
1959-60.. ..	12 10 3	2 18 11	15 12 6	3 12 6	267.8
1960-61.. ..	12 11 9	2 19 3	15 12 6	3 12 6	267.8
1961-62.. ..	12 10 1	2 18 10	15 12 6	3 12 6	267.8
1962-63.. ..	12 10 6	2 19 0	15 12 6	3 12 6	267.8
1963-64.. ..	12 10 9	2 19 1	15 12 6	3 12 6	267.8

In December, 1951, arrangements were made whereby producers could sell a proportion of newly-mined gold for industrial purposes on overseas premium markets. Under these arrangements, gold is acquired by the Reserve Bank in the usual manner and sold, at the Bank's buying price, to an association representing gold producers participating in the scheme. The association pays the Bank's handling charges and the costs of preparation of the gold and makes arrangements for export and sale. The gold can be sold only against payment in United States dollars. Profits earned by the association after meeting administrative expenses are distributed to members in proportion to the quantity of gold delivered to the Reserve Bank. Until August, 1952, when permission was given for the export of fine gold, gold exported under this arrangement was not to exceed a fineness of 22 carats ($\frac{17}{12}$ ths).

The average prices per fine ounce in Australian currency obtained for gold exported under this scheme for each month during 1963-64 for which there were sales were:—July and August, £15 13s. 0½d.; September and November, £15 13s. 1½d.; October, £15 13s. 2d.; December, £15 13s. 4½d.; January and March, £15 13s. 3½d.; February, £15 13s. 2½d.; May, £15 13s. 3½d.; and June, £15 13s. 3d.

§ 5. Pre-decimal Notes System

1. **General.**—Brief historical notes relating to the circulation and issue of notes in Australia are given in Year Book No. 37, pages 561 and 562. The issue of notes intended for circulation as money other than by the Reserve Bank of Australia is prohibited.

2. **The Australian Note Issue.**—(i) *General.* Notes in circulation in Australia are issued by the Reserve Bank through the Note Issue Department. The Bank is authorized to issue Australian notes in denominations of 5s., 10s., £1, £5, £10 and any multiple of £10. The Reserve Bank is not required to hold a specific reserve in gold against the note issue, but the assets of the Note Issue Department must be held or invested in gold, on deposit with any bank, or in securities of the Government of the United Kingdom, the Commonwealth, or a State. Under the *Reserve Bank Act 1959*, the profits of the Note Issue Department are paid to the Commonwealth.

Australian notes are legal tender to any amount within Australia and have been issued in denominations of 10s., £1, £5, £10, £20, £50, £100 and £1,000. Notes of denominations higher than £10, however, have not been issued to the public since 1945.

(ii) *Australian Notes in Circulation.* Particulars of the average values of notes in circulation for the years 1959–60 to 1963–64 are given in the following table.

AUSTRALIAN NOTE ISSUE (£'000)

Denomination	Average of monthly statements(a) for year—				
	1959–60	1960–61	1961–62	1962–63	1963–64
10s.	11,919	12,236	12,526	13,088	13,608
£1	69,638	69,983	69,298	70,259	70,911
£5	186,144	192,789	192,392	197,196	198,240

Total	416,499	430,237	431,408	441,597	442,363

(a) Last Wednesday in month.

(iii) *Reserve Bank—Note Issue Department.* The following statement shows particulars of liabilities and assets of the Note Issue Department of the Reserve Bank as at 30th June, 1963 and 1964.

RESERVE BANK OF AUSTRALIA: NOTE ISSUE DEPARTMENT— LIABILITIES AND ASSETS, 30th JUNE (£'000)

Liabilities	1963	1964	Assets	1963	1964
Notes on issue(a) ..	430,155	428,042	Gold and balances held abroad (including money at short call)	250,024	273,110
Special reserve— Premium on gold sold ..	4,755	4,755	Other overseas securities ..	15,946	38,545
Other liabilities(a) ..	10,456	10,569	Government securities (including Commonwealth Treasury bills)	179,353	131,661
			Other assets ..	43	50
Total	445,366	443,366	Total	445,366	443,366

(a) Notes of a denomination not exceeding one pound which have been on issue for more than 20 years, and notes of a denomination exceeding one pound which have been on issue for more than 40 years are not included in the item Notes on issue but are included in the item Other liabilities.

In 1963–64 the net profits of the Note Issue Department amounted to £13,491,000 and were paid to the Commonwealth of Australia.

BANKING

§ 1. General

1. **Royal Commission on Monetary and Banking Systems.**—A Royal Commission was appointed by the Commonwealth Government in November, 1935, to inquire into the monetary and banking systems in operation in Australia and to report whether any, and if so what, alterations were desirable in the interests of the people of Australia as a whole, and the manner in which any such alterations should be effected. The Commission presented its report on 15th July, 1937, and a summary of the recommendations appears in Year Book No. 31, page 1010.

2. **Banking Legislation.**—(i) *Commonwealth Legislation.* Under Section 51 of the Commonwealth Constitution, the Commonwealth Parliament has power to legislate with respect to "Banking, other than State banking; also State banking extending beyond the limits of the State concerned, the incorporation of banks, and the issue of paper money." The principal Commonwealth Acts at present in force relating to banking are as follows.

(a) The *Reserve Bank Act* 1959, which provides for the constitution and management of the Reserve Bank of Australia and the management of the Australian note issue.

(b) The *Banking Act* 1959, which provides for the regulation of banking and for the protection of the currency and the public credit of the Commonwealth. This Act which replaced the *Banking Act* 1945–1953, was assented to on 23rd April, 1959, and came into operation on 14th January, 1960. It applies to all banks, including savings banks, operating in Australia or the Territories of the Commonwealth except State banks trading in their own State. The objects of the Act are:—(a) to provide a legal framework uniform throughout Australia for regulating the banking system; (b) to safeguard depositors of the banks from loss; (c) to provide for the co-ordination of banking policy under the direction of the Reserve Bank; (d) to control the volume of credit in circulation and bank interest rates; (e) to mobilize and to provide machinery for the control of the foreign exchange and gold resources of the Australian economy. A summary of the main provisions of the Act is given in Official Year Book No. 46, pages 759–60.

(c) The *Commonwealth Banks Act* 1959–1961, which provides for the constitution and management of the Commonwealth Banking Corporation, Commonwealth Trading Bank of Australia, Commonwealth Savings Bank of Australia and Commonwealth Development Bank of Australia.

The Commonwealth Banking Corporation came into being on the 14th January, 1960. It is the controlling body for the Commonwealth Trading Bank, Commonwealth Savings Bank and Commonwealth Development Bank. Under the *Banking Act* 1959, the Corporation and its constituent banks are subject to the same central banking controls as are the private trading banks.

The Board of the Corporation consists of the Managing Director of the Corporation, the Deputy Managing Director, the Secretary to the Treasury and eight other members appointed by the Governor-General of whom one is Chairman and another Deputy Chairman. In addition, there is an Executive Committee of the Board for each of the three separate banks. These Executive Committees are appointed by the Treasurer, after consultation with the Board, and are charged with taking such action as is necessary to ensure that effect is given by the respective banks to the policies laid down for them and to any directions given by the Board in relation to their affairs. Under the Board, the Corporation is managed by the Managing Director and the Deputy Managing Director. Each of the three constituent banks of the Corporation has its own statutory functions and responsibilities and its separate identity within the framework of the Corporation. Each bank is managed by a General Manager under the Managing Director of the Corporation.

In §3, pages 823–4, details are given of the assets and liabilities of the Commonwealth Development Bank. Details for the Commonwealth Savings Bank are shown in §5, pages 846–51. Details for the Commonwealth Trading Bank are included in statistics of all cheque-paying banks—Major Trading Banks, §4 of this division, pages 824–45.

(ii) *State Legislation.* State banking legislation relates to the incorporation of banks and the constitution and management of State banks. The Acts under which the various banks are incorporated differ. While some of the older banks were incorporated by special Act or Charter, e.g. the Bank of New South Wales by Act of Council 1817, the Bank of Adelaide by Act of the South Australian Parliament, and the Bank of New Zealand

by Act of the General Assembly of New Zealand, most of the banks are incorporated under a Companies Act of the States or the United Kingdom. This is also the case with those banks which were reconstructed after the crisis of 1893. State banks, constituted under State Acts, transacting general banking business, are The Rural Bank of New South Wales, the State Bank of South Australia and The Rural and Industries Bank of Western Australia. State Savings Banks, constituted under State Acts, transacting savings bank business, are The State Savings Bank of Victoria and The Savings Bank of South Australia (*see* §5, pp. 845-55).

3. **Presentation of Banking Statistics.**—Because of the different purposes they serve in the Australian financial system, Australian banks have been divided for statistical purposes into the following four groups and a separate series is presented for each.

- (i) *The Reserve Bank of Australia.* Formerly the Commonwealth Bank, this bank is the Central Bank. It also provides special banking facilities through the Rural Credits Department. Statistics of the Central Banking Business, the Note Issue Department, and the Rural Credits Department are shown separately (*see* §2, pp. 819-23).
- (ii) *The Commonwealth Development Bank of Australia.* This bank, which commenced operations on 14th January, 1960, under the control of the Commonwealth Banking Corporation, was formed basically from an amalgamation of the Mortgage Bank and Industrial Finance Departments of the Commonwealth Bank. Its prime purpose is to assist in the development of worthwhile enterprises in the field of both primary and secondary industries which would otherwise be unable to obtain the necessary finance on reasonable and suitable terms and conditions. (*See* §3, pp. 823-4.)
- (iii) *Cheque-paying Banks.* (a) *Major Trading Banks.* These comprise the Commonwealth Trading Bank, Australia and New Zealand Bank Ltd., the Bank of Adelaide, Bank of New South Wales, the Commercial Bank of Australia Ltd., The Commercial Banking Company of Sydney Ltd., The English, Scottish and Australian Bank Ltd., The National Bank of Australasia Ltd. (*See* §4., paras. 1 and 2, pp. 824-9.)

(b) *All Cheque-paying Banks.* These comprise the major trading banks and the following banks—The Bank of China, Bank of New Zealand, The Brisbane Permanent Building and Banking Co. Ltd., Comptoir National d'Escompte de Paris, The General Bank Department of the Rural Bank of New South Wales, the General Banking Department of the State Bank of South Australia and the Rural Department of the Rural and Industries Bank of Western Australia. (*See* §4., para. 3, pp. 830-1.)

“Australian cheque-paying banks” (*see* §4, para. 2, pp. 825-9) comprises the banks in groups (a) above and those in group (b) *except* The Bank of China, Bank of New Zealand and Comptoir National d'Escompte de Paris.

- (iv) *Savings Banks.* Savings banks operating at 30th June, 1964, were—the Commonwealth Savings Bank, the Australian and New Zealand Savings Bank Ltd., the Bank of New South Wales Savings Bank Ltd. and the National Bank Savings Bank Ltd., (in all States and Territories within and without Australia), The Bank of Adelaide Savings Bank Ltd. (all States except Tasmania), The Commercial Savings Bank of Australia Ltd. and the E.S. and A. Savings Bank Ltd. (in all States and Territories within Australia), the C.B.C. Savings Bank Ltd. (in all States and in the Australian Capital Territory), The State Savings Bank of Victoria, The Savings Bank of South Australia, the Savings Bank Division of The Rural and Industries Bank of Western Australia, and the two trustee banks, The Hobart Savings Bank and Launceston Bank for Savings. (*See* §5, pp. 845-55.)

§ 2. The Reserve Bank of Australia

1. **General.**—The Reserve Bank of Australia, established under the *Reserve Bank Act* 1959, which came into operation on 14th January, 1960, continued in existence the body corporate known as the Commonwealth Bank of Australia. An account of the progress and development of that bank is given in earlier issues of the Year Book (*see* No. 37, pp. 570-2, and No. 45, pp. 735-7).

The general functions of the Reserve Bank are set out in Section 10 of the *Reserve Bank Act 1959*, which states:—

“ It is the duty of the Board, within the limits of its powers, to ensure that the monetary and banking policy of the Bank is directed to the greatest advantage of the people of Australia and that the powers of the Bank under this Act, the *Banking Act 1959*, and regulations under that Act are exercised in such a manner as, in the opinion of the Board, will best contribute to,

- (a) the stability of the currency of Australia;
- (b) the maintenance of full employment in Australia; and
- (c) the economic prosperity and welfare of the people of Australia.”

In addition to its functions as a Central Bank, the bank controls the Australian note issue through a Note Issue Department, provides special banking facilities through the Rural Credits Department, and acts as banker to the Commonwealth and some of the States.

Prior to its reconstitution as the Reserve Bank, the Commonwealth Bank also provided general banking facilities through a General Banking Division up to 3rd December, 1953, when that business was taken over by the Commonwealth Trading Bank, and special banking facilities through the Mortgage Bank and Industrial Finance Departments. In addition, the Board of the Commonwealth Bank was responsible for the policy and administration of the Commonwealth Trading Bank and Commonwealth Savings Bank. On 14th January, 1960, on its reconstitution as the Reserve Bank, the Mortgage Bank and Industrial Finance Departments were amalgamated to form the Commonwealth Development Bank, and that institution, together with the Commonwealth Trading Bank and the Commonwealth Savings Bank, was placed under the control of the Commonwealth Banking Corporation, an organization established under the *Commonwealth Banks Act 1959* and entirely separate from the Reserve Bank.

2. Management.—The Commonwealth Bank was managed between 1911 and 1924 by a Governor, from 1924 to August, 1945, by a Board of Directors, from August, 1945, to August, 1951, by a Governor, assisted by an Advisory Council, and since August, 1951, by a Board of Directors.

Under the provisions of the *Reserve Bank Act 1959* the policy of the Reserve Bank is determined by a Board consisting of the Governor (Chairman), the Deputy Governor, the Secretary to the Treasury, and seven other members appointed by the Governor-General. The Bank is managed by the Governor, who acts in accordance with the policy of the Board and with any directions of the Board. The Bank is required to inform the Government of the monetary and banking policy of the Board. In the event of a disagreement between the Government and the Board as to whether the monetary and banking policy of the Bank is directed to the greatest advantage of the people of Australia, the Governor-General, acting with the advice of the Executive Council, may determine the policy to be adopted by the Bank.

3. Central Banking Business.—Under the powers it possessed under the *Commonwealth Bank Act 1911–1943* and under its war-time powers under the National Security Regulations, the Commonwealth Bank gradually assumed the functions of a Central Bank. Part III. of the *Commonwealth Bank Act 1945* formally constituted the Bank as a Central Bank and granted the necessary powers to carry on the business of a Central Bank, and these powers were carried through into the present Act constituting the Reserve Bank. Under the provisions of the *Reserve Bank Act 1959*, the capital for the Central Banking Business is the capital of the Commonwealth Bank for Central Banking purposes immediately prior to 14th January, 1960, and such other sums as are transferred from the Reserve Bank Reserve Fund. The profits of the Bank are distributed as follows: (a) such sums as the Treasurer, after consultation with the Bank, determines shall be placed to the credit of the Reserve Bank Reserve Fund and (b) the remainder shall be paid to the Commonwealth.

4. Note Issue Department.—The Note Issue Department, established in 1920 when the control of the Australian note issue was transferred from the Commonwealth Treasury to the Commonwealth Bank, was maintained in the same form under the *Reserve Bank Act 1959*. The Reserve Bank may, through this Department, issue, re-issue and cancel Australian notes. Under the *Reserve Bank Act 1959* the profits of the Note Issue Department are paid to the Commonwealth.

5. **Rural Credits Department.** The Rural Credits Department, established in 1925 for the purpose of making short-term credit available for the orderly marketing of primary produce, was continued in the same form under the *Reserve Bank Act 1959*. The Reserve Bank may, through this Department, make advances upon the security of primary produce placed under the legal control of the bank, or other security associated with the production or marketing of primary produce, to co-operative associations or marketing boards formed under the laws of the Commonwealth or a State or Territory of the Commonwealth or other bodies specified by proclamation. The period of the advance shall not exceed one year. Under the provisions of the *Reserve Bank Act 1959*, the capital of the Rural Credits Department is the capital of the Rural Credits Department of the Commonwealth Bank immediately prior to 14th January, 1960, and £2,000,000 provided by the Reserve Bank. The profits of the Rural Credits Department are dealt with as follows: (a) one half shall be placed to the credit of the Rural Credits Department Reserve Fund and (b) one half shall be placed to the credit of the Rural Credits Development Fund.

6. **Liabilities and Assets—All Departments.** Liabilities and assets of each Department of the Reserve Bank at 30th June, 1960 to 1964, are shown in the following table.

RESERVE BANK OF AUSTRALIA: LIABILITIES

(£'000)

30th June—	Capital and reserve funds	Develop- ment fund	Special reserve— premium on gold sold	Australian notes on issue	Deposits of trading banks		Other depo- sits, bills payable and other liabilities	Total
					Statutory reserve deposit accounts	Other

1963-64	18,967	15,983	2,491	247	246

(a) Prior to 14th January, 1960, Commonwealth Bank of Australia.

§ 3. The Commonwealth Development Bank of Australia

1. *General.*—The Commonwealth Development Bank of Australia was established by the *Commonwealth Banks Act* 1959 and commenced operations on 14th January, 1960. It was formed basically from an amalgamation of the Mortgage Bank and Industrial Finance Departments of the Commonwealth Bank. Under the Act the Bank is authorized to provide assistance for the development of worthwhile enterprises in the fields of primary and secondary industries which would otherwise be unable to obtain the necessary finance on reasonable and suitable terms and conditions. The Commonwealth Development Bank is managed by a *General Manager under the Managing Director of the Commonwealth Banking Corporation*, and its policy is determined by the Board of that Corporation. The capital of the Development Bank consists of the capital of the Mortgage Bank and Industrial Finance Departments of the Commonwealth Bank immediately prior to 14th January, 1960, £5,000,000 provided by the Reserve Bank, £10,000,000 provided by the Commonwealth Government in the 1961-62 Budget and £5,000,000 in the 1963-64 Budget, and such other sums as are provided from the Commonwealth Development Bank Reserve Fund. The net profits of the Bank are paid to the Commonwealth Development Bank Reserve Fund.

2. *Liabilities and Assets.*—The liabilities and assets of the Commonwealth Development Bank at 30th June, 1960 to 1964, are shown in the following tables.

COMMONWEALTH DEVELOPMENT BANK OF AUSTRALIA(a): LIABILITIES
(£'000)

30th June—	Capital	Reserve fund	Balances due to other banks	Deposits, bills payable and all other liabilities	Total liabilities
1960	15,857	5,262	15,758	7,716	44,593
1961	15,857	5,873	15,120	8,349	45,199
1962	25,857	6,557	14,561	9,232	56,207
1963	25,857	7,448	14,085	10,091	57,481
1964	30,857	8,416	13,598	11,453	64,324

(a) Prior to 14th January, 1960, Industrial Finance and Mortgage Bank Departments of Commonwealth Bank.

**COMMONWEALTH DEVELOPMENT BANK OF AUSTRALIA(a): ASSETS
(£'000)**

30th June—	Coin, bullion, notes and cash at bankers	Australian public securities (including Treasury bills)	Other securities	Loans to authorized dealers in the short-term money market	Cheques and bills of other banks	Loans, advances and bills discounted	All other assets	Total assets

1961 ..	491	4,339	411	200	208	39,438	112	45,199
1962 ..	370	6,406	325	500	299	48,141	166	56,207
1963 ..	401	2,643	217	200	415	53,451	154	57,481
1964 ..	321	1,502	187	..	438	61,691	185	64,324

(a) Prior to 14th January, 1960, Industrial Finance and Mortgage Bank Departments of Commonwealth Bank.

3. **Profit and Loss.**—The profit and loss of the Commonwealth Development Bank for the years ended 30th June, 1960 to 1964, is shown in the following table. The net profit was appropriated to the Commonwealth Development Bank Reserve Fund.

**COMMONWEALTH DEVELOPMENT BANK OF AUSTRALIA(a):
PROFIT AND LOSS
(£'000)**

Year—	Discount and interest earned, net exchange commissions and other items (including transfers from contingencies accounts(b))	Expenses(c)	Taxes and payments in lieu of taxes	Net profit(d)	Total
1959-60	2,066	1,473	11	582	2,066
1960-61	2,277	1,651	15	611	2,277
1961-62	2,616	1,913	19	684	2,616
1962-63	2,808	1,897	20	891	2,808
1963-64	3,063	2,072	23	968	3,063

(a) Prior to 14th January, 1960, Industrial Finance and Mortgage Bank Departments of Commonwealth Bank. (b) After deducting interest paid and accrued on deposits, rebate on bills current at balance date, amounts written off assets and losses on realization of assets and transfers to the credit of contingencies accounts (out of which accounts provision for all bad and doubtful debts has been made). (c) Includes proportion of expenses of Commonwealth Banking Corporation attributable to the Development Bank. (d) Appropriated to Commonwealth Development Bank Reserve Fund.

§ 4. Cheque-Paying Banks

1. **Banks Transacting Business in Australia.**—*Number of Branches.* At 30th June, 1964, the 15 banks operating in Australia transacted all classes of banking business at 4,255 branches and 1,735 agencies. The major trading banks have branches throughout Australia. The Rural Bank of New South Wales, the State Bank of South Australia, and The Rural and Industries Bank of Western Australia, being State Government banks, have branches only in their respective States. The Brisbane Permanent Building and Banking Co. Ltd. transacts business only in Brisbane. The remaining three banks are branches of overseas banks.

CHEQUE-PAYING BANKS: NUMBER OF BRANCHES(a), 30th JUNE, 1964

Banks	New South Wales	Victoria	Q'land	South Aust.	West. Aust.	Tasmania	Nor. Terr.	Aust. Cap. Terr.	Australia
Major Trading Banks ..	1,451	1,120	638	368	316	98	11	21	4,023
Other cheque-paying banks	147	2	1	35	47	232
All Cheque-paying Banks—									
Metropolitan areas ..	705	606	181	180	160	26	1,858
Elsewhere ..	893	516	458	223	203	72	11	21	2,397
Total	1,598	1,122	639	403	363	98	11	21	4,255

(a) Includes head offices. Excludes 1,735 agencies.

2. Australian Cheque-paying Banks.—(i) *Balance Sheets, 1963 and 1964.* Liabilities and assets of individual Australian cheque-paying banks at balance dates in 1964 (and corresponding totals for these banks in 1963) are shown in the following tables. The information for the Major Trading Banks and the Brisbane Permanent Building and Banking Co. Ltd. has been obtained from the annual returns lodged with the Commonwealth Statistician under Section 52 of the *Banking Act 1959*, whereas that for the other banks has been compiled from information published in their annual reports.

(a) Discount and interest earned, net exchange, commissions and other items (including transfers from contingencies accounts) after deducting interest paid and accrued on deposits, rebate on bills current at balance date, amounts written off assets and losses on realization of assets, and transfers to the credit of contingencies accounts (out of which accounts provision for all bad and doubtful debts has been made). (b) Includes directors' fees. (c) Excludes accumulated profits and profit and loss accounts. (d) Dividends paid or payable out of profits earned during the year. (e) Commonwealth of Australia. (f) Calculated at the net rate of United Kingdom Income Tax payable by the bank (after taking double taxation relief into account) on the gross amount of dividends, viz.: Australia and New Zealand Bank Ltd., 4s. 2d. in the £ on £2,108,000; The English, Scottish and Australian Bank Ltd., 4s. 8d. in the £ on £879,000; United Kingdom Income Tax Relief to shareholders is limited to this rate. In addition to the taxes stated above the banks deducted the following further sums of United Kingdom Income Tax in accordance with the provisions of the Finance (No. 2) Act 1945, which authorizes deductions of tax from dividends at the full standard rate of United Kingdom Income Tax (7s. 9d. in the £); Australia and New Zealand Bank Ltd., £378,000; and the English, Scottish and Australian Bank Ltd., £135,000. (g) Gross dividend before deductions of United Kingdom Income Tax at standard rate of 7s. 9d. in the £. The gross return to shareholders based on the sum of United Kingdom Income Taxes payable by the bank and recouped from shareholders and the net dividend was:—Australia and New Zealand Bank Ltd. 9.85 per cent.; The English, Scottish and Australian Bank Ltd., 8.4583 per cent. The net return to shareholders based on the net dividend was:—Australia and New Zealand Bank Ltd., 7.35 per cent., and the English, Scottish and Australian Bank Ltd., 6.1250 per cent. (h) 4 per cent. on Preference shares and 10 per cent. on Ordinary shares. (i) Earnings represent gross earnings; expenses include interest paid, management expenses and provisions for contingencies. (j) Comprises the General Bank Department, Rural Bank Division, Advances for Homes Division and Personal Loans Division. (k) Not available. (l) Includes General Banking Department, *Crédit Foncier* and Advances to Primary Producers Departments. (m) Includes profit and loss on account of Savings Bank business.

3. All Cheque-Paying Banks.—(i) *Average Liabilities and Assets within Australia, June, 1964.* Particulars of the average liabilities and assets within Australia for all cheque-paying banks in Australia for the month of June, 1964 are shown in the following tables. The details in these tables relate only to liabilities and assets within Australia and include the overseas banks, the Bank of China, Bank of New Zealand and Comptoir National d'Escompte de Paris. The tables in paragraph 2, Australian Cheque-Paying Banks, pages 825–7, relate to liabilities and assets both inside and outside Australia, and exclude the overseas banks.

(a) Includes Papua and New Guinea.

4. *Classification of Bank Advances within Australia—Major Trading Banks.—(i) States, July, 1964.* A classification of bank advances of the Major Trading Banks outstanding at 8th July, 1964, is shown in the following table.

Resident borrowers cover institutions (including branches of oversea institutions) engaged in business in Australia and persons permanently residing in Australia. Non-resident borrowers cover all other persons and institutions incorporated abroad, which, though represented, do not carry on business in Australia. Advances to resident borrowers have been classified as business advances, advances to public authorities, personal advances and advances to non-profit organizations. Business advances have been further classified to the main industry of the borrower and include advances to partnerships, companies and other institutions engaged in business in Australia, advances to persons actively engaged in business on their own behalf if the advance is mainly for business purposes, advances to mutual, co-operative and benefit societies which distribute their profits or surpluses (if any) to members by way of dividends, rebates on charges for goods and services, or increased benefits. Advances to public authorities cover advances to local and semi-governmental authorities including separately constituted government business undertakings but not the Commonwealth or State Governments. Personal advances cover advances to persons for purposes other than carrying on a business. Advances to non-profit organizations cover advances to organizations which are not carried on for the purpose of making a profit or gain to individual members, any income of the organization being used for the purposes of the organization or for the benefit of the community.

Any discrepancies between totals and sums of components in the tables on pages 835 to 837 are due to rounding.

(a) Excludes deposits of Commonwealth and State Governments. (b) Includes Papua and New Guinea. (c) The combined deposits of these two groups are distributed over the industries above.

6. **New and Increased Lending Commitments and Overdraft Limits—Major Trading Banks.**—Particulars of new and increased lending commitments and overdraft limits of the Major Trading Banks are shown hereunder.

The figures represent gross new lending commitments of banks and do not take account of cancellations and reductions of existing limits. Figures for cancellations and reductions of existing limits can be obtained from this series (after deducting term loan component and adjusting the weekly averages to a monthly basis) in conjunction with that of overdraft limits shown in the following table. However, these derived figures should be regarded as an approximation only, since there are unavoidable differences in the basis of compilation of the two series.

5½ per cent.	6.8	6.3	7.9	8.0
More than 5½ per cent. but less than 6 per cent. ..	9.9	9.1	10.6	6.4
6 per cent.	19.6	17.9	22.3	12.3
More than 6 per cent. but less than 6½ per cent. ..	5.2	4.7	7.6	6.9
6½ per cent.	17.4	18.0	29.0	21.4
More than 6½ per cent. but less than 7 per cent. ..	3.7	3.4	..	4.9
7 per cent.	18.0	20.0	..	26.7
Total	100.0	100.0	100.0	100.0

(a) Excludes term loans.

NOTE.—On 17th November, 1960, the maximum rate chargeable on advances was increased to 7 per cent., but the average rate of interest on all advances was not to exceed 6 per cent. The maximum average rate requirement was discontinued on 13th April, 1962. The maximum rate chargeable on advances was reduced from 7 per cent. per annum to 6½ per cent. per annum on 1st April, 1963, and was raised to 7 per cent. per annum on 27th April, 1964.

(ii) *Classification of Fixed Deposits by Rate of Interest.* The following table shows the proportions of total fixed deposits at each rate of interest at the end of June, 1961, to June, 1964.

MAJOR TRADING BANKS: FIXED DEPOSITS(a), BY RATE OF INTEREST

Source: Reserve Bank of Australia

(Proportion at each Rate to Total—Per cent.)

Interest rate per annum	At end of—			
	June, 1961	June, 1962	June, 1963	June, 1964
2½	2.2
3	0.2
3½	17.6	5.6
3¾	34.2	7.2	20.5	51.1

4⅞	42.0	1.3
Total	100.0	100.0	100.0	100.0

(a) Excludes Commonwealth and State Government fixed deposits.

9. Interest on Deposits: Rates—Cheque-paying Banks.—Particulars of interest rates since 1956 for cheque-paying bank fixed deposits are shown in the following table.

CHEQUE-PAYING BANK FIXED DEPOSIT RATES: AUSTRALIA

(Per cent. per annum)

Date from which operative	Deposits for—			
	Three months	Six months	Twelve months	Twenty-four months
15th March, 1956	2½	2½	2½	3
4th December, 1956	2½	2½	2½	3½
17th November, 1960	4(a)		4½	(b)
1st July, 1961	4(a)		4½	(b)
13th April, 1962	3¾(a)		4	(b)
1st April, 1963	3½(a)		3½(c)	(c)
8th April, 1964	3¾(d)		4	(c)
29th September, 1964	3¾(d)		4(e)	4½(f)
3rd March, 1965	4½(d)		4½(e)	4½(f)

(a) Three months but less than twelve months. (b) The maximum period for fixed deposits was 12 months. (c) From 10th September, 1962, banks were permitted to accept fixed deposits for periods up to 15 months at 3½ per cent. (d) From 8th April, 1964, banks were permitted to accept fixed deposits in excess of £50,000 only, for periods of 30 days but less than 3 months at rates not exceeding 3½ per cent.; from 3rd March, 1965, 4½ per cent. (e) As from 29th September, 1964, banks were permitted to accept fixed deposits for periods from 12 to 18 months. (f) Over 18 months to 24 months.

10. Debits to Customers' Accounts—Cheque-paying Banks.—Statistics of debits to customers' accounts have been collected since September, 1945. Generally, they represent the total of all cheques drawn by the customers of the banks. In the following table, the average weekly debits to customers' accounts of all cheque-paying banks (including the Rural Credits Department of the Reserve Bank and the Commonwealth Development Bank) are shown for each State for the years 1959–60 to 1963–64. In this table, debits to accounts of Australian Governments in capital cities are excluded, as they are subject to abnormal influences and are not uniform for each State.

CHEQUE-PAYING BANKS: AVERAGE WEEKLY DEBITS TO CUSTOMERS' ACCOUNTS

(Excluding debits to Commonwealth and State Government accounts in capital cities)
(£'000)

11. **Trading Bank Charges.**—As from October, 1962, the trading banks instituted a system of charges on current accounts, and abolished the interstate exchange rates obtaining prior to this date. Details of interstate exchange rates prior to October, 1962, may be found in Year Book No. 48, page 785.

Charges on current account comprise a basic maintenance fee, a ledger activity fee and a cheque collection fee, each calculated on a quarterly basis and debited as a composite item to accounts four times a year. Details of these charges are shown below.

Quarterly Charge.

- (a) *Basic maintenance current account fee, 5s. quarterly (non-rebatable).*
- (b) *Ledger activity fee.* Up to $\frac{1}{2}$ folio (20 entries), 2s. 6d.; over $\frac{1}{2}$ folio to 1 folio, 7s. 6d.; over 1 folio to 2 folios, £1; over 2 folios to 3 folios, £2 5s.; over 3 folios to 4 folios, £3 10s.; over 4 folios to 5 folios, £4 15s.; over 5 folios to 6 folios, £6; over 6 folios to 7 folios, £7; over 7 folios to 15 folios, £7 plus 17s. 6d. per folio or part thereof exceeding 7; over 15 folios to 35 folios, £14 plus 15s. per folio or part thereof exceeding 15; over 35 folios, £29 plus 10s. per folio or part thereof exceeding 35. Rebates will be allowed for minimum quarterly credit balances as follows:—£300, 1 free folio; £600, 2 free folios; £1,000, 3 free folios; £1,600, 4 free folios; £2,500, 5 free folios; thereafter 1 additional free folio for each £500 minimum credit balance. Where rebates are applicable, the number of free folios will be deducted before the activity fee is calculated.
- (c) *Collection fee on cheques, etc., deposited.* Up to 20 cheques per quarter, free; 21 to 100, 5s. plus 2s. 6d. per ten cheques or part thereof exceeding 20; 101 to 500, £1 5s. plus 12s. 6d. per each 50 or part thereof exceeding 100; 501 to 1,000, £6 5s. plus £1 5s. for each 100 or part thereof exceeding 500; 1,001 to 10,000, £12 10s. plus £6 per each 500 or part thereof exceeding 1,000; 10,001 to 50,000, £120 plus £7 10s. per each 1,000 or part thereof exceeding 10,000; 50,001 to 100,000, £425 plus £25 per each 5,000 or part thereof exceeding 50,000; 100,001 to 150,000, £675 plus £40 per each 10,000 or part thereof exceeding 100,000; over 150,000, £875 plus £30 per each 20,000 or part thereof exceeding 150,000.

§ 5. Savings Banks

1. **Savings Banks in Australia.**—(i) *General.* For information on the origin of savings banks in Australia and the facilities currently available, see Year Book No. 46, page 779 and earlier issues.

All savings banks, including trustee savings banks, but not State savings banks, are subject to the *Banking Act 1959*. Details of this Act and the special provisions applying to savings banks are given in Year Book No. 46, pages 759-60.

(ii) *Commonwealth Savings Bank*. The Commonwealth Savings Bank of Australia was established as a separate institution on 9th June, 1928, having functioned previously as a department of the Commonwealth Bank (for particulars of the origin of the Savings Bank Department and the extension of its services see Year Book No. 46, page 782, and earlier issues). It has since then operated independently, publishing its own balance-sheets and profit and loss accounts. The *Commonwealth Bank Act 1927*, which provided for the establishment of the Commonwealth Savings Bank as a separate institution, provided for a Commission of three members to manage the savings bank. This Commission was never appointed, and the *Commonwealth Bank Act 1945* placed the control of the Commonwealth Savings Bank under the Governor of the Commonwealth Bank. Under the provisions of the *Commonwealth Banks Act 1959-61*, which came into operation on 14th January, 1960, the Commonwealth Savings Bank was maintained in the same form, but was placed under the control of the Commonwealth Banking Corporation (see also para. 2 (i) (c), p, 818).

(iii) *State Savings Banks*. State savings banks at present operating (with date of establishment shown in parentheses) are: The State Savings Bank of Victoria (1841); The Savings Bank of South Australia (1848); the Savings Bank Division of The Rural and Industries Bank of Western Australia (1956).

(iv) *Trustee Savings Banks*. Two trustee savings banks, The Hobart Savings Bank and Launceston Bank for Savings, operate within Tasmania. These banks commenced business in 1845 and 1835 respectively.

(v) *Private Savings Banks*. The Bank of New South Wales Savings Bank Ltd. and the Australia and New Zealand Savings Bank Ltd. commenced business on 19th January, 1956, the C.B.C. Savings Bank Ltd. on 16th July, 1956, the E.S. and A. Savings Bank Ltd. on 29th September, 1961, the Bank of Adelaide Savings Bank Ltd. and The National Bank Savings Bank Ltd. on 31st May, 1962, and The Commercial Savings Bank of Australia Ltd. on 2nd July, 1962.

2. Branches and Agencies.—The number of branches and agencies in Australia of the various savings banks at 30th June, 1964, are given in the following table.

SAVINGS BANKS: NUMBER OF BRANCHES AND AGENCIES AT 30th JUNE, 1964

Bank	Branches	Agencies
Commonwealth Savings Bank	870	7,889
Australia and New Zealand Savings Bank Ltd.	538	684
The Bank of Adelaide Savings Bank Ltd.	89	93
Bank of New South Wales Savings Bank Ltd.	809	3,015
The Commercial Savings Bank of Australia Ltd.	450	290
C.B.C. Savings Bank Ltd.	428	93
E.S. & A. Savings Bank Ltd.	381	122
The National Bank Savings Bank Ltd.	670	301
The State Savings Bank of Victoria	461	664
The Savings Bank of South Australia	121	739
The Rural and Industries Bank of Western Australia	47	250
Launceston Bank for Savings	22	50
The Hobart Savings Bank	20	20
Total	4,906	14,210

3. Balance-Sheets.—Liabilities and assets of individual savings banks at balance dates in 1964 and for all savings banks in 1963 are shown in the following tables. The information for the Commonwealth Savings Bank, the trustee savings banks and the private savings banks has been obtained from the annual returns lodged with the Commonwealth Statistician under section 53 of the *Banking Act 1959*, whereas that for State savings banks has been compiled from information published in their annual reports.

(a) Excludes accumulated profits and profit and loss accounts. (b) Dividends paid or payable out of profits earned during year. (c) Provisions for settlements under Savings Bank Amalgamation Agreements, £1,206,000 and Commonwealth of Australia, £1,239,000. Under the terms of the Savings Bank Amalgamation Agreements relating to the absorption of the State savings banks by the Commonwealth Bank, the profits of the Commonwealth Savings Bank in New South Wales and Queensland are equally divided between the Bank and the former controlling authorities in those States. (d) Excludes Savings Bank Division of the Rural and Industries Bank of Western Australia. (e) Includes Crédit Foncier Department. (f) Included in expenses. (g) Balancing dates as in 1964.

5. **Number of Operative Accounts.**—The following table shows the number of operative savings bank accounts in existence at the end of June, 1963 and 1964. It should be noted that these figures relate to the number of accounts and not necessarily to the number of depositors.

SAVINGS BANKS: NUMBER OF OPERATIVE ACCOUNTS(a)

State or Territory	End of June(b)—	
	1963	1964
New South Wales	3,562,105	3,817,406
Victoria	3,202,956	3,417,611
Queensland	1,344,538	1,447,600
South Australia	1,104,406	1,181,512
Western Australia	683,417	736,009
Tasmania	349,676	362,999
Northern Territory	21,989	25,338
Australian Capital Territory	53,980	62,887
Australia	10,323,067	11,051,362

(a) Excludes school bank accounts and inoperative accounts, i.e. accounts of less than £1 which have not been operated on for more than two years. (b) Private savings banks at last Wednesday in June, Launceston Bank for Savings at last Monday in June, other savings banks at end of June.

6. **Business Transacted.**—The following table shows details of the business transacted in Australia by savings banks during the years ended 30th June, 1963 and 1964.

SAVINGS BANKS: BUSINESS TRANSACTED IN AUSTRALIA

(£'000)

State or Territory	1962-63(a)				1963-64(a)			
	Deposits during year	Withdrawals during year (b)	Interest added to accounts during year (b)	De-positors' balances at end of June, 1963	Deposits during year	Withdrawals during year (b)	Interest added to accounts during year (b)	De-positors' balances at end of June, 1964
New South Wales	832,615	774,819	21,181	703,998	954,863	887,908	20,653	791,606

Australia	2,348,491	2,171,881	58,350	1,969,846	2,741,456	2,530,581	57,403	2,238,124

(a) See footnote (b) to table above.

(b) Includes inter-branch transfers.

7. **Depositors' Balances.**—The amount at credit of depositors' accounts and the average per head of population for each State and Territory at the end of June, 1960 to 1964, are shown in the following table. Deposit stock and non-interest bearing cheque accounts at the State Savings Bank of Victoria and the Savings Bank of South Australia and fixed deposit accounts at the Trustee Savings Banks in Tasmania are included in the depositors' balances shown below. Separate details are not available.

SAVINGS BANKS: DEPOSITORS' BALANCES IN AUSTRALIA

End of June— (a)	N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tas.	N. Terr.	A.C.T.	Australia
AMOUNT (£'000)									
1960..	541,572	499,592	182,586	165,998	78,623	46,355	2,582	5,396	1,522,704

PER HEAD OF POPULATION

(£)									
1960..	141.3	174.8	122.1	175.6	108.9	134.8	101.0	103.1	148.2
1961..	145.3	176.6	123.2	172.0	109.6	135.3	100.6	104.2	150.1
1962..	157.2	190.8	133.4	182.9	120.0	143.5	111.0	111.6	162.1
1963..	173.9	212.4	150.2	206.2	135.2	156.2	118.8	125.7	180.5
1964..	192.3	236.2	170.7	230.6	151.8	171.1	125.1	144.8	201.0

(a) See footnote (b) to table in para. 5, p. 852.

8. **Cheque Accounts.**—At most savings banks, cheque accounts are available to non-profit organizations such as friendly, co-operative and charitable societies. Similar facilities are also available to other depositors at the State Savings Bank of Victoria and the Savings Bank of South Australia. Details of the transactions on these accounts during the year ended June, 1964 (excluding the Savings Bank of South Australia), together with the number of operative accounts and the amount on deposit at the end of June, 1964, were as follows:—deposits during the year, £573.3 million; withdrawals during the year £568.0 million; interest added during the year, £1.0 million; amount on deposit at end of year, £61.1 million; number of operative accounts at the end of year, 270,132. These figures are included in the statistics in previous paragraphs.

9. **School Banking.**—With the object of encouraging principles of thrift among children, agencies of the savings banks have been established at most of the schools throughout Australia. Particulars of operative accounts within Australia at the end of June, 1960 to 1964, appear below.

SCHOOL SAVINGS BANKS: AUSTRALIA

End of June(a)—	Number of school agencies	Number of operative accounts	Deposits	Deposits per operative account
			£	£
1960..	8,154,973	7.3
1961..	8,658,753	7.4
1962..	9,224,645	7.6
1963..	9,665,287	7.7
1964..	10,186,878	7.9

(a) See footnote (b) to table in para. 5, p. 852.

10. Assets.—The assets within Australia of all savings banks at the end of June, 1963 and 1964 are shown in the following table. In the table in paragraph 3, pages 848-9, assets are shown at balance-sheet dates which are not in June for some banks. In addition, the table on pages 848-9 excludes statistics for the Savings Bank Division of the Rural and Industries Bank of Western Australia, which are included in the table below.

SAVINGS BANKS: ASSETS WITHIN AUSTRALIA(a)

(£'000)

Particulars	End of June (b)—	
	1963	1964
Coin, bullion and Australian notes	4,736	5,064
Deposits with Reserve Bank	183,116	215,102
Deposits in Australia with trading banks	59,517	61,534
Australian public securities—		
Commonwealth and States (including Treasury bills and Treasury notes)	913,596	997,173
Local government and semi-governmental authorities	417,761	477,779
Other securities	1,126	1,700
Loans to authorized dealers in the short-term money market	19,505	17,104
Cheques and bills of other banks and balances with and due from other banks	180	278
Loans, advances and bills discounted—		
Housing	396,970	498,906
Other	40,352	48,002
Bank premises, furniture and sites	26,055	28,607
Bills receivable and all other assets	6,894	7,708
Total	2,069,808	2,358,957

(a) Includes assets in Papua, New Guinea and Norfolk Island.
para. 5, p. 852.

(b) See footnote (b) to table

11. Classification of Depositors' Balances.—The classification of deposits published by savings banks does not permit a fully detailed analysis with respect to Australia as a whole, but the classification at 30th June, 1960 to 1964, of the combined deposits for The State Savings Bank of Victoria and The Savings Bank of South Australia is shown below.

STATE SAVINGS BANKS: CLASSIFICATION OF DEPOSITS

(Per cent.)

30th June—					£500 and under	£501-£1,000	Over £1,000
1960					36.43	24.24	39.33
1961					(a)	(b) 59.66	40.34
1962					(a)	(b) 57.31	42.69
1963					(a)	(b) 54.41	45.59
1964					(a)	(b) 51.89	48.11

(a) Not available separately.

(b) £1-£1,000.

12. Rates of Interest on Deposits.—The following table shows the rates of interest allowed by savings banks at 30th June, 1960 to 1964.

SAVINGS BANKS: INTEREST RATES ON DEPOSITS(a)
(Per cent. per annum)

Size of account	Interest rates at 30th June—				
	1960	1961	1962	1963	1964
Ordinary accounts(b)—					
£1 to £1,000	3	3½	3½	3	3½
£1,001 to £1,500	3	3½	3½	3	3½
£1,501 to £2,000	3	3½	3½	3	3½
£2,001 to £2,500	3½	3½	3	3½
£2,501 to £3,000	3½	3	3½
Friendly and other society accounts—					
£1 to £2,000	3	3½	3½	3	3½
£2,001 to £2,500	1½	3½	3½	3	3½
£2,501 to £3,000	1½	1½	3½	3	3½
£3,001 and over	1½	1½	2	1½	1½

(a) Rates allowed by the Commonwealth Savings Bank, private savings banks and The State Savings Bank of Victoria. Trustee savings banks and The Savings Bank of South Australia allow slightly higher rates of interest. (b) No interest is payable on amounts in excess of the maximum amount shown.

The rate for ordinary accounts was increased to 3½ per cent. from 1st April, 1965. This applies also to friendly and other society accounts up to the maximum of £3,000; over that the rate of 1½ per cent. is still applicable.

13. War Savings and Savings Certificates.—Sales of savings certificates and stamps under the War Savings and Savings Certificate schemes, particulars of which were given in earlier issues of the Year Book (see No. 37, page 586), were discontinued after 31st January, 1949, except for some sales made to wind up savings groups, etc. The total value of war savings and savings certificates outstanding at 30th June in each of the last five years was:—1960, £8,205,000; 1961, £5,989,000; 1962, £2,529,000; 1963, £1,796,000; 1964, £1,385,000.

§ 6. Rates of Exchange

In the following table, the par of exchange (based on par values agreed with the International Monetary Fund) and average telegraphic transfer selling rates of exchange for Sydney on a number of overseas countries are shown. Generally, the averages, which are averages of daily quotations, are based on rates quoted by the Commonwealth Trading Bank. Where these were not available, rates used by the Department of Customs and Excise in converting import values to £A. for purposes of calculating customs duty are shown.

OVERSEA EXCHANGE RATES: PAR OF EXCHANGE AND AVERAGE TELEGRAPHIC TRANSFER SELLING RATES FOR SYDNEY ON OVERSEA COUNTRIES

Country	Basis of quotation	Par of exchange (a)	Selling rate, 1963-64	Country	Basis of quotation	Par of exchange (a)	Selling rate, 1963-64

(a) As at 30th June, 1964, established under International Monetary Fund Agreement. (b) On 1st January, 1963, the Markka was revalued on basis of 1 new Markka = 100 old Markkas. (c) No par value established. (d) Not a member of International Monetary Fund.

INSURANCE

§ 1. Introductory

1. **Legislation.**—Section 51 of the Commonwealth Constitution confers the necessary powers on the Commonwealth Parliament to legislate with respect to “insurance other than State insurance; also State insurance extending beyond the limits of the State concerned”. Commonwealth legislation includes the *Marine Insurance Act 1909* defining the limits of marine insurance and regulating the terms of contracts, etc., the *Insurance Act 1932–1960* requiring the lodgment of deposits by insurance companies, and the *Life Insurance Act 1945–1961* generally regulating life insurance business in Australia. The *Marine Insurance Act 1909* and the *Insurance Act 1932–1960* have limited application, and, except for life insurance business, which is regulated by the *Life Insurance Act 1945–1961*, insurance business is conducted almost entirely under State laws.

2. **Insurance Act 1932–1960.**—Companies, persons or associations of persons carrying on insurance business in Australia or in any Territory of Australia are required to lodge a deposit with the Commonwealth Treasurer.

Money deposited is invested by the Treasurer in prescribed securities selected by the depositor, and all interest is paid to depositors. Deposits remain as security against liability to policy holders, and are available to satisfy judgments obtained in respect of policies.

Deposits held by States on 1st February, 1932, could, however, remain with the States subject to the conditions embodied in the laws of the States, and depositors to the extent of the value of these deposits were exempt from liability to make deposits under the Commonwealth Act.

The following are not regarded as insurance business under the Act:—

Staff superannuation schemes; schemes of religious organizations solely for insurance of their property; friendly society, union and association schemes involving superannuation or insurance benefits to employees.

This Act does not apply to State insurance within the limits of the State concerned, and, under the *Life Insurance Act 1945–1961*, ceased to apply to life insurance business.

3. **Life Insurance Act 1945–1961.**—The objects of this Act are:—(a) to replace all State legislation on the subject of life insurance, except that relating to the life insurance operations of State insurance offices within the State concerned, and to provide uniform legislation for the whole of Australia; (b) to appoint an Insurance Commissioner to exercise active supervision of the activities of life insurance companies, with a view to securing the greatest possible protection for policy holders; (c) to set up adequate machinery for dealing with any company that fails to maintain a required minimum standard of solvency.

The Act was assented to on 16th August, 1945, and came into operation on 20th June, 1946. A summary of the provisions of the Act is given in Year Book No. 37, pages 595–7.

The provisions of the Act relating to the establishment of a Commonwealth Government Insurance Office were repealed under the *Life Insurance Act 1953*.

4. **Deposits under Insurance Acts.**—Deposits lodged under the Insurance Acts at 30th June, 1964, totalled £15,272,095, comprising £1,925,950 held by the Commonwealth in respect of life insurance, and £13,336,115 held by the Commonwealth and £10,030 held by the State of New South Wales in respect of other forms of insurance. The deposits consisted of Commonwealth Government securities £9,391,290, United Kingdom Government securities £558,050, fixed deposits £129,870, bank guarantees and undertakings £3,848,000, corporation debentures and stock £397,660, titles and mortgages £897,225, and cash £50,000.

§ 2. Life Insurance

1. **General.**—Since 1947 returns lodged under the *Life Insurance Act 1945–1961* have been used to compile life insurance statistics. Except where otherwise indicated, the figures in the succeeding paragraphs refer only to Australian business. Business in the Territories of Papua and New Guinea is, however, included in the Australian figures.

The information shown has been compiled from returns of life insurance business submitted in the financial years which ended during the year stated.

2. **Offices Transacting Business.**—The number of offices which transacted life insurance business in Australia during 1963 was 43, including 12 overseas companies. Of the 31 Australian offices, 6 are purely mutual, including one which transacts general business in respect of which share capital is used, 23 are public companies, and 2 are State Government institutions. Of the total offices, 30 transacted ordinary business only and the remainder both ordinary and industrial business. Where possible, ordinary, industrial and superannuation business have been kept separate in the following tables.

3. **Australian Business—Policies in Existence.**—In the following table details of policies on the registers in each State and in the Australian Capital Territory are given for the year 1963.

LIFE INSURANCE: POLICIES EXISTING IN AUSTRALIA, 1963

State or Territory(a)	Insurance and endowment policies				Annuity policies		
	Number of policies	Sum insured (£'000)	Bonus additions (£'000)	Annual premiums (£'000)	Number of policies	Annuities per annum (£'000)	Annual premiums (£'000)

ORDINARY BUSINESS

New South Wales ..	1,231,922	1,292,030	128,063	36,920	989	182	2

(a) Prior to 1962, includes superannuation business.

(b) See footnote (a).

8. *Liabilities and Assets.*—(i) *General.* The liabilities of the Australian offices consist mainly of their insurance funds, but in the case of public companies there is a further liability on account of the shareholders' capital. The assets consist chiefly of government and municipal securities, mortgages, loans on policies, landed and house property, etc. Loans on personal security are granted by very few of the Australian offices. Separate details of liabilities in respect of Australian business are not available.

(ii) *Total Liabilities and Assets.* In the two tables which follow, the details of liabilities and assets relate to all business (Australian and overseas) of Australian companies, the life insurance business of the two State Government offices, all business of the Provident Life Assurance Co. Ltd. (incorporated in New Zealand), and the Australian business only of the other eleven overseas companies operating in Australia. For various reasons, several offices do not attempt the dissection of liabilities and assets according to type of business, and, therefore, the figures in the following tables relate to all types of business combined. Details of the total liabilities of life insurance offices for the year 1963 are given in the following table.

**ORDINARY, INDUSTRIAL AND SUPERANNUATION LIFE INSURANCE:

(a) State or Territory of location of mortgage, registration of policy, or residence of borrower.

(b) Includes Papua and New Guinea.

(c) Includes the Northern Territory.

§ 3. Fire, Marine and General Insurance

1. **General.**—The following statistics, which are in respect of the Australian business of companies operating in Australia and State Government insurance offices, conform to the following definitions and should be interpreted in accordance therewith.

(a) Premiums represent the full amount receivable in respect of policies issued and renewed in the year, less returns, rebates and bonuses paid or credited to policy-holders during the year. They are not adjusted to provide for premiums unearned at the end of the year and consequently the amounts differ from "earned premium income" appropriate to the year. When business is increasing, as in recent years, premiums receivable (as shown in the statistics) are greater than "earned premium income" appropriate to the year. The converse applies when business is declining.

(b) Claims or losses include provision for outstanding claims and represent claims or losses incurred in the year. Salvage and other amounts recoverable have been deducted.

(c) Contributions to fire brigades, commission and agents' charges, and expenses of management represent mainly charges paid during the year.

(d) Taxation represents mainly payments made during the year, and includes income tax, pay-roll tax, licence fees, stamp duty (where paid by the company), etc. Income tax paid during the year is based on the income of earlier years.

The figures relate to selected items of statistics and are not construable as "Profit and Loss" statements or "Revenue Accounts".

In cases where the business is underwritten in one State and the risk is situated in another, the business is included in the State in which the policy was issued.

During 1963-64 revenue from premiums amounted to £246 million, and that from net interest on investments, etc., to £14.9 million, a total of £260.9 million. Expenditure on claims amounted to £160.8 million, contributions to fire brigades £6.1 million, commission and agents' charges £22.3 million, expenses of management £40.8 million, and taxation £6.6 million, a total of £236.6 million.

2. **States.**—The following table shows, for each State, the aggregate premium income less returns, rebates and bonuses, and claims or losses less amounts recoverable, for all classes of insurance other than life for the years 1959-60 to 1963-64.

FIRE, MARINE AND GENERAL INSURANCE: PREMIUMS AND CLAIMS
(£'000)

State	1959-60	1960-61	1961-62	1962-63	1963-64

(a) Excludes workers' compensation insurance in coal-mining industry in New South Wales.

§ 4. The Export Payments Insurance Corporation

The Export Payments Insurance Corporation was established under the *Export Payments Insurance Corporation Act 1956* to provide exporters with insurance against risks associated with overseas trade which are not usually acceptable to commercial insurers. The Corporation commenced business in 1957. Where the Corporation is not in a position to accept business on its commercial account it may be authorized under its statute to provide insurance facilities on the Commonwealth Government's account in the national interest. See also Chapter XIV. Oversea Trade, page 498.

INSTALMENT CREDIT FOR RETAIL SALES

1. General.—Information relating to instalment credit for retail sales in Australia is given in the following tables. Information in more detail may be found in the annual bulletin *Insurance and Other Private Finance* and in the monthly and quarterly statements relating to instalment credit for retail sales issued by this Bureau (see NOTE at beginning of this chapter).

The statistics cover operations of all types of instalment credit schemes which relate primarily to the financing of retail sales of goods, whether the credit is advanced by a retail business or by a non-retail finance business. In general, the term "instalment credit" is defined as relating to schemes in which repayment is made by regular pre-determined instalments. Types of schemes covered include hire purchase, time payment, budget account, and personal loan schemes which relate primarily to the financing of retail sales of goods. In these statistics, the term "retail sales" relates not only to retail sales by retail establishments coming within the scope of the Censuses of Retail Establishments conducted periodically by this Bureau, but includes also other sales of goods to final purchasers (e.g. plant and machinery).

Figures for amounts financed *exclude* interest, hiring charges, insurance, etc. Figures for balances outstanding and collections *include* interest, hiring charges, insurance, etc. Details are not available of these charges or of other items (e.g. rebates allowed for early payments, late payment charges, bad debts written off) which affect the reconciliation of the three main instalment credit series—amounts financed, collections, and balances outstanding.

Statistics of amounts financed are classified by type of goods, defined as follows:—*motor vehicles* (new and used separately)—motor cars and motor cycles, commercial vehicles, tractors, caravans, trailers, motor parts and accessories, etc.; *plant and machinery*—farm machinery and implements, earth-moving equipment, aircraft, industrial plant and machinery, business machines and equipment (including commercial refrigeration equipment), etc.; *household and personal goods*—furniture, furnishings and floor coverings, domestic refrigerators, electrical goods, radios, television, musical instruments, bicycles, motor mowers, clothing, etc.

Further explanatory detail on these series may be found in the bulletin and statements referred to on page 871.

Any discrepancies between totals and sums of components in the tables on pages 872-5 are due to rounding.

2. Total Instalment Credit Classified by Type of Business.—The following table gives separate particulars of the instalment credit transactions of retail businesses and non-retail finance businesses for the years 1959-60 to 1963-64.

INSTALMENT CREDIT FOR RETAIL SALES, BY TYPE OF BUSINESS: AMOUNT FINANCED, BY COMMODITY GROUPS, COLLECTIONS, AND BALANCES OUTSTANDING—AUSTRALIA

NEW CAPITAL RAISINGS BY COMPANIES IN AUSTRALIA

1. General.—Information relating to capital raised by companies in Australia is given in the following tables. More detailed information may be found in the annual bulletin *Insurance and Other Private Finance* and in quarterly bulletins dealing with capital raisings (see NOTE at beginning of this chapter).

The statistics (the collection of which commenced in July, 1954) relate to capital raised by companies through issues of shares, and in the case of companies listed on stock exchanges, through the issue of debentures, notes and similar securities and the acceptance of deposits, and in the case of unlisted companies, by way of loans secured over the entire assets of the company. Capital obtained by way of bank overdraft, trade credit, temporary advances, and loans secured over part only of the assets of the company is not included. Totally unsecured loans are included in the case of listed companies, but are excluded in the case of unlisted companies.

Separate statistics are given for listed and unlisted companies. Listed companies are companies incorporated in Australia or the Australian territories and listed on one or more of the Australian stock exchanges. All other companies incorporated in Australia, including subsidiaries of listed companies, are classified as unlisted companies. Companies incorporated overseas, whether listed on an Australian stock exchange or not, are excluded from the statistics of share issues. However, subsidiaries of overseas companies, if incorporated in Australia, are included. The statistics of new capital raised through issues of debentures, notes, etc., and the acceptance of deposits, include, in addition to capital raised by Australian companies, capital raised in this way from Australian sources by overseas public companies through their Australian offices.

The following are explanatory notes relating to some of the items shown in the tables.

New Money. This is the net amount of cash transferred from the investing public to the companies. For this purpose, the "investing public" includes banks and life insurance companies (except when subscribing to issues by associated companies), and government and private superannuation funds, but excludes other government agencies. Subscriptions by associated companies, whether local or overseas, are excluded. In the tables which follow, the amount of new money is obtained by deducting from the total cash raised the "amount not involving a net transfer of funds from the investing public".

Amounts not involving new money. These amounts include cash subscriptions received by issuing companies from associated companies. Such subscriptions represent inter-company transfers only, and do not involve a receipt of funds from the "investing public". Also included are amounts which, although subscribed by the "investing public" (i.e. subscribers other than "associated companies"), are not retained by the issuing company or its associates, but are used to redeem shares, debentures or unsecured notes, etc., or are used to purchase from individuals existing shares, debentures, etc., in other companies, including existing shares, etc., in associated and subsidiary companies. The funds used in this way are thus returned to another section of the "investing public", and do not represent a net transfer of cash from the "investing public" to the companies. (Besides these purchases of existing shares, etc., from individuals, purchases of existing shares, etc., from companies other than associates of the issuing company might also be included in this item, but the amounts involved are small and separate details have not been collected.)

2. **Companies Listed on Stock Exchanges.**—Details of new capital raised through issues of shares, debentures, or registered notes, or through accepting deposits, are given in the following table for each of the years 1959–60 to 1963–64.

LISTED AUSTRALIAN COMPANIES(a): NEW CAPITAL RAISED THROUGH ISSUES OF SHARES, DEBENTURES, OR REGISTERED NOTES, ETC.(b), OR ACCEPTING DEPOSITS(c)

(£ million)

Year	Share capital					New money	Debentures, registered notes and deposits

1963-64 ..	64.5	81.4	145.9	24.2	11.0	35.2	181.1

(a) Includes preference shares. (b) Excludes deposits accepted by banks, insurance companies, pastoral companies and building societies, and loans to authorized dealers in the short-term money market. (c) Includes only loans which are secured by charges over the company's entire assets. (d) Not available for publication. (e) Small share issues of less than £1,000 for which returns have not been collected have not been included in the industrial classification but are included in Total, All Industries.

OVERSEA INVESTMENT BY PRIVATE INVESTORS

1. **General.**—A Survey of Oversea Investment has been conducted since 1947–48 to obtain particulars of certain types of private capital flows to and from Australia. The survey, when supplemented by other information, provides statistics of oversea investment in companies in Australia and in Australian public authority securities domiciled in Australia, and statistics of Australian investment in companies overseas and in foreign government securities. Particulars of investment income from most of those classes of investment are also obtained from the survey.

Certain types of private oversea investment are not included in the statistics which follow. Investment in real estate (except when made through companies), investment by means of bank deposits and advances, and loans between Australian individuals and non-resident individuals are not covered. Nor are changes in short-term liabilities between exporters and importers in Australia and overseas covered, except in so far as they arise from exports and imports between branches or subsidiaries and their home offices—in this case they are included in the figures of investment in branches or subsidiaries.

In some cases the capital invested in a company in Australia may be received from a company in one oversea country even though the ultimate ownership and control of that capital may rest with a parent company in a second oversea country. In the tables which classify investment in Australia according to country of origin, the investment is shown as an inflow from the country which is the immediate source of the capital rather than from the country in which the parent company with ultimate ownership and control is domiciled. Income payable overseas is classified on a similar basis, i.e., it is classified to the country to which it is directly payable.

Remittances between Australia and overseas by Australian life insurance companies are regarded as capital transactions made to bring assets located in oversea countries into line with commitments in those countries, and are shown as a flow of investment between Australia and overseas in the tables in para. 4, pp. 883–4. Similar considerations apply to oversea life insurance companies with branches in Australia.

The following are some explanatory notes relating to terms used in the tables.

Overseas. For the purpose of these statistics, “overseas” includes Papua and New Guinea.

Companies. In these statistics the term “companies” relates to both incorporated and unincorporated businesses.

Subsidiary. For the purpose of these statistics, this term is applied to all companies in which there is a “direct” holding, irrespective of the degree of control, if any, which is actually exercised. A holding is treated as “direct” when there is ownership of 25 per cent. or more of a company’s ordinary shares (or voting stock) by one company or a number of companies incorporated in one country, or ownership of 50 per cent. or more of a company’s ordinary shares (or voting stock) by individuals or companies in one country.

Portfolio Investment. Investment in company shares, debentures, etc., other than direct investment in such securities of a subsidiary company.

Unremitted profits. For these statistics this represents the net earnings of branches during the year, after tax, less remittances by the branches to their home offices during the year of net earnings and interest (irrespective of the period to which the earnings and interest relate). “Net earnings” of Australian branches of oversea companies is, in general, based on the value of their income for taxation purposes.

Undistributed profits. This term refers, in the case of Australian subsidiaries, to the equity of the oversea parent in the net earnings of the Australian company, less tax (or tax provision) and less dividends declared. “Net earnings” of Australian subsidiaries of oversea companies is, in general, based on the value of their income for taxation purposes. In the case of oversea subsidiaries of Australian companies, this term represents the equity of the Australian parent in the book value of the net earnings of the subsidiary after tax, less dividends paid or payable.

The annual bulletin *Insurance and Other Private Finance* and the *Annual Bulletin of Oversea Investment: Australia* contain additional figures relating to oversea investment, including a longer range of years covered, and also more detailed description of the figures.

2. **Private Oversea Investment in Companies in Australia and Investment Income Payable Overseas by Companies in Australia.**—The inflow of private overseas investment in companies in Australia since 1958–59, and a classification by country of origin, are shown in the following two tables.

ANNUAL INFLOW OF PRIVATE OVERSEA INVESTMENT IN COMPANIES IN AUSTRALIA, BY TYPE OF COMPANY IN WHICH CAPITAL INVESTED^(a)
(£A. million)

Year	Direct investment				Total direct investment	Portfolio investment ^(b)	Annual inflow of overseas investment in companies
	Australian branches		Australian subsidiaries				
	Unremitted profits	Other investment	Undistributed profits	Other investment			
1958–59 ..	11.6	9.8	51.0	33.0	105.4	19.8	125.2

1960-61 ..	110.1	0.1	101.9	35.6	-7.5	240.2
1961-62 ..	62.7	0.8	81.8	9.3	-7.9	146.7
1962-63 ..	112.0	-2.8	121.1	25.0	5.9	261.2

(a) No particulars are available of the domicile of securities issued to the International Bank of Reconstruction and Development.

NOTE.—Minus sign (-) denotes outflow.

UNIT TRUSTS, LAND TRUSTS, AND MUTUAL FUNDS

1. **General.**—Statistics relating to operations in Australia of unit trusts, land trusts and mutual funds have been collected quarterly since March, 1961, and are shown in the following tables. The figures do not include details of superannuation funds conducted by unit trusts management companies.

2. **Transactions of Trusts and Funds.**—Particulars of cash transactions in trust units and fund shares and of purchases and sales of investments by trusts and funds are given below.

TRANSACTIONS OF TRUSTS AND FUNDS

(£ million)

Period	Cash transactions in respect of trust units and fund shares		Purchases and sales of investments (a)	
	Total amount received for trust units and fund shares issued (b)	Total amount paid for trust units and fund shares repurchased (c)	Purchases (d)	Sales (e)
Year—				
1961-62	17.5	6.9	11.7	3.5
1962-63	15.9	6.9	13.7	4.8
1963-64	22.5	10.3	17.7	5.3
Quarter—				
September, 1963	4.2	2.0	4.1	1.3
December, 1963	6.3	2.6	4.1	1.2
March, 1964	5.5	2.9	3.8	1.4
June, 1964	6.5	2.8	5.7	1.4
September, 1964	5.1	3.2	4.4	2.5
December, 1964	5.2	3.4	4.6	3.2

(a) Commonwealth Government, local authority and semi-governmental securities, shares, debentures, unsecured notes, loans, deposits on term or notice of three months or longer, land and buildings, etc. (b) Includes re-issues and new issues. Includes fees and expenses. (c) Includes those units and fund shares intended for re-issue. (d) Payments for assets acquired during period. Includes brokerage and stamp duty. (e) Receipts for assets sold or redeemed during period. Excludes brokerage and stamp duty.

3. Analysis of Purchases and Sales of Investments.—Details of purchases and sales of investments by trusts and funds for the years 1961–62 to 1963–64 are given in the following table.

ANALYSIS OF PURCHASES AND SALES OF INVESTMENTS BY TRUSTS AND FUNDS
(£ million)

Year	Shares (including preference shares)	Debentures, unsecured notes, deposits (a)	Common- wealth Government, local authority, and semi- governmental securities	Other (b)	Total
PURCHASES					
1961–62	9.1	1.4	0.1	1.1	11.7
1962–63	9.5	2.6	0.1	1.5	13.7
1963–64	12.5	3.4	0.1	1.7	17.7
SALES					
1961–62	2.7	0.2	0.2	0.4	3.5
1962–63	3.2	0.3	0.3	1.0	4.8
1963–64	3.8	1.0	..	0.5	5.3

(a) Excludes cash on hand and at bank, loans to authorized dealers in the short-term money market, and other deposits under three months term or notice. (b) Includes land and buildings, mortgages on land and buildings, and other investments.

4. Market Value of Trusts and Funds, and Cash and Short-term Deposits of Trusts and Funds.—The total market value of trusts and funds and the cash and short-term deposits of trusts and funds are shown in the following table.

TOTAL MARKET VALUE OF TRUSTS AND FUNDS, AND CASH AND SHORT-TERM DEPOSITS OF TRUSTS AND FUNDS
(£ million)

At—	Total market value of trusts and funds(a)	Cash and short-term deposits		
		Cash(b)	Short-term deposits(c)	Total
30th June, 1961	84.0	0.6	3.2	3.8
30th June, 1962	91.7	0.6	3.6	4.2
30th June, 1963	103.8	1.0	2.9	3.9
30th September, 1963	111.3	0.6	2.7	3.3
31st December, 1963	119.2	0.8	3.0	3.8
31st March, 1964	122.9	1.4	3.1	4.5
30th June, 1964	124.9	0.8	3.2	4.0
30th September, 1964	125.5	0.8	3.3	4.1
31st December, 1964	126.4	1.0	3.3	4.3

(a) Includes value of land trusts at valuation. (b) Includes cash on hand and at bank. (c) Includes loans to authorized dealers in the short-term money market, and other deposits under three months term or notice.

PASTORAL FINANCE COMPANIES

NOTE.—Any discrepancies between totals and sums of components in the following tables are due to rounding.

1. Rural Advances.—The following table is derived from returns supplied to the Reserve Bank by major pastoral finance companies, and shows the total rural advances outstanding at the end of June, 1959 to 1963, and of subsequent quarters to December, 1964.

RURAL ADVANCES OF PASTORAL FINANCE COMPANIES(a)

(Source: Reserve Bank of Australia)

(£ million)

End of—	New South Wales	Victoria	Queensland	South Australia	Western Australia and Tasmania	Total
June, 1959 ..	26.5	16.0	21.2	13.4	14.2	91.3
„ 1960 ..	29.6	17.7	24.3	14.9	15.4	101.9
„ 1961 ..	29.8	19.9	23.4	17.4	15.9	106.4
„ 1962 ..	29.4	16.4	24.3	17.4	16.5	104.0
„ 1963 ..	30.7	17.8	25.0	16.5	16.9	106.9
September, 1963 ..	33.0	20.7	26.2	17.7	16.6	114.1
December, 1963 ..	30.7	22.1	25.9	18.2	15.1	111.9
March, 1964 ..	30.4	21.1	25.5	16.2	16.7	109.7
June, 1964 ..	32.0	19.5	25.9	18.2	18.5	114.2
September, 1964 ..	36.4	23.5	27.0	19.0	20.3	126.2
December, 1964 ..	35.7	26.3	28.8	20.7	22.6	134.1

(a) Compiled from returns supplied by major pastoral finance companies. Advances are classified according to the location of the branch holding the advance, which in some cases may differ from the State of residence of the borrower. The statistics refer to the total advances outstanding at the end of the month shown.

2. Liabilities and Assets.—The following table gives details of the liabilities and assets of pastoral finance companies at the end of June, 1962, and subsequent quarters to December, 1964.

SHORT-TERM MONEY MARKET

1. General.—For some years prior to 1959 leading stockbrokers had been actively engaged in the acceptance of short-term funds against the security of government securities, but their operations were limited by the absence of suitable short-term securities and their liquidity requirements,

In February, 1959, the Commonwealth Bank (now the Reserve Bank) gave official status to the market by announcing that under certain conditions it would act as lender of last resort to authorized dealers in the short-term money market.

The form of organization at March, 1965, consisted of nine companies whose functions were—

- (i) to accept loans overnight, at call or for fixed periods, in minimum amounts of £25,000, and to invest these funds in Commonwealth Government securities with currencies not exceeding three years and, since March, 1965, in commercial bills that had been accepted or endorsed by a trading bank; and
- (ii) to engage as traders in the buying and selling of these specific classes of securities.

Dealers are required to have a minimum paid-up capital of £200,000, and a level of shareholders' funds sufficient to permit the lodgment of " margins " with the Reserve Bank, in the form of Commonwealth Government securities, as general backing for their operations.

These securities lodged as margins are required to be, on market values, equivalent to at least—

- (a) one-half per cent. of the dealer's holding of Treasury Notes;
- (b) one per cent. of the dealer's holding of Commonwealth Government securities and commercial bills maturing within one year;
- (c) two per cent. of the dealer's holding of Commonwealth Government securities maturing within one to two years; and
- (d) four per cent. of the dealer's holding of Commonwealth Government securities maturing within two to three years.

The total amount of loans a dealer may accept is determined by the Reserve Bank in relation to the level of the dealer's shareholders' funds. Under the lender of last resort arrangements, the dealer may borrow from the Reserve Bank against the lodgment of securities.

Any discrepancies between totals and sums of components in the tables on pages 888-9 are due to rounding.

2. Selected Assets and Liabilities of Authorized Dealers and Rates of Interest on Loans Accepted.—In the following table, details of selected assets and liabilities of authorized dealers and the interest rates on loans accepted by dealers are given for June, 1959 to 1963, and for each month January to December, 1964.

Total	142.5	168.7

(a) Compiled from returns supplied by authorized dealers in the short-term money market. Liabilities to Reserve Bank as lender of last resort are excluded.

**FRIENDLY SOCIETIES, REGISTERED BUILDING SOCIETIES AND
CO-OPERATIVE SOCIETIES**

§ 1. Friendly Societies

1. *General.*—The total membership of friendly societies in Australia is about 430,000, but as certain benefits, such as medical attendance and free medicines, and in many cases funeral expenses, are granted to members' families as well as to members themselves, this figure must be more than doubled to arrive at an estimate of the number of persons who receive some direct benefit from these societies, even when due allowance is made for young and unmarried members. Legislation has conferred certain privileges on friendly societies, but, on the other hand, it insists on their registration, and it is the duty of the Registrars in the various States, prior to registering a new society, to see that its proposed rules conform to the law, and that the scale of contribution is sufficient to provide the promised benefits. Societies are obliged to forward to the Registrar annual returns about their membership and their finances, and reports are published in most of the States dealing with the returns received.

2. *Societies, Members and Revenue.*—The following table sets out the number of societies, members, etc., revenue and expenditure, and funds of registered societies for the year. More detailed information is available in the bulletin *Insurance and Other Private Finance*, and issue No. 2, 1963–64, contains particulars for the year 1962–63.

FRIENDLY SOCIETIES(a), 1962-63

(a) Excludes juvenile branches, dispensaries, medical institutes and certain miscellaneous societies. Receipts and payments of subsidy under the Commonwealth medical and hospital benefit schemes are excluded. (b) Includes the Australian Capital Territory. (c) Year 1963.

§ 2. Registered Building Societies

1. Summary.—During 1961-62 and 1962-63 returns were received from 2,598 and 2,838 societies respectively, but the information was not exhaustive, as particulars regarding a number of organizations were not included. In the following table general information is given relating to the societies in each State for the year 1962-63 and to the combined States for 1961-62.

REGISTERED BUILDING SOCIETIES: SUMMARY

Particulars	1962-63(a)							1961-62 (a)

Total ..	368,574	12,406	380,980	344,772

(a) See footnote (a) to table above. (b) Includes advances on mortgage of terminating societies which are on a gross basis. Net advances may be derived by subtracting borrowing members' funds. See table above. (c) Includes statistics for Co-operative Housing Societies in Victoria.

§ 3. Co-operative Societies

Co-operative societies are divided into three classes—(i) those engaged in the manufacture and marketing of primary products and trade requirements; (ii) those engaged in retailing general household requirements; and (iii) those engaged in activities covered by both classes (i) and (ii). The first class may be described briefly as Producers' Co-operative Societies and the second as Consumers' Co-operative Societies. The particulars given for New South Wales relate to societies registered under the Co-operation Act, 1923-1954. A summary of the business of all co-operative societies for the years 1962-63 or 1963 for all States except Western Australia is given in the following tables. Separate particulars for each of the three types of Co-operative Societies are given in the annual bulletin *Insurance and Other Private Finance*, and issue No. 2, 1963-64 contains details for 1962-63.

CO-OPERATIVE SOCIETIES

LOTTERIES AND BETTING

§ 1. Lotteries

State Governments operate lotteries in New South Wales, Queensland and Western Australia. Tattersall Lotteries are operated under government licence in Victoria and also sell tickets under government licence in Tasmania and New Zealand. The statistics of sales of tickets and prizes for Victoria include sales and allotments of prizes in Tasmania and New Zealand by Tattersall of Victoria, and Tasmanian Lotteries were operated under government licence until 30th September, 1961, when they surrendered their licence. In general, revenue derived by the State Governments from these lotteries is used directly or indirectly to provide funds for expenditure on hospitals, charities, etc. For information as to the origin, purpose and method of payment of proceeds or taxes to State revenues see Year Book No. 46, page 808 and earlier issues.

Details of ticket sales, prizes allotted, and taxes paid and other net contributions to State Government revenues, relating to lotteries drawn during each of the years 1959-60 to 1963-1964, are given in the following table.

LOTTERIES: VALUE OF TICKET SALES, PRIZES ALLOTTED, TAXES PAID AND OTHER NET CONTRIBUTIONS TO STATE GOVERNMENT REVENUES (£'000)

PENSION AND SUPERANNUATION SCHEMES

§ 1. Government, Local Government and Semi-governmental Pension and Superannuation Schemes

1. General.—The Commonwealth and all State Governments have established pension and superannuation schemes for their employees. These schemes are operated through funds to which both the Governments and the employees make contributions.

Employees of local government and semi-governmental authorities are covered either by the Commonwealth and State Government schemes or by a separate scheme of the authority which is operated either through a separately constituted fund or through a life insurance office.

2. Schemes operated through Separately Constituted Funds.—The following table gives particulars of schemes operated through separately constituted funds. The names of the funds and authorities included were given in previous issues of this Year Book (see pp. 897–8, Year Book No. 50), also the annual bulletin *Insurance and Other Private Finance*.

GOVERNMENT, LOCAL GOVERNMENT AND SEMI-GOVERNMENTAL PENSION AND SUPERANNUATION SCHEMES OPERATED THROUGH SEPARATELY CONSTITUTED FUNDS, 1962–63

§ 4. Private Superannuation, Pension and Retiring Allowance Schemes

1. **General.**—In this section details are given of the results of a survey of private superannuation, pension and retiring allowance schemes conducted by private businesses, for the benefit of their employees, during the year ended June, 1963, or the accounting period nearest to that year. Similar surveys were conducted in 1960-61 and 1961-62.

Separate information was requested for the following:—

- (a) Schemes operated through life insurance offices, friendly societies, unit trusts, etc.;
- (b) Superannuation, pension and retiring allowance funds; and
- (c) Direct payments by the employer of pensions and/or retiring allowances.

The survey was based upon a sample of all businesses with an average monthly payroll in excess of approximately £860. Commonwealth Government airlines and banks were included, if contributing to their own separate funds rather than to State or Commonwealth superannuation funds, but other government businesses were excluded. Also excluded were rural industries, private domestic services, certain professions such as accountants or engineers, and statutory coal miners' pension funds.

The figures shown in this statement are estimates for the whole field from which the sample was drawn. Some indication of the extent of the field surveyed is given by the fact that the figures relate to approximately 77 per cent. of all employees in private employment, excluding those employed in rural industries and private domestic service.

2. **Types of Private Superannuation, Pension and Retiring Allowance Schemes.**—The survey showed that some type of scheme was operated by 52 per cent. of businesses (State branches and subsidiary companies being treated as separate businesses). Ninety-six per cent. of large businesses (monthly pay-roll over £20,000) operated schemes; 72 per cent. of medium businesses (monthly pay-roll £3,000 to £20,000); and 43 per cent. of small businesses (monthly pay-roll £860 to £3,000). Of the businesses which operated schemes, 57 per cent. operated a life insurance scheme but no superannuation, etc., fund; 22 per cent. operated both a life insurance scheme and superannuation, etc., fund; 20 per cent. operated a superannuation, etc., fund but no life insurance scheme; and one per cent. operated only direct payments. The percentage of businesses using a life insurance scheme without a superannuation, etc., scheme was greater among small businesses than among large.

3. **Financial Operations of Private Superannuation, Pension and Retiring Allowance Schemes.**—(i) *Operated through Life Insurance Offices, etc.* The following table shows details of the contributions to these schemes during 1962–63, together with comparative information for previous surveys.

PRIVATE SUPERANNUATION, ETC. SCHEMES OPERATED THROUGH LIFE INSURANCE OFFICES, ETC.(a): AMOUNTS CONTRIBUTED

(£ million)

Year	Contributions		
	Employee	Employer	Total
1960–61	10.1	16.7	26.8
1961–62	10.6	17.3	27.9
1962–63	11.2	18.6	29.8

(a) Includes schemes operated partly through life insurance offices, etc.

(ii) *Superannuation, Pension and Retiring Allowance Funds. (a) Income and Expenditure.* The following table shows particulars of the income and expenditure of these funds during 1962–63 together with comparative information for previous surveys.

SUPERANNUATION, PENSION AND RETIRING ALLOWANCE FUNDS: INCOME AND EXPENDITURE

(£ million)

Year	Income				Expenditure			
	Contributions		Other	Total	Pensions paid	Lump sum payments	Other (a)	Total
	Em- ployee	Em- ployer						
1960–61	10.2	20.8	17.8	48.8	4.4	7.7	1.9	14.0
1961–62	11.8	24.1	21.7	57.6	5.1	9.4	2.4	16.9
1962–63	12.6	25.0	25.5	63.1	6.0	11.4	3.0	20.4

(a) Includes administrative expenses payable from funds, loss on sale of investments, life insurance premiums paid, etc.

(b) *Assets of Funds.* In 1962-63, the assets of superannuation, pension and retiring allowance funds totalled £381.6 million. Liabilities to sundry creditors amounted to £4.1 million, leaving £377.5 million as the amount of funds in existence at the end of 1962-63. The composition of the assets is shown below, together with comparative information for previous surveys.

BOOK VALUE OF SUPERANNUATION, PENSION AND RETIRING ALLOWANCE FUNDS, BY TYPE OF ASSET

(Per cent.)

Survey	Cash and bank balances	Commonwealth Government securities	Local government and semi-governmental securities	Shares in companies, debentures, loans, etc.	Other	Total
1960-61.. ..	3	16	25	46	10	100
1961-62.. ..	2	16	25	47	10	100
1962-63.. ..	2	16	25	48	9	100

(iii) *Direct Payments of Pensions and, or, Retiring Allowances by the Employer.* Some businesses make direct payments of pensions and retiring allowances, either instead of, or in addition to, operating a scheme through a life insurance office, or a superannuation, pension and retiring allowance fund. In 1962-63, 10,500 direct payments of pensions were made, totalling £2.6 million, and 3,500 retiring allowances were paid, totalling £1.9 million. Payments per head of recipient in 1962-63 were:—Pensions, £248; retiring allowances, £543. Corresponding figures in 1961-62 were £275 and £550, and in 1960-61, £275 and £658.

PROBATES AND LETTERS OF ADMINISTRATION

The following table gives some particulars of the number and value of estates of deceased persons in each State for the latest year for which information is available. Owing to differences in legislation in the various States, the figures are not entirely comparable.

CHAPTER XXII

PUBLIC FINANCE

NOTE.—The subject of Public Finance is dealt with in this chapter under the two major divisions of Commonwealth Finance and State Finance. The close financial relations between the Commonwealth and States, however, particularly since the Financial Agreement has been in operation, demand also a combination of these two divisions under the heading of Commonwealth and State Finance. Under the Financial Agreement, the Commonwealth assumed the liability to bondholders for the States' Securities existing at the date of the Agreement and now arranges for all borrowings for and on behalf of the Commonwealth or any State and for all conversions, renewals, redemptions and consolidations of such securities. In view of this, it is convenient to deal with the Commonwealth and State Government Securities on Issue in a separate division of this chapter (p. 946).

The subject of income taxes is also dealt with in a separate division at the end of this chapter.

For further detailed information on the subjects covered by this chapter, see the annual bulletins *Commonwealth Finance; State, Territory and Local Government Authorities' Finance and Government Securities*; and *Commonwealth Taxation Assessments*. Current information in summarized form is contained in the *Quarterly Summary of Australian Statistics*, the *Monthly Review of Business Statistics*, and the *Digest of Current Economic Statistics*.

COMMONWEALTH FINANCE

§ 1. Financial Provisions of the Constitution

The main provisions of the Constitution relating to the initiation and development of the financial system of the Commonwealth are contained in Sections 81 to 105A of the Commonwealth Constitution (see pp. 17–20 of this Year Book). Two other sections which have a most important bearing on questions of Commonwealth finance are Sections 69 and 51.

Section 69 provides for the transfer from the States to the Commonwealth of certain specified departments, and Section 51, in outlining the powers of the Commonwealth Parliament, implies the transfer or creation of other departments. Sections 87 and 96 deal with the financial relations between the Commonwealth and the States. These matters have been treated in previous issues of the Year Book, and on pages 917–24 of this issue a summary is given of the present provisions for Commonwealth financial assistance to the States.

The *Audit Act* 1901–1961 lays down the procedure which must be followed in accounting for the receipt and disbursement of public funds. The general administration of Commonwealth finances is the responsibility of the Treasurer of the Commonwealth.

§ 2. Commonwealth Public Account

1. **Nature of Account.**—The Commonwealth Public Account includes the Consolidated Revenue Fund, the Trust Fund and the Loan Fund. Ordinary revenues from taxation and other sources are paid into the Consolidated Revenue Fund, from which the main expenditures are for defence, war and repatriation services, social services, payments to the States, Commonwealth business undertakings (mostly postal, telephone and telegraph) and administration. The Trust Fund covers special transactions outside the ordinary operations of departmental expenditures, such as pension funds and moneys held for expenditure by the Commonwealth at some future time. The Loan Fund receives its funds from the sale of Commonwealth securities, and expenditures from the Fund are made in accordance with the purpose of issue of each loan. The main disbursements from the Loan Fund are to the States, either by way of distribution of the proceeds of loans raised by the Commonwealth on their behalf or in accordance with the provisions of the Commonwealth and State Housing Agreements, and the remaining disbursements are for Commonwealth purposes such as defence or war service land settlement.

2. **Summary of Receipts and Expenditure.**—A summary of transactions on the Commonwealth Public Account for 1963–64 and the four preceding years is given in the table which follows. The transactions are recorded on a cash basis.

COMMONWEALTH PUBLIC ACCOUNT: SUMMARY OF TRANSACTIONS

§ 3. Commonwealth Consolidated Revenue Fund

REVENUE

1. Sources of Revenue.—The following table shows details of the revenue from each source and the amount per head of population under each of the main headings during the years 1959-60 to 1963-64. Taxation constitutes the main sources of Commonwealth revenue, accounting for 84.5 per cent. in 1963-64.

COMMONWEALTH CONSOLIDATED REVENUE FUND: SOURCES OF REVENUE (£'000)

Source	1959-60	1960-61	1961-62	1962-63	1963-64
Taxation	1,249,790	1,425,239	1,416,524	1,440,459	1,609,420
Per head of population	£122.96	£137.15	£133.56	£133.23	£145.96
Business undertakings	137,238	153,867	158,389	171,200	187,889
Per head of population	£13.50	£14.81	£14.93	£15.84	£17.04
Territories	4,198	5,455	5,996	7,732	9,519
Per head of population	£0.41	£0.55	£0.57	£0.72	£0.86
Other revenue—					
Interest	13,276	14,588	17,069	22,122	24,096
Dividends or payments in the nature of a dividend	2,642	1,991	2,053	1,914	2,539
Repayments	1,263	1,025	2,412	3,839	5,616
Coinage	415	321	589	106	..
Defence	5,832	5,827	4,806	4,409	14,224

<i>Per head of population</i>	<i>£4.63</i>	<i>£5.18</i>	<i>£5.72</i>	<i>£6.11</i>	<i>£8.88</i>
Grand Total	1,438,286	1,638,279	1,641,542	1,685,386	1,904,688
Per head of population	£141.50	£157.67	£154.78	£155.90	£172.74

A graphical representation of the revenue and expenditure of the Commonwealth Consolidated Revenue Fund appears on page 937.

2. Taxation.—(i) *Total Collections.* (a) *Amount.* Collections under each heading for the years 1959–60 to 1963–64 are shown below.

COMMONWEALTH TAXATION: TOTAL NET COLLECTIONS

(£'000)

Type of tax	1959–60	1960–61	1961–62	1962–63	1963–64
Income tax—					
Individuals	442,164	518,744	537,345	541,711	636,144
Companies	229,130	282,562	282,688	259,914	293,130
Dividend (withholding)	5,960	8,117	8,965	7,968
Customs	84,381	101,785	85,160	105,101	116,286
Excise	252,111	257,409	265,645	274,402	291,232
Sales tax	164,185	173,040	148,824	156,531	162,595
Pay-roll tax	55,162	61,260	60,971	63,255	68,222
Estate duty	13,753	14,807	17,029	17,850	19,936
Gift duty	2,435	2,783	2,797	3,164	3,244
Special industry taxes(a)	6,469	6,889	7,948	9,566	10,663
Total Taxation	1,249,790	1,425,239	1,416,524	1,440,459	1,609,420

(a) Used for purposes of industries concerned. The taxes are as follows:—Wheat Tax, Wool Tax, Wheat Export Charge, Miscellaneous Export Charges, Stevedoring Industry Charge, Tobacco Charge, Dairy Produce Levy, Canning Fruit Charge, Cattle Slaughter Levy, and Honey Levy.

(b) *Proportion of each Class to Total Collections.* The following table shows the proportion of the total collections represented by returns from each class of taxation for the years 1959–60 to 1963–64.

COMMONWEALTH TAXATION: PROPORTION OF EACH CLASS TO TOTAL NET COLLECTIONS

(Per cent.)

Type of tax	1959–60	1960–61	1961–62	1962–63	1963–64
Income taxes	53.7	56.6	58.5	56.3	58.3
Customs	6.8	7.2	6.0	7.3	7.2
Excise	20.2	18.1	18.8	19.0	18.1
Sales tax	13.1	12.1	10.5	10.9	10.1
Pay-roll tax	4.4	4.3	4.3	4.4	4.2
Estate duty	1.1	1.0	1.2	1.2	1.2
Gift duty	0.2	0.2	0.2	0.2	0.2
Special industry taxes(a)	0.5	0.5	0.5	0.7	0.7
Total Taxation	100.0	100.0	100.0	100.0	100.0

(a) See footnote (a) to previous table.

(ii) *Customs Revenue.* The following table gives details of net customs receipts for the years 1959-60 to 1963-64.

**COMMONWEALTH CUSTOMS REVENUE: CLASSIFICATION OF
NET RECEIPTS**
(£'000)

Class	1959-60	1960-61	1961-62	1962-63	1963-64
Foodstuffs of animal origin	473	677	515	599	732
Foodstuffs of vegetable origin	1,784	2,100	2,063	2,080	2,455
Spirituos and alcoholic liquors	4,762	5,202	5,847	5,478	6,335
Tobacco, cigars and cigarettes	13,034	13,352	11,997	12,759	13,200
Animal substances (not foodstuffs)	7	8	5	5	6
Vegetable substances and fibres	259	168	247	321	299
Yarns, textiles and apparel	12,176	15,573	12,863	14,944	16,791
Oils, fats and waxes	10,970	12,430	9,149	11,367	10,848
Pigments, paints and varnishes	219	317	284	405	382
Rocks and minerals	56	46	62	113	118
Metals, metal manufactures and machinery ..	23,036	28,655	20,836	32,505	37,037
Rubber and leather and manufactures thereof	606	939	838	1,318	1,751
Wood and wicker, raw and manufactured ..	1,802	2,353	1,514	1,623	2,189
Earthenware, cement, china, glass and stone- ware	2,233	3,002	2,673	2,952	2,977
Pulp, paper and board, paper manufactures and stationery	1,426	2,361	2,404	2,778	2,804
Sporting materials, toys, fancy goods, jewellery and timepieces	2,825	3,526	3,237	3,600	3,758
Optical, surgical and scientific instruments, photographic goods	1,404	1,683	1,592	1,677	1,918
Chemicals, pharmaceutical products, essential oils and fertilizers	1,690	1,806	2,131	2,220	3,033
Miscellaneous goods	3,047	5,045	4,762	6,068	6,952
Primage	1,939	2,298	1,840	2,152	2,319
Other receipts	633	244	301	137	382
Total	84,381	101,785	85,160	105,101	116,286

(iii) *Excise Revenue.* Net excise receipts for the years 1959-60 to 1963-64 were as follows.

COMMONWEALTH EXCISE REVENUE: CLASSIFICATION OF NET RECEIPTS
(£'000)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Beer	109,724	111,740	113,504	117,263	123,584
Spirits	8,683	8,586	8,418	8,582	9,153
Tobacco	14,366	13,389	11,898	10,541	9,355
Cigars and cigarettes	61,459	64,969	67,488	70,186	73,100
Cigarette papers	770	716	640	571	506
Petrol	49,255	51,952	57,904	61,014	67,987
Diesel fuel	2,179	2,299	2,253	2,576	3,833
Matches	1,125	1,105	1,095	1,126	1,144
Playing cards	52	50	53	49	52
Coal	418	389	290	280	293
Cathode ray tubes	2,850	1,961	2,056	2,106	1,955
Canned fruit					201
Miscellaneous(a)	1,230	253	46	108	69
Total	252,111	257,409	265,645	274,402	291,232

(a) Includes net collections of diesel fuel taxation credited to miscellaneous receipts of the Department of Customs and Excise.

(iv) *Other Taxation.* (a) *General.* Taxes other than customs and excise and the various export charges are, in general, assessed and collected by the Commissioner of Taxation. The organization comprises a Head Office in Canberra, an office in each State assessing the returns of taxpayers whose interests are restricted to that State, and a Central Office situated in Melbourne assessing taxpayers whose interests are in more than one State.

For detailed statistics relating to Commonwealth income taxes, estate duty, gift duty and sales tax, see the annual bulletin *Commonwealth Taxation Assessments*.

(b) *Sales Tax.* The sales tax was first imposed in August, 1930. The operation of the tax is controlled chiefly by a system of registration of taxpayers whereby all manufacturers and wholesale merchants, who are the taxpayers under the Act in respect of goods sold in Australia, must be registered with the Department. The tax on imports subject to sales tax is collected by the Customs Department at ports of entry.

Since the inception of the tax, certain exemptions have been allowed. These exemptions, which have been extended from time to time, relate mainly to goods of an essential nature or those for use in primary production. The most recent exemptions were those granted from 12th August, 1964.

A general rate of tax is levied on all goods other than those specified in the schedules to the *Sales Tax (Exemptions and Classifications) Act 1935-1964*. These schedules set out details of goods exempt from sales tax and those subject to special rates. The following are the general and special rates which operated from 7th August, 1952.

Period	General rate	Special rates
10th September, 1953, to 18th August, 1954 ..	12½ per cent. ..	16½ per cent.
19th August, 1954, to 14th March, 1956 ..	12½ per cent. ..	10 and 16½ per cent.
15th March, 1956, to 3rd September, 1957 ..	12½ per cent. ..	10, 16½, 25 and 30 per cent.
4th September, 1957, to 15th November, 1960 ..	12½ per cent. ..	8½, 16½, 25 and 30 per cent.
16th November, 1960, to 21st February, 1961 ..	12½ per cent. ..	8½, 16½, 25 and 40 per cent.
22nd February, 1961, to 15th August, 1961 ..	12½ per cent. ..	8½, 16½, 25 and 30 per cent.
16th August, 1961, to 6th February, 1962 ..	12½ per cent. ..	2½, 16½, 25 and 30 per cent.
7th February, 1962, to 11th August, 1964 ..	12½ per cent. ..	2½, 22½ and 25 per cent.
From 12th August, 1964	12½ per cent. ..	2½ and 25 per cent.

Particulars of the net amount of sales tax payable and the sales of taxable and exempt goods in each State for 1963-64 are given in the following table. The figures relate to sales during the period 1st July to 30th June. The figures for sales tax payable differ from those for net collections shown on page 903 because the latter include some adjustments in respect of earlier tax years and relate to tax payable on returns lodged during the year, which in general cover sales for the period June to May.

SALES TAX AND AMOUNT OF SALES, 1963-64

(£'000)

Particulars	N.S.W. (a)	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N. Terr.	Australia

Total sales of Taxable and Exempt Goods ..	1,694,605	1,265,532	558,289	350,167	267,979	111,476	6,583	4,254,631
Sales tax payable ..	65,308	49,220	21,735	14,797	10,320	2,793	124	164,297

(a) Includes Australian Capital Territory.

Sales of taxable and exempt goods and sales tax payable for Australia as a whole are shown in the following table for the years 1959-60 to 1963-64.

SALES TAX AND AMOUNT OF SALES

(£'000)

Year of sale				Net sales on which sales tax was payable	Sales of exempt goods by registered persons	Total sales of taxable and exempt goods	Sales tax payable
1959-60	1,020,033	2,354,204	3,374,237	167,839
1960-61	1,040,552	2,447,126	3,487,678	171,584
1961-62	1,049,841	2,415,896	3,465,737	148,565
1962-63	1,151,338	2,627,091	3,778,429	157,132
1963-64	1,196,420	3,058,211	4,254,631	164,297

In the foregoing tables sales include goods transferred to stock for sale by retail, goods imported by persons other than registered taxpayers, and goods used in the business of the taxpayer. Exempt sales relate to goods exempted from sales tax under the *Sales Tax (Exemptions and Classifications) Act 1935-1964*. The figures shown do not represent the total sales of all commodities, as vendors trading only in exempt goods are not required to be registered, and consequently the volume of their sales is not included in the statistics above. In addition, non-taxable sales (i.e., goods sold by one registered taxpayer to another registered taxpayer) are excluded.

(c) *Land Tax*. Commonwealth Land Tax was levied annually from 1910-11 to 1951-52 on the unimproved value of land. It was abolished from 1st July, 1952.

(d) *Pay-roll Tax*. The *Pay-roll Tax Act 1941* and the *Pay-roll Tax Assessment Act 1941-1942* imposed a pay-roll tax of 2½ per cent. on all wages and salaries in excess of £20 a week paid by an employer after 30th June, 1941. Employers who are liable for tax are required to register and to furnish a monthly return of all wages paid. These measures formed part of the Commonwealth scheme of child endowment, the revenue from the tax being designed to provide part of the money required. However, the collections now form part of the general revenues of the Commonwealth. For particulars of the present method of financing the National Welfare Fund, out of which Child Endowment is paid, see para. 5, pages 914-15. The exemption was increased to £80 a week (£4,160 per annum) from 1st October, 1953, to £120 a week (£6,240 per annum) from 1st September, 1954, and to £200 a week (£10,400 per annum) from 1st September, 1957. Employers whose export sales have increased above the annual average of export sales effected during a base period of two years ended 30th June, 1960, are entitled under the Commonwealth Government's export incentive scheme to a rebate of pay-roll tax of twelve and one half times the percentage increase in export sales.

(e) *Income Taxes*. Details of taxes on income are given in the division, Taxes on Income at the end of this chapter.

(f) *Wool Sales Deduction*. The Wool Sales Deduction scheme operated from 2nd December, 1950, until 17th November, 1951. For particulars, see Year Book No. 46, page 819.

(g) *Estate Duty*. Commonwealth Estate Duty was first levied in 1914. Under the *Estate Duty Assessment Act 1914-1963*, Estate Duty is assessed on the net value of the estate less a statutory exemption determined in accordance with the following formula:—
(a) where the whole of the estate passes to the widow, children (including adopted children, step-children and ex-nuptial children), or grand-children of the deceased, the sum of £10,000 decreasing by £1 for every £4 by which the value exceeds £10,000 and ceasing to apply at £50,000; (b) where no part of the estate passes to the widow, children or grand-children,

the sum of £5,000 decreasing by £1 for every £4 by which the value exceeds £5,000 and ceasing to apply at £25,000; and (c) where only part of the estate passes to the widow, children or grand-children, the statutory exemption is to be calculated proportionately under (a) and (b).

An amendment to this Act, assented to on 20th November, 1957, provided for rebates of duty on estates which become liable for duty on two or more occasions within a period of five years.

The rates of duty levied under the *Estate Duty Act 1914-1941* increase as the value of the estate increases, as follows:—£1 to £10,000, 3 per cent.; £10,001 to £20,000, 3 per cent. to 6 per cent.; £20,001 to £120,000, 6 per cent. to 26 per cent.; £120,001 to £500,000, 26 per cent. to 27.9 per cent.; £500,001 and over 27.9 per cent.

Particulars of the number and value of estates and duty assessed, for each of the assessment years 1958-59 to 1962-63, are given in the following table.

ESTATE DUTY ASSESSMENTS

Particulars	1958-59	1959-60	1960-61	1961-62	1962-63
Number of estates	11,794	13,978	14,196	16,449	16,634
Gross value assessed £'000	202,899	233,560	244,976	279,382	294,153
Deductions £'000	35,589	40,453	45,683	47,725	53,366
Statutory exemption £'000	26,555	31,597	33,051	37,180	37,255
Dutiable value £'000	140,755	161,510	166,241	194,477	203,532
Duty payable £'000	13,013	14,116	15,589	17,164	18,994
Average dutiable value £	11,934	11,555	11,710	11,823	12,236
Average duty per estate £	1,103	1,010	1,098	1,043	1,142

(h) *Gift Duty.* The *Gift Duty Act 1941-1947* and the *Gift Duty Assessment Act 1941-1963* impose a gift duty on all gifts made after 29th October, 1941. A gift has been defined as any disposition of property which is made otherwise than by will without adequate consideration in money or money's worth. There is a liability on both the donor and the donee to furnish a return, and both are jointly and severally liable for payment of the duty.

The following rates of duty are levied under the *Gift Duty Act 1941-1947* and relate to the value of all gifts made by the donor within a period of eighteen months:—not exceeding £2,000, nil; £2,001 to £10,000, 3 per cent.; £10,001 to £20,000, 3 per cent. to 6 per cent.; £20,001 to £120,000, 6 per cent. to 26 per cent.; £120,001 to £500,000, 26 per cent. to 27.9 per cent.; £500,001 and over, 27.9 per cent.

An amendment which operated from 3rd June, 1947, provides that gift duty shall not exceed one-half of the amount by which the value of the gift exceeds £2,000.

(i) *Entertainments Tax.* The Commonwealth levied an Entertainments Tax from 1st October, 1942, to 30th September, 1953. Details of rates are given in earlier issues of the Year Book (see No. 40, pp. 672-3).

(j) *Wool Tax.* The *Wool Tax Act 1936* and *Wool Tax Assessment Act 1936* provided for a levy on all wool grown in Australia and shorn on or after 1st July, 1936. Details of this levy are given in earlier issues of the Year Book. This levy was suspended from 1st July, 1946, until 30th June, 1952, while the Wool Contributory Charge was imposed.

With the repeal of the Wool Contributory Charge, however, a levy on wool produced in Australia was re-introduced from 1st July, 1953. The *Wool Tax Acts (Nos. 1 and 2)* of 1952 provided for the payment of a levy of four shillings a bale until 30th June, 1953, after which date the rate of tax could be varied within prescribed limits. There was no variation until 1st July, 1957, when the rate was increased to six shillings a bale. On 1st August, 1960, the rate prescribed was raised to seven shillings a bale which was retained until 28th August, 1961, when a rate of twelve shillings a bale was introduced; the latter rate continued in force until 30th June, 1964. The purpose of the tax is to provide funds for wool promotion and research previously provided by the Wool Contributory Charge. Collections during 1959-60, 1960-61, 1961-62, 1962-63 and 1963-64 were £1,542,000, £1,655,000, £2,854,000, £2,955,000 and £3,179,000 respectively.

The *Wool Tax Act (No. 1) 1963* and *Wool Tax Act (No. 2) 1963* and the *Wool Tax Assessment Act 1963* were repealed, ceasing to operate on 30th June, 1964. They were replaced by *Wool Tax Acts (Nos. 1 to 5) 1964* and *Wool Tax Administration Act 1964*, which, as from 1st July, 1964, imposed the woolgrowers' levy for promotion and research as a percentage of the gross sale value of wool, in contrast to the previous levy of a unit charge per bale of wool produced. The new legislation provided for a maximum levy of 2 per cent. and for prescribing the operative rate by regulation, after the Minister has received a recommendation on the rate from the Australian Wool Industry Conference (see Chapter XXIII. Rural Industry).

The rate prescribed for 1964–65 was $1\frac{3}{4}$ per cent., which incorporated an increase in the woolgrowers' combined levy for promotion and research from 12s. a bale under the old legislation to the equivalent of about 29s. a bale (see Chapter XXIII. Rural Industry).

(k) *Wool Contributory Charge.* The *Wool (Contributory Charge) Act 1945* and the *Wool (Contributory Charge) Assessment Act 1945* imposed a charge on all wool produced in Australia and sold, manufactured or exported. Wool sold by the Australian Wool Realization Commission was not liable to the charge. Details of the rate of the charge and collections made were given in earlier issues of the Year Book (see No. 40, p. 675).

The various *Wool (Contributory Charge) Acts* were repealed by the *Wool Tax Assessment Act 1952* and the charge superseded by the wool levy.

(l) *Wheat Export Charge and Wheat Tax.* A summary of the provisions of the *Wheat Export Charge Acts 1946, 1948, 1952* and 1954 is contained in previous issues of the Year Book (see No. 40, p. 676, No. 41, p. 604 and No. 46, p. 820).

The *Wheat Export Charge Act 1963* repealed the *Wheat Export Charge Act 1958* and provided for an export charge on wheat and wheat products for the seasons 1963–64 to 1967–68 inclusive. The charge which may be levied is the excess of the export price over the cost of production or 1s. 6d. per bushel, whichever is the less. Under the *Wheat Industry Stabilization Act 1963* to which the *Wheat Export Charge Act* is complementary, the Commonwealth Government guarantees a return to wheat-growers of the ascertained cost of production of up to 150 million bushels of wheat harvested each season exported from Australia. Collections from the wheat export charge are paid into the *Wheat Prices Stabilization Fund*, out of which payments will be made to the Australian Wheat Board, when required, for the purpose of building up the average export price for any season to the guaranteed price. If the fund is exhausted, additional payments will be made from the Consolidated Revenue Fund.

As the return from exports has been below the guaranteed price, there have been no collections of the wheat export charge since the 1956–57 (No. 20) Pool when £1,589,000 was collected.

The *Wheat Tax Act 1957* imposed a tax of $\frac{1}{4}$ d. for each bushel of wheat—

- (a) which has been delivered to the Wheat Board on or after the first day of October, 1956, and before the date of commencement of the Act; or
- (b) which is delivered to the Wheat Board on or after that date.

The Act also provided that where, before the commencement of the Act, a person delivering to the Board wheat upon which tax is imposed by the Act authorized the Board to deduct an amount from the moneys payable to him and to pay the amounts so deducted to a person, authority or association for the purposes of soil fertility research or other research likely to benefit the wheat industry. and the Board did so, the tax otherwise payable upon that wheat is to be reduced by the amount so deducted.

The *Wheat Research Act 1957* provided for the establishment of a *Wheat Research Trust Account* to receive moneys payable under the *Wheat Act 1957*, and for the setting up of a *Wheat Industry Research Council* to direct the expenditure of moneys from that Trust Account for research, etc., to benefit the wheat industry.

Collections of *Wheat Tax* amounted to £187,000 in 1959–60, £261,000 in 1960–61, £234,000 in 1961–62, £297,000 in 1962–63 and £319,000 in 1963–64 and were paid to the *Wheat Research Trust Account*.

(m) *Miscellaneous Export Charges.* These consist of charges levied on exports of apples and pears (*Apple and Pear Export Charges Act 1938–1960*), canned fruits (*Canned Fruits Export Charges Act 1962–1963*), dairy produce (*Dairy Produce Export Charge Act 1924–1962*), dried fruits (*Dried Fruits Export Charges Act 1924–1929*), eggs (*Eggs Export Charges Act 1947*) and meat (*Meat Export Charges Act 1935–1954*), and on grapes used in the manufacture of wine (*Wine Grapes Charges Act 1929–1957*). The collections are paid into special funds to be applied, for the purposes of Export Boards established under various Acts, in controlling the quantity and quality of produce exported.

Collections for the last five years were as follows:—1959–60, £540,000; 1960–61, £529,000; 1961–62, £618,000; 1962–63, £826,000; and 1963–64, £923,000.

(n) *Stevedoring Industry Charge*. The *Stevedoring Industry Charge Act 1947* and the *Stevedoring Industry Charge Assessment Act 1947* imposed a charge of 4½d. a man-hour on the employer of a waterside worker after 22nd December, 1947.

The amounts received are paid to the Stevedoring Industry Board for the payment of attendance money to waterside workers and for other expenses of the Board.

Since 1947 the charge has been amended as follows:—11th October, 1949, a reduction to 2½d. a man-hour; 11th December, 1951, an increase to 4d. a man-hour; 28th October, 1952, an increase to 11d. a man-hour; 4th May, 1954, a reduction to 6d. a man-hour; 30th October, 1956, an increase to 1s. 7d. a man-hour; and from 21st May, 1957, an increase to 2s. a man-hour.

Further amendments under the Stevedoring Industry Charge Acts of 1958 and 1962 provided for an increase of the charge to 3s. a man-hour from 1st April, 1958, until 1st July, 1959, a reduction to 2s. 6d. a man-hour between 1st July, 1959 and 1st April, 1962, and an increase to 3s. 4d. a man-hour on or after 1st April, 1962.

Collections during the years 1959–60 to 1963–64 were as follows:—1959–60, £3,717,000; 1960–61, £3,844,000; 1961–62, £3,433,000; 1962–63, £4,493,000; and 1963–64, £5,161,000.

(o) *Tobacco Charge*. The *Tobacco Charge Acts* (Nos. 1, 2 and 3) 1955 and the *Tobacco Charges Assessment Act 1955*, which came into operation on 1st January, 1956, provided for charges on tobacco leaf grown in Australia.

The *Tobacco Charge Act* (No. 1) 1955 imposed a maximum charge of ½d. a pound on all Australian tobacco leaf sold to a manufacturer.

The *Tobacco Charge Act* (No. 2) 1955 imposed a charge at twice the rate to be levied under the *Tobacco Charge Act* (No. 1) on all Australian tobacco leaf purchased by a manufacturer.

The *Tobacco Charge Act* (No. 3) 1955 imposed a charge on all Australian tobacco leaf grown by a manufacturer and appropriated by him for manufacturing purposes. Where the manufacturer grew, in Australia, not less than nine-tenths of the tobacco leaf used by him in manufacturing, the charge was at the rate imposed by the *Tobacco Charge Act* (No. 1). In other cases, the charge was at twice that rate.

The charges collected under the *Tobacco Charges Assessment Acts 1955* and 1962 are paid into the Tobacco Industry Trust Account which was established by the *Tobacco Industry Act 1955*. Moneys in this account are used for the promotion of the tobacco industry.

Collections in 1959–60, 1960–61, 1961–62, 1962–63 and 1963–64 amounted to £112,000, £136,000, £164,000, £120,000 and £174,000 respectively.

(p) *Dairy Produce Levy*. The *Dairy Produce Levy Act 1958* imposed a levy on the manufacture of butter and cheese for the purpose of financing a research and sales promotion scheme for the dairy industry. The maximum rates of the levy are fixed at three-sixteenths of a penny a pound on butter and three-thirty-seconds of a penny on cheese. In 1959–60, 1960–61, 1961–62, 1962–63, and 1963–64 collections amounted to £334,000, £350,000, £390,000, £395,000 and £396,000 respectively.

(q) *Canning Fruit Charge*. The *Canning Fruit Charge Act 1959* imposed a levy on apricots, peaches and pears accepted by canneries as of canning quality or for use in the production of canned fruit, for the purpose of promoting the sale of Australian canned fruits both overseas and in Australia. The rate of the charge was ten shillings per ton of fruit delivered to canneries or such lesser rate as may be prescribed from time to time. Rates applied during 1963–64 were 7s. 6d. per ton to 30th November, 1963 and 5s. per ton from 1st December, 1963, to 30th June, 1964. In 1959–60, 1960–61, 1961–62, 1962–63 and 1963–64 collections amounted to £35,000, £30,000, £45,000, £71,000 and £30,000 respectively.

(r) *Cattle Slaughter Levy*. The *Cattle Slaughter Levy Act 1960* imposed a levy upon the slaughter of cattle for human consumption at rates to be prescribed from time to time but not exceeding two shillings per head of cattle slaughtered. The proceeds of this levy may be expended on purposes associated with scientific, economic, or technical research related to the raising of cattle or the production or distribution of beef and other products of the slaughter of cattle. In 1960–61, 1961–62, 1962–63 and 1963–64 collections amounted to £84,000, £210,000, £406,000 and £440,000, respectively.

(s) *Honey Levy.* The *Honey Levy Act 1962* imposed a levy on honey sold for domestic consumption in Australia at the initial operative rate of one halfpenny a pound and provided for a maximum rate of one penny a pound. The proceeds of this levy may be expended on the regulation of Australian exports of honey and on associated promotional and research activities. In 1962-63 and 1963-64 collections amounted to £3,000 and £41,000, respectively.

3. *Business Undertakings.*—(i) *Postmaster-General's Department.* Particulars of net receipts for each of the financial years 1959-60 to 1963-64 are given in the following table.

POSTMASTER-GENERAL'S DEPARTMENT: NET RECEIPTS
(£'000)

Particulars	1959-60	1960-61	1961-62 (a)	1962-63	1963-64
Postal	40,531	44,211	47,104	49,427	52,977
Telegraph	6,804	7,275	7,448	7,919	8,627
Telephone	71,209	81,114	85,166	92,315	102,782
Miscellaneous	3,087	3,565	96	1,028	1,046
Total	121,631	136,165	139,814	150,689	165,432

(a) Owing to changes in accounting practices, exact comparisons cannot be made with previous years.

(ii) *Broadcasting and Television Services.* Following the amendment of the *Australian Broadcasting Act 1942-1946* by Act No. 64 of 1948, the Australian Broadcasting Control Board was set up on 15th March, 1949. (See also Chapter XV. Transport and Communication, pp. 594-602).

Details of net receipts for the years 1959-60 to 1963-64 are shown in the following table.

BROADCASTING AND TELEVISION SERVICES: NET RECEIPTS
(£'000)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Listeners' licence fees	5,656	5,536	5,413	5,434	5,520
Broadcasting station licence fees	88	104	97	107	118
Television viewers' licence fees	4,624	5,781	6,626	7,778	8,677
Television station licence fees	38	65	91	91	116
Wireless telegraphy fees	43	61	67
Miscellaneous	54	67	83	103	129
Total	10,460	11,553	12,353	13,574	14,627

(iii) *Commonwealth Railways.* The Commonwealth Government is responsible for four railways—the Trans-Australian, the Central Australia, the North Australia and the Australian Capital Territory. The following table shows the amounts paid to the credit of the Consolidated Revenue Fund on account of each of these railways for the years 1959-60 to 1963-64.

