

Yearbook of Statistics Singapore 2019

YEARBOOK OF STATISTICS SINGAPORE, 2019 ISSN 2591-7919

© Department of Statistics, Ministry of Trade & Industry, Republic of Singapore

Reproducing or quoting any part of this publication is permitted, provided this publication is accredited as the source. Please refer to the Statistics Singapore Website Terms of Use (www.singstat.gov.sg/terms-of-use) for more details on the conditions of use of this publication.

Statistical activities conducted by the Singapore Department of Statistics are governed by the provisions of the Statistics Act (Cap. 317). The Act guarantees the confidentiality of information collected from individuals and companies. It spells out the legislative authority and responsibility of the Chief Statistician. The Act is available in the Department's Website (www.singstat.gov.sg).

The "Yearbook of Statistics Singapore 2019" is the fifty-second edition of an annual flagship publication by the Singapore Department of Statistics (DOS). It provides a comprehensive and current statistical record of the key socio-demographic and economic characteristics of Singapore. Through this publication, users are able to gain a snapshot of the Singapore economy and population based on the latest available information.

Improvements are continually made to the Yearbook to enhance its value to users. New data series on topics of interest are added as and when appropriate. The Yearbook currently contains 275 tables organised into 27 chapters.

In addition to the Yearbook, the Department disseminates official statistics on Singapore through a range of electronic and mobile services. These include the Statistics Singapore website, SingStat mobile application and SingStat Express. Users may download softcopies of statistical publications via the SingStat website for free. For users with specific data requirements, the Department's Statistical Information Services offer personalised assistance on a cost-recovery basis.

The data series in the Yearbook are compiled by DOS as well as other government ministries and departments, statutory boards and private organisations. I would like to extend my deep appreciation to all the organisations that have contributed to the success of this publication. I look forward to your continued readership and support.

Wong Wee Kim Chief Statistician Singapore

Aug 2019

Our Vision

National Statistical Service of Quality, Integrity and Expertise

Our Mission

We deliver Insightful Statistics and Trusted Statistical Services that Empower Decision Making

Our Guiding Principles

Professionalism

& Expertise

We adhere to professional ethics and develop statistical competency to produce quality statistics that comply with international concepts

and best practices.

Relevance & Reliability

We produce statistics that users need and trust.

Accessibility

We make our statistics readily available through user-friendly

platforms.

Confidentiality

We protect the confidentiality of information collected by us.

Timeliness

We disseminate statistics at the earliest possible date while

maintaining data quality.

Innovation

We constantly seek ways to improve our processes, leveraging on new technology where feasible, to deliver better products and services to users.

Collaboration

We engage users on data needs, data providers and respondents on

supply of data, and undertake the role of national statistical

coordination.

Effectiveness

We optimise resource utilisation, leveraging on administrative and

alternative data sources to ease respondent burden.

NOTES

The Yearbook of Statistics contains statistics that are the most recent available at the time of its preparation.

Numbers may not add up to the totals due to rounding.

Some statistics, particularly those for the most recent time periods, are provisional and may be subject to revision in later issues.

Values are shown in Singapore dollars (unless otherwise stated).

Notes on Changes & Revisions

To maintain currency and relevance of the Yearbook of Statistics Singapore, new series are added and existing series are replaced. In this edition, changes have been incorporated in the following tables:

Addition of New Table

Climate and Air Quality

Climate and Air Quality

Geography

The Republic of Singapore is located between latitudes 1° 09'N and 1° 29' N and longitudes 103° 36' E and 104° 25' E.

The main island of Singapore is about 49km from east to west and 25km from north to south with a coastline of 203km. The total land area of Singapore is approximately 722.5km² as at end June 2018. Among the smaller islands, the larger ones are Pulau Tekong (25.5km²), Pulau Ubin (10.2km²) and Sentosa (4.8km²). The figures are based on 2.515m High Water Mark cadastral survey boundaries.

Singapore is generally flat, with much of the island lying within 15 m of sea level. The highest point of the island's surface reaches 163 m.

Singapore can be geographically divided into three major areas — the central hilly area with heavy deposits of granite in Bukit Timah, Bukit Panjang, Bukit Mandai and Bukit Batok; the western undulating area comprising Mount Faber Ridge and Pasir Panjang Ridge; and the eastern coastal area consisting of alluvium and sediment stretches from Katong to Bedok and Changi.

Climate 📈

Singapore has a tropical climate, with relatively uniform temperature, abundant rainfall and high humidity. The climate is characterised by two monsoon seasons — the Northeast Monsoon (December to early March) and the Southwest Monsoon (June to September) separated by inter-monsoonal periods.

The early part of the Northeast Monsoon is the wetter period of the year when monsoon surges occur. Afternoon thunderstorms are common throughout the year, especially during the inter-monsoonal periods.

During the Southwest Monsoon and inter-monsoonal periods, widespread heavy rain and gusty winds associated with Sumatra squalls occur occasionally.

Singapore's 1981-2010 long-term average daily temperature is 27.5°C, with an average daily maximum and minimum of 31.5°C and 24.7°C respectively. The long-term average annual rainfall is 2,166mm.

Air Pollution

The ambient air quality in Singapore is monitored by the National Environment Agency (NEA) through the Telemetric Air Quality Monitoring and Management System. The system comprises remote air monitoring stations linked to a Data Management System.

The air quality can be described as 'Good', 'Moderate', 'Unhealthy', 'Very unhealthy' or 'Hazardous' from the Pollutant Standards Index (PSI) reading. The PSI is computed based on six key air pollutant parameters: Sulphur Dioxide (SO_2), Particulate Matter (PM_{10} and $PM_{2.5}$), Nitrogen Dioxide (NO_2), Carbon Monoxide (CO) and Ozone (O_3).

Air quality in 2018 was not affected by transboundary haze and was in the 'Good' and 'Moderate' range throughout the year.

An annual summary of Singapore's air quality is available in the "Key Environmental Statistics" report, published by the Ministry of the Environment and Water Resources (MEWR).

1.1 AIR TEMPERATURE AND SUNSHINE

| | Unit | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 |

Singapore's Air Quality Targets by 2020 Notes:

Singapore Sustainable Blueprint Target: Sulphur Dioxide ≤ 15 μg/m³ (annual mean)

World Health Organisation (WHO) Interim Target-2: Sulphur Dioxide ≤ 50 μg/m³ (24-hour mean)

WHO Air Quality Guideline: Nitrogen Dioxide ≤ 40 µg/m³ (annual mean)

 \leq 200 µg/m³ (1-hour mean)

WHO Air Quality Guideline: PM_{10} (Particulate Matter \leq 10 microns) \leq 20 $\mu g/m^3$ (annual mean)

≤ 50 µg/m³ (99th Percentile 24-hour mean)

Singapore Sustainable Blueprint Target: $PM_{2.5}$ (Particulate Matter \leq 2.5 microns) \leq 12 μ g/m³ (annual mean)

WHO Interim Target-3: $PM_{2.5}$ (Particulate Matter \leq 2.5 microns) \leq 37.5 µg/m³ (99th Percentile 24-hour mean)

WHO Air Quality Guideline: Carbon Monoxide ≤ 10 mg/m³ (8-hour mean)

 \leq 30 mg/m³ (1-hour mean)

WHO Air Quality Guideline: Ozone ≤ 100 µg/m³ (Maximum 8-hour mean)

PM₁₀, PM_{2.5} and Carbon Monoxide levels in 2013 and 2015 were severely affected by transboundary smoke haze from overseas land and forest fires.

Population

Population

Population Census

Singapore's first census was undertaken in April 1871. Regular censuses were undertaken at ten-year intervals up to 1931. The Second World War delayed the next census until 1947. In the pre-war censuses, Singapore was included as part of the Straits Settlements and later as part of Malaya. Separate censuses for Singapore carried out since 1947. The were post-independence census was conducted in 1970. Subsequently, censuses were undertaken at ten-year intervals in 1980, 1990, 2000 and 2010.

In the 1990 and earlier censuses, the population comprised Singapore citizens and permanent residents who were present and enumerated in Singapore on Census Singapore citizens and permanent residents who were away for short periods of time during the census, as well as non-residents staying or working in Singapore were also included.

From the 2000 census onwards, the de jure concept for Singapore's population estimates based on a person's place of usual residence was adopted. Under this concept, Singapore residents (comprising Singapore citizens and permanent residents) with local addresses were included in the total population count. The non-resident population, comprising foreigners who were working, studying or living in Singapore but not granted permanent residence, was also included in population count. The transient the total population such as tourists and short-term visitors was excluded. For the 2010 census, Singapore residents who were away from Singapore for a continuous period of 12 months or longer were also excluded.

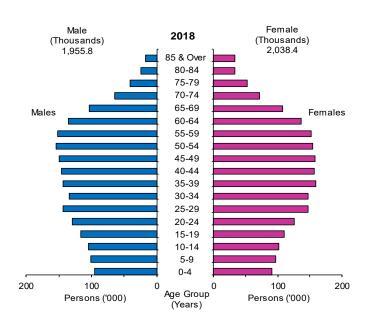

Singapore conducted the first mid-decade mini-census (General Household Survey) in 1995. Subsequent General Household Surveys were conducted in 2005 and 2015.

Register-based Population Estimates

Singapore's mid-year population estimates have been compiled using the register-based approach since 2000, where the basic count and profile of the population are based on a person's place of usual residence i.e. de jure concept. The total population comprises Singapore residents (i.e. Singapore citizens and permanent residents) and non-residents. From 2003 onwards, Singapore residents who were away for a continuous period of 12 months or longer were excluded.

Age Pyramid of Resident Population, end-June 2018

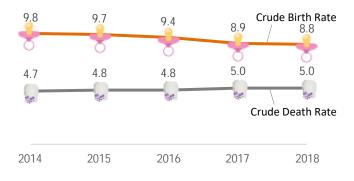

The Registration of Births and Deaths Act (Cap 267) specifies that a birth must be registered within 42 days of the date of birth. Births registered after 42 days from occurrence are classified as late registrations. A birth registration after one year from the date of birth can only be effected with the written authority of the Registrar-General of Births and Deaths. Under the same Act, a death must be registered within three days of its occurrence. Still-births, which are classified separately from births and deaths, must be registered within 14 days of their occurrence.

Registration facilities for births and deaths are available at the Registry of Births and Deaths (RBD) and at designated government hospitals. Deaths and still-births can also be registered at the nearest Police Divisional Headquarter, Neighbourhood Police Centre or Neighbourhood Police Post. The registration system is comprehensive and the records of birth and death statistics are virtually complete.

Measures of natality and mortality include the crude birth and crude death rates. From 1980 onwards, these are respectively defined as the number of live-births and deaths of Singapore residents, per thousand mid-year resident population.

Crude Birth Rate and Crude Death Rate

(per 1,000 residents)

Marriages A

Registration of marriages is compulsory in Singapore. Civil marriages are marriages registered under the Women's Charter, 1961. Notices of such marriages have to be lodged with the Registrar of Marriages regardless of the venue of solemnisation.

Registration of Muslim marriages in Singapore became compulsory from 1 July 1909 when the Mohammadan Marriage Ordinance, 1908 (Ordinance No.XXV of 1908) was enacted. This Ordinance was subsequently repealed and replaced by the Administration of Muslim Law Act, 1966.

Total Marriages, 2018

Divorces and Annulments

Statistics on divorces and annulments under the Women's Charter are obtained from records maintained by the Family Justice Courts.

Statistics on divorces under the Administration of Muslim Law Act are obtained from the register of divorces kept by the Syariah Court. The records on revocation of divorces are obtained from the Registry of Muslim Marriages.

Time-dependent variables relating to divorces and annulments found in this publication, such as the duration of marriage and age of divorcees, are based on the date when Interim Judgment was made final for civil divorces, and the date of registration for Muslim divorces.

Total Divorces and Annulments Registered, 2018

Definitions

Age-specific fertility rate: Refers to the number of live-births to females in a particular age group, per thousand females in that age group during the period.

Total fertility rate (TFR): Refers to the average number of live-births each female would have during her reproductive years if she were subject to the prevailing age-specific fertility rates in the population in a given year. It is derived by aggregating the age-specific fertility rates of females in each of the reproductive ages for a specific year.

Gross reproduction rate: Refers to the average number of daughters each female would have during her reproductive years if she were subject to the prevailing age-specific fertility rates in the population in a given year.

Net reproduction rate: Refers to the average number of daughters each female would have during her reproductive years if she were subject to the prevailing age-specific fertility and mortality rates in the population in a given year. It is a refinement of the gross reproduction rate, and is also the measure of replacement of population.

Life expectancy: Refers to the average number of additional years which a person at a specific age (such as at birth or at age 65 years) might expect to live, if he or she were to experience the age-specific mortality rates of the reference period throughout his or her lifetime.

Age-specific marriage rate: Refers to the number of marriages registered within a specific age group during the year, out of every thousand unmarried population in the same age group.

Age-specific divorce rate: Refers to the number of divorces and annulments granted within a specific age group during the year, out of every thousand married population in the same age group.

General marriage rate: Refers to the number of marriages registered among persons aged 15-49 years during the year, out of every thousand unmarried population in the same age group.

General divorce rate: Refers to the number of divorces and annulments granted to married persons aged 20 years and over during the year, out of every thousand married population in the same age group.

Other References

Statistics on births and deaths are compiled and published quarterly in the "Singapore

<u>Demographic Bulletin</u>" produced by RBD. RBD also publishes the annual "<u>Report on Registration of Births and Deaths</u>", which provides the demographic and socio-economic characteristics of parents and characteristics of births, detailed causes of death, together with statistical tables and charts.

Complete life tables and key trends in life expectancies for the Singapore resident population are available in the annual statistical report "Complete Life Tables for Singapore Resident Population" published by the Singapore Department of Statistics (DOS).

Annual data on marriages and divorces are available in the report "Statistics on Marriages and Divorces" published by DOS. This publication analyses annual marriage trends and the socio-economic characteristics of grooms and brides, as well as provides insights into the nature of divorces and the socio-economic characteristics of divorcees.

Demographic statistics are available in the annual report "Population Trends" published by DOS. Statistical analyses of Singapore's changing population profiles can also be found in the publication.

Key Indicators in 2018

Total Fertility Rate was **1.14** per female

Infant Mortality Rate was 2.1 per 1,000 live-births

Life Expectancy at Birth was ...

81.0 years for male residents

85.4 years for female residents

83.2 years for total residents

Notes: Data from 1990 onwards are based on de jure concept (i.e. the person's place of usual residence).

Data from 2000 onwards are based on the register-based approach.

Data from 2003 onwards exclude residents who have been away from Singapore for a continuous period of 12 months or longer as at the reference period.

- Total population comprises Singapore residents and non-residents. Resident population comprises Singapore citizens and permanent residents. Non-resident population comprises foreigners who were working, studying or living in Singapore but not granted permanent residence, excluding tourists and short-term visitors.
- 2 For 1990 and 2000, growth rate refers to the annualised change over the last ten years. From 2010, growth rate refers to the change over the previous year.
- 3 The growth rate is computed using population estimates based on de facto concept (i.e. the person is present in the country when enumerated at the reference period).

Registry of Muslim Marriages

Notes: Total includes divorces or annulments where the ethnic group of males or females was not reported.

- 1 Comprises male and female divorcees of the same ethnicity from other ethnic groups besides Chinese and Indians, namely Malays, Eurasians, Caucasians and other ethnicities as one single 'Others' group.

 E.g. Eurasian-Eurasian, Caucasian-Caucasian, Others-Others.
- Refers to divorces or annulments where both the male and female divorcees are of different ethnicity.
 E.g. Indian-Chinese, Eurasian-Caucasian, Chinese-Malay, Chinese-Others.
- 3 Comprises Muslim male and female divorcees of the same ethnicity from other ethnic groups besides Malays and Indians, namely Chinese, Eurasians, Caucasians, and other ethnicities as one single 'Others' group.

 E.g. Eurasian-Eurasian, Caucasian-Caucasian, Others-Others.
- 4 Refers to divorces where both the male and female divorcees are of different ethnicity. E.g. Malay-Indian, Malay-Chinese, Indian-Others.

Households

3

Households

Household: Refers to (i) a group of two or more persons living together in the same house and sharing common food or other essential arrangements for living; or (ii) a person living alone or a person living with others but having his own food or other essential arrangements for living. Although persons may be living in the same house, they may not be members of the same household.

Resident household: Refers to a household headed by a resident (i.e. Singapore citizen or permanent resident).

Resident employed household: Refers to a resident household with at least one working person.

Household size: Refers to the total number of members in the household, including domestic workers.

Household Income from Work

Household income from work: Refers to the sum of income received by working members of the household from employment and business. However, it does not include the income of domestic workers. Household income from work includes one-twelfth of the annual bonus. Data on household income from work refer to household income from work before accounting for Government transfers and taxes, unless stated otherwise.

As the income data pertain to income from work, the coverage of households is based on resident employed households.

Household income from work per household member: Refers to the household income from work divided by the total number of members in the household. For example, if there is one person in a household of four who is working, his income is divided by four to derive the income per household member. This takes into account the different

sizes of households in each group and enables analysis of changes in household income, adjusted for changes in household size over time.

Household Income Groups (1983)

Data on household income by income groups are derived by first ranking, in ascending order, all resident employed households by their monthly household income from work per household member, and then dividing them into ten equal groups or deciles.

Not all households are consistently in the same decile group from one year to the next. For example, an employed household may move down from a higher decile in a particular year due to the temporary unemployment of a household member, before moving up the deciles when the member resumes work in the subsequent year.

It is therefore notable that, in comparing the performance of any particular decile group over time, the comparison may not pertain to the same group of households within the particular decile.

Household Income Distribution

Percentile ratio: A measure of the spread of incomes across the population. P90 refers to the income level at the 90th percentile. P10 refers to the income level at the 10th percentile.

Gini coefficient: A summary measure of income inequality. It is equal to zero in the case of total income equality and equal to one in the case of total inequality. The more unequal the income distribution, the larger the value of the Gini coefficient.

Internationally, the computation methods adopted vary across countries, although the basic concept of the Gini coefficient remains the same. One major difference is in the equivalence scale adopted. Equivalence scales take into account economies of scale within the household, and

adjust for household size so that households of different sizes and compositions are comparable. There are different scales used by different countries and international organisations.

The simplest method of adjusting for differences in household size is to divide household income by the number of members in the household, and present household income on a per household member basis.

For example, a household of four having income from work of \$4,000 would have \$1,000 on a per member basis.

There are more complex methods of adjusting for differences in household size. Commonly used equivalence scales include the modified Organisation of Economic Co-operation and Development (OECD) scale and the square root scale.

The modified OECD scale assigns the first adult in the household a weight of 1 point, and each additional adult a weight of 0.5 points and each child a weight of 0.3 points. Equivalised household income is derived by dividing the total household income by the sum of the points allocated to the household members.

For example, a household comprising two adults and two children would have a sum total of 2.1 points. If the household has income from work of \$4,000, then the equivalised household income would be \$1,905 (i.e. \$4,000 divided by 2.1).

Another method is the square root scale, which is used by OECD in its major reports on income inequality. The square root scale divides household income by the square root of household size.

For example, based on the square root scale, a household of four having income from work of \$4,000 would have an equivalised household income of \$2,000 (i.e. \$4,000 divided by the square root of 4).

