INTRODUCTION

The object of the Abstract is to provide a selection of statistics, in one compact volume, on topics of interest. Most of the information in this Annual Abstract is published separately, by a number of official departments and other authoritative sources and is already in the public domain. Current data for many of the tables appearing in this Abstract are contained in other Reports published by the Statistics Office, such as the Tourist Survey, Hotel Occupancy Survey and Employment Survey.

Definitions and explanatory notes

The tables contain notes and definitions that are important to the proper interpretation and use of the statistics. The source of information is shown in relation to each table included in the Abstract.

Notes:

(i) This nationality split presents problems of accuracy. Some employers classify all their British employees, including Gibraltarians, under the Other British category and since no personal details are provided it is not possible to differentiate between the two categories. This would result in an understatement of the Gibraltarians in employment.

(ii) Employee jobs in the Public Sector include non-civil servant posts in Government Departments and direct employment by Government authorities, agencies and wholly-owned companies.

(iii) Occupations are classified according to the "UK Standard Occupational Classification 2000".

Note:

(i) It should be noted that there is a change in the reported figures prior to 2013 under Insurance Intermediaries and certain other licensee types. Previously the GFSC did not separately account for those entities that may have a life or non-life license issued alongside their primary license, such as a bank or company manager. Now such entities are counted twice, once as a Bank/Company Manager and once as an Insurance Intermediary.