COMMONWEALTH RAILWAYS REVENUE
(£'000)

Railway	1959-60	1960-61	1961-62	1962-63	1963-64
Trans-Australian	3,249	4,091	4,187	4,493	5,220
Central Australia	1,601	1,867	1,821	2,251	2,369
North Australia	272	149	155	148	182
Australian Capital Territory	25	42	59	45	59
Total	5,147	6,149	6,222	6,937	7,830

Further particulars to 1963-64 are given in Chapter XV. *Transport and Communication* (see pp. 555-6 and 558-9).

4. **Other Sources of Revenue.**—Revenue derived by the Consolidated Revenue Fund from the Territories of the Commonwealth during 1963-64 amounted to £9,519,000 (Australian Capital Territory, £7,043,000; Northern Territory, £2,472,000; Cocos (Keeling) Islands, £4,000). Of other sources of revenue, amounting to £97,860,000, the following are noteworthy:—interest, £24,096,000; defence, £14,224,000; net profit on Australian note issue, £13,491,000.

For details of the revenue of the Territories see Chapter V. of this Year Book.

EXPENDITURE

1. **Details of Expenditure from Consolidated Revenue.**—The following table shows details of expenditure from the Consolidated Revenue Fund during the years 1959-60 to 1963-64 classified by function and economic type. This presentation, which represents a re-classification of Commonwealth Consolidated Revenue Fund expenditure in National Accounts form, has replaced previous forms of presentation which summarized Treasury accounting statements.

CONSOLIDATED REVENUE FUND: EXPENDITURE, BY FUNCTION AND ECONOMIC TYPE
(£'000)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64

Grand Total	1,438,286	1,638,279	1,641,542	1,685,386	1,904,688

(a) Includes capital expenditure on goods and services (see table on page 917). (b) Excludes War Service Homes, included in Housing. (c) Includes expenses of undertakings in Northern Territory and Australian Capital Territory. (d) Includes grant to Administration of Papua and New Guinea and grants under Colombo Plan, United Nations Technical Assistance Administration, etc. (e) Excludes loan management expenses included in other functions.

Further details of the expenditure in each section are given in paragraphs 2 to 11 following.

2. Defence Services.—Details of the expenditure on defence services, including works and services, but excluding debt charges, etc., by the Departments of Defence, Navy, Army, Air and Supply are shown in the following table. This table covers expenditure from Consolidated Revenue and Loan Funds by the service and associated departments only, and includes the cost of maintaining forces in oversea posts. In recent years there has been no expenditure on defence services from Trust Funds. Re-allocation of items has caused revision to some of the figures which appeared in previous issues.

(a) Excludes expenditure on debt charges, audit charges, pension and superannuation payments and Defence Division of the Department of the Treasury.

NOTE.—Minus sign (—) denotes an excess of receipts over expenditure.

3. **War and Repatriation Services.**—Expenditure from Consolidated Revenue and Loan Funds for war and repatriation services (excluding debt charges) in relation to both the 1914–18 and 1939–45 Wars is shown in the following table for the years 1959–60 to 1963–64. Expenditure on the maintenance of forces in oversea posts and the cost of arms and equipment is included in Defence Services. Re-allocation of items has caused revision to some of the figures which appeared in previous issues.

**WAR AND REPATRIATION SERVICES: COMMONWEALTH EXPENDITURE
FROM CONSOLIDATED REVENUE AND LOAN FUNDS**

Grand Total	128,404	133,880	139,701	147,690	159,514

(a) Included in Housing in table on p. 911. (b) In this year repayments amounting to £4,222,000 were credited to Consolidated Revenue receipts; in previous years corresponding credits were made to Loan Fund expenditure.

4. **Subsidies and Bounties.**—The following table shows details of Commonwealth expenditure from revenue on assistance to primary producers, subsidies and bounties for the years 1959–60 to 1963–64. Expenditure on special relief such as drought, frost, flood and bush fire, etc., is not included here (included as cash benefits to persons in table, p. 911), nor is expenditure from the proceeds of certain taxes on primary products and profits from marketing schemes, which have been paid to trust funds for the purpose of price or other stabilization schemes or for distribution to producers (see paragraph 11, p. 926). Payments to the States for Cattle Tick Control, Dairy Industry Extension and Agricultural Advisory Services are also not included under this heading, but under the heading Grants to the States (see para. 10, pp. 917–24).

Further information relating to assistance to primary producers is given in Chapter XXIII. Rural Industry. Details of price stabilization subsidies and of various forms of assistance to primary producers for earlier years may be found on pages 414 and 1014–15, respectively, of Year Book No. 38.

(a) Dairy products.

5. Health and Welfare—Cash Benefits to Persons.—(i) *National Welfare Fund*. The National Welfare Fund was established for the purpose of providing a fund for the payment of Commonwealth social services benefits. During the year 1949-50 an amount equivalent to the total collections of pay-roll tax and social services contribution was paid to the fund from Consolidated Revenue. During 1950-51 the social services contribution was amalgamated with the normal income tax, and it became necessary to base the contribution on another formula. For the year 1950-51 the amount paid to the fund was the total of collections of pay-roll tax and social services contribution plus £30,000,000. In 1951-52 the amount paid to the fund was the amount paid in 1950-51 increased in the same proportion as collections of pay-roll tax increased over the collections of pay-roll tax in 1950-51. By an amendment to the *National Welfare Fund Act* 1943-1950 the amount to be paid to the fund in 1952-53 and subsequent years was changed to the amount of moneys paid out of the fund. In addition to these payments from Consolidated Revenue the fund received interest from investments.

In the following table details are given of the income and expenditure of the National Welfare Fund and the balance in the fund at the end of each year for the years 1959-60 to 1963-64. For a detailed account of the establishment of the National Welfare Fund, the services provided and the numbers and amounts of benefits paid, see Chapter XVI, Welfare Services.

NATIONAL WELFARE FUND: RECEIPTS, EXPENDITURE AND BALANCES
(£'000)

Year	Income			Expenditure	Balance in fund at end of year
	Contribution from Consolidated Revenue	Interest on investments	Total		
1959-60	299,363	2,002	301,365	299,363	200,999
1960-61	330,604	2,017	332,621	330,604	203,016
1961-62	365,191	2,037	367,228	365,191	205,053
1962-63	379,295	2,059	381,354	379,294	207,113
1963-64	416,348	2,078	418,426	416,348	209,191

Contributions to rental losses under the Commonwealth and States Housing Agreement amounting to £352,000 in 1960-61, £65,000 in 1961-62, £19,000 in 1962-63 and £23,000 in 1963-64 are included in the figures above but are classified in the table on page 911 to Housing.

(ii) *Other Cash Benefits.* Other items classified to this function include annual appropriations for general welfare services in the Northern Territory and special Commonwealth payments provided from time to time to assist State schemes for the relief of personal hardship and distress caused by serious floods, cyclones or bush fires in the States and for restoration of damaged public assets such as roads and bridges.

6. *Loan Consolidation and Investment Reserve Trust Account.*—The *Loan Consolidation and Investment Reserve Act 1955* established the Loan Consolidation and Investment Reserve Trust Account for the purpose of repurchase or redemption of securities on issue on account of the Commonwealth.

Payments from the Consolidated Revenue Fund were made as follows:—1959-60, £41,382,000; 1960-61, £142,561,000; 1961-62, £22,155,000; 1962-63, £26,378,000; and 1963-64, £14,875,000. Expenditure from the Trust Account on repurchase of securities was £79,885,000 in 1959-60; £30,899,000 in 1960-61; £67,847,000 in 1961-62; £103,782,000 in 1962-63; and £28,070,000 in 1963-64. The major portion of the balance of the Trust Account at 30th June, 1964, was invested in Commonwealth securities in special loans to finance Commonwealth and State works programmes.

7. *Business Undertakings.*—(i) *Postmaster-General's Department.* Details of the expenditure of this Department for the years 1959-60 to 1963-64 are given in the following table.

POSTMASTER-GENERAL'S DEPARTMENT: EXPENDITURE FROM
CONSOLIDATED REVENUE FUND
(£'000)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Works services	39,937	42,145	47,939	65,593	70,283
Mail services (by outside agencies)	9,637	10,376	10,885	11,518	12,076
Engineering services (other than works services)	40,604	41,006	43,185	34,406	38,675

Additional details of the financial operations of the Commonwealth Railways to 1963-64 are given in Chapter XV. Transport and Communications (*see pp. 555 and 557-9*).

8. *Territories.*—The following table shows the expenditure on account of Commonwealth Territories for the years 1959-60 to 1963-64. The Australian Capital Territory is administered by the Department of the Interior, and the Department of Territories controls the Northern Territory and the external territories. The expenditure has been grouped in one table for convenience. Information in greater detail will be found in Chapter V. The Territories of Australia, of this Year Book.

**COMMONWEALTH TERRITORIES: EXPENDITURE FROM
CONSOLIDATED REVENUE FUND
(£'000)**

Territory	1959-60	1960-61	1961-62	1962-63	1963-64
Administration and main- tenance of services—

(a) Excludes Railways, *see para. 7 (iii), above.*

9. **Capital Expenditure on Goods and Services.**—In the following table, details are given of capital expenditure on goods and services during each of the years 1959–60 to 1963–64. The table covers capital expenditure on goods and services for purposes other than defence and repatriation services (previously included) from the Consolidated Revenue Fund. In earlier issues of the Year Book, tables on works services expenditure also covered expenditure from Trust and Loan Funds.

10. **Payments to or for the States.**—(i) *General.* An outline of the provisions of the Constitution requiring the Commonwealth to make payments to the States, and of the systems which followed, is given in earlier issues of the Year Book (*see* No. 37, pp. 633 to 638).

A distinction is made for the first time in this Year Book between (a) direct Commonwealth financial assistance to the States in the form of grants to provide revenue for general and specific purposes, and (b) those forms of assistance for developmental and other specific purposes which include, in part or in total, payments made in the form of repayable advances. Some items such as natural disaster payments, tuberculosis hospital maintenance, and coal mining industry long service leave, previously treated as payments to or for the States and accordingly included in the following tables, have now been reclassified to other functions and excluded from the tables. The following paragraphs refer to the existing arrangements, both as to grants and repayable advances.

(ii) *Grants.* (a) *Year 1963–64.* The table below shows particulars of the amounts paid to each of the States as grants for the several purposes referred to in subsequent paragraphs (pp. 920–4).

GRANTS TO THE STATES FROM CONSOLIDATED REVENUE FUND, 1963-64
(£'000)

(a) Includes non-recurring grants from excess receipts, but excludes payments on account of the Morgan-Whyalla Waterworks, amounts provided for relief of wheat-growers and other primary producers, and other payments for medical research, social services, etc. (b) Under various States Grants Acts. (c) Under States Grants (Income Tax Reimbursement) Act 1942. (d) Under States Grants (Entertainments Tax Reimbursement) Act 1942. (e) Under States Grants (Tax Reimbursement) Act 1946-1948. (f) Under States Grants (Additional Tax Reimbursement) Act 1950. (g) Under States Grants (Special Financial Assistance) Acts 1951 and 1952. (h) Under States Grants (Additional Assistance) Act 1958. (i) Under States Grants Acts 1959 and 1962. (j) Under States Grants (Additional Assistance) Act 1962. (k) Includes payments for unemployment relief, metalliferous mining, forestry, local public works, grants for price control reimbursement, coal strike emergency grant, grants for imported houses, Port Augusta-Port Pirie railway, Western Australian waterworks, cattle tick control, dairy industry extension, agricultural advisory services, cattle roads, coal-loading works, eradication of house borers, brigalow lands, cattle dip chemicals, tobacco industry extension services, etc. (l) Under Main Roads Development, Federal Aid Roads, Federal Aid Roads and Works and Commonwealth Aid Roads Acts. (m) Expenditure not allocable between States. (n) Under the Railway Standardization (South Australia) Agreement Act 1949, the Railway Standardization (New South Wales and Victoria) Agreement Act 1958, the Railway Equipment Agreement (South Australia) Act 1961 and the Railway Agreement (Western Australia) Act 1961.

(iii) *Repayable Advances.* (a) Year 1963-64. The table below shows particulars of the amounts paid to each of the States as repayable advances for the several purposes referred to in subsequent paragraphs (pp. 920-4).

ADVANCES TO THE STATES FROM CONSOLIDATED REVENUE FUND, 1963-64
(£'000)

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Total

Total	1,362	4,669	2,439	1,925	3,811	..	14,206

The figures in the tables above represent gross advances, and take no account of repayments made by the States.

(iv) *Financial Agreement.* Details of the Financial Agreement between the Commonwealth and the States are given in Year Book No. 37, pages 685-90. Under this Agreement the Commonwealth undertook to contribute £7,584,912 per annum towards interest payable on the State loan securities for a period of 58 years from 1st July, 1927. This amount is distributed among the States as follows:—New South Wales, £2,917,411; Victoria, £2,127,159; Queensland, £1,096,235; South Australia, £703,816; Western Australia, £473,432; Tasmania, £266,859.

These amounts are equal to the sums paid by the Commonwealth to each State in the year 1926-27 at the rate of 25s. per head of population, the rate at which the Commonwealth had contributed annually to the States since 1st July, 1910, as compensation for the States relinquishing, after federation, the right to levy customs and excise duties.

In addition, under the Financial Agreement, the Commonwealth agreed to make certain contributions to the National Debt Sinking Fund for redemption of State loan securities. Details of these are given on pages 967-8 of this chapter.

(v) *Special Grants.* The Constitution provides in Section 96 for the granting of special financial assistance to the States. Prior to 1933, financial assistance of varying amounts was granted by the Commonwealth to South Australia, Western Australia and Tasmania. Details of this may be found in earlier issues of the Year Book (*see* No. 40, p. 695).

In 1933 the Commonwealth Government appointed the Commonwealth Grants Commission of three members to inquire into and report upon claims made by any State for a grant of financial assistance and any matters relevant thereto.

Applications have been received from South Australia, Western Australia and Tasmania each year from 1933 onwards, and the recommendations of the Commission in respect of the years 1960-61 to 1964-65 are shown in the following table. Commencing with 1949-50 the Commission has divided the grants recommended into two parts. One part is the Commission's estimate of the indispensable need of the claimant State for the year in which the payment is to be made after allowing a sufficient margin for safety. The other part is an adjustment of this estimate for an earlier year after an examination of the audited accounts for that year. Thus the grants for 1964-65 include an estimate of the indispensable need of the claimant State for 1964-65 and an adjustment to the estimated grant for 1962-63. South Australia agreed with the Commonwealth not to apply for special grants in other than exceptional circumstances after 1st July, 1959, when new financial arrangements under the *State Grants Act 1959* came into operation (*see* sub-para. (vi) below).

COMMONWEALTH GRANTS COMMISSION: GRANTS RECOMMENDED

Grand Total	8,618	11,231	11,251	11,450	15,860

(a) Adjustment to estimated grant paid two years previously.

(vi) *Financial Assistance Grants.* The *States Grants Act 1959* repealed the *States Grants (Tax Reimbursement) Acts* of 1946, 1947 and 1948, and provided for payment of financial assistance to the States in 1959-60 amounting to £244,500,000 to be distributed among the States as follows:—New South Wales, £83,450,000; Victoria, £60,625,000; Queensland, £36,375,000; South Australia, £27,675,000; Western Australia, £25,462,000; Tasmania, £10,913,000. In subsequent years the financial assistance grant payable to each State has been determined by increasing its grant for 1959-60 in accordance with a formula which takes into account movements in population in each State and the increases (if any) in the level of average wages per person employed as shown in returns submitted under the *Pay-roll Tax Assessment Act 1941-1963*.

Details of the *States Grants (Income Tax Reimbursement) Act 1942* and the *States Grants (Entertainments Tax Reimbursement) Act 1942* are given in earlier issues of the Year Book (*see* No. 37, pp. 635-7). These Acts provided for grants to the States as compensation for vacating the fields of income tax and entertainments tax. Grants under these Acts ceased after 1945-46 and were replaced by grants under the *States Grants (Tax Reimbursement) Act 1946-1948* which expired after 1958-59. *See* Year Book No. 46, pages 837-8.

(vii) *Special Financial Assistance Grants.* During the years 1954–55 to 1958–59 special assistance grants amounting to £19,902,000, £15,348,000, £19,405,000, £24,145,000 and £30,437,000, respectively, were made to assist the States in meeting their increasing financial needs. For details of amounts paid to each State see earlier issues of the Year Book or the annual bulletin *Commonwealth Finance*.

(viii) *Additional Financial Assistance.* The *States Grants (Additional Assistance) Act 1958* provided for the payment of £5,000,000 from the Consolidated Revenue Fund for financial assistance to the States.

During 1961–62, 1962–63, and 1963–64 additional assistance grants of £10,000,000, £17,500,000 and £20,000,000, respectively, were provided for the States on a non-repayable basis under the authority of the *States Grants (Additional Assistance) Acts 1962* and 1963 for expenditure on employment-giving activities, mainly in the works field.

(ix) *Grants for Road Construction.* (a) *Main Roads Development Act 1923–1925, Federal Aid Roads Acts 1926, 1931 and 1936, Federal Aid Roads and Works Act 1937, Commonwealth Aid Roads and Works Act 1947–1949, Commonwealth Aid Roads Act 1950, Commonwealth Aid Roads Act 1954, and Commonwealth Aid Roads (Special Assistance) Act 1957.* Details of these Acts are given in earlier issues of the Year Book (see No. 38, pp. 787–8, No. 41, p. 62, and No. 46, p. 838) and in the annual bulletin *Commonwealth Finance*.

(b) *Commonwealth Aid Roads Act 1959.* A new scheme of Commonwealth assistance to the States for roads was established by the *Commonwealth Aid Roads Act 1959*. Under this Act, which is to operate for a period of five years from 1st July, 1959, the Commonwealth has undertaken to make available up to £250,000,000 to the States for the construction, reconstruction, maintenance and repair of roads.

Of this amount, a total of £220,000,000 will be paid to the States as basic grants for roads over five years. The basic grants are fixed annual amounts which rise progressively by £2,000,000 a year from £40,000,000 in 1959–60 to £48,000,000 in 1963–64. In each year the grants will be distributed between the States on the basis of 5 per cent. of the total to Tasmania and the balance shared between the other five States, one-third in proportion to their respective populations at the date of the last preceding Census, one-third in proportion to their respective areas, and one-third in proportion to the respective number of motor vehicles registered in these States at 31st December preceding the year of payment.

The balance of up to £30,000,000 over the five years will be made available to the States as matching assistance for roads. The total amounts of matching assistance increased by £2,000,000 a year from £2,000,000 in 1959–60 to £10,000,000 in 1963–64. Up to the limit of its share of the total matching assistance available in any year, each State qualifies for £1 of matching assistance from the Commonwealth for each £1 by which the amount it allocates in that year from its own resources for expenditure on roads exceeds the amount so allocated in 1958–59. The share of each State in the total matching assistance available in any year is determined by the same formula as is used to determine its share of the basic grant in that year.

The full amount of the matching assistance available to each State in any year is being paid during that year on the understanding that the road grants to the State in the following year will be adjusted if it is subsequently found that the State did not qualify in full for the matching assistance paid to it in that year.

The legislation relating to the years 1947–48 to 1958–59 provided for annual allocations to the Commonwealth for expenditure on strategic roads and the promotion of road safety practices. No such provisions are contained in the legislation current at 30th June, 1964, as the Commonwealth makes separate provision for these purposes.

(x) *Tuberculosis Act 1948.* The *Tuberculosis Act 1948* provided for the reimbursement by the Commonwealth of capital and maintenance expenditure incurred by the States in the provision of facilities for the diagnosis, treatment and control of tuberculosis.

Re-imbursments from the National Welfare Fund of maintenance expenditure on tuberculosis hospitals are classified as cash benefits under Health and Welfare expenditure, and they equal the amounts by which such expenditures of the States in any financial year exceed those for the year 1947–48. As from 1st July, 1948, the States have also been reimbursed from annual appropriations of the Department of Health for all their capital expenditure on buildings, furnishings, equipment and plant.

(xi) *States Grants (Mental Institutions) Act 1955.* This Act provides for financial assistance to the States for capital expenditure on mental institutions to a maximum amount of £10,000,000. Each State is entitled to one-third of expenditure made on or after 1st July, 1955, on buildings or equipment of a mental institution.

(xii) *Other Payments. (a) Encouragement of Meat Production.* To develop meat production in Queensland and Western Australia, grants were made to these States for the provision and improvement of roads and other facilities for the movement of live-stock. Provision is made for the Commonwealth to meet the cost of the construction and improvement of certain specified roads in both States and the construction of eight cattle loading and unloading points in Queensland. Provision is also made for the Commonwealth to meet half the cost of improving watering facilities on specified stock routes in both States. The amount of the grants for improving watering facilities on stock routes was limited to £150,000 in Queensland and £50,000 in Western Australia.

(b) *Grants to Universities.* Payments to the States for universities were first introduced in 1951-52 under the *States Grants (Universities) Act 1951*, and were continued under similar legislation passed in 1953, 1955, 1956 and 1957. Following on the Government's acceptance of the main recommendations of the Committee on Australian Universities, the provisions of the 1957 Act relating to financial assistance for 1958 were superseded by the *States Grants (Universities) Act 1958*, which operated from 1st January, 1958.

This legislation authorized the Commonwealth to make payments to the States for universities of up to £21,400,000 over the three calendar years 1958 to 1960, inclusive, where certain conditions have been satisfied. These payments include increased contributions towards the running expenses of universities, new grants for capital works and equipment and new emergency grants.

Under the *States Grants (Universities) Act 1960*, which carried on the principle of grants for capital works and equipment introduced in the 1958 legislation, payments of up to £42,000,000 over the three calendar years 1961, 1962 and 1963 were made to the States. The *Universities (Financial Assistance) Act 1963* provides for financial assistance to the States, for universities, of £58,400,000 over the three calendar years 1964, 1965 and 1966. (See also Chapter XIX. Education, Cultural Activities, and Research, pp. 719-23.)

(c) *Railway Projects.* Under the *Railway Standardization (South Australia) Agreement Act 1949* the Commonwealth is providing funds for the conversion of lines in the south-eastern division of the State as an initial step towards eventual standardization to 4' 8½" gauge. The State is to repay three-tenths of the cost of this work over a period of 50 years and is to bear the full cost of subsequent conversion from broad to standard gauge. Similar conditions apply to expenditures under the *Railway Equipment Agreement (South Australia) Act 1961*.

Under the *Railway Standardization (New South Wales and Victoria) Agreement Act 1958* the Commonwealth provided funds for the construction of the standard gauge rail link between Albury and Melbourne on the basis that the States of Victoria and New South Wales will each bear 15 per cent. of the cost by instalments over a period of 50 years.

The total expenditure on railway standardization (the 30 per cent. advances to the States and the 70 per cent. grants to the States) is charged to the works services vote of the Department of Shipping and Transport.

Under the *Railway Agreement (Western Australia) Act 1961* the Commonwealth is providing financial assistance for the construction of a standard gauge railway from Kwinana to iron ore deposits of Koolyanobbing and to Kalgoorlie.

(d) *Cattle Tick Control.* Since 1926-27 the Commonwealth has subsidized the cost of eradication and control of cattle tick in New South Wales. From 1950-51 the subsidy was increased on a £1 for £1 basis up to an agreed maximum.

(e) *Expansion of Agricultural Advisory Services.* These payments were introduced in 1952-53 to encourage expansion of agricultural advisory services by the State Departments of Agriculture and to promote increased farm efficiency.

(f) *Dairy Industry Extension Grant.* The Commonwealth provides financial assistance, with a maximum annual limit of £250,000, to promote improved farm practices in the dairy industry.

(g) *Cattle Roads Grants.* The *Queensland Grant (Beef Cattle Roads) Act 1961* provides for a grant of £5,000,000 to be paid to Queensland over the five-year period commencing 1st July, 1961, for expenditure on approved roads for the transport of beef cattle. Under the *Western Australia Grant (Beef Cattle Roads) Act 1961*, special grants were made to Western Australia for certain work on roads and bridges in the north of the State.

(h) *Western Australia Northern Development.* The Commonwealth provides financial assistance of up to £5,000,000 to the State of Western Australia under the *Western Australia Grant (Northern Development) Act 1958-1959* in respect of developmental expenditure by the State in the area of Western Australia north of the twentieth parallel of latitude during the period of five years commencing on 1st July, 1958. Under the scheme, Commonwealth assistance is provided in respect of projects, nominated by the State, which the Commonwealth is satisfied will contribute to the development of the area and which could not reasonably be expected to be carried out during the period of five years without the grant of Commonwealth assistance.

(i) *Western Australian Waterworks.* The *Western Australia Grant (Water Supply) Act 1948-1957* provides for grants to Western Australia not exceeding an aggregate of £5,000,000 for the development of the Agricultural Areas, Great Southern Towns and Goldfields Water Supply schemes. The amount provided by the Commonwealth was limited to half the total expenditure on the scheme. (See also pp. 252-3.)

(j) *Coal Loading Works—New South Wales.* Under the *Coal Loading Works Agreement (New South Wales) Act 1961*, the Commonwealth is providing financial assistance to New South Wales of up to £2,650,000, partly by way of repayable advances from the Consolidated Revenue Fund and partly by grants from the Coal Industry Fund of the Joint Coal Board, for improvements to coal loading facilities at Newcastle, Port Kembla and Balmain. In 1962-63 repayable advances amounted to £498,000 and grants to £302,000.

Queensland. Under the *Coal Loading Works Agreement (Queensland) Act 1962*, the Commonwealth agreed to assist the Queensland Government up to the amount of £200,000 to expedite improvements to coal loading facilities at the port of Gladstone. Assistance is to be by way of a repayable long-term advance of up to £100,000 and a grant of up to £100,000.

(k) *Brigalow Lands.* Under the *Brigalow Lands Agreement Act 1962* Commonwealth advances to the State of Queensland for specified works associated with the production of beef cattle and other primary products in the Fitzroy River Basin and the supply of beef for export were limited to £7,250,000 during the period of five years ending 30th June, 1967. Repayments over a twenty year period are to commence in 1968.

(l) *Flood Mitigation, New South Wales.* Commonwealth payments under the *New South Wales Grant (Flood Mitigation) Act 1964* are limited to £2,750,000 in respect of flood mitigation works on the Macleay, Clarence, Richmond, Tweed, Shoalhaven and Hunter Rivers. The Commonwealth grants will match State expenditure which, in turn, will be in a prescribed ratio to local authority expenditure on flood mitigation works.

(m) *Gordon River Road, Tasmania.* Under the *Tasmania Grant (Gordon River Road) Act 1964* the Commonwealth is authorized to grant financial assistance of up to £2,500,000 to Tasmania for the construction of a developmental road into the Gordon River region of that State, primarily for the purpose of enabling detailed investigations to be made of a further stage of the Tasmanian hydro-electric scheme.

(n) *Blowering Reservoir, New South Wales.* The Blowering Reservoir is to be constructed at the expense of the State of New South Wales mainly by the Snowy Mountains Hydro-electric Authority, and the Commonwealth will finance one half of the cost in the form of repayable interest-bearing loans to that State.

(o) *Chowilla Reservoir, New South Wales.* The Chowilla Reservoir is to be constructed as an approved work under the River Murray Waters Agreement, and the Commonwealth advances to New South Wales are to assist in the financing of that State's one-quarter contribution of the cost of construction.

11. *Other Functions.*—(a) *Current Expenditure on Goods and Services.* This table gives details of expenditure on items included under this general heading in the table in paragraph 1, page 911, and in the main includes expenditure on administrative services and other activities (i.e. what might be termed "running expenses") and therefore *excludes* expenditure on capital works (see table on p. 917).

Information on the functions of departments and the Acts administered by the Ministers of Departments may be found on pages 87-98 of Year Book No. 49.

(b) *Primary Production—Research and Sales Promotion, Export Funds, etc.* Expenditure under this item is classified above to development of resources and assistance to industry as it includes the proceeds of special industry taxes and profits from marketing schemes which are paid to trust funds or other authorities for the purposes of the industries concerned. Information relating to the taxes levied is given in sub-section Revenue of this section (see pp. 907-10). Some details of expenditure from the trust funds are included in § 4, Commonwealth Trust Funds. Details of expenditure from the Consolidated Revenue Fund during the last five years are given in the following table.

§ 5. Commonwealth Loan Fund

1. **General.**—Brief historical notes relating to the Commonwealth Loan Fund are given in earlier issues of the Year Book (see No. 37, p. 640). The following tables show details for the years 1959–60 to 1963–64 of receipts by, and expenditure from, Commonwealth Loan Fund in respect of loans raised for both Commonwealth and State Governments. Information relating to the Commonwealth Government securities on issue is given in the Division, Government Securities on Issue, Commonwealth and States, of this chapter.

2. **Loans raised for the Commonwealth.**—The following table shows the receipts by, and expenditure from, Commonwealth Loan Fund in respect of loans raised for the Commonwealth Government during the years 1959–60 to 1963–64.

STATE FINANCE

§ 1. General

1. Functions of State Governments.—In comparing the financial returns of the States, allowances must be made for the various functions discharged by the respective governments, and for local conditions in each case. Direct comparisons of the revenue, expenditure, and debt of the individual States are difficult, owing to the fact that functions which in one State are assumed by the central government are in another delegated to local government or semi-governmental bodies which are vested with certain defined borrowing powers and whose financial transactions are not included with those of the central government.

Care is needed, therefore, in making comparisons, and the particulars contained in this chapter should be read with those contained in Chapter XX. Local Government. In many respects, moreover, the budgets of the Australian governments differ materially from those of most European countries, owing to the inclusion therein of the revenue and expenditure of departments concerned with rendering public services, such as railways, tramways, water supply, etc., which in other countries are often left to private enterprise.

2. Accounts of State Governments.—The various financial transactions of the States are in each case concerned mainly with one or other of three funds—the Consolidated Revenue Fund, the Trust Fund, and the Loan Fund. All revenue (except certain items paid into special funds) collected by a State is paid into its Consolidated Revenue Fund, from which payments are made under authority of an annual Appropriation Act passed by the legislature, or by a permanent appropriation under a special Act.

Figures in § 2 below relating to New South Wales represent the transactions of the Consolidated Revenue Fund and the business undertakings included in the annual budget papers. These undertakings are:—railways, tramways and omnibuses, and Sydney Harbour Trust Section of the Maritime Services Board. Adjustments have been made to the Budget figures, however, in order to eliminate duplications caused by inter-fund payments. Particulars for all other States relate to the transactions of the Consolidated Revenue Fund.

The Trust Fund comprises all moneys held in trust by the government, and includes such items as superannuation funds, road funds, insurance companies' deposits, etc.

The Loan Fund is debited with all loan moneys raised by the State, and credited with the expenditure therefrom on public works or other purposes.

3. Inter-relation of Commonwealth and State Finances.—A statement in some detail, covering the inter-relation of Commonwealth and State finances during the period from the inception of federation to the passing of the *Financial Agreement Act 1928*, was published in Year Book No. 22, pages 379–80. Changes in the financial relations between the Commonwealth and States since the passing of the *Financial Agreement Act* have been described in issues of the Year Book from year to year.

§ 2. State Consolidated Revenue Funds

REVENUE

1. General.—The principal sources of State revenue are:—(a) taxation; (b) the business undertakings controlled by the State Governments; (c) sale of and rental from crown lands; (d) interest on advances; (e) payments by the Commonwealth Government under the *Financial Agreements*, *Special Grants* and *Financial Assistance Acts*, etc.; (f) Commonwealth National Welfare Fund payments; and (g) miscellaneous sources, comprising fines, fees, etc.

Of these sources, that yielding the largest revenue to the Consolidated Revenue Funds for the States as a whole in the year 1963–64 was Commonwealth payments under financial assistance and other grants (39.1 per cent. of the total revenue). Next in magnitude was the group of business undertakings (29.6 per cent.), the principal contributors being the Government railways and tramways, followed by taxation receipts (17.5 per cent.). More than one-quarter of the total State taxation collections are not paid into Consolidated Revenue Funds, however, but into special funds (*see* para. 3 (ii) (b) following). Of the remaining sources of revenue, interest (n.e.i.) constituted 4.0 per cent., land revenue 2.1 per cent., and National Welfare Fund payments 1.0 per cent.

2. Revenue Received.—The following table shows particulars of the total amounts, and the amounts per head of population, of Consolidated Revenue received by the several States during the years 1959–60 to 1963–64.

STATE CONSOLIDATED REVENUE

Year	N.S.W.(a)	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Total

(a) See § 1, para. 2, p. 930.

(b) Tasmanian transport services are under the separate control of

semi-governmental authorities.

(c) In all States certain taxation collections are not paid into

Consolidated Revenue Fund. For total collections see next page. (d) Excludes Commonwealth

payments paid to trust funds. (e) Includes payments under Financial Agreement, special grants,

additional financial assistance, grants to universities, etc. (f) Consolidated Revenue Fund receipts

only. Excludes payments to Trust Funds.

(ii) *Revenue from Taxation.* (a) *General.* In the tables on taxation collections in these paragraphs the collections have been grouped according to the nature of the tax rather than the method of collection. For example, stamp duties on betting tickets and bookmakers' licences have been included under Racing instead of under Stamp duties and Licences respectively.

Prior to federation customs and excise duties were the principal source of revenue from taxation. Thereafter, until the introduction of the uniform income tax scheme in 1942-43, the highest yields from the State taxation were drawn from the various income taxes which, in 1941-42, included unemployment relief, State development, and hospital taxes. From 1942-43 to 1958-59 the States were reimbursed by the Commonwealth for the revenue lost by the discontinuance of these taxes. Commencing with 1959-60, however, a new scheme for the payment of financial assistance to the States was instituted (for details see para. 10 (vi), p. 921). Information relating to the State income taxes which were levied prior to 1942-43 may be found in earlier issues of the Year Book.

(b) *Net Collections, 1963-64.* The following tables show, for the year 1963-64, details of the collections in each State from the various types of tax in operation, irrespective of whether such moneys have been paid into the Consolidated Revenue Funds or not. For this reason the particulars hereunder differ from those shown in the tables relating to the Consolidated Revenue Funds and present a comprehensive statement of all taxation collections by the Government in each State.

(iii) *Business Undertakings.* (a) 1963-64. A considerable proportion of State gross revenue is made up of receipts from business undertakings under the control of the Governments. The most important of these are railways and tramways, harbour works, water supply and sewerage, and electricity supply, and, in addition, State batteries for the treatment of auriferous ores in Western Australia and various minor revenue-producing services rendered by the Governments of all States are included. For the year 1963-64 the revenue from these sources was £270,989,000 or 29.6 per cent. of the revenue from all sources. Details of revenue are as follows.

STATE REVENUE FROM BUSINESS UNDERTAKINGS, 1963-64

For further information on the finances of the various types of business undertakings in the States, see Chapters XV. Transport and Communication and XX. Local Government of this Year Book.

(iv) *Lands.* The revenue from the sale and rental of Crown lands has, with few exceptions, been treated from the earliest times as forming part of the Consolidated Revenue Funds, and has been applied to meet ordinary expenses. The following table shows the revenue from sales and rentals of Crown lands for the year 1963-64.

STATE LAND REVENUE, 1963-64

(£'000)

Source	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Total
Sales ..	868	211	510	207	105	22	1,923
Conditional purchases ..	235	10	215	..	460
Rentals(a) ..	4,702	657	3,987	357	383	51	10,137
Forestry ..	1,456	2,352	1,172	606	5,586
Other ..	138	229	330	430	..	6	1,133
Total ..	7,399	3,449	4,827	1,004	1,875	685	19,239

(a) Includes mining royalties, rents, etc.

The total land revenue for all States for the years 1959-60 to 1963-64 respectively was:—£14,324,000, £15,269,000, £15,785,000, £16,363,000 and £19,239,000.

(v) *Commonwealth Grants.* Commonwealth grants to the States represent a very large proportion of the States' revenue. In 1963-64 the total amount (excluding sundry minor items) paid to the Consolidated Revenue Funds of the States was £357,002,000 (39.1 per cent.). Details were as follows:—contribution towards interest on States' debts under the Financial Agreement, £7,585,000; special grants to the States of Western Australia and Tasmania, £11,322,000; financial assistance, £317,983,000; additional assistance, £16,710,000; grants to universities, £3,086,000; and other grants, £316,000.

In addition to these, the States receive a number of other grants which are paid to trust funds. The main items in this class are the contribution to the sinking fund on States' debts (£7,846,000 in 1963-64) paid to the National Debt Sinking Fund, grants for Commonwealth Aid Roads (£58,000,000 in 1963-64), and grants for universities (£13,844,000 in 1963-64) paid to State trust funds.

More detailed information concerning Commonwealth grants to the States is given on pages 917-24.

(vi) *Commonwealth National Welfare Fund Payments.* The States also receive payments from the Commonwealth in respect of hospital and pharmaceutical benefits, nutrition of children and reimbursement of maintenance expenditure on tuberculosis sanatoria. These receipts are paid into Consolidated Revenue Funds or trust funds according to the varying accounting procedures in the States. In 1963-64 the total amount paid to State Consolidated Revenue Funds was £9,266,000 (1.0 per cent.). This amount was made up of hospital benefits, £1,359,000; pharmaceutical benefits, £2,202,000; milk for school children, £1,332,000; tuberculosis—reimbursement of maintenance expenditure, £4,229,000; other, £144,000.

(vii) *Interest and Miscellaneous.* In addition to the foregoing there are in each State several miscellaneous sources of revenue, including such items as interest, fines, fees, etc. Interest, mainly from loans to local governing bodies, on public account balances, and for soldier land settlement amounted to £36,743,000 in 1963-64, while miscellaneous revenue, which includes fines of the courts and fees for services, amounted to £61,742,000 in 1963-64.

EXPENDITURE

1. **General.**—The principal heads of State expenditure from Consolidated Revenue Funds are:—(a) interest, exchange and debt redemption charges in connexion with debt; (b) working expenses of business undertakings; (c) education; (d) health and charitable expenditure; (e) justice; (f) police; (g) penal establishments; and (h) all other expenditure, including expenditure on public works, lands and surveys, agriculture and forestry, legislative and general administration, pensions, and miscellaneous.

The working expenses of railways and tramways are the largest item of State Government expenditure. In 1963–64 the working expenses of the railways, tramways and omnibuses were 23.0 per cent. of the total expenditure from the State Consolidated Revenue Funds; next in magnitude were education, 21.9 per cent.; debt charges, 17.5 per cent.; charitable, public health and hospitals, 13.1 per cent.; and law, order and public safety, 5.8 per cent.

As stated at the beginning of this division, figures relating to New South Wales represent the transactions of the Consolidated Revenue Fund and the business undertakings included in the annual budget papers. These undertakings are:—railways, tramways and omnibuses, and Sydney Harbour Trust Section of the Maritime Services Board. Adjustments have been made to the Budget figures, however, in order to eliminate duplications caused by inter-fund payments. Particulars for all other States relate to the transactions of the Consolidated Revenue Fund.

2. **Total Expenditure.**—The total expenditure from the Consolidated Revenue Funds of the several States and the expenditure per head of population during each of the years 1959–60 to 1963–64 are shown in the following table.

(a) See para. 1, p. 939.

NOTE.—Minus sign (-) indicates deficit.

§ 3. State Loan Funds

1. **General.**—State public borrowing is due mainly to the fact that the State Governments, in addition to ordinary administrative duties, undertake functions, such as the construction and operation of the railway systems, which in other countries are usually entrusted to local authorities or left to private enterprise. Loan moneys have also been used largely for improvements to harbours and rivers, and for the construction of roads, water supply and sewerage works. The State debt thus consists chiefly of moneys raised and expended with the object of assisting the development of the resources of the country, and is to a very large extent represented by tangible assets.

Statements relating to "gross" loan expenditure are shown below. The gross expenditure represents the amounts disbursed during each year. Details of "net" loan expenditure, i.e., gross expenditure less any credits to the Loan Fund during the year on account of repayments of advances to local governing bodies, settlers, etc., the sale of assets, and transfers from other funds, may be found in the annual bulletin *State, Territory and Local Government Authorities' Finance and Government Securities*. Such moneys are credited to the Loan Fund in the year of repayment irrespective of when the advance was made.

2. **Gross Loan Expenditure.**—(i) 1963-64. Particulars of gross loan expenditure on works, services, etc., are shown in the following table.

STATE GROSS LOAN EXPENDITURE ON WORKS, SERVICES, ETC., 1963-64
(£'000)

Particulars	N.S.W.	Vic.(a)	Q'land	S. Aust.	W. Aust.	Tas.	Total

Per head of population	£18.22	£19.05	£22.13	£31.12	£30.22	£47.77	£22.07

(a) Expenditure from loan funds and on account of loans; includes expenditure from loan funds, from Treasurer's Advance Account, and from State Loans Repayment Fund. (b) Excludes expenditure from Commonwealth loans under Commonwealth-State Housing Agreement. (c) Included in item Advances to settlers. (d) Includes Rural Finance and Settlement Commission, for advances to rural industries, £671,000.

NOTE.—The negative amounts shown for Queensland represent transfers of liability on account of expenditure incurred in earlier years. The amounts involved have been debited against the item Loans and grants to local bodies, and included in the expenditure shown for 1963-64.

(ii) 1959-60 to 1963-64. Particulars of gross loan expenditure on works, etc., for these years are shown in the following table.

STATE GROSS LOAN EXPENDITURE ON WORKS, SERVICES, ETC.

Year	N.S.W.	Vic.(a)	Q'land	S. Aust.	W. Aust.	Tas.	Total

(a) Includes exchange, discounts and flotation expenses, revenue and general cash deficits.
(b) From Consolidated Revenue Fund.

NOTE.—Minus sign (–) indicates excess of repayments to loan fund.

Information relating to the government securities on issue on behalf of the States is given in the division on Government Securities on Issue: Commonwealth and States (*see* p. 946).

COMMONWEALTH AND STATE FINANCE

1. **Consolidated Revenue Fund Revenue and Expenditure.**—The following table shows the aggregate revenue and expenditure of the Consolidated Revenue Funds of the Commonwealth and States for each of the years 1959-60 to 1963-64. In the table the combined Commonwealth and State totals have been adjusted to exclude major duplications, but the separate Commonwealth and State figures are as shown in other divisions of this chapter. The items excluded from the total figures are:—payments made by the Commonwealth to the States and included in the State Consolidated Revenue Funds on account of financial assistance grants in 1959-60 to 1963-64, interest under the Financial Agreement, special grants, special financial assistance, grants to universities, cattle tick control, Tuberculosis Act capital expenditure, National Welfare Fund payments, and estimated payments of pay-roll tax by the States to the Commonwealth. There are other relatively minor payments for which adjustments have not been made, and the adjusted figures are therefore still slightly overstated.

COMMONWEALTH AND STATES: REVENUE AND EXPENDITURE

Year ended 30th June—	Revenue			Expenditure		
	Commonwealth	States	Total	Commonwealth	States	Total
	£'000	£'000	£m.	£'000	£'000	£m.
1960	1,438,286	699,510	1,857.3	1,438,286	702,041	1,859.8
1961	1,638,279	755,389	2,085.3	1,638,279	756,389	2,086.3
1962	1,641,542	804,567	2,102.6	1,641,542	808,395	2,106.4
1963	1,685,386	847,131	2,173.0	1,685,386	847,871	2,173.8

GOVERNMENT SECURITIES ON ISSUE: COMMONWEALTH AND STATES

NOTE.—For the following reasons, Government Securities on Issue, as set out in the tables in this division, may not be aggregated without adjustment to indicate what is sometimes described as the “public debt” or “net public debt” of the Commonwealth and State Governments.

There are forms of debt not evidenced by the issue of securities. Again, some of the securities included in the tables are held by the Governments themselves. For example, a State Government may hold temporarily, or even for long periods, securities issued by the Commonwealth Government. The Commonwealth Government itself, through such institutions as the National Debt Commission, or through the Trust Funds, holds large investments in securities issued, either directly by itself or on behalf of the States. In addition, some of the securities issued on behalf of the States and held by the Commonwealth Government represent the proceeds of oversea loans, securities for which were issued directly by the Commonwealth Government. From the point of view of the aggregate net debt of the Commonwealth and the States, it would thus involve duplication if the sum of the securities on issue were to be regarded as representing the “net public debt”.

§ 1. General

Under the Financial Agreement between the Commonwealth and the States in 1927, the Commonwealth Government accepted responsibility for the securities of the State Governments then on issue, and was empowered to arrange for all future borrowings on behalf of the Commonwealth and the States and to issue Commonwealth securities for all money borrowed. The Commonwealth is reimbursed by the States for interest, exchange, etc., paid on their behalf, and the securities are redeemed from the National Debt Sinking Fund to which both the Commonwealth and State Governments make contributions.

In the statistical tables relating to Government securities, details of securities on issue, annual interest liability and average rate of interest liability, except in § 2, paras. 3 and 4, are shown in the currencies in which they are repayable or payable respectively. Australian currency equivalents for oversea loans have been calculated using International Monetary Fund par rates of exchange (and the calculated equivalent for Swiss francs) ruling at 30th June in each year shown. Rates of exchange to £A. at 30th June, 1964, were as follows:—£Sterling, 0.8000; United States dollars, 2.2400; Canadian dollars, 2.4216; Swiss francs, 9.7955; Netherlands guilders, 8.1088; German Deutsche marks, 8.9600.

The full text of the original Financial Agreement between the Commonwealth and the States was given in Year Book No. 31, page 21, a summary of the original Agreement as affected by the subsequent Agreements in later issues up to No. 37 (*see pp. 685–90*), and a summary of the main provisions in further issues up to No. 50 (*see pp. 952–3*).

§ 2. Government Securities on Issue: Commonwealth and States

1. Government Securities on Issue, Annual Interest Payable and Average Rate of Interest, 30th June, 1964.—In the following tables details are given of government securities on issue on account of the Commonwealth and States, annual interest payable and average rate of interest at 30th June, 1964.

GOVERNMENT SECURITIES ON ISSUE: COMMONWEALTH AND STATES,

7. **Short-term Securities on Issue.**—Particulars of the short-term securities (Treasury bills, Treasury notes and seasonal securities) of the Commonwealth and States in Australia at intervals from 30th June, 1960, to 30th June, 1964, are shown in the following table. These securities are included in the government securities on issue as shown elsewhere. No short-term securities have been raised overseas since September, 1956, when all such securities held in London were expatriated to Australia.

GOVERNMENT SHORT-TERM SECURITIES ON ISSUE(a): COMMONWEALTH AND STATES

**MATURING IN AUSTRALIA
(£A.'000)**

30th June, 1964	89,000	76,285	..	165,285

(a) Excludes overdrafts and internal Treasury bills.

(b) Treasury bills.

The Treasury bill discount rate in Australia has remained at 1 per cent. since 29th July, 1952.

In 1962–63 daily issues of Treasury notes replaced those of seasonal securities which had, during the three previous financial years, all matured in the course of the same financial year in which they were issued. Treasury notes with a currency of thirteen weeks were issued in multiples of £1,000 over the minimum subscription of £5,000 and increases in value were subject to the usual income tax rebate of two shillings in the pound. In 1963–64 the issue prices of Treasury notes were £99.20 from July to April, £99.15 from April to May, and £99.13 from May to June, and the yields accordingly varied from £3.23 per cent. to £3.44 per cent. and £3.75 per cent.

8. **Government Securities on Issue on Account of the States; Local Government and Semi-governmental Authority Securities on Issue.**—In some States certain public utilities, such as tramways, water supply and sewerage, harbour services, etc., are controlled by boards or trusts, which in addition to receiving advances from the central government raise loans by borrowing on their own behalf, while in other States these services are controlled by the central government. Direct comparisons between States of the securities on issue on account of the several States should therefore be made with caution. The table following shows for 1958–59 to 1962–63 particulars of the securities on issue on account of the States, the securities on issue by local government and semi-governmental authorities, and the aggregates of these.

(a) Excludes amounts due to the central government. Includes bank overdrafts. (b) Oversea holdings have been converted to Australian currency at the rates of exchange current at 30th June of each year shown.

§ 3. Commonwealth Loan Raisings

1. **General.**—Under the Financial Agreement between the Commonwealth and the States the Commonwealth is responsible for raising all loan moneys required either by the Commonwealth or by the State Governments. Details of loan transactions given in this section relate, therefore, to all loans raised for the Commonwealth and the States.

2. **New Loans Raised, 1961-62 to 1963-64.**—(i) *Australia.* The following table shows details of new loans raised in Australia by the Commonwealth during the three years 1961-62 to 1963-64.

July-June (Special bonds) (c)	36,080	3½-4½	1971	100	2,156	6,224	27,700

(a) Includes loans raised for redemption of Treasury Bills, but excludes conversion loans, loans for redemption of debt maturing in London, short-term debt and certain miscellaneous debt (see p. 965).
 (b) Special issue. For details see following paragraph. (c) Special bonds open for continuous subscription, redeemable at prices commencing at par and increasing to a premium of £3 per cent. if held until maturity in 1966-69. Interest increases from 4 per cent. to 5 per cent. over period of currency.

The loan of £7,000,000, raised in June, 1962, was for the purpose of fulfilling an undertaking given by the Commonwealth that the States would have access to loan funds for their works programmes up to the approved Loan Council borrowing programmes. These programmes totalled £247,500,000 in 1961-62, £255,000,000 in 1962-63 and £272,000,000 in 1963-64. The subscription to the special loan in 1961-62 came from the Loan Consolidation and Investment Reserve Trust Account.

Finance for the approved Loan Council programmes from 1961-62 to 1963-64 was provided from the following sources.

LOAN COUNCIL PROGRAMME: SOURCE OF FINANCE
(£'000)

Source	1961-62	1962-63	1963-64
Public loans, domestic raisings, etc.	225,100	203,147	254,391
Oversea loans and special Commonwealth assistance	22,400	51,853	17,609
Total	247,500	255,000	272,000

In addition to the new loans raised as shown in the table on the previous page and the redemption and conversion loans shown in paragraph 3 below, there were other miscellaneous loan operations in Australia (see p. 965).

(ii) *London.* A loan of £Stg.12,000,000, 5½ per cent. interest, price of issue £Stg.98 per £Stg.100, maturing 1978, was raised in London during 1962-63 and a further loan of £Stg.20,000,000, 5½ per cent. interest, price of issue £Stg.98½ per £Stg.100, maturing 1982, was raised in 1963-64.

(iii) *New York.* The following table gives details of the loans raised during the period 1961-62 to 1963-64.

COMMONWEALTH NEW LOANS RAISED IN NEW YORK

Month of raising	Amount of loan	Rate of interest per annum	Price of issue	Year of maturity	Allocation of loan

(a) Special bonds.

NOTE.—Minus sign (-) indicates reduction in liability for interest.

(ii) London. The following table shows particulars of loans raised in London during the years 1960-61, 1962-63 and 1963-64 for the purpose of redeeming and converting London loans. None was raised during 1961-62.

COMMONWEALTH LOANS RAISED FOR THE CONVERSION AND REDEMPTION OF LOANS MATURING IN LONDON

Month of raising	Old loan		New loan				Increase in annual liability for interest and exchange		
	Amount	Rate of interest per annum	Amount raised in—		Rate of interest per annum	Price of issue	Year of maturity		
			Australia	London				£Stg.'000	£A.'000
	£Stg.'000	Per cent.	£A.'000	£Stg.'000	Per cent.	Per cent.		£Stg.'000	£A.'000
1960-61— July ..	13,925	3	..	13,925	6	98	1977-80	418	523
January ..	20,579	3½	..	20,000	6	97½	{ 1975 1981-83	531	664
1962-63— July ..	11,790	4	..	10,000	6	97	1972	128	160
1963-64— October ..	5,655	4	..	5,741	5½	98½	1982	90	112

(a) No account has been taken of the cost of issuing the conversion loans at a discount. Exchange calculated at £A.125 = £Stg. 100 (the International Monetary Fund par rate of exchange in the years shown).

(iii) *New York*. During 1946–47, four loans totalling \$128,000,000 were raised in New York to redeem loans which became due for redemption or which the Commonwealth had the option of redeeming. No further loans were raised in New York for this purpose until December, 1954. The loan raised in New York for this purpose in March, 1957, amounted to \$17,114,000, at 5 per cent. interest, issued at par, maturing in 1972. No loans were raised for the purpose of redeeming loans which became due for redemption or which the Commonwealth had the option of redeeming during 1957–58 to 1960–61 or in 1962–63 and 1963–64. In 1961–62, a re-financing loan of \$30,000,000 was raised at 5½ per cent. interest, issued at £98½, maturing in 1982.

Drawings from cash loans, for which Commonwealth notes were issued in New York between 1956 and 1964, were used to finance the purchase of aircraft and equipment by Qantas Empire Airways from November, 1956, and to finance aircraft purchases by Trans-Australia Airlines from September, 1958. At 30th June, 1964, outstanding notes which are subject to interest rates varying between 4½ per cent. and 5½ per cent. and which are all repayable before 1st January, 1972, amounted to \$30,025,000.

4. International Bank for Reconstruction and Development Loans.—To provide dollar funds for the purchase of certain types of capital equipment and plant which were indispensable to the furtherance of development in Australia and which could be obtained only in the United States of America or Canada, the Commonwealth Government arranged five loans from the International Bank for Reconstruction and Development between August, 1950, and December, 1956, amounting to \$308,500,000, repayable over periods of from 10 to 25 years, at rates of interest of from 4½ to 4¾ per cent. The proceeds of the latest of these loans were finally drawn in March, 1959.

The capital equipment and plant purchased from the proceeds of these loans are made available to Commonwealth and State Government departments and agencies and private firms and individuals for use in the development of Australian resources. The goods are imported and distributed through normal channels and payment made through the Australian banking system.

The loan on behalf of Qantas Empire Airways of \$9,230,000 at 4½ per cent. maturing in 1966–87 was finally drawn at the end of July, 1958, and in 1962–63 and 1963–64 respectively drawings of \$31,851,000 and \$27,018,000 were made from the loan (at 5½ per cent. maturing in 1966–87) raised for the purposes of the Snowy Mountains Hydro-electric Authority.

Drawings from International Bank loans have been made mainly in United States dollars and partly in Canadian dollars, Swiss francs and German Deutsche marks.

5. Swiss Loans.—To foster industrial development in Australia and to stimulate trade relations between the two countries, the Commonwealth Government arranged for the issue in Switzerland in November, 1953, February, 1955, March, 1960, and March, 1961, of four public loans each of 60,000,000 Swiss francs. The loans were underwritten by a Swiss banking group headed by the Swiss Bank Corporation, the Crédit Suisse and the Union Bank of Switzerland. Certain Swiss taxes connected with the issue and servicing of the loans were paid on an agreed basis by the Australian Government.

The first loan was for a period of 15 years with an option on the part of the Commonwealth Government to repay the loan in full or in part after 12 years. The rate of interest was 4 per cent. and the issue price £99. Bondholders have the option of requiring payment either in Australian pounds or in the foreign currency equivalent of Australian pounds.

The second loan was for a period of 15 years with an option to redeem after 10 years. The rate of interest was 3¾ per cent. and the issue price £99 10s. Bonds and interest are payable only in Swiss francs. The third loan was for a period of fifteen years with an option to redeem after 10 years. The rate of interest was 4½ per cent. and the issue price £99. The fourth loan was issued at par in March, 1961, at the rate of 4½ per cent. maturing in April, 1976. Payments of interest and repayments of principal are to be made only in Swiss francs.

The loans were fully subscribed, and Swiss franc proceeds, after deducting borrowing expenses, were sold by the Commonwealth Government to the Reserve Bank in return for an equivalent amount of Australian currency.

6. Canadian Loans.—In October, 1955, the Commonwealth Government arranged for the issue in Canada of a public loan of 15,000,000 Canadian dollars raised to assist Australia's development programme. The loan was for a period of 15 years with an option on the part of the Australian Government to repay the loan in full or in part at any time prior to 1st November, 1970. The rate of interest was 4 per cent., payable half-yearly, and the issue price \$98.50. A second loan, of 20,000,000 Canadian dollars, was raised in March, 1961, on the security of the Commonwealth of Australia, 5½ per cent. twenty-year bonds being issued at the rate of \$98½ per cent. Bonds and interest are payable in Canadian dollars in each case.

The loans were fully subscribed, and the net Canadian dollar proceeds were sold to the Reserve Bank for Australian currency.

7. **Netherlands Loan.**—In 1961 the Commonwealth arranged for a public flotation in the Netherlands of a loan of 40,000,000 Netherlands guilders at par, with an interest rate of 5 per cent. per annum. The proceeds were used to assist the loan programmes of the Commonwealth and States.

The loan is to be repaid in fifteen annual instalments from 1967 to 1981, but, at the Commonwealth's option, an earlier redemption date may be negotiated on and after 15th December, 1971.

8. **Summary of Loan Transactions, 1959-60 to 1963-64.**—The following table contains a summary of loan transactions on behalf of the Commonwealth and State Governments during the five years 1959-60 to 1963-64.

COMMONWEALTH LOAN TRANSACTIONS: SUMMARY

Details	1959-60	1960-61	1961-62	1962-63	1963-64
New loans(a) raised in—

TAXES ON INCOME

1. **General.**—A description of the development of income taxes in Australia appeared in Year Book No. 35, page 926. Since July, 1942, the Commonwealth, under the uniform tax arrangement, has been the only authority imposing taxes on income. Taxes on income are assessed and imposed under the *Income Tax and Social Services Contribution Assessment Act 1936-1964* and the *Income Tax and Social Services Contribution Act 1964*. The latter Act is an annual measure and its primary purpose is to declare the rates of tax payable for the fiscal year. The rates for the fiscal year are levied, in the case of individuals, on the income of that year, and in the case of companies, on the income of the preceding year. Thus tax for the fiscal year 1964-65 is levied on the income of individuals in 1964-65 and on the income of companies in 1963-64.

2. **Present Taxes.**—Income Tax and Social Services Contribution is a combined levy commonly known as Income Tax. It is not possible to distinguish any amounts as contribution, in assessments or in Government accounts. Both individuals and companies are liable for income tax. In addition to the primary Income Tax, private companies are subject to tax on undistributed income.

3. **Assessable Income.**—Income taxes in Australia are levied, primarily, on all income derived from Australian sources by any person, rather than on income derived from all sources by Australian residents. Thus a non-resident is taxed on income derived in Australia, while a resident is, in general, not taxed on income (other than dividends) derived from overseas, if the income is taxed in the country in which it is derived.

Certain types of Australian income are exempt from tax in Australia, the more important being (i) pensions, child endowment and other payments under the *Social Services Act 1947–1963* and the *Tuberculosis Act 1948*, (ii) income from gold-mining and uranium mining, (iii) twenty per cent. of certain mining profits, (iv) dividends paid out of exempt mining profits, and (v) income received from a scholarship, bursary or other education allowance.

No amount is included in assessable income on account of a house occupied by its owner. Profits derived from the sale of property are not assessable income if such property was not purchased with a view to resale at a profit.

Expenses incurred in earning income, certain subscriptions to business associations, and trade union dues, are allowable deductions. Losses incurred in previous years may be carried forward as a deduction.

Because of uncongenial climatic conditions, isolation, and high cost of living, taxpayers living in certain areas are allowed an additional deduction. Two zones have been prescribed, and the allowances are:—Zone A, £270 plus an amount equal to one half of the total deductions allowable to the taxpayer for the maintenance of dependants; and Zone B, £45 plus an amount equal to one twelfth of the deductions allowable to the taxpayer for the maintenance of dependants. A deduction equal to the deduction allowed to residents of Zone A is also allowed to members of the defence forces serving for more than one half of the year of income at declared localities outside Australia. The boundaries of Zones A and B are as defined in the Second Schedule, *Income Tax and Social Services Assessment Act 1936–1964*.

Income Tax is levied on the taxable income remaining after making these deductions and the concessional deductions to which reference is made in the following paragraph.

4. **Concessional Deductions.**—Concessional allowances for dependants, medical expenses, life insurance and superannuation contribution, etc., are made by way of a deduction from income. The maximum deduction allowed for each dependant or for a housekeeper employed by the taxpayer, for the income year 1964–65, is shown in the following table.

CONCESSIONAL DEDUCTIONS FOR DEPENDANTS, ETC.(a)

(£)

Dependant, etc. (resident)	Maximum deduction
Spouse	143
Daughter-housekeeper (b)	143
Housekeeper(c)	143
Parent or parent-in-law	143
One child under 16 years of age	91
Other children under 16 years of age	65
Invalid relative (d)	91
Child 16 to 21 years receiving full-time education	91

(a) These deductions are allowed only if the dependant is a resident of Australia. If the dependant is maintained for part only of the year, a partial deduction is allowed. (b) Of a widower or widow.

(c) Caring for a spouse in receipt of an invalid pension, or caring for children under 16 years of age of a widower or widow. (d) Child, step-child, brother or sister over 16 years of age.

When the dependant maintained derives separate income, the amount of the concessional deduction is reduced by £1 for every £1 by which the separate net income exceeds £65. Separate net income includes age and invalid pensions but not child endowment. Scholarships are excluded except insofar as they relate to maintenance.

For the 1964-65 income year, medical expenses paid by a taxpayer who is a resident, in respect of himself or dependants, including children under 21 years of age, are allowed as a concessional deduction. Medical expenses include payments made to a legally qualified medical practitioner, nurse or chemist, or to a hospital, in respect of an illness or operation, payments for dental services, payments for therapeutic treatment and eye tests, expenditure on medical or surgical appliances, artificial limbs or eyes, hearing aids and spectacles, the remuneration of an attendant of a person who is blind or confined to bed or invalid chair, and payments for the maintenance of a trained dog used for the guidance of a blind person.

Other concessional deductions allowed to resident taxpayers include (i) payments of life insurance premiums and contributions to superannuation funds and friendly societies, not exceeding an aggregate of £400, (ii) payments to medical or hospital benefits funds, (iii) funeral expenses of a dependant not exceeding £50 and (iv) expenditure incurred for the full-time education of children or dependants who are less than 21 years of age (maximum £150 per child or dependant).

In addition to concessional deductions, all taxpayers (resident and non-resident) are allowed a deduction from income of rates and taxes on land which are annually assessed, gifts to charitable, benevolent or patriotic funds and one-third of amounts paid as calls to certain mining, forestry and oil-prospecting companies. Resident taxpayers only are allowed a deduction from income of the full amount paid as calls and as application and allotment moneys to certain companies engaged in the search for oil in Australia and New Guinea.

5. **Effective Exemption from Tax.**—For the income years 1950-51 to 1962-63, taxpayers without dependants were exempt from Income Tax if their income did not exceed £104. For 1963-64 and 1964-65 this exemption was £208. The effect of the deductions for dependants was to exempt resident taxpayers up to the incomes shown hereunder.

RESIDENT TAXPAYERS: EFFECTIVE EXEMPTIONS FROM TAX

(£)

Taxpayer with—	Income Years		
	1951-54 to 1956-57	1957-58 to 1962-63	1963-64 and 1964-65
No dependants	104	104	208
Wife	234	247	351
Wife and one child	312	338	442
" " two children	364	403	507
" " three children	416	468	572
" " four children	468	533	637

For the 1964-65 income year, an aged person (i.e., a man who has attained the age of 65 years or a woman who has attained the age of 60 years) is exempt from Income Tax if his net income (i.e., gross income less expenses of earning that income) does not exceed £494. An aged person who contributes to the maintenance of his spouse is exempt from tax if the combined net incomes of the taxpayer and his spouse do not exceed £936.

6. **Rates of Income Tax on Individuals.**—The following table shows the rates of income tax for the income years 1953-54 to 1964-65.

INCOME TAX—INDIVIDUALS: RATES OF INCOME TAX, 1953-54 TO 1964-65

16,000	upwards	9,157 5 10	168	8,417 18 4	160

(a) For the 1959-60, 1961-62, 1962-63 and 1963-64 income year a rebate of 5 per cent, was allowable on the tax calculated from this schedule.

For primary producers the rate of Income Tax for the current year is determined by the average of the taxable incomes for the five years up to and including the current year. A taxpayer may elect not to have these averaging provisions applied to his assessment, but the election, once made, is irrevocable. The application of the averaging provisions is limited to that part of the taxable income which does not exceed £4,000, and when the taxable income exceeds £4,000, the balance is taxed at the ordinary rates applicable to that part. When the taxable income is less than £4,000, the rate of tax for averaging purposes is limited to the rate on a taxable income of £4,000.

Commencing with 1953-54, the taxable income, including any abnormal receipts, of actors, artists, composers and inventors is taxed at the rate appropriate to the normal taxable income plus one-third of the abnormal receipts.

Interest on Commonwealth loans issued prior to 1st January, 1940, is subject to the condition that it shall not be taxed at rates higher than those for 1930-31. Interest on Commonwealth loans issued after 1st January, 1940, and interest on certain State semi-governmental loans issued free of State income tax are subject to a rebate of 2s. for each £1 included in the taxable income.

The minimum amount of Income Tax payable is 10s. and the amounts payable and rebates are calculated to the nearest shilling.

7. The Income Tax (International Agreements) Act 1953-1963.—This Act provided relief from double taxation of income flowing between Australia and the United Kingdom, the United States of America, Canada, and New Zealand.

8. Taxes on Specified Incomes.—The following table shows the Income Tax payable by taxpayers, with various incomes and numbers of dependants, on income derived in each year from 1957-58 to 1964-65.

(a) Income remaining after allowing all deductions other than deductions for dependants.

9. *Pay-as-you-earn.*—(i) *Salary and Wage Earners.* Salary and wage earners are subject to instalment deductions for payment of tax at current rates out of weekly (or fortnightly) earnings. Employers are required to deduct tax from each payment of wages or salary to an employee at the appropriate rate, in accordance with a prescribed instalment scale. This scale shows the amount to be deducted according to the income and number of dependants of the employee.

Under the group scheme of deduction, which covers most employers of more than ten persons, the amount deducted is remitted to the Taxation Department, and after 30th June each year each employee is given a group certificate by his employer showing the amount of deductions made during the year. This certificate is forwarded to the Taxation Department with the employee's return of income for the year. If the tax assessed on the basis of this return is less than the amount shown on the group certificate, a refund is forwarded to the employee with his assessment. If the tax assessed is greater than the amount shown on the group certificate, the employee is required to pay the balance.

Under the stamp scheme used by small employers, a stamp deduction sheet in two parts is used. Each four weeks the employer purchases stamps (also in two parts) for the amount of the deductions made each pay day and sticks one part on each half of the sheet. At the end of the year the employer gives the employee one half of the sheet and sends the other half to the Taxation Department. The employee's half is then used in the same way as a group certificate.

(ii) *Taxpayers with Income other than Salary and Wages.* These taxpayers pay provisional tax in respect of income other than salary and wages. Collection of tax for the current year is made at the same time as collection and assessment for the previous year are adjusted. The notice of assessment shows an amount of provisional tax for the current year. This provisional amount is an approximation to the tax which will be payable after the return of income for the current year has been lodged. It is ascertained by assuming that the income of the current year will be the same as that for the previous year (for which a return has already been lodged), but the rates for the current year are applied to the income and not the rates for the year in which it was derived. The assessment notice shows the provisional tax paid in the previous year as a credit against the tax assessed on the basis of the return for that year. On receipt of his assessment, the taxpayer may elect to substitute his own estimate of income for the current year and pay tax on the basis of this estimate. To protect the revenue, a penalty is imposed if the taxpayer elects to pay provisional tax on an estimate of income more than 20 per cent. lower than the income of the previous year and he underestimates his income by more than 20 per cent.

An employee with income of £100 or more from sources other than salaries or wages is required to pay provisional tax in respect of that income.

10. *Lodgment of Returns and Assessment of Tax.*—All persons with assessable income in excess of £208 are required to lodge returns by 31st July each year (31st August for business incomes). The Income Tax payable is assessed, and assessment notices showing the amounts payable are issued during the year following the year of income. The approximate amount payable, however, has already been collected during the income year from employees by deductions from wages and from non-employees by a provisional tax. The amount shown on the assessment notice is therefore adjusted against the amount already paid and any difference either collected or refunded.

11. *Company Income Taxes.*—(i) *General.* For taxation purposes, companies are divided into two main groups—public and private. A private company is defined as a company in which all the issued shares are held by not more than twenty persons or which is capable of being controlled by not more than seven persons, and which is not a company in which the public is substantially interested or a subsidiary of a public company. All other companies are regarded as public companies. Both public and private companies pay primary tax assessed on a taxable income ascertained on the same principles as for individuals.

Dividends received are assessable income, but resident companies receive a rebate at the average rate on the amount of dividends included in the taxable income. This rebate is not allowed to non-resident companies.

(ii) *Rates of Tax.* The rates of Primary Tax for companies, and Additional Tax for private companies, applicable to the income years 1956-57 to 1963-64 are shown in the table below.

Super Tax and Undistributed Income Tax ceased to be levied on public companies from the 1950-51 income year and Additional Income Tax ceased from the 1952-53 income year. For details, see Year Book No. 39, page 846 and No. 40, page 743.

RATES OF TAX: COMPANIES, 1956-57 TO 1963-64 INCOME YEARS

(Pence per £)

Type of company	Rate of Income Tax for income years—						Rate of Additional Tax on undistributed income
	1956-57 to 1958-59		1959-60 to 1962-63		1963-64		1956-57 to 1963-64
	Up to £5,000	On remainder of taxable income	Up to £5,000	On remainder of taxable income	Up to £5,000	On remainder of taxable income	Undistributed amount—additional tax
Private	54	78	60	84	66	90	120

Other	66	90	72	96	78	102	..
Life insurance—							
Mutual	54	78	60	84	66	90	..
Other—							
(1) Mutual income	54	78	60	84	66	90	..
(2) Other income(c)	(d) 78	90	(d) 84	96	(d) 90	102	..
Other	(d) 78	90	(d) 84	96	(d) 90	102	..
Interest paid to a non-resident(e)	90	90	96	96	102	102	..

(a) Incomes not exceeding £104 (1956-57 to 1961-62) or £208 (1962-63 and 1963-64) are exempt from tax. (b) Where the taxable income does not exceed £231 (1956-57 to 1958-59), £260 (1959-60 to 1961-62), £520 (1962-63), or £594 (1963-64), the tax may not exceed one-half of the amount by which the taxable income exceeds £104 (1956-57 to 1961-62), or £208 (1962-63 and 1963-64). (c) The rate of 90d. (1963-64), 84d. (1959-60 to 1962-63) or 78d. (1956-57 to 1958-59), is levied on the amount of £5,000 less the mutual income. (d) For non-resident companies, dividends included in this part of taxable income are taxed at 78d. (1963-64), 72d. (1959-60 to 1962-63), or 66d. per £1 (1956-57 to 1958-59) (a resident company is allowed a rebate of tax in respect of dividends received). (e) If the non-resident is not a company, tax is paid only on income in excess of £104 (1956-57 to 1961-62), or £208 (1962-63 and 1963-64).

A private company incurs liability for additional tax on its undistributed income if it fails to make a sufficient distribution of income within a specified period after the close of the year of income. The tax is levied on the undistributed amount which, for practical purposes, is the taxable income less—(a) primary income tax payable; (b) retention allowance (i.e., the proportion of the reduced distributable income which a company may retain without incurring liability for undistributed income tax); and (c) certain dividends paid by the company.

For the income years 1952-53 to 1957-58 the retention allowance was the following proportion of the reduced distributable income:—on the first £1,000 or part, 50 per cent.; on the next £1,000 or part, 40 per cent.; on the next £1,000 or part, 35 per cent.; on the next £1,000 or part, 30 per cent.; on the balance, 25 per cent.; and 10 per cent. of distributable income from property, except dividends from other private companies.

For 1958-59 to 1961-62 the minimum retention allowance from business profits was 35 per cent. The rates were:—on the first £1,000 or part, 50 per cent.; on the next £1,000 or part, 40 per cent.; on the balance, 35 per cent.; and 10 per cent. of distributable income from property, except dividends from other private companies.

For 1962-63 and 1963-64 the minimum retention allowance from business profits is 40 per cent. The rates are:—on the first £5,000 or part, 50 per cent.; on the next £5,000 or part, 45 per cent.; on the balance, 40 per cent.; and 10 per cent. of distributable income from property, except dividends from other private companies.

For the income years 1952-53 to 1963-64 the reduced distributable income is calculated by deducting from the taxable income the primary tax payable and the amount of all property income included in taxable income. The additional tax on undistributed income was imposed at a flat rate of 10s. in the £1 on the undistributed amount.

12. *Yield of Income Taxes.*—(i) *Collections from Income Taxes.* The following table shows the amounts of taxes collected in the years 1959-60 to 1963-64.

INCOME TAX COLLECTIONS
(£'000)

Tax	Collection Year				
	1959-60	1960-61	1961-62	1962-63	1963-64
Individuals	442,164	518,744	537,345	541,704	636,079
Companies	229,130	282,562	282,688	259,914	293,130
Superannuation Funds	7	65
Dividend (Withholding)	5,960	8,117	8,965	7,968
State Income Tax(a)	8	7
Total	671,302	807,273	828,150	810,590	937,242

(a) Amounts shown are arrears of State income taxes existing prior to the introduction of the uniform tax arrangement.

(ii) *Income Tax Assessed.* The amounts of income tax covered by statistical analyses of assessments for recent years are shown in the following table. The amounts are shown under the year of income of the taxpayer. Tax is usually paid by companies in the year following the year of income. Individuals pay tax in the year of income, but there is usually an adjustment in the following year. Tax assessed after the close of the normal assessing period is not included.

INCOME TAXES ASSESSED
(£'000)

(a) Actual income is defined briefly as "Gross income including exempt income less expenses incurred in gaining that income".

CHAPTER XXIII

RURAL INDUSTRY

NOTE.—This chapter is divided into four major parts:—

- Introduction, dealing with general rural activity in Australia;
- Agricultural Production;
- Pastoral Production; and
- Other Rural Industries, which includes the dairying, poultry and bee industries.

For greater detail on the subjects dealt with in this chapter, see the annual bulletins *Rural Industries, Non-Rural Primary Industries and Value of Production, and Secondary Industries* (regarding butter, cheese, etc., factories) issued by this Bureau. Current information on commodities produced is obtainable in the *Quarterly Summary of Australian Statistics, Monthly Review of Business Statistics, Monthly Bulletin of Production Statistics* and *Digest of Current Economic Statistics* (monthly). The series of bulletins *Classification of Rural Holdings by Size and Type of Activity, 1959-60*, shows particulars of rural holdings classified by size, nature and area of crops, and numbers of livestock, and also according to main type of activity. The mimeographed annual *Report on Food Production and the Apparent Consumption of Foodstuffs and Nutrients in Australia* contains details of the production and utilization of foodstuffs. The following mimeographed publications also contain considerable detail on the particular subjects dealt with.

General.—*Value of Production and Indexes of Price and Quantum of Farm Production* (annual), *Value of Primary Production (Preliminary Statement)* (annual), *Farm Machinery on Rural Holdings* (annual), *Tractors on Rural Holdings, 31st March, 1963* (detailed information). *New Tractors: Receipts, Sales and Stocks* (quarterly), and *New Agricultural Machinery* (quarterly).

Agricultural Production.—*Rural Land Use and Crop Production* (annual), *Agricultural Statistics (Preliminary Statement)* (annual), *The Wheat Industry* (two a year), *The Fruit Growing Industry* (annual), and *Fruit Statistics (Preliminary Statement)* (annual).

Pastoral Production.—*Livestock Statistics* (annual), *Livestock Numbers* (annual), *The Meat Industry* (monthly), *Wool Production* (annual), and *Wool Production and Utilization* (annual).

Other Rural Production.—*The Dairying Industry* (monthly and half-yearly), *Livestock Statistics* (annual), *Livestock Numbers* (annual), *Manufacturing Industries No. 20.—Bacon Curing and No. 21.—Butter, Cheese and Condensed, Concentrated, etc., Milk* (annual), *Production Summaries No. 36.—Preserved Milk Products and No. 55.—Butter and Cheese* (monthly), and *Bee-farming* (annual).

Values of Australian overseas trade shown throughout this chapter are expressed as £A. f.o.b. port of shipment.

INTRODUCTION: RURAL ACTIVITY.

§ 1. Number and Area of Rural Holdings.

1. Number and Area.—A holding in Australia has been defined by statisticians on a more or less uniform basis, and discrepancies which exist are not of sufficient importance to prevent comparisons. For the purpose of these statistics, a holding has been defined as land of one acre or more in extent, used in the production of agricultural produce or for the raising of livestock and the production of livestock products.

There are considerable fluctuations from time to time in the numbers of very small holdings, and it is very difficult to determine in some cases whether or not they are rural holdings within the definition.

In addition, in the very dry parts, such as the far west of New South Wales and Queensland and the remoter parts of South Australia and Western Australia, there are large areas of marginal lands sporadically occupied for extensive grazing under short-term lease or other arrangement, and the areas so occupied tend to fluctuate with the seasons. Similarly, there are rugged areas in the mountain country of some States which are also occasionally occupied.

The following table shows the recorded number and area of the holdings in each State for the seasons 1959-60 to 1963-64.

RURAL HOLDINGS: NUMBER AND AREA

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
NUMBER OF RURAL HOLDINGS									
1959-60 ..	77,499	69,778	42,912	28,527	21,832	11,202	269	224	252,243

2. Land Utilization of Rural Holdings.—The following table shows the purposes for which the land on the rural holdings referred to in the preceding paragraph was used.

RURAL HOLDINGS: LAND UTILIZATION

(*000 acres)

Season	Area used for crops(a)	Land lying fallow(b)	Area under sown grasses and clovers(c)	Balance of holdings(d)	Total area of holdings
1959-60	25,025	7,025	33,289	1,082,668	1,148,007
1960-61	27,101	7,438	35,589	1,086,674	1,156,802
1961-62	27,907	8,049	39,063	1,097,416	1,172,435
1962-63	30,056	8,719	40,991	1,097,879	1,177,645
1963-64—					
New South Wales ..	8,670	2,440	10,625	150,342	172,076
Victoria	4,900	2,525	14,064	16,310	37,798
Queensland	3,582	638	3,292	369,175	376,687
South Australia ..	5,838	1,114	5,116	146,837	158,905
Western Australia ..	6,706	1,712	9,510	248,629	266,556
Tasmania	244	78	1,511	4,545	6,377
Northern Territory ..	2	..	11	165,721	165,734
Australian Capital Territory	7	2	83	280	373
Australia	29,948	8,510	44,211	1,101,837	1,184,506

(a) Excludes (i) duplication on account of area double cropped, except for New South Wales and South Australia, and (ii) clovers and grasses cut for hay and seed which have been included in "Area under sown grasses and clovers", and differs therefore from crop area figures shown later in this chapter.
 (b) Excludes short or summer fallow. (c) Includes paspalum. (d) Used for grazing, lying idle, etc.

3. Classification by Size and Type of Activity.—Some of the information obtained from the 1959-60 Agricultural and Pastoral Census was classified by size of principal characteristics (area of holdings, area of sown grasses and clovers, area of selected crops and numbers of livestock). In addition, all holdings were classified according to type of activity. Tables showing this information, for statistical divisions and States, and an outline of the methods used have been published in a series of bulletins *Classification of Rural Holdings by Size and Type of Activity, 1959-60*. Similar information on size classification for each State was published in a series of bulletins for the year 1955-56.

§ 2. Employment on Rural Holdings

1. Persons Engaged.—The following table shows, for each State except Victoria, the recorded number of males working on rural holdings. Particulars for females are not available except for New South Wales. Additional particulars relating to the number of males employed in agriculture up to 1941-42 are shown in Year Book No. 36, page 852, and previous issues. Similar details for later years are not available.

MALES(a) ENGAGED ON RURAL HOLDINGS AT 31st MARCH, 1964

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.(b)	A.C.T.	Aust.
Permanent—									
Owners, lessees or share-farmers	63,045	(c)	44,353	23,553	20,548	7,685	226	169	} n.a.
Relatives of owner, lessee or share-farmer over 14 years of age, not receiving wages or salary	3,359		2,987	1,396	1,317	40	33	10	
Employees, including managers and relatives working for wages or salary	28,851		18,870	8,268	8,607	4,038	620	135	
Total, Permanent Males	95,255		66,210	33,217	30,472	11,763	879	314	
Temporary	24,184		10,207	12,496	3,568	5,733	1,564	45	
Total, Males	119,439		76,417	45,713	34,040	17,496	2,443	359	

(a) Details for females not available except for New South Wales. (b) Includes 1,374 male full-blood Aborigines employed as temporary employees. (c) Not available; subject to investigation.

Information regarding the number of persons working full-time on rural holdings in Australia at 31st March of years to 1958 appears in Year Book No. 50, page 987, and in earlier Year Books. Data for subsequent years are the subject of investigation and are not available at this stage.

2. Salaries and Wages Paid.—Particulars of salaries and wages paid to employees (including amounts paid to contractors) working full-time on rural holdings are shown below for the year 1963-64. Data for New South Wales and Victoria, and hence Australia, are not available.

EMPLOYEES ON RURAL HOLDINGS: SALARIES AND WAGES(a) PAID,
1963-64
(£'000)

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Permanent—Males ..	(b)	(b)	15,769	6,418	7,326	3,381	564	186	} n.a.
Females ..			1,052	251

Similar particulars for Australia as a whole for the years 1960 to 1964 are shown below.

**PERSONS (OF ALL AGES) RESIDING PERMANENTLY ON RURAL HOLDINGS,
AUSTRALIA**

Particulars	31st March—				
	1960	1961	1962	1963	1964
Males	551,800	547,594	544,709	540,893	541,394
Females	469,601	467,539	465,238	464,048	465,990
Total	1,021,401	1,015,133	1,009,947	1,004,941	1,007,384

§ 3. Technical Aspects of Rural Industry

1. **Farm Machinery on Rural Holdings.**—The history of the development of large-scale field crops and sown pastures in Australia is essentially also the history of the mechanization of the rural industries. This may be divided into four phases.

The first phase extended from initial settlement to the mid-nineteenth century, when agriculture was primarily local and non-commercial, and confined by hand methods to small areas and low production per farm worker.

The invention of an effective wheat stripper in South Australia in 1843, and the extension of its use into Victoria and New South Wales, however, greatly increased the area which could be harvested in a season. This initiated the second phase, which continued with the development of stump-jump implements in the 1870's, and the scrub roller and mullenizer in the 1890's. These later developments made possible an extension of the wheat belt into the drier mallee lands of Victoria and South Australia. By the turn of the century, machinery had thus been developed to conduct all cropping operations on an extensive basis.

The third major change in farm machinery followed the 1914-18 War, when tractor power became increasingly available in a variety of models and sizes. The increase in numbers of tractors on rural holdings and higher operating speeds led in turn to new and improved types of farm machinery drawn by tractors. These trends were interrupted by the economic depression of the 1930's.

After the 1939-45 War there was a widespread expansion of labour-saving machinery and devices in all sectors of rural industry. Clearing methods were extended with the bulldozer, log, chain and hi-ball units, and cultivation was improved by means of large disc ploughs and disc harrows, and seeding and harvesting machinery. These methods

were extended to crops for which methods involving greater use of manpower (manual labour) had previously been employed. Milking machines almost entirely replaced hand milking on dairy farms, and labour-saving machinery was introduced into farm and station development and maintenance operations. These operations included fencing, bulk transport of grain and fodder, pasture treatment, fodder conservation, and pasture improvement.

The table below shows data for the principal types of farm machinery on rural holdings in the several States and Territories at 31st March, 1964. A more detailed analysis of tractors on rural holdings according to horse-power, type of fuel used, and age of tractor was published in the Statistical Bulletin *Tractors on Rural Holdings—Australia, 31st March, 1963*, issued on 11th May, 1965.

(a) Details for all States are collected at triennial intervals only. (b) Particulars of ploughs only were collected in 1961 and details (excluding Northern Territory, which reported 154 ploughs of all types) are as follows:—mouldboard ploughs, 103,403; disc ploughs (including disc cultivators), 173,205; ploughs of all other types (chisel, stubble, mulch, blade, etc.), 46,841. (c) Rotary hoes, all types. (d) Incomplete; excludes tractor-drawn rotary hoes and rotary rillers in Queensland. (e) Incomplete; particulars for Victoria are not available.

2. Fertilizers.—(i) *General.* In the early days of settlement in Australia the principles of scientific cultivation were little understood. It was common for the land to be cropped continuously until the natural fertility was almost exhausted. More scientific methods have been adopted in recent decades, much of the improvement in this regard being due to the assistance and guidance offered to farmers by various State and Commonwealth departments and authorities.

Fertilizer is generally applied to pastures at the time of sowing, and periodical (usually annual) top-dressings are carried out afterwards to keep the pastures in good condition. The introduction of the modern seed-drill, acting also as a fertilizer distributor, has greatly facilitated the use of artificial manures, and much land formerly regarded as useless for cultivation has now been brought into production. With the rapid increase in the area of sown pastures, particularly since the 1939-45 War, large quantities of artificial fertilizers have been used. In addition, increasing areas of native pastures have been top-dressed. The utilization of aircraft, in particular, has enabled the fertilizing of some areas which would otherwise be inaccessible. In 1963-64 pastures (sown and native) accounted for over 60 per cent. of both the total area fertilized and the total quantity of fertilizer used.

(ii) *Local Production.* The Australian output of prepared fertilizers is derived chiefly from imported rock phosphate. Complete information regarding local production of fertilizers is not available. The number of firms engaged in the manufacture of chemical fertilizers in Australia for the year 1963-64 was 48, made up as follows:—New South Wales, 12; Victoria, 6; Queensland, 5; South Australia, 9; Western Australia, 8; and Tasmania, 8. The production of superphosphate in Australia during 1963-64 amounted to 3,346,903 tons.

(iii) *Quantities Used Locally.* Information regarding the area treated with artificial fertilizers and the quantity of artificial fertilizers (superphosphate, bonedust, nitrates, etc.) used in each State during the 1963-64 season is given in the following table.

AREA FERTILIZED AND QUANTITY OF ARTIFICIAL FERTILIZERS USED, 1963-64

State or Territory	Crops			Pastures			Total		
	Area fertilized	Super-phosphate used	Other artificial fertilizers used	Area fertilized	Super-phosphate used	Other artificial fertilizers used	Area fertilized	Super-phosphate used	Other artificial fertilizers used

(iv) *Imports and Exports.* The chief sources of Australia's supplies of rock phosphate are Nauru, Christmas Island (Indian Ocean) and the Gilbert and Ellice Islands. Sodium nitrate is obtained chiefly from Chile.

The imports of artificial fertilizers during the five years ended 1963-64 are shown in the following table.

ARTIFICIAL FERTILIZERS: IMPORTS INTO AUSTRALIA

Fertilizer	1959-60	1960-61	1961-62	1962-63	1963-64
QUANTITY (Tons)					
Ammonium fertilizers	11	110	18,636	37,458	117,592
Potassium fertilizers	36,204	52,212	74,789	58,327	96,724
Rock phosphate	1,322,173	1,647,928	1,950,834	1,694,916	1,989,413
Sodium nitrate	6,837	5,670	7,709	7,193	9,673
Other	17,282	26,361	37,888	35,001	25,888
VALUE (£A. '000 f.o.b.)					
Ammonium fertilizers	(a)	3	381	622	1,773
Potassium fertilizers	499	756	1,277	924	1,428
Rock phosphate	3,654	4,315	4,975	4,937	6,243
Sodium nitrate	139	134	155	168	239
Other	519	745	1,048	921	740
Total	4,811	5,953	7,836	7,572	10,423

(a) Less than £500.

Exports of fertilizers (practically all of which were manufactured locally) amounted to 4,794 tons valued at £134,595 in 1963-64 compared with 7,345 tons valued at £150,942 in 1962-63.

3. **Aerial Agriculture.**—During recent years, an increasing use has been made of aircraft for top-dressing and seeding, for spraying and dusting of crops and pastures, and for pest and vermin extermination. For 1956-57 (the first year for which data are available) the total area treated was 1,466,000 acres; in 1963-64 the total area treated was 12,788,000 acres; almost nine times as great.

The following table shows details of area treated and materials used for each State for the year ended 31st March, 1964.

AERIAL AGRICULTURE: OPERATIONS DURING 1963-64

	(b)	(c)			(d)		(e)

(a) Where an area has been treated with a mixture of materials or more than one material, the area treated is included in the line relating to each of the various materials but is counted in the total once only. (b) Includes 1,750 acres baited for rabbit destruction, etc. (c) Includes 66,305 acres baited for rabbit destruction, etc. (d) Includes 21,464 acres baited for rabbit destruction, etc. (e) Includes 89,519 acres baited for rabbit destruction, etc. See footnotes (b), (c) and (d).

NOTE.—The information contained in this table was collected by the Department of Civil Aviation.

4. **Pasture Improvement.**—An article on pasture improvement, which includes notes on indigenous and introduced species of grasses, and which traced the development of pasture research in Australia, appears on pp. 1001–2 of Year Book No. 49.

5. **Soil Conservation.**—Year Book No. 49 contains an article (pp. 1003–4) on soil conservation which deals with the following matters: land use and soil erosion, agents of erosion, prevention and control, and the activities of various Commonwealth and State authorities which promote and co-ordinate research into the problems of soil erosion and the initiation of preventive measures.

AGRICULTURAL PRODUCTION

NOTE.—In general, statistics in this chapter relating to agricultural production are derived from “census” returns supplied by approximately 250,000 farmers who utilize one acre or more of land for agricultural or pastoral purposes. The latest figures available are those for the year 1963–64. The returns are collected on a substantially uniform basis in all States at 31st March each year, and relate, in the main, to crops sown in the previous twelve months. Where harvests are not completed by March (e.g. potatoes), provision is made in some States for a special collection after the harvest is completed and in others for the inclusion of the total estimated yield expected from the complete harvest. In cases where additional data are available from marketing authorities or other sources, these are used in conjunction with the “census” returns. The statistics published in this chapter are therefore shown in “agricultural” years. For most purposes there will be little error involved in considering them as applying to years ending 30th June.

For more detailed information on period covered and details of the weights and measures used in recording production of agricultural commodities see introductory notes to the bulletin *Rural Industries*.

§ 1. Progress, Assistance and Control

1. **Early Development.**—The coastal districts of southern Australia are characterized to a large degree by leached soils of low fertility, with limited areas suitable for intensive crop cultivation. This, combined with an unfamiliar climate and problems associated with the clearance of scrub-land, severely checked early attempts to establish crops.

A brief reference to these attempts at cultivation by the first settlers in New South Wales and to the discovery of suitable agricultural land on the Parramatta and Hawkesbury Rivers prior to the year 1813 and west of the Blue Mountains thereafter is contained in early issues of the Year Book. (See No. 22, p. 670.)

In an *Account of Live Stock and Ground under Crop in New South Wales, 19th August, 1797*, Governor Hunter gives the acreage of crops as follows:—wheat, 3,361 acres; maize, 1,527 acres; barley, 26 acres; potatoes, 11 acres; and vines, 8 acres.

The following details of crops were collected in 1808:—wheat, 6,874 acres; maize, 3,389 acres; barley, 544 acres; oats, 92 acres; peas and beans, 100 acres; potatoes, 301 acres; turnips, 13 acres; orchards, 546 acres; and flax and hemp, 37 acres.

By the year 1850 the area of crops had increased to 491,000 acres, of which 198,000 acres were cultivated in what is now the State of New South Wales and 169,000 acres in Tasmania. At the end of 1850 the area under cultivation in Victoria, which was then the Port Phillip District of New South Wales, was 52,190 acres. The bulk of the arable land in this part of the colony was devoted to the extensive grazing of sheep.

The gold discoveries of 1851 (at Bathurst in New South Wales and later at Ballarat and Bendigo in Victoria) had at first a very disturbing effect on agricultural progress. The area of crops declined from 491,000 acres in 1850 to 458,000 acres in 1854, as landowners and rural labourers joined in the various gold rushes. The demand for agricultural products occasioned by the large influx of population was, however, soon reflected in the increased area cultivated, for at the end of 1858 the land under crop in Australia exceeded a million acres. There was still a shortage of rural labour, and the increased acreage was due largely to the increasing mechanization of crop operations.

2. **Progress of Cultivation.**—The following table shows the area of crops in each of the States and Territories of Australia at ten-yearly intervals since 1860-61 and during each of the ten seasons 1954-55 to 1963-64. On page 1003 of this Year Book there is a graph showing the area of crops in Australia from 1900-01 onward.

AREA OF CROPS

('000 acres)

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
1860-61	246	387	4	359	25	153	1,174

1955-56	5,660	4,812	2,604	4,220	5,342	327	1	7	22,973
1956-57	3,789	3,904	2,469	4,273	5,233	288	1	5	19,962
1957-58	5,000	4,431	2,600	4,233	5,615	292	1	5	22,177
1958-59	6,820	5,040	2,852	4,436	6,135	339	1	8	25,631
1959-60	7,137	4,817	2,926	4,400	6,495	322	1	7	26,105
1960-61	8,044	5,838	3,057	5,399	6,871	357	2	8	29,576
1961-62	8,288	5,626	3,216	5,024	7,112	364	2	7	29,639
1962-63	8,903	6,318	3,490	5,495	7,482	395	2	7	32,092
1963-64	8,997	6,102	3,665	5,975	6,915	380	3	8	32,045

The progress of agriculture was practically uninterrupted from 1860-61 to 1915-16, when, as the result of a special effort to increase wheat production during the 1914-18 War, 18.5 million acres were cultivated in Australia. There was a temporary setback in later war years, but after the end of the war the area continued to expand, and increased steadily to the record area of 25.2 million acres in 1930-31. In the following years the slump in wheat prices seriously depressed incomes in the agricultural industry, and the area of crops decreased to just under 20 million acres in 1935-36.

By 1938-39 the industry was recovering from the depression, and the total area under cultivation reached the high level of 23.5 million acres. Thereafter, as a result of war-time man-power shortages and shipping difficulties, the area declined to less than 16 million acres in 1943-44. After that year production gradually increased again until, in 1947-48, 22.5 million acres were sown to crops. This upward trend was reversed after 1948-49, largely because many primary producers transferred from wheat to wool production as a result of the high prices of wool. Since 1951-52, however, when the area sown was 20.0 million acres, the area under crops has increased steadily except for 1956-57 when excessively wet conditions caused reductions in the area sown to wheat. Subsequent to that year the area of all crops showed an upward trend until 1962-63, when a record level of 32.1 million acres was reached. There was a slight decrease from this figure in 1963-64. As the area under wheat in Australia constitutes a large proportion of the total area cropped (49 per cent. during the five years ended 1963-64), fluctuations in the former have been largely responsible for year to year variation in total crop area.

3. **Control and Assistance by Governmental Authorities.**—(i) *General.* The influence of governmental and semi-governmental authorities on Australian rural industry is most apparent in the fields of guaranteed prices, subsidies and controlled marketing. Many of these aspects of intervention at the national level take place indirectly through the Australian Agricultural Council.

(ii) *Australian Agricultural Council.* Arising out of a conference of Commonwealth and State Ministers on agricultural and marketing matters, held at Canberra in December, 1934, a permanent organization known as the Australian Agricultural Council was formed. The Council consists of the Commonwealth Ministers for Primary Industry and Territories and the State Ministers of Agriculture, with power to co-opt the services of other Commonwealth and State Ministers as required. The principal functions of the Council are:—the promotion of the welfare and development of agricultural industries generally;

the exchange of information on agricultural production and marketing; the improvement of the quality of agricultural products and the maintenance of high grade standards; to ensure, as far as possible, balance between production and available markets; and organized marketing.

In addition, a permanent Standing Committee on Agriculture was formed to advise the Council, to secure co-operation and co-ordination in agricultural research, to advise State and Commonwealth Governments on the initiation and development of agricultural research, and to secure co-operation between all Governments in respect of quarantine measures against pests and diseases of plants and animals.

The Standing Committee on Agriculture comprises the permanent heads of the State Departments of Agriculture, the Secretary, Department of Primary Industry and a representative each from the Commonwealth Departments of the Treasury, Health, Trade and Industry, and Territories, and from the Commonwealth Scientific and Industrial Research Organization.

(iii) *Bounties paid to Producers.* Direct financial assistance to primary producers by the Commonwealth Government takes the form of bounties, subsidies and other financial assistance. Brief details of some of the more important payments are given below.

(a) *Cotton Bounty.* The *Cotton Bounty Act 1951-1958* providing for payment of a bounty on seed cotton of a grade higher than "strict good ordinary" expired on 31st December, 1963. Under the *Raw Cotton Bounty Act 1963* which came into effect from 1st January, 1964, to operate for a period of five years, the Commonwealth will pay a bounty on raw cotton produced and sold for use in Australia. The level of bounty is 16.125d. per lb. for Middling 1st White raw cotton with premiums and discounts for grades and staple lengths above and below Middling 1st White. There is a ceiling on bounty payments of £2,000,000 in any one year.

(b) *Flax Fibre Bounty.* The period covered by this bounty terminated on 31st October, 1960. (See Year Book No. 47, p. 939, and previous issues, for details of the bounty.)

(iv) *Other Financial Assistance.* Other forms of assistance to producers include payments for cattle tick control, the Commonwealth Dairy Industry Extension Grant, Commonwealth Extension Services Grant, flood, drought and bush fire relief, fisheries research and farm mechanization research.

Over recent years, legislative research schemes, financed by matching contributions from the Commonwealth and industry and/or States, have been initiated in regard to wheat, wool, tobacco, dairy produce, beef cattle and wine. Non-legislative schemes, on a similar financial basis, have been operative in relation to brown rot, Australian plague locusts, tractor testing, apple and pear spray residue research, aerial seeding research, barley research, banana research, and fruit fly research.

For further information on these matters, see Chapter XXII. Public Finance, pages 913-14 and 917-24 and 926.

(v) *Agricultural Training and Research.* Agricultural colleges have been established in all States except Tasmania. The primary function of these colleges is the training of students in the various phases of agriculture and livestock husbandry. Students are required to undertake a considerable amount of practical work in addition to lectures and theory. A secondary function of the colleges is agricultural research and experimentation. To a lesser degree, they carry out extension work in the form of public field days. Upon graduation, students receive diplomas in agriculture, dairying, etc., according to the course undertaken.

Experimental farms have been set up by State Departments of Agriculture in all States. They are primarily concerned with agricultural research and experimentation, each farm concentrating on problems specific to the region in which it is located. The results of the work undertaken are passed on to farmers at field days which are held at regular intervals, through publication in various agricultural or scientific journals, and through the agricultural extension services of the State Departments of Agriculture.

The Commonwealth Scientific and Industrial Research Organization has field stations in many parts of Australia, and sometimes undertakes research jointly with the appropriate State authorities. It also has regional laboratories in several States, conducting research into agronomic and livestock problems as they occur in each particular region (see also Chapter XIX. Education, Cultural Activities and Research). The State Departments of Agriculture study problems of particular significance within their own boundaries. In addition, the universities carry out valuable work in their laboratories and on their experimental farms.

§ 2. Distribution, Production and Value of Crops

1. **Distribution.**—(i) *General.* The wide range of climatic and soil conditions over the agricultural regions of Australia has resulted in a diversity of crops being grown throughout the Commonwealth. Generally, cereal crops (excluding rice and sorghum) are grown in all States over wide areas, while industrial crops are confined to specific locations in a few States.

(ii) *Area of Crops in States and Territories.* The following table shows the areas in the several States and Territories of each of the crops for the season 1963–64.

AREA OF CROPS, 1963–64

(Acres)

Total ..	26,105	29,576	29,639	32,092	32,045

(v) *Size Classification of Principal Crops.* In Australia there is, in many cases, a close correlation between the type of crop and the size of holdings upon which it is usually grown. A special series of tabulations relating to rural holdings in Australia was compiled for 1959-60 and has been published in full detail in a series of bulletins *Classification of Rural Holdings by Size and Type of Activity, 1959-60.* Tables in these bulletins show a classification by area of holding and area of crop for wheat, oats and barley by States and statistical divisions. These tables thus provide a guide to the regional distribution of the holdings growing the major crops, sown grasses and clovers. Classifications of holdings according to major crops grown, livestock carried and type of activity are also shown.

2. *Production.*—(i) *Production of Crops in States and Territories.* The following table shows production of crops in the various States and Territories for the season 1963-64.

PRODUCTION OF CROPS, 1963-64

Vineyards—					
Grapes(a) "	3.62	4.32	5.14	3.86	5.28

(a) Per acre of productive crops.

3. Value of Agricultural Production.—(i) *Gross Value of Agricultural Production in Australia.* The following table shows the gross value of principal crops and of total agricultural production in Australia for the five years ended 1963-64.

Further reference to the value of production of agriculture and other industries in Australia as well as a brief explanation of the terms used may be found in Chapter XXX. Miscellaneous.

GROSS VALUE(a) OF AGRICULTURAL PRODUCTION: AUSTRALIA
(£'000)

Crop	1959-60	1960-61	1961-62	1962-63	1963-64
Cereals for grain—					
Barley	16,623	31,072	21,933	21,328	23,742
Maize	4,029	5,264	5,285	4,762	5,182
Oats	18,396	25,535	20,001	25,629	24,833
Rice	4,450	4,125	3,832	3,838	3,956
Wheat	137,762	195,678	186,172	224,532	233,716
Hay	34,433	50,181	37,746	46,479	43,731
Green fodder	7,572	9,647	8,743	9,612	10,495
Industrial crops—					
Cotton, unginned	556	917	647	938	1,106
Hops	1,159	1,179	1,242	1,285	767
Sugar cane	44,774	50,580	49,608	65,519	81,440
Tobacco (dried leaf)	11,215	13,051	12,122	15,011	16,704
Vegetables for human consumption—					
Onions	2,841	1,833	2,547	1,814	2,048
Potatoes	13,460	19,365	20,697	13,980	16,613
Other vegetables for human consumption	26,611	29,718	28,743	28,776	33,257
Grapes	14,698	17,368	19,815	16,024	23,208
Fruit and nuts	51,763	59,773	63,363	64,430	67,565
All other crops	20,012	19,895	21,676	24,356	25,879
Total	410,354	535,681	504,172	568,313	614,242

(a) Includes amounts paid as bounty, relief, etc.

(ii) *Gross, Local and Net Values in States and Territories.* Values of agricultural production in the various States and Territories are shown for 1963-64 in the following table.

In computing the net value of production, no deduction has been made for the cost of maintenance of farm buildings and fences, nor for the depreciation of farm plant.

GROSS, LOCAL AND NET VALUES OF AGRICULTURAL PRODUCTION, 1963-64
(£'000)

State or Territory	Gross production valued at principal markets	Marketing costs	Local value of production	Value of materials used in process of production	Net value of production (a)
New South Wales	165,417	32,663	132,754	(b) 9,801	122,953
Victoria	136,404	16,435	119,969	10,901	109,068
Queensland	147,217	15,646	131,571	20,386	111,185
South Australia	82,817	9,134	73,683	11,093	62,590
Western Australia	61,671	8,031	53,640	13,830	39,810
Tasmania	20,474	4,483	15,991	3,127	12,864
Northern Territory	84	n.a.	84	n.a.	84
Australian Capital Territory	158	13	145	7	138
Australia	614,242	86,405	527,837	69,145	458,692

(a) No deduction has been made for depreciation and maintenance.

(b) No allowance has been made for costs of power, power kerosene, petrol and other oils.

(iii) *Net Value of Agricultural Production, 1959-60 to 1963-64.* In the following table the net value of agricultural production and the net value per head of population are shown by States for the years 1959-60 to 1963-64.

NET VALUE OF AGRICULTURAL PRODUCTION(a)

Year	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
NET VALUE (£'000)

(a) No deduction has been made for depreciation and maintenance.

4. *Indexes of Quantum and Price of Agricultural Production.*—Indexes of quantum and price of agricultural production are shown in the following table. The quantum indexes relate to gross output of farm products valued at constant prices. The quantities of each farm product produced each year have been re-valued at the unit gross value for the period 1936-37 to 1938-39. The price indexes relate to average "prices" of farm products realized at the principal markets of Australia. Average quantities of each product marketed in the period 1946-47 to 1950-51 have been used as fixed weights. Further details on weights used, etc., are to be found in Chapter XXX. Miscellaneous.

INDEXES OF QUANTUM(a) AND PRICE OF AGRICULTURAL PRODUCTION

(Base: Average 3 years ended June, 1939 = 100)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Quantum Produced—					
Wheat	121	166	150	186	199
Other crops	152	184	171	194	194
<i>Total, All Crops</i>	<i>140</i>	<i>177</i>	<i>163</i>	<i>191</i>	<i>196</i>
<i>Per head of population</i>	<i>95</i>	<i>117</i>	<i>106</i>	<i>121</i>	<i>122</i>
Price—					
Wheat	350	355	380	366	356
Other crops	313	344	323	309	348
<i>Total, All Crops</i>	<i>329</i>	<i>349</i>	<i>348</i>	<i>334</i>	<i>351</i>

(a) Indexes of value at constant prices, i.e. quantities revalued at average unit values of the base years (1936-37 to 1938-39).

§ 3. Cereal Crops

1. **Wheat.**—(i) *General.* Wheat is grown on a large scale in all States except Tasmania, and is the most important crop in Australia in terms of area, production and exports. The present limits of the wheat belt have been established after considerable fluctuation over the last four decades.

In January, 1934, a Royal Commission was appointed to inquire into and report upon the economic condition of the growing, handling and marketing of wheat, and the manufacturing, distributing and selling of flour and bread. The Report of this Royal Commission provides an authoritative description of all aspects of the industry up to that time.

Two of the aspects of governmental and semi-governmental assistance and control which have contributed to the development of the industry are the organization of oversea marketing and of research.

(ii) *The Australian Wheat Board.* The Australian Wheat Board was constituted in September, 1939, under National Security (Wheat Acquisition) Regulations, to purchase, sell, or dispose of wheat or wheat products, and to manage and control all matters connected with the handling, storage, protection, shipment, etc. of wheat acquired, and such other matters as were necessary to give effect to the regulations.

Details of the operations of the Wheat Stabilization Board in licensing wheat grown during the seasons 1941–42 to 1948–49 will be found in Year Book No. 38, pages 940–1. The Board ceased to function on 31st December, 1948.

Under the *Wheat Industry Stabilization Act* 1948, the Australian Wheat Board was reconstituted for five years to administer the first stabilization plan and was given powers similar to those held under the National Security Regulations. The new Board commenced to function on 18th December, 1948. The Board has been continued in existence by the *Wheat Industry Stabilization Acts* 1954, 1958 and 1963 for the purpose of administering the second, third and fourth five-year stabilization plans.

(iii) *Marketing of Wheat.* (a) *Stabilized Marketing.* As a large proportion of the Australian wheat crop is normally exported, the marketing of wheat occupies an important part in the industry. A detailed survey of legislation relating to stabilization of the wheat industry, including controls exercised during the 1914–18 and 1939–45 Wars and legislation establishing the Wheat Stabilization Plan in 1948, is given in the Appendix to Year Book No. 37, pages 1295–9.

Details of more recent plans were published in Year Book No. 40, pages 841 and 842 (1947–48 to 1952–53 Plan), No. 44, page 861 (1953–54 to 1957–58), and No. 48, pages 903 and 904 (1958–59 to 1962–63).

(b) *Fourth Post-war Wheat Industry Stabilization Plan.* Following negotiations during 1962 and 1963, the fourth post-war Wheat Industry Stabilization Plan was enacted by the Commonwealth and States towards the end of 1963. The new plan operates on very much the same lines as the previous ones. However, there are some important changes in detail to which reference is made in the main features of the plan set out below.

Period of the Plan. The plan operates for five years. It commenced with the 1963–64 wheat crop and will end with the marketing of the 1967–68 crop.

Commonwealth Guarantee. The Commonwealth has guaranteed a return of 14s. 5d. per bushel bulk basis f.o.r. ports to growers on up to 150 million bushels (previously 100 million bushels) of wheat exported from the crop in the first year of the plan. The guaranteed return of 14s. 5d. was based on the findings of a survey of the economic structure of the wheat industry conducted by the Bureau of Agricultural Economics. It is subject to adjustment in each of the following years of the plan in accordance with the movements in costs based on a cost index established from the survey. The guaranteed return for the second year of the plan (1964–65 season) is 14s. 7d. per bushel.

Australian Wheat Board. The Australian Wheat Board is retained as the sole constituted authority for the marketing of wheat within Australia and for the marketing of wheat and flour for export from Australia for the period of the plan.

Stabilization Fund.

Export Tax. Wheat exported is subject to a tax equivalent to the excess of the returns from export sales over the guaranteed return. However, the maximum rate of export tax is 1s. 6d. per bushel.

Size of Fund. The ceiling of the Stabilization Fund is established at £30 million; any excess beyond this figure is returned to growers on the "first-in-first-out" principle.

Use of the Stabilization Fund. When the average export realizations fall below the guaranteed return, the deficiency is made up first by drawing upon the stabilization fund in respect of up to 150 million bushels of wheat from each crop. When the fund is exhausted, the Commonwealth meets its obligations under the guarantee.

Home Consumption Price. The home consumption base price for 1963-64, the first year of the new plan, was established at 14s. 5d. per bushel, bulk basis, f.o.r. ports plus 2d. per bushel loading to cover the cost of transporting wheat to Tasmania as outlined below. There is provision in the plan for annual adjustments in the following years in accordance with the guaranteed price as outlined on p. 996. The home consumption price for the 1964-65 season is 14s. 7d. per bushel plus 1d. per bushel to cover freight on wheat to Tasmania.

Freight on Wheat to Tasmania. Provision is made for a loading on the price of all wheat sold for consumption in Australia to the extent necessary to cover the cost of transporting wheat from the mainland to Tasmania in each season of the plan.

Premium on Western Australian Wheat. A premium is paid from export realizations on wheat grown in Western Australia and exported from that State, in recognition of the natural freight advantage enjoyed by Western Australia owing to its proximity to the principal overseas markets for wheat. The premium is the amount of the actual freight advantage enjoyed by Western Australia up to a maximum of 3d. per bushel.

(c) *Cost of Production.* The cost of production of wheat for the first season of the current Wheat Stabilization Plan, 1963-64, was fixed at 14s. 5d. a bushel by the legislation. The guaranteed price for the season 1963-64 was therefore 14s. 5d. a bushel, while the home consumption price was 14s. 7d. a bushel (*see above*). The guaranteed price for 1963-64 was a reduction of 1s. 5d. a bushel compared with the guaranteed price of 15s. 10d. for the 1962-63 season, the last year of the previous wheat stabilization plan. The cost of production and guaranteed price for the 1964-65 season have been established at 14s. 7d. a bushel.

(d) *F.A.Q. Standard of Wheat.* Sales and shipments of grain in bulk overseas are generally made on a "fair average quality" (f.a.q.) basis. Samples of wheat are obtained each year from the different wheat districts and mixed to give a representative sample of the whole crop in each State. From this representative sample the f.a.q. weight for each State is determined by the use of the Schopper 1-litre scale chondrometer. This standard is used as a basis for sales of each crop and it varies from year to year and from State to State. F.a.q. is an Australian term, and the method of selling differs from that of other countries, which sell according to sample, or (as in Canada) according to grades which are fixed and do not vary from year to year. The f.a.q. method does not, however, take protein quantity and quality into account, and it gives no indication therefore of the baking strength of the resulting flour.

There are two classifications of Australian wheat in addition to the f.a.q. standard, namely, "semi-hard" and "premium". The former applies to wheat segregated as such in New South Wales and South Australia, and the latter to higher-protein wheat of northern New South Wales and Queensland of a guaranteed minimum protein content. Both wheats sell at a premium above f.a.q.

The f.a.q. weight of a bushel of wheat in each of the four main wheat-producing States for the 1963-64 season's crop was as follows:—New South Wales, north (predominantly semi-hard), 63½ lb., south and west (predominantly soft), 64½ lb.; Victoria, 65½ lb.; South Australia, semi-hard, 64½ lb., soft, 64½ lb.; and Western Australia, 62½ lb.

(e) *Bulk Handling and Storage of Wheat.* A detailed description of the bulk handling system, including its advantages and disadvantages compared with other methods of handling, appears on pages 954-8 of Year Book No. 39.

New South Wales, Victoria and Western Australia have operated bulk handling systems for a number of years, and in more recent years other States have also introduced bulk systems. The bodies concerned with the administration of bulk handling in the various States are:—Grain Elevators Board of New South Wales, Victorian Grain Elevators Board, State Wheat Board (Queensland), South Australian Co-operative Bulk Handling Ltd., Co-operative Bulk Handling Ltd. (Western Australia), and the Tasmanian Grain Elevators Board.

The table below sets out the bulk handling capacities of the several States for the years 1960-61 to 1964-65.

WHEAT: TOTAL CAPACITY OF BULK HANDLING FACILITIES(a)
(*000 bushels)

State	1960-61	1961-62	1962-63	1963-64	1964-65
New South Wales	73,440	75,270	79,486	87,046	93,727
Victoria(b)	72,206	72,808	76,969	86,253	90,247
Queensland	6,216	7,486	9,525	11,081	13,178
South Australia	14,290	17,380	23,220	28,370	35,483
Western Australia	94,257	97,356	98,734	99,535	115,438
Tasmania	960	960	960	960	960
Australia	261,369	271,260	288,894	313,245	349,033

(a) At 30th November of first year shown in heading. Includes terminals, sub-terminals, country installations, and temporary storage. (b) Includes storage in southern New South Wales operated by the Victorian Grain Elevators Board.

Particulars of the operation of the bulk handling and storage systems in each State are set out on pages 916 and 917 of Year Book No. 48.

(f) *International Wheat Agreements.* Details of the first and second International Wheat Agreements operative from 1st August, 1949, to 31st July, 1953, and from 1st August, 1953, to 31st July, 1956, respectively, were published in Year Book No. 42 (see pp. 840-1) and previous issues. Details of the third and fourth International Wheat Agreements which covered the period from 1st August, 1956, to 31st July, 1959, and 1st August, 1959, to 31st July, 1962, were published in Year Books Nos. 43 (p. 836) and 48 (p. 906), respectively.

A fifth International Wheat Agreement, ratified by the required number of wheat exporting and importing countries, came into force on 1st August, 1962. This was intended to cover the three-year period from 1st August, 1962, to 31st July, 1965, but at a special meeting held in February, 1965, the International Wheat Council adopted the text of a protocol providing for the prolongation of the agreement, without amendment, to 31st July, 1966. The council stated that it recognized the need for the maintenance of institutional arrangements to provide for continuing international co-operation in wheat matters, and that, following its decision to recommend a one-year extension of the existing agreement, it had given immediate consideration to preparatory work designed to ensure effective arrangements to follow the expiry of the term of the protocol.