Government Transfers and Taxes

The Government transfers and taxes included in different years are subject to scheme design and data availability. For example, data on workfare-related payment starts from 2006, when the scheme was first introduced in 2006 as workfare bonus and subsequently as the workfare income supplement scheme. As more administrative data on transfers or taxes become available, the coverage for Government transfers or taxes would be expanded to include them. The full list of Government transfers and taxes included for the relevant years is available in the annual paper on "Key Household Income Trends" published by the Singapore Department of Statistics (DOS).

Other References

The annual report on "Population Trends" published by DOS contains data on households and housing, among other demographic statistics. Statistical analyses of Singapore's changing population profiles are also included in the publication.

Data on household income from work are available in the annual paper on "<u>Key Household Income Trends</u>". The paper highlights key trends in household income from work and presents the impact of Government transfers and taxes on household income.

3.6 MONTHLY HOUSEHOLD INCOME FROM WORK PER HOUSEHOLD MEMBER 1 AMONG RESIDENT EMPLOYED HOUSEHOLDS 2

| | | | | | | | Dollars |
|--------------------------------------|-------|-------|-------|-------|-------|-------|---------|
| | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 |
| Median (50 th Percentile) | 2,127 | 2,247 | 2,380 | 2,500 | 2,584 | 2,699 | 2,792 |
| 20 th Percentile | 1,020 | 1,083 | 1,167 | 1,242 | 1,280 | 1,311 | 1,359 |

Notes: Data are based on the sample of households surveyed in the mid-year Comprehensive Labour Force Surveys. Household income from work includes employer Central Provident Fund (CPF) contributions.

- 1 Refers to the household income from work divided by the total number of members in the household. For example, if there is one person in a household of four who is working, his income is divided by four to derive the income per household member.
- 2 Refers to a household headed by a resident (i.e. Singapore citizen or permanent resident) and with at least one working person.

3.7 AVERAGE MONTHLY HOUSEHOLD INCOME FROM WORK PER HOUSEHOLD MEMBER ¹
AMONG RESIDENT EMPLOYED HOUSEHOLDS ² BY DECILES

| AWONG RESIL | DEINT EIVII EOTED | HOOSEHOLD. | DI DECILE | 3 | | | Dollars |

| Total | 3,142 | 3,204 | 3,418 | 3,624 | 3,688 | 3,835 | 3,969 |
| 1 st - 10 th | 440 | 463 | 494 | 541 | 543 | 554 | 570 |
| 11 th - 20 th | 856 | 896 | 971 | 1,040 | 1,064 | 1,093 | 1,124 |
| 21 st - 30 th | 1,200 | 1,268 | 1,353 | 1,446 | 1,483 | 1,528 | 1,583 |
| 31^{st} - 40^{th} | 1,547 | 1,633 | 1,747 | 1,857 | 1,892 | 1,958 | 2,033 |
| 41 st - 50 th | 1,917 | 2,033 | 2,155 | 2,274 | 2,339 | 2,434 | 2,522 |
| 51 st - 60 th | 2,355 | 2,483 | 2,627 | 2,780 | 2,864 | 2,994 | 3,082 |
| 61 st - 70 th | 2,893 | 3,039 | 3,217 | 3,409 | 3,521 | 3,670 | 3,804 |
| 71 st - 80 th | 3,658 | 3,837 | 4,060 | 4,276 | 4,438 | 4,629 | 4,833 |
| 81 st - 90 th | 5,004 | 5,192 | 5,524 | 5,804 | 5,958 | 6,279 | 6,559 |
| 91 st - 100 th | 11,552 | 11,198 | 12,032 | 12,816 | 12,773 | 13,215 | 13,581 |

Notes: Data are based on the sample of households surveyed in the mid-year Comprehensive Labour Force Surveys. Household income from work includes employer Central Provident Fund (CPF) contributions.

- 1 Refers to the household income from work divided by the total number of members in the household. For example, if there is one person in a household of four who is working, his income is divided by four to derive the income per household member.
- 2 Refers to a household headed by a resident (i.e. Singapore citizen or permanent resident) and with at least one working person.
- 3 Based on the ranking of all resident employed households by their monthly household income from work per household member (including employer CPF contributions).

It is notable, for example, that some resident employed households in the lowest 10% owned a car (11.3%), employed a maid (11.8%), lived in private property (7.0%) or were headed by persons aged 60 years and over (44.8%) in 2018.

It is also important to recognise that not all households are consistently in the same decile group from one year to the next. For example, an employed household may move down from a higher decile in a particular year due to the temporary unemployment of a household member, before moving up the deciles when the member resumes work in the subsequent year.

In comparing the performance of any particular decile group over time, it is therefore relevant to note that the comparison may not pertain to the same group of households.

3.8 RATIO OF MONTHLY HOUSEHOLD INCOME FROM WORK PER HOUSEHOLD MEMBER ¹ AT THE 90TH PERCENTILE (P90) TO 10TH PERCENTILE (P10) AMONG RESIDENT EMPLOYED HOUSEHOLDS ²

| | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 |
|--|------|------|------|------|------|------|------|
| P90/P10 Ratio of Household Income from Work Per Household Member ³ | 9.14 | 9.00 | 8.92 | 8.65 | 8.67 | 8.97 | 9.14 |
| P90/P10 Ratio of Household Income from Work Per Household Member After Accounting for Government Transfers and Taxes ^{4,5} | 6.37 | 5.91 | 5.98 | 5.78 | 5.71 | 5.82 | 5.98 |

Notes: Data are based on the sample of households surveyed in the mid-year Comprehensive Labour Force Surveys. Household income from work includes employer Central Provident Fund (CPF) contributions.

- 1 Refers to the household income from work divided by the total number of members in the household. For example, if there is one person in a household of four who is working, his income is divided by four to derive the income per household member.
- 2 Refers to a household headed by a resident (i.e. Singapore citizen or permanent resident) and with at least one working person.
- 3 Based on ranking of all resident employed households by their monthly household income from work per household member (including employer CPF contributions).
- 4 Based on ranking of all resident employed households by their monthly household income from work per household member (including employer CPF contributions) after accounting for Government transfers and taxes.
- 5 Updated as at 20 Feb 2020. As more administrative data on transfers or taxes become available, the coverage for Government transfers and taxes has been expanded to include them.

3.9 GINI COEFFICIENT AMONG RESIDENT EMPLOYED HOUSEHOLDS 2

| | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 |
|---|-------|---------|---------|------------------------------|--------|---------|-------|
| | | | Househo | old Income fro | m Work | | |
| Based on Per Household Member ³ | 0.478 | 0.463 | 0.464 | 0.463 | 0.458 | 0.459 | 0.458 |
| Based on Modified OECD Scale ⁴ | 0.457 | 0.442 | 0.444 | 0.440 | 0.435 | 0.437 | 0.435 |
| Based on Square Root Scale ⁵ | 0.435 | 0.421 | 0.425 | 0.415 | 0.410 | 0.417 | 0.412 |
| | | After A | | old Income fro Government | _ | d Taxes | |
| Based on Per Household Member ^{3, 6} | 0.432 | 0.409 | 0.411 | 0.409 | 0.401 | 0.402 | 0.403 |
| Based on Modified OECD Scale ^{4, 6} | 0.410 | 0.388 | 0.392 | 0.386 | 0.379 | 0.382 | 0.380 |
| Based on Square Root Scale ^{5, 6} | 0.383 | 0.363 | 0.369 | 0.357 | 0.350 | 0.357 | 0.354 |

Notes: Data are based on the sample of households surveyed in the mid-year Comprehensive Labour Force Surveys. Household income from work includes employer Central Provident Fund (CPF) contributions.

- 1 Internationally, there are differences in computation methods adopted by different countries, although the basic concept of Gini remains the same. One major difference is in the equivalence scale adopted. Equivalence scales take into account economies of scale within the household, and adjust for household size so that households with different sizes and compositions are comparable. There are different scales used by different countries and international organisations.
- 2 Refers to a household headed by a resident (i.e. Singapore citizen or permanent resident) and with at least one working person.
- 3 Refers to the household income from work divided by the total number of members in the household. For example, if there is one person in a household of four who is working, his income is divided by four to derive the income per household member. The per household member scale is used by economies such as Hong Kong and Japan.
- 4 The modified Organisation of Economic Co-operation and Development (OECD) scale assigns the first adult in the household a weight of 1 point, and each additional adult a weight of 0.5 points and each child a weight of 0.3 points. Equivalised household income is derived by dividing the total household income by the sum of the points allocated to all the household members.
 - The modified OECD scale is used by Eurostat, the United Kingdom and Australia.
- 5 Based on the ranking of individuals by their household income on a 'per equivalised member basis' (i.e. household income is divided by square root of household size). This follows the approach adopted in the OECD 2015 report "Income Inequality: The Gap between Rich and Poor".
 - In following this approach, individuals such as children and maids would also be ranked. It is also noted that some OECD countries publish their own Gini using a different equivalence scale, and not the square root scale.
- 6 Updated as at 20 Feb 2020. As more administrative data on transfers or taxes become available, the coverage for Government transfers and taxes has been expanded to include them.

Labour Force

Labour force data are based on the mid-year Labour Force Surveys conducted by the Ministry of Manpower (MOM) every year except for 1990, 1995, 2000 and 2005 which are based on the Censuses of Population and the mid-decade General Household Surveys conducted by the Singapore Department of Statistics. The data refer to persons aged fifteen years and over. The reference period refers to the week preceding the date of interview.

Labour Force,

Employed Persons: Refer to persons aged fifteen years and over who, during the reference period: (i) work for one hour or more either for pay, profit or family gains; or (ii) have a job or business to return to but are temporarily absent because of illness, injury, breakdown of machinery at workplace, labour-management dispute or other reasons. Members of the Singapore Armed Forces including full-time National Servicemen are included as persons employed, unless otherwise specified.

Unemployed Persons: Refer to persons aged fifteen years and over who are not working but are actively looking for a job and available for work during the reference period. They include persons who are not working but are taking steps to start their own business or taking up a new job after the reference period.

Persons In The Labour Force: Refer to persons aged fifteen years and over who are either employed or unemployed during the reference period.

Persons Outside The Labour Force: Refer to persons aged fifteen years and over who are neither employed nor unemployed during the reference period.

Age-Sex Specific Labour Force Participation Rate: Refers to the percentage of the labour force to the population in the specific sex and age group.

Unemployment Rate: Refers to the percentage of unemployed persons to the labour force.

Total Unemployment Rate (Seasonally Adjusted) in June 2018

Labour Productivity: Measures output per unit of labour input. Value-added (VA) is generally used as the measure of output, while labour input may be measured by number of employed persons or hours worked per employee.

Gross Monthly Income From Work: Refers to income earned from employment. employees, it refers to the gross monthly wages salaries before deduction of employee CPF contributions and personal income tax. It comprises basic wages, overtime pay, commissions, tips, other allowances and one-twelfth of annual bonuses. For self-employed persons, gross monthly income refers to the average monthly profits from their business, trade or profession (i.e. total receipts less business expenses incurred) before deduction of income tax.

Average Monthly Recruitment Rate during a *quarter*: Refers to the average number of persons recruited in a month during the quarter divided by the average number of employees in the establishment. The annual figures are the simple averages of the quarterly figures.

Average Monthly Resignation Rate during a quarter: Refers to the average number of persons who resigned in a month during the quarter divided by the average number of employees in the establishment. The annual figures are the simple averages of the quarterly figures.

Hours Worked

Statistics on weekly hours worked are compiled from the Labour Market Survey conducted by MOM. Prior to 2006, the survey covered private establishments with at least 25 employees. From 2006 onwards, the survey also includes the public sector comprising government ministries, organs of state and statutory boards.

Definitions

Weekly Paid Hours: Refer to the total number of paid hours worked during a week by an employee. It is the sum of standard hours and paid overtime hours worked.

Singapore Workforce Skills Qualifications

Workforce Skills The Singapore Qualifications (WSQ) is a national credential system that trains, develops, assesses and certifies skills and competencies for workforce. As a continuing education and training (CET) system, WSQ supports the SkillsFuture movement in (i) promoting recognition of skills and competencies to facilitate progression, mastery and mobility; (ii) promoting holistic development of the workforce through technical and generic skills competencies; and (iii) supporting economic development professionalising skills and competencies to drive industry transformation, productivity and innovation efforts: encouraging and (iv) lifelong learning.

Training programmes developed under WSQ are based on skills and competencies

validated by employers, unions and professional bodies. This process ensures existing and emerging skills and competencies that are in demand are used for training and development. With the roll-out of the Skills Frameworks in 2016, the WSQ also adopts the skills and competencies covered in the Skills Frameworks. The WSQ programmes are funded quality-assured by SkillsFuture Singapore, which awards the WSQ certifications.

Employment Assistance

Singapore citizens and permanent residents may seek employment assistance at the Workforce Singapore (WSG)'s Careers Connect or National Trades Union Congress (NTUC)'s Employment and Employability Institute centres. Statistics on new registrants for employment and/ or training assistance and job seekers placed into employment are compiled by WSG.

Multifactor Productivity

Multifactor productivity relates output to a set of combined inputs, usually labour and capital. A change in multifactor productivity reflects the change in output that cannot be accounted for by the change in combined inputs. Multifactor productivity therefore measures the effects of changes such as technological progress and changes in the organisation of production.

Unit Labour Cost

Unit Labour Cost (ULC) is defined as the average cost of labour per unit real output. Total labour cost consists of Compensation of Employees received by the employees, labour income of the self-employed, labour-related costs (for example, Foreign Worker Levy and net training costs) incurred by the employers and wage subsidies (for example, Wage Credit Scheme and Jobs Credit Scheme) that are provided to the

employers. Wage subsidies reduce labour costs to employers, and are netted off from total labour cost.

Central Provident Fund

The Central Provident Fund (CPF) is a comprehensive social security system that enables Singapore Citizens and Permanent Residents to set aside funds for retirement. It also addresses members' housing and healthcare needs.

The employer is liable to pay the total CPF contributions, and is entitled to recover the employee's contribution from the employee's wages. With effect from 1 January 2016, the CPF salary ceiling is \$6,000.

The CPF contribution rates for various age groups ¹, are as follows:

| Employee's Age | <u>Employer</u> | <u>Employee</u> | <u>Total</u> |
|------------------|-----------------|-----------------|--------------|
| | (Percent | of Monthly W | age) |
| ≤ 55 years | 17.0 | 20.0 | 37.0 |
| > 55 to 60 years | 13.0 | 13.0 | 26.0 |
| > 60 to 65 years | 9.0 | 7.5 | 16.5 |
| > 65 years | 7.5 | 5.0 | 12.5 |

All CPF members have three accounts with the CPF Board - the Ordinary, MediSave and Special Accounts. Savings in the Ordinary used to buy a home, Account can be pay for insurance premiums (namely the Dependants' Protection Scheme and Home Protection Scheme), or withdrawn for investment and education. MediSave savings can be used for

Hospitalization expenses, approved medical insurance and certain outpatient treatments while savings in the Special Account are reserved for retirement needs.

From the age of 55, a Retirement Account is created for all CPF members. This account, comprising monies transferred from his Special and/or Ordinary Accounts, is used to provide monthly payments for the member during retirement. With three levels of retirement sums -Basic, Full and Enhanced, members now have more options to decide on the amount of savings to set aside, depending on the amount of monthly payouts they wish to receive in their retirement. Members aged 55 years old and above can also withdraw CPF savings after setting aside the Full Retirement Sum or Basic Retirement Sum with sufficient property charge/ their Retirement pledge in Account.

Labour Relations

Concepts and Definitions

Trade Union: Refers to a group or association of employees or employers whose principal objective is to regulate relations between employees and employers for all or any of the following purposes:

- Promote good industrial relations between employers and employees;
- Improve the working conditions of employees or enhance their economic and social status; and
- Raise productivity for the benefit employees, employers the and economy of Singapore.

Trade Dispute: A dispute (including a threatened, impending or probable dispute) on industrial matters.

¹ For employees earning \$750 and above in monthly wages

Collective Agreement: Refers to an agreement between employers and employees on industrial matters. The duration of a collective agreement is specified and by law shall not be less than two years or more than three years.

An Industrial Arbitration Court (IAC) Award refers to an award made by the IAC, and includes a collective agreement and a memorandum of the terms which have been President of the certified bv the IAC in accordance with the provisions of the Industrial Relations Act.

Sources of Data (1)

Statistics on Employers' and Employees' Unions and Trade Disputes compiled by MOM's Labour Relations and Workplaces Division (LRWD).

The LRWD monitors the industrial relations situation and provides mediation and conciliation services for the settlement disputes. of trade The Division investigates complaints on infringements of the Employment Act which governs the terms and conditions of employment.

Statistics on Collective Agreements and Industrial Arbitration Court Awards are obtained from the Industrial Arbitration Court (IAC).

The IAC was set up in 1960 under the Industrial Relations Act. Its functions include the registration and certification of collective agreements, hearing and determination of trade disputes and handing down of awards and interpretation and enforcement of terms of awards and collective agreements.

Source: Workforce Singapore (WSG)

Notes: Data are based on date of data entry.

Data prior to October 2016 were from Singapore Workforce Development Agency (WDA), which was reconstituted into Workforce Singapore (WSG) in October 2016.

Career services were delivered through WSG's Career Matching Service (CMS) physical touch points and National Trades Union Congress (NTUC)'s Employment and Employability Institute (e2i) centres.

- 1 Refers to the number of people who registered for employment and/or training assistance at WSG's CMS physical touch points and NTUC's e2i centres.
 - Data are based on unique counts of jobseekers within the reference period.
- 2 Refers to the number of people who were placed into employment by WSG's CMS physical touch points and NTUC's e2i centres.

 This includes those who found their own jobs after receiving services from WSG's CMS physical touch points and NTUC's e2i centres.

 Data are based on unique counts of jobseekers within the reference period.

Source: Comprehensive Labour Force Survey, Manpower Research & Statistics Department, Ministry of Manpower

Notes: Data are for mid-year. As data are captured from a sample survey, year-on-year income changes are prone to fluctuations and hence should always be interpreted with caution. Income growth studied over longer periods (e.g. 5 or 10 years) smooths out these fluctuations and hence provides a more direct indication of income growth.

Gross monthly income from work refers to income earned from employment. For employees, it refers to the gross monthly wages or salaries before deduction of employee CPF contributions and personal income tax. It comprises basic wages, overtime pay, commissions, tips, other allowances and one-twelfth of annual bonuses.

For self-employed persons, gross monthly income refers to the average monthly profits from their business, trade or profession (i.e. total receipts less business expenses incurred) before deduction of income tax.

Data exclude full-time National Servicemen.

Residents refer to Singapore citizens and permanent residents.

Full-time employment refers to employment where the normal hours of work is 35 hours or more in a week.

Download time series at www.tablebuilder.singstat.gov.sg/publicfacing/createDataTable.action?refld=14603

The Singapore Workforce Skills Qualifications (WSQ) is a national credential system that trains, develops, assesses and certifies skills and competencies for the workforce. Training programmes developed under the WSQ system are based on skills and competencies validated by employers, unions and professional bodies. WSQ emphasizes flexible competency-based adult learning, open access to skills upgrading and clear career progression pathways for workers to upgrade their skills. With the roll-out of the Skills Frameworks in 2016, the WSQ adopted the skills and competencies covered in the Skills Frameworks.

Data are based on calendar year and pertain to local WSQ trainees who have attained at least one WSQ Statement of Attainment.

1,730

¹ Data are classified according to the Singapore Standard Educational Classification 2015.

