

Where to find further information on execution of ECtHR judgments

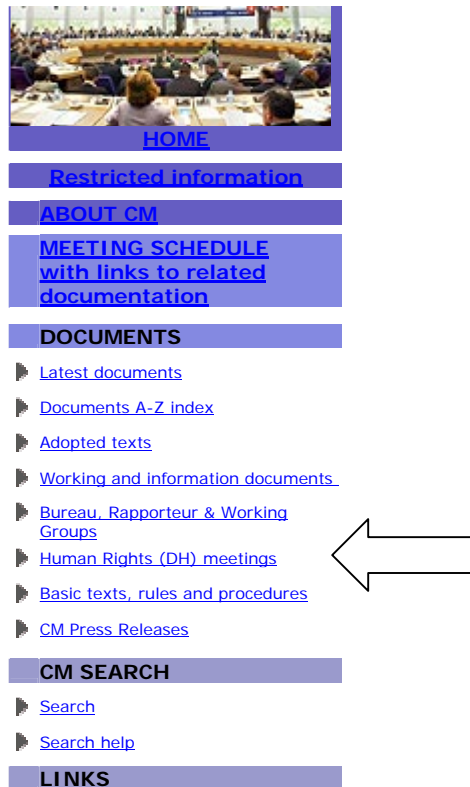

Further information on the cases mentioned in the Annual Report as well as on all other cases is available on

- the CM web site: <http://www.coe.int/cm/>, and also from
- the special Council of Europe web site dedicated to the execution of the ECtHR's judgments, kept by the Directorate General of Human Rights and Legal Affairs, Department for the Execution of Judgments of the ECtHR, at the following address: www.coe.int/execution.

The text of resolutions adopted by the CM can also be found through the HUDOC database on www.echr.coe.int.

As a general rule, information concerning the state of progress of the adoption of the execution measures required is published some fifteen days after each HR meeting, in the document called "annotated agenda and order of business" available on the CM's website: www.coe.int/t/CM/home_en.asp (see Article 14 of the new Rules for the application of Article 46, § 2, of the Convention adopted in 2006).

How to search information through the CM web site: click on the link to "Human Rights (DH) meetings" (see below):

From there, the "Links" section gives access the special Council of Europe web site dedicated to the execution of the ECtHR's judgments as well as the HUDOC database.

The CM website gives access to the relevant meeting documents either grouped by their respective meeting (click on [Human Rights \(DH\) meetings since January 2003](#)) or by type of document: agendas, orders of business, memoranda and information documents, information communicated to the CM, decisions, resolutions, interim resolutions, declarations, replies to the Parliamentary Assembly, recommendations, press releases. Further information on where to find different documents relating to the CM's execution supervision is found in the table below.

To find and consult	On the CM website http://www.coe.int/t/cm/humanRights_en.asp	On the Execution website http://www.coe.int/execution/	On the Hudoc database http://www.echr.coe.int/echr/
the latest public information on the state of execution of a pending case and the decisions adopted	<p>Consult the “Preliminary list of items for consideration” of the latest “CMDH” meetings and search for the case (Ctrl+F): this will allow you to identify the latest meeting at which the case was examined and the section under which the case was examined¹.</p> <p>You can then consult the agenda of the relevant meeting, where you will also find the decision adopted at the meeting (these can also be found separately under “Decisions”).</p>	<p>Consult under “Cases” the country by country “state of execution” or “cases executed” where you’ll find also the decisions and summary indications about <u>recent information</u> received since the last examination and not yet reflected in the notes, nor examined by the CM.</p> <p>Pending cases not appearing in the abovementioned document (clone cases or cases whose examination has in principle ended) can be found in the “List of pending cases” database, which indicates, inter alia, at what meeting and under what section the case is going to be examined as well as, where relevant, the name of the leading case.</p> <p>Consult “Payment control”, listing the cases for which the Secretariat has not received the written confirmation of payment of just satisfaction and/or default interest or for which the transmitted confirmation is still under examination.</p>	Not available
Final and Interim (execution) resolutions	<p>All Resolutions can be consulted in their <u>chronological order</u> of adoption under “Meetings of the CM” and then, for each meeting, “Resolutions”.</p> <p>“Interim resolutions” are also specially presented under “Adopted texts”.</p> <p>A link to the Hudoc database is also available.</p>	<p>Click on “Documents”. Under “Reference documents”, consult “Collection of Interim Resolutions adopted by the CM 1988-2008 (regularly updated).</p> <p><u>Extracts from the final resolutions</u>, i.e. the descriptions of significant individual and general measures taken in the context of the execution of ECHR cases, can also be found in the “Lists of General measures adopted...” and “List of Individual measures adopted...”. These documents (regularly updated) are also accessible from the “Reference documents” menu, under “Thematic files”.</p> <p>Links to the Hudoc database and to the relevant pages of the CM website are also available.</p>	<p>Click on “Resolutions”, on the left of the screen, and search the database by the application number and/or by the name of the case.</p> <p>For <u>grouped cases</u>, resolutions can more easily be found by their number: type in the “text” search field, the reference year and serial number of the resolution. Example: “(2007)75” (do not forget the quotation marks). The same search is possible by indicating the Resolution number– preferably preceded by the year of adoption between brackets – in the field « Resolution number».</p> <p>For more precision in the search, click on the “+” next to “Resolutions” to expand the list and select “Execution”: this will exclude the resolutions on the merits adopted under former Article 32 ECHR, in which the CM itself decided whether or not there was a violation of the ECHR.</p>

¹ See, as regards the description of sections, the introduction to the appendices of this document.

To find and consult	On the CM website http://www.coe.int/t/cm/humanRights_en.asp	On the Execution website http://www.coe.int/execution/	On the Hudoc database http://www.echr.coe.int/echr/