The current Agreement, negotiated at an international conference convened by the United Nations, continues the basic arrangements covered by previous Agreements. The Agreement seeks to obtain an element of stability in world wheat marketing by providing that a significant proportion of wheat entering international trade will be bought and sold at prices within a prescribed price range. The maximum and minimum prices fixed under the Agreement are expressed in terms of "Canadian currency per bushel, at the parity of the Canadian dollar determined for the purposes of the International Monetary Fund as at 1st March, 1949". Member exporting countries compete to supply at prices within the prescribed range, which is from 202.5 cents or about 18s. 3½d. Australian currency to 162.5 cents, or about 14s. 6d. per bushel. The maximum of the range is based on the price of Canada's No. 1 Northern Manitoba wheat in bulk in store at Fort William/Port Arthur. The minimum f.o.b. price for each exporter is the equivalent of the c. and f. price in the United Kingdom of the minimum price of Canada's No. 1 Northern Manitoba wheat in bulk in store at Fort William/Port Arthur, using currently prevailing transportation costs and exchange rates and making such allowance for differences in quality as may be agreed between the exporting and importing countries concerned.

Member importing countries have undertaken to buy each year from member exporting countries a stated percentage of their total commercial requirements at prices within the agreed range. For their part, exporting countries are obliged to make wheat available for purchase by importing countries in any crop year at prices within the price range in quantities sufficient to satisfy the commercial requirements of those countries; if the price goes to the maximum, exporters have undertaken to make available, at that maximum price, specified (datum) quantities based on their past trading record with member importers.

The current Agreement empowers the International Wheat Council to make an annual review of the world wheat situation, including the international implications of national policies in respect of wheat production, stocks and marketing, and the disposal of wheat surpluses on non-commercial terms.

Provision has also been made for the right of appeal against excessive discounts from the minimum price on the basis of differences in quality between the basic wheat—Canada's No. 1 Northern Manitoba wheat—and the wheat supplied by other member importing countries.

Member countries of the fifth International Wheat Agreement are as follows.

Exporters. Argentina, Australia, Canada, France, Italy, Mexico, Spain, Sweden, Union of Soviet Socialist Republics and United States of America.

Importers. Austria, Belgium and Luxembourg, Brazil, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Federal Republic of Germany, Finland, Greece, Guatemala, Iceland, India, Indonesia, Ireland, Israel, Japan, Liberia, Libya, the Netherlands, New Zealand, Nigeria, Norway, Peru, Philippines, Portugal, Republic of Korea, Saudi Arabia, Sierra Leone, South Africa, Switzerland, Tunisia, United Arab Republic, United Kingdom, Vatican City, Venezuela, and Western Samoa.

(iv) *Research into the Wheat Industry.* The extension and growth of the wheat industry in the past has been made possible to a large extent through research into new varieties of seed, crop rotation and fertilizer treatments by governmental, university and private research organizations. In recent years, there has been a growing awareness of the value of this research, and funds are being raised by a direct levy on the growers' returns.

In 1957, the Commonwealth Parliament passed legislation providing for a levy of a farthing a bushel on wheat handled by the Australian Wheat Board. This money, contributed by the growers, is being spent by the Wheat Industry Research Committees set up in the wheat-growing States. These Committees, which consist of representatives of wheatgrowers, universities and State Departments of Agriculture, also received a total of £284,000 under the provisions of the *Wheat Acquisition (Undistributed Moneys) Act 1958*.

The Commonwealth Government has undertaken to supply additional funds for research (with a maximum of £1 for £1 against the growers' contribution) and has set up the Wheat Industry Research Council to make recommendations on the appropriate expenditure of the Commonwealth contribution.

The Council, at its inaugural meeting in February, 1958, considered that possible avenues of research would include the breeding of better varieties, cereal chemistry, soil fertility, mechanization, the industry's cost structure and marketing problems.

Up to the end of June, 1964, the Council and the State Committees have spent £2,408,354, including grants to the Commonwealth Scientific and Industrial Research Organization, State Departments of Agriculture, universities and agricultural colleges.

(v) *Wheat Farms: Number and Classification by Activity.* (a) *Number.* Particulars of the number of farms growing 20 acres and upwards of wheat for grain during each of the years 1959-60 to 1963-64 are shown in the following table. A farm worked on the share system or as a partnership is included as one holding only.

NUMBER OF FARMS GROWING 20 ACRES AND UPWARDS OF WHEAT FOR GRAIN

State or Territory	1959-60	1960-61	1961-62	1962-63	1963-64
New South Wales	16,798	16,959	17,489	18,286	17,753
Victoria	10,555	10,625	11,648	12,166	11,370
Queensland	4,526	4,257	4,483	5,095	4,927
South Australia	7,895	8,913	9,434	9,881	9,902
Western Australia	8,444	8,614	8,722	8,966	8,983
Tasmania	154	121	222	243	251
Australian Capital Territory	23	14	25	27	29
Australia	48,395	49,503	52,023	54,664	53,215

(b) *Size Classification of Wheat Holdings.* There is in Australia a widespread combination of wheat growing with other rural activities. This is illustrated, for the 1959-60 season, by a table on pages 1016 and 1017 of Year Book No. 49. The table, which provides a classification of rural holdings by the area of wheat grown and by type of activity, was derived from information published in the bulletin *Classification of Rural Holdings by Size and Type of Activity, 1959-60, No. 7*.

(vi) *Varieties of Wheat Sown.* (a) *General.* The breeding of wheat suitable to local conditions has long been established in Australia. Farrer (1845-1905) did invaluable work in pioneering this field, and the results of his labour and the continued efforts of those who have followed him have proved of immense benefit to the industry. Their efforts have resulted in the development of disease-resistant varieties, better average yields, and a greater uniformity of sample, with which have accrued certain marketing advantages, as well as an improvement in the quality of wheat grown. More than 1,000 different varieties of Australian wheats have been catalogued by the Commonwealth Scientific and Industrial Research Organization, but the number of principal varieties grown in any one season is restricted to about 45.

(b) *States, 1963-64.* The principal varieties of wheat sown and the percentage of each to the total area sown in the five main wheat-producing States of Australia in 1963-64 were as follows:—New South Wales, Heron (14.3), Mengavi (10.9), Olympic (8.8); Victoria, Insignia (51.9), Pinnacle (18.7), Olympic (17.9); Queensland, Spica (34.3), Festival (15.0), Mengavi (15.0); South Australia, Insignia (38.4), Gabo (18.8), Sabre (11.9); and Western Australia, Gabo (38.5), Insignia (16.1), Insignia 49 (12.4). A detailed table of wheat varieties sown appears in the annual bulletin *The Wheat Industry*, No. 106, February, 1965.

(vii) *Area, Production and Yield per Acre.* (a) *Summary.* Prominent factors in the early development were the increase in population following the discovery of gold and the redistribution of labour after the surface gold had been won. The economic depression of 1893 interrupted its progress, but its subsequent recovery was assisted by the invention of mechanical appliances, the use of superphosphates as an aid to production, and the introduction of new and more suitable varieties of wheat for Australian conditions. The establishment of closer settlement schemes and the settling of returned soldiers and others on the land were additional factors in its expansion.

The area, production and yield per acre of wheat for grain in each State are shown below for the years 1959-60 to 1963-64 in comparison with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

WHEAT FOR GRAIN: AREA, PRODUCTION AND YIELD PER ACRE

Period	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.
AREA ('000 ACRES)								
Average for three years ended—

YIELD PER ACRE (BUSHELLS) (a)								
Average for three years ended—								
1938-39	13.0	13.9	13.1	11.2	10.5	24.1	22.5	12.2
1948-49	13.0	14.9	19.5	12.4	11.7	19.7	19.5	13.3
1958-59	14.7	21.1	19.6	18.8	13.6	24.7	15.0	16.5
Year—								
1959-60	19.1	17.2	19.8	7.7	15.8	22.0	26.8	16.3
1960-61	20.8	25.3	15.9	23.6	15.9	21.4	28.5	20.4
1961-62	17.4	20.0	16.0	15.2	15.0	22.2	22.7	16.8
1962-63	21.8	21.7	20.3	14.8	15.1	27.3	29.3	18.6
1963-64	24.7	24.5	23.8	19.3	11.3	27.5	24.6	19.9

(a) 60 lb. per bushel.

A graph showing the area sown to wheat for grain in Australia since 1900-1 appears on p. 1003 of this Year Book, and a map showing the distribution of areas growing wheat for grain throughout Australia in 1962-63 appears on page 1013 of Year Book No. 50. Similar maps showing the distribution of wheat areas in 1924-25, 1938-39, 1947-48 and 1954-55 appeared respectively in Year Books No. 22, page 695, No. 34, page 451, No. 39, pages 977-8, and No. 43, page 883.

(b) *Production.* Apart from the variations in the area sown, the size of the wheat harvest in Australia is determined largely by the nature of the season, resulting in considerable year-to-year fluctuations in production.

The main wheat-producing States of Australia are New South Wales, Victoria, South Australia and Western Australia. Queensland production normally approaches local demands, but Tasmania imports wheat from the mainland to satisfy its needs, though it exports flour made from local wheat which is particularly suitable for biscuits.

Production of wheat in 1963-64, 327,912,000 bushels, was a record, exceeding the previous record harvest of 1962-63 by 21,000,000 bushels (7 per cent.). Compared with the previous season, the highest absolute increases were recorded in South Australia, 15,632,000 bushels (41 per cent.) and New South Wales, 13,470,000 bushels (12 per cent.). All States except Western Australia and Tasmania had record harvests.

(c) *Yield per Acre.* Short-term variations in yield per acre are due chiefly to seasonal influences. High yields per acre for Australia in recent years were obtained in 1958-59, 20.7 bushels (a record), and in 1960-61, 20.4 bushels. The yield per acre in 1963-64 was 19.9 bushels.

(d) *Decennial Averages, 1861-70 to 1951-60.* The following table shows the average area, production and yield per acre for decennial periods since 1861 together with similar details for the latest season, 1963-64. Repeated cropping and short rotations (mainly in the eastern States) are believed to have led to the decline in yield to 1900, while fallowing and the widespread use of artificial fertilizers contributed to the increased yields in the decade following. The increase in yield since 1950 has been generally ascribed to the impact of improved pastures and ley-farming (broadly, the alternation of crops and pastures) upon soil fertility in wheat-growing areas.

WHEAT FOR GRAIN: AVERAGE AREA AND PRODUCTION, AUSTRALIA

Period	Area	Production	Yield per acre
	'000 acres	'000 bushels	bushels
Yearly average—			
1861-70	831	10,622	12.8
1871-80	1,646	17,711	10.8
1881-90	3,258	26,992	8.3
1891-1900	4,087	29,934	7.3
1901-10	5,711	56,058	9.8
1911-20	8,928	95,480	10.7
1921-30	11,291	135,400	12.0
1931-40	14,176	177,758	12.5
1941-50	11,358	145,599	12.8
1951-60	10,164	173,622	17.1
Year—			
1963-64	16,474	327,912	19.9

(viii) *Price of Wheat.* (a) *Home Consumption.* The prices charged by the Australian Wheat Board for wheat sold to millers for gristing into flour for consumption in Australia and for wheat sold as stock feed were as follows:—year ended 30th November, 1961, 15s. 4d.; 1962, 15s. 10d.; 1963, 15s. 11½d.; 1964, 14s. 7d.; and 1965, 14s. 8d. These prices include a loading to meet freight charges incurred on wheat shipped to Tasmania (2d. in 1961; 1d. in 1962; 1½d. in 1963; 2d. in 1964; and 1d. in 1965).

(b) *Export Wheat Prices.* The Wheat Board's monthly basic export selling prices for f.a.q. bulk wheat f.o.b. basis, both for wheat sold under the International Wheat Agreement and for "free" wheat sold on the open market, fell in the following ranges:—season ended 31st July, 1961, 13s. 5d. to 13s. 9d.; 1962, 13s. 10d. to 14s. 10½d.; 1963, 14s. 2d. to 14s. 10½d.; and 1964, 14s. 4d. to 15s. 10d. Actual selling prices have been lower than the basic prices in some cases, particularly where other exporting countries enjoy a geographical freight advantage.

The 1959 International Wheat Agreement set the maximum price at 200 cents a bushel and the minimum at 150 cents for f.a.q. wheat sold under the Agreement. Under the current 1962 Agreement operative from 1st August, 1962 (see paragraph 1 (iii) (f), p. 998), the agreed price range is between 202.5 cents and 162.5 cents. Directly converted into Australian currency these limits are approximately 18s. 3½d. and 14s. 6d. a bushel respectively.

Details of export wheat prices in previous years, including those received for wheat sold under the terms of the 1949-1953 International Wheat Agreement, are given in Year Book No. 40, pages 849-50, and in the statistical bulletin *The Wheat Industry, Australia*, No. 99, March, 1961, and in previous issues of these publications.

(ix) *Value of the Wheat Crop.* The estimated gross value of the wheat crop in each State and in Australia during the season 1963-64 and the value per acre are shown below.

WHEAT FOR GRAIN: VALUE OF CROPS(a), 1963-64

Particulars		N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.
Aggregate value	£'000	87,076	54,249	15,974	38,830	37,194	346	47	233,716
Value per acre	£	17.5	17.4	17.0	13.9	8.0	19.7	16.6	14.2

(a) Gross value of total crop, including wheat used for seed and for stock feed on farms. Also includes payment of £941,000 by the Commonwealth Government.

(x) *Production and Disposal of Wheat in Australia.* In the following tables details are given of Australian Wheat Board transactions and of total production and disposal of wheat during each of the years ended 30th November, 1960 to 1964. (For particulars of production and yield from 1935-36 see graphs, p. 1004 of this Year Book.)

(a) *Wheat Acquired.* Particulars of wheat acquired by the Australian Wheat Board from the 1959-60 to 1963-64 harvests are shown in the following table.

AUSTRALIAN WHEAT BOARD: WHEAT ACQUIRED (^{'000} bushels)

Pool	Harvest	New South Wales	Victoria	Queensland	South Australia	Western Australia	Tasmania	Australia
23	1959-60	67,073	37,099	11,832	9,112	54,132	91	179,339
24	1960-61	72,984	66,881	8,821	43,706	59,012	63	251,467
25	1961-62	67,784	55,121	9,981	30,737	60,459	208	224,290
26	1962-63	98,677	67,215	17,537	35,120	66,898	275	285,722
27	1963-64	110,721	77,724	20,330	51,660	47,071	325	307,831

(b) *Stocks of Wheat and Flour.* Stocks of wheat (including flour in terms of wheat) held by the Australian Wheat Board in each State at 30th November for the years 1960 to 1964 are shown in the following table. These data relate to stocks held at mills, sidings, ports and depots as recorded by the Australian Wheat Board.

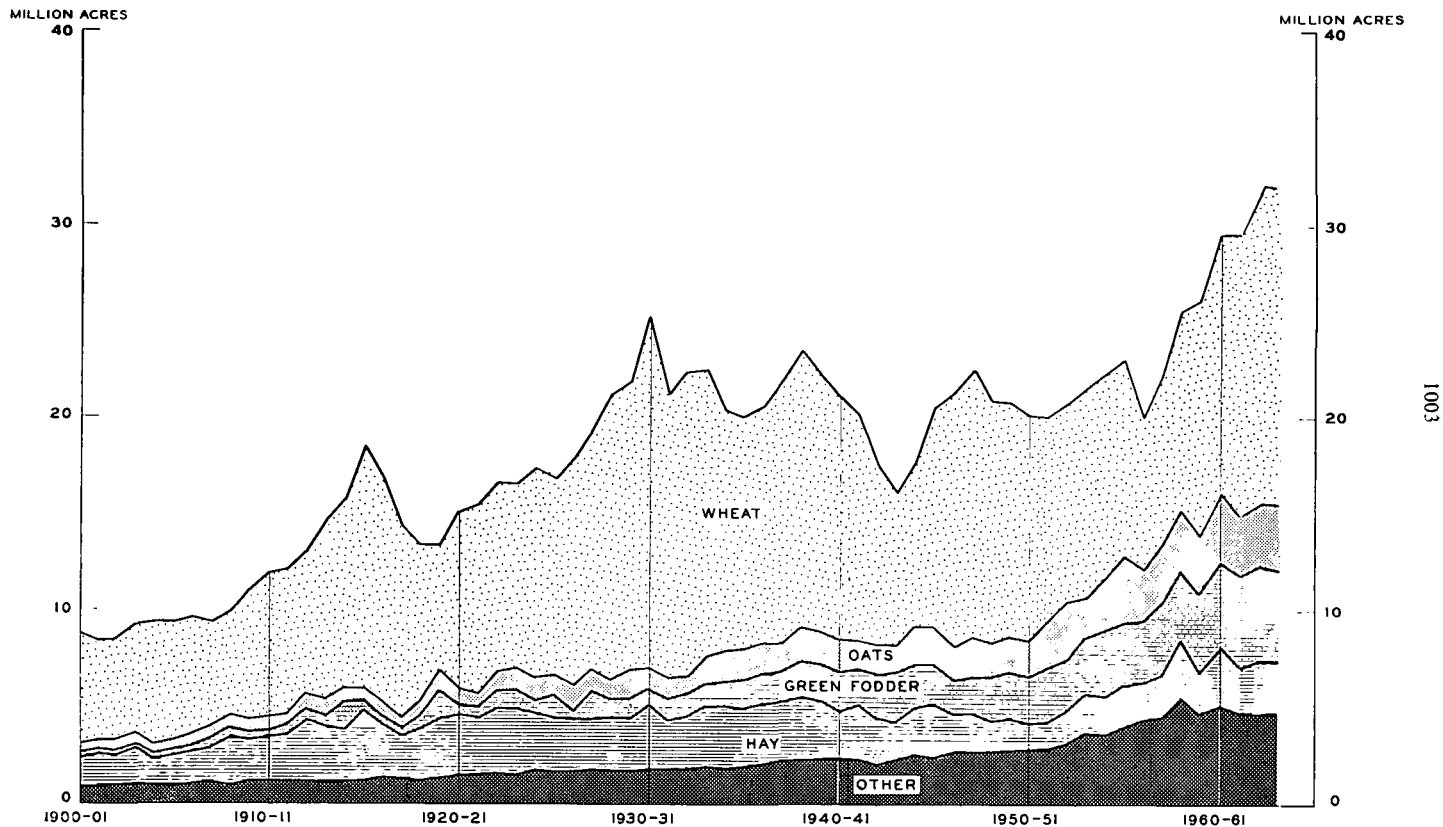

AUSTRALIAN WHEAT BOARD: STOCKS(a) OF WHEAT (INCLUDING FLOUR IN TERMS OF WHEAT), 30th NOVEMBER (^{'000} bushels)

Year	N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tas.	Australia
1960	19,878	16,639	451	2,203	20,995	535	60,701
1961	7,701	8,780	965	3,122	3,338	452	24,358
1962	5,574	6,021	1,333	1,831	2,449	491	17,699
1963	10,879	7,000	775	1,775	2,221	625	23,275
1964	7,340	7,490	806	3,048	1,257	472	20,413

(a) Held at mills, sidings, ports and depots. Excludes new season's wheat received from growers prior to 30th November of years shown.

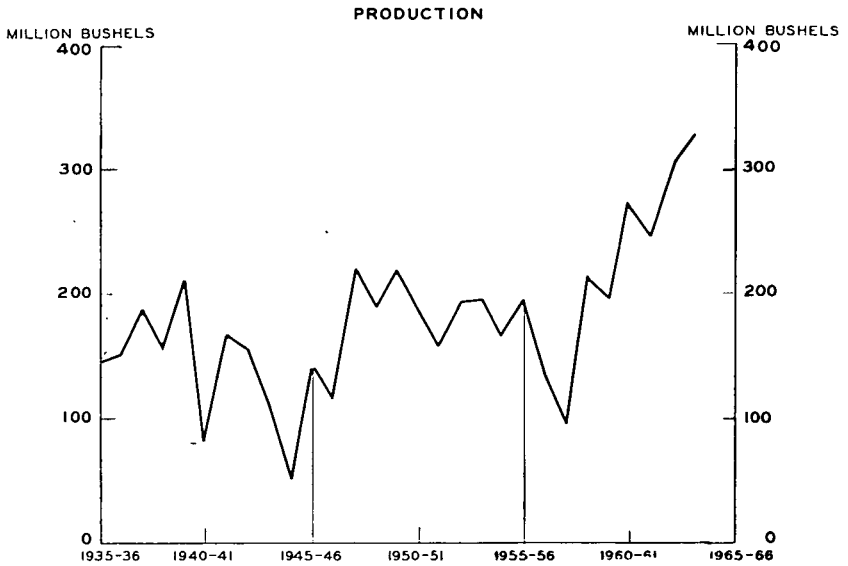

NOTE.—One short ton (2,000 lb.) of flour is taken to be equivalent to 46.3 bushels of wheat.

AREA OF CROPS: AUSTRALIA, 1900-01 TO 1963-64

WHEAT FOR GRAIN

AUSTRALIA, 1935-36 TO 1962-63

(c) *Wheat Disposal.* Particulars of the disposal of wheat during the years ended 30th November, 1960 to 1964, as recorded by the Australian Wheat Board, are shown in the following table.

AUSTRALIAN WHEAT BOARD: DISPOSAL OF WHEAT
(’000 bushels)

Particulars	Year ended 30th November—				
	1960	1961	1962	1963	1964
Exported as wheat	97,645	202,027	152,818	203,703	221,530
Exported as flour(a)	26,147	29,438	25,123	24,903	31,798
Sold for local consumption as flour	42,713	39,814	40,736	40,389	42,954
Sold for other purposes	16,635	15,107	11,635	10,791	13,658

(a) Includes wheat equivalent of manufactured wheat products exported.

(d) *Production and Disposal.* A summary of all transactions in wheat for Australia, as distinct from those recorded for the Wheat Board above, appears in the following table.

WHEAT: PRODUCTION AND DISPOSAL, AUSTRALIA
(million bushels)

Particulars	Year ended 30th November—				
	1960	1961	1962	1963	1964
Opening stocks (including flour)(a)(b) ..	65.4	60.7	24.4	17.7	23.3

Excess (+) or deficiency (–) of disposals in relation to available supplies(d) ..	–0.7	+5.7	+3.1	–2.7	+2.7

(a) In terms of wheat. (b) Held at ports, depots, mills and sidings. (c) Source: Australian Wheat Board. (d) Includes allowance for unrecorded movements in stocks, gain or loss in out-turn, etc.

NOTE.—One short ton (2,000 lb.) of flour is taken to be equivalent to 46.3 bushels of wheat.

(e) *Finance.* The *Wheat Industry Stabilization Act 1948* empowered the Minister to arrange with the Commonwealth Bank for advances to the Board, the advances being guaranteed by the Commonwealth Government. These provisions have been continued in the subsequent legislation, with the exception that advances are now arranged through the Reserve Bank.

(a) Incomplete. (b) Subject to additional £8,024,000 (of which the Commonwealth Government provided £3,022,000) withdrawn from Wheat Prices Stabilization Fund and payment of £187,000 to Wheat Industry Research Fund. (c) Subject to additional £8,884,000 provided by the Commonwealth Government and payment of £261,000 to Wheat Industry Research Fund. (d) Subject to additional £7,288,000 provided by the Commonwealth Government and payment of £233,000 to Wheat Industry Research Fund. (e) Subject to additional £11,317,000 provided by the Commonwealth Government and payment of £297,000 to Wheat Industry Research Fund. (f) Subject to additional £941,000 provided by the Commonwealth Government and payment of £320,000 to Wheat Industry Research Fund.

NOTE.—Details of earlier pools will be found in previous issues of the Year Book.

(xi) *Imports of Wheat.* Wheat and flour have been imported in substantial quantities on three occasions since 1900; in 1902-3, the wheat harvest was only 12,378,000 bushels, and wheat and flour equivalent to 12,468,000 bushels of wheat were imported. An equivalent of 7,279,000 bushels was imported in 1914-15 to supplement the yield of 25 million bushels produced in that season. Owing to drought conditions in 1957-58 wheat supplies were insufficient for local requirements and, as a result, 1,485,000 bushels were imported from Canada in 1958. No wheat has since been imported.

(xii) *Exports of Wheat and Flour.* Statistics in this sub-paragraph relate to years ended 30th June. Export figures relate to the exports of Australian produce only.

(a) *Quantity and Value.* The following table shows particulars of the exports of wheat and flour and the total of both, in terms of wheat, for each of the years 1959-60 to 1963-64.

WHEAT AND FLOUR: EXPORTS FROM AUSTRALIA

Year	Quantity				Value		
	Wheat	Flour		Total (in terms of wheat)	Wheat	Flour(a)	Total
		As flour (a)	In terms of wheat				
'000 bushels	short tons	'000 bushels	'000 bushels	£A.'000 f.o.b.	£A.'000 f.o.b.	£A.'000 f.o.b.	
1959-60	91,252	558,127	25,841	117,093	61,680	15,811	77,491
1960-61	152,995	679,179	31,446	184,441	102,426	19,637	122,063
1961-62	203,155	602,665	27,903	231,058	142,446	18,164	160,610
1962-63	151,971	544,441	25,208	177,179	108,452	16,330	124,782
1963-64	253,724	714,939	33,102	286,826	181,009	21,879	202,888

(a) White flour (plain and self-raising), sharps and wheatmeal for baking.

NOTE.—One short ton (2,000 lb.) of flour is taken to be equivalent to 46.3 bushels of wheat.

(b) *Destination of Wheat.* The following table shows the exports of wheat to various countries for each of the years 1959-60 to 1963-64.

WHEAT: EXPORTS FROM AUSTRALIA

(^{'000} bushels)

Country to which exported	1959-60	1960-61	1961-62	1962-63	1963-64
China (Mainland)	40,297	71,760	76,230	93,440

Other	144,864	269,779	140,262	144,730	132,224
Total	558,127	679,179	602,665	544,441	714,939

(xiii) *World Area and Production of Wheat.* The figures in the following table of the world area and production of wheat by principal countries and by continents have been compiled from the statistics published by the International Wheat Council. Harvests in the northern hemisphere occur in the first of the two years mentioned in each column heading, and in the southern hemisphere at the end of that year and the beginning of the next. Harvests of the northern hemisphere countries are thus combined with those of the southern hemisphere which immediately follow; e.g., the crop harvested in the northern hemisphere in 1963 is combined with the southern hemisphere harvests which began late in 1963 and ended early in 1964.

(xiv) *Principal Exporting and Importing Countries.* The following table shows world exports of wheat and wheat flour (in terms of wheat) by the major wheat exporting countries, according to continents and countries of primary destination, based on statistics recently published by the International Wheat Council.

While Australia's production of wheat averages about 4 per cent. of the world's total, its exports account for a much higher proportion of the total quantities shipped. In 1963-64, for example, Australia's share of world wheat exports amounted to 14.0 per cent.

(a) Subject to revision.

(b) Excludes U.S.S.R., details for which are shown separately.

(c) Less than 50,000 bushels.

NOTE.—These particulars are based on customs clearances of the exporting countries, and relate to years ended 30th June. There is a small difference between Australian exports as shown above and those on pages 1006-7 since a slightly different factor was used by the International Wheat Council to convert flour to wheat equivalent.

2. Oats.—(i) *General.* This cereal is widely grown in all agricultural areas which have autumn, winter, and spring rainfall; it is tolerant of wet conditions and heavy soils. It has excellent feed value, and produces a higher yielding crop than other winter cereals. It needs less cultivation, but requires ample fertilizer. Oats has a variety of uses—as a pasture plant when rough sown into stubble or heavy clover pastures, as silage if cut before maturity, as a hay crop when mown and baled or cut for chaff, or as a grain when stripped (the stubble then being grazed off). The grain is sold on a “fair average quality” basis through voluntary pools in Victoria, South Australia, and Western Australia. Excessive bulk in the husk and a fluctuating export price limit the extent of oversea trade.

(ii) *Area, Production and Yield per Acre.* Oats is usually next in importance to wheat among the grain crops cultivated in Australia. However, while wheat grown for grain in 1963–64 accounted for 51 per cent. of the area of all crops, oats grown for grain represented only 11 per cent. The area, production and yield per acre of oats in each State are shown below for the years 1959–60 to 1963–64 in comparison with the averages for the three-year periods ended 1938–39, 1948–49 and 1958–59.

OATS FOR GRAIN: AREA, PRODUCTION AND YIELD PER ACRE

Period	N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.

(a) Less than 500 acres.

(b) 40 lb. per bushel.

Graphs showing the area sown to oats and production of oats in Australia appear on pages 993 and 995 of Year Book No. 49, and a map showing the distribution of areas growing oats for grain throughout Australia in 1962-63 appears on page 1015 of Year Book No. 50.

The area sown to oats from 1900-01 is shown in the graph on page 1003.

In 1963-64 the production of oats was 68,234,000 bushels, 18,671,000 bushels (22 per cent.) below the record harvest of 86,905,000 bushels in 1958-59.

The yield per acre in 1963-64 was 20.1 bushels, compared with the record yield of 21.9 bushels per acre established in 1958-59. The lowest yield recorded was 4.4 bushels per acre in the abnormally dry season of 1944-45.

(iii) *Price of Oats.* The average wholesale price in the Melbourne market for oats of good milling quality was 7s. 6d. a bushel in 1963-64, compared with 7s. 7½d. in 1962-63.

(iv) *Value of Oat Crop.* The estimated gross value of the oat crop in each State for the 1963-64 season and the value per acre were as follows.

OATS: VALUE OF CROP, 1963-64

Particulars	N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.
Aggregate value £'000	8,090	6,924	336	2,609	6,546	320	8	24,833
Value per acre .. £	10.2	7.6	10.8	5.2	5.8	10.5	7.1	7.3

(v) *Exports.* The production of oats in Australia is sufficient to allow for an export trade which fluctuates with the incentive offered by overseas prices. The quantities and values of Australian-produced oats exported from Australia during the years 1959-60 to 1963-64 are shown below.

OATS: EXPORTS, AUSTRALIA

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Quantity '000 bus.	11,969	19,005	19,064	17,744	16,673
Value £A.'000 f.o.b.	5,031	6,854	7,479	7,076	6,311

In 1963-64 the principal countries of destination were China (Mainland) (5,515,000 bushels), the Federal Republic of Germany (4,732,000 bushels), the Netherlands (3,351,000 bushels), and Italy (766,000 bushels). Imports of oats into Australia are not recorded separately.

(vi) *Oatmeal and Other Oat Products.* In 1963-64 the production of oatmeal was 14,948 tons for porridge and 26,074 tons for other purposes. This was equivalent to about 4,594,000 bushels of oats.

(vii) *World Production.* The world's production of oats for the year 1963, according to figures issued by the United States Department of Agriculture, amounted to 3,200 million bushels, harvested from 78.6 million acres, resulting in an average yield of 40.7 bushels an acre. This compared with an estimated production in the previous year of 3,375 million bushels from an area of 83.5 million acres and an average yield of 40.4 bushels an acre.

3. **Barley.**—(i) *General.* This cereal contains two main groups of varieties: 2-row and 6-row. The former is generally, but not exclusively, preferred for malting purposes.

Barley was formerly stubble-sown, but is now grown principally on pasture land worked up early in the year of sowing. In this way it forms an important phase in the rotation of the land. Like oats, it may also be sown for fodder production or for grain. When sown for fodder, sowing may take place either early or late in the season, as it has a short growing period. It may thus provide grazing or fodder supplies when other sources are not available. Barley grain may be crushed to meal for stock (especially pigs) or sold for malting. Crops sown for malting purposes require well-worked, weed-free paddocks of even soil, and are thus restricted to specific districts.

The main barley-growing areas in Australia are situated in Victoria (Mallee, North Wimmera, and Geelong) and South Australia (Murry-Mallee, Eyre and Yorke Peninsulas). In Western Australia it is grown in the higher rainfall areas on the western edge of the wheat belt.

(ii) *Barley Boards.* The bulk of the barley crop in the various States is acquired and marketed by grower-controlled boards. Pooled returns from sales are distributed to growers at standard rates for the individual grades and varieties delivered. The Victorian and South Australian crops are marketed by the Australian Barley Board (a joint board established by the two State Governments), and the Queensland and Western Australian Barley Boards handle the crops of their respective States.

(iii) *Australian Barley Board Operations.* Particulars of the proportion of barley production which was received by the Australian Barley Board (for Victoria and South Australia), together with details of quantity sold, advances and total payments to growers, are presented below.

AUSTRALIAN BARLEY BOARD: BARLEY RECEIVED, SOLD, ETC.

Pool	Quantity received	Quantity sold ^(a)	Total advances made per bushel on 2-row No. 1 Grade less freight		Total net payments to growers
			s.	d.	
	'000 bushels	'000 bushels			£'000
No. 21 (1959-60 Crop)	11,773	11,797	10	0 51	4,904
" 22 (1960-61 ")	44,624	44,680	9	3 26	16,989
" 23 (1961-62 ")	20,081	20,059	11	7 28	9,707
" 24 (1962-63 ")	17,195	17,285	11	6 76	8,333
" 25 (1963-64 ")	23,145	23,189	(b) 11	0 00	10,248

(a) Includes surplus or shortage in out-turn, except for No. 25 Pool for which the surplus has not yet been ascertained. (b) As at 31st January, 1965. At that date it was estimated that the amount still to be paid to growers was 8.026d. per bushel.

(iv) *Area, Production and Yield per Acre.* There was a substantial increase in the area of barley sown for grain (particularly in Western Australia and Queensland) in the years up to 1960-61, and in that year the area sown reached the record level of 2,830,000 acres. However, the area sown in 1963-64, 2,013,000 acres, was 29 per cent. less than the area in 1960-61. The production of barley for grain in 1963-64, 43,395,000 bushels, although 10 per cent. more than production in 1962-63, was 36 per cent. less than the record production of 67,970,000 bushels in 1960-61. The area, production and yield per acre of barley for grain in the several States for the years 1959-60 to 1963-64, compared with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59 are shown in the following table.

(a) Less than 500 acres.

(b) 50 lb. per bushel.

(c) Less than 500 bushels.

For Australia, 81 per cent. of the area of barley for grain in 1963-64 was sown with 2-row barley, while the remainder consisted of 6-row varieties. The proportion, however, varied considerably in the several States. The utilization of barley during the season ended November, 1964, was as follows:—exports, 17,263,000 bushels; malting and distilling, 10,500,000 bushels; pearl barley, 136,000 bushels; seed and stock feed, 12,080,000 bushels.

The following table sets out the acreage and production of 2- and 6-row barley in Australia during the seasons 1959-60 to 1963-64 and the averages for the three years ended 1938-39, 1948-49 and 1958-59.

1963-64 ..	1,621	392	2,013	36,464	6,931	43,395	22.5	17.7	21.6

(a) 50 lb. per bushel.

(b) Excludes Tasmania.

A graph showing the production of barley in Australia since 1935-36 appears on page 995 of Year Book No. 49, and a map showing the distribution of barley growing areas throughout Australia in 1962-63 appears on page 1014 of Year Book No. 50.

(v) *Prices.* The average wholesale price for 2-row English malting barley in the Melbourne market during 1962-63 and 1963-64 was 15s. 1d.

(vi) *Value of Barley Crop.* The estimated gross value of the barley crop in each State for the 1963-64 season and the value per acre are shown in the following table.

BARLEY FOR GRAIN: VALUE OF CROP, 1963-64

Particulars		N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Aust.
Aggregate value ..	£'000	3,320	1,901	2,838	13,199	2,188	296	23,742
Value per acre ..	£	15.7	10.0	16.1	11.8	7.3	21.5	11.8

(vii) *Exports.* South Australia was the principal exporting State in 1963-64, and Japan, the United Kingdom, the Netherlands, Italy and the United States of America were the principal countries to which barley was shipped. Particulars of exports of Australian produced barley for the years 1959-60 to 1963-64 are shown in the following table.

BARLEY: EXPORTS, AUSTRALIA

Particulars		1959-60	1960-61	1961-62	1962-63	1963-64
Quantity ..	'000 bus.	25,013	33,900	31,435	10,322	17,756
Value ..	£A.'000 f.o.b.	11,541	14,329	14,954	5,229	9,149

Imports of barley into Australia are not recorded separately, but are considered to be negligible.

In addition to exports of barley grain, there are also exports of Australian pearl and Scotch barley, the total for 1963-64 amounting to 355,770 lb., valued at £9,294, the main country of consignment being Malaya.

(viii) *Malt.* (a) *Production.* Details of the quantity of grain used and the production of barley malt in the years 1959-60 to 1963-64 are given in the following table.

BARLEY MALT: GRAIN USED AND MALT PRODUCED, AUSTRALIA

Particulars		1959-60	1960-61	1961-62	1962-63	1963-64
Grain used ..	'000 bus.(a)	8,535	9,017	10,301	10,338	12,067
Malt produced ..	'000 bus.(b)	8,435	9,015	10,207	10,429	11,989

(a) 50 lb. per bushel.

(b) 40 lb. per bushel.

(b) *Exports.* Since 1952-53 the production of malt in Australia has been sufficient to meet local requirements and to provide a margin for export. Exports of Australian produce amounting to 2,980,000 bushels (value £2,883,000) and 4,076,000 bushels (value £3,904,000) were recorded in 1962-63 and 1963-64 respectively.

(ix) *World Production.* In comparison with the barley production of other countries that of Australia is extremely small. The main producers in 1963 were the United States of America, France, and the United Kingdom. China is also normally a major producer, but details for 1963 are not available. Australian production in that year was approximately one per cent. of the world total.

According to estimates made by the United States Department of Agriculture, world production of barley in the year 1963 amounted to 4,070 million bushels harvested from 163.0 million acres, equivalent to a yield per acre of 25.0 bushels. This compared with the production of 3,910 million bushels in the previous year from 148.2 million acres, and a yield per acre of 26.4 bushels.

4. *Sorghum for Grain.*—Grain sorghum is a summer-growing annual palatable to stock, and more drought- and frost-resistant than maize. It requires a summer rainfall. The growing of this crop for grain on an extensive scale is a comparatively recent development in Australia and, as with other cereals, operations are highly mechanized.

The climatic conditions of Queensland and northern New South Wales are particularly suited to the growing of sorghum, and development has so far been restricted mainly to these areas, more particularly to Queensland. The grain produced is fed to livestock and has become an important source for supplementing other coarse grains for this purpose. Other sorghums are grown in Australia mainly as green fodder, hay and silage (sweet sorghums and Sudan grass) and for the production of brush for broom manufacture (broom millet).

In Queensland the growing of grain sorghum is concentrated in the Burnett, Dawson-Callide areas and in the central highlands. In New South Wales the north western slopes and Murrumbidgee Irrigation Area are the main areas. This crop is also suitable for the semi-tropical areas of the Northern Territory and the Kimberleys.

Particulars of the area and production of sorghum grown for grain in recent years are given in the following table.

GRAIN SORGHUM: AREA, PRODUCTION AND YIELD PER ACRE

Season	Area			Production(a)			Yield per acre(a)		
	N.S.W.	Q'land	Aust. (b)	N.S.W.	Q'land	Aust. (b)	N.S.W.	Q'land	Aust. (b)
	acres	acres	acres	'000 bushels	'000 bushels	'000 bushels	bushels	bushels	bushels
1959-60 ..	51,195	220,094	271,553	1,452	6,630	8,086	28.4	30.1	29.8
1960-61 ..	41,145	213,761	255,109	577	5,418	5,996	14.0	25.3	23.5
1961-62 ..	70,134	292,397	362,666	1,308	8,054	9,361	18.6	27.5	25.8
1962-63 ..	80,255	311,068	391,334	1,891	8,361	10,252	23.6	26.9	26.2
1963-64 ..	61,203	303,857	365,708	1,269	6,612	7,889	20.7	21.8	21.6

(a) 60 lb. per bushel.

(b) Includes small areas sown and quantities produced in other States.

5. *Maize for Grain.*—(i) *General.* Like sorghum, maize is a summer cereal demanding specific soil and climatic conditions. It is grown for grain, chiefly in the south-east and Atherton Tablelands of Queensland and the north coast and northern tablelands of New South Wales. The area so cropped in these States during the 1963-64 season was 98 per cent. of the total for Australia. On the Atherton Tablelands in Queensland, and generally in New South Wales and Victoria, it provides a stock feed for dairy cattle, fat stock and pigs. In times of drought it is also used as a sheep feed. In all States except South Australia, however, this crop is grown to some extent for green fodder and silage, particularly in connexion with the dairying industry. There is practically no difference between grain and fodder varieties.

There has been a considerable increase in recent years in the growing of maize from hybrid strains of seed. Varieties have been developed which are capable of producing yields per acre considerably in excess of the older open pollinated types. The expansion in areas sown to hybrid maize has led to a parallel development in the specialized industry of growing hybrid strains for seed.

(ii) *Area, Production and Yield per Acre.* The area, production and yield per acre of maize for grain in each State for the years 1959-60 to 1963-64 compared with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59 are given in the following table. Separate details for hybrid and other varieties are shown for all States except Western Australia for 1963-64.

MAIZE FOR GRAIN: AREA, PRODUCTION AND YIELD PER ACRE

Total ..	46.8	59.8	26.6	(a)	18.5	(b) 31.3

(a) Not available for publication. (b) Incomplete; see footnote (a). (c) Included in Other maize. (d) 56 lb. per bushel. (e) Less than 500 bushels.

The average yield for Australia for the five-year period ended 1963-64 was 34.3 bushels per acre. Among principal producing countries, the United States of America averaged 67.3 bushels per acre and Italy 49.3 bushels for 1963.

(iii) *Price of Maize.* The average wholesale price of maize in the Melbourne market in 1963-64 was 18s. 9d. a bushel compared with 16s. 10½d. in 1962-63.

(iv) *Value of Crop.* The estimated gross value of the crop in each State for the 1963-64 season and the value per acre were as follows.

MAIZE FOR GRAIN: VALUE OF CROP, 1963-64

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Aust.
Aggregate value .. £'000	1,793	136	3,252	(a)	1	..	5,182
Value per acre .. £	40.1	40.0	19.5	(a)	11.8	..	24.1

(a) Not available for publication.

(v) *Exports of Maize and Maize Products.* Details of exports of Australian-produced maize for the five years ended 1963-64 are shown on the next page.

MAIZE: EXPORTS, AUSTRALIA

Particulars			1959-60	1960-61	1961-62	1962-63	1963-64
Quantity '000 bus.	22	3	2	552	14
Value £A.'000 f.o.b.	15	4	3	240	14

The increase in exports of maize in 1962-63 was due principally to the shipment of 474,000 bushels to Japan, a country to which there had been no previous exports.

Imports of maize into Australia are not recorded separately, but are considered to be negligible.

(vi) *World Production.* According to figures issued by the United States Department of Agriculture, world production of maize in the year 1963 amounted to 8,055 million bushels, harvested from 247 million acres, giving an average yield per acre of 32.6 bushels. This compared with production in the previous year of 7,510 million bushels from 241 million acres, and an average yield of 31.2 bushels per acre.

The United States of America is the most important maize-producing country in the world, and during the three years ended 1963 the area sown to maize in that country averaged 59 million acres or 24 per cent. of the world total. During the same period production averaged 3,781 million bushels or about 50 per cent. of the world total.

6. Rice.—(i) *General.* The principal rice-growing areas of the world are confined almost entirely to Asia, although limited quantities are grown in other countries. In Australia rice was first cultivated at the Yanco Experimental Farm in New South Wales, but it was not grown commercially until 1924-25, when 16,240 bushels were produced from 153 acres. Favoured by high average yields and protected by tariff, rice culture made rapid progress in the Murrumbidgee Irrigation Area until local requirements were met and a surplus became available for export. The acreage sown in this area is controlled, as the quantity of water available is limited.

Until recent years rice-growing in Australia was practically confined to the Murrumbidgee Irrigation Area in New South Wales. However, there is now some experimental rice-growing in Western Australia and the Northern Territory, but particulars are not available for publication. Small quantities have also been produced in Queensland in some years.

(ii) *Area, Production and Exports.* Details relating to area, production, and Australian-produced exports for the years 1959-60 to 1963-64 are shown in the following table.

RICE: AREA, PRODUCTION AND EXPORTS, AUSTRALIA(a)

Season	No. of holdings growing rice(b)	Area	Production (paddy rice)		Average yield (paddy) per acre	Exports(c)	
			Quantity	Gross value(d)		Un-cleaned	Cleaned
			'000 bushels (e)	£'000		bushels	cwt.
1959-60 ..	852	48,950	6,732	4,450	137.5	265,449	1,055,821
1960-61 ..	787	46,117	6,001	4,125	130.1	359,440	876,175
1961-62 ..	878	50,185	7,045	3,832	140.4	280,540	748,920
1962-63 ..	956	54,929	7,129	3,838	129.8	239,820	905,580
1963-64 ..	1,033	59,398	7,455	3,956	125.5	198,820	918,340

(a) Particulars of area and production for Western Australia and Northern Territory are not available for publication, and are excluded. (b) Twenty acres or more in area. (c) Imports into Australia are not recorded separately, but are considered to be negligible. (d) Excludes the value of straw. (e) 42 lb. per bushel.

The bulk of Australia's exports of rice in 1963-64 was shipped to Papua and New Guinea, the Pacific Islands and the United Kingdom.

§ 4. Fodder Crops

1. Hay.—(i) *General.* Because of the comparatively unreliable nature of rainfall in Australian agricultural and pastoral areas, hay as a fodder crop occupies a position of importance. In 1963-64 hay represented 8 per cent. of the total area of crops.

Up to 1946-47 hay, in terms of area, was second only to wheat for grain, but in more recent years it has been supplanted by green fodder (for feeding-off) and oats for grain.

Hay is generally considered to include cereal hay, meadow hay and lucerne hay. Cereal crops cut early for hay contain a higher level of protein than those cut late.

In most European countries hay is made almost entirely from meadow pastures, but in Australia a very large proportion is made from cereals and lucerne, the hay being stored loose, in sheaves or baled. Because of its bulk, hay is usually produced for individual or local use, except in times of drought, when large inter-regional transfers may take place.

Meadow hay requires greater care in preparation than cereal hay. Baling must be spaced carefully behind mowing to ensure that the bales are dry enough to prevent moulding, but not so dry as to result in excessive leaf loss. The leaves contain the bulk of the protein. Lucerne hay requires similar attention.

(ii) *Area, Production and Yield per Acre.* For a number of reasons, particularly the variations in the relative prices of grain and hay and whether the season is favourable or not for a grain crop, the area of hay is apt to fluctuate considerably. The area, production and yield per acre of hay of all kinds in several States during the years 1959-60 to 1963-64 and the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59 are shown below.

HAY: AREA, PRODUCTION AND YIELD PER ACRE

Season	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.

1963-64 ..	1.72	1.71	2.30	1.37	1.35	1.67	1.02	1.71	1.64

(a) Less than 500 acres.

(b) Less than 500 tons.

A graph showing the area under hay since 1900-01 appears on page 1003 of this Year Book.

(iii) *Varieties Grown.* Information regarding areas cut for hay in 1963-64 is given in the following table.

HAY: AREA OF VARIOUS KINDS GROWN, 1963-64
(Acres)

State or Territory	Oaten	Lucerne	Wheaten	Other	Total
New South Wales	63,744	172,771	57,039	290,083	583,637
Victoria	168,528	81,394	28,273	860,289	1,138,484
Queensland	2,965	63,939	6,384	6,796	80,084
South Australia	140,666	38,407	40,772	137,747	357,592
Western Australia	121,316	1,462	31,951	133,928	288,657
Tasmania	19,233	1,064	447	128,896	149,640
Northern Territory	993	993
Australian Capital Territory..	590	1,283	91	618	2,582
Australia	517,042	360,320	164,957	1,559,350	2,601,669

For all States and the Territories combined, the proportions of the areas sown to the principal kinds of hay in 1963-64 were 19.9 per cent. for oaten, 13.8 per cent. for lucerne, 6.3 per cent. for wheaten, and 60.0 per cent. for other hay.

(iv) *Value of Hay Crop.* The following table shows the estimated gross value, and the value per acre, of the hay crop of the several States for the 1963-64 season.

HAY: VALUE OF CROP, 1963-64

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.
Aggregate value .. £'000	10,614	19,186	3,315	4,208	4,354	1,993	43	43,731
Value per acre .. £	18.2	16.9	41.4	11.8	15.1	13.3	16.7	16.8

(a) Includes £18,000 in the Northern Territory.

(v) *Farm Stocks of Hay.* Particulars of stocks of hay held on farms at 31st March in each year 1960 to 1964 are given in the table below.

STOCKS OF HAY HELD ON FARMS
(Tons)

31st March—	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust. (a)
1960 ..	1,535,252	1,766,857	203,675	304,227	292,086	255,471	10,778	4,368,346
1961 ..	1,704,486	2,640,249	155,209	648,267	258,859	327,696	12,338	5,747,104
1962 ..	1,775,977	1,847,725	231,335	496,564	254,377	305,108	12,241	4,923,327
1963 ..	1,609,639	2,197,725	194,948	470,202	273,500	333,650	6,896	5,086,560
1964 ..	1,610,063	1,911,475	179,422	547,354	274,812	276,650	5,085	4,804,861

(a) Excludes the Northern Territory, for which particulars are not available.

(vi) *Exports.* Under normal conditions, hay, whether whole or in the form of chaff, is somewhat bulky for oversea trade, and consequently does not figure largely among Australian exports. During 1963-64 exports amounting to 2,743 tons, valued at £56,368, were made, principally to Singapore, Malaya, and Hong Kong. There were no imports of hay in 1963-64.

2. *Green Fodder.*—(i) *General.* Considerable areas are devoted to the growing of green fodder, usually as an adjunct to cereal operations or as a minor crop in irrigation areas. The areas recorded in respect of green fodder include areas of crops cut for feeding to live stock as green fodder or ensilage, together with areas fed off to stock as green forage.

Statistics of green fodder exclude areas which may have been sown with the intention of harvesting for grain, but which, owing to adverse conditions, showed no promise of producing grain or even hay and were fed off to live stock. The principal crops cut for green fodder are oats, wheat and lucerne, while small quantities of barley, sorghum, maize, rye and sugar cane are also used in this way. In 1963-64 the area under green fodder (4,876,788 acres) consisted of oats (2,035,327 acres), lucerne (1,933,660 acres), wheat (201,294 acres), barley (144,010 acres), sorghum (113,534 acres), maize (32,919 acres), rye (15,788 acres), sugar cane (2,551 acres), and other crops (397,705 acres). Particulars concerning the area of green fodder in the several States during each of the years 1959-60 to 1963-64 are given in the following table.

GREEN FODDER: AREA
(Acres)

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
1959-60 ..	1,578,759	422,237	725,155	595,713	708,793	62,229	220	968	4,094,074
1960-61 ..	1,691,408	430,920	874,702	743,538	606,039	59,563	138	1,247	4,407,555
1961-62 ..	1,829,867	539,020	864,461	787,388	622,067	57,000	558	1,197	4,701,558
1962-63 ..	1,900,130	477,432	912,018	927,807	667,890	64,940 (a)	314	1,106	4,951,637
1963-64 ..	1,973,637	430,781	1,010,570	971,594	417,519	71,004 (a)	422	1,261	4,876,788

(a) Not comparable with statistics prior to 1962-63.

In the 1963-64 season green fodder ranked second to wheat in area of crops throughout Australia. A graph showing the area sown to green fodder appears on page 1003 of this Year Book.

(ii) *Value of Green Fodder Crops.* The value of these crops is variously estimated in the several States, but the Australian total, excluding Western Australia, may be taken as approximately £9,600,000 for the 1962-63 season and £10,500,000 for the 1963-64 season.

3. *Ensilage.*—(i) *General.* Ensilage is produced from herbage compacted tightly to exclude air and kept from contact with air and extraneous moisture to avoid moulding. Fermentation results in a dark mass of high protein and lactic acid content. Molasses may be added to hasten fermentation. Ensilage may be stored in pits or stacks or in constructed silos.

The several State Governments devote a considerable amount of attention to the education of the farming community with regard to the value of ensilage. Monetary aid is afforded in the erection of silos, and expert advice is supplied in connexion with the design of the silos and the cutting and packing of the ensilage.

(ii) *Production and Stocks.* Information regarding production and farm stocks of ensilage for the years ended 31st March, 1960 to 1964, is given in the following table.

ENSILAGE: PRODUCTION AND FARM STOCKS
(Tons)

Period	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.

§ 5. Industrial Crops

1. **Sugar Cane.**—(i) *General.* The growing of sugar cane is restricted to those coastal areas in Queensland and northern New South Wales which have suitable climatic and soil conditions. Considerable areas in more southern coastal districts of New South Wales previously devoted to this crop are now used for dairying owing to the uncertainty of rainfall.

The Bureau of Sugar Experiment Stations in Queensland and the Colonial Sugar Refining Company Limited render useful service to the sugar industry by advocating and demonstrating better methods of cultivation and the more scientific use of fertilizers, lime, etc., and by producing and distributing improved varieties of cane.

(ii) *Sugar Agreements and Marketing Arrangements.* (a) *In Australia.* In Year Book No. 37, pages 940-1, a summary was given of the agreement operating between the Commonwealth and Queensland Governments in respect of the sugar industry in Australia. Briefly, the agreement places an embargo on sugar importations and fixes the price of sugar consumed in Australia. The current agreement is for the period from 1st September, 1961 to 31st August, 1967. The Commonwealth Government appointed a Committee of Enquiry in 1960 to investigate all facets of the sugar and canned fruits industries. The Committee presented its report, publication of which was restricted to a summary of conclusions and recommendations, in 1961. There was no variation of the consequent agreement.

Production of sugar is regulated under the terms of the agreement. At the mill level, control is exerted by means of seasonal "mill peaks" in respect of Queensland mills and a proportionate allowance for New South Wales mills. The combined total equals the estimated requirements of the domestic and export markets. Farm production is regulated according to the limit on the mill which the farm supplies.

Up to the end of 1961 exports were limited by the export quota provisions of the International Sugar Agreement, but these provisions have not been operative since then (*see (b) below*).

The Queensland Government acquires the whole of the sugar production of that State and of New South Wales by legislation and private agreement respectively. The net proceeds of all sugar sold are pooled and a uniform price paid to mills.

In 1963 a Queensland Government Committee of Enquiry recommended that the industry should expand production to 2.26 million tons (of 94 net titre sugar) by 1965-66, of which New South Wales might produce 132,000 tons. This recommendation has been implemented.

(b) *International Sugar Agreement.* The International Sugar Agreement of 1937 was superseded by the International Sugar Agreements of 1953 and 1958. Details of the 1937 and 1953 Agreements were given in Year Books No. 40, pages 881-2, and No. 48, page 936, respectively.

The 1958 Agreement, which came into operation on 1st January, 1959, established basic export quotas for exporting countries. The British Commonwealth was allocated a total quota, the distribution of which remained a matter for internal arrangement by the countries and territories concerned (*see (c)*, p. 1022). The Australian quota for 1960 and 1961 was approximately 651,000 tons per annum.

The quota and price provisions of the International Sugar Agreement were subject to review before 31st December, 1961. A conference in Geneva in 1961 failed to reach agreement on quota provisions for 1962 and 1963. The conference adjourned with a resolution that it be reconvened if circumstances became favourable for an agreement on quotas.

The principal practical effect of the adjournment of the 1961 conference was that former export limitations on participating exporting countries, including Australia, did not apply until such time as agreement on this question was again reached at a resumed session of that conference, or at a newly convened conference.

The question of convening a United Nations conference to consider re-introduction of an agreement with quota provisions was deferred at a meeting of the International Sugar Council in April, 1963. The 1958 Agreement, in its restricted form, was extended by protocol until 31st December, 1965. The report of a preparatory committee appointed to study the basis and possible framework of a new agreement was considered at a Council meeting in November, 1964, when the question of convening a United Nations conference was again deferred.

(c) *British Commonwealth Sugar Agreement.* On 1st January, 1953, the British Commonwealth Sugar Agreement became effective. This agreement, which has been extended to 1972, provides for Australia to export to preferential markets a maximum of 600,000 tons per annum. Of the 600,000 tons, 335,000 tons are purchased by the United Kingdom Government at an annually negotiated price and the balance is sold at world market prices plus tariff preferences where applicable. The negotiated price for 1963 and 1964 was £Stg.46 0s. 10d. per ton bagged c.i.f. U.K. Following a variation in the basis of determination, the price for 1965 has been fixed at £Stg.42 bulk f.o.b. and stowed.

(iii) *Fruit Industry Sugar Concession Committee and Sugar Rebates.* The Fruit Industry Sugar Concession Committee was established by agreement between the Commonwealth and Queensland Governments and administers a fund contributed by the Queensland Government on behalf of the sugar industry.

Until 15th May, 1960, a rebate of £2 4s. per ton of refined sugar used in processing approved fruit products was paid to Australian manufacturers, provided they bought the fresh fruit at prices not lower than those declared by the Committee as reasonable. This was increased to £5 per ton from 16th May, 1960.

An export sugar rebate is also paid by the Committee to exporters of approved fruit products to ensure that manufacturers do not pay higher prices for Australian sugar than the price for which the cheapest imported sugar could be landed duty free in Australia. The Queensland Government is responsible for payment of a similar rebate to exporters of other approved products. Payment of the export sugar rebate in respect of approved fruit products made from Australian fresh fruit purchased on or after 14th March, 1963, has been made conditional upon such fruit having been purchased at not less than the prices (if any) which the Committee had declared to be reasonable at the time of purchase.

Under the Sugar Agreement for 1961-67, the Queensland Government contributes to the fund £264,000 annually, reimburses the Committee for the actual expenditure on export sugar rebates, and by a supplementary agreement operating from 1st September, 1962, pays the Committee an additional sum equal to the amount payable by way of domestic sugar rebate in respect of the products exported. Any money remaining in the fund after the payment of rebates and administrative expenses may be used by the Committee for the promotion of the use and sale of fruit products, or for research for the purpose of increasing the yield per acre of Australian fruit, or of obtaining information regarding Australian fresh marketable fruits.

Because the price of sugar on the world free market in late 1963 was so high that the rates of export sugar rebate determined monthly under the Sugar Agreement were nil, the sugar industry has made such payments, *ex gratia*, as have been necessary to maintain export sugar rebates at a minimum of £25 per ton and £30 per ton respectively on the cane sugar content of approved fruit products and other approved products exported on or after 1st November, 1963.

(iv) *Bulk Handling of Sugar.* The total conversion of the Australian sugar industry to bulk handling and mechanized loading and unloading of raw sugar has now been accomplished, except for the operation of a bagging station specially provided at Townsville to meet the needs of a few oversea customers.

Terminals for the bulk loading of sugar were opened at Mackay in 1957, at Lucinda and Bundaberg in 1958, at Townsville in 1959, at Mourilyan in 1960, and at Cairns in 1964. A second storage shed and an addition have been completed at Bundaberg. A third shed at Mackay and second sheds at Lucinda and Townsville are in course of construction.

The comparatively small New South Wales sugar industry was converted to bulk handling in 1954. Bulk receiving facilities are in operation at all Australian refineries.

(v) *Area.* A brief outline of the development of the industry was included in earlier issues of the Year Book (*see* No. 38, p. 985). The area of sugar cane in Australia for the seasons 1959-60 to 1963-64 and the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59 are shown in the following table.

SUGAR CANE: AREA(a)
(Acres)

Season	New South Wales			Queensland			Australia			Total
	Area crushed	Area of stand-over and newly-planted cane	Area cut for plants	Area crushed	Area of stand-over and newly-planted cane	Area cut for plants	Area crushed	Area of stand-over and newly-planted cane	Area cut for plants	
Average for three years ended—										
1938-39	10,468	10,366	n.a.	247,632	89,690	n.a.	258,100	100,056	n.a.	n.a.

1958-59	11,094	9,462	619	360,709	110,786	12,596	371,803	120,248	13,215	505,266
Year—										
1959-60	14,248	10,510	392	299,732	151,114	11,039	313,980	161,624	11,431	487,035
1960-61	13,657	11,385	568	327,246	110,704	11,574	340,903	122,089	12,142	475,134
1961-62	14,655	11,299	482	372,223	87,831	12,339	386,878	99,130	12,821	498,829
1962-63	14,109	12,656	495	387,477	80,438	11,313	401,586	93,094	11,808	506,488
1963-64	15,508	14,204	594	402,060	93,149	13,205	417,568	107,353	13,799	538,720

(a) Excludes areas cut for green fodder.

The areas shown in the preceding table do not include the small acreage cut for green fodder, which in 1963-64 amounted to 2,551 acres. The whole area planted is not cut for crushing during any one season, there being always a considerable amount of young and "stand-over" cane as well as a small quantity required for plants.

(vi) *Production of Cane and Sugar.* The production of sugar cane in 1963-64 was 12.1 million tons, which was 4.9 per cent. below the record production in 1962-63. A graph showing the production of sugar appears on page 995 of Year Book No. 49.

In the following table production data relating to cane and raw sugar are shown for the seasons 1959-60 to 1963-64 together with averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

SUGAR CANE: PRODUCTION OF CANE AND RAW SUGAR
(Tons)

Season	New South Wales		Queensland		Australia	
	Cane	Sugar(a)	Cane	Sugar(a)	Cane	Sugar(a)
Average for three years ended—						
1938-39	324,531	43,419	5,215,217	760,994	5,539,748	804,413
1948-49	283,613	35,444	4,767,291	700,053	5,050,904	735,497
1958-59	356,324	43,881	9,221,497	1,260,564	9,577,821	1,304,445
Year—						
1959-60	574,527	70,677	8,427,731	1,217,803	9,002,258	1,288,480
1960-61	480,147	62,978	8,685,426	1,319,633	9,165,573	1,382,611
1961-62	555,858	67,448	9,020,734	1,315,393	9,576,592	1,382,841
1962-63	637,310	79,733	12,098,582	1,770,084	12,735,892	1,849,817
1963-64	617,402	75,980	11,500,672	1,648,273	12,118,074	1,724,253

(a) Raw sugar at 94 net titre.

(vii) *Average Production of Cane Sugar.* Owing to climatic variations, the crop in New South Wales matures in from 20 to 24 months, whereas in Queensland a period of from 12 to 16 months is sufficient. The average yields of cane and sugar per acre for the years 1959-60 to 1963-64 and for the three-year periods ended 1938-39, 1948-49 and 1958-59 are shown below. Allowance should be made in interpreting these figures for the disparity in maturing periods noted above.

SUGAR CANE AND SUGAR: YIELD PER ACRE

(Tons)

Season	New South Wales			Queensland			Australia		
	Cane per acre crushed	Sugar per acre crushed	Cane to each ton of sugar	Cane per acre crushed	Sugar per acre crushed	Cane to each ton of sugar	Cane per acre crushed	Sugar per acre crushed	Cane to each ton of sugar
Average for three years ended—									
1938-39	31.00	4.15	7.47	21.06	3.07	6.85	21.46	3.12	6.89
1948-49	36.90	4.61	8.00	20.65	3.03	6.81	21.17	3.08	6.87

Year—									
1959-60	40.32	4.96	8.13	28.12	4.06	6.92	28.67	4.10	6.99
1960-61	35.16	4.61	7.62	26.54	4.03	6.58	26.89	4.06	6.63
1961-62	37.93	4.60	8.24	24.23	3.53	6.86	24.75	3.57	6.93
1962-63	45.17	5.65	7.99	31.22	4.57	6.84	31.71	4.61	6.88
1963-64	39.81	4.90	8.13	28.60	4.10	6.98	29.02	4.13	7.03

(viii) *Production and Utilization.* Details of the production and utilization of sugar for the years 1959-60 to 1963-64 are shown below. Consumption is shown in terms of refined sugar, including that consumed in manufactured products.

SUGAR: PRODUCTION AND UTILIZATION, AUSTRALIA

Year	Changes in stocks (a)	Production (raw)	Exports (b)	Miscellaneous uses(c)	Consumption in Australia(d)	
					Total	Per head
1959-60	'000 tons	'000 tons	'000 tons	'000 tons	'000 tons	lb.
	+25.6	1,270.6	725.2	18.6	501.2	110.4
1960-61	-10.3	1,324.8	815.6	21.0	498.5	107.4
1961-62	-4.8	1,404.2	862.5	18.0	528.5	111.6
1962-63	+112.0	1,831.6	1,175.8	17.8	526.0	109.0
1963-64	-131.9	1,578.7	1,156.0	18.2	536.4	109.0

(a) Includes allowance for estimated sugar content of imported foodstuffs. (b) Includes sugar content of manufactured products exported. (c) Includes refining losses and quantities used in golden syrup and treacle. (d) Includes sugar content of manufactured products consumed.

(ix) *Consumption in Factories.* The quantity of refined sugar used in factories in 1963-64 amounted to 369,882 tons compared with 325,436 tons in 1962-63 and 309,577 tons in 1961-62. Particulars of sugar used in establishments not classified as factories are not available, and consequently these quantities are deficient to that extent. In 1963-64 consumption by factories engaged in the production of jams, jellies and preserved fruit amounted to 97,750 tons, by those producing confectionery, ice cream, etc., to 127,272 tons, by breweries to 46,529 tons, and by factories producing aerated waters, cordials, etc., to 532,266 tons.

(x) *Sugar By-products.* Industrial chemicals, together with large quantities of molasses, are produced as by-products in sugar mills. Further, during the period 1939 to 1960, building boards were made from the residue of crushed fibre after removal of the sugar content from sugar cane. These boards possessed high insulating and sound absorbing properties which made them particularly suitable for use in walls and ceilings. Early in the period referred to the boards were manufactured almost entirely from crushed fibre residue, the remaining component being non-millable pine, but gradually the pine content was increased until by 1960 fibre residue was no longer being used. The main purpose for which crushed cane fibre residue is now used is furnace fuel in sugar mills.

(xi) *Sugar Prices and Returns.* The prices of sugar in Australia, from 1959 to 1963 in the case of raw sugar, and from 1960 to 1963 in the case of refined sugar (as determined under the Sugar Agreement in Australia—see para. ii (a), p. 1021), are shown in the following table.

SUGAR: PRICES IN AUSTRALIA

Year	Raw sugar, 94 net titre			Refined sugar		
	Average return per ton received by millers and growers for—			Date of determination	Wholesale price to retailer per ton	Retail price, capital cities per lb.
	Home consumption	Exports(a)	Whole crop (a)			
	£ s. d.	£ s. d.	£ s. d.		£ s. d.	d.
1959 ..	56 8 6	40 6 2	47 9 11	14.5.56 to 15.5.60	81 10 0	10
1960 ..	62 10 6	39 19 6	49 2 1	16.5.60	90 5 2	11
1961 ..	62 9 6	37 15 0	48 4 4			
1962 ..	62 11 0	41 1 10	47 19 10			
1963 ..	61 0 0	65 12 2	63 19 8			

(a) Includes "excess" sugar.

Details of the disposal of the crop, net value of exports and the average price realized during each of the years 1959-60 to 1963-64 are shown in the following table.

RAW SUGAR(a): NET RETURNS, AUSTRALIA

(Source: The Queensland Sugar Board)

Year	Proportion exported	Net value of exports per ton	Average price per ton for whole crop	Estimated value of crop
	per cent.	£ s. d.	£ s. d.	£'000
1959-60 ..	55.42	40 6 2	47 9 11	61,131
1960-61 ..	59.53	39 19 6	49 2 1	67,869
1961-62 ..	57.66	37 15 0	48 4 4	66,653
1962-63 ..	67.85	41 1 10	47 19 10	88,748
1963-64 ..	64.70	65 12 2	63 19 8	110,290

(a) 94 net titre.

The estimated value of the raw sugar produced has been based upon details taken from the audited accounts of the Queensland Sugar Board. The values stated comprise the gross receipts from sales in Australia and overseas, less refining costs, freight, administrative charges, etc., and export charges, but including concessions to the fruit industry and other rebates which in 1963-64 amounted to £1,123,000. The value thus obtained represents the net market value of all raw sugar sold, which, less the rebates, is divided between the growers and millers in the approximate proportions of 70 per cent. and 30 per cent. respectively.

(xii) *Exports of Sugar.* Particulars of the exports of Australian-produced cane sugar (raw and refined) for each year from 1959-60 to 1963-64 are as follows.

RAW AND REFINED SUGAR: EXPORTS, AUSTRALIA

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Quantity tons	701,319	796,499	843,537	1,145,966	1,116,190
Value £A.'000 f.o.b.	26,671	35,072	33,895	45,521	78,256

2. Peanuts.—(i) *General*. Peanuts, or groundnuts, are a sub-tropical legume (and hence summer growers), the pods of which mature beneath the surface of the soil. They thus require well drained, light textured soils. At harvest the plant is pulled, wind-rowed, field-cured for two to four weeks and then threshed to recover the pods. The main products of the industry are nuts, peanut oil, oil cake and synthetic protein fibre.

The production of peanuts in Australia is confined mainly to Queensland, although small quantities are grown in New South Wales, Western Australia and the Northern Territory.

(ii) *Area and Production*. Details of the area and production of peanuts are given in the table below for the years 1959–60 to 1963–64.

PEANUTS: AREA AND PRODUCTION

Season	Area (acres)				Production (cwt.)			
	N.S.W.	Q'land	N.T.	Aust.(a)	N.S.W.	Q'land	N.T.	Aust.(a)
1959–60	837	41,547	388	42,772	10,639	360,314	4,306	375,259
1960–61	788	41,659	335	42,782	9,578	446,215	1,215	457,008
1961–62	573	33,131	307	34,011	6,003	292,267	1,343	299,613
1962–63	395	35,552	(b)	c 35,947	4,258	315,144	(b)	c 319,402
1963–64	478	44,482	(b)	c 44,960	4,744	455,982	(b)	c 460,726

(a) Excludes Western Australia, for which details are not available for publication. (b) Not available for publication. (c) Incomplete; excludes Northern Territory.

(iii) *Value, Consumption and Trade*. The gross value of the 1963–64 crop was £2,259,000 which was approximately £702,000 more than in 1962–63. All production is consumed in Australia.

In recent years, considerable quantities of peanut kernels have been imported. Total supplies available for consumption in Australia in 1963–64 were 21,600 tons (in shell equivalent), after allowing for an increase of 1,200 tons in stock held by the Peanut Marketing Board and exports of 100 tons of peanut products. Supplies were made up of 19,500 tons from Australian production received into store by the Board and 3,400 tons imported.

3. Hops.—(i) *General*. Hops are grown from perennial rootstocks over deep, well-drained soils in localities sheltered from the wind. The hop-bearing vine shoots are carried upon wire and coir trellises, from which they are later harvested, principally by hand. The green hops are kiln-dried and bleached with sulphur dioxide fumes, following which the cured hops are pressed into bales.

Hop growing in Australia is confined to the Derwent, Huon and Channel areas of Tasmania and the Ovens and King Valleys in Victoria. A small area is also under hops in Western Australia, near Manjimup, but the details are not available for publication.

(ii) *Production and Imports*. The production of hops in Australia is insufficient to meet local requirements, and additional supplies are imported to meet the needs of the brewing industry. In the following table details of the production and imports of hops and the quantity of hops used in breweries are shown for each of the years 1959–60 to 1963–64. Exports of hops are not recorded separately, but are negligible.

HOPS: PRODUCTION AND DISPOSAL, AUSTRALIA

Year	Production(a)		Imports	Net available supplies (b)	Quantity used in breweries
	Quantity	Gross value			
	cwt.	£'000	cwt.	cwt.	cwt.
1959–60	31,790	1,159	..	31,790	40,357
1960–61	33,099	1,179	991	34,090	40,018
1961–62	32,936	1,242	5,569	38,505	39,000
1962–63	33,629	1,285	1,337	34,966	38,202
1963–64	19,858	767	536	20,395	37,033

(a) Excludes production in Western Australia, for which details are not available for publication. (b) Disregards movements in stocks.

4. **Flax.**—(i) *Flax for Fibre.* This crop has a winter-growing season in Australia. The whole plant, after harvesting, is retted and scutched at local mills to recover the linen fibre and tow. The seeds may be sold to oil mills and the refuse used for stock feed.

Details of the area under flax and the production of fibre are given in the following table.

FLAX FOR FIBRE: AREA AND PRODUCTION

Season					Victoria	W. Aust.	Australia
AREA (ACRES)							
1959-60	1,307	1,307
1960-61	430	736	1,166
1961-62	323	91	414
1962-63	419	871	1,290
1963-64	171	171
PRODUCTION (TONS OF FIBRE)							
1959-60	2,723	2,723
1960-61	592	1,176	1,768
1961-62	514	183	697
1962-63	648	2,152	2,800
1963-64	318	318

(ii) *Flax for Linseed.* Fibre varieties are uneconomic for seed production, and prior to 1948-49, the growing of flax for linseed oil had not been developed extensively in Australia. Since then, however, action has been taken to develop this industry, the ultimate objective being the production of sufficient linseed to meet Australia's total oil requirements.

The question of assistance to the industry was investigated by the Commonwealth Tariff Board in 1953, and its conclusions are contained in its Report on *Linseed and Linseed Products* dated 23rd October, 1953.

The main producing areas are the Darling Downs in Queensland, the wheat belt of New South Wales, and the western and north-eastern districts of Victoria.

Details of the area and production of flax for linseed are shown in the following table for the seasons 1959-60 to 1963-64.

FLAX FOR LINSEED: AREA AND PRODUCTION

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Aust.
AREA (ACRES)						
1959-60	11,933	24,850	60,837	1,687	186	99,493
1960-61	11,823	6,179	75,088	2,115	483	95,688
1961-62	7,266	17,711	34,390	1,513	1,253	62,133
1962-63	11,493	25,232	58,493	1,220	626	97,064
1963-64	15,335	16,240	83,336	1,002	1,588	117,501

1960-61	1,870	1,013	10,394	218	70	13,565
1961-62	856	6,093	5,187	275	178	12,589
1962-63	2,634	8,180	14,477	290	136	25,717
1963-64	3,722	4,758	20,342	283	411	29,516

5. Cotton.—(i) *General*. This annual shrub requires a hot climate and inter-row weed control. Lint (long fibres) is extracted from the seed cotton in the ginneries, and is used for yarn. The residue, consisting of linters (short fibres), kernels and hulls (outer seed coat), is treated in oil mills. From linters and kernels are produced such items as short-fibred cotton, cotton-seed oil for human consumption and industrial purposes, and meal cakes for stock feed. The hulls may be used as fuel.

The production of cotton in Australia was formerly restricted mainly to the coastal river valleys of Queensland. In recent years, however, it has been grown increasingly in other States, namely in the Namoi River area and Murrumbidgee Irrigation Areas of New South Wales and at the Ord River in the north-west of Western Australia.

Cotton spinning and weaving industries are referred to in Chapter VI. Manufacturing Industry.

(ii) *Cotton Bounty*. For particulars of the *Cotton Bounty Act* 1951 and amendments of 1952, 1955 and 1957, see page 1044 of Year Book No. 49.

Under the *Raw Cotton Bounty Act* 1963 the Commonwealth pays a bounty on raw cotton produced and sold for use in Australia at the rate of 16.125d. per lb. for Middling 1st White, with premiums and discounts on grades and staples above and below. The bounty is for a period of five years from 1st January, 1964.

(iii) *Area and Production*. In the five seasons 1959–60 to 1963–64 the area sown and quantity of unginned cotton produced have doubled. The yield per acre in the same period has fallen by 5 per cent.

The area under cultivation and the production in Australia for the years 1959–60 to 1963–64 are shown hereunder.

COTTON: AREA AND PRODUCTION, AUSTRALIA^(a)

Season	Area sown	Production of cotton			Average yield per acre sown	
		Unginned		Ginned	Unginned	Ginned
		Quantity	Gross value			
	acres	'000 lb.	£'000	'000 lb.	lb.	lb.
1959–60	20,229	9,463	556	3,592	468	178
1960–61	37,048	15,544	917	5,540	420	150
1961–62	28,844	10,948	647	3,830	380	133
1962–63	37,689	15,762	938	5,403	418	143
1963–64	40,938	18,223	1,106	6,570	445	160

(a) Incomplete; excludes Victoria, Western Australia and Northern Territory, for which particulars are not available for publication.

(iv) *Consumption of Raw Cotton*. The following table shows details of the availability and actual consumption of raw cotton in Australian factories during each of the five years ended 1963–64.

RAW COTTON: PRODUCTION, IMPORTS AND CONSUMPTION, AUSTRALIA ('000 lb.)

Year	Production	Imports	Total	Consumption of raw cotton
1959–60	3,592	41,519	45,111	51,689
1960–61	5,540	41,842	47,382	45,432
1961–62	3,830	37,735	41,565	44,543
1962–63	5,403	42,543	47,946	47,930
1963–64	6,570	56,663	63,233	64,808

6. Tobacco.—(i) *General*. This summer-growing annual requires a temperate to tropical climate, adequate soil moisture and a frost-free period of approximately five months. These requirements necessarily restrict its growth to particular areas. These include the Mareeba area (northern Queensland), the neighbourhood of Texas (Queensland and New South Wales border), and near Myrtleford (Victoria). The best quality Australian tobaccos are grown in Queensland.

In Australia flue-curing is the main method of drying used.

(ii) *Marketing*. Between 9th May, 1941, and 24th September, 1948, all leaf was under the direct control of the Australian Tobacco Board, and prices were paid on leaf appraisal. Subsequently, sales have been by open auction through the Tobacco Leaf Marketing Board (Queensland and northern New South Wales) and the Victorian Tobacco Growers Association Ltd. (southern New South Wales and Victoria). In 1964 the Victorian Tobacco Leaf Marketing Board was set up to market the portion of the crop that was formerly sold by the Victorian Tobacco Growers Association Ltd., and currently in 1965 a Board is being established in New South Wales. It is expected that the actual physical handling of New South Wales leaf at auction will continue to be carried out by the Queensland and Victorian authorities. A stabilization plan for the tobacco growing industry has been agreed between Commonwealth and State Governments.

The plan, which will operate initially for four years, commencing with the 1965 selling season, provides broadly for the establishment of an annual marketing quota of 26 million pounds (green weight) of leaf to be sold under an agreed grade and price schedule providing for an average minimum price, based on a normal crop fall-out, of 125 pence per pound.

The overall marketing quota will be divided among tobacco producing States, and the State quotas will in turn be divided among individual growers.

The plan will be administered by a Commonwealth Board representative of the Commonwealth, producing States, growers, and manufacturers.

Until the necessary legislation to establish the Board is introduced by the Commonwealth and the States concerned an Interim Committee will administer the scheme.

(iii) *Central Tobacco Advisory Committee*. The Australian Agricultural Council formed the Standing Advisory Committee on Tobacco during 1950. This Committee consisted of representatives of tobacco growers, tobacco manufacturers and the Commonwealth and State Governments. Its main functions were to review the industry and make recommendations on its problems.

The Committee was reconstituted by the Agricultural Council during 1952–53. The terms of reference of this committee are given in Year Book No. 47, page 935.

In 1955 the Committee formulated a programme for increased research and advisory activities. The capital costs of establishing this programme were estimated at £168,000, of which the Commonwealth Government and tobacco manufacturers each agreed to contribute half. Annual contributions are made to the fund by the Commonwealth and State Governments, tobacco growers, and manufacturers. A Tobacco Industry Trust Account was established to receive these contributions. This programme commenced in 1956 and since then £1,448,286 has been paid to State and Commonwealth departments for expenditure on tobacco research and extension. The allocation for 1964–65 was £288,738. As from 1st July, 1964, the annual Commonwealth contribution has been increased to one half of approved expenditure from the Tobacco Industry Trust Account; it now incorporates the Tobacco Extension Grant of £24,000 per annum.

In 1961 a Research Sub-Committee was established to review annually scientific programmes and finance in relation to the Tobacco Industry Trust Account and make recommendations to the Central Tobacco Advisory Committee.

(iv) *Other Assistance and Research*. Details of the recommendations by the Tobacco Inquiry Committee and grants periodically approved by the Commonwealth Government up to 30th June, 1953, are given in Year Book No. 40, pages 895–6, and in previous issues.

The Commonwealth Scientific and Industrial Research Organization and the State Departments of Agriculture in the tobacco growing States are carrying out investigations into a wide range of problems involving fundamental research, plant breeding, variety trials, irrigation, disease and pest control, fertilizers, crop rotation and cultural practices.

(v) *Tobacco Factories*. Manufacturers of Australian cigarettes and tobacco are granted a lower rate of duty on imported tobacco leaf, provided it is blended with a prescribed minimum percentage of Australian leaf. These percentages were increased from 3 per cent.

for cigarettes and 5 per cent. for tobacco in November, 1946, to 43 per cent. and 40 per cent. respectively from 1st July, 1962. The percentage applicable to both cigarettes and tobacco from 1st July, 1963, was 40 per cent. and from 1st July, 1964 to 31st March, 1965, 41.5 per cent. The rate from 1st April, 1965, to 30th June, 1965, is 43 per cent.; from 1st July, 1965, to 30th September, 1965, 45 per cent.; from 1st October, 1965, to 31st December, 1965, 47 per cent.; and from 1st January, 1966 onwards, 50 per cent.

In 1963-64 the quantity of cured leaf used in tobacco factories in Australia amounted to 51 million lb., of which 20 million lb. was of local origin. The balance was imported, chiefly from the United States of America and Rhodesia.

(vi) *Area and Production.* The area of tobacco in 1963-64 was 1.2 per cent. below the record area established in 1962-63. Production at 34,342,000 lb. was a record, exceeding by 15.0 per cent. the previous record established in 1960-61.

In the following table particulars of the area and production of tobacco are given by States for each of the seasons 1959-60 to 1963-64, together with averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

TOBACCO: AREA AND PRODUCTION

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	Aust.

1962-63 ..	2,885	9,447	14,787	..	29	27,148
1963-64 ..	2,652	14,459	17,231	34,342

(a) Less than half an acre.

(b) Less than 500 lb.

(vii) *Oversea Trade.* Imports of tobacco and tobacco manufactures into Australia during 1963-64 were valued at £13.4 million. This included 29.6 million lb. of unmanufactured tobacco valued at £10.6 million. Exports of tobacco and tobacco manufactures during 1963-64 were valued at £889,893, including Australian produce, £760,692.

§ 6. Vegetables for Human Consumption

1. *Area, Production and Trade.*—(i) *General.* Vegetables were initially grown on a large scale near the main cities, where there was ready access to reliable water supplies and to markets. Later, the expansion of irrigation areas and improvement in transport services resulted in their production being extended into many other areas. At present, because of the wide diversity of climatic conditions across Australia, supplies for main city markets are drawn from widely different areas, depending upon the times of maturity of the various crops. Apart from potatoes and onions, which are sold in some States through marketing boards, the bulk of vegetable trading takes place at the metropolitan markets of the cities concerned.

(ii) *Area and Production of Fresh Vegetables.* Details of the areas planted and production of individual kinds of vegetables are shown on p. 1031 for the seasons 1961-62 to 1963-64. Certain particulars shown are incomplete in that details for specific vegetables in some States are either not available, or are not available for publication. For further information, see the bulletin *Rural Industries*.

FRESH VEGETABLES FOR HUMAN CONSUMPTION: AUSTRALIA

Vegetable	1961-62		1962-63		1963-64	
	Area sown	Production	Area sown	Production	Area sown	Production
	acres	tons	acres	tons	acres	tons
Asparagus	3,263	5,179	3,523	5,503	3,994	6,197

Potatoes	94,443	525,981	113,742	666,596	101,987	562,032
Tomatoes	17,305	140,339	16,506	129,044	16,356	135,815
Turnips, swede and white	1,859	12,269	1,268	9,116	1,418	9,380
All other	30,734	..	34,804	..	35,651	..
Total	267,150	..	288,496	..	276,840	..

(iii) *Processed Vegetables.* Total production of canned vegetables in 1963-64 amounted to 144,070,000 lb., the principal types produced being green peas (excluding mint-pro peas), 21,007,000 lb.; green beans, 8,891,000 lb.; baked beans (including pork and beans), 34,599,000 lb.; asparagus, 12,514,000 lb.; beetroot, 20,997,000 lb.; and mushrooms, 5,676,000 lb.

The production of dehydrated vegetables during 1963-64 amounted to 609,450 lb., while the production of potato crisps, chips and flakes was 13,882,000 lb.

There has been rapid development in the quick-frozen vegetable industry. Data were collected for the first time in 1957-58, when 13,846,000 lb. of frozen vegetables were produced, made up primarily of 10,131,000 lb. of peas and 2,540,000 lb. of beans. In 1963-64 production had risen to 56,476,000 lb., of which 37,839,000 lb. were peas and 9,781,000 lb. were beans.

(iv) *Consumption of Vegetables.* Details of the estimated consumption of vegetables for a series of years ending 1963-64 are shown in Chapter XXX. Miscellaneous.

(v) *Exports and Imports of Vegetables (values in £A. f.o.b.).* The quantity and value of oversea exports of pulse and fresh vegetables during 1963-64 were respectively:—pulse, 9,560 tons, £431,463; fresh onions, 3,547 tons, £125,013; potatoes, 12,722 tons, £321,430; other vegetables, 4,420 tons, £489,277. Imports of pulse amounted to 7,136 tons, valued at £598,385, while imports of fresh vegetables in total were 5,911 tons, valued at £787,616.

In 1963-64 exports of vegetables preserved in liquid consisted of:—asparagus, 2,543,792 lb., £172,834; beans (including baked), 430,702 lb., £31,831; peas, 242,421 lb., £17,984; tomatoes, 227,888 lb., £16,152; other vegetables, 534,038 lb., £50,959.

2. **Potatoes.**—(i) *General.* This crop requires deep friable soils, which in Australia are usually basaltic, alluvial, or swampy in origin. Fertilizer requirements, which are generally high, vary with the type of soil. Potatoes are killed by heavy frost, but require only moderate temperatures for growth. Mechanical planters and diggers are used to a variable extent depending upon a variety of factors including terrain, state of the soil and scale of operations.

Seed certification schemes, which operate in all States except Queensland, provide a supply of seed which is free from viral, fungal and bacterial diseases.

In Australia potatoes are used almost entirely for human consumption and not for the production of starch or alcohol. They are rarely used as stock feed.

(ii) *Marketing.* Potato marketing boards were established in all States except Tasmania under separate State legislation after Commonwealth control of potato marketing under war-time legislation ceased at the end of 1948. The life of the Queensland Board was not extended when its term ended in 1954. The New South Wales Board was voted out by growers in 1956, and the Victorian Board also ceased functioning in that year. The boards in South Australia and Western Australia are the only statutory boards still in operation.

(iii) *Area, Production, and Yield per Acre.* Victoria possesses particular advantages for the growing of potatoes, as the rainfall is generally satisfactory and the climate is unfavourable to the spread of Irish blight; consequently, the crop is widely grown. The principal areas of that State are the central highlands and the south-western and Gippsland districts. Until 1958-59 Tasmania (where production is mainly in the north-west) came next in order of acreage sown, although production exceeded that of Victoria in some of the war years. Since then, however, acreage in New South Wales and Queensland has increased considerably and there is now a greater area of potatoes in both of these States than in Tasmania. In New South Wales, production is chiefly in the tablelands districts.

The area sown, production, and yield per acre of potatoes in each State during the years 1959-60 to 1963-64 and the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59 are shown hereunder. A graph showing production since 1935-36 appears on page 996 of Year Book No. 49.

POTATOES: AREA, PRODUCTION AND YIELD PER ACRE

(a) Not available for publication.

(b) Incomplete; excludes Northern Territory.

(iv) *Gross Value.* The estimated gross value of the potato crop of each State for the 1963-64 season and the value per acre are shown in the following table.

POTATOES: VALUE OF CROP, 1963-64

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.
Aggregate value .. £'000	2,019	7,792	1,633	1,170	1,840	2,154	5	16,613
Value per acre .. £	83	197	103	214	315	199	217	163

(v) *Consumption.* The annual consumption of potatoes in Australia during each of the three years 1961-62 to 1963-64 amounted to 459,600 tons, 594,300 tons, and 500,600 tons respectively, or 97.1 lb., 123.1 lb., and 101.7 lb. respectively per head of population. These figures exclude the quantities used for seed, which averaged about 53,000 tons annually over this period.

(vi) *Exports.* Details showing exports for the years 1959-60 to 1963-64 are given in the following table.

POTATOES: EXPORTS, AUSTRALIA

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Quantity tons	4,742	5,219	4,121	15,819	12,722
Value £A.'000 f.o.b.	134	195	160	425	321

The increased exports in 1962-63 and 1963-64 were due principally to increased shipments to Singapore, Ceylon, French Possessions, Pacific Islands and Hong Kong. Imports of potatoes into Australia are usually negligible.

3. *Onions.*—(i) *Area, Production, and Yield per Acre.* Until recently Australia's onion supply came chiefly from Victoria. However, during the last five years Victorian production has not been as great as formerly, and in 1960-61, and again in 1963-64, it was exceeded by Queensland. The Victorian crop consists almost entirely of brown onions, and the bulk of the crop is grown in a small section of the Western Division of the State, where the volcanic ash soils have been found to be particularly suitable for onion growing on a commercial scale. Most of Queensland's onion production is grown in the Lockyer Valley, and consists mainly of brown varieties. Details of the area, production and yield per acre are given in the following table for the years 1959-60 to 1963-64 together with averages for the three-year periods ended 1938-39, 1948-49 and 1958-59. A graph showing production since 1935-36 appears on page 996 of Year Book No. 49.

(ii) *Gross Value.* The estimated gross value of the onion crop and the value per acre are shown in the following table for the 1963-64 season.

ONIONS: VALUE OF CROP, 1963-64

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
Aggregate value £'000	165	569	677	398	222	17	(a)	(a)	(b) 2,048
Value per acre £	242	151	204	428	498	187	(a)	(a)	(b) 222

(a) Not available for publication.
Capital Territory.

(b) Incomplete; excludes Northern Territory and Australian

(iii) *Consumption.* The consumption of onions in Australia during 1963-64 was 58,800 tons or 12.0 lb. per head of population.

(iv) *Exports.* Onions are the only root crop, other than potatoes, in which any considerable overseas trade is carried on by Australia. In 1963-64 exports amounted to 3,547 tons, valued at £125,013, and were shipped mainly to Singapore, Japan, and New Caledonia. The quantity of exports in 1962-63 was 7,097 tons, valued at £208,328. Imports of onions amounted to 3,035 tons, valued at £122,010 in 1963-64, and 59 tons, valued at £2,276 in 1962-63. The principal country from which onions were imported was New Zealand.

§ 7. Fruit and Vineyards

1. *Fruit.*—(i) *General.* The varieties of fruit grown differ in various parts of the States, ranging from pineapples, papaws and mangoes in the tropics, to strawberries, raspberries and currants in the colder parts of the temperate zone. In New South Wales citrus fruit (oranges, lemons, etc.) and bananas are the principal crops, although apples, peaches, plums, pears, and cherries are grown extensively. The principal varieties grown in Victoria are apples, pears, peaches, oranges, and apricots. In Queensland apples, pineapples, bananas, oranges, mandarins, peaches, and plums are the varieties most largely cultivated. In South Australia, in addition to oranges, apples, peaches, apricots, and pears, almonds and olives are grown extensively. In Western Australia apples, oranges, plums, and pears are the chief varieties. In Tasmania apples occupy over three-quarters of the fruit-growing area, but small fruit, such as currants, raspberries, and gooseberries, are grown extensively, the balance of the area being mainly taken up with pears and apricots.

(ii) *Overseas Marketing of Fruit.* (a) *Apples and Pears.* The *Apple and Pear Organization Act 1938-1964* provides for the establishment of an Australian Apple and Pear Board comprising representatives of growers, exporters, employees and the Commonwealth Government. A representative in London has also been appointed by the Board. An export levy to meet the expenses of the Board is provided for in the *Apple and Pear Export Charges Act 1938-1960*.

The function of the Board is the organization and control of exports of fresh apples and pears, and it has the power to regulate shipments, determine export quotas, allocate consignments from each State and recommend the licensing of exporters. The Board contributes to apple and pear publicity activities overseas.

(b) *Canned Fruit.* The *Canned Fruits Marketing Act 1963*, which was introduced in January, 1964, replaced the *Canned Fruits Export Control Act 1926-1959* under which the overseas marketing of canned fruit was initially organized (see Year Book No. 49, p. 1050). The Australian Canned Fruits Board, which is constituted under the Act, determines the terms and conditions for overseas sales. The Board exercises this control through a system of export licences. The Board, whose membership was increased from five to eleven members and which was granted greater powers under the 1963 Act, comprises representatives of the Commonwealth Government (one), canners of deciduous fruit (six), growers of deciduous fruit (three), and pineapple interests (one). The Board maintains a London office. The *Canned Fruits Export Charges Act 1926-1963* provides for a levy on exports to meet the Board's expenses, which include contributions to overseas publicity connected with the canned fruit industry. In 1963 an excise duty was imposed by the *Canned Fruits Excise Act 1963* on canned deciduous fruit entered for domestic consumption, and the proceeds of the duty are made available to the Board to assist in the promotion of overseas sales of canned deciduous fruit.

In 1959 the Australian Canned Fruits Sales Promotion Committee was established to promote the sale of canned deciduous fruit on the home market and overseas. The operations of the Committee are financed by a levy on fruit accepted by the canneries for the production of canned fruit. The Committee comprises representatives of growers and processors of canning fruit and a representative of the Commonwealth Government.

(iii) *Area and Production of Fruit.* The area under fruit in Australia has been increasing steadily in recent years, and new record levels have been reached each year since 1961-62. Increases were recorded in all States in 1963-64. The following table sets out the area under fruit in the several States for the seasons 1959-60 to 1963-64.

FRUIT: AREA

(Acres)

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.

1963-64	22,431	2,401	8,221	10,417	5,042	7,450	2,018

(v) *Production of Jams and Jellies and Preserved Fruit.* In Australia considerable quantities of fruit are used in the production of jams and jellies and for preserving. During 1963-64 output of jams, conserves, fruit spreads, etc., amounted to 90,462,000 lb., while output of preserved fruit amounted to 471,290,000 lb. Of the latter figure, pears accounted for 154,360,000 lb., peaches 155,959,000 lb., and pineapples 50,056,000 lb.

The recorded consumption of fruit in factories for all purposes, including that used for juice and cordial manufacture and for drying, was 326,000 tons in 1963-64.

(vi) *Consumption of Fruit and Fruit Products.* Details of the estimated consumption of fruit and fruit products per head of population for a series of years ending 1963-64 are shown in Chapter XXX. Miscellaneous.

(vii) *Imports and Exports of Fruit. (a) General.* The imports of fresh fruit into Australia are negligible, while those of dried fruit consist mainly of dates.

A considerable export trade in both fresh and dried fruit is carried on by Australia with overseas countries. The values (£A. f.o.b.) of the shipments in 1963-64 amounted to £16,579,000 and £10,523,000 respectively. Apples constitute the bulk of the fresh fruit exported, although exports of pears and citrus fruit are considerable.

(b) *Fresh Fruit.* Particulars of the Australian export trade in fresh and frozen fruit for each of the years 1959-60 to 1963-64 are shown in the following table.

WHEAT: EXPORTS FROM AUSTRALIA
INCLUDING FLOUR IN TERMS OF WHEAT
1963 - 64

TOTAL: 286.8 MILLION BUSHELS

LIVESTOCK: AUSTRALIA, 1870 to 1964

RATIO GRAPH

NOTE:- VERTICAL SCALE IS LOGARITHMIC, AND THE CURVES RISE AND FALL ACCORDING TO RATE OF INCREASE OR DECREASE; ACTUAL NUMBERS ARE INDICATED BY SCALE.

FRESH AND FROZEN FRUIT: EXPORTS, AUSTRALIA

Year	Apples		Pears		Citrus		Total value ^(a)
	Quantity	Value	Quantity	Value	Quantity	Value	
	'000 bus.	£A.'000 f.o.b.	'000 bus.	£A.'000 f.o.b.	'000 bus.	£A.'000 f.o.b.	
1959-60	4,889	6,123	1,328	1,970	589	918	9,294
1960-61	5,729	7,321	1,235	2,080	419	664	10,369
1961-62	7,083	9,396	1,639	2,575	673	1,086	13,363
1962-63	7,207	11,645	1,071	1,750	861	1,283	14,985
1963-64	8,212	12,018	1,666	2,647	961	1,493	16,579

(a) Includes exports of all other fresh and frozen fruit.

(c) *Dried Tree Fruit.* The quantity and value of oversea imports and exports of dried fruit, other than raisins and currants, for the years 1959-60 to 1963-64 are shown below. Normally, the bulk of the imports consists of dates obtained almost entirely from Iraq and Iran. The export figures include particulars of some re-exported dried fruit.

DRIED TREE FRUIT^(a): IMPORTS AND EXPORTS, AUSTRALIA

Year	Imports ^(b)		Exports	
	Quantity	Value	Quantity	Value
	'000 lb.	£A.'000 f.o.b.	'000 lb.	£A.'000 f.o.b.
1959-60	10,791	310	6,221	703
1960-61	9,178	303	8,199	932
1961-62	8,266	314	5,961	782
1962-63	8,939	296	6,611	952
1963-64	10,262	302	8,555	1,001

(a) Excludes raisins and currants dealt with separately under Vineyards (see below).
and figs only.

(b) Dates

(d) *Jams and Jellies.* Exports of jams and jellies in 1963-64 were 11,774,000 lb., valued at £A.811,000 f.o.b., compared with 10,160,000 lb., valued at £A.705,000 f.o.b. in 1962-63. Imports of jams and jellies in 1963-64 were 1,432,000 lb., valued at £A.135,000, compared with 1,581,000 lb., valued at £A.138,000 in 1962-63.

(e) *Preserved Fruit (values in £A. f.o.b.).* The total value of fruit preserved in tins or other airtight containers, or pulped, imported into Australia during 1963-64 was £201,112. Large quantities of fruit preserved in tins or other airtight containers are normally exported from Australia, the quantity recorded in 1963-64 being 126,786 tons valued at £17,117,653. Exports in 1963-64 were made up principally of pears (54,858 tons), peaches (48,339 tons), pineapples (6,099 tons), and apricots (5,055 tons). In addition, the exports of pulped fruits during 1963-64 amounted to 1,713 tons valued at £291,782.

2. *Vineyards.*—(i) *General.* Grapes require a warm to hot climate and a predominantly winter rainfall. Freedom from late spring frosts is essential.

Grapes are grown for wine-making, drying and, to a minor extent, for table use. In Australia wine is produced very largely from irrigated crops, as are dried fruits. Some of the better known wine producing areas are the Murray Valley (South Australia and Victoria), Barossa Valley and Southern Vales Areas (South Australia), the Murrumbidgee Irrigation Areas and the Hunter Valley (New South Wales), the Mildura, Rutherglen and Stawell districts of Victoria, and the Swan Valley (Western Australia). Nearly all the dried fruit is produced along the River Murray and its tributaries, with small localized areas in the other States.

(ii) *Area of Vineyards.* The area under vineyards in the 1963-64 season in Victoria and South Australia constituted 77 per cent. of the total area of vineyards. The total area of vines in the several States during each of the years 1959-60 to 1963-64 and the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59 are shown in the following table.

VINEYARDS: AREA

(Acres)

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Aust.(a)
Average for three years ended—						
1938-39	16,824	42,071	2,670	57,185	6,197	124,947

(a) Excludes particulars for Northern Territory and Australian Capital Territory, which are not available for publication.

NOTE.—There are no vineyards in Tasmania.

(iii) *Wine Industry.* (a) *General.* Australia produces wine of every type and also brandy. Five years ago the production of fortified wines such as sherries and ports was double that of table wines. During the past five to ten years consumption of all types of table wines, such as burgundy, claret, riesling, sauterne and sparkling wines, has increased rapidly, and in 1963-64 production of table wines was estimated at 7.6 million gallons compared with 10.4 million gallons of sherry and sweet wines.

Details of the Wine Research Trust Fund are given in Year Book No. 47, page 927.

(b) *Overseas Marketing of Wine.* The *Wine Overseas Marketing Act 1929-1963* was introduced to place the overseas marketing of wine on an orderly basis. The Australian Wine Board, consisting of representatives from wineries and distilleries, grape-growers and the Commonwealth Government, supervises the sale and distribution of Australian wine exported and recommends conditions under which export licences should be issued. The Board also engages in wine publicity and trade promotion activities both in Australia and overseas. In London the Board maintains an Australian Wine Centre, which is a medium for promoting interest in Australian wines and brandy. It is also a retail shop for the sale of these products. The *Wine Grapes Charges Act 1929-1957* provides for the imposition of a levy on all grapes used in Australia for the manufacture of wine, brandy and spirit used for fortifying wine. The Board has no other source of income. The proceeds of the levy are used to meet the Board's projects in Australia and overseas and to defray the administrative expenses of the Board.

(c) *Production and Consumption.* In 1963-64 the total production of wine (beverage and distillation) in Australia was 37.5 million gallons, while total consumption of beverage wine was 13.2 million gallons (1.20 gallons per head of population). Similar particulars for 1962-63 are 29.9 million gallons and 12.6 million gallons (1.16 gallons per head of population) respectively.

The quantity of wine produced in the several States during the 1959-60 to 1963-64 seasons, together with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59, are shown in the following table.

WINE: PRODUCTION(a)
(^{'000} gallons)

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Aust.
Average for three years ended—						
1938-39	2,712	1,359	31	14,021	396	18,519
1948-49	4,178	3,040	31	25,906	689	33,844
1958-59	3,974	2,435	36	25,190	743	32,378
Year—						
1959-60	3,840	2,147	37	21,576	801	28,401
1960-61	4,904	3,021	32	25,061	744	33,762
1961-62	6,442	3,605	36	30,831	822	41,736
1962-63	5,858	2,433	28	20,785	789	29,893
1963-64	6,030	3,705	33	27,102	666	37,536

(a) Net factory and farm production of beverage and distillation wine excluding the liquid gallonage of spirits added in wine fortifying.

The following table shows corresponding figures for the production of brandy.

BRANDY: PRODUCTION
(Proof gallons)

Season	South Australia	Australia(a)
Average for three years ended—		
1938-39	446,251	505,474
1948-49	648,641	714,688
1958-59	1,009,040	1,149,032
Year—		
1959-60	941,282	1,036,754
1960-61	1,044,285	1,166,978
1961-62	1,042,580	1,177,943
1962-63	994,420	1,128,997
1963-64	1,052,850	1,219,968

(a) Includes New South Wales and Victoria, for which separate details are not available for publication.

(d) *Exports and Imports of Wine and Brandy (values in £A. f.o.b.).* Exports in 1963-64 totalled 1,538,037 gallons, of which the United Kingdom received 1,054,366 gallons, Canada 221,568 gallons, New Zealand 59,824 gallons, Hong Kong 23,354 gallons, and other countries 178,925 gallons. Exports of Australian-produced wine for the five years ended 1963-64 are shown in the following table.

WINE: EXPORTS FROM AUSTRALIA

Year	Quantity (gallons)			Value (£A. f.o.b.)		
	Sparkling	Other	Total	Sparkling	Other	Total
1959-60	6,436	1,738,616	1,745,052	19,625	1,245,241	1,264,866
1960-61	11,441	1,884,978	1,896,419	29,786	1,273,079	1,302,865
1961-62	5,145	1,664,984	1,670,129	17,100	1,368,930	1,386,030
1962-63	17,245	1,596,887	1,614,132	46,222	1,328,526	1,374,748
1963-64	10,373	1,527,666	1,538,037	31,059	1,341,064	1,372,123

Imports for 1963-64 amounted to 117,537 gallons valued at £233,228, compared with 90,598 gallons valued at £189,968 in the previous year. During 1963-64 Italy supplied 49,171 gallons valued at £67,774, France 25,575 gallons valued at £85,203, and the Federal Republic of Germany 10,518 gallons valued at £29,083.

Exports of Australian-produced brandy in 1963-64 amounted to 105,743 proof gallons, valued at £214,433. Imports of brandy, mainly from France, amounted to 54,879 proof gallons, valued at £174,944.

(iv) *Dried Vine Fruit Industries. (a) General.* The dry period from November to March in the lower Murray valley makes this an ideal area for dried vine fruit. Harvesting for drying takes place at the end of summer. The sun-drying process is often accelerated by using a dip of cold potash.

(b) *Overseas Marketing of Dried Vine Fruit. The Dried Fruits Export Control Act 1924-1964* was passed to organize overseas marketing of Australian dried vine fruit. The Australian Dried Fruits Control Board, consisting of growers' representatives, members with commercial experience in marketing dried fruits, and a Government representative, controls the sale and distribution of dried fruit exports, recommends the licensing of exporters, and contributes to dried vine fruit publicity activity overseas. In conjunction with its London office, the Board has improved dried fruit marketing overseas by its system of appraisal, regulation of shipments and advertising.

The Dried Fruits Export Charges Act 1924-1964 provides for a levy on exports of dried fruit to defray costs and expenses incurred by the Board.

For details of the agreements which were negotiated between the Governments of the United Kingdom and Australia during the period 1946-1953 see Year Book No. 40, page 888. From 1st December, 1953, exports have been made on a trader to trader basis.

(c) *International Sultana Agreement.* In June, 1963, Australian, Greek and Turkish dried vine fruits industries signed a one-year agreement which aimed at stability in sultana marketing by means of a minimum price structure. The agreement was renewed in June, 1964, for a further period of two years. In terms of the agreement a Permanent Committee of the contracting parties was established in London for the purpose of supervising the working of the agreement, and a sub-committee of the Permanent Committee was established in Hamburg in 1964.

(d) *Dried Vine Fruits Stabilization Plan. The Dried Vine Fruits Stabilization Act 1964, Dried Vine Fruits Contribution Charges Act 1964, and Dried Vine Fruits Contributory Charges (Collection) Act 1964,* provide for guaranteed average prices for currants, sultanas and raisins and related matters as follows.

- (i) A guaranteed average return from seasonal sales of currants, sultanas and raisins at levels equal to £5 per ton below the average cost of production of each variety.
- (ii) Maximum quantities received for packing in respect of which the guaranteed average return will apply have been fixed at 13,500 tons of currants, 75,000 tons of sultanas and 11,000 tons of raisins.
- (iii) Growers to contribute to separate varietal stabilization funds when the average return to the industry from seasonal sales of a variety exceed cost of production by more than £5 per ton, with a limit on such contributions of £10 per ton.
- (iv) Growers not to be required to make a contribution to a stabilization fund in any season when the quantity received for packing does not reach 8,000 tons of currants, 50,000 tons of sultanas or 6,000 tons of raisins.
- (v) Contributions to be made by the Commonwealth to raise average returns to the guaranteed price, when there is insufficient industry money in a stabilization fund for this purpose.
- (vi) The setting of limits on the amounts to accumulate in each stabilization fund, namely £500,000 in the case of both the currant and raisin stabilization funds, and £2,000,000 in the case of the sultana stabilization fund.
- (vii) Where these limits are exceeded during the operation of the plan, the excess will be distributed, firstly, to reimburse the Government for any contribution it has previously made to a fund; any balance will be repaid to growers on a first-in first-out basis.
- (viii) The Government to be reimbursed at the end of the fifth year of the plan from any credit balance in a fund for any outstanding contribution previously made to that fund; in the event of the stabilization scheme not being renewed, any balance will be returned to growers on a first-in first-out basis.

(e) *Production and Disposal of Dried Vine Fruit.* As the production of dried vine fruit is far in excess of Australia's requirements, considerable quantities are available for export. Total production during the 1963-64 season amounted to 104,323 tons, while exports for the year ended December, 1964, were 76,641 tons, leaving an estimated 27,682 tons available for Australian consumption from that season's production. Australian consumption includes amounts delivered to biscuit manufacturers, bakeries, etc., as well as retail sales for household consumption.

The production of dried vine fruit during each of the seasons 1959-60 to 1963-64 and the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59 are shown in the following table.

DRIED VINE FRUIT: PRODUCTION
(Tons)

1962-63 ..	56,696	8,029	4,208	571	60,904	8,600
1963-64 ..	57,451	8,728	5,512	801	62,963	9,529

(a) Excludes quantities exported as mincemeat.

The chief countries importing Australian dried vine fruit are the United Kingdom, Canada, New Zealand, the Federal Republic of Germany and Japan. The quantities exported to these countries in 1963-64 were 28,387 tons, 17,978 tons, 6,369 tons, 3,939 tons, and 1,352 tons respectively.

(v) *Table Grapes.* Grapes for table use are grown in all States except Tasmania, but the area of this type was only about 7 per cent. of the productive area of vines in 1963-64. The quantities of table grapes produced during the season 1963-64 in each State are shown in § 2, paragraph 2 (see p. 992).

PASTORAL PRODUCTION

§ 1. Introduction

1. **Livestock Numbers.**—A detailed account of the various enumerations of livestock in Australia made prior to 1860 was given on page 748 of Year Book No. 35. Since 1860 annual enumerations have been made, based, with few exceptions, on actual collections made through the agency of the State police or by post. Particulars concerning the numbers of each of the principal kinds of livestock in Australia, at decennial intervals from 1860 to 1950, and from 1960 onwards in single years, are given in the following table, and are shown continuously since 1870 on the graph on page 1038 of this Year Book.

LIVESTOCK: AUSTRALIA
(‘000)

Year	Horses	Cattle	Sheep	Pigs	Year	Horses	Cattle	Sheep	Pigs		
1860	..	432	3,958	20,135	351	1940	..	1,699	13,080	119,305	1,455
1870	..	717	4,276	41,594	543	1950	..	1,057	14,640	112,891	1,123
1880	..	1,069	7,527	62,184	816						
1890	..	1,522	10,300	97,881	891	1960	..	640	16,503	155,174	1,424
1900	..	1,610	8,640	70,603	950	1961	..	598	17,332	152,679	1,615
1910	..	2,166	11,745	98,066	1,026	1962	..	562	18,033	157,712	1,652
1920	..	2,416	13,500	81,796	764	1963	..	547	18,549	158,626	1,440
1930	..	1,793	11,721	110,568	1,072	1964	..	536	19,055	164,981	1,468

While livestock numbers (particularly sheep) have increased substantially since 1860, marked fluctuations have taken place during the period, mainly on account of widespread droughts which have from time to time left their impressions on the pastoral history of Australia. These occurred in 1868, 1877, 1883–84, 1892, 1893, 1895, 1901–02, 1912, 1914, 1918, 1919, 1922–23, 1925–26, 1927–28, 1929–30, 1940–41 and 1944–45 to 1946–47.

The years in which the numbers of livestock attained their peaks are as follows:—horses, 1919 (2,527,000); cattle, 1964 (19,055,000); sheep, 1964 (164,981,000); and pigs, 1941 (1,797,000).

The distribution throughout Australia of sheep, beef cattle, dairy cattle and pigs at 31st March, 1963, is shown in the maps on pages 1049 and 1050 and facing pages 1082 and 1083 of Year Book No. 50.

The numbers of horses, cattle, sheep and pigs in each State and Territory are shown later in this chapter. As explained in paragraph 3 (page 1049), farmers are no longer asked to classify their herds as either “beef cattle” or “dairy cattle”; consequently detailed statistics of cattle for 1964 are not comparable with those for earlier years.

2. **Carrying Capacity of Pastoral Holdings.**—The carrying capacity of pastoral holdings has been increased in recent years, owing in some measure to the succession of good seasons experienced since 1946 (with the exception of the 1957–58 season, when prevailing dry conditions caused a slight decline in cattle and sheep numbers). Other important factors contributing to the progressive increase over this period have been the increased attention given to pasture improvement and the reduction of rabbit infestation, due principally to the introduction, in 1950, of the disease myxomatosis. Some information on pasture improvement in Australia was given on pages 1001–2 of Year Book No. 49.

3. **Size Classification of Cattle Herds and Sheep Flocks.**—A special series of tabulations relating to rural holdings in Australia was compiled for 1959–60 and has been published in full detail in a series of bulletins *Classification of Rural Holdings by Size and Type of Activity, 1959–60*. Tables in these bulletins relating to beef cattle, dairy cattle, and sheep, show classifications according to size of herd or flock, area of holding, area of wheat for grain, area of sown pastures, and type of activity. These data are presented by statistical division. An earlier series, prepared for the year 1955–56, presents similar data, but only by State.

4. **Value of Pastoral Production.**—(i) *Gross, Local and Net Values, 1963–64.* Values of pastoral production for each State are shown for 1963–64 in the following table. Further details of the source of the information and an explanation of the terms used in this compilation will be found in Chapter XXX. Miscellaneous. Maintenance costs and depreciation have not been deducted; consequently the net values are inflated to the extent of these amounts.

GROSS, LOCAL AND NET VALUES OF PASTORAL PRODUCTION, 1963-64
(£'000)

State or Territory	Gross production valued at principal markets	Marketing costs	Local value of production	Value of materials used in process of production	Net value of production (a)
New South Wales	291,634	21,178	270,456	(b) 18,911	251,545
Victoria	191,106	18,230	172,876	11,028	161,848
Queensland	140,340	11,043	129,297	11,410	117,887
South Australia	75,233	4,082	71,151	8,162	62,989
Western Australia	74,351	4,805	69,546	7,774	61,772
Tasmania	16,422	1,015	15,407	5,624	9,783
Northern Territory	4,006	561	3,445	n.a.	3,445
Australian Capital Territory	1,186	77	1,109	89	1,020
Australia	794,278	60,991	733,287	62,998	670,289

(a) No deduction has been made for depreciation and maintenance. (b) No allowance has been made for costs of power, power kerosene, petrol and other oils.

(ii) *Net Values, 1959-60 to 1963-64.* The net value of pastoral production by State and the net value per head of population are shown below.

NET VALUE OF PASTORAL PRODUCTION(a)

Year	N.S.W.(b)	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Aust.(c)
------	-----------	------	--------	----------	----------	------	----------

NET VALUE

1963-64 ..	61.6	52.4	74.9	61.7	79.0	26.7	60.8

(a) No deduction has been made for depreciation and maintenance. (b) No allowance has been made for costs of power, power kerosene, petrol and other oils. (c) Includes Northern Territory and Australian Capital Territory.

5. Indexes of Quantum and Price of Pastoral Production, 1959-60 to 1963-64.—The quantum indexes shown in the following table relate to gross output of farm products valued at constant prices. The quantities of each farm product produced each year have been re-valued at the unit gross value for the period 1936-37 to 1938-39. The price indexes

relate to average "prices" of farm products realized in the principal markets of Australia. Average quantities of each product marketed in the period 1946-47 to 1950-51 have been used as fixed weights. For further details of the methods of calculating these indexes and of the weights used see Chapter XXX. Miscellaneous.