- 1 From 2018, data exclude disputes involving individual union members.
- 2 Examples include sales, commission and shift allowances.
 From 1 April 2017, includes appeals under the Retirement and Re-employment Act from union members working in unionised companies.
- 3 IAC refers to the Industrial Arbitration Court.
- 4 From 2012, "Cases referred to IAC" and "IAC Awards" pertain only to disputes and exclude those for variation of collective agreement jointly filed by the union and employer.
- 5 Refers to cases reported to and handled by the Labour Relations & Workplaces Division of MOM. Data include both strikes and lockouts.

National Accounts

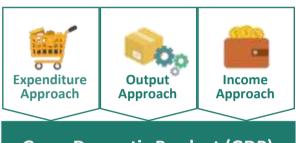

National Accounts

National Income Estimates

Singapore adopts the output, expenditure and income approaches for compiling the national income aggregates. The concepts, definitions and methodology given in the United Nations' publication "System of National Accounts, 2008" are closely followed.

Gross Domestic Product (GDP)

Gross National Income (GNI): Refers to the aggregate value of the gross balances of primary incomes (incomes arising from the involvement in production processes or ownership of assets) receivable by resident units.

Gross Domestic Product (GDP): Refers to the aggregate value of the goods and services produced in the economic territory of Singapore.

Output-based GDP: Refers to the sum of gross value added generated by economic activities in the domestic economy.

Expenditure on **GDP**: Refers to private consumption expenditure, sum government consumption expenditure, gross capital formation and net exports of goods and services.

Income Components of GDP: Refers to the sum of incomes generated from the domestic production of goods and services, which include compensation of employees, gross operating surplus and taxes less subsidies on production and on imports.

Valuation of GDP Estimates: GDP estimates are valued at market prices, that is, the prices actually paid by the purchaser.

Real GDP: GDP adjusted for price changes to reflect the real value of output or expenditure over time. Real GDP is compiled in chained (2015) dollars.

GDP Deflators: A broad measure of the change in the overall level of prices of the goods and services that make up GDP. The deflators are derived as the ratio of the current price value of a component of GDP to its corresponding real value, with the index at reference year 2015 set at 100.

With of the availability more comprehensive and up-to-date information, the estimates have been revised, especially for the last two years.

Balance of Payments

The balance of payments summarises all economic transactions between residents of an economy and non-residents (i.e. the rest of the world). It comprises international trade in goods and services, primary and secondary income flows, as well as capital and financial flows. It is used to assess the external performance of an economy and to formulate policies associated with it.

Transactions recorded in the balance of payments fall under three broad categories:

- Current Account: Consists transactions relating to Singapore's current national income and expenditure. These include exports and imports of goods and services, primary income receipts and payments, as well as net secondary income (current transfers).
- b) Capital and Financial Account: Covers transactions affecting the foreign financial assets and liabilities of Singapore. Hence it records transactions that affect the national income in future periods.
- c) Reserve Assets: Show the changes in Singapore's foreign reserves holdings. They consist of Singapore's official holdings of monetary gold and foreign exchange assets, as well as Singapore's special drawing rights and reserve position in the International Monetary Fund.

Singapore's balance of payments estimates are compiled in accordance with the principles and recommendations set out in the International Monetary Fund's Balance of Payments and International Investment Position Manual. The structure and classification of Singapore's Balance of Payments accounts follow the sixth edition of the manual.

Studies to improve the balance of payments estimates are continual and the estimates are revised as and when appropriate.

| Balance of Payments, 2018 | | | | | | | | |
|---------------------------------------|-------------------|--|--|--|--|--|--|--|
| balance of Fayments, | (Million Dollars) | | | | | | | |
| Overall Balance | 16,924.5 | | | | | | | |
| Current Account Balance | 87,772.0 | | | | | | | |
| Capital and Financial Account Balance | 66,696.7 | | | | | | | |
| Reserve Assets | 16,924.5 | | | | | | | |

Sources of Data (1)

The balance of payments estimates are compiled mainly from trade and shipping statistics, regular surveys of companies and administrative records of government departments and statutory authorities.

Definitions

Goods Balance: Refers to the difference between total exports and total imports of goods on a 'f.o.b' (Free On Board) basis.

Services Balance: Refers to the difference between total exports and total imports of services.

Primary Income Balance: Refers to the difference between primary income receivable by Singapore residents from abroad and primary income payable to non-residents from Singapore.

Secondary Income Balance: Refers to the difference between current transfers received by Singapore residents from abroad and current transfers received by non-residents from Singapore.

Current Account Balance: Refers to the balance of transactions in goods, services,

International Accounts •

primary income and secondary income. It shows the net change in financial assets arising from Singapore's real transactions.

Capital and Financial Account Balance: Refers to the balance of transactions in the capital and financial account. It reflects the net changes in Singapore's foreign financial assets and liabilities.

Overall Balance: Refers to the overall balance of the current, capital and financial accounts. It is the balance of all of Singapore's transactions with non-residents and is financed by official reserves.

International Investment Position

The international investment position (IIP) is a statistical statement that shows, at a point in time, the value and composition of financial assets and liabilities of residents of an economy with non-residents. The net IIP, or the net worth of an economy, is the difference between its external financial assets and its liabilities, plus the value of non-financial assets.

The IIP is related to the financial account of the balance of payments. While the financial account shows net acquisition and disposal of financial assets and liabilities during a period, the IIP records the stock of financial assets and liabilities at a specific point in time. Due to this relationship, both the IIP and financial account of the balance of payments use functional categories as the highest level of classification. These functional categories are direct investment, portfolio investment, financial derivatives, other investment, and reserve assets.

Singapore's IIP estimates are compiled based on the principles recommended in the International Monetary Fund's Balance of Payments and International Investment Position Manual, Sixth edition.

External Debt

Gross external debt, at any given time, is defined as the outstanding amount of current (and not contingent) debt liabilities owed to non-residents by residents of an economy. The external debt position can also be understood as a subset of the IIP, where it is equivalent to total external liabilities of the latter less equity and investment fund shares and financial derivatives.

The compilation of Singapore's external debt statistics is consistent with the recommendations set out in the International Monetary Fund's External Debt Statistics Guide (2013).

Other References

Major changes and improvements to the current account and capital and financial account of the balance of payments, international investment position and external debt, which includes changes in conceptual treatment, classifications, enhanced coverage, as well as data dissemination and methodological improvements, described the occasional are in "Implementation of IMF Balance of Payments and International Investment Position Manual, Sixth Edition in Singapore's balance of payments" "Singapore's the information papers International Accounts: Methodological Updates and Recent Developments" and "Methodological Improvements to the Current Account of Singapore's Balance of Payments".

Analyses on Singapore's balance of payments may be found in the "Economic Survey of Singapore", published by the Ministry of Trade and Industry.

105,937.6

Notes:

With the implementation of the recommendations of the 6th Edition of the Balance of Payments and International Investment Manual (BPM6), Singapore's gross external debt is now reported on a BPM6 format. The accompanying revision in the treatment of Asian Currency Units (ACUs) as resident units (which previously were treated as non-resident units) means that the coverage of Singapore's external assets and liabilities has been expanded to include those of the ACUs, resulting in increases in both Singapore's external assets and liabilities. While the expansion of coverage has resulted in higher gross external debt (or liabilities), it has resulted also in higher external assets. Singapore remains a net creditor, as the resulting increase in external assets is more than the increase in liabilities. More information may be found in the Occasional Paper on "Implementation of IMF Balance of Payments and International Investment Position Manual, Sixth Edition in Singapore's Balance of Payments".

Investment

Direct Investment

Data on foreign direct investment sourced from financial accounts which companies file with the Accounting and Corporate Regulatory Authority (ACRA) other government agencies, as well as the Survey of Debt and Financial Derivative Foreign Transactions and Survey of Singapore's Investment Abroad.

Definitions

Foreign Direct Investment (FDI): Refers to an investment in which a direct investor owns 10 per cent or more of the ordinary shares or voting power in an enterprise in another country.

FDI comprises foreign direct equity Investment (FDEI) and the net inter-company debt between the direct investment enterprise and its investors.

Foreign Direct Equity Investment (FDEI):
Refers to equity capital in the direct investment
enterprise attributable to its foreign
direct investors.

Equity capital covers all components of shareholders' funds (proportionate to

the percentage of shares held), including equity, contributed surplus, reinvested earnings, revaluations, as well as any reserve accounts.

Net fixed assets are used as a proxy of equity capital for branches of non-resident banks. For branches of other non-resident entities, the net amount owed by branches to their non-resident head office is used.

Reinvested Earnings: Refer to earnings on equity accruing to the direct investors less distributed earnings, proportionate to the percentage of shares held by the direct investors.

Net Inter-Company Debt: Refers to the net outstanding debt owed by the foreign direct investment enterprise to its foreign direct investors. The debt could be in the form of loans or debt securities.

Investment Commitments

Investment commitments refer to investment projects in terms of fixed assets which companies commit to invest in Singapore. Projects are only recorded as commitments if the company has made a firm undertaking to implement the project.

Other References

Annual statistics on direct investment are available in the reports "Foreign Direct Investment in Singapore" and "Singapore's Direct Investment Abroad" published by the Singapore Department of Statistics.

Research and Development

Research and Development

Data on research and development (R&D) in Singapore are collected through the National Survey of R&D, conducted annually by the Agency for Science, Technology and Research (A*STAR). The scope of the survey covers R&D activities in the private, higher education, government and public research institutes sectors.

To facilitate international comparability, data from the survey are collected and presented based on guidelines provided in the Organisation for Economic Co-operation and Development's (OECD) "Frascati Manual: Guidelines on Collecting and Reporting Data on Research and Experimental Development" (Sixth Edition).

R&D Manpower

Researchers: Refer to professionals who are engaged in the conception or creation of new knowledge, products, processes, methods and systems, or in the management of the projects concerned. Managers and administrators engaged in the planning and management of the scientific and technical aspects of a researcher's work also fall into this category. Researchers are further sub-classified into:

- a) Research scientists and engineers (RSEs)
- b) Full-time postgraduate research students (FPGRS)
- c) Non-degree researchers

Technicians: Refer to persons whose main tasks require technical knowledge and experience in one or more fields of science and technology. They participate in R&D by performing scientific and technical that involve the application of concepts and operational methods, normally under the supervision of researchers.

Other supporting staff: Includes skilled and unskilled craftsmen, secretarial and clerical staff participating in or are directly associated with R&D projects.

R&D Manpower, 2017

R&D Expenditure

R&D expenditure includes capital expenditure (acquisition of fixed tangible assets involved in R&D activities, excluding depreciation provisions), R&D manpower costs, and other R&D-related operating expenditures. Data for R&D expenditure in each year are expressed in nominal terms and are not adjusted for inflation.

R&D Expenditure, 2017

\$9.085.9 mil

Patents

Data on patents resulting from R&D activities carried out in Singapore that are published in the National Survey of R&D are as reported by survey respondents. Only one patent is awarded to an invention, irrespective of the number of countries to which the patent is being applied or awarded.

The Corporate Sector

The Corporate Sector

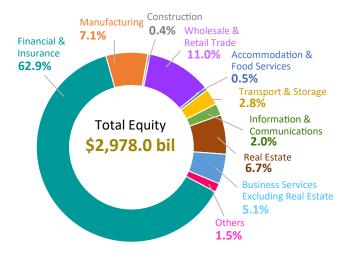

Data on the corporate sector cover companies incorporated or registered in Singapore, including branches of foreign companies. They are sourced from financial accounts which companies file with the Accounting and Corporate Regulatory Authority (ACRA) or other government agencies.

Definitions

Total Equity: Comprises mainly share capital, retained earnings and other reserves. For Singapore branches of foreign-incorporated companies, the net amounts owed by Singapore branches to the foreign head offices are used as proxies for their equity.

Total Equity by Industry, (End of Period), 2017

Equity Ratio: Refers to the ratio of total equity to total assets. It measures the dependence of the company on external funding, i.e. funding which is not from its shareholders or its overseas

headquarters (for the local branch of a foreign-incorporated company). The higher the company's dependence on external funding, the lower the ratio.

Current Ratio: Refers to the ratio of current assets to current liabilities. It measures the liquidity of the company, i.e. its ability to meet current debt payments when due. A ratio of 1 indicates that the company has balanced exactly its current liabilities with current assets. The lower the ratio is below 1, the higher is the risk of the company running into a liquidity problem. A ratio above 1 indicates liquidity in the company.

Rate of Return on Total Assets (ROA):
Refers to the ratio of pre-tax profit before deducting interest payments in the year to the average of total assets at the beginning and at the end of the year. It measures the efficiency of the company in using its available resources.

Rate of Return on Total Equity (ROE): Refers to the ratio of pre-tax profit in the year to the average of total equity at the beginning and at the end of the year. It measures the company's profitability, i.e. the rate of return that it has earned on the capital provided by shareholders, after accounting for payments to all other capital providers.

Formation and Cessation of Business Entities

Formation and Cessation of Business Entities

Coverage and Sources of Data (i)

Data on business entities are primarily sourced from the registration records of the Accounting and Corporate Regulatory Authority (ACRA).

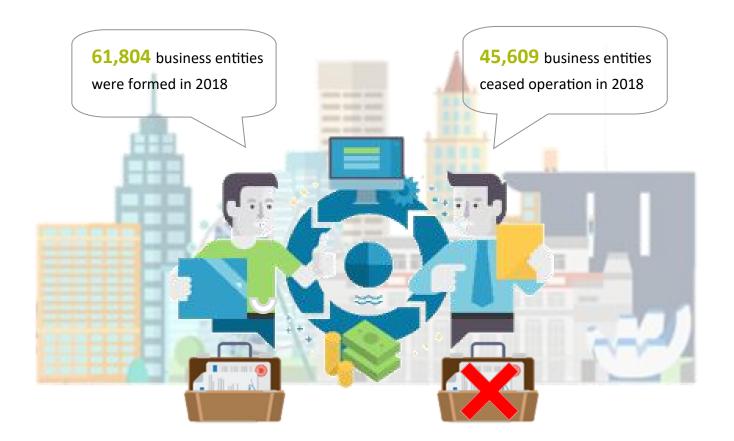

Business entities refer to companies, sole proprietorships & partnerships, limited liability partnerships, limited partnerships and public accounting firms.

Definitions

Formation: Refers to business entities incorporated or registered with ACRA.

Cessation: Refers to business entities which have ceased operations. Examples of cessation status include ceased registration, struck off, amalgamated, cancelled and dissolved.

10.1 FORMATION OF ALL BUSINESS ENTITIES BY TYPE

Notes: The statistics on business entities cessation have been adjusted to provide a more accurate reflection of the underlying cessation trends. In 2016 and 2017, ACRA conducted periodic reviews and removed from its public register, sole proprietorships & partnerships that failed to renew their registrations, and companies that were dormant.

These periodic removal of business entities took place at ad hoc intervals and impacted published statistics on business entities cessation. The number of business entities cessation have therefore been adjusted to reflect the removal of such business entities at the date when they would have normally been removed. Going forward, such review and removal exercises will be conducted on a regular basis to provide a more accurate reflection of cessation trends.

Agriculture, Animal Production and Fisheries

Agriculture, Animal Production and Fisheries

General

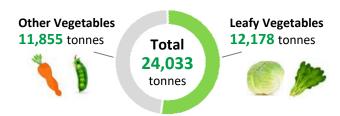

The agricultural sector of Singapore is engaged mainly in the production of eggs, fish and vegetables for local consumption, as well as orchids and ornamental fish for export. About one per cent of Singapore's land area is used for agricultural purposes.

Horticulture A

The main crops cultivated in Singapore are vegetables and orchids. The vegetable and food crop production in local farms are mainly leafy vegetables and bean sprouts. With about 90% of the leafy vegetables derived from soil cultivation, intensive and modern farming methods are adopted to maximise vegetable production and to ensure production of high quality leafy vegetables.

Local Vegetable Production, 2018

A number of farms and nurseries grow orchids, ornamental and foliage plants (such as potted plants, foliages, ornamental plants, aquatic plants and tissue-cultured plantlets) for export and domestic sale. Singapore is a major exporter of quality cut orchids.

Local Orchid Production. 2017

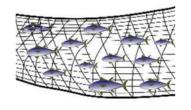

5 mil stalks

Fisheries

Local fish production comprises mainly aguaculture produces from fish farms with small quantities from local capture fisheries. Singapore also imports, exports and tranships fish caught by foreign vessels.

Local Fish Production, 2018

5.915 tonnes

The Jurong Fishery Port (JFP) is a major seafood landing and distribution point in Singapore. JFP handled about 44,200 tonnes of seafood in 2018, the bulk of which comprised fresh seafood landed by foreign vessels as well as those imported by air and road. The Senoko Fishery Port (SFP) began its operations in September 1997. A home base for local fishing vessels, the port handled locally-produced and imported seafood totaling about 5,700 tonnes of seafood in 2018. There are 139 seafood processing establishments licensed manufacture fishery products in Singapore. Three processing establishments and one cold store export seafood products to the EU countries.

There are 111 coastal and deep sea fish farms covering 98.5 hectares of coastal waters, culturing various fish species like milk fish, mullet, snappers, trevally, groupers, tilapia, pompano, threadfin and seabass for the live fish market and supermarkets.

Seafood Supply (Imports and Exports) - Enterprise Singapore

Notes: From 1 April 2019, SFA took over food-related functions previously carried out by AVA.

Seafood refers to fish, crustaceans and molluscs.

Data on imports and exports of seafood are based on Standard International Trade Classification Rev 4.1 and consistent with the ASEAN Harmonised Tariff Nomenclature 2017 version.

- 1 Includes seafood from local landings, coastal and land-based farm production.
- 2 Excludes dried, salted and fish in brine.
- 3 Includes fresh, frozen seafood and 'Low-value fish'.

Manufacturing

12 Manufacturing

Census of Manufacturing Activities

Α of manufacturing census establishments is conducted annually by the Research and Statistics Unit of the Economic Development Board (EDB). The results provide comprehensive data for the study of the structure and trends of the manufacturing sector.

The activities covered in the census include manufacturing and industrial servicing. They are classified according to the Singapore Standard Industrial Classification 2015.

The census is conducted by mail inquiry and via the internet, using two standard questionnaires. The reference period is the calendar year, except for those establishments whose financial years do not coincide with the calendar year.

Definitions

Establishment: Refers to a manufacturing unit engaged in one manufacturing activity and generally operating at one location.

Workers: Refer to all persons engaged in the industrial activity of the establishment, that is, all employees, the self-employed and their relatives. Data generally refer to employment as at 30 June, except where establishments commence operation after June.

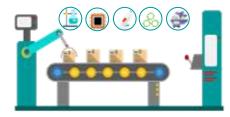

380,500 Persons Employed in the Manufacturing sector in 2018

Refers to the amount Remuneration: expended for the whole year. For employees, total remuneration comprises salaries (including bonuses), contributions to the Central Provident Fund and pensions paid by employers, and other benefits provided. For working proprietors, it refers to the amount withdrawn for their personal use. For unpaid family workers, it refers to allowances.

Manufacturing Output: Refers to the total value of all commodities produced (including by-products) and industrial services rendered during the year.

Total Output: Refers to the total value of goods services derived from production process and ancillary activities such as management or marketing. As such, it includes manufacturing output and other operating income.

Total Output for the Manufacturing Sector in 2018 was

S\$361.4 bil

Materials Used: Covers raw or basic materials, chemicals and packing materials consumed in the production. They refer to the actual consumption during the year.

