## Statistical Yearbook

2010

Price: MK 1000.00

## **PREFACE**

The Malawi Statistical Year Book 2010 is intended to provide a summary of the most recent statistical data available from official sources.

It includes key demographic, social and economic indicators, together with statistics on land tenure, climate, population, education, tourism, economic activities, construction, utilities, transport, posts and telecommunication, banking and finance, prices, external trade, balance of payments, national accounts, poverty, crime and child labour

Thanks are extended to all those who have contributed to the compilation of this twenty-ninth edition. The cooperation of various organisations in both the public and private sectors in supplying the required information is also gratefully acknowledged. Where data has been obtained from a source other than the National Statistical Office, this is given at the foot of each table.

Users should note that where statistics are shown by geographic region or district, ordering normally follows a north –south scheme. For users who are not familiar with the district boundaries of Malawi, a map is provided on page vi.

Users are encouraged to visit our web site on a regular basis, since it contains many recent data series. The address of the website is <http://www.nso.malawi.net>.