**INDEXES OF QUANTUM^(a) AND PRICE OF PASTORAL PRODUCTION:
AUSTRALIA**

(Base: Average 3 years ended June, 1939 = 100)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
QUANTUM^(a) PRODUCED					
Wool	172	165	174	170	183
Other products	153	136	144	154	158
<i>Total, Pastoral</i>	<i>163</i>	<i>152</i>	<i>160</i>	<i>163</i>	<i>172</i>
Per head of population	110	100	104	104	107
PRICE					
Wool	440	397	412	449	531
Other products	500	513	433	451	480
<i>Total, Pastoral</i>	<i>464</i>	<i>443</i>	<i>421</i>	<i>450</i>	<i>511</i>

(a) Index of value at constant prices, i.e. quantities revalued at average unit values of base years, 1936-37 to 1938-39.

§ 2. Sheep

1. **Distribution throughout Australia.**—With the exception of a short period in the early eighteen-sixties, when the flocks of Victoria outnumbered those of New South Wales, the latter State has occupied the premier position in sheep-raising, depasturing nearly one-half of the sheep of Australia.

A map showing the distribution of sheep in Australia at 31st March, 1963, appears on page 1049 of Year Book No. 50. Graphs showing the number of sheep in Australia from 1870 onwards appear on pages 1038 and 1071 of this Year Book.

The numbers of sheep in the several States and Territories at 31st March of each year 1960 to 1964 compared with average numbers for the three-year periods ended 1939, 1949 and 1959 are shown in the following table.

SHEEP: NUMBER
(’000)

Period	N.S.W.	Vic.	Q’land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
Average for three years ended—									
1939 ..	51,202	17,845	21,889	8,916	8,972	2,460	23	251	111,558
1949 ..	46,525	17,900	16,442	8,793	10,368	2,060	24	227	102,339
1959 ..	67,006	26,615	22,537	15,285	15,609	3,259	25	265	150,601
Year—									
1960 ..	71,000	26,597	23,332	14,025	16,412	3,494	15	299	155,174
1961 ..	68,087	26,620	22,135	14,952	17,152	3,439	16	278	152,679
1962 ..	69,498	27,533	22,125	16,415	18,314	3,531	10	286	157,712
1963 ..	70,021	27,472	22,811	15,737	18,727	3,570	9	279	158,626
1964 ..	71,764	28,413	24,337	16,403	20,165	3,600	10	289	164,981

Except when affected by drought, the relative numbers of sheep in the different States have remained fairly constant in recent years. The percentage distribution in 1964 was:— New South Wales, 44; Victoria, 17; Queensland, 15; South Australia, 10; Western Australia, 12; and Tasmania, 2.

2. **Numbers of Sheep on Rural Holdings.**—(i) *Size of Sheep Flocks.* Details of the size of sheep flocks on rural holdings in Australia for 1959–60 have been published in a series of publications entitled *Classification of Rural Holdings by Size and Type of Activity, 1959–60.*

(ii) *Sheep Numbers.* The following table shows the approximate movement in sheep numbers in Australia in each year from 1959–60 to 1963–64.

SHEEP AND LAMBS: ANALYSIS OF MOVEMENT IN NUMBERS, AUSTRALIA ('000)

Season	Lambs marked	Excess of exports (a)	Sheep and lambs slaughtered	Estimated number of deaths from disease, drought, etc. (b)	Number at 31st March (end of season)	Annual net increase (+) or decrease (—)
1959–60	44,150	226	22,088	2,247	155,174	+2,467
1960–61 ..	39,792	148	32,582	9,557	152,679	—2,495
1961–62 ..	45,596	201	33,317	7,045	157,712	+5,033
1962–63 ..	45,146	263	33,847	10,122	158,626	+914
1963–64 ..	47,818	328	33,147	7,988	164,981	+6,355

(a) There were no imports in any of the years shown.

(b) Balance figure.

3. **Classification of Sheep According to Age, Sex and Breed.**—In the following table numbers of sheep in Australia are classified according to age and sex at 31st March.

SHEEP: AGE AND SEX, AUSTRALIA ('000)

Description	1960	1961	1962	1963	1964
Rams, 1 year and over ..	1,898	1,934	1,956	1,979	1,986
Breeding ewes (including ewes intended for mating) ..	68,455	69,662	70,693	70,936	72,862
Other ewes, 1 year and over ..	9,276	8,951	8,729	8,878	8,631
Wethers, 1 year and over ..	43,046	42,912	43,021	44,267	46,203
Lambs and hoggets, under 1 year ..	32,499	29,220	33,313	32,566	35,299
Total, Sheep and Lambs	155,174	152,679	157,712	158,626	164,981

Particulars of the principal breeds of sheep at 31st March, 1962, the latest date for which these data are available (details are collected on a triennial basis), are shown in the following table.

SHEEP: PRINCIPAL BREEDS, 31st MARCH, 1962
('000)

Breed	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
Merino ..	54,096	12,116	21,754	13,772	16,902	337	10	247	119,234
Other recognized breeds ..	7,203	6,990	48	1,149	587	1,959	..	10	17,946
Merino comebacks(a) ..	1,865	2,570	74	307	215	429	..	7	5,467
Crossbreds(b) ..	6,334	5,857	249	1,187	610	806	..	22	15,065
Total ..	69,498	27,533	22,125	16,415	18,314	3,531	10	286	157,712

(a) Merino comeback is the progeny of a crossbred Merino ewe and a Merino ram, i.e. finer than half-bred. (b) Half-bred and coarser.

4. **Imports and Exports of Sheep.**—The oversea exports of live sheep from Australia are of comparatively minor importance. On 27th November, 1929, the export of stud Merino sheep was prohibited, except with the approval of the Minister for Primary Industry. Exports of sheep are now principally for slaughter overseas. Consignments for this purpose in recent years were made chiefly from Western Australia to Singapore. In 1963–64 the number of sheep exported was 327,607, valued at £1,418,000 (1962–63, 263,145, valued at £892,000). Since June, 1958, an embargo has been imposed on the import of sheep in order to prevent the introduction of the disease blue-tongue.

5. **Comparison with other Countries.**—In 1963–64 Australian flocks numbered 165 million sheep, compared with an estimate of 238 million for the U.S.S.R., China, and eastern Europe combined, about 51 million in New Zealand, and about 48 million in Argentina. World sheep numbers were estimated at about 924 million in 1963–64. These figures relate only to woolled sheep, non-woolled sheep accounting for about 5 per cent. of the world total of all types of sheep. Further details of sheep numbers in the principal wool producing countries of the world are given in the table on page 1061.

§ 3. Cattle

1. **Objects of Cattle-raising.**—Cattle-raising is carried out in all the States, the main object in certain districts being the production of stock suitable for slaughtering purposes, and in others the raising of profitable dairy herds. While dairy cattle are restricted mainly to coastal districts, beef cattle are more widely distributed, particularly in the eastern States, and are raised in areas unsuitable for dairy cattle, such as the tropical area of northern Queensland, the Northern Territory, and the Kimberley district in the north of Western Australia.

2. **Distribution throughout Australia.**—Although cattle numbers declined after 1957 because of drought conditions and heavy slaughterings, they began to rise again in 1960, and in 1964 reached a record level of 19,055,000.

A graph showing the number of cattle in Australia from 1870 onwards appears on page 1038 of this Year Book.

The numbers of cattle in the several States and Territories in each year 1960 to 1964, compared with averages for the three-year periods ended 1939, 1949 and 1959, are shown below.

CATTLE: NUMBER

('000)

Period	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
Average for three years ended—									
1939 ..	3,040	1,861	6,002	324	767	260	882	8	13,144
1949 ..	3,122	2,153	5,971	443	830	244	1,006	9	13,778
1959 ..	3,770	2,722	7,177	598	985	367	1,173	10	16,802
Year—									
1960 ..	3,840	2,624	7,012	500	1,030	375	1,111	11	16,503
1961 ..	4,242	2,864	7,004	561	1,100	394	1,154	13	17,332
1962 ..	4,399	3,156	7,098	659	1,218	425	1,064	14	18,033
1963 ..	4,569	3,225	7,233	679	1,298	444	1,087	14	18,549
1964 ..	4,789	3,301	7,402	694	1,299	450	1,105	15	19,055

Although the proportion was not as high as it has been in some previous years, Queensland was carrying 39 per cent. of the cattle in Australia in 1964. The percentage in each State and Territory during that year was:—New South Wales, 25; Victoria, 17; Queensland, 39; South Australia, 4; Western Australia, 7; Tasmania, 2; and Northern Territory, 6.

Maps showing the distribution of beef and dairy cattle in Australia appear on pp. 1050 and 1082 of Year Book No. 50, and maps showing distribution in earlier years were published in previous issues of the Year Book.

3. Classification of Cattle.—Following an investigation into the adequacy of the wording and arrangement of the cattle sections of the statistical forms used for recent Agricultural, Dairying and Pastoral Censuses, certain changes were made to the forms used for the Census conducted at 31st March, 1964.

Prior to 1964 farmers were asked to classify their herds as either "beef cattle" or "dairy cattle". These two terms tended to cause confusion between breed and purpose, and in those instances where vealer production was carried on in association with dairying farmers were in doubt how to classify part or all of their herds.

On 31st March, 1964, farmers were asked to classify their cattle according to the two main purposes of (i) milk production, and (ii) meat production, irrespective of breed, and to report separately the number of cows and heifers kept for their own domestic milk supply. Consequently detailed statistics of cattle for 1964 are not comparable with those for earlier years. However, four broad groupings of cattle are generally comparable with earlier years, and particulars for each year from 1960 to 1964 are shown below.

CATTLE: NUMBER

('000)

31st March—		Bulls one year and over	Cows and heifers one year and over	Calves under one year	Other	Total
1960	312	9,667	3,329	3,195	16,503
1961	347	10,124	3,561	3,300	17,332
1962	366	10,543	3,872	3,252	18,033
1963	379	10,936	4,079	3,155	18,549
1964	377	11,138	4,254	3,286	19,055

CATTLE: PURPOSE(a), AGE AND SEX, 31st MARCH, 1964

Total Cattle and Calves for All Purposes	4,789	3,301	7,402	694	1,299	450	1,105	15	19,055

(a) Collected according to this classification for the first time in 1964. See text on p. 1049. (b) As at 30th June, 1964. (c) Less than 500. (d) Not available separately. (e) Incomplete: excludes Northern Territory. (f) Mainly for meat production. (g) Includes vealers, and bull calves intended for service.

For beef cattle and dairy cattle numbers up to 1963 see pp. 1056 and 1078 respectively of Year Book No. 50.

Details of size of cattle herds on rural holdings in Australia for 1959-60 have been published in a series of publications entitled *Classification of Rural Holdings by Size and Type of Activity*.

4. **Cattle and Beef Research Schemes.**—In May, 1960, legislation was enacted to provide for a Commonwealth scheme for an expanded programme of research into the scientific, technical and economic problems connected with the Australian beef industry.

Funds are raised by a levy on all cattle weighing over 200 lb. dressed which are slaughtered for human consumption, and the Commonwealth provides a matching contribution on a £1 for £1 basis to meet expenditure on new research. The scheme is administered by the Australian Cattle and Beef Research Committee, whose main function is to formulate plans for projects on which the funds may be expended. The research is undertaken by existing bodies such as the universities, C.S.I.R.O. and State Departments of Agriculture.

The Minister for Primary Industry has approved a research programme of just over £1,000,000 for 1965-66. This is approximately the same amount as in the previous year.

At its first meeting in June, 1960, the Committee agreed to recommend to the Minister for Primary Industry that the levy be fixed at the maximum provided in the Act, namely 2s. a head. The levy was operative from 1st July, 1960. It was suspended in October, 1960, as a result of a High Court writ being issued by certain meat operators challenging the validity of the Act. Amending legislation was enacted in October, 1961, and the levy again became operative from the 14th October, 1961. The Acts covering the research arrangements and collection of the levy are the *Cattle and Beef Research Act 1964*, and the *Livestock Slaughter Levy Collection Act 1964*. The *Cattle Slaughter Levy (Suspension) Act 1961* covers the suspension of levy from 14th October, 1960, to 13th October, 1961.

5. Imports and Exports of Cattle.—In 1963-64 the number of cattle exported was 7,634, valued at £307,000 (1962-63, 8,969 valued at £283,000). The bulk of the animals at present being exported are sent to Hong Kong for slaughtering, the number exported thereto in 1963-64 being 5,333 head valued at £144,418.

Prior to June, 1958, small numbers of cattle were imported, consisting mainly of valuable animals for stud purposes. Since that date an embargo has been imposed on the import of cattle in order to prevent the introduction of the disease blue-tongue.

6. Comparison with Other Countries.—The following table shows the number of cattle in Australia and in some of the principal cattle raising countries of the world at the latest available date.

CATTLE: NUMBER IN VARIOUS COUNTRIES

(Source (for countries other than Australia): *World Agricultural Production and Trade*, United States Department of Agriculture)

(*000)

Country	Year and month	Number(a)
India(b)	1962 (May)	236,000
United States of America	1964 (January)	106,488
U.S.S.R.	1964 (January)	85,000
Brazil	1963 (December)	81,115
China (Mainland)(b)	1960 (December)	65,400
Argentina	1964 (June)	41,500
Pakistan(b)	1961 (Estimate)	30,300
Mexico	1964 (Spring)	24,500
Ethiopia	1963 (Estimate)	22,000
France	1963 (October)	20,249
Australia	1964 (March)	19,055
Colombia	1963 (October)	15,800
Turkey(b)	1963 (December)	13,150
Germany, Federal Republic of	1963 (December)	13,014
South Africa	1959 (August)	11,300

(a) Subject to revision.

(b) Includes buffaloes.

§ 4. Horses

1. **Distribution throughout Australia.**—About 80 per cent. of the horses in Australia are in the States of New South Wales, Victoria and Queensland. In the following table figures are shown for each State and Territory for the years 1960 to 1964.

HORSES: NUMBER

('000)

Year	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
1960 ..	204	81	234	30	41	11	38	1	640
1961 ..	192	65	224	27	40	9	40	1	598
1962 ..	168	61	217	25	40	9	41	1	562
1963 ..	166	58	212	25	39	8	38	1	547
1964 ..	163	56	206	(a) 25	39	8	38	1	(b) 536

(a) Estimated.

(b) See footnote (a) to South Australia.

The number of horses in Australia reached a peak of 2,527,000 in 1919. Since then it has declined, because of mechanization of transport and farming, at an average rate of 44,000 a year. A graph showing the number of horses in Australia since 1870 appears on page 1038 of this Year Book.

The percentage distribution of the number of horses in each State and Territory for 1964 was:—New South Wales, 30; Victoria, 10; Queensland, 39; South Australia, 5; Western Australia, 7; Tasmania, 2; and Northern Territory, 7.

2. **Overseas Trade in Horses.**—Exports of horses in 1963–64 numbered 482, valued at £476,569 (Australian produce 421 for £368,994, re-exports 61 for £107,575), made up of horses for breeding (100 valued at £134,307), horses for racing (205 valued at £295,324, shipped principally to the United States of America and Singapore), and horses for other purposes (177 valued at £46,938).

Horses imported into Australia for breeding purposes in 1963–64 (184 valued at £416,045) were mainly from the United Kingdom and New Zealand, while horses for racing purposes (495 valued at £483,773 in 1963–64) were mainly from New Zealand. The total number imported in 1963–64 was 698 valued at £905,225.

§ 5. Pastoral Products: Wool

1. **General.**—With about one-sixth of the world's woolled sheep, Australia produces almost one-third of the world's wool and more than half of the world's fine-quality Merino wool. The bulk of the production is exported, mainly as greasy wool, although substantial amounts of scoured and carbonized wool, wool on sheep skins and small quantities of semi-manufactured wool are also shipped.

The important position held by Australia among the principal sheep and wool producing countries of the world is shown in the table on page 1061.

2. **Earlier Wool Marketing Schemes.**—Details of past marketing schemes and agreements, including the 1914–18 War Imperial Purchase Scheme, the British Australian Wool Realization Association Ltd., the 1939–45 War Acquisition Scheme, Joint Organization, and Minimum Reserve Price Plan, are given in previous issues of the Year Book.

3. **Auction System.**—More than ninety per cent. of the Australian wool clip is disposed of at auction. (During both world wars, however, auction selling was suspended and replaced by bulk purchase schemes.)

There are fourteen recognized wool-selling centres, namely Sydney, Goulburn, Newcastle, Albury, Melbourne, Geelong, Ballarat, Portland, Brisbane, Adelaide, Perth, Albany, Hobart and Launceston. At these centres wool-selling brokers operate large stores where wool received from growers is held awaiting sale.

Each year a wool-selling programme is drawn up jointly by the selling brokers and wool-buyers on the basis of the expected clip. Selling dates and the quantities to be offered are then determined for each centre.

Before each sale, the selling brokers, who act as agents for the woolgrowers, display a representative portion of the wool to be sold on show floors for buyers' inspection and valuation. Auction sales are attended by buyers purchasing on behalf of wool users in over fifty countries.

4. Wool Marketing Committee of Inquiry.—In 1961 the Commonwealth Government appointed an independent committee to inquire into the marketing and promotion of Australian wool and related matters (*see* Year Book No. 48, page 977, for further details). The Committee presented its report to the Government in 1962. Its most important recommendation was that wool promotion, research and testing should be brought under the control of a single body, which should also act as an advisory authority on wool marketing. This recommendation was implemented under the *Wool Industry Act* 1962, which set up the Australian Wool Board.

5. Australian Wool Board.—This Board consists of a chairman, six woolgrower representatives, three members with special qualifications and a representative of the Commonwealth Government. The first chairman of the Board was appointed by the Minister for Primary Industry after consultation with the Australian Wool Industry Conference (*see* p. 1054) but subsequent chairmen are to be appointed on the nomination of the Board. The six woolgrower representatives are appointed by the Minister on the nomination of the Wool Industry Conference, and the three members with special qualifications are appointed from a panel of names submitted by the Conference. The Act provides that the latter members must be experienced in one of the following fields: wool marketing and manufacturing, research, finance and commerce.

When the Board came into being on 1st May, 1963, it took over the functions of the Australian Wool Bureau. On 1st July, 1963, the Australian Wool Testing Authority became part of the Board, and on 1st January, 1964, the Board took over the functions of the Wool Research Committee. Information on these three former instrumentalities appears in Year Book No. 48, pages 977–81.

Following the organizational changes carried out under the Wool Industry Act, the functions of the Board embrace the following activities.

- (i) *Wool promotion in Australia and overseas by publicity and other means.* Promotion overseas is carried out through the International Wool Secretariat, which is maintained jointly by the Wool Boards of Australia, New Zealand and South Africa.
- (ii) *Provision of a testing service for wool and wool products.* This service is administered by a subsidiary board retaining the name Australian Wool Testing Authority.
- (iii) *Administration of wool research.* The Board is responsible for preparing annual programmes of research expenditure which are subject to the approval of the Minister for Primary Industry. Two committees established by the Board, the Wool Production Research Advisory Committee and the Wool Textile Research Advisory Committee, assist in this task.
- (iv) *Investigation into all aspects of wool marketing on a continuing basis.* The Wool Marketing Committee, an ancillary body appointed by the Board, assists in carrying out this function. The Board is required to report to the Australian Wool Industry Conference on its findings and advise it on measures which should be adopted to meet changing marketing conditions. However, the Board has no executive powers over marketing.
- (v) *Maintenance and administration of the wool stores which were entrusted to the Board by the Commonwealth Government.* Further details concerning these stores appear in Year Book No. 48, page 978.
- (vi) *Other activities approved by the Minister for the benefit of the wool industry, including the operation of the Wool Statistical Service and the registration of wool classers.* The Wool Statistical Service (described in more detail in Year Book No. 48, pp. 977–8) provides comprehensive statistics on the Australian wool clip, while the registration of wool classers is designed to improve the standards of wool classing in Australia.

At present the main sources of finance for the various activities of the Board are a levy paid by woolgrowers and contributions by the Commonwealth Government.

6. The Australian Wool Industry Conference.—This body was formed by woolgrowers in October, 1962, to meet the need for an organization with sufficient authority to speak on behalf of the woolgrowing industry as a whole. It is not a statutory body and consists at present of 50 members and an independent chairman, 25 of the members being appointed by the Australian Woolgrowers' and Graziers' Council and 25 by the Australian Wool and Meat Producers' Federation.

The Conference makes recommendations to the Commonwealth Government on policy matters concerning the wool industry. Under the Wool Industry Act it is the responsibility of the Conference to nominate woolgrower representatives for appointment to the Australian Wool Board and to prepare panels of names from which the three Board members with special qualifications are selected. Under the Wool Tax Acts (see para. 7) the Conference is also responsible for recommending to the Commonwealth Government what rates of levy should be paid by woolgrowers to finance the activities of the Wool Board.

7. Wool Levy.—Since 1936 a statutory levy has been collected from woolgrowers to finance wool promotion activities. The initial rate of 6d. a bale was increased at the request of woolgrowers to 2s. a bale in 1945 and 4s. a bale in 1952, the latter rate continuing until 1960. Further details regarding the operation of this levy prior to 1957 appear in Year Book No. 48, page 978.

Under legislation passed in 1957 provision was also made for the payment by woolgrowers of a contribution for wool research which was fixed at 2s. a bale.

In 1960 the wool promotion levy was raised to 5s. a bale, and the following year it was increased further to 10s. a bale. The operation of this rate was subsequently extended for 1962-63 and 1963-64.

On 1st July, 1964, the basis of collecting the woolgrowers' combined levy for wool promotion and research was changed from the existing unit charge per bale to a percentage of the gross sale value of the wool. The maximum rate was set at 2 per cent. and provision was made for annual adjustments to the operative rate, not greater than that maximum, to yield the required amounts. At the same time the levy for wool promotion was increased from 10s. a bale to the equivalent of 27s. a bale, but the levy for research remained unchanged at the equivalent of 2s. a bale. For 1964-65 the rate for the combined levy for wool promotion and research was set at 1½ per cent.

The imposition and collection of the combined levy from woolgrowers is governed by six complementary Acts, the Wool Tax Acts (Nos. 1 to 5) 1964 and the *Wool Tax Administration Act* 1964 (see pp. 907-8.).

8. Commonwealth Government's Contributions to Wool Research and Promotion.—Since 1945 the Commonwealth Government has contributed to wool research on a statutory basis. Originally the contribution was equivalent to 2s. a bale. This was increased to 4s. a bale in 1957 and has remained unchanged since then.

Until 1964-65 the Commonwealth Government had not contributed to wool promotion, but in that year began contributing at the rate of about £4,250,000 a year. This was the result of a request from the Australian Wool Industry Conference to the Government in July, 1963, for assistance to the Australian Wool Board to finance its vastly increased commitments to the International Wool Secretariat (see p. 1053) for wool promotion overseas. The Secretariat had announced a 5-year plan of expanded wool promotion activities that envisaged an increase in the Australian Wool Board's share of contributions to the Secretariat from its then £2,500,000 to about £10,000,000 a year.

The Government agreed in October, 1963, to match £1 for £1 any increase in the growers' levy for promotion in excess of their current levy of 10s. a bale for that purpose. In January, 1964, the Conference agreed to increase the growers' levy to the equivalent of 27s. a bale, which resulted in a Government commitment of 17s. a bale. In terms of aggregate quantities this commitment required a Commonwealth Government contribution of about £4,250,000 a year, to commence in 1964-65. This will be reviewed after 3 years.

9. **Wool Production.**—(i) *General.* Wool as shorn from the sheep contains an appreciable amount of grease, dirt and other extraneous matter, and is termed "greasy wool". The quantity of grease and other matter in a fleece differs not only between countries, but between districts in the same country. It fluctuates with the vagaries of the season, and with the breed and the condition of the sheep.

To allow for this factor, the weight of greasy wool is sometimes given on a "clean" basis, i.e. minus the estimated amount of impurities. The net wool fibre content of greasy wool, expressed as a percentage, is termed "clean yield".

From 1946-47 to 1952-53, the Australian Wool Realization Commission, and from 1953-54, the Wool Statistical Service, have assessed annually the clean yield of the Australian wool clip. During the period of assessment, the clean yield showed a continuous rise up to 1951-52, when it reached 57.5 per cent. It has since fluctuated between 55.8 per cent. and 57.7 per cent.

Wool scoured, washed and carbonized in Australia before export, however, has a clean yield somewhat lower than for the whole clip, because the grade of greasy wool treated locally for export as scoured, washed or carbonized includes a large proportion of dirty and low-grade wool. In recent years it has approximated 50 per cent. The quantity of this wool exported during 1963-64 was about 11 per cent. of the total raw wool exports (excluding wool exported on skins) in terms of greasy.

For the clean yield of Australian scoured wools exported, a standard factor of 93 per cent. is taken.

(ii) *Production.* The production of wool in the States and Territories varies broadly in accordance with the number of sheep depastured and with seasonal conditions which affect clip per head (see para. 8 (iii), p. 1056). In general, however, South Australia obtains from its large-framed Merinos a much heavier fleece per sheep than the Australian average, while Tasmania generally obtains from its predominantly non-Merino flocks a lighter fleece per sheep. In addition, as a result of better management (improved pastures, fodder conservation, better breeding, control of diseases, etc.), the long-term trend has been towards higher fleece weights.

The following table shows details of total wool (i.e. shorn, dead and fellmongered, and exported on skins) produced by each of the States and Territories during the years 1959-60 to 1963-64 compared with averages for the three-year periods ended 1938-39, 1948-49 and 1958-59. A graph showing the production of wool in relation to sheep numbers from 1870 onwards appears on page 1071 of this Year Book.

PRODUCTION OF WOOL (GREASY BASIS)

('000 lb.)

The bulk of the Australian wool production (about 91 per cent. in recent years) is shorn from live sheep. The remainder is obtained by fellmongering (about 2 per cent.), or is exported on skins (about 7 per cent.). The following table shows details of total wool production according to method of obtaining wool, and also the gross value of wool produced. Gross value is based, for shorn wool, upon the average price realized for greasy wool sold at auction, and, for skin wools, on prices recorded by fellmongers and skin exporters.

**QUANTITY (GREASY BASIS) AND VALUE OF WOOL PRODUCED:
AUSTRALIA**

Period	Shorn (incl. crutchings)	Dead and fell- mongered	Exported on skins	Total production

(iv) *Classification of Wool According to Quality.* The following table provides a detailed analysis of wool sold at auction, according to quality, for the years 1959-60 to 1963-64. These data are compiled by the Wool Statistical Service on the basis of catalogues of auction sales. "Quality" ("64's, 60's, 58's," etc.) is a measure of the fineness and texture of wool for spinning purposes. Broadly, it means the maximum number of hanks of yarn, each of 560 yards length, which can be spun from 1 lb. of combed wool. For instance, wool of 64's quality is of a fineness and texture which will produce 64 hanks, each of 560 yards, from 1 lb. of tops (combed wool) of that particular wool.

CLASSIFICATION OF GREASY WOOL SOLD AT AUCTION(a): AUSTRALIA
(Bales of approximately 300 lb.)

Pre-dominating quality	1959-60		1960-61		1961-62		1962-63		1963-64	
	Quantity	Per cent.	Quantity	Per cent.	Quantity	Per cent.	Quantity	Per cent.	Quantity	Per cent.

Below 50's	46,429	1.0	43,552	0.9	49,875	1.1	45,631	1.0	45,675	0.9
Oddments	68,202	1.4	73,246	1.6	75,708	1.6	86,058	1.9	92,622	1.9
Grand Total	4,777,419	100.0	4,615,129	100.0	4,743,632	100.0	4,648,985	100.0	4,900,061	100.0

(a) All greasy wool sold at auction except "wool re-offered account buyer".

10. Price and Value.—(i) *Price.* During 1963-64 the price of greasy wool sold in the selling centres of Australia averaged 69.7d. per lb. compared with the average price of 59.0d. per lb. in 1962-63 and 54.1d. per lb. in 1961-62.

The prices quoted above are as compiled by the National Council of Wool Selling Brokers and represent the average price realized for all greasy wool, of whatever type or quality, marketed during the years indicated.

(ii) *Value.* Fluctuation in Australian wool prices has a marked effect on the nation's rural and national income. In 1945-46 the gross value of wool production was £58,597,000, representing 17.4 per cent. of the gross value of production of all rural industries, while in 1950-51, when prices reached a peak, wool was valued at £651,902,000 or 55.6 per cent. of the total value of production for all rural industries. The value of wool production fluctuated considerably in subsequent years. In 1963-64 it was £511,721,000, 29.9 per cent. of the gross value of production of rural industries.

Details of the value of wool production for the years 1959-60 to 1963-64 are shown in the following table.

ESTIMATED GROSS VALUE OF TOTAL WOOL PRODUCTION(a)
(£'000)

Season	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.(b)	A.C.T.	Aust.
1959-60	168,112	75,952	54,573	42,691	39,334	8,254	35	810	389,761
1960-61	138,881	69,265	50,859	35,242	38,312	7,229	28	614	340,430
1961-62	154,920	74,219	50,637	42,900	41,260	7,876	18	724	372,554
1962-63	166,170	79,006	37,731	46,257	41,494	8,886	20	698	400,262
1963-64	208,417	104,350	70,729	56,705	59,931	10,676	25	888	511,721

(a) Includes shorn, dead and fellmongered wool and wool exported on skins.

(b) Estimated.

11. Stocks of Wool.—Stocks of raw wool held in Australia at 30th June, 1964, amounted to 257.1 million lb. (greasy basis), of which 61.2 million lb. (37.6 million lb. as greasy and 23.6 million lb. as scoured and carbonized) were held by woollen mills, wool scourers and fellmongers, and 195.9 million lb., assumed to be all greasy, were held by brokers. Of the wool held by brokers, 66.1 million lb. were unsold wool and 129.8 million lb. were sold wool held awaiting shipment. These stocks exclude wool on skins, since this wool is not recorded as production until fellmongered in Australia or exported on skins.

12. **Consumption of Wool.**—(i) *Consumption of Raw Wool.* Statistics of raw wool consumption published in recent years for the purposes of broad international comparisons are based on the quantities of scoured or carbonized wool used on the woollen and worsted systems (mill consumption), plus quantities used in such processes as felting. Consumption estimates compiled on this basis have obvious defects, as they disregard overseas trade in semi-processed wool (e.g. tops and yarns) as well as woollen goods. Estimates of raw wool used on the woollen and worsted systems and by felt manufacturers in Australia are shown in the following table for the years 1959–60 to 1963–64.

ESTIMATED CONSUMPTION OF RAW WOOL IN AUSTRALIA
(*000 lb.)

Year	Greasy basis			Clean equivalent		
	Used on woollen and worsted systems	Used for felt manufacture (including hats)	Total	Used on woollen and worsted systems	Used for felt manufacture (including hats)	Total

(ii) *Consumption of Locally Processed Wool.* As considerable quantities of tops, noils and yarn are exported from Australia, the series on raw wool consumption shown above is over-stated to this extent. The series entitled "Estimated Consumption of Locally Processed Wool in Australia" provides a more reliable indication of wool consumption in Australia, as allowance has been made for exports of wool in semi-processed form. This series is shown in the following table for the years 1959–60 to 1963–64. Briefly, the series measures consumption of wool in terms of yarn used in Australian mills and other factories to produce woollen cloth and other woollen goods, yarn used for hand knitting purposes, and scoured wool used for felt manufacture. No allowance has been made for overseas trade in woollen piece goods, clothing, etc., because of the obvious difficulties of estimating accurately the wool content of these products.

13. Exports of Wool.—(i) *Quantities.* (a) *Greasy.* Of the total shipments in 1963–64 31 per cent. went to Japan, 17 per cent. to the United Kingdom, 10 per cent. to France, 9 per cent. to Italy, and 7 per cent. to Belgium-Luxembourg. The following table shows the quantities of greasy and slipé wool exported, and the principal countries of consignment.

EXPORTS OF GREASY AND SLIPE WOOL: AUSTRALIA
(*000 lb. actual weight)

Country of consignment	1959-60	1960-61	1961-62	1962-63	1963-64

Total	936,230	910,714	961,958	936,407	998,213

(a) Includes re-exports.

(ii) *Total Value of Exports.* The value of wool (other than wool on sheepskins) exported from Australia during 1963-64 was 36 per cent. of the total value of exports of merchandise of Australian origin, while the proportion for the five years ended 1963-64 averaged 37 per cent. The value for the five years ended 1963-64, together with the principal countries to which wool was exported, is shown in the following table.

VALUE OF WOOL EXPORTS: AUSTRALIA(a)
([£]'000)

Total	386,142	334,442	372,527	379,356	480,440

(a) Excludes re-exports and wool exported on sheepskins.

14. **World Sheep Numbers, Wool Production and Trade.**—(i) *Numbers and Production.* The following table shows particulars of the woolled sheep numbers and total production of wool, in terms of greasy, in the principal wool-producing countries of the world, together with estimates of world production of Merino, crossbred, and carpet type wool for the latest available years.

In 1963-64 Australia produced 31 per cent. of the world total of all types of wool, the share of all British Commonwealth countries combined representing approximately 46 per cent. The principal wool producers, other than Australia, were New Zealand with 11 per cent. of the world total, Argentina, 7 per cent., South Africa 5 per cent., and United States of America, 5 per cent. Production in the U.S.S.R., China and eastern European countries together amounted to 20 per cent. World production of wool (all types) in 1963-64 exceeded the average for the years 1934 to 1938 by approximately 1,931 million lb. or 50 per cent.

Australia's wool clip is predominantly Merino. New Zealand and Argentina produce mainly crossbred wool, while the clip of the U.S.S.R. is largely of the carpet type. World production of Merino wool in 1963-64 was 45 per cent. above the average for the years 1934 to 1938, and the production of crossbred types has risen by about 74 per cent. Carpet wool production has risen by about 28 per cent.

(a) Provisional. (b) Comprises Albania, Bulgaria, China and Dependencies, Czechoslovakia, East Germany, Hungary, Other Mongolia, Poland, Romania, Tibet and U.S.S.R.

(ii) *Principal Importing Countries and Sources of Supply.* The following table, prepared from information published by the Commonwealth Economic Committee, furnishes, in respect of the principal importing countries, details of their production and imports of wool for 1963 together with the chief sources of supply. The quantities imported refer to the actual weight of wool, without distinguishing between greasy and scoured, except in the case of the United States of America, where estimated clean content of raw wool is quoted.

WOOL: PRINCIPAL IMPORTING COUNTRIES AND SOURCES OF SUPPLY, 1963

(Source: Information published by Commonwealth Economic Committee, London)

(Million lb.)

Importing country	Pro- duction of importing country (a)	Quantity imported from— (b)					Total imports
		Australia	New Zealand	Argen- tina	South Africa	Other countries	
United Kingdom ..	131	241.5	156.8	46.4	34.2	151.0	629.9
Japan	(c)	424.7	41.0	23.9	25.2	11.5	526.3
France	56	152.7	103.9	35.6	48.9	20.1	361.2

Belgium	(c)	95.5	40.6	18.7	10.6	42.3	207.7
United States of America(d) ..	300	44.9	82.6	53.9	20.8	74.5	276.7

(a) Greasy basis, 1962-63. (b) Actual weight of greasy and scoured wool. (c) Not available. (d) Imports are in terms of estimated clean content of greasy and scoured wool. Actual weight of total United States of America imports was 367.9 million lb.

As a considerable transit trade exists between European countries, it must not be assumed that the whole of the imports recorded by these countries is retained for their own consumption. The countries chiefly concerned with the transit trade are the United Kingdom and Belgium.

§ 6. Pastoral Products: Meat

1. General.—(i) *Australian Meat Board*. The Australian Meat Board, which was re-constituted under the *Meat Industry Act* 1964, is the body responsible for controlling the external marketing of Australian beef, mutton and lamb. Powers and membership of the Board prior to its re-constitution in 1964 are set out on page 801 of Year Book No. 40. The Board's primary function is to ensure that Australian meat exports are marketed in a manner which will safeguard the long-term interests of the Australian meat industry. It consists of representatives of producers, exporters and the Commonwealth Government, and an independent Chairman.

The Board regulates oversea marketing of Australian meat by means of an export licensing system. It has power of control over the kinds of meat that may be exported by licensed exporters to particular places, or to particular agents and representatives. The Board also has power to undertake measures to promote the sale and consumption of meat both in Australia and overseas, and it may purchase and sell meat in its own right for the purpose of market development. However, the exercise of this power is limited to activities aimed at meeting special marketing problems or circumstances which preclude the effective participation of private traders. The Board may also purchase and sell meat, with the approval of the Minister for Primary Industry, for the purpose of administering any international arrangements to which Australia may be a party.

(ii) *United Kingdom Long-term Purchase Arrangements*. Details of the long-term meat contracts with the United Kingdom from 1939 to 1952 and of the Fifteen Year Meat Agreement (1952-67) are given on page 710 of Year Book No. 41 and in earlier issues.

(iii) *Reversion to Private Trading*. In September, 1953, the trade in meat between the United Kingdom and Australia reverted to private traders. The main features of the arrangements were given in Year Book No. 47, page 960.

(iv) *Minimum Prices and Deficiency Payments*. Details of minimum prices operating and deficiency payments received in recent years under private trading appear in Year Book No. 48 (page 973) and No. 50 (page 1068).

(v) *Lamb Guarantee Scheme.* Since the 1962-63 lamb export season the Australian Meat Board has guaranteed exporters a minimum price on all lambs 36 lb. and under shipped to the United Kingdom. For the 1962-63 and 1963-64 seasons these prices were set at 18d. per lb. f.o.b. for the period September to November and 16. 5d. per lb. for the following three months, December to February. For the 1964-65 lamb export season the corresponding prices were 19d. per lb. and 17. 5d. per lb. The higher guaranteed price for the initial period was aimed at stimulating early shipments of lamb, because normally the most opportune time for selling Australian lamb in the United Kingdom market is early in the export season. Any commitment by the Board is payable from moneys accrued in the Lamb Deficiency Payments Account under the Fifteen Year Meat Agreement.

(vi) *United States-Australia Meat Agreement.* In February, 1964, the Governments of Australia and the United States concluded an agreement for the regulation of beef, veal and mutton exports from Australia to the United States with the object of promoting the orderly development of the trade in these classes of meat between the two countries. The agreement sought to preserve approximately the current pattern of trade in beef and mutton and to permit Australia to obtain a reasonable share of the expected market growth. Under the agreement Australia undertook to limit its exports of beef, veal and mutton to the United States to 242,000 tons in 1964, 251,000 tons in 1965 and 260,000 tons in 1966.

There is provision for this figure to be increased in succeeding years in accordance with the estimated rate of increase in the total United States meat market. The agreement is subject to review every three years and, as appropriate, the established annual rate of increase will be adjusted to apply to the succeeding three years.

In August, 1964, the United States Congress passed a Bill providing for the imposition of quotas on imports of beef and veal, mutton and goatmeat, from all sources, in 1965 and subsequent years, if imports of these items are estimated by the United States Department of Agriculture to equal or exceed 110 per cent. of a basic quantity.

The basic quantity, 323,840 tons, is approximately the average of imports from 1959 to 1963. This quantity may be increased or decreased in any future calendar year by a percentage equal to that by which the United States average annual commercial production of beef and veal, mutton and goatmeat has changed since the base period 1959-1963. For this purpose the level of domestic production is the average of estimated commercial production for the year in which quotas may be applied and the two preceding years. An increase of 17 per cent. in the basic quantity was set for 1965, providing for allowable imports of approximately 378,900 tons and an import ceiling, at which quotas would be established, of about 416,800 tons. On the basis of the first official estimate of United States meat imports during 1965, the United States Secretary for Agriculture announced on 28th December, 1964, that it would not be necessary to invoke meat import quotas for 1965. However, if a later quarterly estimate in 1965 indicated that the import ceiling would be equalled or exceeded then quotas could be imposed.

2. *Beef and Veal.*—(i) *Cattle Slaughtered.* The numbers of cattle slaughtered during each of the years ended June, 1960 to 1964, compared with averages for the three-year periods ended June, 1939, 1949 and 1959, are shown in the following table.

1963-64..	286	228	328	40	66	26	10	2	986

(iii) *Consumption of Beef and Veal.* The highest post-war consumption of beef and veal (including canned beef and veal) was 132.7 lb. per head in 1956-57. With the buoyant overseas market for beef and the high prices ruling in Australia during the following four years, consumption per head fell substantially, and in 1960-61 amounted to only 88.3 lb. In 1963-64 consumption per head was 108.8 lb., consisting of 104.9 lb. carcass weight and 3.9 lb. (carcass equivalent) of canned meat.

In the following table details of the production and disposal of beef and veal are shown for the years 1959-60 to 1963-64 compared with the averages for the three years ended 1938-39, 1948-49 and 1958-59.

PRODUCTION AND DISPOSAL OF BEEF AND VEAL (CARCASS WEIGHT): AUSTRALIA

1961-62	+ 6	791	299	44	442	93.3
1962-63	(b)	914	385	45	484	100.4
1963-64	+ 4	986	423	42	517	104.9

(a) Includes carcass equivalent of boneless beef exported and all fresh and frozen meat shipped as ships' stores. (b) Less than 500 tons.

(iv) *Exports of Beef and Veal.* In 1963-64 chilled beef exports were 21,000 lb. valued at £2,000, while frozen beef exports amounted to 620,593,000 lb. valued at £86,863,000.

While beef and veal were previously shipped largely in carcass form, there has been in recent years a substantial increase in the amount of boneless beef exported. From 1958-59 to 1963-64 the quantity of boneless beef shipped exceeded that exported in carcass form. The trade in boneless beef has been developed principally with the United States of America.

Since 1958-59 the United States has surpassed the United Kingdom as the principal market for Australian beef exports, the United Kingdom now occupying second place. The total value of beef and veal shipped to these two countries during 1963-64 was £69,685,000 and £10,108,000 respectively.

The quantity and value of Australian frozen beef and veal exported from Australia in each year from 1959-60 to 1963-64 are shown in the following table. Figures in this table represent actual weight shipped, not carcass equivalent.

EXPORTS OF FROZEN AND CHILLED BEEF AND VEAL: AUSTRALIA

Year	Exports of frozen and chilled beef		Exports of frozen veal	
	Quantity	Value	Quantity	Value
	'000 lb.	£A.'000 f.o.b.	'000 lb.	£A.'000 f.o.b.
1959-60	414,749	54,568	6,827	897
1960-61	295,686	39,447	4,506	663
1961-62	444,762	58,086	5,834	754
1962-63	576,504	78,228	7,624	1,037
1963-64	620,614	86,866	9,489	1,399

3. *Mutton and Lamb.*—(i) *Sheep Slaughtered.* The following table shows the numbers of sheep slaughtered during each of the years ended June, 1960 to 1964, compared with averages for the three-year periods ended June, 1939, 1949 and 1959.

SHEEP (INCLUDING LAMBS) SLAUGHTERED

(iii) *Consumption of Mutton and Lamb.* In 1959-60 consumption of mutton and lamb, at 103 lb. per head of population, showed a rise of approximately 15 lb. per head over the previous year and exceeded that of beef and veal for the first time on record. Since then consumption of mutton and lamb combined has declined each year; in 1962-63, and again in 1963-64, it was below the consumption of beef and veal.

The following table gives details of the production and disposal of mutton and lamb for the years 1959-60 to 1963-64, compared with the averages for the three years ended 1938-39, 1948-49 and 1958-59.

1962-63.. ..	136,741	11,652	56,615	5,181	193,356	16,833
1963-64.. ..	149,918	12,376	41,606	3,859	191,524	16,235

The principal customer for Australian frozen mutton and lamb was formerly the United Kingdom, although the United States of America has become a major buyer of mutton in recent years, and in 1963-64 exports to Japan increased sharply. In 1963-64 exports of mutton and lamb to the United Kingdom represented 7 per cent. and 65 per cent., respectively, of the total quantities exported. Thirty five per cent. of the mutton exported went to the United States of America, largely in the form of boneless meat, and the proportion of lamb exported to that country was 4 per cent. Exports of mutton to Japan represented 28 per cent. of the total quantity exported in 1963-64, but exports of lamb were negligible.

4. *Consumption of Meat and Meat Products.*—The apparent consumption of meat (including cured and canned meat) and edible offal per head of population in Australia is shown in the table below for the years 1959-60 to 1963-64 in comparison with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

MEAT (INCLUDING CURED AND CANNED) AND EDIBLE OFFAL AVAILABLE FOR CONSUMPTION: AUSTRALIA

(lb. per head per year)

Period	Beef and veal (a)	Mutton (a)	Lamb (a)	Pork (a)	Offal	Canned meat (b)	Bacon and ham (c)	Carcass equivalent of meat and meat products (d)
Average for three years ended—								
1938-39 ..	140.3	60.0	15.0	8.5	8.4	2.1	10.2	250.9

(a) Carcass weight. (b) Canned weight. (c) Cured carcass weight. (d) Includes offal.

§ 7. Other Pastoral Products

1. **Tallow.**—(i) *Marketing.* Reference is made in Year Book, No. 47, page 976, to the now inoperative contracts relating to the sale of tallow to the United Kingdom.

(ii) *Consumption in Factories.* Details of consumption are collected from the principal factories using tallow. Consumption of inedible tallow in these factories (soap and candle, chemical and wooll scouring works) for the five years 1959–60 to 1963–64 was as follows:—1959–60, 1,278,546 cwt.; 1960–61, 1,196,137 cwt.; 1961–62, 1,077,627 cwt.; 1962–63 1,100,849 cwt.; 1963–64, 1,092,843 cwt. These figures are, however, deficient to the extent, that no allowance has been made for small unrecorded amounts used in other types of establishments. Details of edible tallow consumed in factories are not available.

(iii) *Exports.* Particulars of exports of edible and inedible tallow of Australian produce are shown in the following table for the five years 1959–60 to 1963–64.

TALLOW: EXPORTS, AUSTRALIA
(cwt.)

Particulars	1959–60	1960–61	1961–62	1962–63	1963–64
Edible	118,848	50,436	130,015	120,944	135,425
Inedible	1,533,734	1,079,681	1,853,161	2,229,230	1,978,063
Total	1,652,582	1,130,117	1,983,176	2,350,174	2,113,488

2. **Oversea Trade in Hides and Skins.**—(i) *Values.* The value of cattle and horse hides, sheep and other skins, and skin pieces, sent overseas during 1963–64 amounted to £45,590,000, compared with a total of £36,710,000 in 1962–63 and £32,044,000 in 1961–62.

(ii) *Sheepskins with Wool.* Of the total exports of sheepskins with wool during 1963–64, amounting to 185,796,000 lb. valued at £36,848,000, 118,414,000 lb. valued at £23,430,000 (64 per cent. of total value) were shipped to France, 22,832,000 lb. valued at £5,003,000 (14 per cent.) to Italy, and 14,957,000 lb. valued at £2,635,000 (7 per cent.) to the United Kingdom. In the previous year France received about 61 per cent. (by value) of all sheepskins with wool exported Italy 16 per cent. and the United Kingdom 6 per cent. The exports of sheepskins with wool during each of the years 1959–60 to 1963–64 were as follows.

EXPORTS OF SHEEPSKINS WITH WOOL: AUSTRALIA

Particulars	1959–60	1960–61	1961–62	1962–63	1963–64
Number '000	25,560	25,883	26,237	26,795	27,913
Value £'000	23,238	21,429	24,222	27,742	36,848

(iii) *Sheepskins without Wool.* In 1963–64 skins to the value of £81,900 (29 per cent.) were shipped to the United States of America; £48,627 (17 per cent.) to the United Kingdom; £46,534 (17 per cent.) to France; £43,825 (16 per cent.) to Spain; and £15,654 (6 per cent.) to the Netherlands. In 1963–64 a total of 1,238,000 sheepskins without wool were exported, valued at £280,000. Since 1954–55 the number exported has exceeded two million once only (in 1958–59), and the value has averaged about £320,000.

(iv) *Hides.* The export trade in cattle hides and calfskins during 1963–64 was distributed amongst the main importing countries as follows:—Japan, £2,459,000; Italy, £688,000; Germany (Federal Republic), £394,000; South Africa, £283,000; the Netherlands, £279,000; and the United Kingdom, £264,000. The total quantity exported was 106,681,000 lb., valued at £5,301,000.

(v) *Furred Skins.* The exports of furred skins in 1963-64 were valued at £1,906,000, of which rabbit and hare skins constituted £934,000. The highest total value exported, £2,013,000, was recorded in 1955-56, when rabbit and hare skins accounted for £1,711,000. In 1962-63 they accounted for £819,000 out of a total of £1,349,000.

Skins were shipped principally to the United States of America, the United Kingdom, Italy, Belgium and Luxembourg, the values shipped to each in 1963-64 being:—United States of America, £1,478,300; United Kingdom, £201,700; Italy, £94,000; and Belgium-Luxembourg, £37,900.

Imports of cattle hides and calfskins are fairly substantial, the chief sources of supply being New Zealand and the Pacific Islands. The quantity of cattle hides, including calfskins, imported into Australia during the year 1963-64 amounted to 5,592,000 lb. valued at £360,000.

OTHER RURAL INDUSTRIES: DAIRYING, POULTRY AND BEE-FARMING

§ 1. The Dairying Industry

1. *Introduction.*—(i) *General.* The introduction of cattle into Australia and the early history of the dairying industry are treated in some detail in earlier issues of the Year Book.

Australian dairy cattle have shown steady improvement in quality, as demonstrated by yield, over the years. This is attributable to improved breeding, associated with herd recording, and better feeding, resulting from the use of improved pastures. Better farming methods, arising from the development of modern farm machinery and the application of the results of research, have also played a part in the increased yields.

The Australian dairying industry is conducted under conditions ranging from tropical to temperate and Mediterranean type climates, and nowhere is it necessary to house cattle in the winter months. Most Australian dairy cattle are fed only on pasture and pasture products, and this accounts for average yields being somewhat lower than in those countries where stock are fed heavily on concentrated feed.

In general, dairy farming is confined to the coastal and near coastal regions where rainfall and topography are favourable. These conditions are found in parts of the eastern, southern and south-western coasts. Inland districts include the lower north-east of Victoria, the south-western slopes of New South Wales, the fertile Darling Downs in Queensland, and the irrigated districts of the Riverina in New South Wales and northern Victoria.

The manufacturing and processing sections of the industry are highly organized and are well advanced technologically. Certain techniques and equipment, developed in Australia, are being adopted overseas.

(ii) *Official Supervision.* Dairy experts of the various State agricultural departments give instruction in approved methods of production, and inspect animals, buildings and marketable produce, with the result that a high standard of cleanliness and technology prevails in the industry.

The export trade is regulated by the terms of the Commonwealth *Customs Act* 1901-1954 and the Commonwealth *Commerce (Trade Descriptions) Act* 1905-1950, and regulations thereunder. This legislation requires that the true trade description, etc., be marked on all produce intended for export, while official inspection ensures the maintenance of purity and quality. Upon request of the exporter the goods are given a certificate by the inspector.

(iii) *Marketing of Dairy Products.* (a) *Dairy Produce Export Control Act* 1924-1963. Details of this Act, and of the Australian Dairy Produce Board constituted under it, were given in earlier issues of the Year Book (*see* No. 48, pp. 999-1000).

(b) *Dairy Produce Export Charges Act 1964.* This Act provides for the imposition of a levy on all butter, cheese and other specified dairy produce exported from Australia to cover the administrative expenses of the Australian Dairy Produce Board and for advertising and other purposes. The rate of the levy is fixed by the Act.

(iv) *Equalization Schemes. (a) Butter and Cheese.* Reference is made to these schemes in Year Book No. 48, pp. 998-9.

Para. 2 (ix) on page 1081 gives particulars of the returns realized on local and overseas sales and of the average equalization rate for the years ended June, 1960 to 1964. Details are also given in para. 2 (vii) of the wholesale prices of butter and cheese for home consumption as determined by the Commonwealth Dairy Produce Equalization Committee Ltd.

(b) *Casein.* An equalization scheme for casein similar to that for butter and cheese has been operated since 1952 by the Commonwealth Dairy Produce Equalization Committee Ltd. Average realizations per cwt. under the scheme were 175s. 7. 5d. in 1959-60, 174s. 10. 9d. in 1960-61, 163s. 3. 4d. in 1961-62, 159s. 0. 9d. in 1962-63 and 161s. 0. 1d. in 1963-64. The interim equalization value for 1964-65 has been fixed at 162s. per cwt.

(v) *Commonwealth Subsidies and Stabilization Plans. (a) Butter, Cheese and Processed Milk Products.* Under the provisions of the various Dairy Industry Assistance Acts, the first of which was passed in 1942, the Commonwealth Government has provided subsidies on milk supplied for the manufacture of butter and cheese. Subsidies were paid on a seasonal basis prior to 1st April, 1946, but from that date have been on a flat rate basis. Subsidies are distributed by the Commonwealth Dairy Produce Equalization Committee Ltd. through factories to milk producers by payments on butter and cheese manufactured. Subsidy on milk supplied for the manufacture of processed milk products was also payable from 1942 until 30th June, 1948, and again from 1st July, 1949, to 30th June, 1952. The Commonwealth Government provided, under the *Processed Milk Products Bounty Act 1962*, for the payment of a maximum amount of £350,000 as a bounty on exports of processed milk products in 1962-63. The bounty was continued for the years ended 30th June, 1964 and 1965, the maximum amounts provided being £500,000 and £400,000 respectively.

Details of the three five-year stabilization plans which operated up to 30th June, 1962, will be found in Year Book No. 49, page 1084.

Under the five-year stabilization plan which came into operation on 1st July, 1962, a fixed bounty of £13,500,000 has been provided for each year of the plan. The bounty is payable on butter, cheese and butterfat products containing 40 per cent. or more of butterfat. Bounty is payable on the production of these commodities provided they are taken into equalization.

The Commonwealth Government extended for the full period of the plan the provision whereby it underwrites the final minimum equalized return to butter and cheese factories each year. The actual level at which returns are to be underwritten is to be decided prior to the commencement of each year of the plan. Returns to producers have been underwritten at 40d. per lb. on commercial butter each year since the inception of the underwriting arrangement in 1958. The principal value underlying this guarantee is that it enables the Commonwealth Dairy Produce Equalization Committee Ltd. to make a higher initial payment to factories than would otherwise be possible without risk of overpayment.

Under the current plan the Dairy Industry Investigation Committee has been disbanded. This Committee was reposable, during the last five-year plan, for the determination of the cost of efficient production of butterfat. However, this determination is not required for the current plan.

The Australian Dairy Industry Council assumes responsibility for determining domestic wholesale prices of butter and cheese. Under the previous plan it was the responsibility of the Minister for Primary Industry to determine local prices, after consultation with the Council.

Amounts realized on exports of butter and cheese in excess of the f.o.b. equivalent of the guaranteed return have been credited to the Dairying Industry Stabilization Fund, which was established in July, 1948, for the purpose of stabilizing returns from exports. During 1951-52 the Stabilization Fund met the deficiency in respect of all exports which

SHEEP NUMBERS AND WOOL PRODUCTION: AUSTRALIA 1870 TO 1963-64

WOOL: EXPORTS FROM AUSTRALIA

1963-64

GREASY AND SLIPE WOOL

TOTAL: 1,382.8 MILLION LB.

SCOURED AND WASHED, CARBONIZED, TOPS, NOILS
AND WASTE

TOTAL: 127.4 MILLION LB.

did not return sufficient to meet the basic return to the factory. From 1st July, 1952, to 30th June, 1957, it was available to the industry to be used, in whatever manner it considered desirable, to make good any deficiency in respect of all exports other than the 20 per cent. provided for under the Commonwealth Government's Five-year Stabilization Plan. The Act was amended in 1957 to enable the Board to use the fund for such other purposes as are approved by the Minister for Primary Industry. The amount standing to the credit of the Dairying Industry Stabilization Fund at 30th June, 1964, totalled approximately £1,932,000.

(b) *Whole Milk.* In addition to the subsidies referred to above, the Commonwealth Government subsidized the production of whole milk consumed directly from 1943-44 to 1948-49. Details of the amounts distributed during each year will be found in Year Book No. 38, page 1031.

(vi) *Extension, Research and Promotion.* (a) *Dairy Industry Extension Grant.* An annual grant of £250,000, to be expended by State Governments for the purpose of promoting improved farming practices in the dairying industry, was first made by the Commonwealth Government for the five years from 1st July, 1948. This assistance was continued for further periods of five years from 1st July, 1953, and from 1st July, 1958, at the same rate. For the five years from 1st July, 1963, the amount of the annual grant has been increased to £350,000.

(b) *Dairy Industry Research and Sales Promotion.* At the request of the Australian Dairy Industry Council, legislation was enacted in 1958 to provide for a sales promotion campaign for butter and cheese in Australia and also for research into industry problems. The legislation provides for a statutory levy (the Dairy Produce Levy) which was initially set at rates of $\frac{1}{8}$ d. per lb. for butter and $\frac{1}{16}$ d. per lb. for cheese, the proceeds being divided equally between research and sales promotion. The rates of levy operative from November, 1959, are $\frac{3}{16}$ d. per lb. for butter and $\frac{3}{32}$ d. per lb. for cheese, of which two-thirds is allocated to sales promotion and one-third to research.

In August, 1964, the legislation was amended to include butter powder, at the same rates as for butter, and butter oil and ghee at $\frac{5}{16}$ d. per lb. for research and $\frac{5}{32}$ d. per lb. for sales promotion.

The Commonwealth Government agreed to contribute one half of the costs incurred on approved projects included in the programme of research, with a maximum contribution of £1 for £1 against funds raised by way of levy and allocated to research. The sales promotion programme is financed solely by the levy. The following table lists the amounts of levies collected for research and sales promotion, during the five years 1959-60 to 1963-64.

DAIRY PRODUCE LEVY: AMOUNTS COLLECTED

(£)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Research(a)	126,519	116,591	130,000	131,750	132,100
Sales promotion	206,918	233,181	260,000	263,500	264,200
Total Collected(a) ..	333,437	349,772	390,000	395,250	396,300

(a) Excludes amounts contributed by the Commonwealth Government.

The scheme is administered by the Australian Dairy Produce Board, which, in respect of research, is advised by a statutory committee, the Dairy Produce Research Committee.

2. Dairy Cattle and Dairy Products.—(i) *Dairy Herds*. For the reasons indicated earlier in this Chapter (*see* § 3, paragraph 3, page 1049), farmers are no longer asked to classify their herds according to breed. At the 1964 Census they were asked instead to classify their cattle according to the two main purposes of (i) milk production and (ii) meat production and to report separately the number of cows and heifers kept for their own domestic milk supply. Consequently the statistics shown in the following table are not comparable with those for earlier years.

For particulars of cattle classified as "dairy cattle" prior to 1964 *see* page 1078 of Year Book No. 50.

DAIRY BREED BULLS, AND COWS AND HEIFERS USED OR INTENDED FOR PRODUCTION OF MILK OR CREAM, 31st MARCH, 1964

State or Territory	Bulls, dairy breed (a)	Cows and heifers used or intended for production of milk or cream for sale				House cows and heifers (b)	
		Cows		Heifers			
		In milk	Dry	1 year and over			Under one year

Australian Capital Territory ..	35	1,204	309	163		250	488
Australia ..	99,270	3,078,075		821,286		717,895	e 218,098

(a) Used or intended for service; excludes bull calves (under 1 year). (b) Kept primarily for rural holdings' own milk supply. (c) Within 3 months of calving. (d) Not available separately. (e) Incomplete; excludes Northern Territory.

For particulars relating to dairy cattle numbers up to 1963 *see* page 1078 of Year Book No. 50.

A map showing the distribution of dairy cattle in Australia at 31st March, 1963, appears facing p. 1082 of Year Book No. 50.

(ii) *Milking Machines.* The following table shows particulars of the number of milking stands (units) on rural holdings in each State and Territory for the years 1960 to 1964.

MILKING MACHINES ON RURAL HOLDINGS: NUMBER OF STANDS(a)

31st March—	N.S.W.	Vic.	Qld.	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust. (b)
1960	43,980	89,657	47,996	17,920	10,564	11,051	} n.a. {	92	221,260
1961	43,640	92,315	47,403	18,235	10,419	11,704		99	223,815
1962	43,369	95,661	47,486	18,831	10,562	12,220		99	228,228
1963	43,089	97,372	46,674	18,836	10,514	12,701		84	229,270
1964	42,970	98,151	45,072	19,057	10,157	13,382		83	228,872

(a) The number of stands indicates the number of cows that can be milked simultaneously, i.e. the cow capacity of installed milking machines. (b) Excludes Northern Territory.

(iii) *Size of Dairy Herds.* Information on the size of dairy herds is published in a series of bulletins *Classification of Rural Holdings by Size and Type of Activity, 1959-60.*

(iv) *Production of Milk.* (a) *Production per Cow.* The quantity of milk produced by a dairy cow can be as high as 1,000 gallons a year, and varies greatly with breed, locality and season. For all dairy cows and for all seasons for the whole of Australia prior to 1916 production averaged considerably less than 300 gallons per annum. Largely owing to an improvement in the quality of the cattle, and the increased application of scientific methods, the 300-gallon average was exceeded in each year since 1924. In the last five years an average of 442 gallons per cow per annum has been obtained. In 1963-64 the average yield was 455 gallons. The annual average yields per cow shown in the following table are obtained by dividing the total production of whole milk for the year ended June by the mean of the number of dairy cows (in milk and dry) at 31st March of that year and of the preceding year. They are, in effect, based on the approximate number of dairy cows which were in milk during any part of the year. The average shown is, therefore, less than that for cows which were yielding during the greater part of the year, but it may be accepted as sufficiently reliable to show the general trend.

(b) *Total Production of Whole Milk.* In the following table particulars of the production of whole milk in the various States are shown for the years 1959-60 to 1963-64 compared with the averages for the three years ended 1938-39, 1948-49 and 1958-59. Victoria is the principal milk-producing State, and in 1963-64 the output from that State, 689.9 million gallons, represented 46 per cent. of total production. Output from New South Wales in 1963-64 was 322.5 million gallons (22 per cent. of the total) and that of Queensland 239.8 million gallons (16 per cent.). Production in the remaining States accounted for 16 per cent.

On dairy and other farms	22	..	(g)	2	(h)	(i) 24
Total(d) ..	5,147	25,118	9,492	15,170	1,494	1,337	57,758

(a) Includes 8,275,000 gallons of milk, the produce of New South Wales, sent as cream to factories in Victoria and Queensland. (b) Includes 3,870,000 gallons of milk, the produce of Victoria, sent as cream to New South Wales. (c) Includes 421,000 gallons of milk, the produce of Queensland, sent as cream to New South Wales. (d) Subject to revision. (e) Includes butter made from cream, the produce of Victoria and Queensland. (f) Includes butter made from cream, the produce of New South Wales. (g) Not available for publication. (h) Less than half the unit shown. (i) Incomplete; excludes South Australia. (j) Separate particulars are not available for publication.

In 1963-64 63 per cent. of the total milk supply was used for butter, 9 per cent. for cheese, 6 per cent. for preserved milk products and 22 per cent. for other purposes.

Details of the production of whole milk for various purposes are shown in the following table for each of the years 1959-60 to 1963-64 compared with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

PRODUCTION AND UTILIZATION OF WHOLE MILK: AUSTRALIA

('000 gallons)

1962-63.. ..	1,467,757	932,041	130,503	83,167	322,046
1963-64.. ..	1,491,286	932,773	130,566	94,795	333,152

(a) Principally fluid milk for domestic purposes.

(vi) *Production of Butter, Cheese and Preserved Milk Products.* (a) *General.* The establishment of large central butter factories, either on a co-operative or independent basis, has resulted in a considerable reduction in the cost of manufacture. The product is also of a more uniform quality, and whereas formerly the average quantity of milk used per pound of hand-made butter was about three gallons, factory butter requires only about two gallons. In addition, subsidy payments by the Commonwealth Government are made only on factory-produced butter. As a result the production of farm-made butter has declined substantially, and in 1963-64 represented only about 0.5 per cent. of all butter made. A similar position exists in the cheese-making industry where a negligible amount is now made on farms.

In 1963-64 factories in Australia engaged in the processing of milk into butter or cheese or the various preserved milk products numbered 347 and were distributed among the States as follows:—New South Wales, 72; Victoria, 123; Queensland, 69; South Australia, 42; Western Australia, 17; and Tasmania, 24. More details regarding numbers of factories, output, etc., are given in Chapter VI. Manufacturing Industry (see p. 197).

(b) *Production of Butter.* Production in 1963-64 at 203,598 tons was 1,216 tons (0.6 per cent.) more than the amount produced in 1962-63, but 5,313 tons (2.5 per cent.) less than the record post-war production of 1955-56. The foregoing figures include butter produced on farms, which has shown a steady decline from about 4,000 tons in the early 1950's to 1,039 tons in 1963-64.

The following table shows production of butter in factories and on farms in each State for the years 1959-60 to 1963-64 compared with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

BUTTER PRODUCTION IN FACTORIES AND ON FARMS

(a) Northern Territory and Australian Capital Territory: nil. (b) Subject to revision.

(d) *Production of Preserved Milk Products.* The production in 1963-64 of all full-cream milk products and milk by-products, with the exception of powdered skim milk, increased in comparison with 1962-63.

Preserved milk products are manufactured mainly in Victoria, which produced 68.2 per cent. of the total (in terms of whole milk equivalent) in 1963-64. New South Wales accounted for 15.5 per cent. and the remaining States for 16.3 per cent.

WHOLESALE PRICES OF BUTTER AND CHEESE: AUSTRALIA—*continued*
(s. d. per cwt.)

Date from which prices became effective	New South Wales	Victoria	Queensland	South Australia	Western Australia	Tasmania

19th June, 1964 ..	305 8	305 8	305 8	305 8	305 8	305 8

(viii) *Local Consumption of Butter and Cheese.* Following the cessation of butter rationing after the 1939-45 War, consumption per head rose to 31.2 lb. in 1951-52. However, in later years it gradually declined, and in 1963-64 it reached its lowest level since the war. At 23.4 lb. per head it was 2 per cent. below the level of 1962-63.

Consumption of cheese per head has been rising in recent years, reaching 7.2 lb. in 1963-64.

The following table shows details of the production and disposal of butter and cheese for each of the years 1959-60 to 1963-64 compared with the averages for the three years ended 1938-39, 1948-49 and 1958-59.

(Pence per lb.)

Year	Average overall returns on commercial butter		
	Rate of overall return to manufacturer	Estimated manufacturing cost	Return to dairy farmer
1959-60	51.531	4.965	46.566
1960-61	50.210	5.339	44.871
1961-62	49.392	5.339	44.053
1962-63	50.680	5.339	45.341
1963-64	(a) 50.665	5.339	45.326

(a) Interim rates.

(x) *Oversea Trade in Dairy Products. (a) General.* The production of butter and cheese in Australia is considerably in excess of local requirements, and consequently a substantial surplus is available for export overseas. In normal circumstances the extent of this surplus is chiefly dependent upon seasonal conditions.

Exports of butter in 1963-64 amounted to 87,751 tons, compared with 77,410 tons in 1962-63. Exports of cheese in these years were 27,827 tons and 25,938 tons respectively. As in previous years, the principal importing country for Australian butter and cheese was the United Kingdom. In 1963-64 85 per cent. of butter and 47 per cent. of cheese exported was consigned to the United Kingdom.

Total quantities and values of exports of butter, cheese and preserved milk products of Australian origin are shown in the table at the foot of this page.

(b) *Butter and Cheese Exports graded according to Quality.* All butter and cheese exported comes under the provisions of the Exports (Dairy Produce) Regulations and is subject to supervision, inspection and examination by officers appointed for that purpose. These commodities are graded according to quality which has been fixed by regulation as follows:—flavour and aroma, 50 points; texture, 30 points; and condition, 20 points. Butter and cheese graded at 93 to 100 points is of choicest quality; at 90 to 92 points, first quality; at 86 to 89 points, second quality; and at 80 to 85 points, pastry or cooking quality or, in the case of cheese, third quality.

In the following table particulars are given of the relative proportions of butter and cheese graded for export according to quality. Further details, which include actual quantities by States, are to be found in *Rural Industries, 1962-63, Bulletin No. 1.*

BULK BUTTER AND CHEESE GRADED FOR EXPORT: AUSTRALIA
(Per cent.)

Grade	Butter			Cheese		
	1961-62	1962-63	1963-64	1961-62	1962-63	1963-64
Choicest	65.4	70.7	67.5	8.4	5.9	5.3
First quality	26.0	21.4	25.0	82.6	82.1	88.1
Second and third quality(a)	8.6	7.9	7.5	9.0	12.0	6.6
Total	100.0	100.0	100.0	100.0	100.0	100.0

(a) Includes rejected.

(c) *Exports of Dairy Products.* Exports of butter, cheese and other milk products of Australian origin are shown in the following table.

EXPORTS OF DAIRY PRODUCTS: AUSTRALIA

Particulars	Quantity ('000 lb.)			Value (£A.'000 f.o.b.)

3. Pigs and Pig Products.—(i) *Pig Numbers.* At 31st March, 1964, 1,468,000 pigs were recorded, representing an increase of 28,000 (1.9 per cent.) on numbers a year earlier. The number of pigs in each State and Territory at 31st March for each of the years 1960 to 1964 compared with the averages for the three-year periods ended 31st March, 1939, 1949 and 1959, are given in the following table.

NUMBER OF PIGS

At 31st March—	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
Average for three years ended—

1964 ..	391,300	322,051	388,144	153,415	128,140	82,534	1,806	121	1,467,511

A long-term comparison of pig numbers is given in the division Pastoral Production of this chapter (see p. 1044). A map showing the distribution of pigs in Australia at 31st March, 1963, faces page 1093 of Year Book No. 50 and graph showing the number of pigs in Australia from 1870 onwards appears on page 1038 of this Year Book.

(ii) *Size of Pig Herds.* Details of the size of pig herds have been published in a series of bulletins entitled *Classification of Rural Holdings by Size and Type of Activity, 1959-60.*

(iii) *Pigs Slaughtered.* The number of pigs slaughtered during each of the years 1959-60 to 1963-64, compared with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59, is shown in the following table.

PIGS SLAUGHTERED
(‘000)

Period	Slaughterings passed for human consumption									Total slaughterings (including boiled down)
	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.	
Average for three years ended—

1963-64 ..	28,717	25,306	29,919	11,163	9,852	5,927	73	308	111,265

(a) Excludes trimmings from baconer carcasses.

(b) *Bacon and Ham.* Production of bacon and ham amounted to 41,539 tons in 1963-64. This amount is 0.3 per cent. below the amount of 41,661 tons produced in 1962-63. The record output of 56,246 tons was attained in 1944-45.

Details of production are shown by States in the following table for each year from 1959-60 to 1963-64, compared with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

PRODUCTION OF BACON AND HAM (CURED CARCASS WEIGHT) (a)
(Tons)

Period	N.S.W.	Victoria	Q'land	S. Aust.	W. Aust.	Tas.	Australia
Average for three years ended—							
1938-39 ..	10,396	7,556	8,759	2,940	1,838	1,022	32,511
1948-49 ..	14,436	10,787	9,846	4,580	4,209	1,196	45,054
1958-59 ..	11,132	8,302	10,294	3,275	2,987	1,078	37,068
Year—							
1959-60 ..	11,012	8,634	9,948	3,115	3,061	1,144	36,914
1960-61 ..	11,328	9,211	9,442	3,141	3,169	1,120	37,411
1961-62 ..	11,145	9,102	12,221	2,757	3,512	1,131	39,868
1962-63 ..	12,827	9,004	11,449	3,355	3,844	1,182	41,661
1963-64 ..	13,504	8,629	10,843	3,605	3,792	1,166	41,539

(a) Pressed and canned bacon and ham have been converted to cured carcass weight for periods subsequent to 1948-49.

(v) *Consumption.* (a) *Pork.* Apparent consumption of pork per head in 1963-64 was 11.4 lb., compared with 12.0 lb. per head in 1962-63 and 13.6 lb. per head in 1961-62. The 1961-62 level was the highest since the war. In recent years annual consumption of pork per head has not fallen below 10 lb.

In the following table details of the production and disposal of pigmeat are shown for the years 1959-60 to 1963-64 compared with the averages for the three-year periods ended 1938-39, 1948-49 and 1958-59.

PRODUCTION AND DISPOSAL OF PIGMEAT (CARCASS WEIGHT): AUSTRALIA

Period	Change in stocks (a)	Production	Exports	Curing and canning	Apparent consumption (as pork or smallgoods) in Australia	
					Total	Per head per year
	'000 tons	'000 tons	'000 tons	'000 tons	'000 tons	lb.
Average for three years ended—						
1938-39	88.5	13.7	48.6	26.2	8.5
1948-49 . . .	-1.2	92.8	6.3	63.4	24.3	7.1
1958-59	97.4	0.8	53.0	43.6	10.1
Year—						
1959-60	+0.8	100.6	0.4	52.6	46.8	10.3
1960-61	+0.8	107.5	0.4	53.3	53.0	11.4
1961-62	-0.7	120.5	0.9	55.9	64.4	13.6

Pigs, live number	139	113	547	5	5	40

§ 2. The Poultry Industry

1. **General.**—Originally the poultry industry was conducted in conjunction with other branches of rural activity, mainly dairying, but it is now a specialized and distinct industry. It is from this source that the bulk of the commercial production is obtained. Practically all farm households keep poultry for the purpose of supplying their own domestic requirements and some supplies from this source are also marketed. In addition, many private homes in both rural and suburban areas keep small numbers of fowls in back-yard runs to help satisfy domestic needs. Because of the incompleteness of data available on poultry throughout Australia, details of poultry numbers are not published.

2. **Marketing of Eggs.**—(i) *Markets.* Details of the annual contracts entered into between the United Kingdom and Australian Governments up to 1952-53 and of the results of trading under free market conditions in the four years following appear in previous issues of the Year Book.

Over the period 1953-54 to 1963-64 Australian exports of shell eggs fell by 72 per cent. In 1963-64 they amounted to 3,599,000 dozen compared with 3,943,000 dozen in 1962-63. The main outlets for Australian eggs in 1963-64 were Kuwait (1,596,000 dozen), Saudi Arabia (810,000 dozen), and Qatar (217,000 dozen).

The United Kingdom provides the major export market for egg pulp. Australian exports of pulp to that country were approximately 7,755 tons in 1962-63 and 3,554 tons in 1963-64. In 1963-64 the United Kingdom absorbed the bulk of the exports of dried eggs (421,000 lb.) also.

(ii) *Egg Export Control Act 1947.* Details of this Act were given in previous issues of the Year Book (see No. 47, p. 997).

3. **Recorded Production of Eggs and Egg Products.**—(i) *Shell Eggs.* Available statistics of the production and disposal of eggs in Australia are restricted to those recorded by the Australian Egg Board and the Egg Marketing Board of New South Wales. Details of production as recorded by these authorities are shown in the following table.

SHELL EGGS: PRODUCTION^(a) RECORDED BY EGG BOARDS
(^{'000} dozen)

State	1959-60	1960-61	1961-62	1962-63	1963-64
New South Wales	53,498	62,157	61,657	54,609	56,713
Victoria	26,521	28,215	29,939	26,793	24,992
Queensland	10,007	10,810	10,176	11,290	12,459
South Australia	10,041	10,492	11,388	9,816	8,731
Western Australia	7,476	7,333	7,558	7,796	8,331
Tasmania	n.a.	n.a.	n.a.	n.a.	n.a.
Total^(b)	107,543	119,007	120,718	110,304	111,226

(a) Receipts from consignors and sales by producer agents.

(b) Excludes Tasmania.

(ii) *Egg Pulp, etc. Production.* Particulars of the production of whole egg pulp as recorded by the Egg Marketing Board for the State of New South Wales and by the Australian Egg Board for the other States are shown in the following table.

LIQUID WHOLE EGG PULP: PRODUCTION RECORDED BY EGG BOARDS

('000 lb.)

State	1959-60	1960-61	1961-62	1962-63	1963-64
New South Wales	17,810	21,496	20,916	11,500	9,272
Victoria	6,460	7,948	12,000	7,684	3,183
Queensland	2,767	3,716	3,321	3,864	3,922
South Australia	3,210	3,394	3,374	2,836	3,001
Western Australia	1,122	916	620	533	835
Tasmania	n.a.	n.a.	n.a.	n.a.	n.a.
Total(a)	31,369	37,470	40,231	26,417	20,213

(a) Excludes Tasmania.

In addition to liquid whole egg, production was also recorded of liquid egg whites and liquid egg yolks. Output in 1963-64 amounted to 2,711,000 lb. and 1,964,000 lb., respectively, compared with 2,030,000 lb. and 1,412,000 lb., respectively, in the previous year. These figures exclude small quantities produced in Tasmania for which details are not available.

4. *Consumption of Eggs and Egg Products.*—Because of the operations of producers in areas outside the control of the Egg Boards and the extent of "back-yard" poultry-keeping, for which no statistics are collected, figures relating to total egg production must be accepted with some reserve. The production shown in the following table, together with details of exports and consumption, is based upon the records of Egg Boards of production from areas under their control, plus estimates of production from uncontrolled areas and from "back-yard" poultry-keepers.

ESTIMATED PRODUCTION AND DISPOSAL OF EGGS IN SHELL:
AUSTRALIA

Period	Change in stocks	Estimated total production	Exports (a)	For drying and pulping(b)	Apparent consumption in Australia	
					Total	Per head per year
Average for three years ended—	mill. doz.	mill. doz.	mill. doz.	mill. doz.	mill. doz.	dozen
1938-39	-0.1	152.7	13.0	5.5	134.3	19.5
1948-49	+0.1	204.7	17.7	39.1	147.8	19.3
1958-59	189.9	9.6	23.0	157.3	16.1
Year—						
1959-60	+0.6	198.6	3.4	27.2	167.4	16.5
1960-61	-0.3	212.1	6.2	36.9	169.3	16.3
1961-62	-0.1	215.8	5.8	35.5	174.6	16.4
1962-63	-0.4	207.2	4.6	23.9	179.1	16.6
1963-64	+1.3	210.1	4.3	21.0	183.5	16.7

(a) Includes ships' stores.

(b) Includes wastage.

Details of the annual consumption of shell eggs, liquid whole egg and total shell egg equivalent per head of population are shown in the following table.

**SUPPLIES OF EGGS AND EGG PRODUCTS AVAILABLE FOR CONSUMPTION:
AUSTRALIA**

(Per head per year)

Period	Eggs in shell	Liquid whole egg and egg powder (a)	Total	
			Number	Weight(b)
	number	number		lb.
Average for three years ended—				
1938-39	235	8	243	26.6
1948-49	232	23	255	27.9
1958-59	194	12	206	22.5
Year—				
1959-60	198	14	212	23.2

1962-63	199	11	210	(c) 26.2
1963-64	200	13	213	(c) 26.6

(a) In terms of the number of eggs in shell. (b) The average weight of an egg in Australia has been taken as 1.75 oz. for the years prior to 1960-61. From 1960-61, the average weight has been taken as 2 oz. (c) Not comparable with earlier years; see footnote (b).

5. **Oversea Trade in Poultry Products.**—Details of the exports of poultry products in each of the years 1961-62 to 1963-64 are shown below.

EXPORTS OF POULTRY PRODUCTS: AUSTRALIA

Particulars	Quantity			Value (£A.'000 f.o.b.)			
	1961-62	1962-63	1963-64	1961-62	1962-63	1963-64	
Eggs in shell	'000 doz.	5,007	3,943	3,599	831	603	577
Eggs not in shell—							
In liquid form	'000 lb.	29,231	18,920	9,493	3,273	1,901	1,114
Dry	'000 lb.	190	3	421	87	2	84
Frozen poultry	'000 lb.	427	318	501	93	71	113
Poultry, live(a)	number	555,908	550,362	1,027,871	75	73	129

(a) Includes day-old chicks.

For a number of years prior to 1961-62 there were considerable imports of canned chicken from the United States of America. In 1960-61 the quantity imported was 2,016,000 lb. valued at £227,000, but the trade had declined to 184,000 lb., valued at £18,000, in 1963-64.

§ 3. The Bee-Farming Industry

1. **Production of Honey and Bees-wax.**—Although practised as a separate industry, bee-farming is also carried on in conjunction with other branches of farming. In recent years there has been considerable growth in the number of itinerant apiarists operating on a large scale with mobile equipment. Some of these apiarists move as far afield as from Victoria to Queensland in an endeavour to provide a continuous supply of nectar from flora suitable for their bees. The returns of honey from productive hives during 1963-64 show an average of 134 lb. per hive, and the average quantity of wax was 1.7 lb. per productive hive.

The number of hives and the production of honey and bees-wax during the year 1963-64 are shown in the following table.

BEEHIVES, HONEY AND BEES-WAX, 1963-64

State or Territory	Beehives (a)			Honey produced		Bees-wax produced	
	Pro-ductive	Unpro-ductive	Total	Quantity	Gross value	Quantity	Gross value
	'000	'000	'000	'000 lb.	£'000	'000 lb.	£'000
New South Wales ..	132	56	188	15,135	1,023	194	46

Aust. Cap. Territory ..	1	(b)	1	135	6	2	(b)
Australia ..	339	111	450	45,647	2,889	581	125

(a) At 30th June, 1964. (b) Less than 500.

The production of honey and bees-wax fluctuates considerably and is determined mainly by the flow of nectar from flora, particularly the eucalypts, which varies greatly from year to year.

The table below shows the production of honey and bees-wax for each of the years 1959-60 to 1963-64, compared with the averages for the three-year periods ended 1938-39, 1948-49, and 1958-59.

HONEY AND BEES-WAX PRODUCTION

1963-64 ..	194	110	32	134	103	6	2	581

(a) Less than 500 lb.

2. Oversea Trade in Bee Products.—The quantity of honey exported in 1963-64, 18.9 million lb., was 30 per cent. less than in 1962-63. The principal importers were the United Kingdom (67 per cent. of total exports), the Federal Republic of Germany (20 per cent.), and Japan (5 per cent.).

The quantity of bees-wax exported in 1963-64 was 161,300 lb., mainly to the United Kingdom.

Total quantities and values of exports of honey and bees-wax for the years 1961-62 to 1963-64 are shown below.

EXPORTS OF HONEY AND BEES-WAX: AUSTRALIA

Particulars	Quantity			Value (£A.'000 f.o.b.)		
	1961-62	1962-63	1963-64	1961-62	1962-63	1963-64

(a) Indexes of value at constant prices, i.e. quantities revalued at average unit values of base years 1936-37 to 1938-39.

CHAPTER XXIV

FORESTRY

NOTE.—For further details on subjects dealt with in this chapter see the annual bulletins *Non-Rural Primary Industries and Value of Production*, and *Secondary Industries* (for saw-mills, etc., operations).

§ 1. Source of Statistics

Statistics relating to forestry are, in general, provided by the various authorities concerned with forestry administration. Particulars of forest reservations contained in this chapter have been collected by the Statisticians of the various States, mainly from information provided by the State forestry authorities. Other information on forested areas has been provided by the Commonwealth Forestry and Timber Bureau, which has also supplied certain other data.

Statistics of timber and by-products have been compiled from the annual factory collections undertaken by the Statisticians in the several States. Figures of production of gums, resins and tanning barks have been provided by the State forestry authorities.

Data of imports and exports of forest products and timber and timber products have been compiled in the Commonwealth Bureau of Census and Statistics as part of the statistics of oversea trade.

The figures shown relate, in general, to years ended 30th June.

§ 2. Forestry in Australia

1. **Objects of Forestry.**—The main object of forestry authorities is to manage the forests of the country in a manner that will provide the maximum benefits, both direct and indirect. Direct benefits include the provision of essential commercial commodities such as structural timber, pulpwood, plywood, veneers, firewood, bark products, tars, oil and resins. Indirect benefits include protection of soil and stock from wind and exposure, regulation of stream flow, provision of recreational facilities, and aesthetic effects. Forestry also aims at improving existing forests and woodlands by properly controlled exploitation, by protection from such destructive agencies as fire and insect attack, and by inducing regeneration where it is desirable. The provision of a partial tree cover on denuded lands where this cover is necessary for protective purposes, and a complete cover when the land is better under forest than under any other land use, are further aims of forestry.

2. **General Account of Forests and Timbers.**—The area of land in Australia suitable for the production of commercial timber as a primary crop is very small in comparison with the size of the continent. Broadleaved forests (hardwoods) cover 97 per cent. of the total forested area, and approximately 94 per cent. of the broadleaved forests area is occupied by eucalypts.

(i) *Eucalypts.* The genus *Eucalyptus* is remarkable in that it includes over 600 species ranging in size from the mighty forest giants, mountain ash (*E. regnans*) of Victoria and karri (*E. diversicolor*) of Western Australia, down to the small mallee species which inhabit vast areas of the inland. The habitats range from the dry inland areas to the high mountain areas in the Australian Alps, from areas with the annual rainfall as low as 10 inches to those where it is 150 inches. Of the 600 species, only about 100 are used for sawmilling, and not more than 40 of these are exploited extensively.

The better class of eucalypt forest is concentrated mainly in the higher rainfall areas such as the east coast, the highlands of southern New South Wales, Victoria and Tasmania and the south-western corner of Western Australia. The more important species include blackbutt (*E. pilularis*), tallowwood (*E. microcorys*), flooded gum (*E. grandis*) and red mahogany (*E. resinifera*) of New South Wales and Queensland, alpine ash (*E. delegatensis*) of New South Wales, Victoria and Tasmania, mountain ash (*E. regnans*), messmate (*E. obliqua*) and blue gum (*E. bicostata*) of Victoria and Tasmania, and karri (*E. diversicolor*) of Western Australia. For height and grandeur, mountain ash and karri are unequalled among the broadleaved trees of the world, and are excelled only by a few North American coniferous (softwood) species.

In the coastal regions with lower rainfall the eucalypt forests contain many durable species such as the ironbarks, grey gums and bloodwoods of the east coast and jarrah (*E. marginata*) and tuart (*E. gomphocephala*) of Western Australia. The spotted gum (*E. maculata*) occurring in New South Wales and Queensland is another example.

Along most of the inland streams and adjacent flood-plains there are riverain forests consisting mainly of river red gum (*E. camaldulensis*), a very durable broadleaved tree which has supplied large quantities of sawn timber, railway sleepers and fence posts.

Eucalypts also occur in open forest and savannah woodland formations in areas receiving a reliable rainfall of about 10 to 20 inches per annum, as on the goldfields of Western Australia where salmon gum (*E. salmonophloia*), brown mallet (*E. astringens*) and wandoo (*E. wandoo*) occur. These forests are of considerable value for firewood, as mining timbers, and for fencing. Minor forest products such as sandalwood, tan bark, essential oils, etc., also come from isolated areas in this type of country, and in the more arid areas.

In 1963-64 the volume of eucalypt timber sawn was 974.7 million super. feet.

(ii) *Other Broadleaved Timbers (Hardwoods)*. Broadleaved genera other than *Eucalyptus* cover a comparatively small portion of the forested land in Australia (some 6 per cent.), but these areas provide a great variety of timbers suitable for a multitude of uses. There are two basic types of forest containing supplies of broadleaved timbers other than eucalypts, namely, the tropical and sub-tropical rainforests of coastal New South Wales and Queensland, and the temperate rainforests of southern Victoria and Tasmania, both of which yield species known collectively as rainforest or brushwood species. The total volume of brushwood species produced in 1963-64 was estimated at 70 million super. feet, i.e. less than 7 per cent. of the total broadleaved timber cut in Australia.

The tropical and subtropical rainforest along the eastern coast of Australia contains a large number of different species. Tropical rainforest occurs in northern Queensland in the vicinity of Cairns and on the Atherton Tableland, providing such well-known cabinet woods as Queensland maple (*Flindersia brayleana*), Queensland walnut (*Endiandra palmerstonii*) and the silky oaks. The subtropical rainforest found in southern Queensland and northern New South Wales yields the tulip oak, crab apple (*Shizomeria ovata*) and white beech (*Gmelina leichhardtii*). Coachwood (*Ceratopetalum apetalum*) and sassafras (*Doryphora sassafras*) occur in regions to the south near Dorriggo and have yielded valuable timber produce for many years.

Turpentine (*Syncarpia glomulifera*), an excellent harbour pile timber resistant to marine borer attack, and brush box (*Tristania conferta*), a superior structural and decking timber, are found in association with some eucalypts in the wetter rainfall areas on the north coast of New South Wales and in southern Queensland.

Temperate rainforest which is to be seen in southern parts of Victoria and western Tasmania consists mainly of myrtle beech (*Nothofagus cunninghamii*), but produces also southern sassafras (*Atherosperma moschata*) and blackwood (*Acacia melanoxylon*).

(iii) *Conifers (Softwoods)*. One of the most important species of native conifers is white cypress pine (*Callitris hugelii*). The main cypress pine forests of commercial value occur in New South Wales and southern Queensland west of the Great Dividing Range. The trees are comparatively smaller, but the timber has particular value owing to its durability and resistance to termites. It is suitable for use as scantlings, flooring, linings, weatherboards, poles and posts. As much of the area originally covered by cypress pine has been cleared for wheat farming and grazing, the production from the remaining State forests is now strictly regulated to ensure a continuous supply. The volume of cypress pine cut in 1963-64 was approximately 68.5 million super. feet.

Another important native conifer is hoop pine (*Araucaria cunninghamii*), which occurs naturally in the sub-tropical rain forest of southern Queensland and northern New South Wales associated with tulip oak, crab apple, white beech, coachwood and sassafras. The greater part of the original hoop pine forests has been exploited, but considerable areas have been replanted to this species in Queensland and, to a lesser extent, in New South Wales.

Other native conifers which have played a useful but minor part in the Australian timber industry include bunya and kauri pines (*Araucaria bidwillii* and *Agathis palmerstonii*) of Queensland, and celery top, Huon and King William pines (*Phyllocladus asplenifolius*, *Dacrydium franklinii* and *Athrotaxis selaginoides*) of Tasmania. Kauri pine is found in the tropical rainforest of northern Queensland in association with non-eucalypt broadleaved trees while bunya pine occurs in the subtropical rainforests. In the temperate rainforests of Tasmania, celery-top, Huon and King William pines are found in association with myrtle beech, southern sassafras and blackwood.

3. Forested Areas.—(i) *Extent of Forests.* Estimates prepared for the Eighth British Commonwealth Forestry Conference held in Kenya in 1962 show the total area of forest in Australia as 512.2 million acres, or about 27 per cent. of the total land area of the continent. In making these estimates, the F.A.O. definition of "forest" (published in *World Forest Inventory*, 1958, p. 123) was used. This definition includes areas of sparse or stunted tree growth, and in the case of Australia some four-fifths of the total forest area falls into this category.

CLASSIFICATION OF FOREST AREA(a): AUSTRALIA

(Source: Forestry and Timber Bureau)

('000 acres)

Type of forest	Area

Inaccessible forests	191,795
Total, Forested Area	512,168

(a) Based on the 1960 classification of forests. (b) Includes approximately 25 million acres capable of producing fuelwood only. (c) This area carries only sparse, stunted trees. (d) Includes approximately 258 million acres of land carrying only stunted trees classified as unproductive accessible forests.

CLASSIFICATION OF FOREST AREA(a): AUSTRALIA—continued

(Source: Forestry and Timber Bureau)

('000 acres)

Type of forest							Area				
OWNERSHIP OF ACCESSIBLE FORESTS											
Publicly-owned forests—											
State forests	23,534				
Other forests	150,329				
<i>Total, Publicly-owned Forests</i>							173,863
Privately-owned forests	145,537				
Ownership not yet determined	973				
Total, Accessible Forests							320,373

(ii) *Forest Reservations.* Statements furnished by State and Commonwealth authorities show reservations of forest areas in Australia at 31st March, 1964, totalling 36.8 million acres, of which 24.2 million acres were dedicated State forests and 12.6 million acres were timber and other reserves. The distribution of those areas is shown by States in the following table. Detailed comparisons between States are not possible because of the lack of uniform definitions.

AREA OF FOREST RESERVATIONS, 31ST MARCH, 1964(a)

(Source: Forestry and Timber Bureau)

('000 acres)

State or Territory	State forests	Timber reserves	Other reserves of forestry value	Total
New South Wales	6,724	1,371	..	8,095
Victoria	4,870	861	368	6,099
Queensland	5,528	2,527	1,041	9,096
South Australia	286	..	n.a.	286
Western Australia	4,459	1,845	(b) 777	7,081
Tasmania	2,287	138	1,217	3,642
Northern Territory	..	9	(c) 2,394	2,403
Australian Capital Territory	(d) 131	131
Australia	24,154	6,751	5,928	36,833

(a) Includes figures for previous year for some States. (b) Timber reserves under the Land Act. (c) Includes fauna and flora reserve, Coburg Peninsula (473,600 acres), land within welfare reserves (1,100,000 acres), land covered by pastoral lease (820,000 acres). (d) Forest land not specifically reserved.

A considerable proportion of the permanently reserved areas is in inaccessible mountainous country, and many of the forests contain a mixture of species, only some of which are at present of commercial value. Much of the area consists of inferior forest, and a large proportion of the whole has been seriously degraded by recurrent fires.

(iii) *Plantations.* The indigenous forest of Australia does not contain adequate supplies of coniferous timber, and Australia's requirements have had to be met largely by imports. As a result of the planned policy of the forest services and of several private commercial organizations, the area of conifer plantations, mainly of exotic species, is steadily increasing. It was natural that this aspect of forestry should receive earliest attention in South Australia, as this is the State most poorly endowed with natural forest. South Australia now has a larger area of planted conifers than any other State in Australia, and for some years has been exploiting considerable quantities of timber from these plantations. Production is also increasing in the other States, and the thinnings from their plantations are already supplying a significant volume of timber.

The total production of roundwood from Australia's coniferous plantations is now more than 50 million cubic feet per annum and is expected to increase substantially during the next decade.

The following table shows the areas of coniferous and broadleaved plantations at 31st March, 1964.

AREA OF CONIFEROUS AND BROADLEAVED PLANTATIONS,
31ST MARCH, 1964(a)

(Source: Forestry and Timber Bureau)

(Acres)

State or Territory	Coniferous						Total	Broad-leaved
	Government			Private				
	Pinus radiata	Other species	Total	Pinus radiata	Other species	Total		
New South Wales	79,458	(b)20,091	99,549	10,657	(c)14,791	25,448	124,997	n.a.
Victoria	44,640	10,011	54,651	n.a.	n.a.	(d)75,000	129,651	6,668
Queensland	2,319	103,800	106,119	n.a.	n.a.	(d) 9,800	115,919	1,434
South Australia	118,638	10,964	129,602	n.a.	n.a.	41,104	170,706	3,479
Western Australia	14,713	24,205	38,918	1,226	175	1,401	40,319	19,111
Tasmania	17,917	431	18,348	7,108	..	7,108	25,456	..
Northern Territory	..	(e) 620	620	..	23	23	643	n.a.
Aust. Cap. Terr.	24,894	2,106	27,000	27,000	..
Australia	302,579	172,228	474,807	n.a.	n.a.	159,884	634,691	n.a.

(a) Provisional. Includes figures for previous year for some States. (b) Includes 3,791 acres of hoop, bunya and kauri pine. (c) Chiefly *Pinus elliotti*. (d) Estimated. (e) Cypress pine (*Callitris intratropica*).

A special article prepared by the Forestry and Timber Bureau giving a detailed account of the history and development of coniferous plantations and of the characteristics of individual species, is included in Year Book No. 44, page 975.

Broadleaved plantations (mainly *Eucalyptus spp.*) comprise a much smaller area, and the total acreage at 31st March, 1964, was 36,000 acres, about two-thirds of which was mallet. Plantations of this species have been established in Western Australia for tan bark production.

4. Forest Administration and Research.—(i) *Forestry Activities of the Commonwealth Government.* (a) *Commonwealth Forestry and Timber Bureau.* The functions of the Commonwealth Forestry and Timber Bureau are laid down in the Forestry and Timber Bureau Act and include forestry research and education, the study of timber supply and advice to the Government on forestry matters. The administering department is the Department of National Development.

In 1961 the Commonwealth Government decided to expand its activities in forestry research in Australia. The existing Divisions of Silvicultural Research and Forest Management Research were combined to form the Forest Research Institute. The purpose of the Institute is to provide complete coverage in forestry research, ensuring that all problems of primary importance to the practice and development of forestry in Australia are investigated. In developing a programme with this aim, the Institute takes account of the research activities and potential of the State forest services and other organizations. The research work carried out by the existing sections of the Forest Research Institute covers a wide range of studies, including the following: factors affecting tree growth, tree breeding, introduction of exotic species, forest nutrition, forest botany, forest entomology and pathology, fire protection, watershed management, forest mensuration, forest management and management economics, and aerial inventory. The Forest Research Institute maintains five regional establishments in the Commonwealth, two of which have an outstation in addition to the regional headquarters. These regional stations are run on a co-operative basis with State forest services and private forest companies or other government instrumentalities.

The Forestry and Timber Bureau also maintains a Timber Supply Economics Branch concerned with the compilation and analysis of statistics of production, consumption and trade in timber and other forest products. This Branch also carries out studies in forest economics and research into logging methods and machines. Advice on timber supply matters is currently made available to government departments and private enterprise. Research is also undertaken on matters associated with the marketing of timber products.

(b) *Commonwealth Scientific and Industrial Research Organization, Division of Forest Products.* The Division of Forest Products was formed in 1928 to carry out investigations into Australian forest products, assist in the effective use of such products, reduce waste, reduce losses from decay and insect attack, and conduct research into the fundamental chemical, physical and mechanical properties of Australian timbers.

The research work of the Division is carried out by eight separate sections: wood and fibre structure, wood chemistry, timber physics, timber mechanics, timber preservation, timber seasoning, plywood and glueing, and timber utilization. In addition, the Division provides assistance to individuals and local industry, administers courses of instruction on timber properties and usage, and maintains co-operative projects with several oversea authorities operating in the same field.

(c) *Forestry in the Territories.* Forestry activities in the Territory of Papua and New Guinea are controlled by the Administration through its Department of Forests. The management of forests in the Australian Capital Territory is the responsibility of the Forestry Section of the Department of the Interior.

The Forestry and Timber Bureau advises the Administrations of the Australian External Territories on the management of the forests in those territories, while the Northern Regional Station of the Forest Research Institute advises the Northern Territory Administration on forestry matters affecting the Northern Territory.

(ii) *Forestry Activities of the States.* Forestry on State-owned lands in the various States is the responsibility of the respective State Governments, but they do not exercise any control over forestry activities on private property. The powers and functions of State forest authorities are laid down under forest Acts and Regulations. In each State there is a department or commission to control and manage State forests, etc. Its functions include the introduction of proper measures for the control and management of forest land; the protection of forest land; the conversion, marketing and economic utilization of forest products; the securing of an adequate and permanent reservation of State forests; the establishment and maintenance of coniferous forests to remedy the existing deficiency of conifers in Australia. All State forest services are actively engaged on research programmes. Annual reports are issued by each State forest authority.

In addition to developing permanent forest reserves in each State foresters are surveying all forested crown lands with a view to obtaining dedications of new State forests to add to the permanent forest estate or to release for other uses areas unsuitable for forestry. State forest authorities also usually control all timber on unoccupied Crown lands as well as over 10 million acres of timber reserves, national parks, etc.

(iii) *Private Forestry.* Privately owned lands contribute considerably to the total production from Australian forests. The most important areas of managed native forest in private ownership are the forests owned by pulp and paper companies.

The area of privately owned coniferous plantations is rapidly increasing, and here again the pulp and paper companies are very active. In step with the increase in afforestation programmes the number of professional foresters employed in private forestry enterprise is increasing, while several are engaged on research.

An estimate of the area of coniferous plantations established by private companies and individuals is included in the table on page 1097.

5. *Forestry Education.*—The functions of the Australian Forestry School at Canberra, previously a division of the Forestry and Timber Bureau, were taken over by the Australian National University at the beginning of the 1965 academic year. The School has been absorbed into the University School of General Studies as a Department of Forestry. This department will provide a full four-year training leading to the degree of B.Sc. in forestry. The University of Melbourne also maintains a School of Forestry which gives training leading to a B.Sc. degree in Forestry. The universities in all States provide facilities for post-graduate studies in forestry, leading to higher degrees.

The Victorian Forestry Commission maintains a Forestry School at Creswick where recruits are trained mainly for employment in the Commission.

6. *The Australian Forestry Council.*—Following extensive discussions, the Commonwealth Government and the Governments of the six Australian States agreed in 1964 to establish an Australian Forestry Council, comprising the Ministers responsible for forestry in the seven Governments and the Commonwealth Minister for Territories.

The Council is intended to provide the means for the mutual exchange between the State and Commonwealth Governments of information and views on forestry. It will co-ordinate research into problems affecting the establishment, development, management and fire protection of all forests, and the utilization of forest products. It will assist in co-ordinating the work of State and Commonwealth Governments and also private enterprise in the development of Australian forestry.

The Council is supported by a Standing Committee, consisting of the Director-General of the Forestry and Timber Bureau, the heads of each of the six State Forest Services, the Chief of the Division of Forest Products, C.S.I.R.O., and the Secretary of the Department of Territories.

7. *Fire Protection.*—The provision of adequate fire protection is one of the main problems facing forest and rural authorities. The commercial forest area is estimated at 63 million acres, and of this area the forest services maintain a high degree of protection over a relatively accessible area of about 20 million acres, in the more inaccessible areas about 17 million acres receive a lesser degree of protection, and about 15 million acres are at present not protected. The remaining area of 11 million acres is mostly privately owned or leased, and under some degree of fire protection from the rural volunteer fire-fighting organizations.

Very intensive fire protection is afforded the coniferous plantation area of Australia. During the 1962–63 fire season 475 acres were burnt from a total area of 492,000 acres for which fire statistics are available. This represents an annual burn percentage of 0.1 which compares very favourably with the 0.53 per cent. experienced in the eucalypt forest areas. The area burnt in 1963–64 was 273 acres or 0.06 per cent. of the area for which statistics are available.

Protection of private property outside urban areas is undertaken by volunteer bush fire brigade organizations which are co-ordinated in each State by a committee or board carrying out functions of an advisory or educational nature and fostering the growth and organization of the bush fire brigade movement. Throughout the main agricultural and forest areas of Australia there are over 5,000 registered volunteer bush fire brigades with a membership approaching 250,000. Although forest and rural fire organizations are entirely separate entities, a high degree of co-operation and liaison is maintained.

In addition to the forest service and rural organizations various private and semi-governmental bodies in each State maintain fire protection organizations, which are generally concerned with the protection of private forestry operations and hydro-electric and water catchment areas.

Over the five-year period 1960 to 1964 the annual cost of protecting from fire the 37 million acres of forest land for which State forest services provide protection is estimated at £2,300,000 or about 1s. 3d. an acre. The cost of rural fire control as a whole cannot be estimated with any degree of accuracy, because by far the greatest contribution comes from the personal efforts of volunteer brigade members.

The Australian fire season is very variable, especially in the eastern and southern States. On the average, damaging fires can occur over a period of four months in all climatic zones. Occasionally this occurrence can extend one month either side of the main fire period. Individual fire seasons are generally of much shorter duration than four months and the severity of a season is judged more on the number of "blow-up" days than on its length. On the average, four years in ten are classified as of average severity and two years in ten as severe, the remaining four years being of below-average severity. During severe seasons in the past as much as 5-15 per cent. of the forest area has been burnt. However, with improving fire control services, it can be expected that the area burnt in severe fire seasons will in future be significantly reduced. The number of forest fires and the forest area burnt during recent years is shown in the following table.

NUMBER OF FIRES AND FOREST AREAS BURNT: AUSTRALIA

(Source: Forestry and Timber Bureau)

Year				Number of fires	Forest areas burnt	Burnt areas as a proportion of area receiving protection ^(a)
				No.	'000 acres	Per cent.
1959-60	1,504	1,314	3.6
1960-61	2,667	1,294	3.5
1961-62	1,761	297	0.8
1962-63	1,299	275	0.7
1963-64	1,494	549	1.5

(a) For this table the area receiving protection has been taken as the 37 million acres for which State forest services provide protection.

Intensive research work is being undertaken on fire problems, and several governmental groups are working on such projects as the study of fire behaviour and associated fuel and meteorological conditions, the use of chemical aids in fire suppression, the development of protective clothing and devices to aid fire-fighters, and the development of more efficient fire-fighting equipment.

Since fire prevention is one of the most important aspects of the problem, intensive campaigns are being conducted to reduce the incidence of man-caused fires. A study of fire causes in recent years reveals that human agencies account for approximately 90 per cent. of all fires, and of this figure at least 80 per cent. are preventable. It is estimated that "burning-off" (much of which is started illegally) accounts for 30 per cent. of all fires. Lightning accounts for a little over 10 per cent. of all fires in Australia, although the incidence of fires caused by lightning is much higher in certain areas, especially the Southern Highlands regions in New South Wales and Victoria. Although lightning is a relatively small numerical cause of fire, the percentage area burnt from this cause is estimated at about 20 per cent. This higher figure is due to the occurrence of multiple fire outbreaks which cause fire fighting difficulties and to the inaccessibility of the areas in which such fires generally occur.

The damage resulting from bushfires in Australia is difficult to estimate. Eucalypts, which comprise the main forest species, are seldom killed by fire, and damage estimates frequently involve the complicated question of loss of increment and degradation of timber quality. It may be conservatively estimated that damage to forest values lies between £1 to £2 per acre burnt per year and that over the last ten years the average value of forest fire damage is of the order of £2 million per year. In very severe fire seasons such as 1925-26, 1938-39 and 1951-52, which affected large areas of the continent, fire loss may have been as high as £100 million.

§ 3. Employment in Forestry

1. *Persons Engaged in Forestry Activities.*—In the following table, which shows particulars collected in the Population Censuses of Australia of 30th June, 1947, 1954 and 1961, the numbers of persons whose industry statements were classified to "forestry (excluding sawmilling)" are shown, together with the numbers engaged in all primary industries and the total work force.

PERSONS ENGAGED IN FORESTRY: AUSTRALIA

Particulars	Census, 30th June—		
	1947	1954	1961
Persons engaged in—			
Forestry (excluding sawmilling)	24,793	15,468	13,847
All primary industries	563,607	560,100	513,286
Total work force	3,196,431	3,702,022	4,225,096
Persons employed in forestry (excluding sawmilling) as a proportion of—			
All primary industries %	4.4	2.8	2.7
Total work force %	0.8	0.4	0.3

NOTE.—An adjustment was made to the 1947 and 1954 industry data by distributing over the range of recorded industry the number of persons whose industry was not stated. No such adjustment was made to the 1961 figures.

2. *Employment by Forestry Departments.*—In the table below details are shown of the number of persons employed by State forestry departments, and by the Forestry and Timber Bureau in the Australian Capital Territory and the Northern Territory, at 30th June, 1964.

PERSONS EMPLOYED BY FORESTRY DEPARTMENTS, 30th JUNE, 1964

Occupational group	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.						
Professional staff	247	222	113	76	59	39	5	8	769						
Non-professional field staff ..	246	248	93	7	183	94	11	2	884						
Clerical staff ..	302	273	197	97	63	85	6	7	1,030						
Extraction of timber ..	1,293	40	111	731	33	20	12	..	6,021						
Milling of timber (forest workers, etc.)										18	..	35
Labour (forest workers, etc.)										816	1,491	275	521	379	181
Total ..	2,088	1,617	2,005	1,186	894	617	215	82	8,704						

3. **Employment in Milling Operations.**—Details of the average number of persons employed, including working proprietors, in sawmills during the year 1963-64 are shown in the next table. Further details regarding the operations of sawmills in 1962-63 are shown in Chapter VI. Manufacturing Industry.

NUMBER OF SAWMILLS AND NUMBER OF PERSONS EMPLOYED, 1963-64

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Aust. (a)
Number of sawmills	757	447	538	91	207	305	2,345
Average number of persons employed during year—							
Males	7,651	5,806	5,449	2,300	3,361	2,701	27,268
Females	341	232	274	185	62	53	1,147
Persons	7,992	6,038	5,723	2,485	3,423	2,754	28,415

(a) Excludes Northern Territory and Australian Capital Territory.

§ 4. Forest Production

1. **Forest Products.**—The table below shows details of production of forest products in each State and Territory in 1963-64.

FOREST PRODUCTION(a), 1963-64

Product	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Logs for sawing, peeling, slicing or pulping— '000									
Forest broadleaved	54,814	67,371	22,602	625	48,000	52,122	43	97	245,674
Brushwoods and scrubwoods	4,306	..	8,434	1	..	12,741
Coniferous—									
Indigenous forest "pines"—									
Cypress	7,270	13	5,634	153	..	13,070
Other	400	..	3,275	1	..	274	3,950
Plantation grown "pines"	6,239	10,853	3,568	25,537	1,902	1,700	..	1,084	50,883
Total, logs	73,029	78,237	43,513	26,163	49,902	54,096	197	1,181	326,318
Value of logs £'000	10,590	9,771	7,189	2,627	3,685	5,729	64	133	39,788
Hewn and other timber (not included above)—									
Firewood(b) (weight)	243	883	114	515	550	410	2	3	2,720
Other(c) (value)	3,887	1,245	952	..	(d) 599	199	65	3	6,950
Value of hewn and other timber	4,510	5,421	1,491	1,453	(d) 1,861	1,114	70	16	15,936
Other forest products (e) (total value)	135	104	24	30	(f) 10	6	309
Total Value of Forest Products	15,235	15,296	8,704	4,110	(g) 5,731	6,849	(a) 134	(f) 149	56,208

(a) Excludes some production from private land thought to be relatively small, details of which are not available.
 (b) Includes mill waste used as firewood. (c) Includes sleepers, transoms, girders, bridge timbers, mining timber, poles, piles, etc. (d) Excludes timber used for tannin extract, details of which are not available for publication.
 (e) Includes charcoal (forest production only), tannin bark, essential oils, eucalyptus leaves, crude rutin, etc.
 (f) Excludes value of sandalwood and substitutes, details of which are not available for publication. (g) Includes timber used for tannin extract and sandalwood and substitutes.

The following table gives particulars of the production of forest products in Australia.

FOREST PRODUCTION(a): AUSTRALIA

Product		1959-60	1960-61	1961-62	1962-63	1963-64
Logs for sawing, peeling, slicing or pulping—						
Forest broadleaved	'000 cub. ft.	243,940	242,142	223,389	230,401	245,674
Brushwoods and scrubwoods	"	14,287	14,689	11,890	12,657	12,741
Coniferous—						
Indigenous forest " pines "—						
Cypress	"	14,457	13,483	12,351	12,489	13,070
Other	"	4,716	4,726	3,676	3,799	3,950
Plantation grown " pines "	"	42,859	39,850	42,245	49,569	50,883
Total logs	"	320,259	314,890	293,551	308,915	326,318
Value of logs	£'000	38,972	38,475	35,588	37,477	39,788
Hewn and other timber (not included above)—						
Firewood(b)(weight)	'000 tons	3,189	3,090	2,742	2,702	2,720
Other (value)(c)	£'000	8,066	8,320	7,779	6,802	6,950
Value of hewn and other timber(d)	"	16,257	17,077	15,592	14,472	15,936
Other forest products(e) (total value)	"	345	372	421	294	309
Total Value of Forest Products(f)	"	55,762	56,296	51,843	52,410	56,208

(a) Excludes some production from private land thought to be relatively small, details of which are not available. (b) See footnote (b) to previous table. (c) See footnotes (c) and (d) to previous table. (d) Incomplete, see footnote (d) to previous table. (e) See footnotes (e) and (f) to previous table. (f) Includes timber used for tannin extract and sandalwood and substitutes in Western Australia.

2. Value of Production.—While statistics of both the gross value (at principal markets) and local value (at place of production) of the forestry industry are available, particulars of the value of materials used in the process of production are not available for all States. For this reason values cannot be stated on a net basis, as has been done with most other industries.

(i) *Gross and Local Values, 1963-64.* The following table shows gross and local values of forestry production for each State in 1963-64. A more detailed reference to the value of production of forestry and other industries in Australia, as well as a brief explanation of the terms used, will be found in Chapter XXX. Miscellaneous.

GROSS AND LOCAL VALUE OF FORESTRY PRODUCTION, 1963-64

(£'000)

State or Territory	Gross value(a)	Marketing costs	Local value(b)
New South Wales	15,235	426	14,809
Victoria	15,296	836	14,460
Queensland	8,704	2,214	6,490
South Australia	4,110	26	4,084
Western Australia	5,731	364	5,367
Tasmania	6,849	1,030	5,819
Northern Territory	134	n.a.	134
Australian Capital Territory	149	n.a.	149
Australia	56,208	4,896	51,312

(a) Gross production valued at principal markets. (b) Gross production valued at place of production.

(ii) *Local Values, 1959-60 to 1963-64.* In the following table, the local value of forestry production and the local value per head of population are shown by States for the years 1959-60 to 1963-64.

LOCAL VALUE OF FORESTRY PRODUCTION

Year	N.S.W.	Vic. r	Qld	S.A.	W.A.	Tas.	Aust.(a)
LOCAL VALUE (£'000)							
1959-60	15,169	14,353	8,469	3,929	5,085	5,556	52,736
1960-61	15,300	13,940	7,149	3,729	5,167	5,735	51,202
1961-62	14,431	13,130	5,895	3,733	5,191	5,090	47,618
1962-63	13,988	13,100	5,988	4,058	5,081	5,657	48,051
1963-64	14,809	14,460	6,490	4,084	5,367	5,819	51,312

LOCAL VALUE PER HEAD OF POPULATION (£)

1959-60	4.0	5.1	5.7	4.2	7.1	16.1	5.2
1960-61	3.9	4.8	4.8	3.9	7.1	16.4	4.9

(a) Includes Northern Territory and Australian Capital Territory.

§ 5. Timber and Timber Products

1. *Mill Production of Timber.*—Particulars of logs treated and the production of sawn, peeled and sliced timber by sawmills and other woodworking establishments are shown in the following table. These figures have been compiled from the annual factory collections in each State, which cover virtually all sawmills. The only omissions are some small portable mills operated by itinerants, e.g. sleeper cutters.

OUTPUT OF AUSTRALIAN-GROWN TIMBER: ALL MILLS, 1963-64

('000 super. feet)

Coniferous	312,450	264,838	289,116	322,370	330,904
Total	1,521,045	1,417,833	1,352,202	1,410,567	1,494,872

(a) Excludes Australian Capital Territory and Northern Territory.

In addition to the mill production of timber shown in the preceding tables, a large amount of hewn and round timber, e.g. sleepers, piles, poles, fencing timber, timber used in mining, and fuel, is obtained directly from forest and other areas. Complete information in respect of the volume of this output is not available.

2. Veneers, Plywood, etc.—Cutting of timber for the manufacture of veneers, plywood etc., has been carried out in most States for a number of years. In recent years this has been considerably extended, since plywood manufacture has allowed the use of some species unsuitable for sawing. Special attention has been paid to ensure that logs suitable for peeling are diverted to ply factories.