Value Added: Refers to total output less materials, utilities, fuel, transportation charges, work given out and other operating costs.

Value Added for the **Manufacturing Sector** in 2018 amounted to

S\$99.9 bil

Net Operating Surplus: Refers to value-added less remuneration, depreciation of fixed assets and indirect taxes.

Sales and Direct Exports: Refer to local sales or exports to other countries of goods manufactured. Resale of goods not manufactured by the establishments is excluded.

Gross Value of Fixed Assets: Refers to the accumulated cost of acquiring the fixed assets.

Net Value of Fixed Assets: Refers to the gross value net of accumulated depreciation.

Index of Industrial Production

The index of industrial production covers all manufacturing activities classified under Section C of the Singapore Standard Industrial Classification 2015. The indices published at the 2-digit industry division and total manufacturing levels.

Annual Growth in Index of Industrial Production

The base year for the index of industrial production is 2015. The value-added weighting pattern is based on data from the 2014 Census of

Manufacturing Activities. The weighting pattern reflects the relative importance of the industry divisions and changing structure within the manufacturing sector. The Laspeyres' formula is used for the compilation of the index.

Unit Business Cost Index

The Unit Business Cost Index (UBCI) is compiled by the Singapore Department of Statistics. It measures the relative business cost of producing one unit of real manufacturing output with respect to the base year. The main components of business cost are labour cost, services cost, as well as non-labour production taxes. The UBCI is compiled based on the benchmark on business cost from the Census of Manufacturing Activities (CMA) and extrapolated using data from the Monthly Survey of

Other References

Manufacturing Activities (MMA).

detailed More statistics the manufacturing sector are available from the "Census of Manufacturing Activities", published annually by the Research and Statistics Unit of EDB.

The information paper on "Methodological Review on the Unit Business Cost Index for the Manufacturing Industry (Base Year 2010 = 100)" provides details on the concept, methodology and data sources underlying the compilation of the UBCI.

Building, Real Estate, Construction and Housing

Building, Real Estate, 13 Construction and Housing

Building, Real Estate and Construction

Building construction refers to the erection of new buildings and additions alterations existing buildings, excludes the erection of temporary structures, illegal building works or minor works which do not require planning approval. Data on new buildings given planning and building plan approvals, notices of commencement and Temporary Occupation **Permits** Certificates of Statutory Completion (CSC) are compiled from the administrative records of the Urban Redevelopment Authority (URA) and the Building and Construction Authority (BCA). Statistics on contracts awarded and progress payments certified are collected through surveys conducted by BCA.

Definitions

Provisional Permission: Refers to the conditional approval granted by the Minister for National Development or the Competent Authority to develop any land subject to conditions in accordance with the development rules in force.

Written Permission: Refers to the approval by the Minister for National Development or the Competent Authority to develop any land subject to conditions in accordance with the development rules in force.

Building Plan Approval: Refers to the approval granted by the Commissioner of Building Control in respect of building plans and specifications submitted in accordance with the prescribed building regulations in force.

Building Commencement: Construction of a building project is deemed to have commenced when a permit to commence building works in respect of that building is issued by the Commissioner of Building Control.

Building Commencement, 2018

Gross Floor Area ('000 m²)

¹ Exclude hostels, HDB flats, tenement houses, parsonages and Executive Condominiums.

Building Completion: A building project is deemed completed when the Temporary Occupation Permit (TOP) or Certificate of Statutory Completion (CSC) in respect of that building is issued by the Commissioner of Building Control. Completed properties are referred to as the existing stock.

Gross Floor Area: Refers to the covered floor space (whether within or outside a building and whether or not enclosed) measured between party walls, including thickness of external walls and any open area used for commercial or industrial purposes.

Nett Floor Area: Refers to all covered floor space available on an exclusive basis to occupiers in a building excluding common areas viz: staircases, lifts, common passageways and corridors.

Contracts Awarded: Refers to the full contract awarded to the main contractor by the developer or owner even though part or all of the works may be further sub-contracted to other contractors.

Progress Payments Certified: Refers to the value of all construction works done and certified for payment. progress Where construction works are carried out by the developer or owner himself and the architect

Building, Real Estate, Construction and Housing

does not certify progress payments, the expenses incurred on the construction work are taken to be the progress payments certified.

Details on construction and real estate statistics relating to industrial properties are published by the JTC Corporation (JTC) and can be found on <u>J-SPACE</u>, JTC's industrial property statistics portal.

Public Housing

The Housing and Development Board (HDB) was established on 1 February 1960 as the public housing authority of Singapore. HDB's mission is to provide affordable homes of quality and value, create vibrant and sustainable towns, and promote the building of active and cohesive communities. HDB also develops and maintains other facilities, such as commercial properties and car parks. To help build sustainable communities, HDB plans towns with a comprehensive range of facilities to meet the needs of residents. These include recreational and community facilities such as neighbourhood parks and children's playgrounds housing estates.

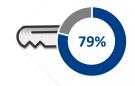

In 2018, 17,556 flats were completed, bringing the total number of flats built since HDB's inception to 1,182,002.

Introduced in 1964, the Home Ownership for the People Scheme enables citizens to acquire homes through the purchase of HDB flats. In 2018, 22,106 flats were sold under this scheme.

22,106 flats were sold under the Home Ownership Scheme in 2018

In 2018, about 79 per cent of the resident population lived in Home Ownership flats.

79% of the resident population lived in Home Ownership flats in 2018

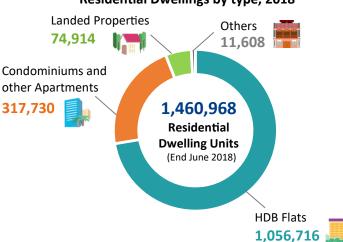

Between 1989 and 2018, HDB sold 244 land parcels (308 hectares) for private residential development and 46 land parcels (51 hectares) for commercial development. A total of 70 Executive Condominium sites (142 hectares) were sold during this period.

Residential Dwellings

The Singapore Standard Classification of Type of Dwelling defines a dwelling as a building or part of a building used or intended to be used by one or more persons as living quarters. Each dwelling type has separate entrance(s) with direct access to a public road or pathway. A dwelling may be a residential building by itself or a unit in a residential building, or part of a non-residential building such as a shop or factory with space used as living quarters.

Notes: Figures may not add up due to rounding.

Data for "Total Allocated" and "Supply" are as at end of period.

With effect from 2018, data include industrial properties transferred from Housing & Development Board.

- 1 Excludes Prepared Industrial Land that is tendered out as part of the Industrial Government Land Sales (IGLS) programme.
- 2 Includes Prepared Industrial Land that is tendered out as part of the IGLS programme and land occupied by JTC's Ready Built Facilities. Data on Prepared Industrial Land from IGLS are based on date of allocation instead of date of tender award. The date of allocation is normally a few months after the date of tender award.

Services

14 Services

Annual Survey of Services

The Annual Survey of Services covers establishments engaged in Wholesale Trade, Retail Trade, Transport & Storage Services, Accommodation & Food Services, Information & Communications Services, Business Services and Recreation, Community & Personal Services, as classified under Sections G, H, I, J, L, M, N, P, Q, R and S of the Singapore Standard Industrial Classification (SSIC) 2015 (Version 2018). Establishments engaged in Financial & Insurance Services and Public Administration Activities are excluded. Taxi drivers, hawkers and stall-holders, independent artistes, self-employed persons operating private hire vehicles and other individual self-employed persons who are not registered with and Corporate Accounting Regulatory Authority (ACRA) are also excluded.

The survey uses stratified random sampling. All establishments in the sampling frame are first stratified by activity and within each activity, establishments are then stratified by operating receipts. Establishments with large operating receipts are selected with certainty and the rest are selected using simple random sampling without replacement.

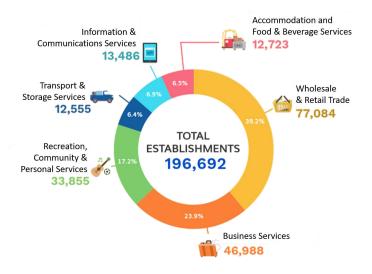

Definitions

Establishment: Refers to a business or organisation unit within an enterprise engaged in one activity and operating in a single location. Thus, for a multi-activity firm or organisation, units engaged in separate activities in the same location constitute distinct establishments.

Similarly, a branch of a multi-branch organisation operating at a separate location is conceptually considered as distinct establishment.

Total Establishments, 2017

Operating Receipts: Refer income earned from business operations, i.e. income services rendered, sales of goods, commission fees, and rental of machinery and equipment.

Operating Expenditure: Refers to all expenditure incurred by the establishment in its business, with adjustment for changes in inventory. It includes remuneration, purchases, indirect taxes, work given out, rental and maintenance of machinery and equipment, legal, accounting and other professional services, rental and maintenance of premises, depreciation, transport and travelling, utilities, advertisement, entertainment, stationery and printing, postage and telecommunications, fuel, freight charges and other expenses that are connected with the establishment's operation.

Services •

Operating Surplus: Refers to the amount of operating receipts less operating expenditure plus depreciation of fixed assets. Operating surplus, however, only refers to depreciation of fixed assets for non-profit organisations (i.e. entities which cannot distribute any surplus made to their shareholders) which mainly rely on funds (such as grants and donations) other than receipts from sales of goods and services rendered to cover their operating expenditure.

Value Added (at Basic Price): Comprises the value of operating surplus, remuneration and taxes (less subsidies) on production.

Retail Sales and Food & Beverage

Services Indices

The Retail Sales and Food & Beverage (F&B) Services Indices measure the short-term performance of the retail and F&B services industries based on the sales records of enterprises in these industries. Data for the compilation of the indices are primarily obtained from more than 620 enterprises covered in the monthly retail sales and F&B services surveys. The base year for the indices is 2017.

The indices are presented at both current prices and constant prices. Changes in the indices at current prices measure the changes in sales values resulting from price and quantity changes. By removing the price effect, changes in the indices at constant prices measure the changes in the volume of economic activity.

Wholesale Trade Index

The Wholesale Trade Index (WTI) measures the short-term performance of wholesale trade activities. Data for the compilation of the WTI are obtained from over 1,000 wholesale trade enterprises through the quarterly survey of

wholesale trade, and from administrative records. The base year for the WTI is 2017.

Two series of the WTI are compiled – Domestic WTI and Foreign WTI. The Domestic WTI records wholesale sales in Singapore. The Foreign WTI measures wholesale sales outside Singapore, which comprises domestic exports, re-exports, transhipment cargo and offshore merchandise.

The indices are presented at both current prices and constant prices. Changes in the indices at current prices measure the changes in sales values which can result from price and quantity changes. By removing the price effect, changes in indices at constant prices measure the changes in the volume of sales.

Business Receipts Index

The Business Receipts Index (BRI) for services industries (excluding Wholesale & Retail Trade and Accommodation & Food Services) measures the changes in the amount of business or operating receipts on a quarterly basis.

The BRI is compiled based on survey data and administrative records of more than 11,000 enterprises in the Transport & Storage Services, Information & Communications Services, Financial & Insurance Services, Business Services and Recreation, Community & Personal Services industries. The BRI is compiled at current prices, with 2014 as the base year.

- 1 The weights for the Business Receipts Index series are computed based on the value added contributions of the respective industries, using data obtained from the Annual Survey of Services.
- 2 Excludes wholesale & retail trade and accommodation & food services.
- 3 Comprises land transport, water transport, air transport, warehousing & support activities for transportation and post & courier activities.
- 4 Comprises real estate activities, professional, scientific & technical and office administrative & support service activities, e.g. legal & accounting activities, activities of head offices, management consultancy activities, architectural, engineering and technical activities, rental & leasing activities, employment activities, travel agencies and security activities.
- Comprises arts, entertainment & recreation, membership organisations' activities (e.g. business and professional membership organisations, religious organisations and interest groups), repair of computers, personal, household goods & vehicles and other personal services activities.

International Trade

15 International Trade

Merchandise Trade

Sources of Data (1)

Since April 1987, Singapore's merchandise trade statistics are compiled by Enterprise from the following information Singapore submitted to Singapore Customs:

- i) Import and export permits submitted by traders or declaring agents;
- ii) Data on postal packages furnished by Singapore Post Limited; and
- iii) Statement on bunker fuel, aircraft fuel and stores supplied non-Singapore-registered ships and aircraft furnished by shipping and aircraft agents.

Prior to April 1987, merchandise trade statistics were compiled by the Singapore Department of Statistics from the same sources.

Coverage

Singapore adopts the "general" system for recording merchandise trade statistics. Under this system, all goods imported into or exported from Singapore are included in the merchandise trade statistics with the following major exceptions:

- i) Transhipment cargo on through bills of lading or through air waybills;
- ii) Fish and other marine produce landed by Singapore and Peninsular Malaysiaregistered vessels direct from sea;
- iii) Goods imported and exported by, or on behalf of, diplomatic services and armed forces;
- iv) Exposed cinematographic films imported or exported on a rental basis;

- v) Television news films, or news press materials;
- Ships and aircraft arriving for or departing vi) after repairs;
- Goods temporarily taken into or out of the vii) country to be returned after a specific purpose, for example, for an exhibition;
- viii) household effects Personal and accompanying passengers or crews;
- ix) Samples and specimens for test or analysis; and unaccompanied personal effects and gifts not exceeding the value of \$400:
- Gold held as reserve assets that are x) exchanged between monetary authorities or authorised banks; and
- Issued currency notes and coins. xi)

Ships and aircraft are included if they are imported or exported as merchandise, whether or not they arrive or depart under their own power.

Definitions

Merchandise imports: Refer to all goods brought into Singapore, except those specified as excluded under the **Coverage** section, irrespective whether they are for consumption, for processing, for use in manufacturing, or for subsequent re-shipment to other countries.

Merchandise exports: Refer to all goods taken out of Singapore, except those specified as excluded under the **Coverage** section. It comprises domestic exports and re-exports.

Domestic Exports: Refer to exports of Singapore origin. It comprises (i) primary commodities grown or produced in Singapore and (ii) goods which have been transformed, that is, manufactured, assembled or processed

International Trade

Singapore including those with imported materials or parts.

Re-exports: Refer to all goods which are exported from Singapore in the same form as they have been imported (including goods that have undergone minor processing, such as re-packing, splitting into lots, sorting or grading, marking and the like).

Merchandise Trade at Current Prices, 2018

Merchandise Trade at 2018 Prices: This is obtained by adjusting the recorded value of trade using import and export price indices with base year 2018. The series on trade at 2018 prices indicate the volume of trade after adjusting for the effect of price changes.

Valuation |

Merchandise imports are valued at 'CIF' (Cost, Insurance and Freight), that is, the value of goods at the frontier of the exporting country plus the cost of insurance and freight and any other charges when sold for export to Singapore.

Merchandise exports are valued at 'FOB' (Free On Board), that is, the value of goods when sold abroad up to the point where the goods are deposited on board the outgoing vessel, aircraft or vehicle.

Classification

The "Singapore Trade Classification, Customs and Excise Duties 2018" came into effect on 24 June 2018 and was adopted for the documentation of Singapore's merchandise trade from 17 July 2018. This classification adopts the ASEAN Harmonized Tariff Nomenclature 2017

(AHTN 2017) which is based on the 6-digit Harmonized Commodity Description and Coding System (HS), developed by the World Customs Organization (WCO).

However, for publication of merchandise trade statistics, the Standard International Trade Classification (SITC), Revision 4.1 is used from 1999 onwards and SITC, Revision 3 for years prior to 1999. Merchandise imports are classified by country of origin and exports by country of destination.

Trade in Services

The main source of Singapore's trade in services statistics is the International Trade in Services Survey.

Definitions

Exports of Services: Refer to the value of cross-border services provided by residents to non-residents.

Imports of Services: Refer to the value of cross-border services provided by non-residents to residents.

Trade in Services, 2018

Other References

Detailed monthly merchandise trade statistics are available in the "<u>Singapore's External Trade</u>" report published monthly by Enterprise Singapore.

Detailed annual data on trade in services are available in the "Singapore's International Trade in Services" publication.

Aggregated services trade estimates are also released on a quarterly basis in the "Economic Survey of Singapore" published by the Ministry of Trade and Industry, as well as in Enterprise Singapore's quarterly and annual reviews of trade performance.

- ASEAN includes Brunei Darussalam, Cambodia, Indonesia, Lao People's Democratic Republic, Malaysia, Myanmar, Philippines, Thailand and Viet Nam.
- The European Union (EU-28) comprises Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Rep, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovak Rep, Slovenia, Spain, Sweden and the United Kingdom.

Transport

Maritime Statistics

The Maritime and Port Authority of Singapore (MPA) is responsible for Singapore's port and maritime development, taking on the roles of port authority, port regulator, port planner, International Maritime Centre (IMC) champion, and national maritime representative. MPA partners the industry and other agencies to enhance safety, security and environmental protection in Singapore's port waters, facilitate port operations and growth, expand the cluster of maritime ancillary services, and promote maritime research and development as well as manpower development.

Singapore is both a premier global hub port, as well as an international maritime centre for ship owners, operators and other maritime service providers. In total, the Singapore maritime cluster comprises over 5,000 establishments.

Statistics on vessel traffic, cargo volumes and other port activities within Singapore port waters are collated by MPA.

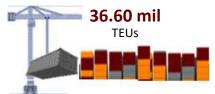

Vessel arrivals: Refers to the number of vessels exceeding 75 Gross Tonnage that arrive at the Port of Singapore.

Total cargo throughput: Refers to the total volume of cargo loaded and unloaded at the Port of Singapore. The figures include transhipment cargo.

Total container throughput: Refers to the total number of containers (expressed in Twenty-Foot Equivalent Units) loaded and unloaded at the Port of Singapore. The figures include transhipment containers.

Container Throughput, 2018

Bunker sales: Refers to the volume of bunkers delivered within the Port of Singapore to vessels that are on international voyages.

Singapore Registry of Ships: Refers to the total number and tonnage of vessels registered under the Singapore flag.

Civil Air Traffic

The Civil Aviation Authority of Singapore (CAAS) provides navigation services, air regulates, promotes and facilitates the use and development of air services, airports and aerospace industries, as well as promotes and facilitates the development and improvement of capabilities civil aviation Following and skills in Singapore. corporatisation of Changi Airport on 1 July 2009, the operations of Changi Airport, including the collection of data on passengers, airfreight, airmail and aircraft traffic passing through Changi Airport and Seletar Aerodrome, are managed by Changi Airport Group Pte Ltd (CAG).

Statistics on passenger, airfreight, parcel mail and aircraft movements are compiled by CAAS from the data collected by CAG.

Air Passengers, 2018 (Million) 65.6 32.2 Departing O.7 Arriving

Refers to passengers who arrived and departed on the same aircraft with the same flight number within 24 hours of scheduled time of arrival, to a country other than the country from which they embarked.

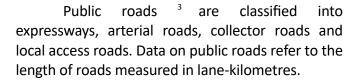

Transport • 🐒

Air Cargo Handled², 2018

² Refers to Changi Airport only. Excludes passenger baggage, diplomatic cargo and aircraft stores.

Public Roads 🚡

Paved Roads, 2018

Definitions 🔊

Expressways: Refer to roads that provide planned long-distance mobility from one part of the island to another without the interruption of traffic lights.

Arterial Roads: Refer to roads connecting an expressway with roads surrounding or passing through estate developments. They also improve traffic circulation between adjacent towns.

Collector Roads: Refer to roads forming links between local roads and arterial roads and providing links to building or land developments.

Local Access Roads: Refer to roads that provide direct access to buildings and other developments and that only connect with collector roads.

Road Traffic Accident Casualties

Data on road traffic accident casualties are compiled from police records of fatal and injury traffic accidents that occurred on the roads of Singapore.

Total Fatalities, 2018 Total Injured, 2018

10,018

Public Transport 🗐 🖨 🗒

The Land Transport Authority (LTA) is a statutory board under the Ministry of Transport, which spearheads land transport developments in Singapore. As the agency responsible for planning, designing, building and maintaining Singapore's land transport infrastructure and systems, the LTA aims to bring about a greener and more inclusive public transport system, complemented by convenient options to walk and cycle for commuters in their daily travel. The LTA leverages on technology to strengthen the rail and bus infrastructure and provide exciting options for future land transport.

Vehicles Registered (

All vehicles to be kept or used in Singapore must be registered with the LTA.

Motor Vehicle Population ⁴, 2018

Include vehicles which are exempted from Vehicle Quota System and all other taxes.

Road length in lane-km data includes all public roads maintained by the Land Transport Authority. It excludes all roads maintained by the other agencies and on privately-owned areas.

Source: Maritime and Port Authority of Singapore

- 1 Refers to the number of vessels exceeding 75 Gross Tonnage that arrive at the Port of Singapore during the reference period.
- 2 Refers to a ship structured specifically to carry containers.
- 3 Refers to a ship designed to carry general goods in parcel or in bulk form.
- 4 Refers to a ship which is intended primarily to carry dry cargo in bulk, including such types as ore carriers and combination carriers.
- 5 Refers to a ship constructed or adapted primarily to carry oil or gas in bulk in its cargo spaces and includes combination carriers.
- 6 Refers to a ship which carries more than twelve passengers.
- 7 Refers to a long flat-bottomed boat for carrying cargo, either under its own power or towed by another.
- 8 Refers to a boat used for pushing or towing other vessels.
- 9 Refers to vessels not categorised as container, freighter, bulk carrier, tanker, passenger, barge or tug.

¹ From 2018, the methodology behind the taxi ridership data has been updated, with more granular data available to the LTA in the past year.

InfoComm and Media

17 InfoComm and Media

Revenue of the Information and **Communication Technology Industry**

The revenue of the information and communication technology industry refers to all sales income that is derived from carrying out the main activities of the enterprise from the industry, and is booked in Singapore, as reflected in total receipts.

It includes the total value of services rendered and commissions earned, agency fees, as well as administration and management fees, but excludes Goods and Services Tax and other sources of income such as rental and interests earned. All manufacturing output and sales to distributors are also excluded.

From 1999, the survey frame comprises companies with business activities relating to IT products and services as classified by the Singapore Standard Industrial Classification (SSIC), companies in the telecommunications business and companies providing content services. Companies based on the 5-digit SSIC as identified by the Info-communications Media Development Authority of Singapore (IMDA) are selected from the Commercial Establishment Information System (CEIS) database. From 2017, companies providing content services were excluded from the survey frame. These companies are covered by a media industry survey.

Radio, Television and Over-the-top Services

Mediacorp is Singapore's largest content creator and transmedia network, operating six TV channels, eleven radio stations and multiple digital platforms including CNA, Singapore's most used news app, and Toggle, its digital video platform. Its mission is to engage, entertain and enrich audiences by harnessing the power of creativity. Mediacorp pioneered the development of Singapore's broadcasting industry, with radio broadcast in 1936 and television broadcast in 1963. Today, it reaches 98% of Singaporeans in four languages weekly and has a growing Asian audience base through CNA as well as entertainment content that is distributed across markets in the region.

SPH Radio Pte Ltd manages and operates five 24-hour radio stations—ONE FM 91.3, Kiss92, MONEY FM 89.3, UFM 100.3, and 96.3 Hao FM. ONE FM 91.3 and Kiss92 are English music stations. MONEY FM 89.3, which is also in English, is Singapore's first and only business and personal finance radio station. UFM 100.3 and 96.3 Hao FM are Mandarin music stations, with the latter focusing more on lifestyle, healthcare and financial topics.

So Drama! Entertainment owns and operates two radio stations. 88.3JIA first rode the ariwaves in 1995, before relaunching in 2007 as Singapore's only bilingual station. It now has two new music streams 88.3JIA K-POP and 88.3JIA WEB HITS. POWER 98, which has been entertaining radio audiences since 1994, was relaunched as POWER 98 LOVE SONGS—BEST OF LOVE SONGS in 2019 and has two new music streams POWER 98 HITS! and POWER 98 RAW. The new app, Camokakis, allows listeners to tune-in through the app in addition to listening on-air and online.

Info-communications Media Development Authority

Notes: With effect from 1 October 2016, the Infocomm Development Authority and the Media Development Authority were restructured to form the Info-communications Media Development Authority and the Government Technology Agency of Singapore.

- 1 Refers to end of period.
- 2 Total post-paid and pre-paid subscriptions (2G) has ceased service with effect from April 2017.
- 3 Covers paid internet access subscriptions only.
- 4 Includes retail xDSL, cable modems, leased line Internet, 3G, 3.5G/HSDPA, 4G/LTE, WiMAX or its equivalent and Wi-Fi hotspots access (including Wireless@SG subscriptions).
- 5 Includes all retail residential wired broadband subscriptions provided over xDSL, cable modems, leased line and optical fibre. Residential wireless broadband subscriptions are excluded.
- 6 Includes all retail corporate wired broadband subscriptions provided over xDSL, cable modems, leased line and optical fibre. Corporate wireless broadband subscriptions are excluded.
- Includes all retail broadband Internet access subscriptions provided via wireless platforms such as 3G, 3.5G/HSDPA, 4G/LTE, WiMAX or its equivalent and Wi-Fi hotspots (including Wireless@SG subscriptions).

 From January 2018, the Wireless@SG subscriptions will only include active users for the month.
- 8 Includes SMS messages sent and received over 2G (up to April 2017), 3G and 4G (from March 2013) mobile networks.
- 9 Reflects the amount of bi-directional (the aggregated total downloaded) mobile data sent over the mobile networks, including MMS and any other upload/download but excludes video telephony and SMS.
- 10 Includes total retail outgoing international call minutes, transit minutes, calls to Malaysia and traffic by all Service-Based Operators.

Notes: With effect from 1 October 2016, the Infocomm Development Authority and the Media Development Authority

were restructured to form the Info-communications Media Development Authority and the Government

Technology Organisation.

Prior to 2017, infocomm industry revenue is defined as revenue from sales of hardware, software, IT services, telecommunication services and content services.

From 2017, infocomm industry revenue is defined as revenue from sales of hardware, software, IT services and telecommunication services.

Revenues were computed using data from large ICT companies and a sample of the remaining ICT companies stratified by the Singapore Standard Industrial Classification 2015.

Numbers may not add up to total due to rounding.

- 1 Includes telecommunication services revenue, resellers revenue and content services revenue.
- 2 Excludes revenue from 'Advertising activities' and 'Art and graphic design services'.

International Visitor Arrivals

The Singapore Tourism Board publishes monthly statistics on international visitor arrivals. Quarterly and annual summaries of visitor profiles from major source markets are available from the "Quarterly Tourism Focus" and "Annual Report on Tourism Statistics" reports.

Data on international visitor arrivals are compiled from Disembarkation/Embarkation Forms completed by all visitors arriving in Singapore at the points of entry.

Definitions

Length of Stay: Refers to the actual length of stay in Singapore. The date of arrival as indicated in the disembarkation/embarkation card is matched against the date of departure to

compute the actual length of stay. As some visitors may not depart within the calendar year, the number of visitor departures may be lower than total visitor arrivals during the year.

Standard Average Occupancy Obtained by dividing gross lettings (room-nights) by available room-nights. Gross lettings refer to both paid and complimentary lettings. Available room-nights refer to room-nights available for occupancy, excluding rooms closed for renovations and staff use as declared by the hotels.

Tourism Receipts: Comprise any expenditure incurred by visitors (including transit passengers, foreign air/sea crew and foreign students) during their stay in Singapore as well as the amount they prepaid on components such as accommodation and sightseeing tours before arrival.

Key Indicators for 2018 Standard Average Occupancy Rate 10.4 mil International **Outbound Departures** of Singapore Residents... Excludes arrivals of Malaysians by land. ...by Air 8.4 mil Tourism Receipts: \$26,942 mil **Average Length of Stay** ...by Sea 2.0 mil

Source: Singapore Tourism Board (STB)

Notes: In 2018, STB reviewed and updated the data estimation methodology to better present the overall performance of the hotel industry (for gazetted hotels). The updated methodology takes into account estimates of statistics for hotels that did not submit their data in time. Estimations are based on past hotel submissions as well as performance data of properties with similar size and pricing.

- 1 Refers to room-nights available for occupancy. Excludes rooms closed for renovations and staff use as declared by the hotels in the statutory forms.
- 2 Refers to gross lettings (room nights) divided by available room-nights.
- 3 Refers to total room revenue divided by gross lettings.

Finance

19 Finance

Household Sector Balance Sheet

The quarterly Household Sector Balance Sheet is compiled by the Singapore Department of Statistics. It shows the household sector's assets and liabilities at a particular point in time (i.e. as at end-of-period). The quarterly series start from the reference period of 1st Quarter 1995.

Household assets can be classified as financial or non-financial assets. Financial assets include currency and deposits, shares and securities (e.g. listed shares, unlisted shares, unit trusts and investment funds), life insurance (attributable to households as policyholders), CPF balances and pension funds. Non-financial assets, mainly refer to residential property assets and are categorised into public housing and private housing.

Household liabilities comprise mortgages (from the Housing and Development Board and financial institutions) and personal loans (e.g. motor vehicle loans, credit or charge card loans and other personal loans from banks and other financial institutions).

Banking, Finance and Insurance

Before 1971, the various monetary functions typically associated with a central bank were performed by several government departments and agencies. To centralise these functions, the Monetary Authority of Singapore (MAS) was established in 1971 to assume the role of the central bank except for the currency issuing function which remained the responsibility of the Board of Commissioners of Currency Singapore (BCCS). In October 2002, the BCCS merged with the MAS.

MAS conducts monetary The and exchange rate policies appropriate for sustained

non-inflationary economic growth Singapore. It administers the statutes pertaining to money and banking and formulates policies for the development of a sound banking system and an orderly financial market. It aims to develop Singapore into an international financial centre.

banking, Statistics on finance and insurance are compiled from returns submitted to the MAS. They may be found in the "Monthly Statistical Bulletin" and Annual Reports published by the MAS.

Asian Dollar Market

The Asian Dollar Market was officially established in October 1968 when approval was first given for a bank to operate an Asian Currency Unit (ACU). Since then, merchant banks have also been allowed to operate ACUs. As at 31 March 2019, there was a total of 156 ACUs in operation.

Insurance **W**

The insurance industry is regulated by the MAS under the Insurance Act (Cap 142).

Insurance business in Singapore divided into two classes - life business and general business.

The range of products offered life insurers includes traditional whole life, endowment, term, accident, health and annuity plans as well as investment-linked insurance plans. General insurers provide coverage for a wide range of risks such as fire, marine and aviation, motor, work injury compensation and public liability.

Central Provident Fund

Please see Chapter 4.

Money Supply: Refers to the amount of money in an economy. Narrowly defined, money supply (M1) consists of currency in active circulation and demand deposits. A broad definition of money supply (M2) comprises M1 and quasi money. The latter includes fixed, savings and other deposits with banks as well as negotiable certificates of deposit in Singapore dollar issued by Singapore banks. Money supply (M3) consists of M2 and net deposits with non-bank financial institutions.

Asian Currency Unit (ACU): Refers to an operational entity of a financial institution which has been granted approval by the MAS to participate in the Asian Dollar Market in Singapore. The ACU is essentially a separate accounting unit of a financial institution set up for its transactions in the Asian Dollar Market.

Official Foreign Reserves: Refer to the gross official reserves held by the MAS. These include gold and foreign exchange, Special Drawing Rights and Singapore's reserve position in the International Monetary Fund (IMF). Prior to May 1999, Singapore's official foreign reserves were valued at book cost. With effect from May 1999, the book value of foreign reserve

assets are translated at market exchange rates prevailing at the end of each reporting month.

Special Drawing Rights (SDR): Refer to an international reserve asset created by the IMF and allocated to its members in proportion to their quotas as a supplement to existing reserve assets. The SDR serves as the unit of account of the IMF. The valuation of the SDR is determined on the basis of a basket of five currencies: the US dollar, Euro, Chinese Renminbi, Japanese Yen and Pound Sterling.

Main Cards and Supplementary Cards: Refer to both credit and charge cards issued by the card issuing companies.

Total Cards Billings: Refer to total billings of Singapore cardholders excluding interest charges and membership fees.

Rolled Over Balances: Refer to balances that are subject to interest charges because they are not settled within the 'free credit' period. These include the minimum payment not settled by due date as well as the amount that is rolled over after settlement of the minimum sum.

Bad Debts Written Off: As the period when bad debts are written off differs from one card issuer to another, they are included as and when they occur.

Notes: Data as at end March of each year.

- 2 As the data breakdown of 'Capital Markets Services Licensees' (CMSLs) refer to the types of regulated activities which a CMSL is licensed to conduct, the components of CMSLs will not add up to its total.
- 3 On 8 October 2018, changes were made to the definitions of products and regulated activities under the Securities and Futures Act. The changes include the introduction of a new regulated activity, 'Dealing in Capital Markets Products', which encompasses the existing regulated activities of 'Dealing in Securities', 'Trading in Futures Contracts' and 'Leveraged Foreign Exchange Trading', as well as the new activity of dealing in over-the-counter derivatives contracts. Data before 2019 represent the number of CMSLs that conducted one or more of the regulated activities of 'Dealing in Securities', 'Trading in Futures Contracts' and 'Leveraged Foreign Exchange Trading'.
- 4 Prior to 8 October 2018, the activity was termed as 'Securities Financing'.
- 5 Prior to 8 October 2018, the activity was termed as 'Providing Custodial Services for Securities'.
- 6 Regulation of credit rating services came into effect on 17 January 2012.
- 7 The Venture Capital Fund Managers Regulatory Regime came into effect on 20 October 2017.
- 8 Registration of fund management companies commenced under an enhanced regulatory regime which came into effect on 7 August 2012.

Public Finance

20

Public Finance

The presentation of the annual Government Budget is based on the financial year (FY) of the Government, which runs from 1 April of the year to 31 March of the following year.

Under Singapore's Constitution, a distinction is made between the reserves accumulated by the Government during its current term of office, and past reserves, which refer to the reserves not accumulated in the current term of Government. The Government is expected to balance the budget within its term and can only draw on past reserves with the approval of the President. This Constitutional framework protects past reserves by enforcing fiscal prudence, while allowing the Government to draw on them in times of need.

The Overall Budget Balance that is published by the Ministry of Finance and presented to the Parliament is based on revenues that the Government of the day can spend under the Constitution. Not all Government revenues and receipts collected can be spent by the Government. Receipts such as land sales accrue to past reserves.

Singapore separately publishes a set of government finance data that follows the International Monetary Fund's presentation format for government finance statistics. This set of data includes all receipts, including items not available for spending by the Government of the day under Singapore's Constitution.

Government Revenue

The main revenue-collecting agencies are the Inland Revenue Authority of Singapore (IRAS) and the Singapore Customs. IRAS is responsible for the collection of income tax, property tax, Goods and Services Tax (GST), stamp duty, betting duty, casino tax and private lotteries duty. The Singapore Customs collects import GST as well as customs and excise duties on liquors, tobacco, petroleum products

and motor vehicles.

A person who has stayed or exercised employment in Singapore for a period of 183 days or more in the year preceding the year of assessment would be considered a tax resident of Singapore. Tax residents pay personal income tax at progressive rates on the chargeable income of the preceding year after appropriate deductions (e.g. allowable expenses, donations and reliefs) have been made. Non-tax resident individuals are not entitled to personal reliefs or rebates and are normally taxed at a flat rate.

A company is taxed at a flat rate on its chargeable income earned in the preceding financial year. Tax reliefs in the form of tax exemption schemes and corporate income tax rebates are available for companies to help reduce their taxes. More related information is available on the <u>IRAS website</u>.

GST is a consumption tax levied on the import of goods and all supplies of goods and services in Singapore. It excludes sales and leases of residential properties, importation and local supply of investment precious metals and the provision of financial services. The GST rate is 7 per cent. International services and export of goods are zero-rated (i.e. GST is charged at 0 per cent).

Government Expenditure

Total Expenditure consists of Operating Expenditure and Development Expenditure.

Operating Expenditure includes Running Costs and Transfers. Running Costs represent the day-to-day operating expenditure of the Government Ministries and Departments on the maintenance of the operations and other regular activities of the Government. The main components of Running Costs are expenditure on manpower, other operating expenditure and operating grants to Statutory Boards and other institutions. Transfers are payments made by the

Public Finance • 🏥

Government to members of the public and outside organisations. These include public assistance, subsidies, subventions and Government contributions to local and external organisations. Operating Expenditure is met from the Consolidated Fund ¹.

Development Expenditure refers to expenses that represent a longer-term investment or result in the formation of a capitalisable asset of the Government. Examples of spending areas are the acquisition of heavy equipment, as well as capitalisable assets, for example, buildings and roads. Development Expenditure is met from the Development Fund ².

The funding sources of the Development Fund are:

- monies appropriated from time to time from the Consolidated Fund;
- ii) proceeds of any loan raised for the purposes of the fund and appropriated to such purposes by the law raising the loan;
- iii) loans or grants from time to time made to Singapore for the purposes of or properly allocable to the fund;
- iv) revenues of Singapore allocated to the fund:
- v) interest and other income from investments of the fund and profits arising from the realisation of any such investments; and
- vi) repayments of any loans made from the fund, or payments of interest on such loans.

The Development Fund may be used for:

i) construction, improvement, acquisition

¹ The Consolidated Fund was constituted by Article 145 of the Constitution of the Republic of Singapore (1999 Revised Edition).

² The Development Fund was established by the Development Fund Act (Cap. 80, 2013 Revised Edition).

or replacement of capital assets (for example, buildings, vehicles, aircraft, machinery, rolling-stock, roads) required in respect of or in connection with the economic development or general welfare of Singapore;

- acquisition of land and of any right or interest in or over land and in respect of the use of any invention; and
- iii) grants and loans to, or investments in any public authority or corporation for any of the purposes mentioned in (i) and (ii) above.

Government Debt

The Government currently issues the following debt securities: Treasury Bills, Singapore Government Securities (SGS) bonds, Special Singapore Government Securities (SSGS) and Singapore Savings Bonds (SSB), which are for reasons unrelated to the Government's fiscal needs:

- i) SGS bonds and Treasury Bills are tradable debt instruments issued to develop Singapore's debt markets;
- ii) SSGS are non-tradable bonds issued primarily to meet the investment needs of the Central Provident Fund (CPF) Board, Singapore's national pension fund; and
- iii) SSB are introduced to provide individual investors with a long-term savings option that offers safe returns.

These borrowings are not used to fund Government's Budget. Under the Government Securities Act, borrowing proceeds from the issuance of these securities cannot be spent and have to be invested.

The Singapore Government has a strong balance sheet with assets in excess of its liabilities.

Notes: Data refer to the Government's financial year, which begins on 1 April of the current year and ends on 31 March of the following year.

Figures may not add up due to rounding.