The following table shows the production of plywood.

PLYWOOD PRODUCED
(⁰000 square feet: $\frac{3}{8}$ -in. basis)

State	1959-60	1960-61	1961-62	1962-63	1963-64
New South Wales	62,701	64,930	56,184	56,766	58,880
Queensland	134,825	112,414	98,086	85,746	97,252
Other States	44,574	46,045	48,537	52,751	60,150
Australia	242,100	223,389	202,807	195,263	216,282

Of the total plywood produced in 1963-64, 154,398,000 square feet ($\frac{3}{16}$ -in. basis) were classed as "Commercial", 38,803,000 as "Waterproof", 2,440,000 as "Case", and 20,640,000 as "Sliced Fancy".

During 1963-64, 561.3 million square feet ($\frac{1}{16}$ -in. basis) of veneers were produced by the rotary process for the manufacture of plywood, and 237.8 million square feet ($\frac{1}{16}$ -in. basis) were sold or added to stock, the bulk of which would eventually be used in the production of plywood. In addition, 52.6 million square feet of sliced veneers were produced.

3. **Manufactured Boards.**—(i) *Hardboard.* There were five factories producing hardboard in Australia during 1963-64 (two in New South Wales, and one in each of Victoria, Queensland and Tasmania), and during the three years ended 30th June, 1964, the following quantities were produced:—1961-62, 28,772,000 square yards; 1962-63, 33,317,000 square yards; and 1963-64, 39,799,000 square yards.

(ii) *Resin-bonded Boards.* Production of resin-bonded boards (made from wood chips, wood wool, sawdust, etc.) amounted to 2,921,508 square yards during 1963-64.

4. **Wood Pulp and Paper.**—(i) *Wood Pulp.* During 1963-64 seven wood pulp mills were operating in three States, and production was 215,019 tons of chemical pulp and 70,989 tons of mechanical pulp, a total of 286,008 tons. During the previous year production was 190,782 tons of chemical pulp and 68,062 tons of mechanical pulp.

Detailed information relating to the types and methods of production of wood pulp in the various States was published in Year Book No. 50, 1964, page 1110.

(ii) *Paper and Paper Board.* Paper and paper board are manufactured in all States, but the greater part of the industry is in New South Wales, Victoria and Tasmania. During 1963-64 twenty-six paper mills were operating, thirteen in Victoria, four in New South Wales, four in Tasmania, two each in Queensland and South Australia and one in Western Australia. A wide variety of paper and paper board is produced in Australian mills. The table below gives details of the production of some of the principal items.

PRODUCTION OF PAPER PRODUCTS: AUSTRALIA

Type of paper	Quantity (tons)			Value (£'000)		
	1961-62	1962-63	1963-64	1961-62	1962-63	1963-64

§ 6. Oversea Trade in Forest Products, Timber and Timber Products

1. Imports.—Quantities and values of forest products, timber and timber products imported into Australia during the years 1961–62 to 1963–64 are shown in the following table.

IMPORTS OF FOREST PRODUCTS, TIMBER AND TIMBER PRODUCTS: AUSTRALIA

Particulars	Quantity			Value (£A.'000 f.o.b.)		
	1961–62	1962–63	1963–64	1961–62	1962–63	1963–64
Logs not sawn—						
Softwoods(a) .. '000 sup. ft.	2,024	3,226	2,220	68	119	76

Tanning substances .. cwt.	145,329	161,209	151,243	380	370	448
Sandalwood oil .. lb.	1,568	2,516	1,811	14	9	5

(a) Non-pored woods.

(b) Pored woods.

Imports of softwood logs in recent years have come largely from the Solomon Islands and Sarawak, and approximately two-thirds of the imports of hardwood logs have come from Sabah. Imports of undressed softwood timber comprise mainly Douglas fir (Oregon pine) from Canada and the United States of America, and Radiata pine from New Zealand. Imports of undressed hardwood timber come mainly from Malaya and Sarawak. Timbers from Scandinavian countries provide most of the dressed timber imports.

Imports of timber products are mainly veneers and plywoods. New Guinea and Japan provide most of the plywood imports, and the United Kingdom and New Guinea supply nearly half of Australia's imports of veneers.

Tanning substances are the only other forest products imported in significant quantities. The most important of these is wattle bark produced in South Africa.

2. Exports.—Details of exports of Australian forest and timber products in the years 1961–62 to 1963–64 are given in the following table.

EXPORTS OF AUSTRALIAN FOREST PRODUCTS, TIMBER AND TIMBER PRODUCTS(a)

Particulars	Quantity			Value (£A.'000 f.o.b.)		
	1961-62	1962-63	1963-64	1961-62	1962-63	1963-64
Logs not sawn .. '000 sup. ft.	8,190	4,392	4,070	309	161	186
Undressed timber(b)—						
Sleepers	27,464	22,998	21,578	1,518	1,285	1,045
Fence posts, girders and pole blocks	879	373	650	51	20	40
Softwoods(c), n.e.i.	74	112	117	8	11	11
Hardwoods(d), n.e.i.	16,966	13,917	13,499	1,169	959	928
Dressed timber	1,330	1,419	1,907	184	207	268
Veneers	1,589	1,474	2,453	38	33	51
Plywood	898	751	735	107	95	87
Tanning substances	88,659	88,317	101,023	256	237	305
Charcoal	6,831	6,602	5,793	25	31	26
Eucalyptus oil	310	475	304	104	156	115
Acaroid resin, grass tree and yacca gum	15,714	10,934	6,583	32	20	13

(a) Excludes re-exports. (b) Excludes stumps and the like. (c) Non-pored woods.
 (d) Pored woods.

Of the exports of logs in 1963-64, 95 per cent. were consigned to New Zealand; of the sleepers exported, 56 per cent. were consigned to South Africa, 22 per cent. to Pakistan and 18 per cent. to New Zealand; while of all undressed timber exported, 43 per cent. were consigned to South Africa, 28 per cent. to New Zealand and 17 per cent. to Pakistan. Consignments to the United States of America accounted for 78 per cent. of the exports of tanning substances in 1963-64.

CHAPTER XXV

MARINE INDUSTRIES

NOTE.—Further information on subjects dealt with in this chapter is contained in the annual printed bulletin *Non-Rural Primary Industries and Value of Production* and in the annual mimeographed statistical bulletin *Fishing and Whaling*, particularly as regards types of fish, etc., caught.

§ 1. Introduction

1. **Marine Resources and their Commercial Exploitation.**—(i) *Fish.* It has been calculated that there are approximately 2,000 species of fish in Australia and the waters surrounding it (including freshwater species). Fishing is carried out continually in estuarine, coastal and off-shore Australian waters in the east and south from Port Douglas in Queensland to Ceduna in South Australia, and in Western Australia from Esperance to Shark Bay, and sporadically in the Onslow, Broome, Darwin and Karumba areas in the north. Most fishing is done in waters over the continental shelf, which varies greatly in width around the continent, but tuna is sometimes fished beyond the shelf. As in other countries, fisheries in Australia may be divided into three types: the estuarine fisheries, located in the tidal waters of rivers and coastal lakes; the pelagic fisheries which exploit species inhabiting the surface layers of the open ocean; and the demersal fisheries, which fish the bottom layers of the sea. The estuarine fisheries produce considerable quantities of the table varieties, such as mullets (*Mugil cephalus* and associated species), and breams (*Acanthopagrus spp.*). In addition to these there is a small freshwater commercial fishery, principally in New South Wales and South Australia, exploiting Murray cod (*Maccullochella macquariensis*) and golden perch (*Plectroplites ambiguus*). The pelagic fisheries produce species exploited during their seasonal migration, such as Australian "Salmon" (*Arripis trutta*), which is a member of the order Perciformes, or perch-like fishes, tunas (Fam. *Thynnidae*, *Katsuwonidae*, *Sardidae*), barracouta (*Leionura atun*) and mackerels (*Cybium spp.*). These fisheries, with the exception of some tuna, mackerel and reef fisheries, are concentrated in the temperate waters around the southern half of the continent. The offshore demersal fisheries include those pursued on the reefs which may be found virtually right around the continent, and which yield such species as snapper (*Chrysophrys auratus*), the so-called "cods" (*Epinephelus*, *Choerodon*, *Callyodon spp.*), and associated species; those pursued on the trawling grounds, which produce species such as flathead (*Neoplatycephalus*, *Trudis spp.*), morwong (*Nemadactylus spp.*), John Dory (*Zeus faber*), etc.; and the important fishery for edible shark (school shark, *Galeorhinus australis*, and gummy shark, *Mustelus antarcticus*), in south-eastern Australia.

(ii) *Crustaceans.* Crustaceans taken in Australia include crayfish, prawns, crabs and freshwater lobsters. Crayfish (southern, *Jasus lalandei*; western, *Panulirus cygnus*; and eastern, *Jasus verreauxi*) is the most important crustacean exploited in Australia, and various species occur on the reefs of the continental shelf in all States. The commercial fishery, for technological reasons and through lack of knowledge of numbers, has not extended to the

tropical species (*P. ornatus*, etc.), but is concentrated on species found around the southern part of Australia. Prawns (*Penaeus* and *Metapenaeus spp.*) are taken in the estuarine, coastal and offshore waters of New South Wales and Queensland, and in the Shark Bay and Exmouth Gulf region of Western Australia. Crabs (*Scylla* and *Portunus spp.*) are taken mainly in Queensland and Western Australia, but small quantities are also taken in the other States. Freshwater lobsters (*Euastacus serratus*) are caught in inland streams in New South Wales, and one species, marron (*Cheraps tenuimanus*) forms the basis of an amateur fishery in the south-west of Western Australia.

(iii) *Molluscs*. Edible molluscs produced in Australia include oysters (mainly *Crassostrea commercialis*), scallops, mussels and some of the cephalopods (squid, octopus, cuttlefish). Naturally-grown oysters are produced in all States except South Australia. In New South Wales and, to a lesser extent, in Queensland, edible oysters are cultured commercially. The scallops (*Pecten meridionalis* and *Equichlamys bifrons*) are taken in Tasmania, the saucer scallop (*Amusium balloti*) is harvested in Queensland, and a fishery exploiting the species *Pecten alba* has recently been developed in Port Phillip Bay. The scallop resources in the Shark Bay area of Western Australia have not been developed, and are still the subject of scientific investigations. Mussels (*Mytilis planulatus*) are gathered mainly in Victoria. Small quantities of cephalopods, mainly squid (*Loligo spp.*), are produced in many localities. Increased interest in the abalone (*Haliotis spp.*) has resulted in the development of small fisheries off southern New South Wales and Victoria and the east coast of Tasmania. Other edible molluscs taken from time to time include pipis (*Plebidonax deltoides*).

(iv) *Pearl-shell and Trochus-shell*. The shell of the Australian species of pearl oyster (*Pinctada maxima*) is taken in the tropical waters of Australia from Exmouth Gulf in Western Australia to Cairns in Queensland for the manufacture of buttons, knife handles, etc. Live pearl-shell is used for pearl culture, the *Pinctada maxima* being capable of producing pearls which are the largest in the world and which command top market prices. Trochus-shell is found mainly on coral reefs off the Queensland coast, although small quantities occur in Western Australia.

(v) *Whales*. The Australian whaling industry formerly exploited the humpback whales (*Megaptera nodosa*) during their winter migrations along the east and west coasts of Australia. However, owing to the total prohibition placed on their capture by the International Whaling Commission in 1963, Australian whaling is now confined to the sperm whale (*Physeter catoden*) which has been taken in the southern waters of Western Australia since 1955.

(vi) *Marine Flora*. Seaweeds of possible commercial value occur in the coastal waters of New South Wales, Tasmania and Western Australia. In 1964, at Louisville, Tasmania, a factory began processing seaweed (*Macrocystis pyrifera*) for its alginic content.

2. History of the Development of Marine Industries in Australia.—(i) *Fishing*. At the beginning of this century Australian fisheries were principally estuarine and onshore, and the deeper offshore resources were comparatively unknown. Vessels were generally sail-powered, and catching and preservation methods were primitive.

From 1909 to 1914 a Commonwealth vessel was engaged in research into fisheries resources around Australia. As a result of this exploration, trawling in the south-eastern waters began in 1915. There have been several years of high production from this fishery, but in each case the peak year was followed by a period of low production. Danish seine trawlers entered this fishery in 1936. In 1958–59 steam trawling vessels used in this area were taken out of service and a modern diesel trawler was introduced. This fishery is now stabilized at a relatively low level of production.

The tuna fishery began with the establishment in 1937 of a cannery at Narooma in New South Wales to exploit the occurrences, mainly of southern bluefin tuna (*Thunnus thynnus maccoyii*), which had been revealed by aerial surveys in 1936. However, landings were insignificant for over a decade. In 1950 the Commonwealth Government sponsored the visit of a Fijian tuna clipper and trained crew to instruct fishermen in the pole-and-live-bait method of catching tuna. Development of the South Australian tuna fishery followed the visit of two American tuna experts in 1954. Recent developments in tuna fishing include the use of gill netting and long-lining. Techniques for taking species of tuna other than southern bluefin are being investigated.

(ii) *Crustaceans*. The crayfishery, which is pursued off south-eastern Australia and off the west coast of Western Australia, was for many decades on a small scale. It was not until 1944 that the major sector, the western crayfishery, began to develop into what is now Australia's most productive single fishery. Between 1944 and 1947, production from the shallow areas of Houtman Abrolhos was used for canning for the armed forces. From 1948 to 1953 mechanization of the fleet was introduced progressively and deeper waters were worked. The United States market for frozen craytails was established during this period. The period 1954 to 1962 saw the introduction of larger and more powerful vessels, of conservation measures designed to maximize the sustainable yield, and of increased processing facilities. In the southern crayfishery development has followed similar lines, but on a smaller scale because of the smaller crayfish population.

The prawn fishery was pursued for many decades on a small scale, but it was not until the discovery of the need for prawns to spawn at sea that interest developed in catching them during this phase of their life cycle. The discovery in 1947 of stocks of prawns in Stockton Bight and off Evans Head (both in New South Wales) initiated the development of deep-sea prawning in Australia. Since that time the prawn fishery has expanded to the offshore grounds. Commercial prawn fisheries in Western Australia commenced at Shark Bay in 1962 and at Exmouth Gulf in 1964.

(iii) *Molluscs*. Natural oyster-beds were being harvested soon after settlement first began, but by 1870 rapid depletion of the stocks had resulted in restrictive legislation being passed in New South Wales. By the end of the nineteenth century, however, farms had been established in New South Wales and oyster cultivation was a notable industry. This cultivation has been almost entirely confined to the river estuaries of New South Wales. Very few oysters are exported and importation of oysters is necessary to cope with home demand. During 1964 a commercial scallop fishery was established in Port Phillip Bay and there was a noticeable development in the harvesting of abalone in the waters of New South Wales, Tasmania and Victoria.

(iv) *Whaling*. Whaling has been undertaken from time to time in Australia since the early days of settlement. Humpback whaling was carried out from stations on the west coast of Australia from 1949, and on the east coast from 1952. However, depleted stocks of the species resulted in the closing down by 1962 of the eastern stations, and in 1963, owing to the severe decline in world stocks of humpback whales, the International Whaling Commission, of which Australia is a member, prohibited the capture of the species south of the equator for an indefinite period. Australian whaling is now carried out from Albany only, and is confined to sperm whales for which there is no overall catch quota.

(v) *Pearling*. Since the middle of the nineteenth century, when pearling by Europeans first commenced in Australia, the collection of natural pearls has been incidental to the production of mother-of-pearl shell. Although attempts to establish pearl culture in Australia had been partially successful as early as the end of the last century, it was not until

1956 that the modern technique, as developed by the Japanese, was introduced into Australia at Kuri Bay in Western Australia. The joint venture between Australian and Japanese interests proved successful and others entered the industry. There are now fifteen pearl culture farms in Western Australia, the Northern Territory and Queensland. Twelve of the farms are operated as joint ventures by Australian and Japanese interests, while three are wholly Australian enterprises. The technique of pearl culture is still a closely-guarded trade secret.

A map showing Australia's principal ports and the localities of the fishery resources under exploitation appears on page 1121 of this Year Book.

§ 2. Administration and Research

1. Government Administration.—The fisheries within territorial waters (that is, within three miles of the shore) are administered by State departments and Territory administrations. The Fisheries Branch of the Department of Primary Industry develops and administers fisheries in extra-territorial waters and co-ordinates fisheries administration.

The fisheries legislation of each State and Territory and of the Commonwealth provides for the licensing of boats used in commercial fishing operations and of commercial fishermen. The provisions are broadly similar in each State, the general requirement being that any person who takes fish for sale, and any boat used in such fishing operations, must be licensed in the State or Territory concerned. Some States extend the licensing requirements to amateur or part-time fishermen. Australian nationals who fish commercially outside the territorial waters of a State or Territory, but within Australian waters as proclaimed under the *Fisheries Act 1952-1959*, are required to take out licences and to register their boats under that Act.

Fish stocks inhabiting Australian waters are a common property resource. With the exception of the Western Australian crayfishery and the Shark Bay prawn fishery, there are no restrictions on recruitment of men and vessels to any fishery. It has, therefore, been necessary for governmental action to be taken in an endeavour to provide rules of operation in certain fisheries which are vulnerable to depletion. The policy basic to the management of these fisheries is the greatest sustainable yield consistent with economic operations. Where a fishery, for economic reasons, is not producing its maximum yield, efforts to discover new methods of utilization of the catch are made.

The *Pearl Fisheries Act 1952-1953* aims at the management of the pearl-shell resources in accordance with Australia's proclamation of sovereign rights over the natural resources of the sea bed and subsoil to the 100 fathom line. It requires that all pearlers, vessels, etc., must be licensed, and prohibits the removal of live shell from Australian waters except with the written permission of the Minister for Primary Industry.

Under the *Whaling Act 1960* the Commonwealth controls whaling from Australian stations in accordance with the conditions laid down by the International Whaling Commission. This Commission was established by the International Convention for the Regulation of Whaling, 1946, to organize world-wide conservation measures.

2. Research.—The aim of all fisheries research in Australia is to achieve the greatest sustainable yield of fish and to assist in the development of an efficient industry. To this end much of the biological research already undertaken has been directed at formulating recommendations for management measures in various fisheries. Research work is also carried out which is expected to lead to the development of new fisheries, the expansion of under-exploited fisheries, more economical operations, and the use of more efficient equipment.

The organizations in Australia at present engaged in research into fisheries matters are:—

- (i) Division of Fisheries and Oceanography, C.S.I.R.O. (biological and oceanographic research);
- (ii) Division of Food Preservation, C.S.I.R.O. (research into handling, storage, processing and transport of fish);
- (iii) the several State fisheries departments (general biological research);
- (iv) Fisheries Branch, Department of Primary Industry (economic and management research, gear technology, extension work to the industry).

§ 3. Collection and Presentation of Statistics

1. **Source and Basis of Statistics.**—Statistics presented in this chapter have been collected by a number of authorities. The various State fisheries authorities have supplied, through the Deputy Commonwealth Statisticians in the States, the details of employment, boats, equipment, and production of the general fisheries and the pearl and shell fisheries. The Fisheries Branch of the Department of Primary Industry has supplied particulars of the whaling industry. Statistics of the processing of general fisheries products and of oversea trade in the products of fishing and whaling have been compiled in the Commonwealth Bureau of Census and Statistics.

The statistics refer, in general, to financial years. However, pearl and shell fishing data refer to the season ended in the financial year shown. Whaling statistics are shown by calendar years, and refer to the season in the calendar year. All oversea trade information refers to financial years.

In the preparation of Australian fisheries production statistics the quantities of individual products are generally in terms of the form in which they are taken from the water. For example, the statistics of fish production published in this chapter are in terms of "estimated live weights" which are calculated from landed weights by using conversion factors for each species in each State. These conversion factors allow for the fact that the quantities of fish reported are frequently in a gutted, headed and gutted, or otherwise reduced condition. Crustaceans are reported on a "whole weight" basis, and molluscs (edible) on a "gross (in-shell) weight basis". The figures of pearl-shell and trochus-shell refer to the actual quantities of dry shell for sale and exclude the weight of the fish.

In Australia the basic source of statistical information on commercial fishing operations is the fishermen. In four of the six States monthly returns of catch by species have been obtained from fishermen for a number of years. In the other two States (Queensland and South Australia) there have been no statistical collections from fishermen, and catch statistics have been derived from other sources such as markets and receiving depots. In general it is recognized that catch statistics in Australia have been somewhat incomplete in past years. For example, details of production given in this chapter refer in most cases only to the recorded commercial production. In view of the importance of amateur fishermen in certain types of fishing, details shown cannot be taken as representing the total catch. In addition, it is likely that the figures shown understate to some extent the full commercial catch, because no information is available on fish taken for sale by persons not licensed as professional fishermen.

Two weaknesses of fisheries statistical collections in Australia to date have been the lack of uniformity, which makes it difficult to compile statistics on an Australia-wide basis, and the lack of data on the effort involved in taking fish (time spent fishing, gear used, etc.). Recognizing these weaknesses, the Commonwealth-State Fisheries Conference in 1960 appointed a Statistics Committee "to examine all aspects of fisheries statistics and fully document a proposed system for submission to the States and Commonwealth for approval".

2. **Model System of Catch and Effort Statistics, 1962.**—The model system of catch and effort statistics designed by the Committee was adopted by the Commonwealth-States Fisheries Conference in 1962. The new system was introduced in Tasmania in 1963, and in Victoria and Western Australia in 1964. The system was introduced in Queensland for the otter trawl fishery early in 1965, but there are no definite plans at present to extend the system to other fisheries. Arrangements are proceeding for the introduction of the model system in New South Wales, but there are no plans as yet for the introduction of the system in South Australia.

Under the new system fishermen are asked to report, on a monthly basis, for the various fishing methods used, catch of each species taken and the locality where the greatest proportion of the catch is taken. Fishermen are asked to record catch in terms of landed weight, and appropriate conversion factors are used to obtain live weight where this is required. A grid system of 1° rectangles (relating to latitude and longitude) is used for recording location of catches at sea, and estuaries and inland waters are recorded where appropriate. Other data obtained include details of fishing effort, ports at which catch is landed, and employment details.

The eventual implementation of this system in all States is expected to ensure the availability of statistical information of a much higher standard in the future. In addition to the new system of catch and effort statistics, a uniform boat registration system is now being introduced by the States. This new system will eventually ensure that details of various characteristics of the commercial fishing fleet are available on a uniform basis for all States.

§ 4. Employment in Marine Industries

1. **Census Data.**—In the following table, which shows particulars collected in the Population Censuses of Australia at 30th June, 1947, 1954 and 1961, the numbers of persons whose industry statements were classified to "fishing" are shown together with the numbers engaged in all primary industries and the total work force. The Census classification "fishing" is equivalent to the general term "marine industries" and includes such activities as fishing, whaling, pearl-shell fishing, etc.

PERSONS ENGAGED IN FISHING: AUSTRALIA

Particulars	Census, 30th June—		
	1947	1954	1961
Persons engaged in—			
Fishing	10,656	8,637	8,252
All primary industries	563,607	560,100	513,286
Total work force	3,196,431	3,702,022	4,225,096
Persons engaged in fishing as a proportion of—			
All primary industries %	1.9	1.5	1.6
Total work force %	0.3	0.2	0.2

NOTE.—An adjustment was made to the 1947 and 1954 industry data by distributing over the range of recorded industry the number of persons whose industry was not stated. No such adjustment was made to the 1961 figures.

2. **Annual Employment by Industry.**—The following two tables show details of persons engaged in the taking of fish, crustaceans and edible molluscs, pearl-shell and trochus-shell, and in whaling. These statistics are derived mainly from the licensing records of the various State fisheries authorities. Because the definitions and licensing procedures used by these authorities are not uniform the statistics should not be used to compare the relative productivities of marine industries in the several States. Figures for employment in general fisheries in 1962–63 and 1963–64 are not comparable with those for previous years because licensed part-time (non-commercial) fishermen were included in the total for South Australia prior to 1962–63. In 1962–63 and 1963–64 an estimate for full-time (commercial) fisherman engaged has been included. Persons engaged in more than one industry are classified according to their main activity, and so may be classified differently from one year to the next.

The table below gives details by States for 1963–64 of employment in marine industries.

MARINE INDUSTRIES: EMPLOYMENT, 1963–64

(Persons engaged)

Industry	N.S.W.	Vic.	Qld	S.A.	W.A.(a)	Tas.	N.T.	Aust.
General fisheries ..	2,439	1,541	2,111	(b)2,000	2,526	1,191	54	11,862
Edible oyster fisheries ..	1,354	..	106	n.a.	7	1,467
Pearl-shell and trochus-shell	497	..	120	..	23	640
Whaling(c)—At sea	85	85
Whaling—Ashore	90	90

(a) Figures are for the year ended December, 1963. (b) In addition, approximately 6,520 (non-commercial) licensed fishermen operated on a part-time basis. (c) Estimated.

The following table shows similar information for Australia for the years 1959-60 to 1963-64.

MARINE INDUSTRIES: EMPLOYMENT, AUSTRALIA

(Persons engaged)

Industry	1959-60	1960-61	1961-62	1962-63	1963-64
General fisheries	13,319	14,955	15,878	(a) 11,544	(a) 11,862
Edible oyster fisheries	917	822	993	1,154	1,467
Pearl-shell and trochus-shell	1,120	995	724	727	640
Whaling—At sea	151	139	161	123	85
Whaling—Ashore	444	421	240	164	90

(a) Not comparable with previous years; see text p. 1114.

§ 5. Boats and Equipment in Marine Industries

1. **Fish, Crustaceans and Molluscs (edible).**—The boats used for the estuarine fisheries are mostly small vessels, propelled by diesel or petrol engines of low power. The offshore vessels range in length from 30 feet to 120 feet and are almost invariably powered by diesel engines. Many of them have insulated holds to carry fish in ice, and some of the crayfish boats are fitted with wells in which the catch is kept alive. Some vessels have dry refrigeration, and others, including some of the tuna live-bait pole-fishing vessels, are equipped with brine refrigeration.

A recent survey showed that about 50 per cent. of Australia's commercial fishing fleet consists of vessels up to 20 feet in length, about 25 per cent. are in the 20-29 feet category, and the remainder are greater in length. Only a very small percentage is greater than 50 feet in length. It is hoped that more precise information on this aspect of the fishing fleet will be available in the future when an improved boat registration system is adopted in all States.

Almost every type of fishing equipment is used. The following table sets out the equipment most commonly used for the main types of fish, crustaceans and molluscs.

FISHING EQUIPMENT USED IN AUSTRALIA

Type of fish	Equipment used
Mullet	Beach seine, gill net
Shark (edible)	Long-lines, gill net
Australian salmon	Beach seine
Barracouta	Trolling lines
Flathead	Danish seine, otter trawl
Snapper	Long-lines, traps
Morwong	Danish seine, otter trawl, traps
Whiting	Handlines, Danish seine
Garfish	Gill net, beach seine
Mackerel	Trolling lines
Tuna(a)	Pole and live-bait, trolling lines, gill netting
Prawns	Otter trawl, beam trawl, seine net
Crayfish	Pots, traps
Scallops	Dredge, otter trawl

(a) Lampara nets and purse seines are used for taking live bait for tuna.

2. Pearls, Pearl-shell and Trochus-shell.—Ketch-rigged luggers about 55 feet long which carry crews of 8 to 14 members are used for pearl and pearl-shell fishing around Australia.

3. Whaling.—The whaling industry is highly mechanized. Standard equipment includes aircraft to locate whales, steam- and diesel-powered catchers of about 100 to 125 feet in length, and tow boats.

4. Boats and Equipment Employed by Industry.—The following two tables show details of boats and equipment employed in the taking of fish, crustaceans and edible molluscs, pearl-shell and trochus-shell, and the number of chasers and stations engaged in whaling operations. The reservations mentioned in § 4., paragraph 2, page 1114, regarding the use of employment information are also applicable to these tables. Boats employed in more than one industry are classified to their main activity.

The table below gives details by States for 1963–64.

MARINE INDUSTRIES: BOATS AND EQUIPMENT EMPLOYED AND WHALING STATIONS OPERATING, 1963-64

Particulars		N.S.W.	Vic.	Qld.	S.A.	W.A.(a)	Tas.	N.T.	Aust.

<i>Total, Marine</i>	<i>76,485</i>	<i>77,500</i>	<i>87,200</i>	<i>88,375</i>	<i>96,061</i>
Freshwater types	1,612	(a) 1,597	(a) 1,260	(a) 1,309	(a) 1,017
Grand Total	78,097	(a) 79,097	(a) 88,460	(a) 89,684	(a) 97,078

(a) Excludes freshwater fish caught in Queensland, particulars of which are not available.

(ii) *Crustaceans*. In terms of gross value of catch, the importance of crustaceans has increased in recent years, and in 1963-64 was greater than that of fish. The crayfish is the most important crustacean. The bulk of Australian production of crayfish is exported, nearly all going to the United States of America. Details of the production of crustaceans in each State and the Northern Territory in 1963-64 are shown in the following table.

CRUSTACEANS: PRODUCTION, BY TYPE, 1963-64
(*000 lb. whole weight)

Type	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	Aust.
Crayfish(a) ..	400	(b) 1,317	47	4,325	17,973	(b) 3,572	..	27,634
Prawns ..	6,107	25	5,118	..	2,118	..	1	13,369
Crabs ..	103	..	571	..	30	..	4	708
Total ..	6,610	(b) 1,342	5,736	4,325	20,121	(b) 3,572	5	41,711

(a) Includes freshwater lobster caught in New South Wales and shovel-nosed lobster taken in Queensland. (b) The catch of crayfish by Victorian fishermen in Tasmanian waters (367,000 lb. in 1963-64) is included in Victoria.

The following table shows details of the production of crustaceans in Australia in the years 1959-60 to 1963-64.

CRUSTACEANS: PRODUCTION, BY TYPE, AUSTRALIA
(*000 lb. whole weight)

Type	1959-60	1960-61	1961-62	1962-63	1963-64
Crayfish(a)	28,023	27,494	29,355	31,400	27,634
Prawns	7,749	6,529	9,322	12,616	13,369
Crabs	1,044	787	875	842	708
Total	36,816	34,810	39,552	44,858	41,711

(a) Includes freshwater lobster caught in New South Wales and shovel-nosed lobster taken in Queensland.

(iii) *Molluscs (edible)*. Details of the production of molluscs in each State and the Northern Territory in 1963-64 are shown in the table below.

MOLLUSCS(a): PRODUCTION, BY TYPE, 1963-64
(*000 lb. gross (in shell) weight)

Type	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Aust.
Scallops	10,434	679	..	(b)	4,260	(c)15,373
Oysters	12,462	69	170	..	72	2	12,775
Mussels	410	410

Abalone	36	47	..	2	..	72	157
Octopus	12	5	..	17
Cuttlefish	1	..	1
Total	12,498	11,158	963	2	82	4,334	(d)29,037

(a) Excludes pipis taken in New South Wales, details of which are not available for publication. (b) Not available for publication. (c) Excludes Western Australia. (d) Incomplete see footnote (c).

The following table shows the production of molluscs in Australia in the years 1959-60 to 1963-64.

MOLLUSCS(a): PRODUCTION BY TYPE, AUSTRALIA

('000 lb. gross (in-shell) weight)

Type	1959-60	1960-61	1961-62	1962-63	1963-64
Scallops	(b) 6,105	6,896	5,172	(b) 6,498	(b) 15,373
Oysters	(c) 12,690	14,220	12,613	13,029	12,775
Mussels	87	394	646	683	410
Squid	210	228	319	292	304
Abalone	157
Octopus	52	36	58	18	17
Cuttlefish	60	34	7	1	1
Total	(d) 19,204	21,808	18,815	(d) 20,521	(d) 29,037

(a) Excludes pipis, particulars of which are not available for publication. (b) Excludes Western Australia, particulars of which are not available for publication. (c) Excludes Northern Territory. (d) Incomplete; see footnotes to individual types.

(iv) *Pearls, Pearl-shell and Trochus-shell.* Particulars of cultured pearl production are not available for publication.

In recent years the production of pearl-shell has declined, owing to the development of plastics. However, the advent of pearl culture has since created a growing demand for live pearl-shell. The following table gives details of pearl-shell and trochus-shell production in Australia for the years 1959-60 to 1963-64.

PEARL-SHELL AND TROCHUS-SHELL: PRODUCTION

('000 lb.)

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Pearl-shell—					
Queensland(a)	1,082	1,821	860	788	578
Western Australia(b)	1,138	1,270	802	782	542
Northern Territory(a)	188	222	147	115	11
Australia	(c)2,408	(c)3,313	(c)1,809	1,685	1,131
Trochus-shell—					
Queensland(a)	847	309	457	357	142
Western Australia(b)	22	10
Australia	869	319	457	357	142

(a) Season ended January of years shown. Shell taken by Queensland luggers operating in Northern Territory waters is included in Queensland. (b) Season ended December of years shown. (c) Excludes pearl-shell taken by Japanese pearl-liners operating in Australian waters. The quantities taken were as follows:—1959-60, 763,000 lb.; 1960-61, 860,000 lb.; 1961-62, 813,000 lb. The Japanese pearling fleet did not operate in Australian waters after 1961-62.

Particulars of the production of natural pearls in Australia are not available.

(v) *Whales*. Only sperm whales were caught during the 1964 season and no quotas were imposed on the catch. Quotas previously set by the Department of Primary Industry for the baleen species were in terms of humpback whales, and for this purpose 1 blue whale was taken as the equivalent of 2 fin, 2½ humpback, 6 sei or 6 bryde whales.

The following table shows particulars of whales taken by Australian vessels for the years 1960 to 1964.

WHALES TAKEN: AUSTRALIA(a)

(Source: Fisheries Branch, Department of Primary Industry)

(Number)

Particulars	1960	1961	1962	1963	1964
Types of baleen whales taken—					
Humpback	1,355	1,311	716	87	..
Blue	2	1	..
Bryde	2
Sei	2
Sex of baleen whales—					
Male	767	755	404	37	..

Total Whales Taken	1,639	1,767	1,309	686	710

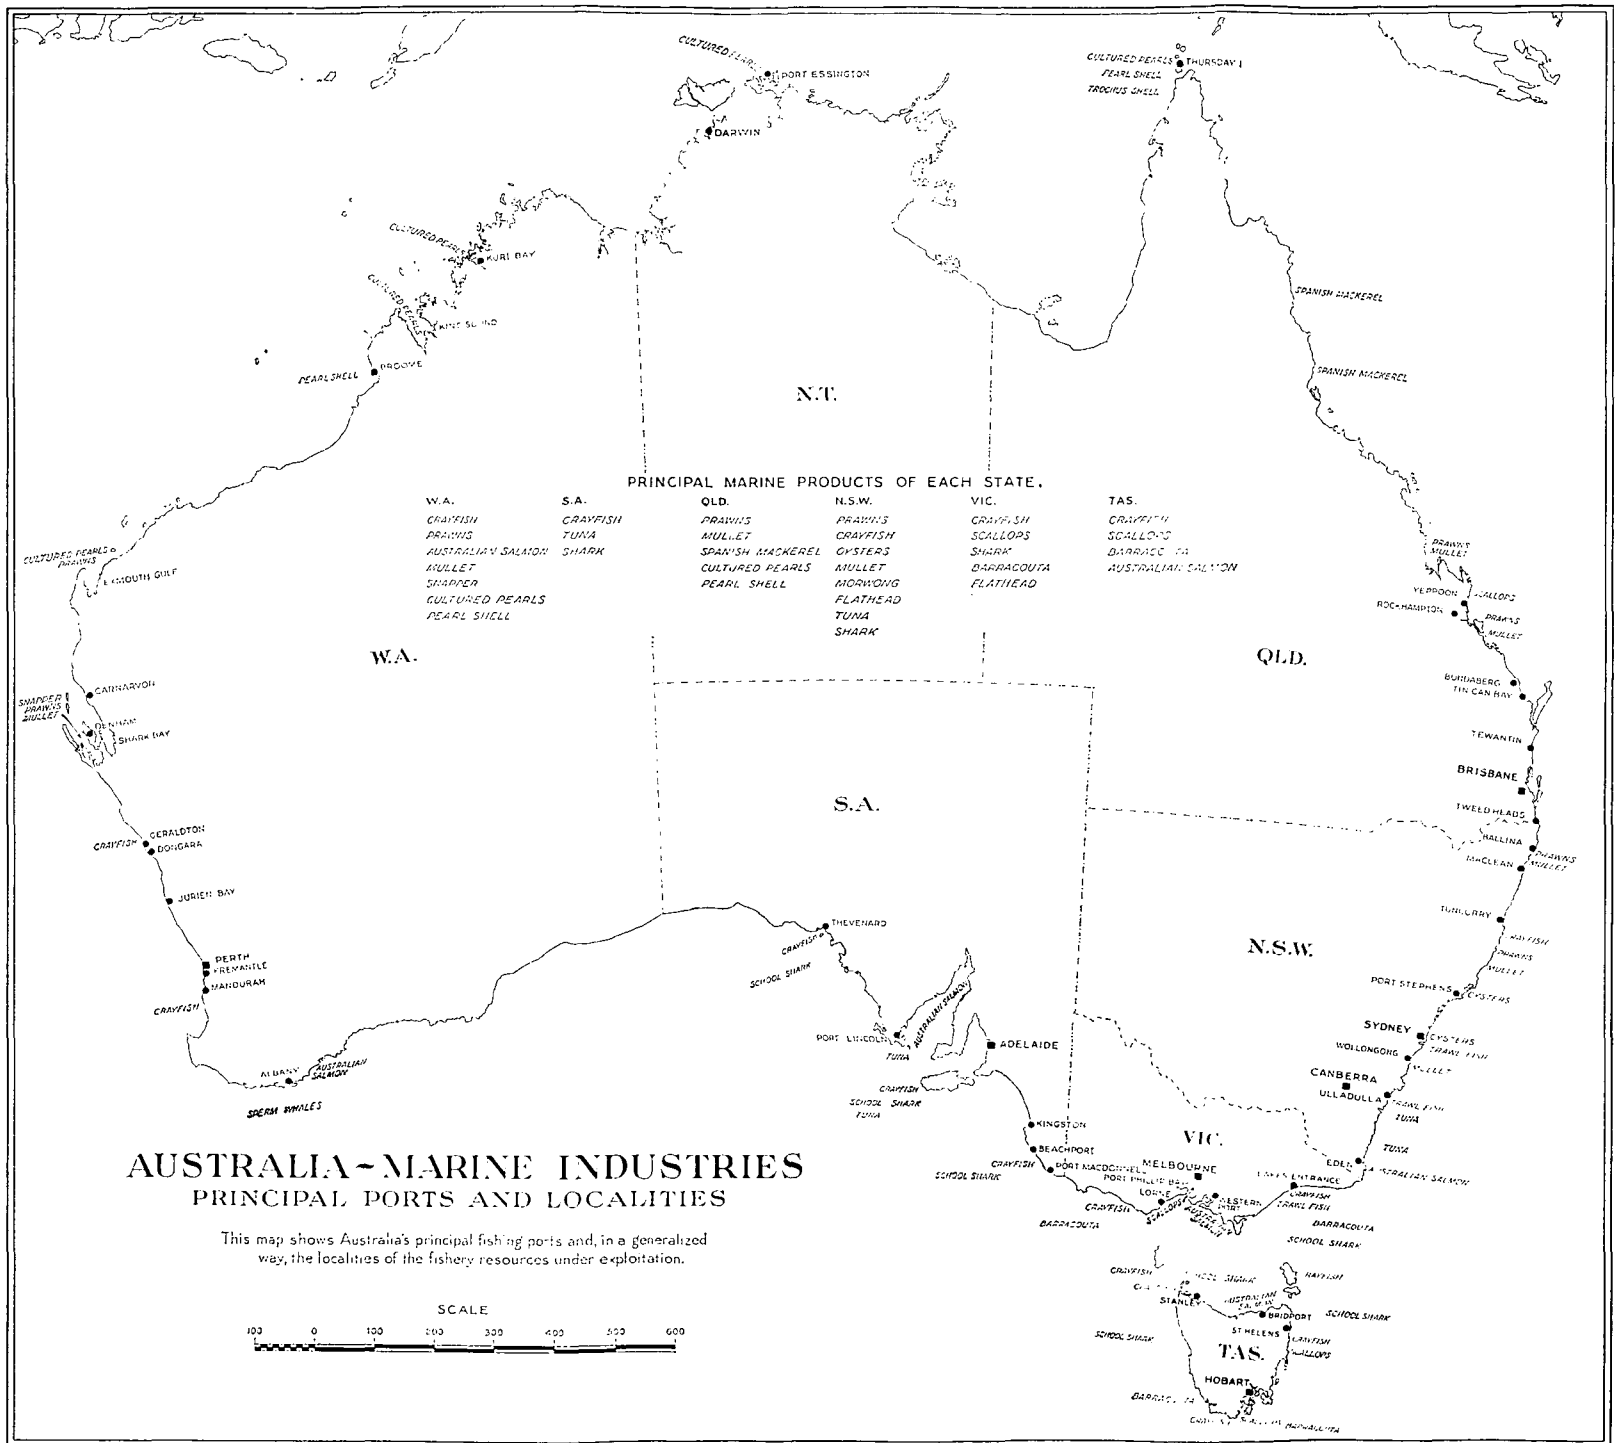

(a) Excludes details of Norfolk Island.

(b) The sex of two whales processed was not recorded.

(c) See text above.

2. *Processing*.—(i) *Fish*. Quick-freezing is used at sea and ashore to preserve fish before delivery to consumers. The main technique employed in Australia is brine-freezing, as used extensively in the tuna and salmon fisheries.

Fish canning in Australia on a modern scale dates from 1937, before which the only fish canning carried out was on an occasional basis by factories handling other foodstuffs. In 1963-64 there were 14 canneries in Australia dealing exclusively with marine products, as well as several other canneries using small amounts of fish in general canning operations. The main canneries handle tuna (Eden, New South Wales; Melbourne, Victoria; Port Lincoln, South Australia); Australian salmon (Eden, New South Wales; Melbourne, Victoria; Margate, Tasmania; Port Lincoln and Adelaide, South Australia; Albany, Western Australia); and barracouta (Melbourne and Portland, Victoria; Margate, Tasmania).

Other methods of fish processing include smoking and bottling, but these are undertaken on a minor scale only. Among the few fish by-products produced are small quantities of fish meal.

The following table gives further details of fish processing in Australia during the years 1959-60 to 1963-64.

FISH PROCESSING (EXCEPT FREEZING): AUSTRALIA

Particulars	1959-60	1960-61	1961-62	1962-63	1963-64
Number of factories	19	18	20	25	25
	'000 lb.	'000 lb.	'000 lb.	'000 lb.	'000 lb.
Fish used(a)—					
Whole	12,507	13,737	18,494	15,447	17,846

Australian salmon	4,550	3,480	5,772	3,976	5,394
Tuna	1,983	3,070	3,624	4,201	4,704
Other	1,585	1,647	2,644	2,066	1,158
<i>Total</i>	8,118	8,197	12,040	10,243	11,256
Smoked fish	296	301	181	286	273
Fish paste	1,379	1,261	1,027	1,053	1,196
Fish meal(e)	1,718	2,041	2,640	2,076	2,068

(a) Fish used for canning (including fish loaf), smoking and the manufacture of fish paste, but excluding the weight of oysters, other shellfish and crustaceans used for canning. (b) The weight of headed and/or gutted fish is taken as 85 per cent. of live weight. (c) Excludes canned crayfish, lobsters, prawns, oysters and clams, details of which are not available for publication. (d) Includes fish loaf, fish cakes, etc. (e) Excludes whale meal.

(ii) *Crustaceans and Molluscs.* Quick-freezing is also used to preserve crustaceans and molluscs. The chief technique employed to preserve crayfish and scallops is air blast freezing, while plate contact freezing is being used on an ever increasing scale for prawns, scallops and abalone.

Crayfish for the domestic market are usually cooked whole and then frozen, as are some exported crayfish. However, the major proportion of crayfish exports consists of frozen, raw craytails.

Most prawns for domestic consumption are sold in a whole cooked condition. Some are also exported in this form, after freezing. As a rule, however, the majority of prawn exports consists of green headless prawns, sometimes de-veined, sometimes split in "butterfly" style, but in all cases frozen into five-pound blocks.

Scallops are normally frozen in cello-wrapped five-pound blocks, although packaging of individually frozen scallops in polythene pouches is growing in popularity for local consumer packs.

Canned abalone is now packed for the Asian market, as well as abalone soup for domestic and oversea sale.

(iii) *Whales*. Oil from sperm whales is used in the manufacture of soap, plastics and watch lubricants, and in automatic transmission systems in motor cars. The following table shows details of whale processing during the years 1960 to 1964.

WHALE PROCESSING: AUSTRALIA^(a)

Particulars	1960	1961	1962	1963	1964
Whale oil produced—			(b)	(b)	(b)
Baleen oil barrels ^(c)	69,738	59,187	30,849	3,865	..

Total Value.. .. . „	1,491	1,526	1,006	512	370

(a) Excludes details of Norfolk Island.
research.

(c) 6 barrels = 1 ton.

(b) Includes produce from whales taken for scientific

3. Domestic Marketing.—Although virtually the whole of the tuna and Australian salmon catches and a large proportion of the barracouta catch are canned, the greater part of Australian fisheries production is marketed fresh or frozen.

Marketing arrangements for fresh fish vary from State to State. In New South Wales fish marketing is the responsibility of the New South Wales Fish Authority, which operates the Metropolitan and Wollongong Fish Markets.

In other coastal centres of New South Wales fishermen's co-operatives may become registered as local fish markets. Fish for industrial use do not pass through any of these markets. The Queensland Fish Board sells all production on behalf of fishermen in that State, and has branches in 18 centres, as well as depots at eight others. The Board also purchases fish on its own account to stabilize prices. In Victoria, Western Australia, and Tasmania the marketing of fish is undertaken through agents. In South Australia the great majority of the fishermen are members of the South Australian Fishermen's Co-operative Ltd., which handles the whole of their production. Canned fish and frozen fish in the form of consumer packs are marketed mainly by the supermarket-type retail establishments. Oysters are usually sold live in the shell directly to restaurants, or are shelled and bottled before being sent to retailers.

4. Value of Production.—(i) *Gross Value of Products*. The following table shows details of gross values of production at principal markets of edible fisheries products, pearl-shell, and trochus-shell in each State and the Northern Territory in 1963–64.

FISHERIES PRODUCTION: GROSS VALUE, 1963-64

(£'000)

Product	N.S.W.	Vic.(a)	Qld	S. Aust.	W. Aust.	Tas.(a)	N.T.	Aust.
Fish(b)	2,314	1,766	737	1,149	688	156	22	6,832
Crustaceans ..	1,204	353	953	835	3,678	790	1	7,814
Molluscs (edible) ..	(c) 1,171	298	45	n.a.	(d) 5	156	..	1,675
Pearl-shell(e)	(f) 85	..	(g) 109	..	(f) 1	195
Trochus-shell	(f) 5	5

(a) Victorian figures include catch by Victorian fishermen in Tasmanian waters (shark, £54,000; crayfish, £96,000). (b) Includes shark livers for oil extraction; excludes freshwater fish caught in Queensland, particulars of which are not available. (c) Excludes pipis, particulars of which are not available for publication. (d) Excludes scallops, particulars of which are not available for publication. (e) Queensland figure includes pearl-shell taken by Queensland luggers operating in Northern Territory waters. (f) Season ended January. (g) Season ended December.

The table below gives this information for Australia for the years 1959-60 to 1963-64.

FISHERIES PRODUCTION: GROSS VALUE, AUSTRALIA

(£'000)

Product	1959-60	1960-61	1961-62	1962-63	1963-64
Fish(a)	5,851	5,907	6,075	6,142	6,832
Crustaceans ..	5,561	5,906	7,477	8,006	7,814
Molluscs (edible)(b) ..	1,089	1,186	1,252	1,404	1,675
Pearl-shell(c)	(d) 558	(d) 724	(d) 361	334	195
Trochus-shell(c)	78	27	28	18	5

(a) Includes shark livers for oil extraction; excludes freshwater fish caught in Queensland in 1960-61 and subsequent years. (b) Excludes pipis in New South Wales and scallops in Western Australia for all years, and oysters in the Northern Territory for 1959-60. (c) Season ended December (Western Australia) or January (Queensland and Northern Territory) of years shown. (d) Excludes pearl-shell taken by Japanese pearl-liners in Australian waters. The Japanese pearling fleet did not operate in Australian waters after 1961-62.

(ii) *Gross and Local Values, 1963-64.* Gross and local values of fishing and whaling production for each State are shown in the following table. A more detailed reference to the value of production of fishing and whaling and other industries in Australia, as well as a brief explanation of the terms used, is included in Chapter XXX. Miscellaneous.

**FISHING AND WHALING: GROSS AND LOCAL VALUE OF PRODUCTION,
1963-64**

(£'000)

State or Territory			Gross value(a)	Marketing costs	Local value(b)
New South Wales	4,690	762	3,928
Victoria	2,417	316	2,101
Queensland	2,363	201	2,162
South Australia	1,984	266	1,718
Western Australia	5,094	50	5,044
Tasmania	1,102	239	863
Northern Territory	26	n.a.	26
Australia			17,676	1,834	15,842

(a) Gross production valued at principal markets.

(b) Gross production valued at place of production.

(iii) *Local Values, 1959-60 to 1963-64.* In the following table, the local value of fisheries production and the local value per head of population are shown by States. Because the value of materials used in the course of production is not available for all States, it is not possible to show a comparison of net values.

FISHING AND WHALING: LOCAL VALUE OF PRODUCTION

Year	N.S.W.	Vic.	Qld	S. Aust.	W. Aust.	Tas.	Aust.(a)
LOCAL VALUE (£'000)							
1959-60	3,101	1,771	1,448	975	4,276	683	12,325
1960-61	3,299	1,787	1,372	1,237	4,220	813	12,813
1961-62	3,288	1,741	1,633	1,379	5,291	909	14,294
1962-63	3,800	1,624	1,922	1,473	5,564	885	15,311
1963-64	3,928	2,101	2,162	1,718	5,044	863	15,842

LOCAL VALUE PER HEAD OF POPULATION

(£)

1959-60	0.8	0.6	1.0	1.0	6.0	2.0	1.2
1960-61	0.9	0.6	0.9	1.3	5.8	2.3	1.2
1961-62	0.9	0.6	1.1	1.4	7.1	2.6	1.4
1962-63	0.9	0.6	1.2	1.5	7.2	2.5	1.4
1963-64	1.0	0.7	1.4	1.7	6.4	2.4	1.4

(a) Includes Northern Territory.

§ 7. Consumption of Edible Marine Products

Particulars of the estimated supplies of fish, crustaceans and molluscs available for consumption per head of population, in terms of edible weight, are included in the table below. For the purpose of compiling this table, an allowance has been made for the non-commercial fish catch.

MARINE PRODUCTS: ESTIMATED SUPPLIES AVAILABLE FOR CONSUMPTION, AUSTRALIA
(lb. edible weight per head per annum)

Total	11.3	11.7	10.5	11.1	11.7

§ 8. Oversea Trade in Marine Products

NOTE.—Values shown are expressed as £A. f.o.b. port of shipment. The tables of exports relate to Australian produce only, but quantities and values quoted in the text sometimes include re-exports, the amounts involved, however, generally being small.

1. **Edible Products.**—A large proportion of the fish consumed in Australia is imported. Of the edible products imported in 1963-64, those originating in United Kingdom were valued at £2.8 million (25 per cent. of the total value), Japan, £2.4 million (21 per cent.), South Africa, £1.2 million (11 per cent.), and Canada, £1.1 million (10 per cent.).

The United Kingdom supplied 13.3 million lb. (33 per cent., valued at £1.9 million) of the fresh or frozen fish products imported in 1963-64, South Africa, 6.9 million lb. (17 per cent. valued at £0.6 million), Denmark, 5.0 million lb. (12 per cent. valued at £0.7 million), and New Zealand, 4.9 million lb. (12 per cent., valued at £0.5 million). Of the smoked or dried fish products imported in 1963-64, South Africa supplied 5.3 million lb. (62 per cent., valued at £0.6 million) and the United Kingdom, 2.7 million lb. (32 per cent. valued at £0.3 million). Japan supplied 9.6 million lb. (38 per cent., valued at £2.2 million) of the canned fish products imported in 1963-64.

The value of exports of edible products in 1963-64 was 13 per cent. more than that in 1962-63. The value of crayfish tails exported in 1962-63 was 78 per cent. of the value of all exports of edible products. Of all crayfish tails exported in 1963-64, 89 per cent. (8,290,000 lb., valued at £4,977,000) were consigned to the United States of America.

The table below gives further details of Australia's overseas trade in edible products in the years 1961-62, 1962-63 and 1963-64.

OVERSEA TRADE IN EDIBLE MARINE PRODUCTS: AUSTRALIA

Products not elsewhere included	3	2	13
Grand Total	6,468	6,300	7,157

(a) Excludes frozen smoked, which is included with "Smoked and dried". (b) Includes extracts and caviare. (c) Excludes frozen smoked, which is included in item Products not elsewhere included.

2. Pearls.—Cultured pearls valued at £323,000 were imported into Australia in 1963–64. This was 32 per cent. greater than the value imported in 1962–63 (£245,000). In 1963–64 imports of cultured pearls valued at £319,000 (99 per cent. of the total value of cultured pearl imports) originated in Japan.

Cultured pearls exported from Australia in 1963–64 were valued at £316,000, £45,000 less than 1962–63. In 1963–64 cultured pearl exports consigned to Japan were valued at £310,000, 98 per cent. of the value of all cultured pearls shipped in that year.

The value of natural pearls exported from Australia in 1963–64 was £167,000, an increase of £161,000 compared with 1962–63 (£6,000). In 1963–64 natural pearls consigned to Japan were valued at £155,000, 93 per cent. of the value of all natural pearls shipped in that year.

3. Shells.—Of the pearl-shell exported in 1963–64, 431,000 lb. (35 per cent.) were consigned to the Federal Republic of Germany, 391,000 lb. (31 per cent.) to Japan, and 240,000 lb. (19 per cent.) to the United States of America. Of the trochus-shell exported, 122,000 lb. (41 per cent.) were consigned to Italy, and 108,000 lb. (36 per cent.) to the Federal Republic of Germany.

Imports of shells included quantities of pearl, trochus and green snail shell from New Guinea, Papua and the Pacific Islands, which were subsequently re-exported from Australia.

Further particulars of Australia's oversea trade in shells are shown in the table below.

OVERSEA TRADE IN SHELLS: AUSTRALIA

CHAPTER XXVI

MINERAL INDUSTRY

NOTE.—Further detailed information on the subjects dealt with in this chapter is contained in the annual printed bulletin *Non-Rural Primary Industries and Value of Production* issued by this Bureau, and in *The Australian Mineral Industry—Annual Review* and other publications issued by the Bureau of Mineral Resources, Geology and Geophysics, which also issues, in co-operation with this Bureau, a quarterly publication *The Australian Mineral Industry*, comprising two parts—Part I.—Quarterly Review, and Part II.—Quarterly Statistics. The mimeographed statistical bulletin *Mining and Quarrying* of this Bureau contains annual statistics of the industry prepared and published as soon as possible after the data have been compiled. A monthly statistical bulletin *The Gold Mining Industry, Australia* is issued also, and other current information on mining or mine products is contained in the *Quarterly Summary of Australian Statistics*, the *Monthly Review of Business Statistics*, the *Digest of Current Economic Statistics* and the *Monthly Bulletin of Production Statistics*.

§ 1. Mineral Resources, Administration and Research

1. Occurrences of Minerals.—The greatest part of the area of outcropping rock on the Australian continent is Precambrian in age. These basement rocks form the western and central core of the continent and are flanked by younger Palaeozoic rocks which, along the eastern edge of the continent, form a belt several hundred miles wide extending from north Queensland to Tasmania. Smaller areas of Palaeozoic rocks occur in other States. Mesozoic sediments overlies large areas of the continent and reach their greatest development in central Queensland. Cainozoic rocks occur mainly in the southern parts of Victoria and South Australia and as residual basalt cappings over an extensive area of the Palaeozoic rocks of eastern Australia.

Minerals occur widely throughout the Precambrian and Palaeozoic rocks of the continent. Palaeozoic mineralization is perhaps more varied, but the deposits now being worked are in general smaller than those found in Precambrian rocks. Most of the larger deposits of minerals now being mined in Australia are shown in the following table according to the age of the geological formation in which they are found.

PRINCIPAL AUSTRALIAN MINERAL DEPOSITS

Age of geological formation in which located	Metal or mineral	State or Territory	Locality
Precambrian (more than 520 million years old)	Copper ..	Queensland ..	Mount Isa
	Gold ..	Northern Territory	Tennant Creek
		Western Australia	Kalgoortie and other localities
	Iron ..	South Australia ..	Middleback Ranges
		Western Australia	Yampi Sound and Pilbara
	Lead-silver-zinc	New South Wales	Broken Hill
	Uranium ..	Queensland ..	Mount Isa
Northern Territory		Mary Kathleen Rum Jungle and South Alligator River area	
Palaeozoic (between 200 and 520 million years old)	Black coal ..	New South Wales	Hunter Valley, Lithgow, South Coast
		Queensland ..	Kianga-Moura, Baralaba, Bowen, etc.
	Copper-gold ..	Western Australia	Collie
		Queensland ..	Mount Morgan
	Lead-silver-zinc	Tasmania ..	Mount Lyell
		Tasmania ..	Mount Read and Rosebery
	Tin (tode) ..	Queensland ..	Herberton
Tungsten ..	Tasmania ..	North-east of State	
	Tasmania ..	King Island and north-east of State	

PRINCIPAL AUSTRALIAN MINERAL DEPOSITS—*continued*

Age of geological formation in which located	Metal or mineral	State or Territory	Locality
Mesozoic (between 75 and 200 million years old)	Black coal ..	Queensland .. South Australia ..	Ipswich Leigh Creek
	Manangese ..	Northern Territory	Groote Eylandt
	Bauxite ..	Queensland .. Western Australia	Weipa Darling Range
Cainozoic (less than 75 million years old)	Brown coal ..	Victoria ..	Gippsland
	Mineral sands ^(a)	New South Wales	North coast
		Queensland ..	South coast
	Tin (alluvial) ..	Western Australia	South-west coast
		New South Wales	Tingha
		Queensland .. Tasmania ..	Herberton North-east of State

(a) Derived from granites of Palaeozoic age and sandstones of Mesozoic age in eastern Australia and from granites of Precambrian age in Western Australia.

Of the non-metallic minerals, many, such as clay, sand and silica, etc., are not restricted to the rocks of any particular era and are often polycyclic in nature. However, Precambrian rocks do contain important deposits of blue asbestos in Western Australia, limestone and dolomite in South Australia, and mica in the Northern Territory. All crude salt is produced by the evaporation of water from pans constructed along the sea coast or from inland lakes.

A map showing the location of principal mining centres, mineral discoveries, and mineral processing centres appears facing page 1154.

2. Government Administration and Assistance.—(i) *General.* For all practical purposes all mineral rights in Australia are vested in the Crown. In the States sovereign rights are held by the State Governments with respect to mineral resources within their boundaries. In the Territories of the Commonwealth these rights are vested in the Commonwealth Government. The Commonwealth Government, in addition, is able to influence development and production activity in the mineral industry by virtue of its statutory powers with respect to international trade, customs and excise, taxation and loan raisings.

The Commonwealth Government maintains export controls over certain minerals and metals. These controls are enforced by means of Customs (Prohibited Exports) Regulations as amended from time to time by Statutory Rules. The Commonwealth authorities having jurisdiction over mineral and metal exports, together with the relevant products are listed below. A clearance to export is needed in each case. In November, 1964, temporary restrictions were placed on the export of copper as a result of the industrial dispute at Mt. Isa.

Department of National Development—iron ores, beneficiated iron ores and iron concentrates; mineral sands in all forms (including concentrates) containing zircon, rutile or ilmenite; lithium ores and concentrates; manganese ores; beryllium ores and concentrates.

Department of Primary Industry—phosphate rock, phosphate and superphosphate, and fertilizers containing phosphate or superphosphate.

Australian Atomic Energy Commission—uranium and thorium minerals including monazite; uranium, thorium, beryllium, hafnium and lithium metals, compounds and alloys; hafnium-free zirconium metals, alloys and compounds; very pure calcium metal; nickel metal in certain forms.

The Commonwealth Government and the various State Governments provide assistance to the mineral industry in a variety of ways. The main forms of assistance are discussed below.

(ii) *Commonwealth Government Assistance.* Assistance provided by the Commonwealth Government takes the form of income taxation concessions, subsidies, and technical assistance mainly through the work of the Bureau of Mineral Resources and the Commonwealth Scientific and Industrial Research Organization.

(a) *Income Taxation Concessions.* One-fifth of the net income derived from mining for prescribed minerals in Australia or the Territory of Papua and New Guinea is exempt from tax. The metals or minerals to which this concession applies are as follows:—asbestos,

bauxite, chromite, emery, fluorspar, graphite, ilmenite, kyanite, magnesite, manganese oxides, mica, monazite, pyrite, quartz crystals (piezo-electric quality), radio-active ores, rutile, sillimanite, vermiculite and zircon; and ores of antimony, arsenic, beryllium, bismuth, cobalt, columbium, copper, lithium, mercury, molybdenum, nickel, osmiridium, platinum, selenium, strontium, tantalum, tellurium, tin, tungsten and vanadium.

Income derived from mining principally for gold in Australia or the Territory of Papua and New Guinea is exempt from tax. The exemption is also available in respect of income derived from mining principally for gold and copper if the value of the gold obtained is not less than 40 per cent. of the value of total output.

Income attributable to uranium obtained from working a mining property in Australia or the Territory of Papua and New Guinea, or from the treatment of ore in Australia or the Territory to recover uranium concentrates, is exempt from tax for residents of Australia and the Territory of Papua and New Guinea. The exemption is, however, conditional upon the uranium recovered being owned by the Commonwealth or disposed of to a person approved by the Commonwealth.

Dividends paid wholly and exclusively out of exempt mining income are also exempt from tax.

Valuable assistance has been given in the form of certain taxation concessions to encourage the search for petroleum. Investors are permitted, for tax purposes, to deduct from their assessable income all sums paid for shares issued by petroleum exploration companies in respect of application, allotment, and call moneys. These deductions are allowable only if a petroleum exploration company elects to forego an equivalent amount when, in the event of commercial production, capital expenditure is claimed as a deduction for tax purposes. Most Australian petroleum exploration companies have elected to pass on this benefit to their shareholders. In 1963 amendments aimed at providing increased incentive to petroleum exploration companies extended the range of deductible items to include expenditure on the purchase of rights to prospect, preliminary expenses incurred in the operation of exploration companies, and several other fringe items. The effect of these concessions is to exempt a company from payment of income tax on profits derived from the sale of petroleum until such time as the capital expended in developing the production has been recouped.

Further information is given in a booklet entitled *Income Tax for the Mining Industry*, issued by the Commissioner of Taxation.

(b) *Petroleum Search Subsidy.* In 1957 the Commonwealth Government introduced the *Petroleum Search Subsidy Act 1957*, whereby stratigraphic drilling operations were subsidized to the extent of 50 per cent. of cost. The *Petroleum Search Subsidy Act 1959* widened the scope of operations for which subsidy was offered to include all types of geophysical surveys and off-structure drilling operations. Another amendment in 1961 further widened the scope of the 1959 Act to provide subsidy for test drilling and detailed structure drilling operations. It also provided for the calculation of drilling subsidies on a footage basis as an alternative to the total cost basis. A sum of £5 million was allocated to the petroleum search subsidy scheme for 1962-63. This amount was almost double the allocation of £2.7 million provided in the previous year. In spite of the increased allocation, applications for subsidy increased to such an extent that the maximum rate of subsidy was reduced in 1962-63 from 50 per cent. of the allowable cost of approved operations to 30 per cent.

The *Petroleum Search Subsidy Act 1959-1961* was amended in June, 1964, to extend Commonwealth subsidy for a further three years. The *Petroleum Search Subsidy Act 1959-1964* provides subsidy for approved geophysical surveys, test and stratigraphic drilling operations; bore-hole surveys, off-structure and detailed structure drilling are no longer eligible for subsidy. As in the previous Act, an applicant may elect to receive subsidy for both types of drilling operations on either a footage basis or a total cost basis. In addition, the production testing of any well approved for subsidy is also eligible for additional subsidy. Under the Act the Minister may vary the rates of subsidy for prescribed operations but they may not exceed one-half the total cost. The present rates of subsidy for approved operations on a cost basis are 30 per cent. for test-drilling and 40 per cent. for stratigraphic drilling. The rate for all types of geophysical operations is 30 per cent. The 1959-1964 Act also specifies that exploration for petroleum on the Australian continental shelf is eligible for subsidy, retrospective to 1959. The Federal budget for 1964-65 contained an appropriation of £5 million for subsidies under the Act.

On 28th October, 1964, the Minister announced that action was necessary to limit the burden of the Commonwealth subsidy scheme on the Australian taxpayer in view of the many recent encouraging discoveries of oil and gas which were now providing the incentive to further exploration. To this end the Minister announced that operations within certain defined areas around discovery wells and fields would not be approved for subsidy. For the present, projects in the following areas would not be eligible for subsidy: 20 miles from a gas well; 30 miles from an oil well; 40 miles from a gas field; 50 miles from an oil field.

(c) *Assistance to the Gold-mining Industry.* Assistance to the gold-mining industry by subsidy was introduced at a time of rising costs in the industry and a fixed official world price for gold. Because many producers were faced with the likelihood of closing down, the Government decided to subsidize marginal producers in Australia and the Territories of Papua and New Guinea. Under the *Gold-Mining Industry Assistance Act 1954* a producer the value of whose gold output exceeded 50 per cent. of the total value of his mine output was eligible for assistance, subject to certain conditions, on the production of gold from 1st July, 1954. The rate of subsidy payable under the original Act was increased under amendments enacted on 22nd October, 1957, and 22nd May, 1959. The Act was again amended on 2nd June, 1965. Under the Act as it now stands, the subsidy payable to small producers whose annual deliveries do not exceed 500 fine oz. is £3 per fine oz., irrespective of cost of production or rate of profit. For large producers, subject to certain provisions, subsidy is paid at the rate of three-quarters of the excess of the average cost of production over £13 10s. per fine oz. with a maximum amount of subsidy of £4 per fine oz. A producer whose deliveries during the year exceed 500 fine oz. may elect to be treated as a small producer. In this case, the subsidy rate payable per fine ounce on total deliveries is £3 reduced by 1.2d. for each fine ounce by which deliveries exceed 500 fine ounces. The benefit under this provision terminates when deliveries in a year reach 1,100 fine ounces. Where a producer receives an amount in excess of the official price of £15 12s. 6d. per fine oz. as a result of sales on overseas premium markets or otherwise, the subsidy payable is reduced by the amount of the excess. The subsidy was also limited, prior to 30th June, 1965, in the case of large producers, to the extent that the annual net profit of a producer was not, with the addition of the subsidy, to exceed 10 per cent. of the capital used in the production and sale of gold. This limitation has now been removed. The latest amendment also provided for the removal of another two restrictive provisions. A large producer's entitlement to subsidy is no longer subject to reduction if the amount of expenditure on development included in costs exceeds a certain amount, or if the recovery rate of the mine falls below nine-tenths of that for the previous year. A significant liberalization was included in a provision under which a large producer is now able to include in his costs for subsidy purposes one-half of costs incurred in approved exploratory diamond drilling elsewhere than on his mining property. Payments under the amended Act are to apply to production until 30th June, 1970.

Payments under the Act commenced in March, 1955, and the amounts paid to gold producers in the various States and Territories of Australia in each of the years 1959 to 1964 are shown in the table on page 1152.

The purpose of the *Gold Mines Development Assistance Act 1962* was to provide assistance to gold producers in Australia and the Territories of Papua and New Guinea not receiving subsidy under the *Gold-Mining Industry Assistance Act 1954-1962*, in order to increase the rate of their development work and so to add to their proved reserves of gold-bearing minerals. In recent years, these reserves had declined to the extent that the long-term prospects of the industry were jeopardized. The Act, which applied to 1962-63 and the next two financial years, provided that a development allowance was payable to a mine approved for the purposes of the scheme equal to the amount by which its allowable expenditure on development in a year, as defined in the Act, exceeded a defined base amount which would normally be the average annual amount spent by the mine on development during the three years preceding 1962-63. The payment of allowance was also subject to a number of other conditions and limits provided for in the Act. With the liberalization of the *Gold-Mining Industry Assistance Act* from 1st July, 1965, the Commonwealth Government decided not to extend the development assistance legislation, which, accordingly, lapsed on 30th June, 1965.

(d) *Assistance to the Copper Mining Industry.* After a Tariff Board investigation, assistance was accorded to the industry in 1958, partly by import duty and partly by bounty. The assistance to the industry was reviewed in 1960 and 1963, and the present bounty assistance will continue until 31st December, 1965. Under the *Copper Bounty Act 1958-1963* bounty is payable, subject to specified conditions, on refined copper sold for use in Australia. The rate of bounty is £35 a ton when the overseas price, as determined by the Minister for Customs and Excise, is £290 (£Stg.232) or less. When the overseas price rises above £290,

the bounty falls by the same extent, so that no bounty is payable when the oversea price is £325 (£Sig.260) or more. A duty is imposed on imports of copper when the oversea price falls below £290 a ton, to the extent of £1 for each £1 that the price falls below £290. Including freight and other charges, the landed cost of imported copper is thus expected not to fall below about £305 a ton.

(e) *Assistance to Producers of Sulphuric Acid and Iron Pyrites.* Following recommendations of the Tariff Board, the Sulphuric Acid Bounty Act was extended for a period of five years from 1st July, 1960. Arising from these same recommendations, the *Pyrites Bounty Act* 1960 was enacted on 15th December, 1960, to be operative for a period of four and a half years from 1st January, 1961. The Acts provide for bounties to be paid, subject to specified conditions, on sulphuric acid produced from prescribed materials of Australian origin and to producers of iron pyrites. In June, 1965, it was announced that assistance under these Acts would continue until 31st December 1965 (unless an earlier date is specified by proclamation).

(f) *Bureau of Mineral Resources.* The functions of the Bureau of Mineral Resources, Geology and Geophysics are to explore, investigate and encourage the development of mineral deposits; to survey and assess the mineral resources of the Commonwealth and its Territories and to initiate and investigate proposals for their development; to interpret the results of completed surveys and recommend ways of remedying or meeting mineral deficiencies and to advise on all aspects of the mineral economy of Australia, including the best utilization of mineral resources in the national interest; to carry out geological and geophysical surveys and investigations and advise on all aspects of applied geology and geophysics.

The Bureau comprises five branches under the Director: Operations, Mineral Resources, Geological, Geophysical, and Petroleum Exploration. The Operations Branch consists of three sections, Planning and Co-ordination, Publications and Information, and Administrative. It carries out central office functions, including planning and control of programme, assessment of results, co-ordination of activities, liaison, and distribution of information. The Mineral Resources Branch comprises the sections Mineral Economics, Mining Engineering and Petroleum Technology, and is concerned largely with those aspects of the Bureau's work which involve studies of the mineral industry as a whole, and the preparation of advice and reviews for the Government, industry and the public. The Geological and Geophysical Branches are responsible for the principal field activities of the Bureau, and the operation of observatories; while the Petroleum Exploration Branch is concerned with the administration of the Petroleum Search Subsidy Act, and is also engaged in the assessment of sedimentary basins in Australia and its Territories. The establishment of the Bureau is 536 officers of whom 280 are professional. The budget for the financial year 1963-64 was approximately £7.6 million, of which £5 million was provided for payment under the Petroleum Search Subsidy Act.

The Bureau maintains in Canberra, Melbourne, and Darwin laboratories which are engaged on geochemical, geochronological, and petroleum technological studies, and basic research into the design and testing of geophysical equipment. The Bureau also maintains a vulcanological observatory at Rabaul and geophysical observatories at Melbourne, Toolangi, Mundaring, Darwin, Port Moresby, Mawson and Wilkes (Antarctica), and Macquarie Island. The geophysical observatories are engaged in magnetic, ionospheric, and seismic investigations, and are base stations for field operations.

(g) *Commonwealth Scientific and Industrial Research Organization.* The activities of this body with respect to the mineral industry are discussed on page 1137 under Research.

(iii) *State Government Assistance.* In addition to free assays and determinations of rocks and minerals carried out for prospectors by the Mines Departments of the States and Territories, technical officers of these departments provide advice to the mining and allied industries where required, carry out field examinations of mining prospects, advise on exploration and development, select sites for water supply, and in general give a free technical service to the mining industry.

New South Wales. State aid to assist metalliferous mining may consist of grants to assist the prospecting and/or mining for gold and minerals, and for the purchase, removal and installation of mining plant or equipment. A quantity of mechanical equipment is also available in several localities for hire at reasonable rentals to prospectors and small mine operators, and District Inspectors have geiger counters and schelite detectors which are loaned to approved persons.

Victoria. Loans may be granted to assist prospecting and development or the purchase of machinery for gold mining. The Mines Department has stamp batteries in different parts of the State to crush ore for prospectors at nominal rates. Small mining companies may avail themselves of these facilities. Drilling with diamond, rotary and percussion drills is carried out by the Mines Department for mining companies and for general mineral exploration. A survey of the State's underground water resources is in progress, in conjunction with the development of town water supplies from underground sources.

Queensland. Various forms of assistance to mining are made available by the Queensland Department of Mines. Grants are made from the Consolidated Revenue Fund for use on construction and maintenance of roads in mining areas. Advances are made from the Gold Mining Encouragement Fund for mining development work. This assistance is restricted to gold mines, and advances are repayable from proceeds of the mine, if any. From the Assistance to Metalliferous Mining Fund, plant such as jackhammers, compressors and pumps is purchased and maintained. Such plant is made available on hire, the rental payments being credited back to the fund. Prospecting assistance is made available in approved cases, the rates being £2 10s. a week for a single man and £3 10s. a week for a married man with dependants. This is not repayable. From the Advances to Mining Fund, assistance by way of subsidy is advanced for mine development. This is repayable from proceeds of the mine. The department also maintains a treatment works for tin ores, etc., at Irvinebank, an assay office at Cloncurry, and diamond-drilling plants in several parts of the State. The Venus State battery at Charters Towers is available for the treatment of gold-bearing ores.

South Australia. The Department of Mines provides the following services and facilities to the mineral industry:—(i) hire of boring plant and mining equipment, boring and testing of mineral deposits, financial subsidies in approved cases for prospecting and mining development, development of sub-surface water supplies for farming, pastoral, irrigation and mining purposes, and purchase of basic metal ores from prospectors; (ii) geological examination of mineral deposits, water supply, dam foundation and drainage problems, guidance on mining legislation, and publication and issue of geological bulletins and maps. It also provides, through the Australian Mineral Development Laboratories, chemical and metallurgical and analytical and assay investigation, testing and treatment of ores and minerals, and petrographic, mineragraphic and radiometric determinations. Pilot scale metallurgical and chemical treatment plants are maintained and operated for the development of mineral extraction processes.

Western Australia. Assistance is given to prospectors to the extent of £6 a week south of the Tropic of Capricorn, and of £7 a week north of that line; also provision is made for the supply of some tools required for prospecting.

There are twenty State batteries operating intermittently throughout the goldfields for the treatment of ore from prospectors and small mine-owners at a nominal charge. A cartage subsidy is also granted to such operators sending ore to State batteries for treatment.

Provision is made for loans to mine-owners who require assistance to develop mines. The Government also has a drilling scheme, financing mine-owners on a £1 for £1 basis.

Tasmania. The Department of Mines provides financial assistance to mining lessees for the purchase of plant and machinery, for sinking, repairing or de-watering of shafts, for construction of dams and water races, for testing and proving a deposit of any mining product, for developmental work, and for diamond and other types of drilling. The Department has available for hire percussion and diamond drills for exploration, as well as a complete plant for small shaft sinking and tunnelling. Other assistance is rendered to the industry in the form of geological and engineering advice, through ore-dressing research into metallurgical recoveries, and the selection and design of treatment plant.

In consequence of a serious fall in world tungsten prices the *King Island Scheelite Agreement Act 1963 (No. 1)* was passed. This Act permitted the Tasmanian Government to provide financial assistance until the end of August, 1963, so that production of scheelite on King Island could be continued. A second Act (*King Island Scheelite Agreement Act 1963 (No. 2)*) gave authority for advances in the period to 31st May, 1964.

Northern Territory. To encourage the development of the mining industry the Northern Territory Administration has erected four government batteries for the treatment of miners' ores. Only two of these, at Tennant Creek and Mount Wells near Burrundie, are now in operation. The re-opening of the other two batteries will depend on the revival of small scale wolfram and tin mining in Hatches Creek and Maranboy where these batteries are located.

The crushing charges are subsidized by government grants. In addition, the Administration provides cartage subsidies and financial advances to encourage miners to carry out developmental work. Roads and water supply services are provided and maintained for mines under active development throughout the Territory.

3. **Research.**—Research investigations into problems of mining, ore-dressing and metallurgy are conducted by Governmental bodies, by universities, by private enterprise and by combined efforts of these bodies.

Commonwealth Scientific and Industrial Research Organization. Research for the mineral industry by the Commonwealth Scientific and Industrial Research Organization is concentrated mainly in the Divisions of Applied Mineralogy and Mineral Chemistry, and in the Mineragraphic Investigations and Ore-Dressing Investigations Sections. All of these groups have their laboratories in Melbourne. In addition, the Division of Applied Mineralogy has a small laboratory in Perth. The two Divisions are engaged in chemical research on the utilization and industrial application of minerals, both metallic and non-metallic, while the Ore-Dressing Investigations Section carries out investigations into the fundamentals of mineral processing operations. Research in the Mineragraphic Investigations Section is concerned with most aspects of mineralogy and petrology, including the examination of ores, rocks and minerals, the study of chemical element distribution in mines and mineral prospects, and the use of mineralogical techniques in problems connected with primary and secondary industry. Other sections carry out research on the properties of metals and alloys, and on the characteristics and uses of coals.

Australian Atomic Energy Commission. The Australian Atomic Energy Commission conducts research at its laboratories at Lucas Heights in Sydney on the development of nuclear power, including research on nuclear materials and on metals and ceramics used for nuclear power. Research conducted by the Commission is discussed in detail in Chapter XIX. Education, Cultural Activities and Research.

Australian Mineral Development Laboratories. Research investigations into mineral problems are undertaken by the Australian Mineral Development Laboratories in Adelaide. This organization is sponsored by the Commonwealth Government, the South Australian Government and the Australian Mineral Industries Research Association (an association of companies engaged in the mineral industry formed to foster and develop mineral research). These sponsors furnish work for the laboratories, or guarantee finance, in the proportions 25 : 50 : 25 respectively. The laboratories have sections dealing with mineralogy, petrology, chemical analysis, ore-dressing, ceramics, and extractive and physical metallurgy.

National Coal Research Advisory Committee. In December, 1964, the appointment of a National Coal Research Advisory Committee was completed, and the establishment of the Australian Coal Industry Research Laboratories was begun. These laboratories will assume the functions and the facilities of the Australian Coal Association (Research) Ltd., a subsidiary of the Australian Coal Association which is an association of colliery companies in New South Wales and Queensland. These developments have resulted from the recommendations of the Coal Utilization Research Advisory Committee made in 1962. The National Coal Research Advisory Committee, which had its inaugural meeting in Sydney in January, 1965, will report on all coal utilization research programmes in Australia and advise the Commonwealth and State Governments as to the disposition of additional funds to be made available for such research. It is proposed that in the first year of operation additional funds of about £250,000 will be available for coal utilization research, bringing total expenditure on coal research in Australia to nearly £1 million annually.

University Research. The various universities in Australia carry out research into various aspects of the mineral industry such as geology, ore mineralogy and genesis, mining techniques, mineral processing, extractive metallurgy, and materials and metals technology.

Research by Private Enterprise. Most large mining and smelting companies have laboratories dealing with their own individual immediate problems. The largest of such laboratories are those of the Broken Hill Proprietary Company Ltd. (the only company with central research facilities separate from production operations and in addition to works laboratories), Broken Hill Associated Smelters Pty. Ltd., and Conzinc Riotinto of Australia Ltd. Private industry has formed the Australian Mineral Industries Research Association which is composed of 43 members which represent a large proportion of the mining, metallurgical and related companies operating in Australia at present. The chief function of the association is to represent private industry in the management of the Australian Mineral Development Laboratories, but the Association also finances other research work into geology, mining and ore-dressing.

The Association recently conducted a survey among its members to obtain details of their research expenditure. The companies surveyed reported their expenditure on research and development, excluding exploration, as £2,364,722 in 1962 and £2,550,113 in 1963. Five of the companies reported their expenditure on research in excess of £100,000 per annum, four between £50,000 and £100,000, five between £10,000 and £50,000, and 29 reported a research budget less than £10,000 per annum.

§ 2. Scope and Sources of Statistics

1. Scope of Statistics.—Statistics presented in this chapter refer mainly to the mining and quarrying industry, which is defined as including all mining and quarrying and the recovery of minerals from ore dumps, tailings, etc. Ore-dressing and elementary smelting of metallic minerals (e.g. in the case of gold) and miscellaneous treatment of non-metallic minerals, where these are carried out in an associated plant at or near the mine, are included in the mining industry. Establishments primarily engaged in smelting and/or refining (including the smelting and refining sections of the large plants operated at Mount Morgan and Mount Isa in Queensland and at Mount Lyell in Tasmania) are excluded from the mining industry and are classified to the manufacturing industry.

However, data relating to mineral treatment activities have been included wherever possible. Thus the information presented in this chapter relates to some extent to the concept of the mineral industry which is generally accepted as including mining and quarrying and the treatment of minerals (e.g. in smelting and refining works).

The coverage of establishments engaged in mining is considered to be satisfactory. However, coverage of establishments engaged in the quarrying of construction materials is incomplete in most States. This deficiency is due primarily to the inherent difficulty of obtaining complete lists of quarries (including those operated by government authorities), many of which operate intermittently and in different locations. There is difficulty also in obtaining satisfactory returns from quarries operated in conjunction with some other activity, e.g. roadmaking, brickworks, etc., and quarries operated in conjunction with large construction projects, such as the Snowy Mountains Scheme, are excluded from these statistics. In some States there have been deficiencies also in the collection of data for certain non-metal (excluding fuel) mining industries, mainly because these are outside the fields normally under the administrative control of Mines Departments. Products chiefly affected are clays, loam and silica.

Statistics presented in this chapter refer mainly to the calendar year 1963, although in some cases data for 1964 are available and have been included. In a few instances it has been necessary to show data on a fiscal year basis, but wherever this occurs it is clearly indicated.

2. Sources of Statistics.—Mining industry data have been obtained annually, since 1952, from the Mining and Quarrying Census. This census is carried out in collaboration with the several Mines Departments and involves the uniform collection of particulars from all establishments employing on the average four or more persons during the period worked by the mine. A representative specimen collection form is included in the bulletin *Non-Rural Primary Industries and Value of Production*, No. 1, 1962-63. For smaller mines either simplified Census returns covering number of persons employed and value of output are collected or these particulars are compiled from data made available by the Mines Departments.

Oil search operations are excluded from the annual Census, but a summary of recent developments in the search for oil, contributed by the Commonwealth Bureau of Mineral Resources, may be found in § 15 of this chapter. Details of the activities of establishments engaged in the mining and treatment of uranium ore have been excluded because of the confidential nature of these operations.

Mineral production statistics contained in this chapter consist, in the main, of official statistics of the Mines Departments of the several States and of the Northern Territory Mines Branch. The particulars shown have been compiled as far as practicable on the standardized basis which has been used in Australia since 1950, and this presentation has involved some rearrangement of official statistics published by the Mines Departments in some States. These statistics have been supplemented, as necessary, by data obtained from the Statisticians of the Several States, the Bureau of Mineral Resources, Geology and Geophysics, the Joint Coal Board, the Division of Minerals of the United States Bureau of Mines, and from several other sources.

Data of imports and exports of minerals and mineral products have been extracted from the official trade statistics compiled in the Commonwealth Bureau of Census and Statistics. Values of Australian oversea trade shown throughout this chapter are expressed as £A. f.o.b. port of shipment, except where otherwise indicated.

§ 3. Mining and Quarrying Industry Statistics

1. **General.**—The mining and quarrying industry is classified into four major groups, namely, metal mining, fuel mining, non-metal mining (excluding fuel), and construction material quarrying.

Mining and quarrying establishments are classified to these groups, and to sub-divisions of these groups, on the basis of the product or products of the establishments. This method of classification is straightforward for those establishments which produce only one product, but for mines and quarries which produce more than one product classification is not as simple a matter. Such establishments are classified according to the most important mineral produced in terms of value. Thus a mine producing, say, both tin and tungsten minerals would be classified as a tin mine if tin were the more important product by value, and as a tungsten mine if tungsten were the dominant product. There is, however, one important exception to this rule in that the mining establishment at Mount Isa is classified to the lead-silver-zinc sector rather than to the copper-gold sector.

For mines and quarries which produce more than one product it is not possible to apportion particulars of operations (such as employment, salaries and wages paid, costs) to the minerals produced. In practice, then, these data are recorded only as a total for each mine, and the mine is classified to an industry sector as outlined above.

Statistics relating to the structure of the industry, employment, production costs and value of additions and replacements to fixed assets are given in the following pages.

2. **Number of Mines and Quarries.**—The following table shows the number of mines and quarries which operated in each State and Territory in 1963.

MINING AND QUARRYING: NUMBER OF MINES AND QUARRIES, 1963

Industry	N.S.W.	Vic.	Q'land	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Metal mining—									
Gold mining	31	31	34	..	146	4	11	..	257
Lead-silver-zinc mining ..	9	..	1	..	1	2	13
Copper-gold mining	17	1	44	2	32	1	1	..	98
Tin mining	52	6	190	..	14	24	14	..	300
Mineral sands mining	10	..	4	..	4	18
Other metal mining	20	2	6	2	29	2	1	..	62
Total, Metal Mining	139	40	279	4	226	33	27	..	748
Fuel mining—									
Black coal mining—									
Underground	91	2	69	..	3	(a) 10	175
Open-cut	3	..	5	1	1	10
Total	94	2	74	1	4	10	185
Brown coal mining	6	6
Other fuel mining	2	2
Total, Fuel Mining ..	94	8	76	1	4	10	193
Non-metal (excluding fuel) mining	391	68	103	132	73	24	1	..	792
Total, All Mining ..	624	116	458	137	303	67	28	..	1,733
Construction material quarrying(b)	343	244	52	223	40	55	37	11	1,005
Total, All Mining and Quarrying	967	360	510	360	343	122	65	11	2,738

(a) Includes one mine operating both underground and open-cut workings, owing to difficulties of coverage. See § 2, para. 1. Scope of Statistics, p. 1138.

(b) Incomplete.

In the next table, the numbers of mines and quarries which operated in Australia in each of the years 1959 to 1963 are shown.

MINING AND QUARRYING: NUMBER OF MINES AND QUARRIES, AUSTRALIA

Industry	1959	1960	1961	1962	1963
Metal mining—					
Gold mining	306	296	295	286	257
Lead-silver-zinc mining	35	28	27	22	13
Copper-gold mining	81	90	111	107	98
Tin mining	216	216	266	344	300
Mineral sands mining	22	22	21	20	18
Other metal mining	96	94	85	87	62
<i>Total, Metal Mining</i>	<i>756</i>	<i>746</i>	<i>805</i>	<i>866</i>	<i>748</i>
Fuel mining—					
Black coal mining	218	218	202	198	185
Brown coal mining	8	7	6	6	6
Other fuel mining	2
<i>Total, Fuel Mining</i>	<i>226</i>	<i>225</i>	<i>208</i>	<i>204</i>	<i>193</i>
Non-metal (excluding fuel) mining(a)	687	698	755	731	792
<i>Total, All Mining</i>	<i>1,669</i>	<i>1,669</i>	<i>1,768</i>	<i>1,801</i>	<i>1,733</i>
Construction material quarrying(a)	862	892	(b)1,056	(b)1,107	(b)1,005

(a) Incomplete. See § 2, para. 1. Scope of Statistics, p. 1138. prior to 1961, owing to extension of coverage in Victoria.

(b) Not comparable with years

3. **Employment in Mining and Quarrying.**—(i) *Persons Engaged.* Statistics of persons employed in the mining and quarrying industry are derived mainly from the annual census of that industry.

Data on the work force employed in the industry are also obtained from the population censuses of Australia. The population census figure for mining and quarrying includes a number of persons excluded from the mining and quarrying census employment figure, e.g. persons engaged in exploration activities, prospectors, head office employees, etc.

In the following table, which shows particulars collected in the population censuses of Australia at 30th June, 1947, 1954, and 1961, the numbers of persons whose industry statements were classified to "mining and quarrying" are shown together with the numbers engaged in all primary industries and the total work force.

PERSONS ENGAGED IN MINING AND QUARRYING: AUSTRALIA

Particulars	Census, 30th June—		
	1947	1954	1961
Persons engaged in—			
Mining and quarrying	57,574	62,107	54,401
All primary industries	563,697	560,100	513,286
Total work force	3,196,431	3,702,022	4,225,096
Persons engaged in mining and quarrying as a proportion of—			
All primary industries %	10.2	11.1	10.6
Total work force %	1.8	1.7	1.3

NOTE.—An adjustment was made to the 1947 and 1954 industry data by distributing over the range of recorded industry the number of persons whose industry was not stated. No such adjustment was made to the 1961 figures.

The following table is derived from mining census data and shows the average numbers engaged in the various mining industries in each State or Territory in 1963.

MINING AND QUARRYING: EMPLOYMENT(a), 1963

Industry	N.S.W.	Vic.	Q'land	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.

(a) Average employment during whole year, including working proprietors. (b) Not available for publication. (c) Includes other fuel mining. (d) Includes persons engaged by one mine which has both underground and opencut workings. (e) Incomplete owing to difficulties of coverage. See § 2, para. 1. Scope of Statistics, p. 1138.

The following table shows particulars of mining employment in Australia for the years 1959 to 1963. The figures show the average number of persons employed during the whole year, including working proprietors.

MINING AND QUARRYING: EMPLOYMENT, AUSTRALIA

Industry	1959	1960	1961	1962	1963
Metal mining—					
Gold mining	5,948	5,544	5,438	5,290	5,287
Lead-silver-zinc mining	9,031	8,731	8,158	7,958	7,946
Copper-gold mining ..	2,301	2,364	2,322	2,242	2,288
Tin mining	926	946	1,131	1,157	1,116
Mineral sands mining ..	1,019	1,127	1,141	1,408	1,565
Other metal mining ..	1,031	1,177	1,097	968	1,168
Total, Metal Mining	20,256	19,889	19,287	19,023	19,370
Fuel mining—					
Black coal mining	18,678	18,529	16,957	16,312	a 15,636
Brown coal mining	1,519	1,399	1,441	1,453	1,613
Total, Fuel Mining	20,197	19,928	18,398	17,765	17,249
Non-metal (excluding fuel) mining	2,975	2,925	2,942	2,838	2,823
Total, All Mining	43,428	42,742	40,627	39,626	39,442
Construction material quarrying (b)	4,116	5,016	(c) 5,498	(c) 5,599	(c) 5,406
Total, All Mining and Quarrying	47,544	47,758	c 46,125	c 45,222	c 44,848

(a) Includes other fuel mining. (b) Incomplete, see § 2, para. 1. Scope of Statistics, p. 1138. (c) Not comparable with years prior to 1961, owing to extension of coverage in Victoria.

(ii) *Size Classification of Mines and Quarries.* Most of the mines and quarries worked during 1963 employed less than four persons, including working proprietors. However, more than half of the persons engaged in mining and quarrying were in the 47 mines each employing 200 persons or more. The following table shows the distribution of the total number of mines into various size groups according to the average number of persons employed during the period worked by each mine in 1963.

MINING AND QUARRYING: SIZE CLASSIFICATION OF ESTABLISHMENTS, 1963

Mines and quarries employing on the average(a)—	N.S.W.	Vic.	Q'land	S.A.	W.A.	Tas.	N.T. and A.C.T.	Aust.
Less than 4 persons—								
Establishments ..	690	152	346	262	243	59	60	1,812
Persons ..	1,042	266	573	459	661	190	142	3,333
From 4 to 20 persons—								
Establishments ..	168	180	93	82	72	50	12	657
Persons ..	1,304	1,386	937	642	579	380	97	5,325
From 21 to 200 persons—								
Establishments ..	84	25	69	14	17	10	3	222
Persons ..	6,687	999	(b)	(b)	1,283	599	151	13,717
More than 200 persons—								
Establishments ..	25	3	2	2	11	3	1	47
Persons ..	11,459	1,965	(b)	(b)	5,148	1,684	244	24,818
Total—								
Establishments ..	967	360	510	360	343	122	76	2,738
Persons ..	20,492	4,616	8,609	2,318	7,671	2,853	634	47,193

(a) Average during period worked. Includes working proprietors. (b) Not available for publication; included in total for Australia.

(iii) *Accidents in Mining.* Particulars of numbers of persons killed and injured in accidents in mines and associated treatment plants are recorded by State Mines Departments. Numbers injured are not reported on a uniform basis in all States, as varying criteria are used in determining what constitutes injury. In 1963, 25 persons were recorded as killed and 1,255 as injured in mining (excluding quarrying) accidents. Recorded deaths and injuries in that year were highest in black coal mines (8 and 272, respectively), copper-gold mines (3 and 112), tin mines (3 and 37), gold mines (1 and 345), and silver-lead-zinc mines (1 and 315). Persons killed and injured in the construction material quarrying industry numbered 6 and 56 respectively in 1963.

4. Production Costs in Mining and Quarrying.—(i) Salaries and Wages Paid. Salaries and wages paid in the mining and quarrying industries in Australia during each year 1959 to 1963 are shown in the following table. Information regarding rates of wages paid in the mining industry is shown in Chapter XIII. Labour, Wages and Prices (p. 431) and also in the *Labour Report*.

MINING AND QUARRYING: SALARIES AND WAGES PAID(a), AUSTRALIA
(£'000)

Industry	1959	1960	1961	1962	1963
Metal mining—					
Gold mining	6,504	6,655	6,591	6,534	6,536
Lead-silver-zinc mining	13,944	13,555	13,261	12,227	12,839
Copper-gold mining	2,710	2,938	2,915	2,851	3,100
Tin mining	814	905	946	1,050	1,251
Mineral sands mining	1,188	1,336	1,474	1,739	2,078

(a) Excludes mines and quarries employing less than four persons.
 (c) Incomplete. See § 2, para. 1. Scope of Statistics, p. 1138.

(b) Includes other fuel mining.

6. Value of Production.—Particulars of the local value of production (ex-mine value of output) for individual mining industry groups and quarrying are shown on pages 1185.

§ 4. Mining and Quarrying Commodity Statistics

1. General.—In the preparation of Australian mineral commodity production statistics the quantities and values of individual minerals produced are recorded in terms of the products in the form in which they are dispatched from the locality of each mine. For example, in the case of a metal mine, the output is recorded as ore when no treatment is undertaken at the mine, or as a concentrate where ore-dressing operations are carried out in associated works in the locality of the mine. In addition to the basic quantity data, the contents of metallic minerals and contents or average grade of selected non-metallic minerals are recorded. Whenever practicable, contents (based on assay) of metallic minerals are shown for each metal which is a "pay metal" or a "refiners' prize" when present in the particular mineral. In general, other metallic contents which are not recovered are excluded.

Minerals are divided into four major groups, namely, metals, fuels, non-metals (excluding fuels) and construction materials. In this chapter individual mineral products are arranged in these four groups. Particulars relating to uranium-bearing minerals are excluded.

2. Quantity of Principal Minerals Produced.—In the following table particulars of the quantity of the principal minerals produced during 1963 are shown for each State and the Northern Territory.

QUANTITIES OF PRINCIPAL MINERALS PRODUCED, 1963

Mineral	N.S.W.	Vic.	Q'land	S.A.	W.A.	Tas.	N.T.	Aust.

QUANTITIES OF PRINCIPAL MINERALS PRODUCED: AUSTRALIA—*continued*

Mineral	1959	1960	1961	1962	1963
CONSTRUCTION MATERIALS(g)					
Sand '000 tons	4,623	5,934	7,427	7,535	9,050
River gravel "	2,524	2,932	6,018	5,912	7,624
Dimension stone "	283	318	533	379	629
Crushed and broken stone "	19,822	22,530	27,303	27,944	29,768
Other (decomposed rock, etc.) "	13,699	15,586	16,482	17,310	20,830

(a) Includes cupreous ore for fertilizer. (b) Bullion, alluvial, retorted gold, etc. (c) Gross weight not available. (d) Iron oxide for metal extraction. (e) Includes lead-silver-zinc ore. (f) Excludes quantities used directly as building or road material. (g) Incomplete owing to difficulties of coverage. See § 2, para. 1. Scope of Statistics, p. 1138. 1961 and later figures are not comparable with previous years owing to extension of coverage in Victoria.

NOTE.—Particulars of production of uranium oxide (U₃O₈) are not available for publication.

3. Contents of Metallic Minerals Produced.—The following table shows the contents of metallic minerals produced in 1963 which were "pay metals" or which were recovered as "refiners' prizes". Further particulars for earlier years are shown in the following paragraph and in the sections later in this chapter covering principal contents.

CONTENTS OF METALLIC MINERALS PRODUCED, 1963

Content of metallic minerals produced	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	Aust.
Alumina (Al ₂ O ₃) .. tons	2,801	1,161	129,371	..	21,166	154,499

(a) 1 unit = 22.4 lb. (b) Iron oxide for metal extraction. (c) Content of metallurgical grade manganese ore. (d) Content of manganese ore of other than metallurgical grade, and zinc concentrate. (e) Sulphur content of pyrite and other minerals from which sulphur is extracted.

NOTE.—Particulars of production of uranium oxide (U₃O₈) are not available for publication.

4. Value of Minerals Produced.—Particulars of the values of minerals (mine and quarry products) produced are shown on pages 1184-8.

§ 5. Gold

1. Historical.—A brief history of gold-mining in Australia may be found in previous issues of the Year Book (see No. 48, p. 1059).

2. Methods of Mining and Treatment.—Nearly all gold-bearing ore produced in Australia is won by underground mining of veins or lodes. Gold won from alluvial deposits is almost negligible and is, in part, a by-product of alluvial tin mining. A high recovery of gold can be made from most gold ores by amalgamation, amalgamation followed by cyanidation, or by cyanidation only. The Kalgoorlie mines, the largest producers of gold in Australia, find it necessary, in addition to cyanidating the whole of the ore, to make a flotation concentrate of the sulphide and telluride minerals which are then roasted and cyanided separately. Gold, whether recovered by amalgamation, cyanidation or flotation is always smelted into the form of bullion before sale.

3. **Mine Production.**—The following table shows the mine production of gold (gold content of minerals produced) during 1963 according to the mineral in which it was contained and the State or Territory of origin.

GOLD: MINE PRODUCTION, 1963

(fine oz.)

Mineral in which contained	N.S.W.	Vic.	Q'land	S.A.	W.A.	Tas.	N.T.	Aust.
Copper ore, concentrate, etc.	53,369	..	4,310	10,305	23,758	91,742
Gold bullion(a) ..	321	24,668	15,217	16	798,550	165	56,265	895,202
Lead concentrate ..	9,485	4,335	..	13,820
Lead-copper concentrate	18,820	..	18,820
Zinc concentrate ..	1,589	2,797	..	4,386
Total Gold ..	11,395	24,668	68,586	16	802,860	36,422	80,023	1,023,970

(a) Retorted gold, alluvial gold, etc.

The principal sources of production during 1963 were as follows.

Western Australia. More than half the total production came from the East Coolgardie goldfield, while most of the remaining production came from the Dundas, Murchison and Yilgarn goldfields. Total production was 802,860 fine ounces, which was 57,179 fine ounces less than production in 1962. The Yilgarn, Coolgardie, East Murchison and Pilbara fields recorded lower production.

Northern Territory. Gold production is centred on Tennant Creek.

Queensland. The copper concentrate produced at Mount Morgan contained more than three-quarters of the State's output of gold, nearly all the remaining production coming from a mine at Cracow.

The following table shows the recorded mine production of gold (i.e. gold content of minerals produced) in the several States and in Australia as a whole during each year 1960 to 1964 and total output since the first major discovery of gold in 1851. Owing to defective information in the earlier years, it is likely that the total production figures fall considerably short of the actual totals.

GOLD: MINE PRODUCTION(a)

State or Territory	1960	1961	1962	1963	1964(b)	Total(b) 1851-1964
	f. oz.	f. oz.	f. oz.	f. oz.	f. oz.	'000 f. oz.
New South Wales ..	13,628	12,034	11,234	11,395	10,569	16,495

(a) Gold content of minerals produced.

(b) Subject to revision.

4. **Refinery Production.**—Amalgam and gold slimes from cyanide extraction are treated at the mines to produce gold bullion, which at some mines may be partly refined before dispatch to the refineries (the largest refinery is the Royal Mint, Perth). By-product gold from lead smelting is refined at Port Pirie in South Australia, while the gold contained in copper refinery sludges resulting from electrolytic copper refining at Mount Lyell and Port Kembla is recovered at Port Kembla. Gold bullion and other gold-bearing materials are also refined in Sydney and Melbourne.

Details of the refinery production of gold in Australia and the value of refined newly-won gold of Australian origin are shown in the following table for each of the years 1960 to 1964. The value of the refined newly-won gold is based on the price fixed by the Reserve Bank, but allowance is made for premiums on sales of gold overseas and for industrial purposes in Australia.

PRODUCTION OF REFINED GOLD IN AUSTRALIA

Particulars	1960	1961	1962	1963	1964
QUANTITY (FINE OZ.)					
Australian origin—					
Newly-won gold	1,045,139	1,036,947	1,024,623	958,381	892,726
From scrap	22,699	22,593	21,806	20,404	19,282
Oversea origin—					
Newly-won gold	142,526	155,598	138,455	161,083	140,557

Net industrial consumption of gold	40,972	35,429	47,881	61,042	77,580
<i>Total Disposals</i> ..	<i>2,580,681</i>	<i>1,174,965</i>	<i>407,043</i>	<i>583,857</i>	<i>555,350</i>
Changes in stocks of gold held in Australia(e)	-1,349,939	+ 47,606	+ 794,757	+ 602,178	+ 554,704

(a) Subject to revision. (b) Gold content of minerals produced in Australia. (c) Excludes specie, leaf and foil and gold in unrefined forms other than the gold content of unrefined gold and silver bullion. (d) Excludes gold imported in some minor minerals. (e) Includes changes in holdings in Australia by official and banking institutions both on their own behalf and that of non-residents, together with the gold content of changes in stocks of minerals awaiting refining. The sign near the figure indicates increase (+) or decrease (-) in stocks during the period shown.

6. **Prices of Gold.**—Under existing legislation all gold produced in Australia is sold to the Reserve Bank. The official price of gold is fixed by the Reserve Bank. On 1st May, 1954, it was raised from £15 9s. 10d. to £15 12s. 6d. per fine oz. and has remained unchanged since that date. The current price reflects the "parity" value of Australian currency established by the *International Monetary Agreement Act 1947*. Prior to 1947 the price of gold was based on the price for which it could be sold abroad in official markets, less cost of movement.

Average prices of gold per fine oz. at mints in Australia and on the London gold market are shown in the following table for the years 1960 to 1964.

PRICES OF GOLD: AUSTRALIA AND LONDON
(per fine oz.)

Place of sale	1960	1961	1962	1963	1964
At mints in Australia £A. s. d.	15 12 6	15 12 6	15 12 6	15 12 6	15 12 6
London £stg. s. d.	12 11 2½	12 11 0	12 10 1	12 10 6½	12 11 3½

7. **Sales of Gold on Oversea Premium Markets.**—In November, 1951, the Commonwealth Government decided to allow Australian gold producers to benefit from the higher prices then being paid for gold on some overseas markets. To implement this decision producers formed the Gold Producers' Association Limited in December, 1951, and the first sales were made in that month. By arrangement with the Reserve Bank of Australia the total quantity of newly-won gold delivered to the Bank by members of the Association in any calendar month, less the quantity required for industrial purposes in Australia, is available to the Association for sale on overseas premium markets during the ensuing two calendar months. The net proceeds from premium sales are distributed to members in proportion to their production of gold.

The following table shows the quantity and value of gold sold on oversea premium markets and the average price realized for these sales during the years 1960 to 1964.

GOLD SOLD ON OVERSEA PREMIUM MARKETS

Particulars	1960	1961	1962	1963	1964
Quantity fine oz.	320,151	733,217	320,323	512,805	448,310
Value £A.	5,049,183	11,513,571	5,016,625	8,028,227	7,038,619
Average price £A. s. d.	15 15 5	15 14 0½	15 13 2½	15 13 1½	15 14 0

8. *Gold Subsidy*.—Details of amounts paid under the provisions of the *Gold-Mining Industry Assistance Act 1954-1962* for the years 1960 to 1964 are shown in the following table. Particulars of this Act and other legislation are given on page 1134.

NET SUBSIDY PAYMENTS TO GOLD PRODUCERS

§ 6. Lead, Silver and Zinc

1. **Historical.**—A brief history of silver-lead-zinc mining in Australia may be found in previous issues of the Year Book (*see* No. 48, p. 1065).

2. **Methods of Mining and Treatment.**—All the lead-zinc production from the large mines is obtained by underground mining. The lead-zinc sulphides mined are concentrated by differential flotation to produce separate lead and zinc concentrates, the lead concentrates containing most of the silver originally present in the ore.

3. **Mine Production.**—The following table shows the mine production for 1963 (metal content of ores and concentrates produced) of lead, silver and zinc in Australia, and the respective minerals in which these metals were contained.

LEAD, SILVER AND ZINC: CONTENT OF ORES AND CONCENTRATES PRODUCED, 1963

Total Silver ..	11,424,858	546	6,202,059	..	220,854	1,702,652	90,956	19,641,925
ZINC (tons)								
Lead concentrate ..	18,530	..	12,145	2,537	..	33,212
Lead-copper concentrate	1,081	..	1,081
Zinc concentrate ..	247,107	..	25,199	44,871	..	317,177
Total Zinc ..	265,637	..	37,344	48,489	..	351,470

The principal sources of production of lead, silver and zinc during 1963, were as follows.

New South Wales. Lead and zinc concentrates, produced at Broken Hill, contained nearly all the New South Wales production of lead, silver and zinc. During 1963 New South Wales mines produced (in terms of the content of all ores and concentrates produced) 80 per cent. of Australia's lead, 76 per cent. of the zinc and 58 per cent. of the silver.

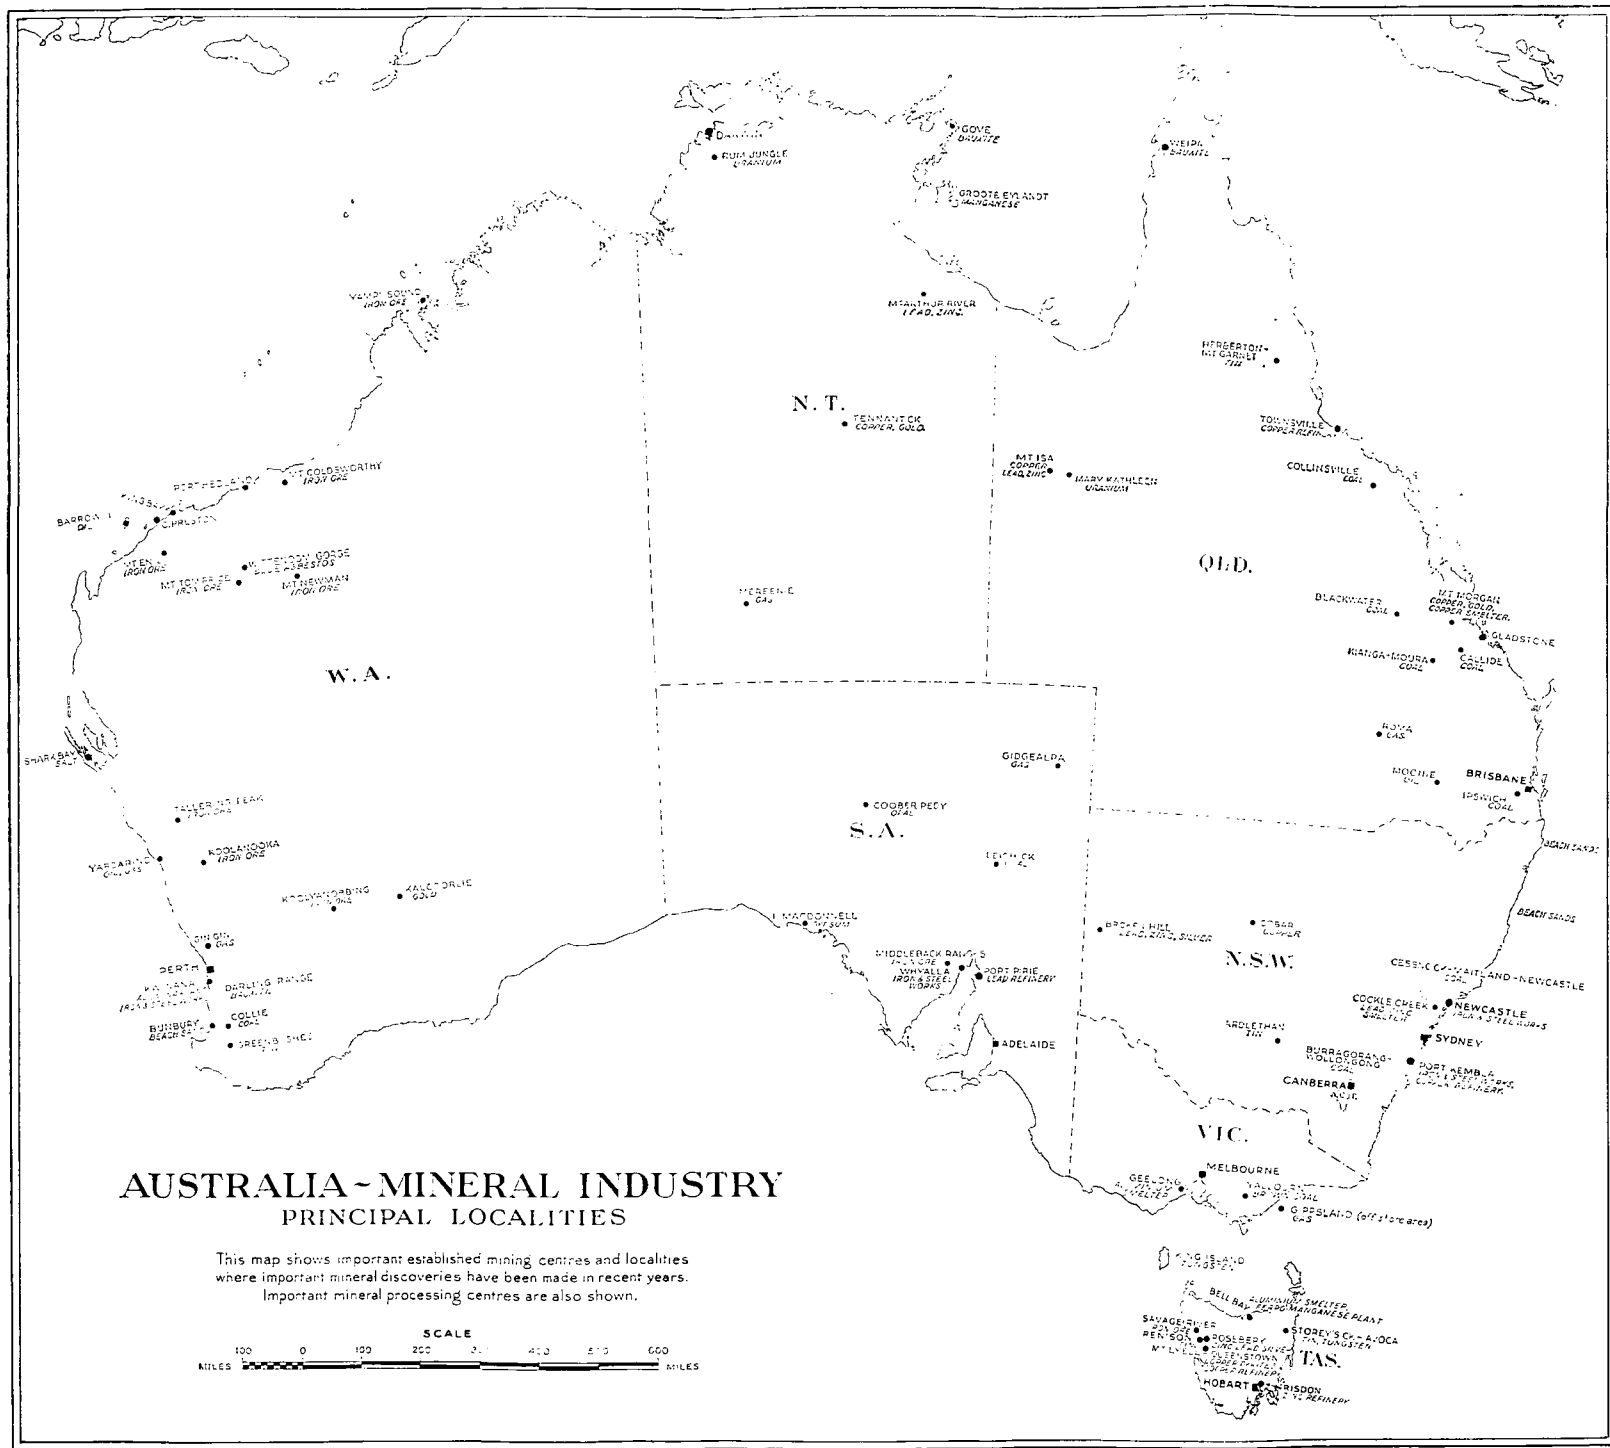

Queensland. Mount Isa produced all the lead and zinc concentrates in Queensland during 1963. These concentrates contained almost all the State's production of lead and silver and all the zinc. Nearly all the remaining silver was contained in copper concentrates produced at Mount Isa and at Mount Morgan.

Tasmania. All the lead, silver and zinc was produced from mines on the west coast. All the zinc and most of the lead and silver were produced from mines at Rosebery and Williamsford and milled at Rosebery to produce separate lead, zinc, and lead-copper concentrates.

The table hereunder shows the quantities of lead, silver and zinc contained in minerals won in the several States and the Northern Territory during the years 1959 to 1963.

LEAD, SILVER AND ZINC: CONTENT OF ORES AND CONCENTRATES PRODUCED

State or Territory	1959	1960	1961	1962	1963

4. **Smelter and Refinery Production.**—(i) *Lead.* The bulk of lead concentrate produced at Broken Hill is railed to Port Pirie, in South Australia, for smelting and refining. Lead-silver bullion is produced from initial smelting, and lead, silver and gold are then extracted as refined products. Cadmium is contained in the smelter fumes and is extracted, but this metal is more characteristically associated with zinc production. The sulphur dioxide gas formed during pre-smelter sintering operations is used to manufacture sulphuric acid. The antimony contained in the concentrate is alloyed with lead to form marketable antimonial lead, while the copper is recovered in various products which are sent to copper refineries for copper extraction.

In 1961 a new smelter was commissioned at Cockle Creek, New South Wales. It draws its supplies of lead and zinc concentrates from Broken Hill. This plant is unique in Australia in that the zinc content of lead concentrate is recovered. Previously this zinc content had accumulated in lead smelter slags. The bullion produced at this plant is exported for treatment while most of the refined zinc is used domestically. Sulphuric acid and cadmium are recovered as by-products. Some of the Broken Hill concentrate not treated at Port Pirie and Cockle Creek is exported for treatment overseas.

Lead ore and concentrate produced at Mount Isa is smelted at the mine to derive a lead bullion which is rich in silver. All this bullion is exported to the United Kingdom for refining. A lead-copper dross is produced as a by-product of lead smelting and this is also exported. Lead and lead-copper concentrates produced in Tasmania and lead concentrates produced in Western Australia are exported for smelting and refining overseas.

(ii) *Zinc.* A large proportion of the zinc concentrate produced at Broken Hill is exported, and the remainder is either shipped from Port Pirie to Risdon, near Hobart, or railed to Cockle Creek for smelting and refining. At Risdon the Broken Hill concentrate, together with all zinc concentrate produced in Tasmania, is roasted to form zinc oxide or calcine. Sulphur dioxide formed during this roasting process is used for the manufacture of sulphuric acid. The calcine is leached with a weak solution of sulphuric acid to form a zinc sulphate solution which, after purification, is electrolysed. Zinc of high purity is deposited on the cathodes and this zinc is melted and cast into ingots. Cadmium metal and cobalt oxide are also recovered. Zinc concentrate produced at Mount Isa is refined overseas.

The following table gives, for the years 1959 to 1963, particulars of the production and apparent consumption of refined primary lead, silver and zinc as recorded from data received from the Bureau of Mineral Resources.

REFINED LEAD, SILVER AND ZINC: PRODUCTION, CONSUMPTION AND EXPORTS, AUSTRALIA

§ 7. Copper

1. **Historical.**—A brief history of copper-mining in Australia may be found in previous issues of the Year Book (see No. 48, p. 1070).

2. **Assistance to the Copper Mining Industry.**—For particulars, see pages 1134–5.

3. **Methods of Mining and Treatment.**—Most of the large copper ore bodies contain the mineral chalcopyrite, an iron-copper sulphide. Copper ore is mined by opencut methods at Mount Morgan, Mount Isa and Mount Lyell and by underground methods at Mount Isa, Ravensthorpe (Western Australia) and Tennant Creek (Northern Territory). Oxidized copper ore is mined at Mount Isa and at numerous other localities, mainly in Western Australia.

It is the practice for the sulphide ore to be finely ground and for the chalcopyrite contained in it to be recovered by flotation. At Mount Lyell and Mount Morgan the tailings from the copper flotation are subjected to a further flotation and a pyrite concentrate is produced. The oxidized ore mined at Mount Isa was, in the past, fed direct to the smelter for fluxing purposes, but since 1963 some has been concentrated. Large amounts of this oxidized ore have been removed from the open-cut, but only material actually smelted or concentrated is recorded as current production.

4. Mine Production.—The following table shows for 1963 the copper content of all minerals produced in the several States and the Northern Territory.

COPPER: CONTENT OF ORES AND CONCENTRATES PRODUCED, 1963
(tons)

Mineral in which contained	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	Aust.
Copper ore, concentrate, and precipitate ..	118	6	82,382	5	1,889	15,352	7,147	106,899
Lead concentrate ..	3,320	..	839	..	30	125	..	4,314
Lead-copper concentrate	1,090	..	1,090
Zinc concentrate ..	426	238	..	664
Total	3,864	6	83,221	5	1,919	16,805	7,147	112,967

The following were the principal sources of copper during 1963.

Queensland. Mount Isa was the most important copper producing centre in Australia, its 1963 output being 65 per cent. of the Australian total. The copper produced at Mount Isa is contained in copper sulphide concentrate, oxidized copper ore and lead concentrate. Copper concentrate produced at Mount Morgan contained most of the remainder of the State's production.

Tasmania. Most of the State's production was at Mount Lyell, where copper is contained in copper concentrate, ore and precipitate. Lead-copper concentrate and lead concentrate milled at Rosebery contained the remainder of Tasmania's production.

Northern Territory. Copper concentrate from Tennant Creek and copper concentrate and precipitate from Rum Jungle contained almost all the Territory's output of copper.

The table hereunder shows the quantities of copper contained in minerals produced in the several States and the Northern Territory during the years 1959 to 1963.

COPPER: CONTENT OF ORES AND CONCENTRATES PRODUCED
(tons)

State or Territory	1959	1960	1961	1962	1963
New South Wales	3,728	3,572	3,510	3,747	3,864
Victoria	14	..	8	10	6
Queensland	66,798	82,753	66,505	79,242	83,221
South Australia	16	5	2	2	5
Western Australia	2,197	1,661	2,206	1,488	1,919
Tasmania	12,244	11,680	12,743	14,515	16,805
Northern Territory	9,953	9,764	10,652	7,968	7,147
Australia	94,950	109,435	95,626	106,972	112,967

5. *Smelter and Refinery Production of Copper.*—Most of the copper concentrate milled in Australia is smelted locally, blister copper being produced at Mount Isa, Mount Morgan, Mount Lyell and Port Kembla. Blister copper smelted at Mount Isa is railed to Townsville for electrolytic refining. Mount Lyell blister copper is electrolytically refined at Mount Lyell and the bulk is re-melted and cast into primary shapes at Port Kembla. Mount Morgan blister copper is shipped to Port Kembla, where, together with blister copper produced at Port Kembla, it is refined. All refined copper now produced in Australia is processed electrolytically. At Port Kembla gold and silver contained in electrolytic refining tank house slimes from Mount Lyell, Townsville, and Port Kembla are recovered.

In the following table details are given of the production and exports of blister and refined copper for the years 1959 to 1963.

§ 8. Tin

1. **Historical.**—A brief history of tin-mining in Australia may be found in previous issues of the Year Book (*see* No. 48, p. 1073).

2. **Methods of Mining and Treatment.**—The greater part of tin concentrate production is obtained from alluvial workings as a gravity concentrate of cassiterite (tin oxide). The remainder is obtained from underground mining, where the tin mineralization is frequently associated with wolfram and sulphide minerals.

3. **Mine Production.**—The following table sets out the tin content of tin concentrate produced in Australia during the years 1959 to 1963. No tin production is recorded from minerals other than tin concentrate.

TIN: CONTENT OF TIN CONCENTRATES PRODUCED

(tons)

State or Territory	1959	1960	1961	1962	1963
New South Wales	174	223	173	212	250
Victoria	7	11
Queensland	1,104	885	1,350	1,077	1,196
Western Australia	174	190	231	323	363
Tasmania	890	884	986	1,058	1,005
Northern Territory	9	20	5	38	35
Australia	2,351	2,202	2,745	2,715	2,860

The following were the principal sources of production in 1963.

Queensland. Most of the tin concentrate produced was from the Herberton field, production being principally alluvial. Tin concentrate was also produced in the Chillagoe, Kangaroo Hills, Cooktown and Mareeba districts.

Tasmania. Most of the tin concentrate produced was won in the north-east part of the State from both lode and alluvial deposits. Wolfram concentrate, as well as tin concentrate, was produced.

Western Australia. Nearly all the tin concentrate produced was alluvial tin won from the Pilbara field.

4. **Smelter and Refinery Production.**—Except concentrate shipped to oversea smelters for technical reasons, the bulk of the production is treated by the two tin smelters located in Sydney.

The production of refined tin in Australia from locally produced tin concentrate during recent years, as recorded by the Bureau of Mineral Resources, was as follows:—1959, 2,226 tons; 1960, 2,254 tons; 1961, 2,546 tons; 1962, 2,704 tons; 1963, 2,626 tons; and 1964, 3,021 tons.

Consumption of refined tin has increased substantially in recent years following the introduction of tin-plate production in Australia; hot-dip plating began in 1957 and the electrolytic plant at Port Kembla, New South Wales, commenced operations early in 1962.

5. **Prices.**—Details of the movement in average market prices of tin for the years 1960 to 1964 are given in terms of Australian currency and sterling in the following table.

AVERAGE PRICE OF TIN IN AUSTRALIA AND THE UNITED KINGDOM
(£ per ton)

Country	1960	1961	1962	1963	1964
Australia £A (a)	1,042	1,169	1,163	1,179	1,598
United Kingdom .. £stg.(b)	794	895	898	909	1,217

(a) Delivered, Sydney.

(b) London Metal Exchange price.

6. **Production in Principal Countries.**—World production of tin reached its maximum in 1941, when 241,400 tons were recorded. Australia's contribution to the world's tin production is slightly above 1 per cent.

Mine production of tin for selected principal producing countries and Australia and the estimated world totals for 1959 to 1963 are given in the following table.

TIN: MINE PRODUCTION IN SELECTED COUNTRIES

(b) Estimated.

§ 9. Iron

1. **Historical.**—A brief history of the iron and steel industry may be found in previous issues of the Year Book (*see* No. 50, p 1162).

2. **Recent Developments in the Iron and Steel Industries.**—In December, 1960, the Commonwealth Government announced a partial relaxation of the embargo on the export of iron ore which had been in force since 1938. This relaxation was further increased in 1963 after it became evident that reserves of iron ore in Australia are very extensive. Permission has been granted for the export of iron ore from Talling Peak-Koolanooka Hills, Mount Goldsworthy, the Hamersley and Ophthalmia Ranges and the Scott River area in Western Australia, and from small deposits in New South Wales and Queensland. A number of development agreements have been signed, mainly in Western Australia, for mining leases over important reserves of iron ore, and negotiations for the export of iron ore to Japan have been concluded in a number of instances.

Exports of iron ore in the future will be mainly from Western Australia. In December, 1963, the Western Mining-Hanna-Homestake consortium signed a contract with a group of Japanese steel mills to ship ore from the Talling Peak-Koolanooka Hills area to Japan. According to the terms of the contract, a total of 5.1 million tons of ore will be exported over a period of eight years from April, 1966. Shipments of iron ore are also due to start in April, 1966, from the deposits at Mount Goldsworthy, east of Port Hedland. Japanese steel mills have agreed to purchase 16.5 million tons of iron ore from Mount Goldsworthy Mining Associates over a period of seven years. A harbour deepening programme at Port Hedland costing about £5 million has been initiated, and overall cost of the development project, including construction costs of railway facilities from Mount Goldsworthy to Port Hedland, may exceed £20 million.

Major developments for the export of iron ore will take place at Mount Tom Price in the Hamersley Range and Mount Whaleback in the Ophthalmia Range. An offer by Hamersley Iron Pty. Ltd. to export iron ore to Japanese steel mills has been accepted, and 65.5 to 75 million tons of ore will be shipped over 16 to 18 years, with shipments beginning in August, 1966. A similar large scale offer by Mount Newman Iron Ore Co. Ltd. has also been accepted and 100 million tons of ore will be shipped over 21 to 22 years with shipments commencing in 1969. Both of these companies have signed with the Western Australian Government agreements which provide for the eventual establishment of a steel industry in Western Australia. Developments for the export of iron ore may also take place in the Robe River area of the Pilbara district, where Cleveland Cliffs Iron Mining Company proposes to produce pellets for export to Japan.

A small contract for the export of iron ore from the Frances Creek area in the Northern Territory has been signed, and the export of three million tons of ore over eight years is expected to begin in 1967. Exports of iron ore may also eventuate from Tasmania, and an investigation programme is under way at Savage River to determine the feasibility of an iron ore mining and pellet production operation.

It has been estimated that by 1970 Australia's iron ore exports will be about 12 to 15 million tons annually. However, the actual annual tonnage will depend upon specific delivery dates of contracts which have yet to be finalized.

Expansion of the domestic steel industry continues. In May, 1965, the Broken Hill Proprietary Co. Ltd. opened a new steelworks at Whyalla. The plant, built at a cost of approximately £50 million, has an initial capacity of 500,000 tons of steel ingots a year.

Within two years development plans provide for an increase in capacity to 900,000 ingot tons a year; the major project in this programme being the construction of two batteries of coke ovens to cost £10 million. Capital expenditure in the Australian iron and steel industry is currently of the order of £40 million to £50 million annually.

3. **Mine Production of Iron Ore.**—Iron oxide deposits exist in all States and in the Northern Territory, but at present iron oxide for metal extraction purposes, termed iron ore in this chapter, is produced in two States only. The following table shows the estimated iron content of iron ore produced during the years 1959 to 1963.

IRON: ESTIMATED IRON CONTENT OF IRON ORE PRODUCED
(tons)

State	1959	1960	1961	1962	1963
South Australia	2,218,846	2,227,551	2,581,313	2,235,832	2,717,926
Western Australia	480,769	586,404	852,663	883,263	839,877
Australia	2,699,615	2,813,955	3,433,976	3,119,095	3,557,803

The producing centres during 1963 were as follows.

South Australia. 4,181,424 tons of iron ore were drawn from the Iron Monarch and Iron Prince quarries in the Middleback Ranges. Selected foundry grade ore was diverted as required to the Whyalla blast furnace, but the greater part was shipped to Newcastle and Port Kembla for smelting. Production of beneficiated iron ore commenced at Iron Knob in the latter part of 1962.

Western Australia. Ore shipped from Yampi Sound, north of Derby, to New South Wales for sintering and smelting amounted to 1,277,613 tons. A quantity of 55,525 tons was mined at Koolyanobbing, near Southern Cross, for pig iron production at Wundowie.

4. **Mine Production of Iron Oxide.**—Small quantities of iron oxide are mined in five Australian States. New South Wales and South Australia are the major producers. In 1963 Australian production was 40,061 tons, of which 47 per cent. was for cement manufacture, 45 per cent. for fluxing in metallurgical processes, 5 per cent. for coal washing and 3 per cent. for gas purification.

5. **Smelter and Refinery Production.**—The production of pig-iron and steel ingots in Australia, of which New South Wales is the main producing State, is shown in the following table.

PIG-IRON AND INGOT STEEL: PRODUCTION, AUSTRALIA
(tons)

Commodity	1959	1960	1961	1962	1963
Pig-iron(a)	2,506,514	2,876,267	3,156,411	3,434,336	3,624,673
Ingot steel(b)	3,395,261	3,693,770	3,884,929	4,170,830	4,574,546

(a) Excludes ferro-alloys.
steel castings.

(b) Includes recovery from scrap, but excludes production of direct

6. **Production of Iron and Steel in Principal Countries.**—Particulars of the production in the seven principal countries and Australia and the estimated world total production during the calendar years 1962 and 1963 are shown in the following table.

IRON AND STEEL: PRODUCTION IN SELECTED COUNTRIES

(Source: *Minerals Yearbook*, United States Department of the Interior)

('000 tons)

Country	Pig-iron and ferro-alloys		Ingot steel and castings	
	1962	1963	1962	1963
United States of America ..	60,389	65,940	87,793	97,555
U.S.S.R.	54,643	57,773	75,089	78,953
Germany, Federal Republic of ..	23,868	22,547	32,049	31,098
Japan	18,147	20,112	27,111	31,004
United Kingdom	13,830	14,591	20,491	22,520
France	13,384	14,272	16,968	17,279
China (Mainland)	17,679	16,696	11,607	11,607
Australia	3,464	3,672	4,221	4,625
<i>World Total(a)</i>	<i>263,000</i>	<i>275,866</i>	<i>354,800</i>	<i>379,741</i>

(a) Estimated.

In 1964 eleven blast furnaces were operating in Australia; four at Port Kembla and four at Newcastle in New South Wales, two at Wundowie in Western Australia, and one at Whyalla, South Australia. Production of pig-iron in 1964 was at a record level. The fourth blast furnace at Newcastle, with a daily capacity of 1,400 tons of pig-iron, was commissioned in July, 1963.

During 1964 the bulk of Australia's ingot steel production was obtained from 17 open hearth furnaces (13 at Port Kembla and 4 at Newcastle). In addition, 3 other open hearth furnaces and 15 electric furnaces were in operation during 1964 for the production of special steels and ferro-alloys. The use of oxygen in steel-making continued to be of great importance in Australia during 1964. All furnaces in the No. 2 open hearth shop at Port Kembla are now using oxygen lancing equipment and two basic oxygen steel-making units were in operation at Newcastle throughout the year. Annual steel-making capacity in Australia is now in excess of 5 million tons.

§ 10. Mineral Sands

1. **Historical.**—A brief history of mineral sands mining in Australia may be found in previous issues of the Year Book (see No. 50, p. 1166).

2. **Methods of Mining and Treatment.**—Mining on the east coast of Australia is mainly by suction dredging. In Western Australia ilmenite is mined hydraulically or by earth-moving equipment. Heavy mineral concentrates are recovered by wet gravity concentration, using a combination of concentrating spirals and shaking tables. The constituent minerals of the heavy-mineral concentrates, mainly rutile, zircon, ilmenite and monazite, are separated by electromagnetic and electrostatic methods.

3. **Mine Production.**—(i) *Titanium Dioxide.* The following table shows the quantities of titanium dioxide contained in rutile and ilmenite concentrates produced during the years 1959 to 1963.

TITANIUM DIOXIDE: CONTENT OF CONCENTRATES PRODUCED

(tons)

State	1959	1960	1961	1962	1963
-------	------	------	------	------	------

CONTAINED IN RUTILE CONCENTRATE

New South Wales	44,792	52,262	64,284	77,227	129,931
Queensland	34,736	33,260	33,056	37,472	45,454
Western Australia	96	493	880	501	732
Australia	79,624	86,015	98,220	115,200	176,117

CONTAINED IN ILMENITE CONCENTRATE

New South Wales	111	537	905	1,930	2,689
Queensland	21	2
Western Australia	45,788	58,169	92,838	98,364	109,244
Australia	45,899	58,727	93,745	100,294	111,933

The Western Australian production figures for ilmenite concentrate for the years 1959 to 1963 include the following quantities of titanium dioxide contained in leucocoxene: 1959, 222 tons; 1960, 71 tons; 1961, 428 tons; 1962, 532 tons; 1963, 472 tons.

(ii) *Zircon.* The quantities of zircon mineral contained in zircon concentrate produced during the years 1959 to 1963 are shown in the following table.

ZIRCON: CONTENT OF ZIRCON CONCENTRATE PRODUCED

(tons)

State	1959	1960	1961	1962	1963
New South Wales	71,156	65,764	98,421	89,947	117,520
Queensland	34,504	31,752	28,775	38,468	52,193
Western Australia	6,692	3,978	7,287	3,694	12,399
Australia	112,352	101,494	134,483	132,109	182,112

(iii) *Other Products.* During 1963 small quantities of monazite concentrate, magnetite and garnet concentrate were also recovered from mineral sands.

4. *Sources of Production.*—The principal sources of mineral sands treated during 1963 were as follows.

New South Wales and Queensland. The main deposits of mineral sands occur along the eastern Australian coast from Wyong in New South Wales to Curtis Island, Queensland. At present the principal mining operations are located between Lake Munmorah and Newcastle in the south, between Laurieton and Crescent Head on the central coast, and between Byron Bay and North Stradbroke Island in the north. Most mining operations are now confined to dunes and swampy areas lying behind beaches.

Western Australia. The chief deposits of mineral sands occur in the south-west corner of the State, between Bunbury and Wonnerup. During 1963 the bulk of production was from inland deposits in the Capel-Yoganup area.

§ 11. Aluminium

1. **Historical.**—The aluminium production industry in Australia is of comparatively recent origin. Following legislation enacted in 1944, the Commonwealth and Tasmanian Governments together formed the Australian Aluminium Production Commission and subsequently initiated construction of an alumina refinery and an aluminium reduction plant at Bell Bay in Tasmania. Plant capacity was 13,000 tons of aluminium metal per annum and production began in February, 1955. Supplies of bauxite for the plant were drawn from Malaya, Indonesia and India, as the then known Australian bauxite deposits were unsuitable because of technical and economic considerations.

This situation changed in the ensuing years as it became clear that three major deposits of bauxite existed in Australia. In 1952 bauxite had been found at Gove, on the north-eastern tip of the Northern Territory, but the importance of this discovery did not become evident until later. Subsequently, in 1955, the bauxite deposits at Weipa on the eastern shores of the Gulf of Carpentaria were discovered and investigated. Shortly after bauxite was found at Weipa, investigations were begun of bauxite deposits in the Darling Ranges, south-east of Perth. Each of these deposits was considered, after examination, to be of sufficient size and quality to form the basis of separate aluminium production complexes.

During 1960 the Commonwealth Government disposed of its share in the Bell Bay project to Comalco Industries Pty. Ltd. A £10 million expansion plan was subsequently initiated at Bell Bay and plant capacity was increased to 52,000 tons of aluminium per annum by 1963. At the same time the same group proceeded with a £5 million development programme at Weipa. Construction of port facilities at Weipa was completed in 1963 and large scale bauxite shipments to Bell Bay and overseas began. During 1963 plans for an alumina refinery to be situated at Gladstone in Queensland were announced; these plans were later modified as two overseas aluminium companies entered this project, which now involves an alumina refinery with a capacity of about 600,000 tons per annum. The cost of building the refinery and ancillary facilities will be about £50 million.

In mid-1961 it was announced that the Aluminium Company of America would participate with three Australian companies in the establishment of an integrated aluminium industry based on the bauxite deposits of the Darling Ranges. Subsequently quarrying operations were developed at Jarrahdale, and an alumina refinery was built at Kwinana in Western Australia with production of alumina beginning in late 1963. At the same time an aluminium smelter was established by this group at Point Henry in Victoria, with an initial capacity of 20,000 tons per annum. Production of aluminium metal at this plant began in March, 1963, from imported alumina, and plant capacity was later increased to 40,000 tons per annum.

In February, 1963, it was announced that leases for the mining of bauxite would be granted to Gove Mining and Industrial Corporation Ltd., an Australian subsidiary of the Pechiney group. These leases are located in the "perimeter" area at Gove. The terms require the lessee to mine and export 10 million tons of bauxite over a period of 18 years; this operation will involve the construction of a port and the immediate expenditure of about £2 million. The lessee is required to spend £300,000, over a three-year period from the granting of the leases, in further exploration and in assessing the economic feasibility of a 500,000 tons per annum alumina plant. Within the same period the lessee is required to submit a plan for development of the leased areas, including erection of the alumina plant by the end of 1970.

In May, 1963, the Commonwealth Government announced its decision to cancel the lease over the central portion of the Gove deposits held by the British Aluminium Company Limited. Subsequent tenders for the mining leases of the inner bauxite deposits were still under consideration in May, 1965.

2. **Current Developments.**—Current developments in the Australian aluminium industry centre round the inner Gove leases, the alumina refinery being built at Gladstone (Queensland), the establishment of a power station at Anglesea (Victoria), and the expansion of the alumina refinery at Kwinana (Western Australia).

On 15th March, 1965, tenders closed for the development of the inner bauxite deposits at Gove. The Commonwealth Government's major policy objectives in respect of leases for the development of these deposits have been stated as: an immediate firm commitment for an alumina plant of at least 300,000 tons capacity in the Northern Territory, provided there is sufficient ore of satisfactory quality; provision for Australian equity participation in the project; clear demonstration of the availability of adequate market outlets and ability to organize and finance the project; and a willingness to establish an alumina smelter in the Northern Territory when this could be done on a demonstratively economic basis.

The construction of an alumina refinery at Gladstone by Queensland Alumina Ltd. is proceeding and is expected to be completed in 1967. Construction of a power station at Anglesea to provide power in the future for the Point Henry smelter is also proceeding. This power station, which is being built by Alcoa of Australia Pty. Ltd., will have a capacity of 150 MW and will cost £13 million. It is expected that the station will be completed in 1969. The Kwinana alumina refinery is being expanded at a cost of £7 million and capacity will be increased to about 400,000 tons per annum by 1967.

3. **Mine Production.**—The mineral source of aluminium is bauxite. Bauxite production, for Australia, in terms of alumina content, is shown for the years 1959 to 1963 in the following table.

ALUMINA: CONTENT OF BAUXITE PRODUCED

(tons)

State	1959	1960	1961	1962	1963
New South Wales	1,648	1,386	929	1,991	2,801
Victoria	1,991	2,306	2,035	2,300	1,161
Queensland	14,442	4,500	8,959	129,371
Western Australia	3,275	13,259	21,166
Australia	6,914	31,393	7,464	13,250	154,499

4. **Refinery Production.**—There is a refinery for the production of alumina and refined aluminium at Bell Bay on the River Tamar in Northern Tasmania. The location of this refinery was determined by the availability of large supplies of hydro-electric power. Production of alumina commenced in February, 1955, and production of refined aluminium in September, 1955. The capacity of the Bell Bay plant was increased to 35,000 tons in 1962 and was further increased to 52,000 tons in 1963. Another smelter with a total capacity of 40,000 tons was commissioned at Geelong (Victoria) in two stages in 1963. The following table shows the production of alumina and refined aluminium in Australia during the years 1959 to 1963.

ALUMINA AND REFINED ALUMINIUM: PRODUCTION, AUSTRALIA

(Source: Bureau of Mineral Resources)

(tons)

Product	1959	1960	1961	1962	1963
Alumina	26,900	29,801	29,468	33,806	46,350
Refined aluminium	11,370	11,655	13,204	16,152	41,263

§ 12. Uranium

1. **Historical.**—Uranium mineralization was first recorded in Australia at Carcoar in New South Wales during 1894. However, the only two significant occurrences of uranium in Australia known in 1944 were at Radium Hill and Mount Painter, both in South Australia. Radium Hill was discovered in 1906 and Mount Painter in 1910, and each was mined spasmodically for radium up to 1934, but both mines were finally forced to close down because of the complexity of the ores and the discovery of extensive reserves of pitchblende at Great Bear Lake in Canada.

The active search for uranium in Australia commenced in 1944 at the request of the United Kingdom Government, when uranium was urgently required for defence purposes. In the same year Commonwealth and South Australian Government geologists and geophysicists examined the Mount Painter and Radium Hill deposits. Tests proved these deposits to be of low grade and the project was abandoned. By 1950, however, experimental and exploratory work indicated that a suitable treatment process could be developed for Radium Hill ore.

In the meantime the Commonwealth, in 1947, sought the co-operation of State authorities in a general search for uranium. The Commonwealth Bureau of Mineral Resources investigated several radioactive occurrences, and assisted with technical advice to prospectors and manufacturers of relevant electronic equipment. From these beginnings the search for uranium ore expanded progressively as staff and funds became available.

In January, 1948, the Commonwealth Government instituted a system of tax-free rewards for discoveries of uranium ore. Rewards payable ranged to a maximum of £25,000 and were designed to encourage individual prospectors and small syndicates to take up the search. To encourage the mining of uranium ores approval was given in August, 1949, for the establishment for five years of a uranium ore buying pool in Australia. As a further incentive to uranium mining the Income Tax Assessment Act was amended during 1952 to exempt from tax profits earned by companies engaged in uranium mining and treatment, provided that no less than three-quarters of the voting power in the company concerned was controlled by persons resident in Australia. This exemption was later extended to income derived from uranium mining by taxpayers resident in Australia.

The discovery of uranium at Rum Jungle was made late in 1949. Prospecting and mining investigations were begun by the Bureau of Mineral Resources early in 1950, but the first high-grade ore-body was not discovered until December, 1951.

In March, 1952, the United States Atomic Energy Commission sent a party of experts to Australia at the invitation of the Commonwealth and South Australian Governments. Discussions took place regarding a basis for development of the Rum Jungle and Radium Hill fields. Agreement was reached on broad principles, and arrangements were made later for funds for the project to be provided by the Combined Development Agency—the joint Anglo-American uranium purchasing organization. The agreement with the Combined Development Agency was formally executed in January, 1953.

During August, 1952, the Commonwealth Government reached an agreement with Consolidated Zinc Pty. Ltd., for the development of the Rum Jungle area. On 1st January, 1953, Territory Enterprises Pty. Ltd., a wholly-owned subsidiary of Consolidated Zinc Pty. Ltd., took control of all work within the hundred of Goyder as agent for the Commonwealth Government. The exploration programme in this region was continued. Open-cut mining of the deposit began in September, 1954, and the treatment plant—the first uranium mill in Australia—was opened in the same month. Production of uranium oxide in the period September, 1954, to January, 1963, when the contract with Combined Development Agency expired, was in excess of 1,500 short tons. Since the completion of the contract the Commonwealth Government has continued production at the Rum Jungle plant.

While the Rum Jungle project was proceeding development was also occurring at Radium Hill. In 1952 a contract was signed by the Commonwealth Government, South Australian Government and the Combined Development Agency for the purchase of the uranium oxide concentrate output of Radium Hill by the Combined Development Agency. The agreement covered a seven-year period of full production. Full-scale mining commenced at Radium Hill in November, 1954, and concentrates were stockpiled until chemical extraction began at Port Pirie in August, 1955. This contract expired on 31st December, 1961, and the mine at Radium Hill and the treatment plant at Port Pirie were subsequently closed down in view of diminishing reserves of ore and the absence of a suitable market.

During 1954 there was intense activity in Australia in the search for uranium. In the previous year the Bureau of Mineral Resources had discovered uranium mineralization in the South Alligator River area, and further exploration and testing proceeded in this area. About the same time attention focused on a small area just south of the Mount Isa-Cloncurry road where a member of a small syndicate discovered the Mary Kathleen uranium deposit in June, 1954. Mary Kathleen Uranium Ltd. was formed, and in March, 1956, an agreement for the supply of uranium to the value of some £40 million was signed by Rio Tinto Company of Australia, Mary Kathleen Uranium Ltd., and the United Kingdom Atomic Energy Authority. Production of uranium oxide commenced during June, 1958. Following completion of the contract, mining operations were suspended late in 1963 and the plant and township placed on a care and maintenance basis. Production of uranium oxide during the term of the contract was about 4,500 short tons.

Two companies carried out large scale mining and treatment operations in the South Alligator River area. United Uranium N.L. opened a treatment plant at Moline in May, 1959, and subsequently completed a contract to the value of about £5 million. South Alligator Uranium N.L. opened a treatment plant in September, 1959, and subsequently completed a smaller contract to the value of approximately £1.15 million.

There has been little interest in the search for uranium deposits in recent years as a result of temporary world-wide over-supply, and early in 1961 the Australian Atomic Energy Commission announced that no applications for discovery rewards would be considered after 31st March, 1961.

2. **Mine Production.**—Uranium prospecting and mining in the Territories of the Commonwealth are open to private enterprise, subject to the *Atomic Energy Act 1953-1958* and the Ordinances of the Territories. The development of the uranium resources of the States is governed by the legislation and policies of the various State Governments. Commonwealth assistance, in the form of aerial, geological and geophysical services, is available to the States, and State Mines Departments inspect uranium prospects and test samples submitted by prospectors.

The Rum Jungle uranium mine will be kept in operation despite expiration of the original sales contract. Operations are being sustained at approximately previous levels, and the uranium oxide produced is available for sale overseas. The decision to continue operations was taken in the light of the fact that as well as being successful financially, operations at Rum Jungle have made a significant contribution to the development of the Northern Territory. The Commonwealth Government decided, therefore, that the profits it had made would be re-invested in the Northern Territory. Exploration is continuing to determine whether or not further ore bodies exist in the area. A recently discovered copper ore deposit is now being mined by a private company and the ore is being treated in the Rum Jungle plant on a toll basis.

§ 13. Other Metallic Minerals

1. **Tungsten.**—In recent years Tasmania has been the principal State producing tungsten ores, scheelite being mined on King Island in Bass Strait and wolfram being mined in association with tin ores in the north-east part of the State. Because of low world prices, scheelite production on King Island ceased in August, 1958, but production was recommenced in 1960. Low prices persisted and production in subsequent years was on a limited scale. The State Government ceased advances to the company producing scheelite on King Island on 31st May, 1964. Payments under the Act amounted to £36,029 in respect of 1964 production. The payments were to forestall a threatened mine closure.

Particulars of the production of tungstic oxide contained in scheelite and wolfram concentrates produced during the years 1959 to 1963 are shown in the following table.

TUNGSTIC OXIDE (WO₃): CONTENT OF CONCENTRATES PRODUCED (tons)

State	1959	1960	1961	1962	1963
CONTAINED IN SCHEELITE CONCENTRATE					
New South Wales	(a)	(a)	(a)
Western Australia	5	..
Tasmania	291	709	686	675
Australia	(a)	291	709	691	675
CONTAINED IN WOLFRAM CONCENTRATE					
New South Wales	(a)
Queensland	1	1	..
Tasmania	645	804	810	349	285
Northern Territory	8	16	16	1	..
Australia	653	820	827	351	285

(a) Less than one half ton.

2. **Manganese.**—In recent years Western Australia has been the principal State producing manganese ore, mined mainly from the Pilbara goldfield.

The following table shows the manganese content of metallurgical grade and the manganese dioxide content of battery and other grades of manganese ore produced during the years 1959 to 1963.

MANGANESE: CONTENT OF MANGANESE ORE PRODUCED
(tons)

Year	Metallurgical grade (In terms of manganese (Mn) content)				Battery and other grades (In terms of manganese dioxide (MnO ₂) content)					
	N.S.W.	Q'land	W. Aust.	Aust.	N.S.W.	Q'land	S. Aust.	W. Aust.	N.T.	Aust.
1959 ..	620	4,350	35,996	40,966	907	221	1,406	2,534
1960 ..	342	1,670	26,561	28,585	623	..	45	450	940	2,058
1961	1,109	39,686	40,795	632	..	192	529	76	1,429
1962	1,296	32,207	33,503	424	900	188	1,512
1963	16,947	16,947	467	114	..	527	120	1,228

(a) Includes Victoria (12 tons).

The quantity of manganese dioxide recovered at the Risdon, Tasmania, refinery during 1963 amounted to 4,100 tons, of which 582 tons were sold for chemical processing and trace element fertilizer.

3. **Other.**—Other metallic minerals produced in Australia during 1963 were—antimony, beryllium, chromite, tantalite-columbite and small amounts of bismuth, molybdenite and platinum concentrate. Production data may be found on pages 1145–8.

§ 14. Coal

1. **Historical.**—A brief history of coal-mining in Australia may be found in previous issues of the Year Book (see No. 48, p. 1086).

2. **Joint Coal Board.**—For details of the powers and functions of this Board, which has functioned since 1947, see page 887 of Year Book No. 39.

3. **Coal Industry Tribunal.**—The Coal Industry Tribunal was established under the Commonwealth *Coal Industry Act* 1946 and the New South Wales *Coal Industry Act*, 1946 to consider and determine interstate disputes and, in respect of New South Wales only, intra-state disputes between the Australian Coal and Shale Employees' Federation and employers in the coal-mining industry. Following legislation in 1951, the Tribunal was vested with authority to deal with all interstate industrial disputes in the coal-mining industry, irrespective of the trade union involved, and, in the case of New South Wales, intra-state disputes also. The Tribunal consists of one person who may appoint two assessors nominated by the parties to advise him in matters relating to any dispute.

4. **Australia's Coal Reserves.**—The latest available estimates of the measured and indicated coal reserves of Australia are those prepared by the Mines Departments in the various States for the Coal Utilization Research Advisory Committee whose report was issued by the Department of National Development in 1962. This information is shown in the following table. It should be noted that reserves can only be included in the "measured and indicated" categories when sufficient exploratory and testing work has been completed.

ESTIMATED COAL RESERVES OF AUSTRALIA

(Source: State Mines Departments)

(million tons)

State	Type of coal	Measured and indicated	Inferred
New South Wales	Bituminous	(a) 3,000	(b)
Victoria	"	20	10
"	Brown	54,700	43,000
Queensland	Bituminous, sub-bituminous ..	950	(c)
South Australia	Sub-bituminous	130	..
"	Lignite	530	..
Western Australia	Sub-bituminous	274	1,603
Tasmania	Bituminous	(d)	(e) 137

(a) Recoverable reserves. (b) In excess of 30,000 million tons. (c) In excess of 10,000 million tons. (d) Very small; measured reserves in Tasmania amount to only several thousand tons. (e) Includes both indicated and inferred reserves.

5. Mine Production of Black Coal.—Production of black coal according to rank in the several States during the years 1960 to 1964 is set out in the following table. The tonnages produced by underground mining and opencut mining are also shown.

BLACK COAL: PRODUCTION

(tons)

Particulars	1960	1961	1962	1963	1964
NEW SOUTH WALES					
Total(a)	17,736,994	19,020,805	19,030,418	18,940,206	20,699,056
Underground mines	16,981,561	18,188,613	18,195,881	18,337,767	19,982,720
Opencut mines ..	755,433	832,192	834,537	602,439	716,336
VICTORIA					
Total(b)	76,972	66,363	56,721	50,481	48,118
QUEENSLAND					
Semi-anthracite	47,762	56,437	67,652	58,522	71,500

(a) Bituminous coal from an opencut mine.

(b) Bituminous coal from underground mines.

(c) Sub-bituminous

(d) Sub-bituminous coal.

The principal producing centres during 1963 were as follows.

New South Wales. The principal deposits worked were in the vicinity of Newcastle, Cessnock and Singleton (northern field), Lithgow (western field), and Wollongong (southern field). Tonnages mined in 1963 were: northern field, 9,484,000 tons; southern field, 7,817,000 tons; and western field, 1,639,000 tons. All opencut coal was from the northern field.

The coal fields of New South Wales, predominantly bituminous, are the most important in Australia, in respect of the magnitude, quality and accessibility of reserves and the extent to which the deposits are being worked. Coal from the various seams differs in properties, coal from the Greta seam worked in the vicinity of Cessnock being particularly suitable for gas-making, while coal from the Victoria Tunnel, Dudley, Young Wallsend, and Borehole seams,

all of which are mined near Newcastle, have coking properties and are used in the steelworks. Coking coal is also obtained from the Bulli seam which is mined near Wollongong and in the Burratorang Valley. A multi-purpose coal is available in the Singleton area, and steaming coals are mined around Newcastle, Lithgow, Cessnock, and Wollongong.

Queensland. The principal producing centres were Ipswich, 1,801,765 tons; Bowen, 358,402 tons; Mount Morgan, 639,423 tons; Maryborough, 163,218 tons; and Clermont, 149,957 tons. Opencut methods were used on the Bowen, Clermont and Mount Morgan fields, and the total coal won by this means was 34 per cent. of total production.

6. Production of Black Coal Per Man-shift.—(i) *Underground Mines.* The following table shows particulars of estimated black coal output per man-shift worked, (a) at the coal face, and (b) by all employees, in respect of underground mines for each State concerned and for Australia for the years 1959 to 1963. These estimates have been calculated by the Joint Coal Board from data collected fortnightly in respect of coal production and the number of man-shifts actually worked. In South Australia black coal is won only by opencut mining.

PRODUCTION OF BLACK COAL PER MAN-SHIFT: UNDERGROUND MINES
(tons)

Year	N.S.W.	Vic.	Q'land	W. Aust.	Tas.	Australia
PRODUCTION PER MAN-SHIFT WORKED AT COAL FACE						
1959	18.07	2.10	7.53	7.60	7.34	14.13
1960	20.64	2.16	8.37	8.12	7.64	16.08
1961	24.61	2.15	8.69	8.09	8.77	19.04
1962	25.92	1.94	9.25	8.90	11.04	20.13
1963	27.26	2.12	10.74	9.25	13.76	21.56
PRODUCTION PER MAN-SHIFT WORKED BY ALL EMPLOYEES						
1959	4.90	0.93	2.95	3.35	3.72	4.37
1960	5.39	0.94	3.19	3.62	3.87	4.81
1961	6.23	0.83	3.46	4.00	4.09	5.55

1963	7.04	0.82	4.02	4.37	4.90	6.26

(ii) *Opencut Mines.* In the next table the Joint Coal Board's estimates of production of black coal per man-shift worked by all employees in opencut mines are shown. There are no opencuts producing black coal in Victoria.

PRODUCTION OF BLACK COAL PER MAN-SHIFT: OPENCUT MINES
(tons)

Year	N.S.W.	Q'land	S. Aust.	W. Aust.	Tas.	Australia
1959	12.47	12.50	10.36	7.64	10.47	11.08
1960	22.15	10.96	12.46	8.01	9.38	13.79
1961	22.29	11.43	14.91	9.63	10.79	14.60
1962	22.42	10.42	19.78	10.32	10.89	15.97
1963	18.86	15.43	21.91	12.52	6.81	18.17

7. **Mine Production of Brown Coal.**—The only production of brown coal in Australia is from Victoria, and production in recent years has been as follows:—1960, 14,967,202 tons; 1961, 16,279,168 tons; 1962, 17,137,436 tons; 1963, 18,456,838 tons; and 1964, a record of 19,033,000 tons. In the past ten years the output of brown coal has nearly doubled, and further increases are expected in the future as electricity generation projects proceed. Approximately 95 per cent. of brown coal production is from the State Electricity Commission's mines in the Latrobe Valley and the bulk of the brown coal is used in electricity generation.

8. **Value at the Mine in New South Wales.**—Particulars of the average values at the mine (or at screens or mine washeries where these are at a distance from the mine) of saleable coal for each district and for New South Wales as a whole are shown in the following table for the years 1959 to 1963. Saleable coal excludes miners' coal, coal consumed at the mines, and refuse, etc., removed by the use of hand-picking belts or at mine washeries. In calculating these values, most coal won by producer consumers is also excluded, and in respect of stocks of coal held at grass by the Commonwealth Government only actual sales have been taken into account. No deduction has been made in respect of excise duty operative from 1st November, 1949.

**AVERAGE SELLING VALUE AT THE MINE PER TON OF SALEABLE COAL:
NEW SOUTH WALES**

(s. d.)

Year	Northern District	Southern District	Western District	Average for State
1959.. .. .	52 5	54 4	47 6	52 7
1960.. .. .	51 11	55 11	48 1	52 8
1961.. .. .	51 5	55 1	46 9	52 3
1962.. .. .	51 3	52 9	44 4	51 2
1963.. .. .	48 7	52 3	39 3	48 11

9. **Values in New South Wales, United Kingdom and the United States of America.**—The following table shows for the years 1959 to 1963 average values of coal produced in New South Wales, Great Britain and the United States of America. The figures give an indication of changes in average value or price within each country, but they do not necessarily show the relative levels between the countries concerned.

PRODUCTION VALUES OF COAL PER TON: NEW SOUTH WALES, UNITED KINGDOM AND UNITED STATES OF AMERICA

Country	1959	1960	1961	1962	1963
New South Wales—bituminous(a) ..	s. d. 52 7	s. d. 52 8	s. d. 52 3	s. d. 51 2	s. d. 48 11
United Kingdom—deep-mined(b) ..	83 5	86 1	90 10	91 9	91 8
United States of America— bituminous and lignite(c)	\$ 4.77	\$ 4.69	\$ 4.58	\$ 4.48	\$ 4.39

(a) Average selling value at the mine per ton of 2,240 lb.; the figures relate to saleable coal and include excise duty. (b) Average value in sterling at the mine per ton of 2,240 lb. (c) Average value in United States currency at the mine per ton of 2,000 lb.

10. Consumption of Coal in Australia.—(i) *Black Coal*. Details of the production of black coal in Australia and its disposal are shown in the following table for the years 1959–60 to 1963–64.

BLACK COAL: PRODUCTION AND CONSUMPTION

('000 tons)

Particulars	1959–60	1960–61	1961–62	1962–63	1963–64
Production	21,223	22,947	24,427	24,301	26,872
Imports(a)	8	7	5	8	13
Total	21,231	22,954	24,432	24,309	26,885
Consumption as fuel—					
Electricity generation ..	7,398	7,420	7,869	8,293	9,066
Factories	3,166	3,103	2,844	2,779	2,894

Bunker coal(b)	176	151	126	123	150
Total	12,771	12,559	12,492	12,737	13,564
Consumption as raw material—					
For metallurgical coke ..	4,216	4,910	5,039	5,195	5,608
For other purposes	1,776	1,751	1,631	1,473	1,580
Total	5,992	6,661	6,670	6,668	7,188
Exports (oversea)	1,088	1,888	3,470	2,677	3,806
Mine washery refuse and dump losses(c)	982	1,072	1,341	1,278	1,584
Balance—unrecorded consumption, other purposes(d) ..	398	774	459	949	743
Grand Total	21,231	22,954	24,432	24,309	26,885

(a) For special purposes, interstate and intrastate vessels. Later figures include Tasmania. (b) Figures refer only to New South Wales coal consumed by oversea. (c) Prior to 1959–60, figures refer only to New South Wales. (d) Includes net change in stocks.

(ii) *Brown Coal*. The table following shows the production and consumption of brown coal and the production of briquettes in Victoria for the years 1959–60 to 1963–64.

BROWN COAL: PRODUCTION AND CONSUMPTION, VICTORIA

('000 tons)

Particulars	1959–60	1960–61	1961–62	1962–63	1963–64		
Production	14,101	15,723	16,729	17,766	18,683		
Consumption as fuel—							
Electricity generation ..	10,498	9,970	10,981	11,333	12,029		
Briquette factory						535	538
Other factories						1,248	951
Consumption as raw material—							
Briquette manufacture ..	2,396	4,764	4,862	4,980	5,192		
Balance(a)	-41	+38	+26	+24	+30		
Briquettes manufactured ..	975	1,807	1,820	1,805	1,88		

(a) The sign (+) indicates that the balance shown is available for other consumption and accumulation of stocks; the sign (-) indicates a reduction in stocks.

The State Electricity Commission of Victoria produces brown coal briquettes at Yallourn and Morwell, both situated on the brown coal deposits in Gippsland. The former commenced commercial production of briquettes in 1925, and initial output of the Morwell plant was in 1960.

In December, 1956, the Lurgi high pressure brown coal gasification plant at Morwell was opened by the Gas and Fuel Corporation of Victoria. This plant operates on briquettes supplied by belt conveyor from the State Electricity Commission's Morwell works, and produces town gas which is sent to Melbourne through 103 miles of pipeline.

11. **Exports.**—The quantities and values of the oversea exports of Australian coal and of bunker coal for oversea vessels for the five years 1959–60 to 1963–64 are shown in the following table. These shipments were made mainly from New South Wales ports.

COAL: OVERSEA EXPORTS AND BUNKER, AUSTRALIA

Year	Oversea exports(a)		Bunker coal for oversea vessels	
	Quantity	Value	Quantity	Value
	Tons	£	Tons	£
1959–60	1,087,844	4,326,810	8,117	25,380
1960–61	1,888,415	7,682,223	179	1,716
1961–62	3,469,552	13,611,122	37	410
1962–63	2,676,522	11,170,712	1,703	17,578
1963–64	3,805,747	16,230,845	86	1,162

(a) Excludes bunker coal.

New South Wales, in addition to meeting requirements within the State, supplies considerable quantities of coal to other States and for export overseas. Of the total of 20,416,000 tons produced in 1963–64, 1,142,000 tons (5.6 per cent.) were exported interstate and 2,995,000 tons (14.7 per cent.) were exported overseas. In 1963–64, 143,000 tons (0.7 per cent.) of New South Wales production was supplied for interstate, intrastate and oversea vessels.

12. **Production in Principal Countries.**—The following table shows the production of coal in the six principal countries and Australia and estimated world totals in 1962 and 1963.

COAL: MINE PRODUCTION IN SELECTED COUNTRIES

(Source: *Minerals Yearbook*, United States Department of the Interior)
(⁰000 tons)

Country	Black coal		Brown coal and lignite	
	1962	1963	1962	1963
United States of America	389,275	423,652	2,728	2,420
U.S.S.R.	375,966	383,840	132,868	137,788
China (Mainland)	(a) 375,000	(a) 267,957	(b)	(b)
United Kingdom	197,388	195,796
Germany, Federal Republic of	141,392	149,871	99,652	104,972
Poland	107,873	111,303	10,916	15,101
Australia	24,470	24,856	17,137	18,456
World Total(c)	1,959,197	1,901,773	677,621	710,755

(a) Includes lignite.

(b) Included with black coal.

(c) Estimated.

13. **Coke and Other By-products from Coal.**—(i) *Coke.* The production of metallurgical coke in Australia during 1963–64 was 2,915,005 tons, compared with 2,759,060 tons during 1962–63.

In addition to metallurgical coke referred to on page 1178 (produced by specialized coke works), considerable quantities of coke are produced in gas works as a by-product of the manufacture of gas. Production in gas works in 1963-64 was 693,361 tons. To date there has been no production of petroleum coke at Australian oil refineries.

In order to avoid duplication with coal values the figures for coke have not been included in the general tables of mineral production in the early part of this chapter.

In the following table particulars of the production of coke in coke works and gas works in Australia are shown for the years 1959-60 to 1963-64. The figures exclude output of coke breeze, which amounted to 379,183 tons in 1962-63 and 417,949 tons in 1963-64.

COKE PRODUCTION: AUSTRALIA
(tons)

Industry	1959-60	1960-61	1961-62	1962-63	1963-64
Coke works	2,376,097	2,738,505	2,716,894	2,759,060	2,915,005
Gas works	758,668	764,626	761,355	694,575	693,361
Total	3,134,765	3,503,131	3,478,249	3,453,635	3,608,366

(ii) *Other By-products from Coal.* In addition to coke, other products are obtained from the treatment of coal by coke and gas works. Some of the main items produced, principally in coke and gas works, during 1963-64 (1962-63 in parentheses) were: crude tar, 54,543,779 gallons (53,886,802 gallons); refined tar, 41,707,005 gallons (38,514,896 gallons); and ammonium sulphate, 85,488 tons (93,675 tons).

§ 15. Petroleum Exploration and Development in Australia

1. **Introduction.**—A comprehensive survey of developments in the search for oil up to the end of 1961 and early 1962 was presented on pages 1094-8 of Year Book No. 48 and continued in subsequent issues. A summary of developments in 1964 is given below.

2. **Developments in 1964.**—The year 1964 saw the entry of Australia into the ranks of the oil-producing countries. On 25th March, 1964, full scale pumping of oil from the Moonie field to Brisbane was started through the ten-inch Moonie-Brisbane pipeline. Production from the Moonie field is about 6,000 barrels a day (a barrel contains 34.97 gallons).

During 1964 gas fields were established in Queensland at Richmond, Bony Creek, Snake Creek and Pickanjinie near Roma, and at Rolleston. Oil was discovered at Alton, about 55 miles south-west of the Moonie field. In the Alton field all wells drilled so far have been completed as potential oil producers. Elsewhere, potential gas fields have been discovered at Gidgealpa in the north-east of South Australia, at Gilmore about 115 miles north-west of Charleville, Queensland, and at Mereenie about 140 miles west of Alice Springs in the Northern Territory. In Western Australia oil has been discovered on Barrow Island, 60 miles north-east of Onslow and gas has been found at Yardarino about eight miles east of Dongara. A map of Australia showing the main sedimentary basins and locations of oil and gas discoveries appears on page 1189.

During 1964 the combined expenditure on petroleum exploration and development by private enterprise and the Government was £25 million. Total expenditure to date on petroleum exploration and development is in the order of £150 million.

3. **Footage Drilled in the Search for Oil.**—The following table shows details of footage drilled in the petroleum exploration and development in Australia and Papua and New Guinea during the years 1960 to 1964.

**FOOTAGE DRILLED IN PETROLEUM EXPLORATION AND DEVELOPMENT
IN AUSTRALIA, PAPUA AND NEW GUINEA**

(Source: Bureau of Mineral Resources(a))

(feet)

State or Territory	1960	1961	1962	1963	1964
New South Wales	6,169	7,779	34,031	70,798	60,888
Victoria	14,682	22,439	42,635	28,028	41,595

(a) Based on figures obtained from State Departments of Mines and the Northern Territory Mines Branch.

§ 16. Sulphur

1. **Mine Production.**—There is no production of elemental sulphur (brimstone) in Australia. However, while sulphur is itself non-metallic, considerable quantities are contained in certain metallic minerals produced. Large quantities of the lead and zinc concentrates produced are exported, and the sulphur they contain is not available for utilization in Australia.

The following table shows the sulphur content of the metallic minerals from which sulphur was subsequently recovered during 1963.

SULPHUR: CONTENT OF METALLIC MINERALS PRODUCED, 1963

(tons)

Mineral in which contained	N.S.W.	Q'land	S. Aust.	W. Aust.	Tas.	Australia
Lead concentrate ..	64,695	26	3,360	68,081
Lead-copper concentrate	2,624	2,624
Pyrite concentrate	17,010	32,813	25,226	9,537	84,586
Zinc concentrate ..	148,017	15,531	26,797	190,345
Total ..	212,712	32,541	32,813	25,252	42,318	345,636

The principal producing centres during 1963 were as follows.

New South Wales. All the sulphur produced was contained in lead and zinc concentrates produced at Broken Hill.

Tasmania. A pyrite concentrate was produced at Mount Lyell after the separation of the copper sulphide mineral. Recoverable sulphur was contained also in lead, lead-copper and zinc concentrates milled at Rosebery, but only that contained in zinc concentrate was recovered in Australia.

The following table shows for the years 1959 to 1963 the sulphur content of minerals from which sulphur was recovered.

SULPHUR: CONTENT OF METALLIC MINERALS PRODUCED

(tons)

State	1959	1960	1961	1962	1963
New South Wales	188,892	204,358	194,659	196,793	212,712
Queensland	17,464	24,612	20,515	27,151	32,542
South Australia	27,616	31,717	33,357	29,092	32,813
Western Australia	24,473	24,556	24,046	23,209	25,251
Tasmania	52,100	54,757	52,289	36,558	42,318
Australia	310,545	340,000	324,866	312,803	345,636

2. Production of Sulphuric Acid.—The principal use of sulphur is in the manufacture of sulphuric acid, which is produced in all States and in the Northern Territory. Most of the sulphuric acid is used for fertilizer manufacture, although small quantities are used in chemicals (including agricultural chemicals) and in metallurgy. Sulphur contained in lead concentrate is used for acid manufacture at Port Pirie and at Cockle Creek and sulphur in zinc concentrate is used at Risdon and also at Cockle Creek. Pyrite concentrate is used as a source of sulphur for acid manufacture at Cockle Creek, and at Melbourne, Brisbane, Adelaide, Perth and Fremantle. However, about half the sulphuric acid produced in Australia is made from imported elemental sulphur. The next table shows, for the years 1960 to 1964, the Australian production of sulphuric acid and the quantity of sulphur in the acid produced from various sources.

SULPHUR USED IN SULPHURIC ACID PRODUCTION: AUSTRALIA

(tons)

Item	1960	1961	1962	1963	1964
Production of sulphuric acid (mono)	1,109,751	1,137,501	1,229,256	1,315,562	1,542,606
Sulphur in sulphuric acid (mono) produced from—					
Sulphur (elemental)(a) ..	179,752	182,554	202,659	212,208	284,436

Total Sulphur Content	362,887	371,963	401,966	430,189	503,708

(a) All imported.

§ 17. Non-metallic Minerals

1. **Asbestos.**—Production of asbestos has been confined mainly to crocidolite in Western Australia, principally at Wittenoom Gorge in the north-western part of the State. Deposits of chrysotile, located mainly at Nunyerry in Western Australia and at Baryulgil in New South Wales, are relatively small and widely scattered.

The production of chrysotile and crocidolite in Australia during the five years 1959 to 1963 is shown in the following table.

PRODUCTION OF ASBESTOS

(short tons of 2,000 lb.)

Year	Chrysotile			Crocidolite
	New South Wales	Western Australia	Australia	Australia(a)
1959	726	707	1,433	16,442
1960	1,072	69	1,141	14,472
1961	794	175	969	15,777
1962	866	59	925	17,491
1963	938	11	949	12,425

(a) Wholly produced in Western Australia.

2. **Clays.**—Statistics of clay production in Australia are not entirely satisfactory, mainly because of differences between States in the classification of the various types of clays. In addition, the statistics are incomplete, as some clays are outside the normal administrative control of some State Mines Departments. In the following table, the recorded production of the main types of clays produced in each State of Australia is shown for the year 1963.

PRODUCTION OF CLAYS, 1963

(tons)

Type	New South Wales	Victoria	Queensland	South Australia	Western Australia	Tasmania	Australia
Bentonite and bentonitic clay	331	..	1,197	..	1,528
Brick clay and shale	1,987,381	1,345,427	222,651	407,247	439,419	146,885	4,549,010
Cement clay and shale	189,974	12,979	18,772	..	221,725
Damouritic clay	492	492
Fireclay, n.e.i.	104,578	31,913	13,998	29,544	25,002	..	205,035
Fuller's earth	70	70
Kaolin	27,161	12,462	168	3,833	920	..	44,544
Stoneware clay	94,849	94,315	37,009	34,743	(a)260,916
Tile clay	88,649	64,972	n.a.	1,875	(a)155,496
Other clays	142	..	(b) 53,531	..	16,110	24,229	(a) 94,012

(a) Incomplete, see § 2, para. 1. Scope of Statistics, p. 1138.

(b) Includes tile clays.

3. **Gypsum.**—There are very extensive deposits of gypsum in Australia, but only the more accessible and easily worked deposits have been exploited. These deposits lie in four main regions, (a) in New South Wales stretching from around Griffith to near Broken Hill, (b) in the north-west corner of Victoria, the south-west corner of New South Wales and adjoining parts of South Australia, (c) in South Australia on both sides of St. Vincent Gulf and extending to Lake MacDonnell in the west, and (d) between Perth and Kalgoorlie in Western Australia. The South Australian deposits are the most important, and more than 70 per cent. of the total Australian production of gypsum in 1963 came from that State, where the main centres of production are Kangaroo Island, Stenhouse Bay and Lake MacDonnell.

The building industry is the main user of the gypsum produced in Australia. The greatest part is used in the manufacture of plaster and most of the remainder in cement manufacture. A small amount is also used as fertilizer. A considerable quantity is exported, mainly to New Zealand for use in the plaster industry. Substantial quantities of gypsum are also exported to Japan, Malaysia and the Philippines.

The production of gypsum in Australia is set out in the following table for the five years 1959 to 1963.

PRODUCTION OF GYPSUM

(tons)

Year	New South Wales	Victoria	South Australia	Western Australia	Australia
1959	101,143	81,101	296,816	37,731	516,791
1960	95,514	100,386	340,762	44,216	580,878
1961	97,250	80,223	387,289	45,145	609,907
1962	71,802	78,728	428,730	51,650	630,910
1963	62,247	114,503	497,886	50,808	725,444

4. **Limestone.**—Limestone is quarried in all States. It is used principally in the manufacture of cement, as a metallurgical flux in the steel industry, in the chemical industry, and in agricultural usages.

The recorded statistics of limestone production in each State of Australia are shown in the following table. Details of limestone produced for use as building or road material are not included.

PRODUCTION OF LIMESTONE(a)

('000 tons)

Year	N.S.W.	Vic.	Q'land	S.A.	W.A.	Tas.	Aust.
1959	2,056	1,120	(b)	1,017	(b)	230	5,305
1960	2,400	1,157	(b)	1,064	(b)	215	5,669
1961	2,576	1,243	(b)	1,105	(b)	204	6,146
1962	2,432	1,214	(b)	1,400	(b)	319	6,415
1963	2,524	1,228	(b)	1,574	(b)	345	6,721

(a) Includes shell and coral.

(b) Not available for publication, included in total for Australia.

5. **Magnesite.**—The major sources of magnesite at present are deposits at Fifield, Thuddungra and Lake Cargelligo in central New South Wales, and at Ravensthorpe in Western Australia. Most of the output of magnesite in Australia is used for refractory purposes, mainly in the steel industry, and small amounts are used in chemical, paper, glass, rubber, and ceramic industries. Approximately 32,000 tons of calcined magnesite were imported during 1963. Particulars of the production of magnesite in each State for the years 1959 to 1963 are set out in the table below.

PRODUCTION OF MAGNESITE

(tons)

Year	New South Wales	Queensland	South Australia	Western Australia	Australia
1959	59,777	..	790	19	60,586
1960	61,668	..	498	..	62,166
1961	88,511	..	659	9,625	98,795
1962	61,672	..	295	224	62,191
1963	49,909	..	542	6,495	56,946

6. **Salt.**—Salt is obtained in Australia from solar evaporation pans and dry salt lakes. Production satisfies local requirements and provides a considerable surplus for export, mainly to Japan.

SALT PRODUCTION

('000 tons)

Particulars	1959	1960	1961	1962	1963
South Australia	358	359	387	390	459
Australian total	468	463	509	536	582

7. **Other Non-metallic Minerals.**—Many other non-metallic minerals were produced in Australia during 1963, the most important being barite, diatomite, dolomite, felspar, gemstones (opals and sapphires), phosphate rock, silica, sillimanite and talc. Smaller quantities of garnet concentrate, foundry loam, lithium ores, mineral pigments, pebbles for grinding, perlite, pyrophyllite, rhodonite and serpentine were also produced. Production figures for the most important non-metallic minerals are given on pages 1145-6.

§ 18. Value of Production

1. **Local Value of Mining and Quarrying Production, 1963.**—The following table shows particulars of the local value of production for individual mining industry groups and quarrying for the year 1963. *These statistics are on an industry basis and not by product.* A more detailed reference to the value of production of mining and quarrying and other industries together with a brief explanation of terms used will be found in Chapter XXX. Miscellaneous.

MINING AND QUARRYING: LOCAL VALUE OF PRODUCTION(a), 1963

(£'000)

Mineral	1959	1960	1961	1962	1963
CONSTRUCTION MATERIALS(a)					
Total, Construction Materials	21,597	24,541	(b) 27,771	(b) 27,927	(b) 30,360
TOTAL					
Total, All Minerals and Construction Materials	164,985	181,240	180,151	187,569	208,341

(a) Incomplete owing to difficulties of coverage. See § 2, para. 1. Scope of Statistics, p. 1138.
(b) Not comparable with years prior to 1961 owing to extension of coverage in Victoria.

NOTE.—Particulars of the value of uranium concentrate produced are not available for publication and have been excluded from the table above.

Owing to the necessity of classifying individual mines according to the principal mineral produced, the values in the table on page 1185 for mining industry groups differ slightly in some cases from totals of the corresponding groups of mine products shown in the table above.

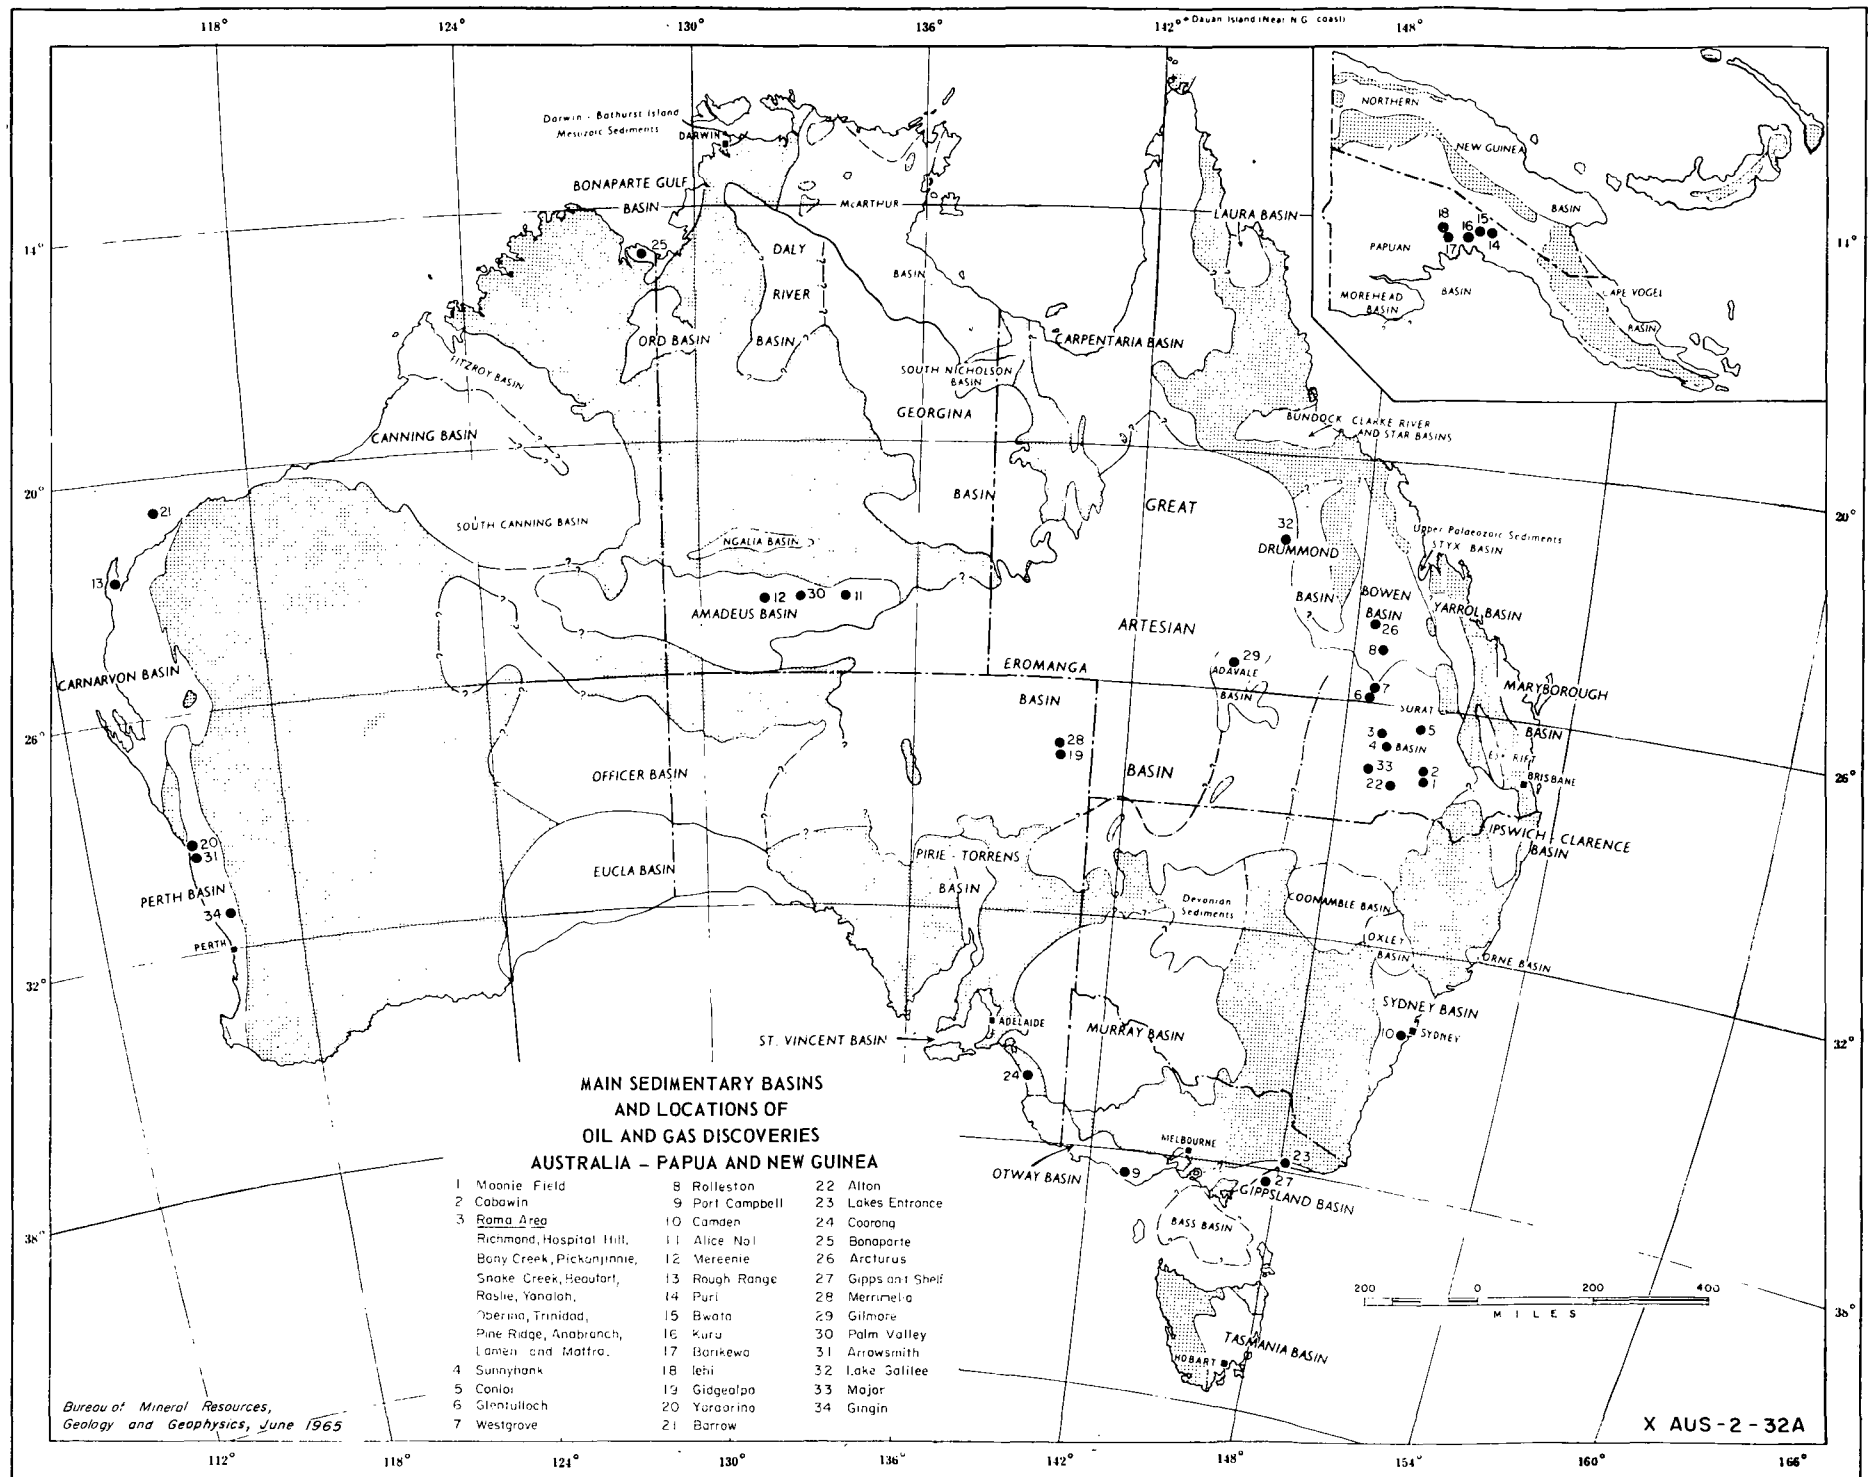

§ 19. Oversea Trade in Minerals and Mineral Products

Particulars of the quantity and value (£A. f.o.b. port of shipment) of the principal mineral and mineral product items imported into and exported from Australia during the years 1961 to 1963 are shown in the following table.

IMPORTS AND EXPORTS OF PRINCIPAL MINERALS AND MINERAL PRODUCTS: AUSTRALIA

(a) Includes lead-copper concentrate.

CHAPTER XXVII

DEFENCE

§ 1. Department of Defence

1. **Functions and Organization.**—(i) *Functions.* The functions of the Department of Defence include:—defence policy; joint Service matters and matters having an inter-departmental defence aspect; the financial requirements of defence policy and the allocation of the funds made available; the supply aspect of defence policy including the review of production programmes and capacity; important matters of policy or principle affecting the Defence Forces and their requirements, including the strength, organization and disposition of the forces, higher appointments in the Services, their weapons and equipment, and defence research and development.

(ii) *Organization, higher Defence machinery and the control of the joint Service machinery.* The joint Service and inter-departmental advisory machinery of the Department consists of various committees headed by the Defence Committee, the Chiefs of Staff Committee, the Defence Administration Committee and the Joint War Production Committee.

The Defence Committee is a statutory body consisting of the Secretary, Department of Defence, who is Chairman; the Chairman of the Chiefs of Staff Committee; the Chiefs of Staff of the three Services; the Secretary, Prime Minister's Department; the Secretary, Department of External Affairs; and the Secretary to the Treasury. Its function is to advise the Minister for Defence on—the defence policy as a whole and the co-ordination of military, strategic, economic, financial and external affairs aspects of defence policy; matters of policy or principle and important questions having a joint Service or an inter-departmental defence aspect; and such other matters having a defence aspect as are referred to the Committee by or on behalf of the Minister for Defence.

The Chiefs of Staff Committee meets regularly for the discussion of technical military matters on a joint service basis, and is responsible in peace for the preparation of military appreciations and plans. The functions of the Defence Administration Committee are the regular review of the progress of the Defence Programme, the co-ordination or integration of Service activities where appropriate in the interests of improved efficiency and economy, and the improvement of methods and organization. The function of the Joint War Production Committee is, briefly, to examine the relation between strategic plans and their requirements to ensure that the war potential for them exists. The major committees subordinate to the Defence Committee and/or the Chiefs of Staff Committee comprise the Principal Administrative Officers Committee (Maintenance and *Matériel*), the Principal Administrative Officers Committee (Personnel), the Defence Research and Development Policy Committee, the Joint Planning Committee, the Joint Intelligence Committee and the Joint Administrative Planning Committee.

In addition, the Defence Business Board furnishes advice on business matters of common interest to the three Services, or important subjects on which the collective advice of the Board is desired from the business aspect, with a view to promoting efficiency and economy in the execution of the Defence Programme. The Board comprises businessmen who serve in a part-time honorary capacity and consists of an independent chairman and deputy chairman and the business advisers of the three Service Departments.

2. Basis of Current Defence Policy.—The basic aim of Australia's defence policy is to ensure the security of this country and of its island territories. This aim is pursued through a series of defence programmes which are designed to give progressive effect to the objectives of policy approved by the Government, and are capable of adjustment to meet the requirements of the strategic situation as it may change from time to time. Because of the increased strength which comes from mutual security, Australia participates in a policy of collective defence in south-east Asia, which is the area of primary defence interest to Australia. The collective security arrangements in which Australia participates are—SEATO, ANZUS and British Commonwealth arrangements for defence co-operation (*see also* Chapter XXIX. International Relations).

Although general or global war is considered unlikely except as a result of miscalculation, armed conflicts short of general war could develop at any time in areas of tension throughout the world. In south-east Asia there has been a deterioration in the strategic situation since 1963, and the range of likely military situations Australia must be prepared to face has increased. In these circumstances the main aim of Australian defence preparations is the continual improvement of the capability of the forces to make a prompt and effective contribution to any allied effort required in a limited war or insurgency situation in south-east Asia, while at the same time having the capacity for independent action to meet the initial shock of an emergency. Should the situation change and Australia itself be directly threatened, our collective defence arrangements would be of great importance in maintaining the security of Australia and its territories.

3. The Defence Programme.—(i) *Objectives.* The defence programme must be maintained at a level that will enable Australia to meet its regional and home defence responsibilities. In the present strategic circumstances emphasis is placed on progressively increasing our military capacity and preparedness by having both regular and citizen forces more readily available, and improving their strategic and tactical mobility. The forces are being extensively re-equipped with modern conventional weapons which are standard or compatible, as far as possible, with those used by United States forces with whom Australia is associated in defence arrangements.

(ii) *Navy.* The naval programme provides for the continuing modernization and development of the Royal Australian Navy into a well-balanced fleet with emphasis on anti-submarine capability. The Navy has in commission one aircraft carrier, four Type 12 frigates, three Daring class destroyers (including one on loan from the United Kingdom), one Battle class destroyer, six minesweepers, a fast transport and a fast fleet replenishment tanker together with support and training vessels. There are also several ships in reserve. Three Charles F. Adams class guided missile destroyers are being constructed in the United States. Two are scheduled for delivery in 1965 and the third in 1967. Four Oberon class submarines are being constructed in the United Kingdom to replace those which have been maintained on the Australia station for some years by arrangement with the Royal Navy. Deliveries are expected to commence in 1966. Two Australian-built Type 12 frigates have been ordered as the permanent replacement for H.M.A.S. *Voyager*. These will be fitted with up-dated equipment and the anti-submarine guided weapon Ikara, which has been designed and developed in Australia. An escort maintenance ship is being built in Australia and is expected to be completed in 1967. H.M.A.S. *Melbourne* is to be extensively modernized in 1967 and her fixed-wing aircraft replaced by Tracker anti-submarine aircraft. The Daring class destroyers *Vendetta* and *Vampire* are to be modernized, commencing in 1968, and fitted with Ikara. This weapon will also be fitted in the guided missile destroyers and Type 12 frigates. Construction of a fast fleet replenishment ship with some tanker capacity is expected to commence in 1966. Two additional minesweepers are to be obtained and are due in service in 1968. A coastal security force, for which five patrol craft are to be obtained is to be formed in Papua-New Guinea. A further nine patrol craft are being ordered for the R.A.N. In addition, a wide range of naval projects is being provided. These include support facilities for the Charles F. Adams destroyers, a missile firing range, development

of a submarine base and support facilities and provision for a submarine rescue vessel, replacement of harbour support craft and fleet boats, modernization of Wessex helicopters, and rehabilitation of the Manus Island oil fuel installations. The Navy personnel requirement by June, 1968, is 16,700. In addition, the Navy Emergency Reserve with a planned strength of 2,000 is being raised.

(iii) *Army*. The Regular Army is to be increased to an effective strength of 33,000 and a total strength of 37,500 by the end of 1966. To achieve this, compulsory selective service has been introduced. In the second half of 1965, 4,200 young men in their 20th year will be called up, and then 6,900 annually. Selective service trainees will serve for two years full time with the Regular Army followed by three years on the Reserve, and will be liable for oversea service. The field force organization is to be expanded with emphasis on a substantial increase in the combat element and high priority logistic units, and is to be adapted to provide more infantry battalions in a division and to give greater flexibility to meet requirements for cold and limited war situations. The new divisional re-organization will further improve the Army's air mobility and obtain maximum value from the increased availability of air transport support. A major unit is to be stationed in the Townsville area in North Queensland. The Special Air Service Regiment will be more than doubled in size. The target strength of the Citizen Military Forces is 35,000, and substantial changes in the organization are planned to create additional battalions. The Regular Army Emergency Reserve with a planned strength of 4,000 is being raised. The Pacific Islands Regiment will be increased to three battalions with a total strength of some 3,500 by June, 1968. In order to provide for the increasing strength of the Army, the construction of major accommodation programmes is being undertaken in Papua-New Guinea, Puckapunyal, Enoggera, Hols-worthy and Townsville.

Expenditure on Army equipment is to be increased substantially to £75 million during the period 1965-66 to 1967-68. Of this, £50 million will be spent in buying additional equipment similar to that already in service or on order. The remaining amount will purchase new equipment such as low level anti-aircraft weapons, air portable armoured fighting vehicles, new artillery weapons and combat surveillance equipment. Seventeen Sioux helicopters are to be delivered during 1965. These and the purchase of Caribou aircraft for the R.A.A.F. (seven additional) are part of the continuing programme for improving the tactical mobility of the Army.

(iv) *Air Force*. The operational units of the Royal Australian Air Force comprise three bomber squadrons, four fighter squadrons, two maritime reconnaissance squadrons, three transport squadrons, one surface-to-air missile squadron, one utility helicopter squadron and three control and reporting radar units. The fighter squadrons are being re-equipped with the supersonic Mirage III-O jet fighter, of which 100 have been ordered. Deliveries have commenced from combined Australian-French production. Twenty-four F-111A strike-reconnaissance aircraft have been ordered to replace the Canberra bombers and deliveries will commence in 1968. Eighteen Caribou short take-off and landing transport aircraft have been delivered and a further seven are on order. The twenty-four Iroquois utility helicopters ordered have been delivered. The squadron of Hercules C130A aircraft is to be supplemented by an additional medium range transport squadron equipped with twelve C130E aircraft. These are to be delivered in 1966. Ten Orion aircraft are to replace the Neptune P2E maritime reconnaissance aircraft. Seventy-five all-through jet trainers are to be procured. Ten dual Mirage training aircraft have been ordered and eight navigator-signaller training aircraft are to be obtained. Two new control and reporting radar units are being obtained and the third unit modernized. A network of modern operational airfields has been established and is being extended. This includes a second airfield in the Northern Territory at Tindal; construction of a new airfield at Boram near Wewak in New Guinea; and development of airfields at Nadzab and Daru and smaller airstrips between Daru and Boram. The airfields at Learmonth near North West Cape and at Cocos Islands are also to be developed. The personnel requirement of the R.A.A.F. by June, 1968, is 21,000. In addition, the Air Force Emergency Force with a planned strength of some 1,300 is to be raised.

(v) *Research and Development*. In this field Australia is making its principal contribution through the Long Range Weapons Project which is a joint effort with the United Kingdom. Australia also participates in the European Launcher Development Organization and is associated with the United States in many space and defence projects. The Australian executive authority in these matters is the Department of Supply.

(vi) *Financial.* Details of defence expenditure for 1963-64 and the allocation of the Defence Vote for 1964-65 are set out in the following table.

DEFENCE EXPENDITURE
(£'000)

Service or department	Maintenance, aid pro- grammes, etc.	Capital material requirements, machinery, plant and equipment	Capital buildings, works and acquisition of sites	Total expenditure
-----------------------	---	--	---	----------------------

DEFENCE EXPENDITURE, 1963-64

Defence	1,771	50	22	1,843
Navy	37,229	16,891	1,431	55,551
Army	59,773	14,828	4,433	79,034
Air	49,604	36,162	3,409	89,175
Supply	23,248	3,492	2,553	29,293
Other	5,342	188	36	5,566
Total	176,967	71,611	11,884	260,462

DEFENCE VOTE, 1964-65

Defence	2,946	138	128	3,212
Navy	42,352	24,068	2,792	69,212
Army	69,661	17,650	6,874	94,185
Air	54,843	28,251	6,921	90,015
Supply	27,190	3,243	2,611	33,044
Other	6,949	184	3	7,136
Total	203,941	73,534	19,329	296,804

(iii) *Personnel Strengths.* The personnel strengths of the Services at 31st March, 1965, are shown in the following table.

PERSONNEL STRENGTHS: SERVICES, 31st MARCH, 1965

Category	Navy	Army	Air Force	Total
Permanent Forces	13,366	(a) 23,313	17,361	54,040
Citizen Forces	3,830	27,559	808	32,197
Total Forces	17,196	50,872	18,169	86,237

(a) Excludes 1,193 Pacific Islanders.

4. *Changes in Defence Legislation.*—Under amendments made to defence legislation in 1964* the Citizen and Reserve Forces may be called out by proclamation for continuous full time service in a "Time of Defence Emergency". The particular circumstances giving rise to the proclamation of a time of defence emergency could be varied, but would occur in a situation where the Regular Forces needed the full-time support of the Citizen and Reserve Forces in hostilities short of general war.

**Air Force Act 1964, Defence Act 1964, National Service Act 1964 and Naval Defence Act 1964.*

The legislation also provided for the establishment of volunteer Emergency Reserves for the three Services. These Reserves provide a ready means of supplementing and reinforcing operational units and may be called out for continuous full-time service when the Governor-General considers it desirable to do so.

Provision was made in new defence legislation enacted in 1965 for the inclusion in the Permanent Military Forces of national servicemen who are obliged under the National Service Act as amended in 1964 and 1965 to render two years continuous full-time service in the Regular Army Supplement and three years part-time service in the Regular Army Reserve. The amendment also provided for extension of the liability to render continuous full-time service in time of defence emergency and in time of war. National Servicemen in common with all members of the Defence Force may be required to serve either within or beyond the territorial limits of Australia.

The amending legislation repealed the former provisions of the Defence Act under which persons called up for compulsory service in the Citizen Military Forces in time of war were not required to serve beyond the territorial limits of Australia unless they volunteered to do so. Liability for oversea service became mandatory for all persons called up for service in the Defence Force in time of war. The war-time powers of call-up for compulsory service were extended to apply to service in the Navy and Air Force as well as in the Army. New provisions dealing with registration, allotment and exemption from compulsory service in time of war were also enacted.

5. Australian Forces Serving Overseas.—Australia has participated with the United Kingdom and New Zealand in the Commonwealth Strategic Reserve in Malaya since it was first established in 1955. The strength of the Australian component normally serving with the Reserve is as follows:—Navy—two destroyers or frigates, with an annual visit by an aircraft carrier; Army—one infantry battalion and supporting units; Air Force—one light bomber squadron, two fighter squadrons and supporting units. At the request of the Federation of Malaysia, the Strategic Reserve continues to be stationed in Malaya to assist in border security operations against the communist terrorists. The Australian Government has also agreed, following a request by the Malaysian Government, to provide additional forces to the Strategic Reserve to assist Malaysian and British forces in the defence of Malaysia's territorial and political independence. Australian forces are now providing assistance in countering infiltration of insurgents into Malaysian territory, for engineering construction in the Borneo States, for helicopter support of the security operations against terrorists along the northern border of Malaya and some air transport and anti-aircraft defence support. In January, 1965, the Government decided that the Australian battalion in the Strategic Reserve should be made available for service in Borneo in rotation with other battalions. A Special Air Service squadron also has been sent from Australia for service in Malaysia, including Borneo.

In pursuance of its obligations under the SEATO Treaty, Australia has also deployed to Thailand, at the invitation of the Government of Thailand, a contingent of Sabre fighter aircraft. In response to an invitation of the Government of South Vietnam, a team of Australian Army instructors has been provided since 1962 to assist in training Vietnamese in jungle warfare, village defence and related activities. The present strength of the team is 100. A detachment of 6 Caribou transport aircraft, together with the R.A.A.F. personnel required to fly and maintain them, was provided in 1964. In April, 1965, the Australian Government also agreed to a request from the South Vietnamese Government to deploy an Australian battalion and supporting elements for combat service.

§ 2. Naval Defence

1. General.—Prior to 1901, naval defence systems were organized under the State Governments. Information regarding these systems is given in Year Book No. 2, page 1084. An outline of the development of Australian Naval policy is given in Year Books No. 3, page 1060, and No. 12, page 1012. An account of the building of the Australian Navy, its cost, the compact with the Imperial Government, and other details appears in Year Book No. 15, pages 921–3. The growth and the activities of the Royal Australian Navy during the 1939–45 War are shown in Year Book No. 36, pages 1023–7.

Under the provisions of the Commonwealth of Australia Constitution Act the Minister of State for the Navy administers the Department of the Navy. Under the *Naval Defence Act 1910-1964* the Royal Australian Navy is administered by the Naval Board. The Naval Board consists of the Minister as Chairman, four Naval Members, and the Secretary, Department of the Navy.

Strong links with the Royal Navy are maintained by a constant exchange of officers for extended tours of duty, and by a full exchange of information and ideas. A liaison staff is maintained by the Royal Australian Naval Representative, London, and by the Royal Navy in Australia. Advanced training and staff courses in the United Kingdom are provided by the Royal Navy for Royal Australian Navy officers.

A liaison staff is also maintained by the Royal Australian Navy in Washington and a comprehensive exchange of information is provided by this link. Staff courses in the United States are also attended by officers of the Royal Australian Navy.

The defined limits of the Australia Station are as follows.

Eastern—from 3° 30' North, 169° East, south to 1° South, thence east to 170° East, thence south along this meridian to 30° South, thence to 45° South, 160° East, thence south along this meridian.

Northern—from 3° 30' North, 169° East, west to 125° East, thence south to the coast of Celebes, thence west along the coast of Celebes to 120° East, thence south along this meridian to 10° South, thence west to 78° East.

Western—from 10° South, 78° East, south along this meridian.

2. *Ships of the Royal Australian Navy.*—The following ships were in commission or in reserve in March, 1964.

In commission:—*Melbourne*—aircraft carrier; *Sydney*—fast troop transport; *Supply*—fast fleet replenishment tanker; *Anzac*, *Vampire*, *Duchess* and *Vendetta*—destroyers; *Stuart*, *Parramatta*, *Derwent*, *Yarra*, *Diamantina* (training) and *Gascoyne* (training)—frigates; *Kimbla* (trials)—boom defence vessel; *Hawk*, *Gull*, *Ibis*, *Teal*, *Curlew* and *Snipe*—mine-sweepers; *Bass* and *Banks*—general purpose vessels; *Paluma* and *Moresby*—survey vessels.

In reserve: *Arunta* and *Tobruk*—destroyers; *Culgoa*, *Queenborough*, *Quickmatch*, *Quiberon* and *Barcoo*—frigates; *Kangaroo*, *Kara Kara*, *Kookaburra* and *Koala*—boom working vessels; *Sprightly* and *Emu*—fleet tugs.

3. *Ships' Service Outside Australian Waters.*—During the year ended March, 1965, H.M.A. Ships *Melbourne*, *Supply*, *Vampire*, *Vendetta*, *Duchess*, *Yarra*, *Parramatta*, *Derwent*, *Quiberon*, *Hawk*, *Gull*, *Ibis*, *Teal*, *Curlew* and *Snipe* served on the Far East Station as units of the Commonwealth Strategic Reserve with headquarters at Singapore. H.M.A. Ships *Sydney*, *Anzac* and *Diamantina* also made visits beyond the limits of the Australia Station.

4. *Fleet Air Arm.*—The Fleet Air Arm of the Royal Australian Navy is maintaining two front line squadrons embarked on the operational carrier H.M.A.S. *Melbourne*. This ship is fitted with an angled deck, steam catapult and mirror deck-landing sights. Training and support squadrons for H.M.A.S. *Melbourne's* Sea Venom jet all-weather fighter and ground attack aircraft and Gannet turbo-prop anti-submarine aircraft are based at the Naval Air Station H.M.A.S. *Albatross* at Nowra, New South Wales. Westland Wessex anti-submarine helicopters have been introduced into the Fleet Air Arm and are embarked on H.M.A.S. *Melbourne*. Training and support squadrons for the helicopters are also based at the Naval Air Station.

5. *Ship Construction and Repair.*—There are two naval dockyards, at Garden Island, New South Wales and at Williamstown, Victoria. Also, the dockyard at Cockatoo Island, which is operated by the Cockatoo Docks and Engineering Company Pty. Ltd. by agreement with the Commonwealth, carries out considerable naval work. All three dockyards are engaged on ship refitting for the Navy.

Included in the present ship construction plan is the building of two type 12 destroyer escorts at Cockatoo Island and Williamstown Dockyards, and a 15,000 ton escort maintenance ship at Cockatoo Island. Four submarines of the Oberon class are being obtained from the United Kingdom. In the United States three Charles F. Adams class destroyers are being built for the Royal Australian Navy at the DeFoe Ship Building Yard.

6. **Personnel.**—The authorized establishment strength of the Royal Australian Navy for 1964–65 is 14,300. At 31st March, 1965, the actual strength of the Permanent Naval Forces was 1,495 officers and cadets, and 11,871 ratings.

7. **Naval College.**—The Royal Australian Naval College, H.M.A.S. *Creswell*, is at Jervis Bay. The Naval College was established to provide trained officers for the R.A.N. Junior entry to the Naval College is at the age of 15 to 17 years, and senior entry at a maximum of 19 years. Subsequent training as midshipmen and sub-lieutenants is in ships of the fleet, at universities or technical colleges, and at the Royal Navy training establishments in the United Kingdom. In March, 1965, there were 134 cadet midshipmen under training.

8. **Direct Entry into Navy.**—To meet increasing requirements for officers, direct entries are accepted into the Royal Australian Navy. Short service commissions of seven years are granted on completion of training as seamen or aircrew officers to suitable applicants who have completed their secondary schooling and who are over 17 years of age and under 23 years for seamen and under 24 years for aircrew.

Limited opportunities exist for university undergraduates studying medicine, dentistry or engineering, to enter the R.A.N. and on successful completion of their studies to commence full-time service in the Navy. Fully qualified doctors, dentists, mechanical or electrical engineers, and instructors may also enter the R.A.N. directly if they are of the appropriate age.

9. **Training Establishments.**—H.M.A.S. *Cerberus* at Westernport, Victoria, is the main training establishment for adult ratings in the permanent naval forces, while several advanced training schools are established in Sydney, New South Wales. The period of initial engagement for ratings varies from nine to twelve years, and on completion ratings may re-engage for shorter periods up to the age of 50.

H.M.A.S. *Nirimba* at Quakers Hill, New South Wales, is the Naval school for apprentices. It provides secondary education, as well as technical training in trades, to boys aged 15 to 16 years. The school was established in 1956 to meet the R.A.N.'s increasing demand for highly skilled tradesmen. In March, 1965, there were 532 naval artificer apprentices under training.

H.M.A.S. *Leeuwin* at Fremantle, Western Australia, is the junior recruit training establishment. Entrants must be aged between 15½ and 16½ years. Training lasts one year and instruction is mainly academic, the remaining time being devoted to basic naval and disciplinary training. On completion of the course, ratings may proceed to technical and specialist courses. In March, 1965, there were 577 junior recruits undergoing training.

10. **Women's Services.**—The present Women's Royal Australian Naval Service was inaugurated in January, 1951. The authorized establishment of the W.R.A.N.S. for 1964–65 is 20 officers and 550 ratings; the numbers serving in shore establishments in March, 1965, were 13 officers and 517 ratings.

The Royal Australian Naval Nursing Service was reconstituted in November, 1964, and its strength in March, 1965, was 20 officers.

11. **Emergency Reserve.**—In November, 1964, approval was given to form the Royal Australian Naval Emergency Reserve to provide a readily available source of trained manpower which may be called out for continuous full-time service. The authorized establishments of this force is 2,000 officers and men. Members are required to complete thirteen days training annually and are paid an annual bounty.

12. **Citizen Naval Forces.**—The Citizen Naval Forces consist of the Royal Australian Naval Reserve Royal Australian Naval Reserve (Seagoing), R.A.N. Emergency List, Royal Australian Fleet Reserve, and Royal Australian Naval Volunteer Reserve. Members of the R.A.N.R. are the training reserve of the Citizen Naval Forces. They do weekly training and thirteen days' annual continuous training. Officers are commissioned and may serve until retiring age is reached. Ratings engage for periods of three years. Other reserves do not carry out part-time training, but members may volunteer for periods of annual continuous training. Special courses and service for long periods are available to selected reservists.

§ 3. Military Defence

1. General.—(i) *State Systems*. A detailed historical account of the Australian defence forces prior to federation appears in Year Book No. 2, pages 1075–80. See also Year Book No. 12, page 999.

The strength of the military forces of the States at 31st December, 1900 (the eve of federation), exclusive of cadets, reservists, and rifle club members, was—New South Wales, 9,338; Victoria, 6,335; Queensland, 4,028; South Australia, 2,932; Western Australia, 2,696; Tasmania, 2,024; total for Australia, 27,353.

(ii) *Commonwealth Systems*. Under the terms of the Commonwealth of Australia Constitution Act, the Commonwealth took over control of defence matters in March, 1901. The growth of the Commonwealth Military Forces may be considered to have taken place in a number of phases. For particulars of the phases which cover the period from the welding together of the military forces of the States into one homogeneous Army in 1902 up to the re-establishment of the Military Board and the organization of Commands after the 1939–45 War, see Year Book No. 46 and earlier issues.

National Service Training was introduced in 1951 and suspended in 1959–60. In November, 1964, the Government announced that National Service Training was to be re-introduced as from June, 1965. The scheme provides for a period of two years full-time duty in the Regular Army followed by three years in the reserve.

2. Organization.—Army Headquarters is responsible for the policy and control of the Australian Military Forces. The Military Board consists of the Minister for the Army, President; the Chief of the General Staff; the Adjutant-General; the Quartermaster-General; the Master-General of the Ordnance; the Deputy Chief of the General Staff; the Citizen Military Forces Member; and the Secretary, Department of the Army. After the 1939–45 War Command Headquarters were established to implement Army Headquarters policy and to command and administer those units placed under their authority. Command Headquarters are established in the capital cities of Australia and Papua-New Guinea. The geographic extent of Commands is as follows.

Northern Command—the State of Queensland and a small part of northern New South Wales.

Eastern Command—the State of New South Wales, less those parts included in Northern, Southern, and Central Commands.

Southern Command—the State of Victoria and part of southern New South Wales.

Central Command—the State of South Australia, plus a portion of south-western New South Wales.

Western Command—the State of Western Australia.

Tasmania Command—the State of Tasmania.

Northern Territory Command—the Northern Territory.

Papua-New Guinea Command—the Territory of Papua-New Guinea.

The basic formation in the Army is the division. In December, 1964, the Government announced that the Pentropic Division would be reorganized into a Tropical Warfare Division, which would be based on nine infantry battalions. Command would be exercised through three task Force Headquarters which would command varying combinations of Arms and Services.

Although as at 31st March, 1965, the Field Force was in progress of reorganization, the regular element was organized as follows.

(a) In Australia, two Regular Army battle groups with a third in the process of being raised, and eight Citizen Military Forces battle groups. In addition, there were combat support and communication zone supporting units. Two pentropic division headquarters, one Regular Army/Citizen Military Force and one Citizen Military Force, enabled grouping of battle groups as pentropic divisions.

(b) A restricted Regular Army battalion in Malaysia as a part of the British Commonwealth Far East Strategic Reserve.

(c) A Regular Army anti-aircraft battery and an engineer construction group in Malaysia at the request of the Malaysian Government.

Regular Army Forces in Papua-New Guinea consist of two battalions of the Pacific Islands Regiment with a number of small supporting units.

3. **Personnel.**—The effective strength at 31st March, 1965, was—Australian Regular Army (including 1,193 Pacific Islanders and 722 Women's Services), 24,506; Citizen Military Forces, 27,559.

4. **Military Training Systems.**—(i) *The Staff College.* Until 1938 the training of staff officers was carried out in the various Military Districts throughout Australia, except in cases where officers were selected from time to time to attend courses abroad. In 1938 an Australian Command and Staff School, located in the original Officers' Mess at Victoria Barracks, Sydney, was established. Between 1939 and 1945 the training of staff officers was carried out under varying conditions by different schools in accordance with the changing needs of the war.

Early in 1946 the Staff School (Australia) was established at Seymour, Victoria, and redesignated the Staff College in conformity with other Commonwealth training establishments for training officers for command and staff appointments. The College was later moved to Queenscliff, Victoria, where it is at present situated. The course is held annually and is of twelve months duration. The normal intake is 55 students, and, on successfully completing the course, an officer is awarded the symbol "psc". The course is designed to train selected officers for appointments in all branches of the staff in peace and war, and to prepare them to assume, after experience, command and higher staff appointments.

Included in the 1966 course will be students from the United Kingdom, Canada, New Zealand, India, Pakistan, United States of America, Thailand, Malaysia and the Philippines. Vacancies on each course are reserved also for officers who may be nominated by the Royal Australian Navy, the Royal Australian Air Force and the Commonwealth Public Service.

In order to ensure common standards in tactical doctrine and staff and command training throughout the Commonwealth of Nations, liaison is maintained with other Staff Colleges, and to this end there is also a reciprocal exchange of instructors between the United Kingdom and Australia. An instructor is also provided by New Zealand.

(ii) *The Royal Military College.* The Royal Military College was established in 1911 at Duntroon in the Australian Capital Territory for the purpose of providing trained officers for the Army. The conditions of entry are laid down in the Royal Military College Regulations. The length of the normal course is four years. While at the College Staff Cadets are wholly maintained, and, in addition, receive payment increasing with each year of the course. The course of instruction is organized into military and civil departments, and the instructional staff comprises officers of the Army and civilian professors. On graduation, cadets are appointed lieutenants in the Australian Regular Army. The College also trains New Zealand cadets for commissions in the New Zealand Permanent Forces.

(iii) *The Officer Cadet School.* The Officer Cadet School was established in 1951 at Portsea, Victoria, for the purpose of speeding up the production of junior regimental officers for the Australian Regular Army. Serving members of the Australian Regular Army, the Citizen Military Forces, and civilians between the ages of 18½ and 22½ years are eligible to apply for entrance. A special entry provides for candidates up to 24½ years. The course is of 44 weeks' duration, and, on graduation, cadets are appointed second-lieutenants in the Australian Regular Army. Graduates normally proceed to further training at the Army School of the Arm and Service to which they have been allotted before being posted to regimental duties.

(iv) *The Officer Training Unit.* An Officer Training Unit has been established at Scheyville, New South Wales, and will be responsible for the training of National Service officers.

(v) *The Women's Royal Australian Army Corps School.* The W.R.A.A.C. School, established in 1952 at Mildura, Victoria, moved to Mosman, New South Wales, in 1958. It has three wings, one whose primary task is the training of officer cadets for the W.R.A.A.C., one for the training of non-commissioned officers at all levels and for other special courses, and one which is a basic training wing. The officer cadets are selected from eligible applicants, who may be serving members between 19½ and 32 years of age, or civilians between 21 and 30 years of age. The course is of six months' duration and, on graduation, cadets are appointed lieutenants in the Women's Royal Australian Army Corps.

(vi) *The Army Apprentices' School.* The Army Apprentices' School was opened in 1948 at Balcombe, Victoria, with the aim of training youths as skilled tradesmen for the Australian Regular Army, and to form a background for an Army career with prospects of promotion. The course is open to boys between the ages of 15 and 17 years and provides

training in a number of highly skilled trades. A three-year course of intensive theoretical and practical work at the Apprentices' School is followed by one year in an appropriate Army workshop or technical unit. At the end of their third year boys are given their Army trade test and also take the Victorian Apprenticeship Commission's final grade public examinations, which ensures that they will be accepted as qualified tradesmen in civil life when they eventually leave the Army. In addition to trade training the Apprentices' School provides general educational facilities up to the School Leaving Standard.

(vii) *Other Schools.* Army Schools have been established for the major Arms and Services for the purpose of training officers and other ranks in the up-to-date techniques of their own Arm or Service, to qualify them for promotion requirements, and to produce trained instructors. Courses at Army Schools are conducted for members of both the Australian Army and the Citizen Military Forces.

The following Army Schools have been established:—Jungle Training Centre, Armoured Centre, School of Artillery, School of Military Engineering, Transportation Centre, School of Military Survey, School of Signals, Infantry Centre, Army Intelligence Centre, Royal Australian Army Service Corps Centre, Royal Australian Army Medical Corps School of Army Health, Royal Australian Army Ordnance Corps School, Royal Australian Electrical and Mechanical Engineers' Training Centre, School of Music, and Air Support Unit (Army Component).

5. *Women's Services.*—In July, 1950, approval was given for the enlistment of women into the Australian Regular Army on a limited scale. Enlistment commenced into the Royal Australian Army Nursing Service in November, 1950, and into the Australian Women's Army Corps early in 1951. In February, 1951, the Royal Australian Army Nursing Service became a Corps and was designated the Royal Australian Army Nursing Corps (R.A.A.N.C.). During June, 1951, the Australian Women's Army Corps was redesignated the Women's Royal Australian Army Corps (W.R.A.A.C.). The Women's Services in the Australian Regular Army now comprise two Corps only, the Royal Australian Army Nursing Corps and the Women's Royal Australian Army Corps.

Women's Services are incorporated in the Citizen Military Forces, and one company of the Women's Royal Australian Army Corps is located in each Command excluding Northern Territory Command and Papua-New Guinea Command. Companies of the Royal Australian Nursing Corps are located in each Command excluding Northern Territory Command and Papua-New Guinea Command.

6. *The Australian Cadet Corps.*—The Australian Cadet Corps is a voluntary organization. It serves as a training ground to provide, to some extent, the future officers and non-commissioned officers of the Australian Military Forces, and, as such, occupies a foremost position in the scheme of national defence. The Australian Cadet Corps, however, does not form part of the Australian Military Forces. School Cadet units are raised at educational establishments throughout the Commonwealth and Papua and New Guinea, except in the Northern Territory. The minimum age for enrolment is the year in which the applicant reaches the age of 14 years, and cadets, who, in the large majority of schools receive a free issue of A.M.F. pattern uniform, may remain in the Cadet Corps until they cease to be pupils of the educational establishments concerned. A few units retain their own pattern school uniform and are not issued with A.M.F. pattern uniforms. Provision is made for the appointment of officers, cadet under-officers, warrant and non-commissioned officers, on an authorized establishment scale from within school units. School Cadet units may be, and in many cases are, affiliated with Citizen Military Force units.

The establishment of the Corps is 45,203 all ranks, and at 31st March, 1965, comprised 323 School Cadet units with a posted strength of 40,201, all ranks,

§ 4. Air Defence

1. *General.*—A statement regarding the preliminary steps taken in connexion with the development of air defence appears in Year Book No. 18, page 610, and one on the expansion and development and zones and operations of the Royal Australian Air Force during the 1939-45 War in Year Book No. 36, page 1027. Details of the current defence expansion as it affects the R.A.A.F. were outlined by the Prime Minister in his speech in the House of Representatives on 10th November, 1964.

2. **Higher Organization.**—(i) *General.* The Air Board is responsible to the Minister for Air for the control, organization and administration of the Royal Australian Air Force, and is constituted as follows:—Chief of the Air Staff, Air Member for Personnel, Air Member for Supply and Equipment, Air Member for Technical Services, and the Secretary, Department of Air.

Headquarters of the Royal Australian Air Force is in Canberra. A R.A.A.F. representative is located in London, and Air Attachés are located in Djakarta, Paris, Saigon and Washington.

(ii) *Commands.* The Air Board exercises command and control over R.A.A.F. units in Australia through two commands, namely:

Operational Command—responsible for the command of operational units and the conduct of their operations within Australia and its territories;

Support Command—responsible for the command of training, supply and servicing units; recruitment and individual training in the R.A.A.F.; and supply and servicing, including technical servicing of the R.A.A.F. in Australia.

The guiding principles of the command organization within Australia are to decentralize day-to-day operating activities as far as possible, to streamline the force, and make it as efficient as possible. The operational units overseas, working within the broad directives issued by the Air Board, comprise the R.A.A.F. component of the British Commonwealth Strategic Reserve located at Butterworth in Malaysia and units in Thailand and South Vietnam.

3. **Organization of Units.**—The organization of the Royal Australian Air Force includes the following types of formations and units:

Bases. Each command is established with the units necessary to carry out its allotted function. There is no fixed rule in relation to the number and types of units within each command as this depends upon the nature of its present and future responsibilities. Where possible, units having similar functions or requiring similar facilities are located together and the geographical locations are known as bases. While in general only units belonging to one command will be located on a particular base, it is sometimes necessary to locate units of both commands at one base.

Formations—comprising a headquarters unit to control the activities of a number of units at one location; each formation has a base squadron which provides common services to all units at the location.

Flying Squadrons—bomber, fighter, transport, helicopter and maritime reconnaissance squadrons which undertake the operational flying and, in conjunction with operational conversion units, the operational flying training commitments of the R.A.A.F.

Operational Conversion Units—specializing in operational conversion training of aircrew for the bomber and fighter squadrons.

Aircraft Depots—specializing in major overhaul, etc., of aircraft and equipment and relieving flying units of these commitments.

Stores Depots—centrally located depots to which stores and equipment ordered by the R.A.A.F. are delivered for distribution to units.

Flying, Ground Training, Navigation and Radio Training Units—schools specializing in the aircrew and ground staff training required by the R.A.A.F.

Airfield Construction Squadron—specializing in the construction of R.A.A.F. aerodromes and associated buildings and works services.

Royal Australian Air Force Academy—the training college for officer cadet entrants to the R.A.A.F.

Telecommunications Units—responsible for the communications services of the R.A.A.F.

R.A.A.F. Staff College—trains specially selected R.A.A.F. officers for higher staff and command posts.

4. **Aircraft.**—The aircraft which are at present being used in the Royal Australian Air Force are: bomber squadrons—Canberra; fighter squadrons—Avon Sabre (the R.A.A.F. is currently re-equipping with Mirage III fighters); transport squadrons—Caribou, Dakota, Hercules, Metropolitan and Viscount; maritime reconnaissance squadrons—Neptune; utility helicopter squadron—Iroquois helicopters; training—Avon Sabre, Canberra, Dakota, Mirage, Vampire and Winjeel.

5. **Personnel.**—At 1st April, 1965, the authorized establishment was—Permanent Air Force, 18,426, and Citizen Air Force, 1,081; the enlisted strength was, Permanent Air Force, 17,361, and Citizen Air Force, 808; while the strength of the General Reserve was 11,222. The preceding Permanent Air Force figures include the Women's Royal Australian Air Force, which has an establishment of 895 and strength of 860, and the R.A.A.F. Nursing Service with an establishment of 80 and strength of 66.

§ 5. Department of Supply

1. **General.**—On 17th March, 1950, the Department of Supply was created to take over the functions of the former Department of Supply and Development, except those relating to the Bureau of Mineral Resources, Geology and Geophysics, which were transferred to the Department of National Development on that date. The Department of Supply and Development had been formed in April, 1948, to take over the munitions and aircraft activities of the Department of Munitions and the supply activities of the Department of Supply and Shipping. To these were added the design and inspection activities of the Department of the Army in February, 1950.

On 11th May, 1951, the munitions and aircraft production and the defence production planning activities of the Department were transferred to a newly created Department of Defence Production. The Department of Supply continued to exercise the remaining functions except shipbuilding, which was transferred to the Department of Shipping and Transport. In April, 1953, the control of materials used in producing atomic energy was vested in a newly created Australian Atomic Energy Commission, which was administered by the Minister for Supply until October, 1956, when it became the responsibility of the Minister for National Development. In March, 1958, responsibility for the production of aluminium was transferred to the Department of National Development. The Australian Aluminium Production Commission, the executive body appointed to carry out this function, became responsible to the Minister for National Development as from that date.

On 24th April, 1958, the Department of Defence Production was abolished, and the functions of that Department were re-transferred to the Department of Supply. References to those functions and to the activities of the various branches and establishments of the former Department of Defence Production are contained in Year Book No. 44, pages 1059–61. On 11th March, 1959, the design and inspection functions were re-transferred to the Department of the Army.

On 18th December, 1959, the Department assumed responsibility for the operation and management of space tracking stations in Australia on behalf of the United States National Aeronautics and Space Administration. On 29th March, 1962, Australia became a foundation member of the European Launcher Development Organization, and the Department accepted responsibility for the test firing of the launching rocket for that Organization's communications satellite, using the facilities of the Woomera Rocket Range.

2. **Functions of the Department.**—The functions of the Department of Supply include the following.

Defence research and development, including the operation of the Joint United Kingdom—Australia Weapons Research Project, and Australian research and development through the Weapons Research Establishment, the Aeronautical Research Laboratories, the Defence Standards Laboratories and associated establishments.

Manufacture, acquisition, provision and supply of munitions (including aircraft) and miscellaneous goods and services required by the defence forces.

Arrangement of contracts for the supply of goods and the performance of services.

Operation and management of factories, workshops and undertakings concerned in the production of munitions (including aircraft), clothing, canvas-ware and other defence goods.

Operation and management of space tracking stations in Australia on behalf of the United States National Aeronautics and Space Administration.

Test firing of the launching rocket for the European Launcher Development Organization's communications satellite, using the facilities of the Woomera Rocket Range.

Acquisition, maintenance and disposal of strategic materials.

Planning and establishment of manufacturing facilities for the production of munitions and other defence goods.

Investigation and development of Australian sources of supply in connexion with defence.

Sale or disposal of surplus Commonwealth property other than land or buildings.

Provision of Commonwealth transport facilities outside the Australian Capital Territory and the Northern Territory.

Provision and control of stores required for or in connexion with matters administered by the Department of Supply, and general storage for other Departments as required.

Provision of security services within the Department.

Arrangements for ascertaining costs and the control and limitation of profits in connexion with the production of munitions and other defence goods.

3. *Act Administered.*—The Minister for Supply administers the *Supply and Development Act 1939–1948*, except insofar as it concerns the building (*see also* Chapter XV., p. 536, of this volume), repair and maintenance of merchant ships and the building, extension, alteration, repair and maintenance of shipyards, drydocking and repair facilities for merchant ships.

4. *Research and Development Division.*—(i) *General.* The Research and Development Division, which is under the control of the Chief Scientist, is responsible for research and scientific development in relation to war *matériel*, including the operation of the Joint United Kingdom—Australia Weapons Research Project. The Chief Scientist is also the Chairman of the Joint Project Board, which is responsible for the administration of the Joint Project undertaking. The headquarters of the Division is situated in Melbourne, and the following establishments are included in the Division:—(a) Weapons Research Establishment, Salisbury, South Australia; (b) Defence Standards Laboratories, Maribyrnong, Victoria, Finsbury, South Australia, and Alexandria, New South Wales; (c) Aeronautical Research Laboratories, Fishermen's Bend, Victoria.

(ii) *Weapons Research Establishment, Salisbury, South Australia.* This establishment, which occupies an area of about six square miles, includes Edinburgh Airfield, where accommodation is provided for a unit of the R.A.A.F., which carries out the experimental and other flying required. Extensive facilities have been provided for branches of British firms which have contracted with the British Ministry of Aviation to develop weapons systems or components.

The Establishment has four main sections, namely the Trials Wing, the Space Physics Wing, the Weapons Research and Development Wing and the Engineering Wing. The Trials Wing is concerned with the operation, development and instrumentation of the Woomera Range, also the planning, execution and assessment of trials. The Space Physics Wing undertakes the operation of United States satellite and space tracking stations throughout Australia and conducts research and development in support of the Range, including investigations into the characteristics of the upper atmosphere using sounding rockets. The Weapons Research and Development Wing is concerned primarily with Australian-initiated defence research, but assistance is also given with some phases of the Joint Project programme. The Engineering Wing provides the design and manufacturing effort required to support the work of the Establishment and the Range.

Testing ranges have been established at Woomera, which is approximately 280 miles north-west of Adelaide. A township, together with modern amenities such as hospital, school, kindergarten, community store, swimming pool and all sporting facilities, has been built at Woomera to accommodate the staff and their families. The population is approximately 5,300.

(iii) *European Launcher Development Organization (ELDO).* By virtue of the major facilities at Woomera for launching space vehicles and the associated technical skills, Australia has become a member of ELDO, which has been established with the object of developing a launching vehicle for placing satellites in orbit for peaceful purposes. Other members of ELDO are Britain, Belgium, the Federal Republic of Germany, France, Italy and the Netherlands.