- 1 Excludes the repayment of loans and advances, interest income, investment income and capital receipts.
- 2 Includes the foreign worker levy, annual tonnage tax, water conservation tax and development charge.
- 3 Includes revenue from licenses, permits, service fees, sales of goods, rental of premises, fines and forfeitures and reimbursements.
- 4 Excludes repayment of loans and advances, interest income, investment income and capital receipts.
- 5 Comprises Operating Expenditure and Development Expenditure. Development Expenditure excludes loans to statutory boards, industrial and commercial enterprises and land-related expenditure items.
- 6 Refers to discretionary transfers made by the Government and these include one-off direct transfers to businesses and households, as well as top-ups to endowment and trust funds created by the Government for specific expenditure objectives.
- 7 Surplus/Deficit before Top-ups to Endowment and Trust Funds and Net Investment Returns Contribution.

Notes: Data refer to the Government's financial year, which begins on 1 April of the current year and ends on 31 March of the following year. Figures may not add up due to rounding.

- 1 Refers to receipts credited to the Consolidated Revenue Account and Development Fund Account, but excludes the repayment of loans and advances, interest income, investment income and capital receipts.
- 2 With effect from April 2010, Withholding Tax, which was included in the figures reported under Personal Income Tax, has been reported separately. This item refers to collections under Section 45 of the Income Tax Act, which is a withholding tax on locally-sourced income earned by non-residents.
- 3 Refers to a tax on the total market value of a person's assets (cash and non-cash) at the date of his or her death. It has been removed for deaths occurring on and after 15 February 2008.
- 4 Comprises additional registration fees, road tax, special tax on heavy-oil engines, passenger vehicle seating fees and non-motor vehicle licences, but exclude excise duties on motor vehicles which are classified under Customs and Excise Duties.
- 5 Includes casino tax collected under Section 146 of the Casino Control Act with effect from March 2010.
- 6 Includes the foreign worker levy, annual tonnage tax, water conservation tax and development charge.

Notes: Data refer to the Government's financial year, which begins on 1 April of the current year and ends on 31 March of the following year. Refinements have been made over time to the sectoral classification of Ministries' expenditure to better reflect the nature of the programmes. In FY2013, expenditure by the Ministry of Manpower under the Financial Security and Lifelong Employability programme (subsequently re-named as the Financial Security for Singaporeans programme) was reclassified from the Economic Development sector to the Social Development sector. Figures may not add up due to rounding.

- 1 Refers to expenditure on manpower, other operating expenditure (excluding expenses on investment and agency fees on land sales), operating grants and transfers. Excludes Special Transfers and spending from Government Endowment and Trust Funds.
- 2 With effect from 1 November 2012, the Ministry of Community Development, Youth and Sports (MCYS) and the Ministry of Information, Communications and the Arts (MICA) were restructured to form three Ministries:

 (i) MCYS was renamed as the Ministry of Social and Family Development (MSF), (ii) MICA was renamed as the Ministry of Communications and Information (MCI) and (iii) the new Ministry of Culture, Community and Youth (MCCY) was formed to undertake functions transferred from MCYS and MICA.
- 3 Info-Communications and Media Development expenditure under the Economic Development sector refers to expenditure under the Infocomm Development Authority of Singapore and Media Development Authority prior to 1 October 2016. Thereafter, it refers to that of Info-communications Media Development Authority and Government Technology Agency of Singapore (from October 2016 to March 2017).

Notes: The debt is raised through the issuance of the Singapore Government Securities (SGS) Bonds, Treasury Bills, Singapore Savings Bonds and Special Singapore Government Securities (SSGS).

SGS bonds and Treasury Bills are for purposes of developing Singapore's debt markets, SSGS are non-tradable bonds issued specifically to meet the investment needs of the Central Provident Fund (CPF) Board and SSB are issued to provide individual investors with a long-term savings option.

Under the Protection of Reserves Framework in the Singapore Constitution, borrowing proceeds are not revenues that the Government is allowed to spend. All borrowing proceeds from the issuance of securities are therefore invested.

Notes: Data refer to the Government's financial year, which begins on 1 April of the current year and ends on 31 March of the following year.

Presentation format of the table follows that of the National Summary Data Page for Singapore, which disseminates the data prescribed by the International Monetary Fund's Special Data Dissemination Standards. Data in the table represent a broader definition of Government revenues and receipts than what are permissible for Government spending as presented in each year's Budget Statement. This is because some revenues and receipts accrue to the Government's past reserves, which cannot be drawn on without the approval of the President.

The data prior to FY2015 follow the IMF Government Financial Statistics Manual (GFSM), i.e., GFSM 2001.

Data from FY2015 follow the latest IMF Government Financial Statistics Manual (GFSM), GFSM 2014, which is an update from the previous GFSM 2001. Details on the differences in the reporting format for GFSM 2014 and GFSM 2001 can be found in IMF's website http://www.imf.org/external/pubs/ft/gfs/manual/aboutgfs.htm.

General government finance includes budgetary and extra-budgetary accounts.

Figures may not add up due to rounding.

- 1 Does not reflect the fiscal position of the current term of government, as it takes into account land sales and capital receipts (which accrue primarily to past reserves) in addition to taxes and other revenues, as well as land-related expenditure.
- 2 Reflects the net issuance of Government securities and lending minus repayments.

Prices

21 Prices

Consumer Price Index

The Consumer Price Index (CPI) measures the average price changes in a fixed basket of consumption goods and services commonly purchased by households over time. The weighting pattern for the 2014-based CPI was derived from the expenditure values collected in the Household Expenditure Survey (HES) conducted from October 2012 to September 2013. These expenditure values were updated to 2014 values by taking into account price changes between 2012/13 and 2014.

The CPI is compiled on a monthly basis. The annual CPI is derived by taking a simple average of the 12 months' indices for the year. The annual inflation rate for a specific year is computed by comparing the average for the 12 monthly indices with that for the preceding year.

Details on the compilation of the 2014-based CPI can be obtained from the Information Paper "Rebasing of The Consumer Price Index (Base Year 2014 = 100)", published by the Singapore Department of Statistics (DOS).

Average Retail Prices of Consumer Items

Retail prices of selected goods and services are collected regularly from a wide range of retailers and service providers commonly patronised by households.

The average annual retail price refers to the simple average of the 12 monthly retail prices for the year.

Average retail prices of consumer items starting from January 2014 are based on the 2014-based CPI basket. These prices may not be strictly comparable with those published based on earlier CPI baskets due to changes in the sample of brands, varieties and outlets priced.

Singapore Manufactured Products & Domestic Supply Price Indices

The Singapore Manufactured Products Price Index measures the changes in the prices of goods manufactured by local manufacturers. The Domestic Supply Price Index monitors the price changes of commodities, either locally manufactured or imported from abroad, which are retained for use in the domestic economy. The 2018-based series is compiled using the 'modified Laspeyres' formula, where the weight reference period of 2017 preceded the price reference period of 2018.

The weights for Singapore manufactured products are derived from production data collected in the 2017 Census of Manufacturing Activities. The weights for the Domestic Supply Price Index are made proportionate to the combined value of retained imports and locally manufactured goods sold in the domestic market. Prices of imported goods and ex-factory prices are collected from selected importers and local manufacturers respectively every month.

Indices at the commodity division and commodity section levels can be found on the <u>SingStat Website</u> via the following selections: Economy → Prices and Price Indices → Producer Price Indices. Analyses of price changes are published in the monthly report on <u>Singapore Manufactured Products & Domestic Supply Price Indices.</u>

Import & Export Price Indices

The Import & Export Price Indices track the price movements of imported and exported goods. Prices for imported products are valued at 'CIF' (Cost, Insurance and Freight) and prices for exported products are valued at 'FOB' (Free On Board). The 2018-based series is compiled using the Laspeyres formula, where the price and weight reference periods are aligned to the year 2018.

The weights for the imported and exported products are derived from the import and export statistics in 2018. Monthly prices are collected from selected importers and exporters.

Indices at the commodity division and commodity section levels can be found on the SingStat Website via the following selections: Economy → Prices and Price Indices International Trade Price Indices. Analyses of price changes are available in the monthly report on Import & Export Price Indices.

Construction Material Market Prices

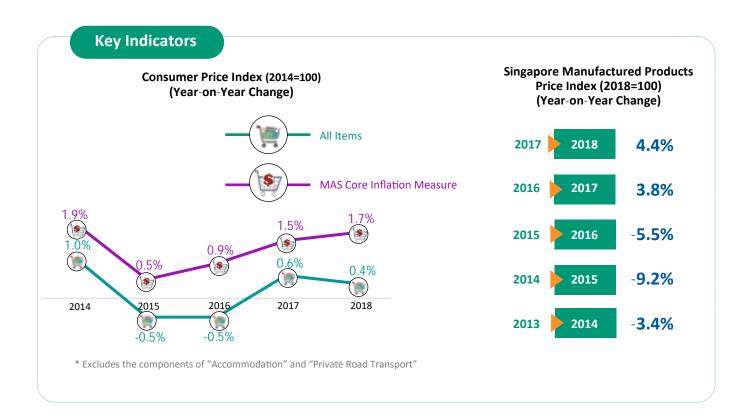

The Building and Construction Authority (BCA) compiles data on construction material

market prices. Construction material market prices are computed based on the average market prices of construction materials for the respective years.

Other Price Indices

The Housing and Development Board (HDB) compiles the Price Index of HDB Resale Flats, while the Urban Redevelopment Authority (URA) compiles the Private Residential Property Price Index and Commercial Property Price and Rental Indices. Since the fourth quarter of 2013, the Industrial Property Price Index, previously released by URA, has been compiled by the JTC Corporation.

¹ The weighting pattern of the Consumer Price Index (CPI) was derived from the expenditure values collected from the 2012/13 Household Expenditure Survey (HES) and updated to 2014 values by taking into account price changes between 2012/13 and 2014.

Download times series at www.tablebuilder.singstat.gov.sg/publicfacing/createDataTable.action?refld=12005 www.tablebuilder.singstat.gov.sg/publicfacing/createDataTable.action?refld=12008

² A significant share of the CPI Accommodation group is "owner-occupied accommodation (OOA) cost", which is computed based on the imputed rental concept under the rental equivalence method. Besides the imputed rentals on OOA, actual rentals paid on rented units are included separately under the CPI Accommodation group. Given that imputed rentals on OOA have no impact on the cash expenditure of most households in Singapore as they already own their homes, "All Items less imputed rentals on OOA" is compiled as an additional indicator.

³ Excludes the components of "Accommodation" and "Private Road Transport".

Sources: Urban Redevelopment Authority

JTC Corporation (With effect from 4Q 2013, for data pertaining to industrial properties)

- 1 Data are computed using stratified hedonic regression method. The sum of values of transactions from 1Q 2014 to 1Q 2015 is used as weights to compute the index. Prior to 3Q 2016, data are compiled based on transaction prices given in contracts submitted for stamp duty payment and data provided by licensed developers on new units sold. From 3Q 2016, net prices of units sold by de-licensed developers are included as well.
- 2 The weights used to compute the index are updated every quarter.
- 3 With effect from 1Q 2014, the coverage of shop space statistics has been expanded to include non-shop retail uses (i.e. food & beverage, entertainment and health & fitness) and referenced as 'retail space'.
- 4 Prior to 4Q 2014, the price index was computed based on transactions of multiple-user factories in the Central region and island-wide multiple-user warehouses, with weights updated every quarter using past 12 quarters' transaction values. From 4Q 2014, the price index is computed based on island-wide transactions of multiple-user factories and single-user factories. From 4Q 2014 to 4Q 2015, the weights were fixed using 2012 transaction values.

From 1Q 2016, the weights are fixed using 2015 transaction values.

The price index is also re-scaled to 100 at 4Q 2012.

- 5 Prior to 4Q 2014, the price index was computed based on transactions of multiple-user factories in the Central region.
 - From 4Q 2014, the scope of the price index is expanded to include transactions outside the Central region.

From 4Q 2014 to 4Q 2015, the weights were fixed using 2012 transaction values.

From 1Q 2016, the weights are fixed using 2015 transaction values.

The price index is also re-scaled to 100 at 4Q 2012.

6 The price index is computed using fixed weights based on 2009 transaction values prior to 1Q 2013. From 1Q 2013 to 4Q 2015, the weights were fixed using 2012 transaction values.

From 1Q 2016, the weights are fixed using 2015 transaction values.

Education

22 Education and Literacy

Singapore's education system aims to bring out the best in every child by enabling students to discover their talents, realise their full potential, and develop a passion for life-long learning. There are multiple educational pathways that seek to cater different strengths, interests and learning styles of students.

The bilingual policy is a cornerstone of Singapore's education system. It requires students to study two languages: English and a Mother Tongue. The learning of the Mother Tongue reinforces the cultural identity of Singaporeans and enables them to connect with communities across Asia and the world who speak that language or share that culture.

Schools in Singapore provide a rich diversity of learning experiences for students. On top of building a strong foundation in literacy and numeracy, students are developed holistically in the physical, aesthetic, moral, social and emotional spheres. They are also provided with opportunities to engage in hands-on learning through authentic settings which allow them to see the relevance of what they learn in the real-world context.

Primary Education 📝

At the primary level, students go through a six-year course designed to lay a strong educational foundation. This includes developing language and numeracy skills, building character and nurturing sound values and good habits.

At the end of Primary 6, students take the Primary School Leaving Examination (PSLE), which helps to guide them to a suitable academic programme in secondary school.

Secondary Education

At the secondary level, three core courses, namely Express course, Normal (Academic) course and Normal (Technical) course are offered to match the learning needs of students.

Specialised Schools, Specialised Schools for Normal (Technical) Students, Specialised Independent Schools, Independent Schools and schools which offer the Integrated Programme further contribute to the diverse secondary school landscape, to suit the unique needs of every student. In addition, all secondary schools have distinctive programmes to better support students' interests and talents.

Post-Secondary Education

After Secondary 4 or Secondary 5, most students proceed to one of the following post-secondary educational institutions:

Junior Colleges/Centralised Institute

Junior colleges offer a two-year pre-university education course while the centralised institute offers a three-year programme.

Polytechnics

The polytechnics offer a wide range of courses that equip students for careers in diverse fields.

Institute of Technical Education (ITE)

The ITE taps on industry expertise to ensure its graduates are well-equipped with skills needed by industries.

Arts Institutions

The LASALLE College of the Arts and the Nanyang Academy of Fine Arts offer a range of publicly-funded full-time diploma programmes in visual and performing arts. A range of full-time

Education and Literacy • 📉

degree programmes are also offered to students who intend to pursue the creative arts at a higher level.

Universities T

There are six publicly-funded universities in Singapore.

National University of Singapore (NUS)

NUS is a comprehensive and research-intensive university with sixteen faculties and schools, including a music conservatory. NUS offers traditional undergraduate programmes, University Scholars Programme, a liberal arts degree programme at the Yale-NUS College, and a wide range of graduate programmes.

Nanyang Technological University (NTU)

NTU is a comprehensive and research-intensive university, with a strong focus on engineering, science and technology. Apart from its five Colleges, NTU also has a medical school, and seven Autonomous Institutes, including the National Institute of Education.

Singapore Management University (SMU)

SMU offers undergraduate and postgraduate programmes across its six schools in accountancy, business, law, social sciences, economics and information systems. SMU is known for its interactive pedagogy of seminar-style teaching in small class sizes.

Singapore University of Technology & Design (SUTD)

SUTD is a specialised and research-intensive university. It focuses on design education in engineering and architecture. It also hosts an International Design Centre that conducts research on technologically-intensive design.

Singapore Institute of Technology (SIT)

SIT is one of the pioneers of the applied degree pathway, with a focus on science and technology. It offers its own applied degrees, as well as degree programmes in partnership with reputable overseas universities that have a strong emphasis on practice-oriented learning, a strong nexus with industry, and integration of work and study.

Singapore University of Social Sciences (SUSS)

SUSS was restructured into Singapore's sixth Autonomous University in 2017. It provides an applied education that targets both fresh school leavers and adult learners, in the domain of the social sciences, as well as in disciplines that have a strong impact on human and community development.

Continuing Education and Training (CET)

Working adults who wish to deepen their skills or acquire new ones may do so through Institutes of Higher Learning (IHLs). There is a wide range of learning options, which help to address manpower and skills gaps and enable the workforce to stay employable amidst rapid shifts in the economic landscape.

The ITE offers part-time Nitec, Higher Nitec, Specialist Nitec, and ITE Skills Certificate courses. It also offers MOE-subsidised lessons for Secondary 1 Normal to N- and O-Levels for adult learners. The polytechnics offer part-time programmes at diploma and post-diploma levels. The universities offer part-time degree courses at both undergraduate and postgraduate levels. In addition, ITE, polytechnics and universities offer tailored modular courses which allows more flexibility in learning.

Work-learn programmes were developed to equip Singaporeans with industry-relevant skills in authentic workplace learning environments.

Education and Literacy

Education Profile and Key Educational Indicators

education composition population is commonly associated with its qualification attained. Specifically, highest based on the highest educational level that person has attained, the population can into be broadly divided five categories, Secondary", "Below "Secondary", namely "Post-Secondary (Non-Tertiary)", "Diploma & Professional Qualification" and "University".

Statistics on the highest qualification attained of the population are collected through the Censuses of Population and the General Household Surveys conducted by the Singapore Department of Statistics (DOS) and the mid-year Labour Force Surveys conducted by the Ministry of Manpower. These statistics pertain to residents who are not attending educational institutions as full-time students.

Other key educational indicators, namely mean years of schooling and literacy rate, are compiled annually for the resident population. These indicators are commonly used internationally as an indication of the educational development of the population.

Definitions

Highest Qualification Attained: Refers to the highest grade or standard a person has passed or the highest level where a certificate, diploma, or degree is awarded. The Singapore Standard Educational Classification is used to classify persons by highest qualification attain

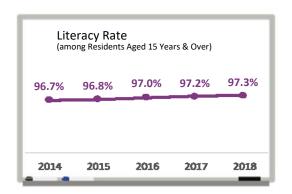

Highest Qualification Attained in 2018 (among Residents Aged 25 Years & Over)

Mean Years of Schooling: Refers to the years of education a person received on average.

Literacy Rate: Refers to the proportion of population who are able to read with understanding (e.g. a newspaper). It is derived based on information as reported in surveys, including the Censuses of Population and General Household Surveys, as well as administrative data. Persons whose literacy is not known from surveys or administrative records are excluded from the computation of literacy rate.

Other References

The Ministry of Education (MOE) publishes detailed education statistics which can be found in the "Education Statistics Digest". An overview of Singapore's education system is also available from the MOE website.

Statistics on the highest qualification attained by the resident population, mean years of schooling and literacy rates are available in the annual report "Population Trends" published by DOS.

Sources: Ministry of Education, Institute of Technical Education, LASALLE College of the Arts, Nanyang Academy of Fine Arts, Singapore Polytechnic, Ngee Ann Polytechnic, Temasek Polytechnic, Nanyang Polytechnic, Republic Polytechnic, National Institute of Education, National University of Singapore, Nanyang Technological University, Singapore Management University, Singapore Institute of Technology, Singapore University of Technology and Design, SIM University (2014 to 2016) and Singapore University of Social Sciences (from 2017).

Notes: Data for primary and secondary schools, junior colleges and universities exclude private schools or institutions.

- 1 Includes Centralised Institute.
- 2 Refers to students in full-time courses.
- 3 Refers to students in full-time diploma and degree courses offered by LASALLE College of the Arts and Nanyang Academy of Fine Arts.
- 4 Refers to students in full-time and part-time polytechnic diploma and advanced diploma courses offered by Singapore Polytechnic, Ngee Ann Polytechnic, Temasek Polytechnic, Nanyang Polytechnic and Republic Polytechnic. Students enrolled in Polytechnic Foundation Programme are excluded.
- 5 Refers to students in full-time and part-time diploma, postgraduate diploma and higher degree courses.
- 6 Refers to full-time and part-time undergraduate and postgraduate students in National University of Singapore, Nanyang Technological University, Singapore Management University, Singapore Institute of Technology, Singapore University of Technology and Design, full-time undergraduates in SIM University (from 2014 to 2016) and Singapore University of Social Sciences (from 2017).

22.2 STUDENTS AND TEACHERS IN EDUCATIONAL INSTITUTIONS, 2018

Number

| | Institut- | | Students | | | Teachers | |
|---|-----------|---------|----------|---------|--------|----------|---------|
| | ions | Total | Males | Females | Total | Males | Females |

Sources: Ministry of Education, Institute of Technical Education, LASALLE College of the Arts, Nanyang Academy of Fine Arts, Singapore Polytechnic, Ngee Ann Polytechnic, Temasek Polytechnic, Nanyang Polytechnic, Republic Polytechnic, National Institute of Education, National University of Singapore, Nanyang Technological University, Singapore Management University, Singapore Institute of Technology, Singapore University of Technology and Design and Singapore University of Social Science.

Notes: Data for primary and secondary schools, junior colleges and universities exclude private schools or institutions.

Except for the Institute of Technical Education, data for institutions of higher learning include part-time students and teachers.

- 1 Refers to institutions that offer multiple educational levels, namely: primary & secondary (P1-S4/5) and secondary & junior college (S1-JC2).
- 2 Includes Centralised Institute.
- 3 Refers to students in full-time courses.
- 4 Refers to LASALLE College of the Arts and Nanyang Academy of Fine Arts. Data refer to students in full-time diploma and degree courses.
- 5 Refers to Singapore Polytechnic, Ngee Ann Polytechnic, Temasek Polytechnic, Nanyang Polytechnic and Republic Polytechnic.

 Data for students exclude those enrolled in Polytechnic Foundation Programme.
- 6 Data for teachers are subsumed under Universities.
- 7 Refers to National University of Singapore, Nanyang Technological University, Singapore Management University, Singapore Institute of Technology, Singapore University of Technology and Design and Singapore University of Social Sciences.

Notes: Data prior to 2015 are classified according to the Singapore Standard Educational Classification (SSEC) 2010, while data from 2015 are classified according to SSEC 2015.

Covers full-time and part-time polytechnic diploma courses.

Data include students who are concurrently enrolled in advanced diploma courses.

- 1 Includes Digital Media Design and Media Production.
- 2 Includes Accountancy.
- 3 Includes Real Estate.
- 4 Includes Maritime Transportation, Nautical Studies and Police Studies.

Singapore University of Technology and Design, SIM University (from 2014 to 2016) and Singapore University of Social Sciences (from 2017).

Notes: Data prior to 2015 are classified according to the Singapore Standard Educational Classification (SSEC) 2010, while data from 2015 are classified according to SSEC 2015.

Covers full-time and part-time first degree courses.

- 1 With effect from 2017, there are courses whose main field of study is not elsewhere classifiable.
- 2 Includes Industrial Design.
- 3 Includes Real Estate.
- 4 Includes Maritime Studies.

Sources: Ministry of Education, Singapore Polytechnic, Ngee Ann Polytechnic, Temasek Polytechnic, Nanyang Polytechnic and Republic Polytechnic.

Notes: Data prior to 2015 are classified according to the Singapore Standard Educational Classification (SSEC) 2010, while data from 2015 are classified according to SSEC 2015.

Covers full-time and part-time polytechnic diploma courses.

Data refer to academic year.

- 1 Includes Digital Media Design and Media Production.
- 2 Includes Accountancy.
- 3 Includes Real Estate.
- 4 Includes Maritime Transportation, Nautical Studies and Police Studies.

Health

3 Health

Ministry of Health (MOH) The committed to promoting good health, providing healthcare services and encouraging medical excellence.

Through MOH, the Government manages the public healthcare system to ensure that quality and affordable basic medical services are available to all Singaporeans. Financing schemes including subsidies, MediSave savings insurance help to ensure affordability healthcare. Safety nets are provided to ensure that no Singaporean is denied access to healthcare because of financial difficulty. There is also ongoing investment in healthcare facilities, manpower and information infrastructure to enhance the accessibility across the continuum of care. At the same time, MOH continues to encourage individuals to adopt a healthy lifestyle and to take charge of their own health to lead better, healthier lives.

Public Healthcare Services

Singapore's public healthcare establishments provide a full range of services covering primary care at polyclinics to tertiary care at hospitals. These include ten acute psychiatric hospitals, one hospital, four community hospitals and twenty polyclinics.

Statutory Boards 🎢 🦞

Two statutory boards under MOH were established on 1 April 2001.

The Health Promotion Board (HPB) aims to empower Singaporeans to attain optimal health, increase the quality and years of healthy life, and prevent illness, disability and premature death. As the key driver of national health promotion and disease prevention programmes, spearheads health education, promotion and prevention programmes by reaching out to the healthy, the at-risk and the unhealthy at all stages of life. Health promotion programmes include nutrition, mental health, physical activity, tobacco control, and communicable disease education. HPB also promotes healthy ageing, integrated health screening, and chronic disease education and management.

The Health Sciences Authority (HSA) is a multidisciplinary scientific and regulatory agency that serves three key functions to protect and advance national health and safety. It is the national regulator for drugs, innovative therapeutics, medical devices and health-related products, ensuring they are well-regulated to high standards of safety, quality and efficacy. As the national blood service, it secures the nation's blood supply by ensuring a safe and adequate blood supply for public and private hospitals. It is also the provider of national expertise in forensic medicine, forensic science and analytical chemistry testing to serve the administration of justice and safeguard public health.

Public Health

Statistics on notifiable communicable diseases are collected by MOH from physicians and laboratories. In addition, statistics on various diseases are obtained from healthcare institutions, including polyclinics and hospitals. The National Immunisation Registry collects and maintains vaccination records of children and adults who reside in Singapore, to promote cost-effective disease prevention.

Health • 🕠

Hospital Statistics

Data on public hospital beds, patient admissions and outpatient attendances are obtained from administrative records and the computerised patient registration systems of the hospitals. For non-public hospitals, the data are compiled from returns prescribed by MOH and from administrative data.

Healthcare Personnel

Data on registered healthcare personnel refer to the number of doctors, dentists, pharmacists, nurses and midwives, optometrists and opticians, allied health professionals, as well as traditional Chinese medicine practitioners registered under the respective acts. Manpower statistics pertaining to these healthcare personnel are derived from the registers maintained by the respective professional bodies.

Number of Registered Health Personnel in 2018 Doctors 13,766 **Dentists** 2,363 **Pharmacists** 3,216 **Registered Nurses** 33,614 **Enrolled Nurses** 8,394 **Registered Midwives** 117 **Optometrists and Opticians** 2,633 **Occupational Therapists** 1,201 **Physiotherapists** 1,967 **Speech Therapists** 642 **Traditional Chinese Medicine (TCM)** 3,004 **Physicians** 252 **Acupuncturists**

Notes: Public health facilities refer to those owned or controlled by a government unit or another public corporation (where control is defined as the ability to determine the general corporate policy).

Not-for-profit health facilities refer to those producing health goods and services, but are not permitted to be a source of income, profit or financial gain for the unit(s) that establish, control or finance them.

Private health facilities refer to those set up for the purpose of producing health goods and services and are capable of generating a profit or other financial gains for their owners.

A residential health facility providing more than one residential care service will be categorised based on its highest level of 2 medical capability (LMC), provided the highest LMC beds make up at least 25 per cent of total bed capacity.

For example, a health facility providing both community hospital and chronic sick services will be categorised as a "Community Hospital" if its number of community hospital beds is at least 25 per cent of its total bed capacity.

- 1 Comprises both general hospitals and specialty centres (excluding Psychiatric Hospitals) with acute care inpatient facilities. With effect from 2014, data include Farrer Park Hospital.
 - With effect from 2015, data include Ng Teng Fong General Hospital.
 - Johns Hopkins Singapore International Medical Centre ceased operations with effect from 2017.
 - With effect from 2018, data include Sengkang General Hospital.
- 2 With effect from 2015, data include Jurong Community Hospital and Yishun Community Hospital. With effect from 2018, data include Sengkang Community Hospital.
- 3 West Point Hospital closed in December 2015 and re-opened in September 2016. The hospital ceased operation with effect from September 2018.

Notes: Public health facilities refer to those owned or controlled by a government unit or another public corporation (where control is defined as the ability to determine the general corporate policy).

Not-for-profit health facilities refer to those producing health goods and services, but are not permitted to be a source of income, profit or financial gain for the unit(s) that establish, control or finance them.

Private health facilities refer to those set up for the purpose of producing health goods and services and are capable of generating a profit or other financial gains for their owners.

A residential health facility providing more than one residential care service will be categorised based on its highest level of
medical capability (LMC), provided the highest LMC beds make up at least 25 per cent of total bed capacity.

For example, a health facility providing both community hospital and chronic sick services will be categorised as a "Community Hospital" if its number of community hospital beds is at least 25 per cent of its total bed capacity.

"Community Hospitals" includes multiple services i.e. community hospital (sub-acute and rehabilitation), chronic sick units and inpatient hospice.

- 1 Refers to inpatient discharges.
- 2 Comprises both general hospitals and specialty centres (excluding Psychiatric Hospitals) with acute care inpatient facilities.
- 3 "Non-Public" comprises "Private" and "Not-for-Profit" health facilities.
- 4 Refers to inpatient discharges for all services (including chronic sick and inpatient hospice) in community hospital.
- 5 With effect from Jaunary 2015, data include Jurong Medical Centre. With effect from July 2017, data include Admiralty Medical Centre.
- 6 With effect from January 2017, data on polyclinic attendances cover consultations and other services offered at polyclinics, including nursing services and allied health services.
- 7 Includes dental services/clinics in hospitals, polyclinics, schools and National Dental Centre.
 From January 2015, data include Jurong Medical Centre. From June 2015, data include dental clinic at Ng Teng Fong Hospital.

Source: Ministry of Health

Notes: A residential health facility providing more than one residential care service will be categorised based on its highest $\$ 1 level of medical capability (LMC), provided the highest LMC beds make up at least 25 per cent of total bed capacity. For example, a health facility providing both community hospital and chronic sick services will be categorised as a "Community Hospital" if its number of community hospital beds is at least 25 per cent of its total bed capacity. Community Hospitals' includes multiple services i.e. community hospital (sub-acute and rehabilitation), chronic sick units and inpatient hospice.

- 1 Refers to inpatient discharges, excluding normal deliveries and legalised abortions.
- 2 Comprises both general hospitals and specialty centres (excluding Psychiatric Hospitals) with acute care inpatient facilities.
- 3 Refers to inpatient discharges for all services (including chronic sick and inpatient hospice) in community hospital.

Hawkers and Food Establishments

24

Hawkers and Food Establishments

Hawker stalls and food retail establishments are licensed by the National Environment Agency (NEA). Food factories were licensed by the Agri-Food & Veterinary Authority (AVA). NEA and Singapore Food Agency (SFA) ensure that food sold in Singapore is safe for consumption. From 1 April 2019, the holistic management of food industry from "farm to fork" is overseen by the SFA.

Licensed Hawkers

Licensed hawkers refer to hawkers who are issued with the licence by NEA to operate stalls in hawker centres and markets, as well as itinerant street hawkers.

Licensed Hawkers by Type of Premises (End of Period) 2018

Licensed Food Establishments

Licensed food establishments are grouped under five separate categories, namely, food shops, food stalls, food factories, supermarkets and private markets.

Businesses that require a food shop licence include restaurants, cake shops, eating houses, coffeeshops, food courts, pubs, bars, market produce shops, food caterers, and mobile food wagons.

A food stall refers to a compartmentalised unit housed in a food shop, such as coffeeshop, eating house, food court or canteen.

Food factories refer to AVA licensed food establishments where food is manufactured, processed, prepared or packed for the purpose of distribution to wholesalers and retailers. These food establishments include noodles and pasta

manufacturers, bakery and flour confectionery manufacturers, meat and fish processing establishments, slaughterhouses and cold stores used for the storage of meat and/or fish products.

These food establishments are subjected to regular inspections and food samples would be collected for laboratory analysis to ensure that the food produced is safe and fit for human consumption. They are also graded and classified under grades 'A', 'B', 'C' or 'D' according to their food safety and hygiene standards.

Supermarkets refer to air-conditioned retail markets that sell meat, fish, fruit, vegetable, poultry, egg or other article of food (cooked or uncooked) and other household items. They are operated on a self-service basis.

Private markets refer to markets (including any stalls therein) licensed to private operators for the sale of meat, fish, fruit, vegetable, poultry, egg or other article of food (cooked or uncooked).

Licensed Food Establishments (End of Period), 2018

Community Services

25 Community Services

Ministry of Social and Family The Development (MSF) aims to nurture resilient individuals, strong families and a caring society. MSF formulates and implements policies on social assistance, social services, family, child care and child development, vulnerable adults and elderly, disability, as well as social safeguards against problem gambling. In addition to its developmental role, MSF directly administers services which include the protection children and young persons. Rehabilitation of youth and adult offenders, registration of civil marriages, licensing of child care centres, public education on family matters and disbursement of social assistance.

MSF also oversees regulatory functions under the various legislations such as the Maintenance of Parents Act, the Children and Young Persons Act, the Women's Charter, the Mental Capacity Act and the Vulnerable Adults Act. To address social needs, MSF works closely with its partners in the social service sector, which include Social Service Agencies (SSAs), Community Development Councils (CDCs), major funders such as the Singapore Totalisator Board (or Tote Board), corporate entities as well as the public. Ministry also plays a key role in developing and working with the social service sector to grow a steady pipeline of social service professionals, develop career pathways, as well as to raise the sector's capabilities and skills to effectively deal with increasingly complex social issues.

The Ministry of Culture, Community and Youth (MCCY) seeks to inspire Singaporeans through the arts and sports, strengthen community bonds, and promote volunteerism and philanthropy. Since its inception in November 2012, MCCY has been actively engaging the arts, heritage, sports, community and youth sectors. MCCY aims to bring into sharper focus the efforts to build a more cohesive and vibrant society, and to deepen a sense of identity and belonging to the nation. MCCY works with its stakeholders to create an environment where Singaporeans can pursue their aspirations for a better quality of life and together, build a gracious and caring society.

People's Association (🛣

The People's Association (PA) is a statutory board set up on 1 July 1960 to promote racial harmony and social cohesion. It also connects the people and the Government through consultation and feedback gathering to close last-mile delivery.

PA achieves its mission through a wide range of programmes offered by its network 1 of about 2,000 Grassroots Organisations (GROs) and five Community Development Councils.

Community Development Councils COUNCIL

The Community Development Councils (CDCs) were set up in 1997 under the PA to "Assist the Needy, Bond the People and Connect the Community" (in short, the "ABC" mission) to strengthen community bonding and social cohesion, and to foster the community spirit of self-help and mutual support. Guided by the mission, the CDCs develop and implement programmes that identify existing and emerging needs in the community, and work closely with public, private and people (3P) partners to develop and implement sustainable programmes that promote caring for the environment, helping and vulnerable, elderly volunteerism, self-reliance and upward social mobility.

Through the 3P partnership, the CDCs aim to rally the community to strengthen social infrastructure, build social resilience and social capital, and promote the culture

¹ Includes Citizens' Consultative Committees, Community Club Management Committees, Residents' Committees, Residents' Networks, Neighbourhood Committees, Community Sports Clubs, Community Emergency and Engagement Committees, Women's Executive Committees, Youth Executive Committees, Senior Citizens' Executive Committees, Malay Activity Executive Committees, Indian Activity Executive Committees and Teens Network Club Management Committees.

of giving back so as to build a "Great Home and a Caring Community" and a "Cohesive and Compassionate Nation".

Volunteers 🌂 🌶

"Volunteers" refer to individuals, interest groups and organisations who provide services in community and welfare programmes without receiving full market rates of remuneration or allowances.

Child Care Centres and Kindergartens 🤌 🧸

The Early Childhood Development Agency (ECDA) serves as the regulatory developmental authority for the early childhood sector in Singapore, overseeing key aspects of children's development below the age of 7 years in child care centres and kindergartens. It is jointly overseen by the Ministry of Education (MOE) and MSF.

Child care centres typically provide full-day child care services for children aged 18 months to 6 years. Some centres also provide infant care services for infants aged 2 months to 18 months. Centres may also offer half-day and flexible programmes to cater to the different needs of parents and children.

Kindergartens typically provide pre-school developmental programmes for children from 3 to 6 years of age. Most kindergartens run two sessions a day, with each session ranging from 3 to 4 hours, 5 days a week.

MOE Kindergartens, run by MOE, provide kindergarten education for children aged 5 to 6 years old. They typically run two sessions a day, with each session being 4 hours, 5 days a week. Kindergarten Care services are offered to parents who require full-day services.

In 2018, there were 1,486 child care centres and 435 kindergartens in Singapore, located in HDB void decks, community spaces, primary schools and workplaces to provide parents with ease of access and choices in meeting the early childhood needs of their children.

Student Care Centres

Student Care Centres provide care and supervision to school-going children in the Primary to Lower Secondary levels outside school hours, while their parents are at work. There are currently over 400 student care centres located in schools and in the community that administer the ComCare Student Care Fee Assistance (SCFA) scheme to support lower income families in accessing the service.

ComCare Short-to-Medium Term Assistance

ComCare Short-to-Medium Term Assistance is targeted at low-income families and individuals, those who are temporarily unable to work (e.g. due to illness, or caregiving responsibilities), jobseekers who require financial assistance, and those earning a low income and require financial support. Beneficiaries may receive cash assistance for their basic living expenses, assistance with their household bills (e.g. public rental, utilities, and service and conservancy charges), MediFund assistance for medical bills, employment assistance, and referrals to relevant agencies or community organisations for other forms of support (e.g. Family Service Centres for casework and counselling). Officers from the Social Service Office (SSO) will work with the applicants to develop an action plan to improve the family's circumstances.

ComCare Long Term Assistance

ComCare Long Term Assistance is targeted at individuals who are permanently unable to

Community Services • 🙈

work due to old age, illness or disability, have limited or no means of income, and have little or no family support. Beneficiaries receive cash assistance for their basic living expenses and household bills, MediFund assistance for medical bills, as well as additional assistance for medical consumables and one-off essentials if needed. They also have access to government-funded social services such as Senior Activity Centres and befriending services.

ComCare Interim Assistance

ComCare Interim Assistance schemes are administered by SSOs and community partners to provide immediate financial assistance to individuals and families who require urgent and temporary financial relief. The community touch-points administering ComCare Interim Citizens' Assistance are the Consultative Committees (Grassroots), the Family Service Centres, and the Community Justice Centre. The type and amount of assistance rendered depend on the needs and circumstances of each beneficiary, and may be in the form of financial assistance or other items.

Student Care Fee Assistance

ComCare provides monthly fee subsidies for children from eligible families to attend student care centres while their parents are at work. This fee assistance is available to children attending student care centres registered with MSF, including special student care centres for students with special needs. The eligible families are also given a one-off Start Up Grant to offset the initial costs of placing their child in the centre.