(iv) *United States Space Projects.* Agreements have been signed by the Australian and United States Governments for a co-operative programme for the establishment and operation in Australia, for scientific purposes, of facilities for space vehicle tracking and data recording. Space tracking, telemetry and command stations have been established at Island Lagoon, near Woomera, at Carnarvon, Western Australia, and at Tidbinbilla, near Canberra, while other stations are in course of construction at Orroral Valley and Honey-suckle Creek which are both situated close to Canberra. A small mobile station has also been set up at Darwin. All these are an integral part of the world-wide network of tracking and data recording stations being established by the United States National Aeronautics and Space Administration to support its programme for manned space vehicles, scientific satellites and deep space probes.

(v) *Defence Standards Laboratories.* The broad function of these Laboratories is to provide a scientific service to the Armed Services, civilian defence, and the factories, branches and establishments of the Department of Supply. It also provides trained groups in specialist fields for which there is no counterpart elsewhere in Australia. This service covers problems arising in the provision and use of defence *matériel* and is given generally within the fields of chemistry, physics, metallurgy and engineering and, to a limited extent, in those of bio-chemistry and physiology.

(vi) *Aeronautical Research Laboratories.* The work of these Laboratories lies in the fields of: (a) aeronautics; (b) guided missiles; and (c) branches of engineering appropriate to the special facilities, resources, or experience resulting from (a) and (b). In particular it comprises aerodynamics, including wind tunnel, free flight model and actual flight testing; structures of aircraft and missiles; metals and other materials used in the construction of airframes and engines; engines of the air-breathing type used for the propulsion of aircraft or missiles; human engineering studies relating to the operation of aircraft and guided missiles; research and development related to Australian-initiated guided missiles; and operational assessment studies on devices and techniques employed or proposed for the defence of Australia.

5. *Production.*—(i) *Munitions.* The Department is responsible for the production of a wide range of munitions required by the Armed Services. Production is carried out substantially in Government factories, although some orders, mainly for components, are placed with private industry.

The following Government factories are currently in operation:—Ammunition—Footscray, Victoria; Explosives and Filling—Albion and Maribyrnong, Victoria; Mulwala and St. Marys, New South Wales; Ordnance—Maribyrnong, Bendigo and Port Melbourne, Victoria; Small Arms—Lithgow, New South Wales; Clothing—South Melbourne and Brunswick, Victoria.

The Ammunition Factory produces the complete round of small arms ammunition and also components for larger calibre gun ammunition, including empty cartridge cases, electronic and mechanical fuses, and primers. The Explosives Factories produce the various types of explosive compositions and propellants required for gun ammunition, rockets and guided missiles. The Filling Factory at St. Marys fills and assembles into complete rounds of ammunition (other than small arms ammunition) the empty components and materials supplied by the other munitions factories and by private industry.

The Ordnance Factories at Maribyrnong and Bendigo are equipped to produce heavy ordnance equipment, such as naval guns and gun mountings; large turbine gears; steel shell bodies; empty rocket motors for guided missiles; trailers and tank transporters; and other items requiring heavy engineering capacity. As well as work for the Services, the Bendigo Factory is producing equipment for projects of national importance, e.g. control equipment for the Snowy Mountains Hydro-electric Authority, components for marine diesel engines for Australian shipping, large heavy engineering items for the coal, cement and steel industries, and coining presses for the Royal Australian Mint.

The Port Melbourne Factory builds large marine diesel engines for the Australian ship-building industry. Major forgings and fabrications for these engines are produced at the Ordnance Factories at Maribyrnong and Bendigo.

The Small Arms Factory is equipped to produce the rifles and other small arms required by the Services. Current production is the 7.62-mm. automatic rifle, for which orders have also been received from overseas, and the 9-mm. carbine, which replaces the Owen as the infantry light machine gun.

The Clothing Factories make uniforms, clothing and canvas goods for the three Services and also for the Postmaster-General's Department and some other Commonwealth authorities.

(ii) *Aircraft and Guided Weapons.* (a) *Aircraft and Engines.* Production both in Government factories and in industry of military types of aircraft and aero engines and of other aircraft components required by the Royal Australian Air Force is administered by the Department of Supply. Planning of capacity and the negotiations of contractual arrangements concerning aircraft modification, repair and overhaul, and for the supply of spare parts and airborne equipment for the R.A.A.F., the R.A.N. and the Army are also functions of the Department.

The following factories are operated by the Department:—The Government Aircraft Factory at Fishermen's Bend, and the Final Assembly Workshops and Test Airfield at Avalon, Victoria; and the Airframe Repair Workshops at Parafield and Northfield, South Australia.

The current aircraft production programme at the Government Aircraft Factory comprises the French Mirage supersonic fighter for the R.A.A.F. and the Jindivik radio-controlled target aircraft, which has been or is being supplied to Britain, Sweden and the United States, as well as to the Weapons Research Establishment and the Royal Australian Navy.

Apart from the Government Aircraft Factory, the Commonwealth Aircraft Corporation Pty. Ltd. is the only major aircraft manufacturer in Victoria, and this company is currently producing the French Atar turbo-jet engine for the Mirage fighter and also some sections of the airframe.

Other major activities carried out in the Government factories or by various private contractors are the manufacture of airframe and engine spare parts; the overhaul, repair and modification of military aircraft and engines currently in service with the R.A.A.F., R.A.N. and Army; and the reconditioning and servicing of aircraft instruments and other ancillary equipment.

(b) *Guided Weapons.* The Government Aircraft Factory at Fishermen's Bend has become increasingly engaged in recent years in guided weapons development and production. The first production task undertaken at the Factory in the guided weapons field was the supply of the Malkara anti-tank missile to the British Army. This task is now virtually complete. The present concentration of activity is on Ikara anti-submarine missiles for the Royal Australian Navy. This project, which is entering the production stage, represents a combined effort by departmental establishments and industry.

(c) *Telecommunications.* The Department is responsible for the technical aspects of production of telecommunications and electronics equipment for the Armed Services and for certain other organizations such as SEATO and the Colombo Plan. All production is carried out by the electronics industry. Substantial orders have been placed on local industry for a wide range of telecommunications and electronics equipment. Some of the major projects are the development of pilot models of an improved man-pack transistorized receiver/transmitter for the Army; the manufacture of telegraph relay stations for the R.A.A.F.; the production of major sections of the Ikara weapons system for the R.A.N.; and wind-finding radar equipment for the Bureau of Meteorology. Development contracts are in progress for the local production of high-stability miniaturized electronic components such as sealed crystal holders, fixed and variable resistors, mica and tantalum capacitors and a quartz crystal oscillator.

6. *Contract Board.*—(i) *General.* Under the *Supply and Development Act 1939-1948* the Contract Board is the authority responsible for the arranging of contracts for the performance of services and the purchase of supplies for the Naval, Military and Air Forces of the Commonwealth, as well as for the Department of Supply. The Board is also responsible for the sale or disposal of all surplus or unserviceable Commonwealth goods approved for disposal. By arrangement, the Board also arranges purchases on behalf of other Commonwealth departments and authorities which desire to use its facilities.

(ii) *The Board and its Administrative Organization.* The Contract Board meets in Melbourne, and comprises representatives of the Departments of Supply, Navy, Army and Air. The Board's administrative organization is the Contracts and Disposals Branch. In each State other than Victoria there is a District Contract Board with an administrative organization similar to that of the Contract Board. The table following shows, in respect of the Contract Board organization, the purchases and realizations from disposals for the years 1962-63 and 1963-64.

**CONTRACT BOARD ORGANIZATION: PURCHASES AND REALIZATIONS
FROM DISPOSALS**

(£)

State	Purchases		Realizations from disposals	
	1962-63	1963-64	1962-63	1963-64
Contract Board, Victoria	33,876,845	46,767,230	1,253,181	1,659,296
District Contract Board—				
New South Wales	6,664,285	7,325,884	1,206,164	1,368,814
Queensland	931,855	1,346,935	339,588	353,878
South Australia	2,089,214	2,691,091	541,318	558,285
Western Australia	843,685	404,730	187,663	174,695
Tasmania	103,501	86,346	49,131	47,290
Total	44,509,385	58,622,216	3,577,045	4,162,258

7. **Defence Supply Planning.**—The central planning authority of the Department is the Planning Branch, whose principal functions are:—

- to study manufacturing capacity available for the Services' requirements in peace and war;
- to plan for and to assist in the development of additional production capacity;
- to plan the organization of industrial resources for defence production in war;
- to provide and administer stock of relevant materials and reserve pools of plant equipment and other requirements needed for rapid expansion of production in the event of war;
- to prepare and advance co-ordinated production programmes against Service orders and to analyse and interpret achievement against these programmes for the information of the Department and the Services;
- to provide advisory services in the field of instrumentation, machine tools, materials, and inspection to Government factories and contractors engaged in the production of munitions requirements;
- to administer the national stockpile;
- to administer oversea aid programmes allocated to the Department; and
- to undertake commercial sales.

A series of Industry Advisory Committees has been established to advise the Minister and the Department on the ability of industry to meet the Services' *matériel* requirements for mobilization and war. The Committees are:—Aircraft and Guided Weapons; Chemical; Electrical; Electronics and Telecommunications; Heavy Engineering; Light Engineering; Fibres; Textiles, Clothing and Cordage; Leather and Footwear; Machine Tools and Gauges; Materials; Rubber. Members of the Committees include industrialists of wide experience and the highest ability in their chosen fields.

8. **Stores and Transport Branch.**—This Branch, administered by a Board of Management and working under the direction of a General Manager, functions as the central storage authority and the central transport authority for all Commonwealth Departments. It is the authority for the arrangement of furniture removals at departmental expense in all States, but not in the Northern Territory. It has agents in Darwin. It also operates a shipping and customs section and the England-Australia bulk air freight scheme for Commonwealth Departments.

On 30th June, 1964, the Branch had under its control land, buildings and works, vehicles, plant and equipment valued at £11,505,926, and 3,180,000 sq. ft. of storage space, as well as storage facilities for large quantities of chemicals, bulk liquids and explosives.

9. **Finance Branch.**—The total expenditure on Department of Supply activities during the year 1963-64 was £56,493,000, comprising £29,243,000 (net) from Parliamentary appropriations, and £27,200,000 from Trust Fund Accounts. The latter included expenditure of £6,338,000 for Stores and Transport and £19,352,000 in Government Munitions and Aircraft Factories.

CHAPTER XXVIII REPATRIATION

§ 1. General

The Repatriation Commission, established under the *Repatriation Act* 1920–1964, consists of three full-time members. It is responsible for the administration of the Repatriation Act and associated legislation, all matters of policy, and the general administration and overall supervision of the Repatriation Department. The central office is in Melbourne and there is a branch office, under the control of a Deputy Commissioner, in each State.

The principal functions of the Department are:—the payment of war and service pensions to eligible ex-service men and women and their dependants; the provision of medical treatment to ex-service men and women for injuries and illnesses caused or aggravated by their war service; the provision of medical treatment in certain circumstances to ex-service men and women who are suffering from injuries and illnesses not caused or aggravated by war service; and the provision of medical treatment to widows and dependants of deceased ex-servicemen whose deaths are due to war service.

Other functions of the Repatriation Department are outlined in a later section of this chapter (*see* § 5, General Benefits and Miscellaneous, pp. 1220–2).

Benefits are provided in respect of service, not only in the 1914–18 and 1939–45 Wars, but also in the Korea and Malaya operations, with the British Commonwealth Far East Strategic Reserve, and the Special Overseas Forces.

§ 2. War Pensions

1. **General.**—The first provision for the payment of war pensions to ex-servicemen and their dependants was made by the Commonwealth Parliament in the *War Pensions Act* 1914. This Act was repealed in 1920 by the *Australian Soldiers' Repatriation Act* 1920 (amended from 31st December, 1950, to the Repatriation Act). The main features relating to war pensions under the *Repatriation Act* 1920–1964 are set out in the following paragraphs.

(i) *Eligibility for Pensions.* Claims for eligibility for war pensions are determined in the first instance by a Repatriation Board in each State of the Commonwealth, and the Repatriation Act provides for a right of appeal from the determination of a Board. Members of women's services are eligible for pensions and other benefits, as prescribed in the Act, on the same basis as male members of the forces. Amendments to the Act in 1943 considerably widened the eligibility provisions, to the benefit, mainly, of members of the Citizen Military Forces who had not served outside Australia. These provisions are summarized as follows.

A member of the forces who served (1) outside Australia, (2) in the Territories of Australia, such as Papua and New Guinea, or (3) within Australia in circumstances which can be regarded as combat against the enemy, is covered for war pension purposes in respect of incapacity or death which may result from any occurrence that happened during the period from the date of his enlistment to the date of the termination of his service in respect of that enlistment.

In other cases where a member served only in Australia, incapacity or death to be pensionable must have been attributable to service.

There is a third ground applicable to all members except those with less than six months' camp service. This provides that, where a condition existed at enlistment, a pension may accrue if it is considered that the condition was aggravated by service.

If, at any time after discharge, an ex-serviceman who served in a theatre of war becomes incapacitated or dies from pulmonary tuberculosis, war pension is payable as if the incapacity or death resulted from an occurrence on service. (*See also* § 3. Service Pensions.) Medical treatment may also be provided.

(ii) *Rates.* The main classes of war pensions are the special (T.P.I.) rate, the general rate and the war widows' pension. These are not subject to a means test except where stated for certain classes of dependants.

The *special rate* of war pension is payable to those who are totally and permanently incapacitated and are unable to earn more than a negligible percentage of a living wage. The weekly rate is £14 5s., plus £2 0s. 6d. wife's allowance and 13s. 9d. for each child under 16 years.

The *general rate* of war pension is the rate payable to those who suffer war-caused disabilities but are not thereby prevented from working, although their earning capacity may be reduced. The actual pension payable is assessed in accordance with the degree of incapacity suffered. The maximum (100 per cent.) rate is now £6 a week. A wife and children under 16 years also receive pensions at rates according to the assessed degree of incapacity of the ex-serviceman, the maximum being £2 0s. 6d. for a wife and 13s. 9d. for each child.

The *war widows' pension* is paid to widows of ex-servicemen who died as a result of war service, and to their children under the age of 16 years. The weekly rates are: widow, £6; first child, £1 19s.; second and each subsequent child, £1 7s. 6d.

(iii) *Other dependants* of an ex-serviceman who is suffering from a disability due to war service may be granted pensions under certain circumstances. Such pensions are subject to a means test and are assessed in accordance with the degree of the ex-serviceman's incapacity. Except in the case of a widowed mother of an unmarried ex-serviceman, other dependants are required to prove dependence on the ex-serviceman.

(iv) *Allowances.* The following allowances are provided in addition to pension.

Domestic Allowance (£3 10s. *per week*). This is paid, in addition to pension, to a widow of an ex-serviceman whose death is due to war service, if she is 50 years of age; or is permanently unemployable; or has a dependent child under the age of 16 years, or a dependent child over 16 years being educated and not in receipt of an adequate living wage.

Attendants' Allowance (*maximum rate* £5 5s. *per week*). This allowance is paid, in addition to war pension, to certain classes of seriously disabled ex-servicemen, for example, war blinded, those who are paralysed, and certain double amputees.

Clothing Allowance. A clothing allowance is paid at various rates (3s. 9d. to 7s. 6d. *per week*) to an ex-serviceman who, as a result of war service, has lost an arm or a leg or, because of an injury to a limb, is required to use a surgical aid or appliance. An amount not exceeding £9 15s. in any one year is also payable to certain other war disabled ex-servicemen.

Sustenance Allowance. This allowance is paid where an ex-serviceman is prevented from following his normal occupation through treatment of a war-caused disability or while undergoing medical investigation. The rate payable is the same as the general (100 per cent.) rate pension.

Where an ex-serviceman is receiving in-patient treatment for a war-caused disability or is undergoing periods of essential convalescence immediately following discharge from hospital, a higher rate to bring the sustenance allowance up to the equivalent of the special (T.P.I.) rate is paid.

A wife and children under 16 years also receive pensions at the current general or special rate.

Recreation Transport Allowance. This allowance provides transport for recreation purposes and may be paid to an ex-serviceman who, as a result of war service, suffers certain amputations of the arms or legs or is seriously disabled to the extent that his powers of locomotion are negligible.

Other Allowances and General Assistance. These include re-establishment loans and allowances, funeral benefits, vocational training allowances for education and training of children, fares and allowances for loss of remunerative time in connexion with medical or pension purposes, and motor vehicle allowances for seriously disabled ex-servicemen.

2. **Appeals Tribunals.**—The principal Act was amended, as from 1st June, 1929, to create tribunals to hear appeals in respect of war pensions. The War Pensions Entitlement Appeal Tribunal is empowered to hear and decide any appeal by or on behalf of ex-servicemen or their dependants against a decision of a Repatriation Board or the Repatriation Commission that the incapacity or death of an ex-serviceman did not arise out of war service. Assessment Appeal Tribunals were created to hear and decide any appeal against a current assessment or a "Nil" assessment of war pension made by the Repatriation Commission in respect of the incapacity of an ex-serviceman which had been accepted as arising out of war service. Provision was made by subsequent legislation to enable the tribunals to hear appeals by certain members whose applications for a service pension had been refused on the grounds that they were not suffering from pulmonary tuberculosis or were permanently unemployable.

3. **Summary of War Pensions, 1963-64.**—The following table provides a summary of war pensions for the 1914-18 War, the 1939-45 War, the Korea and Malaya operations and the Far East Strategic Reserve.

WAR PENSIONS: SUMMARY, AUSTRALIA, 1963-64

Particulars	1914-18 War	1939-45 War	Korea and Malaya operations	Far East Strategic Reserve	Total
New claims granted	2,050	29,119	862	196	32,227
Restorations	217	760	15	..	992
Claims rejected(a)	1,678	6,113	271	58	8,120
Pensions cancelled or discontinued..	547	24,606	117	5	25,275
Deaths of pensioners	5,331	4,075	33	1	9,440
Number of pensions in force at 30th June, 1964	111,768	547,376	9,051	658	668,853
Annual pension liability at 30th June, 1964 £'000	23,572	42,668	473	31	66,744
Amount paid in pensions during the year 1963-64 £'000	n.a.	n.a.	n.a.	n.a.	77,265

(a) Number of ex-servicemen who had their claims for all their disabilities rejected.

4. *Classes of War Pensions, Australia, 1963-64.*—(i) *New Claims Granted.* The following is an analysis of the total number of new claims granted during 1963-64.

WAR PENSIONS: NEW CLAIMS GRANTED, AUSTRALIA, 1963-64

Class	1914-18 War	1939-45 War	Korea and Malaya operations	Far East Strategic Reserve	Total
Ex-servicemen	927	7,231	165	58	8,381
Wives of ex-servicemen	1,012	7,206	172	44	8,434
Children	71	14,231	507	94	14,903
Other dependants	40	451	18	..	509
Total	2,050	29,119	862	196	32,227

(ii) *Pensions in Force.* The following table shows the number of pensions in force at 30th June, 1964, for each war and for each class of pensioner.

WAR PENSIONS IN FORCE: AUSTRALIA, 30th JUNE, 1964

Class	1914-18 War	1939-45 War	Korea and Malaya operations	Far East Strategic Reserve	Total
Ex-servicemen	44,401	175,301	2,554	223	222,479
Wives	42,300	149,027	1,945	143	193,415
Children	872	191,671	4,227	252	197,022
War widows	23,293	17,108	84	10	40,495
Children of deceased ex-servicemen	125	6,544	116	26	6,811
Orphans	17	151	4	..	172
Parents	505	7,222	118	3	7,848
Brothers and sisters	43	101	3	..	147
Others	212	251	..	1	464
Total	111,768	547,376	9,051	658	668,853

(iii) *Special Rate Pensions.* At 30th June, 1964, special rate pensions were being paid to the following classes of ex-servicemen.

WAR PENSIONS: MEMBERS ON SPECIAL RATES OR EQUIVALENT, AUSTRALIA, 30th JUNE, 1964

Class	1914-18 War	1939-45 War	Korea and Malaya operations	Far East Strategic Reserve	Total
Totally and permanently incapacitated ex-servicemen	12,312	9,593	39	..	21,944
Blinded ex-servicemen	211	240	2	..	453
Tuberculous ex-servicemen	388	305	9	..	702
Tuberculous ex-servicemen (intermediate rate)	82	215	3	..	300
Temporarily totally incapacitated ex-servicemen	281	1,736	25	4	2,046
Ex-servicemen suffering other disabilities	43	50	2	..	95
Total	13,317	12,139	80	4	25,540

5. Number of War Pensions and Annual Liability, States, 30th June, 1964.—The following table shows the number of pensions in force and annual liability for each war at 30th June, 1964, according to place of payment. (The amount paid is shown on p. 1215.)

**WAR PENSIONS: NUMBER OF PENSIONS AND ANNUAL LIABILITY,
30th JUNE, 1964**

Total	141,303	156,854	151,504	152,737	161,272

(a) Includes five twelve-weekly payments.
(c) Includes Northern Territory.

(b) Includes Australian Capital Territory.

§ 3. Service Pensions

1. **General.**—The *Repatriation Act* 1920-1964 provides for a service pension to be paid, subject to a means test of income and property, to the following persons.

An ex-serviceman aged 60 years or over who served in a theatre of war, or an ex-servicewoman aged 55 years or over who served abroad. No pension is payable to the wife or children under 16 years of age of an ex-serviceman granted a service pension on account of age.

An ex-serviceman who is permanently unemployable and who served in a theatre of war (or in the case of an ex-servicewoman, who served abroad). Service pensions are also payable to a pensioner's wife and up to four children under 16 years of age.

An ex-serviceman suffering incapacity from pulmonary tuberculosis whether or not the person served in a theatre of war. (Only those persons who qualify in this group are entitled to receive both service and invalid pensions at the same time, subject to the maximum permissible income.) Service pensions are also payable to a pensioner's wife and up to four children under 16 years of age.

2. **Rate of Pension.**—The maximum rate of service pension is the same as that for age and invalid pensions paid by the Department of Social Services, namely single ex-serviceman, £6; married ex-serviceman, £5 10s.; wife, £3. The rate for eligible children is 15s. a week for the first child and 2s. 6d. for each other child up to and including the fourth child. Eligible child means a child under 16 years of age, or a child under the age of 18 years who is not receiving an invalid pension and is undertaking full-time education, in which case pension may continue up to the end of the calendar year in which the child reaches 18 years of age.

If an ex-serviceman is receiving a service pension on the ground of being permanently unemployable, his service pension may be increased by 15s. a week in respect of each child other than the first, whether or not such children are eligible for pension in their own right.

Supplementary assistance of 10s. a week may be paid in addition to service pension to an unmarried ex-serviceman who is receiving the maximum rate of service pension, is paying rent or board, and is entirely dependent on his pension, or, if married, on condition that his wife is not receiving an allowance or pension under the Social Services Act or Tuberculosis Act or a service pension under the Repatriation Act.

The means test sets limits to the amount of income or property which a pensioner may have for the purpose of service pension. The amount of service pension payable depends upon the claimant's "means as assessed", which consist of his annual rate of income plus a property component equal to 9d. a fortnight for each complete unit of £10 of net

value of property above £200. For married couples, except where they are separated or in other special circumstances, the income and property of each for purposes of applying the means test is taken to be half the total income and property of both, even if only one is a pensioner or claimant. A person's "means as assessed" may consist entirely of income, entirely of property, or of both income and property components. If his "means as assessed" do not exceed £3 10s. a week, the claimant receives the maximum rate of pension. If his "means as assessed" exceed £3 10s. a week, the rate payable is the maximum rate less the amount by which "means as assessed" exceed £3 10s. a week. If his "means as assessed" are £9 10s. a week or more, or in the case of a married couple £19 a week or more, no service pension is payable.

Income means earnings and other forms of income derived from any source, with certain exceptions, of which the principal are—certain income derived from property, gifts or allowances from children, parents, brothers or sisters, benefits from friendly societies, child endowment, Commonwealth health benefits. The value of board and lodgings received by a pensioner is assessed as income at 12s. 6d. a week. Property includes all real and personal property, such as houses, land, money in hand, in a bank or on loan, shares, investments or legacies, vehicles used for business purposes, livestock. Property does not include an applicant's home, furniture or personal effects, the surrender value of life insurance policies (up to £750), the value of any reversionary interest, the capital value of any life interest, annuity or contingent interest, or vehicles maintained only for personal use.

Eligibility for service pensions was extended on 1st November, 1941, to veterans of the South African War 1899–1902, and in 1943 to members of the Forces of the 1939–45 War. Members of the Forces who served in Korea and those who served in Malaya prior to the commencement of the *Repatriation (Far East Strategic Reserve) Act 1956–1964* are also eligible.

An ex-serviceman or ex-servicewoman in receipt of a service pension is entitled, with certain exceptions, to free medical benefits for disabilities not caused by war. These benefits include general practitioner service, specialist service where necessary, full pharmaceutical benefits, surgical aids and appliances (including spectacles), dental treatment and treatment in Repatriation General Hospitals.

3. Operations, 1963–64.—The following table gives a summary of service pensions during 1963–64. Statistics relating to 200 miscellaneous service pensions are excluded.

Claims granted during year—					
Ex-servicemen	6,655
Wives	1,708
Children	1,259
<i>Total</i>	<u>9,622</u>
Claims rejected during year (i.e. number of claimants who had their claims for all their disabilities rejected)					
..	1,459
Service pensions cancelled or discontinued during year	4,675
Deaths of pensioners during year	3,572
Pensions in force at 30th June, 1964	64,588
Annual pension liability at 30th June, 1964	£12,326,081

4. Number of Service Pensions and Amount Paid.—(i) *Summary. Australia.* The following table shows the number of service pensions in force and the annual liability for pensions for the five years 1959–60 to 1963–64.

SERVICE PENSIONS: NUMBER OF PENSIONS AND ANNUAL LIABILITY, AUSTRALIA

Year	Number of service pensions at 30th June payable to—					Annual pension liability at 30th June (£'000)	
	Aged ex-servicemen	Ex-servicemen who are—		Dependants(a) of ex-servicemen where the ex-serviceman is—			Total
		Permanently unemployable	Suffering from pulmonary tuberculosis	Permanently unemployable	Suffering from pulmonary tuberculosis		
1959-60	18,193	12,140	1,379	12,080	2,026	45,818	6,924
1960-61	22,125	12,645	1,273	12,520	1,739	50,302	8,344
1961-62	27,479	13,603	1,246	13,597	1,663	57,588	10,430
1962-63	30,818	14,278	1,160	14,368	1,537	62,161	11,379
1963-64(b) ..	32,834	14,471	1,118	14,701	1,464	64,588	12,326

(a) Includes dependants of deceased service pensioners. (b) Statistics relating to 200 miscellaneous service pensions are excluded. They were not applicable prior to year ended 30th June, 1964.

(ii) *Amount Paid and Place of Payment.* The following table shows for the years 1959-60 to 1963-64 the amount paid in pensions and the place of payment.

SERVICE PENSIONS: AMOUNT PAID (£'000)

Place of payment	1959-60	1960-61	1961-62	1962-63	1963-64
New South Wales(a) ..	2,360	2,735	3,156	3,547	3,990
Victoria	1,518	1,731	2,122	2,475	2,827
Queensland	1,080	1,213	1,625	1,681 (c)	1,912
South Australia(b) ..	644	763	1,097	1,243	1,345
Western Australia ..	875	1,051	1,344	1,464	1,588
Tasmania	271	290	368	419	437
Australia	6,748	7,783	9,712	10,829	(c) 12,099

(a) Includes Australian Capital Territory. (b) Includes Northern Territory. (c) Excludes payment for 200 miscellaneous service pensions. This type of service pension was not payable prior to 1963-64.

§ 4. Medical Treatment for Ex-Servicemen and Dependants of Ex-Servicemen

1. *General.*—In-patient treatment for eligible patients is provided at the six Repatriation General Hospitals (one in each State) and nine auxiliary hospitals and sanatoria as follows:—*New South Wales*—Lady Davidson Hospital; *Victoria*—McLeod Hospital, Rockingham Red Cross Home, and Anzac Hostel; *Queensland*—Kenmore Hospital, Rosemount Hospital and Anzac Hostel; *South Australia*—Biralee Hospital; and *Western Australia*—The Edward Millen Hospital. The Anzac Hostels specialize in the care and treatment of long-term patients. The Rockingham Red Cross Home is controlled by the Australian Red Cross but is staffed by Repatriation medical officers. It treats Repatriation patients exclusively.

The total number of available beds for patients in open wards or parts of wards in all these institutions at 30th June, 1964, was 4,468, and expenditure amounted to £9,643,000. In addition, expenditure of £11,930,000 was incurred on medical services outside these institutions.

2. Staff.—Details regarding the number of full-time staff in Repatriation General Hospitals and other Repatriation institutions are given in the following table.

**REPATRIATION HOSPITALS AND INSTITUTIONS: FULL-TIME STAFF,
30th JUNE, 1964**

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Aust.

Admissions and re-admissions during year	1,424	637	696	105	193	..	3,055
<i>Total in-patients treated</i> ..	<i>1,607</i>	<i>777</i>	<i>813</i>	<i>138</i>	<i>218</i>	<i>..</i>	<i>3,553</i>
Average daily number resident	206	131	126	35	27	..	525

(ii) *Other Institutions.* In addition to the Repatriation institutions, eligible patients may be treated in other country and metropolitan hospitals at Repatriation expense. During 1963-64 these hospitals accommodated and treated 12,473 Repatriation in-patients.

Repatriation psychiatric patients requiring custodial care are, by agreement with the State governments, accommodated at the expense of the Repatriation Department in separate wings of psychiatric hospitals administered by the State authorities. At 30th June, 1964, there were 933 Repatriation patients in these hospitals.

4. **Out-patient Treatment.**—Out-patient treatment is provided throughout the Commonwealth at Repatriation hospitals and clinics, and through the Repatriation Local Medical Officer Scheme. During 1963-64 548,721 out-patients were treated at Repatriation institutions and visits to or by local medical officers totalled 2,585,548.

§ 5. General Benefits and Miscellaneous

1. **Other Departmental Activities.**—(i) *General.* The activities of the Department in respect of general benefits for the welfare of ex-servicemen and dependants concern mainly education and training of children under the Soldiers' Children Education Scheme (*see* 3, pp. 1221-2), medical benefits for widows and children of deceased ex-servicemen and for widowed mothers of deceased unmarried ex-servicemen, funeral expenses for certain classes of ex-servicemen and dependants, and allowances to certain classes of dependants.

These and new benefits designed for the re-establishment of servicemen and servicewomen after discharge were extended and made available by legislation passed in June, 1940, to servicemen and servicewomen engaged in the 1939-45 War, and in November, 1950, and May, 1963, to those engaged in the Korea and Malaya operations, and to those serving in such other areas as may be prescribed under the *Repatriation (Special Overseas Service) Act* 1962, respectively. The re-establishment benefits generally administered by the Repatriation Commission are:—payment of re-employment allowance while awaiting employment; provision of tools of trade and equipment where they are necessary to employment; transportation expenses to meet the cost of fares and removal of household belongings where an ex-serviceman takes up training, employment, or a business, or settles on the land; supplements to wages of apprentices whose apprenticeships were interrupted by war service; re-establishment loans to enable ex-servicemen and widows to establish themselves in business, practices or occupations, including (until the Division of War Service Land Settlement began operations early in 1946) agricultural occupations; payment of re-establishment allowance during the early stages of establishment in business; gifts up to £75 for furniture to ex-servicemen who are blind or totally and permanently incapacitated, also to widows with children under 16 years of age; and free passages to Australia for wives, widows and children of ex-servicemen who married abroad (and passages outward from Australia in certain cases of ex-servicemen and dependants).

In 1949 the Department took over the functions of the Re-establishment Division of the former Department of Post-War Reconstruction and became responsible for the co-ordination of all matters relating to training under the Commonwealth Reconstruction Training Scheme. This scheme is now concluded, the prescribed time limits for eligibility having expired. Re-establishment of the more seriously disabled, where ordinary training is not sufficient, continues to be a function of the Department, and special means have to be found to overcome each problem.

(ii) *General Repatriation Benefits.* Expenditure in 1963-64 on general repatriation benefits for all wars was £1,647,000, comprising expenditure on employment and vocational training, £55,000 (of which £52,000 was expended by other Commonwealth authorities); business loans and furniture, £1,000; Soldiers' Children Education Scheme, £1,136,000; recreation transport allowance, £269,000; and other benefits £186,000.

2. **Expenditure by the Repatriation Department, 1963-64.**—The net expenditure by the Department for the year ended 30th June, 1964, was £118,482,000 distributed as follows.

					£'000
Pensions, allowances and other benefits	91,120
Treatment	21,573
Administration	4,503
Works, rent and maintenance	1,286
					118,482

3. **Soldiers' Children Education Scheme.**—(i) *General.* The Soldiers' Children Education Scheme was established in 1921 and operates with the assistance of voluntary Education Boards in each State. These Boards consist of representatives of government and non-government education authorities and of ex-service and other organizations which have a general interest in the welfare of the children of ex-servicemen. The objects of the scheme are to assist and encourage eligible children in acquiring a standard of education compatible with their aptitude and ability, and to prepare them to enter an agricultural, commercial, professional or industrial calling of their own choice.

(ii) *Eligible Children.* Eligible children are children of ex-servicemen whose deaths have been accepted as due to war service; or of ex-servicemen who died from causes not due to war service but who were receiving at the date of death a war pension at a special rate for blindness, total and permanent incapacity, or for pulmonary tuberculosis, or for amputation of two or more limbs; or of ex-servicemen who, as the result of war service, are blinded, totally and permanently incapacitated or receiving the special rate pension for pulmonary tuberculosis and are likely to receive such pension for a period of at least three years.

(iii) *General Benefits.* From the commencement of primary education up to twelve years, school requisites and fares are provided. An education allowance is also payable for a child from commencement of secondary education or from the age of 12 years, whichever is the earlier, while the child is undertaking primary or secondary education.

Further assistance beyond, or parallel with, the later years of secondary education is provided where an approved beneficiary continues with a course of specialized education or training necessary for a career.

Specialized education covers a wide range and may include: professional degree or diploma courses at universities and technical colleges; theological training; cadet and pupilage training, i.e., training combined with employment, such as nursing, pharmacy and journalism; industrial, including apprenticeship, training, and other courses of trade and business training approved by an Education Board; and agricultural training at an agricultural college.

At this stage of training, in addition to the education allowance, fees are paid and text books, essential equipment and other minor benefits provided.

All education allowances are subject to an allowed income limit test; i.e., the amount of education allowance payable depends upon the amount of income a child receives over the allowed limit. The parent's income does not affect the child's allowance. Income does not include war or service pensions paid for the child or any similar payment, income the child receives from private means, or income from casual employment during the entire period of a school or university vacation where the student will continue as a full-time student under the scheme after the vacation.

The scale of maximum allowances payable to eligible children at various stages of education is as follows.

SOLDIERS' CHILDREN EDUCATION SCHEME: WEEKLY RATES OF ALLOWANCES, JANUARY, 1965

Type of training	Living at home	Living away from home
At school—	£ s. d.	£ s. d.
Aged 12 and under 14 years	0 19 0	3 3 3
Aged 14 and under 16 years	1 8 9	3 3 3
Aged 16 and under 18 years	3 3 3	4 17 9
Professional (university, etc.)	5 0 0	7 12 6
Agricultural	1 11 9
Industrial (apprenticeship, etc.)	1 3 0	2 6 0

(iv) *Expenditure.* The following table shows the costs of education under the scheme for the year ended 30th June, 1964.

Note.—The above table refers only to children in receipt of an education allowance. Figures shown in previous issues of the Year Book included all industrial trainees under the scheme whether in receipt of an education allowance or not.

4. **Settlement of Returned Service Personnel on the Land.**—Reference to the settlement of returned service personnel on the land will be found in Chapter IV. Land Tenure and Settlement, pages 89-91 of this Year Book.

§ 6. The Services Canteens Trust Fund

1. **General.**—The Services Canteens Trust Fund was established under the *Services Trust Funds Act 1947*. Its funds are derived from the assets and profits of wartime services canteens, mess and regimental funds of disbanded units, and several other sources.

The total amount transferred to the Fund to 31st December, 1964, was £5,526,993. The Act prescribed that, of this, £2,500,000 and such further amounts as the trustees of the Fund might from time to time decide, should be devoted to the provision of education facilities for the children of eligible ex-servicemen and ex-servicewomen, and that the balance of the Fund should be used to provide relief for ex-servicemen and ex-servicewomen and their dependants in necessitous circumstances.

The Fund is administered by ten honorary trustees appointed by the Governor-General. The trustees have power to determine the persons or groups of persons to benefit from the Fund and the extent of benefits to be granted within the provisions of the Act, and to appoint regional committees to assist with the administration. Members of regional committees are all persons who served in the 1939–45 War or are widows of men who served during the war. They serve in an honorary capacity.

2. **Assistance from the Fund.**—(i) *General.* Persons eligible for assistance from the Fund are those who, between 3rd September, 1939, and 30th June, 1947, served in the Australian Naval, Military or Air Forces, including members of the canteens staff of any ship of the Royal Australian Navy, persons duly accredited to any part of the Defence Forces who served in an official capacity on full-time paid duty, and their dependants.

The trustees have introduced schemes for providing welfare relief for ex-servicemen and ex-servicewomen who are eligible for benefits and for their dependants; benefits for children of eligible ex-servicemen and ex-servicewomen who are suffering from serious and incapacitating afflictions; and education benefits for the children of eligible ex-servicemen and ex-servicewomen. From its inauguration in 1947 the Fund is to be available for 40 years for welfare relief and for 30 years for educational benefits.

(ii) *Welfare Relief.* The trustees have prescribed a policy for welfare relief which makes assistance available only to those who are in genuine distress from which they cannot extricate themselves by their own efforts.

To 31st December, 1964, £1,356,881 has been granted as welfare relief from the Fund, £875,929 to ex-servicemen and their dependants, and £480,952 to widows and orphans. The amount granted during 1964 was £80,466. A total of 31,465 ex-servicemen and ex-servicewomen and 14,054 widows and orphans were granted welfare assistance from the Fund to 31st December, 1964.

(iii) *Assistance under Afflicted Children's Scheme.* The Fund assists dependent children suffering from afflictions which permanently disable or seriously retard their progress or prevent the enjoyment of normal health and strength, and who face a prospect of dependence on others for all or part of their lives. The extent to which assistance will be granted in a particular case depends largely on the nature of the child's affliction, the facilities available, the family circumstances, and the funds that can be made available. Up to 31st December, 1964, 2,479 afflicted children had been assisted under the Afflicted Children's Scheme, involving an expenditure of £132,151. The amount granted during 1964 was £7,093. The number of new children assisted in 1964 was 68.

(iv) *Educational Assistance Scheme.* Educational assistance is restricted to children who are 15 years of age and over, 13 years and over where there are exceptional circumstances and 12 years in the case of orphans. The object is to assist eligible children to obtain the highest education within their capacity. Assistance is in the form of awards ranging from £5 to £200 a year depending on the nature of the course undertaken and the family circumstances. These awards are granted chiefly for children at secondary education level, but are also available for other types of education. They are designed to cover, or contribute towards, the cost of essential books, fees in cases where government school courses are not available, fares between the child's home and school, essential equipment and material, uniforms in certain cases, and maintenance for the child while at school. Higher training awards are provided for selected students for post-graduate study in

Australia or overseas in the ancillary services to medicine, welfare and science. One post-graduate scholarship is provided each year for study overseas, valued at £1,000 per annum for up to three years.

The number of children assisted under the educational assistance scheme to 31st December, 1964, was 48,409, and the expenditure on educational awards, post-graduate scholarships and higher training awards to 31st December, 1964, was £2,524,444. The number granted in 1964 was 7,345 at a value of £290,154.

(v) *Total Assistance.* The total assistance granted under the three schemes during 1964 was £377,713 and from the inception of the Fund to 31st December, 1964, totalled £4,013,476.

CHAPTER XXIX

INTERNATIONAL RELATIONS

§ 1. Relations with Commonwealth and Other Countries

1. Commonwealth Relations.—Australia's international relations have developed as a natural concomitant of Australia's growth from colonial status to independent nationhood. During this process Australia has remained on terms of close friendship and understanding with the United Kingdom. This intimate association, together with close co-operation with other countries of the Commonwealth of Nations, remains a basic principle of Australia's foreign policy.

Australia is represented at meetings of Commonwealth Prime Ministers and of Commonwealth Finance and Foreign Ministers. It is a member of the Commonwealth Economic Consultative Council, belongs to the Sterling Area, retains, with limitations, the system of judicial appeal to the Privy Council, and maintains High Commissioners in a number of other Commonwealth countries.

Between meetings of Commonwealth Prime Ministers the Australian Prime Minister has authority to consult with other Commonwealth Prime Ministers on matters of mutual interest. In addition, there is a constant flow of messages between the Australian Government and governments of other Commonwealth countries. In defence matters Australia's armed services send representatives to discussions by Commonwealth Chiefs of Staff; Australian naval ships take part in combined exercises with the navies of other Commonwealth members, and Australian officers maintain liaison with the Services of other Commonwealth countries.

2. Relations with the United States of America.—An important feature of Australia's international relations is her relationship with the United States of America. This relationship is formally expressed in a treaty known as the ANZUS Treaty which was signed pursuant to Articles 51 and 52 of the United Nations Charter, and provides that in the event of armed attack on any one of them in the Pacific, the U.S.A., Australia and New Zealand would act to meet the common danger in accordance with its constitutional processes. The Treaty is designed to establish a closer working relationship between the three countries concerned. The ANZUS partners, in their consultations, make no attempt to decide matters affecting the vital interest of other countries. The machinery of the ANZUS Treaty consists of a Council composed of the three Foreign Ministers or their deputies, which meets periodically to discuss matters of mutual concern.

3. Australia and Asia.—Australia's geographical location to the south of Asia has become an increasingly important factor in Australia's foreign policy. Australia has sought to develop close relations and understanding with her Asian neighbours. This was evidenced by Australia's inclusion in 1963 as a full regional member of the Economic Commission for Asia and the Far East (ECAFE), and an increasing recognition by Asian leaders of Australia's concern with, and contribution to, the solution of the problems of the region.

4. SEATO.—Following the cessation of fighting in Indo-China in 1954, Australia, with other countries situated in the South-East Asian region, or having responsibilities there, supported a proposal to form a collective defence alliance to guarantee the peace and security of the region from external aggression. On 8th September, 1954, Australia, France, New Zealand, Pakistan, the Philippines, Thailand, the United Kingdom and the United States signed the South-East Asian Collective Defence Treaty at Manila. They also signed a Pacific Charter stating the principles on which they had acted. A Protocol to the Treaty extended its operation to Cambodia, Laos and the free territory under the jurisdiction of the State of Vietnam, although no action on their territories would be taken except at the invitation or with the consent of the government concerned.

While primary emphasis has been placed on the defence significance of the Treaty, an organization has been established in Bangkok to co-ordinate activities to combat subversion both by counter-propaganda and security training and by the development of the economic and social welfare of the peoples of the Treaty Area. To facilitate this task, the Australian Government in 1956 instituted a SEATO Aid Programme, under which by 30th June, 1965, aid to the value of £64 millions had been given to member countries in Asia to help develop their capacity to resist aggression and subversion and to stimulate economic development.

Under the scheme Australia is providing two geodetic survey vessels to the Philippines, a military technical training school, a vehicle base repair shop and two 50 kW radio transmitters to Thailand, telecommunication and technical training equipment to Pakistan, and barbed wire, corrugated iron and blacksmith's tools for the strategic hamlet programme in Vietnam. Australia has also provided military training, and technical training in the fields of engineering, telecommunications, naval architecture and dockyard maintenance, security procedures, and surveying for nearly 200 trainees from Asian member countries. In addition, a number of senior service officers of other member countries have visited Australia to foster understanding and to develop co-operation between the armed forces.

§ 2. The Colombo Plan

1. **General.**—The Colombo Plan originated at a meeting of Commonwealth Foreign Ministers in Colombo in January, 1950. The meeting set up a Consultative Committee to review economic development in south and south-east Asia. The task of this Committee was to devise the most effective means of tackling the problems of economic development in the area and of focusing world attention on them.

Membership of the Consultative Committee is now made up of Australia, Canada, Ceylon, India, New Zealand, Pakistan, the United Kingdom, Malaysia, the United States, Burma, Cambodia, Indonesia, Japan, Laos, Nepal, the Philippines, Thailand, Vietnam, Korea, Bhutan, the Maldives Islands and Afghanistan.

Australian assistance under the Colombo Plan to 30th June, 1965, amounted to £58,641,744. Of this, £41,295,157 had been spent on economic development projects and £17,346,587 had been spent under the Technical Co-operation Scheme. Australia has placed emphasis on the importance of technical assistance in providing a base for economic development. A summary of expenditure, by country and under different heads, is set out in the following table.

AUSTRALIA'S EXPENDITURE ON THE COLOMBO PLAN TO 30th JUNE, 1965 (£)

Particulars	Economic development	Technical assistance					Grand total
		Training	Experts	Equipment	Miscellaneous	Total	
Country—							
Afghanistan		8,346	56	8,402	8,402

Total	41,295,157	9,811,881	2,720,774	3,528,242	1,285,690	17,346,587	58,641,744

2. **Economic Development Aid.**—Most of Australia's contribution under the Colombo Plan has been spent on providing predominantly Australian-made equipment for developmental projects or on gifts of commodities such as wheat, flour, fertilizer, coal, copper and condensed milk which have been sold in the recipient country to raise counterpart funds for agreed developmental projects.

The projects assisted by Australia cover a wide range, including irrigation and preparation of land for food crops, irrigation and electric power projects, secondary industries, municipal services, road building, transport and communications facilities, broadcasting equipment and lignite mining.

A Technical Co-operation Scheme has been an integral part of the Colombo Plan since its inception in 1950. Co-ordination of technical assistance is provided by a Council for Technical Co-operation, which meets regularly in Colombo, served by a Colombo Plan Bureau.

3. **Technical Assistance.**—(i) *Training.* Australia had spent a total of £9,811,881 on training awards under the Colombo Plan up to 30th June, 1965. A total of 5,920 awards for training in Australia had been made. The main fields of study include engineering, public administration, education, nursing, science, medicine and health, and agriculture. Substantial numbers have also been trained in such fields as accountancy, arts, economics, food technology, social studies and industry.

At 30th June, 1965, a total of 4,103 awards had been granted under the correspondence scholarship scheme inaugurated by Australia in 1955. Main fields of study are accountancy, engineering, English, and trade courses. Burma, Ceylon, India, Indonesia, Malaysia, the Philippines and Thailand have joined the correspondence scheme. Malaysia has established a correspondence education scheme of its own, for which key personnel were trained in Australia under the Colombo Plan.

(ii) *Experts.* Australia has spent a total of £2,720,774 on experts and advisers up to 30th June, 1965. This involved the services of 563 experts and 127 advisers on 915 assignments. Of these numbers, 58 experts and 2 advisers were in the field at 30th June, 1965. The majority were in Malaysia and Thailand.

The following table shows the number of training awards and experts provided to Colombo Plan countries by Australia up to 30th June, 1965.

**AUSTRALIA: TRAINING AWARDS AND EXPERTS PROVIDED UNDER
COLOMBO PLAN TO 30th JUNE, 1965**

Country	Training awards	Correspondence awards	Expert assignments
Afghanistan	16
Brunei	24	13	1
Burma	439	350	14
Cambodia	35	..	28
Ceylon	331	478	60
India	695	297	33
Indonesia	966	286	57
Korea	123
Laos	62	..	7
Malaysia	1,647	2,528	280
Nepal	37	..	6
Pakistan	466	..	56
Philippines	419	70	27
Thailand	446	81	67
Vietnam	214	..	20
Regional (Projects)	26
Total	5,920	4,103	682

(iii) *Equipment.* At 30th June, 1965, a total of 413 requests for technical equipment had been or were being met, at a total cost of £3,593,242.* The range of items supplied includes text books and Australian reference books for schools, universities and technical training institutions; equipment and tools for technical education; livestock and equipment for breeding programmes; radio receivers for use in remote areas; film projectors and visual aids for training centres; X-ray equipment for hospitals; and agricultural research equipment.

(iv) *Miscellaneous.* In addition to training awards, experts and equipment, technical assistance funds have been spent on contributions to the Colombo Plan Bureau, publications, International House, training centres and the ECAFE Asian Economic Development Institute.

*Includes £65,000 for equipment used in the Mekong Project and included under Miscellaneous in the table on page 1226.

§ 3. Participation in the United Nations

1. **Australia's Contributions to United Nations.**—Australia played an active part in drafting the Charter of the United Nations at the Conference on International Organization in San Francisco in 1945 and has been a consistent supporter of the principles and objectives of the United Nations since its foundation. Australia's influence in the affairs of the United Nations has been exerted primarily through the annual debates in the General Assembly, through membership of the Security Council (1946–47 and 1956–57), the Economic and Social Council (1948–50, 1953–55 and 1962–64), and through the Trusteeship Council. In virtue of responsibilities for administration of the Trust Territories of Nauru and New Guinea Australia has been a member of the Trusteeship Council since it was established.

In 1950 Australia joined fifteen other member States in answering the Security Council's call to help the Republic of Korea to repel Communist aggression from the north, and members of all three armed services took part in the three years of fighting which followed. Australia has also been directly involved in United Nations activities in many other parts of the world. Australia has contributed its share of the costs, both assessed and voluntary, of all United Nations peace-keeping operations, the largest of which have been the United Nations Emergency Force (UNEF) in the Middle East since 1956, the United Nations operation in the Congo (ONUC) in 1960–64, and the United Nations Force in Cyprus (UNFICYP) since 1964. In addition to financial contributions, an Element of 40 Australian policemen has been made available for service with UNFICYP.

In the economic, social and cultural sphere Australia has contributed to the work of the United Nations through membership of its specialized agencies and of the Economic and Social Council. Australia is a foundation member of one of the four Regional Economic Commissions—The Economic Commission for Asia and the Far East, the 4th and 15th Sessions of which were held in Australia. In 1963 Australia became a regional member of ECAFE.

Australia has had varying periods of service as a member of the executive bodies of the principal specialized agencies. As a leading agricultural country, Australia played a large part in the establishment of the Food and Agriculture Organization (FAO). Australia is a member of the Board of Governors of the International Atomic Energy Agency. Australia served as a member of the governing body of the International Labour Organisation either as a Titular Government member or as a Deputy member for 1945–60, and in 1963 was again elected to the Governing Body as a Titular Government member for a further three-year term. Australia has also been a prominent member of the International Civil Aviation Organization since its inception, and in 1962 was re-elected to the Council as one of the nine States of principal civil aviation importance.

2. **Australia's Contributions in International Aid.**—Australia's contributions towards various forms of international aid through the United Nations and other international organizations for 1964–65 have amounted to about \$21,000,000. This is additional to the funds provided for the Colombo Plan and the cash grant for the development of Papua and New Guinea in 1964–65.

The Australian Government has contributed £3,650,921 to the United Nations Expanded Programme of Technical Assistance from the inception of the Programme in 1950 up to June, 1965. This was spent on the provision of experts, training, supplies, and equipment and supplemented Australian aid under the Technical Co-operation Scheme of the Colombo Plan.

Australian experts sent abroad under the United Nations aid programmes up to 31st December, 1964, totalled 455. A total of 590 United Nations trainees had come to Australia up to 31st December, 1964.

Other contributions by Australia (as at June, 1965) have included £22,522,000 to the United Nations Relief and Rehabilitation Administration (UNRRA); £3,297,056 to the International Refugee Organization; £1,830,000 to Post-UNRRA Relief; £6,547,993 for food and medical supplies to the United Nations Children's Fund (UNICEF), which has been helping the under-privileged children of the world since its establishment in 1946; £1,799,000 of essential supplies to the United Nations Korean Reconstruction Agency; £1,390,000 of supplies to the United Nations Relief and Works Agency for Palestine refugees; £603,950 for the programmes of the United Nations High Commissioner for Refugees; £155,000 for the relief of Hungarian refugees; £47,500 for the WHO Malaria Eradication Special Account; and £625,000 to the United Nations Special Fund. Australia's assistance to the United Nations Children's Fund was recognized by the election of an Australian as chairman of the Executive Board for 1959. Australia was a member of the Board from 1947 to 1961.

Australia has also contributed £264,985 to the Inter-Governmental Committee for European Migration's programme for providing transportation from Hong Kong to countries of resettlement for refugees of European origin coming out of Mainland China.

In addition, Australia has made significant contributions to the development funds of international financial institutions; to June, 1965, these amounted to £21,265,000 to the International Bank for Reconstruction and Development, £998,000 to the International Finance Corporation and £4,472,000 to the International Development Association.

In 1962, Australia supported the establishment of the UN/FAO World Food Programme and will contribute £669,000 in cash and kind for the three years of the Programme. Australia contributed £1.2 million by the end of 1963 to the Freedom from Hunger Campaign and this money will be used on projects in South and South-East Asia.

§ 4. Diplomatic Representation

1. **General.**—The Department of External Affairs is responsible for advising the Minister for External Affairs and the Australian Government on the conduct of foreign affairs and relations with foreign Governments. Its officers staff the Australian diplomatic service and the consular and administrative service.

2. **Australian Missions Overseas.**—In September, 1965, Australia maintained the following diplomatic and consular missions abroad.

AUSTRALIAN MISSIONS OVERSEAS

Embassies (26)

Argentina—Calle Rivadavia 1829, Piso 5, Buenos Aires.

Austria—Concordia Platz 2, EZ800, Vienna 1.

Belgium—Boulevard Brand Whitlock, No. 4 Woluwe, St. Pierre, Brussels.

Brazil—Caixa Postal 251—ZC—00, Rio de Janeiro.

Burma—88 Strand Road, Rangoon.

Cambodia—94 Moha Vithei Preah Bat Norodom, Phnom Penh.

France—13 Rue Las Cases, Paris 7E.

*Germany, Federal Republic of**—Kolner Strasse 157, Bad Godesburg, Bonn.

Greece—8 Macedon Street, Athens.

Indonesia—Pegangsaan Barat 14, Djakarta.

Ireland—33 Fitzwilliam Square, Dublin.

Israel—145 Hayarkon Street, Tel Aviv.

Italy—Via Sallustiana 26, Rome.

Japan—9 Mita, Tsuna-Machi, Shiba, Minato-ku, Tokyo.

Korea—32-10 Songwoldong, Sudae moon-ku, Seoul.

Laos—Quartier Phone Xay, Vientiane.

Nepal†—C/o Australian High Commission, New Delhi, India.

The Netherlands—Lange Voorhout 18, The Hague.

The Philippines—L & S Building, 1414 Dewey Boulevard, Manila.

South Africa—Standard Bank Building, Church Square, Pretoria.

Sweden—Sergels Torg 12, Stockholm 40.

Thailand—323 Silom Road, Bangkok.

Union of Soviet Socialist Republics—13 Kropotkinsky Pereulok, Moscow.

United Arab Republic—1097 Corniche el Nil, Garden City, Cairo.

United States of America—1700 Massachusetts Avenue, Washington, D.C.

Vietnam—Caravelle Building, Place Lam Son, Saigon.

* The Australian Ambassador is also head of the Australian Military Mission in Berlin.

† The Australian High Commissioner in India is currently Ambassador to Nepal.

High Commissions (11)

- Britain**—Australia House, The Strand, London, W.C.2.
Canada—Royal Bank Chambers, 90 Sparks Street, Ottawa.
Ceylon—3 Cambridge Place, Colombo, 7.
Ghana—6/26 Milne Avenue, Accra.
India†—9/48 Sardar Patel Road, Chanakyapuri.
Malaysia—44 Ampang Road, Kuala Lumpur.
New Zealand—I.C.I. House, Molesworth Street, Wellington.
Nigeria—Investment House, 21/25 Broad Street, Lagos.
Pakistan—9 Kutchery Road, Karachi 4.
Singapore—MacDonald House, Orchard Road, Singapore 9.
Tanzania—Bank House, Independence Avenue, P.O., Box 2996.

Other (12)—

Military Mission in Berlin‡—Olympia Stadium, Charlottenburg 9, Berlin.

Mission to—

- European Economic Community*—Boulevard Brand Whitlock, No. 4 Woluwe, St. Pierre, Brussels.
United Nations (New York)—750 Third Avenue, New York 17, N.Y.
United Nations (Geneva)—254 route de Lausanne, Pregny, Geneva.

Consulate-General in—

- Spain*—Calle de General Sanjurjo 44, Madrid 3.
Switzerland—254 route de Lausanne, Pregny, Geneva.
New York—International Building, 636 Fifth Avenue, New York 20, N.Y.
San Francisco—Qantas Building, 350 Post Street, Union Square, San Francisco, California.

Consulate in—

- Denmark*—Norregade 68, Copenhagen.
New Caledonia—45 Tce. Rue du Verdun, Noumea.
Portuguese Timor—Dili.

Commission in—

- Fiji*—Joong Hing Loong Building, 68 Thompson Street, Suva.

The Department of External Affairs is responsible for the control and administration of all the diplomatic and consular missions listed above with the exception of the High Commission, London, which is the responsibility of the Prime Minister's Department, and the Australian Consulate in Copenhagen, which is the responsibility of the Department of Immigration.

Specialist officers of the Trade Commissioner Service, other Commonwealth Government Departments and the Defence Services stationed abroad are attached to Australian diplomatic or consular missions. Senior attached officers are in some cases accredited to the missions with diplomatic or consular ranks approved by the Minister for External Affairs. In addition, the Department of Trade and Industry maintains Trade Commissioner posts which engage in trade promotion in a number of cities where Australia does not have diplomatic or consular representation (for complete list of Trade Commissioner posts, *see p. 1232-3*).

The Department of Immigration similarly maintains 16 offices overseas which engage in recruitment of migrants. A complete list of these offices is given in §6 of this chapter (*see p. 1234*).

* Administered by Prime Minister's Department.

† The Australian High Commissioner in India is currently Ambassador to Nepal.

‡ The Australian Ambassador is also head of the Australian Military Mission in Berlin.

3. **Diplomatic Representatives in Australia.**—There are 33 non-Commonwealth and eight Commonwealth countries represented by diplomatic missions in Australia.

The following list shows the addresses of the oversea representatives in Australia. Full details of Commonwealth and foreign representation in Australia may be obtained from publications issued by the Department of External Affairs, Canberra. Consular representatives are not included. Particulars of these are contained in a publication *Consular Representatives and Trade Commissioners in Australia*, issued by the Department of External Affairs, Canberra. There are more than 180 such representatives in Australia, and 53 countries are represented.

DIPLOMATIC REPRESENTATIVES IN AUSTRALIA

Embassies (28)

- Argentina*—5a Arkana Street, Yarralumla, Canberra, A.C.T.

Other (1)

Commissioner for—

- Malta*—31 Clowes Street, South Yarra, Melbourne, Vic.

4. **Agents-General for States.**—From early times the Australian colonies maintained agents in London to encourage immigration and to carry out commercial and financial negotiations. Since federation the States have continued to maintain Agents-General in London, all of whom work in close co-operation with the High Commissioner for Australia at Australia House, The Strand, London. The addresses of the Agents-General are as follows: New South Wales—56–57 The Strand, London, W.C.2; Victoria—Victoria House, Melbourne Place, The Strand, London, W.C.2; Queensland—Marble Hall, 409–10 The Strand, London, W.C.2; South Australia—South Australia House, 50 The Strand, London, W.C.2; Western Australia—Savoy House, 115 The Strand, London, W.C.2; Tasmania—457 The Strand, Charing Cross, London, W.C.2.

§ 5. Oversea Trade Representation

1. **The Australian Trade Commissioner Service.**—The Department of Trade maintains Trade Commissioners in 32 countries. The first permanent Trade Commissioner Post was set up in Canada in 1929. Before that Australia's only official trade representatives abroad were in the High Commission Office in London and at the Office of the Commissioner General for Australia in New York. By May, 1965, Trade Commissioners were established at the following posts: United States of America—New York, Washington, Los Angeles and San Francisco; Canada—Vancouver, Ottawa and Montreal; West Indies—Trinidad; Britain and Europe—London, The Hague, Vienna, Athens, Paris, Bonn, Hamburg, Geneva, Stockholm and Rome; Persian Gulf—Bahrain; Africa—Lagos, Nairobi, Salisbury, Johannesburg and Cairo; Lebanon—Beirut; India—New Delhi, Bombay and Calcutta; Ceylon—Colombo; South-East Asia—Singapore, Djakarta, Kuala Lumpur, Bangkok and Hong Kong; Japan—Tokyo; New Zealand—Wellington, Christchurch and Auckland; Philippines—Manila; Pakistan—Karachi; South America—Buenos Aires and Lima. Twenty-eight editions of the Department of Trade's promotion periodical "Austral News" now circulate in over 100 countries in four languages. (*See also* Australian Trade Missions, § 4 of Chapter XIV. Oversea Trade, p. 497.)

The addresses of Australian Trade Commissioner Posts overseas are shown in the following list.

Trade Commissioner Service of the Commonwealth of Australia

- Argentina*—Australian Embassy, Calle Rivadavia 1829, Piso 5, Buenos Aires.
Austria—Australian Embassy, Concordia Platz 2, 2nd Floor, Vienna 1.
Britain—Australia House, The Strand, London, W.C.2.
Bahrain—Almoayyed Building, Government Road, Bahrain.
Canada—1155 Dorchester Boulevard West, Montreal, P.Q.; Suite 608, Burrard Building, 1030 W. Georgia Street, Vancouver 5, B.C.; Australian High Commission, Royal Bank Chambers, 90 Sparks Street, Ottawa, Ontario.
Ceylon—Australian High Commission, 3 Cambridge Place, Colombo 7.
France—2nd Floor, 26 Rue de la Pepiniere, Paris. 8E.
Germany, Federal Republic of—Australian Embassy, Kolner Strasse 157, Bad Godesberg, Bonn; 2000 Hamburg 36, Neuer Wall 39, Hamburg 11.
Greece—Australian Embassy, 15 Valaoritou Street, Athens.

Trade Commissioner Service of the Commonwealth of Australia—continued

- Hong Kong*—Union House, Connaught Road Central, Hong Kong.
- India*—Mercantile Bank Building, 52 Mahatma Gandhi Road, Bombay 1; 2 Fairlie Place, Calcutta 1; 34 Golf Links Road, New Delhi.
- Indonesia*—Djalan Nusantara 39, Djakarta.
- Italy*—Australian Embassy, Via Sallustiana 26, Rome.
- Japan*—9 Mita Tsuna-Machi, Shiba, Minato-ku, Tokyo.
- Kenya*—4th Floor, Silo Park House, Queensway, Nairobi.
- Lebanon*—5th Floor, L'Union de Paris Building, Rue Maamari, Beirut.
- Malaysia*—44 Ampang Road, Kuala Lumpur.
- The Netherlands*—36 Jan Van Nassau Straat, The Hague.
- New Zealand*—London and Lancashire Building, 56 Shortland Street, Auckland; Phoenix Building, 91 Worcester Street, Christchurch; Australian High Commission, Fourth Floor, I.C.I. Building, Molesworth Street, Wellington.
- Nigeria*—Australian High Commission, 4th Floor, Investment House, 21–25 Broad Street, Lagos.
- Pakistan*—Australian High Commission, 9 Kutchery Road, Karachi 4.
- Peru*—Monterosa Buildings, Jiron Arica 837, Lima.
- The Philippines*—Australian Embassy, L & S Building, 1414 Dewey Boulevard, Manila.
- Singapore*—Australian High Commission, MacDonal House, Orchard Road, Singapore, 9.
- Southern Rhodesia*—Central Africa House, Cnr. First Street and Gordon Avenue, Salisbury.
- South Africa*—10th Floor, Europa House, 32 Plein Street, Johannesburg.
- Sweden*—Australian Embassy, Sergels Torg 12, Stockholm 40.
- Switzerland*—Australian Consulate-General, 254 route de Lausanne, Pregny, Geneva.
- Thailand*—Australian Embassy, 323 Silom Road, Bangkok.
- United Arab Republic*—Australian Embassy, 1097 Corniche el Nil, Garden City, Cairo.
- United States of America*—Australian Embassy, 3148 Cleveland Avenue, Washington, D.C.; Australian Consulate-General, International Building, 636 Fifth Avenue, New York 20, N.Y.; Australian Consulate-General, 350 Post Street, Union Square, San Francisco, Cal.; 3600 Wilshire Boulevard, Los Angeles 5, Cal.
- West Indies, Federation of*—72 South Quay, Port of Spain, Trinidad, W.I.

2. **Australian Trade Correspondents and Marketing Officers.**—Australian Trade Correspondents and Marketing Officers have no official status but supplement the work of the Trade Commissioner Service. Correspondents are located in Suva, Fiji; Taipei, Taiwan; Valletta, Malta; Port Louis, Mauritius; Mexico City, Mexico; Montevideo, Uruguay; Madrid, Spain; and Istanbul, Turkey. Marketing Officers are located in Rangoon, Burma; and Accra, Ghana.

3. **Trade Commissioners of Oversea Governments in Australia.**—

- Britain*—Senior British Trade Commissioner—Commonwealth Avenue, Canberra, A.C.T.
- British Trade Commissioners*—London Assurance House, 16–20 Bridge Street, Sydney, N.S.W.; 330 Collins Street, Melbourne, Vic.; M.L.C. Building, Cnr. Adelaide and Edward Streets, Brisbane, Qld.; F.C.A. Building, Franklin Street, Adelaide, S.A.; Prudential Building, 189 St. George's Terrace, Perth, W.A.
- Office of the Hong Kong Government Trade Representative*—Kembla Building, Margaret Street, Sydney, N.S.W.
- Office of the Fiji Government Representative*—38 Martin Place, Sydney, N.S.W.
- Canada*—Canadian Trade Commissioners—A.M.P. Building, Circular Quay, Sydney, N.S.W.; 2 City Road, South Melbourne, Vic.

Trade Commissioners of Oversea Governments in Australia—continued

Ceylon—Ceylon Trade Commissioner—The Wales House, 66 Pitt Street, Sydney, N.S.W.

India—Indian Trade Commissioner—Caltex House, 167–187 Kent Street, Sydney, N.S.W.

Malaysia—Malaysian Trade Commissioner—71 State Circle, Acton, A.C.T.

New Zealand—Senior New Zealand Trade Commissioner—280–288 George Street, Sydney, N.S.W.

New Zealand Government Trade Commissioner—428 Collins Street, Melbourne, Vic.

Pakistan—Dalton House, 115 Pitt Street, Sydney, N.S.W.

South Africa—South African Trade Commissioner—622 St. Kilda Road, Melbourne, Vic.

§ 6. Commonwealth Migration Offices

The Department of Immigration has established sixteen offices overseas. A series of Regional Offices has also been set up in certain countries to provide additional facilities.

Chief Migration Officers are attached to Australian Diplomatic Missions to Britain, the Netherlands, Greece, Austria, Germany and Italy. In Spain the Chief Migration Officer is also the Consul-General. Senior Migration Officers have been attached to the Diplomatic Missions to Sweden and the United Arab Republic, and Migration Officers to the missions to Switzerland, Belgium, Denmark and France. In the Lebanon and Hong Kong, a Senior Migration Officer is attached to the Australian Trade Commission, and in Malta an independent office has been established under the control of a Senior Migration Officer.

The Administrative Officer to the Australian Trade Commissioner in Nairobi deals with migration matters in Kenya, and the diplomatic staffs of missions in other countries where Australia is represented are available to handle migration business on behalf of the Department.

Senior Immigration Officers Overseas

Austria—Australian Embassy, Migration Office, Teinfaltstrasse 1, Vienna.

Belgium—Australian Embassy, Boulevard Brand Whitlock, 4 Woluwe, St. Pierre, Brussels.

Britain—Australia House, The Strand, London, W.C.2.

Denmark—Australian Consulate, Norregard 68, Copenhagen.

France—Australian Embassy, Migration Office, 28 Rue de la Pepiniere, Paris.

Germany—Australian Embassy, Migration Office, Victoria Haus, Hohenzollernring 103, Cologne.

Greece—Australian Embassy, Migration Office, 15 Valaoritou Street, Athens.

Hong Kong—Australian Government Trade Commission, 9th Floor, Union House, Connaught Road Central, Hong Kong.

Italy—Australian Embassy, Migration Office, Via Magenta 5, Rome.

Lebanon—Australian Migration Office, Al Ghanem Building, 211 Madame Curie Street, Sana'eh, Beirut.

Malta—Australian Migration Office, Airways House, Gaiety Lane, Cnr. High Street, Sliema, Valletta, Malta.

The Netherlands—Australian Embassy, Migration Office, 1 Javastraat, The Hague.

Spain—Australian Consulate-General, Calle de General Sanjurjo 44, Madrid.

Sweden—Australian Embassy, Sergels Torg 12, Stockholm.

Switzerland—Australian Consulate-General, 41 Quai Wilson, Geneva.

United Arab Republic—Australian Embassy, Migration Office, 12 Hassan Sabri Street, Zamalek, Cairo.

CHAPTER XXX

MISCELLANEOUS

NOTE.—This chapter comprises statistics and other descriptive information not directly related to the subjects of the preceding chapters, or which it is convenient to assemble in single sections, arranged as follows:—

- §1. Valuation of Australian Production; §2. Indexes of Farm Production; §3. Consumption of Foodstuffs and Beverages; §4. Retail Trade; §5. Interstate Trade; §6. Statistical Organization in Australia; §7. Statistical Publications of Australia.

In issues of the Year Book prior to No. 49 (*see* No. 48, p. 1166), a list of *Australian Books* was included. This list, compiled by the Librarian of the Commonwealth National Library is available from the Library, but considerations of space preclude its publication in this issue.

§ 1. Valuation of Australian Production

1. General.—The value of production for Australia is computed in accordance with the decisions reached at the Conferences of Australian Statisticians and principally at the Conference held in 1935. The figures published in the following tables have been compiled by the Statisticians in the various States from the latest and best data available, and are on a substantially uniform basis. However, marketing costs are not on a completely comparable basis between States and, in addition, accurate information is difficult to obtain for many items. In consequence, differences between States in the relationships of local to gross value should be treated with some reserve.

Attention is directed to the fact that the values shown in the tables herein refer only to the production of primary industries and factories, and exclude the building and construction industry, those industrial establishments not classified as factories, and certain agricultural and farmyard produce obtained from areas of less than one acre.

The following is a brief explanation of the terms used.

- (a) *Gross Value of Production* is the value placed on recorded production at the wholesale price realized at the principal markets. In general, the "principal markets" are the metropolitan markets in each State. In cases where primary products are consumed at the place of production or where they become raw material for a secondary industry, these points of consumption are presumed to be the principal markets.
- (b) *Local Value* (i.e., gross production valued at the place of production) is ascertained by deducting marketing costs from the gross value. Marketing costs include freight, cost of containers, commission, and other charges incidental thereto.
- (c) *Net Value of Production* represents local value less value of materials used in the process of production. Materials used in the process of production include seed, power, power kerosene, petrol and other oils, fodder consumed by farm stock, manures, dips, sprays and other costs. No deductions have been made for depreciation or certain maintenance costs as particulars are not available for all States. The net value of production is the only satisfactory measure to use when comparing or combining the value of primary industries with those of other industries.

For the years shown in the following tables, no allowance for power, power kerosene, petrol and other oils has been made in New South Wales. In the case of the mining and quarrying industry, however, this allowance has been made in all States. Marketing costs for mining and quarrying, and costs of materials used in the process of production in respect of bee-farming, trapping, forestry, and fishing and whaling are not available for all States. Local values have been used for these industries, with consequent understatement in gross value for the mining and quarrying industry and overstatement in net value for the other industries.

2. Value of Production, Australia, 1963-64.—The following table shows particulars of the gross, local and net values of production in Australia, by industry.

GROSS, LOCAL AND NET VALUE OF PRODUCTION OF PRIMARY INDUSTRIES AND FACTORIES: AUSTRALIA, 1963-64

(£'000)

Industry	Gross production valued at principal markets	Local value—gross production valued at place of production	Net value of production (without deduction of depreciation or maintenance)
Agriculture	614,242	527,837	458,692
Pastoral	794,278	733,287	670,289
Dairying	228,433	210,810	161,615
Poultry	69,091	61,189	30,754

(b) Local value.

§ 2. Indexes of Farm Production

In the first two tables in this section, indexes of price and quantum (i.e., value at constant prices) of production are given for the following industrial groups:—Agriculture, Pastoral, Dairying, poultry and bee-farming, and All farming combined (including separate indexes for Wool and Products other than wool). In the third table, indexes of quantum (i.e., value at constant prices) of production, exports and consumption of farm products for food use are shown.

1. **Farm Production Price Indexes.**—The Farm Production Price Indexes shown in the following table relate to average "prices" of agricultural, pastoral, dairying, poultry and bee-farming products realized at the principal markets of Australia. The "price" data used are average unit values for the total quantities of the relevant commodities produced or marketed in each year, and the index numbers therefore measure both the effects of changes in prices (as such) and of variations in the quality, type, usage, etc., of products marketed. The index numbers for any year relate to the average values of products produced or marketed in that year, irrespective of the periods in which payment is received by producers.

The indexes have been calculated by the fixed-base weighted aggregative method. "Prices" for each commodity in any year are obtained by dividing gross value of production by the quantity produced in that year. In the original published series of Production Price Index Numbers the average quantities of the relevant commodities produced in the period 1923–24 to 1927–28 were used as fixed weights. This series, re-computed to the base, average 1936–37 to 1938–39 = 100, was published in earlier issues of the Year Book (see No. 43, p. 1050). For 1936–37 and later years the original series was replaced in December, 1952, by a revised series in which average quantities of each product marketed during the period 1946–47 to 1950–51 were used as fixed weights. In the revised series the regimen was extended and modified to include farm products (as defined by Australian Statisticians) in all cases. Certain other refinements were also incorporated in the revised indexes, the principal of which was the omission from the weights used for the All Farming Index of quantities of crops marketed for livestock feeding in Australia.

FARM PRODUCTION: INDEXES OF PRICES AT PRINCIPAL MARKETS, AUSTRALIA

(Base: Average 1936–37 to 1938–39 = 100)

Year	Agriculture	Pastoral	Dairying, poultry and bee- farming	All farming	Wool (shorn and dead)	Products other than wool
1949–50	272	396	228	316	483	261
1950–51	291	818	258	505	1,098	308
1951–52	355	501	332	410	552	363
1952–53	364	531	387	440	623	379
1953–54	324	534	395	429	621	365
1954–55	316	489	371	401	540	355
1955–56	330	451	392	397	468	373
1956–57	336	536	386	432	607	374
1957–58	336	435	382	388	473	359
1958–59	322	396	386	369	370	369
1959–60	329	464	402	403	440	391
1960–61	349	443	402	401	397	403
1961–62	348	421	373	385	412	376
1962–63	334	450	388	396	449	378
1963–64	351	511	402	431	531	398

2. **Indexes of Quantum (i.e. Value at Constant Prices) of Farm Production.**—The indexes shown in the following table relate to gross output of farm products valued at constant prices. They have been calculated by revaluing quantities of each farm product included in the indexes at the average unit gross value of each product for the base years.

In the original published series the period 1923–24 to 1927–28 was adopted as the base for revaluing each farm product. This series, re-computed to the base, average 1936–37 to 1938–39 = 100, was published in earlier issues of the Year Book (*see* No. 43, p. 1051). For 1936–37 and later years the original series was replaced in December, 1952, by a revised series in which average unit values for the period 1936–37 to 1938–39 were used. The regimen used for the revised series was extended and modified to include farm products (as defined by Australian Statisticians) in all cases. Certain other refinements were incorporated in the revised indexes, the principal of which was the omission, in calculating the All Farming Index, of quantities of crops fed to livestock in Australia.

INDEXES OF QUANTUM(a) OF FARM PRODUCTION, AUSTRALIA

(Base: Average 1936–37 to 1938–39 = 100)

Year	Agri- culture	Pastoral	Dairying, poultry and bee- farming	All farming	Wool (shorn and dead)	Products other than wool
1949–50	117	112	111	115	115	115
1950–51	108	109	106	109	116	107
1951–52	103	105	97	103	112	100
1952–53	121	126	108	121	131	118

1963–64	196	172	131	174	183	171

(a) Indexes of value at constant prices, i.e., quantities revalued at average unit values for the base years (*see* text preceding table).

3. **Farm Products for Food Use: Indexes of Quantum (i.e. Value at Constant Prices) of Production, Exports and Consumption.**—The indexes shown in the following table have been calculated by revaluing quantities of each farm product included in the indexes at the average unit gross value of each product for the years 1936–37 to 1938–39. The items included comprise products in the form in which they are sold from farms in all cases except live-stock sold for slaughter for meat, which are included in terms of dressed carcass weight of meat. Quantity data relating to exports include exports of processed food in terms of farm product equivalent. The indexes of production relate basically to gross output of farm products for food use, including crops exported for stock-feeding overseas.

**FARM PRODUCTS FOR FOOD USE: INDEXES OF QUANTUM^(a) OF
PRODUCTION, EXPORTS AND CONSUMPTION**

(Base: Average 1936-37 to 1938-39 = 100)

(a) Indexes of value at constant prices, i.e., quantities revalued at average unit values for the base years (see text preceding table).

§ 3. Consumption of Foodstuffs and Beverages

1. **Quantities Consumed.**—The estimates of total consumption and consumption per head of population in Australia in the two tables which follow have been compiled by deducting net exports from the sum of production and imports and allowing for recorded movements in stocks of the respective commodities. While the estimates may be generally accepted as being reasonably accurate, there are some deficiencies to which attention should be directed. These relate chiefly to the quantities of poultry, game and fish (fresh and shell) and the quantities of certain oils and fats entering consumption. In addition, little information is available on the quantities of vegetables, fruit, eggs, etc., which householders produce for their own requirements and the extent of wastage occurring in the marketing of foodstuffs. In all these cases careful estimates have been compiled from the best available data, and the quantities shown as entering consumption in Australia have been adjusted to allow for these circumstances. The absence of particulars for stocks of certain commodities has resulted in some inaccuracies in the estimates of annual consumption. Consumption of foodstuffs is measured in general at "producer" level. As a result, no allowance is made for wastage before the foodstuffs are consumed. In recent years wastage of foodstuffs has possibly been less than previously because of more efficient distribution and storage methods. Furthermore, it is likely that the quantities of foodstuffs shown in the following pages as available for consumption have been supplemented by production by householders for their own requirements. In most cases broad estimates of non-commercial (householders') production have been made. Except in a few special cases, no adjustment has been made for changes in stocks held by wholesalers and retailers. Where no allowance is made, it is considered unlikely that these stocks would make any appreciable difference to consumption estimates. Allowance has not been made for the purchase of foodstuffs for dispatch overseas as gifts in bulk and by parcel post. These deficiencies, however, do not seriously impair the accuracy of the estimates compiled.

The estimates of consumption per head of population shown in the second of the following tables have been derived by dividing the total apparent consumption of each commodity or commodity group in a given year by the mean population of Australia in the same period.

More detailed information on the consumption of foodstuffs and beverages is contained in the statistical bulletin: *Report on Food Production and the Apparent Consumption of Foodstuffs and Nutrients in Australia*, issued by this Bureau.

The following tables show the average annual consumption during the three-year periods ended 1938-39, 1948-49, and 1958-59, together with the data for each of the years 1961-62, 1962-63, and 1963-64.

2. **Level of Nutrient Intake.**—The table below shows details of the estimated supplies of nutrients available for consumption in Australia during annual periods since 1961-62 in comparison with the annual averages for the three-year periods ended 1938-39, 1948-49 and 1958-59. The table has been compiled by the Nutrition Section of the Commonwealth Department of Health and is based on the estimates of the quantity of foodstuffs available for consumption per head of population shown in the preceding table.

§ 4. Retail Trade

1. **General.**—The statistics in this section relate to retail establishments throughout Australia and the value of retail sales of goods by these establishments.

Information of this nature was first collected in respect of the year ended 30th June, 1948, by a full census of all retail establishments. As this was the first census of its type in Australia, its scope and the data sought were the minima consistent with the objective of securing a record of the number of such establishments, their type, their geographical distribution, their aggregate sales of goods, and a simple commodity dissection, together with a record of the value of certain services provided. This census was followed by a second census of all retail establishments trading during the year ended 30th June, 1949.

Further censuses were taken in respect of the years ended 30th June, 1953 and 1957. In these censuses retailers were asked to furnish more detailed information concerning the dissection of their turnover into commodity groups, and questions were asked about stocks of goods on hand, the number of persons engaged in retail activities, and credit sales. In addition, the 1956-57 census included questions relating to purchases, customers' indebtedness, and type of organization.

The most recent census was taken in respect of the year ended 30th June, 1962, and results have been published for all States and Australia. With the exception of some modifications to the scope of the collection (see p. 1246), the 1961-62 census followed the same general principles adopted for the previous census.

In general terms the census covered the retail trading activities of establishments which normally sell goods by retail to the general public from fixed premises (i.e., shops, rooms, kiosks and yards). Retail activities of wholesalers and manufacturers were included if they sold regularly by retail to the general public. Sales by itinerant vendors (e.g., hawkers, street sellers, etc.) and sales from casual stalls or booths were excluded. Organizations such as clubs and societies making sales to their own members were excluded from the main census collection, but a supplementary collection was made, covering sales by *licensed* clubs, and separate details are included in this section.

In general, establishments with retail sales of goods amounting to less than £500 in the census year are not included in the census tabulations. However, some "service" establishments with retail sales of less than £500, but with takings of £500 or more from repairs, meals, or hairdressing, are included in tables relating to these items. The types of establishments in this category are boot repairers, repair-only garages, cafés and restaurants, and hairdressers.

The design of the census is such that particulars of retail sales relate principally to sales to the final consumer of new and second-hand goods generally used for household and personal purposes. For this reason, sales of building materials, farm and industrial machinery and equipment, earth-moving equipment, etc., have been excluded from the censuses. For the same reason, and also because of difficulties in obtaining reliable and complete reporting, sales of builders' hardware and supplies, business machines and equipment, grain, feed, fertilizer and agricultural supplies, and tractors were excluded from the 1961-62 census. Retail sales of motor vehicles, parts, etc., have been included, whether for industrial, commercial, farm or private use.

During the period between censuses, variations in the value of retail sales have been measured by means of quarterly sample surveys. Annual totals derived from these surveys, adjusted to a basis comparable in scope with the 1961-62 census, and some of the results of the 1961-62 census, are included in this section.

Year Book No. 50, pages 1239-45, contains details of the number of retail establishments, the values of retail sales and of retail stocks, and particulars of hairdressing, boot repairing and motor repairing establishments, restaurants, self-service stores and licensed clubs, for each State and Territory, from the results of the 1961-62 census. Major classifications are by commodity groups and type of business.

2. Value of Retail Sales in Each Commodity Group, Australia.—The following table shows the value of retail sales of goods in each of the commodity groups specified in the years 1958-59 to 1963-64 on a comparable basis throughout. The figures for the year 1961-62 were obtained from the census, whereas figures for the other years shown are estimates based on sample surveys.

VALUE OF RETAIL SALES: COMMODITY GROUPS, AUSTRALIA(a)
(£ million)

Commodity group	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64
Groceries	368.8	391.1	416.5	429.2	445.8	469.7
Butchers' meat	178.3	193.2	210.7	211.1	221.9	232.9
Other food (b)	308.3	335.0	352.6	365.0	381.6	395.7
<i>Total, Food and Groceries</i>	<i>855.4</i>	<i>919.3</i>	<i>979.8</i>	<i>1,005.3</i>	<i>1,049.3</i>	<i>1,098.3</i>
Beer, wine and spirits (c)	247.5	262.9	269.3	273.0	287.1	295.6
Clothing and drapery	397.5	434.1	450.4	450.0	464.0	505.1
Footwear	64.5	71.9	76.7	77.2	81.0	85.5
Hardware, china and glassware (d)	65.6	70.6	72.6	73.0	77.5	76.8
Electrical goods (e)	154.9	187.0	177.3	174.0	182.5	182.2
Furniture and floor coverings	97.7	114.7	117.0	115.0	122.1	135.5
Newspapers, books and stationery	96.9	107.9	121.5	132.9	142.1	152.9
Chemists' goods	72.4	77.6	80.1	83.2	85.9	95.0
Other goods(f)	204.9	226.5	241.8	245.0	257.9	275.1
<i>Total (excluding Motor Vehicles)</i>	<i>2,257.3</i>	<i>2,472.5</i>	<i>2,586.5</i>	<i>2,628.6</i>	<i>2,749.4</i>	<i>2,912.0</i>
Motor vehicles, parts, petrol, etc. (g) ..	691.2	827.3	824.9	801.5	988.5	1,082.3

(a) Excludes Northern Territory and Australian Capital Territory. (b) Includes fresh fruit and vegetables, confectionery, soft drinks, ice cream, cakes, pastry, cooked provisions, fish, etc., but excludes some delivered milk and bread. (c) Excludes sales made by licensed clubs. (d) Excludes basic building materials, builders' hardware, and supplies such as tools of trade, paint, etc. (e) Includes radios, television and accessories, musical instruments, domestic refrigerators, etc. (f) Includes tobacco, cigarettes, etc., jewellery, sporting goods, etc., but excludes grain and produce and business machines. (g) Includes new and used motor vehicles, parts, petrol, etc., but excludes tractors, farm machinery and implements, earth-moving equipment, etc.

§ 5. Interstate Trade

Prior to the federation of the Australian Colonies (now States) each Colony published statistics of its trade with the other Colonies. A similar record was continued by the Commonwealth Government under the provisions of the Constitution (section 93). On the expiry of the "book-keeping" period these records were discontinued as from 13th September, 1910, and the last published statements were for the year 1909. Later, the Governments of Western Australia and Tasmania revived the records, and relevant statistics are available again for those States. A detailed collection for Queensland was re-introduced from July, 1953.

At the Conference of Statisticians held in January, 1928, it was resolved that efforts should be made in other States to record the interstate movement of certain principal commodities.

Complete interstate trade statistics are now published in detail for Queensland, Western Australia and Tasmania by the Deputy Commonwealth Statisticians in those States, and incomplete statistics, relating mainly to trade with Western Australia and Tasmania, by the Deputy Commonwealth Statisticians in the remaining States.

§ 6. Statistical Organization in Australia

1. **Early Development of Australian Statistics.**—Statistical organization in Australia was found in the "Blue Books" which, in the Crown Colony days, were prepared annually for the information of the Colonial Office. Although intended primarily for administrative purposes, these documents have been important sources of statistical data, and formed the basis from which later statistical publications were developed. Following the advent of responsible government the "Blue Book" was succeeded in all States by "Statistical Registers", which, however, were still largely confined to summaries of the "by-product" statistics of government administrative departments.

The growing need for quantitative data concerning the progress of the several young communities of Australia led eventually to the appointment of official Statisticians commissioned to prepare and publish such data, and conferences were held between the Statisticians to provide for the interchange of ideas between States and to obtain uniform State statistics which could be aggregated to Australian totals. Altogether, six conferences were held prior to the formation of the Commonwealth Bureau of Census and Statistics in 1906—in 1861, 1875, 1890, 1900, 1902 and 1903. The holding of these conferences has been continued since the formation of the Commonwealth Bureau, and a representative from New Zealand attended up to 1928.

2. **Creation of the Commonwealth Bureau of Census and Statistics.**—Under the provisions of section 51 of the Commonwealth Constitution power is conferred on the Commonwealth Parliament "to make laws for the peace, order and good government of the Commonwealth with respect to—" (*inter alia*) "(XI.) Census and statistics". In compliance with this provision the *Census and Statistics Act 1905* was passed, and in 1906 the Commonwealth Bureau of Census and Statistics was created. A conference of Statisticians in 1906 defined the relations between the Commonwealth and State Bureaux, and in each case the State Statistician became the representative in his own State of the Commonwealth Statistician for the purpose of administering the Commonwealth Act. In addition, each State has its own "Statistics Act", and although these are not identical in all States, they embody common principles. The Commonwealth Bureau did not attempt to duplicate the existing statistical organization, but endeavoured to use the services of the State statistical offices whenever possible, and to undertake the initial collection of statistics only in fields not already occupied by the States, or in which efficiency demanded complete centralization.

3. **Integration of Statistical Services.**—The creation and development of the Commonwealth Bureau of Census and Statistics, the frequent conferences of Commonwealth and State Statisticians, and the close and increasing liaison between officers dealing with the same subjects in the State and Commonwealth fields did much to promote uniformity in the official statistical collections and methods employed throughout Australia. The complete realization of this aim could not, however, be achieved, even with the utmost co-operation of those concerned, while seven distinct statistical systems operated, as became apparent when economic problems following the 1914-18 War drew attention to deficiencies in Australian statistical data.

The first step towards integration was taken in 1924, when, in response to a proposal by the Prime Minister to the Premiers' Conference that State Statistical officers be transferred to the Commonwealth (to which Tasmania alone agreed), the Tasmanian office was transferred to the Commonwealth, and has since functioned as a Commonwealth office which also serves State statistical needs.

The varied economic problems of the 1920's and 1930's, the 1939-45 War and the post-war boom, and the development during and since the war of a volume of new statistics, imposed a severe strain on the statistical systems and increased the complexities of the several administrations in their efforts to secure, and maintain, uniformity in statistical collections.

The emergence of the problem of providing uniform statistical services throughout Australia adequate to meet present-day demands was foreseen during the 1939-45 War, and in 1949 discussions with the Premiers were initiated by the Prime Minister, with the object of integrating the statistical services of the Commonwealth and the States by agreement. Following negotiations by correspondence, all State Governments accepted the terms of draft agreements to integrate their respective statistical offices with that of the Commonwealth, and effect was given to this by the *Statistics (Arrangements with States) Act 1956*. This legislation, permissive in nature, was designed to enable the Commonwealth to enter into an agreement with any State to effect an amalgamation of Commonwealth and State statistical offices and services. The object of such an agreement was that, in each State accepting it, there would be an integrated statistical service operated by Commonwealth statistical officers under the immediate direction of a statistician in the State who would hold office under both the Commonwealth and State Governments. Both Commonwealth and State were to be adequately served with statistics, and no State would be required to surrender its existing powers in the field of statistics. Integration of the Commonwealth and State statistical services was finally accomplished when the integration arrangement with Victoria came into effect on 15th September, 1958.

4. Scope of the Commonwealth Bureau of Census and Statistics.—The scope of the Commonwealth Bureau of Census and Statistics has been continually widened, more particularly during the 1939-45 War, when the Bureau responded to the urgent demands of administration for immediate and accurate statistical information in various fields. Since the War, requirements in the administrative, industrial, financial and scientific spheres have led to the development of many new statistical collections. All the activities of the Bureau are covered by the Census and Statistics Act, which confers authority to collect information and contains stringent provisions to ensure that the information obtained is treated in strictest secrecy.

For administrative purposes, the Commonwealth Bureau, Canberra, is divided into the following Branches (in italics) and Sections dealing with specific fields of statistics or providing services for the Bureau as a whole. The organizational patterns of the State Offices are broadly similar, although local requirements have naturally given rise to differences in detail.

Production, Distribution and Development. Primary Industry; Secondary Industry; Development, Integration and Classification; Internal Trade.

Population Census.

Demography and Employment. Employment and Field Survey Operations; Demographic and Social; Population Research.

Prices and Labour.

Finance and Oversea Transactions. Oversea Transactions; Public Finance and Taxation; Private Finance.

National Accounts. National Income and Expenditure; Inter-industry and Sector Financial Accounts.

Sampling and Methodology. Sampling; Methodology and Mathematical Research.

Automatic Data Processing. Applications; Systems Operations; Mechanical Tabulation.

Services. Publications; Establishments and Finance; Secretariat.

5. Relation of the Bureau to other Commonwealth Departments.—In October, 1950, the Commonwealth Public Service Board issued a circular relative to the compilation of statistics in other Commonwealth Departments, in which it stated that the Commonwealth Statistician should be the co-ordinating authority on all statistics in Commonwealth Departments, and that, as a general principle, where any new statistical field is to be established involving the regular collection of statistics, the Commonwealth Statistician should be consulted to ensure that they are necessary and that they are based on sound statistical methods; furthermore, that the Commonwealth Statistician should make a regular inspection, at least once every twelve months, of all statistical work done by Departments to ensure that their needs are met by the most economical means and without duplication of effort.

This project of co-ordination is being implemented as statistical developments require and as time and circumstances permit.

§ 7. Statistical Publications of Australia

1. **General.**—The official statistical publications of Australia may be divided bibliographically into two main divisions, namely:—(i) Commonwealth publications dealing both individually and collectively with the several States of Australia; and (ii) State publications dealing with individual States only.

Commonwealth publications containing statistics may be grouped under two heads, namely:—(i) publications issued by the Commonwealth Statistician; and (ii) Parliamentary and Departmental Reports and Papers.

2. **Publications issued by the Commonwealth Statistician.**—(i) *Principal Statistical Publications.* The following is a list of the principal statistical publications issued from the Central Office of the Commonwealth Bureau of Census and Statistics since its inauguration.

Australian Capital Territory Statistical Summary.—Annually; 1963 to 1965.

Balance of Payments, Australian.—Statements Nos. 1 to 3, 1928–29 to 1951–52.

* *Banking and Currency.*—Annually; 1961–62 and 1962–63 (first issue), and 1963–64.

† *Causes of Death.*—Bulletin, annually; first issue, 1963.

Census (1911) Results.—Bulletins. Vols. I. (Statistician's Report), II., and III., with Appendix *Mathematical Theory of Population.*

Census (1921) Results.—Bulletins, Nos. 1 to 26. Parts I. to XVI., forming Vol. I., and Parts XVII. to XXIX., forming, with the Statistician's Report, Vol. II. NOTE.—Part XXVII., Life Tables.

Census (1933) Results.—Bulletins, Nos. 1 to 25. Parts I. to XIV., forming Vol. I., Parts XV. to XXVIII., forming Vol. II., and Parts XXIX. to XXXVII., forming, with the Statistician's Report and Australian Life Tables, 1932–1934, Vol. III.

Census (1947) Results.—Bulletins, Nos. 1 to 25. Parts I. to XVI., forming Vol. I., Parts XVII. to XIX., forming Vol. II., and Parts XX. to XXVIII., forming with the Statistician's Report and Australian Life Tables, 1946–1948, Vol. III.

Census (1954) Results.—Bulletins, Nos. 1 to 3. Vols. I. to VI., comprising respectively Parts I. to V. for each State; Vol. VII., comprising Parts I. to V. for the Australian Territories; Vol. VIII., comprising Parts I. to III. for Australia, Australian Life Tables, 1953–1955, and the Statistician's Report.

Census (1961) Results.—Bulletins Nos 1. to 36 (mimeographed)†; Vols. I. to VI., comprising respectively Parts I. to V. for each State; Vol. VII., comprising Parts I. to V. for the Australian Territories; and Vol. VIII., comprising Parts I. to III. for Australia, Australian Life Tables, 1960–1962, and the Statistician's Report (printed). The complete series of printed publications has not yet been issued; for publications already issued see back pages of this volume.

‡ *Conference of British Commonwealth Statisticians, 1951, Report of Proceedings.*

‡ *Dairying Industry* (formerly *Summary of Dairying Industry*).—Statistical Bulletin, monthly; first issue, September, 1937.

Demography.—Bulletin, annually, 1911 to 1963. Commencing 1963, excludes details of causes of death, see *Causes of Death*.

‡ *Digest of Current Economic Statistics.*—August, 1959 onward.

‡ *Export Commodity Classification, Australian.*—1965–66.

Exports, Australian.—Annually, 1958–59 to 1964–65.

‡ *Factories, Principal Statistics, Summary.*—Annually, 1948–49 to 1963–64.

Finance.—Bulletin, 1907 to 1916–17 annually; 1917–18 and 1918–19 (one vol.); 1919–20 and 1920–21 (one vol.); 1922–23 to 1960–61 annually. Commencing 1955–56, issued in two parts: Part I., Public and Private Finance; Part II., Commonwealth Taxation. Commencing 1961–62, issued as five separate bulletins, see *Banking, Finance (2), Insurance, and Taxation.*

* *Finance, Commonwealth.*—Annually; 1961–62 and 1962–63 (first issue), to 1964–65.

* *Finance, State, Territory and Local Government Authorities', and Government Securities.*—Annually; 1961–62 and 1962–63 (first issue), and 1963–64.

‡ *Food Production and the Apparent Consumption of Foodstuffs and Nutrients in Australia, Report on.*—Statistical Bulletin, half-yearly, 1946–47 to 1947–48; annually, 1948–49 to 1963–64.

‡ *Fruit Growing Industry* (formerly *Summary of Fruit Growing Industry*).—Statistical Bulletin, annually, 1944–45 to 1963–64.

* Previously included in *Finance, Part I.* † Previously included in *Demography.* ‡ Distributed by Commonwealth Statistician—for methods of obtaining other publications still in print see back pages of this volume.

- **Import Commodity Classification, Australian.*—1965-66.
Imports Cleared for Home Consumption.—Annually, 1950-51 to 1964-65.
- ***Insurance and Other Private Finance (other than Banking and Currency).*—Annually; 1961-62 and 1962-63 (first issue), and 1963-64.
- Labour and Industrial Statistics.*—Memoranda and Reports, various, to 1922.
Labour Report.—1913 to 1963.
Life Tables, Australian, 1901-1910. *Australian Joint Life Tables, 1901-1910.*
Life Tables, Australian, 1920-1922.
Life Tables, Australian, 1932-1934. *Australian Joint Life Tables, 1932-1934.*
Life Tables, Australian, 1946-1948.
Life Tables, Australian, 1953-1955.
Life Tables, Australian, 1960-1962.
- **Livestock Numbers (formerly Summary of Livestock Statistics).*—Statistical Bulletin, annually, 1943 to 1964.
Local Government in Australia.—July, 1919.
Manufacturing Industries.—Bulletins on Individual Industries, annually, 1936-37 to 1939-40, 1940-41 (issue incomplete) and 1944-45 to 1963-64.†
- ‡*Mineral Industry, The Australian (formerly Minerals and Metals Bulletin).*—Part 2—*Quarterly Statistics* of a quarterly bulletin issued jointly with the Bureau of Mineral Resources.
Monthly Review of Business Statistics.—October, 1937 onward.
Motor Vehicles, Census of, 31st December, 1955.—Bulletins Nos. 1 to 8.
Motor Vehicles, Census of, 31st December, 1962.—Bulletins Nos. 1 to 9.
Motor Vehicles, Survey of (1947-48), Results.—Bulletins Nos. 1 to 7.
National Accounts, Australian (National Income and Expenditure), 1948-49 to 1961-62, first issue—mimeographed, to 1963-64.*
- §*Non-Rural Primary Industries and Value of Production.*—Annually, first issue, 1962-63.
Northern Territory Statistical Summary.—Annually, 1960 to 1965.
- **Occupation Survey (1945) Results.*—Detailed tables.
Official Year Book of the Commonwealth of Australia.—1907 to present issue (No. 51). Issues Nos. 40 to 51 also published in parts.
Pocket Compendium of Australian Statistics (formerly Statistical Digest).—1913, 1914, 1916 and 1918 to 1965, annually.
Population and Vital Statistics.—Bulletins and Reports, various, 1906-1910.
Primary Industries.—Bulletins, annually, 1950-51 to 1961-62 in two parts—Part I. Rural Industries, Part II. Non-rural Industries and Value of Production. Commencing 1962-63, issued as two separate Bulletins, see *Rural Industries*, and *Non-rural Primary Industries and Value of Production*.
Primary Industries, Australian.—Report prepared for the Empire Producers Conference, Sydney, March, 1938.
Production.—Bulletin, annually, 1906 to 1949-50. From 1936-37 to 1949-50 issued in two parts—Part I. Secondary Industries, Part II. Primary Industries (including Total Recorded Production); thereafter separate Bulletins (see *Primary Industries and Secondary Industries*).
Professional Papers.—Various. A full list appears in Official Year Book No. 13, page 3.
- **Publications of the Commonwealth Bureau of Census and Statistics.*—Annually (1964 and 1965 printed).
Quarterly Summary of Australian Statistics (replaced Monthly Summary of Australian Statistics).—December, 1917 onward.
- **Retail Establishments, Census of (1947-48), Results.*—Bulletins, Nos. 1 to 7.
 **Retail Establishments, Census of (1948-49), Results.*—Bulletins, Nos. 1 to 7.
 **Retail Establishments, Census of (1952-53), Results.*—Bulletins, Nos. 1 to 14.
 **Retail Establishments, Census of (1956-57), Results.*—Bulletins, Nos. 1 to 8 (mimeographed*) and 9 to 15 (printed).
Retail Establishments and Other Services, Census of (1961-62), Results.—Bulletins Nos. 1 to 7 (printed) and 8 and 9 (mimeographed*).
- **Rural Holdings, Classification by Size and Type of Activity, 1959-60.*—Bulletins, Nos. 1 to 7.
Rural Holdings, Size Classification of, 1955-56.—Bulletins Nos. 1 to 7.
- ††*Rural Industries.*—Annually; first issue, 1962-63.

- * *Rural Land Use and Crop Production* (formerly *Summary of Crop Statistics*).—Statistical Bulletin, annually, 1943–44 to 1963–64.
- Secondary Industries*.—Bulletin, annually, 1950–51 to 1962–63 (commencing 1960–61 issued in two parts—Part I. Factory and Building Operations, Part II. Materials Used and Articles Produced in Factories).
- Social Insurance*.—Report to the Hon. the Minister for Trade and Customs, 1910.
- Social Statistics*.—Bulletin, 1907 to 1915 annually, and 1918.
- Superannuation for the Commonwealth Public Service*.—Report to the Hon. the Minister for Home Affairs, 1910.
- †† *Taxation Assessments, Commonwealth*.—Annually, 1961–62 to 1963–64.
- Trade, Oversea*.—Bulletin, annually, 1906 to 1964–65.
- * *Trade, Oversea*.—Preliminary Bulletin, annually, 1952–53 to 1964–65, in two parts—Part 1, Exports; Part 2, Imports.
(See also *Exports, Australian and Imports Cleared for Home Consumption*.)
- Transport and Communication*.—Bulletin, 1906, 1908 to 1916 annually, 1919 to 1930 annually, and 1932 to 1963–64 annually.
- Wealth*.—The Private Wealth of Australia and its Growth as ascertained by various methods, together with a Report on the War Census in 1915.
- * *Wheat Industry* (formerly *Summary of the Wheat Situation*).—Statistical Bulletin, periodically; first issue, July, 1936.
- * *Wool Production and Utilization*.—Bulletin, annually, 1952–53 to 1963–64.

The foregoing list includes all the printed publications issued from the Bureau and certain more important mimeographed publications issued for the most part annually. Minor changes in the titles of several publications have not been referred to above. Copies of a number of these publications, particularly earlier issues, are not available.

(ii) *Other Statistical Publications*. Other mimeographed statements are distributed by the Commonwealth Statistician and deal with a wide variety of subjects, as follows.

Triennially.—Tractors on Rural Holdings.

Annually.—Agricultural Statistics (Preliminary); Australian National Accounts—Gross National Product at Current and Constant Prices (No. 1), Personal Income, by States (No. 2), Gross National Product at Factor Cost, by Industry (No. 3) (Preliminary Statements); Bee Farming; Consumption of Tea and Coffee; Factories, Principal Statistics of, by Class of Industry; Factory Products, Principal; Factory Production, Indexes of; Factory Statistics, Australian Capital Territory; Factory Statistics (Preliminary); Farm Machinery on Rural Holdings; Fire, Marine and General Insurance; Fishing and Whaling; Fruit Statistics (Preliminary); Livestock Statistics (Preliminary); Mining and Quarrying (also Preliminary); Oversea Investment; Oversea Investment in Companies in Australia (Preliminary); Registered Building Societies; Registrations of New Motor Vehicles; Rural Statistics of the Australian Capital Territory; Survey of Private Pension and Retiring Allowance Schemes; Survey of Retail Establishments, Australian Capital Territory; Survey of Retail Establishments, Northern Territory; Survey of Selected Large Private Pension Funds; Commonwealth, State and Territory Taxation Collections; Trade of Australia with Eastern Countries; University Statistics (also Preliminary); Value of Primary Production (Preliminary); Value of Production and Indexes of Price and Quantum of Farm Production; Wholesale Sales and Stocks of Wine and Brandy; Wool Production (Preliminary).

Half-yearly.—Balance of Payments; Labour Turnover; Trade of Australia with the United Kingdom.

* Distributed by the Commonwealth Statistician—for methods of obtaining other publications still in print see back pages of this volume. † The series for 1963–64 comprises:—Nos. 1. Cement and Cement Goods, 2. Bricks, Tiles, Pottery and Earthenware, 3. Chemicals, Drugs and Medicines, 4. White Lead, Paints and Varnish, 5. Chemical Fertilizers, 6. Soap and Candles, 7. Basic Metal Industries, 8. Metal Fabricating Industries, 9. Motor Vehicles and Cycles, 10. Cotton Mills, 11. Woollen Mills, 12. Rope and Cordage, 13. Tanneries, 14. Boots and Shoes, 15. Clothing (including Hosiery and Knitted Goods), 16. Flour and Other Grain Mills, 17. Biscuits, 18. Confectionery, 19. Jam, Fruit, Vegetables, Pickles, Sauces, Condiments, etc., 20. Bacon Curing, 21. Butter, Cheese and Condensed, Concentrated, etc., Milk, 22. Aerated Waters and Cordials, 23. Meat and Fish Preserving, 24. Breweries, 25. Wineries and Distilleries, 26. Tobacco, Cigars and Cigarettes, 27. Sawmilling, 28. Pulp and Paper Making, 29. Rubber Works, 30. Brooms and Brushes, 31. Electric Light and Power Works, 32. Gas Works, 33. Plastic Moulding and Products, 34. Leather Goods (including Saddlery and Belting), 35. Printing and Stationery.

‡ Copies available from the Department of National Development in each capital city (6s. each).

§ Previously Primary Industries, Part II.

** Previously included in Finance, Part I.

†† Previously Primary Industries, Part I.

‡‡ Previously Finance, Part II.

Quarterly.—Aerial Agriculture; Balance of Payments; Building; Building—Australian Capital Territory; Building—Northern Territory; Building—Number of New Houses and Flats (Preliminary); Capital and Maintenance Expenditure by Private Businesses in Australia; Capital Expenditure by Private Businesses in Australia (Preliminary); Consumer Price Index; Industrial Disputes; Instalment Credit for Retail Sales; National Income and Expenditure; New Agricultural Machinery; New Capital Raisings by Companies in Australia; New Capital Raisings by Companies in Australia—New Money Raised by Listed Australian Companies (Preliminary); New Tractors; Oversea Arrivals and Departures; Oversea Trade with Major Groups of Countries; Retail Sales of Goods (also Preliminary); Road Traffic Accidents; Unit Trusts, Land Trusts and Mutual Funds; Wholesale Prices—Price Index of Electric Installation Materials.

Monthly.—Banking (General) (also Preliminary); Building Approvals; Employment and Unemployment; Exports of Wool; Export Price Index; Gold Mining Industry; Instalment Credit for Retail Sales (Preliminary); Life Insurance; Meat Industry; Oversea Arrivals and Departures; Oversea Trade (also Preliminary); Production Statistics (also Preliminary); Production Summaries*; Registrations of New Motor Vehicles (also Preliminary); Retail Sales of Goods (Provisional); Savings Banks (also Preliminary); Wage and Salary Earners in Civilian Employment; Wage Rates and Earnings; Wholesale Price (Basic Materials and Foodstuffs) Index.

Periodically.—Demographic Review (separate issues cover population and vital statistics, births, deaths and marriages; Social Statistics, including Schools, Universities, Hospitals (all annual) and Divorces (quarterly).

Occasional Publications.—In addition to the publications listed on pages 1251–2, most of which are issued regularly, there have been a number of statements issued by this Bureau which contain the results of special surveys or new statistical series and descriptions thereof. The more recent of these are listed below.

Special Business Survey No. 16. Incidence of Industrial Awards, Determinations and Agreements, May, 1963. Year Book No. 49 included a list of previous Surveys in this series, but they are now for the most part out of print or included in regular publications.

Population Count of Canberra, 30th June, 1965; Population Count of Darwin, Alice Springs, Tennant Creek, Katherine and Bachelor, 30th June, 1964; Minimum Wage Rates, January, 1960, to June, 1963; Wage and Salary Earners in Employment, June, 1954, to June, 1962; Wage and Salary Earners in Employment, July, 1962 to June, 1964; Survey of Motor Vehicle Usage, 1963; Projections of the Population of Australia (1966 to 1986).

(iii) *Information on Current Bureau Publications.* Further information on current publications of the Commonwealth Bureau of Census and Statistics is contained in *Publications of the Commonwealth Bureau of Census and Statistics*, April, 1965, available free, on request, from the Commonwealth Statistician, Canberra. This contains a list of all Bureau publications and also a subject index to show the publications in which information on the various subjects dealt with by the Bureau is to be found. Publications issued by the State Offices of the Commonwealth Bureau of Census and Statistics are also listed therein.

3. *Publications issued by the Deputy Commonwealth Statisticians.*—A list of the current publications issued by the Deputy Commonwealth Statistician of each State appears in Year Book No. 48 (see p. 1163) and in *Publications of the Commonwealth Bureau of Census and Statistics*, April, 1965.

4. *Commonwealth and State Parliamentary and Departmental Reports and Papers.*—No comprehensive list of current publications of this nature is available, but the Commonwealth National Library issues an annual publication *Australian Government Publications*, a list of official publications of the Commonwealth, States and Territories, compiled from records of material received by the Library during the year.

* The current series comprises:—Nos. 2. Chemicals, etc., 3. Plastic and Synthetic Resins and Plasticisers, 4. Paints and Other Surface Coatings, 6. Soaps, Detergents and Glycerine, 7. Internal Combustion Engines, 8. Lawn Mowers, 9. Electric Appliances, 10. Motor Bodies, Trailers, etc., 11. Pedal Cycles, 12. Meters, 13. Building Fittings, 14. Cotton Goods, 15. Wool-scouring, Carbonizing and Fellmongering, 16. Wool Textile Industry, 17. Wool Weaving, 18. Hosiery, 19. Shirts, Cardigans, Nightwear, Underclothing, etc., 20. Cellulosic and Synthetic Fibre, Tops, Yarns and Woven Fabrics, 21. Paper and Paper Board; Pressure Sensitive Adhesive Tape, 22. Floor Coverings, 23. Electric Motors, 24. Men's, Youths' and Boys' Outer Clothing, 25. Foundation Garments, 27. Gloves; Slide Zip Fasteners, 28. Footwear (excluding Sandshoes, Goggles and Gumboots, etc., of Rubber), 29. Biscuits, Ice Cream, Confectionery, 30. Storage Batteries, 31. Motor Vehicle Chassis, 32. Perambulators, Pushers and Strollers, 34. Radio, etc., Television Sets and Cabinets, 35. Mattresses, 36. Preserved Milk Products, 38. Canned Fish, 39. Jams and Preserved Fruit and Vegetables, 40. Cereal Products, 41. Margarine and Other Edible Processed Fats, 42. Malt and Beer, 43. CHAPTER XXXI

NATIONAL ACCOUNTS

NATIONAL INCOME AND EXPENDITURE

National accounting aims at providing a systematic summary of the transactions taking place in the economy, especially of those that relate to the production and use of goods and services, and to transfers of income or capital between sectors of the economy.

Estimates of national income and expenditure have been compiled by the Bureau since 1944-45, and have been published annually as papers entitled *National Income and Expenditure* accompanying the Commonwealth Budgets. Detailed annual estimates of national income and expenditure on a revised basis were published in *Australian National Accounts, National Income and Expenditure, 1948-49 to 1963-64*. Preliminary estimates for 1964-65 were published in a Budget Paper. Quarterly estimates are published in *Quarterly Estimates of National Income and Expenditure*.

The figures shown in § 2 incorporate revisions made in August, 1965, in the Budget Paper, *National Income and Expenditure, 1964-65*, and corresponding revisions to figures for 1959-60 not included in that publication.

§ 1. Description of the National Accounts

A brief description of the conceptual basis of national accounts is given in this section, but for a more detailed treatment of the concepts and structure of the Australian national accounts reference should be made to *Australian National Accounts, National Income and Expenditure 1948-49 to 1963-64* or to Year Book No. 50, pages 1253-68.

1. Definition and Relationship of the Concepts of Product, Income and Expenditure.—The main concepts of product, income and expenditure in the Australian National Accounts are defined and expressed in equivalents as follows.

Gross National Expenditure within a given period is the total expenditure on final goods and services (i.e. excluding goods and services produced or imported and used up in the process of further production) bought for use in the Australian economy. It is equivalent to gross national product, plus imports of goods and services, less exports of goods and services.

National Turnover of Goods and Services is the total flow of final goods and services within a given period in the Australian economy as a whole (i.e. excluding goods and services produced or imported and used up in the process of further production) derived from production in Australia and imports. This value is equivalent to gross national product plus imports of goods and services or, alternatively, to gross national expenditure plus exports of goods and services.

Gross National Product is the total market value of goods and services produced in Australia within a given period after deduction of the cost of goods and services, other than capital equipment, used in the process of production. Thus gross national product, as here defined is "at market prices". It is equivalent to gross national expenditure, plus exports of goods and services, less imports of goods and services.

Gross National Product at Factor Cost is that part of the cost of producing the gross national product which consists of gross payments to factors of production (labour, land, capital or enterprise). It represents the value added by these factors in the process of production and is equivalent to gross national product, less indirect taxes, plus subsidies.

Net National Product is the part of the value added within a given period by factors of production (labour, land, capital or enterprise) which accrues as income to their suppliers after allowing for the depreciation of capital equipment. It is equivalent to gross national product at factor cost less allowance for depreciation.

National Income is the net income accruing within a given period to Australian residents from their services in supplying factors of production (labour, land, capital or enterprise) in Australia or overseas. It is equivalent to net national product, plus income receivable from overseas, less income payable overseas.

Personal Income is the total income, whether in cash or kind, received by persons normally resident in Australia. It includes both income received in return for productive activity (such as wages, salaries and supplements, incomes of unincorporated enterprises, etc.) and transfer incomes (such as cash social service benefits, interest, etc.). Personal income also includes any property income received by non-taxable organizations such as private schools, churches, charitable organizations, etc. However, it excludes any income which might be said to accrue to persons in the form of undistributed company income and retained investment income of life insurance, etc., funds.

2. **Framework of Accounts and Sectors.**—In the accounts shown in Tables 1 to 7, four internal sectors are distinguished—persons, public authorities, financial enterprises and trading enterprises. In addition, there is an overseas sector which shows a summary of the transactions into which overseas governments, persons and businesses enter with Australian residents. All the sectors (except the overseas sector) engage in productive activity, but in the tables a national production account for the whole economy is shown instead of separate accounts for each sector. Similarly, the tables show only a national capital account for the economy, but a current (or income appropriation) account is shown for each sector. The system of accounts as thus envisaged is a completely articulated system in that a credit in any account must be matched with a corresponding debit in some other account—or in the same account if a complete consolidation of the transactions appropriate to that account has not been carried through.

The framework of sectors and accounts underlying the form of social accounts shown in this Year Book is set out in the following diagram. As stated in the previous paragraph, each sector could be envisaged as having separate production, appropriation and capital accounts, but in the tables compiled for Australia the production and capital accounts have been combined. In the diagram the solid rectangles depict the actual form of the tables, and the remaining rectangles show the full amount of detail which would be needed to provide the complete articulation of the accounts. The appropriate number of each table in § 2 is shown on the left of the diagram.

ARTICULATION OF AUSTRALIAN NATIONAL ACCOUNTS

3. **Description of the Accounts.**—(i) *National Production Account.* The national production account is a consolidation of the production accounts of each sector. The production account is shown as receiving revenue from the sale of goods and services to final buyers; all intermediate goods and services are cancelled out, since they represent a cost to one producer to offset the revenue of the other. On the payments side are shown the payments of indirect taxes, and, since the accounts are presented from the point of view of the producing unit, the wages and salaries paid to employees. The balance is the gross operating surplus which is carried to the trading enterprises income appropriation account.

(ii) *The Trading Enterprises Income Appropriation Account* is shown as receiving the gross operating surpluses from the national production account, and dividends, non-dwelling rent and interest from other sectors. The allocation of this total to depreciation allowances, and to various transfer payments (taxes, dividends, interest, etc.) is shown on the appropriation side. All net income of unincorporated enterprises is treated as being transferred to persons. Any income of trading companies not distributed but retained for use in the business is shown as undistributed income and transferred to the national capital account either directly or by way of the oversea current account (when it accrues to non-residents).

(iii) *The Financial Enterprises Income Appropriation Account* is in the main similar to the preceding account. There is, however, no operating surplus, as property income (which is treated as transfer income, not as income of factors of production) is the sole receipt.

(iv) *The Personal Current Account* records all receipts on current account whether of factor incomes (wages and salaries) or transfer incomes (interest, etc., dividends, net business incomes, cash benefits from public authorities and remittances from overseas). On the payments side are shown current payments for goods and services and transfer payments (taxes, interest, etc., remittances to overseas). The balance is transferred to the national capital account under the heading of saving.

(v) *The Public Authorities Current Account* reflects a distinction between current and capital expenditure, which is necessarily arbitrary in some measure and has been made on the basis of excluding from the current account expenditure on public works and increase in stocks. Expenditure on public works is taken to include new buildings, construction, plant and machinery and any replacement of assets charged to loan funds or capital works votes. It includes capital expenditure of public enterprises, including replacements of assets charged to depreciation reserves but not those charged directly to working expenses. It includes all expenditure on roads, for which a satisfactory distinction between new works and maintenance cannot be made, but excludes all defence expenditure, which is included in the current account.

The income of public enterprises shown in this account is derived by deducting from their operating surplus any depreciation shown by these enterprises in their published accounts except in the case of enterprises (e.g. railways and Postmaster-General's Department) whose accounts are included in the Commonwealth or State budgets and are for the present analysed on the basis of these cash accounts in which depreciation is not deducted. The depreciation allowances set aside by the enterprises whose accounts are not included in Commonwealth or State Budgets are shown in the capital account. As in the case of persons, all oversea gifts are included in current account. These include gifts for international relief, technical assistance, etc., grants, and other expenditure in connexion with the administration of Papua and New Guinea.

(vi) *The Oversea Current Account* records all transactions of a current nature between Australian and oversea residents. It should be emphasized that this account is shown here from the point of view of oversea residents, i.e. receipts from Australia are shown as credits, and payments to Australia as debits. Australians temporarily overseas are regarded as residents, and visitors to Australia as non-residents.

(vii) Capital transactions of the four domestic sectors and the net deficit on current account with overseas are shown in the *National Capital Account*. On the receipts side are shown the savings of the various sectors—saving by enterprises, personal saving, the retained investment income of insurance funds, and the public authority surplus on current account. Net apparent capital inflow from overseas and withdrawal from monetary reserves is also reflected in the item "deficit on current account with overseas". On the payments side are shown the purchases by all sectors of new buildings and capital equipment and the increase in the value of stocks. The private component of capital expenditure includes new dwellings and major alterations to dwellings and expenditure of a capital nature by private non-profit institutions (churches, schools, clubs, etc.), but excludes motor vehicles for personal use and other durable consumer goods, which are included in personal consumption expenditure.

4. **Estimates at Constant Prices.**—For certain types of economic analysis, it is useful to examine estimates of the principal flows of goods and services in the economy revalued in such a way as to remove the direct effects of changes in their prices which have occurred between the years under review. Such estimates, conventionally described as “at constant prices” are presented in Table 8 (at both current and average 1959–60 prices) for gross national product, gross national expenditure, personal consumption expenditure, and certain of their components.

Constant price estimates amount to an attempt to express every component item of expenditure as the product of a price and a quantity, instead of as a value, and to substitute for the actual current prices the prices that ruled in the chosen base year. Such estimates can be made only on the basis of approximations and assumptions, and this should be borne in mind in the interpretation and use of the results.

(i) *Estimates of Gross National Expenditure at Constant Prices.* Where possible, a direct revaluation is made of each item at constant prices instead of using the prices at which quantities are bought or consumed. However, where it is not possible to express the values in successive years as the product of prices and standard units of quantity (e.g. for many items of capital expenditure by public and private sectors, for which homogeneous and standard components of expenditure do not exist), the values are divided by an appropriate price index, or by a substitute index of cost of production based on materials and wages. The estimates resulting from the application of this method, therefore, have considerable limitations for many uses, for example in studies of productivity. A broadly similar treatment is applied to current expenditure by public authorities, including expenditure on defence.

The information available on which to base an estimate of changes in stocks at constant prices is very limited, and the estimate made is subject to an appreciable margin of error. The method used involves an adjustment for stock revaluation, arising out of the replacement during the year of trading stocks with equivalent new stocks different in value from those held at the beginning of the year.

(ii) *Estimation of Gross National Product at Constant Prices.* The essential nature of gross national product is that it is the value added to goods and services by productive activity in the economy. The measure of gross national product obtained by adding up the major forms of income, namely, wages and salaries and gross operating surplus, is not in itself the measure of a flow of goods and services, and in these terms gross national product cannot be expressed at constant prices since it has no units of quantity to be revalued.

Gross national product, however, is the difference between the value of output and the value of materials used in production, that is, the difference between the values of two flows of goods and services. By revaluing each of these flows, it is possible to express, in these terms, gross national product at constant prices. This relationship has been used in the estimation of gross national product at constant prices in Table 8.

Part I. of *Australian National Accounts, National Income and Expenditure, 1948–49 to 1963–64* contains a fuller discussion of the conceptual problems involved in making these estimates, and Appendix B of that publication contains a brief account of the sources and methods used in preparing the estimates.

5. **Reliability and Future Revisions.**—Estimates of national income and expenditure are necessarily prepared from a very wide range of information, some of which is available quickly, some of it with a delay of several years after the period to which it relates. Some of it is closely related to the desired national income concepts, while some of it is not completely satisfactory in various respects, including coverage, concepts and timing. Estimates, in particular for the most recent years, are therefore subject to revision.

This applies especially to estimates based on income tax statistics—income of companies, non-farm unincorporated enterprises, depreciation and part of gross private fixed investment—which are subject to substantial revisions for the last two years, as tabulations of income tax statistics do not become available until about 22 months after the end of each financial year.

It is not possible to put precise limits on the degree of revision likely in any particular series, nor to state degrees of reliability in a statistical sense. These depend in large part on the range and quality of the basic statistical data. For illustrations of common causes of revisions, reference should be made to *Australian National Accounts, National Income and Expenditure, 1948–49 to 1963–64*.

§ 2. National Accounts and Tables

NOTE.—Items in these tables are consecutively numbered from 1 to 28, with or without the addition of a letter, and this system is used to identify the corresponding credit and debit entries in the accounts, and as a key to the notes on pages 1264–8. In some cases the items correspond exactly, while in other cases an entry in one table is the sum of two or more entries in other tables; here the total is given a number, and the components have a number and a letter. In the remaining type of case, all entries are given the same number and a distinguishing letter, because in this group one item is not the sum of one or more entries. The relationship between these items can still be traced through because the sum of all credit entries must equal the sum of all debit entries.

§ 3. Description of Items in the National Accounts

Tables 1 to 7

Item 1. Wages, salaries and supplements.—Payments in the nature of wages and salaries as defined for pay-roll tax, including allowances for income in kind (board and quarters, etc.), together with supplements to wages, and pay and allowances of members of the forces. In addition to wages and salaries paid by employers subject to pay-roll tax, this item includes

wages and salaries paid by employers not subject to pay-roll tax, based on estimates of employment and average earnings. Supplements consist of employers' contributions to pension and superannuation funds, direct payments of pensions and retiring allowances, and amounts paid as workers' compensation for injuries. Pay and allowances of members of the forces consist of active pay, field allowances, subsistence allowances, dependants' allowances and the value to the members of the forces of food, clothing, normal medical attention, etc., supplied in kind.

Item 2. Gross operating surplus of trading enterprises.—The operating surplus, before deduction of depreciation provisions, dividends, interest, rent and royalties and direct taxes payable, of all trading enterprises operating in Australia. Trading enterprises include all companies, public enterprises, partnerships and self-employed persons engaged in the production of goods and services for sale, but exclude financial enterprises. Public trading enterprises are government undertakings which attempt to recover all, or a substantial part, of their costs through charges made to the public for the sale of goods and services. All owners of dwellings are included whether they let the dwellings or occupy them themselves. Trading enterprises' gross operating surplus is shown separately for companies (item 2a), unincorporated enterprises (item 2b), dwellings owned by persons (item 2c) and public enterprises (item 2d).

Item 3. Indirect taxes less subsidies.—Indirect taxes comprise taxes on purchases, sales or other transactions, or on the ownership of property, etc., paid by enterprises, public authorities and persons. They include licence fees in respect of rights conferred, such as liquor licences, etc. Subsidies are transfer payments made with the object of assisting certain industries. Such payments may take the form of bounties on goods produced, subsidies to producers to ensure a guaranteed price, payments to transport undertakings to permit a reduction of freights on certain classes of goods, assistance to producers, etc.

Item 4. Imports of goods and services.—The value of goods imported from overseas and amounts payable overseas for services. In Table 6, this item is sub-divided into the following components.

Item 4a. Imports f.o.b.—Recorded trade figures adjusted for the purpose of balance of payments estimates. The principal adjustments are the addition of unrecorded imports, including ships and aircraft for use on oversea routes, the subtraction of films imported on a rental basis, imports of gold, goods for repair and goods intended for re-export, and the deduction of a "valuation adjustment" representing the excess of the recorded value of imports (based on value for duty) over the estimated selling price to the importer as shown on invoices accompanying customs entries.

Item 4b. Transportation.—Freight payable to foreign carriers on goods imported into Australia and transported between Australian ports, fares payable in Australia, the oversea expenditure of Australian ships, remittances to foreign airlines, and premiums (less claims) on marine insurance payable overseas on imports into Australia, less the net earnings on marine insurance business undertaken by Australian firms in respect of both exports and imports.

Item 4c. Travel.—Net remittances in the form of travellers' cheques, etc., by Australians visiting overseas for pleasure and for business.

Item 4d. Government transactions.—Expenditure overseas for defence, including the pay and allowances of personnel serving overseas, expenditure overseas on diplomatic, consular and trade representation, contributions to international organizations, government pensions paid abroad, oversea expenditure on immigration and miscellaneous payments for services.

Item 4e. Other goods and services.—Cinema and television film rentals payable overseas, expenses of Australian firms transacting business overseas, commissions, brokerage, etc., and the value of repairs on goods previously exported for repair and return, etc.

Item 5. Net current expenditure on goods and services—personal consumption.—Net expenditure on goods and services for purposes of consumption by persons and private non-profit making bodies serving persons. This item excludes the purchase of dwellings and capital expenditure by non-profit making bodies (included in item 8), and maintenance of dwellings (treated as expenses of private enterprises), but includes personal expenditure on motor vehicles and other durable goods and the imputed rent of owner-occupied dwellings. Purchase of motor vehicles is the estimated expenditure by persons on new motor vehicles, secondhand motor vehicles purchased from business enterprises and public authorities, and net dealers' margins on purchases and sales of motor vehicles within the personal sector.

Motor vehicles include cars, station wagons, motor cycles and motor scooters bought on personal account. The value of income in kind (e.g. food produced and consumed on farms, board and lodging provided free to employees) is included in both personal income and personal consumption expenditure, but goods chargeable to business (expense) accounts are excluded.

Item 6. Net current expenditure on goods and services—financial enterprises.—The current expenditure of banks, instalment credit companies, short-term money market companies and building societies after deduction of bank charges to customers. Charges by instalment credit companies are treated as interest receipts and therefore not offset against expenditure. This item includes wages, salaries and supplements, indirect taxes and other payments for goods and services. Public financial enterprises are government businesses (mainly banks, including the Reserve Bank) which operate in a manner analogous to other financial enterprises, in that their current expenditure is largely financed by the net receipt of interest. The interest received by government housing authorities is treated as a receipt by public financial enterprises, but their other receipts, including net profit on sale of houses, and all their expenditure, are included in those of public trading enterprises.

Item 7. Net current expenditure on goods and services—public authorities.—Expenditure by public authorities (not public enterprises) which does not result in the creation of fixed tangible assets or in the acquisition of land, buildings or secondhand goods (other than imported). It comprises expenditure on wages, salaries, and supplements, and on goods and services, other than fixed assets and stocks; fees, etc., charged by public authorities for goods sold and services rendered are offset against purchases. Net expenditure overseas by public authorities and purchases from public enterprises are included. All expenditure on defence is classified as current.

Item 8. Gross fixed capital expenditure—private.—Expenditure on fixed assets whether for additions or replacements. This item includes expenditure on dwellings (item 8a), other building and construction (item 8b), and vehicles, plant, machinery, etc. (item 8c). It includes also expenditure on secondhand assets (other than houses purchased from public authorities) as well as new assets, less sales of existing assets. Expenditure on ordinary repair and maintenance of fixed assets is excluded as being chargeable to current account. Major additions are, however, regarded as capital expenditure. New dwellings purchased by persons from public housing authorities are included in private capital expenditure.

Item 9. Gross fixed capital expenditure—public enterprises.—Expenditure on fixed assets whether for additions or replacements, including wages and salaries paid by public enterprises in connexion with capital works.

Item 10. Gross fixed capital expenditure—public authorities.—Expenditure on fixed assets whether for additions or replacements other than for defence purposes. Because it has not been possible to make a satisfactory dissection, all expenditure on roads, including maintenance, is classified as fixed capital expenditure. Expenditure on housing, included in this item, includes the estimated expenditure on construction of dwellings for rental purposes, and hostels for migrants and others, but excludes houses built for sale, which are included in private capital expenditure. Advances by War Service Homes Division and other authorities for financing home purchase schemes are also excluded.

Item 11. Increase in value of stocks.—The change in book value of non-farm stocks held by trading enterprises and public authorities (item 11b), and the change in the value of farm stocks (item 11a).

Item 12. Statistical discrepancy.—The difference between the sum of the direct estimates of gross national product and imports of goods and services on the one hand and the sum of the estimates of components of gross national expenditure and exports of goods and services on the other hand. Conceptually these two totals are the same. Inclusion of the discrepancy on the expenditure side of the national production account implies nothing as to the relative accuracy of the estimates of gross national product and expenditure. Similarly its inclusion in the capital account does not imply that estimates in this table are less accurate than those in other tables, or that capital expenditure estimates are less accurate than estimates on the receipts side of this account.

Item 13. Exports of goods and services.—The value of goods exported overseas, and receipts from overseas for other goods and services. In Table 6, this item is sub-divided into the following components.

Item 13a. Exports f.o.b.—The recorded trade figures adjusted for balance of payments purposes. The adjustments are similar to those made to the recorded import figures but no change is made to the basis of valuation. The adjustment for un-recorded exports includes exports of uranium ores.

Item 13b. Transportation.—The expenditure of oversea carriers in Australian ports; the oversea earnings of ships owned or chartered by Australian operators, the remittances from overseas to Australian domestic and international airline operators.

Item 13c. Travel.—Net receipts of travellers' cheques, etc., from persons visiting Australia for pleasure and for business.

Item 13d. Government transactions.—Receipts for services rendered by the Australian Government to other governments, and other payments in Australia by foreign governments on defence and other projects, on diplomatic, consular and trade representation and for pensions paid in Australia.

Item 13e. Other goods and services.—The value of Australian production of gold less net industrial usage, business expenses of oversea firms in Australia and commissions, brokerage, etc.

Item 14. Depreciation allowances.—The financial provisions made for depreciation which are deducted to obtain net income. The estimates represent, in the main, amounts allowed under income tax legislation, but include also the estimated depreciation on tenanted and owner-occupied dwellings owned by persons and provisions made by public enterprises. This item is divided into depreciation allowances of trading enterprises (item 14a) and of financial enterprises (item 14b).

Item 15. Interest, etc.—Comprises interest, non-dwelling rent and royalties. This item appears in most accounts as receipts and payments of interest, etc., but in the case of some entries the amounts are combined with dividends and oversea profits. The item is shown net of intra-sector receipts and payments. Payments of interest, etc., by public enterprises is included in item 15g. Payment of interest, etc., by trading enterprises (item 15a) includes interest charged on borrowings for the purchase of a house by persons, which is treated as an appropriation from the gross operating surplus of dwellings owned by persons. Non-dwelling rent includes only actual payments. It is estimated net of the expenses of the owner of the premises on rates, maintenance, etc., which are treated as working expenses of the enterprises renting the building. Royalties include mining and forestry royalties paid to public authorities, and royalties and fees for use of trade marks, patents, etc., paid overseas.

Item 16. Income tax, estate and gift duties.—Income tax payable by trading and financial companies (items 16a and 16b) and persons (item 16c) are amounts payable at rates of taxation applicable in each year. Income tax payable by companies in respect of the most recent year's income is estimated on the basis of rates of tax applicable in respect of the preceding year's income. The difference between the amounts of income tax payable and the cash receipts by public authorities (part of item 16e) is included in item 16f. Income tax payable by persons (item 16c) includes the total income tax payable by individuals on all forms of income whether wages, business income or property income. Estate and gift duties (item 16d) are the amounts actually paid by persons in that year.

Item 17. Dividends.—All receipts and payments of dividends, including dividends payable overseas and the remitted profits of Australian branches of oversea enterprises. Dividends payable (items 17a and 17c) are the dividends declared by trading and financial companies in respect of the year (including an estimate of dividends to be declared in respect of the most recent year). Receipts of dividends (other than dividends receivable from oversea subsidiaries) are cash receipts, and the difference between the amounts payable and received is included in item 17h. The items are shown net of intra-sector receipts and payments.

Item 18. Undistributed income.—The undistributed income of companies comprising trading enterprises (item 18a) and financial enterprises (item 18c) is the balance of total company income, including profits receivable from overseas (items 18b and 18d) after deducting income tax and dividends payable, and is equal to the sum of undistributed income accruing to oversea residents (item 18f) and undistributed company income accruing to residents (item 18g). Profits receivable from overseas is the unremitted part of profits earned by oversea branches of Australian companies and undistributed profits of oversea subsidiaries.

Item 19. Unincorporated enterprises income.—The gross operating surplus of unincorporated enterprises less interest, etc., paid, and depreciation allowances. It comprises the income of farm unincorporated enterprises (item 19a), and the income of all other unincorporated enterprises (item 19b).

Item 20. Personal income from dwelling rent.—The gross operating surplus of dwellings owned by persons less interest, etc., paid, and depreciation allowances.

Item 21. Public enterprises income.—Includes income of public trading enterprises (item 21a) and income of public financial enterprises (item 21b). For trading enterprises it is equal to gross operating surplus after the deduction of depreciation allowances; for financial enterprises it is the net income after depreciation allowances, interest paid, and net current expenditure on goods and services by government banks are deducted from total receipts of interest and non-dwelling rent. Depreciation allowances deducted in arriving at the income of public trading enterprises are those shown in their published accounts, except in the case of enterprises whose accounts are included in the Commonwealth or State budgets and are analysed on the basis of their cash accounts in which depreciation is not deducted. In particular, no amount is included for the Post Office, or most railways, since cash accounts for these enterprises have been used.

Item 22. Retained investment income of life insurance funds, etc.—Total dividends, interest, etc., received by life insurance and superannuation funds less depreciation allowances, income tax and dividends payable, and the undistributed income of non-mutual life insurance companies.

Item 23. Oversea gifts.—All transfers to or from overseas on public authority or private account which are not payments for goods and services or payments of dividends, interest, etc.

Personal remittances overseas (item 23a).—Gifts of money by resident persons and private institutions, payments for sustenance and transfers of emigrants' funds and legacies from Australia to overseas, together with the value of goods exported as personal effects and gifts.

Personal remittances from overseas (item 23b).—Gifts of money received from non-resident persons and private institutions, receipts for sustenance, transfers of immigrants' funds and legacies from overseas to Australia, together with the value of goods imported as personal effects and gifts.

Public authority overseas grants (item 23c).—Grants to, and payments made on behalf of, the Territories of Papua and New Guinea, and expenditure overseas in respect of technical assistance and relief under the Colombo Plan and United Nations projects. Payments to United Nations and other organizations due by virtue of membership of these organizations are included in net current expenditure on goods and services.

Item 24. Personal saving.—The excess of personal income over the sum of personal consumption expenditure, interest paid, income tax payable and estate and gift duties paid and remittances overseas. It includes saving through life insurance and superannuation funds (defined as premiums, etc., paid less claims, etc., received and administrative expenses of life insurance offices) and the increase in assets of marketing authorities. It includes also changes in holdings of cash and securities, the net increase in bank deposits less advances, the reduction in the outstanding advances of instalment credit companies to persons and unincorporated enterprises, and the increase in the equity of persons in dwellings and in capital equipment, buildings and stocks of unincorporated enterprises. Personal saving is estimated as the balancing item in the personal current account.

Item 25. Cash benefits.—Current transfers to persons from public authorities in return for which no services are rendered or goods supplied. Principal components are scholarships; hospital, medical, pharmaceutical, maternity, sickness and unemployment benefits; child endowment; widows', age, invalid and repatriation pensions; and attendance money for waterside workers.

Item 26. Grants towards private capital expenditure.—Grants to meet part of capital costs of e.g., homes for aged persons and property for War Service Land Settlement, and homes savings grants to assist young married persons to purchase or build their own homes.

Item 27. Public authorities surplus on current account.—The excess of current revenue, including income of public enterprises, over current outlay. Current outlay includes current expenditure on goods and services, as defined in item 7, and transfer payments (interest, cash benefits, subsidies, grants towards private capital expenditure and overseas grants). The surplus is transferred to the capital account where it is shown as part of total funds available for financing capital outlay.

Item 28. Oversea balance on current account.—The excess of payments to the rest of the world on current account over receipts from the rest of the world on current account. In the national capital account it is shown divided into drawings on Australia's overseas monetary reserves (item 28a) and net apparent capital inflow (item 28b).

DIARY OF PRINCIPAL ECONOMIC EVENTS, 1964-65

The principal economic events in earlier years were shown in the following issues:—

YEARS	OFFICIAL YEAR BOOK No.	PAGES
1931 to 1938	33	968-77
1939 to 1944	36	1129-41
1945 to 1948	37	1235-45
1949 to 1951	39	1331-40
1952 to 1955	42	1149-60
1956 to 1958	46	1185-92
1958-59 to 1961-62	48	1188-1200
1962-63	49	1253-56
1963-64	50	1283-88

The year 1964-65 saw a continuation of the economic expansion which marked the two previous years and again there were substantial increases in most components of national expenditure and product. Gross national expenditure increased by about 13 per cent., imports of goods and services by about 21 per cent., and gross national product by about 9 per cent. However, owing partly to falling wool and sugar prices, exports of goods and services fell by about 3 per cent., and international reserves fell by almost £158 million.

National Service Training was resumed and there was an increase of £45 million in the defence vote, much of which went to the building of camps and barracks, and to the import of aircraft. The grazing and dairying industries were adversely affected during the second half of the year by a prolonged and severe drought, especially in New South Wales and southern Queensland, and by stock losses in extensive bush fires in southern New South Wales and Victoria. Total rural production for the year, nevertheless, showed an increase.

Civilian employment (excluding rural) continued to rise, and in June, 1965, it was 3,600,000, an increase of nearly 140,000 (4.0 per cent.) on June, 1964, while during the same period the number of persons on unemployment benefit fell by 5,473 to 12,656. Major industrial disputes in the motor vehicle and copper mining industries caused some loss of production, but most manufactured items were at record levels. The level of building operations continued to increase, the number of new house and flat commencements rising from 107,600 in 1963-64 to 116,700 in 1964-65, although there were signs of levelling off at the end of the year.

Motor vehicle sales were maintained at a high level, registrations of new motor vehicles during the year being 428,000, about 23,000 more than in 1963-64. Retail sales, exclusive of motor vehicles, parts, petrol, etc., increased by about 7 per cent. during the year. These increases in sales, however, were accompanied by increases in outstanding balances in transactions financed by instalment credit from £677.8 million in June, 1964, to £722.7 million in June, 1965, and by an increase of £149 million in loans, advances, and bills discounted by trading banks. At the same time the combined trading bank and savings bank deposits reached a record £5,000 million. Some call-up of statutory reserve funds and increased interest rates for overdrafts were made by the Reserve Bank to guard against excess liquidity, but these measures were later relaxed.

The consumer price index rose by about 4 per cent. during the year, while the index of average minimum weekly wage rates rose by 2.4 per cent. and average weekly earnings per employed male unit were about 7 per cent. higher in June, 1965 than in June, 1964. The judgment of the Commonwealth Conciliation and Arbitration Commission in the National Wage Cases of 1965 did not change the basic wage but granted an increase in margins equivalent to $1\frac{1}{2}$ per cent. of the basic wage plus margins.

- 2nd July.** Loan Council met in Canberra and approved borrowing programme for 1964-65 of £290 million (£239 million for State Works, £51 million for Commonwealth-State Housing).
- 16th July.** Wool Board recommended wool reserve price scheme.
- 17th July.** Orders placed with local shipyards by Australian Shipbuilding Board for eight oil tankers, four bulk carriers, and other ships to total amount of over £65 million.
- 20th July.** First applications lodged for Commonwealth Home Savings Grants.
- 24th July.** Contracts worth £18.1 million placed by State Electricity Commission of Victoria for boiler plant and two generators for Hazelwood power station.
- 6th August.** Australian Action Council established by Associated Chambers of Commerce and Associated Chambers of Manufacturers to promote closer economic relations with Britain. Commonwealth Special Bonds Series "K" issued at par with coupons rising from 4½ to 5 per cent. and optional redemption prices par to 103 per cent. at maturity.
- 7th August.** \$U.S. 3 million appropriated by United States Senate for erection of 130 housing units at U.S. naval communications centre at North-West Cape, Western Australia.
- 10th August.** United States and Australian Governments agreed to establish joint educational foundation to succeed Fulbright Scheme.
- 11th August.** Commonwealth Budget for 1964-65 introduced into House of Representatives. In 1963-64 receipts of the Consolidated Revenue Fund were £1,904.7 million, and expenditure (excluding payments of £14.9 million to the Loan Consolidation and Investment Reserve and £18.0 million for the redemption of Treasury Bills) amounted to £1,871.8 million. The main items of revenue (1962-63 figures shown in parentheses) were: income taxes, £937.2 million (£810.6 million); excise duties, £291.1 million (£274.4 million); customs duties, £116.4 million (£105.1 million); sales tax, £162.6 million (£156.5 million); and pay-roll tax, £68.2 million (£63.3 million). The main items of expenditure were: payments to or for the States, £448.1 million (£423.7 million); social and health services, £416.3 million (£379.3 million); defence services (excluding £38.7 million provided from loan fund in 1963-64), £221.7 million (£148 million); war and repatriation services, £112.7 million (£111.2 million); works services, £176.3 million (£166.5 million). The Budget for 1964-65 provided for an estimated expenditure of £2,150.7 million, to be provided from Consolidated Revenue Fund.
- 13th August.** Commonwealth cash loan of £50 million opened, issued at £99 10s. and £100 with coupons at 4½ per cent. to 5 per cent. and periods 2 years 9 months to 19 years 9 months; oversubscribed £21.0 million.
- 18th August.** Fares on internal air-lines raised by 6 per cent. Announcement made of contracts for import of up to £1 million worth of Siberian pine.
- 21st August.** Australian Wheat Board sold 75,000 tons of wheat to India on credit terms of up to six months.
- 22nd August.** Australia became partner with eighteen other members of International Telecommunications Union in setting up an international communications satellite system. Australia's contribution £2.5 million, 2.75 per cent. of total.
- 31st August.** Minister for Civil Aviation announced that Qantas would place £12 million order for three additional Boeing 707 jet-airliners (*see p. 579*).
- 1st September.** 1964-65 Budget introduced into South Australian House of Assembly. In 1963-64, revenue amounted to £105,503,000 and expenditure to £103,878,000, leaving a surplus of £1,625,000. For 1964-65 it was estimated that revenue would be £110,076,000 and expenditure £112,568,000, leaving a deficit of £2,492,000.
- 1964-65 Budget introduced into Tasmanian House of Assembly. The transactions of the Consolidated Revenue Fund in 1963-64 resulted in a deficit of £593,000. Receipts of the Consolidated Revenue Fund totalled £33,918,000, and expenditure £34,510,000. For 1964-65 it was estimated that expenditure would be £37,793,000 and revenue £37,225,000, leaving a deficit of £568,000.
- 6th September.** Commonwealth Government allocated expenditure of £3.4 million for sheep and wool research in 1964-65.

9th September. 1964-65 Budget introduced into Victorian Legislative Assembly. In 1963-64 revenue amounted to £222,185,000 and expenditure to £222,437,000. The Budget for 1964-65 provided for expenditure and revenue of £238,421,000. Railway operating expenses and income were estimated at £49,214,000 and £48,750,000 respectively, and it was anticipated that the Railway Equalization Account would have to provide the balance of £464,000.

15th September. Northern Territory *Social Welfare Ordinance* 1964 repealed *Welfare Ordinance* 1953-1963 (see p. 106) and provided for assistance without control for any person socially or economically in need of it.

16th September. Seven additional Caribou aircraft ordered for R.A.A.F. (see p. 1195).

23rd September. Premier of New South Wales announced plans for reclamation of land on Newcastle Island. First project, fertilizer works, would involve expenditure of £9.2 million.

24th September. 1964-65 Budget introduced into Queensland Legislative Assembly. In 1963-64 receipts of the Consolidated Revenue Fund amounted to £130,448,000 and expenditure to £130,227,000. For 1964-65 it was estimated that revenue would amount to £135,937,000 and expenditure to £136,771,000.

25th September. £25 million British Exhibition opened in Sydney.

26th September. Sydney and Cornell (U.S.A.) Universities agreed to pool their astronomy resources to set up a joint Astronomy Centre, the largest of its kind in the world.

29th September. New South Wales Government announced start of work by State Electricity Commission on new £100 million power station at Liddell.

1964-65 Budget introduced into New South Wales Legislative Assembly. During 1963-64 the transactions of the Consolidated Revenue Fund, Railways, Metropolitan and Newcastle Transport Services, and Maritime Services Board resulted in a surplus of £272,000. (Total revenue overall was £342,268,000, total expenditure £341,996,000.) After providing for debt charges, there was a surplus of £213,000 on the Department of Railways, a deficit of £2,267,000 on the Metropolitan and Newcastle Transport Services, and a surplus of £48,000 from the operations of the Maritime Services Board. The 1964-65 Budget provided for an overall deficit of £2,130,000 (revenue £357,555,000, expenditure £359,685,000). After meeting debt charges, it was estimated that there would be a deficit of £1,478,000 on the transactions of the Consolidated Revenue Fund, a surplus of £89,000 on the Railways, a deficit of £2,804,000 on the Metropolitan and Newcastle Transport Services and a surplus of £26,000 on the Maritime Services Board.

6th October. 1964-65 Budget introduced into Western Australian Legislative Assembly. Financial transactions for the year 1963-64 resulted in a deficit of £1,396,000. For 1964-65 it was estimated that expenditure would be £91,054,000 and revenue £90,258,000, leaving a deficit of £796,000.

Governor of Reserve Bank announced additional restraints on banking system designed to restrict rate of new lending.

16th October. Wool reserve price scheme (see 16th July) rejected by Commonwealth Government.

29th October. Chairman of Australian Wheat Board reported sale of 56 million bushels of wheat to mainland China, bringing total sales since 1960 to over 370 million bushels.

31st October. Month-old General Motors-Holden's industrial dispute ended. Cost estimated at £26 million.

2nd November. The Commonwealth raised a private loan of \$U.S.30 million in New York for financing the purchase of aircraft and parts by Qantas Empire Airways and Australian National Airlines Commission. The loan is repayable in half-yearly instalments from 1967 to 1973 with interest from 4½ to 5½ per cent.

5th November. Commonwealth cash loan of £60 million opened, issued at £99 10s. and £100 with coupons at 4½ to 5 per cent. and periods 2 years 6 months to 20 years; under-subscribed £9.8 million.

10th November. As a result of major review of defence planning, Prime Minister announced increase of £1,200 million in defence spending over next three years, associated with resumption of National Service Training and establishment of special Reserve Forces (see p. 1195) (legislation passed 17th November).

- 15th November.* Commonwealth approved export of 210 million tons of iron ore, over 21 years, from Mount Newman, Western Australia, to Japan (*see p. 1164*). Contract signed 1st February, 1965.
- 16th November.* As a result of long-standing industrial dispute, Mount Isa Mines closed down. Ban imposed on exports of copper. Minister for Immigration announced plans to increase migrant intake this year by 15,000, all from Britain.
- 21st November.* Last major tunnel in Snowy Mountains Hydro-electric Scheme completed.
- 3rd December.* Bale of wool sold at Goulburn sales for world record of 1,800 pence a pound. World Bank report released on development of Papua-New Guinea.
- 7th December.* Sharp drop in world sugar price expected to have effect on Australian crops.
- 9th December.* Victorian Parliamentary salaries increased by from £800 to £1,500 a year.
- 12th December.* Japan contracted to buy 29.6 million tons of coal valued at £120 million from Maura (Queensland) over the next thirteen years, the largest single coal export contract yet negotiated in Australia.
- 14th December.* Contract signed for £5 million development of part of Long Bay rifle range, Sydney, as housing project.
- 18th December.* Japan contracted to buy 82 million tons of iron ore, over seventeen years, from Mount Goldsworthy and Hamersley Mines (*see p. 1164*).
- 1st January.* Treasurer announced details of Government assistance in conversion of coin-operated machines to decimal currency. Details announced of new port to be built near Borroloola, Northern Territory, on Gulf of Carpentaria, to serve big new mineral and pastoral developments in the area and for defence purposes.
- 3rd January.* Snowy Mountains Hydro-electric Authority let £2.75 million contract for building of Jindabyne dam.
- 4th January.* Increased stamp duty on cheques, receipts, mortgages and insurance policies imposed in Victoria.
- 6th January.* Army Minister announced details of £23 million works programme for barracks and camps to be completed by June to provide accommodation for intake of National Service Trainees.
- 12th January.* Minister for Territories announced plans for establishing a major tea industry in New Guinea.
- 15th January.* Tenders called by Australian Shipping Commission for two more roll-on roll-off cargo ships to cost about £2.5 million each.
- 19th January.* New South Wales Minister for Local Government announced plans for £82 million development scheme for Woolloomooloo.
- 21st January.* £12.2 million contract let for construction of army facilities in New Guinea. Further six "Jindiviks" sold to the United States of America.
- 2nd February.* Mt. Newman Iron Ore Co. Ltd. announced plans to spend £70 million on capital works to develop Pilbara iron ore mines for export.
- 3rd February.* Full High Court judgment on intra-state airlines case held that New South Wales Air Transport Act requiring intra-state services to hold a State licence was valid, but also that four out of five Commonwealth regulations were valid so that airlines needed Commonwealth licence as well. Broken Hill Pty. Co. Ltd. signed contracts for importation of 1,800 tons of Japanese steel.
- 4th February.* Chairman of Wheat Board announced cash sale of 250,000 tons (£22 million) of wheat to Russia. Commonwealth Tobacco Board set up to administer new tobacco stabilization plan, including four-year plan for annual marketing quota of 26 million lb. Commonwealth cash loan of £60 million opened, issued at £99 12s. 6d., £99 5s. and £100 with coupons at 4½ to 5 per cent. and period 1 year 8 months to 20 years 3 months. Undersubscribed £20.8 million.

- 17th February.* Mount Isa mine re-opened after stoppage which was estimated to have cost Australia over £2 million in export income. (Production resumed 26th March.)
- 22nd February.* Royal Australian Mint opened by H.R.H. the Duke of Edinburgh.
- 25th February.* Australian firm gained £1.25 million contract for re-organization of Spain's telephone system.
- 10th March.* Reserve Bank raised maximum interest rates on overdrafts to 7½ per cent.
- 24th March.* Ansett-A.N.A. contracted for purchase of two DC9 twin-jet planes.
- 30th March.* £18 million Burrendong Dam near Wellington (New South Wales) began to store water.
- 1st April.* Rate of contributions to medical benefits funds increased.
- 2nd April.* Commonwealth Government and Australian Wool Industry Conference, following negotiations, agreed on conservative reserve price scheme for wool, to be administered by seven-member board, growers to contribute £30 million over seven years. Plan to be submitted to referendum of woolgrowers. (See 16th July and 16th October.)*
- 3rd April.* Australian Wheat Board announced further sales of 1.2 million tons of wheat to China and 600,000 tons to Union of Soviet Socialist Republics.
- 5th April.* Reserve Bank released £24 million of trading bank funds to relieve tight liquidity situation.
- 6th April.* Philips Imperial Chemicals announced plans for establishment of a carbon black, synthetic rubber, and chemical industry at Kurnell, New South Wales.
- 7th April.* Commonwealth Special Bonds Series "L" issued at par with coupons rising from 4½ to 5½ per cent. and optional redemption prices par to 103 per cent. at maturity.
- 13th April.* Commonwealth cash loan of £40 million opened, issued at £99 and £100 with coupons at 5 and 5½ per cent., and periods 2 years 10 months to 20 years. Oversubscribed £6.3 million.
- 18th April.* £5 million tender accepted by the New South Wales Department of Main Roads for construction of first section of Warringah expressway.
- 23rd April.* Commonwealth Treasurer announced that Reserve Bank had commenced production of \$1 notes. Importation of pig-meat prohibited from all countries other than United Kingdom, Ireland, Canada, New Zealand, and the United States.
- 24th April.* Japan contracted for £391 million worth of iron ore pellets to be produced from Mount Enid field, Western Australia, by foreign-owned firm. Australia took action to delay plans for raising of capital in Australia by oversea firms.
- 27th April.* Indonesian Government expropriated Australian pharmaceutical firm.
- 4th May.* Housing Loans Insurance Bill passed, setting up corporation to insure loans made to credit-worthy borrowers for home building.
- 5th May.* Five-year £300 million development programme for Papua and New Guinea approved by Commonwealth Government. Commonwealth issued prospectus for \$U.S.25 million loan, negotiated with underwriters in the United States and in Europe. The loan was offered to other than United States persons at a price of \$98½ with coupons at 5½ per cent. for a period of from 10 to 20 years.
- 6th May.* New £50 million steelworks opened at Whyalla (South Australia).
- 19th May.* Restrictive Trade Practices Bill introduced into Commonwealth Parliament.

* Act authorizing referendum assented to 29th September.

- 1st June.** Premiers' Conference adopted new formula for tax reimbursement grants to give States £376.4 million in 1965-66.
- 3rd June.** Loan Council met in Canberra and approved of borrowing programme for 1965-66 of £295 million (£244 million for State Works, £51 million for Commonwealth-State Housing).
- 6th June.** Further contract for sale of 3 million tons (£12 million) of New South Wales coal to Japan over next six years.
- 11th June.** Graziers' Association of New South Wales opposed reserve price plan for wool auctions (*see* 2nd April) by majority vote.
- 18th June.** Bellambi Coal Co. Ltd. signed five-year contract for supply of £17.5 million of hard coking coal to Japan, to start in 1967.
- 23rd June.** Contract signed to buy two new radar control and reporting systems for R.A.A.F. at cost of £7 million.
- 29th June.** Commonwealth Conciliation and Arbitration Commission handed down decision in National Wage Cases (for details *see* Appendix, pp. 1295-6).
- 30th June.** Commonwealth Special Cash loan of £67 million issued at £99 and £100 with coupons at 5 and 5½ per cent. for a period of 2 years 8 months to 20 years.

CHRONOLOGICAL TABLE

CHRONOLOGICAL TABLE OF CHIEF EVENTS IN AUSTRALIA SINCE 1955

NOTES.—In issues of the Year Book up to No. 48 (see No. 48, p. 1201) this table covered events back to the establishment of settlement in Australia in 1788. Later issues up to No. 50 (see No. 50, p. 1289) covered events back to 1945. This issue covers the years 1955 to 1965.

For each earlier year this Table rarely contains more than two or three items; for recent years, however, in order to provide a wide cover of events, etc., it includes a much greater number. Both the nature of the Table and considerations of space render necessary a continual reduction in these items and for more information the reader should therefore consult earlier issues.

Year

- 1955 First power generated by Snowy Mountains Hydro-electric Authority. Australian population reached 9,000,000. Cocos (Keeling) Islands became Territory under authority of Commonwealth.
- 1956 Amendment to Conciliation and Arbitration Act separated judicial functions from conciliation and arbitration functions.
- 1957 High Court ruled that interstate vehicles could not be compelled to register, but upheld validity of tax on commercial vehicles, including those engaged in interstate trade, imposed solely for the maintenance of roads. National Capital Development Commission set up to co-ordinate development of Canberra as centre of government.
- 1958 Prime Minister officially opened Australia's first nuclear reactor at Lucas Heights, near Sydney. Christmas Island (Indian Ocean) transferred to Australian Administration.
- 1959 Appointment of Decimal Currency Committee to investigate advantages and disadvantages of a decimal currency. Annual Holidays Act, 1944-1958 provided for three weeks annual holiday for all New South Wales workers. Population reached 10,000,000. First major station of Snowy Mountains Scheme commenced operation.
- 1960 Provision made for Social Service benefits to be paid to Australian Aborigines. *Commonwealth Banks Act 1959* and *Reserve Bank Act 1959* proclaimed (see p. 818). Goods comprising 90 per cent. of Australia's current imports exempted from licensing provisions. National Service training suspended. Report of Decimal Currency Committee presented to Parliament—decimal currency system favoured. Changes made in Constitution of Papua and New Guinea providing for an increase in number of indigenous members of Legislative Council to eleven, including six elected by indigenes. Commonwealth Government announced special economic measures designed to counter inflationary trend and safeguard overseas funds.
- 1961 Australia's first guided missile base established at Williamstown (New South Wales). *Commonwealth Matrimonial Causes Act 1959* unifying State Acts, became operative (see p. 634). Commonwealth Government announced tax concessions to exporters for promotional expenses in developing overseas export markets. Oil discovered in south-west Queensland. Australian population census taken. Australia sold interest in Tasman Empire Airways Ltd. to New Zealand. Iron ore deposits estimated at 1,800 million tons discovered at Pilbara (Western Australia).
- 1962 Western Australian Premier signed agreement with American companies for 21-year lease to extract and export up to 15 million tons of iron ore from Pilbara deposits. Commonwealth and Western Australian Electoral Acts amended to provide for votes for Aborigines. Work began on standardization of rail gauge from Kwinana to Kalgoorlie (Western Australia). Commonwealth provided £1,765,000 grants to States for assistance to universities in development of training facilities for medical students in teaching hospitals. First production of bauxite ore from Weipa deposits. Minister for Defence outlined proposals for new defence plan to cost £650 million, providing for increases in the strength of all services. First major International Labour Office Conference held in Australia opened in Melbourne. Aborigines exercised voting rights in Northern Territory for first time.

Year

- 1963** Her Majesty, Queen Elizabeth II and His Royal Highness the Duke of Edinburgh made second Royal Tour of Australia and attended the jubilee celebrations of the founding of Canberra. Commonwealth Committee of Economic Enquiry appointed to investigate broad aspects of the Australian economy. First meeting of Australian Water Resources Council (*see* p. 230). South Australian school leaving age raised to 15 years. Approval given to agreement for United States to establish, maintain and operate a naval communications station at North West Cape, Western Australia. Prime Minister opened pilot scheme for the Ord River (Western Australia) development scheme. Contract let for construction of U.S. Space Tracking Station at Tidbinbilla, near Canberra. Western Australian Government signed £78 million contract for the establishment and development of a new iron and steel industry in the State. Australia signed Nuclear Test Ban Treaty. Uniform *Marriage Act* 1961 came into effect. Decimal currency legislation introduced into House of Representatives (*see* p. 809). Second stage (Snowy-Murray section) of Snowy Mountains Hydro-electric Scheme commenced. Australian population reached 11 million.
- 1964. January.** Agreement concluded with United States of America on establishment of meteorological research station at Pearce (Western Australia) R.A.A.F. Base. Establishment of a new Division of Northern Development approved for Department of National Development.
- February.** Australian Defence Mission sent to Malaysia. R.A.N. Destroyer *Voyager* sunk in collision off Jervis Bay with loss of 82 lives. First general election from common roll in Papua-New Guinea. New South Wales Government employees granted four weeks annual leave. Australian Water Resources Council to seek establishment of network of stream gauging stations throughout Australia. Australia represented as full regional member of ECAFE for the first time at 20th Conference in Teheran.
- March.** Commonwealth Government announced programme of assistance for schools for teaching of science. Commonwealth Bureau of Roads to be set up to make a full and continuous study of the roads problem. Minister for Defence announced £3 million military aid grant to Malaysia. Malaysia-Australia air services agreement signed in Kuala Lumpur. £13 million oil refinery opened at Kurnell. Moonie to Brisbane oil pipeline opened and Australia's first commercial oil production started. Australian School of Nuclear Technology established at Lucas Heights, near Sydney.
- April.** Additional naval, army and air-force units made available for service in Malaysia.
- May.** Soviet Trade Mission stationed in Sydney. Advance party of army engineers left for Sabah (North Borneo). Northern Territory Legislative Council passed legislation removing discrimination against Aborigines.
- June.** New 64-member House of Assembly for Papua-New Guinea opened. Contract let for construction of jet-port at Tullamarine (Victoria).
- July.** Army sent instructors and advisers to Vietnam. Minister for Navy led parliamentary delegation on goodwill mission to South-east Asia. Severe storms battered five States (*see* p. 65) and Melbourne recorded lowest barometric pressure for 100 years. Orders placed by Australian Shipbuilding Board with local shipyards for eight oil tankers, four bulk carriers and other ships to total amount of over £65 million. First applications lodged for Commonwealth Home Savings Grants.
- August.** Australia joined eighteen other members of International Telecommunications Union in setting up an international communications satellite system, Australia's share £2.5 million. \$U.S.3 million appropriated by United States Senate for erection of 130 housing units at U.S. Naval Communications Centre at North-West Cape, Western Australia. United States and Australian Governments agreed to establish joint educational foundation to succeed Fulbright Scheme. £4.5 million Tasman bridge across River Derwent opened at Hobart. Report on loss of H.M.A.S. *Voyager* tabled in Parliament.

Year

1964 *September.* Qantas ordered three additional £4 million Boeing 707 jet airliners (*see p. 579*). Commonwealth Government approved construction of £1 million tracking station at Gove in the Northern Territory for ELDO (*see p. 1195*). Construction began of new £4 million jet airport at Tullamarine, Victoria, to handle international air traffic. SEATO Secretary-General made two-week visit to Australia as guest of Commonwealth Government. Australia provided £1 million worth of aid in road and bridge building to Sarawak. Northern Territory *Social Welfare Ordinance 1964* repealed *Welfare Ordinance 1953-1963* (*see p. 106*) and provided for assistance without control for any person socially or economically in need of it. Seven additional Caribou aircraft ordered for R.A.A.F. (*see p. 1195*). Construction of fertilizer works involving cost of £9.2 million began on Newcastle Island. £25 million British Exhibition opened in Sydney. Princess Marina, Duchess of Kent, made two-week visit to Canberra and Sydney. Sydney and Cornell (United States of America) Universities pooled resources to set up joint Astronomy Centre, the largest of its kind in the world.

October. New South Wales State Electricity Commission began construction of £100 million power station at Liddell. Army ordered seventeen American Sioux Helicopters (*see p. 1195*). Site selected for third United States Space Tracking Station near Canberra. Commonwealth Government established licensing system for intrastate civil aviation. Sydney University released report on extension plans expected to exceed £15 million when completed. Australian forces saw action in Malaysia.

November. Prime Minister announced expansion of defence provisions involving additional defence expenditure of £1,220 million over three years, resumption of National Service Training, and establishment of special Reserve Forces (*see p. 1195*). *National Service Act 1964* passed. Commonwealth Government allowed export of iron ore to Japan from fields in Western Australia (*see p. 1164*). United States National Science Foundation made additional grant of £44,600 to Sydney University towards running cost of radio telescope (*see Year Book No. 49, p. 1259*). Professorial salaries increased to £5,200 following recommendations of committee of inquiry into academic salaries. Legislation introduced in New South Wales Parliament to establish University of Newcastle (*see p. 711*). Last major tunnel in Snowy Mountains Hydro-electric Scheme completed.

December. World bank report on development of Papua-New Guinea released. (Adopted by Government, May, 1965.) Mr. Donald Campbell established new world's water speed record of 276.33 m.p.h. in Western Australia, following his world land speed record for conventional drive machines established at Lake Eyre in July. First awards of Commonwealth Scholarships to secondary school students.

1965. *January.* Snowy Mountains Hydro-electric Authority let contract for building of Jindabyne dam. Details announced of £23 million works programme for barracks and camps to be completed by June to accommodate intake of National Service trainees. New passenger car ferry, the *Empress of Australia*, commissioned for Sydney-Hobart run. First Australian Ambassador appointed to Ireland. Two more roll-on roll-off cargo ships ordered by Australian Shipping Commission. Tasmania introduced provisional driver's licences.

February. Full High Court judgment on intra-state airlines case held that New South Wales Air Transport Act requiring intra-state services to hold a State licence was valid, but also that four out of five Commonwealth regulations were valid, so that airlines needed Commonwealth licence as well. Victorian Premier announced £30 million plan for city freeways. Australia signed major defence agreement to buy £156 million of aircraft and other military equipment in next three years. H.R.H. the Duke of Edinburgh made six-day visit to Australia. Royal Australian Mint opened. First Australian Ambassador to Greece appointed. Australian Council of National Trusts inaugurated in Canberra.

March. Earl Mountbatten visited Australia for talks on Asian defence. Over £2 million subscribed to establish Churchill Memorial Fellowships. Change of Government in South Australia after 32 years. First ballot for National Service call-up. Premier of Singapore made short visit for talks with Commonwealth and State Ministers and senior officials. Martin Report on tertiary education tabled

Year

1965

contd.

in House of Representatives (Commonwealth will provide grants, subject to matching grants by States, rising from £2.5 million to £25 million over six-year period for development of technical education at tertiary level and will award 1,000 additional scholarships, to total of 6,000). Burrendong Dam near Wellington (New South Wales) began to store water.

April. Tender accepted by New South Wales Department of Main Roads for construction of first section of Warringah expressway. Mr. Cabot Lodge, special envoy of United States President, visited Australia for talks with Cabinet. Indonesian government expropriated Australian pharmaceutical firm. Australia changed to metric system for dispensing of medicine.

May. Japanese firm commenced dredging operations to deepen harbour at Port Hedland (Western Australia). Australia received orders for supply of £6 million Ikara anti-submarine weapons system to Royal Navy. New steelworks opened at Whyalla (South Australia). 1st Battalion, Royal Australian Regiment, embarked for service in South Vietnam.

June. Minister for Army announced plans for Army re-organization. Two new C.M.F. Battalions to be raised in New South Wales. Australia agreed to establishment of Legislative Council for Nauru and payment of substantially higher phosphate royalties. Victorian fodder shipped to New South Wales to relieve stock losses in worst drought for 63 years. Loan Council and Premiers' Conference met in Canberra. Decision handed down in National Wage Cases of 1965 (*see* pp. 1295-6).

STATISTICAL SUMMARY: AUSTRALIA

NOTE.—(1) In most cases where figures are available back to 1861, these were shown in Year Book No. 39, pp. xxviii-xxix.

(2) The statistics in this summary relate in general to the periods shown in the table headings; where the statistics relate to other periods, this is indicated in the footnotes.

The state of the parties at 1st July, 1965, was:—Liberal—Country Parties, 30; Australian Labor Party, 27; Australian Democratic Labour Party, 2; Independent, 1.

Governors-General, p. 74.—*Add* Rt. Hon. RICHARD GARDINER, BARON CASEY, P.C., G.C.M.G., C.H., D.S.O., M.C., K.St.J. From 22nd September, 1965.

Administrators, p. 75.—*Add* Colonel Sir Henry Abel Smith, K.C.M.G., K.C.V.O., D.S.O., from 7th May, 1965, to 21st September, 1965.

Commonwealth Ministries, p. 76.—Consequent on the death of Senator Wade, Minister for Health, the Hon. R. W. C. Swartz, M.B.E., E.D., M.P. was appointed as Minister for Health, and Senator the Hon. G. C. McKellar was appointed as Minister for Repatriation. When the Hon. H. S. Robertson was appointed as Ambassador to Ireland, the Hon. I. M. Sinclair, M.P., became Minister for Social Services. On 13th August, 1965, the Hon. C. E. Barnes, M.P., Minister for Territories was added to the Ministers in the Cabinet.

State Ministers, pp. 77-9.

(i) *New South Wales.* As from 13th May, 1965, following the resignation of the Hon. J. B. Renshaw, M.L.A., after his party was defeated at the elections, the Hon. R. W. Askin, M.L.A. became Premier. The new ministry was as follows.

Premier and Treasurer—

THE HON. R. W. ASKIN, M.L.A.

Deputy Premier, Minister for Education, and Minister for Science—

THE HON. C. B. CUTLER, E.D., M.L.A.

Minister for Labour and Industry, Chief Secretary, and Minister for Tourist Activities—

THE HON. E. A. WILLIS, M.L.A.

Minister for Child Welfare, Minister for Social Welfare, Advisory Minister for Transport, and Vice-President of the Executive Council—

THE HON. A. D. BRIDGES, M.L.C.

Minister for Agriculture—

THE HON. W. A. CHAFFEY, M.L.A.

Attorney-General—

THE HON. K. M. MCCAW, M.L.A.

Minister for Local Government and Minister for Highways—

THE HON. P. H. MORTON, M.L.A.

Minister for Public Works—

THE HON. D. HUGHES, M.L.A.

Minister for Transport—

THE HON. M. A. MORRIS, M.L.A.

Minister for Decentralisation and Development—

THE HON. J. B. M. FULLER, M.L.C.

Minister for Lands and Minister for Mines—

THE HON. T. L. LEWIS, M.L.A.

Minister for Conservation—

THE HON. J. G. BEALE, M.L.A.

Minister for Housing and Minister for Co-operative Societies—

THE HON. S. T. STEPHENS, M.L.A.

Minister of Justice—

THE HON. J. C. MADDISON, M.L.A.

Minister for Health—

THE HON. A. H. JAGO, M.L.A.

Assistant Minister for Education—

THE HON. W. C. FIFE, M.L.A.

Leader of the Opposition. The Hon. J. B. Renshaw, M.L.A. is the new Leader of the Opposition.

(ii) *Victoria.* The Commissioner of Public Works and the Commissioner of Crown Lands and Survey are now called, respectively, Minister of Public Works and Minister of Lands, and the offices of President and Vice-President of the Board of Works have been dropped from various portfolios.

(iii) *Queensland.* The Nicklin Ministry was reconstituted on 11th March, 1965, as follows.

Premier and Minister for State Development, and Vice-President of the Executive Council—

THE HON. G. F. R. NICKLIN, M.M., M.L.A.

Treasurer—

THE HON. T. R. HILEY, M.L.A.

Minister for Education—

THE HON. J. C. A. PIZZEY, M.L.A.

Minister for Transport—

THE HON. G. W. W. CHALK, M.L.A.

Minister for Lands—

THE HON. A. R. FLETCHER, M.L.A.

Minister for Local Government and Conservation—

THE HON. H. RICHTER, M.L.A.

Minister for Industrial Development—

THE HON. A. T. DEWAR, M.L.A.

Minister for Primary Industries—

THE HON. J. A. ROW, M.L.A.

Minister for Works and Housing—

THE HON. J. BJELKE-PETERSEN, M.L.A.

(iv) *South Australia.* The Playford Government, which had held office for a record term for an Australian Ministry, was defeated at the 1965 elections and the new ministry was as follows from 27th May, 1965.

Premier, Treasurer, Minister of Immigration, and Minister of Housing—

THE HON. F. H. WALSH, M.P.

Chief Secretary and Minister of Health—

THE HON. A. J. SHARD, M.L.C.

Minister of Works and Minister of Marine—

THE HON. C. D. HUTCHENS, M.P.

Attorney-General, Minister of Aboriginal Affairs and Minister of Social Welfare—

THE HON. D. A. DUNSTAN, M.P.

Leader of the Opposition. The Hon. Sir Thomas Playford, G.C.M.G., M.P., is the new Leader of the Opposition.

(v) *Western Australia.* The Brand Ministry was reconstituted as follows on 17th August, 1965.

Premier, Treasurer, and Minister for Tourists—

THE HON. D. BRAND, M.L.A.

Deputy Premier, and Minister for Agriculture and Electricity—

THE HON. C. D. NALDER, M.L.A.

Minister for Industrial Development, Railways, and the North-West—

THE HON. C. W. M. COURT, O.B.E., M.L.A.

Minister for Education and Native Welfare—

THE HON. E. H. M. LEWIS, M.L.A.

Minister for Mines and Justice—

THE HON. A. F. GRIFFITH, M.L.C.

Minister for Lands, Forests, and Immigration—

THE HON. W. S. BOVELL, M.L.A.

Minister for Justice and Attorney-General—

THE HON. P. R. DELAMOTHE, O.B.E., M.L.A.

Minister for Health—

THE HON. S. D. TOOTH, M.L.A.

Minister for Labour and Industry—

THE HON. J. D. HERBERT, M.L.A.

Minister for Mines and Main Roads—

THE HON. R. E. CANN, M.L.A.

Minister of Education—

THE HON. R. R. LOVEDAY, M.P.

Minister of Local Government, Minister of Roads, and Minister of Mines—

THE HON. S. C. BEVAN, M.L.C.

Minister of Labour and Industry, and Minister of Transport—

THE HON. A. F. KNEEBONE, M.L.C.

Minister of Lands, Minister of Repatriation, Minister of Irrigation, Minister of Agriculture, and Minister of Forests—

THE HON. G. A. BYWATERS, M.L.A.

Minister for Works and Water Supplies—

THE HON. R. HUTCHINSON, D.F.C., M.L.A.

Minister for Local Government, Town Planning and Child Welfare—

THE HON. L. A. LOGAN, M.L.C.

Chief Secretary, and Minister for Police and Traffic—

THE HON. J. F. CRAIG, M.L.A.

Minister for Housing and Labour—

THE HON. D. H. O'NEIL, M.L.A.

Minister for Transport—

THE HON. R. J. O'CONNOR, M.L.A.

Minister for Health, and Fisheries and Fauna—

THE HON. G. C. MACKINNON, M.L.C.

CHAPTER VI. MANUFACTURING INDUSTRY

§ 1. General

Factory Development, p. 148.—The following table gives a summary of operations in manufacturing industries during 1962-63 (revised figures) and 1963-64.

FACTORIES: SUMMARY

Particulars		N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	Aust.

.. plant and machinery	..	752,098	520,362	154,153	165,140	77,757	70,826	1,740,336

(a) Average over whole year; includes working proprietors. (b) Excludes amounts drawn by working proprietors. (c) Includes also value of containers, packing, etc., replacements of tools and repairs to plant. (d) Value added in process of manufacture (i.e., value of output less value of materials and fuel used). (e) Value at the factory of goods produced.

§ 8. Value of Production, etc.

Value of Production, p. 171.—The values of production (£'000) in Australia for the various classes of industry in 1963-64 (with revised figures for 1962-63 in parentheses) were as follows:—

I., 74,423 (64,953); II., 56,865 (50,050); III., 225,322 (205,688); IV., 1,086,995 (977,352); V., 9,376 (8,623); VI., 125,680 (116,892); VII., 20,484 (20,130); VIII., 140,708 (133,168); IX., 350,245 (318,458); X., 103,139 (95,178); XI., 37,956 (34,994); XII., 189,869 (175,457); XIII., 42,852 (39,162); XIV., 2,450 (2,181); XV., 55,334 (49,883); XVI., 113,654 (105,426); Total, all classes, 2,635,353 (2,397,595).

§ 10. Principal Factory Products, pp. 177-81

The following table provides an abbreviated list of commodities and the quantities produced in factories in Australia during 1963-64 and 1964-65 (preliminary figures). Figures for 1963-64 include revisions of figures shown earlier in this Year Book.

DESIGNS FOR AUSTRALIAN DECIMAL COINS

OBVERSE DESIGN FOR ALL COINS
(Mr. Arnold Machin, R.A. of London
designed the Queen's effigy)

REVERSE DESIGNS. (Designer Mr. Stuart Devlin of Melbourne,
who also prepared the lettering on the obverse inscription)

<i>Notes on designs and characteristics of new coins</i>	<i>Composition</i>	<i>Diameter (inches)</i>	<i>Weight (grains)</i>
Fifty-cents	80% Silver 20% Copper	1.240	205
Twenty-cents	Cupro-nickel (75% copper and 25% nickel)	1.122	174.6
Ten-cents		0.929	87.3
Five-cents		0.764	43.6
Two-cents	97% copper 3% zinc and tin	0.850	80
One-cent		0.690	40

Reverse design

The Australian Coat-of-Arms, which is supported by the kangaroo and the emu. The kangaroo is Australia's biggest marsupial, and one or other of the species are found in every part of the Continent; the doe, which can be four or five feet tall, gives birth to a "joey" which is only an inch or so long, and which completes its development in its mother's pouch. The emu is the second largest bird in the world—only the ostrich is bigger: before pushed back by settlement, the emu ranged all over Australia; the male bird incubates the eggs and takes care of the chickens when they hatch.

The platypus is one of the only two egg-laying mammals (the other is the echidna) and is found in the rivers and creeks of the Eastern side of the Continent; it is about the same size as the echidna and has webbed feet and rich short fur: it swims with the skill and dash of a seal.

The lyrebird on the 10-cent is the male of the species as it appears when dancing and singing, with its magnificent tail expanded and thrown forward over its head: it is a famous mimic: it is about the size of a pheasant, and inhabits dense damp forests from Southern Queensland to Victoria.

The echidna or spiny ant-eater is Australia's other egg-layer which suckles its young; like the hedgehog, it depends on its spines for protection and rolls up into a tight ball when frightened; it is about 18 inches long and thrives in every part of Australia. A related species is found in New Guinea.

The frilled lizard is found only in the tropical north of Australia: it grows to about three feet in length—most of it tail: it is harmless but when cornered it presents a gaping hissing mouth in the middle of its brightly-coloured neck frill.

The feather-tail glider is the smallest of our gliding marsupials and glides by means of membranes along its sides: it is strictly nocturnal and is quite common in the forests of Eastern Australia: one of its bush nicknames—the "flying mouse"—gives an idea of its size.

The twenty-cent, ten-cent and five-cent coins will have the same weight and almost exactly the same diameter as the present florin, shilling and sixpence. The fifty-cent coin will be slightly larger than a penny (which has a diameter of 1.215 inches and a weight of 145.8 grains). The two-cent coin will have a diameter midway between those of the shilling (ten-cents) and sixpence (five-cents) and the one-cent coin a diameter between those of the sixpence and the threepence (which has a diameter of 0.635 inches and a weight of 21.8 grains).

(NOTE: The photograph above depicting the obverse design is an enlargement to 50-cent size of a photograph of an actual one-cent coin. The photographs of the reverse designs are at actual coin size and were taken from plaster models prepared by the designer.)

			Yarn, woollen and worsted " "	52.2	54.4

(a) Includes waste beer. (b) Includes mixture cloths predominantly wool. (c) Excludes motor car, motor cycle, truck, tractor, aeroplane and marine engines but includes diesel and semi-diesel. (d) Includes wheatmeal for baking. (e) Made in gas-works only. (f) Year ended 31st May. (g) Excludes canned rabbit and poultry. (h) Domestic, excludes stoves, cookers, etc. (i) Year ended 31st March. (j) Includes sawn sleepers.

CHAPTER XI. HOUSING AND BUILDING

§ 2. Building

New Houses, p. 359-62.—The number of new houses approved, commenced, completed and under construction in each State and Territory during 1964-65 was as follows.

NEW HOUSES: NUMBER, 1964-65
(INCLUDING OWNER-BUILT HOUSES)

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Approved ..	28,925	22,508	11,729	9,808	7,570	2,669	774	2,043	86,026
Commenced ..	26,624	21,767	11,657	11,220	7,467	2,546	605	1,910	83,796
Completed ..	26,764	22,821	11,546	11,050	7,445	2,579	473	1,806	84,484
Under construction at 30th June, 1965 ..	12,851	11,858	3,027	5,809	2,945	1,600	491	1,055	39,636

Of the 84,484 new houses completed during 1964-65, 52,285 had outer walls of brick, brick veneer, concrete or stone, 14,480 of wood (weatherboard, etc.), 17,171 of fibro-cement and 548 of other materials.

New Flats, p. 362-4.—The following table shows the number of new flats approved, commenced, completed and under construction in each State and Territory during 1964-65.

NEW FLATS: NUMBER, 1964-65
(INDIVIDUAL LIVING UNITS)

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Approved ..	17,989	10,400	3,144	2,526	1,795	252	165	494	36,765
Commenced ..	15,583	10,054	2,428	2,158	1,730	251	148	561	32,913
Completed ..	13,126	8,674	2,079	1,820	1,841	153	137	337	28,167
Under construction at 30th June, 1965 ..	9,706	6,331	1,041	1,063	950	188	132	488	19,899

Value of New Buildings, p. 365-7.—The values of all new buildings approved, commenced, completed and under construction in each State and Territory are shown in the following table for the year 1964-65.

NEW BUILDINGS: VALUE, 1964-65
(INCLUDING ESTIMATED VALUE OF OWNER-BUILT HOUSES)
(£'000)

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Approved ..	265,672	218,757	101,946	83,005	65,979	21,380	8,829	24,110	789,678
Commenced ..	297,689	209,932	100,852	84,494	61,028	21,020	6,570	27,112	808,697
Completed ..	265,772	201,140	89,235	77,250	53,550	18,872	5,892	21,493	733,204
Under construction at 30th June, 1965 ..	243,092	163,655	56,611	65,445	44,218	16,753	5,627	33,343	628,744

The value of new buildings completed in Australia during 1964-65, according to type of building, was as follows:—*Houses*—Brick, brick veneer, concrete and stone, £230,764,000; wood (weatherboard, etc.), £50,474,000; fibro-cement, £49,737,000; other £1,886,000; total, £332,861,000; *Flats*—£78,635,000; *Other Buildings*—Hotels, hostels, etc., £14,537,000;

shops, £23,183,000; factories, £76,319,000; offices, £58,413,000; other business premises, £34,055,000; educational, £47,668,000; religious, £8,286,000; health, £21,870,000; entertainment and recreation, £15,641,000; miscellaneous, £21,736,000; total other buildings, £321,708,000; grand total, new buildings, £733,204,000.

Persons Working on Jobs Carried out by Builders of New Buildings, p. 367-8.—The number of persons working on jobs *carried out by builders of new buildings* in Australia at 30th June, 1965, was as follows:—Carpenters, 54,592; bricklayers, 18,131; painters, 13,769; electricians, 9,055; plumbers, 14,038; builders' labourers, 23,261; other, 24,989; Total, 157,835. Of this total, contractors actually working on jobs numbered 11,812, sub-contractors actually working on jobs, 29,594, and wage earners, 116,429.

CHAPTER XII. EMPLOYMENT AND UNEMPLOYMENT

WAGE AND SALARY EARNERS IN EMPLOYMENT

Civilian Employees, pp. 407-8.—The following table shows particulars of the estimated numbers of wage and salary earners (excluding employees in rural industry, private domestic service and defence forces) in each State and Territory at June, 1965, with revised figures for June and December, 1964. Figures are shown in thousands correct to one decimal place. Any discrepancies between totals and sums of components are due to rounding.

WAGE AND SALARY EARNERS IN CIVILIAN EMPLOYMENT

(EXCLUDING EMPLOYEES IN RURAL INDUSTRY AND PRIVATE DOMESTIC SERVICE, AND DEFENCE FORCES)

('000)

(a) Includes persons employed in the Australian Capital Territory who reside in adjoining areas.

CHAPTER XIII. LABOUR, WAGES AND PRICES

RETAIL PRICES AND PRICE INDEXES

§ 4. Tabular Statements of Retail Price Index Numbers

Consumer Price Index, p. 414-6.—The following table shows Consumer Price Index numbers for March, June, and September quarters, 1965, for the six State capital cities separately and combined and for Canberra, for each Group and all Groups combined.

CONSUMER PRICE INDEX NUMBERS^(a)

(Base of each Index: Year 1952-53 = 100.0)

Period	State Capital Cities—separately and combined							Canberra
	Weighted Average of Six State Capital Cities	Sydney	Melbourne	Brisbane	Adelaide	Perth	Hobart	
FOOD								
March quarter, 1965 ..	133.1	129.8	133.8	142.7	136.8	130.1	135.0	129.4
June quarter, 1965 ..	135.9	132.7	136.7	145.0	139.4	133.3	137.2	132.4
September quarter, 1965..	139.3	136.7	139.9	149.7	141.0	134.4	140.9	135.9
CLOTHING AND DRAPERY								
March quarter, 1965 ..	115.8	114.4	116.9	119.7	114.6	114.3	116.9	113.3
June quarter, 1965 ..	116.3	114.9	117.5	120.1	115.0	114.7	117.3	113.8
September quarter, 1965..	116.3	114.9	117.5	120.2	115.0	114.7	117.2	113.8
HOUSING								
March quarter, 1965 ..	165.3	166.8	169.4	149.5	165.4	160.4	182.4	164.7
June quarter, 1965 ..	167.2	168.3	172.4	150.4	166.5	161.5	183.5	165.0
September quarter, 1965..	168.6	168.7	173.3	157.1	167.2	162.9	184.5	165.4
HOUSEHOLD SUPPLIES AND EQUIPMENT								
March quarter, 1965 ..	112.5	110.7	117.0	112.7	104.9	106.6	124.3	113.2
June quarter, 1965 ..	112.9	110.8	117.7	113.1	105.2	106.9	124.9	113.0
September quarter, 1965..	113.4	111.2	118.2	114.2	105.6	107.9	125.6	113.3
MISCELLANEOUS								
March quarter, 1965 ..	137.3	135.9	140.1	141.7	130.2	136.0	133.9	130.4
June quarter, 1965 ..	137.3	135.8	140.1	142.4	130.2	136.2	134.7	130.5
September quarter, 1965..	137.8	136.3	140.5	143.1	130.7	136.4	136.2	130.4
ALL GROUPS								
March quarter, 1965 ..	130.9	129.1	132.9	134.6	128.9	128.0	134.0	128.4
June quarter, 1965 ..	132.1	130.3	134.4	135.7	129.9	129.3	135.2	129.5
September quarter, 1965..	133.5	131.8	135.6	138.3	130.7	130.0	137.0	130.8

(a) The index numbers measure price movements in each State Capital City and Canberra individually and for the weighted average of the six State capitals. They do not measure differences in price levels as between cities.

WHOLESALE PRICES AND PRICE INDEXES

§ 2. Wholesale Price (Basic Materials and Foodstuffs) Index

Index Numbers, p. 420.—Index numbers for each group of commodities and for All Groups for the index of wholesale prices of basic materials and foodstuffs are shown below for the year 1964-65 and for the months March to August, 1965.

WHOLESALE PRICE (BASIC MATERIALS AND FOODSTUFFS) INDEX NUMBERS

(Base of each Index: Average of 3 years ended June, 1939 = 100)

Period	Basic Materials						Food-stuffs and Tobacco (a)	Basic Materials and Foodstuffs			
	Metals and Coal	Oils, Fats and Waxes	Textiles	Chemicals	Rubber and Hides	Building Materials		Total	Goods principally imported (b)	Goods principally home produced (a)	Total All Groups (a)
1964-65	391	207	427	286	242	503	345	364	277	388	355
1965—											
March	396	208	398	288	237	505	346	358	275	385	352
April	398	208	398	288	244	505	347	365	276	390	357
May ..	398	207	403	288	248	505	347	369	276	393	359
June ..	396	207	403	288	250	505	346	375	275	398	362
July ..	p394	208	p407	288	256	508	p347	p384	p274	p406	p376
Aug. . .	p390	208	p406	288	271	508	p346	p400	p275	p418	p376

(a) Excludes potatoes and onions. (b) Represents only such imported commodities as are included in the Wholesale Price Index and does not measure changes in the prices of all imports.

EXPORT PRICES AND PRICE INDEXES

§ 2. The Current Export Price Index

Index Numbers, p. 424.—Index numbers for each of the groups and "All Groups" for the year 1964-65 and for the months March to August, 1965, are shown in the table below.

EXPORT PRICE INDEX NUMBERS

(Base of each Index: Year 1959-60 = 100)

Period	Wool	Meats	Dairy Produce	Cereals	Dried and Canned Fruits	Sugar	Hides and Tallow	Metals and Coal	Gold	All Groups

	271	9	283	8	285	0				

ADULT FEMALES—INDEX NUMBERS

(Base: Weighted Average Weekly Wage Rate for Australia, 1954 = 100)

31st March, 1965 ..	147.0	139.0	142.6	137.1	139.1	136.5	142.5
30th June, 1965 ..	147.4	139.8	143.2	137.6	140.6	137.2	143.1

§ 3. Average Weekly Earnings

Average Weekly Earnings, p. 438.—Particulars of average weekly earnings per employed male unit for the year 1964-65 were: New South Wales, £28.28; Victoria, £28.15; Queensland £25.21; South Australia, £25.86; Western Australia, £24.62; Tasmania, £25.42; Australia, £27.28.

Index Numbers, p. 438.—Index numbers for "All industries" and for "Manufacturing" for 1964-65 were as follows.

INDEXES OF AVERAGE WEEKLY EARNINGS: AUSTRALIA

SEASONALLY ADJUSTED

(Base of each series: 1953-54 = 100)

Year	All industries	Manufacturing	Quarter	All industries	Manufacturing
1964-65	167.1	166.7	1964-65—		
			September	r163.3	r165.0
			December	r165.1	163.7
			March	169.4	168.0
			June	170.4	170.1

§ 5. Basic Wages in Australia

National Wage Cases of 1965, p. 458.—Hearing in these cases commenced on 2nd March, 1965, before Kirby C.J., Gallagher, Moore, Sweeney and Nimmo J.J., of the Commonwealth Conciliation and Arbitration Commission. Claims by the employers and the trade unions were heard concurrently.

The employers' claim (Part A) was for the abolition of the concepts of the basic wage and margins, and the introduction into the Metal Trades Award of an obligation to pay a total wage made up of the sum of the amounts expressed in terms of the basic wage and a margin, plus an amount equivalent to one per cent. of such sum. The employers also asked (Part B) that, in respect of the ensuing twelve months, the level of the basic wage and the level of margins, in so far as the latter is determined upon general economic grounds, should be decided simultaneously. It was open to the Commission under Part B of these claims to decide whether there should be an increase in (a) the basic wage element alone; (b) the marginal element alone; or (c) both the basic wage and marginal elements, to whatever extent, in respect of each element, the Commission deemed proper.

The trade unions sought new basic wage rates incorporating increases proportionate to the rises in the Consumer Price Index. For the Six Capital Cities basic wage the increase claimed was 12s. a week for adult males.

The Commission announced its decision on 29th June, 1965, when three separate judgments were handed down—a joint judgment by Gallagher, Sweeney and Nimmo J.J. and separate judgments by Kirby C.J. and by Moore J. In accordance with the opinion of the majority (namely, that of Gallagher, Sweeney and Nimmo J.J.), the order of the Commission was to the effect:

- (a) Part A of the employers' application was refused;
- (b) With regard to Part B of the employers' application—
 - (i) there would be no alteration in the basic wage,
 - (ii) with effect from the first pay period commencing on or after 1st July, 1965, each margin in Clause 4 of the Metal Trades Award was increased by an amount equal to $1\frac{1}{4}$ per cent. of the sum of the Six Capital Cities basic wage and that margin;
- (c) the application of the unions for an increase in the basic wage was refused.

The majority judgment anticipated that, subject to the question of capacity of a particular industry and the question of those margins which had already been increased on general economic grounds (since 1963), the increases awarded would be speedily reflected throughout the awards of the Commission.

A summary of the proceedings and of the reasons for the judgments will be contained in the next issue of the Year Book.

State Basic Wages, p. 466.—The following table shows State basic wages operative in September, 1965.

STATE BASIC WAGES: WEEKLY RATES

State and locality	September, 1965		
	Date of operation(a)	Males	Females
		s. d.	s. d.
New South Wales	19.6.64	315 0	236 0
Victoria(b)	June, 1964(c)	307 0	230 0
Queensland—			
Southern Division—			
Eastern District, including Brisbane ..	20.9.65	314 0	235 6
Western District	20.9.65	324 6	243 6
Mackay Division	20.9.65	323 0	242 3
Northern Division—			
Eastern District	20.9.65	324 6	243 6
Western District	20.9.65	346 6	260 0
South Australia(d)	22.6.64	303 0	227 0
Western Australia(e)	26.7.65	317 10	238 5
Tasmania(b)	June, 1964(c)	314 0	235 6

(a) Rates are operative from the beginning of the first pay-period commencing after the date shown, or during the month shown. (b) No basic wage declared. Rates shown are those adopted by most Wages Boards. (c) Wages Boards adopted the Commonwealth rate. (d) The "living wage" declared for the metropolitan area is also adopted for country areas, except at Whyalla and nearby areas, where a loading of 5s. for adult males is generally payable. (e) Differential rates abolished as from 22nd September, 1964.

The Commonwealth basic wage rates for September, 1965, were still the same as those operative from 19th June, 1964 (see p. 459).

CHAPTER XIV. OVERSEA TRADE

§ 8. Direction of Oversea Trade

According to Countries, p. 502.—The following table shows particulars of the values of total imports and total exports of Australia, including bullion and specie, according to countries of origin or consignment, for the year 1964-65.

**VALUES OF AUSTRALIAN IMPORTS AND EXPORTS: COUNTRIES OF
ORIGIN OR CONSIGNMENT, 1964-65 p**

(a) Excludes South Brisbane-Border section of the uniform gauge line (69 route miles). (b) Financial details include road motors. (c) Excludes government grants. (d) Included with coaching. Minus sign (-) denotes loss.

NOTE.—The foregoing table is prepared from quarterly statements supplied by each Government railway, and figures therein are not completely comparable with those shown in Chapter XV. Transport and Communication, which are derived, in the main, from the annual reports of the Government railways.

MOTOR VEHICLES

§ 1. Motor Vehicles on Register

Motor Vehicles on Register, etc., p. 572.—The following table shows the number of motor vehicles on register at 31st December, 1964.

MOTOR VEHICLES ON REGISTER(a), 31st DECEMBER, 1964

State or Territory	Motor cars(b) and station wagons	Utilities, panel vans, trucks(c) and omnibuses	Motor cycles	Total(d)
New South Wales ..	969,093	289,706	18,063	1,276,862
Victoria ..	789,327	217,163	13,051	1,019,541
Queensland(e) ..	358,285	154,888	13,027	526,200
South Australia(e) ..	276,902	85,084	14,107	376,093
Western Australia ..	195,818	78,470	9,602	283,890
Tasmania ..	88,084	29,005	1,586	118,675
Northern Territory ..	7,706	5,733	305	13,744
Australian Capital Territory ..	25,019	4,571	313	29,903
Australia ..	2,710,234	864,620	70,054	3,644,908

(a) All figures are subject to revision. (b) Includes ambulances and hearses. (c) Includes other truck-type vehicles. (d) Excludes tractors, trailers, plant and equipment, etc. (e) Interim figures only.

§ 3. Registration of New Motor Vehicles

New Vehicles Registered, p. 574.—New motor vehicles registered during the six months ended June, 1965, were as follows.

NEW MOTOR VEHICLES REGISTERED, SIX MONTHS ENDED JUNE, 1965(a)

State or Territory	Motor cars(b)	Other vehicles (c)	Motor cycles	Total
New South Wales	62,703	11,316	1,630	75,649
Victoria	48,312	8,172	534	57,018
Queensland	23,448	5,825	866	30,139
South Australia	18,235	3,130	607	21,972
Western Australia	11,668	3,324	287	15,279
Tasmania	5,257	1,087	54	6,398
Northern Territory	526	335	38	899
Australian Capital Territory ..	2,042	331	74	2,447
Australia	172,191	33,520	4,090	209,801

(a) Excludes defence service vehicles, trailers, road tractors, etc., and dealers' plates. (b) Includes taxis, hire cars and station wagons. (c) Includes utilities, panel vans, lorries, omnibuses, ambulances and hearses.

CIVIL AVIATION

Statistical Summaries, p. 582-3.—The following table shows particulars of the operations of regular internal services and overseas services for the nine months ended 31st March, 1965.

CIVIL AVIATION: OPERATIONS OF REGULAR INTERNAL SERVICES AND OVERSEA SERVICES, NINE MONTHS ENDED MARCH, 1965

Particulars	Regular internal services(a)	Oversea services(b)
Route miles (unduplicated)(c)	68,901	79,150
Hours flown	191,714	50,173
Miles flown	38,872	20,670
Paying passengers	2,771,942	330,213
Paying passenger-miles	1,210,584	1,115,643
Freight—		
Tons(d)	52,035	7,250
Ton-miles(d)	25,073	36,949
Mail—		
Tons(d)	5,869	2,301
Ton-miles(d)	3,090	15,475

(a) Includes only services operating within the Australian mainland and Tasmania. (b) Airlines wholly or partly owned by Australian interests. (c) At 31st March, 1965. (d) In terms of short tons (2,000 lb.).

BROADCASTING AND TELEVISION

§ 4. Licences, etc.

Broadcast Listeners' and Television Viewers' Licences, p. 601.—Broadcast listeners' licences in force at 30th June, 1965, were as follows:—New South Wales, 686,781; Victoria, 512,205; Queensland, 301,862; South Australia, 219,064; Western Australia, 144,773; Tasmania, 62,943; Australia, 1,927,628. Figures for the Northern Territory and the Australian Capital Territory have been included with those for South Australia and New South Wales respectively.

Television viewers' licences in force at 30th June, 1965, were as follows:—New South Wales, 624,997; Victoria, 488,583; Queensland, 202,121; South Australia, 158,666; Western Australia, 93,071; Tasmania, 47,173; Australia, 1,614,611.

A person who has both broadcast and television receivers at the one address is required to take out a combined receiving licence, provision for which was introduced by legislation effective from 1st April, 1965. Combined licences in force at 30th June, 1965, were as follows:—New South Wales, 162,510; Victoria, 132,413; Queensland, 41,539; South Australia, 49,976; Western Australia, 30,670; Tasmania, 12,906; Australia, 430,014.

CHAPTER XVI. WELFARE SERVICES

§ 2. Expenditure on Welfare Services

Commonwealth Expenditure on Welfare Services—The National Welfare Fund, p. 604.—The following table sets out expenditure from the fund on social and health services in each State during 1964–65.

COMMONWEALTH EXPENDITURE FROM NATIONAL WELFARE FUND
ON SOCIAL AND HEALTH SERVICES, 1964–65

(a) Payments for some Health Services to residents of the Northern Territory and the Australian Capital Territory are included in the amounts shown for States. (b) Includes payments for student children aged 16 to 21 years and endowed children in institutions. (c) Includes special benefits to migrants in reception and training centres. (d) Includes payments to Flying Doctor Service and Bush Nursing Centres. (e) Paid to the State Governments as a contribution towards the cost of surveys and the maintenance of institutions for the treatment of tuberculosis. (f) This item includes the cost of the Commonwealth Health Laboratory services, £433,000; the cost of radio-active isotopes provided under the National Health Act, £34,000; and hearing aids for school children, £26,000. (g) Includes running expenses of the Blood Fractionation Plant at the Commonwealth Serum Laboratory, £335,000, subsidies to Home Nursing Services, £232,000, purchase of poliomyelitis vaccine, £370,000 and part cost of Commonwealth Health Laboratories, £71,000. (h) Under the Home Savings Grant Act 1964.

§ 3. Commonwealth Social Services, pp. 608-19

The following table gives a summary of age, invalid and widows' pensions, maternity allowances, child endowment, and unemployment, sickness and special benefits for the year 1964-65.

SOCIAL SERVICES: SUMMARY, 1964-65

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.
Age pensioners at end of year	243,793	162,108	100,054	58,308	42,706	18,892	1,253	986	628,100
Invalid pensioners at end of year	41,985	26,794	17,402	8,490	8,615	3,532	404	251	107,473
Child endowment at end of year—

35 " " " " 40	143	20	4	2								170	38	
40 " " " " 45	70	1										71	1	
45 " " " " and over	49											49	2	
Not stated		2												2
Total Dissolutions of Marriage	2,885	2,052	1,703	810	309	104	35	12	5	1	1	7,917	..	
Total Children(a)	2,052	3,406	2,430	1,236	520	210	84	40	9	10	..	9,997	

(a) The term "children" used in the Commonwealth legislation refers to living "children of the marriage" under 21 years, but the table above includes a small number of dissolutions granted to petitions filed under old legislation i.e. prior to 1961, in which the term "children" was used differently. For former definitions of children see Year Book, No. 48, p. 652.

CHAPTER XXI. PRIVATE FINANCE

CURRENCY

§ 4. Pre-decimal Coinage

Net Issues of Australian Coins, p. 815.—The net issues of Australian coins to 30th June, 1965, were:—silver, £50,249,000; bronze, £4,311,000; total £54,560,000.

§ 5. Pre-decimal Notes System

The Australian Note Issue, p. 817.—The average value of notes in circulation for the year 1964-65 was £445,806,000. This amount was distributed in denominations as follows:—10s., £14,131,000; £1, £72,259,000; £5, £201,952,000; £10, £154,712,000; £20, £2,000; £50, £23,000; £100, £21,000; and £1,000, £2,706,000. The amount held by the banks was £71,687,000 and by the public £374,119,000.

BANKING

§ 2. The Reserve Bank of Australia

Liabilities and Assets, pp. 821-2.—The liabilities of the Reserve Bank at 30th June, 1965 amounted to £1,257,778,000. Capital and reserve funds amounted to £38,040,000; notes on issue to £431,207,000; statutory reserve deposit accounts of trading banks to £327,337,000; other deposits of trading banks to £50,221,000; term loan fund accounts of trading banks to £21,848,000; deposits of savings banks to £214,823,000; other liabilities to £174,300,000.

Particulars of the assets were as follows:—gold and balances held abroad, £443,664,000; other oversea securities, £205,637,000; Australian notes and coin, £5,061,000; cheques and bills of other banks, £16,301,000; government and other securities (including treasury bills), £401,136,000; bills receivable and remittances in transit, £21,546,000; and other assets, £164,432,000.

§ 3. The Commonwealth Development Bank of Australia

Liabilities and Assets, pp. 823-4.—The liabilities of the Commonwealth Development Bank at 30th June, 1965, amounted to £75,410,000. Capital amounted to £30,857,000; reserve funds to £9,486,000; balances due to other banks to £22,495,000; deposits, bills payable and all other liabilities to £12,572,000.

The assets amounted to £75,410,000. Cash and cash balances amounted to £158,000; Australian Government securities to £596,000; other securities to £179,000; loans to authorized dealers in the short-term money market to £350,000; cheques and bills of other banks to £479,000; loans (other than loans to authorized dealers in the short-term money market), advances and bills discounted to £73,419,000; other assets £230,000.

§ 4. Cheque-paying Banks

Average Liabilities and Assets within Australia, pp. 830-1.—The average liabilities of the Major Trading Banks for June, 1965, were £2,452,474,000. Deposits not bearing interest amounted to £1,325,582,000; deposits bearing interest to £1,047,604,000; balances due to other banks to £17,288,000; other liabilities to £62,000,000.

The average assets of the Major Trading Banks for June, 1965, were £2,413,566,000. Cash and cash balances amounted to £79,946,000; Australian Government securities to £10,321,000; other Commonwealth and State Government securities to £435,583,000; loans to authorized dealers in the short-term money market to £38,700,000; statutory reserve deposits with Reserve Bank to £328,040,000; cheques, bills and balances with other banks to £67,659,000; loans (other than loans to authorized dealers in the short-term money market), advances and bills discounted to £1,315,548,000; other assets to £137,769,000.

The average liabilities of the Other Banks for June, 1965, were £201,216,000. Deposits not bearing interest amounted to £62,282,000; deposits bearing interest to £83,730,000; balances due to other banks to £2,421,000; other liabilities to £52,783,000.

The average assets of the Other Banks for June, 1965, were £234,679,000. Cash and cash balances amounted to £4,242,000; Australian Government securities to £792,000; other Commonwealth and State Government securities to £40,401,000; loans to authorized dealers in the short-term money market to £8,165,000; statutory reserve deposits with Reserve Bank to £547,000; cheques, bills and balances with other banks to £4,292,000; loans (other than loans to authorized dealers in the short-term money market), advances and bills discounted to £162,005,000; other assets to £14,235,000.

The average liabilities of All Banks for June, 1965, were £2,653,690,000. Deposits not bearing interest amounted to £1,387,864,000; deposits bearing interest to £1,131,334,000; balances due to other banks to £19,709,000; other liabilities to £114,783,000.

The average assets of All Banks for June, 1965, were £2,648,245,000. Cash and cash balances amounted to £84,188,000; Australian Government securities to £11,113,000; other Commonwealth and State Government securities to £475,984,000; loans to authorized dealers in the short-term money market to £46,865,000; statutory reserve deposits with Reserve Bank to £328,587,000; cheques, bills and balances with other banks to £71,951,000; loans (other than loans to authorized dealers in the short-term money market), advances and bills discounted to £1,477,553,000; other assets to £152,004,000.

Debits to Customers' Accounts—Cheque-paying Banks, p. 845.—The average weekly debits to customers' accounts in each State for the year 1964–65 for all cheque-paying banks (excluding debits to accounts of Australian Governments in capital cities) were as follows:—New South Wales, £476,579,000; Victoria, £420,601,000; Queensland, £118,682,000; South Australia, £86,843,000; Western Australia, £54,159,000; Tasmania, £21,067,000; Northern Territory, £1,740,000; Australian Capital Territory, £7,392,000; total, £1,187,063,000.

§ 5. Savings Banks

Number of Operative Accounts and Business Transacted, p. 852.—The numbers of operative accounts in the several States at end of June, 1965, were:—New South Wales, 4,076,000; Victoria, 3,630,000; Queensland, 1,541,000; South Australia, 1,254,000; Western Australia, 786,000; Tasmania, 379,000; Northern Territory, 29,000; and Australian Capital Territory, 74,000; total, 11,769,000. The amounts on deposit in the several States at 30th June, 1965, were:—New South Wales, £859,822,000; Victoria, £810,204,000; Queensland, £296,513,000; South Australia, £259,634,000; Western Australia, £130,827,000; Tasmania, £67,868,000; Northern Territory, £4,590,000; and Australian Capital Territory, £13,824,000; total, £2,443,282,000. Total excess of deposits over withdrawals during 1964–65 was £135,252,000; and interest added was £69,906,000.

INSURANCE

§ 2. Life Insurance

New Policies Issued, Policies Discontinued, etc., Premiums and Claims, Australia, pp. 858-65.—The following is a summary of the life insurance business transacted in Australia during 1964 (figures for 1963 in parentheses) compiled from monthly returns collected from the 42 (42) companies registered under the *Life Insurance Act 1945-1961*, and excluding the Government Insurance Office of New South Wales and the Queensland State Government Insurance Office which operate only within their respective States. Particulars shown are therefore not entirely comparable with those in Chapter XXI., which are derived from annual returns and include business of the State Government Offices.

Ordinary, Industrial, and Superannuation Businesses, respectively:—*New policies issued in Australia*—numbers, 345,656 (327,103), 127,200 (128,886), 77,834 (78,354); sums insured, £758,853,000 (£674,677,000), £57,454,000 (£53,570,000), £385,395,000 (£286,433,000); *policies discontinued or reduced in Australia*—numbers, 216,838 (230,779), 227,070 (250,180), 74,720 (69,074); sums insured, £261,104,000 (£262,855,000), £34,658,000 (£36,231,000), £150,276,000 (£120,232,000). Particulars of annuities are excluded.

Premium receipts in Australia of Ordinary, Industrial, and Superannuation Businesses, respectively, amounted to £119,789,000 (£109,340,000); £16,682,000 (£16,381,000); £47,326,000 (£42,297,000); *claims, etc., paid* amounted to—£51,674,000 (£47,175,000); £12,548,000 (£12,263,000); £20,696,000 (£16,414,000). Particulars of annuities are included.

OVERSEA INVESTMENT BY PRIVATE INVESTORS

Annual Flow of Oversea Investment, pp. 879-84.—The annual inflow of private overseas investment in companies in Australia amounted to £A.214.4 million in 1963-64. Of this total, £A.200.8 million was in the form of direct investment (including £A.65.1 million undistributed income), while portfolio investment was £A.13.6 million. The inflow by domicile of investor was; United Kingdom, £A.96.5 million; United States of America and Canada, £A.96.0 million; New Zealand, £A.4.1 million; and other countries, £A.17.8 million. The outflow of Australian investment in companies overseas was £A.1.1 million in 1963-64.

CHAPTER XXII. PUBLIC FINANCE

COMMONWEALTH FINANCE

§ 2. Commonwealth Public Account

Summary of Receipts and Expenditure, p. 902.—The following table provides a summary of the transactions on the Commonwealth Public Account for 1964-65.

COMMONWEALTH PUBLIC ACCOUNT: SUMMARY OF TRANSACTIONS
(£ million)

Particulars	1964-65
Expenditure—	
Consolidated Revenue Fund(a)	2,097.7
Loan Fund—	
Defence Services
State Works and Housing Programmes	279.7
War Service Land Settlement	3.6
Mount Isa Railway Agreement	1.5
Snowy Mountains Hydro-electric Authority	9.8
<i>Total Expenditure</i>	2,392.3
Receipts—	
Consolidated Revenue Fund	2,209.1
National Debt Sinking Fund	96.3
Net Movement in Cash Balances of Other Trust Funds	8.5
<i>Total Receipts</i>	2,313.9
<i>Excess of Expenditure over Receipts to be met from Borrowings</i>	78.4
Add Redemptions, etc.(b)—	
Australia	118.3
Overseas	40.1
<i>Total</i>	158.4
Total Call on Borrowings	236.8
Borrowings, etc.—	
Loan Proceeds(c)—	
Australia	234.0
Overseas—	
Public loans	11.0
Drawings on International Bank Loans	10.6
<i>Total Loan Proceeds</i>	255.6
Net Movement in Temporary Borrowings and Cash Balances—	
Treasury Notes	-36.1
Treasury Bills	(d) 19.0
Cash Balances	-1.8
<i>Total Net Movement in Temporary Borrowings, etc.</i>	-18.9
Total Borrowings	236.8

(a) Excludes payment to Loan Consolidation and Investment Reserve, £111.4 million. (b) Includes redemptions from the Canadian Loan Trust Account. Excludes losses on realization of investments by the National Debt Sinking Fund which have been included in net increase in other balances. (c) Excludes State domestic raisings. Loan flotation expenses, net of recoveries, have been deducted from loan proceeds. (d) Because of the funding of £50,000,000 Treasury Bills during 1964-65, there was a net reduction of £31,000,000 in the Treasury Bill issue during the year.

§ 3. Commonwealth Consolidated Revenue Fund

Revenue and Expenditure, pp. 902 and 911.—The table below, which can be reconciled directly with the Commonwealth Finance Statement, shows details of revenue and expenditure for the year 1964-65.

COMMONWEALTH CONSOLIDATED REVENUE FUND: REVENUE AND EXPENDITURE, 1964-65

(£'000)

Revenue		Expenditure	
Particulars	Amount	Particulars	Amount
Taxation—		Debt charges	71,277
Income tax—		Defence services	304,491
Individuals	785,262	War and repatriation services ..	119,517
Companies	354,522	National Welfare Fund—	
Dividend (withholding) ..	8,020	Expenditure on social services	445,183
Customs	134,240	Loan consolidation and investment reserve trust account ..	111,372
Excise	315,581	Business undertakings—	
Sales tax	181,428	Postmaster-General	127,162
Pay-roll tax	75,039	Broadcasting and television services	17,875
Estate duty	20,765	Railways	3,688
Other taxes	3,654		
<i>Total</i>	<i>1,878,511</i>	<i>Total</i>	<i>148,725</i>
Business undertakings—		Territories	47,903

COMMONWEALTH AND STATE FINANCE

Revenue and Expenditure, p. 945.—Preliminary information relating to Commonwealth and State revenue and expenditure during 1964-65 is given in the following table.

COMMONWEALTH AND STATE REVENUE AND EXPENDITURE, 1964-65 p

(£'000)

Government of—	Consolidated Revenue Fund		
	Revenue	Expenditure	Surplus (+) or deficit (-)
New South Wales	(a) 364,545	(a) 367,080	-2,535
Victoria	240,334	240,334	..
Queensland	133,570	135,608	-2,038
South Australia	107,090	108,401	-1,311
Western Australia	90,072	92,420	-2,348
Tasmania	37,423	38,232	-809
<i>Six States</i>	973,034	982,075	-9,041
Commonwealth	2,209,089	2,209,089	..
Grand Total—Unadjusted	3,182,123	3,191,164	-9,041
Adjusted(b)	2,793,407	2,802,448	-9,041

(a) Represents the combined transactions of the Consolidated Revenue Fund and the Business Undertakings—Railways, Tramways and Omnibuses and Sydney Harbour Section of the Maritime Services Board—included in the annual Budget Papers. Adjustments have been made to exclude duplications. (b) To avoid duplication in aggregating particulars for the Commonwealth and States, the grand totals have been adjusted to exclude State payments to the Commonwealth in respect of pay-roll tax and Commonwealth payments to the States included in State Consolidated Revenue Funds in respect of interest on State debts, special grants, financial assistance grants, special financial assistance, grants to universities, tuberculosis, capital expenditure and National Welfare payments. There are other relatively minor payments for which adjustments have not been made and the adjusted figures are therefore still slightly overstated.

GOVERNMENT SECURITIES ON ISSUE: COMMONWEALTH AND STATES

§ 2. Government Securities on Issue: Commonwealth and States

Securities on Issue and Annual Interest Payable, p. 947.—The following table shows details of the government securities on issue on account of the Commonwealth and States and the annual interest payable thereon at 30th June, 1965.

GOVERNMENT SECURITIES ON ISSUE AND ANNUAL INTEREST PAYABLE AT 30th JUNE, 1965: COMMONWEALTH AND STATES

Particulars	Currency in which repayable						Australian currency equivalent(a)		
	Australian currency	Sterling	United States dollars	Canadian dollars	Swiss francs	Netherlands guilders	German Deutsche marks	Total amount on issue	Total interest liability
	£A.'000	£Stg.'000	U.S. \$'000	Can. \$'000	Sw. fr. '000	f.'000	D.M.'000	£A.'000	£A.'000
Commonwealth ..	1,256,444	76,253	368,641	49,665	194,288	7,150	84,596	1,566,998	59,854
States ..	3,091,160	268,670	229,884	15,633	50,296	32,850	..	3,545,267	161,258

(a) Non-taxable companies having a taxable income have been made non-taxable by rebates of tax.
 (b) For non-taxable companies the figures shown in italics are the losses for year. (c) Special 20 per cent. deduction on new manufacturing plant available from 7th February, 1962.

NOTE.—Any discrepancies between totals and sums of components in the foregoing tables are due to rounding.

CHAPTER XXIII. RURAL INDUSTRY
AGRICULTURAL PRODUCTION

§ 2. Distribution, Production and Value of Crops

Distribution and Production, pp. 990-3.—The following table shows preliminary figures for the area and production of major crops in Australia during the season 1964-65.

AREA AND PRODUCTION OF CROPS: AUSTRALIA, 1964-65 p

Crop	Area	Production	Crop	Area	Production
Cereals for grain—			Industrial crops—		
Barley	2,064	49,315	Cotton	35	
Maize	213		Flax (for linseed) ..	133	46
Oats	3,497	70,403	Peanuts	52	
Rice	62	8,030	Sugar cane (for		
Sorghum	346	7,164	crushing)	470	15,070
Wheat	17,919	368,779	Tobacco	26	
Other	125		Other	232	
Total	24,226		Total	948	
		'000 tons	Potatoes	89	
Hay	2,784	4,958	Vineyards, orchards,		
Green fodder	5,613		etc.	745	
Grass seed	253		Grand Total ..	(a)34,658	

(a) Includes an estimate for particulars not yet available.

Total area of crops in each State and Territory during 1964-65 was:—New South Wales, 10,331,000 acres; Victoria, 6,476,000 acres; Queensland, 3,964,000 acres; South Australia, 5,964,000 acres; Western Australia, 7,505,000 acres; Tasmania, 404,000 acres; Northern Territory, 4,000 acres; Australian Capital Territory, 9,000 acres.

PASTORAL PRODUCTION

§ 1. Introduction

Livestock Numbers, p. 1044.—The following table shows, for each State and Territory, the numbers of livestock at 31st March, 1965.

LIVESTOCK NUMBERS, 31st MARCH, 1965 p

('000)

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	N.T.	A.C.T.	Aust.
Horses	158	56	201	(a) 24	37	7	36	1	(b) 520

OTHER RURAL INDUSTRIES: DAIRYING, POULTRY AND BEE-FARMING

§ 1. The Dairying Industry

Principal Dairy Products, pp. 1076 and 1084.—Particulars of the total production of these commodities in each State and the Australian Capital Territory during 1964-65 are shown below.

PRINCIPAL DAIRY PRODUCTS, 1964-65 p

Particulars	N.S.W.	Vic.	Q'land	S. Aust.	W. Aust.	Tas.	A.C.T.	Aust.(a)
Total whole milk								
'000 gals.	297,878	730,620	226,249	103,676	61,702	87,381	1,086	1,508,690
Butter(b) .. tons	29,948	111,282	32,832	7,687	7,809	13,906	..	203,464
Cheese(b) .. tons	4,129	27,270	8,493	17,338	1,783	2,344	..	61,357
Pigmeats .. tons	31,499	28,381	31,379	12,656	9,956	6,551	218	120,726

(a) Includes Northern Territory.

(b) Factory production only.

CHAPTER XXVI. MINERAL INDUSTRY

§ 4. Mining and Quarrying Commodity Statistics, § 18. Value of Production

Quantity and Value of Production, pp. 1147 and 1185.—In the following table particulars are given of the local value of production of metal and other mining for Australia in 1964, together with the quantities of the principal minerals produced during 1964.

MINERAL PRODUCTION: QUANTITIES AND VALUES, AUSTRALIA, 1964 p METALLIC MINERALS

Principal contents of metallic minerals produced								Local value of production—metal mining
Copper	Gold	Iron	Lead	Silver	Tin	Tungsten (a)	Zinc	
'000 tons	'000 fine oz.	'000 tons	'000 tons	'000 fine oz.	tons	tons	'000 tons	£'000
105	966	3,655	376	18,153	3,638	996	345	122,748

(a) In terms of WO₃ (tungstic oxide).

MINERAL PRODUCTION: QUANTITIES AND VALUES, AUSTRALIA, 1964 p
—continued

NON-METALLIC AND FUEL MINERALS

Quantities produced						Local value of production —non-metal and fuel mining
Coal		Asbestos	Gypsum	Limestone(a)	Salt	
Black	Brown					
'000 tons 27,402	'000 tons 19,033	short tons 13,545	tons 786,503	'000 tons 7,240	tons 545,433	£'000 88,110

(a) Excludes limestone used as a construction material.

§ 5. Gold, § 6. Lead, Silver and Zinc, § 7. Copper, § 8. Tin,
pp. 1150, 1158, 1161 and 1163

Smelter and refinery production of the principal metals treated in Australia during the year 1964 is shown below.

SMELTER AND REFINERY PRODUCTION OF PRINCIPAL METALS: AUSTRALIA, 1964

Refined gold	Refined silver (a)	Refined lead (a)	Lead content of lead bullion produced for export (a)	Refined zinc (a)	Refined copper (a)	Refined tin (a)
'000 fine oz. 1,053	'000 fine oz. 9,258	tons 203,101	tons 78,304	tons 185,531	tons 82,248	tons 3,021

(a) Source: Bureau of Mineral Resources.

CHAPTER XXVIII. REPATRIATION

§ 2. War Pensions, § 3. Service Pensions, pp. 1213-1218

The following table gives a summary of war and service pensions current at 30th June, 1965, and of the amounts paid in pensions during the year 1964-65.

WAR AND SERVICE PENSIONS: SUMMARY, 1964-65

Particulars	N.S.W.	Vic.	Qld	S.A.	W.A.	Tas.	Abroad	Total
Number of pensions in force at 30th June(a)—								
War pensions ..	223,269	186,563	98,446	63,831	55,881	27,101	4,297	659,388

CHAPTER XXX. MISCELLANEOUS

§ 4. Retail Trade

Value of Retail Sales in Each Commodity Group, Australia, p. 1246.—The following table shows the value of retail sales of goods in each of the commodity groups specified in the years 1960–61 to 1964–65 on a comparable basis throughout. The figures for the year 1961–62 were obtained from the census taken in respect of that year, whereas figures for the other years shown are estimates based on sample surveys.

VALUE OF RETAIL SALES: COMMODITY GROUPS, AUSTRALIA(a)

(£ million)

Commodity group	1960–61	1961–62	1962–63	1963–64 r	1964–65
Groceries	416.5	429.2	445.8	469.5	509.2
Butchers' meat	210.7	211.1	221.9	232.9	253.0
Other food(b)	352.6	365.0	381.6	395.9	423.7
<i>Total, Food and Groceries</i>	<i>979.8</i>	<i>1,005.3</i>	<i>1,049.3</i>	<i>1,098.3</i>	<i>1,185.9</i>
Beer, wine and spirits(c)	269.3	273.0	287.1	295.8	314.8
Clothing and drapery	450.4	450.0	464.0	504.3	534.4
Footwear	76.7	77.2	81.0	85.4	88.5
Hardware(d)	72.6	73.0	77.5	76.7	82.1
Electrical goods(e)	177.3	174.0	182.5	191.9	205.8
Furniture and floor coverings	117.0	115.0	122.1	134.8	148.8
Chemists' goods	121.5	132.9	142.1	152.9	167.3
Newspapers, books and stationery	80.1	83.2	85.9	95.1	100.9
Other goods(f)	241.8	245.0	257.9	274.7	295.2
<i>Total (excluding Motor Vehicles)</i>	<i>2,586.5</i>	<i>2,628.6</i>	<i>2,749.4</i>	<i>2,909.9</i>	<i>3,123.7</i>
Motor vehicles, parts, petrol, etc.(g)	824.9	801.5	988.5	1,079.4	1,155.5

(a) Excludes Northern Territory and Australian Capital Territory. (b) Includes fresh fruit and vegetables, confectionery, soft drinks, ice cream, cakes, pastry, cooked provisions, fish, etc., but excludes some delivered milk and bread. (c) Excludes sales made by licensed clubs. (d) Excludes basic building materials, builders' hardware, and supplies such as tools of trade, paint, etc. (e) Includes radios, television and accessories, musical instruments, domestic refrigerators, etc. (f) Includes tobacco, cigarettes, jewellery, sporting goods, etc., but excludes grain and produce and business machines. (g) Includes new and used motor vehicles, parts, petrol, etc., but excludes tractors, farm machinery and implements, earth-moving equipment, etc.

DECIMAL CURRENCY CONVERSION TABLES

As from 14th February, 1966, under the *Currency Act 1965*, a dollar/cent currency system, with one dollar equal to 100 cents, will operate in Australia (see pp. 809-11). To facilitate conversion of figures expressed in £ s. d. in this Year Book into dollars and cents, and for general use, conversion tables issued by the Decimal Currency Board are reproduced hereunder.

EXACT EQUIVALENTS TABLE
CONVERSION OF AMOUNTS OF £ s. d. TO DOLLARS AND CENTS

Pence	Cents*	Shillings	Cents	£ s. d.	\$
1	$\frac{1}{8}$ or .83333	1	10	10 0	1.00
2	$1\frac{3}{4}$ 1.66667	2	20	11 0	1.10
3	$2\frac{1}{2}$ 2.5	3	30	12 0	1.20
4	$3\frac{1}{4}$ 3.33333	4	40	13 0	1.30
5	$4\frac{1}{2}$ 4.16667	5	50	14 0	1.40
6	5 5	6	60	15 0	1.50
7	$5\frac{5}{8}$ 5.83333	7	70	16 0	1.60
8	$6\frac{3}{4}$ 6.66667	8	80	17 0	1.70
9	$7\frac{1}{2}$ 7.5	9	90	18 0	1.80
10	$8\frac{1}{4}$ 8.33333	10	100	19 0	1.90
11	$9\frac{1}{8}$ 9.16667	1 0 0	2.00
12	10 10

* Taken to nearest 5th decimal place.

The Exact Equivalents Table shows the relationships between pounds, shillings and pence, and dollars and cents as prescribed in the *Currency Act 1965*, namely:—

1 pound = 2 dollars 1 shilling = 10 cents 1 penny = $\frac{1}{8}$ ths of a cent

This table should be used where it is necessary to obtain exact equivalents in decimal currency of amounts expressed in £ s. d. For example, where rates or unit prices are expressed in £ s. d. in agreements between contracting parties, this table may be used to convert them to their exact equivalents in decimal currency.

BANKING AND ACCOUNTING TABLE
CONVERSION OF AMOUNTS OF £ s. d. TO DOLLARS AND WHOLE CENTS

Pence	Cents	Shillings	Cents	£ s. d.	\$
1	1	1	10	10 0	1.00
2	2	2	20	11 0	1.10
3	2	3	30	12 0	1.20
4	3	4	40	13 0	1.30
5	4	5	50	14 0	1.40
6	5	6	60	15 0	1.50
7	6	7	70	16 0	1.60
8	7	8	80	17 0	1.70
9	8	9	90	18 0	1.80
10	8	10	100	19 0	1.90
11	9	1 0 0	2.00
12	10

The Banking and Accounting Table converts £ s. d. amounts expressed in whole pence to decimal currency amounts expressed in whole cents. To convert an amount of £ s. d. to dollars and cents—multiply the pounds by two—to give dollars. Add the equivalent of the shillings and pence.

$$\begin{aligned}
 &\text{e.g., } \text{£}23 \text{ 17s. 10d.} \\
 &\quad \text{£}23 (\times 2) = \$46.00 \\
 &\quad \quad \quad 17\text{s. 10d.} = \$1.78 \text{ (from table)} \\
 &\quad \quad \quad \hline
 &\quad \text{£}23 \text{ 17s. 10d.} = \underline{\underline{\$47.78}}
 \end{aligned}$$

COMPREHENSIVE CONVERSION TABLE
CONVERSION OF AMOUNTS OF £ s. d. INTO DECIMAL CURRENCY TO
NEAREST WHOLE CENT

NOTE.—The Comprehensive Conversion Table is in no sense designed to give official direction as to how prices expressed in £ s. d. should be converted into dollars and cents after the changeover to decimal currency. The Decimal Currency Board has no authority to fix prices or other charges and the Comprehensive Conversion Table merely shows the nearest whole cent equivalent of various £ s. d. amounts expressed to the nearest halfpenny. The only exceptions are threepence and ninepence where the cent equivalent is shown as half a cent below the exact value in the case of the threepence and half a cent higher in the case of the ninepence. Because the Comprehensive Conversion Table in most cases gives approximations only, it is not suitable for converting unit rates or prices. It should be used only for converting the final balance of an account or the amount due for payment by a debtor.

Wimmera-Mallee Gravitation Channel System (Map)	13	562
Wireless Telegraphy	15	628
Wool Industry, Inquiry into	29	644
Workmen's Compensation Acts (Conspectus)	22	1028

* Also—1954–55, No. 43, p. 833; 1947–48, No. 39, pp. 977–8; 1938–39, No. 34, p. 451; 1924–25, No. 22, p. 695.

GENERAL INDEX*

NOTE.—This index is preceded by a list of the special articles, etc., which have appeared in previous issues of the Year Book. A list of the illustrations contained in this issue will be found on page ix. Area, population, etc., of particular localities are indexed under the locality concerned. Subject matter extending continuously over more than one page is indexed according to the first page only. *Where more than one reference to a subject is given, the chief reference, wherever it has been possible to determine it, is indicated by italic type. Two references to a subject so indicated signify major, and approximately equal, importance.*

	PAGE		PAGE
A			
"A" Series Retail Price Index	411	Agricultural allowances to returned soldiers ..	91
Aboriginal welfare	605	Bank, Tasmania—loans to settlers	96
Aboriginals .. 99, 299, 605, 606, 610, 615, 616,	618, 1321	Colleges	88, 725, 989, 1321
Academy of Science, Australian	762	Council, Australian	988

Printed Publications issued by the Central Office of the Commonwealth Bureau of Census and Statistics

NOTE.—The publications listed below may be bought from the Government Printer, Canberra, and in each capital city from the Deputy Commonwealth Statistician and the Commonwealth Sub-Treasurer. They may also be ordered through the leading booksellers in the principal cities of Australia. In addition to printed publications, a number of mimeographed publications are available in limited numbers free of charge. Publications dealing with individual States only are produced by the Deputy Commonwealth Statistician in each State. A complete list of publications issued by the Bureau is given in *Publications of the Commonwealth Bureau of Census and Statistics* (with subject index) available from the Commonwealth Statistician, Canberra.