Family Service Centres

Family Service Centres (FSCs) play a key role in building strong and stable families in Singapore. FSCs are community-based social work entities that provide a suite of services, such as Information and Referral services, and social work intervention. FSCs focus on serving low income and vulnerable individuals and families, to help them achieve independence, stability and resilience. There are currently 47 FSCs serving more than 27,000 clients a year.

Services for Senior Citizens

As Secretariat to the Ministerial Committee on Ageing, the Ageing Planning Office (APO) in the Ministry of Health (MOH) works with government, private and public agencies to plan and develop initiatives to help Singaporeans age in-place successfully. As part of the Action Plan for Successful Ageing, MOH works with the PA, Council for Third Age (C3A), Health Promotion Board (HPB) and various agencies to promote active and healthy ageing. undertakes the planning development of aged care services for senior citizens, which include both the health and social aspects of aged care services, ranging from home and community-based services to residential care services.

MOH's focus is to enhance accessibility, quality and affordability of aged care services. New initiatives include overseeing the functions of the Senior Activity Centres, which allows MOH to better meet the social needs of the elderly, in addition to their healthcare needs.

In line with its core role of supporting low-income and vulnerable seniors, MSF oversees the Senior Group Homes and Sheltered Homes.

39,331 seniors having access to Senior Activity Centres in FY2018

People's Association (PA)

Notes: CCCs = Citizens' Consultative Committees

The PA introduced the Grassroots Member Scheme in 2013.

Grassroots members can be appointed at the constituency level and to any grassroots organisations.

- 1 Includes RC Block Representatives.
- 2 Residents' Networks were formed in 2018.
- 3 Refers to the Singapore Boys' Home and Singapore Girls' Home.
- 4 Refers to the number of foster families under MSF's Fostering Scheme.
- 5 Volunteer Transport Minders are individuals who support the routine and access to services for children and young persons under MSF's Child Protective Service. They assist to ferry children and young persons from their place of alternative care to schools, venues for contact with their families, medical appointments, counselling/therapy sessions.
- 6 ProPALS (Promoting Pathways in Arts, Leisure and Sports) started in August 2014. Data refer to the number of agencies/groups. Through the ProPALS scheme, volunteers motivate and inspire children and youths under the care of MSF in their journey towards transformation and growth through sports, arts and recreational initiatives and employment (from 2018) that impart life lessons and build resilience. Volunteers share their expertise in sports, arts or other professional skills to increase competencies of children and youth, and also plan and implement programmes and activities.

Culture and Recreation

26 Culture and Recreation

As a vibrant city of the arts, culture and media, and a sporting and learning nation, Singapore aims to provide a better quality of life for all.

Cinema

Data on cinema attendances (box office and audience numbers) are compiled by the Singapore Film Commission, under the Infocomm Media Development Authority, from returns submitted by cinema operators, distributors, and the Cinematograph Film Exhibitors Association.

19.6 mil cinema attendances in 2018

Library Will

The National Library Board (NLB) aims to nurture the learning needs of a Knowledgeable Society, where all Singaporeans are Readers for Life and are actively engaged in Learning Communities. NLB has around 2.5 members. In addition to the National Library, there are 26 public libraries located conveniently across Singapore comprising 13 libraries located in shopping malls, 10 stand-alone public libraries and 3 regional libraries. NLB also manages 3 mobile libraries (MOLLY) and 4 libraries belonging to government agencies and institutions.

NLB has a physical collection of 8.8 million books, serials and special materials. Out of this collection, some 2.8 million fiction items and 3.6 million non-fiction items are in the lending collection. Over 33 million loans were made in 2018.

reference collection offered bν the Lee Kong Chian Reference Library at the National Library Building consists of 2.4 million items covering social sciences and humanities, science and technology, business arts, and management.

NLB also provides library users with on-site and remote access to a digital library at www.nlb.gov.sg. Its eResources site offers more than 904,000 copies of eBooks, over 70 databases with more than 7,500 titles of electronic newspapers and magazines in over 60 languages, and approximately 2.2 million music tracks.

Sports Sport

As the national sports agency, Sport Singapore recognises the value of sport to transform the nation by advancing the national priorities of developing our people, bonding our communities and strengthening national identity and pride.

In line with Vision 2030: Live Better Through Sport recommendations, Sport Singapore sporting sport create greater uses to opportunities and access, more inclusivity and integration, as well as broader development of capabilities. Sport Singapore collaborates with a vast network of public, private and people sector partners to enable individuals to live better through sport.

Through Sport Facilities Master Plan and ActiveSG, the national movement for sport and physical activity, Singaporeans of all ages and abilities are able to conveniently participate in sport within their communities.

Active Health, social movement introduced by Sport Singapore, encourages

Culture and Recreation

Singaporeans to proactively take ownership of health and wellness through management of Physical Activity, Screen Time, Sleep and Nutrition.

SportCares activates sport as a force for social good, enabling Persons With Disabilities (PWDs) and vulnerable groups to lead more enriched and fulfilling lives through personal empowerment, social inclusion and bridging communities through sport.

national Team Nila. the volunteer movement, empowers individuals to give back to society through sport and to contribute to the nation as One Team Singapore.

Lifeskills and Lifestyle Courses and **Interest Groups**

The People's Association (PA) and its grassroots network promote friendship and trust amongst residents of all races and backgrounds through its wide range of community activities and courses pertaining to arts and lifestyle, education and lifeskills, performing arts and sports. These are held at Community Clubs, Resident's Committees/Networks Centres, PAssion WaVe outlets and other community spaces. The PA also encourages the formation of interest groups for residents to friendships through the pursuit of common interests.

The Ministry of Culture, Community and Youth (MCCY)'s publication "Singapore Cultural Statistics", published annually since 2008, provides an update on the state of the arts and cultural landscape in Singapore. The statistics reported in this publication include data on arts and cultural performance, heritage events and museum exhibitions.

Definitions

Performing arts: Refer to folk, traditional, classical, contemporary and popular forms of dance, music and theatre performances. Community arts and cultural events such as cultural festivals and district arts festivals are included.

3,186 ticketed performing arts performances in 2017

1.9 mil ticketed performing arts attendances in 2017

Visual arts: Refer to public exhibitions of abstract or representational art objects such as paintings, prints, sculpture, pottery, ceramics, creative photography, installation art multi-media art. Applied arts like film, video, graphic design, fashion design, jewellery design and handicrafts are excluded.

1,077 visual arts exhibitions In 2017

Jurong BirdPark Pte Ltd Night Safari Sentosa Development Corporation Gardens by the Bay

- 1 Visitorship to the museums is counted using an automatic tracking system, which makes use of tracking devices fixed at all the entrances to the museums. All visitors who access the museum premises are captured in the count, regardless of whether the entries are based on paid admissions or those not requiring payment.
- 2 Includes visitors to Asian Civilisations Museum at Empress Place Building.
- 3 Prior to April 2016, data were obtained from JTC Corporation. From April 2016, data are obtained from National Parks Board.
- 4 Gardens by the Bay was officially opened on 29 June 2012.
- 5 The Indian Heritage Centre opened on 7 May 2015.
- 6 Visitorship to the Malay Heritage Centre prior to 2015 is not directly comparable to future years due to updates in the data collection method.
 - Year 2017 and 2018 data have been revised based on the results of a validation study conducted by the National Heritage Board.
- 7 The National Gallery Singapore opened officially on 24 November 2015.
- 8 Refers to the financial year which begins in April of the current year and ends in March of the following year.
- 9 Excludes Southern Island arrivals and includes arrivals to Resorts World Sentosa.
- 10 Singapore Art Museum (SAM) had been incorporated as an independent company limited by guarantee in November 2013. From January 2014, visitorship data are provided by SAM. Visitorship data include visitors to SAM at 8Q. With effect from September 2018, only SAM at 8Q is open.
- 11 The National Heritage Board is the appointed operator of Sun Yat Sen Nanyang Memorial Hall from 2009.

 Sun Yat Sen Nanyang Memorial Hall was closed for redevelopment from October 2010 to 7 October 2011.

 Data for 2011 refer to the visitorship to Sun Yat Sen Nanyang Memorial Hall from 8 October to 31 December 2011.
- 12 River Safari was officially opened on 3 April 2013.

Water Supply **State**

PUB, Singapore's national water agency, is responsible for managing Singapore's water supply, water catchment and used water in an integrated way. To ensure sustainability of our water supply, efforts are taken to diversify the supply sources and manage demand.

Today, Singapore has a robust and diversified supply of water through the four National Taps, namely, water from local catchments, imported water, NEWater and desalinated water. Singapore's drinking water quality is well within the requirements stipulated under the Environmental Public Health (Water Suitable for Drinking) Regulations and the World Health Organisation's Guidelines for Drinking Water Quality. As part of water demand management, PUB works with the community and various sectors to adopt water conservation measures, such as promoting water saving habits and improving the efficiency of water usage.

495.5 mil m³ of potable water was sold in 2018

Electricity

The Energy Market Authority (EMA) was formed in April 2001 to ensure a reliable and secure energy supply, promote effective competition in the energy market, and develop a dynamic energy sector in Singapore.

There are currently 15 power generation companies participating in the National Electricity Market of Singapore (NEMS), a real-time electricity trading pool operated and administered by the Energy Market Company. The power generation companies bid to sell electricity on a half-hourly basis through NEMS.

Of these 15 power generation companies, seven generate electricity using natural gas as their primary fuel. They are:

- Keppel Merlimau Cogen Pte Ltd
- PacificLight Power Pte Ltd
- Sembcorp Cogen Pte Ltd
- Senoko Energy Pte Ltd
- Tuas Power Generation Pte Ltd
- Tuaspring Pte Ltd
- YTL PowerSeraya Pte Ltd

For the remaining power generation companies, the National Environment Agency (NEA), Keppel Seghers Tuas Waste-To-Energy Plant Pte Ltd and Senoko Waste-To-Energy Pte Ltd operate and sell electricity generated by their incineration plants. TP Utilities Pte Ltd generates electricity using mainly coal and biomass. ExxonMobil Asia Pacific Pte Ltd, Shell Eastern Petroleum Pte Ltd and Singapore Refinery Company Pte Ltd generate electricity with natural gas, mainly for their own use. TuasOne Pte Ltd commissioned an incineration plant which started generating electricity from October 2018.

As at December 2018, the total registered power generation capacity (excluding solar photovoltaics) was 13,492.7 MW (megawatt). As at September 2018, there was 183.4 MWp (megawatt-peak) of grid-connected photovoltaic capacity. The total amount of electricity produced in 2018 was 52,904.8 GWh (gigawatt-hour), while the peak demand was 7,370 MW.

52,904.8 gigawatt-hours of electricity was generated in 2018

EMA progressively opened the electricity retail market to competition since 2001. The liberalisation of the electricity market facilitates the supply of competitively-priced electricity and allows greater consumer choice.

The Open Electricity Market had a soft launch in April 2018, which allowed households and businesses in Jurong to buy electricity from an electricity retailer of their choice, with a price plan that best meets their needs. This initiative was later rolled out across Singapore by zones from 1 November 2018.

As at end December 2018, there were 31 licensed electricity retailers.

Piped Gas Industry

The gas industry in Singapore consists of two separate gas networks - the town gas network and the natural gas network.

The town gas network serves about 64% of households in Singapore and is used mainly for cooking and water heating. Total amount of town gas sold in 2018 was 1,764 million kilowatt-hours (kWh).

1,764 mil units of town gas was sold in 2018.

Natural gas is used mainly for power generation. In 2018, natural gas contributed to about 95% of the total electricity generated.

To diversify our energy sources and meet the rising demand for energy, Singapore imports Liquefied Natural Gas (LNG) from across the world. The LNG terminal on Jurong Island currently has a peak throughput capacity of 11 million tonnes per annum.

Waste Management

Singapore aspires to become a 'Zero Waste Nation' by reducing the consumption of materials, reusing and recycling them to give them a second lease of life.

With limited land resources available for waste disposal, the following strategies are adopted for solid waste management:

- Minimise or prevent waste at source, through reducing waste generation and promoting reuse;
- b) Segregate recyclables from general waste;
- Dispose of incinerable waste at waste-to-energy plants for volume reduction and energy recovery; and
- Minimise landfill demand. d)

4.63 mil tonnes of waste was recycled in 2018.

Waste disposed of in Singapore is broadly classified into two categories:

- i) Domestic waste: Collected from residential premises, markets, food retail outlets, schools and trade premises; and
- Non-domestic waste: Collected from commercial and industrial premises.

3.07 mil tonnes of waste was disposed in 2018.

Today, Singapore has in place an integrated solid waste management system. Waste that is not segregated at source for recycling is collected and sent to disposal facilities. Incinerable waste is disposed of safely at waste-to-energy plants, and ferrous and non-ferrous metals are recovered from incineration ash. The remaining ash residues and non-incinerable waste and are disposed of at the offshore Semakau Landfill.

Miscellaneous •

Fire Occurrences

The mission of the Singapore Civil Defence Force (SCDF) is to protect and save lives and property for a safe and secure Singapore. SCDF compiles data on fire occurrences.

3,885 fire occurrences in 2018.

Definitions

Residential buildings: Refer to all buildings, either permanent or temporary, used for residential purposes only, such as bungalows, private and public housing, semi-detached and terrace houses. They do not include boarding houses, hostels and hotels.

Non-residential buildings: Refer to all buildings, either permanent or temporary, used for other than residential purposes, such as commercial, industrial, social and communal.

Non-building structures: Refer to all properties or structures other than buildings, such as discarded materials, electrical cables, vegetation, vehicles and vessels.

Criminal Offences

Singapore's crime statistics are compiled from offences reported to the police during the reference period instead of the time the offences were actually committed.

Crime rate was **587** per 100,000 population in 2018.

Bankruptcy Applications, Orders Made and Discharges

A bankruptcy application is filed with the High Court by the creditor or the debtor himself.

Upon hearing the bankruptcy application, the High Court may make a bankruptcy order declaring the individual a bankrupt.

A bankruptcy discharge refers to the conclusion of the bankruptcy of an individual. The individual is no longer subject to the restrictions and disabilities of a bankrupt after his discharge.

Bankruptcy Statistics, 2018

1,656 bankruptcy orders made

4,027 bankruptcy discharges

PUB, Singapore's national water agency

Notes: Data on water prices are as at end of December of each year.

- 1 Water is charged by cubic metre (m³), which is equivalent to 1,000 litres. Excludes Goods and Services Tax.
- 2 For the calculation of total price, the Sanitary Appliance Fee is converted to its volumetric equivalent.
- 3 From 1 July 2017, the Sanitary Appliance Fee has been combined with the Waterborne Fee into a single, volume-based fee.
- 4 From 1 July 2017, there is a 10% Water Conservation Tax imposed on NEWater.

Sources: Liquefied Petroleum Gas Sales - Singapore Department of Statistics

Piped Gas Sales - City Gas Pte Ltd

Notes: One unit is equivalent to one kilowatt hour.

Piped Gas Tariffs - Annual data are the average of the monthly tariff from January to December of that year.

- 1 Excludes Goods and Services Tax.
 - Historical town gas tariffs are available from CityGas's Website (https://www.citygas.com.sg/useful-info/gas-tariffs/).
- 2 The minimum consumption is 1,000 kWh of gas per month.
- 3 The minimum consumption is 50,000 kWh of gas per month.

| Bankruptcy Discharges | 1,881 | 2,584 | 3,546 | 3,499 | 4,359 | 2,030 | 4,027 |

Source : Insolvency Office

¹ Refers to crimes which involve the taking of money or property by force or means of threat against the victims.

These include crimes where physical violence may not necessarily be involved e.g. cyber-extortion cases.

INFORMATION DISSEMINATION SERVICES

Statistics Singapore Website

The *Statistics Singapore Website* was launched by the Singapore Department of Statistics (DOS) in January 1995. Internet users can access the website by connecting to:

www.singstat.gov.sg

Key Singapore statistics and resources are available via the following sections:

What's New

Obtain latest data for key economic and social indicators, browse news releases by DOS and Research and Statistics Units (RSUs) of other public sector agencies.

Find Data

Choose from almost 50 topics to access the relevant statistics, press releases, infographics, charts, storyboards, videos and references.

Publications

Browse DOS's publications, papers and articles by topics. All publications are available for free access.

Advance Release Calendar

View dates of upcoming releases in the half-yearly ahead calendar.

The website also provides a convenient gateway to international statistical websites and resources:

IMF Dissemination Standards Bulletin Board

View metadata and latest data about Singapore's key indicators in the real, fiscal, financial and external sectors, including dissemination practices and information about pre-release access of current indicators.

International Statistics

Access international databases, websites of international bodies and national statistical offices.

International Classifications

Access quick links to international economic and social classifications.

SingStat Express

Subscribe to *SingStat Express* and receive email and SMS alerts (for local users) on the latest statistical releases of your choice. Details are available at www.singstat.gov.sg/whats-new/sign-up-for-alerts.

INFORMATION DISSEMINATION SERVICES

(cont'd)

SingStat Mobile App

The *SingStat Mobile App* provides users with on-the-go access to latest key Singapore official statistics and ASEAN statistics via their mobile devices. The app allows visualisation of data with over 200 charts of commonly used statistics from 28 data categories. Users can also opt to receive notifications on updates to their preferred indicators, organise data categories in the order of their preference, download tables or share charts via social media, perform computation for quick analyses and bookmark indicators for quick access. The app is available for downloading in iOS and Android devices. More information is available at www.singstat.gov.sg/our-services-and-tools/singstat-mobile-app.

SingStat Table Builder

The *SingStat Table Builder* contains data series from 60 public sector agencies providing a comprehensive statistical view of Singapore economic and socio-demographic characteristics. Users may create customised data tables, and export them in different file formats and download multiple tables at one go. APIs for commonly accessed tables are provided in JSON and CSV formats for ease of data retrieval. In addition, developer APIs are available for users to customise and use the parameters available to define queries. Explore data trends with this digital service at www.singstat.gov.sg/tablebuilder.

Really Simple Syndication

Really Simple Syndication (RSS) is an easy way to stay updated on the latest statistical news released by DOS. The SingStat RSS feed delivers statistical news highlights and hyperlinks to the source documents whenever the updates are posted. More information is available at www.singstat.gov.sg/whats-new/really-simple-syndication-rss.

E-survey

The *E-survey* enables business organisations to complete and submit their survey forms through the internet. Using secured encryption protocols, the E-survey ensures that the information transmitted through the net is secured and protected. The system features online helps and validation checks to assist respondents in completing their survey forms. With the E-survey, respondents do away with the tedious paper work and manual tasks of mailing or faxing their survey returns to DOS.

Statistical Enquiries and Feedback

If you have any statistical enquiries or feedback on our services, you are welcomed to:

E-mail us info@singstat.gov.sg

Fax to us (65) 6332-7689

Call us 1800-3238118* (local callers)
(65) 6332-7738 (overseas callers)

^{*} Calls from mobile telephone lines to 1800 local toll free number may be subject to mobile airtime charges as imposed by the relevant mobile service provider.

We appreciate your views on the Yearbook of Statistics. Kindly spend a few minutes of your time to answer the following questions, and return the form to the address provided below. Alternatively, you may complete the form online through

www.singstat.gov.sg/yearbook-readership-survey

| Question 1. How did you f | ind out about thi | s publication? | | | | | |
|---|--|----------------|---|---|--|--|--|
| SingStat Website | | Library | | | | | |
